The Saffir-Simpson scale is a widely recognized and accepted practical tool planners rely on to estimate the destructive forces associated with hurricanes. This scale classifies hurricanes into five categories based on wind speed, and describes the destructive forces caused by wind, storm surge, and wave action for each category. Hurricanes or typhoons reaching Category 3 and higher are considered major hurricanes because of their potential for loss of life and damage. Category 1 and 2 storms are still very dangerous and warrant preventative measures.

National Weather Service Warnings
The National Weather Service is responsible for issuing warnings of hurricanes and tropical storms that approach the U.S. mainland. As soon as there are definite indications that a hurricane or a tropical storm is forming, the storm is given a name and the National Weather Service begins issuing “advisories.” The advisories are issued frequently throughout the day and night and tell where the storm is, how intense it is, and its speed and direction of movement. If the hurricane moves toward the mainland, hurricane “watch” notices are included in the advisories and storm and hurricane warnings are issued. In addition, “bulletins” for press, radio, and television are issued at frequent intervals to keep the public informed of the progress of the storm.

_ **Hurricane / Tropical Storm Watch:** Hurricane / Tropical storm conditions are possible in the specified area of the **Watch**, usually within 36 hours.
_ **Hurricane / Tropical Storm Warning:** Hurricane / Tropical storm conditions are expected in the specified area of the **Warning**, usually within 24 hours.

_ Short Term Watches and Warnings: These warnings provide detailed information on specific hurricane threats, such as floods and tornadoes.
_ Flood Watch: This product informs the public and cooperating agencies of possible flooding.
_ Flood / Flash Flood Warning: A flood / flash flood **Warning** is issued for specific communities, streams or areas where flooding is imminent or in progress. Persons in the warning area should take precautions **IMMEDIATELY!**

Saffir-Simpson Hurricane Scale

Scale Number (Category)	**Sustained Winds (mph)**	**Types of Damage**
1	74-95	**Minimal:** Damage primarily to shrubbery, trees, foliage and unanchored mobile homes. No real damage to other structures. Storm surge 4-5 ft. Coastal roads flooded. *(Hurricane Irene, 1999)*
2	96-110	**Moderate:** Some trees blown down. Major damage to exposed mobile homes. Some damage to roofing materials, windows and doors. Storm surge 6-8 ft. Up to 12 ft waves. *(Hurricanes Georges, 1998 / Floyd, 1999)*
3	111-130	**Extensive:** Large trees blown down. Mobile homes destroyed. Some structural damage to roofing materials of buildings. Some structural damage to small buildings. Storm surge 9-12 ft. Flooding can occur up to 10 miles inland. Up to 18 ft. waves. *(Hurricanes Betsy, 1965 /*

		Alicia, 1983)
4	131-155	**Extreme:** Trees blown down. Complete destruction of mobile homes. Extensive damage to roofing materials, windows and doors. Complete failure of roofs on many small residences. Storm surge 13-18 ft. Flooding to 10 ft above sea level up to 30 miles inland. Up to 25 ft waves. *(Hurricane Andrew, 1992)*
5	>155	**Catastrophic:** Complete failure of roofs on many residences and industrial buildings. Extensive damage to windows and doors. Some complete building failure. Storm surge over 18 ft Flooding to 10 feet above sea level up to 30 miles inland. *(Hurricane Camille 1969)*

EMS Operations

In the event a hurricane is expected to hit this area, all off-duty personnel are encouraged to take the necessary precautions to protect their families and property as quickly as possible. EMS personnel are essential employees and are required to report to duty, if recalled, during an emergency such as a hurricane. No leaves will be granted at this time. Any employee using sick leave must be under the care of a physician. Only the EMS Chief or Deputy Chief's may declare a change in the OPCON level for the EMS Department.

Preseason Preparations: Start on April 1st of each year - OPCON 1

All command staff will become familiar with target occupancies in Leon County by conducting preseason surveys. Target occupancies are those with a high probability of trapped victims following a hurricane. Target occupancies may also include buildings

susceptible to structural failure or occupancies that store a large amount of hazardous materials. Also, each facility listed in the Appendix Section that agreed to house EMS personnel as a last area of refuge, or to store EMS apparatus in the event of a storm, must be contacted to make sure that all agreements are still valid. Any changes and all confirmations must be forwarded to headquarters by **no later than May 1st** of each year. Before June 1st of each year the department will have a practice recall of manpower called Operation Activate to ensure that all personnel information is up to date. The Deputy Chief of Operations will consult with all local hospitals to determine if they will need any assistance during a hurricane. All Command Staff need to familiarize themselves with the topography of Leon County to become aware of low-lying areas that are prone to flooding. If help from outside agencies is needed, the pre-determined staging areas will be as follows:

LCEMS Headquarters
Leon County Sheriff's Office

Hurricane Enters the Gulf of Mexico – OPCON 2

_ Chief or designee will contact the Director of the Leon County Sheriff's Office Division of Emergency Management to obtain a situation status report. All information will be forwarded to the Deputy County Administrator
_ Notify all LCEMS Administrative staff
_ Have dispatch/Captain place all LCEMS staff on alert for recall (Operation Activate)
_ All personnel should regularly call the EMS Announcement line at 850-606-2105 to keep up with agency announcements regarding the storm and disaster preparations
_ All personnel are encouraged to monitor weather/news reports
__ Review Leon County EMS Emergency Operations Plan
__ A formal staff meeting will be held for each operational period or Watch / Warning Bulletin issued by the National Weather Service
__ An inventory shall be taken of all equipment and the apparatus shall be double checked to insure their readiness (flashlights, spare batteries, etc.on each vehicle)
_ Check stock of supplies and linen and place order for immediate delivery of needed supplies and linen
_Charge all spare batteries for portable suction devices, LP12's, portable radios
_ Coordinate acquisition of extra oxygen cylinders
_ Contact LCSO-DEM to arrange for possible mutual aid
_ Contact the amateur radio operators to confirm their support at EMS Headquarters
_ Logistics will pick up all re-useable equipment at the hospitals on a regular basis
_ Consider the need for water and food for field staff
_ Vehicle repair shops will be contacted and priority repairs of the vehicles will be requested
__ Check that all emergency generators are in working order
__ All apparatus fuel tanks should be topped off
__ Check that all electronic equipment at Headquarters(computer, fax, phone, radio, etc.) can be quickly disconnected and safely stored in the event of an evacuation

_ All members should take steps to secure their family and property in preparation for reporting for duty
_ Command Staff should begin maintaining an event file in-station, maintaining a copy of e-mails, phone messages, etc., related to the incident.
_ Command Staff should initiate the Disaster Checklist (Appendix A)
_Special Operations personnel should initiate conditional readiness test for all response equipment

HURRICANE WATCH: Hurricane becomes a threat to Leon County within 36 hours – OPCON 2

_ Top off station fuel tanks, apparatus, including spares, staff vehicles, chain saws, generators, power units, portable pumps, etc.
_ Test and assure that all power equipment is operational; i.e. chainsaws, portable pumps, generators, etc.
_ Secure all loose items around the exterior of stations; i.e. wash out hose, garbage cans, chairs, anything that can become a projectile in high wind
_ Assure that all First Responder supplies are up to normal operating level
_ Reconfirm with all Areas of Last Refuge

HURRICANE WARNING: Hurricane is expected to hit Leon County within 24 hours – OPCON 2

_ Chief or Deputy Chief should consider Command Staff meeting to discuss disaster plans and operations
_ In the event of a fast-moving hurricane, on-duty personnel may take a reasonable period of time, in a coordinated and orderly method, to get their families and homes prepared for the hurricane. This shall be done in such a way as to not interferewith the operations of the department. ***Note: The safest procedure for families is evacuation.***
_ All batteries are to be charged; i.e. radios, cardiac monitors, suctions, etc.
_ All personnel are encouraged to move personal vehicles to higher ground.
_ Off duty personnel are to monitor local media in case a recall of manpower is announced. TeleStaff and IRIS will be utilized to send out recall announcements. See Operation Activate.
_ All personnel should regularly call the EMS Announcement line at 850-606-2105 to keep up with agency announcements regarding the storm and disaster preparations
_ There will be a dedicated telephone line at headquarters for members to call for instructions and information at 850-606-2105
_ All members who have been recalled and will be reporting for duty should bring the following items:
3 sets of uniforms, and 1 set of protective gear
5 each - pairs of socks, undershirts, and underwear
1 extra pair of shoes

3 Bath towels
Toilet articles for a 3-day stay
Toothbrush and toothpaste
Deodorant
Soap
Shampoo
Razor and shaving cream
Mosquito repellent
3-day supply of food that will not require refrigeration or cooking; i.e., can goods
3 gallons of water
Sleeping bag, pillow, and other needed sleeping materials
Cot or camp chair if available
Flashlight and batteries
_ Unused and spare SUVs shall be placed at headquarters to be used as "Scout Teams" after the storm—See Post Hurricane

HURRICANE WARNING: Hurricane is expected to hit Leon County within 12 hours – OPCON 3

_ Initiate operational and planning meetings of Command Staff
_Begin situational status reporting
_
_ Consider beginning Operation Activate
_ Dispatch to contact Leon County air ambulance provider to verify aircraft relocation site and expected return to duty time
_ Assign a LCEMS representative to serve as liaison at the Leon County EOC located at the Leon County Sheriff's Office
_Distribute severe weather safety reminders to crews
_ Move all radio and computer equipment possible to a safe area.
_ Move all critical files to a safe area if necessary
_
_ Move as many ambulances and Special Operations vehicles into bays at EMS Operations as possible.
_ Prepare to have crews stage at the EMS Operations and main Public Safety Complex Building.
_ Prepare for radio backup procedures with crews. Test backup channels and phones
_ At the recommendation of the EMS Chief or his designee, the Medical Director, at his discretion, may issue an Open Protocol Order. The EMS Chief or his designee will transmit an Open Protocol Order to all personnel. Issuance of an Open Protocol Order will allow currently certified providers operating under general supervision of the Medical Director of Leon County to perform medical techniques to the highest certified medical trained level as outlined by the Leon County EMS Medical Protocol Manual without prior Medical Control permission. This order does not allow for deviation from the Protocol Manual, only the relaxation of contacting medical control prior to performing authorized medical techniques.

_ The decision to alter the normal response matrix will be made by the Chief or Deputy Chief. Safety considerations to be taken into account should include, but not be limited to:
1) Excessive winds
2) High water
3) Civil disturbances
4) Roadway debris
5) Visibility deterioration
6) Extremely hazardous driving conditions
7) Chemical/radiation/bio-hazards

County Begins to Feel Storm Effects – OPCON 4

_ During such times as actual hurricane conditions exist, every attempt will be made by the EMS Department to continue its primary mission of protecting the lives of the citizens of Leon County. It should be remembered that EMS personnel are subject to the same limitations as are members of the public. All attempts to deliver Emergency Medical and Rescue Service to the public during hurricane conditions should be tempered by safety.
_ No members shall ride alone during the event; All Command Staff will select a member to act as aide as needed.
_ All personnel are to wear full protective gear, including helmet, for all responses to protect from flying debris
_ A Command Staff person shall report to Dispatch. Once responses stop due to weather conditions, the Command Staff person shall assist dispatch in prioritizing calls for when weather conditions permit responses to resume
_ Command Staff are to use their discretion when responding—keeping in mind that the safety of LCEMS personnel is of the utmost priority
_EMS crews that encounter high water while responding are to notify dispatch and other responding agencies
_ Six inches of moving water can knock you off your feet—use a pole or stick to make sure that the ground is still there before you walk through an area of standing water
_ Use extreme caution when driving through deep water—the road could be washed out
_ Because of the hazard of falling tree branches, helmets will be worn at all times
_ Notify dispatch of any hazardous conditions
_ **Carbon Monoxide Exhaust Kills**—if a gasoline powered generator is used to supply electricity to headquarters and other buildings. It must be placed outside and elevated while taking care that the exhaust is ventilated to the outside air; **DO NOT PLACE GENERATORS ON THE BAY FLOOR**
_ EMS will discontinue response to medical calls when **sustained** wind speeds reach **55 MP** or when a joint decision at the Emergency Operations Center has been made in conjunction with all response agencies. The Chief of EMS or a Deputy Chief will make the determination when to discontinue response and when to resume response based on safety of personnel.
Any Command Staff officer who feels that situations encountered are sufficiently dangerous to personnel at his/her location may choose to cease operations and return to quarters, but

must advise dispatch. In order to provide EMS protection to the citizens of Leon County until the last possible moment, when storm conditions dictate that operations cease, the administration realizes that some apparatus will be left vulnerable to the storm effects and may be possibly damaged or lost. This is a conscious decision and calculated risk that the county must take. If the evacuation of stations becomes necessary, either by orders of the administration or the discretion of the Command Staff, EMS crews are to report to their respective Area of Last Refuge listed in the Appendix Section. The Chief or Deputy Chief's may at any time decide to pull all units into the Area of Last Refuge when conditions become unsafe. County EMS units may be brought in to headquarters until such time as it is safe to respond out. County EMS units will not return to their base station until it has been determined that the station is safe for habitation and has adequate power and water to sustain operations.

_ When the announcement to cease response for hazardous wind conditions is made, units en route to or on the scene of an emergency shall continue their work until completed. If out of station and not on a call, units shall report back to headquarters as soon as possible.

_ When responses cease, due to wind conditions, all apparatus will be driven "head first" into the stations causing the rear of the apparatus to be facing outwards, thus protecting the windshields.

_ The determination for resuming responses will be made by the Command Staff, in consultation with the EOC.

Hurricane Eye Operations

Operations during the eye of the hurricane should be concerned primarily with re-securing headquarters and apparatus. Assist citizens who come to headquarters when it would be a danger to release them. No EMS crews will be dispatched during the eye of the hurricane. All such activities during the hurricane eye shall be undertaken only if such operations can be completed in a safe manner. Remember, even though the skies appear clear, storm conditions will return suddenly. The safety of department personnel will remain the primary consideration during these operations. In all cases, Hurricane Eye Operations should be coordinated through dispatch and Command Staff.

Post Hurricane Operations – OPCON 5
Before Resuming Operations

_ Once the event has passed, Command staff will initiate a personnel roll call. On duty Command Staff must account for all personnel on duty

_ Designated officers and crew are to conduct a "snapshot" survey to give Command Staff an assessment of the following:

Personnel – Is everyone OK? Do you need medical assistance?
Equipment – Are the apparatus operational? Can they be dispatched?
Facilities – Can you operate out of the station? Do you need significant repairs?

_ Use a scale of 1-5 with 5 being the most severe (example: building collapse, a 5) and notify dispatch and Command Staff. Station Damage Survey forms— found in Appendix 9—must be filled out and forwarded as soon as conditions permit Command Staff are to

conduct a “Windshield Survey” of the general situation regarding hospitals and response. This provides information on the condition of high life hazard occupancies, status of major transportation arteries, response routes, and resource needs (i.e., structure collapse, fires, hospital status, petro-chemical/tank farms). Command Staff shall:
_ Conduct Windshield Survey with lights and sirens. Remember, this is a quick and rapid damage survey.
_ Immediately report survey information to their Deputy Chief and dispatch
_ Interrupt a Windshield Survey only to respond to an immediate life-threatening incident.
_ Assume command of life-threatening incident and provide a status report to dispatch and the Deputy Chief.
_ Upon completion of the incident, report the unit’s status to dispatch and resume the Windshield Survey.
_ Report potential life-threatening incidents encountered during the Windshield Survey to dispatch. These reports shall be made while continuing the survey.
_ If a Command Staff officer reports that they are unable to complete the Windshield survey, the Deputy Chief shall assign resources as needed to complete the survey Response Area Damage Survey forms found in Appendix 9 are to be filled out for each occupancy. Stations that have a spare car assigned to them will not use the apparatus for this purpose. Two members will be assigned to the car and it will go in service as a
“Scout Team.” This “Scout Team” will conduct the Windshield Survey and also be on the lookout for any hazardous conditions (building fires, structure collapse, etc.) that may exist. Any hazardous conditions found are to be reported to dispatch.

Resuming Operations – OPCON 5

_ The Chief or his designee shall make the determination when the division can resume response operations. This will happen when sustained wind speeds fall below 55
Mph or the response group at the Emergency Operations feels that resuming response operations is safe. This decision will then be announced by dispatch as a Resume Response order. The Command Staff who believe it is safe to resume operations prior to this announcement shall contact dispatch and state the conditions at their location and their need to begin operations after coordination with the EOC. They will be authorized to respond only upon approval from Command Staff through dispatch. If unable to contact dispatch, the decision to approve such operations will rest with the deputy chief. If unable to contact the deputy chief, the decision will be the responsibility of the Captain on duty. Activities shall be undertaken only if such operations can be completed in a safe manner. Remember that downed trees and electrical lines may impede response and may need to be cleared before emergency response can be made to many areas. ESM crews may need to work in Rescue Task Forces in conjunction with law enforcement, fire, public works, electric utilities, and others to effect an adequate response.
_ It may be necessary for EMS units to dispatch themselves due to lack of communications with other stations or dispatch. This should be done based upon the deputy chief or on duty Captain’s assessment of the situation at the time. With the
exception of providing life-saving assistance, a search will be conducted as soon as possible

of the predetermined target occupancies (hospitals, shelters, nursing homes, etc.). Remember, this most likely will be a multi-incident event.
_ Personnel conducting emergency operations must realize that their own safety and well-being is their first priority. Many hazards will be encountered during the first 72 hours after a hurricane. These include (but are not limited to):
live wires down
natural gas leaks
building fires
unsafe structures
flooding
hazardous material incidents
traumatized animals
heat stress
downed trees
_ Every attempt should be made to report these hazards, if it can be done safely. As with other incidents, personnel should utilize all safety equipment available, work in teams, and keep themselves well hydrated.
_ Chain saw injuries to personnel after a hurricane skyrocket. Employees trying to cut downed trees to clear a path can be injured by saw kickback and the pinching of the saw. All employees are encouraged to exercise extreme caution when using chain saws. All employees must have attended a County chain saw safety class before using a chain saw on duty.
_ All members are to be properly relieved—one for one
_ Collect damage assessments
_ Consider the need for Critical Incident Stress Debriefing
If applicable, terminate Open Protocol Order
_ Begin demobilizing personnel as appropriate
_ Chief or Deputy Chief will determine when LCEMS will return to normal operations – OPCON 1
_ Begin after action reporting

Emergency Operations Center Activation

Upon activation of the EOC an EMS staff member will be assigned to represent EMS in the EOC. Preferably this will be a Lieutenant or higher ranked member of EMS. The member that has been selected should be familiar with these protocols and understand their role in the event of a disaster including Unified Command. Staff members should be pre-qualified to fill the EOC position. Qualified staff members should have completed NIMS, NRP, ICS 100 and ICS 200 training. Staff members should also complete ICS 300 and 400 training and FEMA EOC training if possible. The ideal shift rotation will be 12 hours on and 12 hours off in the EOC. A minimum of 4 individuals should be identified as possible EOC EMS representatives to cover ongoing shifts in an extended event. Ideally more personnel should be identified for emergencies and illness as needed.

Upon being identified as an EOC EMS representative, the staff member should gather the list of suggested equipment listed later in this document and become familiar with the protocols and procedures in the EMS Emergency Operations Plan. Most of the items listed in the equipment list will be put into a "go kit" that will be available in each command staff vehicle and at headquarters. The staff member should respond as soon as possible to the EOC to begin their shift. A standard EMS uniform is required. Shift changes and scheduling will generally be done at 7 am and 7 pm unless specified otherwise and approved by the Chief or a Deputy Chief. Once the EOC is manned by an EMS staff member, the post should not be left vacant until the Chief or a Deputy Chief has determined that the operation has ended or that EMS no longer needs to be represented.

Upon arrival at the EOC, park in the parking lot outside the Public Safety Complex and proceed with all equipment to the EOC. Remember you will be in a secure facility and no weapons of any type are authorized except for law enforcement personnel. You will be directed to the EMS chair with a specific phone line and area. Our area usually includes others from the responder community such as law enforcement and fire. Duties and responsibilities at the EOC are listed later in this document. Be sure to check in with the EOC manager on duty and see if there are any special instructions or messages. Meals are provided for all EOC staff. There are usually sufficient beverages and snacks available.

Equipment List

The usual shift at the EOC should be no more than 12 hours; however with unforeseen circumstances in a disaster situation, it is possible that the EOC could be manned for several days without relief. The following list is required and suggested items to make you more comfortable during your EOC shift.

1) EMS uniforms (at least three changes of clothing)
2) EMS jacket or rain jacket
3) EMS ID badge
4) EMS radio with spare battery and charger
5) EMS laptop computer with cables and power cords
6) EMS cell phone with charger
7) Notebook or paper with pens
8) Stapler, paper clips, office supplies
9) EMS Emergency Operations Center Plan
10) EMS MCI Plan
11) EMS phone list
12) County and State Resource Phone list
13) EMS SOG's
14) County Emergency Management plan
15) EMS COOP
16) Personal medications
17) Extra food and snacks *
18) Pillow *
19) Blanket *

20) Entertainment (music, games, book, etc.) *
21) Flashlight with batteries *
22) First Aid Kit *
* Optional items

Duties and Responsibilities
This list of duties and responsibilities is not all inclusive and can change as needs change. Sometimes under the Unified Command structure you may be asked to perform tasks that are not directly related to your usual function. These tasks may be essential and are acceptable as long as they do not interfere with our primary mission in the EOC. If additional tasks seem to be unacceptable for any reason, contact the Chief or a Deputy Chief for direction.

1) Coordination of EMS resources through the EOC
2) Liaison with other EOC agencies
3) Coordination with dispatch on system plan and individual responses
4) Coordinate safety of EMS personnel in a disaster event
5) Coordinate with EMS administration on operations
6) EMS point of contact for all EOC issues
7) Document requests and decisions made by you in the EOC in writing
8) Participate in regularly scheduled conference calls in the EOC
9) Regularly notify EMS administration of progress and issues in the EOC
10) Access CAD on the laptop to monitor system operations

Recall of Manpower
Operation Activate

The Order for Operation Activate shall come from the Chief or Deputy Chief. Upon receipt of Operation Activate orders, EMS dispatch shall announce to all personnel over the radio that an Operation Activation has been called. Operation Activation will also be announced through TeleStaff, IRIS and by pager.

EMS Crews
Upon the sounding of signal Operation Activate, all EMS personnel below the rank of Lieutenant assigned to the current on duty shift (Alpha or Bravo), shall remain on duty until the next shift change time which will be either 7 am or 7 pm. The other shift (Alpha or Bravo) shall report to headquarters at the next shift change. Shift patterns will begin 12 hours on and 12 hours off until the hazard has been declared over by the Chief. Annual leaves or vacations will be cancelled. Members on Light Duty may be recalled to assist in dispatch or as aides to Command Staff. All members are to bring at least a three-day supply of personal items— medicine, toiletries, change of clothes, etc.—with them when reporting during Operation Activate. (See page 5 for complete list of items) This schedule will be kept until conditions permit returning to a normal schedule.

Deputy Chiefs

Deputy Chief's who are on duty at the time Operation Activate is sounded shall remain on duty in charge of one shift. The other Deputy Chief will be assigned to work on the opposing shift until conditions permit returning to a normal schedule.

Majors
Majors shall be assigned by a Deputy Chief to specific duties as needed and will also begin 12 hours shift patterns.

Captains and Lieutenants
Captains and Lieutenants who are on duty at the time Operation Activate is sounded shall remain on duty in charge of their respective shifts. (A or B). They shall attempt to contact by pager, TeleStaff, or phone, a minimum of three attempts, all members of all shifts to advise them of when to report to work. The Captain shall record the time any member reports for duty and complete a Hurricane Overtime Report—see Appendix 9. The Captain shall report to the Deputy Chief, those members who have reported back to duty as well as the on duty personnel. During Operation Activate, members shall rotate working twelve-hour shifts. As soon as the division reverts to a normal schedule, Captain's will forward to headquarters a completed Hurricane Overtime Report for all members of their respective shifts.

EMERGENCY MEDICAL SERVICE FUNCTIONAL ANNEX

COLD WEATHER / SNOW AND ICE

1. Information concerning potential cold weather/snow/ice may be received from various sources including radio, television, and weather service, etc.

2. Upon receipt of information related to cold weather (temperatures below 32 degrees F):

A. Dispatch will collect all available data and monitor the situation.
B. Dispatch will notify the Shift Supervisor.
C. The Shift Supervisor will have Logistics prepare all EMS vehicles for cold weather operations to include checking coolant levels, other fluid levels and fuel levels. The Captain will assure proper functioning of vehicular heaters. Repairs are to be completed as necessary:

i. Plug in space heaters in each out of service vehicle to prevent fluid/medications freezing.

ii. County stations will plug in their space heaters when not on calls. EMS crews are required to frequently monitor the temperature of the unit, fluids and medications to prevent freezing.

iii. System status trucks will keep their module heater on and will monitor the temperature of the unit, fluids and medications to prevent freezing.

iv. Utilize IV warmers as needed for fluids.

3. Upon receipt of notification involving severe cold weather related problems such as temperature into the teen's, snow and ice on the roads, etc, the Shift Supervisor will:

A. Notify the Deputy Chiefs and Chief.
B. Assure compliance with all items in number 2.
C. Check all LCEMS vehicle tire conditions for excess wear. Tires with excess tread wear are to be replaced.
D. Locate extension cords for each station and have EMS crews plug in the diesel engine heaters when not on calls.
E. Decrease emergency and non-emergency EMS vehicular traffic as much as is possible.
F. Have the most experienced drivers operate the vehicles.
G. Review precautionary driving practices with each crew member (i.e., slower speeds, ice on bridge. etc.).
H. If the Bixler Emergency Center entrance ramp ice's over, dispatch is to instruct local and regional EMS crews of the situation and direct them to off load patients under the Bixler Center until the ramp can be rendered safe for use. Contact TMH Plant

Engineering to request that sand be spread on the ramp. Work with TMH Security and Plant Engineering to block the Bixler Center ambulance ramp until the ramp is safe to use.

EMERGENCY MEDICAL SERVICE FUNCTIONAL ANNEX

EMS/WMD REGIONAL RESPONSE TEAM ANNEX

1. PURPOSE:

As a regional EMS/WMD recipient/service provider, LCEMS is charged with assembling and maintaining equipment and supplies necessary to support the team mission.

When activated by the Florida Department of Health (DOH) Office of Emergency Operations and the Bureau of EMS, the LCEMS/WMD Regional Team will provide medical care personnel to assist state and local health officials in providing for ill or injured victims at the site of major disasters or emergencies.

2. ACTIVATION:

Requests for EMS/WMD assistance must come through State or local emergency management officials to the State warning Point. The State Warning Point then contacts the State Health and Medical Duty Officer who will process the request through the State Emergency Operations Center (SEOC). The LCEMS/WMD assets can be requested by the CEOC for planned events that may be a target of a terrorist attack, after a Nuclear/Biological/Chemical (NBC) event has occurred or thought to have occurred, or when the Federal Bureau of Investigation (FBI) or Florida Department of Law Enforcement (FDLE) determines a credible threat exists.

3. CAPABILITIES:

The LCEMS/WMD Team is equipped and trained to perform the following specific functions:

- Assist in providing medical care to decontaminated victims
- Provide technical assistance to local EMS
- Assist in triage and medical care of NBC events after decon
- Provide technical assistance, decon and medical care at a medical facility
- Assist in providing medical care to first responders on site
- Assist in providing conventional medical care to victims of a non-NBC event

4. PERSONAL EQUIPMENT LIST FOR EMS/WMD REGIONAL RESPONSE TEAM

The LCEMS/WMD Regional Response Team personnel should be prepared to respond to a mission within two (2) hours of alert and for up to three (3) days or at least until initial disaster recovery efforts have ensured adequate support for its operations. Since team members may not find adequate food, shelter, or water available initially at the site, and the Logistic Staging Area (LSA) may not become operational until well into the response, team members must bring personal food and water for the first twenty four (24) hours. Additionally, each team member must have a personal kit of not more that 50 lbs, sufficient to enable the team member to live and

work in the austere conditions. This should include appropriate clothing for the environment, personal protective equipment (PPE), personal hygiene items, medications, and protective items such as sunscreen and insect repellent. It should be contained in one or two packs at most. It is advantageous to have a large type backpack and a small pack for personal necessities to remain with the team member at all times.

The following is suggested minimum inventory of personal gear and equipment necessary for regional LCEMS/WMD team members to maintain appearance, hygiene, and comfort for the duration of their assignment. This list may be modified by the team management to fit the response. Team members should adjust this minimum inventory based on specific requirements of the assignment.

- Uniforms
- Under clothes
- Light jacket
- Heavy jacket (cold weather)
- Gloves
- Rain gear
- Extreme weather clothing and equipment
- Personal safety clothing and equipment
- Photo ID
- Towel and washcloth
- Personal grooming and hygiene kit
- Two sets of eyeglasses (if applicable)
- Sunglasses
- Flashlight and extra batteries
- Watch
- Hearing protection
- Boots (over the ankle)
- Personal funds and credit cards
- Bottled water (canteen, camelback. 32-64 oz)
- Two week supply of required prescription medications, sunscreen, insect repellent, and necessary over the counter medications
- Sleeping bag
- Ground pad

OUT OF AREA/REGION DEPLOYMENT

1. Personnel and equipment will only respond on an out of area, long term deployment after an official request from a local, state, or federal entity with a tracking number for reimbursement. This does not include emergency requests for mutual aid and other direct assistance to surrounding counties and agencies.

2. From the time a request is made, a file needs to be compiled by the Deputy Chief of

Administration or his/her designee with all correspondence related to the request.

3. Careful accounting of all receipts, payroll sheets, time on task, event logs, patient care reports, and other documentation must be practiced by all responding and supervisory personnel.

4. The Deputy Chief of Operations or his/her designee will ensure that all LCEMS Special Operations equipment is prepared and ready to respond to the deployment.

5. Generally, deployments will range from 7-14 days depending on the event and the request. Personnel should bring personal items to sustain them during the appointed deployment period. Items to bring include, but are not limited to:

At least 3 sets of uniforms, and 1 set of protective gear
EMS jacket or rain jacket
7-14 each - pairs of socks, undershirts, and underwear
1 extra pair of shoes
At least 3 Bath towels
Toilet articles for a 7-14 day stay
Toothbrush and toothpaste
Deodorant
Soap
Shampoo
Razor and shaving cream
Mosquito repellent
7-14 day supply of food that will not require refrigeration or cooking; i.e., can goods
7 gallons of water
EMS ID badge
EMS radio with spare battery and charger
EMS laptop computer with cables and power cords
EMS cell phone with charger
Notebook or paper with pens
Stapler, paper clips, office supplies
EMS Emergency Operations Center Plan
EMS MCI Plan
EMS phone list
County and State Resource Phone list
EMS SOG's
County Emergency Management Plan

6. Personnel will be paid based on active duty periods only. This depends on the type of event and the staffing that is available. Rest and relaxation periods will not be paid. All expenses will be reimbursed.

7. Safety of all personnel is of paramount importance during an out of area deployment. Situations may vary greatly and all personnel that are activated should take all appropriate precautions and not take undue chances when deployed. Pairing with law enforcement for deployment is highly desirable and encouraged. After catastrophic events, many times unsafe situations occur and personnel should take every precaution possible.

8. When an out of area deployment is requested, personnel will be notified and volunteers solicited. Team members will be selected based on shift schedules, qualifications, and resources requested. Personnel with Special Operations training will be considered first.

LEON COUNTY E.M.S.

Standard Operating Guideline

Title:	Minimum Staffing
CAAS:	201.04.01
Effective:	January 2004
Reviewed:	May 2008, December 2012, December 2015, December 2018
Revision:	3
Pages:	1

I. PURPOSE:

The purpose of this Standard Operating Guideline is to describe the staffing requirements for LCEMS ambulances.

II. GUIDELINE:

All requirements of the State of Florida Department of Health, Bureau of Emergency Medical Services will be met.

III. PROCEDURE:

1. Staffing guidelines
   A. All in-service LCEMS units are Advanced Life Support in accordance with the State of Florida Department of Health.
   B. All ambulances shall be staffed with a minimum of one Florida certified paramedic as well as one Florida certified EMT (or another Florida certified paramedic).
   C. For Critical Care Transports, a minimum of one Critical Care Certified Paramedic will staff the transport in addition to the EMT/Paramedic crew member.
   D. For tactical call outs, only trained, certified, and appropriately equipped Paramedics may accompany the Leon County Sheriff's SWAT Team on a call out. If EMS resources are requested and Tactical Paramedics are not available, then the EMS System Controller will dispatch an ambulance to stage in the cold zone of the incident.

LEON COUNTY E.M.S.

Standard Operating Guideline

Title:	Multiple Casualty Incident (MCI) Plan
CAAS #:	102.02.01 102.02.02
Effective:	June 1, 2005
Reviewed:	March 2006, December 2012, December 2015, December 2018
Revision:	2
Pages:	17

I. PURPOSE:

Treatment and transportation of casualties to hospitals will be the prime function required of LCEMS during an MCI. These guidelines are designed to assist LCEMS personnel in accomplishing that mission. The MCI plan may be implemented in part or its entirety, as the situation or incident warrants. Experience has taught that there are many sets of circumstances which can, if not dealt with immediately, escalate to the level of a major incident. No one will be criticized for treating an incident as serious, in the first instance, even if events later prove it not to be.

The procedures outlined in this plan establish responsibilities, outline establishment of command and coordination, and provide protocols for patient care and the orderly transport of patients involved in an MCI or major incident/terrorist act. In keeping with the Incident Command System, through the use of Job Action Sheets, various activities associated with the LCEMS response will be completed.

When the County disaster plan is activated or an MCI is declared, the following LCEMS personnel will be specifically notified:

- Chief
- Deputy Chiefs
- Captains
- Lieutenants

II. GUIDELINE:

When the County emergency plan is activated or an MCI is declared, this plan will be put into effect to the extent necessary to manage the event at hand.

It is a condition of employment for every LCEMS department employee to respond to departmental staff recall (see job description) for natural or man-made disasters resulting in an MCI. When notified, each LCEMS department member will report to Headquarters unless otherwise directed. Employees must have their County picture ID with them when reporting to

duty for a recall.

III. PROCEDURE:

1. GENERAL INFORMATION

A. Multiple Casualty Incident is an EMS response where two or more patients are involved.

B. Major incident/terrorist act - any emergency, natural or man-made that requires the implementation of special response by one or more emergency agencies.

C. Hazardous materials incident (HAZMAT) - any substance, chemical, biological, radiological, which is known or suspected to present a health hazard.

D. Weapons of mass destruction - devices/weapons employing explosives, chemical, biological, or radiological elements for the purpose of inflicting mass casualties.

E. Incident Command System (ICS) - structured incident command process.

F. Job Action Sheets - used in the ICS plan, Job Action Sheets provide guidance to command and response staff for critical actions that must be taken in the course of the response to a critical event. Job action sheets that pertain to this policy follow the narrative of this policy.

2. AREAS OF RESPONSIBILITY AT AN MCI

A. The overall on scene incident commander at an MCI is the senior representative of the Tallahassee Fire Department (TFD).

B. The LCEMS commander, referred to as EMS command, will join the TFD Incident Commander under the concept of unified command. EMS Command may range from the first on scene EMS unit to the EMS Chief.

C. All medical care on the scene of an MCI will be the responsibility of EMS Command. Once on scene, EMS Command will review/distribute the job action sheets and assign job action sheet duties to LCEMS personnel as needed in order to complete critical tasks. Included in the job action sheets are sheets for EMS Command, Communications, Staging, Triage, Transportation and the Helicopter LZ.

D. MCI incidents that require patient decontamination will be the responsibility of TFD. LCEMS personnel will operate in the cold zone receiving decontaminated patients from TFD.

E. LCEMS will triage patients using the S.T.A.R.T. triage process.

F. Perimeter control of the scene is the responsibility of TFD Command and law enforcement.

G. Patients that are deceased will be left in the location they are found in. The medical examiner is responsible for the processing and removal of the bodies.

3. COMMUNICATIONS

LCEMS will use the following call signs when on scene at an MCI:

LCEMS incident commander – EMS Command
Communications – EMS Communications
Triage – EMS Triage
Transportation – EMS Transportation
Staging – EMS Staging
Helicopter landing zone – EMS LZ

Operating radio channels for MCI's: EMS Communications is the only EMS representative that will communicate with EMS dispatch. All EMS leaders on scene will communicate with EMS Command via EMS Communications.

EMS Command – Channel 3 and Channel 1
EMS Communications – Channel 3 and Channel 1
All other areas – Channel 3

Radio traffic should be kept to a minimum. Field medics are to report emergencies only via Channel 1.

4. FIRST ARRIVING UNIT AT THE SCENE

The initial call to respond to the scene may not provide adequate information to identify the call as a major incident. The first arriving EMS unit will:

- Approach the scene with extreme caution. Do not rush into the area. Ensure your safety and the safety of those with you.
- If first arriving (or subsequent units) unit determines or suspects HAZMAT, WMD, or terrorist act is present, all LCEMS personnel will immediately evacuate the area to a safe/cold zone upwind from the incident. A series of long blasts on the air horn and an announcement over the radio will indicate emergency evacuation of all personnel.
- Assess the situation and report the status to dispatch immediately.

- Leave vehicle emergency lighting on to identify the EMS Command site.
- If an MCI, the EMS vehicle driver will establish EMS Command/Communications. Join the TFD unified command post as soon as it is established.
- The Charge Paramedic will establish EMS Triage/Transportation.
- As other LCEMS units arrive, EMS Command will assign personnel to Communications/Transportation/staging/LZ, as needed.

5. HAZMAT, BIOLOGICAL, CHEMICAL OR RADIOLOGICAL INCIDENTS

All patients determined or suspected of exposure or contamination will the above noted agents will be decontaminated by TFD prior to patient care and transportation by LCEMS. LCEMS will operate only in the cold zone of one of these incidents. Personal protection from contamination is an essential activity for EMS personnel.

6. TRIAGE PROCEDURE

The Simple Triage and Rapid Transport (S.T.A.R.T.) Method of triage will be used by LCEMS and TFD on MCI scenes.

7. GUIDELINES FOR SECONDARY RESPONDERS

1. Extinguish emergency lighting as you arrive.
2. Contact EMS Communications on Channel 3 for assignment.
3. Remain with your vehicle until assignment is given by EMS Communications.

8. CRITICAL INCIDENT STRESS (C.I.S.D.) DEBRIEFING TEAM

If EMS personnel notice other responders undergoing extreme stress, suggestion for a C.I.S.D. response should be made to EMS Communications. Arrangements can be made for the team to come to the scene or to be at the hospital or other appropriate facility.

IV. RESPONSIBILITIES

The Fire Chief or his designee has responsibility for the overall MCI scene.

Responsibilities of LCEMS are set forth in this policy and procedure.

The Chief is responsible for review of the policy/procedure occurs.

Attachments:
Job Action Sheets
S.T.A.R.T triage system procedure

LEON COUNTY EMERGENCY MEDICAL SERVICES

INCIDENT COMMAND SYSTEM

EMS COMMAND

Mission: Organize and direct on scene EMS operations at MCI events

Immediate:
Initiate EMS Command by assuming role of EMS incident commander
Don EMS Command vest
Establish the radio channel to be used on site by Communications, Triage, Transportation, Treatment, Staging and LZ leaders
Confirm MCI/HAZMAT/Bio-chemical/radiological incident exists
Protect the safety of LCEMS personnel
Confirm status of incident with EMS dispatch and request needed resources
Confirm that hospitals have been advised of the situation
Activate incident response plan
Establish and appropriately identify EMS command location
Join TFD unified command once established
Assign LCEMS personnel with the duties of Communications, Staging, Triage, Transportation and Helicopter landing zone coordinator
Provide each with Job Action Sheets for their areas

Intermediate:
Consult with TFD Incident Commander to determine continued safety of the scene
Coordinate all EMS operations during incident
Continue to consult with TFD Incident Commander
Monitor resources and request/stand down resources as needed
Act as liaison with other public safety agencies and hospitals on behalf of EMS
Via EMS Communications, provide frequent situation status reports to dispatch

Extended:
Observe all staff, volunteers and patients for signs of stress and inappropriate behavior. Call for C.I.S.D. as needed.

LCEMS EMERGENCY MEDICAL SERVICES

INCIDENT COMMAND SYSTEM

EMS TREATMENT

Mission: Organize and direct patient care at MCI events.

Immediate:
Report to EMS Command and receive briefing
Receive EMS Treatment Vest and Job Action Sheet
Don EMS Treatment Vest
Confirm with EMS Command the radio channel to be used
Treatment officer should not become involved in patient care
Report to treatment site and establish command of the work area
Establish primary treatment area
- Think big – treatment area must be capable of accommodating large numbers of patients and equipment
- Consider: weather, safety, HAZMAT
- Area must be readily accessible
- Designate entrance and exit to area
- Divide treatment area into four (4) distinct and well marked areas: use appropriate colored flags, barricade tape, and/or tarps

Determine equipment and personnel needs in treatment area and request resources via EMS Communications
Coordinate personnel assigned to treatment area
Designate secondary treatment area as an alternative should the primary area become unstable
Inform EMS Command of primary and secondary site locations
Assign personnel to treatment areas based on medical capabilities

Intermediate:
Continue to triage/re-triage patients
Advise EMS Transportation when patients have been prepared for transport
Notify EMS Transportation which hospital the patient should be transferred to
Evacuate patients by priority
Regularly inventory supplies using the MEDICAL EQUIPMENT CHECKLIST and request resupply, via EMS Communications, when necessary

Extended:
Begin relieving or reducing staff as necessary
Report to EMS Command when Triage site activities are no longer necessary

LCEMS EMERGENCY MEDICAL SERVICES

INCIDENT COMMAND SYSTEM

EMS TRANSPORTATION

Mission: Organize and coordinate transportation of patients from an MCI incident

Immediate: Report to EMS Command and receive briefing
Receive EMS Transport Vest and Job Action Sheets
Don EMS Transportation Vest
Confirm with EMS Command the radio channel to be used
Report to Transportation site
Do not become involved in patient care or loading of the patients
Appoint radio operator, if necessary
Determine equipment and personnel needs in transportation area; request same from EMS Communications
Coordinate personnel assigned to Transportation area
Determine location of helicopter LZ via EMS Communications
Establish communications with EMS Triage and advise the location of the loading zone and helicopter LZ
Loading zone should have separate entrance and exit routes
Advise EMS Staging of the location of the loading areas
Communicate with area hospitals:

- Relay information concerning incident to hospitals as needed
- Ascertain each hospital's capabilities to receive patients
- Inform hospitals of number of patients to expect and their conditions

Begin completion of HOSPITAL CAPABILITY AND PATIENT TALLY SHEET
Request from EMS Staging, ambulances/helicopters as needed for transport
Coordinate routing of patients to proper ambulances

Intermediate: Maintain HOSPITAL TRANSPORTATION LOG. If Mettags are used, assure completion of the tag and retain corner tear off from tags
Advise each ambulance of their hospital destination
Advise receiving hospital of: name of unit transporting, number of patients in unit, brief description of patients' condition and ETA of ambulance
Update HOSPITAL CAPABILITY AND PATIENT TALLY SHEET as patients are transported; complete totals at conclusion of incident

Extended: Begin relieving or reducing staff as necessary.
Advise EMS Command/Communications, EMS Triage, EMS Staging, Helicopter LZ when last patient is transported

LCEMS EMERGENCY MEDICAL SERVICES

INCIDENT COMMAND SYSTEM

EMS TRIAGE

Mission: Organize and coordinate triage of patients from an MCI incident

Immediate:
Report to EMS Command and receive briefing
Receive EMS Triage Vest and Job Action Sheet
Don EMS Triage Vest
Confirm with EMS Command the radio channel to be used
Ascertain from the EMS Command, if it safe to initiate triage activities
Do not become involved in direct patient care
Designate a radio operator as necessary
Determine equipment/personnel needs; request same from EMS Communications
Coordinate personnel assigned to Triage
Distribute S.R.A.R.T. tape to triage personnel
Begin triage operations
Advise EMS Treatment of approximate number of patients ASAP
Coordinate transfer of patients by priority to Treatment area
Request personnel and equipment as needed to transfer patients to treatment area
CHECK ALL AREAS AROUND MCI SCENE FOR POTENTIAL PATIENTS, WALK AWAYS, EJECTED PATIENTS, ETC

Intermediate: Advise EMS Communications when initial triaging and tagging operations are complete

Extended:
Begin relieving or reducing staff as necessary
Advise EMS Command/Communications, EMS Transportation, EMS Staging, Helicopter LZ when last patient is transported to Treatment area

LCEMS EMERGENCY MEDICAL SERVICES

INCIDENT COMMAND SYSTEM

EMS STAGING

Mission: Organize and coordinate offsite EMS vehicle resources at an MCI incident

Immediate: Report to EMS Command and receive briefing
Receive EMS Staging Vest and Job Action Sheets
Don EMS Staging Vest
Confirm with EMS Command the radio channel to be used
In cooperation with Incident Command, establish location of staging area

- LCEMS staging area should be distinct from TFD staging area but may be in the same general location
- Think big – staging area must be capable of accommodating large numbers of EMS vehicles
- Consider: safety and HAZMAT
- Area must be readily accessible
- Designate entrance and exit to staging area
- Consider need for secondary staging area as an alternative should the primary staging area become unusable

Notify EMS Communications for the Location of the Staging Area
Proceed to Staging Area
Determine equipment and personnel needs for Staging Area: Request same from EMS Command
Coordinate personnel assigned to Staging Area
Ascertain from EMS Transportation location of ambulance loading zone and best route to zone
Ascertain from EMS Communications approximate number of EMS units to expect
Maintain EMS UNIT STAGING LOG
Give an INCIDENT PROTOCOL CARD to each arriving EMS unit; Complete the back of the card as appropriate
Send EMS units to EMS Transportation when requested to do so

Intermediate: As the number of EMS units in Staging Area decreases, Advise EMS Communications of possible need for additional units

Extended: Report to EMS Command for reassignment upon closure of the Staging Area

LCEMS EMERGENCY MEDICAL SERVICES

INCIDENT COMMAND SYSTEM

EMS COMMUNICATIONS

Mission: Organize and coordinate communications for EMS Command at an MCI incident

Immediate:
Report to EMS Command and receive briefing
Receive EMS Communications Vest and Job Action Sheets
Don EMS Communications Vest
Confirm with EMS Command the radio channel to be used
Stay with EMS Command
Receive and relay all communications from/to EMS personnel at the incident site to EMS Command
Contact EMS Triage, Transportation, Staging, Treatment and LZ leaders to establish radio communications link
Receive and relay all communications between EMS Command and EMS Dispatch
Document requests for additional resources

LCEMS EMERGENCY MEDICAL SERVICES

INCIDENT COMMAND SYSTEM

EMS HELICOPTER LANDING ZONE

Mission: Organize and coordinate activities at the helicopter landing zone at an MCI incident

Immediate:
Report to EMS Command and receive briefing
Receive EMS Communications Vest and Job Action Sheets
Don EMS Communications Vest
Confirm with EMS Command the radio channel to be used
Proceed to helicopter landing zone
In cooperation with Incident Command, establish location of the helicopter landing zone
- Helicopter landing zone should be distinct from TFD/EMS staging area but may be in the same general location
- Think big – staging area must be capable of accommodating large numbers of helicopters and their required access and egress

The helicopter landing zone must be flat, open, free of wires, trees, and other obstructions
- Consider: safety, wind direction, site security and HAZMAT
- Area must be readily accessible by EMS vehicles
- Designate EMS vehicle entrance and exit to helicopter landing zone
- Consider need for secondary helicopter landing zone as an alternative should the primary landing zone become unusable

Notify EMS Communications of the location of the helicopter landing zone
Determine equipment and personnel needs for helicopter landing zone: Request same from EMS Command
Coordinate personnel assigned to helicopter landing zone
Maintain EMS UNIT STAGING LOG
Give and INCIDENT PROTOCOL CARD to each arriving helicopter; Complete the back of the card as appropriate

Intermediate: As the number of EMS units in Staging Area decreases, Advise EMS Communications of possible need for additional units

Extended: Report to EMS Command for reassignment upon closure of the Staging Area

LCEMS EMERGENCY MEDICAL SERVICES

INCIDENT COMMAND SYSTEM

EMS DISPATCH

Mission: Organize and coordinate overall communications between other public safety agencies, the hospitals and EMS Communications at the MCI site

Immediate: When notified of a major incident/MCI contact the following personnel/areas of the hospital:

- EMS Chief
- Deputy Chiefs
- Captains
- Lieutenants
-
- TMH and CRMC Emergency Centers

Assess locations of all on duty EMS units and relocate as necessary
Attempt to keep at least one EMS unit in service for non-MCI related calls
Confirm the response/awareness of other public safety agencies
Call in additional dispatch personnel
IF THE INCIDENT INVOLVES AN AIRCRAFT, CALL FLIGHT SERVICES.(Gainesville 352-377-4681) OR (Flight tower at TLH 942-9642 6am-11pm/JAX (904) 549-1537 11pm-6am) TO GET THE TOTAL NUMBER OF SOULS ON BOARD
SEND AN OFFICER TO THE COUNTY EOC TO SERVE AS THE DEPARTMENT LIAISON OFFICER
ADVISE THE LIAISON OFFICER WHICH RADIO CHANNEL TO MONITOR

Intermediate: After confirmation of a major event:

- Reconfirm notification/nature of event with EMS administrative personnel
- Confirm authorization to recall staff via EMS Administration
- Reconfirm notification/nature of event with both Emergency Centers
- Notify Leon County Sheriff's Office Division of Emergency Management via the Leon County Warning point (922-3300) of the incident
- Request mutual aid from Gadsden, Wakulla and Jefferson Counties through the EOC. Coordinate their access to the scene. Provide the radio channel for them to operate on at the incident site.

- **CONSIDER HELICOPTER SUPPORT AS AN AERIAL PLATFORM OR TO QUICKLY DELIVER STAFF AND SUPPLIES**

Extended: Refer all media inquiries to the County PIO
Continue to support EMS Command at the incident site
Plan for personnel, equipment and supply replenishment.

THE SIMPLE TRIAGE AND RAPID TRANSPORT (S.T.A.R.T) METHOD OF TRIAGE

The Simple Triage and Rapid Transport (S.T.A.R.T.) method of triage will be used by LCEMS and TFD on MCI incidents.

S.T.A.R.T. triage is based on three assessments and two treatments:

Assessments

- Is ventilation adequate?
- Is perfusion adequate?
- Is mentation adequate?

Treatments

- Airway maintenance
- Hemorrhage control

S.T.A.R.T. triage steps

1. Identify low priority "walking wounded" and direct them to a safe area (large tree, parking lot). Do not direct these patients to an ambulance. They may impede emergency care and transport of patients. Instructions may be given over the vehicles loud speaker. Advise these patients that you will send emergency workers to them. Spend no further time with this population of patients.

2. Begin triage where you stand and proceed in a systematic, orderly manner through the patients. Use METTAGS or colored ribbons. Attach the tag/ribbon to the patients arm or leg, not the patients clothing. The following colors are used to signify the noted patient condition:

- RED - critical, immediate care
- YELLOW - Serious, stable, delayed
- GREEN - emergency treatment not necessary
- BLACK - dead, expectant
- BLUE - HAZMAT contamination

3. Assessing and tagging should take no longer that 60 seconds per patient. Identify urgent, life threatening conditions for second wave of rescuers.

4. If the victim is NOT BREATHING, reposition and clear the airway. If spontaneous breathing does not begin, tag the victim with BLACK RIBBON and MOVE TO THE NEXT VICTIM.

5. Deceased should not be moved unless it is necessary to reach a live victim or if the body is

likely to deteriorate due to environmental hazards such as fire

6. If a dead body is moved from its location at the incident, evidential continuity (chain of evidence) of the handling must be maintained through its recovery.

LEON COUNTY E.M.S.

Standard Operating Guideline

Title:	Response to Aircraft Emergencies at Tallahassee International Airport
Effective:	June 1, 2005
Reviewed:	March 2006, December 2012, December 2015, December 2018
Revision:	3
Pages:	2

I. PURPOSE:

To provide for rapid response to the airport in the event of an aircraft accident or a medical emergency on an inbound aircraft.

II. GUIDELINE:

1. Under normal circumstances, information concerning an aircraft emergency will come from either the City of Tallahassee Fire Department dispatcher or from the FAA airport tower. If the request comes from another source other than TFD or the tower, notify the tower.

2. In the following scenarios EMS will be requested to respond to at the airport:
   - Aircraft emergency
   - Medical Emergencies at the airport or on an inbound flight

A. Alert 2 - Aircraft Emergencies or Alert 3 & 4 - Aircraft Accidents

1) EMS dispatch should acquire the following information and relay it to the responding units.
   1. Alert code
   2. Type of aircraft/souls on board
   3. Nature of emergency
   4. Estimated time of arrival of aircraft
   5. EMS staging location (normally Million Air) or gate to access the patient/incident

2) Alert 2 calls will be dispatched as Code 2 unless the system controller has information that would indicate a Code 3 response. Alert 3 calls will be dispatched as Code 3 responses.

3) Upon arrival at the airport, LCEMS units will position themselves at the airport location identified by EMS dispatch. Airport personnel will provide access through the gate for LCEMS. Airport personnel will guide LCEMS to the accident site.

4) LCEMS units are to have their emergency lights on anytime the

LCEMS unit is inside the fenced perimeter of the airport.

5) In the event of an aircraft crash, Tallahassee Fire Department and LCEMS will establish a “unified command of operations” Refer to the "Emergency Operations Plan" and "MCI Plan" for specific response guidelines to this type of emergency.

B. Medical Emergencies

1) Medical emergencies can occur at the airport terminal or on an inbound aircraft.

2) EMS Dispatch will acquire information related to the patients location and medical condition. Such information will be relayed to the responding LCEMS crew.

3) EMS dispatch will ask airport personnel to guide LCEMS personnel to the patient.

LEON COUNTY E.M.S.

Standard Operating Guideline

Title:	Second Incident Encounters
Effective:	June 1, 2005
Reviewed:	March 2006, December 2012, December 2015, December 2018
Revision:	2
Pages:	1

I. PURPOSE:

To provide guidance in the event a crew finds themselves on the scene of a second incident while responding to or transporting a patient from a different incident.

II. GUIDELINE:

Under normal operational conditions ambulances will not respond to another incident with a patient on board.

III. PROCEDURE:

- If, while transporting a critical patient under lights and sirens, a crew comes across the scene of another incident, that crew will continue on its way to the hospital without stopping to render assistance. The driver will contact EMS dispatch of the situation requesting appropriate assistance to respond.

- If, while responding to a Code 3 patient under lights and sirens but without a patient on board, a crew comes across the scene of another incident, that crew will stop and render aid only after notifying EMS dispatch of the situation. A second unit will be dispatched as appropriate.

- If, while transporting a non-critical patient, the crew comes across another incident, that crew will stop and the driver will render aid as necessary. The charge person will not abandon his/her patient to render aid. Further assistance will be called for through EMS dispatch as needed. If at all possible, any additional patients from a second scene will not be transported in the same vehicle with the original patient. A second or subsequent unit will transport patients from the second scene.

- EMS dispatch will divert ambulances to calls as necessary but will ordinarily avoid sending ambulances carrying patients to subsequent scenes.

- In the event of unusual circumstances the on-duty supervisor or System Status Controller will make decisions related to this guideline.

LEON COUNTY E.M.S.

Standard Operating Guideline

Title:	Social Services Referral
Effective:	June 1, 2005
Reviewed:	May 2010, December 2012, December 2015, December 2018
Revision:	3
Pages:	2

I. PURPOSE:

To refer patients to needed and appropriate services within the community.

II. GUIDELINE:

LCEMS shall attempt to assist patients in finding appropriate services in the community that meet the needs of that patient. The paramedic will attempt to assist the patient to find appropriate resources to utilize and reduce the utilization of inappropriate resources while more closely meeting the patient's needs.

III. PROCEDURE:

When a patient is identified with needs that are beyond the scope of LCEMS personnel, the paramedic will:

1. Offer the patient a 211 Big Bend Card so that the patient can help themselves by calling for needed services.

2. Fill out the Social Service Referral Form and turn it in to the on-duty supervisor. Provide as much information as possible.

3. The on-duty supervisor will provide these forms to the Deputy Chief of Clinical Affairs.

4. The Deputy Chief of Clinical Affairs will call the appropriate community resource and request assistance. In cases where immediate assistance is identified the on-duty supervisor will call the appropriate community resource.

When a need is identified and the patient is transported, the crew will notify the receiving hospital of the need also.

LEON COUNTY E.M.S.

Standard Operating Guideline

Title:	Transporting Donor Organs
Effective:	June 1, 2005
Reviewed:	March 2006, December 2012, December 2015, December 2018
Revision:	2
Pages:	1

I. PURPOSE:

To provide rapid transportation to and from the airport for organs donated for transplant.

II. GUIDELINE:

The request to transport organ procurement teams and donated organs to / from the airport is to be considered of high importance. The fee for services provided by Leon County EMS is the responsibility of the organ procurement team.

III. PROCEDURE:

- LCEMS dispatch will obtain the required information including the expected time that services will be needed. System Status Controllers (SSC) will make payment arrangements with the requesting organization in accordance with current payment policies.

- LCEMS dispatch will assign a unit to provide the requested services at the location and time requested.

- All responses and transports will be done Code 2 unless otherwise directed by the SSC or on-duty supervisor according to the needs of the team.

- Airport transports of an organ harvest team with a harvested organ onboard are acceptable candidates for emergency transport mode (refer to SOG 215.00).

LEON COUNTY E.M.S.

Standard Operating Guideline

Title:	Vehicle Operations
CAAS:	202.01.02
Effective:	June 1, 2005
Reviewed:	March 2006, December 2012, December 2015, December 2018, October 2020
Revision:	4
Pages:	15

I. PURPOSE

To provide uniform driving guidelines for the safe operation of Leon County EMS vehicles.

II.GUIDELINES

Only safe drivers are allowed to operate County vehicles and that basic standards be followed in all vehicle operations. Safety is the ultimate concern for patients, the public and employees. This SOG applies to employees of the EMS Division who are required to drive as a part of their duties. It does not apply to office support personnel who do not engage in pre-hospital care.

III. DRIVERS

All drivers of LCEMS vehicles will meet the qualifications and motor vehicle records requirements as outlined in the current County Driver Policy and in accordance with Florida Statute 401 and the corresponding Florida Administrative Code.

All drivers of LCEMS emergency vehicles will have successfully completed the Emergency Vehicle Operations Course before operating any department vehicle. All guidance provided in these courses will be followed.

Employees must immediately report in writing any revocation, suspension, or loss of driver's license to the on-duty supervisor.

Employees must report within 1 hour of reporting to work, in writing, convictions and / or citations for violations of motor vehicle traffic laws and ordinances other than parking violations, in any vehicle, to the on-duty supervisor. The report will include copies of all available citation / arrest paperwork. The written report will include an explanation of the circumstances surrounding the citation / arrest.

IV. TRAINING

All new employees will be required to complete Initial LCEMS driver training. Annual training will also be provided for all drivers of LCEMS emergency vehicles. Driver training reinforces good driving habits.

1. Initial training

   All employees at the time of hire, will be introduced to the type of vehicles which they will be operating and its specialty equipment and safeguards. If more than one type of vehicle will be used, introduction to all equipment will be done. All new drivers will demonstrate competence in safe driving with a Field Training Officer before being allowed to routinely drive. As part of their field training and orientation, drivers will pass the driver proficiency checklist prior to being given full driving privileges.

   Initial training will be completed as part of the LCEMS new employee orientation program. It will include the following components:

   1. Vehicle Inspection – The trainer will explain why and when vehicles should be inspected. The inspection of the vehicle will be demonstrated to the new employee. The new employee will then perform the inspection under the supervision of the trainer.

   2. Operating Techniques – Instruction will be given to allow the driver to become familiar with operating and using the equipment / vehicles.

   3. Training Exercises – After operating techniques have been learned the new employee should work on developing proficiency in operating the vehicle and equipment.

   4. Governmental Rules & Regulations - All appropriate rules and regulations will be reviewed with the driver. Emphasis will be given regarding safe vehicle operations.

   5. Accident Reporting Procedures – A review of procedures developed for handling accidents will be conducted. This review will include familiarization with accident reporting forms, accident review procedures and possible disciplinary actions.

   6. Emergency Procedures – How to handle: fires (including fire extinguisher use), mechanical failures and other potential emergencies.

7. Overview of Driver Monitoring program, currently known as "iDrive".

2. Smith System Driver Training

   All employees of the EMS Division will successfully complete the Smith System Driver Training with in 60 days of being hired.

3. Annual Training

   All drivers of LCEMS emergency vehicles will successfully complete annual refresher driver training. The training shall consist of a Smith System Refresher class or an online Learning Module.

4. Periodic Training

   Periodic training of all drivers is necessary:

   1. To reinforce County policies and procedures
   2. When County policies and procedures have changed
   3. As a result of changes in vehicles, equipment, products or regulations.
   4. As a result of specific accident trends, high frequency or high severity of accidents within the fleet.
   5. As a part of disciplinary procedures for a driver involved in an accident or for a driving violation.

5. Training documentation

   All training will be documented in writing and maintained by the Education / IQM Manager at LCEMS.

V. INSPECTIONS

All employees shall perform a safety check each day of any vehicle they are assigned to drive. These checks will be documented on the daily inspection form in Operative IQ. The safety check will include:

1. Windshield washers and wipers
2. Directional signals / turn signals

3. Tires – check for adequate inflation, damage, and tread wear.
4. Lights – all lights must be checked, inside and out, including dash lights. Check both high and low beam headlights.
5. Horn
6. Brakes – When testing the brakes, the engine will be on. They shall be tested by putting the vehicle in gear and applying the brakes to bring the vehicle to a stop. When the pedal is depressed it should move smoothly. When released the pedal should return to the complete raised position. When stopping there should not be any pulling to either side, grinding sounds or return pressure felt in the brake pedal. If brakes fade or any of the above symptoms are noted immediately notify Logistics or the Shift Supervisor and take the unit out of service.
7. Parking brake – The vehicle should not roll either forward or backward when the parking brake is applied.
8. Back-up alarm
9. Emergency lights
10. Siren
11. Date / mileage due of next preventive maintenance. – Vehicles that are found to be due for preventive maintenance will be immediately reported to logistics.
12. Damage to the vehicle – all employees will inspect the vehicle for new damage when taking responsibility for the vehicle. Upon return of the vehicle it will be inspected for new damage. Damage not previously noted on the vehicle's damage report will be assumed to have occurred during the employee's use of the vehicle. If new damage is noted, it will be immediately reported in writing to the shift supervisor.
13. Motor oil
14. Brake fluid
15. Power steering fluid – should be checked while the vehicle is on a level surface and when the engine is warm but not running.
16. Hydraulic systems
17. Automatic transmission fluid
18. Cooling system reservoir
19. Seatbelts – assure they are in proper working order. Buckles must lock into place and release when the button is depressed. Straps must not be ripped, torn or frayed.
20. Equipment – assure that all equipment is stored and secured in its proper place. Make certain that nothing can loosen and become a "missile" hazard in the event of a quick stop.

Employees must assure that the vehicle is in safe operating condition at all times. Gauges will be monitored when the vehicle is in operation. If any gauge indicates an abnormality the vehicle must be taken out of service as soon as possible. All defects or deficiencies shall be immediately reported to the shift supervisor.

VI. VEHICLE MAINTENANCE

1. All vehicle maintenance and records of maintenance is the responsibility of Leon

County Fleet Management.

2. Repairs, adjustments, alterations and modifications to equipment will be carried out only by qualified persons specifically authorized by Leon County. No employee of LCEMS is to undertake such work unless authorized.

3. In the event of vehicle / equipment malfunction, corrective measures on the part of LCEMS personnel will be limited to verification that power exists and that all operating controls are in a normal configuration. If such action does not correct the malfunction, the problem will be referred to authorized service personnel.

4. All malfunctioning vehicles and vehicle equipment will be reported to the Shift Supervisor. No vehicle perceived to be unsafe will be driven until checked and repaired or deemed safe by Leon County Fleet or the Shift Supervisor on duty.

5. If a critical vehicle malfunction occurs while responding to a call or transporting a patient the crew will immediately notify control to dispatch another unit. The Shift Supervisor will be notified to assure that the patient is cared for and to coordinate towing and repairs. The crew will complete an incident report and provide it to the Shift Supervisor.

VII. GENERAL SAFE DRIVING

- Before driving
  - A good mental attitude is essential for safe driving. A chip on your shoulder, a bad temper, irritations caused by other drivers, personal worries, fighting traffic and aggressive driving are all out of place for safe driving.
  - Make all adjustments for safe driving such as seat, inside and outside mirrors and sitting position before putting the vehicle into gear.
  - All persons who drive or ride in County vehicles will in all cases wear the installed seat belt. The only exception is an attendant in the rear of an ambulance who is administering patient care that would not otherwise be able to be administered if the seat belt were worn.
  - Never take drugs or strong medication before operating a vehicle. Drugs, illness or extreme fatigue may affect an employee's ability to judge distance, speed and driving conditions.
  - Nothing is to be stored on the dashboard (i.e. coffee cups, clip board, papers, etc)

- Starting
  - Signal your intention.
  - Wait for traffic to clear
  - Avoid jack-rabbit starts…they may injure an occupant and will damage the vehicle

- On the road
  - All drivers will abide by all federal and state laws and County policies.
  - Use of cellular / mobile phones is limited to hands free use while driving County vehicles.
  - Always be prepared to make emergency stops or take evasive action.
  - The speed limit is a prudent safety limit. The posted speed limit will not be exceeded except during emergency responses as outlined in this policy.
  - Check mirrors and gauges frequently.
  - Shift your vision from point to point.
  - Do not drive too close to the vehicle ahead. Keep a distance of at least four seconds between you and the vehicle in front of you.
  - Slow down at intersections. Anticipate turns by other drivers.
  - Do not jump yellow traffic lights.
  - Slow down for curves and accelerate as you reach the straight. Remember that ambulances are top heavy and can overturn as a result of swerving.
  - Never assume you have been seen or heard. Conversation, radios, tape players, closed windows and closed minds all may prevent drivers from seeing or hearing your vehicle until the last moment. Prepare yourself accordingly.
  - Respect the right of way of others before asking that they yield to you. Watch for signs of movement. Do not assume the right-of-way. The driver who has the last chance to avoid an accident may be the driver in the legal right.
  - Keep a distance behind other vehicles to avoid tailgating. Do not allow others to tailgate. Slow down, pull over to the side and let the tailgater pass.
  - Watch for and yield to pedestrians, especially at crosswalks and between parked cars. Small children and old or incapacitated persons are completely unpredictable.
  - Drivers must be particularly alert while driving near children. Children must be kept from playing in or about County vehicles. While in areas such as schools, parks, playgrounds, swimming pools or community centers be especially watchful for children and drive carefully and slowly.
  - Lookout for animals and avoid them whenever possible. Never jeopardize your patient or vehicle by swerving or braking violently to avoid an animal.
  - Watch the hidden lane of traffic at intersections. Vehicles in that lane may not see or hear you.
  - Be visible at all times. Turn on low beam headlights at all times the vehicle is operated.

- Passing
  - Pass only when your view is clear well ahead and never on a solid yellow line.
  - Make sure the vehicle behind you is not about to pass
  - Signal by flashing your high beam headlights
  - Use extreme care when passing by crossing the median and driving in the wrong lane. This will only be done while traveling in emergency mode with lights and siren on.

- Convex mirrors provide deceptive spatial positioning. Do not use them to judge position of your vehicle in relation to other vehicles.

- Turning
  - Signal intentions at least 100 feet in advance, including changes in lane and actual changes in direction.
  - Check blind spots and mirrors before turning
  - Look ahead and behind several times before turning
  - Learn blind spots and compensate for them

- Stopping / breaking
  - Anticipate your stop and signal your intention.
  - Use pumping or press and release action when braking.
  - Stop gently, remember your patient and partner.
  - Avoid sudden braking. Instead of sudden hard braking continue past and go back. Remember a vehicle may be right behind you that you don't see

- Parking
  - Vehicles on calls should be left running.
  - When possible do not park in moving traffic lanes.
  - Leave emergency warning lights on when parked in the flow of traffic
  - Before leaving the vehicle place the vehicle in park and engage the parking brake.
  - Engage the high idle.
  - If parked on a downgrade the front wheels should be turned towards the curb.
  - If parked on an upgrade the front wheels should be turned away from the curb.

- Night driving
  - Do not overdrive your headlights.
  - Keep headlights and windshield clean.
  - Dim headlights for oncoming traffic.
  - Distant tail lights are deceiving. Slow down until you are sure of distance.
  - Keep alert for pedestrians, unlighted vehicles, vehicles with one headlight, bicycles, motorcycles and animals.

- Weather hazards
  - Do not drive through moving water
  - Use caution when leaving the roadway – making sure the ground can handle the weight of the ambulance and you won't get stuck. You and the patient are better off if you have to park on a hard surface and walk to the patient. This will prevent delays in care and or transport.
  - Do not drive too fast for existing conditions.
  - Do not make hard stops or turns on roads that are slippery, wet, icy oil slicked.
  - In obscured vision situations slow down, be alert and use hazard warning flashers. Turning off a portion of your emergency lights during heavy fog or rain may improve visibility and decrease reflective glare.

VIII. BACKING PROCEDURE

Ambulances

- To ensure the safety of pedestrians and for the protection of property in the vicinity of LCEMS ambulances operating in reverse all personnel are required to follow this procedure when the ambulance is proceeding in reverse mode.

- The ambulance will not be put into reverse until someone is outside the ambulance on the driver's side rear. This person is responsible to make sure that the area directly behind the ambulance is clear of all objects and persons.

- The driver of the unit will keep their window down and the AM/FM radio off while backing the ambulance to ensure better communication and vision.

- Direct eye contact must be made between the driver of the ambulance and the person responsible for backing them up. If the driver cannot see the spotter, they should immediately stop the ambulance to avoid hitting the spotter.

- Auxiliary lights such as the side scene lights should be used if necessary to illuminate all areas near the ambulance.

- Side mirrors shall be free of water, dirt and debris to allow for maximum visibility by the driver.

- Verbal communication between the driver and spotter at the rear of the unit shall be maintained. Use of the two way radio should not be used.

- Hand signals consistent with the direction of travel and stopping will be used by the spotter at all times. See attachment #1 for approved hand signals.

- If a crew member attending the patient is unable to direct the driver, the driver should immediately seek the help of another individual who is on scene. If the situation arises where there is absolutely no one to direct the ambulance driver the driver should inspect the path of travel to the rear of the ambulance before moving the ambulance in reverse. When moving in reverse the crewmember in the patient compartment should proceed to the rear door windows and clear the travel area to the rear of the ambulance. This should only be done in extreme circumstances when no other alternative exists.

- Back up slowly and with caution, never more than 1-2 mph.

- Turn off the back-up alarm whenever a backer is present, if available. In emergent situations when a backer is not available, back-up alarm must be on.

Other vehicles

All drivers of LCEMS non-ambulance vehicles will observe the Leon County backing policy located in the Leon County Board of County Commissioners Safety Manual.

IX. RESPONDING TO EMERGENCIES

- Vehicles responding to an emergency call will utilize both audible and visual warning devices (lights and sirens) except when contraindicated for safety.

- Give traffic a chance to clear itself before pushing through. Weaving in and out of various traffic lanes is exceedingly dangerous.

- Leon County EMS ambulances utilizes the Opticom GPS traffic light preemption system in all units. This system activates itself when driving with lights and sirens on. Leon County EMS personnel shall only use the traffic preemption system on dispatched emergency responses and when transporting all emergent class patients to appropriate medical facilities. Drivers must remember the use of the emitter system does not guarantee or grant right-of-way at intersections. Use of traffic preemption to control traffic signals at any other time is prohibited.

- Florida Statutes 316.126 (3) say "Any authorized emergency vehicle when enroute to meet an existing emergency, shall warn all other vehicular traffic along the emergency route by an audible signal, siren, exhaust whistle, or other adequate device or by a visible signal by the use of displayed blue or red lights.. While en route to such emergency, the emergency vehicle shall otherwise proceed in a manner consistent with the laws regulating vehicular traffic upon the highways of this state." Keeping this in mind, when making emergency response between 11:00 p.m. and 6:00 a.m. in residential areas, if there is no apparent vehicular traffic and the unit is traveling at posted speed limits, the use of sirens is not mandatory. Safe operation of the ambulance must always be the primary objective of the driver. When in doubt concerning the use of the sirens, always choose to use the sirens.

- When making emergency response with lights and sirens, although the statues specify the posted speed limits may be exceeded, the driver must always take weather, road and traffic conditions into consideration. The statute specifically "does not relieve the driver from the responsibility to drive with due regard for the safety of all persons" (316.126 (5)). Unnecessary and unreasonable excessive speeds shall be avoided.

- The AM/FM radio will be turned off during emergency responses and while transporting patients.

- Drivers will be alert for other emergency vehicles responding.

- When a two person crew is responding they will work as a team. The front seat passenger will note the location of the incident, locate it in the map book and provide directions to the driver as needed. They will serve as a second set of eyes watching for hazards, other vehicles and pedestrians and will communicate such to the driver. The passenger should operate the two way radio and siren to avoid distractions to the driver.

- Use of cellular / mobile phones will be limited to calls necessary to get information from control or dispatch. They will be used in hands free mode and will be operated by the passenger when present.

- Use caution when beginning siren in traffic. If sirens are suddenly turned on, the drivers in the immediate vicinity may be startled and panic.

- Driving on the wrong side of the road, crossing medians and driving the wrong way on one-way streets will be done in cases of necessity and with extreme caution. Resort to this only when there is no other way to get through. Drivers will be prepared to justify their actions.

- When driving to an emergency all drivers of emergency vehicles will come to a full and complete stop at all red lights and stop signs. After ascertaining that all other traffic has yielded to the emergency vehicle, the vehicle may proceed through the intersection with due regard for the safety of others.

- Posted speed limits in school zone must be observed when children are present.

- Emergency vehicles will not pass a school bus when the school bus is loading or unloading students as indicated by the flashing red lights on the school bus until cleared to do so by the driver of the bus. At that time the emergency vehicle will proceed with extreme caution.

- Upon arrival at the scene of an incident, emergency vehicles will be parked at a safe distance from any hazard and in such a manner as not to cause obstructions to other emergency vehicles responding to the scene. Vehicles will, unless otherwise contra-indicated for reasons of safety or security, remain idling at all times. Turn off white lights and head lights at night, unless they are deemed necessary for safety.

