Project Description

Property owners in the Woodville Rural Community will benefit from a partially state grant-funded septic-to-sewer conversion project. Leon County has been investing millions of dollars in the Primary Springs Protection Zone to help improve water quality by transitioning over a thousand septic tanks to central sewer.

Proposed Improvements

- Construction of a master pump station and associated force main to convey sanitary sewage to the City collection system;
- Construction of central sanitary sewer collection system
- Construction of secondary pump stations and associated force mains to convey sanitary sewage to the master pump station;
- Connection of residences and businesses to the central sanitary collection system;
- Abandonment of septic tanks.
