Project Description

This project addresses the roadway flooding of Meridian Road at the intersection of John Hancock Drive, as well as allowing for the capture of sediment in the Lexington Tributary to Lake Jackson. The south conveyance from Lakeshore Estates will be improved and stabilized to address flow overtopping Lexington Road.

Proposed Improvements

Proposed improvements are:

1. Relocation of the Goodwill parking area;
2. Excavation of a sump area east of Meridian Road;
3. Excavation of a sump area west of Meridian Road;
4. Installation of three 5-foot by 10-foot box culverts under Meridian Road;
5. Installation of two 24-inch culverts under Meridian Road;
6. Installation of two 34-inch by 53-inch culverts under Lexington Road; and
7. Associated channel stabilization.