- At Haz-Mat scenes the unit should be parked at a distance and location indicated by a Haz-Mat team officer. In the absences of such an officer the crew should use information contained in their North American Emergency Response Guidebook to determine where to position the unit.

- Ambulances transporting patients to an emergency care facility may use emergency lights and sirens in circumstances involving patients with life-threatening or potentially life-threatening illness or injuries at the discretion of the paramedic in charge of patient care.

- Ambulances may only be operated by LCEMS employees, regardless of Code return.

X. ACCIDENTS & EMERGENCIES

All accidents, no matter how minor, involving County owned vehicles will be immediately reported to the shift supervisor. Employees will follow the policy on handling and reporting accidents as outlined in the Leon County Board of County Commissioners Safety Manual. This includes mandatory drug and alcohol testing of drivers as outlined. County employees involved in accidents while utilizing a County – owned vehicle is to only discuss the accident with the investigating law enforcement officer or an agent of Leon County. Do not offer an admission of guilt.

If an ambulance is involved in an accident while transporting a patient:

- Immediately notify control of the situation and request additional resources and the on duty supervisor to respond.
- Check the status of the crew and patient and provide first aid as required. If injured and it is safe to do so remain where you are, don't further injure yourself trying to provide care for others.
- Check the status of the other parties involved and provide first aid as required. Their care will be immediately turned over to other responding units when they arrive on the scene.
- Warn other motorists of the accident by using warning devices.
- Ensure the safety of everyone involved.
- Evacuate the ambulance if it is not safe for the patient or crew to remain in the ambulance.
- If it is safe for the patient and crew to remain in the ambulance, keep the patient in the ambulance until the back-up units arrive to provide assistance.
- Transfer the patient being transported to another unit for continuation of care / transport.

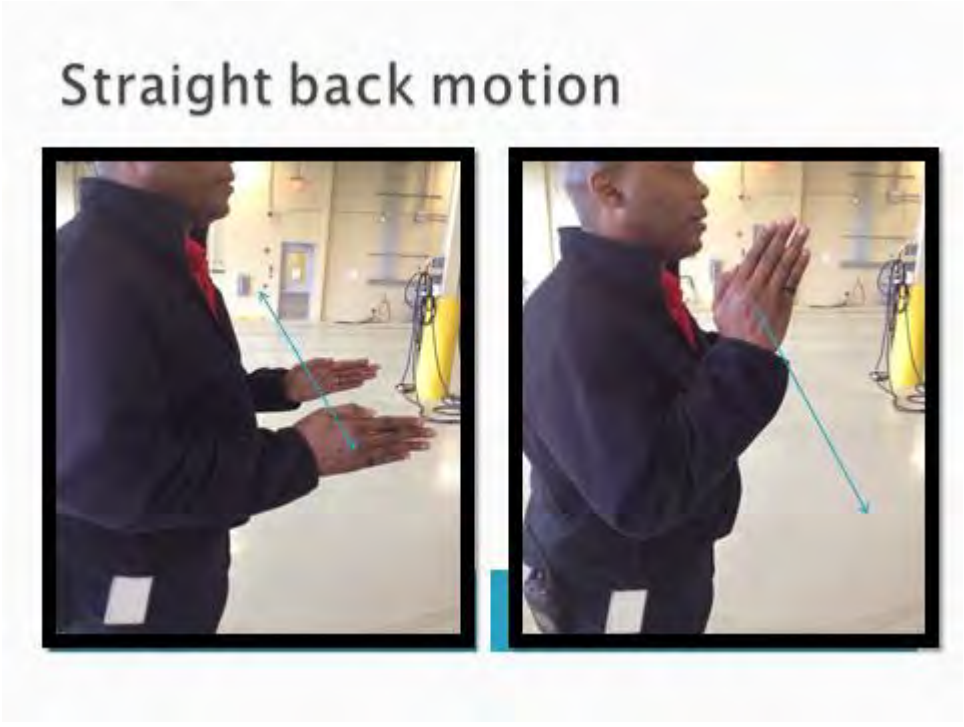
If an emergency vehicle is involved in an accident other than while transporting a patient:

- Immediately notify control of the situation and request additional resources and the on duty supervisor to respond to assist you. If responding to a call request that another unit be sent to that call.
- Check the status of the crew and provide first aid as required. If injured and it is safe to do so remain where you are, don't further injure yourself trying to provide care for others.

- Check the status of the other parties involved and provide first aid as required. Their care will be immediately turned over to other responding units when they arrive on the scene.
- Warn other motorists of the accident by using warning devices.
- Ensure the safety of everyone involved.
- Evacuate the ambulance if it is not safe for the crew to remain in the ambulance.

If a fire occurs on board any County vehicle the crew will assure that all passengers are immediately evacuated. Only after everyone's safety is assured and in cases of small fires should the crew attempt to extinguish the fire. Do not attempt to extinguish any fuel fires.

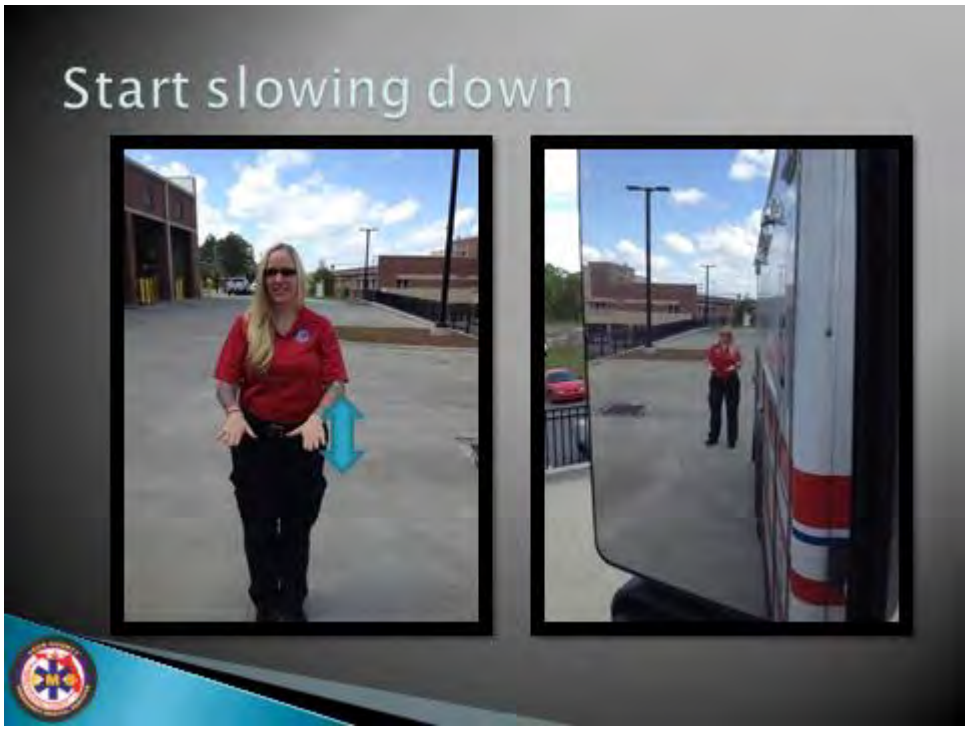
If you smell fuels vapors or observe fuel leaking:



- Stop the unit
- Turn off all electrical systems
- Remove the patients, passengers, and crew from the unit
- Keep the area clear
- Immediately notify the Shift Supervisor
- Request additional unit as needed to transport patient or respond to call

It is not possible to list all emergency situations that a crew may encounter. However, in all emergency situations the safety of the crew and the patient will always be the first consideration. Safe guarding property will always take a back seat to safe guarding life.

XI. DISCIPLINE



Any employee who fails to abide by any of the Leon County driving policies and procedures will be subject to disciplinary action up to and including termination of employment.

Attachment #1

Turning to left

Turning to right

Start slowing down

Distance to stopping

- Not all backing instances require a “start slowing down” or “distance to stopping” signal.
- Simple “all stop” signal will work.
- Use safe judgement of situation and hazards present to use correct signals.

LEON COUNTY E.M.S.

Standard Operating Guideline

Title:	Gasoline and Diesel Refueling
Effective:	June 1, 2005
Reviewed:	March 2005, June 2008, December 2012, December 2015, December 2018
Revision:	4
Pages:	3

I. PURPOSE:

To provide a policy governing the refueling of Leon County EMS vehicles

II. GUIDELINE:

To assure fleet readiness by assuring appropriate levels of fuel are maintained in all Leon County EMS vehicles.

III. PROCEDURE:

General Information

- All vehicle fuel levels will be maintained at no less than ½ total fuel volumes. All units will have a full fuel level before leaving headquarters. Units based at County stations will be maintained at a 3/4 level at their post.
- The employee fueling the vehicle is responsible for placing the correct fuel in the vehicle. Placing the incorrect fuel in the vehicle may result in disciplinary action.
- Only County owned vehicles (emergency or non-emergency) may be refueled using the County system.
- Do not fill tanks to the point of overflowing.
- Smoking and use of cellular / mobile phones during the refueling process are prohibited.
- Follow all posted safety directions
- Ambulances equipped with urea tanks shall have diesel exhaust fluid (DEF) added when the range is 500 miles, or under ½ full.

County fuel depots

- Routine refueling will occur at the County owned fuel depots at public works and the Sheriff's Office.
- Follow the directions on the fuel key reader located at these locations.

TFD fuel depot

- Routine use of TFD or City fuel depot is not permitted. They will only be used in extremely necessary situations. Prior to use supervisor approval must be obtained.
- Only County units can use the TFD fuel depots located at the County Fire Stations.
- Complete the fuel log located at the County Fire Station and an incident report indicating the reason for fuel acquisition at TFD or City depot, the amount of fuel obtained and the name of the supervisor who approved the acquisition.
- Refuel the vehicle by following the directions.

P-Card Use

- Each Paramedic is issued a county Purchasing or "P-Card." Any time that a County vehicle is traveling out of town the paramedic should use the P-card to refuel. Fuel can be obtained at any station that accepts the Visa P-card.
- Fuel vehicle and follow any specific instructions provided by attendant.
- Sign credit card receipt for purchases. Be sure to verify dollar amount and gasoline volume charged to the County account.
- Retain receipt and provide it to the EMS staff assistant at HQ for processing as soon as possible after the transport/
- Failure of any individual to turn in receipts for purchases may result in

disciplinary action and may result in payroll deduction of amount charged.

LEON COUNTY E.M.S.

Standard Operating Guideline

Title:	Vehicle Security
CAAS:	203.03.03
Effective:	January 2004
Reviewed:	May 2008, December 2012, December 2015, December 2018
Revision:	3
Pages:	1

I. PURPOSE:

The purpose of this Standard Operating Guideline is to ensure that all equipment as well as crewmembers' personal belongings cannot be stolen and/or tampered with.

II. GUIDELINE:

It is the guideline of LCEMS that every patient will receive a high level of consistent care. Therefore, all EMS equipment shall be secured when the vehicle is unattended.

III. PROCEDURE:

1. Responsibilities
   - A. It is the responsibility of both crewmembers to ascertain that all compartments of the ambulance are locked when the vehicle is unattended. Ambulances on scene out of eyesight of the crew are considered unattended and shall be locked as well.
   - B. This includes locking of all compartments when a vehicle is taken out of service at the end of a shift or taken to a service facility for repair.
   - C. Crew members are responsible for notifying the on-duty supervisor if the locks are not functional.

Standard Operating Guideline

Title:	Transportation – Destination Determination
Effective:	August 20, 2013
Reviewed:	December 2015, December 2018, November 2019, November 2024
Revision:	2
Pages:	3

Kim Landry, MD – Medical Director

I. PURPOSE:

The purpose of this guideline is to provide guidance to the paramedic on determining the most appropriate emergency department destination for patients from ambulance transports not originating at a hospital or emergency department.

II. GUIDELINES:

1. All trauma alert patients must be transported to the trauma center without exception unless the medic feels that the patient needs to go to the closest emergency department for airway stabilization. The only trauma center is Tallahassee Memorial Hospital – Main Campus.

2. All STEMI patients should be transported to a STEMI center with a cardiac catheterization lab unless the medic feels that the patient needs to go to the closest facility to be stabilized. The STEMI centers are HCA Capital Hospital – Main Campus and Tallahassee Memorial Hospital – Main Campus. The patient or the patient's family may choose which STEMI center to be transported to. If the patient has no preference the patient should be transported to the closest STEMI center.

3. All stroke patients should be transported to an appropriate level of stroke center as specified by the Florida Department of Health. The following matrix indicates the current facility stroke center designations.

Tallahassee Memorial Hospital – Main Campus	**Primary Stroke Center**
Tallahassee Memorial Hospital - Northeast Emergency Center	**No stroke services**
HCA Capital Hospital – Main Campus	**Primary Stroke Center**
HCA Florida Southwood Emergency Department	**Primary Stroke Center** – if requested by patient / family.
HCA Florida Lake Jackson Emergency Department	**Primary Stroke Center** – if requested by patient / family.

In instances where the stroke patient qualifies for transport to multiple emergency departments, the patient or the patient's family may select which emergency department the patient will be transported to. If the patient or the patient's family has no preference of emergency departments, the patient will be transported to the closest appropriate emergency department.

Patients qualifying for transport to a primary stroke center should not be transported past a main campus stroke center of the same hospital to be transported to a freestanding emergency department with stroke capabilities. If the patient chooses to be transported to a freestanding emergency department that qualifies as a primary stroke center, the patient must be informed that they may receive emergency treatment for their stroke in a similar manner as though being transported to the main campus of the primary stroke center; however, the patient / family must be informed and willing to accept the risk of a possible delay in definitive care due to the need to transfer to an inpatient hospital facility for admission.

4. All other patients not covered in items 1 – 3 above, that are of legal age, that are conscious, alert, and mentally competent will be taken to the emergency department of their choice.

    a. Freestanding Emergency Departments – patients with the following conditions should not be transported to a freestanding emergency department unless in the opinion of the attending paramedic immediate lifesaving care is required – **patients with severe hemorrhage; newborns; OB patients that are 14 weeks or more post gestation; psychiatric emergencies; patients that require physical restraints; patients with behavioral disorders including overdose, suicide attempts, and depression; and patients likely needing surgical interventions.** If the paramedic is unsure if a freestanding emergency department is an appropriate destination for the patient, they should consult the attending emergency physician at that freestanding emergency department.

5. If the patient has no preferred choice of emergency departments and cannot make a rational decision, then the patient will be taken to the closest emergency department capable of providing services for the patient. The closest emergency department will be determined by

the paramedic who will use their best judgment and experience to determine the closest emergency department.

6. If in the judgment of the attending paramedic immediate assistance is needed in the management of the patient, the patient may be taken to the nearest emergency department, regardless of the patient's choice and regardless of the patient's condition (for trauma patients this is limited to airway assistance).

LEON COUNTY E.M.S.

Standard Operating Guideline

Title:	Ambulance Passengers
Effective:	April 2012
Reviewed:	December 2012, December 2015, December 2018
Revision:	1
Pages:	1

I. PURPOSE:

The purpose of this Standard Operating Guideline is to provide guidance for crews in allowing and or disallowing additional non-patient passengers to accompany a patient to the hospital in the ambulance.

II. GUIDELINE:

The LCEMS crew will be responsible for determining what, if any, additional passengers will accompany a patient to the hospital in the ambulance. Transport of an additional passenger may be considered if the person is:

a. The parent or guardian of a minor child
b. An interpreter
c. Minor with a parent being transported, if this would cause the minor to be left unattended.
d. Family member with medical information
e. Caretaker
f. Law Enforcement Officer
g. Firefighter

Transportation of pets is prohibited in ambulances with the exception of service animals.

The paramedic in charge will determine where the passenger rides. Passengers should be seated in a fashion that allows for use of safety belts. Family members, walking wounded and other non-employees shall not be permitted to ride in the cab of the ambulance if they are visibly contaminated with blood or other body fluids, under any circumstances.

LEON COUNTY E.M.S.

Standard Operating Guideline

Title:	Student Riders
Effective:	April 2012
Reviewed:	December 2012, December 2015, December 2018, December 2024
Revision:	2
Pages:	2

I. PURPOSE:

To define guidelines for EMT and Paramedic students while riding with Leon County EMS.

II. GUIDELINE:

1. EMT and Paramedic students are allowed to perform BLS skills and/or procedures under the direct supervision of any Leon County EMS (LCEMS) EMT or Paramedic.
2. Paramedic Students are only allowed to perform ALS procedures during their scheduled clinical time while under the direct supervision of a Paramedic Preceptor or Supervisor. Students must be cleared by the Paramedic Instructor to do the individual skill prior to performing it on the ambulance.
3. No Paramedic/EMT student will be allowed to do any Paramedic procedure at any other time, specifically those individuals who are employed at LCEMS.
4. Students are required to wear their assigned student uniform when riding with EMS. The uniform should be clean and pressed and the student should be in compliance with LCEMS uniform and appearance guidelines. A student may be sent home by any employee for failure to comply with this guideline. The on-duty supervisor and the LCEMS clinical coordinator will be notified by e-mail when a student is sent home.
5. Students are required to remain free of Tobacco products while riding with LCEMS.
6. Students must don Traffic Safety Vests while working in traffic.
7. Students are required to arrive at HQ 15 minutes prior to the start of their shift. On-duty ambulances should not return to HQ for late students except at the discretion of the on-duty supervisor.
8. The LCEMS crew is responsible for ensuring the student is proficient with stretcher operations at the beginning of each shift.
9. TSC paramedic students are assigned preceptors that are responsible for completing the appropriate paperwork each shift. TSC EMT students and NFCC students should have their appropriate paperwork completed by the most senior, full-time paramedic on the ambulance.
10. Interventions performed by students should be documented accordingly in the Patient Care Report by adding “TSC Student” or “NFCC Student” to the ambulance crew.
11. The Paramedic/EMT overseeing the student during the performance of a particular skill is responsible for ensuring the skill/intervention is done appropriately and according to protocol. A Paramedic/EMT may refuse to allow a student to perform a skill/intervention at anytime if they are uncomfortable with the student’s proficiency.

12. All student riders should be treated professionally and respect. All LCEMS staff members are expected to behave in accordance with Leon County Board of County Commissioners Human Resource Policies and Procedures including;
    a. 2.02 Workplace Harassment
    b. 2.05 Nepotism
    c. 2.13 Safety
    d. Any student complaints regarding the behavior of any LCEMS employee will be investigated by the Deputy Chief of Clinical Affairs or his/her designee.

LEON COUNTY E.M.S.

Standard Operating Guideline

Title:	Patient Care Report Delivery to Receiving Facilities
CAAS:	201.03.02
Effective:	June 15, 2012
Reviewed:	December 2012, December 2015, December 2018, December 2024
Revision:	2
Pages:	2

I. PURPOSE:

To ensure delivery of accurate records of medical care given by LCEMS personnel in compliance with standard medical records practices.

II. GUIDELINE:

EMS patient care reports are to be completed on all patients whom LCEMS assesses, treats and / or transports. The patient care record in all instances will accurately describe the services provided to the patient, any and all pertinent scene information, an accurate and complete patient assessment and accurate and complete treatments. A copy of a completed report will be provided to the receiving facility at time of patient delivery whenever possible. Any crew being utilized within system status must be available for call after patient delivery and cleanup. In these instances a verbal report and/or preliminary copy of the patient care report will be given to a receiving RN or MD and a signature will be obtained on the patient care report whenever possible.

III. PROCEDURE:

1. Patient care reports or ambulance run reports are to be completed as soon as possible after the incident. This assures completeness and accuracy. At no time shall patient information, notes or reports be removed from LCEMS or taken home for completion.

2. It is the responsibility of the crew member who cared for the patient to complete the patient care record, and assure delivery to the receiving facility.

3. The patient's name and incident number will be entered into the LifePak 15 for all patients who are placed on the cardiac monitor.

4. For patients who are transported. A completed Ambulance Run Report is to be left at the following locations at time of patient delivery to that institution:

A. TMH - Bixler Emergency Center, TMH Northeast ER, HCA Capital Hospital: Once an Ambulance Run Report is completed, a copy is automatically faxed to the receiving facility. Hospital staff may, at any time, log on to ESO to obtain a completed Ambulance Run Report.

B. Any VA Hospital - Leave a completed copy of the Ambulance Run Report at the "Travel Officer's" office (must have beginning and ending odometer readings).

C. All Other Hospitals - Leave a copy of the completed Ambulance Run Report with the facility.

5. Any crew being utilized in system status must be available after patient delivery and equipment clean-up. If the patient care report is not complete, a verbal report and/or a preliminary copy of the patient care report must be given to the receiving RN or MD including; incident location, incident type, date, time, crew members, agency, any available patient demographics, medical history, chief complaint, assessment findings, vital signs, clinical impression, treatments, responses to treatments, disposition of patient, and date/time report was given to the receiving facility.

LEON COUNTY E.M.S.

Standard Operating Guideline

Title: Lateral Transfer and Relocation of Patients

Effective: July 5, 2012

Reviewed: December 2012, December 2015, December 2018

Revision: 1

Kim Landry, MD – Medical Director

Pages: 1

I. PURPOSE:

The purpose of this guideline is to delineate certain situations where the "lateral" transfers of bedridden patients may be indicated and the variance of destination may be a facility other than a hospital. This consideration is intended to move a patient to a substantially safer environment than he/she is currently in during a severe weather event.

II. BACKGROUND:

At times, during periods of mandated emergency evacuation of special needs patients, it may be necessary for EMS to assist in relocating a bedridden patient to a special needs shelter for the expected duration of a weather event or named storm that impacts this region. In this situation, where no other viable means of horizontal patient movement exist, Leon County EMS may be tasked with missions of this type. Each mission will be evaluated on a case by case basis in order to determine what is in the best interest of the patient.

III. GUIDELINE:

1. This variance may only occur during times when the county Emergency Operations Center (EOC) is fully activated and a liaison from EMS is present in the EOC.

2. This variance may only apply when prevalent conditions are suitable enough that safe transport of the patient can take place.

3. The variance may only apply when the patient's medical condition is stable and the patient is a candidate for the special needs shelter environment.

4. It is understood that a transport may be aborted due to dangerous weather conditions that may place the patient or transport crew in jeopardy.

5. An EMS Patient Care Report is still required for any transport under this variance.

6. Patients that are unable to remain in their own dwelling due to evacuation orders and whose healthcare needs exceed the capability of the special needs shelter will be transported to the closest hospital that can meet their need.

Standard Operating Guideline

Title:	Road Closures/Hazards
Effective:	December 11, 2012
Reviewed:	December 2012, December 2015
Revision:	N/A
Pages:	1

I. PURPOSE:

The purpose of this guideline is provide a means of notifying crew members and dispatchers of road closures or hazards/

II. PROCEDURE:

A. Advance notice of scheduled road closure
- Any staff member receiving notification of an upcoming scheduled road closure will email notification to the EMS_List
- Road Closure notification should include;
  - location of closure
  - duration of closure
  - any informative maps

B. Emergency Road Closures
- Includes closures for downed power lines or traffic investigations
- Any LCEMS employee noting a road closure due to hazards that they have not previously been informed of shall promptly notify the system status controller of the location, type of hazard, and agency handling road closure.
- Upon receipt of notification, the controller shall notify all on duty crews of the location of the closure and alternate routes when necessary.

LEON COUNTY E.M.S.

Standard Operating Guideline

Title:	Tactical Medical Program
Effective:	June 1, 2015
Reviewed:	December 2018, September 2019
Revision:	1
Pages:	6

I. PURPOSE

To provide immediate and continued medical support for the Leon County Sheriff's Office (LCSO) Special Weapons and Tactical (SWAT) Team.

II. GUIDELINES

Tactical Medical Program (TMP) paramedics will accompany SWAT members on call-outs and training for the primary purpose of rendering emergency and preventative operational medical care to injured victims. These victims may include law enforcement officers and civilians. TMP paramedics will operate in the cold, warm, and hot zones of an event and will be backed up in the cold zone by LCEMS ambulance when a patient presents themselves to the TMP paramedic. The TMP paramedic may be armed, but continuous 360 degree protection will be provided by the SWAT Team members. TMP paramedics will receive training to be able to operate in austere and hostile environments.

III. SELECTION & REQUIREMENTS

A. Applicant Requirements

1. Minimum of one (1) year of service as a Paramedic I at LCEMS and must currently be employed with LCEMS as a Paramedic I with demonstrated clinical experience
2. Approval and endorsement by the LCEMS Medical Director as a Tactical Medic.
3. Letter of intent must be submitted by the candidate indicating the candidates desire to be considered for participation in the Tactical Medical Program. This letter must be submitted to the Program Coordinator not less than 15 days prior to the announced date of the program testing.
4. Written letter of recommendation from your current shift Captain.
5. Not on probationary status with EMS.

6. Endorsement of the EMS Tactical Medical Program Administrator.
7. Overall work performance, behavior, attitude, clinical skills, and professionalism during regularly assigned duties must be consistently demonstrated at "satisfactory" levels in all areas.

B. Participant Selection

1. Successful completion of physical agility testing as conducted by LCEMS and LCSO.
2. Successful completion of an interview administered by LCEMS and LCSO.
3. Background screening as conducted by LCSO.
4. Successful completion of a written examination as administered by LCEMS may be required.

C. Participant Minimum Qualifications

1. Successful completion of the Florida SWAT Association Tactical Medic Course.
2. Successful completion of the Basic SWAT Tactics Course provided by LCSO.
3. Attendance at required SWAT training.
4. Attendance at all required LCEMS training.
5. Maintained standard of physical conditioning.
6. Continued endorsement of the SWAT Team Leader.
7. Continued endorsement of the Tactical Medic Team Leader and Administrator.
8. Continued endorsement of the LCEMS Medical Director.

As part of the LCSO screening process, Tactical Medical Program candidates and participants will be subject to annual medical physical and psychological exams. Failure to submit to such testing as required will result in immediate probation from the Tactical Medical Program. The program coordinator and administrator will determine if the TMP medic will be eligible to continue in the program after completion of all requirements

IV. FUNCTIONS

1. Provide medical treatment to injured team members during SWAT operations. Provide medical treatment to non-law enforcement personnel injured during SWAT operations.
2. Prepare medical surveillance, rehabilitation, and medical pre-plans to assess risk to mission success and team welfare. A Medical Threat Assessment (MTA) document will be created for tactical and training events.

3. Serve as the medical advisor to the SWAT Team Commander. The TMP paramedic will serve as a health information resource to the team and act as the "Commander's Medical Conscience".
4. TMP paramedics will ensure that team members and civilians are afforded optimum treatment and are transferred in a timely manner to the appropriate level of ongoing medical care.

V. TACTICAL MEDIC RESPONSES

The following are incidents in which a tactical medic may be utilized. Note that when there are conflicting needs for personnel in any of the listed situations, the needs of LCEMS will take priority.

1. High risk warrant service (HRW)
2. Hostage situation
3. Barricaded suspects
4. Armed felony suspect arrest
5. Dignitary protection details
6. Civil disturbances/demonstrations
7. Active shooter incident
8. Terrorist acts
9. Other incidents not listed here but deemed necessary by the Sheriff or SWAT Commander.

VI. CHAIN OF COMMAND AND AUTHORITY

1. During SWAT operations, the TMP medic shall be under the direct command of the SWAT Team Leader.
2. During SWAT operations, the SWAT Commander shall have final authority regarding tactical decisions. This includes patient care mitigation, to the extent team members or the mission may be in danger.
3. The TMP medic shall make and implement all medical decisions as the attending medical practitioner providing it does not jeopardize team safety, mission accomplishment, or conflict with order given by the SWAT Team leader or SWAT Commander.

4. All LCEMS personnel, while working with LCSO SWAT Teams, will always be employed by Leon County EMS and will be subject to all protocols and guidelines for LCEMS personnel.

VII. CONFIDENTIALITY AND OPERATIONAL SECURITY POLICY

1. It is recognized that TMP medics will be exposed to confidential information during TMP participation. It is further recognized that TMP medics and SWAT Team members will be held to strict standards of confidentiality and operational security. Confidential information will include, but is not limited to, SWAT tactics, SWAT operations, the identities of SWAT team members and undercover law enforcement personnel and all medical information.

2. Unless otherwise directed by SWAT Command, TMP medics and SWAT Team members will not communicate with the media

VIII. CALL-OUT PROCEDURE

1. LCSO will notify TMP paramedics via SMS Text/Phone.
2. The Tactical Medic Team Leader or designee will assess the medical needs for the call-out and advise the TMP Coordinator and Administrator. The TMP medic will be paged and will call the Team Leader. If the Team Leader is unreachable, then call the TMP Coordinator. At this time the medic will be advised whether or not to respond. If a medic is needed, they will then be advised of where to meet the team.
3. TMP medics will assemble their equipment. The TMP medic will then proceed to the Sheriff's Office or specified staging location and meet with the rest of the team.
4. The Tactical Medic Team Leader or designee will coordinate with the Captain and Controller on duty if ambulances are needed to standby or transport patients.
5. Control will create a call using the Sheriff's Office as a location and nature of call as SWAT.
6. Prior to the call being closed out, Control will be notified of the corrected incident address and any other needed information. This will be the actual address of the SWAT incident for reporting purposes.

IX. CALL-OUT EQUIPMENT

TMP paramedics are responsible for the maintenance and security of their equipment. For call-outs, the following equipment is necessary for the TMP paramedic to bring with them:

1. All personal safety equipment including tactical vest
2. Medical bags
3. AED, ProPack, batteries
4. EMS radio with charged battery
5. EMS and SWAT ID's
6. Other communications, tactical, medical equipment as necessary

X. CALL-OUT OPERATIONS

At the beginning of each SWAT call-out operation, TMP medics will be issued a weapon from the SWAT commander or designee and will maintain the weapon for the duration of the call-out.

During SWAT call-out operations, TMP medics will participate in whatever part of the assault that the Commander feels necessary. The zone of care the medic is assigned to may be dependent on the level of training and experience of the medic.

While involved in SWAT operations, the TMP medic will be under the command of the SWAT Commander. The medics on scene will make all medical decisions. The SWAT team's safety should drive all medical decisions.

TMP medics may be armed but will be accompanied at all times by an armed SWAT team member without exception. TMP medics will always be clearly marked as medics so that all SWAT team members will know that this is a medical team member that constantly needs protection in all circumstances.

If the SWAT Commander feels that the team's safety would be compromised in trying to reach a victim, then the victim will remain in place until access can be made with greater safety. Remote Assessment Methodology will be in place.

Once a victim has been accessed, the TMP medic will immediately begin assessment of the victim's injuries and initiate the appropriate treatment for the threat level. Other SWAT team members will provide assistance and cover if necessary.

If hospital transport of a victim is necessary, the TMP paramedic will ask Command to contact the Consolidated Dispatch Agency (CDA) to request an ambulance be sent to the

designated response area. Once the transport unit arrives at the designated response area, the TMP paramedic will transfer the victim to the transport unit. The TMP paramedic will need to make a decision to relinquish care or ride in with the victim. If the incident is still considered “active” or “hot” then the care should be transferred immediately to the transporting unit. If there is little threat of any additional victims, then it may be advantageous for the TMP medic to continue care to the hospital.

In many cases, TMP paramedics should remain on the scene of the incident until its completion to provide care for additional casualties. Exceptions to this may occur, however sufficient emergency medical coverage must be maintained on all operations as necessary.

In the event that a SWAT team member is injured, a TMP paramedic should accompany that team member during transport to the appropriate emergency department. The TMP paramedic should act as the SWAT team’s medical advocate and liaison, keeping the team members family, friends, and coworkers informed of their medical status.

Operational Security (OPSEC) is the responsibility of each individual team member. The events of a call-out or training will remain with the team. The purpose of this exists for the continued safety of all team members and the SWAT team as a whole. Nonspecific answers can be given to any inquiries pertaining to the SWAT team.

LCEMS patient care reports will be filled out on all patients treated and/or transported by the TMP medic. These reports will probably need to be filled out after the end of an incident but before the TMP medic ends his or her SWAT shift.

TMP medics will maintain appropriate HIPAA confidentiality and not disclose protected patient information even to SWAT team members unless it is necessary within the boundaries of an active law enforcement investigation.

LEON COUNTY E.M.S.

Standard Operating Guideline

Title: Transportation of Service Animals

CAAS:

Effective: January 25, 2018

Reviewed: N/A

Revision: N/A

Pages: 3

I. PURPOSE:

The purpose of this Standard Operating Guideline (SOG) is to provide Leon County Emergency Medical Services (LCEMS) staff with guidelines for handling a request for transport of individuals that are assisted by Service Animals.

II. GUIDELINE:

Animals that meet the definition of a Service Animal are permitted to be transported with the patient in the ambulance, unless the accommodation cannot be made due to specific circumstances as listed in this policy, such as safety. Patient and crewmember safety is the main concern for LCEMS. Any incidents during which safety is compromised must be documented and addressed immediately as referenced in SOG 112.00, Incident Reporting. All EMS personnel shall be trained in this policy and on how to properly leash and secure a Service Animal during transport.

III. MISCELLANEOUS:

A. Definitions

Service Animal:

Under the Americans with Disabilities Act (ADA), a Service Animal is defined as a dog that has been individually trained to do work or perform tasks for an individual with a disability. The task(s) performed by the dog must be directly related to the person's disability. Emotional support animals that are not trained to perform a specific task are NOT considered to be Service Animals. Dogs used for law enforcement purposes are NOT considered to be Service Animals.

IV. PROCESS:

A. Transport of Service Animals:

1. Service Animals are permitted to accompany the patient in the ambulance unless the presence of the Service Animal will disrupt emergency or

urgent patient care or there is some basis for the crew members to believe that the safety of the crew, the patient, or others would be compromised by the presence of the Service Animal in the ambulance., such as the Service Animal is out of control and the handler is unable to effectively control it or the Service Animal is not housebroken.

2. EMS personnel may ask if an animal is a Service Animal or ask what tasks the animal has been trained to perform but cannot require special ID cards for the animal or ask about the person's disability if it is not related to medical history. No other questions may be asked related to the service animal and animals cannot be required to perform the specific tasks. Service animals are not required to wear a vest, ID, or specific harness.

3. The patient is responsible for caring for and supervising the Service Animal.

4. Allergies and fear of animals are generally not valid reasons for denying transport of Service Animals or refusing service to patients with Service Animals.

5. Make alternative transport arrangements for the Service Animal under the following circumstances: the patient is unconscious; its presence would compromise the care of the patient or the safety of the crew during transport; or cause damage to the ambulance or equipment. Unless emergency conditions dictate otherwise, every effort must be made to reunite the patient with the Service Animal at the time of the patient's arrival at the hospital or other destination.

6. If one of the above reasons indicates that the Service Animal cannot be transported in the ambulance, acceptable alternative methods of transporting a Service Animal to the receiving facility include, but are not necessarily limited to, family members, friends, neighbors of the patient, animal control, or law enforcement. Attempt to obtain and document the consent of the patient for transport of the Service Animal by such person. If no individuals are available to transport the Service Animal, contact the Captain on duty to request additional manpower to respond to either transport the Service Animal or stay with the animal so the patient can be transported in a timely manner.

7. When transporting a Service Animal in the ambulance, the Service Animal must be tethered by a leash to a stationary object within the ambulance module at all times. Leashes are provided in each EMS unit. Service animals are not to be petted or distracted in any way.

8. EMS providers must document on the patient care report any instance where the patient utilizes a Service Animal and document on the patient care report whether or not the Service Animal was transported with the patient. If the Service Animal is not transported with the patient, a separate Incident Report must be filled out by the EMS provider describing the reasons that the Service Animal was not transported in the ambulance with the patient.

LEON COUNTY E.M.S.

Standard Operating Guideline

Title:	Whole Blood Program
Effective:	February 22, 2024
Reviewed:	n/a
Revision:	n/a
Pages:	2

I. PURPOSE

Leon County EMS has an agreement with OneBlood to allow member EMS agencies to store whole blood in the field for immediate use by paramedics trained and authorized by our medical director to administer blood.

The purpose of this document is to outline the approach for storing and exchanging whole blood. It will not address specific patient care protocols for administering blood.

II. GUIDELINE:

Storage Procedure

1. Whole blood must be stored in a secure manner with access restricted to authorized personnel only. All blood stored by LCEMS will be housed in an approved refrigerator or cooler and maintained at a storage temperature between 2º - 6º Celsius and in accordance with applicable FDA regulations.
2. Coolers will be validated by LCEMS and continual temperature logs will be maintained by LCEMS at no less than 15 minute intervals. Freezer inserts shall be replaced at a minimum every 24 hours. An alarm/notification threshold will be set at less than 2 and greater than 6 degrees to allow corrective action prior to exceeding the temperature threshold. Temperature logs will meet any additional requirements set forth by OneBlood and made available to OneBlood upon request.
3. No food or drink should be stored in any containers near the blood cooler. Food or drink coolers should be kept in a separate compartment in the vehicle and in logistics.
4. In addition to utilizing an approved system to continually monitor temperature, LCEMS will also inspect the temperature dot on each unit of blood to ensure the temperature dot is intact and indicating appropriate temperature at the beginning of each shift and before any transfusion.
5. If the temperature monitoring system shows blood deviated from the 2-6 degree (C) storage range for greater than 30 minutes, the affected unit will be discarded and LCEMS will place an order in Blood Hub for OneBlood to

replace the unit ASAP.

6. If the temperature dot on the unit indicates the blood is outside the proper temperature, the unit will be discarded and LCEMS will place an order in Blood Hub for OneBlood to replace the unit ASAP.
7. When a unit is 3 days before expiration, an order will be placed in Blood Hub for OneBlood to provide a new unit.

Resupply Procedure

This section details the blood resupply process at LCEMS. The same process will take place regardless of the reason for resupply.

LCEMS will maintain a resupply process in their protocols that meets the following minimum requirements.

The common reasons for resupply:

1. The unit is near its expiration (and needs to be replaced).
2. The blood unit was transfused in the field on a patient (and needs to be replaced).
3. The blood unit has been out of temperature range, either per the approved continual temperature monitoring device or the temperature monitoring device located on the blood product indicates the product is outside the proper temperature range.

The location of blood exchange

Blood will be exchanged with OneBlood. Blood will be shipped by OneBlood to the TMH blood bank and will be picked up by LCEMS personnel at:

Tallahassee Memorial Blood Bank
1300 Miccosukee Road
Blood Bank
Tallahassee, FL 32308

The timing and method of used or damaged blood exchange

1. Once a unit is used or damaged, an order will be placed in Blood Hub. The replacement unit will be available in 1-2 days.

Post Administration Support

Following the administration of blood, all required information will be entered into Blood Hub. This would routinely include the patient demographics and any other required notifications such as suspected transfusion reaction. Additional information required by OneBlood such as “lookbacks” will be provided to LCEMS notification information in Blood Hub. All incidents involving blood administration or damage/loss of blood will be reviewed by the Medical Director for quality assurance purposes.

LEON COUNTY E.M.S.

Standard Operating Guideline

Title:	Ballistic Armor
Effective:	April 6, 2020
Reviewed:	N/A
Revision:	1
Pages:	4

I. PURPOSE: To establish guidelines for the use, storage, inspection, and cleaning of Ballistic Armor vests and helmets.

II. DEFINITIONS:

Active Shooter/Hostile Event (ASHE) - An active shooter/hostile event (ASHE) situation describes any incident in which there is an ongoing hostile threat to public and agency safety. These events will often involve firearms and/or explosives but may contain any number of improvised devices which pose a threat to the safety of civilians and responders. These are rapidly evolving events and may even meet the definition of a Complex Coordinated Attack (CCA).

Cold Zone – Area where first responders can operate with minimal threat to personal safety and where triage, treatment, and transport occur.

Hot Zone – A dynamic area of imminent danger that moves with the threat.

Rescue Task Force (RTF) – In the context of ASHE, an RTF is an operational model that facilitates entry into a warm zone by EMS providers, protected by law enforcement, to provide care as early and as close to the point of wounding as possible, with the intent of increasing survivability. The RTF is one model of delivering “escorted warm zone care.”

Staging Area – Designated area for equipment and personnel to assemble before use.

Warm Zone – Transitional area between the hot zone and the cold zone where collection or patients, rapid triage, and evacuation occur.

III. GUIDELINE:

Ballistic Armor is to be worn as force protection in order to increase personnel safety in warm zone areas and in certain cold zone areas. Only SWAT medics working directly with the SWAT

team with full SWAT equipment will work in a hot zone. All SWAT medics not working directly with the SWAT team and with full SWAT equipment will follow these established guidelines.

A. Ballistic Armor including vests and helmet will always be worn when responding in any warm zone. This will include:
    a. Active Shooter/Hostile Events (ASHE)
    b. Civil Disturbances
    c. Any time the incident commander deems it necessary.
    d. Any time the crew or supervisor deems it necessary due to a reasonable concern for safety.
B. Ballistic Armor including vests only will always be worn when responding in the following cold zones:
    a. Any incident that includes a weapons threat of any type.
    b. Any known violent incident.
C. Ballistic Armor including vests only should be considered by all personnel when there is a reasonable concern for safety.

IV. PROCESS:

A. Donning Ballistic Armor
    a. Check for appropriate fit by donning the system complexly. Begin with donning the vest, open side panels from the front, don overhead placing the head through the shoulder straps. Attach the left-side panel to the front first then attach the right-side panel over the left.
    b. Donning of the equipment should take place as soon as possible after receiving the call. Crews may need to stage temporarily to don the equipment. Personnel should arrive at the call already wearing ballistic armor.
    c. Ballistic armor is designed to be worn over uniform shirts, not underneath. All EMS personnel should ensure that identification as EMS personnel is prominent. Wearing and use should be per manufacturers specifications.
    d. Once the use of ballistic armor is determined, all crew members shall don equipment for an equal level of protection and all incoming units should be notified of its use.
    e. The use of approved jackets, bunker gear, and safety vests over the ballistic armor is appropriate. Environmental conditions should be considered by

supervisors but shall not supersede the need for safety. Supervisors should consider rotating crews as necessary to limit heat related issues.

f. **Front/Chest Plate –** The top of your chest plate should be at the suprasternal notch which is also known as the jugular notch. Tracing the sternum with a finger superiorly, the soft spot you reach at the top of the sternum is the suprasternal notch. The chest plate should ride at least level with the sternum while standing. An easy way to do this is to place a finger in your suprasternal notch and position the plate such that the top of the plate touches the bottom of your finger.
g. **Rear/Back Plate –** Find the most prominent bony eminence at the base of your neck. Count down two bony spinousus (or measure down about an inch) and that should be above the level of the superior aspect of the sternum. Positioning at least this high will ensure your entire heart and great vessels are protected from a shot to the back.
h. Ballistic armor shall stay donned on personnel until the units have left the scene and have returned to a safe area or Incident Command has determined the scene to be stabilized and the threat of violence has been eliminated.

B. Equipment Inspections
   a. All body armor shall be inspected at the beginning of each shift.
   b. All body armor shall be inspected after each use.
   c. All body armor shall be inspected after each cleaning.
      i. Visually inspect the complete set for wear, scratches, discoloration, frayed harness webbing, straps, or other damaged components.
      ii. Inspect for overall cleanliness.
      iii. Ensure hard plates, components are securing devices are properly placed. Hard plates should not be removed. The specific placement and orientation of the hard plates is vital to their effectiveness.
      iv. Ensure fit of assigned user.
      v. Store in a ready condition.
   d. At the beginning of each shift, each crew member will inspect and adjust ballistic armor as needed for an appropriate fit. Adjustments should be made in accordance with the manufacturer's recommendations.
   e. Fitting vests – refer to the manufacturer's instructions.
   f. Fitting helmets – refer to the manufacturer's instructions.

C. Storage

Equipment should be stored in the cab of the unit. There should be one set of equipment for each crew member. There should also be one set of equipment for each

student or ride along. The helmet should be stored face up to avoid damage to housings and adjustment devices.

D. Cleaning
Cleaning of ballistic armor should be done in accordance with the manufacturer's recommendations. Mild soap and water or anti-microbial soap with a damp cloth may be used. **DO NOT USE BLEACH** on any part of the vest or helmet. Do not submerge any part of the vest or helmet in water.

V. Procedure:

Follow all recommendations of the manufacturer of the vests and helmets.

LEON COUNTY E.M.S.

Standard Operating Guideline

Title: Certification, Ongoing Training, and Credentialing

CAAS: 106.06.02
106.06.03

Effective: January 2004

Reviewed: May 2008, December 2012, January 2013, March 2015, December 2018, August 2020, August 2024

Revision: 5

Pages: 3

I. PURPOSE:

The purpose of this Standard Operating Guideline is to outline the process for monitoring certification requirements for both Paramedics and EMTs.

II. GUIDELINE:

All requirements of the State of Florida Department of Health, Bureau of Emergency Medical Oversight will be met.

III. PROCEDURE:

1. Education and Certification requirements
   A. Emergency Medical Technicians working under the direction of the Leon County EMS Medical Director will be required to meet certain educational and certification requirements:
      - The EMT shall maintain current AHA CPR for the Healthcare Professional or equivalent including the use of an AED (or equivalent as approved by medical director).
      - 30 hours of CEUs as approved by the Medical Director in in-service material, either in person, online, or by video, bi-annually (or more frequently as scheduled by the training officer or medical director) 2 hours of which must be in pediatric emergencies..
      - Maintain current EMT certification issued by the State Department of Health, Office of Emergency Medical Services.
      - Maintain current certification in ITLS (or equivalent as approved by medical director).
      - National Incident Management System courses; ICS 100, ICS 200, ICS 700, and ICS 800.
      - Annual refresher training on the following subjects; Bloodborne Pathogens, Airborne Pathogens, Hazardous Materials, Patient Privacy, Health Care Fraud and Abuse, and Anti-kickback Law.

- Copies of renewed certifications, immunizations, and/or licenses must be submitted to the EMS Training Office no later than the 15th day of the month of expiration of the one or ones currently on file.

B. Paramedics working under the direction of the Leon County EMS Medical Director whose primary responsibilities involve direct patient care will be required to meet certain educational and certification requirements.
   - The Paramedic shall maintain current AHA CPR for the Healthcare Professional or equivalent including the use of an AED (or equivalent as approved by medical director).
   - The Paramedic shall maintain current AHA ACLS Provider or equivalent (or equivalent as approved by medical director).
   - The Paramedic shall obtain and maintain current International Trauma Life Support provider status (or equivalent as approved by medical director) within one year of employment.
   - The Paramedic shall obtain and maintain current Pediatric Advanced Life support provider status (or equivalent as approved by medical director) within one year of employment.
   - 30 hours of CEUs as approved by the Medical Director in in-service material, either in person, online, or by video, bi-annually (or more frequently as scheduled by the training officer or medical director) 2 hours of which must be in pediatric emergencies.
   - The Paramedic shall maintain current paramedic certifications issued by the State Department of Health, Office of Emergency Medical Services.
   - National Incident Management System courses; ICS 100, ICS 200, ICS700, and ICS 800.
   - Annual refresher training on the following subjects; Bloodborne Pathogens, Airborne Pathogens, Hazardous Materials, Patient Privacy, Health Care Fraud and Abuse, and Anti-kickback Law.
   - Copies of renewed certifications, immunizations, and/or licenses must be submitted to the EMS Training Office no later than the 15th day of the month of expiration of the one or ones already on hand.

C. Charge Paramedics and EMS Dispatchers working under the direction of the Leon County EMS Medical Director will be required to meet additional educational and certification requirements.
   - The communications employee shall maintain current 911 Public Safety Telecommunicator.
   - The communications employee shall maintain current International Academy of Emergency Medical Dispatch certification as an Emergency Medical Dispatcher (EMD). Certification as and EMD-Q or EMD instructor may substitute for the EMD certification.

D. Employees acting in the capacity of a supervisor, to include; Chiefs, Deputy Chiefs, Majors, Captains, and Lieutenants will be required to meet certain educational and certification requirements in addition to the above listed requirements:
    - National Incident Management System courses; ICS 300, ICS 400, and other supporting ICS courses involving ESF 8, contingency planning, and multi-casualty incidents.

E. Certification standards will be reviewed on a monthly basis via a spreadsheet monitored by the training officer. In addition, CE Broker will be utilized for the monitoring of CEUs acquired by each EMT and paramedic.

II. RESPONSIBILITY:

1. It is the responsibility of the employee to maintain any level of certification required by Leon County and all applicable laws for the employee's position. Failure to maintain current and valid certification shall result in the employee not being permitted to work and may result in disciplinary action up to termination.

2. The employee is responsible to submit current and valid certifications or proof of training to the Staff Assistant assigned to track employee certifications before the expiration of the certification or training and monitor their individual CE Broker Account.

3. The positions of Paramedic and EMT have been designated as fluid positions. The designation of a position as a Paramedic or EMT may be determined by the certification held by the incumbent or designated candidate for hire. When employees who are EMTs receive their Paramedic certifications, their titles and grades will be changed to that of Paramedic subject to the approval of Administration. It is the responsibility of the EMT who has become a Paramedic to notify the Deputy Chief of Operations of their new status and provide the required documentation.

Title:	Clinical Standards – Performance Indicators and Thresholds
CAAS:	201.06.02
Effective:	January 15, 2010
Reviewed:	December 2012, December 2015, December 2018
Revision:	2
Pages:	2

I. PURPOSE:

Part of the Integrated Quality Management (IQM)process ,as outlined in SOG 504.00, will include monitoring of measurable clinical indicators that are regularly assessed for compliance with established thresholds. As in IQM, this review and evaluation is primarily the function of the Medical Director and the Deputy Chief of Clinical Affairs; however it also includes supervisors, Field Training Officers, management, and field personnel.

II. GUIDELINE:

The following clinical indicators will be monitored:

A. Documentation: All calls for service will have a complete patient care report associated with the call, 100% of the time. The on-duty supervisors will be primarily responsible for monitoring this indicator on a daily basis.

B. Timely and accurate patient assessments: On ALS calls, the Paramedic will complete an ALS assessment within five minutes of making patient contact, at minimum 95% of the time.

C. Cardiac Interventions: On calls where the administration of aspirin is indicated, the Paramedic will administer aspirin within ten minutes of making patient contact, at minimum, 95% of the time.

D. Cardiac Interventions: On calls where obtaining a 12 Lead EKG is indicated, the Paramedic will obtain the 12 Lead EKG within fifteen minutes of making patient contact, 95% of the time.

E. Cardiac Interventions: On calls where the Paramedic declares the patient as having a possible “STEMI,” the Paramedic will notify the receiving facility within ten minutes, 100% of the time. Additionally, the Paramedic will transmit a 12 Lead EKG to the receiving facility 100% of the time.

F. Intravenous Access: On calls where obtaining IV access is indicated, the Paramedic will have an 80% success rate out of all patients with attempted IV’s.

G. Airway Management: On all calls requiring active airway assistance, all field personnel will have 100% success rate with successfully managing the airway.

H. Airway Management: On calls where endotracheal intubation is required, the paramedic will have an 80% success rate at placing the endotracheal tube. Esophageal intubations will be recognized by the Paramedic within fifteen seconds, 100% of the time.

I. Trauma Alerts: On calls where the patient meets state trauma alert criteria, the Paramedic will notify the receiving facility (via dispatch) of the trauma alert within ten minutes of recognizing the patient meets criteria, 100% of the time.

J. Stroke Alert: On calls where the Paramedic identifies a patient with signs and symptoms of a stroke, when onset is within the current accepted window, the Paramedic will notify the receiving facility within ten minutes of recognizing criteria is met, 100% of the time.

K. Patient Refusals: On calls where the Paramedic makes patient contact, yet does not transport the patient, the Paramedic will give a complete radio report to the acting supervisor/ system status controller, 100 % of the time.

L. Other clinical indicators will be monitored as requested by the Medical Director or at the direction of the Deputy Chief of Clinical Affairs.

III. PROCEDURE:

Patient care reports will be audited using the electronic reporting system to identify calls where the above listed indicators were not in compliance with listed thresholds. Calls out of compliance will be automatically routed to the Medical Director and Deputy Chief of Clinical Affairs or their designee for IQM review.

Title:	Communications - Employee Training
CAAS:	204.04.01
Effective:	June 10, 2009
Reviewed:	December 2012, December 2015, December 2018
Revision:	2
Pages:	1

I. PURPOSE:

Members working in the Leon County EMS positions at the Consolidated Dispatch Agency (CDA) are responsible for the minute to minute operation of the service. All calls for service are handled and dispatched through the CDA.

II. GUIDELINE:

It is the guideline of LCEMS that every person working in the CDA will undergo training.

III. PROCEDURE:

- Training is coordinated through the Training /IQM manager as well as the Captain responsible for Communications.
- Employees working in the LCEMS dispatch positions in the CDA shall be certified in the International Academy of Emergency Dispatch's Emergency Medical Dispatch protocol.
- All employees working the LCEMS dispatch positions in the CDA shall obtain the State of Florida 9-1-1 Public Safety Telecommunicators (PST) certification within 1 year of initial training. Employees cannot work as a System Controller without the PST certification.
- After EMD certification, the candidate is oriented to the Computer Aided Dispatch (CAD) program.
- After orientation to the general functionality of CAD or participation in a 1 day CAD Workshop, the candidate is scheduled for orientation shifts as a third person working in communications with the System Controller and EMT-Dispatchers, learning the various position specific duties and responsibilities.
- During the orientation period, the member and the System Status Controller will complete a communications center orientation check-list, as well as Daily Observation Reports for each shift worked.

- The completed check-list with the Daily Observation Reports is returned to, and retained by, the Community Engagement and Organizational Development Major or the Captain responsible for Communications.

Standard Operating Guideline

Title:	Interactive Quality Management
CAAS:	201.06.01
Effective:	June 1, 2005
Reviewed:	March 2005, December 2012, December 2015, December 2018
Revision:	3
Pages:	2

I. PURPOSE:

The Interactive Quality Management (IQM) program exists to provide optimal care for all pre-hospital patients through a process which provides a mechanism for review and evaluation of procedures, documentation, and overall system operations. This review and evaluation is primarily the function of the Medical Director and the Deputy Chief of Clinical Affairs, however, it also includes supervisors, Field Training Officers, management and field personnel. All processes and care are compared to performance standards to assure optimal operational levels and a high level of patient care. Continuous quality improvement is the goal of LCEMS. It is the policy of LCEMS that every patient will receive a high level of consistent care.

II. GUIDELINE:

It is the guideline of LCEMS that every patient will receive a high level of consistent care.

III. PROCEDURE:

1. Responsibilities
   a. It is the responsibility of the Deputy Chief of Clinical Affairs to design and implement the IQM policy as agreed upon in consensus with the Medical Director and EMS management.
   b. It is the responsibility of the Medical Director to oversee and be the ultimate medical authority in the IQM process.

2. Medical Care Standards
   a. Medical care standards will be established by the Medical Director and the Deputy Chief of Clinical Affairs using state and national standards in conjunction with local medical protocols.
   b. Medical protocols and procedures including standing orders will be reviewed as necessary to keep all protocols and procedures up to date and to make recommendations to management regarding innovative or essential system updates.
   c. Recommendations will be made by the Medical Director and the Deputy Chief of Clinical Affairs to management as necessary to maintain state and national system requirements.

Medical Feedback

a. Lines of communication are always open for medical critique and suggestions from supervisory, management, emergency center staff and physicians.

b.

Run Report Review

a. Run reports and other documentation are reviewed in a systematic fashion to address specific medical issues on a monthly rotational basis. Statistically significant cross section of reports are reviewed by the Medical Director and the Deputy Chief of Clinical Affairs. Peer review will also be accomplished by supervisory staff, management, Field Training Officers and field personnel.

Direct Observation

a. The Medical Director and the Deputy Chief of Clinical Affairs will either ride with EMS on duty units or follow them to scenes to evaluate actual on scene care and adherence to protocols. They will also evaluate EMS on duty units at the emergency centers for complete patient care, documentation, and interface with emergency center staff.

b. The Deputy Chief of Clinical Affairs will document ride along activities with evaluation outcomes and feedback for field personnel.

IQM Surveys

a. The Deputy Chief of Clinical Affairs will survey various participants in the EMS process to ascertain perceived problems and to request proposed solutions for improvement.

IQM Reporting

a. IQM progress reports will be prepared by the Deputy Chief of Clinical Affairs or his/her designee .

Ongoing IQM Process

a. IQM is a dynamic process and quality management activities can be added or deleted at the discretion of the Medical Director and the Deputy Chief of Clinical Affairs. IQM processes should always reflect ongoing changes and upgrades in medical direction.

Standard Operating Guideline

Title:	Privacy and Information Security Training
CAAS:	106.07.01
Effective:	May 15, 2008
Reviewed:	December 2012, December 2015, December 2018
Revisions:	2
Pages:	2

I. PURPOSE:

To ensure that all members of LCEMS workforce-- including all employees, students and trainees-- who have access to patient information understand the organization's concern for the respect of patient privacy and are trained in the County's policies and procedures regarding Protected Health Information (PHI) and the security of e-PHI.

II. GUIDELINE:

This policy applies to all LCEMS workforce. This includes those who have access to PHI or e-PHI, as well has those who do not ordinarily have access or a need to access to it.

III. PROCEDURE:

1. All current staff will be required to undergo privacy and security training in accordance with the Health Insurance Portability and Accountability Act (HIPAA) Privacy Rule and the HIPAA Security Rule.

2. As a part of EMS orientation all new staff members will be required to undergo privacy training in accordance with the HIPAA Privacy and Security Rules.

3. All staff members will be required to undergo privacy training in accordance with the HIPAA Privacy and Security Rules within a reasonable time after there is a material change to the County's policy and procedures on privacy practices and the security of patient information.

4. The Privacy and Security Training will be conducted by the Privacy/Information Security Officer or his or her designee.

5. All attendees will receive copies of the Counties policies and procedures regarding privacy and security of e-PHI.

6. All attendees must personally complete the training and verify completion and agreement to adhere to the County's policies and procedures on privacy and security practices.

7. Topics of the training will include a complete review of the County's privacy and security policies and procedures and will include other information concerning the HIPAA Privacy and Security Rules, such as, but not limited to, the following topic areas:

    a. Overview of the federal and state laws concerning patient privacy including the Privacy and Security Regulations under the Health Insurance Portability and Accountability Act of 1996 (HIPAA)
    b. Description of protected health information (PHI) and electronic protected health information (e-PHI)
    c. Patient rights under the HIPAA Privacy Rule
    d. Staff member responsibilities under the Privacy and Security Rules
    e. Role of the Privacy/Information Security Officer and reporting employee and patient concerns regarding privacy issues
    f. Importance of and benefits of privacy compliance
    g. Consequences of failure to follow established privacy and security policies
    h. Use of the County's specific privacy and security forms

Title:	Online Education
Effective:	June 18, 2012
Reviewed:	December 2012, December 2015, December 2018, December 2024
Revision:	2
Pages:	1

I. PURPOSE:

To provide guidelines for the online continuing education program. To improve performance of EMS employees.

II.GUIDELINE:

- The Captain assigned to Training shall develop and implement a continuing education program for all EMT and Paramedic employees and is responsible for education and training.

- All EMT and Paramedic employees will be required to participate in monthly continuing education. Courses will be assigned the first day of each month and will be due no later than the last day of that same month.

- Areas of focus are LCEMS Protocols, LCEMS Policies and Procedures, Health Insurance Portability and Accountability Act (HIPAA) training, Safety training, EMT and Paramedic position specific training, and any training deemed necessary by IQM / Education Manager or the Medical Director.

- Memos and other documents distributed via the online training program can be assigned at any time for no less than fourteen days. Receipt and understanding will be verified online. This confirms that the document is acknowledged as the most up to date information on the given topic.

- Additional courses will be assigned on an individual basis if an issue is recognized. Issues may be reported by anyone to the on-duty supervisor or to the Deputy Chief of Clinical Affairs. The Deputy Chief of Clinical Affairs, or his/her designee, will determine if an additional online course is warranted. Any additional online course must be completed in no more than 14 days.

- Additional courses will be assigned to all EMT and Paramedic staff if an issue is recognized in 3 or more separate instances, or at the discretion of the Medical Director. Issues may be reported by anyone to the on-duty supervisor or the Deputy Chief of Clinical Affairs. The Deputy Chief and/or Medical Director will determine if additional online course is warranted. Any additional online course must be completed in no more than 14 days.

LEON COUNTY E.M.S.

Standard Operating Guideline

Title:	Clinical Standards – Performance Indicator and Threshold Exceptions
CAAS:	201.06.02
Effective:	June 10, 2012
Reviewed:	December 2012, December 2015, December 2018, December 2021, August 2024
Revision:	3
Pages:	2

I. PURPOSE:

Part of the Integrated Quality Management (IQM) process (as outlined in SOG 504.00) will include monitoring of measurable clinical indicators that are regularly assessed for compliance with established thresholds. If exceptions are found as a trend or individually, they will be addressed by the Deputy Chief of Clinical Affairs or the Medical Director, so as to bring them to compliance.

II. GUIDELINE:

Clinical Indicators and Thresholds will be monitored and tracked by the Deputy Chief of Clinical Affairs or his/ her designee. A bi-annual summary of findings in the following areas will be analyzed;

A. Documentation
B. Chest Compressions (CPR)
C. Cardiac Interventions (STEMI)
D. Neurologic Interventions (CVA)
E. Intravenous Access (IV/IO)
F. Airway Management
G. Whole Blood Administration
H. Trauma Alert
I. Critical Care Transport
J. Sepsis

In instances where thresholds are found out of compliance, as a trend, the Deputy Chief of Clinical Affairs and/or Medical Director shall be notified via email. At that time the indicator threshold will be examined by the Deputy Chief of Clinical Affairs or his/her designee for currency and validity. If the threshold is found to be appropriate and current, the Deputy Chief or Medical Director may assign continuing medical education or adjust policies and/or protocol accordingly.

In instances where thresholds are found out of compliance, in individual instances, Deputy Chief of Clinical Affairs designee noting the exception shall investigate the occurrence, and notify the Medical Director of findings via email or through a Triptix message, including incident number,

crew members, date and time, and a brief summary of the incident. Continuing medical education will be assigned to any staff involved in the incident at the discretion of the Deputy Chief and/or Medical Director.

III. PROCEDURE:

Patient care reports will be audited using the electronic reporting system. Reports will be audited by designees of the Deputy Chief of Clinical Affairs. The assigned designee will track Key Performance Indicators and will provide a summary to the IQM Manager bi-annually. In addition, the Deputy Chief or his/her designee will audit patient care reports for accurate patient assessments, adherence to medical protocols, success of skills, and outcome, and provide a bi-annual summary for IQM review.

Reviewed:	December 2012, January 2013, December 2015, December 2018, December 2024
Revision:	4
Pages:	2

I. PURPOSE:

The Leon County EMS Public Education division is active in developing and implementing programs to enhance our overall goals of "Preserving Life, Improving Health, and Promoting Safety."

II. GENERAL GUIDELINE:

The Deputy Chief of Clinical Affairs, or his/her designee, is responsible for oversight and implementation of all Leon County EMS Public Education programs. In addition, he/she may serve as the department's Public Information Officer as determined by the EMS chief.

The following programs have been developed and are outlined further later in this section:

A. Bicycle Safety
B. CPR & AED Training
C. Child Passenger Safety seat program
D. First Aid
E. Leon Lifesaver (calling 911 for children)
F. Senior Health & Fall Prevention
G. Stroke Awareness
H. Vial of Life program
I. "What is EMS?"

III. PROCEDURE:

Requests for Public Education programs are forwarded to the Deputy Chief of Clinical Affairs, or his/her designee, for approval and scheduling. Staff members are encouraged to actively seek out opportunities to present programs to the public and coordinate any contacts made through the Deputy Chief.

If utilizing any EMS vehicle(s) for an event, the vehicle(s) should be clean and presentable inside and out.
Prior to leaving headquarters after the conclusion of the event, the crew is responsible for returning all equipment to proper storage and completing a run report in Triptix. The

abbreviated run report should contain location, time, estimated number of participants, and any problems encountered.

Title:	CPR & AED Training
Effective:	December 2012
Reviewed:	December 2015, December 2018, December 2024
Revision:	2
Pages:	1

I. PURPOSE:

To provide an outline for information and procedures that EMS will follow during CPR & AED training at venues throughout Leon County.

II. GENERAL GUIDELINE:

The Deputy Chief of Clinical Affairs, or his/her designee, is responsible for scheduling the CPR & AED training events.

III. PROCEDURE:

Leon County EMS personnel should check-in with the Deputy Chief, or his/her designee, prior to the event to receive the details of the assignment along with contact information for the individual in charge at the location. The EMS personnel should gather all appropriate material for the training event. Upon arrival at the location, the crew should make contact with the individual in charge to find the training area. Once the training area is located, the crew should assemble the CPR manikins. All participants should sign-in on the Leon County EMS sign-in sheet (available on the ems share drive, G:). The EMS personnel may play the American Heart Association's various CPR training DVDs or may elect to conduct the training without video, assuring that all key topics are covered. EMS personnel should observe the participants for proper technique during the hands-on portion of the CPR training. EMS personnel should demonstrate the proper use of the AED and allow participants to interact with the AED trainer. Allow time for questions. At the completion of the training, have the participants complete the Leon County EMS evaluation. Disassemble and clean the manikins.

If utilizing any EMS vehicle(s) for an event, the vehicle(s) should be clean and presentable inside and out.

Prior to leaving headquarters after the conclusion of the event, the crew is responsible for returning all equipment to proper storage and completing a run report in Triptix. The abbreviated run report should contain location, time, estimated number of participants, and any problems encountered.

Standard Operating Guideline

Title:	Child Passenger Safety Seat Program
Effective:	December 2012
Reviewed:	December 2015, December 2018, December 2024
Revision:	2
Pages:	2

I. PURPOSE:

The goal of the Leon County EMS Child Passenger Safety Seat Program is to make people aware of the importance of properly securing all children in child safety seats, boosters or seat belts - every trip, every time.

II. GENERAL GUIDELINE:

Car seat check point events will be held periodically throughout the year where instruction and training is offered to caregivers by certified Child Passenger Safety technicians. Car seat checks are available by appointment at EMS Headquarters. The Deputy Chief of Clinical Affairs or his/her designee will schedule any public events and notify the LCEMS web steward in advance so the event may be advertised on the Leon County EMS website.

III. PROCEDURE:

CPS checks by appointment:

1. CPS checks are done by appointment, or as part of a scheduled event.
2. Proper paperwork must be completely filled out on every check. Make sure the date and location are included.
3. On select occasions, a new car seat may be provided to patrons. One car seat is given per child. The child should be present so he/she can be properly fitted for the seat, unless participant is pregnant. The LCEMS technician will decide if providing a new car seat is appropriate on a case by case basis.
4. Educate the guardian on how the car seat should be installed. Have the guardian install the seat and sign them off. This is especially important for the guardians that do not own a vehicle and will be transferring the seat to different vehicles.
5. Place a LCEMS CPS sticker on the child seat.
6. When event is over, e-mail the Deputy Chief, or his/her designee, the type of seats, if any, were distributed, the quantity distributed, and quantity left in the trailer.

CPS checks at public events:

1. Review contents of trailer to be sure there are a variety of seats.

2. Place CPS signs in the vicinity to advertise the event.
3. Set-up tables and CPS tent.
4. Proper paperwork must be completely filled out on every check. Make sure the date and location are included.
5. On select occasions, a new car seat may be provided to patrons. One car seat is given per child. The child should be present so he/she can be properly fitted for the seat, unless participant is pregnant. The LCEMS technician will decide if providing a new car seat is appropriate on a case by case basis.
6. Educate the guardian on how the car seat should be installed. Have the guardian install the seat and sign them off. This is especially important for the guardians that do not own a vehicle and will be transferring the seat to different vehicles.
7. Place a LCEMS CPS sticker on the child seat.
8. When event is over, e-mail the Deputy Chief, or his/her designee, the type of seats, if any, were distributed, the quantity distributed, and quantity left in the trailer.

If utilizing any EMS vehicle(s) for an event, the vehicle(s) should be clean and presentable inside and out.

Prior to leaving headquarters after the conclusion of the event, the crew is responsible for returning all equipment to proper storage and completing a run report in Triptix. The abbreviated run report should contain location, time, estimated number of participants, and any problems encountered.

Title: Operation and Use of Leon Lifesaver

Effective: November 1, 2007

Reviewed: February 2012, December 2012, December 2015, December 2018, December 2024

Revisions: 4

Pages: 2

I. PURPOSE:

To provide a guideline that will clearly define the proper operation and knowledge needed for the use of Leon Lifesaver and a general overview of the Leon Lifesaver presentations.

II. GUIDELINE:

To ensure that Leon County EMS crew has the proper knowledge and training to correctly and actively participate in the production of Leon Lifesaver, competently fulfilling either role of announcer or the robot.

III. PROCEDURE:

For Leon Lifesaver events, crews should arrive at headquarters at least one hour ahead of the scheduled program start time. Crews should check-in with logistics for an ambulance assignment. Ambulances should be clean and presentable for all events. Crews should also check-in with the Deputy Chief of Clinical Affairs, or his/her designee, to receive the details of the assignment along with any hand-outs or give away materials.

Crews should wear their standard work uniform (red shirts) for Leon Lifesaver events in order to help familiarize children with what an EMS crew will regularly look like.

Prior to leaving headquarters after the conclusion of the event, the crew is responsible for returning all equipment to storage and completing a run report in Triptix. The abbreviated run report should contain location, time, estimated number of participants, and any problems encountered.

IV. ROBOT OPERATION:

To be able to actively and correctly use Leon Lifesaver, the participant is expected to do the following:

- Be familiar with, and practice, the operation of the remote control system for the robot.
- Be familiar with the robot including, but not limited to, the remote control battery chargers.
- Be familiar with the inner workings of the robot including,
  - ✓ Voice pitch shifter
  - ✓ Battery connection and straps
  - ✓ Eyelid connections
  - ✓ Water reservoir
- Be familiar with headphone and microphone setup.
- Be able to talk and control robot simultaneously.
- Be familiar with both sections of the script and be able to improvise.
- Be familiar with how to transport robot via “sled” and stretcher.
- Have the ability to stand in front of people and properly interact with children.

If the participant is going to use Leon Lifesaver on a solo basis, they will need to:

- Practice with the robot in the parking lot at Headquarters.
- Have observed at least one (1) live Leon Lifesaver presentation.
- Practice once as the announcer and once as the robot with approved supervision.

Standard Operating Guideline

Title:	Vial of Life
Effective:	December 2012
Reviewed:	December 2015, December 2018, December 2024
Revision:	1
Pages:	2

I. PURPOSE:

To provide an overview of the "Vial of LIFE" program.

II. OVERVIEW:

To assist EMS personnel when responding to, and treating individuals during home medical emergencies. The Vial of LIFE contains much of the medical history of an individual needed by the responding EMS personnel, such as existing medical conditions, allergies, medication currently being taken, and emergency contact information.

III. PROCEDURE:

When there is a medical emergency in the home, EMS personnel will look on the refrigerator door for a Vial of LIFE magnet and baggie. Upon seeing this magnet on the refrigerator door, the members will retrieve the completed information from the baggie. This information will assist responding EMS personnel with previous medical history, medications and other related information that may be used in the treatment of the patient. The kit consists of an information form, baggie and magnet.

Citizen:

1. Complete a Vial of LIFE form. Include the date that the form was completed (this will help EMS personnel know how recent the medical information is). It may be beneficial to attach a recent photograph of yourself to the form as a means for positive identification.
2. After completing the forms, fold and place them in the baggie.
3. If you do not know the answer to a question on the form, contact your doctor or pharmacist for the correct information or leave the section blank.
4. Attach the Vial of LIFE magnet and baggie to the top portion of your refrigerator door to alert emergency personnel to the presence of Vial of LIFE information.

EMS Personnel (use of):

1. Upon arrival at a residence, look on the refrigerator for a Vial of LIFE magnet and baggie.
2. Record the pertinent information and return the information sheet to baggie placing it back on the refrigerator OR if necessary to take the Vial of LIFE with you, be sure to inform the patient and/or family.
3. Advise the Deputy Chief of Clinical Affairs via e-mail when you have used this program.

EMS Personnel (distribution of):

Vial of LIFE kits can be obtained by contacting EMS via:

- Leon County Emergency Medical Services website (www.leoncountyfl.gov/lcems)
- Leon County EMS Headquarters (850)606-2100

LEON COUNTY E.M.S.

Standard Operating Guideline

Title:	"What Is EMS"
Effective:	December 2012
Reviewed:	December 2015, December 2018, December 2024
Revision:	2
Pages:	1

I. PURPOSE:

To provide an outline for educating the citizens of Leon County on EMS.

II. GENERAL GUIDELINE:

The Deputy Chief of Clinical Affairs, or his/her designee, will coordinate events for Leon County EMS personnel to provide information about EMS.

III. PROCEDURE:

Leon County EMS personnel should check-in with the Deputy Chief, or his/her designee, prior to the event to receive the details of the assignment along with contact information for the individual in charge at the event. EMS personnel will gather all appropriate materials for the training event. Upon arrival at the training, the crew should locate the individual in charge. EMS personnel should consider covering the following topics of interest:

- History of Leon County EMS
- System Status Management (SSM)
- Statistics
- 9-1-1 and Dispatch process
- Common EMS calls
- Public Education programs
- Critical Care Transport team

If utilizing any EMS vehicle(s) for an event, the vehicle(s) should be clean and presentable inside and out.

Prior to leaving headquarters after the conclusion of the event, the crew is responsible for returning all equipment to proper storage and completing a run report in Triptix. The abbreviated run report should contain location, time, estimated number of participants, and any problems encountered.

LEON COUNTY E.M.S.

Standard Operating Guideline

Title:	AED Registry
Effective:	December 2012
Reviewed:	December 2015, December 2018, December 2024
Revision:	1
Pages:	1

I. PURPOSE:

To provide a guideline that will define the proper procedures to register an Automated External Defibrillator (AED).

II. GENERAL GUIDELINE:

To ensure the AED Registration Coordinator has the proper information to register AED's with Leon County EMS in accordance with Section 401.2915(2)(b), Florida Statute (2014).

III. PROCEDURE:

Once a location of an AED is known, the business should be given an AED information sheet to complete. When the completed information sheet is returned to Leon County EMS, the AED registration coordinator should enter the information into the AED registry spreadsheet. Once the information is in the spreadsheet, it is to be placed in the CAD to alert dispatchers of the location. The business is then mailed a certificate of registry to be placed with their AED. The AED registration coordinator is responsible for sending an information sheet to the business on a yearly basis to keep the registry accurate and up to date. When the AED registration coordinator is notified of a change or new registration, he/she will promptly notify the designated system status controller who will ensure the CAD is updated.

