

DEPUTY COUNTY ADMINISTRATOR

PEOPLE FOCUSED

As part of the County Administrator's reorganization, Deputy County Administrator Alan Rosenzweig now oversees a majority of County functions. This reorganization was done in order to sustain a culture of performance and community relevance as well as to realize the full capacity of the County's resources.

Rosenzweig has more than 21 years of experience working in local government and has worked for Leon County for 11 years. He holds a bachelor's degree in Economics from Eckerd College and a master's degree in Governmental Administration from the Fels Center of Government at the University of Pennsylvania.

Prior to joining Leon County, Rosenzweig was the Budget Manager for Pinellas County and worked in the budget office in Sarasota County. He began his professional career as a Senior Consultant with Booz, Allen & Hamilton in Washington, D.C., and has taught as an adjunct professor at Florida State University and for the Florida Association of Counties (FAC) County Commissioner certification program.

PERFORMANCE DRIVEN

SERVING THE PUBLIC INTERESTS OF LEON COUNTY CITIZENS

The Deputy County Administrator manages several department and offices within the County; the Office of Economic and Business Partnerships, the Office of Human Services and Community Partnerships, the Office of Resource Stewardship, the Office of Financial Stewardship, the Office of Public Services, as well as coordinates closely with the Department of Public Works and Community Development. The following achievements were made during FY 2010/2011:

- Earned the Government Finance Officers Association Distinguished Budget Presentation Award for the 21st year in a row.
- Led the management review of Blueprint 2000. Leon County Office of Management and Budget and the City of Tallahassee Office of Budget and Policy completed a joint management review on BP2000 which identified an opportunity to integrate the management of BP2000 and realign the reporting of the Executive Director to the Planning Director. This resulted in the reorganization of the Planning Department and BP2000 into the Department of PLACE.
- Coordinated the design and construction of library expansions at the B.L. Perry and Northeast Branches, as well as the new Eastside, Woodville and Lake Jackson libraries.
- Coordinated the design and pre-construction activities associated with the new Public Safety Complex, which will be a joint-use facility for emergency response functions, the consolidated Emergency Communications Center, the Regional Transportation – Management Center, Emergency Medical Services (EMS) and administrative offices for the Fire Department and Emergency Operations Center.
- Led the competitive bidding process for 15 County projects resulting in \$480,403 savings for Leon County. This savings is projected on the difference between award value and the average of all other vendor bids on contracts valued at \$3,254,440, a savings of 14.76%.
- Coordinated the amendment of the Animal Control Ordinance. This past year the County had several community meetings with residents in order to work together to amend the County ordinance on animal control. The collaboration effort resulted in providing clarification in a number of areas thereby reducing confusion for citizens and pet-owners.
- Implemented numerous changes in work processes within Fleet Management to promote efficiency and enabling staff to better manage resources, such as the ability to track and monitor the County's fuel consumption ultimately saving the County money.
- Developed the Drug and Alcohol Testing Program in order to ensure proper quality control. This year the DAT Program introduced a more advanced cost effective form of alcohol testing known as Ethylglucuronide (ETG) testing. DAT performs more than 700 alcohol tests and more than 900 drug tests each month.
- Awarded a joint City/County contract for debris monitoring services. This contract makes certain that the County is equipped and prepared to begin clean-up as soon as possible after a major disaster.
- Continued support of Bond Community Health Center and Neighborhood Health Services with over \$1.5 million in primary health care funding. There were 11,400 primary care visits and coordination of specialty care to uninsured patients with limited income.
