## Leon County Receives National Recognition

Leon County Government received national recognition from the National Association of Counties (NACo) in several different ways last month. Leon County District 4 Commissioner Bryan Desloge was elected as 2nd Vice President of NACo during the 79th Annual Conference and Exposition. Desloge will serve as 2nd Vice President for a year, before ascending to 1st Vice President the following year and then taking over as President of the association in July 2016.

Also, Leon County was recognized with seven Achievement Awards for successful public service programs, as well as a Digital Counties Survey Award for website transparency. NACo's awards recognize how Leon County provides the most cost-effective, high-quality service to citizens. These national awards highlight the successes of Leon County Government despite a downturn in the economy. Leon County remains committed to strengthening what works, abandoning what does not, receiving citizen feedback, leveraging partnerships and listening to changing needs.

The National Association of Counties (NACo) is the only national organization that represents county governments in the United States. Founded in 1935, NACo assists America's 3,069 counties in pursuing excellence in public service to produce healthy, vibrant, safe and resilient counties.

## LAFAYETTE STREET ROADWAY SOON TO OPEN EAST OF MAGNOLIA

Nobody likes road detours and the inconvenience of roadway construction, but we all understand construction is a necessary part of making our community a better place to live, work and play. And while Leon County Government is making significant improvements to Lafayette Street, we want to make sure that our community remembers the businesses impacted by the construction activity.

### CONSTRUCTION UPDATE

The Lafayette Street roadway west of Magnolia Drive is now open all the way to Cascades Park. Businesses, residents, and shoppers can now enjoy a newly constructed road with sidewalks. Lafayette Street east of Magnolia Drive will be open to traffic by the end of August.

Thank you for your patience while construction continues.