Dr. Kim Landry
Gulf Breeze, Florida

Dear Dr. Landry:

It is with great pleasure that by this letter Leon County is offering you employment in the position of Medical Director with our EMS Division in the Public Service department. The starting salary will be $8,333.33 per calendar month for this position. This salary for this position is based upon an annualized rate, and thus there is no eligibility for overtime. This position, your holding of the position, and salary will be re-evaluated as of June 30, 2004.

I would appreciate your acknowledgment and acceptance of this offer and salary, in writing to the Human Resources division. Your employment will commence on Wednesday, December 31, 2003. This offer of employment is conditioned upon receiving a signed authorization for the procurement of an investigative consumer report for employment purposes, a satisfactory background investigation, and a negative drug test result.

Please see the enclosed "Welcome Aboard" letter for information you will need for the sign-on process. Should you require any further information, please contact Human Resources at (850) 487-2220.

I look forward to you becoming a member of the Leon County government team!

Sincerely,

Parwez Alam
County Administrator

LEON COUNTY BOARD OF COUNTY COMMISSIONERS

JOB DESCRIPTION
EMS MEDICAL DIRECTOR
FLSA: EXEMPT

GENERAL DESCRIPTION OF DUTIES

This is administrative and supervisory work directing, planning, organizing, coordinating, and supervising pre-hospital E.M.S. patient care activities in Leon County.

NOTE:
The omission of specific statements of duties does not exclude them from the position if the work is similar, related or a logical assignment to the position. This job description does not constitute an employment agreement and is subject to change as the needs of the County and requirements of the job change.

ESSENTIAL DUTIES

The EMS Medical Director shall provide clinical leadership to the EMS program and serve as its sole Medical Director. The Medical Director is responsible for the clinical activities performed by EMS personnel, to discharge all duties identified in Florida Statutes, Florida Administrative Code, and the County EMS Ordinance.

The Medical Director develops and conducts on-going comprehensive review of all written medical protocols, rules, regulations and standards necessary to ensure reliable service delivery and appropriate patient care. In conducting the review, the Medical Director takes into consideration the results of quality assurance reviews, medical literature and input from stakeholders.

The Medical Director is responsible for ensuring the quality of the continuing medical education by: reviewing and approving curriculum and courses, recruiting subject matter experts, and assisting in the development of procedures to evaluate the clinical impact and effectiveness of the education. He also provides assistance in developing and delivering public information and education programs.

The Medical Director applies quality management principles in an effort to continuously improve medical care by establishing procedures for routine auditing of program performance and adherence to medical protocols. Performs direct field observation of EMS personnel performing patient care by riding on EMS vehicles, visiting and interacting with EMS personnel, hospital emergency department staff and other public safety personnel on a regular basis. Reviews medical records and investigates complaints regarding medical care. When appropriate, reports incidents and findings as required by section 401.265 Florida Statute.

The Medical Director conducts on-going and comprehensive reviews of all EMS medical equipment, medications and medical supplies to ensure reliable service delivery and excellence in patient care. Assures compliance with applicable laws, rules and regulations for the storage and control of medications and medical equipment by developing policies and procedures for compliance.

LEON COUNTY BOARD OF COUNTY COMMISSIONERS

JOB DESCRIPTION
EMS MEDICAL DIRECTOR
FLSA: EXEMPT

The Medical Director is an active member of the EMS Advisory Council and shall attend meetings of the council.

The Medical Director assists in validating that all EMS personnel meet the initial and continuous requirements for certification. The Medical Director shall provide input on the hiring and firing of all EMS field personnel.

The Medical Director will actively cooperate in planning, updating and following the Leon County Comprehensive Emergency Management Plan.

OTHER IMPORTANT OR MARGINAL DUTIES

None

KNOWLEDGE, SKILLS, AND ABILITIES

Knowledge of a variety of management functions. Knowledge of purposes, goals, and responsibilities of advanced life support programs, pre-hospital care systems, and emergency healthcare practices, procedures, laws and regulations relating to emergency medical services. Knowledge of principles and practices of public administration as applied to the management and medical oversight of emergency medical services. Knowledge of fiscal and personnel management. Knowledge of occupational and County policies, regulations, and guidelines. Knowledge of other County functions, including law enforcement, emergency communications, emergency management, et cetera. Knowledge of functions, operating and training methods of equipment used in pre-hospital emergency medical care and ambulance services. Knowledge of the technical requirements and standards of pre-hospital services. Skills in public speaking. Ability to supervise. Ability to plan and perform administrative duties. Ability to plan and prepare for handling disasters. Ability to prepare and maintain budgets. Ability to organize, plan, assign, and supervise the work of others. Ability to promote good public relations in a manner that inspires trust, while working with citizens, doctors, and hospital staff. Ability to establish and maintain effective working relationships with others. Ability to acquire and maintain a Florida medical license and Board Certification in Emergency Medicine. Ability to communicate effectively, orally and in writing. Ability to develop, interpret, and apply rules, regulations, and laws. Ability to work effectively under pressure and to demonstrate leadership in all operations. Ability to allocate resources. Ability to lift/push in excess of 100 pounds.

COMPLEXITY OF WORK

LEON COUNTY BOARD OF COUNTY COMMISSIONERS

JOB DESCRIPTION
EMS MEDICAL DIRECTOR
FLSA: EXEMPT

Work requires a high degree of coordination within the division, other County departments and other agencies such as constitutional officers and the City. Employee must be able to establish broad, long range program and goals, determine the appropriate organizational structure, and allocate appropriate resources.

INTERNAL AND EXTERNAL CUSTOMER CONTACT
Work requires interaction with citizens, hospital staff, and various emergency service workers in EMS, fire, and police.

EQUIPMENT AND TOOLS USED
Computer, word processing software, spreadsheet software, fax machine, calculator, captain response vehicle, and ambulance are among the equipment operated.

WORK ENVIORNMENT AND PHYSCIAL DEMANDS
Work is performed mainly indoors at a desk, but on the scene work is expected. Employee may be exposed to poor lighting, high levels of noise, moving mechanical parts, infection and contamination from injured people, hostile/violent individuals, toxic or caustic chemicals, vapors, fumes, chemicals, et cetera.

MINIMUM REQUIREMENTS
Requires a medical doctor's degree from an accredited college or university and related work experience, five years of which must have been in an emergency department or in emergency medical services; or an equivalent combination. Also requires Board Certification in Emergency Medicine.

Necessary Special Requires:
Must be computer literate. Must have a valid driver's license and a favorable driving record.

Florida State Paramedic and Advanced Cardiac Life Support certifications preferred.

Successful completion of a federally recognized National Incident Management System (NIMS), National Response Plan (NRP) training program.

Selection Guidelines:
Formal application, rating of education and experience, oral interview and reference check, and drug testing.

FLSA STATUS: Job is exempt. Employee performs supervisory and administrative work.

TALLAHASSEE MEMORIAL HEALTHCARE

May 22, 2025

Mr. Vincent S. Long
County Administrator
Leon County Government
301 South Monroe Street
Tallahassee, FL 32301

Dear Mr. Long:

Pursuant to Leon County, Florida, Code of Ordinances, Chapter 8: Health and Human Services, Article III. - Emergency Medical Services Sect. 8.64 (a) (9) Tallahassee Memorial Healthcare (TMH) hereby submits this application for renewal of Tallahassee Memorial Emergency Medical Services' (TMH EMS) Certificate of Public Convenience and Necessity (CPCN) for provision of emergency medical services.

Given the expansion of TMH services (such as the addition of the Cancer Center and Urgent Care), the list of specific EMS services listed in this application has been modified from previously submitted applications. These minor modifications were developed in consultation with Leon County staff and are intended to more clearly reflect the specific populations served by TMH EMS. These modifications are in no way intended as a request for authorization to regularly provide emergency or 9-1-1 response services within Leon County.

TMH requests authorization to provide Basic Life Support (BLS), Advanced Life Support (ALS), and Specialty Care Transport (SCT) ambulance transportation services as specified below:

- Neonatal, infant, and pediatric interfacility transports
- Interfacility transports from the TMH Emergency Center Northeast to the main TMH campus
- Long-distance interfacility transports, with prior authorization from Leon County
- Return trips for TMH patients back to local facilities, regional facilities, or home
- On-campus transports to and from TMH facilities
- Non-medically necessary transports (as defined by CMS)

TMH seeks approval of the Leon County Board of County Commissioners to modify and renew the Certificate of Public Convenience and Necessity for TMH EMS transport services for an additional three years.

Pursuant to the ordinance, TMH EMS is also furnishing a copy of this renewal application to the Emergency Medical Services Advisory Council of Leon County (EMSAC) in electronic format.

If you have any questions concerning this application or require additional information, please contact me at (850) 431-5311, Ryan.Smith@tmh.org or Stephen Suarez, Chief Paramedic, at (850) 431-4062, Steve.Suarez@tmh.org.

POLICY AND PROCEDURE NO. 170.216.001

Date Created: 03/01/2004
Revised: 05/28/2021

VEHICLE REPLACEMENT POLICY

To provide guidelines for Replacement of Emergency vehicles

I. POLICY:

The policy of the Emergency Medical Services Department is to ensure that Tallahassee Memorial Hospital receives maximum service and efficiency throughout the life of all vehicles purchased and dedicated to serve its patients. This will be achieved through a practical preventative and routine maintenance program as well.

II. PROCEDURE:

A. It shall include any medical transportation vehicle equipped or operated as an ambulance; and vehicle must be equipped with emergency lights, emergency siren and patient care equipment in accordance with Department of Transportation (DOT) KKK specifications for ambulances. All units are certified to meet or exceed KKK-1822 star of Life ambulance specifications by Atlanta Testing & Engineering, Norcross, Georgia. All future ambulance purchases beginning January 2013 will meet NFPA Ambulance Standards.

1. Ambulance manufacturer Division (AMD) Standards. All frontline vehicles will be replaced at 200,000 miles or 5 years whichever occurs first.

2. Vehicle over 5 years old that have not reached 150,000 miles will remain in the fleet in a reserve capacity or used for on campus/local transports only.

3. The Paramedic supervisor will be responsible for compiling an annual list of suggested vehicle replacements. This list will be based on age, mileage, safety and maintenance costs associated with the vehicle. This list will be provided to the Emergency Services Executive Director for review and approval to be passed on during the budget process for consideration.

III. RESPONSIBILITIES:

It is the responsibility of Transport Chief Paramedic to ensure compliance to this policy.

IV. REFERENCES:

This section should list statutes, standards, publications, policies, or other such information that supports the need for the policy and procedure.

POLICY AND PROCEDURE NO. 170.216.002 Date Created: 04/22/2026
Revised: 05/04/2022

NON-DISPOSABLE MEDICAL EQUIPMENT REPLACEMENT POLICY

I. POLICY:

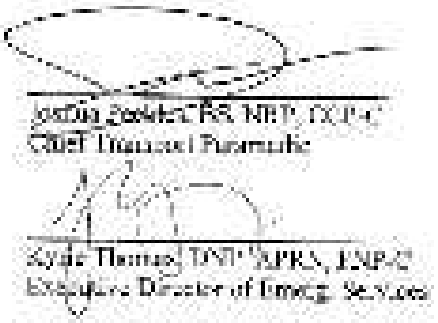
Tallahassee Memorial Healthcare will ensure maximum service and efficiency throughout the life of all medical equipment purchased to serve its patient.

II. PROCEDURE:

A. Any medical supplies that are dated will be disposed of on or prior to the manufacturers expiration date

B. Any medical supplies without an expiration date will be disposed of per manufacturers recommendation for breach of integrity of the sterile packaging.

C. Medical electronic equipment (monitors, radios, etc) will be inspected by the clinical engineering department every 6 months per their guidelines/policies and equipment will be removed from service at their recommendation.



D. The Transport Chief Paramedic will compile a list annually of suggested equipment replacements. This will be based on age, patient safety serviceability of the equipment, availability of replacement parts and the Clinical Engineering Department recommendations. This list will be provided to the Emergency Services Executive Director for review, approval, and budgeting.

III. RESPONSIBILITIES:

Every TMH EMS staff member is responsible for implementation, maintenance, and compliance with the policy and procedure

LEON COUNTY

Certificate of Public Convenience and Necessity

Emergency Medical Services

Whereas, Tallahassee Memorial Healthcare, Inc., (TMH) has made application for the renewal of their Certificate of Public Convenience and Necessity to provide Advanced Life Support and Basic Life Support Ground Ambulance Services to the citizens of Leon County, Florida; and

Whereas, the above-named service provider affirms that it will maintain compliance with the requirements of the Emergency Medical Services Act (Chapter 401, F.S.) and rules (Chapter 64J-1, F.A.C.); and

Whereas, the above-named service provider affirms that it will comply with Article III of the Code of Laws of Leon County, Florida; and

Whereas, the governing body of Leon County has considered recommendations of the Emergency Medical Services Advisory Council.

Now therefore, The Board of County Commissioners of Leon County hereby issues a Certificate of Public Convenience and Necessity with limitations as prescribed on the Certificate, to Tallahassee Memorial Healthcare, Inc. to provide the following services only: neonatal, infant, and pediatric Advanced Life Support transport services; non-medically necessary TMH campus interfacility transports; the transport of adult patients who do not meet medical necessity criteria as established by the Center for Medicare and Medicaid Services from TMH to other local or regional facilities, with prior approval of Leon County; and the transport of patients from the TMH Emergency Center – Northeast to the main TMH facility. Theses service shall be provided within the territorial limits of Leon County, Florida. The Certificate holder shall maintain the level of service as outlined in their application throughout the term of this Certificate, and shall conform and comply with all rights and duties granted by the certificate.

Date Issued: December 31, 2022
Date of Expiration: December 31, 2025

ARTICLE III. - EMERGENCY MEDICAL TRANSPORTATION SERVICES

Sec. 8-56. - Purpose and scope.

This article is enacted pursuant to F.S. § 401.25(6), for the purpose of providing standards and necessary regulations for the issuance of certificates of public convenience and necessity for basic and advanced life support services. This article shall apply and be in force within the incorporated and unincorporated areas of the county. To the extent this article is more restrictive than the requirements of F.S. ch. 401, or F.A.C. 64E-2 the provisions of this article shall prevail.

(Code 1992, § 8-56; Ord. No. 04-09, § 1, 4-13-2004)

Sec. 8-57. - Definitions.

The definitions set forth in F.S. § 401.23 are incorporated herein by reference and are not generally repeated. the following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Advanced life support means the same meaning as defined in F.S. § 401.23, as amended from time to time.

Advanced life support service means the same meaning as defined in F.S. § 401.23, as amended from time to time.

Air ambulance means the same meaning as defined in F.S. § 401.23, as amended from time to time.

Ambulance or *emergency medical services vehicle* means the same meaning as defined in F.S. § 401.23, as amended from time to time.

Ambulance driver means the same meaning as defined in F.S. § 401.23, as amended from time to time.

Basic life support means the same meaning as defined in F.S. § 401.23, as amended from time to time.

Basic life support service means the same meaning as defined in F.S. § 401.23, as amended from time to time.

Certificate means a certificate of public convenience and necessity for a specific classification of services issued by the Board of County Commissioners to a private or public entity which authorizes the entity to provide emergency medical services county-wide.

Council means the county emergency medical services advisory council.

County means the incorporated and unincorporated areas within the territorial limits of the county.

Department means the state department of health.

Emergency medical technician means the same meaning as defined in F.S. § 401.23, as amended from time to time.

First responder means, pursuant to F.S. § 401.435, an individual who possesses the required state certification and licensure credentials to provide first response and is acting under proper medical direction shall be permitted to respond to pre-hospital emergency medical incidents.

Hospital means any facility located in the county licensed as a hospital in accordance with F.S. ch. 395 and which operates a dedicated emergency department.

License means any license or transfer of license issued by the department of health pursuant to F.S. ch. 401.

Medical director means a board certified emergency physician who meets the requirements of the state department of health, bureau of emergency medical services and who provides clinical oversight, medical protocols and policy development, quality assurance and quality improvement services.

Operator means any person engaged in business as the owner, proprietor, purchaser, or lessee of ambulances, emergency medical services vehicles, air ambulances, or other vehicles intended to be used for basic, advanced life support services or emergency transportation services in the county.

Paramedic means the same meaning as defined in F.S. § 401.23, as amended from time to time.

Patient mean an individual who is ill, sick, injured, wounded or otherwise incapacitated and is in need of or can be expected to need emergency medical care.

Permit means the same meaning as defined in F.S. § 401.23, as amended from time to time.

Registered nurse means the same meaning as defined in F.S. § 401.23, as amended from time to time.

Rules and regulations mean those specific requirements and guidelines which are promulgated and periodically revised by the board and codified in this article.

Vehicle includes aircraft, landcraft and watercraft.

(Code 1992, § 8-57; Ord. No. 04-09, § 1, 4-13-2004)

Sec. 8-58. - Emergency medical services advisory council.

(a) There is hereby created the emergency medical services advisory council of the county (hereinafter referred to as "EMSAC"). Membership of the EMSAC shall consist of the County Administrator or designee, who shall act as chairman of the EMSAC, the Assistant County Administrator or designee, the City Manager of the City of Tallahassee or designee, The county EMS Medical Director, and the administrator, or designee, and emergency department medical director of each hospital. It shall be the duty of the EMSAC to make recommendations to the

board and its administrative staff as to the significant needs, issues and opportunities relating to emergency medical services, including the provision of ambulance service in the county, and such other duties as may be prescribed under this article.

(b) The EMSAC is hereby delegated the authority by the board to promulgate the rules and regulations necessary to carry out the provisions of this article. The EMS chief shall provide staff to the EMSAC.

(Code 1992, § 8-58; Ord. No. 04-09, § 1, 4-13-2004)

Sec. 8-59. - Certificates required.

No person shall conduct, engage in, advertise for, or provide any of the services as described in this article unless a certificate of public convenience and necessity is first obtained from the board.

(Code 1992, § 8-59; Ord. No. 04-09, § 1, 4-13-2004)

Sec. 8-60. - Classification of certificates.

Certificates shall be classified, and certificate holders shall operate in accordance with the classification of each service category as follows:

(1) *Advanced life support ground transport services certificate.* The holders of this certificate shall:

a. Provide advanced life support services as defined under F.S. § 401.23 and F.A.C. 64E-2.003;

b. Maintain its vehicle and operate its service program with the intention of providing both medical transport and ALS service, on a regular 24-hour per day, seven-day per week basis throughout the county;

c. Abide by standard operating medical procedures and protocols promulgated by the county EMS medical director;

d. Participate in EMS system quality assurance activities as directed by the county EMS medical director.

(2) *Air ambulance service transport certificate.* The holders of this certificate shall:

a. Provide air ambulance services, rotary wing or fixed wing, as defined by F.S. § 401.23 and F.A.C. 64E-2.005;

b. Abide by standard operating medical procedures and protocols as directed by the providers' EMS air ambulance medical directors or that of the county EMS medical director, whichever provides a higher level of patient care;

c.

Participate in EMS system quality assurance activities as directed by the county EMS medical director.

(3) *Basic life support transport services certificate.* The holders of this certificate shall:

a. Provide basic life support services as defined under F.S. § 401.23 and F.A.C. 64E-2.002;

b. Abide by standard operating medical procedures and protocols promulgated by the county EMS medical director;

c. Participate in EMS system quality assurance activities as directed by county EMS medical director;

d. Maintain its vehicle and operate its service program with the intention of providing both medical transport and BLS service on a regular 24-hour per day, seven-day per week basis throughout the county.

(4) *Advanced life support non-transport services certificate.* The holders of this certificate shall:

a. Provide advanced life support services as defined under F.S. § 401.23, and F.A.C. 64E-2.005, excluding transport requirements;

b. Abide by standard operating medical procedures and protocols promulgated by the county EMS medical director;

c. Participate in EMS system quality assurance activities as directed by the county EMS medical director.

(Code 1992, § 8-60; Ord. No. 04-09, § 1, 4-13-2004)

Sec. 8-61. - Certificate application.

Every application for a certificate of public convenience and necessity under this article shall be, in writing, signed and sworn by the applicant and shall be filed with the board. The application shall contain the following:

(1) The name, age and address of the applicant and the length of time the applicant has resided in the county if the applicant is an individual; the business name of the partnership and the name, age and address of each partner and the length of time each partner has resided in the county if the application is a partnership; the names and residences of all officers and directors if the applicant is a corporation; the classification of the certificate of public convenience and necessity being applied for.

(2) If the applicant is a corporation, the type and number of shares outstanding and the name and the addresses of shareholders.

(3) The date of incorporation or formation of the entity.

(4) A description of the services to be provided.

(5)

The addresses of the applicants present and proposed base station location and all sub-stations, including the methodology used to determine their locations as well as the process to be used to relocate/add substations in the future.

(6) The names and certification numbers of all emergency medical technicians, paramedics, first responders, drivers or other attendants employed by or affiliated with the applicant.

(7) The year, model, type, department permit number (when received by department), motor vehicle or FAA registration number and mileage of every ambulance, rescue vehicle or other type of transporting or responding vehicle used by the applicant.

(8) Applicants desiring to provide ground transport must provide a written plan describing the procedures to replace vehicles at intervals of no greater than five years or 200,000 miles, whichever occurs first.

(9) Applicants desiring to provide ground transport must provide a written plan describing the procedures to replace nondisposable medical equipment based on manufacturer standards.

(10) Air ambulance providers must include a copy of their most recent operations manual and FAA part 135 Certificate.

(11) A description of the applicant communication system, including its assigned frequency, call number, mobiles, portables, range and hospital communications ability.

(12) A proposed operating budget for the purpose of demonstrating financial ability to perform and commitment to providing described services.

(13) Verified proof that the applicant and its employees possess all required federal and state licenses and permits.

(14) The name of the municipalities and the description of all geographic areas that the applicant has previously been authorized to serve, including the county, any other county the state, or any other state.

(15) A list of current charges or a schedule of proposed charges for transportation and treatment of patients and a written statement of intent to notify the board, in writing, of any proposed future fee increase, including rationale for the increase.

(16) A sworn statement signed by the applicant or his authorized representative stating that all the information provided by the applicant in the application is true and correct.

(17) Pursuant to F.A.C. 64E-2.002(4) and 64E-2.003(7), a list of medical equipment and supplies to be equipped and maintained in each emergency medical services vehicle.

(18) A statement, policy, certificate, or irrevocable letter of commitment to insure, from an insurance company satisfactory to the board, shall be attached to the application, and shall specify coverages/limits for public liability, property damage and malpractice insurance, as

provided in this article, or a surety bond conditioned for the payment and satisfaction of any final judgment as required by this article.

(19) Compilation statement showing assets and liabilities prepared by a certified public accountant.

(20) A copy of the applicant management plan which shall include a copy of standard operating procedures.

(21) Proof that the applicant has employed or contracted with a medical director qualified pursuant to F.S. § 401.265.

(22) Any other information as may be reasonably required by the board.

(23) The application fee except for renewals, shall be as established from time to time by the Board of County Commissioners, except for the state, agencies of the state, and political subdivisions of the state, who shall not be required to submit such application fee.

(Code 1992, § 8-61; Ord. No. 04-09, § 1, 4-13-2004)

Sec. 8-62. - Application review.

(a) Within five days of receipt of an application for a certificate under this article and the appropriate fee, the board shall transmit a copy of the application to the following: the City of Tallahassee, the Tallahassee Fire Department, the county director of emergency management, the medical directors of emergency departments at all hospitals, existing ambulance services, and the EMSAC members. All recommendations on the application shall be forwarded to the EMSAC within 30 days of receipt. The EMSAC shall then have 30 days in which to review the recommendations. Thereafter, the EMSAC shall submit its recommendation for granting (with or without limitations) or denying the certificate to the board.

(b) The EMSAC shall, within the time prescribed in subsection (a) of this section, review the application and cause an investigation to be made of the character and reputation of the applicant. The EMSAC's investigation and review of the application shall include, but not be limited to the following:

(1) The financial responsibility of the applicant to maintain safe, comfortable services, maintain or replace medical equipment, and maintain all insurance coverage required under this article.

(2) The condition of the emergency medical services vehicles and equipment provided by the service.

(3) The adequacy of the standard operating procedures of the applicant.

(4) The past performance and service record of the applicant obtained from sources such as hospitals, nursing homes, local public safety agencies and the state department of health.

(5)

The number and type of services and governmental entities currently providing emergency basic and advanced life support emergency medical services or air medical transportation services to the area, and the effect of the proposed services on the quality and cost of any existing medical transportation or rescue services.

(6) The basis for determination of need may include, but shall not be limited to:

a. A computation of the ratio of estimated annual requests for service in the particular certificate category, to the current number of vehicles satisfying requests;

b. A computation of the ratio of vehicles per 1,000 population;

c. A benchmark comparison with other entities of similar size and geography providing emergency medical services.

(7) The extent to which the applicant and all proposed equipment and personnel conform to the requirements of F.S. ch. 401 any amendments thereto, and any rules promulgated thereunder.

(8) Such other facts which the EMSAC may deem relevant in determining the fitness of the applicant to assume the occupation of an operator.

(Code 1992, § 8-62; Ord. No. 04-09, § 1, 4-13-2004)

Sec. 8-63. - Issuance or refusal.

(a) Within 30 days of receipt of the EMSAC's recommendation, the board shall review said recommendation and may uphold, amend or deny, in whole or in part, the recommendations of the EMSAC. Any substantive amendment made by the board shall be returned to the EMSAC for further review. If the board finds that the applicant meets the requirements for a particular classification of a certificate of public convenience and necessity, it may issue a certificate, subject to the limitations as the board deems necessary to protect the public health, safety and welfare. A certificate shall be valid for a period of three years and shall not be transferable or assignable without the prior written approval of the board.

(b) Every certificate issued under this article shall state:

(1) The name of the service.

(2) Certificate classification as specified in section 8-60.

(3) Date of issuance and the date of expiration.

(4) The minimum number of vehicles to be used by the applicant in the rendition of such services.

(5) Such conditions and limitations as the board may deem necessary or proper in the public interest.

(6) The signatures of the chairman of the board and the clerk of the courts.

(Code 1992, § 8-63; Ord. No. 04-09, § 1, 4-13-2004)

Sec. 8-64. - Rights and duties granted by certification.

(a) *Advanced life support ground transport services certificate.* Acceptance of the advanced life support ground transport services certificate shall obligate the applicant to:

(1) Provide continuous and uninterrupted emergency medical services to the extent authorized by the certificate.

(2) Keep such records as may be required by the federal or state government or by the board and make such records available to the County Administrator or designee for inspection.

(3) Promptly respond to every emergency call for ambulance service. Patients shall be loaded and transported without being subject to unreasonable delays and without regard to financial ability to pay. All emergency response times shall be kept by the operator, and a log reflecting such response time shall be made available to the EMSAC annually, or as otherwise requested by the EMSAC.

(4) Operate a minimum number of advanced life support ambulances on immediate call at all times. The actual number of ambulances required to be maintained on "immediate call" shall be reviewed by the EMSAC and the actual numbers determined pursuant to the terms of subsection 8-62(b)(6).

(5) Provide advance notice of any proposed rate changes to the EMSAC.

(6) Complete an ambulance run report for all ambulance calls, noting the time, place of origin, destination requested by patient, actual destination, and identification of services (charge codes) for which charges are made, and such other operating and patient information as may be required by the EMSAC or state department of health bureau of emergency medical services, hereinafter BEMS. Every operator shall retain and preserve all daily run reports for at least five years, and such run reports shall be available for inspection by the EMSAC upon request. The EMSAC shall make a semi-annual review of said run reports for the year ending September 30 by no later than December 1 of each consecutive year and submit its report to the board within 60 days thereafter.

(7) Maintain liability insurance in such amounts and with such coverage as the board may require upon issuance of the certificate.

(8) Operate in conformance with all federal and state laws and local ordinances.

(9) File an application for renewal of its certificate at least 180 days prior to the date of expiration.

(10) Notify the board, in writing, at least 180 days prior to the date of expiration in the event the operator determines that it will not file an application for renewal of its certificate.

(11)

Notify the board, in writing, in the event the operator determines that it will no longer provide services authorized under its certificate, at least 180 days prior to the date the operator plans to cease providing services in the county.

(b) *Air ambulance service transport certificate.* Acceptance of the air ambulance service transport certificate shall obligate the applicant to:

(1) Provide continuous and uninterrupted emergency medical services to the extent authorized by the certificate.

(2) Keep such records as may be required by the federal or state government or by the board and make such records available to the County Administrator or designee for inspection.

(3) Promptly respond to every emergency call for air ambulance service. Patients shall be loaded and transported without being subject to unreasonable delays and without regard to financial ability to pay. All emergency response times shall be kept by the operator, and a log reflecting such response time shall be made available to the EMSAC annually, or as otherwise requested by the EMSAC.

(4) Provide advance notice of any proposed rate changes to the EMSAC.

(5) Complete an air ambulance run report for all air ambulance calls, noting the time, place of origin, destination requested by patient, actual destination, and identification of services (charge codes) for which charges are made, and such other operating and patient information as may be required by the EMSAC or BEMS. Every operator shall retain and preserve all air ambulance run reports for at least five years, and such run reports shall be available for inspection by the EMSAC upon request. The EMSAC shall make a semi-annual review of said run reports for the year ending September 30 by no later than December 1 of each consecutive year and submit its report to the board within 60 days thereafter.

(6) Maintain liability insurance in such amounts and with such coverage as the board may require upon issuance of the certificate.

(7) Operate in conformance with all federal and state laws and local ordinances.

(8) File an application for renewal of its certificate at least 180 days prior to the date of expiration.

(9) Notify the board, in writing, at least 180 days prior to the date of expiration in the event the operator determines that it will not file an application for renewal of its certificate.

(10) Notify the board, in writing, in the event the operator determines that it will no longer provide services authorized under its certificate, at least 180 days prior to the date the operator plans to cease providing services in the county.

(c) *Basic life support services transport certificate.* Acceptance of the basic life support services transport certificate shall obligate the applicant to:

(1) Provide continuous and uninterrupted services to the extent authorized by the certificate.

(2) Keep such records as may be required by the federal or state government or by the board and make such records available to the County Administrator or designee for inspection.

(3) Promptly respond to every call for service. All emergency response times shall be kept by the operator, and a log reflecting such response time shall be made available to the EMSAC annually or as otherwise requested by the EMSAC.

(4) Complete a run report for all calls, noting the time, place and such other operating and patient information as may be required by the EMSAC. Every operator shall retain and preserve all daily run reports for at lease five years, and such run reports shall be available for inspection by the EMSAC upon request.

(5) Maintain liability insurance in such amounts and with such coverage as the board may require upon issuance of the certificate.

(6) Operate in conformance with all federal and state laws and local ordinances.

(7) File an application for renewal of its certificate at least 180 days prior to the date of expiration.

(8) Notify the board, in writing, at least 180 days prior to the date of expiration in the event the operator determines that it will not file an application for renewal of its certificate.

(9) Notify the board, in writing, in the event the operator determines that it will no longer provide services authorized under its certificate, at least 180 days prior to the date the operator plans to cease providing services in the county.

(d) *Advanced life support non-transport services certificate.* Acceptance of the advanced life support services non-transport certificate shall obligate the applicant to:

(1) Provide continuous and uninterrupted emergency medical services to the extent authorized by the certificate.

(2) Keep such records as may be required by the federal or state government or by the board and make such records available to the County Administrator for inspection.

(3) Promptly respond to every call for service. All emergency response times shall be kept by the operator, and a log reflecting such response time shall be made available to the EMSAC annually, or as otherwise requested by the EMSAC.

(4) Complete an emergency run report for all calls, noting the time, place of origin, destination requested by patient, actual destination, and identification of services (charge codes) for which charges are made and such other operating and patient information as may be required by the EMSAC or BEMS. Every operator shall retain and preserve all daily run reports for at least five years, and such run reports shall be available for inspection by the EMSAC upon request.

(5) Maintain liability insurance in such amounts and with such coverage as the board may require upon issuance of the certificate.

(6) Operate in conformance with all federal and state laws and local ordinances.

(7) File an application for renewal of its certificate at least 180 days prior to the date of expiration.

(8) Notify the board, in writing, at least 180 days prior to the date of expiration in the event the operator determines that it will not file an application for renewal of its certificate.

(9) Notify the board, in writing, in the event the operator determines that it will no longer provide services authorized under its certificate, at least 180 days prior to the date the operator plans to cease providing services in the county.

(Code 1992, § 8-64; Ord. No. 04-09, § 1, 4-13-2004)

Sec. 8-65. - Certificate revocation, modification, suspension or affirmation.

Every certificate of public convenience and necessity issued pursuant to this article is subject to revocation, modification, or suspension by the board when it is found that:

(1) The certificate holder has failed or neglected to render services as required by the certificate, this article, the rules and regulations promulgated hereunder, F.S. ch. 401, or the Florida Administrative Code;

(2) The certificate holder or its agent has demanded money or other compensation in excess of that established in its schedule of charges filed with the EMSAC;

(3) The certificate holder has been convicted of a felony which involved conduct indicating the certificate holder to be of such character and capable of such conduct which fail to meet standards considered by the board to be appropriate in the licensed activity. In determining whether to recommend revocation, suspension or modification of the certificate, the council shall consider the nature and seriousness of the felony and the circumstances under which the felony occurred;

(4) The certificate was obtained by an application in which any material fact was omitted or falsely stated; or

(5) Such revocation, modification or suspension of the certificate, upon good cause shown, will best serve the public interest.

(Code 1992, § 8-65; Ord. No. 04-09, § 1, 4-13-2004)

Sec. 8-66. - Investigative procedures.

(a) All unresolved issues and complaints related to the services of a certificate holder shall be referred within five days of receipt of the complaint to the EMS chief for investigation. The EMS chief shall conduct an investigation and file a written report to the EMSAC within 60 days of receipt of the complaint.

(b) The County Administrator shall notify the certificate holder by certified mail of the EMSAC's recommendation within five days of receipt thereof. If the EMSAC determines that revocation, suspension or modification of a certificate is warranted, the notice to the certificate holder shall state the reasons for such findings and establish a hearing date. The hearing and final determination shall be held by the board.

(Code 1992, § 8-66; Ord. No. 04-09, § 1, 4-13-2004)

Sec. 8-67. - Rules and regulations.

The board is hereby authorized to adopt such forms, rules, regulations and policies as may be necessary or proper to implement this article.

(Code 1992, § 8-67; Ord. No. 04-09, § 1, 4-13-2004)

Sec. 8-68. - Transfer or assignment.

No certificate issued pursuant to this article shall be assignable or transferable by the person to whom it is issued, except upon approval by the board in the same manner and subject to the same application, investigation, fees and public hearings original applications for certificates. Any majority transfer of shares of stock or interest of any person or operator so as to cause a change in the directors, officers, majority shareholders or managers of such person or operator shall be deemed a transfer or assignment as contemplated in this article and subject to the same rules and regulations as any other transfer or assignment.

(Code 1992, § 8-68; Ord. No. 04-09, § 1, 4-13-2004)

Sec. 8-69. - The City of Tallahassee not to require license, permit or payment of fees, except occupational license authorized by general or special law.

The City of Tallahassee shall not require any operator holding a certificate issued pursuant to this article to obtain any municipal license, certificate or permit, nor require the payment of any fees for the right to operate within said municipality, except an occupational license authorized by general or special law.

(Code 1992, § 8-69; Ord. No. 04-09, § 1, 4-13-2004)

Sec. 8-70. - Article not applicable to government ambulances.

Nothing in this article is intended to apply to any ambulance which is owned or operated by any agency of the state or federal government.

(Code 1992, § 8-70; Ord. No. 04-09, § 1, 4-13-2004)

Sec. 8-71. - Turning in a false alarm.

Whoever, without reasonable cause, by telephone or otherwise, summons any emergency medical services vehicle pursuant to this article or reports that such vehicle is needed when such person knows or has reason to know that the services of such vehicle are not needed shall be guilty of violation of this article subject to punishment as provided herein.

(Code 1992, § 8-71; Ord. No. 04-09, § 1, 4-13-2004)

State Law reference— Similar provisions, F.S. § 806.101.

Sec. 8-72. - Violations and penalties.

Violations of this article shall be subject to punishment as provided by F.S. § 125.69. Violators shall be prosecuted by the office of the state attorney in the same manner as misdemeanors are prosecuted. Each day or fraction thereof that a violation continues shall be considered a separate offense.

(Code 1992, § 8-72; Ord. No. 04-09, § 1, 4-13-2004)

Secs. 8-73—8-109. - Reserved.

Report of Independent Auditors

To the Board of Directors of Tallahassee Memorial HealthCare, Inc.

Opinion

We have audited the accompanying consolidated financial statements of Tallahassee Memorial HealthCare, Inc. and its subsidiaries (the "Company"), which comprise the consolidated balance sheets as of September 30, 2024 and 2023, and the related consolidated statements of operations, of changes in net assets and of cash flows for the years then ended, including the related notes (collectively referred to as the "consolidated financial statements").

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of the Company as of September 30, 2024 and 2023, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are required to be independent of the Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for one year after the date the consolidated financial statements are issued.

PricewaterhouseCoopers LLP, 214 N. Tryon Street, Suite 4200, Charlotte, NC 28202
T: (704) 344 7500, www.pwc.com/us

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the consolidated financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the consolidated financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

- 2.1.1 Initial Assessment Protocol
- 2.1.2 Airway Management
- 2.1.3 Medical Supportive Care
- 2.1.4 Trauma Supportive Care
- 2.1.5 Pain Management

2.2 Adult Respiratory Emergencies

- 2.2.1 Airway - Obstruction
- 2.2.2 Asthma
- 2.2.3 COPD - Dyspnea
- 2.2.4 Pulmonary Edema - CHF
- 2.2.5 Suspected Pneumonia

2.3 Adult Cardiac Dysrhythmias (Cardiac Care: Universal Algorithm)

- 2.3.1 Asystole
- 2.3.2 Bradycardia
- 2.3.3 Narrow Complex Tachycardia (PSVT, Junctional, Atrial Tachycardia)
- 2.3.4 Stable A-fib and A-flutter
- 2.3.5 Unstable narrow complex tachycardia
- 2.3.6 Premature Ventricular Ectopy (PVCs)
- 2.3.7 Pulseless Electrical Activity (PEA)
- 2.3.8 Wide Complex Tachycardia with pulse (V-tach with pulse)
- 2.3.9 V-Fibrillation and Pulseless V-Tach

2.4 Other Adult Cardiac Emergencies

- 2.4.1 Cardiogenic Shock
- 2.4.2 Chest Pain Suspected Acute MI/Coronary Syndrome
- 2.4.3 Hypertensive Emergencies
- 2.4.4 Hypotension/Shock Unknown Cause
- 2.4.5 Left Ventricular Assist Devices

2.5 Adult Neurological / Psychological / Behavioral Emergencies

- 2.5.1 Altered Mental Status – Unknown Etiology
- 2.5.2 Behavioral/Violent and/or Impaired Patient
- 2.5.3 Excited Delirium
- 2.5.4 Seizure Disorders
- 2.5.5 Suspected CVA
- 2.5.6 Syncopal Episode

2.6 Adult Toxicology Emergencies
2.6.1 Bites and Stings
2.6.2 Toxicology (Drug Overdose and Poisoning)
2.6.3 Marine Envenomations

2.7 Adult OB/GYN Emergencies
2.7.1 Complications of Labor and Delivery
2.7.2 Normal Labor and Delivery
2.7.3 Non-Traumatic Vaginal Bleeding
2.7.4 Toxemia of Pregnancy (Eclampsia and Pre-Eclampsia)
2.7.5 Pre-Term Labor

2.8 Other Adult Medical Emergencies
2.8.1 Allergic Reactions/Anaphylaxis
2.8.2 Diabetic Emergencies
2.8.3 Non-Traumatic Abdominal Pain
2.8.4 Sickle Cell Anemia
2.8.5 Alcoholic Emergencies
2.8.6 Dehydration
2.8.7 Motion Sickness
2.8.8 Nausea/Vomiting
2.8.9 Hyperkalemia
2.8.10 Dystonic Reaction

2.9 Adult Environmental Emergencies
2.9.1 Barotrauma / Decompression Illness – Dive Injuries
2.9.2 Cold Related Emergencies
2.9.3 Heat Related Emergencies
2.9.4 Near Drowning
2.9.5 Electrical Injuries

2.10 Adult Trauma Emergencies
2.10.1 Head and Spine Injuries
2.10.2 Eye Injuries
2.10.3 Chest Trauma (Blunt and Penetrating)
2.10.4 Abdomino-Pelvic Injuries
2.10.5 Extremity Injuries
2.10.6 Burn Injuries
2.10.7 Dental Trauma
2.10.8 Sexual Assault
2.10.9 Taser / Stun Device Injuries
2.10.10 Crush Injuries

2.11 Adults with Special Health Care Needs

2.11.1 Home Mechanical Ventilators
2.11.2 Tracheostomy
2.11.3 Central Venous Lines
2.11.4 Feeding Tubes
2.11.5 Blood Product Administration

2. ADULT MEDICAL PROTOCOLS

2.1 Adult Initial Assessment & Management

Overview: Protocols in Section 2.1 are designed to guide the EMT or Paramedic in their initial approach to assessment and management of adult patients. Supportive Care is specified as EMT and Paramedic (BLS) and Paramedic Only (ALS).

Protocol 2.1.1 should be used on all adult patients for initial assessment. During this assessment, if the EMT or Paramedic determines that there is a need for airway management, Protocol 2.1.2 should be used for the management of the adult airway. These protocols are frequently referred to by other protocols, which may or may not override them in recommending more specific therapy.

Protocol 2.1.3 presents the basic components of preparation for transport of medical patients. Due to the significant differences in priorities and packaging in the pre-hospital care of trauma and hypovolemia cases, a separate Trauma Supportive Care protocol has been developed. After following Protocol 2.1.1, this Medical Supportive Care protocol may be the only protocol used in medical emergency situations where a specific diagnostic impression and choice of additional protocol(s) cannot be made. Judgment must be used in determining whether patients require ALS or BLS level care. This protocol is frequently referred to by other protocols, which may or may not override it in recommending more specific therapy.

Protocol 2.1.4 presents the basic components of preparation for transport of trauma patients. Due to the significant differences in priorities and packaging in the pre-hospital care of medical cases, a separate Medical Supportive Care protocol has been developed. After following Protocol 2.1.1, this Trauma Supportive Care protocol may be the only protocol used in trauma or hypovolemia situations where a specific diagnostic impression and choice of additional protocol(s) cannot be made. Judgment must be used in determining whether patients require ALS or BLS level care. This protocol is frequently referred to by other protocols, which may or may not override it in recommending more specific therapy.

Protocol 2.1.5 should be used by paramedics ONLY for pain management.

2.1.1 Initial Assessment Protocol: EMT and Paramedic

Purpose: This will be the initial protocol followed by EMTs and Paramedics on all calls you are dispatched to (or that you roll up on).

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. **Scene size up**.
    a. Review of dispatch information
    b. Assess need of body substance isolation
    c. Assessment of scene safety
    d. Determine mechanism of injury
    e. Determine location of patients
    f. Determine need for additional resources
2. **Initial assessment.**
    a. General impression of patient
    b. Assess mental status (AVPU) – Maintain spinal immobilization PRN.
        i. **A** = alert
        ii. **V** = responsive to verbal stimuli
        iii. **P** = responsive to painful stimuli
        iv. **U =** unresponsive
    c. Assess Airway
    d. Assess Breathing.
    e. Assess Circulation- Pulse, Major Bleeding, Skin color and temperature.
    f. Assess Disability- Movement of extremities/Defibrillate VF/VT without pulse
    g. Expose and Examine Head, Neck, Chest, Abdomen, and Pelvis (check back when patient is rolled on side).
    h. Identify Priority Patients
3. **Initial Management**
    a. Airway Management (2.1.2) Protocol/C-spine stabilization p.r.n.
    b. Medical Supportive Care (2.1.3) and/or Trauma Supportive Care (2.1.4) Protocols
4. **Secondary Assessment**
    a. Conduct a head-to-toe survey
    b. Neurological Assessment
        1) Pupillary response
        2) Glasgow Coma score
    c. Assess Vital Signs
        1) Respirations
        2) Pulse
        3) Blood Pressure
        4) Skin Condition
            - Color
            - Temperature

- Moisture

5) Lung Sounds

d. Obtain a Medical History
   1) **S** – Symptoms, Chief Complaint
      a. O- Onset and Location
      b. P – Provocation
      c. Q – Quality
      d. R-Radiation
      e. R- Referred
      f. R- Relief
      g. S- Severity
      h. T-Time
   2) **A** – Allergies
   3) **M** – Medications
   4) **P** – Past Medical History
   5) **L** – Last Oral Intake
   6) **E** – Events leading to illness or injury

e. Refer to specific medical/trauma protocols for continued management

5. **Other assessment techniques to be used as the situation warrants**:
   a. Cardiac Monitoring (EMT can connect patient to monitor while paramedic performing other task)
   b. Pulse Oximetry
   c. Glucose Determination
   d. Monitor Core Temperature
   e. Capnography

2.1.2 Airway Assessment/Management Protocol

Purpose: Airway assessment and management is the most important and first order of business when patient contact is made (immediate removal from unsafe scene may on occasion trump airway management). An algorithm for general airway assessment/management provides a general overview and road map for the EMT/Paramedic to follow if needed. This algorithm will in turn direct the EMT/Paramedic to either a Non-breathing Airway Protocol or a Breathing Patient Airway Protocol. If a decision is made to intubate a patient, follow the Universal Airway Algorithm. Once the airway is controlled/secured, attention can be given to the other medical/trauma problems and care directed according to the appropriate protocol. **New 2010 ACLS guidelines recommend titrating oxygen delivery to maintain pulse ox at >94%.**

Procedure**:**

BASIC LEVEL: EMT and PARAMEDIC

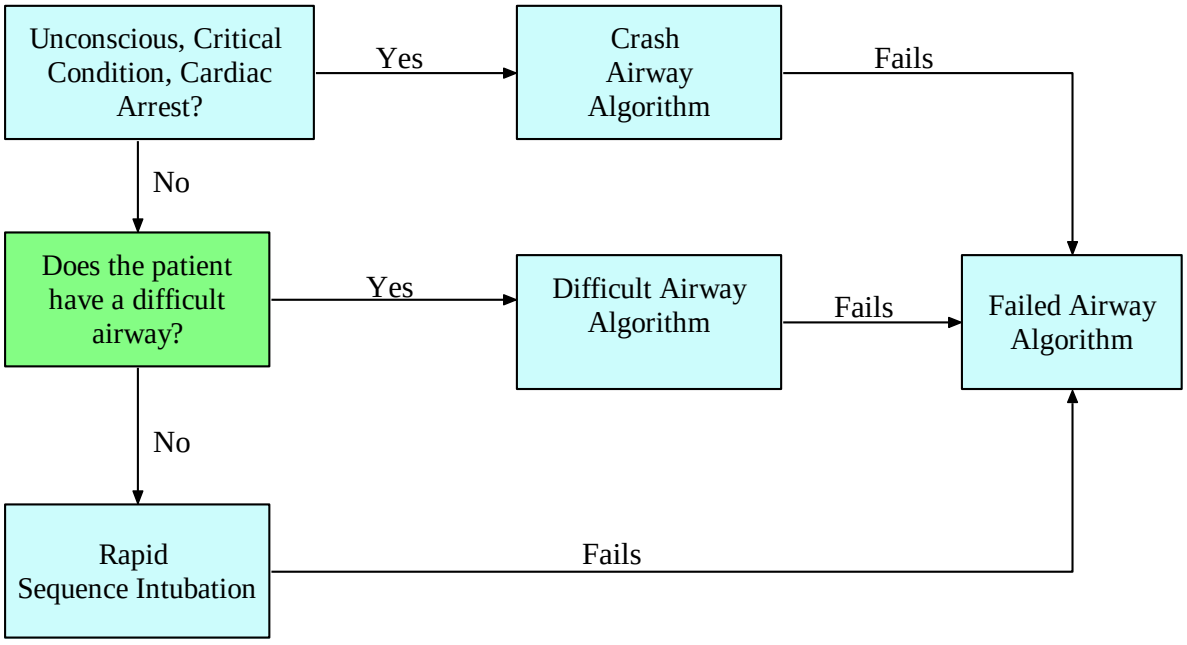
1. Initial Assessment Protocol 2.1.1
2. Monitor breathing during transport
3. Administer oxygen vía nasal cannula (2-6 L/min) to maintain pulse ox ≥ 94%
4. If spontaneous breathing is compromised:
    a. Maintain airway (e.g. modified jaw thrust)
    b. Administer oxygen to maintain pulse ox ≥ 94% via nasal cannula (2-4 L/min), simple mask (4-6 L/min) or non-rebreather mask (10-15 L/min)
    c. If unconscious, insert oropharyngeal or nasopharyngeal airway PRN (If patient accepts oropharyngeal airway, paramedic should consider need for intubation (ALS Level I)
    d. Assist ventilations with BVM PRN
5. Suction PRN
6. Monitor pulse oximetry and capnography, as soon as possible
7. If spontaneous breathing is absent or markedly compromised:
    a. Maintain airway (e.g. modified jaw thrust)
    b. If unconscious, insert oropharyngeal or nasopharyngeal
    c. Assist ventilations with BVM
    d. Suction PRN
    e. If unconscious and intubation is not available, insert King Airway (or other approved blind intubation device) (a).
    f. Monitor pulse ox and capnography or $ETCO_2$ monitoring device, as soon as possible

ALS LEVEL 1: PARAMEDIC ONLY

1. Consider CPAP if severe distress and patient able to cooperate with use of CPAP. See CPAP Protocol
2. If indicated, perform endotracheal intubation (stabilize C-spine prn).
    a. Confirm ETT placement by three methods and document
3. Secure ETT with commercial device
    a. Apply cervical collar for additional security.

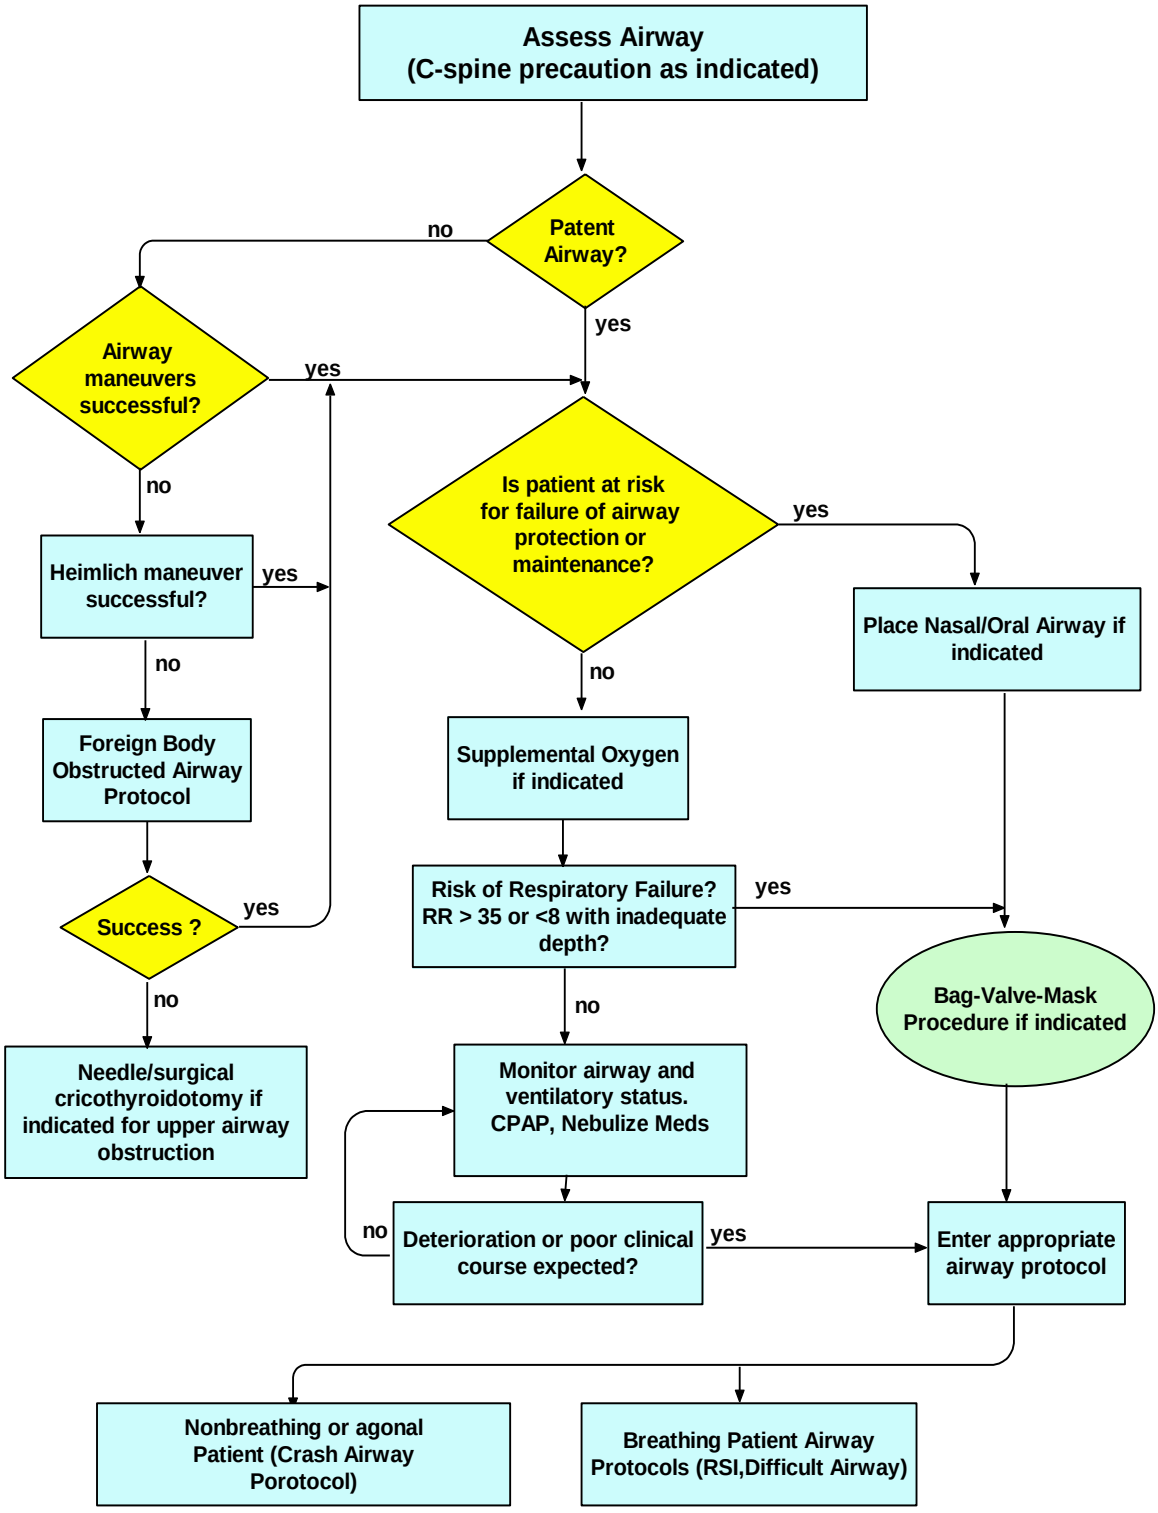
4. Attach end-tidal CO_2 monitoring device
5. Monitor SpO_2 with pulse oximeter.
6. If unable to intubate and patient cannot be adequately ventilated by any other means, perform a cricothyroidotomy (see Surg Cric Protocol or Needle Cric Protocol) and transport rapidly to the hospital. (b)

ALS LEVEL 2: MEDICAL CONTROL



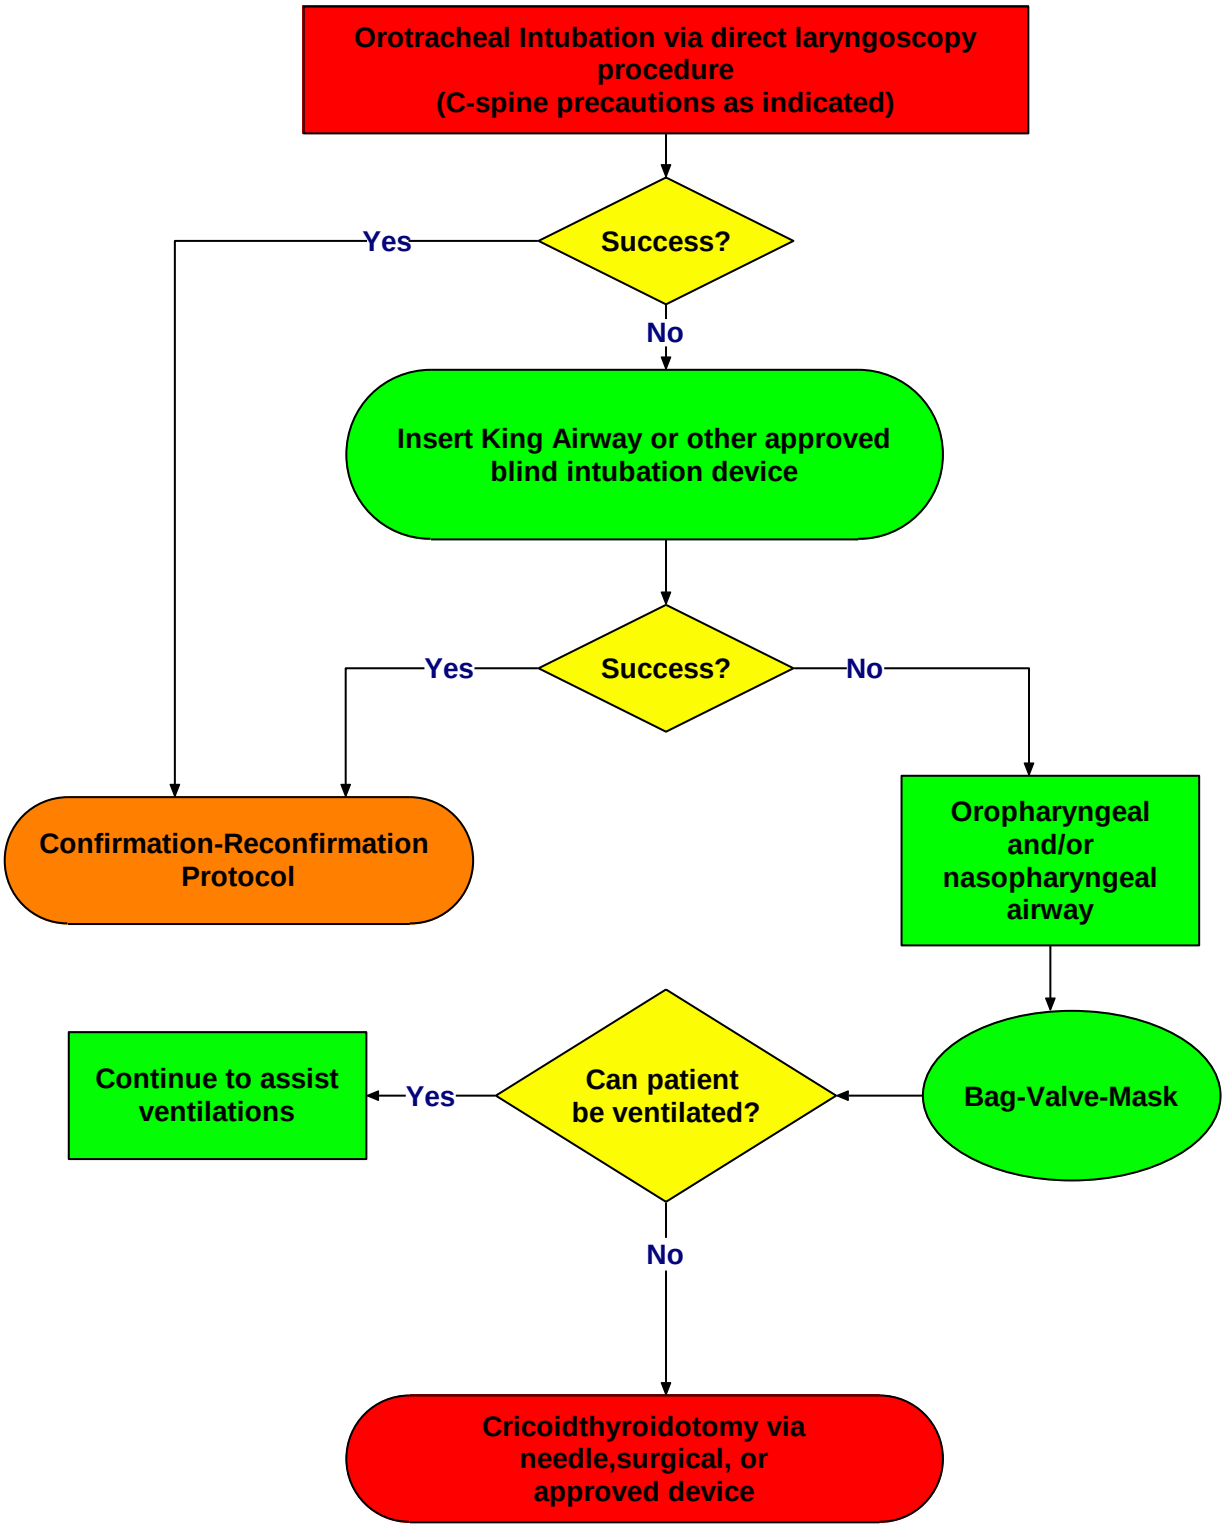
1. Contact medical control or medical director for questions or concerns.

NOTE:

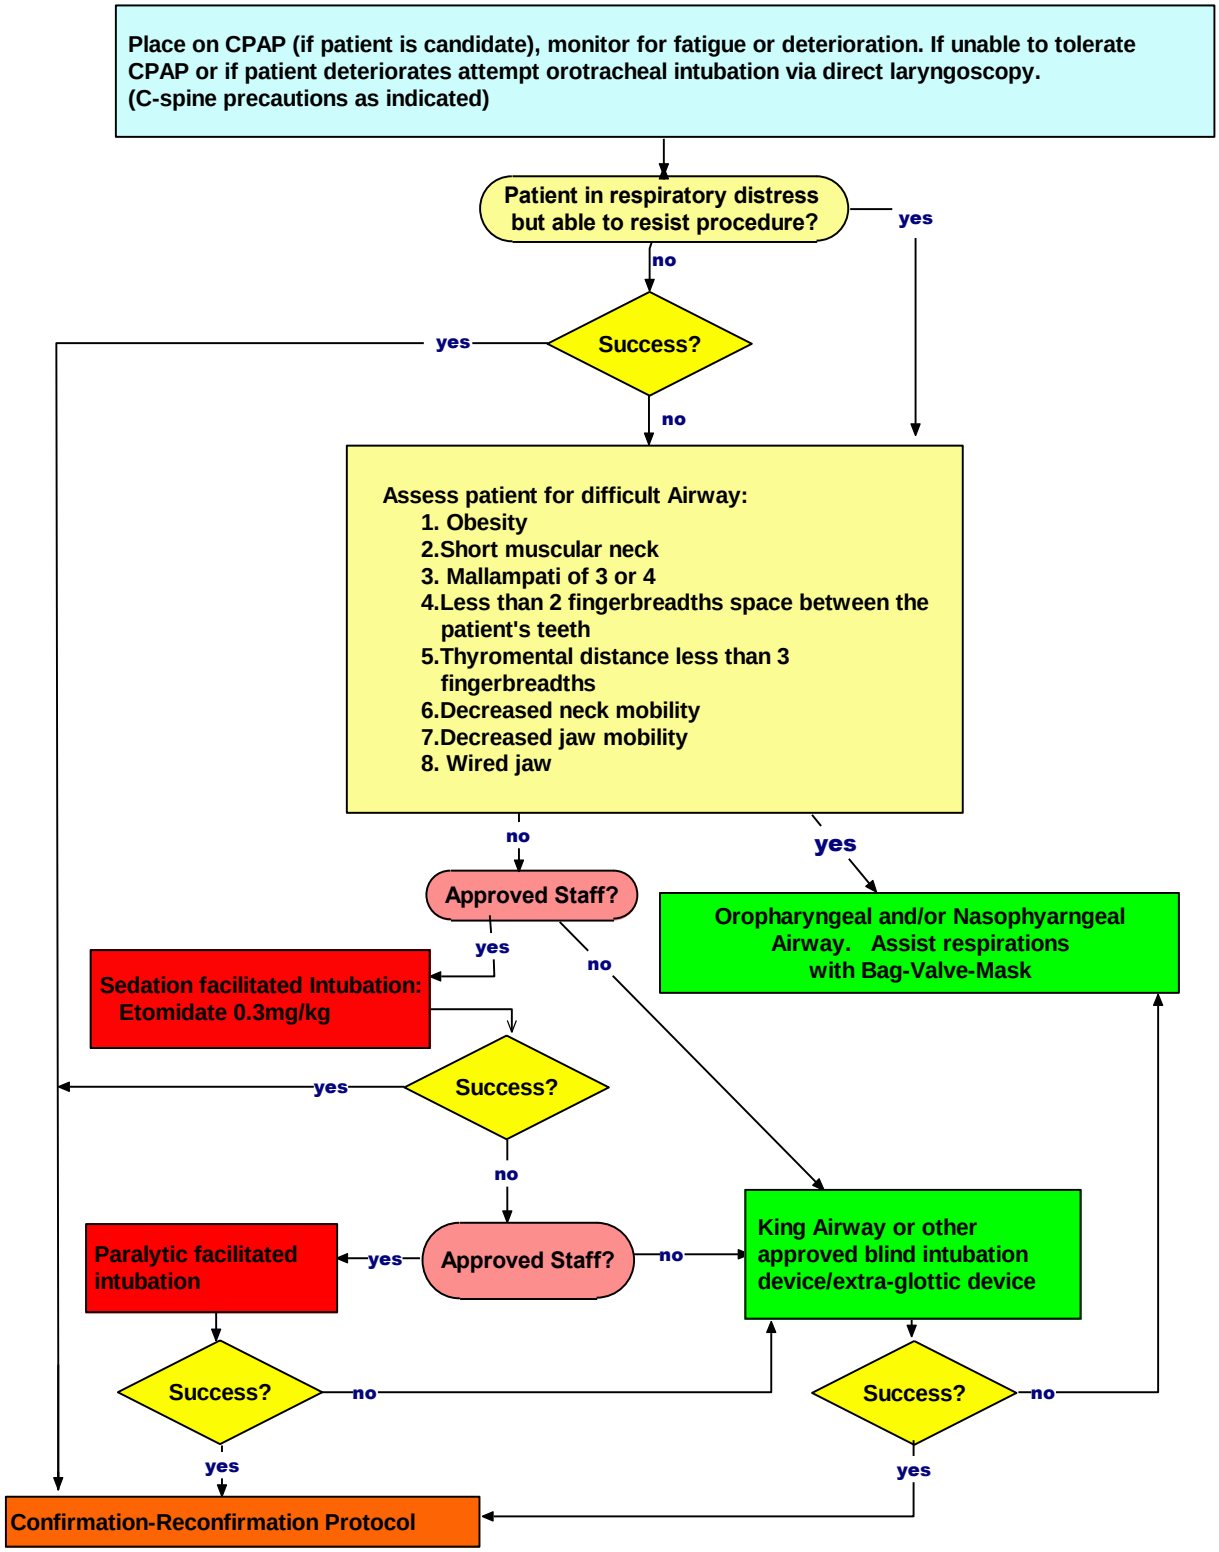


(a) An individual medical director may authorize other airway devices for use.

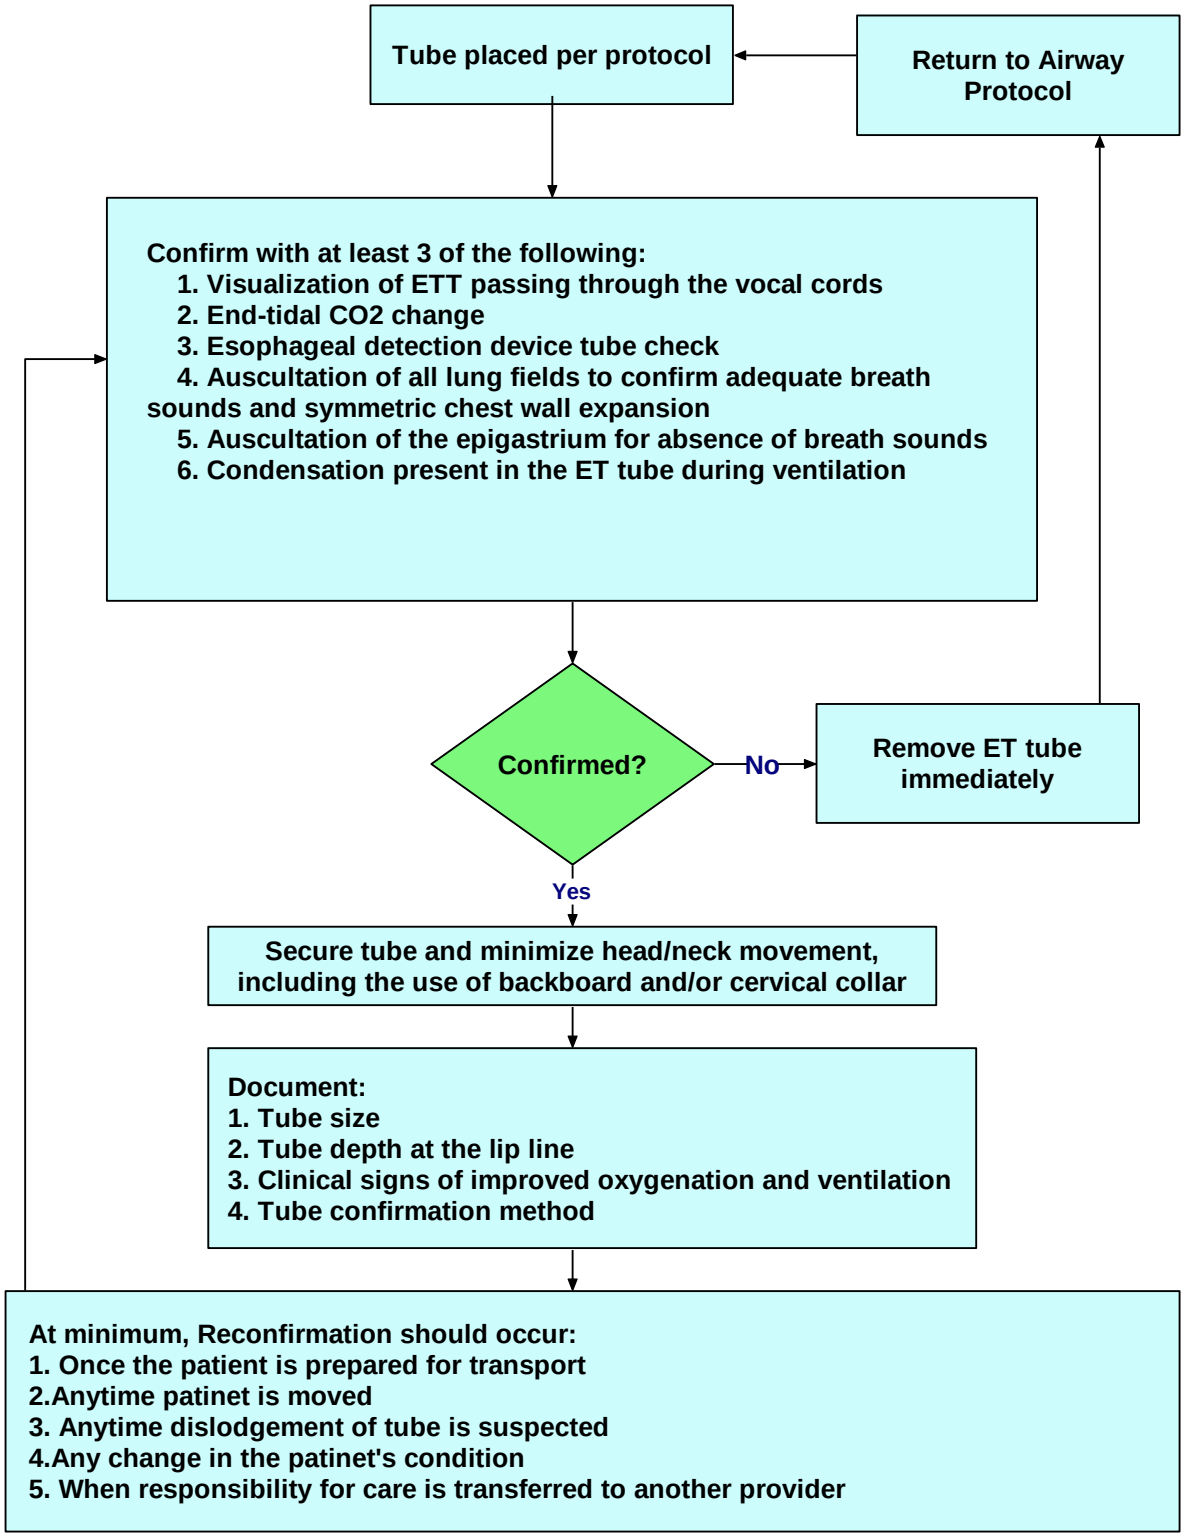
(b) Once decision to intubate has been made, follow Universal Airway Algorithm on all intubations (see Smart Airway Management Protocol for more algorithms and direction)



Universal Airway Algorithm



Adult Airway Assessment



Airway Assessment Protocol: Non-Breathing Patient

Airway Assessment Protocol: Breathing Patient

Airway Confirmation-Reconfirmation Protocol:

2.1.3 Medical Supportive Care

Purpose: This protocol is used in conjunction with the Initial patient Assessment Protocol 2.1.1.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. **Initial assessment protocol 2.1.1**
2. If spontaneous breathing present without compromise:
   a. Monitor breathing during transport
   b. Administer oxygen vía nasal cannula (2-6 L/min) PRN to maintain pulse ox ≥ 94%.
3. If spontaneous breathing is present with compromise
   a. Maintain airway (e.g. modified jaw thrust)
   b. Administer oxygen via non-rebreather mask (10-15 L/min).
   c. In unconscious, insert oropharyngeal or nasopharyngeal airway PRN.
   d. Assist ventilations with BVM PRN
   e. Suction PRN
   f. Monitor pulse oximetry and capnography, as soon as possible
   g. Paramedic only: If patient accepts orophanyngeal airway, consider need for intubation (see ALS Level 1- advanced airway below)
4. If spontaneous breathing is absent or markedly compromised:
   a. Maintain airway (e.g. modified jaw thrust)
   b. If unconscious, insert oropharyngeal airway
   c. Assist ventilations with BVM
   d. Suction PRN
   e. If unconscious and intubation is not available, insert **King Airway** (or other approved blind intubation device) as per protocol.
   f. Monitor pulse oximetry and capnography or **$ETCO_2$ monitoring** device as soon as possible

ALS LEVEL 1: PARAMEDIC ONLY

1. Perform endotracheal intubation and document the following:
   a. Confirm ETT placement via three methods
   b. Secure ETT with commercial device
      1) Full spinal immobilization is recommended
   c. Attach end-tidal CO_2 monitoring device
   d. Monitor SpO_2 with pulse oximeter
2. If unable to intubate and patient cannot be adequately ventilated by other means, perform cricothyroidotomy (see **Surgical Cric Protocol 4.37** or **Needle Cric Procedure**)

ALS LEVEL 2: MEDICAL CONTROL

1. Call medical control or medical director if any concerns or questions.

2.1.4 Trauma Supportive Care

Purpose: This protocol is used in conjunction with the Initial Assessment Protocol 2.1.1.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. **Initial Assessment Protocol 2.1.1,** Initiate "Trauma Alert" if applicable
2. **Airway Management Protocol 2.1.2.**
3. Correct any open wound/sucking chest wound (occlusive dressing)
4. Control hemorrhage
5. Immobilize C-spine (if unable to clear in field) and secure patient to backboard per protocol 4.35 **Spinal Immobilization/Spinal Immobilization Clearance**
6. Expedite transport
7. The following steps should not delay transport:
    a. Complete bandaging, splinting and packaging PRN
    b. Establish hospital contact for notification of incoming patient and for the Paramedic to obtain consultation for level 2 orders

ALS LEVEL 1: PARAMEDIC ONLY

1. Correct any massive flail segment that causes respiratory compromise (intubate)
2. Correct any tension pneumothorax with needle decompression as per **Needle Decompression** protocol
3. Establish IV of Normal Saline with regular infusion set unless overridden by other specific protocol.

