To Whom It May Concern,

This is my written objection to the non-ad valorem assessments for stormwater utility services, etc. and the solid waste disposal system for parcel number 1215200220022. We are already suffering and struggling to paying many taxes and assessments while trying to provide for our families. The people in this area are subjected to poverty, robbery, murder, substandard conditions ...; why subject us to additional stressors?

Why can't you find somewhere else to get the money that you want other than taxing the already struggling poor? I object to getting it from me as the property owner at 2904 Garfield St., Tallahassee, FL 32301.

Sincerely,

Claire Anthony Davis
