Project Description

Property owners in the Idlewild and Yon's Lakeside subdivisions near Lake Munson will benefit from a partially state grant-funded septic-to-sewer conversion project. Leon County has been investing millions of dollars in the Primary Springs Protection Zone to help improve water quality by transitioning hundreds of septic tanks to central sewer.

Project Website

Proposed Improvements

Construction of central sanitary sewer collection system;

Construction of pump station with associated force mains to convey sanitary sewage to the City of Tallahassee collection system;

Commercial and residential connection to the central collection system;

Abandonment of existing septic tanks.