ALS LEVEL 2: MEDICAL CONTROL

1. Call medical control or medical director if any concerns or questions.

2.1.5 Pain (GENERAL) Management

Purpose: This protocol is to be used for managing pain in patients with the following conditions:

- Isolated Extremity Fracture
- **Acute** back strain
- Renal colic (kidney stone)
- Soft tissue injuries, burns, bites and stings.
- Discomfort related to attached devices or inserted tubes such as a foley catheter, NG tube, chest tube, etc. This will apply to intra-facility transfers.

Do not use this protocol if there is multisystem trauma or hemodynamic instability. Keep in mind that severe back pain can sometimes be indicative of a condition that may require emergency surgery such as appendicitis, ruptured or dissecting aneurysm, ruptured ectopic pregnancy, etc. Be sure you do a good abdominal exam on patients complaining of back pain. If any abdominal tenderness is found, do not give pain med until advised by medical control or medical director. If patient has severe enough back pain that you are considering giving pain medication for, be sure the history is consistent with back strain, e.g. lifting heavy material and felt a pull. **DO NOT USE TORADOL ON ANY PATIENT THAT MAY REMOTELY BE GOING TO SURGERY**, e.g. fractured extremities, serious soft tissue injures. If you're not sure, call med control for advice. Kidney stone patients may report a history of kidney stones and may or may not have hematuria (blood in urine). Use caution in the elderly with "kidney stone" pain, as this is how aneurysm problems can present. Always monitor respiratory status and pulse ox after administration of a narcotic. Intervene as needed to keep pulse ox ≥ 95 %

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. **Initial Patient Assessment Protocol 2.1.1**
2. **Airway Assessment/Management Protocol 2.1.2.** If indicated, Oxygen via nasal cannula @ 2 - 4 LPM to maintain pulse ox ≥ 94% (non-rebreather @15 LPM if SpO_2 < 91%).
3. Attach cardiac monitor and pulse oximeter if indicated

ALS LEVEL 1: PARAMEDIC ONLY

1. Initiate IV lactated Ringer's or Normal Saline at 100ml/hr.
2. If pain is from an isolated extremity injury or from discomfort related to attached devices or inserted tubes:
    a. Assess for circulation compromise (note color, swelling, sensation, palpable pulses)
    b. Reposition for comfort, reassess for circulatory compromise
    c. If extremity wrapped in a dressing, consider (per med control) removing dressing to assess for cause of pain
    d. Elevate affected extremity if edematous
    e. If extremity has obvious deformity and is not splinted, splint it.
    f. If pain from attached device or inserted tube, be sure they are functioning properly.
    g. If pain persist despite above, proceed as below
3. If systolic BP > 90 mm Hg give one of the following over several minutes:
    a. **Toradol 30 mg IV or 60 mg IM** (if patient is > 65 y/o limit dosage to 15mg IV or 30mg IM). After 30 minutes, the IV dose can be repeated x 1 PRN.
    b. **Fentanyl 50 – 100 mcg IV or IM**. For doses beyond 100 mcg (when given for pain control), you will need written MD order or contact medical control.
    c. **Morphine 2 – 10 mg IV or IM** (give in 2 mg increments) or PR. For doses beyond 10 mg, you will need written MD order or contact medical control
    d. **Dilaudid 1 – 2 mg IV or IM** (not all service areas carry this drug). For doses beyond 2 mg, will need written MD order or contact medical control.
4. If nausea also present from pain or the pain medication give one of the following;
    a. **Zofran** 4 – 8 mg IV or IM
    b. **Benadryl 25-50 mg IV or IM**

ALS LEVEL 2: MEDICAL CONTROL

1. Contact medical control or medical director if any concerns or any questions.

2.2.4 Pulmonary Edema /CHF (Congestive Heart Failure)

Purpose: This protocol is used for patients who are exhibiting signs/symptoms of pulmonary edema – CHF including: tachypnea, orthopnea, JVD, edema, dyspnea with rales and/or wheezing (cardiac asthma). The patient may also have diminished air exchange. In severe case, patient may be pursed lip breathing. Other treatment for the causes of pulmonary edema-CHF should be considered (e.g. supraventricular tachycardia, myocardial infarction and cardiogenic shock). A patient with a history of CHF that has wheezing on auscultation of lung sounds should not be automatically classified as an "asthma patient". The paramedic must remember that patients with CHF may also present with wheezing. If the CHF patient does not have a history of asthma or allergic reaction, the more prudent assessment would be that of CHF (cardiac asthma).

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. **Initial Patient Assessment Protocol. 2.1.1**
2. **Airway Assessment/Management Protocol.2.1.2**. Put patient in position of comfort. Oxygen via nasal cannula @2 - 4 LPM to maintain pulse ox at ≥ 94% (non-rebreather @15 LPM if SpO_2 < 90%).
3. Attach cardiac monitor and pulse oximeter.

ALS LEVEL 1: PARAMEDIC ONLY

1. Administer CPAP (if available). Titrate to 10cm of pressure (see **CPAP Protocol**)
2. If patient's respiratory status deteriorates (fatigues, does not respond to CPAP, obvious persistent distress), assist ventilations with BVM with 100% oxygen and consider endotracheal intubation. If patient has end-stage disease and has previously expressed to family (verbally or in writing) he/she does not want to be intubated, and then continue assisting with BVM or CPAP.
3. Initiate IV lactated Ringer's or Normal Saline TKO.

4. If systolic BP > 100 mm Hg; give **Nitroglycerine** 0.4mg sublingual (spray or tablet) followed by **Nitroglycerin paste** 1 inch to chest wall Avoid if patient used Viagra, Cialis, Levitra or other ED drugs. (May repeat sublingual Nitro every 3 minutes up to 3 doses total if patient is hypertensive or has chest pain).
5. Do 12 Lead EKG. Transmit if abnormal and time permits

ALS LEVEL 2: MEDICAL CONTROL

1. **Lasix** 40-80 mg IV.
2. Consider **Morphine Sulfate** slow IV in 2mg increments titrate to systolic BP > 100 (or signs of respiratory depression) up to10 mgs. Carefully monitor blood pressure and respirations. Be prepared to reverse with **Narcan** if needed.
3. Contact medical control or medical director for any concerns or questions.

2.2.5 Pneumonia (SUSPECTED)

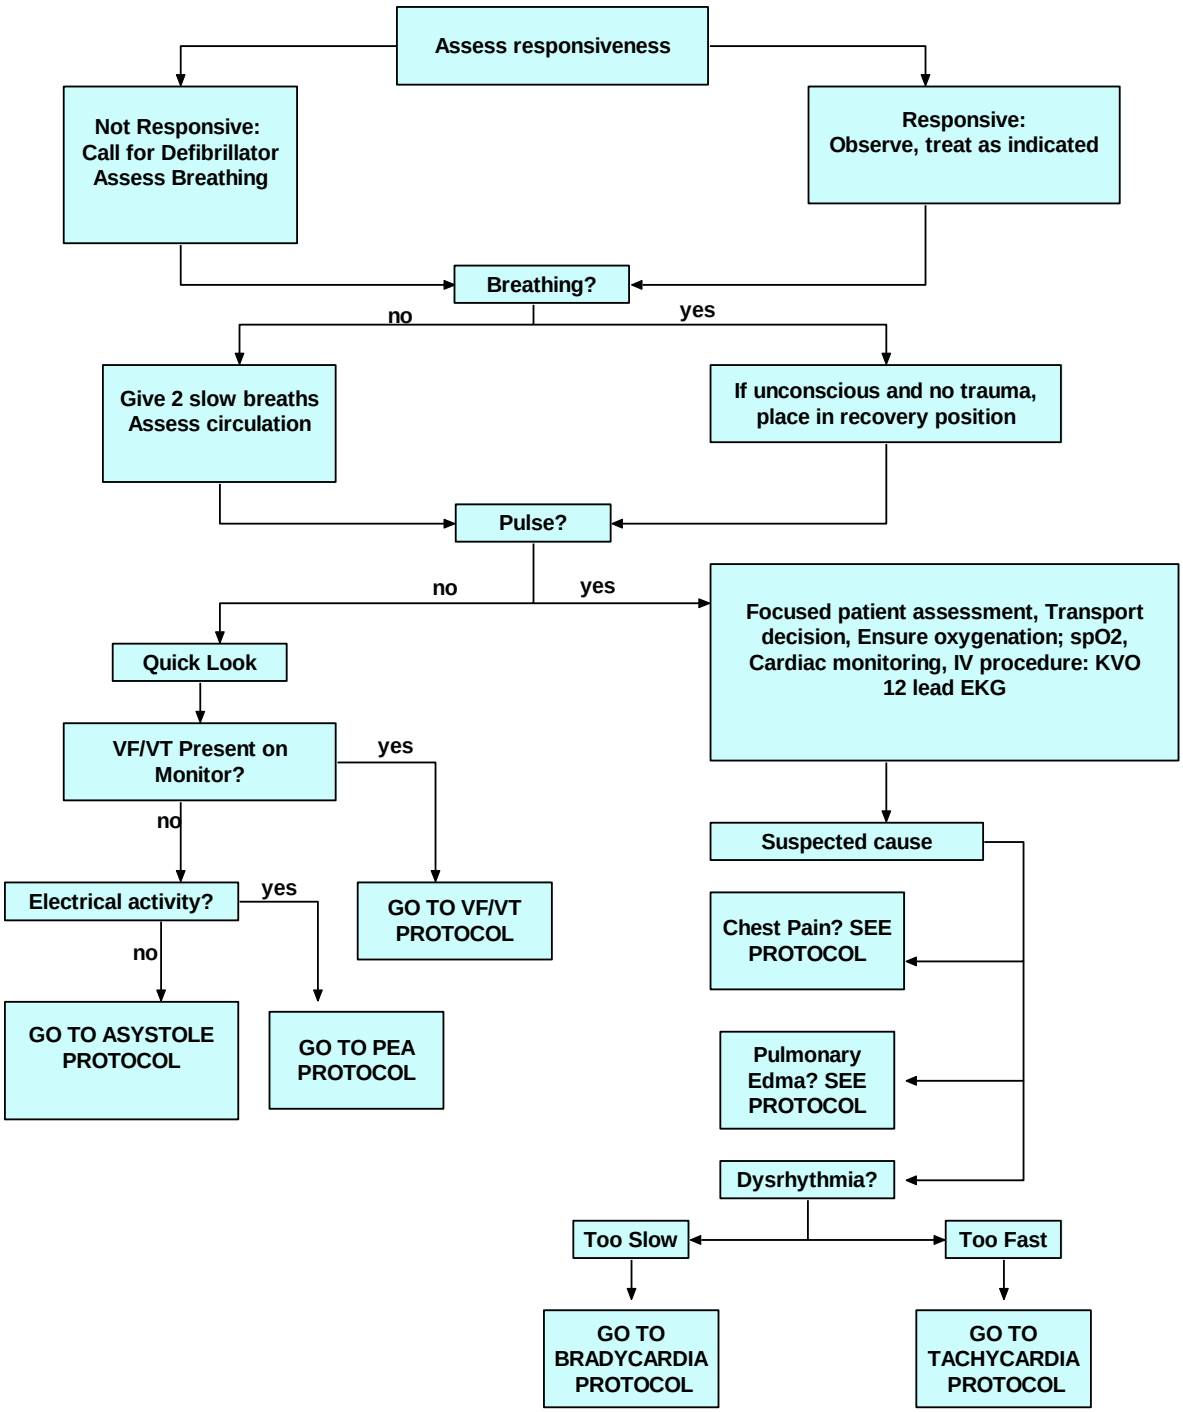
Purpose: Patients complaining of dyspnea should be suspected of having pneumonia when they present with fever, productive cough, and possible pleuritic chest pain, history of being bedridden, known immune-compromise, diabetes, elderly and lung sounds indicative of consolidation (rales and/or rhonchi with egophony over area of consolidation).

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Initial Patient Assessment Protocol 2.1.1
2. Airway Assessment/Management Protocol 2.1.2. Oxygen via nasal cannula @2 - 4 LPM to maintain pulse ox at ≥ 94% (non-rebreather @15 LPM if SpO_2 < 90%).
3. Attach cardiac monitor and pulse oximeter
4. Check temperature if able

ALS LEVEL 1: PARAMEDIC ONLY



1. Consider CPAP (per CPAP protocol) for severe dyspnea/air hunger. It may or may not help but will not harm.
2. Initiate IV lactated Ringer's or Normal Saline at 125ml/hr. If patient hypotensive (systolic < 90 mm Hg) and/or tachycardic (HR > 110) bolus with 1- 2 liters of IV fluid in 250ml increments until systolic BP > 90 mm Hg (20 ml/kg for children). Recheck vital signs and lung exam in-between each increment. Discontinue bolus if signs of pulmonary edema or development of respiratory distress.
3. If dyspnea noted, administer **Albuterol** 2.5 mg in 2.5ml of normal saline and **Atrovent (Ipratropium)** 0.5mg via nebulized breathing treatment. Do not give if HR ≥ 140
4. Repeat **Albuterol** (only) every 15 minutes as needed x 3 doses total. Discontinue therapy if patient develops marked tachycardia (HR > 140) or chest pain.
5. If signs of severe hypoventilation despite CPAP and/or Nebulized bronchodilators: (See Airway Assessment Protocol 2.1.2)
    a. Assist ventilations with BVM with 100% oxygen.
    b. Consider endotracheal intubation
6. AVOID USE OF DIURETICS!!

ALS LEVEL 2: MEDICAL CONTROL

1. Notify medical control or medical director for any problems or concerns.

2.3
Adult Cardiac Dysrhythmias

2.3 CARDIAC CARE: UNIVERSAL ALGORITHM

2.3.1 Cardiac Dysrhythmias: ASYSTOLE

Purpose: Use this protocol for patients who are in asystole on the cardiac monitor.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Initial Patient Assessment Protocol. 2.1.1
2. Airway Assessment/Management Protocol 2.1.2.
3. Initiate BLS/CPR as indicated
4. Attach cardiac monitor and pulse oximeter.

ALS LEVEL 1: PARAMEDIC ONLY

1. Intubate or Insert King Airway (or other extra glottic device) at once
2. Establish IV of Lactated Ringers or Normal Saline via Peripheral IV Site or Intraosseous site. Bolus with 250 ml then 100cc/hr. Bolus may be repeated up to one liter.
3. Confirm asystole in more than one lead.
4. Administer **Epinephrine** (1:10,000) 1mg every 3-5 minutes IV or IO. Follow each intravenous drug bolus with 20 milliliters of IV fluid and elevate extremity. One dose of **Vasopressin** 40 units IV/IO may be substituted for either the first or second dose of epinephrine
5. If unable to establish IV or IO access, administer Epinephrine at twice the IV dose (maximum 0.1mg/kg) endotracheal.
6. For prolonged down time or known pre-existing metabolic acidosis give **Sodium Bicarb** (8.4%) 1mEq/kg IV or IO
7. If Return of Spontaneous Circulation (ROSC) and patient remains unconscious, begin **Induced Hypothermia Protocol**
8. Consider possible causes:

Possible cause:	Treatment:
Hypoxia	Oxygenate and Ventilate
Hyperkalemia (increased potassium)	**$NaHCO_3$, CaCl**
Hypokalemia (decreased potassium)	ABCs and transport
Pre-existing **Acidosis**	**$NaHCO_3$**
Drug overdose	**Narcan**,
Hypothermia	Re-warming

9. In the event that a patient who presents in asystole remains in asystole after 10 minutes of ACLS, including an advanced airway, IV/IO access, and at least two doses of Epinephrine, you may **discontinue** resuscitation efforts. (Refer to administrative section **Resuscitation Considerations** for further information on discontinuation procedures) Be sure to note the time of death in the PCR.

ALS LEVEL 2: MEDICAL CONTROL

1. Contact medical control or medical director for any further directions or questions.

2.3.2 Cardiac Dysrhythmias: BRADYCARDIA

Purpose: This protocol is to be used for patients with heart rates < 60 per minute and any of the following signs and symptoms:

- Chest pain
- Shortness of breath
- Decreased level of consciousness
- Low blood pressure (< 90 mm Hg)
- Shock
- Pulmonary edema
- Congestive heart failure
- Acute MI or acute ischemia on 12 lead EKG
- Ventricular escape beats

If patient is asymptomatic, do not treat unless ordered to do so by medical control. Bradycardia with hypotension may be due to inferior wall MI associated with right ventricular infarction (confirmed by 12 lead EKG V4R ST Elevation). When an inferior wall MI is associated with right ventricular MI, avoid use of nitrates (Nitroglycerin). If bradycardia and hypotension exists, pacing and IV fluids may improve the patient's hemodynamic status.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Initial Patient/Assessment Protocol. 2.1.1
2. Airway Assessment/Management Protocol 2.1.2
3. Attach cardiac monitor and pulse oximeter.

ALS LEVEL 1: PARAMEDIC ONLY

1. Start IV or IO of lactated Ringer's or normal saline TKO. Bolus with 250ml increments up to 1 liter as needed for hypotension. Check vitals and breathe sounds between each bolus.
2. Perform 12 lead EKG (transmit to hospital if capable). If inferior wall MI is identified, perform additional 12 lead EKG with V4R to confirm/rule out concurrent right ventricular MI
3. IF no inferior wall MI, administer **Atropine** 0.5 mg IV or IO. May repeat IV or IO **Atropine** every 3-5 minutes up to:
   - 2 mg for patients weighing less than 110 pounds (<50 kg)
   - 3 mg for patients weighing 110-165 pounds (50-75 kg)
   - 4 mg for patients weighing 165-220 pounds (75-100 kg)
4. Pace with external pacer per External Cardiac Pacing protocol.
5. IV fluid bolus 250ml increments up to 1 liter with vital sign and lung exam between each bolus
6. For 2nd degree AV block type II and 3rd degree AV block, omit Atropine and go to External Cardiac Pacing protocol.
7. If patient is conscious and aware of situation during pacing, administer one of the following benzodiazepines:
   a. **Diazepam (Valium)** 5mg IV or IO, may repeat once PRN (up to max of 10 mg).

b. **Midazolam (Versed)** 2mg IV or IO, may repeat once PRN (up to max. 4 mg).

ALS LEVEL 2: MEDICAL CONTROL

1. Contact medical control or medical director for any questions or problems.
2. Consider **Glucagon 1-2 mg** IV x 1 if on Beta Blockers
3. Consider **Calcium Chloride 1-2 gms** IV over 10 min if on Calcium Channel Blockers

2.3.3 Cardiac Dysrhythmias: STABLE NARROW COMPLEX TACHYCARDIA- PSVT (JUNCTIONAL OR ATRIAL TACH)

Purpose: Patients suffering from tachycardia may or may not exhibit symptoms. It is important to note that narrow complex tachycardia has many origins. The atrial rate may be helpful in differential interpretation of these types of tachycardia. The following rates should be considered:

- Sinus Tachycardia ranges from 100 - 160 per minute
- Junctional tachycardia ranges from 100 - 180 per minute
- Atrial tachycardia ranges from 150 - 250 per minute Atrial flutter ranges from 250 – 350 per minute
- Atrial fibrillation starts at 350 per minute (atrial rate)

In addition, wide complex tachycardia (QRS ≥ 0.12 seconds) should initially be considered as ventricular in origin, unless proven otherwise (e.g. documented QRS morphology consistent with pre-existing BBB).

Procedure:

PSVT (JUNCTIONAL OR ATRIAL TACHYCARDIA) AND HR ≥ 150/MIN

BASIC LEVEL: EMT and PARAMEDIC

1. Initial Patient/Assessment Protocol. 2.1.1
2. Airway Assessment/Management Protocol.2.1.2
3. Attach cardiac monitor (Verify narrow complex tachycardia. If wide-complex tachycardia, see Ventricular Tachycardia Protocol) and pulse oximeter.

ALS LEVEL 1: PARAMEDIC ONLY

1. Start IV of lactated Ringer's or normal saline TKO.
2. Attempt vagal maneuvers (see procedure: Vagal Maneuver Protocol) if not contraindicated (have patient do a Valsalva maneuver).
3. If above fails or is contraindicated and the patient is not in A-fib or Aflutter, place patient in supine position and give **Adenosine Triphosphate (Adenocard)** 6mg rapid IVP followed by 20ml of NS flush
4. If, after 1-2 minutes, no response noted, administer **Adenosine** 12 mg IV push over 1-3 seconds, followed by 20ml of NS flush.

ALS LEVEL 2: MEDICAL CONTROL

1. Administer *ONE* of the following antiarrhymic drugs:
   a. **Verapamil** 2.5 – 5 mg over 2 minutes. May repeat 5 – 10 mg after 15 – 30 minutes. Max dose 20 mg.
   b. **Diltiazem (Cardizem)** 0.25mg/kg IV (over 2 minutes) (20mg for average patient) for narrow complex SVT. Do not use if patient has history of WPW. May repeat dose at 0.35mg/kg IV over two minutes (25mg for the average patient)
   c. **Amiodarone** 150mg in 50ml of D5W over 10 minutes if available. **May repeat x 1 in no response to the first dose.**

2.3.4Cardiac Dysrhythmias: NARROW COMPLEX TACHYCARDIA- **STABLE A-FIB OR A-FLUTTER**

Purpose: This protocol is for patients who are in an **atrial fibrillation** or **atrial flutter** rhythm and considered stable (BP > 90 mm Hg, no chest pain, no dyspnea or diaphoresis). The ventricular rate in a-fib will be irregular and the p-waves may not be discernable. P-waves in a-flutter may have a saw tooth appearance and a rapid +/- regular ventricular rhythm. Adenocard generally does not work on A-fib/a-flutter. If HR ≥ 150 proceed with protocol.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Initial Patient/Assessment Protocol. 2.1.1
2. Airway Assessment/Management Protocol. 2.1.2
3. Attach cardiac monitor (Verify narrow complex tachycardia. If wide-complex tachycardia, see Ventricular Tachycardia Protocol) and pulse oximeter.

ALS LEVEL 1: PARAMEDIC ONLY

1. Start IV of lactated Ringer's or normal saline TKO. Bolus as needed with 250mls of IV fluid. Repeat as needed up to 1 liter. Check vital signs
2. Administer one of the following anti-arrhythmic drugs: Do not use if patient has history of WPW.
   a. **Diltiazem (Cardizem)** 0.25mg/kg IV (over 2 minutes) (20mg for average patient) for narrow complex SVT. May repeat dose at 0.35mg/kg IV over two minutes (25mg for the average patient**.**
   b. **Verapamil** 2.5 – 5 mg over 2 minutes. May repeat 5 – 10 mg IV after 15– 30 minutes. Max dose 20 mg.

ALS LEVEL 2: MEDICAL CONTROL

1. **Amiodarone** 150mg in 50ml of D5W over 10 minutes if available. May repeat x 1 if no response to the first dose.
2. Contact medical control or medical director for any questions or problems.

2.3.5 Cardiac Dysrhythmias: UNSTABLE NARROW COMPLEX TACHYCARDIAS

Adult Medial Protocol

Purpose: This protocol is used for patients considered to be unstable with narrow complex tachycardia. Consider patient to be unstable and prepare for immediate cardioversion if patient exhibits any of the following signs or symptoms:

- Crushing chest pain, diaphoresis, heart rate ≥ 150
- Significant Shortness of breath
- Decreased level of consciousness
- Low blood pressure / shock (sys ≤ 90 mm Hg)
- Pulmonary edema / congestive heart failure
- Acute MI

.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Initial Patient/Assessment Protocol. 2.1.1
2. Airway Assessment/Management Protocol. 2.1.2
3. Attach cardiac monitor (Verify narrow complex tachycardia. If wide-complex tachycardia, see Ventricular Tachycardia Protocol [w/pulse] or V-Fib and V-tach w/o pulse]) and pulse oximeter.

ALS LEVEL 1: PARAMEDIC ONLY

1. **NOTE: If the rhythm is a rapid atrial fibrillation and onset of a-fib has been greater than 48 hours, contact medical control for assistance with medication vs cardioversion! If ordered to cardiovert, proceed. All other unstable tachyarrhythmias proceed as below.**
2. Start IV of lactated Ringer's or normal saline TKO. Bolus as needed with 250mls of IV fluid for systolic BP < 90 mm Hg. Repeat as needed up to 1 liter. Check vital signs
3. If patient is conscious and aware of situation, sedate with one of the following benzodiazepines:
   a. **Midazolam (Versed)** 2mg IV, may repeat once PRN (up to max. 4mg.)
   b. **Diazepam (Valium)** 5mg IV, may repeat once PRN (up to max. of 10 mg).
4. Synchronized cardioversion, start at:
   a. **50 joules for a-flutter** (if no response try 100 then 200 joules)
   b. **100 joules for a-fib and PSVT** (if no response try 200 then 300 joules)

ALS LEVEL 2: MEDICAL CONTROL

1. Overdrive pacing (see procedure: External Cardiac Pacing protocols)
2. Contact medical control or medical director for any questions or problems.

2.3.6 Cardiac Dysrhythmias: PREMATURE VENTRICULAR ECTOPY (PVC'S)

Purpose: Treatment of ventricular arrhythmias after MI has been a controversial topic for two decades. Similarly, management of ventricular arrhythmias during the acute phase of MI continues to evolve as treatment strategies are reviewed in the context of new information and changing epidemiological data during the era of adjunctive medical and reperfusion therapy. At present, the treatment of asymptomatic premature ventricular ectopy (PVC's) is not recommended. If patient exhibits any of the following signs or symptoms: (Chest pain, Dizziness, Symptoms of acute MI), and premature contractions are malignant (>6/min, multi-focal, occurring in couplets, exhibiting "R on T phenomenon", exhibiting runs of V-tach), follow this protocol.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Initial Patient/Assessment Protocol. 2.1.1
2. Airway Assessment/Management Protocol. 2.1.2
3. Attach cardiac monitor

ALS LEVEL 1: PARAMEDIC ONLY

1. Start IV of lactated Ringer's or normal saline TKO. Bolus as needed with 250mls of IV fluid. Repeat as needed up to 1 liter. Check vital signs
2. **Lidocaine** 1 – 1.5 mg/kg IV push (reduce dose by 50% if patient over the age of 70 or has known liver disease)
3. If, after 5 minutes, PVCs persist, repeat **Lidocaine** at ½ the initial dose. If PVCs are suppressed, begin **Lidocaine drip** at 2mg/min.
4. If PVCs do not respond to Lidocaine, give **Procainamide** at 30mg/min to a maximum of 17mg/kg.

ALS LEVEL 2: MEDICAL CONTROL

1. Contact medical control or medical director for any questions or problems

2.3.7 Cardiac Dysrhythmias: PULSELESS ECLECTRICAL ACTIVITY (PEA)

Purpose: This protocol is used for: electromechanical dissociation (EMD), pseudo-EMD, idioventricular rhythms, bradyasystolic rhythms, and post-defibrillation idioventricular rhythms.

The most frequent cause of PEA includes:

Hypovolemia	**T**ablets (drug OD, accidents)
Hypoxia	**T**amponade, cardiac
Hydrogen Ion- Acidosis	**T**ension pneumothorax
Hyper-/Hypokalemia	**T**hrombosis, coronary (ACS)
Hypothermia	**T**hrombosis, pulmonary (PE)

Treatment should be given with respect to the identifiable cause and therefore, may not reflect the sequence suggested below.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Initial Patient/Assessment Protocol. 2.1.1
2. Airway Assessment/Management Protocol. 2.1.2
3. Attach cardiac monitor
4. CPR as indicated

ALS LEVEL 1: PARAMEDIC ONLY

1. Start IV or IO of lactated Ringer's or normal saline and give initial bolus in 250ml increments of IV fluid up to 1 liter. Check vital signs and lung sounds between boluses. Repeat as needed with second liter.
2. **Epinephrine** (1:10,000) 1mg IV or IO and repeat every 3-5 minutes for duration of pulselessness. Can give via ETT at twice IV dose if no access. One dose of **Vasopressin** 40 units IV/IO may be substituted for either the first or second dose of epinephrine.
3. Consider cause and possible treatment options (see specific protocols).
4. For prolonged down time or known pre-existing metabolic acidosis, **Sodium Bicarbonate** (8.4%) 1mg/kg IV or IO
5. If patient taking calcium channel blocker, give **Calcium Chloride** 10% 1gm or 10ml IV or IO
6. If Return of Spontaneous Circulation (ROSC) and patient remains unconscious, begin **Induce Hypothermia Protocol**

ALS LEVEL 2: MEDICAL CONTROL

1. Contact medical control or medical director for any questions or problems.

2.3.8 Cardiac Dysrhythmias: WIDE COMPLEX TACHYCARDIA WITH PULSE (V-TACH WITH PULSE)

Purpose: This protocol is for patients with V-tach and a pulse. If patient is stable (good vitals, no chest pain), treat with medication as per STABLE PATIENT below. If Unstable (systolic BP < 90 mm Hg, chest pain, dyspnea, CHF, altered mental status) treat with cardioversion per UNSTABLE PATIENT BELOW.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Initial Patient/Assessment Protocol. 2.1.1
2. Airway Assessment/Management Protocol. 2.1.2
3. Attach cardiac monitor

ALS LEVEL 1: PARAMEDIC ONLY

FOR STABLE PATIENT:

1. Start IV or IO of lactated Ringer's or normal saline TKO. Bolus as needed in 250ml increments of IV fluid up to 1 liter. Repeat as needed with second liter. Check vital signs and lung sounds between boluses
2. Administer ONE of the following antiarrhythmics:
   a. If you are unsure if the wide complex tachycardia is V-tach vs an SVT with aberrancy; NOTE: 2010 ALS Guidelines allow for **Adenosine (Adenocard)** in the initial diagnosis and treatment of stable, undifferentiated REGULAR, monomorphic wide-complex tachycardia (DO NOT USE FOR IRREGULAR WIDE COMPLEX TACHY). If it is clearly V-tach, proceed as follows.
   b. **Amiodarone** 150mg in 50ml of D5W over 10 minutes IV or IO. May repeat every 10 minutes to maximum dose of 2 gm.

   OR if Amiodarone unavailable

   c. **Lidocaine** 1 – 1.5 mg/kg IV or IO. Repeat every 3 minutes at half initial dose (0.5 – 0.75 mg/kg) to a maximum total dose of 3mg/kg PRN. If Lidocaine converts rhythm, start **Lidocaine maintenance infusion** @ 2 – 4 mg/min. Drip based on total bolus dose given. IF:
      - 1mg/kg = 2mg/min
      - 1.5 - 2mg/kg = 3mg/min
      - 2.5 - 3mg/kg = 4mg/min
      - Reduce infusion by 50% for patients over age of 70 with CHF or liver disease.

   OR

d. **Procainamide** 30mg/min., to maximum dose of 17 mg/kg. If Procainamide converts rhythm, start **Procainamide maintenance infusion** @ 1 – 4 mg/min (Reduce maintenance infusion by 50% for patients with kidney disease). Ending point for Procainamide administration includes:
   - Dysrhythmia is suppressed
   - 17mg/kg total loading dose
   - QRS widens by 50% of original width
   - Systolic BP drops 10 mm Hg or more

3. Use only one antiarrhythmic medication. If patient does not convert with maximum dose, treat as unstable (synchronized cardiovert).

FOR UNSTABLE PATIENT: (systolic BP < 90 mm Hg, chest pain, dyspnea, CHF, altered mental status).

1. Start IV or IO of lactated Ringer's or normal saline TKO. Bolus as needed for systolic BP < 90 mm Hg in 250ml increments of IV fluid up to 1 liter. Repeat as needed with second liter. Check vital signs between boluses
2. If patient is conscious and aware of situation, sedate with one of the following benzodiazepines:
   a. **Midazolam (Versed)** 2mg IV, may repeat once PRN (up to max. 4mg.)
   b. **Diazepam (Valium)** 5mg IV, may repeat once PRN (up to max. of 10 mg).
3. Synchronized cardioversion @ 100, 200, 300, 360 joules if monomorphic V-tach. If polymorphic V-tach, treat as V-fib. If unsure if rhythm is polymorphic or monomorphic and patient is unstable, deliver unsynchronized defibrillation shock (200 joules)
4. If patient converts rhythm, give **Amiodarone** 150mg in 50ml of D5W over 10 minutes IV or IO. May repeat every 10 minutes to maximum dose of 2 gm. Or **Lidocaine 1 - 1.5 mg/kg IV.**

ALS LEVEL 2: MEDICAL CONTROL

1. Contact medical control or medical director for any questions or problems.

2.3.7 Cardiac Dysrhythmias: V-FIBRILLATION and/or PULSELESS V-TACH

Purpose: Use this protocol for patients in V-Fib and V-Tach with no pulse. Changes in ACLS treatment of cardiac arrest have been designed to minimize interruptions in chest compressions for rhythm check, pulse check, and ACLS therapies. To minimize interruptions in chest compressions, the team leader should plan interventions such as rhythm check, insertion of an airway, and even drug administration around uninterrupted periods of CPR. There is much less emphasis on drug therapy during cardiac arrest and much more emphasis on CPR with minimal interruptions in chest compressions.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Initial Patient/Assessment Protocol. 2.1.1
2. Airway Assessment/Management Protocol. 2.1.2
3. Attach cardiac monitor
4. Early CPR

ALS LEVEL 1: PARAMEDIC ONLY

1. Verify the patient is in V-fib (check for loose electrodes). Do CPR while defibrillator is charging!
2. **If a shock CAN** be delivered within 4 minutes of the onset of V-fib/pulseless V-Tach (onset occurs in presence of EMS), then give one shock at 200 joules (biphasic defibrillator) followed immediately by two minutes of CPR (5 cycles of 30:2 compressions: breaths) before checking for a pulse and assessing the rhythm on the monitor.
   If a shock CAN NOT be delivered within 4 minutes of onset of V-fib/pulseless V-tach, or if it is unknown how long patient has been in V-fib/pulseless V-tach at the time of patient contact, do 5 cycles (about 2 minutes) of CPR BEFORE delivering the first shock at 200 joules, immediately followed by two more minutes (5 cycles [30:2]) of CPR before checking for pulse and analyzing the rhythm.
3. Analyze rhythm/check pulse; if still in V-fib/pulseless V-tach, resume CPR, and perform the following actions with minimal interruptions in CPR.
4. Endotracheal Intubation or King Airway (or other blind insertion device). If an advanced airway is inserted, rescuers should no longer deliver “cycles” of CPR. Chest compressions should be delivered continuously (100 per minute) and rescue breaths delivered at a rate of 8 to 10 breaths per minute (1 breath every 6 to 8 seconds).
5. Establish IV or IO with Normal Saline or Lactated Ringers at KVO.

6. If establishing the IV/IO and administering the drug(s) cannot be done during the 5 cycles (or two minutes) of CPR prior to the second shock, give the second shock (if shockable rhythm), then immediately do another 5 cycles (or two minutes) of CPR and continue working on getting the IV/IO established and the drugs administered.
7. Give one of the following drugs (drugs should be administered during uninterrupted CPR after the first or second shock):
    a. **Epinephrine (1:10,000) 1 mg** IV or IO (if no access, give via ETT at twice the IV dose, max 0.1mg/kg). May repeat every 3 – 5 minutes for duration of pulselessness.
    b. **Vasopressin 40 units** IV or IO. After 10 minutes (following administration of **Vasopressin**), administer **Epinephrine** as above.
8. Continue the sequence, escalating the shocks IF the monitor is capable:
    a. CPR (5 cycles of 30:2 ratio or two minutes)→ Rhythm check/Charge (↯) defibrillator to 200 joules (while checking rhythm) → shock → CPR (5 cycles of 30:2 ratio or two minutes) → Rhythm check/↯ defib to 300 joules (→ shock → CPR…..3rd shock would be 360 joules
    b. All subsequent shocks at 360 joules.

NOTE: Drugs may be administered during the CPR that is performed while the defibrillator is charging, or during the CPR performed immediately after the shock is delivered.

9. Continue defibrillating at appropriate escalating dose during the appropriate time in the sequence after each medication is administered for the duration of the VF or VT without pulse
10. Continue with **Epinephrine** as above but also give (if V-fib/pulseless V-tach persist)
    a. **Amiodarone 300mg IV or IO** (rapid IV push if pulseless/no BP, otherwise dilute in 50 ml of D5W and give over 10 minutes to decrease risk of hypotension). May repeat once at 150 mg in 3 – 5 minutes. If successfully converted after bolus, administer Amiodarone drip at 1mg/min. Mix 100mg Amiodarone in 100ml of D5W and administer at rate of 15gtts/min

OR if Amiodarone not available

b. **Lidocaine 1 - 1.5 mg/kg IV or IO, repeat in 3 – 5 minutes to maximum dose of 3** mg/kg. If Lidocaine converts rhythm, start **Lidocaine maintenance infusion** @ 2 – 4 mg/min. Drip based on total bolus dose given. IF:
   - 1mg/kg = 2mg/min
   - 1.5 – 2mg/kg = 3mg/min
   - 2.5 – 3mg/kg = 4mg/min
   - Reduce infusion by 50% for patients over age of 70 with CHF or liver disease.

OR

c. **Procainamide 30 mg/min** to maximum of 17mg/kg IV or IO. If Procainamide converts rhythm, start **Procainamide maintenance infusion @ 1 – 4 mg/min** (Reduce maintenance infusion by 50% for patients with kidney disease). Mix 100mg (1ml) in 100ml of D5W or NS and administer 15 – 60 gtts/min with a microdrip. Ending point of Procainamide administration includes:

- Dysrhythmia is suppressed
- 17mg/kg total loading dose
- QRS widens by 50% of original width
- Systolic BP drops 10 mm Hg or more

11. Give 1 – 2 amps of **Sodium Bicarb (8.4%) 1mEq/kg IV or IO** if V-fib/pulseless V-tach is refractory to above meds and prolonged down time.
12. If Torsades de Pointes: give **Magnesium Sulfate 1– 2 gms IV or IO** (dilute in 100ml D5W) over 1 – 2 minutes. If magnesium converts rhythm, start **Magnesium Sulfate maintenance infusion** (1 gm in 250 D5W) @ 30 – 60 gtts/min
13. If Return of Spontaneous Circulation (ROSC) and patient remains unconscious, begin **Induce Hypothermia Protocol**

ALS LEVEL 2: MEDICAL CONTROL

1. Contact medical control or medical director for any questions or problems.

2.4
Other Adult Cardiac Emergencies

2.4.1 Cardiogenic Shock

Purpose: This protocol is to be used for a patient that is hypotensive (systolic BP < 90 mm Hg) with signs and/or symptoms that are cardiac in origin, e.g. Pulmonary Edema-CHF (dyspnea with rales and/or wheezing), suspected acute myocardial infarction (ST segment elevations on EKG, severe substernal chest pain). If cardiogenic shock is suspected, medical control will need to help guide you in management. The treatment options will need to take into account medications that affect the contractile force of the heart, as well as pre-load and after-load concerns.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Initial Patient Assessment Protocol. 2.1.1
2. Airway Assessment/Management Protocol 2.1.2.
3. Attach cardiac monitor and pulse oximeter.

ALS LEVEL 1: PARAMEDIC ONLY

1. Initiate IV lactated Ringer's or normal saline **TKO**.
2. If patient is short of breath with signs of pulmonary edema (dyspnea, wheezing, rales, tachypnea)
   a. Assist ventilations with BVM with 100% oxygen.
   OR
   b. Apply CPAP Mask if patient awake enough and able to tolerate
   OR
   c. Consider endotracheal intubation.
3. If hypotensive:
   a. Be sure to remove any transdermal nitroglycerine patch and inform medical staff that you have done so.
4. Obtain 12 lead EKG and transmit if capable.
5. Treat dysrhythmias per the appropriate protocol.
6. Further treatment based on evidence of fluid overload or no fluid overload.

ALS LEVEL 2: MEDICAL CONTROL

a. If hypotensive **WITH** evidence of fluid overload (peripheral edema and/or lung sounds with rales):
   i. Start **Dopamine** infusion @ 5-20 mcg/kg/min (1600 mcg/ml infusion concentration = 15 – 16 gtt/min). Titrate to maintain a minimum systolic BP of 90 mm Hg with good capillary refill or a maximum BP of 120 mm Hg (maximum dose 20 mcg/kg/min)
b. If hypotensive and **WITHOUT** evidence of fluid overload (lung sounds are clear (no rales) and/or NO peripheral edema):
   i. Administer 250 mL IV fluid bolus prn x 4, reassess vitals between boluses. If patient becomes dyspneic or redevelops pulmonary edema (dyspnea, wheezing, rales), do not give any further boluses
c. Contact medical control or medical director for further orders as needed.

2.4.2 Chest Pain-Suspected Acute MI-Acute Coronary Syndrome

Purpose: This protocol is used for patients experiencing chest pain or discomfort **suspicious** for cardiac cause. Pain may be described as dull, aching, squeezing, fullness, band-like sensation, tightness, and sensation of someone or something sitting on chest. The pain may or may not radiate to the neck, jaw, left shoulder or down left arm. The patient can also have the following symptoms with or without chest pain; diaphoresis, nausea, short of breath, feel a sense of doom, weak, fatigued. Treat patients for possible cardiac cause of pain IF:

- Age ≥ 30 (or if < than 30 with personal history of coronary artery disease)
- History of: HTN, Smoking, morbid obesity, Diabetes, Positive Family history of cardiac issues (when family member was same age as patient at onset of problem), hypercholesterolemia, cocaine use
- Anyone with abnormal/suspicious findings on the cardiac monitor, proceed with the following;

All other chest pain patients less than 30 yrs of age do not need to be treated with nitroglycerine and aspirin. If you have any doubt, contact medical control for guidance. Consider other causes in young patients such as musculoskeletal strain, respiratory (bronchitis, pneumonia, bronchospasm), trauma, GI (reflux, gall stones), etc.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Initial Patient Assessment Protocol. 2.1.1
2. Airway Assessment/Management Protocol. 2.1.2 Oxygen via nasal canula @ 4 LPM if SpO_2 <94% (use non-rebreather @15 LPM if SpO_2 < 90%)
3. Attach cardiac monitor and pulse oximeter.
4. BLS Crews can assist patients in taking their own home meds such as aspirin or sublingual nitroglycerine (see medical procedure protocols).
5. Place in position of comfort

ALS LEVEL 1: PARAMEDIC ONLY

1. Obtain (and transmit if capable) 12 lead EKG as soon as possible. Notify medical control of any findings suggestive of acute myocardial infarction or other grossly abnormal tracing. For all arrhythmias identified, refer to the appropriate protocol. If ACUTE MI IS IDENTIFIED, NOTIFY THE APPROPRIATE RECEICVING FACILITY AND CALL A "CODE STEMI". If inferior wall MI is identified, perform additional 12 lead EKG with V4R to confirm/rule out concurrent right ventricular MI. (a).
2. Initiate an IV of lactated Ringer's or normal saline at a TKO rate. May require IV Bolus if hypotensive (systolic BP < 90 mm Hg). Give boluses in 250ml increments with vital sign and breath sound recheck in-between each bolus. Establish 2 IVs if possible.
3. Administer 1 **Aspirin tablet (325 mg) PO** or chew 4 Baby Aspirin if patient not allergic to Aspirin and does not have ulcer disease and has not taken a 325 mg dose within the past 24 hours.

4. Administer 1 **Nitroglycerin tablet or spray (0.4mg)** sublingually if systolic blood pressure greater than 90 mm Hg (avoid if HR < 50/min,or HR > 150/min). May be repeated every 5 minutes until:
    a. 3 tablets have been administered,
    b. Pain is relieved, or,
    c. Systolic blood pressure falls below 100 mm Hg.

    NOTE: DO NOT GIVE NITRO IF PATIENT HAS TAKEN Viagra, Cialis, Levitra or any other medication for erectile dysfunction in past 24-48 hours.
5. If pain was relieved to 0/10 by sublingual nitro, place 1 inch of **nitroglycerine paste** to chest wall (monitor blood pressure).
6. If pain continues and patient is not hypotensive (systolic BP < 90 mm Hg), administer **Morphine Sulfate slow IV in 2mg** increments every 3-5 minutes titrated to pain and BP > 90 mm Hg, up to maximum of 10 mg. Monitor respirations and blood pressure closely.
7. If patient becomes nauseated, give one of the following:
    a. Zofran 4 – 8 mg IVP or IM
    b. Benadryl 25-50 mg IVP
8. Minimize venipunctures.
9. IF time permits and transporting to a non cardiac cath facility (do not delay treatment or transport), perform Fibrinolytic screening checklist (see forms). This may prevent a delay if hospital will be giving thrombolytics in the event cardiac catheterization is not immediately available.

ALS LEVEL 2: MEDICAL CONTROL

1. Contact medical control for further orders as needed.

NOTE:

(a) Bradycardia with hypotension may be due to inferior wall MI associated with right ventricular MI (confirmed on 12 lead EKG -V4R ST elevation). When an inferior MI is associated with right ventricular MI, **avoid use of nitrates (Nitroglycerin)**. If bradycardia and hypotension exists, pacing and IV fluids may improve the patient's hemodynamic status

(b) Other causes of non-traumatic chest pain include: angina pectoris, dissecting aortic aneurysm, pericarditis, spontaneous pneumothorax, pulmonary embolism, pneumonia, pleurisy, costochondritis, hiatal hernia, esophageal spasm, peptic ulcer, cholecystitis, pancreatitis, and cervical disk problem. The paramedic will not always be able to differentiate the cause of a patient's chest pain. It is imperative for the paramedic to obtain a good history and perform a good physical exam including a chest exam/breath sounds, abdominal exam and evaluation of peripheral pulses, as well as monitor cardiac activity and vital signs in order to identify those patients who are hemodynamically unstable.

Chest Pain Protocol Checklist

- ❑ **Assure ABC's.**
- ❑ **Administer oxygen via nasal cannula or non-re-breather, titrate to SpO_2 >94%.**
- ❑ **Obtain symptom duration, time of onset or last time patient was seen normal.**
- ❑ **Obtain 12 lead EKG and transmit as soon as possible (if capable).**
- ❑ **Notify medical control of any findings that indicate MI or other abnormalities.**
- ❑ **Place patient in position of comfort.**
- ❑ **Pulse ox.**
- ❑ **Vital signs.**
- ❑ **Initiate intravenous line. Establish two if possible.**
- ❑ **Determine serum glucose level if history of diabetes or Altered Mental Status.**
- ❑ **Administer 1 Nitro tablet (0.4mg) sublingually if systolic pressure greater than 100 mm Hg. (Do not give Nitro if patient has had Viagra or similar medication in the past 24-48 hours.**
- ❑ **Repeat Nitro till pain relieved, 3 tablets administered, or systolic pressure drops below 100 mm Hg.**
- ❑ **1 inch of Nitro Paste to chest wall if pain is relieved.**
- ❑ **Administer 4 baby aspirin or 1 325mg tablet if patient is not allergic or have ulcers.**
- ❑ **Treat dysrhythmias per protocol.**
- ❑ **Consider Morphine 2 mg IVP and every 3-5 minutes up to 10mg.**
- ❑ **Consider Zofran 4-8 mg IVP or IM for nausea.**
- ❑ **Transport. Document all items on run report.**

FIBRINOLYTIC INCLUSION/EXCLUSION CHECKLIST:

Patient Name: _____ Date: _____

Inclusion Criteria	YES	NO
1. Patient ≥ 18 years old		
2. Ischemic discomfort ≥ 30 min. but not > 12 hours		
3. ST segment > 1mm in ≥ 2 contiguous leads or ST elevation ≥ 2mm in ≥ 2 contiguous precardial leads or presumed new LBBB		

Exclusion Criteria	YES	NO
Any "YES ANSWER" to the below listed questions will "EXCLUDE" the patient from being a candidate for thrombolytic therapy. Paramedic must check each box as the question is answered.		
1. Any active internal bleeding within the last 4 weeks (e.g. black tarry stools, hematemesis).		
2. History of CVA or TIA.		
3. ANY surgery within the past 4 weeks		
4. Brain tumor, AVM (arterial-venous malformation), Cerebral aneurysm		
5. Hemophilia or any known bleeding disorder		
6. Presenting hypertension, any blood pressure PRIOR to the delivery of thrombolytics that exceeds 180 systolic or 110 diastolic.		
7. Use of cocaine or amphetamines in the past 3 days		
8. Patient in cardiogenic shock (BP < 90), or intubated		
9. Recent trauma, including CPR > 2 minutes		
10. Back Pain indicative of a Dissecting Aneurysm, presenting as a tearing or ripping pain, in the upper back, accompanied by unequal blood pressures or distal pulses.		
11. Being treated for pericarditis, endocarditis		
12. Pregnancy		
13. Patient taking oral anticoagulation meds within the past 3 days		
Paramedic Signature:		

2.4.3 Hypertensive Emergencies

Purpose: You are NOT trying to correct a patient's chronic elevation of blood pressure on a one time EMS visit. You will NOT always see a significant change in blood pressure during the short time patient is in your possession. This protocol should be applied to patients who are:

Asymptomatic:

1. IF patient has a persistent systolic BP > **220** mm Hg and/or a diastolic BP > **130** mm Hg after 2 separate readings, 5 minutes apart, proceed as below. (If possible, take BP in other arm for one of the readings). DO NOT delay transport for BP readings/treatment. The goal is to gradually lower the BP to a more manageable range of a systolic < or = 180 mm Hg and a diastolic BP < or = 95. Should you arrive at the hospital before both readings are obtained, inform ED staff and treatment can be provided by the ED staff. If either of the two BPs falls below the 220 systolic or 130 diastolic, do not treat unless you contact medical control first.

Symptomatic:

1. IF patient has systolic BP >**180** mm Hg and/or diastolic BP > **110** mm Hg AND has **Chest pain and/or CHF/Pulmonary Edema symptoms**, follow protocol for symptoms (Suspected AMI/Acute Coronary Syndrome, and/or Pulmonary Edema/CHF). High blood pressure will be treated by following those protocols.
2. IF systolic BP > **180** mm Hg and/or diastolic BP > **110** mm Hg AND patient has epistaxis (nosebleed), follow protocol below
3. IF systolic BP > **180** mm Hg and/or diastolic BP > **110** mm Hg AND patient has severe headache with or without blurred vision, follow protocol below. If you suspect a stroke (protocol CVA/Stroke), **do not lower BP** unless ordered to do so by medical control.
4. Eclampsia should be considered with female patients in their third trimester or postpartum who are hypertensive and/or seizing (Refer to 2.7.4 Eclampsia Protocol)

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Initial Patient Assessment Protocol 2.1.1
2. Airway Assessment/Management Protocol 2.1.2. Oxygen via nasal cannula @ 2 - 4 LPM to maintain pulse ox ≥ 94% (non-rebreather @15 LPM if SpO_2 < 90%).
3. Attach cardiac monitor and pulse oximeter

ALS LEVEL 1: PARAMEDIC ONLY

1. Establish an IV of Lactated Ringers or Normal Saline at KVO prn.
2. For nose bleed;
   a. Hold pressure against nostril on affected side. (Apply ice pack if possible).
   b. Keep head of bed elevated between 45 – 90 degrees.

c. Verify elevated BP with two separate readings (one in each arm or one in same arm 5 minutes apart). If elevated BP (systolic >180 mm Hg or diastolic > 110 mm Hg) x 2 readings, proceed to #4 below.

3. For severe headache with or without blurred vision;
   a. Review patient's home medications and inquire if any medications are taken for high blood pressure.
   b. Inquire if patient has taken their high blood pressure medication as scheduled. If patient has not yet taken their blood pressure medication and is due a dose now or over the next 2 -3 hours, have them take a dose of their prescribed medication if no nausea/vomiting. Transport and report the name of medication taken by patient to ED Staff
   c. Inquire if patient has taken any medication for the headache in the past 6 hours (Tylenol, Motrin/Ibuprofen, any prescribed pain Rx), if not, give or assist patient with taking 1 gm of Tylenol (if not allergic) po.
   d. Examine patient for stroke symptoms (Cincinnati Stroke Scale). Do not lower BP if stroke suspected without med control
   e. After above measures, verify elevated BP with two separate readings (one in each arm or one in same arm 5 minutes apart). If elevated BP (systolic >180 mm Hg or diastolic > 110 mm Hg) x 2 readings, proceed to #4 below.
4. Administer **Nitroglycerine** 0.4mg (1 tab or spray) sublingually. Repeat q 5 - 10 min prn x 3. Monitor vital signs every 3-5 minutes. Make sure patient has not taken any erectile dysfunction drugs in previous 24 – 48 hours prior to giving nitro
5. Apply 1 inch of **Nitro paste** to patient's chest.
6. If blood pressure falls too low (systolic < 90), remove the Nitro Paste and give IV fluid as needed to maintain systolic between 90-110

ALS LEVEL 2: MEDICAL CONTROL

1. **Labetalol (Normadyn) (Trandate)** 10- 20 mg IV slowly over 2 minutes. May repeat q 10 minutes to max dose of 300mg. Contact medical control if pulse < 60.
2. **Clonidine (Catapress)** 0.1 mg p.o. May be repeated in 30 – 60 minutes. Max dose 2.4mg/day
3. Contact medical control or medical director if any concerns or any questions.

2.4.4 Hypotension/Shock (Unknown Cause or Immediate Cause Not Identified)

Purpose: This protocol is to be used for patients who are found to be hypotensive (Systolic BP ≤ 90 mm Hg) and the immediate cause may not be known. Possible causes include (but not limited to):

1. **Medications** (As per intended purpose such as any of the antihypertensive medications or as an adverse reaction or side effect of a non-antihypertensive medication):
    a. Beta Blockers
    b. Calcium Channel Blockers
    c. ACE Inhibitors
    d. Diuretics
2. **Cardiac Causes**
    a. Low Cardiac Output (e.g. Myocardial Infarction, myocarditis)
        i. Cardiogenic Shock
    b. Cardiac Tamponade
3. **Low Volume States**
    a. Severe Dehydration
    b. Anemia acute or chronic
    c. Acute hemorrhage (e.g. Acute GI bleed, ruptured Aortic Aneurysm)
4. **Medical Causes**
    a. Sepsis
    b. Anaphylaxis
    c. Endocrine Derangements (Adrenal Crisis)
5. **Traumatic Causes (refer to appropriate trauma protocol)**
    a. Acute traumatic hemorrhage
6. **Neurologic causes**
    a. Head Injury
    b. Spinal Cord Injury
    c. CVA
    d. Vasovagal Fainting

Signs and Symptoms:

1. Hypotension (systolic ≤ 90 mm Hg)
2. Normal or Decreased LOC
3. Tachycardia (may not be present due to certain medications)
4. Tachypnea and Bradycardia may be seen in spinal cord injuries
5. NOTE: Spinal Shock: Clinical presentation differs from hemorrhagic shock in that there is no catecholamine release, thus:
    a. No pallor
    b. No tachycardia or diaphoresis
    c. Decreased blood pressure with normal or slow heart rate
    d. Skin warm, dry and pink
    e. Patient may be more alert than expected for his/her blood pressure.

If an immediate or obvious cause can be identified, refer to the appropriate protocol for additional guidance, e.g. if trauma involved, refer to the appropriate trauma protocol, for cardiac causes, refer to the appropriate cardiac protocol.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Initial Patient Assessment Protocol. 2.1.1
2. Airway Assessment/Management Protocol.2.1.2.
3. Attach cardiac monitor and pulse oximeter.
4. Consider placing in Trendelenburg

ALS LEVEL 1: PARAMEDIC ONLY

1. Initiate IV of Normal Saline (or Lactated Ringers if trauma related). If BP Systolic ≤ 90 mm Hg, bolus with 250 ml IV fluid and repeat up to 1 liter (2 liters if trauma). Check vital signs and breath sounds in-between each bolus.
2. If patient develops pulmonary edema during fluid bolus, discontinue bolus and follow cardiogenic shock protocol,

ALS LEVEL 2: MEDICAL CONTROL

1. If after first liter (or second liter for trauma) of IV fluid bolus (and no obvious cause of hypotension), and patient's systolic BP is still ≤ 90 mm Hg, contact medical control for advice on giving a second liter of fluid bolus or starting a **Dopamine** drip. It will depend on the circumstances.

Left Ventricular Assist Devices

Purpose: The purpose of this protocol is to guide the EMS crew with managing a patient tethered to a left ventricular assist device. A ventricular assist device is a mechanical pump that is used to support heart function and blood flow in people who have weakened hearts. The device takes blood from the lower chamber of the heart and helps pump it to the body and vital organs just as a healthy heart would. Patients and family members are well versed on the management of these devices and should be able to guide you in management. Be sure when transporting patients with LVADs, that ALL the necessary supplies accompany the patient. This includes the extra batteries, chargers, and any other spare/backup components. Keep in mind, with many LVADs, you will not hear or detect a blood pressure. You will instead rely on the patient's level of consciousness, and the skin color and condition. Pulses may or may not be palpable. When the chest is auscultated, you will hear the humming of the device.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Initial Patient Assessment Protocol. 2.1.1
2. Airway Assessment/Management Protocol.2.1.2. Supplemental oxygen if any respiratory signs or symptoms are present
3. Attach cardiac monitor and pulse oximeter. Pulse ox may not work on these patients.

ALS LEVEL 1: PARAMEDIC ONLY

1. Auscultate Heart Sounds to determine if the device is functioning and what type of device it is. If it is continuous flow device, you should hear a "whirling sound"
2. Assess the device for any alarms.
3. Look on controller usually found around the waist of the patient to see what color tag and device it is.
4. Match the color on the device tag to the EMS Guide LVAD Devices
5. Intervene appropriately based on the type of alarm, tag (device) and EMS Guide.
6. Initiate IV of Normal Saline or LR at KVO.
7. Assess vital signs – Use Mean BP with Doppler – with the first sound you hear is the Mean Arterial Pressure (MAP).
8. If no Doppler, use the Mean on the non-invasive blood pressure machine. A manual blood pressure may not be obtainable, but with an automated cuff you will be able to obtain a pressure with a narrow pulse pressure.
9. Transport to closest VAD center if possible, otherwise to closest hospital if patient is hemodynamically unstable or to hospital of choice if patient is stable. Call the number on the device for the LVAD coordinator on call.

10. Bring all of the patient's equipment.
11. Bring the significant other if possible to act as an expert on the device in the absence of consciousness in the patient.
12. If the patient is unconscious, unresponsive to stimuli, and pulseless listen to the patient's chest. If you hear the whirling sound of the LVAD, **DO NOT PERFORM CPR**. The LVAD device has been surgically placed into the left ventricle and CPR could dislodge this device, causing death. If you cannot hear the device then CPR should be performed per cardiac arrest protocol.
13. Monitor blood glucose level if any weakness, altered mental status or history of diabetes. Treat per Diabetes Protocol
14. Nothing by mouth, unless patient is known diabetic with hypoglycemia and is able to self-administer oral glucose paste, or a glucose containing beverage.
15. Above all else please remember that these patients, along with their families, have been well trained in the care of themselves and their devices. LISTEN TO THEM!
16. Evaluate a 12 lead ECG if chest pain or ischemic equivalent symptoms (i.e. abdominal pain above the umbilicus, nausea, dizziness, chest tightness or shortness of breath.)
17. If patient meets STEMI criteria on 12 lead ECG, follow Chest Pain Protocol
18. All dysrhythmias should be treated in accordance with appropriate Dysrhythmia Protocol.
19. For conscious electrical defibrillation, the patient may be sedated with **Versed** 2-4mg if the MAP is greater than 65mmHg.
20. Record and monitor continuous O2 saturation, sometimes not obtainable with LVAD patients. In addition you may utilize End Tidal Co2 capnography.
21. If evidence of dehydration, bolus 250 ml of Normal Saline with a max of 500 ml of NS until patient is normotensive, (= or > 65 MAP). If patient shows signs of Congestive Heart Failure (crackles on auscultation of lungs, JVD or peripheral edema) withhold fluid bolus.
22. . If patient suffering from severe nausea or vomiting, follow Protocol Nausea and Vomiting .
23. . Minimize on scene time when possible

ALS LEVEL 2: MEDICAL CONTROL

2.5
Adult Neurological/Psychological/Behavioral Emergencies

2.5.1 Altered Mental Status/Coma

Purpose: This protocol is to be used for any patient with an altered mental status or unconscious for unknown reasons. Remember, the cause could be multifactorial. Look for clues at the scene, i.e. empty pill bottles, notes. Check for medical alert bracelets or necklace that may identify diabetics or other medical conditions. Use appropriate discretion regarding immediate intubation of patients who may quickly regain consciousness, such as hypoglycemics after D50 or opiate overdose cases after Narcan. Remember C-spine precautions if indicated.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Initial Patient Assessment Protocol 2.1.1
2. Airway Assessment/Management Protocol 2.1.2
3. Attach cardiac monitor and pulse oximeter.
4. Alcoholics with any evidence of head trauma and altered mental status must be considered to have a closed head injury until proven otherwise. Treat them as such including C-spine precautions.
5. Notify law enforcement for assistance with any combative or uncooperative alcoholic with an altered mental status.
6. Assess for and document Glascow Coma Scale
7. Transport to designated hospital.

ALS LEVEL 1: PARAMEDIC ONLY

1. Consider need for intubation and always remain vigilant of the patient's respiratory status
2. Initiate IV of lactated Ringer's or normal saline at TKO. If patient is tachycardia and/or hypotensive, give a 250 mlbolus then run at 100cc/hr.
3. Determine serum glucose level with Glucometer or Dextrostix;
    a. If sugar 60 mg/dl - 80 mg/dl; Sublingual glucose paste, or **Glucagon** 1mg IM or ½ amp of 25gm **50% Dextrose** IV
    b. If Blood sugar < 60 mg/dl; 1 amp 25gm **50% Dextrose** IV or **Glucagon** 1 mg IM
    c. If Blood sugar > 300mg/dL with signs of dehydration, administer bolus of IV normal saline 500 mlthen run in at 100cc/hr
4. If history of drug abuse, and patient has constricted pupils or respiratory depression, assist respirations as needed and administer **Narcan** 1 -2 mg IV
5. If history suspicious for alcoholism, administer **Thiamine 100 mg** IV (slow) or IM.
6. If history of Benzodiazepine usage, monitor/support respirations and report to Emergency Department staff.

ALS LEVEL 2: MEDICAL CONTROL

1. Contact Medical Control or Medical Director for any questions or problems.

NOTE:

(a) To avoid infiltration and tissue necrosis, Dextrose 50% should be given slow IV with intermittent aspiration of IV line to confirm IV patency followed by saline flush.

(b) Consider restraints if necessary for patient and/or personnel's protection per restraint procedure protocol.

2.5.2 Behavioral / Violent /Psychiatric Emergencies

Purpose: This protocol is for patients with psychiatric problems. If patient is violent and an immediate threat to him/herself, EMS crew or bystander safety exists, restraint should be used to prevent patient from harming him/herself or others. If patient is not violent, be observant for possibility of violence and avoid provoking patient. Particular caution should be exercised when any "non-lethal" law enforcement device (e.g. pepper spray, taser, etc.) has been employed. Respect the dignity of the patient. Teamwork between EMS personnel and law enforcement will improve patient care.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Initial Patient Assessment Protocol 2.1.1
2. Airway Assessment/Management Protocol 2.1.2. If indicated Oxygen via nasal cannula @ 2 - 4 LPM to maintain pulse ox ≥ 94% (non-rebreather @15 LPM if SpO_2 < 90%).
3. Rule out other causes other than psychiatric (e.g. hypoglycemia, hypoxia, CVA, drug overdose, ETOH).
4. If attempts at verbal control are unsuccessful, use reasonable physical restraints. Every attempt should be made to avoid injury to the patient when using physical restraint. If necessary, use standard restraining techniques and devices. Use sufficient padding on extremity restraints on elderly patients or others with delicate skin.
5. **Avoid positional asphyxia!!! Do Not transport patient in a "hog tied" prone position. Transport patient lying on their side or supine. If patient still agitated, have law enforcement ride in back of ambulance. If law enforcement refuses to reposition a restrained prone patient on their side, law enforcement MUST ride in with patient.**
6. Communicate in a calm and non-threatening manner.
7. Attach cardiac monitor and pulse oximeter if indicated (must be on any patient restrained, physical or chemical)
8. Constantly monitor and observe the patient to prevent injury.
9. Carefully document the rationale for the use of restraints.
10. All individuals being transported for psychological evaluation under the premise of a Baker Act (or equivalent document for involuntary evaluation/treatment) should be accompanied by a police officer. The paramedic in charge shall determine whether the police officer will ride in back or follow behind the EMS unit.
11. In those situations where a female patient is being transported and a female is not part of the EMS crew, the paramedic should attempt to have a female police officer accompany the patient to the hospital. This is

imperative in situations such as possible rape. Also document beginning and ending mileage with dispatch via radio.

ALS LEVEL 1: PARAMEDIC ONLY

1. If altered mental status, determine serum glucose level with Glucometer or DextroStix:
    a. If sugar 60 mg/dl - 80 mg/dl; give; ½ amp of **50% Dextrose** 25gm IV or **Glucagon** 1mg IM or Sublingual glucose paste, May repeat x 1 if after 15 minutes recheck fingerstick glucose < 80 mg/dl
    b. If Blood sugar < 60 mg/dl; 1 amp 25gm **50% Dextrose** IV or **Glucagon** 1 mg IM
    c. If glucose > 80 mg/dl and < 200 mg/dl, provide supportive care, keep NPO
    d. If glucose > 200 mg/dl, go to Hyperglycemia Protocol.
2. Use chemical restraints in conjunction with physical restraint if the latter is unsuccessful in controlling violent behavior.
3. For Chemical restraint:
    a. Establish and IV of Lactated Ringers or Normal Saline at KVO (if patient's extremity can be held down for the procedure [with assistance]), otherwise give medications IM
    b. Administer one of the following benzodiazepines:
        i. **Diazepam (Valium)** 5 – 10mg IV or IM. Higher dosing per medical control
        ii. **Midazolam (Versed)** 2-4 mg IV or IM. May repeat x 1 PRN. Higher dosing per medical control
    c. If additional sedation needed for severely agitated patient or if extrapyramidal side effects from medical control ordered Haldol, administer **Diphenhydramine (Benadryl)** 25 – 50 mg IV or IM. Use the higher dose for very large patients.
4. If history of alcoholism, or alcoholism suspected administer **Thiamine** 100 mg IV or IM.
5. Monitor any physically or chemically restrained patient closely for respiratory compromise and plan to intervene accordingly

ALS LEVEL 2: MEDICAL CONTROL

1. For agitated/violent patient: **Haldol (haloperidol)** 5 -10 mg IM.
2. Notify medical control or medical director for any problems or concerns.

2.5.3 Excited Delirium

Medical adult protocol

Purpose: This protocol is to be used on patients suspected of being in a state of excited delirium. Excited delirium is reported to result from substance intoxication (especially cocaine, Spice and Bath Salts), psychiatric illness, alcohol withdrawal, head trauma, or a combination of these. Excited delirium is sometimes called **excited delirium syndrome** if it results in sudden death (usually via cardiac or respiratory arrest), an outcome that is sometimes associated with the use of physical control measures, including police restraint and tasers. The signs and symptoms for excited delirium may include:

- Paranoia
- Insensitivity to pain
- Psychomotor agitation
- Anxiety
- Disorientation
- **Hyper-aggression**
- Tachycardia
- Hallucination
- Incoherent speech or shouting
- **Seemingly superhuman strength or endurance (typically while trying to resist restrain efforts)**
- Hyperthermia (overheating)/profuse sweating (even in cold weather)

Other medical conditions that can resemble excited delirium are panic attack, hyperthermia, diabetes, head injury, delirium tremens, and hyperthyroidism.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. THESE PATIENTS ARE HYPER-AGITATED AND CAN HAVE SUPER-HUMAN STRENGTH. DO NOT ATTEMPT TO APPROACH PATIENT UNTIL SCENE IS SCECURED BY LAW-ENFORCEMENT
2. YOU MUST HAVE SUFFICIENT NUMBER OF TEAM MEMBERS TO MANAGE THESE PATIENTS.
3. Initial Patient Assessment Protocol 2.1.1 when able to gain control of patient
4. Airway Assessment/Management Protocol 2.1.2. Oxygen via nasal cannula @ 2 - 4 LPM to maintain pulse ox ≥ 94% (non-rebreather @15

LPM if SpO_2 < 90%). (Patient is using a lot of oxygen during hyper-metabolic state)

5. Rule out other causes other than psychiatric (e.g. hypoglycemia, hypoxia, CVA, drug overdose, ETOH).
6. If attempts at verbal control are unsuccessful, use reasonable physical restraints until such time as patient can be medicated. Use the least restrictive method of restraint; allow the patient to correct inappropriate behavior. Every attempt should be made to avoid injury to the patient when using physical restraint. If necessary, use standard restraining techniques and devices. Use sufficient padding on extremity restraints on elderly patients or others with delicate skin.
7. **Avoid positional asphyxia!!! Do not transport patient in a "hog tied" prone position. Transport patient lying on their side or supine. If patient still agitated, have law enforcement ride in back of ambulance.**
8. Communicate in a calm and non-threatening manner.
9. Attach cardiac monitor and pulse oximeter as soon as it is feasible (**must** be on any patient restrained, physical or chemical)
10. Constantly monitor and observe the patient to prevent injury.

ALS LEVEL 1: PARAMEDIC ONLY

1. If it is not possible to safely manage patient due to hyper-aggression and agitation, administer one of the following:
   a. **Versed 2 – 4 mg IM** (or IV if able to safely get an IV) may repeat 3 – 5 minutes PRN up to 10 mg.
   b. **Diazepam (Valium)** 5 – 10mg IM (or IV if able to safely get an IV) may repeat x 1 PRN.
   c. **Haldol 5 – 10 mg** IM (DO NOT GIVE HALDOL IV!) followed by **Diphenhydramine (Benadryl)** 25-50 mg IM or IV. Must be on cardiac monitor
2. If IV had not been established before, start IV of Lactated Ringers or NS at KVO. Bolus with 250 mg increments as needed for systolic BP < 90 mm Hg and/or HR > 120.
3. If altered mental status, and when safe to do so, determine serum glucose level with Glucometer or DextroStix:
   a. If sugar 60 mg/dl - 80 mg/dl; give; ½ amp of **50% Dextrose** 25gm IV or **Glucagon** 1mg IM or Sublingual glucose paste, May repeat x 1 if after 15 minutes recheck fingerstick glucose < 80 mg/dl
   b. If Blood sugar < 60 mg/dl; 1 amp 25gm **50% Dextrose** IV or **Glucagon** 1 mg IM
   c. If glucose > 80 mg/dl and < 200 mg/dl, provide supportive care, keep NPO
   d. If glucose > 200 mg/dl, go to Hyperglycemia Protocol
4. If patient body temperature exceeds 102° F, move patient to cooler environment, and remove clothing. Cool aggressively with wet sheets, cool packs, and/or evaporative airflow. Avoid ice packs and cold

water immersion. Lower body temperature to 102° F (39C).
5. If patient goes into cardiac arrest, treat accordingly and administer **1 amp of Sodium Bicarb** early as they are usually very acidotic.
6. Monitor any physically or chemically restrained patient closely for respiratory compromise and plan to intervene accordingly

ALS LEVEL 2: MEDICAL CONTROL

1. Notify medical control or medical director for any problems or concerns.

2.5.4 Seizures

Purpose: This protocol should be used when the patient has witnessed continuous convulsions (generalized tonic-clonic seizure or Grand Mal) or repeating episodes without regaining consciousness or sufficient respiratory decompensation. Consider underlying etiology, such as: hypoglycemia, drug overdose, head injury, or fever. Other types of seizures include: absence (Petit Mal), simple partial (focal motor and Jacksonian), complex partial (Psychomotor or Temporal Lobe), atonic (drop attacks), and myoclonic. When the patient is continuously showing signs of these other types of seizures, medical supportive care should be initiated and the paramedic should contact medical control for further direction. Females in their second or third trimester of pregnancy (≥ 20 weeks gestation) that are seizing should be assumed to have eclampsia. It should also be noted that eclampsia can occur postpartum (≤ 1 week).

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Initial Patient Assessment Protocol 2.1.1
2. Airway Assessment/Management Protocol 2.1.2. Oxygen via nasal cannula @ 2 - 4 LPM to maintain pulse ox ≥ to 94% (non-rebreather @15 LPM if SpO_2 < 90%).
3. Attach cardiac monitor and pulse oximeter
4. Assess for and document the Glascow Coma Scale
5. **If not actively seizing**:
   a. Open airway and suction PRN.
   b. Proceed with secondary survey.
   c. Obtain history.
6. **If actively seizing**:
   a. Protect patient from injury.
   b. Do not attempt to insert tongue blade or oral airway.
   c. Suction p.r.n.
   d. Nasopharyngeal airway may be useful.
7. **If recent seizure, and patient is postictal:**
   a. Place in recovery position.
   b. Suction p.r.n.
   c. Transport.

ALS LEVEL 1: PARAMEDIC ONLY

1. Initiate IV lactated Ringer's or Normal Saline at 125ml/hr. If patient hypotensive (systolic < 90 mm Hg) and/or tachycardic (HR > 110) bolus

with 1- 2 liters of IV fluid in 250ml increments until systolic BP > 90 mm Hg (20 ml/kg for children). Recheck vital signs and lung exam in-between each increment. Discontinue bolus if signs of pulmonary edema or development of respiratory distress.

2. If Eclamptic female (go to Eclampsia Protocol), administer **Magnesium Sulfate** 4gms IV (mixed in 50 ml of D5W given over 5 – 10 minutes)
3. If seizing, administer one of the following benzodiazepines:
    a. **Midazolam (Versed) 5 mg IM or 2-4 mg IV**. May repeat each x 1 PRN
    b. **Diazepam (Valium)** 5 – 10mg IV or IM
4. Determine serum glucose level with Glucometer or DextroStix:
    a. If sugar 60 mg/dl - 80 mg/dl; give; ½ amp of **25 gm 50% Dextrose IV** or **Glucagon 1mg** IM. May repeat x 1 if after 15 minutes recheck fingerstick glucose < 80 mg/dl
    b. If Blood sugar < 60 mg/dl; 1 amp 25gm 50% **Dextrose** IV or **Glucagon** 1 mg IM
    c. If glucose > 80 mg/dl and < 200 mg/dl, provide supportive care, keep NPO
    d. If glucose > 200 mg/dl, go to Hyperglycemia Protocol.

ALS LEVEL 2: MEDICAL CONTROL

1. Notify medical control or medical director for any problems or concerns.

2.5.5 CVA / Stroke

Purpose: This protocol is used for those patients exhibiting signs consistent with acute stroke/CVA/"Brain Attack" (altered mental status, slurred speech, loss of function of any body part, hemiplegia, loss of vision, weakness of facial muscles, loss of sensation, drooling, etc.). Other causes should be ruled out (hypoglycemia, drug overdose, hypoxia, etc.).

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Initial Patient Assessment Protocol 2.1.1.
2. Airway Assessment/Management Protocol 2.1.2. Oxygen via nasal canula @2 - 4 LPM to maintain pulse ox of ≥ 94% (non-rebreather @15 LPM if SpO_2 < 90%)
3. When CVA is suspected, transport to the hospital should not be delayed. Determine if patient has facial droop, abnormal speech, or arm drift.
4. If possible place in supine position with head of bed flat for transport (if patient unable to tolerate, transport in Semi-Fowler's with the head of bed no greater than 30 degrees).
5. Assess for and document Glasgow Coma Scale
6. Attach cardiac monitor and pulse oximeter.
7. Keep patient NPO.
8. **Determine time of onset of symptoms (time last seen normal). If onset of symptoms is within 5 - 6 hours notify hospital of a possible "stroke alert".**
9. Try to ascertain if patient had a seizure prior to onset of "stroke" symptoms as he/she may have a condition called Todd's paralysis, which is NOT treated with thrombolytics. Relay this information to the hospital
10. If applicable, transport to the appropriate designated Stroke Center.
11. Cincinnati Pre-hospital Stroke Scale:
    a. Assess for the unilateral presence of at least one of the following:

Item Description

1. Facial droop: Ask the patient to smile. Watch for weakness on one side of the face.
2. Arm drift: Ask the patient to hold both arms out with palms up and eyes closed for 10 seconds. Watch for a drift of one side. A positive result is present if there is weakness in one arm. Weakness in both arms or normal strength is a negative test result.

3. Slurred speech: Ask the patient to repeat a simple sentence such as "The sky is blue in Cincinnati."
   Inability to repeat the words correctly and intelligibly is a positive result.

ALS LEVEL 1: PARAMEDIC ONLY

1. Endotracheal intubation if patient does not have an intact gag reflex or for markedly decreased LOC, inability to maintain a patient airway, or for GCS <= 8.
2. Initiate IV lactated Ringer's or normal saline at 75cc/hr for patients 12 yrs. or older. Obtain two intravenous lines if possible.
3. Determine serum glucose level with Glucometer or DextroStix:
   a. If sugar 60 mg/dl - 80 mg/dl; give; ½ amp of 25gm **50% Dextrose IV** or **Glucagon** 1mg IM or Sublingual glucose paste, may repeat x 1 if after 15 minutes recheck fingerstick glucose < 80 mg/dl
   b. If Blood sugar < 60 mg/dl; 1 amp 25gm **50% Dextrose** IV or **Glucagon** 1 mg IM
   c. If glucose > 80 mg/dl and < 200 mg/dl, provide supportive care, keep NPO
   d. If glucose > 200 mg/dl, go to Hyperglycemia Protocol.
4. If a stroke patient is found to be hypertensive, do not treat in the pre-hospital setting unless ordered to do so by medical control. Hypertension could represent a compensatory response to the stroke to increase the cerebral perfusion pressure.
5. If CVA is suspected and if time permits, complete the thrombolytic/fibrinolytic screening form (see forms section)
6. Treat seizures with:
   a. **Valium** 5-10 mg IVP or **Versed** 5 mg IM or 2-4 mg IVP (may repeat x 1). Monitor respiratory efforts and intervene as indicated.

ALS LEVEL 2: MEDICAL CONTROL

1. Contact medical control if seizure did not respond to Valium
2. Contact medical control for treatment of agitation with:
3. **Valium** 2-5 mg IVP. May repeat every 10 minutes to a maximum of 10 mg. Or **Versed** 2 mg IV. May repeat x 1 PRN. Maximum dose 4mg.
4. In the presence of acute stroke (CVA), hypertension may be lowered in special circumstances only with a physician order.

The **Cincinnati Prehospital Stroke Scale** is a system used to diagnose the presence of a stroke in a patient. It tests three signs for abnormal findings which may indicate that the patient is having a stroke. If any one of the three tests shows abnormal findings, the patient may be having a stroke and should be transported to a hospital as soon as possible.

1. *Facial droop:* Have the person smile or show his or her teeth. If one side doesn't move as well as the other so it seems to droop, that could be sign of a stroke.
    - Normal: Both sides of face move equally
    - Abnormal: One side of face does not move as well as the other (or at all)
2. *Arm drift:* Have the person close his or her eyes and hold his or her arms straight out in front for about 10 seconds. If one arm does not move, or one arm winds up drifting down more than the other, that could be a sign of a stroke.
    - Normal: Both arms move equally or not at all
    - Abnormal: One arm does not move, or one arm drifts down compared with the other side
3. *Speech:* Have the person say, "You can't teach an old dog new tricks," or some other simple, familiar saying. If the person slurs the words, gets some words wrong, or is unable to speak, that could be sign of stroke.
    - Normal: Patient uses correct words with no slurring
    - Abnormal: Slurred or inappropriate words or mute

Patients with 1 of these 3 findings as a new event have a 72% probability of an ischemic stroke. If all 3 findings are present the probability of an acute stroke is more than 85%

Stroke Protocol Checklist

- ☐ **Assure ABC's.**
- ☐ **Administer oxygen prn O2 sat < 94% by nasal cannula.**
- ☐ **Obtain symptom duration, time of onset or last time patient was seen normal.**
- ☐ **If patient is a "stroke alert" patient then transport in most expeditious mode possible.**
- ☐ **Position head of bed 30 degrees, if patient unable to tolerate, transport flat.**
- ☐ **If symptoms are within 5 - 6 hours of onset notify receiving facility of a "stroke alert".**
- ☐ **Cardiac monitor. Document cardiac rhythm.**
- ☐ **Pulse ox.**
- ☐ **Vital signs.**
- ☐ **Initiate intravenous line. Establish two if possible. Run fluids on 12 yrs or older at 75cc/hour.**
- ☐ **Determine serum glucose level**
- ☐ **Treat seizures with Valium 5-10 mg.**
- ☐ **Keep patient NPO.**
- ☐ **History of seizures?**
- ☐ **Facial droop?**
- ☐ **Abnormal speech?**
- ☐ **Arm drift?**
- ☐ **Glasgow coma scale.**
- ☐ **Do not lower blood pressure in suspected strokes.**
- ☐ **Document all protocol items on run report.**
- ☐ **Bring a family member to the hospital if it is possible, to answer questions regarding the patients condition.**

2.5.6 Syncope

Purpose: This protocol should be used for patients with a chief complaint of syncopal episode. Consider history and possibility of dysrhythmia, medication side effects, glucose imbalance, inner ear disorder, CVA, TIA, and MI. Bradycardia with hypotension may be due to inferior wall MI associated with right ventricular infarction (confirm on 12 lead ECG V4R ST elevation). When an inferior wall MI is associated with right ventricular MI, use extreme caution giving nitrates (Nitroglycerine). If bradycardia and hypotension exists, pacing and IV fluids may improve the patient's hemodynamic status.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. **Initial Patient Assessment Protocol 2.1.1**
2. **Airway Assessment/Management Protocol 2.1.2**. If indicated Oxygen via nasal cannula @ 2 - 4 LPM to maintain pulse ox ≥ 94% (non-rebreather @15 LPM if SpO_2 < 90%).
3. Obtain pertinent history:
    a. Time of syncopal episode and length of unconsciousness.
    b. Patient's position at time of syncope.
    c. Symptoms preceding event (dizziness, nausea, chest pain, headache, seizures, etc.)
    d. Medications / ETOH / drug usage
    e. Relevant past medical history.
4. Assess for and document the Glasgow Coma Scale
5. Attach cardiac monitor and pulse oximeter if indicated

ALS LEVEL 1: PARAMEDIC ONLY

1. Initiate IV lactated Ringer's or Normal Saline at 125ml/hr. If patient hypotensive (systolic < 90 mm Hg) and/or tachycardic (HR > 110) bolus with 1- 2 liters of IV fluid in 250ml increments until systolic BP > 90 mm Hg (20 ml/kg for children). Recheck vital signs and lung exam in-between each increment. Discontinue bolus if signs of pulmonary edema or development of respiratory distress.
2. Determine serum glucose level with Glucometer or DextroStix:
    a. If sugar 60 mg/dl - 80 mg/dl; give; ½ amp of 25gm **50% Dextrose** IV or **Glucagon** 1mg IM. May repeat x 1 if after 15 minutes recheck fingerstick glucose < 80 mg/dl
    b. If Blood sugar < 60 mg/dl; 1 amp 25gm **50% Dextrose** IV or **Glucagon** 1 mg IM
    c. If glucose > 80 mg/dl and < 200 mg/dl, provide supportive care, keep NPO
    d. If glucose > 200 mg/dl, go to **Hyperglycemia Protocol.**

3. Perform **12 lead ECG**. Transmit 12 Lead ECG to destination hospital, if available. If inferior wall MI is identified (ST segment elevation in leads II, III, and AVF), perform additional 12 Lead ECG with V4R to confirm/rule out concurrent right ventricular MI.
4. If any dysrhythmias, go to the appropriate protocol.

ALS LEVEL 2: MEDICAL CONTROL

1. Notify medical control or medical director for any problems or concerns.

2.6
Adult Toxicology Emergencies

2.6.1 Bites and Stings

Purpose: This protocol is for patients who have been bitten or stung by snakes, animals, humans, insects, and spiders. If any marine life was involved please refer to the separate **Marine Envenomation Protocol**. If you have any questions or concerns about the treatment of a particular bite or sting, **Contact Poison Information Center (1-800-222-1222)**. The ALS Level 1 and 2 procedures below apply to all the bites and stings, no matter what the cause. Do not use hydrogen peroxide on deep puncture wounds or wounds exposing fat. Apply sterile dressings to all wounds when appropriate.

Procedure:

SNAKEBITE

BASIC LEVEL: EMT and PARAMEDIC

1. **Initial Patient Assessment Protocol 2.1.1**
2. **Airway Assessment/Management Protocol 2.1.2**. If indicated, Oxygen via nasal cannula @2 - 4 LPM to maintain oxygen saturation ≥ to 94% (non-rebreather @15 LPM if SpO_2 < 90%).
3. Attach cardiac monitor and pulse oximeter if indicated
4. Kill the snake if concerned it is poisonous, if practical, and bring the dead snake to the emergency department (or identify). Do not mutilate the snake's head.
5. If bite on extremity, immobilize affected extremity in dependent position. Patient should remain still. A constricting band may be of some use in a few circumstances such as immediate care not available or prolonged transport time. Contact med control for order/advise.
6. Remove watches, rings, and jewelry from affected extremity (or all jewelry if general anaphylaxis).
7. Wash area of bite with copious amounts of water.
8. Check temperature and pulse distal to bite on extremity and mark level of swelling and time with pen every 15 minutes
9. If signs of toxicity (local edema and hypotension):
    a. Increase oxygen delivery to 100% via non-rebreather mask. IV as below in ALS Level 1.
10. If obvious severe reaction developing from obvious poisonous snake, i.e. large amount of ascending edema and ecchymosis from bite of rattlesnake or water moccasin, alert medical control as early as possible so they can start acquiring anti-venom from the pharmacy, some of which takes time to prepare.

General Information:

Pit Vipers: rattlesnake, water moccasin, and copperhead typically cause puncture wounds. There may be ecchymosis at site, localized pain, swelling, weakness, tachycardia, nausea, shortness of breath, dim vision, vomiting, or shock.

Coral Snakes: Usually chewed wound. There may be slight burning pain, mild swelling, blurred vision, drooping eyelids, slurred speech, drowsiness, salivation and sweating, nausea and vomiting, shock, respiratory difficulty, paralysis, convulsions, and coma.

DOG, CAT, AND WILD ANIMAL BITES

BASIC LEVEL: EMT and PARAMEDIC

1. Initial Patient Assessment Protocol 2.1.1
2. Airway Assessment/Management Protocol 2.1.2. If indicated, Oxygen via nasal cannula @2 - 4 LPM to maintain pulse ox greater than or equal to 94% (non-rebreather @15 LPM if SpO_2 < 90%).
3. Attach cardiac monitor and pulse oximeter if indicated
4. Clean area with soap and water.
5. Advise Dispatch to contact animal control and/or law enforcement for identification and quarantine of animal.

INSECT STING (INCLUDING: CENTIPEDES, SCORPIONS, AND SPIDERS)

BASIC LEVEL: EMT and PARAMEDIC

1. Initial Patient Assessment Protocol 2.1.1
2. Airway Assessment/Management Protocol 2.1.2. If indicated, Oxygen via nasal cannula @2 - 4 LPM to maintain pulse ox greater than or equal to 94% (non-rebreather @15 LPM if SpO_2 < 90%).
3. Attach cardiac monitor and pulse oximeter if indicated
4. Remove stinger by scraping skin with edge of flat surface (e.g. credit card). Do not attempt to pull stinger out, as this may release more venom.
5. Clean area with soap and water.

HUMAN BITES

BASIC LEVEL: EMT and PARAMEDIC

1. Initial Patient Assessment Protocol 2.1.1
2. Airway Assessment/Management Protocol 2.1.2. If indicated, Oxygen via nasal cannula @2 - 4 LPM to maintain pulse ox greater than or equal to 94% (non-rebreather @15 LPM if SpO_2 < 90%).
3. Attach cardiac monitor and pulse oximeter if indicated
4. Clean area with soap and water.

ALS LEVEL 1: PARAMEDIC ONLY (For all the above causes):

1. Initiate IV (if indicated, in unaffected extremity) Lactated Ringer's or Normal Saline at 125ml/hr. If patient hypotensive (systolic < 90 mm Hg) and/or tachycardic (HR > 110) bolus with 1- 2 liters of IV fluid in 250ml increments until systolic BP > 90 mm Hg (20 ml/kg for children). Recheck vital signs and lung exam in-between each increment. Discontinue bolus if signs of pulmonary edema or development of respiratory distress.
2. Refer to Allergic Reaction Protocol if indicated
3. If severe pain, refer to Pain Protocol.

ALS LEVEL 2: MEDICAL CONTROL

1. Contact medical control or medical director if any concerns or any questions.

2.6.2 Toxicology - (Drug Overdose /Poisoning)

Purpose: This protocol is to be used for those patients suspected of exposure to toxic substances via any route of exposure. A history of the events leading to the illness or injury should be obtained from the patient and/or bystanders to include: What drugs, poisons, or other substance(s) was the patient exposed? Consider multiple substances, especially on overdoses.

- Route of exposure (ingested, inhaled, injected, surface contamination.)?
- Type and amount of poison/drug?
- Duration of symptoms?
- Is patient depressed, suicidal? History of previous overdose?
- Accidental? Nature of accident?
- Duration of exposure (if applicable)
- Has patient vomited? If so, when?
- History of drug or ETOH usage.
- Pre-existing medical problems

Contact Poison Information Center (**1-800-222-1222**) as needed for assistance and advice. The following is a partial list of drugs/chemicals you may encounter in overdose/exposure situations and a brief review of the signs and symptoms.

CNS DEPRESSANTS: Altered mental status, respiratory depression, hypotension, bradycardia, pulmonary edema, coma, and constricted pupils (opioids only).

Benzodiazepines: generic (trade name)

- Alprazolam (Xanax)
- Chlordiazepoxide (Librium)
- Clonazepam (Klonopin)
- Clorazepate (Tranxene)
- Diazepam (Valium)
- Flunitrazepam (Rohypnol)
- Flurazepam (Dalmane)
- Halazepam (Paxipam)
- Lorazepam (Ativan)
- Midazolam (Versed)
- Oxazepam (Serax)
- Prazepam (Centrax)
- Quazepam (Doral)
- Temazepam (Restoril)
- Triazolam (Halcion)

Barbiturates: generic (trade name)

- Butabarbital sodium (Butisol Sodium)
- Mephobarbital (Mebaral)
- Pentobarbital sodium (Nembutal Sodium)

- Phenobarbital
- Secobarbital sodium (Seconal Sodium)

Designer Drugs:

- Blue nitro, GHB

Opiods, Narcotics, Synthetics and Combinations: generic (trade name)

- Acetaminophen & Codeine phosphate (Tylenol #3, Tylenol #4)
- Alfentanil HCL (Alfenta)
- Alfentanyl (Alfenta)
- Alphaprodine (Nisentil)
- Aspirin & codeine phosphate (Empirin with Codeine #3 and #4)
- Belladonna and opium (B & O Supprettes)
- Buprenorphine HCL (Buprenex)
- Butalbital, aspirin, caffeine, Codeine phosphate (Fiorinol or Fioricet with Codeine)
- Butorphanol (Stadol)
- Codeine
- Dextromethorphan
- Diamorphine (Heroin)
- Diacetylmorphine (Heroin)
- Dihydrocodeine bitartrate, acetaminophen, caffeine (DHC plus)
- Diphenoxylate HCL, atropine sulfate (Lomotil)- no miosis
- Difenoxin HCL with atropine sulfate (Motofen)
- Fentanyl citrate (Sublimaze)
- Fentanyl transdermal (Duragesic)
- Fentanyl citrate & droperidol (Innovar)
- Hydromorphone HCL (Dilaudid, Hydrostat)
- Hydrocodone bitartrate (Lortab, Hycodan, Anexsia)
- Hydrocodone bitartrate & acetaminophen (Hydrocet, Loracet, Vicodin)
- Loperamide HCL (Immodium, Immodium A-D)
- Levorphanol tartrate (Levo-Dromoran)
- Meperidine HCl (Demerol) – no miosis
- MeperidineHCl & promethazine HCl (Mepergan) – no miosis
- Methodone HCl(Dolophine)
- Morphine sulfate (Astramorph/PF, Duramorph, Infumorph 200, Infumorph 500, MS Contin, MSIR, Oramorph, Rescudose, Roxanol)
- Nalbuphine HCL(Nubain)
- Napsylate (Darvocet-N)
- Oxymorphone HCl (Numorphan)
- Oxycodone (Percodan, Percocet, Tylox, Roxicodone)
- Pentazocine HCl (Talwin, Talacen)
- Propoxyphene HCl (Darvon-N)
- Propoxyphene HCl & acetaminophen (Wygesic)
- Sufentanil (Sufenta)

Sedative Hypnotics: generic (trade name)

- Compoz
- Estazolam (Prosom)
- Etomidate (Amidate)
- Ethchlorvynol (Placidyl)
- Propofol (Diprivan)
- Sleep-ez
- Sominex
- Zolpidem tartrate (Ambien)

SSRI- Selective Sereotonine Reuptake Inhibitors: generic (trade name)

- Fluoxetine (Prozac)
- Paroxetine (Paxil)
- Sertraline (Zoloft)
- Fluvoxamine (Luvox)
- Citalopram (Celexa)

CNS STIMULANT: Dilated pupils, agitation, paranoia, bizarre behavior, PVCs, tachycardia, hypertension, hyperthermia, seizures, etc.

Cocaine:

- Crack
- Cocaine

Amphetamines:

- Amphetamine variants (DMA, PMA, PMMA, STP, MDA, MDMA, TMA, DOM,DOB)

Designer Drugs:

- Ecstasy

DIGITALIS: Digitalis toxicity should be suspected in patients who are taking digitalis and have a dysrhythmia associated with digitalis toxicity (e.g. bradycardia, AV blocks with rapid ventricular response, supraventricular tachycardia, ventricular ectopy, and other ECG changes: Wide PR interval, short QT interval-rate dependent, spoon-shaped ST segment, peaked T wave). The oleander tree can also cause a digitalis type toxicity, which will cause the same type of dysrhythmias and requires the same treatment.

Digitalis: generic (trade name)

- Digoxin (Lanoxicaps, Lanoxin, Digoxin)
- Digitoxin (Crystodigin)

HALLUCINOGEN: Illusions, hallucinations, poor perception of time and distance, possible paranoia, anxiety, panic, unpredictable behavior, emotional instability, possible flashbacks, dilated pupils, and rambling speech.

- LSD (acid, microdot)
- Mescaline and Peyote (mesc, buttons, cactus)
- DET
- MET

- Psilocybin

TRICYCLIC ANTIDEPRESSANTS: CNS depression, tachycardia, dilated pupils, respiratory depression, slurred speech, twitching and jerking, seizures, ST and T wave changes, wide QRS complex, R waves in lead AVR, S waves in leads AVL and lead I, and shock.

Tricyclic Antidepressant:

- Doxepin HCl (Adapin, Sinequan)
- Amitriptyline HCl (Elavil, Endep)
- Protiptyline HCl (Vivactil)
- Chlordiazepoxide & amitriptyline HCl (Limbitrol)
- Trimipramine maleate (Surmontil)
- Perphenazine & amitriptyline HCl (Etrafon, Triavil)
- Clomipramine HCl (Anafranil)
- Amoxapine (Asendin)
- Desipramine HCl (Norpramin)
- Nortriptyline (Pamelor, Aventyl)
- Imipramine pamoate (Tofranil)

Cyclic Antidepressants:

- Venlafaxine (Effexor)

ORGANOPHOSPHATES; Excessive; salivation, lacramation (tears)/sweating, urinary incontinence, diarrhea, gastrointestinal distress, emesis and bradycardia (tachycardia may occur). CNS; anxiety, restlessness, emotional lability, tremor, headache, dizziness, mental confusion, delirium, hallucinations, and seizures.

Insecticides:

- Diazinon
- Orthene
- Malathion
- Parathion
- Chlorpyrifos

PHENOTHIAZINE: CNS; CNS depression, Dystonic reaction, extrapyramidal symptoms, tartive dyskinesia, neuroleptic malignant syndrome. Cardiovascular; tachycardia, prolonged QT interval, widened QRS, AV blocks, torsade de pointes. Dilated pupils, seizures, cardiac dysrhythmias

- Chlorpromazine (Thorazine)
- Prochlorperazine maleate (Compazine)
- Trifluoperazine (Stelazine)
- Thioridazine (Mellaril)
- Thiothixene (Navane)

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Initial Patient Assessment Protocol 2.1.1

2. Airway Assessment/Management Protocol 2.1.2. Oxygen via nasal cannula @ 2 - 4 LPM to maintain pulse ox ≥ 94% (non-rebreather @15 LPM if SpO_2 < 90%).
3. Attach cardiac monitor and pulse oximeter
4. Assess for and document the Glasgow Coma Scale
5. Collect all pill bottles, empty or full, and check for suicide notes (if applicable). Transport any/all information or items that may assist in the treatment of the patient to the emergency department.
6. **If inhaled poison:**
    a. Assure personal safety.
    b. Remove patient to fresh air.
    c. Administer 100% oxygen via non-rebreather mask.
7. **If skin or eye contamination:**
    a. Assure personal safety.
    b. Remove contaminated clothes.
    c. Irrigate with water or normal saline.
8. **If actively seizing:**
    a. Protect patient from injury.
    b. If seizing before airway was controlled, do not attempt to insert tongue blade or oral airway. Nasopharyngeal airway may be useful.
    c. Suction p.r.n.

ALS LEVEL 1: PARAMEDIC ONLY

1. Consider need to support respirations/ventilation including need for intubation at any time if respiratory status deteriorates.
    a. Monitor respiratory status frequently.
    b. Use appropriate discretion regarding immediate intubation of patients who may quickly regain consciousness, such as hypoglycemics after D50 or opiate overdose after Naloxone.
2. If condition warrants, initiate IV lactated Ringer's or Normal Saline at 125ml/hr (draw blood sample if possible prior to any drug administration). If patient hypotensive (systolic < 90 mm Hg) and/or tachycardic (HR > 110) bolus with 1- 2 liters of IV fluid in 250ml increments until systolic BP > 90 mm Hg (20 ml/kg for children).
    a. Recheck vital signs and lung exam in-between each increment.
    b. Discontinue bolus if signs of pulmonary edema or development of respiratory distress.
3. If altered mental status, determine serum glucose level with Glucometer or DextroStix:
    a. If sugar 60 mg/dl - 80 mg/dl; give; ½ amp of 25gm **50% Dextrose** IV or **Glucagon** 1mg IM. May repeat x 1 if after 15 minutes recheck fingerstick glucose < 80 mg/dl
    b. If Blood sugar < 60 mg/dl; 1 amp 25gm **50% Dextrose** IV or **Glucagon** 1 mg IM
    c. If glucose > 80 mg/dl and < 200 mg/dl, provide supportive care, keep NPO
    d. If glucose > 200 mg/dl, go to **Hyperglycemia Protocol** .

4. Treat any dysrhythmias per appropriate protocol.

5. If actively seizing administer one of the following benzodiazepines:
    a. **Diazepam (Valium)** 5 – 10mg IV or IM
    b. **Midazolam (Versed)** 2mg IV or IM. May repeat x 1 PRN.
6. If patient is experiencing chest pain, go to chest pain protocol
7. If patient combative, consider need for physical and chemical restraints (see psychiatric emergency protocol)
8. If bronchospasm is present give an **Albuterol (Ventolin)** nebulized treatment, containing 2.5mg of Albuterol pre-mixed with 2.5 ml normal saline. May repeat x 2 PRN. Add **Ipratropium Bromide (Atrovent)** 0.5 mg (0.5 ml) to the first neb treatment only. Do not give Albuterol or Ipratropium Bromide if heart rate is ≥ 140.
9. If ingestion is suspected with unknown substance and there is no altered mental status and caustic ingestion can be ruled out, if patient is willing/cooperative; place patient in Fowler's position and administer **Activated Charcoal** 50 – 100 grams po. If the timing of the ingestion has been less than an hour of EMS's arrival, hold off giving the charcoal until you discuss with medical control as some physicians may instead, choose to lavage the patient on arrival to the emergency department
10. For symptomatic **CNS DEPRESSANT OVERDOSE**:
    a. Do 12 lead ECG. If QRS complex is wide (> 0.10 seconds), administer **Sodium Bicarbonate** 1 mEq/kg IV
    b. If respiration is depressed, administer **Naloxone (Narcan)** 2mg IV. May repeat **Naloxone (Narcan)** 2mg IV PRN
11. For symptomatic **STIMULANT OVERDOSE**:
    a. If patient is hyperthermic (hot to touch), aggressively cool patient
    b. NOTE: Beta-blockers are contraindicated in cocaine overdose!
12. For symptomatic **DIGITALIS TOXICITY**:
    a. Treat tachydysrhythmias with medication per specific protocol. Avoid the use of Calcium Chloride.
    b. If unstable tachycardia > 150/min, synchronize cardiovert with energy settings between 5 – 20 jules
    c. If unstable bradycardia with wide QRS (> 0.10 seconds), give **Sodium Bicarbonate** 1 mEq/kg
13. For symptomatic **TRICYCLIC ANTIDIPRESSANTS OVERDOSE:**
    a. Do 12 lead ECG. If QRS complex is wide (> 0.10 seconds), administer **Sodium Bicarbonate** 1 mEq/kg IV
    b. ROMAZICON, PROCAINAMIDE, AND LABETALOL (ALL BETA BLOCKERS) ARE CONTRA-INDICATED IN TRICYCLIC ANTIDEPRESSANT OVERDOSE.
14. If symptomatic **ORGANOPHOSPHATE POISONING**:
    1. **Atropine** 0.03 mg/kg IVP every 5-10 minutes until atropinization occurs.
15. If symptomatic **PHENOTHIAZINE** (Thorazine, Compazine, Stelazine, Mellaril, Navane)
    a. **Diphenhydramine (Benadryl)** 25-50mg IV or deep IM

ALS LEVEL 2: MEDICAL CONTROL

1. Contact medical control or medical director for any problems or concerns.

2.6.3 Marine Envenomations

Purpose: This protocol is for patients who are injured by any type of marine life. Call Poison Information Center (**1-800-222-1222**) as needed for assistance. If non-scalding hot soaks are advised, do not delay transport. Soak enroute to hospital.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Initial Patient Assessment Protocol 2.1.1
2. Airway Assessment/Management Protocol 2.1.2. If indicated, Oxygen via nasal cannula @ 2 - 4 LPM to maintain pulse ox ≥ 94% (non-rebreather @15 LPM if SpO_2 < 90%).
3. Attach cardiac monitor and pulse oximeter if indicated

For Sponges:

1. Gently dry skin and remove spicule. Adhesive tape may aid in removal.
2. Soak with 5% vinegar or 40-70% isopropyl alcohol.

For Coelenterates (JELLYFISH):

1. Rinse wound with saltwater or seawater
2. Do not rub skin, do not apply ice, and do not rinse with fresh water.
3. Inactivate toxin with 30 minute soak using one of the following:
   a. 5% vinegar soaks.
   b. Ammonia/meat tenderizer paste mixture.
4. Remove remaining nematocysts with razor.
5. Consider topical anesthetics once nematocyst is removed.

For Echinodermata (Starfish, sea urchins, sea cucumber,):

1. Immerse in non-scalding hot water for pain relief for 30 – 90 minutes (do not delay transport, soak en-route)
2. Remove any remaining spines.
3. After hot water soak, 5% vinegar soaks.

For Mollusks (Cone shells):

1. Hot water (non-scalding) immersion for pain relief
2. Be prepared for cardiac or respiratory support

For Stingrays:

1. Copious irrigation with removal of any visible spines.
2. Hot water (non-scalding) soaks for pain relief.

For Scorpion fish:

1. Hot water (non-scalding) soaks for pain relief and venom inactivation.
2. Copious irrigation with removal of any visible spines.

3. Patient may require stonefish antivenin for severe envenomation.

For Catfish:

1. Hot water (non-scalding) soaks for pain relief and venom inactivation.
2. Copious irrigation with removal of any visible spines.

For Sea Snakes:

1. Immobilize bitten extremity.
2. Apply pressure bandage for venous occlusion.
3. Keep patient warm and still.
4. Notify medical control, as hospital may need to acquire polyvalent sea snake antivenin.
5. Closely monitor cardiac and respiratory status.

ALS LEVEL 1: PARAMEDIC ONLY

1. Establish large bore IV of lactated Ringer's to maintain systolic pressure > 90 mm Hg.
2. If any chest tightness, wheezing, shortness of breath, difficulty swallowing, intraoral swelling, and/or severe hives;
   a. Administer **Diphenhydramine (Benadryl)** 25-50 mg IV (for peds 2- 12 yrs old, give 1- 1.25mg/kg IV or IM).
   b. Consider **Epinephrine 1:1,000** 0.4ml IM or SUB-Q (for peds; 0.01mg/kg, Max 0.3ml).
3. For severe pain consider one of the following:
   a. **Toradol** 30 mg IV
   b. **Morphine Sulfate** 2-10 mg IV or IM
   c. **Fentanyl** 50 – 100 mcg IV or IM
4. For nausea, give one of the following:
   a. **Zofran** 4 – 8 mg IV or IM
   b. **Benadryl 25-50 mg IV or IM**

ALS LEVEL 2: MEDICAL CONTROL

1. Contact medical control or medical director if any concerns or any questions.

Intentionally Left Blank

2.7
Adult OB/GYN Emergencies

2.7.1 Childbirth – Complications

Purpose: This protocol outlines the specific treatment for complications to labor and delivery.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Initial Patient Assessment Protocol 2.1.1.
    a. Secondary survey should include pertinent OB/GYN history:
        - Number of pregnancies/deliveries.
        - History of problems with pregnancy (vaginal bleeding, prior cesarean sections, high blood pressure, premature labor, premature rupture of membranes.
        - Last menstrual period and due date (if known).
        - Current complaints (onset of labor, timing of contractions, rupture of membranes, or urge to push.)
        - Past medical history (including medications.)
2. Airway Assessment/Management Protocol 2.1.2. Oxygen via nasal cannula.
3. Attach cardiac monitor and pulse oximeter.
4. Perineal examination (do not perform internal vaginal examination)
    a. Vaginal bleeding or leakage of fluid.
    b. Presence of meconium.
    c. Crowning during a contraction.
    d. Presenting part (head, face, foot, arm, cord.)
5. IF HEAVY VAGINAL BLEEDING WITH SIGNS OF SHOCK (SYS BP < 90 mm Hg)
    a. Transport with patient in left lateral recumbent position.
    b. Transport immediately, notify labor and delivery
    c. ALS LEVEL 1: Cardiac monitor.
    d. ALS LEVEL 1: IV lactated Ringer's or normal saline Bolus as needed with two liters of IV fluid in 250 – 500 ml increments to maintain systolic BP > 90 mm Hg. Check vital signs frequently.
6. IF CORD PROLAPSED:
    a. Place mother on back with hips elevated (pillow under her hips) or place her in knee/chest position.
    b. Do not attempt to push cord back. Wrap cord in sterile saline soaked dressing
    c. With a gloved hand, palpate the cord for pulse.
    d. If pulse is absent in umbilical cord, and positioning of mother does not restore pulse, insert sterile gloved index and middle fingers into the vagina and push the infant up to relieve pressure on the cord. With the other hand, press on the mother's lower abdomen in an upward and cephalic (towards head) direction.

Push the fetus back only far enough to regain a pulse in the umbilical cord.

e. Transport and notify receiving hospital of impending arrival.

7. IF BREECH PRESENTATION:
   a. Do not pull on the newborn. Allow the delivery to proceed normally, supporting the newborn with the palm of your hand and arm, and allowing the head to deliver.
   b. If the head is not delivered within 3 minutes, place a gloved hand in the vagina with your palm towards the newborn's face. Form a "V" with your index finger and middle finger on either side of the newborn's nose and push the vaginal wall away from the newborn's face to create airspace for the newborn until delivery of the head. Suction may be provided PRN.
   c. Transport immediately, while maintaining the airspace for the newborn.
8. IF LIMB PRESENTATION:
   a. Place mother in either the knee-chest position or supine position with a pillow under the buttocks.
   b. Transport immediately
9. IF SHOULDER DYSTOCIA:
   a. Determine presence of shoulder dystocia as follows: head will deliver normally and then it will retract back into the perineum because the shoulders are trapped between the symphysis pubis and the sacrum (this is called "turtle sign").
   b. If this occurs, Do Not pull on head
   c. Have mother drop her buttocks off the end of the bed and flex her thighs upward to facilitate delivery.
   d. Apply firm pressure with an open hand immediately above the symphysis pubis
   e. If delivery does not occur, transport immediately

ALS LEVEL 1: PARAMEDIC ONLY

1. For any of the above complications do not delay transport. An IV in the mother is not necessarily going to help with any of the above complications except the heavy vaginal bleeding with signs of shock. Even then, any attempts at an IV should be done enroute to the hospital.
2. Monitor cardiac rhythm

ALS LEVEL 2: MEDICAL CONTROL

1. Contact medical control for any questions or problem

2.7.2 Childbirth – Normal Delivery

Purpose: This protocol is to guide the EMS crew with delivering a newborn. If during your evaluation or during the delivery itself, if any complications arise, refer to the Childbirth-complications protocol that follows.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Initial Patient Assessment Protocol 2.1.1.
    a. Secondary survey should include pertinent OB/GYN history:
        - Number of pregnancies/deliveries.
        - History of problems with pregnancy (vaginal bleeding, prior cesarean sections, high blood pressure, premature labor, premature rupture of membranes.
        - Last menstrual period and due date (if known).
        - Current complaints (onset of labor, timing of contractions, rupture of membranes, or urge to push.)
        - Past medical history (including medications.)
2. Airway Assessment/Management Protocol 2.1.2 Oxygen via nasal cannula.
3. Attach cardiac monitor and pulse oximeter.
4. Perineal examination (do not perform internal vaginal examination)
    - Vaginal bleeding or leakage of fluid.
    - Presence of meconium.
    - Crowning during a contraction.
    - Presenting part (head, face, foot, arm, cord.)
5. If active labor, and no vaginal bleeding or crowning:
    a. Check for fetal heart tones.
    b. Transport.
6. If active labor, no crowning and vaginal bleeding with no signs of shock (systolic >90 mm Hg):
    a. Transport.
    b. ALS LEVEL 1: IV lactated Ringer's or normal saline at 100 ml/hour.
    c. ALS LEVEL 1: Cardiac monitor.
7. If imminent delivery:
    a. Place mother in lithotomy position.
    b. Drape mother.
    c. Prepare for neonatal resuscitation.
    d. Assist delivery. Gently and carefully assist expulsion of the newborn from the birth canal in its natural descent. Do not pull or push the newborn.
    e. Suction mouth and then nose with bulb suction (if meconium stained fluid, suction baby's airway until clear before stimulating first breath) after head delivers and before torso delivers.

f. Check for cord around neonate's neck when head is visible and after suctioning. If present, carefully unwrap the cord from the neck. If unable to remove the cord, apply 2 umbilical clamps and cut between the clamps to release the cord (careful not to injure the newborn). Once airway is clear and cord is free from around neck, instruct mother to push on her next contraction to complete delivery.
g. Upon complete delivery of the newborn:
   - ✓ Keep the newborn at the level of the vagina to prevent over or under transfusion of the blood from the cord
   - ✓ Clear mouth and nose p.r.n. with gentle suction using bulb syringe
   - ✓ Clamp cord in two places (if not done as described above to free cord from around neck) approximately 8" and 10" from neonate. Cut cord between clamps
   - ✓ Warm, dry, and stimulate infant.
   - ✓ Wrap infant in sterile drape or dry blanket. Be sure to cover the newborn's head, as this is a major source of heat loss.
   - ✓ Check vitals: if compromised, initiate resuscitation
h. Evaluate Newborn:
   - ✓ Note time of delivery and APGAR scores at birth and five minutes
   - ✓ If newborn is not breathing or APGAR < 7 see Newborn Resuscitation Protocol.

ALS LEVEL 1: PARAMEDIC ONLY

1. Infuse mother with IV of lactated Ringer's or normal saline at 125 ml/hour.
2. If excessive maternal bleeding, massage uterus gently
3. Transport, do not wait to deliver placenta. Do not pull on the umbilical cord.
4. If delivery completed before arrival, or in-field:
   a. Protect infant from fall and temperature loss.
   b. Check infant's vital signs (perform CPR or assist ventilations as necessary.)
   c. Clamp cord in two places, six inches from infant, and cut cord between clamps.
   d. Suction, warm, dry, and stimulate infant.
   e. Give infant to mother.
   f. Massage uterus gently.
   g. Do not pull on cord or attempt to deliver placenta.
   h. Transport.

ALS LEVEL 2: MEDICAL CONTROL

1. Contact medical control or medical director for any questions or problems.

2.7.3 Vaginal Bleeding (NON-TRAUMATIC)

Purpose: This protocol should be used for female patients who may or may not be pregnant that present with non-traumatic vaginal bleeding. Examples of causes include: ante-partum hemorrhage (abruption placenta, placenta previa and uterine rupture), post-partum hemorrhage, ruptured ectopic pregnancy, ruptured ovarian cyst, spontaneous abortion, etc.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Initial Patient Assessment Protocol 2.1.1
2. Airway Assessment/Management Protocol 2.1.2. If indicated Oxygen via nasal cannula @ 2 - 4 LPM to maintain pulse ox ≥ 94% (non-rebreather @15 LPM if SpO_2 < 90%).
3. Attach cardiac monitor and pulse oximeter if indicated
4. Place all products of delivery (undeveloped fetus, placenta, etc) in a plastic bag and transport with patient to hospital. Do not discard any products on scene. If irretrievable, document the reason and contact supervisor or medical director prior to leaving the scene.

ALS LEVEL 1: PARAMEDIC ONLY

1. Initiate IV lactated Ringer's or Normal Saline at 125ml/hr. If patient hypotensive (systolic < 90 mm Hg) and/or tachycardic (HR > 110) bolus with 1- 2 liters of IV fluid in 250ml increments until systolic BP > 90 mm Hg (20 ml/kg for children). Recheck vital signs and lung exam in-between each increment. Discontinue bolus if signs of pulmonary edema or development of respiratory distress.

ALS LEVEL 2: MEDICAL CONTROL

1. Contact medical control or medical director for any problems or concerns.

2.7.4 Eclampsia/ Pre-Eclampsia

Purpose: This protocol should be used for the patient in her second or third trimester of pregnancy (≥ 20 weeks gestation) that is exhibiting signs of pre-eclampsia or eclampsia. The signs of toxemia include proteinuria (dark colored urine), excessive weight gain, and hypertension. The presence of two of these signs constitutes pre-eclampsia and all three constitutes eclampsia. The seizing patient in her third trimester of pregnancy should be assumed to be eclamptic and treated as specified below. Eclamptic seizures can also occur postpartum (≤ 1 week). Witnessed continuous convulsions (generalized tonic-clonic seizure or Grand Mal) or repeating episodes without regaining consciousness or sufficient respiratory decompensation demonstrates a need for immediate treatment.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Initial Patient Assessment Protocol 2.1.1
2. Airway Assessment/Management Protocol 2.1.2. Oxygen via nasal cannula @ 2 - 4 LPM to maintain pulse ox ≥ 94% (non-rebreather @15 LPM if SpO_2 < 90%)
3. Attach cardiac monitor and pulse oximeter

ALS LEVEL 1: PARAMEDIC ONLY

1. Establish IV of lactated Ringer's or normal saline at 125 ml/hr.
2. Determine serum glucose level with Glucometer or DextroStix.
    a. If glucose <80mg/dl:
        i. If sugar 60 mg/dl - 80 mg/dl; Sublingual **Glucose Paste**, or **Glucagon 1mg IM** or ½ amp of 25gm **50% Dextrose** IV. Give 2nd half of the D50W amp if glucose still < 80 mg/dl when glucose rechecked in 5 minutes
        ii. If Blood sugar < 60 mg/dl; 1 amp 25gm **50% Dextrose** IV or **Glucagon** 1 mg IM
3. If glucose is given, give **Thiamine** 100 mg IV or IO
4. If seizing: give **Magnesium Sulfate** 4 gm IV or IO (mixed in 50 ml of D5W given over 5 – 10 minutes). May repeat once at 2 gm IV or IO (mixed in 50 ml of D5W given over 5 – 10 minutes) PRN. Remember, magnesium sulfate can cause respiratory depression with cardiovascular collapse. If patellar reflexes are absent, shut off the infusion and contact medical control immediately. Antidote is calcium chloride IV over 5 minutes.
5. If patient continues seizing, administer one of the following:
    a. **Diazepam (Valium)** 5 - 10 mg IV or IO (if unable to start IV or IO give Valium 10mg per rectum). May repeat PRN up to 20 mg maximum dose. Monitor respiratory status and intervene as needed.
    b. **Midazolam (Versed)** 2mg IV or IO. May repeat once PRN (4 mg maximum dose)

6. Monitor EKG, vital signs, fetal heart tones, level of consciousness, patellar reflexes, respiratory rate, and oxygenation status every 5 minutes.
7. Keep the patient in left lateral recumbent position.
8. Evaluate for pulmonary edema. If present, apply **CPAP** per protocol.
9. If patient seized and transport time is > 20 min, administer **Magnesium Sulfate** maintenance infusion. Place 10 grams of magnesium sulfate (20 ml of 50% solution) in 250 ml of LR or NS and infuse at 50 ml/hr (2 grams/hr).

ALS LEVEL 2: MEDICAL CONTROL

1. Contact medical control or medical director if any concerns or any questions.
2. If patient is in third trimester and is hypertensive (systolic > 140 mm Hg or diastolic > 90 mm Hg) especially with no prior history of hypertension, call for order of **Labetalol 10mg IV then 5 – 10 mg** increments for desired effect

2.7.5 Pre-Term Labor

Purpose: This protocol will be used during intra-facility transfers. On occasion a patient in pre-term labor will need to be transferred to a higher level of care. The transferring physician will have determined that the benefits out weigh the risk to the patient and should have initiated the proper EMTALA transfer paperwork. The key to this type of transfer is for the transferring physician to have done everything possible to arrest the labor process prior to EMS leaving with the patient. EMS should only have to continue the care and medications initiated by the transferring hospital. If the patient is ≤ 20 weeks gestation then there is very little chance of delivering a viable fetus. EMS should not transfer a patient in active labor as care for the fetus by the physician at the hospital is better than what can be provided by a paramedic in back of an ambulance (or in an aircraft) with little resources and the need to provide care for the mother as well. A neonatal team can then respond to the transferring hospital with specialty equipment to manage the neonate.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Initial Patient Assessment Protocol 2.1.1
2. Airway Assessment/Management Protocol 2.1.2. Oxygen via nasal cannula @ 2 - 4 LPM to maintain pulse ox ≥ 94% (non-rebreather @15 LPM if SpO_2 < 90%).
3. Attach cardiac monitor and pulse oximeter

ALS LEVEL 1: PARAMEDIC ONLY

1. Confirm with transferring physician that patient is NOT in active labor.
2. IV fluids should already be in progress per the hospital. If so, continue at the rate ordered by the transferring physician. If not initiate IV lactated Ringer's or Normal Saline at 100ml/hr. Consider fluid bolus as initial tocolytic therapy. If patient hypotensive (systolic < 90 mm Hg) and/or tachycardic (HR > 110) bolus with 1- 2 liters of IV fluid in 250ml increments until systolic BP > 90 mm Hg (20 ml/kg for children). Recheck vital signs and lung exam in-between each increment. Discontinue bolus if signs of pulmonary edema or development of respiratory distress.
3. Record frequency, character and duration of contractions, fetal heart tones, blood pressure, and pulse every 15 minutes.
4. Patient may be on one of the following tocolytics as ordered by transferring MD. Must be on an IV pump.
   a. **Magnesium Sulfate** 4 – 6 gms IV over 20 min. Then 2- 4 g / hr x 12- 24 hr.
   b. **Brethine (terbutaline)** 0.25mg SUB-Q q 30 min. (Max: 1mg/4h); or 2.5- 10 mcg/min IV up to max of 17.5- 30 mcg/min.

ALS LEVEL 2: MEDICAL CONTROL

1. Notify medical control or medical director for any problems or concerns.

Intentionally Left Blank

2.8
Other Adult Medical Emergencies

2.8.1 Allergic Reactions (ANAPHYLAXIS)

Purpose: This protocol is to be used for patients who may be experiencing and allergic reaction. The reaction could be triggered by a contact with some object or substance, something ingested or something injected beneath the skin (sting, bite, IM, IV, or SubQ medication or chemical, etc). The reaction could range from a mild irritation and/or itching (with or without a rash) of a localized area of the skin/body to a full-blown anaphylactic reaction with respiratory and cardiovascular collapse.

Signs and symptoms consistent with allergic reaction**:**

- Skin – flushing, itching, hives, swelling, cyanosis.
- Respiratory – dyspnea, sneezing, coughing, wheezing, stridor, laryngeal edema, laryngospasm, bronchospasm.
- Cardiovascular – vasodilatation, increased heart rate, decreased blood pressure
- Gastrointestinal – nausea/vomiting, abdominal cramping, diarrhea
- CNS - dizziness, headache, convulsions, tearing

Treatment is outlined according to the severity of the allergic reaction (mild, moderate, and severe or anaphylaxis).

Procedure:

MILD REACTIONS (redness and/or itching, hives, stable vital signs with a systolic BP > 110 mm Hg without dyspnea)

BASIC LEVEL: EMT and PARAMEDIC

1. **Initial Patient Assessment Protocol 2.1.1**
2. **Airway Assessment/Management Protocol (O_2 PRN) 2.1.2**
3. Attach cardiac monitor and pulse oximeter.
4. Transport to designated hospital.

ALS LEVEL 1: PARAMEDIC ONLY

1. Initiate IV of lactated Ringer's or normal saline at TKO.
2. **Diphenhydramine HCL (Benadryl)** 25-50mg IV or IM (Peds; 1-2 mg/kg IV or IM)
3. **Ranitidine (Zantac) 150 mg PO if able to swallow.**

ALS LEVEL 2: MEDICAL CONTROL

1. Call medical control or medical director for any concerns or help

MODERATE ALLERGIC REACTIONS: (edema, hives, dyspnea, wheezing, "lump in throat" feeling, difficulty swallowing, facial swelling and stable vital signs with a systolic BP > 90 mm Hg)

BASIC LEVEL: EMT and PARAMEDIC

1. **Initial Patient Assessment Protocol 2.1.1**
2. **Airway Assessment/Management Protocol 2.1.2**
3. Attach cardiac monitor and pulse oximeter.
4. Transport to designated hospital.

ALS LEVEL 1: PARAMEDIC ONLY

1. Initiate IV of lactated Ringer's or normal saline at 70cc/hr.
2. **Diphenhydramine HCL (Benadryl)** 25-50 mg IV or IM (Peds; 1-2 mg/kg IV or IM)
3. **Ranitidine (Zantac)150 mg po (**peds dose 2 mg/kg po**)**
4. **Methylprednisolone Sodium Succinate (Solu-Medrol)** 125mg IV
5. **Epinephrine** (1:1000) 0.4 ml IM Adult (Pedi: 0.01 ml/kg.) Caution should be used with administration of Epinephrine when the patient has a history of hypertension or heart disease (call med control if you have any concerns)
6. **IF** patient is on a Beta Blocker medication, give **Glucagon 2 mg IV** over 2-5 minutes. If you are not sure which drugs is a beta blocker, contact medical control to discuss.
7. If patient shows signs of respiratory distress give; **Albuterol (Ventolin)** 2.5mg mixed with 2.5ml of normal saline nebulizer treatment. May repeat twice PRN
8. Add **Atrovent (Ipratropium Bromide**) 0.5mg to the first Albuterol nebulizer treatment only

ALS LEVEL 2: MEDICAL CONTROL

1. Call medical control or medical director for any concerns or help

SEVERE ALLERGIC REACTION/ANAPHYLAXIS (edema, hives, severe dyspnea and wheezing, unstable vital signs with systolic BP < 90 mm Hg, and possible cyanosis and laryngeal edema)

BASIC LEVEL: EMT and PARAMEDIC

1. **Initial Patient Assessment Protocol 2.1.1**
2. **Airway Assessment/Management Protocol 2.1.2**
3. Attach cardiac monitor and pulse oximeter.
4. Transport to designated hospital.

ALS LEVEL 1: PARAMEDIC ONLY

1. Initiate IV of lactated Ringer's or normal saline bolus with 250 mlprn up to 1 liter (reassess vitals and respiratory status between each bolus) then rate of 125cc/hr. (Bolus children with 20ml/kg then 40cc/hr)
2. **Diphenhydramine HCL (Benadryl)** 25-50mg IV or IM (Peds; 1-2 mg/kg IV or IM)
3. **Ranitidine (Zantac) 150 mg po (**peds dose 2 mg/kg po**)**
4. **Methylprednisolone Sodium Succinate (Solu-Medrol)** 125mg IV
5. **Epinephrine (1:1000)** 0.4 ml IM Adult (Peds: 0.01 ml/kg.) Caution should be used with administration of Epinephrine when the patient has a history of hypertension or heart disease (call med control if you have any concerns)
6. **IF** patient is on a Beta Blocker medication, give **Glucagon 2 mg** IV over 2-5 minutes. If you are not sure which drugs are beta blockers, contact medical control to discuss?
7. If patient shows signs of respiratory distress give;

Albuterol (Ventolin) 2.5mg mixed with 2.5ml of normal saline nebulizer treatment. May repeat twice PRN

8. Add **Atrovent (Ipratropium Bromide**) 0.5mg to the first Albuterol nebulizer treatment only
9. If the nebulized treatments do not significantly resolve the respiratory distress,
10. Consider need for intubation

ALS LEVEL 2: MEDICAL CONTROL

1. **Epinephrine (1:10,000)** 0.3 mg SLOW IV in 0.1 mg increments over 2 minutes. Caution should be used with administration of Epinephrine when the patient has a history of hypertension or heart disease
2. For refractory hypotension obtain order for **Dopamine** drip starting at 5 mcg/min and titrate to effect. **Dopamine** infusion @ 5-20 mcg/kg/min (1600 mcg/ml infusion concentration = 15 – 16 gtt/min). Titrate to maintain a minimum systolic BP of 90 mm Hg with good capillary refill or a maximum BP of 120 mm Hg (maximum dose 20 mcg/kg/min)

2.8.2 Diabetic Emergencies (Hypo and Hyper-glycemic)

Purpose: This protocol is used for diabetic patients with blood sugars below 80 mg/dl or blood sugars over 250 mg/dl. Keep in mind that low or elevated blood sugars (in diabetics) can be affected by medications, infections, stress, alcohol, etc.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. **Initial Patient Assessment Protocol 2.1.1**
2. **Airway Assessment/Management Protocol 2.1.2**. Oxygen via nasal cannula @ 2 - 4 LPM to maintain pulse ox ≥ 94% (non-rebreather @15 LPM if SpO_2 < 90%)
3. Attach cardiac monitor and pulse oximeter

ALS LEVEL 1: PARAMEDIC ONLY

1. Initiate IV of Lactated Ringer's or normal saline at 125ml/hr. Draw tube of blood (if tubes are available label the pre-treatment blood vial and provide it to the receiving hospital with the patient.). If patient is tachycardic (HR > 110) and/or hypotensive (systolic BP < 90 mm Hg), bolus with 1 – 2 liters of IV fluid in 250 ml increments with vital sign recheck and lung exam between each increment. Discontinue bolus if HR slow < 110, systolic BP > 90 or if signs of pulmonary edema. If no sign/symptoms of pulmonary edema, resume rate at 125 ml/hr. If no IV access, consider an IO ONLY if patient is seriously ill (hypotensive and tachycardic). Do not place IO simply for high or low blood sugar when patient is otherwise stable.
2. Determine serum glucose level with Glucometer or DextroStix.
   If glucose <80mg/dl and patient is:
   Asymptomatic (No headache, nausea and/or altered mental status):
   - **If sugar 60 mg/dl – 80 mg/dl**; No emergency treatment (OK for patient to drink a cola, juice or other oral form of glucose they may have with them.
   - **If sugar < 60mg/dl**; Oral glucose (juice, piece of candy, or sublingual glucose)

   Symptomatic (Headache, nausea, and/or altered mental status):
   - **If sugar 60 mg/dl - 80 mg/dl**; **Sublingual glucose paste**, or **Glucagon** 1mg IM, or ½ amp of 25gm **50% Dextrose IV**. Give 2nd half of the **D50W** amp if glucose still < 80 mg/dl when glucose rechecked in 5 minutes.
   - **If Blood sugar < 60 mg/dl;** 1 amp 25gm **50% Dextrose** IV or **Glucagon** 1 mg IM
3. **If glucose > 80 mg/dl and < 250 mg/dl**, no specific treatment, supportive care
4. **If glucose > 250 mg/dl**, and patient exhibiting altered mental status, Kussmaul respirations, dry skin with poor turgor, and/or ketotic breath:

- Bolus with 1 – 2 liters of IV fluid in 250 ml increments with vital sign recheck and lung exam between each increment. Discontinue bolus if signs of pulmonary edema.
- Asymptomatic patients with glucose > 250 mg/dl, just give IV fluids at 125ml/hr.

5. If patient appears malnourished or is a chronic alcoholic, give **Thiamine** 100mg IV

ALS LEVEL 2: MEDICAL CONTROL

1. Contact medical control or medical director if any concerns or any questions.

2.8.3 Abdominal Pain (NON-TRAUMATIC)

Purpose: This protocol should be used for patients that complain of abdominal pain without a history of trauma. Assessment should include specific questions pertaining to the GI/GU systems. See Abdominal Pain Differential in Appendix

Abdominal physical assessment includes:
Asking patient to point to area of pain (palpate this area last)
Gently palpate for tenderness, rebound tenderness, distention, rigidity, guarding, and pulsatile masses. Also palpate the flank area for CVA tenderness.

Abdominal History Includes:

- ❑ Hx of pain (OPQRST)
- ❑ Hx of nausea/vomiting (color, bloody, coffee grounds)
- ❑ Hx of bowel movement (last BM, diarrhea, bloody, tarry)
- ❑ Hx of abdominal surgery
- ❑ Hx of acute onset of back pain
- ❑ SAMPLE (attention to last meal)

Additional questions should be asked of the female patient regarding OB/GYN history. All female patients of childbearing age complaining of abdominal pain should be considered to have an ectopic pregnancy (even if vaginal bleeding is absent) until proven otherwise.

Non-traumatic abdominal pain can be caused by: appendicitis, cholecystitis, duodenal ulcer perforation, diverticulitis, abdominal aortic aneurysm, pelvic inflammatory disease (PID), pancreatitis, mesenteric ischemia, renal stones, hepatitis, cirrhosis of the liver, bowel obstruction, gastroenteritis, etc.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. **Initial Patient Assessment Protocol 2.1.1**
2. **Airway Assessment/Management Protocol 2.1.2**
3. Attach cardiac monitor and pulse oximeter.

ALS LEVEL 1: PARAMEDIC ONLY

1. Initiate IV of lactated Ringer's or normal saline at TKO. If patient is tachycardic and/or hypotensive, give a 250 ml bolus. May repeat bolus for total of 2 liters of IV fluid. Assess vital signs and breath sounds in-between each bolus. If vital signs respond to the bolus(s) (pulse rate slowed down and/or blood pressure improved) run at 100cc/hr. If still hypotensive/tachycardic cautiously bolus a second liter in 250ml increments.
2. If patient is nauseated, give one of the following:
   a. **Ondansetron (Zofran)** 4 – 8 mg IV or IM (If oral form available, give subliqual)
   b. **Diphenhydramine (Benadryl) 25-50 mg IV or IM**

ALS LEVEL 2: MEDICAL CONTROL

1. This is one of the times you will need medical control for pain medication orders.

2.8.4 Sickle Cell Anemia

Purpose: This protocol is for patients with a history of Sickle Cell Disease. Sickle cell anemia is a chronic hemolytic anemia occurring almost exclusively in African-Americans and is characterized by sickle-shaped red blood cells. Sickle cell crisis results from the occlusion of a blood vessel by masses of sickle-shaped red blood cells. Pain is the principle manifestation, and this represents the most common type of crisis. Typical pain occurs in the joints and back. Hepatic, pulmonary, or central nervous system involvement can occur, each with its own group of symptoms. Keep in mind that patients with sickle cell disorder have a high incidence of life-threatening disorders at a very young age.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Initial Patient Assessment Protocol 2.1.1
2. Airway Assessment/Management Protocol 2.1.2. Oxygen via nasal cannula @ 2 - 4 LPM (non-rebreather @15 LPM if SpO_2 < 90%).
3. Attach cardiac monitor and pulse oximeter prn

ALS LEVEL 1: PARAMEDIC ONLY

1. Initiate IV lactated Ringer's or Normal Saline. Give a fluid challenge of 500 ml then set rate at 125ml/hr. If patient hypotensive (systolic < 90 mm Hg) and/or tachycardic (HR > 110) bolus with 1- 2 liters of IV fluid in 250ml increments until systolic BP > 90 mm Hg (20 ml/kg for children). Recheck vital signs and lung exam in-between each increment. Discontinue bolus if signs of pulmonary edema or development of respiratory distress.
2. If systolic BP > 90 mm Hg give one of the following:
   a. **Toradol** 30 mg IV or 60 mg IM (if patient is > 65 y/o limit dosage to 15mg IV or 30mg IM). After 30 minutes, the IV dose can be repeated x 1 PRN.
3. If nausea also present from pain or the pain medication give one of the following;
   a. **Zofran** 4 – 8 mg IV or IM
   b. **Benadryl** 25 mg IV or IM

ALS LEVEL 2: MEDICAL CONTROL

a. **Fentanyl** 50 – 100 mcg IV or IM

OR

b. **Morphine** 2 – 10 mg IV or IM

Notify medical control of any problems or concerns.

2.8.5 Alcohol Emergencies

Purpose: This protocol is to be used on patients who are suspected of being intoxicated with alcohol. Treat all intoxicated patients with respect even though they may be agitated and potentially violent. Just because you can smell ETOH on or around your patient, you MUST consider other possible causes for a patient's abnormal behavior or altered mental status, such as head injury from trauma, co-ingestion of drugs, low blood sugar, severe hypoxia (including carbon monoxide poisoning).

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. **Initial Patient Assessment Protocol 2.1.1**
2. **Airway Assessment/Management Protocol 2.1.2**
3. Attach cardiac monitor and pulse oximeter.
4. Alcoholics with any evidence of head trauma and altered mental status must be considered to have a closed head injury until proven otherwise. Treat them as such including C-spine precautions.
5. Notify law enforcement for assistance with any combative or uncooperative alcoholic with an altered mental status.
6. Transport to designated hospital.

ALS LEVEL 1: PARAMEDIC ONLY

1. Initiate IV of lactated Ringer's or normal saline at TKO. If patient is tachycardic and/or hypotensive, give a 250 ml bolus then run at 100cc/hr.
2. Determine serum glucose level with Glucometer or Dextrostix
   a. If sugar 60 mg/dl - 80 mg/dl; **Sublingual glucose paste, or Glucagon** 1mg IM or ½ amp of 25gm **50% Dextrose IV**
   b. If Blood sugar < 60 mg/dl; 1 amp **25gm 50% Dextrose** IV or **Glucagon 1 mg IM**
3. If history of drug abuse, and patient has constricted pupils or respiratory depression, assist respirations as needed and administer **Narcan** 1-2 mg IV
4. If history suspicious for alcoholism, administer **Thiamine** 100 mg IV (slow) or IM.

ALS LEVEL 2: MEDICAL CONTROL

1. **Contact Medical Control or Medical Director for any questions or problems.**

2.8.6
2.8.7 Motion Sickness

Purpose: This protocol is for patients who may become ill with nausea, vomiting and/or dizziness due to motion sickness during a long transport. This may develop or be aggravated by the rear facing position in back of the ambulance or on an aircraft. Inquire if patient has a history of motion sickness.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. **Initial Patient Assessment 2.1.1**
2. Assure ABCs are stable. Position of comfort
3. **Airway Assessment/Management Protocol 2.1.2**. Oxygen if indicated via nasal cannula @ 2 - 4 LPM to maintain pulse ox ≥ 94% (non-rebreather @15 LPM if SpO_2 < 90%).
4. Attach cardiac monitor and pulse oximeter if indicated
5. Provide appropriate comfort measures (i.e. cool cloth to forehead).

ALS LEVEL 1: PARAMEDIC ONLY

1. Initiate IV of lactated Ringer's at 125 ml/hr. Give 250 ml fluid bolus if systolic pressure < 90 mm Hg (20 ml/kg for children).
2. Be alert for dysrhythmias.
3. If patient nauseated or has recently vomited, administer one of the following:
   a. **Zofran** 4 – 8 mg IV or IM
   b. Benadryl 25-50 mg IV or IM.
4. If patient complains of dizziness or motion sickness, consider administering:
   a. **Valium** 2-10 mg IV
   b. **Versed 2 – 4 mg IV**

ALS LEVEL 2: MEDICAL CONTROL

1. Contact medical control or medical director if any concerns or any questions.

2.8.8 Nausea and Vomiting

Purpose: Use this protocol for patients who are nauseated and vomiting due to their illness, pain, side effect of medications, etc. If the patient's nausea and vomiting is associated with an altered mental status or a seriously ill appearance, consider the cause to be a decompensation of their medical problem such as DKA (if diabetic)

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Initial Patient Assessment Protocol
2. Airway Assessment/Management Protocol. If indicated, Oxygen via nasal cannula @2 - 4 LPM to maintain pulse ox at ≥ 94% (non-rebreather @15 LPM if SpO_2 < 90%).
3. Attach cardiac monitor and pulse oximeter if indicated
4. Provide appropriate comfort measures (i.e. cool cloth to forehead).

ALS LEVEL 1: PARAMEDIC ONLY

1. Initiate IV lactated Ringer's or Normal Saline at 125ml/hr. If patient hypotensive (systolic < 90 mm Hg) and/or tachycardic (HR > 110) bolus with 1- 2 liters of IV fluid in 250ml increments until systolic BP > 90 mm Hg (20 ml/kg for children). Recheck vital signs and lung exam in-between each increment. Discontinue bolus if signs of pulmonary edema or development of respiratory distress.
2. If patient nauseated or has recently vomited, administer one of the following:
   a. **Zofran** 4 – 8 mg IV or IM (or the ODT Tablet sublingual if available)
   b. **Benadryl** 25-50 mg IV or IM.

ALS LEVEL 2: MEDICAL CONTROL

1. Contact medical control or medical director if any concerns or any questions.

2.8.9 Hyperkalemia (Elevated Potassium)

S

Purpose:

This protocol is to be used on patients with dangerously elevated levels of potassium (>7 mmol/L or 6 -7 mmol/L with EKG changes). Potassium is an extremely important electrolyte and is involved in maintaining electrical potential across cell wall membranes. It is essential to the normal function of cardiac cells. Potassium levels can elevate for a variety of reasons, including but not limited to; problems with excretion (renal 90%, GI 10%), potassium distribution (Extracellular 2%, intracellular 98%), increased absorption/intake. Normal serum potassium levels range from 3.5 – 5 mmol/L.

Signs and symptoms of elevated potassium levels include but are not limited to:

1. Weakness that can progress to paralysis,
2. Dyspnea (owing to respiratory muscle weakness)
3. EKG findings of peaked T wave, prolonged pr interval, widening of QRS complex and eventual sinusoidal wave form

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. **Initial Patient Assessment Protocol 2.1.1**
2. **Airway Assessment/Management Protocol (O_2 PRN) 2.1.2**
3. Attach cardiac monitor and pulse oximeter.
4. Transport to designated hospital

ALS LEVEL 1: PARAMEDIC ONLY

1. Initiate IV Normal Saline at 125ml/hr. If patient hypotensive (systolic < 90 mm Hg) and/or tachycardic (HR > 110) bolus with 1- 2 liters of IV fluid in 250ml increments until systolic BP > 90 mm Hg (20 ml/kg for children). Recheck vital signs and lung exam in-between each increment. Discontinue bolus if signs of pulmonary edema or development of respiratory distress.
2. Perform 12 lead ECG.
   a. Look for peaked T-wave, prolonged P-R interval, Widened QRS complexes, bradycardia
   b. As potassium elevates further, EKG may show dropped P waves, very wide QRS (sinusoid wave form)
   c. Transmit 12 Lead ECG to destination hospital, if available. If inferior wall MI is identified (ST segment elevation in leads II, III, and AVF), perform additional 12 Lead ECG with V4R to confirm/rule out concurrent right ventricular MI.
3. If EKG suggest hyperkalemia or patient is very weak (and is a renal patient or taking potassium supplements), measure serum potassium if equipment available (I-STAT), or obtain value (if it's been within two hours) from record at transferring facility. If level is > 7 mmol/L or 6 – 7 with EKG changes proceed to next step. If EKG changes suggesting elevated potassium levels after Succinylcholine was administered for RSI, proceed to next step

4. Give one amp (if available) of **Calcium Gluconate (or Calcium Chloride)** IV over 1 – 3 minutes. Give only if EKG changes. Avoid if suspect Digoxin toxicity.
5. Give **Albuterol** (only) via neb x 1
6. Give **Sodium Bicarb** 1 amp IV
7. Notify the hospital as additional treatment will be needed on arrival such as
    d. Reg Insulin and D50W
    e. Kayexcelate PO
    f. Possible dialysis

ALS LEVEL 2: MEDICAL CONTROL

1. Notify medical control or medical director for any problems or concerns.

2.8.10 Dystonic Reaction

Purpose:

This protocol is to be used to treat patients who are experiencing extra-pyramidal or dystonic reactions related to side effects of certain drugs (phenothiazine, anti-psychotic, neuroleptic). Dystonia is prolonged involuntary muscular contractions that may cause twisting (torsion) of body parts, repetitive movements, and increased muscular tone. Patients head may be twisted to one side due to uncontrolled muscle spasms of the neck. Patient may have abnormal movement or position of tongue due to spasm of the tongue muscle. This may also cause the patient with difficulty speaking. Patient's eyes may also be deviated to one side.

Common medications that can cause acute dystonic reaction:

Generic Name	Trade Name	General Use
Prochlorperazine	Compazine	Antiemetic, migraine headache
Hydroxyzine	Vistaril, Atarax	Antiemetic, antipruritic
Promethazine	Phenergan	Antiemetic, antipsychotic
Haloperidol	Haldol	Antipsychotic, Tourette's syndrome
Thioridazine	Mellaril	Antipsychotic
Alprazolam	Xanax	Antianxiety
Metoclopramide	Reglan	Antiemetic
Droperidol	Inapsine	Antiemetic, antipsychotic
Fluphenazine	Prolixin	Neuralgia, antipsychotic

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. **Initial Patient Assessment Protocol 2.1.1**
2. **Airway Assessment/Management Protocol (O_2 PRN) 2.1.2**
3. Attach cardiac monitor and pulse oximeter.
4. Transport to designated hospital
5. Keep in mind, until patient is treated, he/she may be able to hear and understand you but will not be able to follow commands.

ALS LEVEL 1: PARAMEDIC ONLY

1. Initiate IV of lactated Ringer's or normal saline at TKO. If patient is tachycardic and/or hypotensive, give a 250 ml bolus then run at 100cc/hr.
2. Determine serum glucose level with Glucometer or Dextrostix
   a. If sugar 60 mg/dl - 80 mg/dl; **Sublingual glucose paste, or Glucagon** 1mg IM or ½ amp of 25gm **50% Dextrose IV**
   b. If Blood sugar < 60 mg/dl; 1 amp **25gm 50% Dextrose** IV or **Glucagon 1 mg IM**

3. If patient exhibiting signs and symptoms of dystonic reaction (extrapyramidal side effect) from one of the common medications listed above, give **Benadryl (Diphenhydramine)** 25 – 50 mg IV or IM
4. If history of drug abuse, and patient has constricted pupils or respiratory depression, assist respirations as needed and administer **Narcan** 1 -2 mg IV

ALS LEVEL 2: MEDICAL CONTROL

1. Contact Medical Control or Medical Director for any questions or problems.

Intentionally Left Blank

2.9
Adult Environmental Emergencies

2.9.1 Diving (Scuba) Emergencies/Barotrauma (Decompression Sickness)

Purpose: This protocol is for patients who suffer the effects of sudden changes in atmospheric pressure due to diving related activity. Barotrauma and decompression illness is caused by changes in the surrounding atmospheric pressure beyond the body's capacity to compensate for excess gas load. These injuries are most commonly associated with the use of SCUBA (Self-Contained Underwater Breathing Apparatus). SCUBA diving emergencies can occur at any depth with the most serious manifesting symptoms after a dive. It should be understood that if a patient took a breath underwater, from any source of compressed gas (e.g. submerged vehicle, SCUBA, etc) while greater than 3 feet in depth, the patient might be a victim of barotrauma. Barotrauma may cause several injuries to occur including: arterial gas embolism (AGE), pneumothorax, pneumomediastinum, subcutaneous emphysema, and the "Sub-Queeze." decompression illnesses may also include decompression sickness ("Bends").

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Initial Patient Assessment Protocol 2.1.1.
2. Airway Assessment/Management Protocol 2.1.2. Administer Oxygen via non-rebreather @15 LPM
3. Attach cardiac monitor and pulse oximeter
4. Place the patient in a supine head-down left lateral decubitus position.
5. Complete the Dive Accident Signs and Symptoms Checklist and Rapid Field Neuro Exam Record (see appendix)
6. Start Dive History Profile (see blank forms), if possible (the patient's dive buddy may be helpful in answering many of these questions
7. Protect against hypothermia and hyperthermia.
8. If applicable, have the local legal authority in charge secure all of the victims dive gear with proper chain of custody for testing, analysis, etc.
9. Monitor closely for complications (pneumothorax, shock, seizures) and treat per protocols.
10. Transport to the closest Emergency Department or Trauma Center. If transporting by helicopter, fly below 1000 feet (if traveling by fixed wind, request pilot pressurize the cabin to sea level). If applicable and pre-arranged agreement exists, consider transport to a hyperbaric facility. Provide hyperbaric personnel with a detailed history of the dive (depth and duration, timing and onset of symptoms, complications, and any treatment rendered).
11. **Contact Diver's Alert Network (DAN) at Duke University Medical Center at (919) 684-4326** for assistance as needed for further assistance.
12. Bring Dive Computer to the hospital, if available

ALS LEVEL 1: PARAMEDIC ONLY

1. Start an IV of lactated Ringer's or normal saline TKO.

ALS LEVEL 2: MEDICAL CONTROL

1. Contact medical control or medical director if any concerns or any questions.

2.9.2 Cold Related Emergencies/Hypothermia/Frostbite

Purpose: This protocol is to be used for patients who suffer from hypothermia. Factors that predispose and/or cause a patient to develop hypothermia include: geriatric and pediatric patients, poor nutrition, diabetes, hypothyroidism, brain tumors or head trauma, sepsis, use of alcohol and certain drugs, and prolonged exposure to water or low atmospheric temperature. Hypothermia patients can be divided into three categories: Mild (temperature 94-96 degrees F), Moderate (Temperature 86 – 94), and Severe (Temperature < 86 degrees F). It should be noted that most oral thermometers would not register below 96 degrees F. There are some newer digital thermometers that will register lower temperatures.

Frostbite is local tissue freezing.

Mild to Moderate Hypothermia: Patients will generally present with shivering, lethargy.

Severe Hypothermia: Patients may be disoriented and confused to stupor and coma. Shivering usually stops and physical activity will be uncoordinated. In addition, severe hypothermia will frequently produce an Osborn J wave on an ECG, as well as dysrhythmias (bradycardia, ventricular fibrillation).

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Initial Patient Assessment Protocol 2.1.1
2. Airway Assessment/Management Protocol 2.1.2. Oxygen via nasal cannula @ 2 - 4 LPM to maintain pulse ox ≥ 94% (non-rebreather @15 LPM if SpO_2 < 90%).
3. Attach cardiac monitor and pulse oximeter
4. Remove all wet clothes and dry patient.
5. Protect from heat loss and wind chill.
6. Maintain in a horizontal position
7. Check core temperature if possible
8. Frost Bite cases:
   a. Protect injured areas from pressure, trauma, and friction. Bandage with dry sterile dressing if able.
      Do not rub or break blisters.
   b. Do not allow limb to thaw if there is a chance it will re-freeze.
   c. Do not allow patient to ambulate once the limb has started to thaw.
   d. Maintain core temperature by keeping victim warm with blankets.
   e. Warm fluids may be administered orally to conscious patients.
   f. Consider using the pulse oximeter probe to detect peripheral perfusion in affected tissues.

ALS LEVEL 1: PARAMEDIC ONLY

1) If severe pain, give **Morphine** 2-10 mg IM or IV, or **Fentanyl** 50 – 100 mcg IM or IV, for pain control.

Mild to moderate (86 - 96°): Hx of exposure to cold, altered LOC, shivering, muscle stiffness, stumbling or staggering gait, cool or cold skin, mottled or pale skin;

BASIC LEVEL: EMT and PARAMEDIC

1. Warm humidified oxygen 12-15 L/M by non-re-breathing mask. Maintain pulse ox > 95%
2. Remove wet garments
3. Cover with blankets
4. Gentle handling
5. Warm environment
6. If patient has normal LOC may give warm fluids to drink

ALS LEVEL 1: PARAMEDIC ONLY

1. Large bore IV, warm saline at 75cc/hr
2. If altered mental status, determine serum glucose level with Glucometer or Dextro Stix:
   a. If sugar 60 mg/dl - 80 mg/dl; give; ½ amp of 25gm **50% Dextrose** IV or **Glucagon** 1mg IM or Sublingual glucose paste, may repeat x 1 if after 15 minutes recheck fingerstick glucose < 80 mg/dl
   b. If Blood sugar < 60 mg/dl; 1 amp 25gm **50% Dextrose** IV or **Glucagon** 1 mg IM
   c. If glucose > 80 mg/dl and < 200 mg/dl, provide supportive care, keep NPO
   d. If glucose > 200 mg/dl, go to Hyperglycemia Protocol 2.8.2.

Severe with vital signs present (<86°F): Same as mild to moderate but may not have shivering. Should have altered LOC and difficult to detect but present vital signs:

BASIC LEVEL: EMT and PARAMEDIC

1. Same as above
2. NPO

ALS LEVEL 1: PARAMEDIC ONLY

1. Same as above

Severe with absence of vital signs: Same as above but will be unresponsive with no detectable pulse or respirations:

BASIC LEVEL: EMT and Paramedic

1. Warm humidified oxygen by BVM
2. CPR
3. Gentle handling
4. Warm environment as much as possible

ALS LEVEL 1: PARAMEDIC ONLY

1. Intubate and ventilate with warm humidified oxygen, if possible
2. Cardiac Monitor: If V-FIB: defibrillate up to 3 times (200J, 300J, 360J); If biphasic Zoll defibrillator 120J, 150J, 200J; (Peds = 2J/kg, 4J/kg, 4J/kg)
3. Medication therapy may be ineffective due to the decrease in core temperature. Usually meds withheld till core temp warmed to >86°F. Just continue CPR till temp > 86° F. If temp > 86° F, follow appropriate dysrhythmia protocol.
4. Large bore IV or IO, warm saline at 75cc/hr

ALS LEVEL 2: MEDICAL CONTROL

1. Contact medical control or medical director if any concerns or any questions.

2.9.3 Heat Related Emergencies/Hyperthermia

Purpose: This protocol is for patients suffering the effects of hyperthermia. Hyperthermia occurs when the patient is exposed to increased environmental temperature and can manifest as heat cramps, heat exhaustion, or heat stroke. Certain drugs may cause an increase in the body's temperature (e.g. cocaine, ecstasy, certain psychiatric medications, etc.). Heat related injuries can be divided into one of the following;

Heat Cramps: Signs and symptoms include: muscle cramps in extremities and/or abdomen, hot sweaty skin, weakness, dizziness, tachycardia, normal BP, and normal temperature

Heat Exhaustion: Signs and symptoms include: cool and clammy skin, profuse sweating, nausea/vomiting, diarrhea, tachycardia, weakness, dizziness, transient syncope, muscle cramps, headache, positive orthostatic vital signs, normal or slightly elevated temperature.

Heat Stroke: Signs and symptoms include: Hot dry skin (sweating may be present), confusion and disorientation, rapid bounding pulse followed by slow weak pulse, hypotension with low or absent diastolic reading, rapid and shallow respirations (which may later slow), seizures, coma, elevated temperature above 105° F.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Initial Patient Assessment Protocol 2.1.1
2. Airway Assessment/Management Protocol 2.1.2. Oxygen via nasal cannula @ 2 - 4 LPM to maintain pulse ox $\geq$ 94% (non-rebreather @15 LPM if SpO_2 < 90%).
3. Attach cardiac monitor and pulse oximeter
4. Assess vital signs, including temperature, every 10 minutes.
5. Remove from warm environment and cool patient
6. For mild to moderate heat cramps and heat exhaustion, if patient is conscious and alert, encourage patient to drink water, follow by salt containing fluids (e.g. half-strength Gatorade or 10 K or equivalent drink)
7. If history and findings suggestive of heat stroke:
   a. Remove to cooler environment
   b. Cool with ice packs or moist sheets (must have good ambient air flow)
   c. Stop cooling measures when core body temp is 39° c (102.2° F).

ALS LEVEL 1: PARAMEDIC ONLY

1. Initiate IV lactated Ringer's or Normal Saline at 125ml/hr. If patient hypotensive (systolic < 90 mm Hg) and/or tachycardic (HR > 110) bolus with 1 liter of IV fluid in 250ml increments until systolic BP > 90 mm Hg Recheck vital signs and lung exam in-between each increment. Discontinue bolus if signs of pulmonary edema or respiratory distress develop.
2. If altered mental status, determine serum glucose level with Glucometer or DextroStix:
    a. If sugar 60 mg/dl - 80 mg/dl; give; ½ amp of 25gm **50% Dextrose** IV or **Glucagon** 1mg IM or Sublingual glucose paste, may repeat x 1 if after 15 minutes recheck fingerstick glucose < 80 mg/dl
    b. If Blood sugar < 60 mg/dl; 1 amp 25gm **50% Dextrose** IV or **Glucagon** 1 mg IM
    c. If glucose > 80 mg/dl and < 200 mg/dl, provide supportive care, keep NPO
    d. If glucose > 200 mg/dl, go to Hyperglycemia Protocol.
3. If seizures are present, and suspected to be heat-related:
    a. Protect airway with appropriate airway adjuncts.
    b. **Valium** 5-10 mg IV/IO, or **Versed** 2 – 4 mg IV/IO.

ALS LEVEL 2: MEDICAL CONTROL

1. Contact medical control or medical director if any concerns or any questions.

2.9.4 Near-Drowning

Purpose: Near drowning patients are those who have been submerged in fresh or salt water and may or may not be conscious. Patients who ingested and/or aspirated water during the near drowning experience may initially decline to be transported to the hospital if after they have coughed, vomited and/or rested, they are feeling better following the incident. These patients should be strongly encouraged to be transported for evaluation as there are often delayed complications due to pulmonary edema or aspiration pneumonia.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Initial Patient Assessment Protocol 2.1.1. Immobilize cervical spine if trauma suspected
2. Airway Assessment/Management Protocol 2.1.2. If indicated, Oxygen via nasal cannula @2 - 4 LPM to maintain pulse ox 94% (non-rebreather @15 LPM if SpO_2 < 90%).
3. Attach cardiac monitor and pulse oximeter if indicated
4. Determine pertinent history (duration of submersion, depth, water temperature, possible seizure, drug and/or alcohol use).
5. Maintain body temperature, dry and warm patient. Start passive re-warming if patient hypothermic.

ALS LEVEL 1: PARAMEDIC ONLY

1. Initiate IV lactated Ringer's or Normal Saline at 125ml/hr. If patient hypotensive (systolic < 90 mm Hg) and/or tachycardic (HR > 110) bolus with 1- 2 liters of IV fluid in 250ml increments until systolic BP > 90 mm Hg (20 ml/kg for children). Recheck vital signs and lung exam in-between each increment. Discontinue bolus if signs of pulmonary edema or development of respiratory distress.

If apneic:

1. Initiate and maintain mechanical ventilation with 100% oxygen.
2. Endotracheal intubation (with in-line cervical immobilization).
3. Treat any dysrhythmias per appropriate protocol.
4. Transport and contact medical control en route.

If apneic and pulseless:

1. Initiate and maintain mechanical ventilation with 100% oxygen.
2. CPR.
3. Endotracheal intubation (with in-line cervical immobilization.)
4. Treat any dysrhythmias per appropriate protocol.
5. Transport and contact medical control en route.
6. If altered mental status, determine serum glucose level with Glucometer or DextroStix:
    a. If sugar 60 mg/dl - 80 mg/dl; give; ½ amp of 25gm 50% **Dextrose** IV or **Glucagon** 1mg IM or Sublingual glucose paste, May repeat x 1 if after 15 minutes recheck fingerstick glucose < 80 mg/dl
    b. If Blood sugar < 60 mg/dl; 1 amp 25gm **50% Dextrose** IV or **Glucagon** 1 mg IM
    c. If glucose > 80 mg/dl and < 200 mg/dl, provide supportive care, keep NPO
    d. If glucose > 200 mg/dl, go to Hyperglycemia Protocol 2.8.2.

ALS LEVEL 2: MEDICAL CONTROL

1. Contact medical control or medical director if any concerns or any questions.
2. Initiate **Dopamine** drip if patient unresponsive to fluid challenge. Begin infusion at 2 mcg/kg/min and titrate to maintain systolic BP >90 mm Hg.

2.9.5 Electrical Emergencies / Lightning Strike

Purpose: This protocol is for patients who suffer the effects of an electrical injury. A wide range of injuries can be caused from a lightning strike or contact with electricity. Electrical injury can occur from direct contact, an arc, or a flash of the electricity and a direct hit or splash from lightning. The movement of electrical current through the body can cause violent muscle contractions that can lead to fractures, and therefore, the C-spine should be protected. The thermal energy can cause external burns, but in many cases the majority of thermal damage is internal, with few external signs of injury. Dysrhythmias are also common (e.g. ventricular fibrillation). The rescuer should be sure that the patient is no longer in contact with the electrical current before initiating treatment. Asystole is a common presentation with lightning strike. These patients should be aggressively resuscitated unless injuries are incompatible with life

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Initial Patient Assessment Protocol 2.1.1. C-spine precautions if indicated. Move patient to a protected area (to prevent additional lightning strike).
2. Airway Assessment/Management Protocol 2.1.2. Oxygen via nasal cannula @2 - 4 LPM to maintain the pulse ox $\geq$ 94% (non-rebreather @15 LPM if SpO_2 < 90%)
3. If cardiac arrest or dysrhythmias, standard ALS measures (see appropriate protocol 2.3).
4. Remove smoldering clothes and assess for trauma. Look for entrance and exit wounds.
5. Treat burns per Burn Protocol 2.10.8
6. Initiate Trauma Alert if applicable and meets criteria
7. Correct any open/sucking chest wound
8. Control hemorrhage
9. Cover burns with moist sterile dressing.
10. Attach cardiac monitor and pulse oximeter
11. Complete bandaging, splinting, packaging PRN. Immobilize injured extremities, making note of pulses, sensation, motor function, and color of distal extremities.
12. Try to determine amps, volts, and duration of contact, if possible

ALS LEVEL 1: PARAMEDIC ONLY

1. Initiate IV lactated Ringer's or Normal Saline at 125ml/hr. If patient hypotensive (systolic < 90 mm Hg) and/or tachycardic (HR > 110) bolus with 1- 2 liters of IV fluid in 250ml increments until systolic BP > 90 mm Hg (20 ml/kg for children). Recheck vital signs and lung exam in-between each increment. Discontinue bolus if signs of pulmonary edema or development of respiratory distress.
2. Correct any massive flail segment that causes respiratory compromise. Intubate if necessary.

3. Correct any tension pneumothorax (see needle decompression protocol)
4. If altered mental status, determine serum glucose level with Glucometer or DextroStix:
    a. If sugar 60 mg/dl - 80 mg/dl; give; ½ amp of 25gm **50% Dextrose** IV or **Glucagon** **1mg** IM or Sublingual glucose paste, May repeat x 1 if after 15 minutes recheck fingerstick glucose < 80 mg/dl
    b. If Blood sugar < 60 mg/dl; 1 amp 25gm **50% Dextrose** IV or **Glucagon** **1 mg** IM
    c. If glucose > 80 mg/dl and < 200 mg/dl, provide supportive care, keep NPO
    d. If glucose > 200 mg/dl, go to Hyperglycemia Protocol 2.8.2.
5. If patient is in severe pain with no evidence of a head injury, chest or abdominal trauma, give one of the following:
    a. **Morphine Sulfate** 2 – 10 mg IV or IM
    b. **Fentanyl** 50 – 100 mcg IV or IM

ALS LEVEL 2: MEDICAL CONTROL

1. Contact medical control or medical director if any concerns or any questions.

2.10
Adult Trauma Emergencies

2.10.1 Head and Spine Injuries / Trauma

Purpose: This protocol is for patients who are suspected of having a head and/or spinal injury. If history, symptoms, or signs of head or spinal injuries are present, manually immobilize the head and neck while maintaining a patent airway using a modified jaw-thrust method. Immobilization of the entire spine is indicated following initial stabilization. Hangings without Trauma Alert Criteria ARE NOT Trauma Alert Patients (e.g. "suffocation type", patient without C-spine deformity). **NOTE**: protocol **4.35 Spinal Immobilization Clearance** should be used on a completely alert and cooperative patient at low risk for c-spine injury to determine if spinal immobilization is needed.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Initial Patient Assessment Protocol 2.1.1.
2. Airway Assessment/Management Protocol 2.1.2. Oxygen via nasal cannula @ 2 - 4 LPM to maintain pulse ox ≥ 94% (non-rebreather @15 LPM if SpO_2 < 90%).
3. Determine if C-spine immobilization is needed via Spinal Immobilization Clearance Protocol.
4. Attach cardiac monitor and pulse oximeter
5. If isolated head injury, elevate head of backboard 30 degrees (12 – 18 inches).
6. Determine level of consciousness (AVPU).
7. Assess for and document the Glasgow Coma Scale
8. Complete motor examination (paralysis, weakness, posturing), if possible.
9. Pupillary examination (size, equality).
10. Complete sensory examination, if possible.
11. Open wounds, which expose the brain tissue, should be covered with saline-soaked gauze.
12. If combative, check airway, ensure oxygen delivery, and restrain as needed.

ALS LEVEL 1: PARAMEDIC ONLY

1. Intubation and ventilation with 100% oxygen for markedly decreased LOC, inability to maintain a patient airway, or for GCS <= 8.
2. If signs of brainstem herniation exist (e.g. pupillary dilatation, asymmetric pupillary reaction, or motor posturing), ventilate patient to achieve optimal $ETCO_2$ of 35 – 40 mm Hg.
3. If unresponsive or pulseless, apneic:
    a. Intubate with neck in neutral position (stabilized with traction by second EMT).
    b. Ventilate with 100% oxygen.
    c. CPR if pulseless.
4. If BP <90 mm Hg systolic, or signs of shock:
    a. IV Lactated Ringer's en route. Bolus with 250 ml increments of IV fluid p.r.n. x 2 liters. Recheck vitals after each bolus

5. If patient has seizures give one of the following:
    a. **Valium** 2 - 10 mg IVP
    or
    b. **Versed** 2 – 4 mg IVP for seizures and agitation.
6. Consider need or RSI to control airway. See procedure **4.31 RSI**

ALS LEVEL 2: MEDICAL CONTROL

1. Contact medical control or medical director if any concerns or any questions.

2.10.2 Eye Injuries

Purpose: This protocol covers a variety of injuries to the eye. If other injuries to the body exist, priority of care should be given as appropriate.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Initial Patient Assessment Protocol 2.1.1
2. Airway Assessment/Management Protocol 2.1.2. Oxygen if applicable via nasal cannula @2 - 4 LPM to maintain pulse ox ≥ 94% (non-rebreather @15 LPM if SpO_2 < 90%).
3. Attach cardiac monitor and pulse oximeter as indicated.
4. Remove or ask patient to remove contact lens, if still in affected eye(s).
5. **If Penetrating Trauma:**
   a. Stabilize penetrating object(s) and cover affected eye with an ocular shield or similar rigid device. Cover both eyes to minimize eye movement. Avoid direct pressure on eye or penetrating object.
   b. DO NOT delay transport.
6. **If Blunt Trauma**:
   a. Cover both eyes
   b. Do Not delay transport
7. If eyeball has been forced out of the socket, cover the entire eye area with a rigid container, such as a disposable drinking cup. Avoid contact with the exposed globe. If bleeding, control by direct pressure with a sterile dry dressing.
8. **If Loss of Vision**: (If sudden painless and non-traumatic loss of vision, consider Retinal Artery Occlusion);
   a. Apply cardiac monitor and assess for changes
   b. Apply vigorous pressure using heel of hand to affected eye for 3-5 seconds, then release. (Patient may perform this procedure)
   c. Do Not delay transport

ALS LEVEL 1: PARAMEDIC ONLY

1. If chemical injury or foreign body sensation;
   a. Instill (if available) 2 drops **Tetracaine ophthalmic drops** (0.5% solution) in affected eye if patient not allergic to Tetracaine or the "caine" class of local anesthetics. Contraindicated in penetrating eye injuries or laceration of the cornea or globe.
   b. If chemical injury, flush immediately with sterile normal saline and continue flushing en route.
   c. Bring chemical container or name of chemical with patient to the emergency department.
2. Initiate IV lactated Ringer's or Normal Saline at KVO PRN if injury seems serious.

ALS LEVEL 2: MEDICAL CONTROL

1. Contact medical control or medical director if any concerns or any questions.

2.10.3 Chest Trauma: Blunt and Penetrating

Purpose: This protocol covers both blunt and penetrating chest trauma and should be part of initial resuscitation if breathing is compromised. Chest pain due to blunt trauma may be an indication of underlying injury. Blunt injuries such as a pulmonary contusion and cardiac contusion may cause respiratory insufficiency and /or myocardial infarction.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Initial Patient Assessment Protocol. 2.1.1
2. Airway Assessment/Management Protocol. 2.1.2. Oxygen via nasal cannula @ 4 LPM to maintain pulse ox ≥ 94% (use non-rebreather @15 LPM if SpO_2 < 90%)
3. Attach cardiac monitor and pulse oximeter.
4. If penetrating or sucking chest or upper back wound (look for bubbles, listen for air leaks):
5. Place occlusive dressing (or commercially available covering) during exhalation (tape on 3 sides) or apply Asherman Chest Seal. Once occluded, monitor for tension pneumothorax.
6. Impaled objects should be stabilized in place. If impaled object is very large or unwieldy, attempt to cut object to no less than six inches from chest.

ALS LEVEL 1: PARAMEDIC ONLY

1. Start two large bore IVs or IOs of lactated Ringer's or normal saline TKO. Bolus as needed with two liters of IV fluid in 250 – 500 ml increments to maintain systolic BP > 90 mm Hg. Check vital signs frequently.
2. Call Trauma Alert if patient meets criteria (see Trauma Alert Criteria)
3. If flail chest (unstable segment that does not expand with the remainder of the chest on inspiration):
    a. If conscious, stabilize flail segment with gauze pad, IV bag, etc.
    b. If unconscious, immobilize neck and intubate. Ventilate with 100% oxygen by BVM.
4. If tension pneumothorax develops, (unilateral absent breath sounds with or without tracheal deviation or bilaterally absent breath sounds:
    a. Perform needle decompression per protocol.
5. If continued inadequate ventilations and decreasing LOC:
    a. Rapid secondary survey for additional injuries.
    b. Immobilize neck.
    c. Control hemorrhage.
    d. Intubate with cervical stabilization.
    e. Ventilate with 100% oxygen via BVM.
    f. Cardiac compressions if pulseless.
6. Treat any dysrhythmias per cardiac dysrhythmia protocols.

7. If patient being transferred to another facility with chest tube(s) already in place:
    a. Keep chest tubes tubing from kinking.
    b. Check dressing over chest tube site to assure adequately adhered.
    c. Keep pleuravac upright at all times.
    d. Monitor if on suction for intermittent bubbling.
    e. If patient with chest tube begins to experience severe respiratory distress:
        1) Rapidly assess ABCs.
        2) Assist ventilations as needed.
        3) Check chest tube tubing for kinks or leaky connections or blood in tube. If so, unkink, seal leak, or milk tubing.
        4) If patient is on board air ambulance, immediately ascertain the cabin altitude pressure. If greater than sea level, have the pilot descend the aircraft to achieve cabin altitude of sea level.

ALS LEVEL 2: MEDICAL CONTROL

1. medical control or medical director for further orders as needed.

2.10.4 Abdominal / Pelvic Trauma

Purpose: This protocol covers blunt and penetrating abdomino-pelvic trauma. Penetrating injuries may also include the chest. Patients who may initially appear normal can rapidly deteriorate and therefore should be closely monitored and have serial exams.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Initial Patient Assessment Protocol 2.1.1
2. Airway Assessment/Management Protocol 2.1.2
3. Attach cardiac monitor and pulse oximeter.
4. If patient pregnant and back boarded, tilt board 30 degrees left
5. Impaled objects should be stabilized in place.
6. Eviscerations should be covered with saline-soaked gauze. Do not attempt to push the organs back into the abdomen. If PASG/ MAST is in use from another service or facility, do not inflate the abdominal section.
7. For penetrating injuries cover with an occlusive dressing (e.g. Vaseline gauze).
8. Do not log roll patient with a suspected pelvic fracture (may use scoop stretcher)
9. If pelvic fracture suspected, wrap in sheet splint
10. Rapid transport.

ALS LEVEL 1: PARAMEDIC ONLY

1. Establish two large bore IVs of lactated Ringer's to maintain systolic pressure > 90 mm Hg. Run in two liters of IV fluid. Monitor vital signs and lung sounds after each 250 ml bolus. Discontinue if signs of pulmonary edema. If systolic pressure still < 90 contact medical control for further IV orders. IF IV access is unavailable, insert one or two EZ-IOs in the appropriate extremities
2. Call a trauma alert on all patients that meet criteria (see trauma alert protocol).

ALS LEVEL 2: MEDICAL CONTROL

1. Contact medical control or medical director for any questions or problems.
2. Pain management for abdominal pain ONLY by medical control orders

2.10.5 Extremity Injuries

Adult Medial Protocol

Purpose: This protocol will cover extremity injuries including fractures, crush, lacerations, and amputations. Time is critical if there is any chance of re-implanting the amputated part. Lacerations should be repaired as soon as possible (ideally wounds should be repaired within 6 hours), as the risk of infection increases with each passing hour before repair. Urgently transport any injury with vascular compromise.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Initial Patient Assessment Protocol 2.1.1
2. Airway Assessment/Management Protocol 2.1.2
3. Control bleeding
4. Rinse any grossly contaminated wound with saline and cover with sterile dressing.
5. Attach cardiac monitor and pulse oximeter as indicated for seriously injured patient (may not be necessary for an isolated distal extremity wound or fracture).
6. Trauma Alert patients who meet criteria (see Trauma Alert Criteria)
7. Transport to designated facility.
8. If severe life threatening hemorrhage cannot be controlled by direct pressure or other simple measures, apply a CAT tourniquet as per Tourniquet Protocol

FRACTURES

1. Any fracture or suspected fracture should be splinted appropriately and if possible, apply ice pack to area.
2. Remove and secure all jewelry on the affected extremity. Have your partner witness the disposition of the jewelry, i.e. given to patient or family member, and document disposition in the chart.
3. Check pulse, sensation, and movement before and after splinting.
4. Closed angulated fractures without distal pulse should be aligned using proximal and distal traction during splinting, except fractures that involve a joint, which should be splinted in position found.
5. Traction splints should be used in cases of closed femur fractures, unless a pelvic fracture is suspected. Hip fractures or pelvic fractures can be treated with sheet splint. Femur fractures can also be treated with HARE Traction Splint or Sager Traction Splint.

AMPUTATIONS

1. The amputated stump should be dressed with bulky dressing
2. Rinse the amputated part with saline to remove loose debris.
3. Wrap amputated part in gauze moistened with saline
4. Placed wrapped part in plastic bag and seal. Label with name, date and time.
5. Place plastic bag on ice for transport.

ALS LEVEL 1: PARAMEDIC ONLY

1. One or two large bore IV(s) of lactated Ringer's solution at appropriate rate to maintain systolic > 90 mm Hg. If intraosseous IV is started, do not use injured extremity. If BP < 90, bolus with 250 ml increments of IV fluid up to 2 liters with vital sign rechecks between each bolus.
2. Treat for shock, if indicated.
3. If patient's blood pressure is stable AND isolated extremity wounds AND patient has no allergies to specific pain medication give one of the following:
    a. **Morphine** IV in 2mg increments, titrate to pain up to 10mg
    b. **Fentanyl** 50 – 100 mcg IV or IM
4. If nauseated, give one of the following:
    a. **Zofran** 4-8mg IV or IM
    b. **Benadryl** **25-50 mg** IV or IM.

ALS LEVEL 2: MEDICAL CONTROL

1. Contact medical control or medical director for any questions or problems.
2. For IV fluid orders beyond 2 liters if patient remains hypotensive and tachycardic
3. For further pain medication orders beyond the amount allowed in ALS LEVEL 1

2.10.6 Burns

Purpose: Burns can be caused by solar, thermal, chemical, and electrical sources. First-degree burns (reddened skin, only the epidermal layer), and second-degree burns (red skin with blisters, extends into the dermis) are painful. Third degree burns (full thickness, charred appearance, All epidermal and dermal structures are destroyed) are painless and leathery. Many burns are associated with inhalation injury. The signs and symptoms of inhalation injury include: nasal and orophyarngeal burns, charring of the tongue or teeth, sooty (blackened) sputum, singed nasal and facial hair, abnormal breath sounds (e.g. stridor, rhonchi, wheezing, etc.), and respiratory distress. In cases of inhalation injury, attention should be given to the patency of the airway. Acute swelling can cause an airway obstruction. The paramedic should consider the need for early intubation to avoid a complete airway obstruction that requires a Cricothyroidotomy.

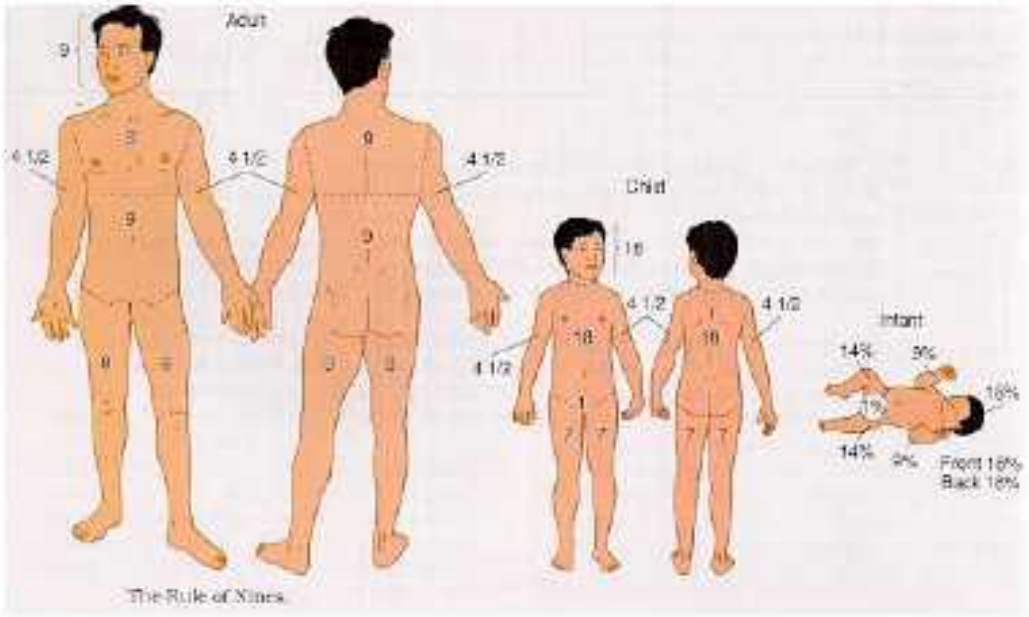
Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Initial Patient Assessment Protocol 2.1.1.
2. Airway Assessment/Management Protocol 2.1.2.
3. Attach cardiac monitor and pulse oximeter.
4. Extinguish any flames on patient; remove smoldering clothing (leather), and any constricting jewelry. Do not remove or peel off skin or tissue.
5. Stop the burning process:
   - THERMAL BURNS; Lavage the burned area with tepid water (sterile, if possible) to cool the skin. Do not attempt to wipe off semisolids (grease, tar, wax, etc)
   - CHEMICAL: Flush with water or normal saline. Brush off dry chemicals. Refer to hazmat protocols as indicated.
   - ELECTRICAL: Remove from contact with current source if equipped to do so. (Note any secondary fractures and Exit wounds caused by current.)
6. Assess the extent of the burn using the Rule of Nines and the degree of burn severity. Call trauma alert if patient meets criteria (2° or 3° burns > 20% BSA): (SEE TRAUMA ALERT CRITERIA) (See Burn Rule of Nine Appendix) (see Burn Severity Catagories)
7. Apply dry sterile dressings to burn areas
8. Prevent hypothermia, keep patient warm and insure that all outer layers of dressings are dry
9. If altered LOC and/or signs of head injury (consider carbon monoxide and/or cyanide poisoning if closed space burn):
10. Transport to designated hospital.

ALS LEVEL 1: PARAMEDIC ONLY

1. 1 or 2 large bore IVs (in non burned area if possible) with Lactated Ringer's or Normal Saline. Rate should be based on 4cc/kg/%TBS area burned. ½ of this amount will be given over the first 8 hours, so divide the total amount by 2 then again by 8 and this is the cc/hr needed. Example: 70 kg patient with 60% burns to his body.



4 ml x 70kg x 60 (%burned) = 16,800
16,800 ÷ 2 = 8,400 (amount of fluid need in 8 hours)
8,400 ÷ 8 = 1050 (amount of IV fluid /hour)

2. If respiratory distress, or airway burns exist, prepare to intubate or support/assist ventilations.
3. If pulseless or apneic, go to Cardiac Arrest Protocol.
4. If additional injuries, go to specific protocol.
5. If patient has isolated burn injuries and no evidence of head injury, altered mental status, chest trauma or abdominal trauma and normal vital signs, CHECK ALLERGIES, give one of the following pain meds for major burns;
    - **Morphine** 2mg increments IV and titrate to pain up to 10mg
    - **Fentanyl** 50 – 100 mcg IV or IM
    - For minor burns, give **Toradol** 30mg IV or 60mg IM.

ALS LEVEL 2: MEDICAL CONTROL

1. Contact medical control for additional pain medication orders as needed.
2. Consider escharotomy per med control if circumferential burns of the neck, chest, or extremities are interfering with effective ventilations or circulation.
3. Contact medical control or medical director for any questions or problems

Burn Classification	Characteristics
Minor burn injury	◆1° burn ◆2° burn < 15% BSA in adults ◆2° burn < 5% BSA in children/aged ◆3° burn < 2% BSA
Moderate burn injury	◆2° burn 16-25% BSA in adults ◆2° burn 5-20% BSA in children/aged ◆3° burn 2-10% BSA
Major burn injury	◆2° burn > 25% BSA in adults ◆2° burn > 20% BSA in children/aged ◆3° burn > 10% BSA ◆Burns involving the hands, face, eyes, ear feet, or perineum ◆Most patient with inhalation injury, electric injury, concomitant major trauma, or significant pre-existing diseases

2.10.7 Dental Trauma /Avulsed Tooth/Teeth

Purpose: This protocol can be used for patients who sustained dental trauma. Broken teeth, dentures or partial plates can potentially cause airway obstruction, have high index of suspicion if patient is having any respiratory distress following dental trauma. These should be removed to clear the airway. If a tooth is completely knocked out and is not a primary (baby) tooth, make all possible attempts to locate the tooth. If the tooth can be located, AND the root is not broken (completely intact) follow this protocol to manage the situation.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Initial Patient Assessment Protocol 2.1.1
2. Airway Assessment/Management Protocol 2.1.2 (oxygen PRN)
3. Attach cardiac monitor and pulse oximeter PRN.
4. Transport to designated hospital.
5. If the avulsed tooth (teeth) can be located, pick it up by the crown and avoid touching the root. Inspect the tooth to make sure it is completely intact (not broken and the entire root of the tooth is intact).
6. Rinse in normal saline (DO NOT rub or scrub) and placed in moistened gauze, but there is no need to cool or ice. Transport with patient to the hospital. As an alternative, if re-implantation is NOT feasible and the patient is a fully conscious adult, then the best procedure is to place the tooth in the mouth, either under the tongue or in the buccal vestibule. This is not recommended for children
7. Re-implantation is recommended if possible at the scene as time is of the essence. The sooner an avulsed tooth can be re-inserted into its original socket, the greater the chance the tooth will survive. The following guidelines pertain to re-implantation at the scene:
    a. Applicable only for permanent teeth (i.e., with patients over 6.5 years of age)
    b. Applicable when only one or two teeth are cleanly avulsed and the entire root is present
    c. Applicable only to anterior teeth (front 6, upper and lower)
    d. The patient must be conscious, cooperative, and not under the influence of alcohol or drugs.
    e. Should be attempted within the first 30 minutes; the sooner, the greater success rate
    f. Have the patient rinse his/her mouth with saline and spit. Do this several times to rinse the oral cavity.
    g. Rinse the tooth with saline (do not scrub), gently reposition it into the original socket and in as best anatomical position as possible (as even with the adjacent teeth as possible).
    h. Do not force reimplantation. Gentle insertion is all that is necessary. Slight incorrect positioning can be corrected later.

i. Roll a piece of gauze and place between the patient's teeth. Ask the patient to lightly bite down to hold the re-positioned tooth in place with the rolled gauze.

ALS LEVEL 1: PARAMEDIC ONLY

1. Chances are this patient will not need IV fluids. Pain meds can be given IM however at paramedic's discretion, IV access can be established.
2. If this is isolated dental trauma with no signs of head injury, c-spine injury, or airway compromise, you may give one of the following:
   a. **Morphine** 2mg increments IV up to 10 mg or **Morphine** 5mg IM
   b. **Fentanyl** 50 – 100 mcg IV or IM,

ALS LEVEL 2: MEDICAL CONTROL

1. Notify medical control or medical director if any problems and/or questions

2.10.8 Sexual Assault

Purpose: This protocol is to be used for patients who are alleged victims of sexual assault. Treat patient with dignity. Be careful what and how you document. Avoid comments that may be construed as fact by an attorney but for which you have no proof. For example don't write; "patient sustained a large wound on her leg that occurred during the rape". Unless you were there and witnessed the incident, you cannot say for a fact that the wound occurred as the result of the rape. This also implies that you know for a fact that a rape occurred. It is better to use statements such as "the alleged rape" or "the patient states she was raped". Attorneys will back you into a corner and discredit your whole testimony if you make such statements.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Initial Patient Assessment Protocol 2.1.1
2. Airway Assessment/Management Protocol 2.1.2. If indicated Oxygen via nasal cannula @ 2 - 4 LPM to maintain pulse ox ≥ 94% (non-rebreather @15 LPM if SpO_2 < 90%).
3. Attach cardiac monitor and pulse oximeter if indicated
4. Reassure patient and provide emotional support.
5. Perform secondary survey.
6. Treat all injuries appropriately, preferably with a relative present.
7. Protect the scene and preserve evidence. Do not allow the patient to bathe, change clothes, go to the bathroom, or douche. Do not allow patient to place any potential evidence in plastic bags.
8. Notify police if not already informed.
9. Transport to hospital that is equipped to perform sexual assault examinations.

ALS LEVEL 1: PARAMEDIC ONLY

1. Unless patient has serious injuries and/or is hemodynamically unstable, no ALS Level 1 needed
2. Initiate IV only if indicated by seriousness of injury

ALS LEVEL 2: MEDICAL CONTROL

1. Contact medical control or medical director for any questions or problems.

2.10.9 Taser / Stun Device Protocol

Purpose: This protocol if for patients who have been injured by a taser, stun gun, or similar incapacitating device.

DEFINITIONS:

Taser Device - means any device which is powered by electrical charging units, such as batteries, and which fires one or several barbs attached to a length of wire and which, upon hitting a human, can send out a current capable of disrupting a person's nervous system in such a manner as to render him/her incapable of normal functioning.

Stun Device – means any weapon or other device (except taser devices), which emits an electric or current, intended to temporarily disable a person.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Initial Assessment Protocol 2.1.1
2. Approach scene/patient only when scene is secure per law enforcement
3. Be sure wires are snipped from barb before evaluating/treating patient.
4. Airway Assessment Protocol 2.1.2. (Assess/treat the ABC's as per any medical/trauma call). C-spine precautions if indicated
5. Evaluate and treat the patient for any trauma that may have resulted from a fall due to the taser/stun gun incident.
6. If patient has a specific complaint, evaluate/treat the area of concern according to protocol, (i.e. chest pain, shortness of breath, etc).
7. Management of the barbs:
    a. Any penetrating barb in the skin above the clavicles or in the genitalia will be stabilized and transported to the hospital for removal.
    b. Barbs penetrating the skin other than above the clavicles or the genitalia can be removed at the scene if the paramedic or EMT is comfortable doing so, otherwise, stabilized for removal at the hospital. To remove barbs, simply stabilize the skin on either side of the barb and pull straight out. Cleanse area with alcohol or Betadine afterwards.

8. Decision to transport to hospital:
    a. Any patient who sustained obvious trauma from the incident will be transported.
    b. Any patient with any medical complaint following incident will be transported (i.e. chest pain, shortness of breath, nausea, headache, muscle cramps, etc.)
    c. Any patient with an altered mental status resulting from the taser/stun gun incident or perhaps under the influence of any mind altering substance (which may have led to the incident) will be transported.
    d. Any patient who request transport for evaluation for any reason, will be transported.
    e. Any patient who refuses to be transported to the hospital for further evaluation must meet the dry run/refusal criteria.
9. Law enforcement personnel should accompany paramedic for high risk (violent, dangerous) patients.

ALS LEVEL 1: PARAMEDIC ONLY

1. None unless significant trauma then refer to appropriate protocol.

ALS LEVEL 2: MEDICAL CONTROL

1. Call medical control or medical director for any concerns or questions.

2.10.10 General Crush Injury

Purpose:

This protocol should be considered when the patient has been **entrapped at the scene for more than two hours,** one or more full extremities trapped by an object capable of causing a crush injury, including machinery, dirt, rock, and rubble or there is entrapment of patient with history of previous cardiac or renal disease or dialysis treatment.

Crush *Syndrome* should be suspected in patients with entrapment/compression of greater than one hour, especially when a large muscle mass/group is involved. Treatment of the patient at risk for Crush Syndrome ***should begin before the patient is removed when practical.*** After the skeletal muscle injury occurs and the crushing object is removed, the accumulation of cellular toxins (myoglobin) and electrolytes (potassium) are released into the circulation and may cause lethal cardiac arrhythmias, acute renal failure and sudden death. The systemic effects of Acute Crush Syndrome only occur after the object is removed and the injured extremity is re-perfused. Removal of the object causes a massive fluid shift into the injured muscle, resulting in acute hypovolemia and hypotension.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Initial Patient Assessment Protocol 2.1.1
2. Airway Assessment Protocol 2.1.2. Oxygen via nasal cannula @2 - 4 LPM to maintain pulse ox at ≥ 94% (non-rebreather @15 LPM if SpO_2 < 90%) (environmental considerations, dust)
3. Spinal immobilization if applicable
4. Confirm entrapment of 1 or more extremities
5. Complete trauma assessment to evaluate for other injuries and treat immediate life threats immediately
6. Hemorrhage control, may require Tourniquet (see Tourniquet Protocol 4.42)
7. Place on Cardiac Monitor and pulse oximeter. Take vitals
8. If the extremity is reachable, check for decreased sensation, motor function, skin color changes and diminished distal pulses
9. Rapid transport once extricated

ALS LEVEL 1: PARAMEDIC ONLY

PRE-EXTRICATION;

1. Establish two large bore IVs of NS (or LR). 2 liters NS bolus, followed by 500 ml/hr (limit fluid bolus for pediatric (20 ml/kg) and patients with history of cardiac or renal dysfunction
2. Pain control per Pain Protocol 2.1.5. **Fentanyl** is preferred to **Morphine**.
    a. **Fentanyl** 50 – 100 mcg IV or IM
    b. **Morphine** 4 mg initial then 2 mg increments prn up to 10 mg
3. IMMEDIATELY PRIOR TO EXTRICATION; Give **Sodium Bicarbonate** 1 mEq/kg up to 100 mEq IVP
4. Extrication

POST-EXTRICATION

5. Continue cardiac monitoring and assess for hyperkalemia; i.e. widening of QRS (>0.12 seconds) and peak T waves, hypotension
6. If hyperkalemic changes on monitor, give; **Calcium Chloride** 1 gm IV slow (over 5 minutes)
7. Give an **Albuterol** (only) Neb 2.5 mg
8. Dress/splint wound/extremity
9. Call Trauma Alert if criteria are met

ALS LEVEL 2: MEDICAL CONTROL

1. Contact medical control or medical director for any questions or problems.

Intentionally Left Blank

2.11
Adults
With Special Health Care Needs

2.11 Adults with Special Healthcare Needs

Overview: These protocols cover specific types of special healthcare needs in adult patients. Adults with special healthcare needs are those who have or are at risk for chronic physical, developmental, behavioral, and emotional conditions that necessitate use of health and related services of a type or amount not usually required by typical adults.

The general approach to adults with special healthcare needs includes the following:

1. Priority is given to ABCs.
2. Do not be overwhelmed by the machines
3. Listen to the caregiver.
4. If a nurse is present, rely on their judgment.
5. Remember…the patient's cognitive level of function may be altered.
6. Assume that the patient can understand exactly what you say.
7. Bring all medications and equipment to the hospital.

Obtaining a history includes asking the parent/caregiver the following:

1. Patient's normal vital signs
2. Patient's actual weight.
3. Developmental level of the patient.
4. Patient's allergies- include latex.
5. Pertinent medications/therapies.

2.11.1 Home Mechanical Ventilators

Purpose: This protocol is for patients who are on home ventilators. Home mechanical ventilators may be indicated for chronically ill adult with abnormal respiratory drive, severe chronic lung disease, or severe neuromuscular weakness. Some patients require continuous mechanical ventilation, while others only require intermittent support during sleep or acute illness. Home ventilators may either be volume limited or pressure limited. All are equipped with alarms. Types of ventilator alarms:

- Low pressure or apnea: May be caused by a loose or disconnected circuit or an air leak in the circuit or at the tracheostoma, resulting in inadequate ventilation.
- Low power: caused by a depleted battery.
- High pressure: can be caused by a plugged or obstructed airway or circuit tubing, by coughing, or by bronchospasm.
- Setting error: is caused by ventilator setting outside the capacity of the equipment.
- Power switchover: occurs when the unit switches from alternating-current power to the internal battery.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Initial Patient Assessment Protocol 2.1.1
2. Airway Assessment/Management Protocol 2.1.2. If ventilator-dependant patient is in respiratory distress and the cause is not easily ascertained and corrected, remove the ventilator and provide assisted manual ventilations with a bag-valve device.
3. Suction PRN
4. Attach cardiac monitor and pulse oximeter if indicated
5. Consider need for other protocols

ALS LEVEL 1: PARAMEDIC ONLY

1. None

ALS LEVEL 2: MEDICAL CONTROL

1. Contact medical control or medical director for any problems or concerns.

2.11.2 Tracheostomy

Purpose: Tracheostomies are indicated for long-term ventilatory support, to bypass an upper airway obstruction, and to aid in the removal of secretions. Tracheostomies come in a variety of sizes and can be either single lumen or double lumen. Special attachments include: tracheostomy nose (filtration device), tracheostomy collar (for oxygen or humidification), and Passy-Muir valve (speaker valve).
Signs of tracheostomy tube obstruction:

- Excess secretions.
- No chest wall movement.
- Cyanosis.
- Accessory muscle use.
- No chest wall rise with bag-valve ventilations.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Initial Patient Assessment Protocol 2.1.1
2. Airway Assessment/Management Protocol 2.1.2. If obstruction is present, inject 1-3 ml of normal saline into the tracheostomy tube and suction PRN.
3. If unable to clear obstruction by suctioning, remove tracheostomy tube and insert new tube (same size or one size smaller). DO NOT FORCE TUBE.
4. If unable to insert new tracheostomy tube or if unavailable, insert endotracheal tube of similar size into stoma and ventilate with bag-valve-device PRN.
5. If unable to insert endotracheal tube, ventilate with bag-valve-mask over stoma or over patient's mouth while covering stoma PRN.
6. Attach cardiac monitor and pulse oximeter if indicated.
7. Consider need for other protocols.

ALS LEVEL 1: PARAMEDIC ONLY

1. None

ALS LEVEL 2: MEDICAL CONTROL

1. Contact medical control or medical director for any problems or concerns

2.11.3 Central Venous Lines

Purpose: Central venous lines are indicated for administration of medications, delivery of chemotherapy, nutritional support, infusion of blood products, and blood draws. Types of central venous lines include: Broviac/Hickman, Port-a-cath/Med-a-port, and percutaneous intravenous catheters (PIC). Central venous line emergencies include: catheter coming completely out, bleeding at the site, catheter broken in half, blood embolus, thrombus, air embolus, and internal bleeding. **Use of SUB-Q ports require special training and should not be used for IV access.**

Signs of blood embolus, thrombus, air embolus and internal bleeding:

- Chest pain
- Cyanosis
- Dyspnea
- Shock

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Initial Patient Assessment Protocol 2.1.1
2. Airway Assessment/Management Protocol 2.1.2. If indicated Oxygen via nasal cannula @ 2 - 4 LPM to maintain pulse ox at ≥ equal to 94% (non-rebreather @15 LPM if SpO_2 < 90%).
3. Attach cardiac monitor and pulse oximeter if indicated
4. If catheter is completely out, apply direct pressure.
5. If there is bleeding at the site, apply direct pressure.
6. If catheter is broken in half, clamp end of remaining tube.
7. If suspect blood embolus, thrombus, or internal bleeding: clamp line.
8. If suspected air embolism, clamp line and place patient on left side.
9. Consider need for other protocols

ALS LEVEL 1: PARAMEDIC ONLY

1 CVP and PIC lines may be used for emergency IV access under sterile conditions

2 If central ports need accessing for emergencies, refer to (Protocol **4.42 Indwelling Vascular Catheter**)

ALS LEVEL 2: MEDICAL CONTROL

1. Contact medical control or medical director for any problems or concerns

2.11.4 Feeding Tubes

Purpose: Feeding tubes are indicated for administration of nutritional supplements and in patients that have an inability to swallow. Types of feeding tubes include: nasogastric tube (temporary) and gastrostomy tubes (G tube). Types of G tubes include those that are surgically placed, percutaneous endoscopic gastrostomy tubes, PEG tubes, and jejunal tubes (J-tube). Complications include: leaks, bleeding around the site, and displacement of the tube.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Medical Supportive Care 2.1.3
2. If catheter is completely out, cover site with Vaseline gauze and apply direct pressure to site.
3. If there is bleeding at the site, apply direct pressure.

ALS LEVEL 1: PARAMEDIC ONLY

1. None

ALS LEVEL 2: MEDICAL CONTROL

1. Contact medical control or the medical director for any questions or concerns.

2.11.5 Blood Product Administration

Purpose: To monitor and maintain a patient with an already established blood or blood product transfussion during an interfacility transport.

Procedure:

ALS LEVEL 1: PARAMEDIC ONLY

A. All blood products to be infused must be initiated by the transferring facility. This protocol does not authorize the paramedic to start, hang or otherwise initiate the infusion of blood products.

B. Before accepting responsibility for the patient, confirm together with a nurse or physician from the transferring facility that the name on the patient's armband is the same as the name on the unit(s) of blood which is(are) infusing. The patient must have an armband, no exceptions.

C. Obtain a written order from the transferring physician as to the rate of infusion, the total amount to be infused during transport of the patient. This must be attached to the Patient care reportand must be delivered to the Recieving facility.

D. Vital signs, including body temperature, must be recorded prior to the transport and every ten minutes during transport, until arrival at the receiving facility.

E. Patient Monitoring – In addition to vital signs monitoring, the patient should be assessed on an ongoing basis for:

1. Signs and symptoms of adverse reaction to the infusion (hives, rash, rigor, chills, difficulty breathing, etc).
2. Correct rate of flow
3. Any pain or swelling at/around the IV site
4. an increase of more than 1° C, or 1.8° F above the patient's initial temperature, indicates a febrile response.

F. If the patient develops any sign of allergy/sensitivity reaction, including; chills, fever (an increase of more than 1° C, or 1.8° F above the patient's initial temperature), chest pain, flank pain, hives, wheezing, or the patient begins showing signs of shock; then the following actions should be initiated immediately:

1. The infusion of blood products must be immediately stopped and the blood administration tubing removed. The tubing, the blood container, and any unused blood must be saved for delivery to the receiving facility.
2. A 0.9 Sodiun Chloride infusion should be initiated and fluid should be administered as indicated in the shock protocol if shock is present.
3. Anaphylactic reactions (hives, wheezing, and shock without fever) should be treated as indicated in the Anaphylaxis protocol.
4. Hemolytic reactions (fever, chills, chest pain, flank pain, and/or shock) may require a diuretic in addition to large amounts of fluid to maintain intravascular volume. Treat shock as indicated in the Shock Protocol and contact TMH Medical Control for orders regarding diuretic administration in hemolytic reactions.

G. Document all observed signs and symptoms on the PCR and include any interventions or actions taken as well as the patients' response to those actions.

3. Pediatric Protocols

3.1 Pediatric Initial Assessments and Management
- 3.1.1 Initial Assessment
- 3.1.2 Airway Management
- 3.1.3 Medical Supportive Care
- 3.1.4 Trauma Supportive Care
- 3.1.5 Pain Management

3.2 Pediatric Respiratory Emergencies
- 3.2.1 Airway Obstruction
- 3.2.2 Upper Airway (Stridor/ Croup/Epiglottitis)
- 3.2.3 Lower Airway (Wheezing/ Asthma/ Bronchospasm)

3.3 Pediatric Cardiac Dysrhythmias
- 3.3.1 Asystole
- 3.3.2 Bradycardia
- 3.3.3 Narrow Complex Tachycardia (Unstable Sinus Tach/ Stable SVT, Unstable SVT)
- 3.3.4 Pulseless Electrical Activity (PEA)
- 3.3.5 Wide Complex Tachycardia with a Pulse (V-Tach) Stable and Unstable
- 3.3.6 Wide Complex Tachycardia without a Pulse (V-fib/ pulseless V-Tach)
- *** Peds V-Tach/V-Fib Algorithm

3.4 Newborn/ Infant Cardiopulmonary Arrest
- 3.4.1 Newborn Resuscitation
- 3.4.2 Sudden Infant Death Syndrome (SIDS)

3.5 Pediatric Neurologic Emergencies
- 3.5.1 Altered Level of Consciousness (Altered Mental Status)
- 3.5.2 Seizure Disorder

3.6 Pediatric Toxicology Emergencies
- 3.6.1 Pediatric Ingestion (Overdose)
- 3.6.2 Bites and Stings
- 3.6.3 Carbon Monoxide Poisoning
- 3.6.4 Organophosphate Poisoning

3.7 Pediatric Other Medical Emergencies
- 3.7.1 Allergic Reaction/ Anaphylaxis

3.7.2 Diabetic Emergencies
3.7.3 Non-Traumatic Abdominal Pain
3.7.4 Non-Traumatic Chest Pain
3.7.5 Violent and/or Impaired Patient
3.7.6 Suspected Child Abuse
3.7.7 Sickle Cell Anemia
3.7.8 Pediatric Fever
3.7.9 Peds Hyperkalemia

3.8 Pediatric Environmental Emergencies
3.8.1 Near Drowning
3.8.2 Heat Related Emergencies
3.8.3 Cold Related Emergencies
3.8.4 Barotraumas / Decompression Illness- Dive Injuries
3.8.5 Electrical Emergencies

3.9 Pediatric Trauma Emergencies
3.9.1 Head and Spine Injuries
3.9.2 Eye Injuries
3.9.3 Chest Injuries
3.9.4 Abdomino-Pelvic Injuries
3.9.5 Extremity Injuries
3.9.6 Traumatic Arrest
3.9.7 Burn Injuries

3.10 Pediatric with Special Healthcare Needs
3.10.1 Home Mechanical Ventilators
3.10.2 Tracheostomy
3.10.3 Central Venous Lines
3.10.4 Feeding Tubes

Pediatric Protocols Overview

3.1 Pediatric Initial Assessment and Management

Introduction:

Protocols in Section 3.1 are designed to guide the EMT or paramedic in his or her initial approach to assessment and management of pediatric patients. The Basic Level care is specified as EMT and Paramedic (BLS) and Level 1 is Paramedic only (ALS). ALS Level 2 designates medical control orders.

Protocol 3.1.1 Initial Assessment should be used on all pediatric patients for initial assessment. During this assessment, if the paramedic determines that there is a need for airway management, Protocol 3.1.2 Airway Management should be used for the management of the pediatric airway. These protocols are frequently referred to by other protocols, which may or may not override them in recommending more specific therapy.

Protocol 3.1.3 Medical Supportive Care presents the basic components of preparation for transport of medical patients. Due to the significant differences in priorities and packaging in the pre-hospital care of trauma and hypovolemia cases, a separate Trauma Supportive Care protocol has been developed. After following Protocol 3.1.1 Initial Assessment, this Medical Supportive Care protocol may be the only protocol used in medical emergency situations where a specific diagnostic impression and choice of additional protocol(s) cannot be made. Judgment must be used in determining whether patients require ALS or BLS level care. This protocol is frequently referred to by other protocols, which may or may not override it in recommending more specific therapy.

Protocol 3.1.4 Trauma Supportive Care presents the basic components of preparation for transport of trauma patients. Due to the significant differences in priorities and packaging in the pre-hospital care of medical cases, a separate Medical Supportive Care protocol has been developed. After following Protocol 3.1.1, this Trauma Supportive Care protocol may be the only protocol used in

trauma or hypovolemia situations where a specific diagnostic impression and choice of additional protocol(s) cannot be made. Judgment must be used in determining whether patients require ALS or BLS level care. This protocol is frequently referred to by other protocols, which may or may not override it in recommending more specific therapy.

Paramedics only for pain management should use protocol 3.1.5.

Overview of Evaluating and Managing Pediatric Emergencies:

1. Remember that children are not small adults. Treatments vary as do drug dosages and fluid administration rates.
2. Cardiac arrest in children is not a sudden event. It is almost always due to a respiratory problem, which leads to hypoxia, bradycardia, and eventually asystole. Ventricular fibrillation is a rare event in children. Initial treatment should be directed at establishment of an airway, administration of supplemental oxygen, and mechanical ventilation.
3. EOAs, EGTAs, PTL airways, and esophageal combitubes should not be used in children. The preferred method of airway management is endotracheal intubation. Demand valves should not be used in children because of the tendency to cause barotrauma.
4. The intraosseous route of fluid and medication administration is available in children less than 6 years of age.
5. Blood pressure is a late sign of shock in children. Instead, you should evaluate endorgan perfusion.

Anticipating Cardiopulmonary Arrest

All sick children should undergo a rapid cardiopulmonary assessment. The goal is to answer the question, ***"Does this child have pulmonary or circulatory failure that may lead to cardiopulmonary arrest?"*** Recognition of the physiologically unstable infant is made by physical examination alone. Children who should receive the rapid cardiopulmonary assessment include those with the following conditions.

- Respiratory rate greater than 60
- Heart rate greater than 180 or less than 80 (under 5 years)
- Heart rate greater than 180 or less than 60 (over 5 years)
- Respiratory distress
- Trauma
- Burns
- Cyanosis
- Altered level of consciousness
- Seizures
- Fever with petechiae (small skin hemorrhages)

Rapid Cardiopulmonary Assessment

The rapid cardiopulmonary assessment is designed to assist you in recognizing respiratory failure and shock, thus anticipating cardiopulmonary arrest. The rapid cardiopulmonary assessment follows the new basic ABCs (or CAB) of CPR.

Airway Patency

Inspect the airway and ask yourself the following questions.

- Is the airway patent?
- Is it maintainable with head positioning, suctioning, or airway adjuncts? ➢ Is the airway unmaintainable? If so, what action is required?

(Endotracheal intubation, removal of a foreign body, and so on)

Breathing

Evaluation of breathing includes assessment of the following conditions.

- Respiratory rate. Tachypnea is often the first manifestation of respiratory distress in infants. An infant breathing at a rapid rate will eventually tire. Thus, a decreasing respiratory rate is not necessarily a sign of improvement. A slow respiratory rate in an acutely ill infant or child is an ominous sign.
- Air entry. Observing for chest rise, breath sounds, stridor, or wheezing can assess the quality of air entry.
- Respiratory mechanics. Nasal flaring and use of the accessory respiratory muscles is evidence of increased work of breathing in the infant and child.

- Color. Cyanosis is a fairly late sign of respiratory failure and is most frequently seen in the mucous membranes of the mouth and the nail beds. Cyanosis of the extremities alone is more likely due to circulatory failure (shock) than respiratory failure.

Circulation

The cardiovascular assessment consists of the following procedures.

- Heart rate. Infants develop sinus tachycardia in response to stress. Thus, any tachycardia in an infant or child requires further evaluation to determine the cause. Bradycardia in a distressed infant or child may indicate hypoxia and is an ominous sign of impending cardiac arrest.
- Blood pressure. Hypotension is a late and often sudden sign of cardiovascular decompensation. Even mild hypotension should be taken seriously and treated quickly and vigorously, since cardiopulmonary arrest is imminent.
- Peripheral circulation. The presence of pulses is a good indicator of the adequacy of end-organ perfusion. The pulse pressure (the difference between the systolic and diastolic blood pressure) narrows as shock develops. Loss of central pulses is an ominous sign.
- End-organ perfusion. The end-organ perfusion is most evident in the skin, kidneys, and brain. Decreased perfusion of the skin is an early sign of shock. A capillary refill time of greater than 2 seconds is indicative of low cardiac output. Impairment of brain perfusion is usually evidenced by a change in mental status. The child may become confused or lethargic. Seizures may occur. Failure of the child to recognize the parents' faces is often an ominous sign. Urine output is directly related to kidney perfusion. Normal urine output is 1-2 ml/kg/hr. urine flow of less than 1 ml/kg/hr is an indicator of poor renal perfusion.

The rapid cardiopulmonary assessment should be repeated throughout initial assessment and patient transport. This will help you determine whether the patient's condition is deteriorating or improving. Any decompensation or change in the patient's status should be immediately treated.

3.1.1 Initial Assessment

Purpose: The initial assessment of the pediatric patient will vary with the age of the patient. However, there are some initial components of assessment that are consistent with all patients, regardless of age. The paramedic or EMT should follow the appropriate approach to patient assessment with respect to the patient's age. In addition to the patient, the parents or caregiver may be needed to gain information needed for a complete assessment of the patient.

Procedure:

Basic Level: EMT and PARAMEDIC

1. **Scene Size-up.**
   - A. Review of Dispatch Information.
   - B. Assess Need for Body Substance Isolation.
   - C. Assessment of Scene Safety.
   - D. Determine Mechanism of Injury.
   - E. Determine Number and Location of Patients.
   - F. Determine Need for Additional Resources. G. Observe Environment of Pediatric Patient.
2. **Pediatric Assessment Triangle - Rapid Cardiopulmonary Assessment.**
   - A. Appearance.
     1. Alertness.
     2. Distractibility.
     3. Consolability.
     4. Eye Contact.
     5. Speech/Cry.
     6. Spontaneous motor activity.
     7. Color.
   - B. Work of Breathing.
     1. Appearance (as above).
     2. Use of accessory muscles.
        a. Intercostal and/or supraclavicular retractions.
        b. Diaphragmatic breathing (see-saw type breathing).
     3. Respiratory rate.
     4. Tidal volume (chest expansion).
     5. Other signs of respiratory distress.

a. Nasal flaring.
b. Grunting.
c. Cyanosis.

C. Circulation to Skin.
1. Strength of pulses (central vs. peripheral).
2. Color and temperature of extremities (central vs. peripheral).
3. Capillary refill time.
4. Pulse rate.
5. Blood pressure (may be difficult to assess in infants).

3. **Initial Assessment.**
A. Assess Airway, C-Spine and Initial Level of Consciousness (AVPU).
B. Assess Breathing.
C. Assess Circulation and Presence of Hemorrhage.
D. Assess Disability - Movement of Extremities.
E. Expose and Examine Head, Neck, Chest, Abdomen, and Pelvis (check back when patient is rolled on side). F. Identify Priority Patients.

4. **Initial Management** (see Pediatric Protocol 3.1.3 - Medical Supportive Care or 3.1.4 -Trauma Supportive Care).

5. **Secondary Assessment.**
A. Conduct a Toe-to-Head Survey.
B. Neurological Assessment.
1. Pupillary Response.
2. Pediatric Glasgow Coma Score.
C. Repeat Assessment Triangle - Rapid Cardiopulmonary Assessment (as above).
D. Obtain a Medical History.
1. S - Symptoms - Assessment of Chief Complaint.
2. A - Allergies.
3. M - Medications.
4. P - Past Medical History.
5. L - Last Oral Intake.
6. E - Events Leading to Illness or Injury.

6. **Other Assessment Techniques.** A. Cardiac Monitoring.
B. Glucose Determination
C. Pulse Oximetry

3.1.2 Airway Management

Purpose: Airway assessment and management is the most important and first order of business when patient contact is made (immediate removal from unsafe scene may on occasion trump airway management). An algorithm for general airway assessment/management provides a general overview and road map for the EMT/Paramedic to follow if needed. This algorithm will in turn direct the EMT/Paramedic to either a Non-breathing Airway Protocol or a Breathing Patient Airway Protocol. Once the airway is controlled/secured, attention can be given to the other medical/trauma problems and care directed according to the appropriate protocol.

NOTE: New 2010 ACLS guidelines recommend titrating the amount of oxygen delivered to maintain pulse ox > 94%. If this can be done via nasal cannula then it is not necessary to use a 100% NRM.

Procedure:

Basic Level: EMT and PARAMEDIC

1. Initial Assessment Protocol 3.1.1.
2. **If spontaneous breathing is present without compromise**: A. Monitor breathing during transport.
   B. Administer oxygen PRN (Oxygen should only be administered and titrated to the patient that shows signs of respiratory compromise and/or is unable to maintain SpO_2 ≥ 94%).
      1. Infants via infant mask @ 2-4 L/min.
      2. Small child (1-8 years) via pediatric nasal cannula @ 2 – 4 L/min or pediatric face mask @ 6-8 L/min.
      3. Older child (9-15 years) via nasal cannula @ 2 – 4 L/min, simple mask @4-6 L/min or non-rebreather mask @ 10-15 L/min.
      4. If mask is not tolerated administer via blow-by method.
3. **If spontaneous breathing is present with compromise:** A. Maintain airway (e.g. modified jaw thrust)
   B. Suction PRN.
   C. Administer oxygen and titrate to pulse ox of > 94%.
      1. Infants via infant mask @ 2-4 L/min.
      2. Small child (1-8 years) via via pediatric nasal cannula @ 2 – 4 L/min or pediatric mask @ 6-8 L/min.

3. Older child (9-15 years) via nasal cannula @ 2 – 4 L/min, simple mask @4-6 L/min or non-rebreather mask @ 10-15 L/min.
4. If mask is not tolerated administer via blow-by method.

D. If unable to maintain airway, insert oropharyngeal or nasopharyngeal airway PRN.
E. Assist ventilations with BVM PRN.
F. Pulse oximeter, as soon as possible.

4. **If spontaneous breathing is absent or markedly compromised**: A. Maintain airway (e.g. modified jaw thrust).
B. Suction PRN.
C. If unable to maintain airway, insert oropharyngeal or nasopharyngeal airway.
D. Ventilate with BVM @ 20/minute for the child and 30/minute for the infant.
E. Monitor pulse oximetry and capnography or $ETCO_2$ monitoring device, as soon as possible.

ALS Level 1: PARAMEDIC ONLY

A. Perform endotracheal intubation PRN and document the following (The BVM should be initially used for ventilatory support. Endotracheal intubation should only be used when the BVM is ineffective or prolonged ventilatory support is necessary).
(1) Confirm ETT placement (see confirmation protocol).
a. Negative epigastric sounds
b. Positive bilateral breath sounds
(2) Secure ETT with tape and bite block or commercial device.
a. Full spinal immobilization is recommended
(3) Attach end-tidal CO_2 monitoring device.
(4) Monitor SpO_2 with pulse oximeter.

B. Insert Nasogastric tube and decompress stomach PRN (when gross gastric distension is noted, an NG tube should be inserted to relieve gastric distension that may be compromising ventilatory effort).
C. If unable to intubate and patient cannot be adequately ventilated by other means, perform needle cricothyroidotomy and transport rapidly to the hospital.

ALS LEVEL 2: MEDICAL CONTROL None

3.1.3 MEDICAL SUPPORTIVE CARE

Purpose: This protocol is used in conjunction with the Initial patient Assessment Protocol.

Procedure:

Basic Level: EMT and PARAMEDIC

1. Initial Assessment Protocol 3.1.1.
2. Airway Management Protocol 3.1.2.
3. Attach cardiac monitor and pulse oximeter if indicated
4. Keep patient warm (except if treating heat stroke, cool patient).

ALS LEVEL 1: PARAMEDIC ONLY

1. Monitor ECG PRN.
2. Establish IV (or EZ-IO if critical condition and in need of urgent fluids and/or drugs) of Normal Saline with regular infusion set PRN (a)(b)(c)(d), unless overridden by other specific protocol. EMT and Paramedic
3. Establish hospital contact for notification of incoming patient and obtaining consultation for level 2 orders.

ALS Level 2: MEDICAL CONTROL

1. Contact medical control or medical director if any concerns or any questions.

Note:

(a) Authorized IV routes include all peripheral venous sites. External jugular veins may be utilized when other peripheral site attempts have been unsuccessful or would be inappropriate. A large bore intracath should be used for unstable patients; avoid sites below the diaphragm.
(b) A Buretrol, Volutrol, or Soluset should be used in lieu of a minidrip when starting an IV on patients that are eight years old or less.
(c) An IV lock or medication access point (MAP) may be used in lieu of an IV bag in some patients with intravenous lines, when appropriate
(d) An EMT that has been authorized by their Medical Director may establish and IV.
(e) When unable to establish an IV in the pediatric patient that needs to be resuscitated, an intraosseous line may be used by the paramedic only.

3.1.4 TRAUMA SUPPORTIVE CARE

Purpose: This protocol is used in conjunction with the Initial Assessment Protocol.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Initial Assessment Protocol 3.1.1. Initiate trauma alert, if applicable.
2. Airway Management Protocol 3.1.2. (manually stabilize c-spine PRN).
3. Correct any open wound/sucking chest wound (occlusive dressing).
4. Control hemorrhage
5. Immobilize C-spine and secure patient to backboard or Pediatric Immobilizer PRN (a)
6. Attach cardiac monitor and pulse oximeter if indicated
7. Expedite transport
8. The following steps should not delay transport:
    a. Complete bandaging, splinting and packaging PRN
    b. Establish hospital contact for notification of incoming patient and for the Paramedic to obtain consultation for level 2 orders
9. Keep patient warm.

ALS LEVEL 1: PARAMEDIC ONLY

1. Correct any massive flail segment that causes respiratory compromise (intubate)
2. Correct any tension pneumothorax with needle decompression as per protocol
3. Establish IV (or EZ-IO if critical condition and in need of urgent fluids and/or drugs) of Normal Saline with regular infusion set PRN (b)(c)(d), unless overridden by other specific protocol.
4. Monitor ECG PRN.

ALS LEVEL 2: MEDICAL CONTROL

1. Call medical control or medical director if any concerns or questions.

Note:

(a) Infants and small children in car seats may be immobilized without removing them from the car seat, as long as it will not interfere with patient assessment and other needed procedures and car seat is intact. If patient is not in car seat on arrival, do not put patient back into car seat to immobilize; use backboard or pediatric immobilizer.
(b) Authorized IV routes include all peripheral venous sites. External jugular vein may be utilized when other peripheral site attempts have been unsuccessful or would be inappropriate. Two IVs using large bore intracath should be used for unstable patients, avoid sites below the diaphragm. Rapid transport should not be delayed to establish an IV.
(c) A Buretrol, Volutrol, or Soluset should be used in lieu of a regular infusion set when starting an IV on patients that are less than eight years old.
(d) When unable to establish an IV in the pediatric patient that needs to be resuscitated, an intraosseous line may be used by the paramedic only.

3.1.5 PAIN MANAGEMENT

Purpose: This protocol is to be used for managing pain in pediatric patients with the following conditions:

- Isolated Extremity Fracture
- Acute back strain
- Soft tissue injuries, burns, bites and stings.
- Discomfort related to attached devices or inserted tubes such as a foley catheter, NG tube, chest tube, etc. This will apply to intra-facility transfers.

Do not use this protocol if there is multisystem trauma or hemodynamic instability. Keep in mind that severe back pain can sometimes be indicative of a condition that may require emergency surgery such as appendicitis, ruptured or dissecting aneurysm, ruptured ectopic pregnancy, etc. Be sure you do a good abdominal exam on patients complaining of back pain. If any abdominal tenderness is found, do not give pain med until advised by medical control or medical director. If patient has severe enough back pain that you are considering giving pain medication for, be sure the history is consistent with back strain, e.g. lifting heavy material and felt a pull. **DO NOT USE TORADOL ON ANY PATIENT THAT MAY REMOTELY BE GOING TO SURGERY,** e.g. fractured extremities, serious soft tissue injures**.** If you're not sure, call med control for advice. Kidney stone patients may report a history of kidney stones and may or may not have hematuria (blood in urine). Always monitor respiratory status and pulse ox after administration of a narcotic. Intervene as needed to keep pulse ox 95 %

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Medical Supportive Care Protocol 3.1.3

Isolated Extremity Fracture

The purpose of this procedure is to manage pain associated with isolated extremity fractures not associated with multisystem trauma or hemodynamic instability.

ALS LEVEL 1: PARAMEDIC ONLY

1. Patients should be asked to quantify their pain on an analog pain scale

(0=least severe to 10=most severe) or Wong-Baker Faces Scale or Infant Behavior Score (a)(b). This should be documented and used to measure the effectiveness of analgesia.

2. Distal circulation, sensation and movement should be noted and recorded in the injured extremity.
3. The extremity should be immobilized as described in Adult Protocol Extremity Injuries.
4. Extremity fractures should be elevated, if possible, and cold applied.

ALS LEVEL 2: MEDICAL CONTROL

1. If pain persists and systolic BP is adequate (see Appendix - Pediatric Vital Signs), chose one of the following:
   a. **Morphine Sulfate** may be given intravenously in increments every 3 – 5 minutes, titrated to pain to a maximum of 5 mg. Administer at a rate not to exceed 1 mg/min. Pediatric dose: < 6 months; 0.05 – 0.2 mg/kg SUB-Q/IM/IV (avoid IM route if possible)
      6 months- 12 yrs; 0.1-0.2 mg/kg IV/IM/SUB-Q.

   b. **Fentanyl (Sublimaze)**
      Pediatric dosage: 1-3 yrs old: 2 – 3 mcg/kg IV
      3 – 12 yrs old: 1 – 2 mcg/kg IV
      >12 yrs old: 0.5 – 1 mcg/kg IV

Acute Back Strain:

This procedure should be used in the isolated back strain where an acute abdominal process is not suspected.

ALS LEVEL 1: PARAMEDIC ONLY

1. Patients should be asked to quantify their pain on an analog pain scale (0=least severe to 10=most severe). This number should be documented and used to measure the effectiveness of analgesia.
2. Secure patient to back board PRN.

ALS Level 2: MEDICAL CONTROL

1. If pain persists and systolic BP is adequate (see Appendix Pediatric Vital Signs), give one of the following:

- **Morphine Sulfate** may be given intravenously in increments every 3 – 5 minutes, titrated to pain to a maximum of 5 mg. Administer at a rate not to exceed 1 mg/min.
  Pediatric dose:
  < 6 months; 0.05 – 0.2 mg/kg SUB-Q/IM/IV (avoid IM route if possible)
  6 months- 12 yrs; 0.1-0.2 mg/kg IV/IM/SUB-Q.

- **Fentanyl (Sublimaze)**
  Pediatric dosage: **1-3 yrs old**: 2 – 3 mcg/kg IV
  3 – 12 yrs old: 1 – 2 mcg/kg IV
  >12 yrs old: 0.5 – 1 mcg/kg IV
- If > 2 years of age, **Ketorolac Tromethamine (Toradol)** may be given 0.5 mg/kg (maximum 15mg) IV or 1 mg/kg (maximum 30 mg) IM

Soft Tissue Injuries, Burns, Bites and Stings

This procedure is used for pain associated with soft tissue injuries, burns, bites and stings not associated with multisystem trauma or hemodynamic instability.

ALS LEVEL 1: PARAMEDIC ONLY

1. Patients should be asked to quantify their pain on an analog pain scale (0=least severe to 10=most severe). This number should be documented and used to measure the effectiveness of analgesia.

ALS Level 2: MEDICAL CONTROL

1. If pain persists and systolic BP is adequate (see Appendix Pediatric Vital Signs), give one of the following:
   a. **Morphine Sulfate** may be given intravenously in increments every 3 – 5 minutes, titrated to pain to a maximum of 10 mg. Administer at a rate not to exceed 1 mg/min.
   Pediatric dose:
   < 6 months; 0.05 – 0.2 mg/kg SUB-Q/IM/IV (avoid IM route if possible)
   6 months- 12 yrs; 0.1-0.2 mg/kg IV/IM/SUB-Q.

   b. **Fentanyl (Sublimaze)** Pediatric dose:
   1-3 yrs old: 2 – 3 mcg/kg IV

3 – 12 yrs old: 1 – 2 mcg/kg IV
>12 yrs old: 0.5 – 1 mcg/kg IV

c. If > 2 years of age, **Ketorolac Tromethamine (Toradol)** may be given 0.5 mg/kg (maximum 15mg) IV or 1 mg/kg (maximum 30 mg) IM

Note:

(a) **Wong-Baker Facial Scale**:

(b) **Infant Behavior Score**

Assessment of Behavior Score:
0 "Relaxed" – Infant comfortable, not distressed
1-2 Some transitory distress caused; returns immediately to "relaxed". 3-4 Transitory distress, likely to respond to consolation
5 Infant experiences pain; if no response to consolation, may require analgesia.
6 "Anguished" and "exaggerated" – infant experiencing acute pain; is unlikely to respond to consolation, will probably benefit from analgesia.
6-8 "Inert"- (no response to traumatic procedure) infant is habituated to pain; will not respond to consolation; systematic pain control by analgesia should be considered.

Infant Behavior Score:
Facial Expression
0 "relaxed" Smooth muscled; relaxed expression; either in deep sleep or quietly alert.

1 "anxious" Anxious expressions; frown; REM behind closed lids; wandering gaze; eyes narrowed; lips parted; pursed lip as if "oo" is pronounced.

2 "anguished" Anguished expression/crumped face; brow bulge; eyesqueeze; nasolabial furrow pronounced; square-stretched mouth; cupped tongue; "silent cry"

3 "inert" (Only during or immediately after traumatic procedure) no response to trauma; no crying; rigidity; gaze avoidance; fixed/staring gaze; apathy; diminished alertness

Body Movement

0 "relaxed" Relaxed trunk and limbs; body in tucked position; hands in cupped position or willing to grasp a finger

1 "restless" Moro reflexes; startles; jerky or uncoordinated movement of limbs; flexion/extension of limbs; attempt to withdraw limb from site of injury.

2 "exaggerated" Abnormal position of limbs; limb/neck extension; splaying of fingers and/or toes; flailing or thrashing of limbs; arching of back; side swiping/guarding site of injury

3 "inert" (Only during or immediately after traumatic procedure) no response to trauma; inertia; limpness/rigidity; immobility

Color

0 Normal skin color (depending on skin type)

1 Redness; congestion

2 Pallor; mottling; grey

(c)

Extreme caution should be used with administering Morphine to a patient with an $SpO_2 < 95\%$

(d)

Toradol is contraindicated in the following patients:

1. Potential surgical candidate (e.g. trauma patient)
2. Know allergies to nonsteroidal anti-inflammatory drugs (e.g. aspirin, ibuprofen)
3. History of nasal polyps
4. Angioedema
5. Bronchospastic reactivity (e.g. asthma) 6. Kidney dysfunction

3.2
PEDIATRIC RESPIRATORY EMERGENCIES

3.2 PEDIATRIC RESPIRATORY EMERGENCIES

Overview: Most children requiring urgent intervention have primary respiratory problems. 80-90% of all pediatric cardiac arrests originate in the respiratory system. When the child in respiratory distress can no longer compensate, respiratory failure will be followed by cardiac failure. It is crucial to recognize respiratory distress and dysfunction early, so that cardiopulmonary failure may be prevented. Note that the respiratory system is also used to compensate for the hypoxia and acidosis found in primary circulatory failure. Assessment of the pediatric respiratory system should focus not on clinical status, as reflected by general appearance (adequacy of cerebral oxygenation and ventilation) and work of breathing.

Components of Appearance

1. **Alertness**: How responsive and interactive is the child with a stranger or other changes in the environment? Is the patient restless, agitated or lethargic?
2. **Distractibility**: How readily does a person, object, or sound draw the child's interest or attention? Will the patient play with a toy or new object?
3. **Consolability** Can the patient be comforted by the caregiver or by the paramedic?
4. **Eye Contact** Does the child maintain eye contact with objects or people? Will the patient fix his/her gaze on a face?
5. **Speech/Cry** Is the speech/cry strong and spontaneous? Weak and muffled? Hoarse?
6. **Spontaneous Motor Activity** Is the patient moving and resisting vigorously and spontaneously? Is there good muscle tone and responsiveness?
7. **Color** Is the patient pink? Or is the patient pale, ashen, blue or mottled? Does the skin coloring of the trunk differ from that of the extremities?

Signs of Work of Breathing

1. **Use of Accessory Muscles** Pediatric patients will use accessory muscles early to compensate for deficiencies in perfusion.

Intercostal and supraclavicular retractions, as well as diaphragmatic breathing (see-saw) may be very apparent.

2. **Respiratory Rate** Significant finding if >60/min. or <10-20/min.
3. **Tidal Volume** Inspection of chest wall movement may not be adequate for assessment of tidal volume. It is imperative to auscultate bilateral lung sounds to determine adequacy of tidal volume.
4. **Nasal Flaring** Flaring of the external nares indicates respiratory distress.
5. **Grunting** Grunting is an ominous sign associated with severe distress. It is caused by a premature closure of the glottis on exhalation due to atelectasis. The patient is attempting to maintain a positive end expiratory pressure (PEEP) to allow for better lung inflation.
6. **Cyanosis** Cyanosis is usually a late finding and will initially be visible around the mouth and gums (perioral) and nail beds.
7. **Pulse Oximeter** SpO_2 <90% is suggestive of respiratory insufficiency.
8. **Lung Sounds** Auscultation of bilateral lungs sounds not only assesses tidal volume but may uncover abnormal sounds (eg. wheezing, stridor, rales).

Specific treatments for the different causes of respiratory distress are outlined in the following protocols. When the paramedic is unsure as to which protocol to follow, he or she should follow the protocols in Section 3.1 and contact medical control for further direction.

3.2.1 AIRWAY OBSTRUCTION

Purpose: Causes of upper airway obstruction include the tongue, foreign bodies, swelling of the upper airway due to angio-neurotic edema (see Pediatric Protocol - Allergic Reactions/Anaphylaxis), trauma to the airway, and infections {see Pediatric Protocol - Upper Airway (Stridor - Croup/Epiglottitis)}. Differentiation of the cause of upper airway obstruction is essential to determining the proper treatment.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Medical Supportive Care Protocol 3.1.3
2. If air exchange is inadequate and there is a reasonable suspicion of foreign body airway obstruction (FBAO), apply abdominal thrust (a).
   a. Child:
      i. If conscious, ask, "Are you choking?"
      ii. If patient unable to speak and/or shakes head yes, give abdominal thrust
      iii. Repeat abdominal thrust until effective or patient become unconscious.
      iv. If patient becomes unconscious, perform a tongue-jaw lift, visualize object and perform a finger sweep to remove object. Do not perform blind finger sweep.
      v. Open airway and attempt to ventilate. If still obstructed, reposition airway and try to ventilate again.
      vi. Give 5 abdominal thrusts
      vii. Repeat steps iv through vi twice.
      viii. If still unrelieved, go to ALS Level 1 Treatment.
   b. Infant:
      i. If conscious, determine airway patency
      ii. If patient is unable to move air or has poor air exchange, give 5 back blows between the shoulder blades and then 5 chest thrusts with patient in a head dependent position
      iii. Repeat back blows and chest thrusts until effective or patient becomes unconscious
      iv. If patient becomes unconscious, perform a tongue-jaw lift and look in the mouth for the object. If object can be seen, remove the object.

v. Open airway and attempt to ventilate; if still obstructed, reposition airway and try to ventilate again.
vi. Give 5 back blows and 5 chest thrusts, with patient in a head dependent position.
vii. Repeat steps iv. through vi. twice.
viii. If still unrelieved, go to ALS Level 1 treatment

ALS LEVEL 1: PARAMEDIC ONLY

1. If unable to relieve FBAO, visualize with laryngoscope and extract foreign body with Magill forceps.
2. If obstruction is due to trauma and/or edema, or if uncontrollable bleeding into the airway causes life-threatening ventilatory impairment, perform endotracheal intubation
3. If unable to intubate and patient cannot be adequately ventilated by other means, perform needle cricothyroidotomy.

ALS LEVEL 2: MEDICAL CONTROL

1. Call medical control or medical director if any concerns or questions.

Note:
(a) If air exchange is adequate with a partial airway obstruction, do not interfere and encourage patient to cough up obstruction. Continue to monitor for adequacy of air exchange. If air exchange becomes inadequate continue with protocol.

3.2.2 UPPER AIRWAY (STRIDOR CROUP / EPIGLOTTITIS)

Purpose: **Stridor** is a high pitched "crowing" sounds caused by restriction of the upper airway. In addition to FBAO (see Pediatric Protocol Airway Obstruction), stridor can be caused by croup and epiglottitis.

Croup (laryngotracheobronchitis) is a viral infection of the upper airway, which causes edema/ inflammation below the larynx and glottis with a resultant narrowing of the lumen of the airway. Croup most often occurs in children 6 months to 4 years of age. The child with croup will have stridor, as well as, a distinctive barking cough and cold symptoms (low-grade fever (100-101 degrees F), with a gradual onset of respiratory distress.

Epiglottitis is an acute infection and inflammation of the epiglottis that potentially is life threatening. Since the availability of Hemophilus influenza, type B (Hib) vaccine, epiglottitis has markedly decreased, yet it may still occur from other bacterial pathogens. Epiglottitis usually occurs in children 4 years of age and older. The child with epiglottitis will present with stridor, as well as, acute respiratory distress, sore throat, pain upon swallowing which causes the distinctive drooling, high grade fever (102-104 degrees F), and may assume the classic tripod position.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Medical Supportive Care Protocol 3.1.3, including pulse oximeter (avoid IVs in these patients) (a).
2. Avoid agitating the child with suspected epiglottitis. Never examine the epiglottis (a).
3. Administer humidified oxygen. If humidified oxygen is unavailable, use nebulized saline (do not force oxygen mask on pediatric patient - use blow-by technique if necessary) (a).

ALS LEVEL 1: PARAMEDIC ONLY

1. None

ALS LEVEL 2: MEDICAL CONTROL

1. Call medical control or medical director if any concerns or questions.

Note:

(a) Avoid any procedure that will agitate patient.

3.2.3 LOWER AIRWAY (WHEEZING ASTHMA / BRONCHIOLITIS)

Purpose: This protocol for pediatric patients with wheezing. Wheezing is a whistling type breath sound associated with narrowing or spasm of the smaller airways.

Wheezing in the child under one year of age is usually the result of **bronchiolitis**, a viral infection of the bronchioles which causes prominent expiratory wheezing, clinically resembling asthma.

Asthma is a chronic inflammatory disease that is triggered by many different factors (e.g. environmental allergens, cold air, exercise, foods, irritants, and certain medications). Asthma has a two-phase response. The first phase is associated with a histamine release, which causes bronchoconstriction and bronchial edema. Early treatment with bronchodilators may reverse the bronchospasm. The second phase consists of inflammation of the bronchioles and additional edema. The second phase will usually not respond to ronchodilators. An anti-inflammatory medication (e.g. corticosteroid) is typically required. Assessment of the asthma patient usually includes a history of asthma with associated medications. The patient will be tachypneic and may have an unproductive cough. Use of accessory muscles is evident and wheezing may be heard, most commonly on expiration. In a severe asthma attack, the patient may not wheeze at all due to a lack of airflow.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Medical Supportive Care Protocol 3.1.3, including pulse oximeter.

ALS LEVEL 1: PARAMEDIC ONLY

1. **Albuterol (Ventolin)** 1 nebulizer treatment (if <1 year or <10 kg, mix 1.25 mg in 1.5 ml of Normal Saline {0.083%}; if >1 year or >10 kg, mix 2.5 mg in 3 ml of Normal Saline {0.083%}). May repeat twice PRN (a).
2. Add **Ipratropium Bromide (Atrovent)** If < 8 years, add 0.25 mg (1.25 ml); if > 8 years, add 0.5 mg (2.5 ml) of Atrovent to first **Albuterol** nebulizer treatment (on first nebulizer treatment only) and flow O_2 at 6-8 L/min.
3. Consider need for assisted ventilation and intubation
4. If respiratory distress is severe, **Epinephrine** (1:1000) 0.01mg/kg IM (if < 8 years, 0.15 mg up to maximum dose of 0.3mg; if > 8 years, maximum dose is 0.3 –0.5 mg).

5. If respiratory distress is severe, give **Methylprednisolone Sodium Succinate (Solu-Medrol)** 2mg/kg IV (Maximum dose 125 mg).

ALS LEVEL 2: MEDICAL CONTROL

1. Repeat **Epinephrine** (1:1000) 0.01 mg/kg IM (if < 8 years, 0.15 mg up to maximum dose of 0.3 mg; if > 8 years, maximum dose is 0.3 –0.5 mg).
2. Call medical control or medical director if any concerns or questions.
3. For severe dyspnea, consider giving **Magnesium Sulfate;** 25 – 40 mg/kg (maximum 2gm) IV (mixed in 50 ml of D5W given over 10 – 20 minutes).

3.3
PEDIATRIC
CARDIAC DYSRHYTHMIAS

3.3 PEDIATRIC CARDIAC DYSRHYTHMIAS

Overview:

Cardiac dysrhythmias in pediatric patients are uncommon and are usually due to noncardiac problems, unless the patient is known to have congenital or acquired cardiac disease. Cardiac arrest is usually the end result of hypoxemia and acidosis resulting from respiratory insufficiency or shock. Therefore, attention should be given initially to support of the respiratory system. Pediatric dysrhythmias can be divided into three categories: slow rhythms, fast rhythms, or no rhythm. The most common dysrhythmia is bradycardia, which is the result of hypoxia or acidosis. Tachycardias can be a compensatory mechanism or a result of a reentry mechanism. Ventricular fibrillation, although rare in pediatrics, is usually the result of hypoxia. Asystole is a terminal event, following prolonged, untreated bradycardia.

"On the basis of the published evidence to date, the Pediatric Advanced Life Support (PALS) Task Force of the International Liaison Committee on Resuscitation (ILCOR) has made the following recommendation (July 2003):

Automated external defibrillators (AEDs) may be used for children 1 to 8 years of age who have no signs of circulation. Ideally the device should deliver a pediatric dose. The arrhythmia detection algorithm used in the device should demonstrate high specificity for pediatric shockable rhythms, i.e., it will not recommend delivery of a shock for nonshockable rhythms (Class IIb)." [1]

1. American Heart Association, National ECC Training Memo, August 15, 2003.

3.3.1 ASYSTOLE

Purpose: This protocol is for pediatric patients found to be in asystole.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Medical Supportive Care Protocol 3.1.3, including pulse oximeter.
2. CPR

ALS LEVEL 1: PARAMEDIC ONLY

1. Check other leads to confirm asystole.
2. Intubate and ventilate @ 20/minute for the child and 30/minute for the infant
3. **Epinephrine**
4. *First dose*: **Epi 1:10,000** 0.01 mg/kg IV/IO initially (maximum 1 mg). *Second and subsequent doses*: **Epi 1:1000** 0.1 mg/kg IV/IO. If unable to establish an IV/IO, administer **Epinephrine** (1:1000) 0.1 mg/kg ET (maximum ET is 15 mg). Repeat every 3-5 minutes for duration of pulselessness.
5. Perform glucose test with finger stick. If glucose is below 60 mg/dL, administer: If neonate to infant: 5ml/kg of D10 IV/IO. If child <8 years: **D25** 2 ml/kg IV/IO; If >8 years: **D50** 1 ml/kg IV/IO (a).
6. For known acidosis or prolonged down time, consider **Sodium Bicarbonate** (8.4% solution) 1 mEq/kg IV/IO (1ml/kg). For infants dilute 8.4% 1:1 with sterile water (not normal saline) to make 4.2% and give 1mEq/kg IV/IO (NOTE: 1mEq = ~ 84 mg Bicarbonate). This reduces the hyperosmolarity of the solution.

ALS LEVEL 2: MEDICAL CONTROL

1. Call medical control or medical director if any concerns or questions.

Note

(a) To avoid infiltration and resultant tissue necrosis, Dextrose 25% and 50% should be given slow IV with intermittent aspiration of IV line to confirm IV patency followed by saline flush.

3.3.2 BRADYCARDIA

Purpose: Use this protocol for pediatric patients with bradycardia. Causes of symptomatic bradycardia include hypoxemia, hypothermia, head injury, heart block, heart transplant (special situation), and toxin/poison/drug overdose.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Medical Supportive Care Protocol 3.1.3, including pulse oximeter.
2. Assure adequate ventilation and oxygenation.
3. If heart rate is <60/min. in infant or child associated with poor systemic perfusion, start chest compressions

ALS LEVEL 1: PARAMEDIC ONLY

1. **Epinephrine** (1:10,000) 0.01 mg/kg IV/IO (maximum 1 mg) q 3-5 min. If unable to establish IV/IO, administer **Epinephrine** (1:1,000) 0.1 mg/kg ET (maximum ET is 10 mg). Repeat every 3-5 minutes at same dose (a).
2. **Atropine** 0.02 mg/kg IV/IO (Minimum single dose 0.1 mg)
   Maximum **single** dose: (child 0.5 mg) (adolescent 1mg)
   Maximum **total** dose: (child 1 mg) (adolescent 2 mg)
   If unable to establish IV/IO, administer **Atropine** 0.04 mg/kg ET (same minimum dose as IV/IO). May repeat Atropine once (a).
3. Identify and treat possible causes.
4. External pacemaker (see Medical Procedure).

ALS LEVEL 2: MEDICAL CONTROL

1. Call medical control or medical director if any concerns or questions.

Notes

(a) Administer Atropine before Epinephrine for bradycardia due to suspected increased vagal tone or primary AV block.

3.3.3 NARROW COMPLEX TACHYCARDIA

Purpose: Pediatric patients suffering from tachycardia may or may not exhibit symptoms. Narrow complex tachycardia (QRS < 0.08 seconds) is either sinus tachycardia or supraventricular tachycardia. The following rates should be considered:

Sinus tachycardia is greater than normal (see Appendix; Pediatric Vital Signs 7.10) and usually for a child: <180/minute and infant: <220/minute. Rate may vary with sinus tachycardia.

Supraventricular tachycardia is usually >220/minute for infants. If >2 years of age, SVT may be slower (e.g. 180-220/minute). Rate will not vary with SVT.

Wide complex SVTs are rare in children and, therefore, should initially be considered as ventricular in origin, unless proven otherwise (e.g. documented QRS morphology consistent with pre-existing BBB or WPW).

Possible causes of pediatric tachycardia include:

4 H's	4 T's
Hypoxemia	**T**amponade
Hypovolemia	**T**ension pneumothorax
Hyperthermia	**T**oxins
Hyper/hypokalemia and metabolic disorders	**T**hromboembolism

3.3.3a UNSTABLE SINUS TACHYCARDIA (DIMINISHED PERFUSION)

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Medical Supportive Care Protocol 3.1.3.

ALS LEVEL 1: PARAMEDIC ONLY

1. Fluid challenge Normal Saline 20 ml/kg IV.
2. Consider other cause (e.g. 4 H's, 4 T's).

ALS LEVEL 2: MEDICAL CONTROL

1. Call medical control or medical director if any concerns or questions.

3.3.3b STABLE SVT (Normal perfusion)

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Medical Supportive Care Protocol 3.1.3.

ALS LEVEL 1: PARAMEDIC ONLY

1. Perform 12 lead ECG (see Medical Procedure 4.38).
2. Consider cause (e.g. 4 H's, 4 T's).

ALS LEVEL 2: MEDICAL CONTROL

1. Vagal maneuvers; begin with ice water (see Medical Procedure Vagal maneuvers 4.39).
2. **Adenosine Triphosphate (Adenocard)** 0.1 mg/kg (6 mg max.) rapid IVP followed by 6 ml NS flush.
3. Repeat in 2 minutes, **Adenosine Triphosphate (Adenocard)** 0.2 mg/kg (12 mg max.) rapid IVP followed by 6 ml NS flush.
4. Repeat in 2 minutes, **Adenosine Triphosphate (Adenocard)** 0.2 mg/kg (12 mg max.) rapid IVP followed by 6 ml NS flush.

3.3.3c UNSTABLE SVT (Diminished perfusion)

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Medical Supportive Care Protocol 3.1.3.

ALS LEVEL 1: PARAMEDIC ONLY

1. Consider cause (eg. 4 H's, 4 T's).
2. Consider sinus tachycardia as the underlying, not SVT.
3. If patient is responsive, **Adenosine Triphosphate (Adenocard)** 0.1 mg/kg (6 mg max.) rapid IVP or IOP followed by 6 ml NS flush.
4. If patient is responsive, repeat in 2 minutes, **Adenosine Triphosphate (Adenocard)** 0.2 mg/kg (12 mg max.) rapid IVP followed by 6 ml NS flush.
5. If patient is responsive, repeat in 2 minutes, **Adenosine Triphosphate (Adenocard)** 0.2 mg/kg (12 mg max.) rapid IVP followed by 6 ml NS flush.

ALS LEVEL 2: MEDICAL CONTROL

1. If patient is conscious and aware of situation, consider sedation with one of the following benzodiazepines:
   a. **Lorazapam (Ativan)** 0.05 to 0.1 mg/kg IV, maximum; 1 mg.
   b. **Diazepam (Valium)** 0.1 mg/kg IV/IO.
   c. **Midazolam (Versed)**
      For procedural sedation; ***IV/IO route***;
      6 mo – 5 yr; 0.05 – 0.1 mg/kg IV/IO x 1 repeat q 2 – 3 min prn; max 0.6 mg/kg total
      6 – 12 yr; 0.025 – 0.05 mg/kg IV/IO x 1, repeat q 2 – 2 min prn; max 0.4 mg/kg total
      > 12 yr old: 0.5 – 2 mg IV/IO x 1; may repeat q 2 -3 min prn; max 10 mg

      For procedure sedation: ***IM route***;
      > 6 mo; 0.1 - 0.15 mg/kg IM; max 0.5 mg/kg (use ideal body wt in obese pt)
2. If patient is poorly responsive, synchronized cardioversion
   a. @ 0.5 joule/kg. (or equivalent biphasic energy level) if no response :

b. synchronized cardioversion @ 1 joule/kg (or equivalent biphasic energy level). If no response:
c. synchronized cardioversion @ 2 joules/kg (or equivalent biphasic energy level).

3. **Amiodarone** 5 mg/kg IV/IO over 20 minutes.

3.3.4 PULSELESS ELECTRICAL ACTIVITY (PEA)

Purpose: This protocol is used for: electromechanical dissociation (EMD), pseudo-EMD, idioventricular rhythms, bradyasystolic rhythms, post-defibrillation idioventricular rhythms.

Possible causes of pediatric PEA include:

4 H's	4 T's
Hypoxemia	Tamponade
Hypovolemia	Tension pneumothorax
Hypothermia	Toxin/poisons/drugs
Hyper/hypokalemia	Thromboembolisim
And metabolic disorders	

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Medical Supportive Care Protocol 3.1.3 2. CPR.

ALS LEVEL 1: PARAMEDIC ONLY

1. Intubate and ventilate (see Medical Procedure Oraltracheal Intubation4.27).
2. **Epinephrine**
   First dose: **Epi 1:10,000** 0.01 mg/kg IV/IO initially (maximum 1 mg).
   Second and subsequent doses: **Epi 1:1000** 0.1 mg/kg IV/IO. If unable to establish IV/IO, administer **Epi** (1:1000) 0.1 mg/kg ET (maximum ET is 15 mg). Repeat every 3-5 minutes for duration of pulselessness.
3. Consider cause (e.g. 4 H's, 4 T's) and possible treatment options (e.g. glucose) (see specific protocols).
4. Check blood glucose: Below 60 mg/dL, administer:
   a. Neonates: 10% Dextrose: 2-5 ml/kg (0.2-0.5 g/kg)
   b. Infants: 10% Dextrose: 5 ml/kg (0.5 g/kg)
   c. Children < 8 yrs: D25 2 ml/kg IV/IO (0.5 g/kg)
   d. Children > 8 yrs: D50 1 ml/kg IV/IO.
5. Fluid challenge of Normal Saline 20 ml/kg IV/IO.
6. Consider **Sodium Bicarbonate** (8.4%) 1 mEq/kg IV/IO (a).

ALS LEVEL 2: MEDICAL CONTROL

1. Call medical control or medical director if any concerns or questions.

Note

(a) Sodium Bicarbonate (4.2%) 1 mEq/kg IV/IO should be administered to infants (dilute 8.4% 1:1 with Normal Saline to make 4.2%).

3.3.5 WIDE COMPLEX TACHYCARDIA WITH A PULSE (VENTRICULAR TACHYCARDIA)

STABLE (normal perfusion)

Purpose: This protocol is used in wide complex tachycardia (QRS > 0.08 seconds) with a rate > 150/minute.

Possible causes of pediatric tachycardia include:

4 H's	4 T's
Hypoxemia	Tamponade
Hypovolemia	Tension pneumothorax
Hypothermia	Toxin/poisons/drugs
Hyper/hypokalemia	Thromboembolisim
And metabolic disorders	

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Medical Supportive Care Protocol 3.1.3

ALS LEVEL 1: PARAMEDIC ONLY

1. Consider cause (e.g. 4 H's, 4 T's).
2. Administer one of the following antiarrhythmics:
   a. **Amiodarone** 5 mg/kg IV/IO over 20 minutes.
   b. **Lidocaine** 1% 1 mg/kg IV/IO. Repeat every 5 minutes to a maximum total dose of 3 mg/kg (a)(c). Use if Amiodarone is unavailable.
   c. **Procainamide** 15 mg/kg IV/IO over 30 minutes.

ALS LEVEL 2: MEDICAL CONTROL

1. Use only one antiarrhythmic medication. If rhythm does not convert with maximum dose, treat as unstable (synchronized cardiovert).
2. Call medical control or medical director if any concerns or questions.

Notes

(a) Dilute Lidocaine 2% 1:1 with Normal Saline to make 1%.
(b) If unable to establish IV/IO, administer Lidocaine 3 mg/kg ET. May repeat every 5 minutes up to 6 mg/kg ET.
(c) If Lidocaine suppresses ectopy, start Lidocaine maintenance infusion; Mix 120 mg in 100 ml of D5W (or 60 mg in 50 ml of D5W) and flow at 20-50 mcg/kg/min.
(d) If patient converts rhythm, give Lidocaine 1% 1 mg/kg IV/IO, refer to (a)(b)(c).

3.3.5 WIDE COMPLEX TACHYCARDIAWITH A PULSE (VENTRICULAR TACHYCARDIA)

UNSTABLE (diminished perfusion)

Purpose: This protocol is used in wide complex tachycardia (QRS > 0.08 seconds) with a rate > 150/minute.

Possible causes of pediatric tachycardia include:

4 H's	4 T's
Hypoxemia	Tamponade
Hypovolemia	Tension pneumothorax
Hypothermia	Toxin/poisons/drugs
Hyper/hypokalemia	Thromboembolisim
And metabolic disorders	

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Medical Supportive Care Protocol 3.1.3.

ALS LEVEL 1: PARAMEDIC ONLY

1. Consider cause (e.g. 4 H's, 4 T's).

ALS LEVEL 2: MEDICAL CONTROL

1. If patient is conscious and aware of situation, consider sedation with one of the following benzodiazepines:
    a. **Lorazapam (Ativan)** 0.05 to 0.1 mg/kg IV, maximum; 1 mg.
    b. **Diazepam (Valium)** 0.1 mg/kg IV/IO.
    c. **Midazolam (Versed)** **IV/IO** Route:
    6 mo – 5 yr; 0.05 – 0.1 mg/kg IV/IO x 1 max 0.6 mg/kg total
    6 – 12 yr; 0.025 – 0.05 mg/kg IV//IO x 1, max 0.4 mg/kg total
    > 12 yr old: 0.5 – 2 mg IV/IO x 1; max 10 mg **IM** Route:
    > 6 mo; 0.1 - 0.15 mg/kg IM; max 0.5 mg/kg (use ideal body wt in obese pt)
2. Synchronized cardioversion @ 0.5 joule/kg (or equivalent biphasic energy) (d).
3. Synchronized cardioversion @ 1 joules/kg (or equivalent biphasic energy) (d).
4. Administer one of the following antiarrhythmics:
    a. **Amiodarone** 5 mg/kg IV/IO over 20 minutes.
    b. **Lidocaine** 1% 1 mg/kg IV/IO. Repeat every 5 minutes to a maximum total dose of 3 mg/kg (a)(b)(c).
    c. **Procainamide** 15 mg/kg IV/IO over 30 minutes.
5. Synchronized cardioversion @ 2 joules/kg (or equivalent biphasic energy) (c).
6. Synchronized cardioversion @ 4 joules/kg (or equivalent biphasic energy).

Notes

(a) Dilute Lidocaine 2% 1:1 with Normal Saline to make 1%.
(b) If unable to establish IV/IO, administer Lidocaine 3 mg/kg ET. May repeat every 5 minutes up to 6 mg/kg ET.
(c) If Lidocaine suppresses ectopy, start **Lidocaine** maintenance infusion: Mix 120 mg in 100 ml of D5W (or 60 mg in 50 ml of D5W) and flow at 20-50 mcg/kg/min.
(d) If patient converts rhythm, give **Lidocaine** 1% 1 mg/kg IV/IO, refer to (a)(b)(c).

3.3.6 WIDE COMPLEX TACHYCARDIA WITHOUT A PULSE AND VENTRICULAR FIBRILLATION

Purpose: This protocol if for pediatric patients in V-Fib and V-tach without a pulse.

Consider and Treat Possible Causes

6 Hs	6 Ts
Hypoxia	**T**ablets
Hypovolemia	**T**amponade
Hypothermia	**T**ension pneumothorax
Hypoglycemia	**T**oxins – poisons, drugs
Hypo/hyperkalemia	**T**hrombosis – coronary **(AMI)** – pulmonary **(PE)**
Hydrogen ion **(acidosis)**	**T**rauma

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Medical Supportive Care Protocol 3.1.3.
2. CPR

ALS LEVEL 1: PARAMEDIC ONLY

Defibrillate @ 2 joules/kg x1, followed by 5 cycles (or two minutes) of CPR then check rhythm. If arrhythmia still persists, resume CPR while charging defibrillator.

Check blood glucose: Below 60 mg/dL, administer:

a. Neonates: 10% Dextrose: 2-5 ml/kg (0.2-0.5 g/kg)
b. Infants: 10% Dextrose: 5 ml/kg (0.5 g/kg)
c. Children < 8 yrs: D25 2 ml/kg IV/IO (0.5 g/kg)
d. Children > 8 yrs: D50 1 ml/kg IV/IO.

Defibrillate @ 4 joules/kg x1, followed by 5 cycles (or two minutes) of CPR then check rhythm. If arrhythmia still persists, resume CPR while charging defibrillator.

Epinephrine

First dose: **Epi 1:10,000** 0.01 mg/kg IV/IO initially.

Second and subsequent doses: **Epi 1:1000** 0.1 mg/kg IV/IO. If unable to establish IV/IO, administer **Epinephrine (1:1000)** 0.1 mg/kg ET, followed by 5 cycles (or two minutes) of CPR if no conversion. Repeat every 3-5 minutes for duration of

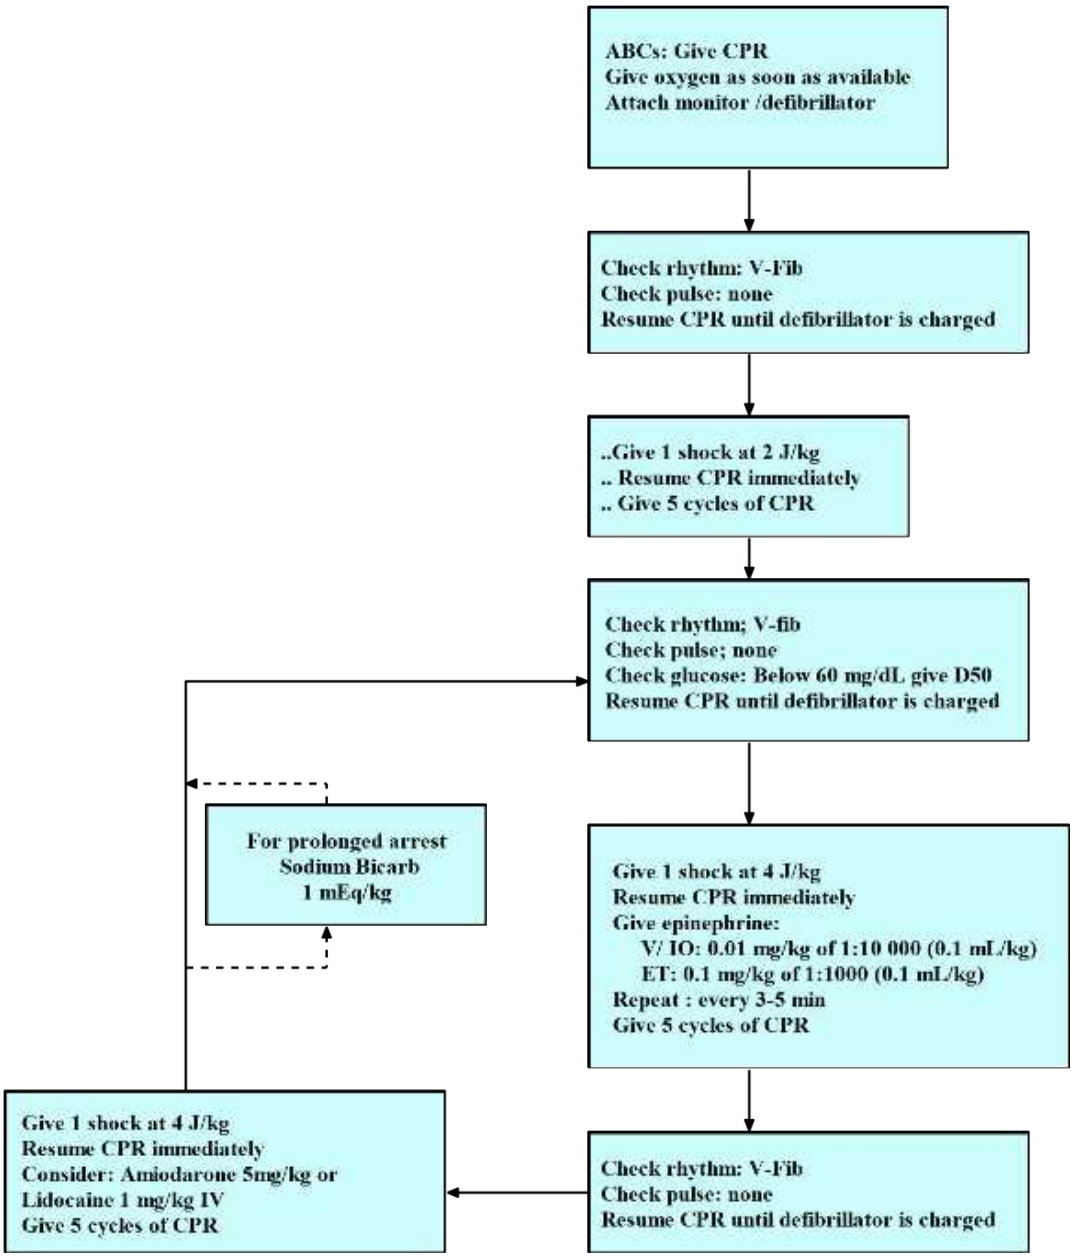
pulselessness. (a) Defibrillate @ 4 joules/kg x1, followed by 5 cycles (or two minutes) of CPR then check rhythm. If arrhythmia still persists, resume CPR while charging defibrillator.

Administer one of the following antiarrhythmics:

a. **Amiodarone** 5mg/kg IV/IO (a)
b. **Lidocaine** 1 mg/kg IV/IO (if Amiodarone is unavailable), followed by 5 cycles of CPR if no conversion. Repeat **Lidocaine** 1 mg/kg IV/IO every 3-5 minutes (max. 3 mg/kg). (a)(b)(c)(d)
c. If Torsades de Pointes, **Magnesium Sulfate** 25 – 40 mg/kg (maximum 2gm) IV/IO (mixed in 50 ml of D5W given over 10 – 20 minutes). (a) Consider and treat possible causes: 6H's and 6T's. Repeat steps 3 thru 7 for duration of pulselessness.

For prolonged event, give **Sodium Bicarb** 1 mEq/kg initially IV/IO (1ml/kg of 8.4% solution) followed by 0.5 mEq/kg every 10 minutes. In neonates and infants, dilute the 8.4% solution 1:1 with sterile water (not saline) making a 4.2% solutiuon to reduce the hyperosmolarity of the solution. (a)(e)

ALS Level 2: MEDICAL CONTROL



1. Consider termination of resuscitation attempt.
2. Call medical control or medical director if any concerns or questions.

Notes:

(a) Defibrillate @ 4 joules/kg after every drug is circulated for 30 seconds.
(b) Dilute Lidocaine 2% 1:1 with Normal Saline to make 1%.
(c) If unable to establish IV/IO, administer Lidocaine 3 mg/kg ET. May repeat every 5 minutes up to 9 mg/kg.
(d) If Lidocaine converts rhythm, start Lidocaine maintenance infusion @ 20-50 mcg/kg/min.
(e) Sodium Bicarbonate (4.2%) 1 mEq/kg IV/IO should be administered to infants (dilute 8.4% 1:1 with Normal Saline to make 4.2%).

Pediatric Ventricular Fibrillation/Pulseless V-Tach

Pediatric Protocols

3.4
NEWBORN / INFANT CARDIOPULMONARY ARREST

3.4 NEWBORN / INFANT CARDIOPULMONARY ARREST

Overview:

Infant and newborn cardiopulmonary arrest is usually a result of prolonged poor oxygenation and\or severe circulatory collapse. Newborns should be resuscitated using Pediatric Protocol 3.4.1.Unless there are obvious signs of death (see Administrative Protocol; DNR / RESUSCITATION CONSIDERATIONS / DOA) the infant in cardiopulmonary arrest should be resuscitated using the protocols in Pediatric Protocol 3.3. Some infants may not appear to be salvageable, where the Paramedic determines a resuscitation attempt is warranted for psychological reasons (e.g. parent's peace of mind). Consideration should also be given to SIDS (see Pediatric Protocol 3.4.2).

3.4.1 NEWBORN RESUSCITATION

Purpose: This protocol is to be used for newborns (immediately following delivery) that are in need of resuscitation (all other neonates should be treated as infants, with the exception of Atropine).

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Dry and keep baby warm (cover with thermal blanket or dry towel and cover scalp with stocking cap).
2. Position patient to open airway (a).
3. Clear airway - suction mouth and nose with bulb syringe PRN.
   Paramedic Only: If newborn has signs of thick meconium, after suctioning with bulb syringe, intubate and suction trachea (see below)(b).
4. Stimulate baby (rub baby's back).
5. Clamp and cut cord, if not already done. Apply 2 umbilical clamps, 2 inches apart and at least 8 inches from the navel and cut between clamps.
6. Assess skin color, respirations, and heart rate.
7. Ventilate @ 40-60 breaths/minute with 100% oxygen under the following conditions:
   a. Apnea.
   b. Heart rate <100 beats/minute.
   c. Persistent central cyanosis after high-flow oxygen.
8. Perform chest compressions at 120/minute (3:1 ratio, one third of the anterior-posterior diameter of chest in depth), using two thumbs side by side (or superimposed one on top of the other) over the mid-sternum just below the nipple line with the fingers encircling the chest and supporting the back, under the following conditions:
   a. Heart rate <60 beats/minute and not rapidly increasing despite adequate ventilation with 100% oxygen for approximately 30 seconds.

ALS LEVEL 1: PARAMEDIC ONLY

1. Intubate under the following conditions:
   a. Bag-valve-mask ventilation is ineffective (>2 minutes).
   b. Tracheal suctioning is required, especially for thick meconium (b).
   c. Prolonged positive pressure ventilation is needed.

2. **Epinephrine** (1:10,000) 0.01-0.03 mg/kg IV/IO/ET under the following conditions:
    a. Asystole.
    b. Heart rate <60 beats/minute despite adequate ventilation with 100% oxygen and chest compressions. c. Repeat every 3-5 minutes, PRN.
3. Fluid challenge Normal Saline 10 ml/kg IV under the following conditions:
    a. Pallor that persists after adequate oxygenation.
    b. Faint pulses with a good heart rate.
    c. Poor response to resuscitation with adequate ventilations.
4. Check blood glucose level on all resuscitations that do not respond to initial therapy. Use heel stick.
    a. If blood glucose is <40 mg/dL, administer D10 2 -5 ml/kg IV/IO (dilute D50 1:4 with Sterile Water or Normal Saline = D10).
5. Perform Pediatric Assessment Triangle - Rapid Cardiopulmonary Assessment (see Pediatric 3.1.1 - Initial Assessment) frequently.

ALS LEVEL 2: MEDICAL CONTROL

1. If neonate continues to have altered mental status with depressed respirations, consider Narcan 0.1 mg/kg (1 mg/ml concentration) IV/IO/IM/ET (c).

Notes

(a) The neonate should be placed on his or her back or side with the neck in a neutral position. To help maintain correct position, a rolled blanket or towel may be placed under the back and shoulders of the supine neonate, to elevate the torso 3/4 or 1 inch off the mattress to extend the neck slightly. If copious secretions are present, the neonate should be placed on his or her side with the neck slightly extended to allow secretions to collect in the mouth rather than in the posterior pharynx.

(b) Tracheal suctioning for thick meconium should be done via the endotracheal tube using a meconium aspirator attached to the 15 mm adaptor of the ETT. The suction unit is then attached and placed on low (no more than 100 mm Hg). Suctioning should be performed until the ETT is clear (maximum 5 seconds). It may be necessary to repeat the intubation and continue suctioning until clear (maximum 3 times).

(c) Avoid the use of Narcan if the mother has a history of drug use/abuse, as Narcan may precipitate seizures in the newborn due to acute withdrawal.

3.4.2 SUDDEN INFANT DEATH SYNDROME (SIDS)

Purpose: Sudden Infant Death Syndrome, or "crib death," is the sudden and unexpected death of an apparently healthy infant, usually under one year of age, which remains unexplained after a complete medical history, death scene investigation and postmortem examination. SIDS almost always occurs when the infant is asleep or thought to be asleep. See Appendix Sudden Infant Death Syndrome

The majority of SIDS deaths (90%) occur in infants less than six months of age. SIDS is more common in males (60%) then females (40%). SIDS almost always occurs when the infant is asleep or thought to be asleep. SIDS is more prevalent in winter months and in infants with low birth weights. SIDS occurs in all socio-economic, racial and ethnic groups. Occasionally, a mild upper respiratory infection may be present prior to death.

Physical examination of a SIDS infant may reveal lividity or settling of blood, which produces mottled, blue or gray skin. The lividity may give the appearance of "bruising." There may also be froth, blood tinged mucus draining from the infant's mouth and nostrils. In addition, cooling and rigor mortis may be present. The SIDS infant usually appears well developed and does not exhibit any signs of external injury.

SIDS should not be confused with child abuse (see Appendix - Signs of Child Abuse 7.13). Initially it is difficult to distinguish a SIDS death from other causes of death in infants. SIDS is the leading cause of death between one week and one year of age in the United States.

Although there may be obvious signs of death, the Paramedic may attempt resuscitation of the infant for psychological reasons (e.g. parents peace of mind). There may also be some infants in which the Paramedic determines that a resuscitation attempt is not warranted (see Administrative Protocol - DNR/DOA 1.2.5). In either event, the Paramedic should be prepared for a myriad of grief reactions from the parents and/or caregiver.

It should also be noted, that some SIDS deaths are mistaken for child abuse. If there are possible signs of abuse (see Appendix - Signs of Child Abuse 7.13), the Paramedic should continue as if it were a SIDS death, to avoid any unnecessary grief on the part of the parents and/or caregiver. The Paramedic should not attempt to determine whether or not child abuse has taken place. The scene should be treated as any other death scene, with attention to preservation of potential evidence. Remember, it is more common for an unexpected death of an infant to be SIDS.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. In most instances, resuscitation should be attempted (see appropriate Pediatric Protocols).
2. Assign a crewmember to assist the parents and/or caregiver and to explain the procedures.
3. If time permits, elicit a brief history and perform an environmental check. Document all findings on the EMS run report.
4. Once resuscitation is started, do not stop until directed to do so in the hospital by a physician.

ALS LEVEL 1: PARAMEDIC ONLY

1. As per appropriate protocol

ALS LEVEL 2: MEDICAL CONTROL

1. Call medical control or medical director for any questions or concerns.

3.5
PEDIATRIC
NEUROLOGIC EMERGENCIES

3.5 PEDIATRIC NEUROLOGIC EMERGENCIES

Overview:

This section covers the most common pediatric neurologic emergencies, altered mental status and seizures. It is important for the paramedic to understand appropriate behavior for the child/infant's age in order to properly assess level of consciousness (see Appendix - Glasgow Coma Score for pediatric patients). Attention should be given to how the child interacts with parents and the environment and whether or not the patient can make good eye contact. Parents may be invaluable for a baseline comparison of level of consciousness. The parents may simply state that the patient is not acting right. Causes of pediatric altered mental status include: hypoxia, head trauma, intoxication, infection, and hypoglycemia.

Approximately 4-6% of all children will have at least one seizure. Seizures may be due to an underlying disease (e.g. epilepsy) or may simply be a result of fever. Other causes of pediatric seizures include: hypoxia, brain hemorrhage, infection of brain and spinal cord (e.g. meningitis), hypoglycemia, and intoxication.

3.5.1 ALTERED LEVEL OF CONSCIOUSNESS (ALTERED MENTAL STATUS)

Purpose: Use this protocol for pediatric patients with altered mental status. Common signs of altered mental status in pediatric patients include: combative behavior, decreased responsiveness, lethargy, weak cry, moaning, hypotonia, ataxia, and changes in personality. Initial approach should be based on the assumption that the patient is suffering from hypoxia, ischemia, hypoglycemia or dehydration. Secondary considerations should include medications, illicit drugs, plants, trauma, etc.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Medical Supportive Care Protocol 3.1.3, consider need for spinal immobilization.
2. Consider need for ventilatory assistance.
3. Assess for and document the Glasgow Coma Scale

ALS LEVEL 1: PARAMEDIC ONLY

1. If child remains unresponsive and prolonged ventilatory assistance is needed, consider need for intubation (a).
2. Perform glucose test with finger stick. If glucose is below 60 mg/dL (< 40mg/dl for newborns), administer:
    a. Neonates: 10% Dextrose: 2-5 ml/kg (0.2-0.5 g/kg)
    b. Infants: 10% Dextrose: 5 ml/kg (0.5 g/kg)
    c. Children < 8 yrs: 25% Dextrose: 2 ml/kg (0.5 g/kg) slow IV (b)
    d. Children > 8 yrs: 50% Dextrose: 1 ml/kg IV/IO (b)
3. If mental status is depressed and signs of dehydration exist, administer fluid challenge of Normal Saline @ 20 ml/kg IV.
4. If mental status and respiratory effort is depressed, administer **Narcan** 0.1 mg/kg (maximum 2 mg) IV/IO/IM. May repeat every 5 minutes PRN.
5. If toxicology (poisoning) is suspected, **Contact Poison Information Center (1-800-222-1222)**

ALS LEVEL 2: MEDICAL CONTROL

1. Call medical control or medical director for any questions or concerns.

Notes:

(a) Use appropriate discretion regarding immediate intubation of pediatric patients who may quickly regain consciousness, such as hypoglycemics after D25 or opiate overdose cases after Narcan.

(b) To avoid infiltration and resultant tissue necrosis, Dextrose 25% should be given slow IV with intermittent aspiration of IV/IO line to confirm IV/IO patency followed by saline flush.

3.5.2 SEIZURE DISORDERS

Purpose: This protocol should be used when the patient has witnessed continuous convulsions or repeating episodes without regaining consciousness or sufficient respiratory compensation. Consider underlying etiology, such as: fever, hypoxia, head trauma, infection of brain and spinal cord (e.g. meningitis), hypoglycemia, and intoxication.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Medical Supportive Care Protocol 3.1.3. Apply gentle support of the patient's head to avoid trauma and loosen tight fitting clothing.
2. Assess for and document the Glasgow Coma Scale.

ALS LEVEL 1: PARAMEDIC ONLY

1. Perform glucose test with finger stick. If glucose is below 60 mg/dL, administer:
   a. If Neonate or Infant: **D10** 5ml/kg IV/IO
   b. If <8 years: **D25** 2 ml/kg IV/IO;
   c. If >8 years: **D50** 1 ml/kg IV/IO (a)(b).
2. If seizure continues, administer one of the following benzodiazepines:
   a. **Lorazapam (Ativan)** 0.05 to 0.1 mg/kg IV, maximum; 1 mg.
   b. **Diazepam (Valium)**
   IV/IO: [1 mo – 5 yr] 0.1 - 0.3 mg/kg IV/IO q 5-10 min. Max 5 mg total.
   [5 yr – 12 yr] 0.1- 0.3 mg/kg IV/IO q 5-10 min. Max 10 mg total.
   [> 12 yr] 5 – 10 mg IV/IO q 10 – 15 min. Max 30 mg total.
   Rectal: Varify dose with Broselow tape
   [up to 5 yrs] 0.5 mg/kg PR x 1
   [6 – 11 yrs] 0.3 mg/kg PR x1
   [> 11 yrs] 0.2 mg/kg PR x 1
   (Maximum 20 mg) rectally (d) (e)
   c. **Midazolam (Versed)** 2 mo – 12 yrs;

IV/IO: start 0.15 mg/kg x1(Max 4 mg),
IM: 0.2mg/kg. Maximum 10 mg
IN (intranasal): 0.2 mg/kg. Maximum 10 mg (c)

ALS LEVEL 2: MEDICAL CONTROL

1. If seizure continues for 5 minutes, administer one of the following benzodiazepines:
   a. **Lorazapam (Ativan)** 0.05 to 0.1 mg/kg IV, maximum; 1 mg.
   b. **Diazepam (Valium),**
      IV/IO: 0.2 mg/kg IV/IO
      Rectal: 0.5 mg/kg (maximum 20 mg) rectally.(d)(e)
   c. **Midazolam (Versed)** 0.1 mg/kg (maximum 4 mg) IV or 0.2 mg/kg intranasal (maximum 10mg) (c)
2. Call medical control or medical director for any questions or concerns.

Notes:

(a) For newborns and infants, perform heel stick. In newborns, if blood glucose is <40 mg/dL, administer D10 5 ml/kg IV/IO (dilute D50 1:4 with Normal Saline = D10).
(b) To avoid infiltration and resultant tissue necrosis, Dextrose 10%, 25%, and 50% should be given slow IV with intermittent aspiration of IV/IO line to confirm IV/IO patency followed by saline flush.
(c) Intranasal administration of benzodiazepines requires the use of a mucosal atomization device (same as IV dose).
(d)Use a lubricated tuberculin or 3-5 ml syringe **without the needle.** Position patient in a decubitus knee position or supine with legs held apart and insert lubricated syringe approximately 5 cm into the rectum. Inject Valium, remove syringe and tape buttocks closed.
(e) If Diastat (rectal diazepam preparation) is used, administer 2.5 mg.

3.6
PEDIATRIC
TOXICOLOGIC EMERGENCIES

3.6 PEDIATRIC TOXICOLOGIC EMERGENCIES

Overview:
This protocol is to be used for those patients suspected of exposure to toxic substances via any route of exposure (e.g. drug overdose, snake bite, etc.). The protocols will give specific considerations for each type of exposure, as well as general treatment guidelines. Additional assistance may be necessary in certain cases (e.g. hazardous materials team for toxic exposure, police for scene control, including violent and/or impaired patient - see Pediatric Protocol 3.7.5).

A history of the events leading to the illness or injury should be obtained from the patient and bystanders to include:

1. What drugs, poisons, or other substances was the patient exposed to? Consider multiple substances, especially on overdoses. Also consider plants and herbal remedies.
2. When and how much?
3. Duration of symptoms?
4. Is patient depressed, suicidal? History of previous overdose? (if applicable).
5. Accidental? Nature of accident?
6. Duration of exposure (if applicable).

Collect all pill bottles, empty or full, and check for "suicide notes" (if applicable). Transport any/all information or items that may assist in the treatment of the patient to the emergency department.

Contact the Poison Information Center (1-800-222-1222) for consultation regarding specific therapy and then contact on-line medical control for confirmation of Level 2 orders.

3.6.1 PEDIATRIC INGESTION (OVERDOSE)

Purpose: This protocol should be used on most types of ingestion (e.g. acetaminophen, benzodiazepines, narcotics, tricyclic antidepressants, vitamins with iron, etc.). Symptoms vary with the substance involved (also see Pediatric Protocol 3.6.4 - Organophosphate Poisoning).

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Medical Supportive Care Protocol 3.1.3.
2. Consider need for ventilatory support
3. Assess for and document the Glasgow Coma Scale

ALS LEVEL 1: PARAMEDIC ONLY

1. Consider need for intubation
2. Perform glucose test with finger stick. If glucose is below 60 mg/dL (< 40 mg/dl newborn), administer:
   a. Neonates: 10% Dextrose: 2-5 ml/kg (0.2-0.5 g/kg) (a)(b)
   b. Infants: 10% Dextrose: 5 ml/kg (0.5 g/kg) (a)(b)
   c. Children < 8 yrs: 25% Dextrose: 2 ml/kg (0.5 g/kg) slow IV
   d. Children > 8 yrs: 50% Dextrose: 1 ml/kg IV/IO
3. If hypoglycemic and unable to start IV/IO, and patient is:
   a. < 20 kg give Glucagon 0.5 mg Sub-Q/IM
   b. > 20 kg give Glucagon 1 mg SUB-Q/IM.
4. If any questions, contact **Poison Information Center (1-800-282-3171).**
5. If suspected narcotic overdose in non-neonate, administer **Narcan** 0.1 mg/kg (maximum 2 mg) IV/IO/IM/Intranasal. May repeat every 5 minutes PRN. (c)
6. If suspected tricyclic antidepressant overdose (QRS > 0.10), administer **Sodium Bicarbonate** 1 mEq/kg IV/IO (d).

ALS LEVEL 2: MEDICAL CONTROL

1. Call medical control or medical director for any questions or concerns.

Notes:

(a) For newborns and infants, perform heel stick. In newborn, if blood glucose is <40 mg/dL, administer D10 5 ml/kg IV/IO (dilute D50 1:4 with Normal Saline = D10).

(b) To avoid infiltration and resultant tissue necrosis, Dextrose 10%, 25%, and 50% should be given slow IV with intermittent aspiration of IV/IO line to confirm IV/IO patency followed by saline flush.
(c) Intranasal administration of Naloxone requires the use of a mucosal atomization device (same as IV dose).
(d) If patient is seizing, also see Pediatric Protocol Seizures 3.5.2).

3.6.2 BITES AND STINGS

Purpose: This protocol includes the treatment for snake and spider bites, dog and cat bites, insect stings, marine animal envenomations and stings. **All bites should be transported to the hospital.** For questions or concerns, contact Poison Information Center (1-800-222-1222).

Procedure:

Snake Bites

BASIC LEVEL: EMT and PARAMEDIC

1. Medical Supportive Care Protocol 3.1.3.
2. Consider need for Pediatric Protocol 3.7.1 – Allergic Reactions/Anaphylaxis.
4. Splint affected area, place patient supine with extremities at a neutral level, keep patient quiet, remove and secure all jewelry.
5. Wash area of bite with copious amounts of water.
6. Attempt to identify snake, if safe to do so.
7. Check temperature and pulse distal to bite on extremity and mark level of swelling and time with pen every 15 minutes.

ALS LEVEL 1: PARAMEDIC ONLY

1. Refer to Pediatric Pain Protocol 3.1.5 for pain management.

ALS LEVEL 2: MEDICAL CONTROL

1. Call medical control or medical director for any questions or concerns.

Dog and Cat and Wild Animal Bites

BASIC LEVEL:

1. Medical Supportive Care Protocol 3.1.3
2. Trauma Supportive Care Protocol 3.1.4 if indicated
3. Wound care - BLS (do not use hydrogen peroxide on deep puncture wounds or wounds exposing fat).
4. Advise dispatch to contact animal control and PD for identification and quarantine of animal.

ALS LEVEL 1: PARAMEDIC ONLY

1. Refer to Pediatric Pain Protocol 3.1.5 for pain management.

ALS LEVEL 2: MEDICAL CONTROL

1. Call medical control or medical director for any questions or concerns.

Insect Stings (including: Centipedes, Scorpions and Spiders)

BASIC LEVEL: EMT and PARAMEDIC

1. Medical Support Protocol 3.1.3
2. Trauma Supportive Care Protocol 3.1.4, if indicated
3. Consider need for Pediatric Protocol 3.7.1 - Allergic Reactions/ Anaphylaxis.
4. Remove stinger by scraping skin with edge of flat surface (e.g. credit card). Do not attempt to pull stinger out, as this may release more venom.
5. Clean area with soap and water.

ALS LEVEL 1: PARAMEDIC ONLY

1. Refer to Pediatric Pain Protocol 3.1.5 for pain management.

ALS LEVEL 2: MEDICAL CONTROL

1. Call medical control or medical director for any questions or concerns.

Marine Animal Envenomations -Stingray, Scorpionfish (Lionfish, Zebrafish, Stonefish), Catfish, Weeverfish, Starfish, and Sea Urchin

BASIC LEVEL: EMT and PARAMEDIC

1. Medical Supportive Care Protocol 3.1.3
2. Trauma Supportive Care Protocol 3.1.4, if indicated
3. Consider need for Pediatric Protocol 3.7.1 - Allergic Reactions/ Anaphylaxis.
4. Immerse the punctures in nonscalding hot water to tolerance (110-113 degrees F) to achieve pain relief (30-90 minutes). Transport should not be delayed, immersion in nonscalding hot water may be continued during transport.

5. Remove any visible pieces of the spine(s) or sheath. Gently wash wound with soap and water, then irrigate vigorously with fresh water (avoid scrubbing).

ALS LEVEL 1: PARAMEDIC ONLY

1. Refer to Pediatric Pain Protocol 3.1.5 for pain management.

ALS LEVEL 2: MEDICAL CONTROL

1. Call medical control or medical director for any questions or concerns.

Marine Animal Stings -Jellyfish, Man-of-War, Sea Nettle, Irukandji, Anemone, Hydroid, Fire Coral

BASIC LEVEL: EMT and PARAMEDIC

1. Medical Supportive Care Protocol 3.1.3
2. Trauma Supportive Care Protocol 3.1.4, if indicated
   Consider need for Pediatric Protocol 3.7.1 - Allergic Reactions/ Anaphylaxis.
3. Rinse the skin with seawater (Do not use fresh water, do not apply ice, do not rub the skin).
4. Apply soaks of acetic acid 5% (vinegar) until pain is relieved. If vinegar is not available, use a paste of baking soda or unseasoned meat tenderizer.
5. Remove large tentacle fragments using forceps (use gloves to avoid contact with bare hands).
6. Apply a lather of shaving cream or a paste of baking soda and shave the affected area with edge of flat surface (e.g. credit card).
7. Apply heat pack to area.

ALS LEVEL 1: PARAMEDIC ONLY

1. Refer to Pediatric Pain Protocol 3.1.5 for pain management.

A LS LEVEL 2: MEDICAL CONTROL

1. Call medical control or medical director for any questions or concerns.

Human Bites

BASIC LEVEL: EMT and PARAMEDIC

1. Medical Supportive Care Protocol 3.1.3

2. Trauma Supportive Care Protocol 3.1.4 if indicated.
3. Wound care - BLS (do not use hydrogen peroxide on deep puncture wounds or wounds exposing fat). Clean area with soap and water.
4. Advise dispatch to contact PD for possible domestic violence.

ALS LEVEL 1: PARAMEDIC ONLY

1. Refer to Pediatric Pain Protocol 3.1.5 for pain management.

ALS LEVEL 2: MEDICAL CONTROL

1. Call medical control or medical director for any questions or concerns.

3.6.3 CARBON MONOXIDE POISONING

Purpose: Carbon Monoxide poisoning should be suspected when the patient has been exposed to the products of combustion (e.g. smoke, automobile exhaust, exhaust fumes from fuel powered machinery, etc.) and are experiencing symptoms. These symptoms may vary with the level of carbon monoxide exposure. See Hazardous Expsure Chemical Treatment Guideline for more details.

Mild CO exposure signs and symptoms include: headache, nausea/vomiting, poor concentration, irritability, agitation, and anxiety.

Moderate to severe CO exposure signs and symptoms include: altered mental status, chest pain, cardiac dysrhythmias, pale skin, cyanosis, seizures, and rarely cherry red skin.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Medical Supportive Care Protocol 3.1.3.
2. Remove patient from hazardous area.
3. Administer high-flow oxygen (100%). Ventilatory support as needed/indicated (see Peds Airway Management Protocol)

ALS LEVEL 1: PARAMEDIC ONLY

1. Consider need to intubate.
2. Treat specific dysrhythmias (see Pediatric Cardiac Dysrhythmia Protocol 3.3).

3. Treat seizures according to seizure protocol (see Pediatric Seizure Protocol)

ALS LEVEL 2: MEDICAL CONTROL

1. Call medical control or medical director for any questions or concerns.

3.6.4 ORGANOPHOSPHATE POISONING

Purpose: Organophosphate compounds are used as insecticides in residential as well as commercial agriculture. Organophosphates affect both the parasympathetic (muscarinic effects) and the sympathetic (nicotinic effects) nervous systems. Signs and symptoms are described as the classic SLUDGE syndrome (excessive Salivation, Lacrimation, Urination, Diarrhea, Gastrointestinal distress, and Emesis). The patient may have constricted pupils (miosis). Bradycardia is also common; however stimulation of nicotinic receptors will produce tachycardia. Also see Chem Exposure Guideline Green for additional information and management guidelines.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Avoid exposure to patient's sweat, vomit, stool, and vapor emitting from soaked clothes (a).
2. If patient was exposed externally, remove clothing and decontaminate skin.
3. Medical Supportive Care Protocol 3.1.3
4. Airway Management Protocol 3.1.2, administer high-flow oxygen.
5. Contact Poison Information Center (1-800-282-3171) if any questions or concerns.

ALS LEVEL 1: PARAMEDIC ONLY

1. If patient is symptomatic, administer **Atropine**
   < 2 yr old: 0.05 mg/kg (max. 3 mg) IM or 0.02 mg/kg IV/IO, repeat q 5-10 minutes until atropinization occurs. (If nerve agent, Start 0.05 mg/kg IM x 1 for mild/moderate sx. Start 0.1 mg/kg IM for severe sx).
   2 – 10 yrs: 1 – 2 mg IM/IV/IO q 10 – 30 min prn; Start 1 mg IM/IV x 1. (If nerve agent, Start 1 mg/kg IM x 1 for mild/moderate sx.

Start 2 mg/kg IM for severe sx).

> *10 yrs*: 1-2 mg IM/IV/IO q 10 – 30 min prn; Start 2 mg IM/IV x 1. (If nerve agent, Start 2 mg/kg IM x 1 for mild/moderate sx. Start 4 mg/kg IM for severe sx).

2. If seizing, see Pediatric Seizure Protocol 3.5.2.
3. Alert emergency department to prepare for contaminated patient.
4. Do not induce vomiting.

ALS LEVEL 2: MEDICAL CONTROL

1. Call medical control or medical director for any questions or concerns.
2. Repeat **Atropine** 0.05 mg/kg IV/IO (maximum 3 mg) every 5-10 minutes until secretions are inhibited.

Note:
(a) If risk of exposure from fumes is high, call HAZMAT team. Refer to appropriate HAZMAT PPE protocol, as the risk of secondary contamination is very high.

3.7
OTHER PEDIATRIC MEDICAL EMERGENCIES

3.7 OTHER PEDIATRIC MEDICAL EMERGENCIES

Overview:
The paramedic should use these protocols to guide him/her through the treatment of patients with other medical emergencies that are exhibiting signs and symptoms. In addition to these protocols, the paramedic may need to refer to additional protocols for continued treatment.

3.7.1 ALLERGIC REACTIONS/ ANAPHYLAXIS

Purpose: This protocol should be used for patients exhibiting signs and symptoms consistent with allergic reaction as follows: Skin - flushing, itching, hives, swelling, cyanosis.
Respiratory - dyspnea, sneezing, coughing, wheezing, stridor, laryngeal edema, laryngospasm, bronchospasm.
Cardiovascular - vasodilation, increased heart rate, decreased blood pressure.
Gastrointestinal - nausea/vomiting, abdominal cramping, diarrhea.
CNS - dizziness, headache, convulsions, tearing.

Treatment is outlined according to the severity of the allergic reaction (mild, moderate, and severe or anaphylaxis).

Procedure:

Mild Reactions - (redness and/or itching, normal perfusion without dyspnea)

BASIC LEVEL: EMT and PARAMEDIC

1. Medical Supportive Care Protocol 3.1.3
2. Trauma Supportive Care Protocol 3.1.4 if indicated

ALS LEVEL 1: PARAMEDIC ONLY

1. For severe itching, administer **Diphenhydramine (Benadryl)** 1-2 mg/kg IM/IV (max. 50 mg IM or 25 mg IV).

ALS LEVEL 2: MEDICAL CONTROL

1. Call medical control or medical director for any questions or concerns.

Moderate Reactions - (edema, hives, dyspnea, wheezing, and normal perfusion)

BASIC LEVEL: EMT and PARAMEDIC

1. Medical Supportive Care Protocol 3.1.3
2. Trauma Supportive Care Protocol 3.1.4 if indicated

ALS LEVEL 1: PARAMEDIC ONLY

1. **Diphenhydramine (Benadryl)** 1-2 mg/kg (maximum 50 mg IM or 25 mg IV) IM/IV.

2. **Zantac (Ranitadine)** 2-5 mg/kg po if child able to swallow pills.
3. **Methylprednisolone Sodium Succinate (Solu-Medrol)** 2 mg/kg IV/IM (maximum dose 125 mg) x 1.
4. **Epinephrine** (1:1000) 0.01 mg/kg (max. 0.3 mg) IM/SUB-Q (a).
5. If patient has signs of respiratory distress, administer **Albuterol (Ventolin)** 1 nebulizer treatment;
    a. If <1 year or <10 kg, mix 1.25 mg in 1.5 ml of Normal Saline (0.083%)
    b. If >1 year or >10 kg, mix 2.5 mg in 3 ml of Normal Saline (0.083%)
    c. May repeat twice (a)
6. If bronchodilator is administered, add **Ipratropium Bromide (Atrovent)** 0.5mg (0.5 ml) to first nebulize treatment only.
7. May repeat **Epinephrine** (1:1000) 0.01 mg/kg (max. 0.15) SUB-Q (a).

ALS LEVEL 2: MEDICAL CONTROL

1. Call medical control or medical director for any questions or concerns.

Severe Reactions - (edema, hives, severe dyspnea and wheezing, poor perfusion, and possible cyanosis and laryngeal edema)

BASIC LEVEL: EMT and PARAMEDIC

1. Medical Supportive Care Protocol 3.1.3
2. Trauma Supportive Care Protocol 3.1.4 if indicated

ALS LEVEL 1: PARAMEDIC ONLY

1. **Diphenhydramine (Benadryl)** 1mg/kg (maximum 50 mg IM or 25 mg IV) IM/IV.
2. **Zantac (Ranitadine)** **2mg/kg po** if child able to swallow pills.
3. **Methylprednisolone Sodium Succinate (Solu-Medrol)** 2 mg/kg IV/IM (maximum dose 125 mg) x 1.
4. **Epinephrine** (1:1000) 0.01 mg/kg (max. 0.15 mg) SUB-Q (a).
5. If patient shows signs of respiratory distress, administer **Albuterol (Ventolin)** 1 nebulizer treatment;
    a. If <1 year or <10 kg, mix 1.25 mg in 1.5 ml of Normal Saline (0.083%)
    b. If >1 year or >10 kg, mix 2.5 mg in 3 ml of Normal Saline (0.083%)

c. May repeat twice (a)

6. If bronchodilator is administered, add **Ipratropium Bromide (Atrovent)** 0.5mg (0.5 ml) to first nebulized treatment only.
7. May repeat **Epinephrine** (1:1000) 0.01 mg/kg (max. 0.15) SUB-Q (a).

ALS LEVEL 2: MEDICAL CONTROL

1. Call medical control or medical director for any questions or concerns.

Note

(a) The EPI-Jr.® may be used if other means of Epinephrine administration are not available.

3.7.2 DIABETIC EMERGENCIES

Purpose: This protocol is to be used for those patients whose blood glucose is below 60 mg/dL (see Pediatric Protocol 3.4.1 for newborn).

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Medical Supportive Care Protocol 3.1.3.
2. If patient is conscious with an intact gag reflex, assist with selfadministration of oral glucose, if possible.

ALS LEVEL 1: PARAMEDIC ONLY

1. Perform glucose test with finger stick (heel stick for newborn). If glucose is below 60mg/dL (< 40 mg/dl for newborns), administer:
   a. Neonates: 10% Dextrose: 2-5 ml/kg (0.2-0.5 g/kg)
   b. Infants: 10% Dextrose: 5 ml/kg (0.5 g/kg)
   c. Children < 8 yrs: 25% Dextrose: 2 ml/kg (0.5 g/kg) IV/IO
      Children > 8 yrs: 50% Dextrose: 1 ml/kg IV/IO (a)
2. Repeat glucose test after 15 minutes with finger stick (heel stick for newborn). If glucose is still below 60 mg/dL (< 40 mg/dl in newborn), repeat dosing as above.
3. If unable to start IV/IO administer Glucagon if patient is:
   [< 20kg] 0.5mg SUB-Q/IV/IM x 1, max dose 1mg/dose
   [>20 kg] 1 mg SUB-Q/IV/IM x 1, max dose 1mg/dose
   Following Glucagon, once patient is alert enough to swallow, give oral glucose. Glucagon efficacy may be limited in glycogen-depleted patients (chronic alcoholics, malnourished, starvation).
4. If blood glucose is >300 mg/dL with signs of dehydration, administer Normal Saline 20 ml/kg IV, unless contraindicated.

ALS LEVEL 2: MEDICAL CONTROL

1. Call medical control or medical director for any questions or concerns.

Note:
(a) To avoid infiltration and resultant tissue necrosis, Dextrose 25% and 50% should be given slow IV with intermittent aspiration of IV line to confirm IV patency followed by saline flush.

3.7.3 NON-TRAUMATIC ABDOMINAL PAIN

Purpose: This protocol should be used for patients that complain of abdominal pain without a history of trauma (refer to Appendix – Signs of Child Abuse).

Assessment should include specific questions pertaining to the GI/GU systems.

Abdominal physical assessment includes:
Ask patient to point to area of pain (palpate this area last).
Gently palpate for tenderness, rebound tenderness, distension, rigidity, guarding, and pulsatile masses. Also palpate flank for CVA (costovertebral) tenderness.

Abdominal history includes:
Hx of pain (OPQRST).
Hx of nausea/vomiting (color, bloody, coffee grounds).
Hx of bowel movement (last BM, diarrhea, bloody, tarry).
Hx of urine output (painful, dark, bloody).
Hx of abdominal surgery.
SAMPLE (attention to last meal).

Additional questions should be asked of the female adolescent patient regarding OB/GYN history (see Adult OB/GYN Emergencies).

An acute abdomen can be caused by: appendicitis, diabetic ketoacidosis, incarcerated hernia, intussuception, cholecystitis, cystitis -UTI (bladder inflammation), duodenal ulcer, diverticulitis, abdominal aortic aneurysm, kidney infection - UTI (urinary tract infection), kidney stone, pelvic inflammatory disease - PID (female), pancreatitis (see Appendix - Abdominal Pain Differential 7.1).

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Medical Supportive Care protocol 3.1.3
2. Trauma Supportive Care Protocol 3.1.4, if indicated

ALS LEVEL 1: PARAMEDIC ONLY

1. If decreased perfusion (see Appendix 7.10 - Pediatric Vital signs), administer fluid challenge of Normal Saline 20 ml/kg IV.

ALS LEVEL 2: MEDICAL CONTROL

1. Consider pain control (see Pediatric Pain Protocol 3.1.5 for pain scale and medication dosage-same as isolated extremity fracture pain protocol).
2. Call medical control or medical director for any questions or concerns.

3.7.4 NON-TRAUMATIC CHEST PAIN UNDIFFERENTIATED

Purpose: Causes of non-traumatic chest pain in the pediatric patient include: wheezing associated illness, spontaneous pneumothorax, pleurisy, costochondritis, pulmonary embolism, pneumonia, peptic ulcer, drug usage (e.g. stimulants - cocaine), dissecting aortic aneurysm, pericarditis, hiatal hernia, esophageal spasm, cholecystitis, pancreatitis, cervical disk problem, and rarely cardiac problems (see Appendix Chest Pain Differential). Also refer to Appendix – Signs of Child Abuse 7.13.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Medical Supportive Care Protocol 3.1.3.
2. Airway Management Protocol 3.1.2
3. Consider need for other protocols (e.g. Pediatric Protocol 3.2 - Pediatric Respiratory Emergencies).

ALS LEVEL 1: PARAMEDIC ONLY

1. None

ALS LEVEL 2: MEDICAL CONTROL

1. Consider pain control (see Pediatric Pain Protocol 3.1.5 for pain scale and medication dosage-same as isolated extremity fracture pain protocol).
2. Call medical control or medical director for any questions or concerns.

3.7.5 VIOLENT AND/OR IMPAIRED PATIENT

Purpose: This treatment protocol is used in conjunction with Adult Medical Protocol-Behavioral Violent Psychiatric Emergencies. If patient is violent and an immediate threat to the patient, EMS crew or bystander safety exists, restraint should be used to prevent patient from harming him or herself or others. If patient is not violent, be observant for possibility of violence and avoid provoking patient. Particular caution should be exercised when any "non-lethal" law enforcement device (e.g. pepper spray, taser, etc.) has been employed.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Have patient placed under Baker Act (or equivalent commitment form) when appropriate and refer to Impaired/Incapacitated Persons Act
2. Medical Supportive Care 3.1.3.
3. Airway Management 3.1.2
4. Rule out causes other than psychiatric (e.g. drug overdose, ETOH, head trauma, hypoxia, hypoglycemia).
5. Physically restrain patient when appropriate (see Medical Procedure Physical Restraints 4.28).

ALS LEVEL 1: PARAMEDIC ONLY

1. Administer one of the following benzodiazepines**(< 12 yr old contact med control first):**
   a. **Lorazapam (Ativan)** 0.05 to 0.1 mg/kg IV, maximum; 1 mg.
   b. **Diazepam (Valium)** 0.2 mg/kg (maximum 5 mg) IM/IV or per rectum, may repeat once PRN (up to max. 10 mg) (b).
   c. **Midazolam (Versed)** 0.1mg/kg (maximum 2mg) IM/IV or Intranasal. May repeat once PRN (up to max. 4 mg) (b).
2. **Diphenhydramine HCL (Benadryl)** 1 mg/kg (maximum 50 mg IM or 25 mg IV) IM or IV (a).

ALS LEVEL 2: MEDICAL CONTROL

1. Call medical control or medical director for any questions or concerns.

Notes:

(a) In some instances, IV administration may present a safety concern; therefore IM or intranasal administration of sedatives may be the more desirable route.

(b) Intranasal administration of benzodiazepines requires the use of a mucosal atomization device (same as IV dose).

3.7.6 SUSPECTED CHILD ABUSE

Purpose: This protocol should be used when the paramedic suspects that child abuse may have occurred. See Appendix - Signs of Child Abuse 7.13 and Report of Abuse 7.12. Child abuse is when a person intentionally inflicts, or allows to be inflicted, physical or psychological injury to a child, which causes or results in risk of death, disfigurement, or distress. Child neglect is when a child's physical, mental, or emotional condition is impaired or in danger because of failure of the legal guardian to supply basic necessities, including: adequate food, clothing, shelter, education, or medical care.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Medical Support Protocol 3.1.3.
2. Trauma Supportive Care Protocol 3.1.4 if indicated.
3. Advise Police that child abuse is suspected.
4. Protect child from further abuse.
5. Obtain information in a non-judgmental manner.
6. Do not confront caregiver and/or parent.
7. Transport patient to the hospital for evaluation and possible treatment (a).
8. Report suspected child abuse (Florida Child Abuse Hotline:1-800-3429152) (b).

ALS LEVEL 1: PARAMEDIC ONLY

1. None

ALS LEVEL 2: MEDICAL CONTROL

1. Call medical control or medical director for any questions or concerns.

Note

(a) If Parent's refuse to have patient transported to hospital, request police assistance.

3.7.7 SICKLE CELL ANEMIA

Purpose: Sickle cell anemia is a chronic hemolytic anemia occurring almost exclusively in African Americans and is characterized by sickle-shaped red blood cells. Sickle cell crisis results from the occlusion of a blood vessel by masses of sickle shaped red blood cells. Pain is the principle manifestation, and this represents the most common type of crisis. Typical pain occurs in the joints and back. Hepatic, pulmonary, or central nervous system involvement can occur, each with its own group of symptoms. Keep in mind that patients with sickle cell disorder have a high incidence of life-threatening disorders at a very young age.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Medical Supportive Care Protocol 3.1.3
2. Provide emotional support

ALS LEVEL 1: PARAMEDIC ONLY

1. IV of normal saline. Give fluid challenge of 20 ml/kg, and then maintain IV at KVO.
2. If pain persist and systolic BP is adequate (see Appendix – Pediatric Vital Signs 7.10), choose one of the following pain meds:
   a. **Morphine Sulfate** may be given intravenously in increments every 3-5 minutes, titrated to pain to a maximum of 10 mg. Administer at a rate not to exceed 1 mg/min.
      i. Pediatric dose: 0.1 mg/kg (maximum 10 mg) IV. ii. Infant dose: 0.05 mg/kg IV (a)
   b. **Fentanyl (Sublimaze)**
      1-3 yrs old: 2 – 3 mcg/kg IV
      3 – 12 yrs old: 1 – 2 mcg/kg IV
      >12 yrs old: 0.5 – 1 mcg/kg IV

ALS LEVEL 2: MEDICAL CONTROL

1. Call medical control or medical director for any questions or concerns.

Note:

(a) Extreme caution should be used with administering narcotic analgesics to a patient with a $SpO_2 \leq 95\%$

3.7.8 PEDIATRIC FEVER

Purpose: Use this protocol for pediatric patients who are feverish. Child should be awake and able to swallow with no difficulty. You may allow/assist the parent with administration of any medication. Fever in an infant less than 30 days old is potentially very serious. Child should be transported to an emergency department for a possible septic work up. Should parent or legal guardian decline transport, contact supervisor or medical control prior to accepting a refusal.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Medical Supportive Care Protocol 3.1.3
2. Obtain a temperature. If the child is less than two years of age this should be done rectally (or with newer thermo-sensing skin thermometers). Inquire if Tylenol has been given in previous four hours. If so, do **NOT** administer more Tylenol.
3. Consider cooling the child with tepid water applied with a wet cloth to head, axillary, and groin regions.
4. If transport time is greater than thirty minutes a follow-up temperature should be taken.

ALS LEVEL 1: PARAMEDIC ONLY

1. For a child less than twelve years old who has a temperature greater than 101.5 degrees F. and unimpaired ability to swallow TYLENOL 15mg/kg P0. may be administered once. (The same dose may be administered rectally if parents have suppositories at home.)
2. Should patient experience a febrile seizure, treat according to Pediatric Seizure Protocol.

ALS LEVEL 2: MEDICAL CONTROL

1. Call medical control or medical director for any questions or concerns.

Note:
Due to the inability to determine the origin of the fever in the field; this Patient Order Set can only be used when the patient is transported to an Emergency Department.

3.7.9 Pediatric Hyperkalemia

Purpose: This protocol is to be used on pediatric patients found to be in a state of hyperkalemia. Hyperkalemia is a serum potassium level of > 5.5 mEq/L. Hyperkalemia in children can be caused by renal failure, rhabdomyolysis, the use of potassium- sparing diuretics, and adrenal cortical insufficiency.Metabolic acidosis can result in hyperkalemia due to the hydrogen-potassium shift. In the pre-hospital setting, hyperkalemia may be an unintentional adverse consequence of rapid sequence intubation using Succinylcholine. It is important for the paramedic to recognize the developing EKG signs of hyperkalemia following RSI of child in order to initiate immediate therapy. EKG evidence of hyperkalemia includes sudden change in the apprearence of the EKG from a NSR to sudden peaked Twaves followed by prolongation of the PR interval as well as widening of the QRS complex. Eventually the P wave drops, the QRS becomes very wide and blends in with the peaked T wave giving the appearance of a sinusoid wave.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Initial Patient A Protocol 3.1.1
2. Pediatric Airway Management 3.1.2
3. Medical Supportive Care Protocol 3.1.3
4. Attach cardiac monitor and pulse oximeter if indicated
5. Keep patient warm (except if treating heat stroke, cool patient).

ALS LEVEL 1: PARAMEDIC ONLY

1. Establish IV with NS at KVO
2. Perform 12 lead EKG and confirm changes in EKG from baseline, suggestive of hyperkalemia
    a. Peaked T-wave
    b. Prolonged PR interval
    c. Widening of QRS
3. If iSTAT available, run potassium level on sample of blood. If K+ found to be > 5.5 mEq/Liter AND EKG changes as above, proceed with treatment below.

4. If there is strong evidence to suggest hyperkalemia (elevated K+ level and/or definite EKG changes) and an you are unable to start an IV, place an IO in patient.
5. Give **Albuterol 0.5% solution**; give 2.5mg via nebulizer (DO NOT use Atrovent with the Albuterol when treating hyperkalemia).
6. Give **Sodium Bicarb;** 1 mEq/kg initially IV/IO (1ml/kg of 8.4% solution). In neonates and infants, dilute the 8.4% solution 1:1 with sterile water (not saline) making a 4.2% solutiuon to reduce the hyperosmolarity of the solution.
7. **Calcium Chloride 20 mg/kg IV/IO** q 10 min prn
8. Notify hospital staff ASAP as child will need additional Rx upon arrival (Regular Insulin, Kayexcelate)

ALS LEVEL 2: MEDICAL CONTROL

1. Call medical control or medical director for any questions or concerns.

3.8
PEDIATRIC ENVIRONMENTAL EMERGENCIES

3.8 PEDIATRIC ENVIRONMENTAL EMERGENCIES

Overview: The following protocols cover a range of problems due to the environment, including: trauma due to changes in atmospheric pressure, exposure to heat and cold extremes, water submersion, and exposure to electricity. Initial efforts should focus on removing the patient from the harmful environment.

3.8.1 NEAR DROWNING

Purpose: Near drowning patients are those that have been submerged in fresh or salt water and may or may not be conscious. If the patient is still in open water on arrival of EMS, a Dive Rescue Team should be utilized to remove the patient from the water whenever possible. Additional protocols may be needed for treatment decisions (e.g. Pediatric Barotrauma Protocol 3.8.4 -).

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Trauma Supportive Care Protocol 3.1.4 (protect C-spine) .
2. Determine pertinent history (duration of submersion, depth, water temperature, possible seizure, drug and/or alcohol use, possible trauma).
3. Maintain body temperature, dry and warm patient.
4. All near drowning patients should be transported to the hospital, regardless of how well they may seem to have recovered. Delayed death or complications due to pulmonary edema or aspiration pneumonia are not uncommon. The most devastating injury is due to asphyxia.

ALS LEVEL 1: PARAMEDIC ONLY

1. Treat dysrhythmias per specific protocol (see Pediatric Dysrhythmia Protocol 3.3).
2. Consider Nasogastric Tube (see Medical Procedure NG Insertion 4.22) (b).

ALS LEVEL 2: MEDICAL CONTROL

1. Call medical control or medical director for any questions or concerns.

Notes

(a) The routine use of abdominal thrusts for near-drowning victims is not recommended. This maneuver should only be used in cases of FBAO (see Medical Procedure 4.15 – Foreign Body Obstructed Airway).

(b) Any near-drowning patient with a decreased ability to protect their airway, with gross abdominal distension, or who requires ventilator assistance needs an NG tube.

3.8.2 HEAT RELATED EMERGENCIES

Purpose: Hyperthermia occurs when the patient is exposed to increased environmental temperature and can manifest as heat cramps, heat exhaustion, or heat stroke. Certain drugs may cause an increase in temperature (e.g. cocaine, ecstacy, etc.)

Some tympanic thermometers (Braun Thermoscan™ Pro-1 and Pro 3000) will register from 68 – 108 degrees F (tympanic thermometers should not be used in infants (<1yr)).

Heat Cramps	signs and symptoms include: muscle cramps of the fingers, arms, legs, or abdomen, hot sweaty skin, weakness, dizziness, tachycardia, normal BP, and normal temperature.
Heat Exhaustion	signs and symptoms include: cold and clammy skin, profuse sweating, nausea/vomiting, diarrhea, tachycardia, weakness, dizziness, transient syncope, muscle cramps, headache, positive orthostatic vital signs, normal or slightly elevated temperature.
Heat Stroke	signs and symptoms include: hot dry skin (sweating may be present), confusion and disorientation, rapid bounding pulse followed by slow weak pulse, hypotension with low or absent diastolic reading, rapid and shallow respirations (which may later slow), seizures, coma, elevated temperature above 105 degrees F.

Procedure:
Heat Cramps and Heat Exhaustion

BASIC LEVEL: EMT and PARAMEDIC

1. Medical Supportive Care Protocol 3.1.3
2. Trauma Supportive Care Protocol 3.1.4 if indicated.
3. Remove from warm environment and cool patient.
4. Monitor temperature.
5. For mild to moderate heat cramps and heat exhaustion, if patient is conscious, encourage patient to drink salt containing fluids (e.g. halfstrength Gatorade® or 10K®).

ALS LEVEL 1: PARAMEDIC ONLY

1. If heat cramps are severe or patient's level of consciousness is diminished, administer fluid challenge of Normal Saline 20 ml/kg IV.

ALS LEVEL 2: MEDICAL CONTROL

1. Call medical control or medical director for any questions or concerns.

Heat Stroke

BASIC LEVEL: EMT and PARAMEDIC

1. Medical Supportive Care Protocol 3.1.3
2. Trauma Supportive Care Protocol 3.1.4 if indicated
3. Remove from warm environment and aggressively cool patient. Remove patient's clothing and cover patient with wet sheets. Also, turn A/C and fans on high and apply ice packs to head, neck, chest and groin.
4. Monitor temperature. Cool patient to 102 degrees F, then remove wet sheets, ice packs, and turn off fans (avoid lowering temperature too much).

ALS LEVEL 1: PARAMEDIC ONLY

1. Treat hypotension with a 500ml bolus of IV fluid followed by an IV drip at a rate of 250 ml/hr. Vigorous IV fluid resuscitation should be avoided unless severe dehydration is present. Avoid using vasopressors and anticholinergic drugs (may potentiate heat stroke by inhibiting sweating). Administer fluid challenge of Normal Saline 20 ml/kg IV.
2. Treat seizures as per Pediatric Seizure Protocol

ALS LEVEL 2: MEDICAL CONTROL

1. Call medical control or medical director for any questions or concerns.

3.8.3 COLD RELATED EMERGENCIES

Tallahassee Memorial

Purpose: Factors that predispose and/or cause a patient to develop hypothermia include: geriatric and pediatric patients, poor nutrition, diabetes, hypothyroidism, brain tumors or head trauma, sepsis, use of alcohol and certain drugs, and prolonged exposure to water or low atmospheric temperature. Hypothermia patients can be divided into three categories: Mild (temperature 94-97 degrees F), Moderate (temperature 86-94 degrees F), and Severe (temperature <86 degrees F).

It should be noted that most oral thermometers will not register below 96 degrees F.However, some tympanic thermometers (Braun Thermoscan™ Pro-1 and Pro 3000) will register from 68 – 108 degrees F (tympanic thermometers should not be used in infants).

Mild to Moderate hypothermia	patients will generally present with shivering, lethargy, and stiff, uncoordinated muscles.
Severe hypothermia	patients may have altered mental status, ranging from confusion to lethargy or coma. Shivering will usually stop and physical activity will be uncoordinated. In addition, severe hypothermia will frequently produce an Osborn wave or J wave on the ECG, as well as dysrhythmias (bradycardia, ventricular fibrillation).

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Medical Supportive Care Protocol 3.1.3 (d)
2. Trauma Supportive Care Protocol 3.1.4 if indicated (a).
3. Remove all wet clothes and dry patient.
4. Protect from heat loss and wind chill.
5. Maintain horizontal position.
6. Avoid rough movement and excess activity (careful gentle handling) (b) (c) (d).
7. Monitor temperature.
8. Add heat to patient's head, neck, chest, and groin.
9. For severe hypothermia, warm IV fluids, if possible.
10. For Severe Hypothermic Cardiac Arrest: Start CPR(c).

ALS LEVEL 1: PARAMEDIC ONLY

1. For VF or pulseless VT, defibrillate x 1 @ 2 J/kg and immediately resume CPR for 5 cycles (or two minutes) before checking rhythm (e).
2. Intubate and ventilate with warm humidified oxygen, if possible.
3. Establish IV with warm Normal Saline.
4. Determine blood glucose and treat as per Peds Hypoglycemic Protocol.

If temperature is above 86 degrees F:

4. If patient's core temperature ≥ 30°C (86°F), follow appropriate dysrhythmia treatment (see Pediatric Cardiac Dysrhythmia Protocol 3.3) (d) (e).

If temperature is below 86 degrees F:

5. Continue CPR and transport immediately. Do not treat dysrhythmias in severe hypothermia (warm patient prior to treatment) (e).

ALS LEVEL 2: MEDICAL CONTROL

1. Call medical control or medical director for any questions or concerns.

Note:

(a) Cases of frostbite should be bandaged with dry sterile dressings and transported without attempting rewarming in the prehospital setting.
(b) Manipulation can precipitate ventricular fibrillation in the irritable hypothermic myocardium
(c) To avoid inappropriate chest compressions, a patient who is unmonitored or in a "nonarrested rhythm" (a rhythm other than ventricular fibrillation or asystole, such as sinus bradycardia or atrial fibrillation) should be examined carefully for respiratory activity and pulses. 30 to 45 seconds should be spent attempting to do detect respiratory activity and palpate a pulse. If none detected, CPR should be initiated.
(d) Although dysrhythmias in hypothermic patient may represent an immediate threat to life, most rhythm disturbances (e.g., Sinus bradycardia, atrial fibrillation or flutter) require no therapy and revert spontaneously with rewarming.
(e) Ventricular fibrillation may be refractory to therapy until the patient is rewarmed. The hypothermic heart is relatively resistant to atropine, pacing, and counter shock. The American Heart Association suggests a single defibrillation attempt. If this is unsuccessful, CPR should be instituted and rapidly rewarming begun. Defibrillation should be reattempted when the core temperature reaches 30°C (86°F).

3.8.4 BAROTRAUMA / DECOMPRESSION ILLNESS - DIVE INJURIES

Tallahassee Memorial

Purpose: Barotrauma and decompression illness is caused by changes in the surrounding atmospheric pressure beyond the body's capacity to compensate for excess gas load. These injuries are most commonly associated with the use of SCUBA (SelfContained Underwater Breathing Apparatus). SCUBA diving emergencies can occur at any depth with the most serious injuries manifesting symptoms after a dive. It should be understood that if a patient took a breath underwater, from any source of compressed gas (e.g. submerged vehicle, SCUBA, etc) while greater than three (3) feet in depth then ascended to the surface, the patient may be a victim of barotrauma. Barotrauma may cause several injuries to occur including: arterial gas embolism (AGE), pneumothorax, pneumomediastinum, subcutaneous emphysema, and the "squeeze". Decompression illnesses may also include decompression sickness ("Bends").

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Trauma Supportive Care Protocol 3.1.4,
2. High-flow O_2.
3. Place patient supine. Vomiting patient s should be placed in the left lateral decubitus position to prevent aspiration. (c).
4. Complete the Dive Ac Adent Signs and Symptoms Checklist (see Forms Section).
5. Start Dive History Profile (see Forms Section), if possible (the patient's dive buddy maybe helpful in answering many of these questions).
6. Start Rapid Neuro Field Exam Record (see Forms Section).
7. Whenever possible, have the legal authority in charge (e.g. police, Florida Marine Patrol, U.S. Coast Guard, etc.) secure all of the victims dive gear with proper chain of custody for testing, analysis, etc.
8. Manage patient according to appropriate protocol(s).
9. Transport to closest Emergency Department or Trauma Center.
10. If using air transport for diving accident patient; cabin altitude must be below 1000 feet.
11. Contact Diver's Alert Network (DAN) at Duke University Medical Center collect at (919) 684-4326 or (919) 648-8111 for further assistance (a).

ALS LEVEL 1: PARAMEDIC ONLY

1. None .

ALS LEVEL 2: MEDICAL CONTROL

1. Call medical control or medical director for any questions or concerns.

NOTE:

(a) DAN may be contacted while on scene or after arrival at the hospital. If at hospital, give name of ED physician and ED phone number.

(b) The two most serious dive related accidents are **Air Embolism** (arterial gas embolism), and **Decompression Sickness** (venous gas embolism)

(c) According to the U.S. Navy Diving Manual, dive accident victims should be transported lying flat. Although most of the diving community teaches that victims should be transported with the victim on his left side, head lower than the rest of the body. When placing a victim in the Dive Accident Management Position lay him flat on a backboard. The only time a victim should be placed on his side is if a pneumothorax exists, or there is a possibility of regurgitation. If the patient has a pneumothorax, place him on the affected side otherwise, left lateral decubitus if vomiting.

3.8.5 ELECTRICAL EMERGENCIES

Purpose: A wide range of injuries can be caused from a lightning strike or contact with electricity. Electrical injury can occur from direct contact, an arc, or a flash of the electricity and a direct hit or a splash from lightning. The movement of electrical current through the body can cause violent muscle contractions that can lead to fractures, and therefore, the C-spine should be protected. The thermal energy can cause external burns, but in many cases the majority of thermal damage is internal, with few external signs of injury. Dysrhythmias are also common (e.g. ventricular fibrillation). The rescuer should be sure that the patient is no longer in contact with the electrical current before initiating treatment.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Trauma Supportive Care Protocol 3.1.4 (protect C-spine).
2. Treat burns per Pediatric Burn Protocol 3.9.7.
3. Consider need to transport to a trauma center

ALS LEVEL 1: PARAMEDIC ONLY

1. Treat dysrhythmias per specific protocol (see Pediatric Cardiac Dysrhythmida Protocol 3.3).

ALS LEVEL 2: MEDICAL CONTROL

1. Call medical control or medical director for any questions or concerns.

3.9
PEDIATRIC
TRAUMA EMERGENCIES

3.9 PEDIATRIC TRAUMA EMERGENCIES

Overview: These protocols cover specific types of injuries and their treatment. The initial assessment of the trauma patient should include determination of trauma alert criteria (see appendix for trauma alert criteria). When the situation demands (e.g. trauma alert criteria is met), scene time should be limited as much as possible (e.g.10 minutes) and the patient should be expeditiously transported to a trauma center. Do not delay transport to establish vascular access or bandage and splint every injury. Priority should be given to airway management, rapid preparation for transport (e.g. full immobilization on a backboard) and control of gross hemorrhage.

If a vascular access is obtained and hypovolemia is suspected (e.g. signs and symptoms of shock), a fluid challenge of 20 ml/kg should be administered. If the patient is still in shock, repeat fluid challenge at 20 ml/kg until a maximum of 60 ml/kg is administered. However, administration of large volumes of IV fluids has been found to be deleterious to the survival of patients with uncontrolled hemorrhage, internally or externally. In recent studies (NEJM 1994), it has been shown that maximal fluid resuscitation may increase the bleeding, preventing the formation of a protective thrombus or dislodging it once the intraluminal pressure exceeds the tamponading pressure of the thrombus. Therefore, **consult with the physician should be made prior to the administration of large volumes of IV fluids when the transport time is relatively short (e.g. < 20 minutes).**

Avoid the use of vasopressors agents (e.g. Dopamine) in trauma patients that are hypotensive (see appendix- pediatric vital signs)

The pregnant adolescent female in her third trimester should be placed on her left side for transport. If the injuries require the use of a backboard, following full immobilization to the backboard, said board should be tilted to the left. Failure to follow this practice may cause hypotension due to decreased venous return.

3.9.1 HEAD AND SPINE INJURIES

Purpose: If history, symptoms, or signs of head or spinal injuries are present, manually immobilize the head and neck while maintaining a patent airway using a modified jaw-thrust method. Immobilization of the entire spine is indicated following initial stabilization.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Trauma Supportive Care Protocol 3.1.4. with appropriate C-Spine precautions
2. If not hypotensive (see Appendix 7.10 - Pediatric Vital Signs), elevate head of backboard 30 degrees (12-18 inches).
3. If child is asleep upon arrival, gently arouse him/her to assess the level of consciousness or irritability. If the child is upset, allow some time for the child to settle down before comtinuing with the exam.
4. Perform a through head-to-toe assessment for trauma, including an ageappropriate neurologic exam and musculoskeletal exam.
5. Assess for and document a Glasgow Coma Scale

ALS LEVEL 1: PARAMEDIC ONLY

1: If signs of brainstem herniation exist (e.g. pupillary dilation, asymmetric pupillary reactivity, or motor posturing), consider intubation and ventilate @ 20/minute for child and 30/minute for infant

2. If patient is seizing, see Pediatric Seizure Protocol 3.5.2 (avoid glucose containing solutions and medications).

ALS LEVEL 2: MEDICAL CONTROL

1. Call medical control or medical director for any questions or concerns.

3.9.2 EYE INJURIES

Purpose: This protocol covers a variety of injuries to the eye. If other injuries to the body exist, priority of care should be given as appropriate.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Trauma Supportive Care Protocol 3.1.4 (establish IV PRN). 2. Remove or ask to the patient to remove contact lenses, if still in the affected eye(s).
3. For penetrating object, stabilize object and cover affected eye with an ocular shield or similar rigid device. Cover both eyes to minimize eye movement. Avoid direct pressure on eye or penetrating object.
4. If eyeball has been forced out of the socket, cover the entire eye area with a rigid container, such as a disposable drinking cup. Avoid contact with the exposed globe. If bleeding, control by direct pressure with a sterile dry dressing.
5. If there are signs and symptoms or suspicion of ocular exposure to chemicals or foreign body, without obvious or suspected penetrating injury or laceration of the cornea or globe, irrigate with Normal Saline IV solution.

ALS LEVEL 1: PARAMEDIC ONLY

1. none

ALS LEVEL 2: MEDICAL CONTROL

1. Call medical control or medical director for any questions or concerns.
2. Contact med control for pain medication order if needed.

3.9.3 CHEST INJURIES

Purpose: This protocol covers both blunt and penetrating chest trauma and should be part of initial resuscitation if breathing is compromised.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Trauma Supportive Care Protocol 3.1.4.
2. Penetrating injuries to the chest or upper back should be covered immediately with an occlusive dressing (e.g. Vaseline gauze).
3. Do not attempt to remove an impaled object (stabilize with bulky dressing, etc.). If impaled object is very large or unwieldy, attempt to cut object to no less than six inches from chest.

ALS LEVEL 1: PARAMEDIC ONLY

1. Do not delay transport to establish vascular access or bandage and splint every injury
2. For tension-pneumothorax, with evidence of respiratory and circulatory compromise, decompress chest on affected side (see Medical Procedure Needle Decompression 4.26).
3. For massive flail chest with severe respiratory compromise, intubate and ventilate @ 20/minute for child and 30/minute for infant. If flail chest does not cause severe respiratory compromise, stabilize externally using ipsilateral arm in sling and swathe.
3. For crush injury, establish two large bore IVs. If crushing object is still on patient, infuse a minimum of 20 ml/kg of fluid before attempting to lift object off of patient.
4. For traumatic asphyxia**, Sodium Bicarbonate (8.4%)** 1 mEq/kg IV (a).
5. If a vascular access is obtained (IV or IO) and hypovolemia is suspected (e.g. signs and symptoms of shock), a fluid challenge of 20 ml/kg should be administered. If the patient is still in shock, repeat fluid challenge at 20 ml/kg until a maximum of 60 ml/kg is administered.
6. Avoid the use of vasopressors agents (e.g. Dopamine) in trauma patients that are hypotensive

ALS LEVEL 2: MEDICAL CONTROL

1. Call medical control or medical director for any questions or concerns.
2. Consult with the physician should be made prior to the administration of large volumes of IV fluids when the transport time is relatively short (e.g. < 20 minutes).

Note:

(a) Sodium Bicarbonate (4.2%) 1 mEq/kg IV/IO should be administered to infants (dilute 8.4% 1:1 with Normal Saline to make 4.2%).

3.9.4 ABDOMINO-PELVIC INJURIES

Purpose: This protocol covers blunt and penetrating abdomino-pelvic trauma. Penetrating injuries may also include the chest (see Pediatric Protocol 3.9.3 - Chest Injuries). Also refer to Appendix – Signs of Child Abuse.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Trauma Supportive Care Protocol 3.1.4. (CALL TRAUMA ALERT IF APPROPRIATE)
2. For penetrating injuries, cover with an occlusive dressing (e.g. Vaseline gauze).
3. For evisceration, cover organs with saline soaked sterile dressing and then cover with an occlusive dressing (e.g. foil). Do not attempt to put organs back into abdomen.
4. Do not log roll patient with suspected pelvic fracture (may use scoop stretcher if appropriate to patient size).

ALS LEVEL 1: PARAMEDIC ONLY

1. Do not delay transport to establish vascular access or bandage and splint every injury
2. If a vascular access is obtained and hypovolemia is suspected (e.g. signs and symptoms of shock), a fluid challenge of 20 ml/kg should be administered. If the patient is still in shock, repeat fluid challenge at 20 ml/kg until a maximum of 60 ml/kg is administered.
3. Avoid the use of vasopressors agents (e.g. Dopamine) in trauma patients that are hypotensive

ALS LEVEL 2: MEDICAL CONTROL

1. Call medical control or medical director for any questions or concerns.
2. Consult with the physician should be made prior to the administration of large volumes of IV fluids when the transport time is relatively short (e.g. < 20 minutes).

3.9.5 EXTREMITY INJURIES

Purpose: This protocol covers open and closed injuries to the extremities, including amputation.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Trauma Supportive Care Protocol 3.1.4 (establish IV PRN).
2. Any fracture or suspected fracture should be splinted appropriately with ice to area. Remove and secure all jewelry. Check and document distal neurovascular status pre and post splinting.
3. Angulated fractures should be aligned using proximal and distal traction during splinting, except in fractures that involve a joint, which should be splinted in the position found.
4. Traction splints should be used in cases of femur fractures, unless a pelvic fracture is suspected. Sheet splint suspected pelvic fractures.
5. Amputations should be dressed with bulky dressings and amputated part should be wrapped in moistened sterile gauze and placed in plastic bag and then the bag placed on ice for transportation to the hospital.
6. Do not delay transport to establish vascular access or bandage and splint every injury

ALS LEVEL 1: PARAMEDIC ONLY

1. See Pediatric Pain Protocol 3.1.5 for pain management.
2. If a vascular access is obtained and hypovolemia is suspected (e.g. signs and symptoms of shock), a fluid challenge of 20 ml/kg should be administered. If the patient is still in shock, repeat fluid challenge at 20 ml/kg until a maximum of 60 ml/kg is administered.

ALS LEVEL 2: MEDICAL CONTROL

1. Call medical control or medical director for any questions or concerns.
2. Consult with the physician should be made prior to the administration of large volumes of IV fluids when the transport time is relatively short (e.g. < 20 minutes).

3.9.6 TRAUMATIC ARREST

Purpose: The decision to attempt resuscitation of a traumatic arrest should be based on the paramedic's judgment as to the possibility of survival and/or the possibility of organ harvest. There are instances where resuscitation of a traumatic arrest is not warranted (see Administrative Guidelines-1.2.5 DNR/Resuscitation Considerations/DOA).

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Trauma Supportive Care Protocol 3.1.4.
2. Rapidly prepare patient for transport and then expeditiously transport patient to the trauma center.

ALS LEVEL 1: PARAMEDIC ONLY

1. If IV(s) can be established, infuse Normal Saline 20 ml/kg up to 60 ml/kg IV.
2. Avoid use of vasopressors in cases of suspected hypovolemia.
3. Call Trauma Alert if applicable

ALS LEVEL 2: MEDICAL CONTROL

3. Call medical control or medical director for any questions or concerns.

3.9.7 BURN INJURIES

Purpose: Burns can be caused by thermal, chemical, and electrical sources. If an electrical burn is suspected, also see **Pediatric Protocol 3.8.5 - Electrical Emergencies**. Remember that burn patients are volume depleted. However, burns do not bleed; therefore, look for other sources of bleeding. Assume that any patient with compromised perfusion has other injuries and treat accordingly. Many burn injuries are associated with inhalation injury. The signs and symptoms of inhalation injury include: nasal and oropharyngeal burns, charring of the tongue or teeth, sooty (blackened), sputum, singed nasal and facial hair, abnormal breath sounds (e.g. stridor, rhonchi, wheezing, etc.), and respiratory distress. In cases of inhalation injury, attention should be given to the patency of the airway. Acute swelling can cause an airway obstruction. The Paramedic should consider the need for early intubation to avoid a complete airway obstruction that requires a cricothyroidotomy.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

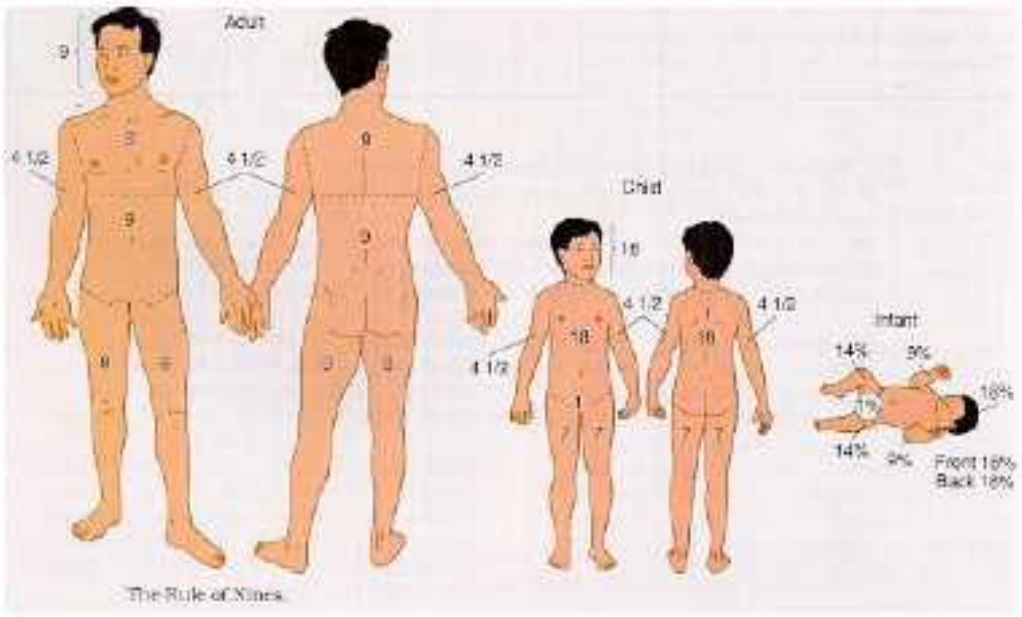
1. Trauma Supportive Care Protocol 3.1.4.
2. Stop the burning process, if necessary (do not cause hypothermia):

Thermal Burns: Lavage the burned area with tepid water (sterile, if possible) to cool skin. Do not attempt to wipe off semisolids (grease, tar, wax, etc.).

Dry Chemical Burns: Brush off dry powder, then lavage with copious amounts of tepid water (sterile, if possible) for 15 minutes.

Liquid Chemical Burns: Lavage the burned area with copious amounts of tepid water (sterile, if possible) for 15 minutes. (When Phenol has caused the burn, flush with copious amounts of tepid water and then apply vegetable oil to area, if available. Isopropyl alcohol may be used for very small areas.)

3. Remove clothing from around burned area, but do not remove/peel off skin or tissue.
4. Remove and secure all jewelry and tight fitting clothing.
5. Assess the extent of the burn using the Modified Rule of Nines and the degree of burn severity (see **Appendix - Burn Severity Categorization** and **Appendix - Rule of Nines**). An additional method is to use the palmar surface of the patient as 1% BSA.
6. Apply dressing to burn area as follows:
    a. If there is 20% 2nd degree or 5% 3rd degree burns, cover burned areas with dry sterile dressings.
    b. If there is < 20% 2nd degree and 5% 3rd degree burns, apply wet sterile dressings to burned areas for 15 minutes to aid in pain control.
7. Prevent hypothermia, keep patient warm and insure that all outer layers of dressings are dry.



ALS LEVEL 1: PARAMEDIC ONLY

1. If respiratory distress, or airway burns exist, prepare to intubate (**RSI** if indicated) or support/assist ventilations.
2. Establish IV (may start IO for severe burns) of Lactated Ringers or Normal Saline. IV fluid administration based on the
    a. **Parkland formula**: % body surface burned X wt (in kg) X 4 cc/kg. One half of this total is given in the first 8 hours from time of burn (if burn occurred 2 hours before you start treatment, then the first half of the amount needs to be given over the next 6 hours).
3. If pulseless or apneic, go to Cardiac Arrest Protocol 3.3.6.
4. If additional injuries, go to specific protocol.
5. For pain management, (see **Pediatric Pain Management Protocol** 3.1.5).

ALS LEVEL 2: MEDICAL CONTROL

1. Call medical control or medical director for any questions or concerns.

Burn Classification	Characteristics
Minor burn injury	◆1°burn ◆2° burn < 15% BSA in adults ◆2° burn < 5% BSA in children/aged ◆3° burn < 2% BSA
Moderate burn injury	◆2° burn 16-25% BSA in adults ◆2° burn 5-20% BSA in children/aged ◆3° burn 2-10% BSA
Major burn injury	◆2° burn > 25% BSA in adults ◆2° burn > 20% BSA in children/aged ◆3° burn > 10% BSA ◆Burns involving the hands, face, eyes, ear feet, or perineum ◆Most patient with inhalation injury, electric injury, concomitant major trauma, or significant pre-existing diseases

3.10
CHILDREN WITH SPECIAL HEALTHCARE NEEDS

3.10 CHILDREN WITH SPECIAL HEALTHCARE NEEDS:

Overview: These protocols cover specific types of special healthcare needs in pediatric patients. "Children with special healthcare needs are those who have or are at risk for chronic physical, developmental, behavioral, and emotional conditions that necessitate use of health and related services of a type or amount not usually required by typically developing children."

The general approach to children with special healthcare needs includes the following:

1. Priority is given to the ABCs.
2. Do not be overwhelmed by the machines.
3. Listen to the caregiver.
4. If a nurse is present, rely on their judgment. 5. Remember…the child's cognitive level of function may be altered.
6. Assume that the child can understand exactly what you say.
7. Bring all medications and equipment to the hospital.

Obtaining a history includes asking the parent/caregiver the following:

1. Child's normal vital signs. 2.
Child's actual weight.
3. Developmental level of the child.
4. Child's allergies – include latex.
5. Pertinent medications/therapies.

American Heart Association: PALS Provider Manual, 2002: p.287.

3.10.1 HOME MECHANICAL VENTILATORS

Purpose: Home mechanical ventilators may be indicated for chronically ill children with abnormal respiratory drive, severe chronic lung disease, or severe neuromuscular weakness. Some children require continuous mechanical ventilation, while others only require intermittent support during sleep or acute illness. Home ventilators may either be volume limited or pressure limited. All are equipped with alarms.

Types of ventilator alarms:

1. Low pressure or apnea – may be caused by a loose or disconnected circuit or an air leak in the circuit or at the tracheostoma, resulting in inadequate ventilation.

2. Low power – caused by a depleted battery.

3. High pressure – can be caused by a plugged or obstructed airway or circuit tubing, by coughing, or by bronchospasm.

4. Setting error – is caused by ventilator settings outside the capacity of the equipment.

5. Power switchover – occurs when the unit switches from alternating-current power to the internal battery.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Medical Supportive Care Protocol 3.1.3.
2. If ventilator-dependant child is in respiratory distress and the cause is not easily ascertained and corrected, remove the ventilator and provide assisted manual ventilations with a bag-valve device.
3. Consider need for other protocols (e.g. Pediatric Protocol 3.2 - Pediatric Respiratory Emergencies).
4. Don't hesitate to ask the parents or caregiver for help managing the home ventilator since they are likely well versed on its use.
5.

ALS LEVEL 1: PARAMEDIC ONLY

1. None

ALS LEVEL 2: MEDICAL CONTROL

1. Call medical control or medical director for any questions or concerns.

3.10.2 TRACHEOSTOMY

Purpose: Tracheostomies are indicated for long-term ventilatory support, to bypass an upper airway obstruction, and to aid in the removal of secretions. Tracheostomies come in neonatal, pediatric, and adult sizes and can be either single lumen or double lumen. Special attachments include: tracheostomy nose (filtration device), tracheostomy collar (for oxygen or humidification), and Passymuir valve (speaker valve).

Signs of tracheostomy tube obstruction:

1. Excess secretions.
2. No chest wall movement.
3. Cyanosis.
4. Accessory muscle use.
5. No chest wall rise with bag-valve ventilations.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Medical Supportive Care Protocol 3.1.3.
2. If obstruction is present, inject 1-3 ml of Normal Saline into the tracheostomy tube and suction PRN (set suction at 100 mm Hg or less).
3. If unable to clear obstruction by suctioning, remove tracheostomy tube and insert new tube (same size or one size smaller). DO NOT FORCE TUBE. If long term trach patient, parent and/or caregiver usually familiar with this procedure so allow them to assist if they offer.
4. If unable to insert new tracheostomy tube or if unavailable, insert endotracheal tube of similar size into stoma and ventilate with bagvalve-device PRN.
5. If unable to insert endotracheal tube, ventilate with bag-valve-mask over stoma or over patient's mouth while covering stoma PRN.
6. Consider need for other protocols (e.g. Pediatric Protocol 3.2 - Pediatric Respiratory Emergencies).
7.

ALS Level 1: PARAMEDIC ONLY

1. None

ALS LEVEL 2: MEDICAL CONTROL

1. Call medical control or medical director for any questions or concerns.

3.10.3 CENTRAL VENOUS LINES

Purpose: Central venous lines are indicated for administration of medications, delivery of chemotherapy, nutritional support, infusion of blood products, and blood draws. Types of central venous lines include: Broviac/Hickman, Port-a-cath/Med-aport, and percutaneous intravenous catheters (PIC). Central venous line emergencies include: catheter coming completely out, bleeding at the site, catheter broken in half, blood embolus, thrombus, air embolus, and internal bleeding. The uses of SUB-Q ports require special training and should not be used for IV access unless you have been trained and signed off to do so by medical director.

Signs of blood embolus, thrombus, air embolus, and internal bleeding:

1. Chest pain.
2. Cyanosis.
3. Dyspnea.
4. Shock.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Medical Supportive Care Protocol 3.1.3.
2. If catheter is completely out, apply direct pressure to site.
3. If there is bleeding at the site, apply direct pressure.
4. If catheter is broken in half, clamp end of remaining tube.
5. If suspected blood embolus, thrombus, or internal bleeding: clamp line.
6. If suspected air embolism, clamp line and place patient on left side.
7. Consider need for other protocols (e.g. Pediatric Protocol 3.2 - Pediatric Respiratory Emergencies).

ALS Level 1: PARAMEDIC ONLY

1. None

ALS LEVEL 2: MEDICAL CONTROL

1. Call medical control or medical director for any questions or concerns.

3.10.4 FEEDING TUBES

Purpose: Feeding tubes are indicated for administration of nutritional supplements and in patients that have an inability to swallow. Types of feeding tubes include: nasogastric tube (temporary) and gastrostomy tubes (G tube). Types of G tubes include those that are surgically placed, percutaneous endoscopic gastrostomy tubes, PEG tubes, and jejunal tubes (J-tube). Complications include: leaks, bleeding around the site, and displacement of the tube.

Procedure:

BASIC LEVEL: EMT and PARAMEDIC

1. Medical Supportive Care Protocol 3.1.3.
2. If catheter is completely out, apply direct pressure to site.
3. If there is bleeding at the site, apply direct pressure.

ALS LEVEL 1: PARAMEDIC ONLY

1. None

ALS LEVEL 2: MEDICAL CONTROL

1. Call medical control or medical director for any questions or concerns.

3.1 Arterial Puncture
3.2 Needle Aspiration of Pneumothorax
3.3 Oral Intubation
3.4 Surfactant Administration
3.5 Umbilical Catheters

1.0 INTRODUCTION

The following document is written for the guidance of healthcare practitioners in the prehospital environment. The treatment guidelines serve as a general guide and preauthorization for the performance of medical procedures and medication administration during operations and interfacility transports. While no medical protocol or guideline can encompass every possible situation encountered by medical providers in the prehospital setting, the guidelines herein contained are a comprehensive volume covering many potential situations and patient conditions. These guidelines allow personnel to practice with a certain degree or freedom, especially in rural environments where communication with an online physician may be limited or impossible. Personnel may be required to deviate from standard practice in those instances where no prior guidelines exist, or unusual circumstances present themselves. While these guidelines are written in a numbered form, this is no way implies "A" must be accomplished before "B" in every situation or that all steps must be taken in every situation. In cases where guidelines do not exist, delaying patient care to contact an online physician would lead to increased risk of worsening morbidity or mortality and/or where communication is limited or not available, the healthcare practitioners are expected to execute treatment to the best of their ability and training until consultation with a physician is feasible or possible. This collection of guidelines is a dynamic document and will perpetually evolve as the practice of prehospital medicine progresses.

I, Cindy Korte, M.D., Neonatal Transport Team Medical Director of the Tallahassee Memorial Healthcare NICU Transport Team, have reviewed, approved, and adopted these protocols for the use of the Tallahassee Memorial HealthCare NICU Transport Team.

_____ _____

Cindy Korte, M.D. Date
Medical Director

2.0 NEONATE TRANSPORT PROTOCOLS

2.1 Neonate Initial Assessment and Management

2.1.1 General Treatment and Monitoring

History: Any neonate that is transported by the Neonatal Transport Team.

Treatment:

1. Obtain history and treatment information from referring physician and/or nurse.

2. Perform physical examination upon arrival at bedside. Primary survey should include assessment of cardiorespiratory status and vital signs.

3. Perform secondary survey, including:
   a. HEENT
   b. Respiratory
   c. Cardiovascular
   d. GI/GU
   e. Extremities
   f. Neurological status
   g. Skin
   h. Identification of any abnormalities or defects
   i. Identification of IV and arterial access sites, types of IV fluid, rate of IV fluid in mL/kg/day.

4. Record vital signs at least every 30 minutes and any time a significant change in status is noted. When vital signs are not within the normal parameters listed below, document what actions, if indicated, were taken to bring them within normal limits. If action is taken to bring vital signs within normal limits, record the appropriate vital signs every 15 minutes until they return to normal.

   In stable patients, not all deviations from the vital signs parameters listed are abnormal and corrective action may not be indicated. In these cases, document reasons that corrective action is not indicated.

   Temp: 36.5°C – 37.5°C, axillary
   HR: 100-180
   RR: 40-60
   CRT: < 3 sec.
   Mean BP: 30-60 mmHg, varying according to size and gestational age
   Blood glucose: 50-150 mg/dL, unless following Systemic Cooling Protocol, then 60-120 mg/dL.

5. Stabilize temperature at 36.5°C-37.5°C, axillary, using the following: radiant warmer, neonate transport unit, warm packs, plastic covering, and hat.

6. Obtain blood glucose during initial assessment if no results are available from previous one hour. Repeat every 2 hours or PRN for any changes of IV rate or fluids.

   On arrival at accepting facility, RN team member should obtain a final blood glucose, if none done in the previous one hour.

   If routine blood glucose testing has been discontinued on patients being back-transported, and if no feedings will be delayed by the transport, blood glucose tests during transport will not be required.

7. If patient is clinically unstable or at risk for blood loss, obtain Hct or Hgb, if no results available from previous 6 hours.

8. Place all patients on SpO_2 and cardiopulmonary monitor.

9. Place OG tube to straight drainage for respiratory distress, abdominal distention, or any baby to be transported by air. If gastric contents exceed 15 mL or are bilious, reposition OG tube and consider possible bowel obstruction. Refer to Bowel Obstruction protocol. Notify NICU physician.

10. If not done by referring facility, a team member may administer Vitamin K IM.
    Dose: 0.5 mg (birth weight < 1500 grams)
    1.0 mg (birth weight > 1500 grams)

11. Refer to protocols for stabilization orders. Any treatment that is not within these protocols or is in question should be discussed with an NICU physician.

12. Report must be called to an NICU/PICU physician or NNP/ARNP prior to departure from referring facility, unless MD requests otherwise. Nursing report will be called by referring hospital RN and an update will be given by the team prior to arrival to the unit.

2.1.2 Agitation and Pain

History: Neonate intubated with significant respiratory distress or agitation, causing deterioration in patient's condition.

Physical Exam: Neonate's activity level is interfering with ventilation resulting in decrease in oxygenation.

Treatment:

1. Consult NICU physician for order.

2. If physician unavailable then a team member (RN/RT) may administer the following as a 1-time dose only:
   a. Versed: 0.1 - 0.15 mg/kg IV, slow push over 2 minutes
   b. Fentanyl: 1 - 2 mcg/kg IV, slow push
   c. Morphine 0.05 - 0.1 mg/kg, slow push

2.1.3 Fluid Therapy

History: Neonate with history as described in applicable treatment sections of protocols.

Physical Exam: Varies with applicable protocols.

Treatment:

1. Start a PIV for:
   a. Any neonate who has been, or will have been, by the time of arrival at accepting facility, NPO for ≥ 6 hours.
   b. Any neonate < 24 hours old.
   c. Respiratory distress.
   d. Hypoglycemia
   e. Metabolic acidosis
   f. Asphyxia
   g. Seizures
   h. Sepsis

2. Place a UAC or UVC for:
   a. Any unstable neonate when a PIV is unavailable and cannot be readily obtained.
   b. If unnecessary delay is avoided, stable neonates requiring respiratory assistance and who will likely require frequent blood gas sampling may have UAC placed before leaving referring facility.
   c. Obtain AP Babygram (chest & abdomen) X-ray to check placement of UAC/UVC UAC tip should be at L 3-4 (low line) or T 6-9 (high line). UVC tip should be above the diaphragm.
   d. Assess adequacy of perfusion to buttocks and lower extremities when UAC in place.
   e. Hypocalcemia
   f. Shock/anemia

3. Fluids to be infused:
   a. D10W – add heparin 1:1 in UAC/UVC.
   b. D5W – if blood glucose > 150 mg/dL
      - if birth weight < 800 grams
      - add heparin 1:1 in UAC/UVC
   c. Peripheral arterial lines – D5W + 1:1 heparin or NS + 1:1 heparin.

4. Fluid infusion rates:
   a. 50-60 mL/kg/day – significant asphyxia or CHF
   b. 100-140 mL/kg/day- neonates < 750 grams.
   c. 60-100 mL/kg/day – all other neonates, unless otherwise ordered by physician or other protocol.
   d. PAL's – 1-2 mL/hr
   e. For neonates > 1 day old, consult with NICU physician regarding rate and electrolyte additives.

5. Monitor blood glucose closely.

2.1.4 Hypotension and Shock

History: Placental abruption, placenta previa, twin delivery, asphyxia, extreme prematurity, severe respiratory distress, sepsis, congenital heart disease.

Physical Exam: Tachycardia, decreased blood pressure, cyanosis, pallor, decreased capillary refill, mottling, respiratory distress.

Lab data: Metabolic acidosis and elevated lactic acid.

Treatment:

1. If no IV access, establish UAC/UVC or PIV access as soon as possible.

2. Give 10-20 mL/kg of either of these volume expanders over 15-60 minutes (based on gestational age):
   a. Normal saline
   b. FFP – if available from referring hospital blood bank

   Refer to Anemia Protocol, if applicable.

3. Contact NICU physician and if unavailable initiate a dopamine drip at 10mcg/kg/ min if a patient is not responsive with a fluid bolus and has no evidence of volume loss.

2.2 Neonate Respiratory Emergencies

2.2.1 Congestive Heart Failure

History: Suspicion of congenital heart disease such as hypoplastic left ventricle, aortic stenosis, coarctation of aorta, hemodynamically significant patent ductus arteriosus or arteriovenous malformation of the head or liver

Physical Exam: Tachycardia, tachypnea, hepatomegaly, cardiomegaly, active precordium, diaphoresis, poor feeding, decreased capillary refill, cool extremities.

Treatment:

1. **Refer to Respiratory Distress Protocol, if applicable**
2. If respiratory distress requires intubation, a higher PEEP may be required. Consult NICU physician if PEEP > 6 is required to maintain adequate oxygenation.
3. Restrict fluids to 60-80 mL/kg/day.
4. **Refer to Agitation Protocol, if applicable.**
5. If patient has diagnosis of an cyanotic heart defect, initiate or continue PGE infusion at 0.05 mcg/kg/minute. **See Congenital Heart Defect Protocol.**
6. If signs of pulmonary edema are present, consult NICU physician for diuretic order.

2.2.2 Respiratory Acidosis

History: Respiratory distress associated with pneumonia, hyaline membrane disease, meconium aspiration, pneumothorax, or Congestive Heart Failure.

Physical Exam: Respiratory Distress: Flaring, grunting, retracting, tachypnea, diminished breath sounds.

Congestive Heart Failure: Enlarged heart, bounding pulses, active precordium, enlarged liver, respiratory distress, bruit in head/neck in presence of AVM.

Treatment:

1. If pCO_2 is > 60 and pH is < 7.20, intubate and ventilate per **Respiratory Distress Protocol.**

2. Adjust IMV and PIP to maintain pH > 7.20.

2.2.3 Respiratory Distress

History: Prematurity, Meconium, Transient Tachypnea, Congenital Diaphragmatic Hernia, Aspiration, Pneumonia, Sepsis

Physical Exam: Grunting, Retractions, Poor Ventilation/Oxygenation, Apnea, Cyanosis, Poor Breath Sounds

Diagnosis: Chest x-ray revealing "ground glass" appearance, air trapping, pneumothorax, poor aeration, congenital diaphragmatic hernia

Treatment:

1. For respiratory distress, utilize O_2 via BVM, nasal cannula, nasal CPAP or endotracheal tube with CPAP or PEEP to relieve cyanosis and to keep PaO_2 and saturation within normal limits for disease process.

2. Perform oral intubation for resuscitation, airway stabilization, apnea, severe respiratory distress, and/or failure. (pCO_2 > 60mmHg with pH < 7.20, pO_2 < 60 mmHg on $FiO_2 \geq 0.7$).

ETT	Size of Infant	Centimeters Inserted	Gestational Age (weeks)
2.5	Less than 1 kg	7	Below 28
3.0	1 kg-2.0 kg	8	28-34
3.5	2.0 kg-3.0 kg	9	34-38
3.5 – 4.0	Above 3 kg	10	Above 38

3. After intubation, confirm placement by auscultation, CO_2 detection device, and chest x-ray. On chest x-ray, the ETT should be seen between the clavicles and the carina.

4. If ventilation is required, initial ventilator settings should be:
   PIP of 16-24 cm/H_20;
   PEEP of 4-6 cm/H_2O;
   and IMV of 20-60/minute, based on size of patient and degree of illness. After beginning ventilation, assess color, $EtCO_2$, equality of breath sounds and adequacy of chest expansion. Consult with NICU physician if higher settings are needed.

5. After airway is secure/patent, either obtain a CXR, if not already done, or transilluminate the chest to rule out pneumothorax if respiratory distress persists.

6. Obtain an ABG from the UAC, PAL or by arterial puncture. Adjust ventilator settings to maintain pH ≥ 7.20, pCO_2 40-60 mmHg (depending on gestational age and pathophysiology) and PaO_2 60-70 mmHg. May obtain VBG/CBG if unable to obtain ABG.

2.2.4 Congenital Diaphragmatic Hernia

History: Profound respiratory distress and cyanosis at birth or respiratory distress developing soon after birth.

Physical Exam: Scaphoid abdomen, barrel chest, absence of breath sounds on one side, usually the left, shift of heart sounds to unaffected side, bowel sounds in chest, immediate respiratory distress, shock, cardiopulmonary arrest, hypoplastic lungs.

Diagnosis: Chest and abdominal X-ray shows absence or sparsity of gas-containing bowel in abdomen, bowel loops present in affected hemithorax with displacement of the heart and mediastinum to the contralateral side.

Treatment:

1. Intubate and resuscitate patient in most controlled but expedient fashion. Minimize bag/mask ventilation. Intubate to a depth of 6 cm plus the patient's weight in kg. Check CO_2 and get f/u CXR. **Refer to Respiratory Distress Protocol**.

2. Place pre- and post-ductal (right hand and foot) saturation probes. Base all acute decisions on pre-ductal saturations only. Pre-ductal saturations > 94% is desired, but < 94% may have to be tolerated.

3. Consider pneumothorax if sudden deterioration occurs.

4. Place a Replogle tube to 20-23 cm, depending on patient's size. Do not force the tube if resistance is met. Aspirate any stomach contents from tube and place tube to low continuous suction.

5. Reposition infant with unaffected side down if the patient is unstable in supine position. This may or may not have a positive effect.

6. Administer maintenance IV fluid at a rate of 100 mL/kg/day.

7. IV Bolus 10 mL/kg of Normal Saline for MAP <40 mm Hg.

8. Call attending Neonatologist for ventilator adjustments.
   Initial PIP should not be higher than 30 cm H_2O
   PEEP 4-6 cm H_20
   FiO_2 1.0 or as needed to maintain SpO2 of at least 94%
   Set the rate to patient comfort and disease severity, usually between 30 and 50.
   I/E ratio should be 1:2.

9. Communicate blood gases to accepting facility as often as possible.

10. **Refer to Agitation Protocol, as indicated.**

2.2.5 Surfactant Administration

History: Prophylaxis-Infant at high risk of RDS (< 29 weeks) Rescue-Infant mechanically ventilated with clinically confirmed RDS

Physical Exam: Respiratory distress (grunting, retractions), prematurity, meconium-stained amniotic fluid

Diagnosis: RDS (ground glass appearance on CXR), history of Meconium Aspiration Syndrome (meconium aspiration seen on CXR)

Treatment:

1. If infant is not intubated, intubate infant per Respiratory Distress Protocol. Assemble 5 fr feeding tube, syringe and large bore needle.

2. Clear trachea of secretions.

3. Using a sterile technique, slowly withdraw entire contents of vial into syringe through the large bore needle.

4. Attach inline suction catheter to syringe and fill with surfactant.

5. Discard excess through feeding tube so only dose to be given remains in syringe

6. Using sterile technique, administer in aliquots with the infant in different positions to enhance distribution into the lungs.

7. After administration of each aliquot, the dosing feeding tube is removed from the ET tube and the infant is ventilated for at least 30 seconds until stable.

8. Administration of Poractant alpha (Curosurf): Initial: 2.5 mL/kg/dose (200 mg/kg/dose); may repeat 1.25 mL/kg/dose (100 mg/kg/dose) at 12-hour intervals for up to 2 additional doses; maximum total dose: 4 mL/kg OR Survanta 4 mL/kg if Curosurf not available.

Monitoring:

1. Assess ET tube patency and position, O2 saturation, ECG and BP should be monitored continuously during dosing.

2. Assess for impairment of gas exchange caused by blockage of the airway after dosing; frequent assessments of oxygenation and ventilation should be performed to prevent post dose hyperoxia, hypocarbia and overventilation.

3. If possible, obtain ABG 20-30 minutes after surfactant administration and adjust the ventilator based on the results.

2.2.6 Nitric Oxide

History: Inhaled Nitric Oxide (iNO) already started at referring hospital; hypoxic respiratory failure in a neonate of unknown etiology ≥ 34 weeks with an Oxygenation Index (OI) of 20.

Physical Exam: Evidence of respiratory failure, respiratory distress, or OI ≥ 20.

Treatment:

1. The start of iNO will only occur after discussion with the Neonatal physician who is handling the transport. The same protocols shall be used for initiation that is already available in the intensive care unit.

2. The transport team should document the response to iNO therapy upon initiation. It is critical that saturations before and after iNO therapy initiation are noted.

3. iNO, if initiated during transport, will be given for the duration of the transport regardless of the response.

4. Start iNO at 20 ppm or continue at the concentration previously set by the referring hospital.

5. Document the time of initiation of iNO by the team and the referring hospital.

6. An attempt should be made to record the patients pre-ductal and post-ductal saturations.

2.2.7 Pneumothorax

History: Premature infant with respiratory distress, any infant requiring mechanical ventilation, meconium stained fluid with possible aspiration.

Physical Exam: Signs of respiratory distress, hyperinflated chest, absent or diminished breath sounds on one or both sides, sudden deterioration while receiving mechanical ventilation.

Treatment:

1. If pneumothorax is suspected, but neonate is stable with normal pO2 and normal pCO2:
   a. Attempt to transilluminate chest
   b. Obtain chest X-ray to confirm
   c. Consult with NICU physician regarding need for intervention
   d. For neonates to be transported by air, consider the effect of decreased air pressure at altitude on the size of the pneumothorax
   e. Maintain SPO2 greater than 94%

2. If pneumothorax is suspected and neonate is unstable with hypoxemia, bradycardia, or hypotension then:
   a. Perform needle aspiration. **Refer to Needle Aspiration of Pneumothorax protocol.**

2.2.8 Tracheoesophageal Fistula and Esophageal Atresia

History: Maternal polyhydramnios, difficulty feeding, copious oral secretions, exacerbated by feeding.

Physical Exam: Inability to pass orogastric tube (OG) into the stomach. Patient may have copious oral secretions.

Diagnosis: X-ray findings may show OG tube coiled in esophageal pouch when esophageal atresia present. When distal tracheoesophageal (TE) fistula is present, X-ray will show air in stomach and perhaps in bowel. If no air in bowel then likely there is a pure esophageal atresia.

Treatment:

1. If distal TE fistula is suspected, elevate HOB as much as practical during transport to decrease threat of gastric reflux. Avoid or minimize bag/mask ventilation to avoid over distension of stomach.

2. Insert Replogle tube into upper esophageal pouch and suction secretions from pouch PRN. Clear oral secretions with bulb syringe PRN.

3. Place PIV or UAC/UVC if none present. **Refer to Fluid Therapy protocol.**

4. **Refer to Respiratory Distress protocol, if applicable.**

5. Discuss need for antibiotics with NICU physician

2.3 Neonate Cardiac Dysrhythmias

2.3.1 Persistent Bradycardia- Cardiac Arrest

History: Neonate with severe respiratory distress requiring ventilatory assistance.

Physical Exam: Heart rate < 90 bpm for > 20 seconds, profound cyanosis, decreased capillary refill, decreased blood pressure

Treatment:

1. Assess patency of airway and adequacy of ventilation to rule out dislodged or plugged ETT or pneumothorax. Use direct laryngoscopy, chest transillumination or chest X-ray.

2. If bradycardia does not improve with effective ventilation at rates of 40-60 bpm for 30 seconds and heart rate < 60 bpm, begin chest compressions.

3. Notify NICU physician and referring physician.

4. If no IV access, establish UAC/UVC access as soon as possible.

5. Give 0.2 mL/kg of 1:10,000 Epinephrine IV or 0.5 mL/kg of 1:10,000 Epinephrine ET. Repeat if no response within 3-5 minutes.

6. If bradycardia persists, continue chest compressions at 3:1 ratio and ventilate effectively at rate of 40-60 breaths/minute. Reassess patency of airway.

7. Notify NICU physician if further orders needed and update regarding patient's response and condition.

2.4 Other Neonate Cardiac Emergencies

2.4.1 Congenital Heart Disease

History: Patient may not present with symptoms at birth but may develop them as late as 1-2 weeks of age. Risk factors include: Teratogenic influences during pregnancy, Chromosomal anomalies, maternal drug use (Lithium) and maternal illness (diabetes, rubella).

Physical Exam: If the infant has the following on physical exam: heart murmur, heart failure, arrhythmia, cyanosis, poor peripheral perfusion, hepatomegaly, tachypnea, tachycardia, discrepancy in peripheral pulses, oliguria or feeding difficulties.

If decreased pulmonary blood flow: profound cyanosis not entirely accounted for by pulmonary disease, tachypnea, decreased pulmonary markings on chest X- ray, normal or enlarged heart.

If decreased systemic blood flow: decreased capillary refill, decreased blood pressure (especially in lower extremities), decreased urine output, metabolic acidosis with normal or low CO2, and cyanosis.

Optional Diagnostic Tests:

a. 4 extremity blood pressures
b. Pre/Post-ductal oxygen saturations
c. Hyperoxia test:100% oxygen for 10 minutes, then draw ABG on preductal side.

Treatment:

1. Restrict fluids to 60-80 mL/kg/day. If signs of CHF are present, further restrict to 50-60 mL/kg/day. Monitor blood glucose every 1 hour when fluid restricted. Refer to Hypoglycemia Protocol, if applicable.

2. If ductal-dependent lesion is suspected, consult with NICU physician before beginning PGE infusion.
   a. If PGE has been infusing > 6 hours without apnea or significant side effects, intubation prior to transport will be considered elective.

   b. If PGE has been infusing < 6 hours prior to transport, the patient should be intubated and placed on the transport ventilator. **Refer to Respiratory Distress Protocol for ventilator settings.**

   c. Consult the NICU physician to transport non-intubated patient with PGE.

   d. Initiate a continuous PGE infusion at 0.05 mcg/kg/minute through a PIV, UVC or a UAC placed near the ductus arteriosus. May adjust dose based on Pediatric Cardiology input and clinical response. Max dose 0.1 mcg/kg/minute.

3. Consult the NICU physician about decreasing PGE dose if seizures develop while PGE is infusing. **Refer to Seizure Protocol.**

4. **Refer to Metabolic Acidosis Protocol if metabolic acidosis persists** after PGE started, despite signs of improved systemic perfusion

2.5 Other Neonate Medical Emergencies

2.5.1 Anemia

History: Traumatic birth, intrapartum hemorrhage, small premature infant at risk for IVH.

Physical Exam: Tachycardia, decreased capillary refill, decreased or normal blood pressure, respiratory distress with a high oxygen requirement.

Treatment:

1. Consider transfusion of PRBC's for Hct < 25% with signs as noted above. Have referring physician obtain consent and give order.

2. If indicated, transfuse 20 mL/kg cross-matched CMV negative PRBC's. PRBC should be irradiated if possible.

3. If emergent, may transfuse uncross-matched type O negative PRBC's, CMV negative.

   If blood pressure is acceptable, transfuse over 3 hours. If hypotensive, transfuse over 60 minutes.

2.5.2 Bowel Obstruction

History: Maternal polyhydramnios, bilious emesis.

Physical Exam: Abdominal distention, absent anal opening, or may have features of Down Syndrome associated with duodenal atresia.

Diagnosis: Abdominal X-ray may show dilated loops of bowel, free intraperitoneal air, (associated with bowel perforation), "ground glass" appearance, associated with meconium ileus, or "double bubble" associated with duodenal atresia, absence of air in distal bowel.

Treatment:

1. Place a Replogle tube (6-10 fr) catheter into the stomach. Aspirate stomach contents from tube to decompress GI tract. Suction tube contents PRN during transport. If able, place catheter to LCS/LCWS.

2. Start a PIV if none in place. Do not place a UAC/UVC unless infant is having significant respiratory distress.

3. For fluid therapy, run D10W maintenance fluid according to **Fluid Therapy protocol.**

4. **Refer to Sepsis protocol.**

2.5.3 Gastroschisis and Omphalocele

History: Extrusion of bowel through abdominal wall or umbilical cord, obvious at birth.

Physical Exam:

Gastroschisis: Obvious defect in abdominal wall with protruding exposed intestines, usually to the right of the umbilicus, may appear dusky.

Omphalocele: Defect with membrane-covered intestines herniated into the umbilical cord, varying in size and position.

Treatment:

1. Place a Replogle tube into the stomach. Aspirate stomach contents from tube to decompress upper GI tract. Suction stomach contents PRN during transport. If able, place catheter to LCS/LCWS.

2. An EMERGENT situation exists if the viscera in gastroschisis appears extremely dusky, place the patient with the right side down and IMMEDIATELY consult the NICU Physician or pediatric surgeon. A decision may need to be made about opening the gastroschisis defect with scissors to allow more room for blood supply.

3. Cover defect with warm saline-soaked gauze sponges. Cover gauze with plastic wrap or gut bag to preserve moisture.

4. Place PIV. Infuse D10W at maintenance for that neonate for total fluids of approximately 120 mL/kg/day. Do not place UAC/UVC unless approved by NICU Physician.

5. Monitor perfusion status closely. Give 10 mL/kg NS bolus over 15-30 minutes for CRT> 3 seconds.

6. **Refer to Sepsis Protocol.**

2.5.4 Hypoglycemia

History: Infant of a diabetic mother, intrauterine growth retardation, prematurity, NPO without IV fluid > 6 hours.

Physical Exam: Infant large for gestational age, small for gestational age, premature, high-pitched cry, jittery, lethargic, poor feeding, cyanosis, seizures.

Treatment:

1. Obtain blood glucose.
2. If IV in place, assess patency of IV and type of IV fluid infusing.
3. Establish IV access if none present.
4. If blood glucose < 50 mg/dL, give $D_{10}W$ 2 mL/kg IV over 2-3 minutes.
5. If receiving IV fluid with D_5W, change to $D_{10}W$.
6. **Refer to fluid therapy protocol**.
7. Repeat blood glucose 30 minutes after $D_{10}W$ bolus.
8. If no improvement, repeat 2 mL/kg bolus AND increase IV rate by 20%.
9. Repeat blood glucose 30 minutes after 2nd $D_{10}W$ bolus.
10. If no improvement after 2nd bolus consult with NICU physician. Consider changing IV fluids to $D_{12.5}W$ or $D_{15}W$ (central line only for anything greater than 12.5%) with NICU physician's approval.

2.5.5 Metabolic Acidosis

History: Cyanotic heart disease, congestive heart failure, hypoxia, hypovolemia, hypothermia, asphyxia, sepsis.

Physical Exam: Cyanosis, decreased capillary refill, mottled skin, decreased blood pressure, decreased temperature.

Treatment:

1. Correct above conditions per applicable protocols.

2. If $pCO_2 > 60$ mmHg, treat per **Respiratory Distress Protocol** until $pCO_2 < 60$ mmHg, then treat per this protocol.

3. Attempt to find the etiology of the metabolic acidosis and treat the underlying condition.

4. If metabolic acidosis is severe (pH < 7.0), may treat with Sodium Bicarbonate (4.2% concentration) 1-2 mEq/kg IV over 30 minutes. Consult with NICU Physician prior to administering Sodium Bicarbonate.

2.5.6 Myelomeningocele

History: Defect noted over spine at birth.

Physical Exam: Presence of external membranous sac along the central nervous system. Small defect may be represented by a tuft of hair or abnormal dimple. Sac maybe closed with no leaking fluid noted or open with leakage of CSF. Lower limbs may be deformed with decreased movement.

Treatment:

1. If leakage of CSF is present, obtain culture with sterile cotton swab.

2. **Refer to Sepsis Protocol**. If sac is intact without drainage and no other signs of sepsis are present, consult with NICU physician about whether to start antibiotics.

3. Cover lesion with sterile saline-soaked gauze or Telfa. Cover gauze with plastic wrap.

4. Place infant in lateral decubitus or prone position for transport to keep pressure off the defect.

5. Avoid use of latex products, including latex gloves, in the presence of a meningomyelocele.

2.5.7 Seizures

History: Significant asphyxia, significant birth trauma, intracranial hemorrhage, infant with CHD on PGE infusion, Electrolyte imbalances (hyponatremia, hypocalcemia, hypoglycemia).

Physical Exam: Apnea, lip-smacking, tongue-thrusting, bicycling leg movements, deviation of eyes, tremors that persist when affected limb is held, tonic/clonic movement of extremities, or stiffening and arching of back.

Treatment:

1. Apply monitors per general treatment and monitoring protocol.
2. Check blood glucose.
3. If blood glucose is low, **refer to Hypoglycemia protocol.**
4. If blood glucose is normal, check calcium and electrolytes.
5. Have equipment ready to intubate if respiratory depression occurs.
6. Give Phenobarbital 20 mg/kg slow IV. May repeat dose of 10 mg/kg once, if needed to stop seizures, to maximum dose of 30 mg/kg.
7. If 30 mg/kg of Phenobarbital has not been given prior to transporting patient, have Phenobarbital available to give during transport, if needed.
8. If seizures persist despite total dose of Phenobarbital of 30 mg/kg, consult with NICU physician for further orders.

2.5.8 Sepsis

History: Maternal fever, maternal amnionitis/chorioamnionitis, prolonged rupture of membranes > 18 hours, abnormal WBC or differential, undifferentiated respiratory distress, poor feeding, open defects.

Physical Exam: Elevated or decreased temperature, apnea, bradycardia, respiratory distress, seizures, jittery.

Treatment:

1. Obtain blood cultures by venipuncture or from UAC/UVC at placement and sterile field still present.

2. Administer Ampicillin 50 mg/kg IV.

3. Administer Gentamicin over 30 minutes

Gestation (weeks)	Age (days)	Dose (mg/kg)	q hours
<29	0-7	5	48
	8-28	4	36
	≥ 29	4	24
30-34	0-7	4.5	36
	≥ 8	4	24
≥ 35	ALL	4	24

2.5.9 Systemic Cooling

History: Patients with a presumptive diagnosis of hypoxic-ischemic encephalopathy who meet ALL of the following five criteria are eligible for this order set.

Check off each positive finding:

1. Gestational Age ≥ 35 weeks

2. Birth weight ≥ 1.8 kg

3. Patient is ≤ 6 hours of age

4. **ONE OR MORE** of the following predictors of severe HIE:
   a. pH ≤ 7.0 with base deficit ≥ 16 on ABG (base excess more negative than -16)

   b. pH 7.01-7.15, base deficit 10-15.9 or no ABG available and acute perinatal event (cord prolapse, HR decelerations and/or uterine rupture) and either an APGAR ≤ 5 at 10 minutes or assisted ventilation at birth for ≥ 10 min

   NOTE: If a cord gas or patient arterial blood gas is not available, a venous blood gas may be used for screening criteria.

5. Seizures or 3 of 6 of the following:

Clinical Criteria	Signs of Encephalopathy	
	Moderate	Severe
1. Level of Consciousness	Lethargic	Stupor/coma
2. Spontaneous activity	Decreased activity	No activity
3. Posture	Distal flexion, complete extension, frog leg posture	Decerebrate
4. Tone	Hypotonia (focal or general), hypertonia (focal or truncal)	Flaccid
5. Primitive reflexes		
Suck	Weak or bite	Absent
Moro	Incomplete	Absent
6. Autonomic System		
Pupils	Constricted	Skew deviation/dilated/non-reactive to light
Heart Rate*	Bradycardia	Variable
Respirations	Periodic	Apnea or intubated

HR should only be used as an entry criteria if the patient in normothermic at the time of staging.

Physical Exam: Apnea, lethargy, decreased muscle tone, fixed or constricted pupils, absent suck, absence or presence of myoclonus.

Treatment:

1. The transport team will initiate hypothermia rapidly and effectively at outlying hospitals prior to transport of newborns and within 6 hours of birth.

2. The babies will be cooled to a target rectal temperature of 33.5° C by turning off overhead and transport isolette warmers.

3. The transport team will monitor rectal temperatures every 15 minutes during transport via the continuous rectal temperature monitor until the patient is placed on the cooling system, at which time, the rectal probe with be replaced by the cooling system rectal probe.

4. If the newborn's rectal temperature is < 32° C, then the baby should be rewarmed by 0.5° C per hour by setting the isolette temperature at 0.5° C above patient's rectal temperature before placing the patient on the cooling system. Check rectal temperatures every 15 minutes, even if the skin probe is being used, in order to maintain rectal temperatures in the desired range of 33-33.5° C. Increase the set temperature 0.2-0.5° C above patient's rectal temperature every 30 minutes to rewarm to within desired range when the patient is placed on the cooling system.

5. Apply the cooling system wrap to the infant upon arrival to the referring unit and after physical assessment complete. Connect the patient to the cooling system device once inside the transport vehicle and apply the rectal and skin probes. Place the skin probes on a hard body surface area. Turn on cooling system and place in hypothermia mode with a default temperature of 33.5° C.

6. Maintain patient's heart rate 80-120 bpm (anything higher is considered tachycardic in a hypothermic patient). Assess for signs/symptoms of hypovolemia/bleeding (IVH, liver laceration-especially after CPR), if heart rate > 120 bpm.

7. Initiate a fentanyl drip at 0.5 mcg/kg/hour and follow the **Agitation Protocol**.

8. Maintain a blood glucose between 60-120 mg/dL. If blood glucose < 60 mg/dL, bolus patient with 2 mL/kg D10W and change maintenance IVF to D12.5W or D15W (if central line is present). Maintain total IV fluids 60 mL/kg/day, per NICU physician order.

9. If glucose is > 120 mg/dl then adjust maintenance fluids to lower dextrose concentration.

3.0 NEONATE TRANSPORT PROCEDURES

3.0 Neonate Procedures

3.1 Arterial Puncture

Purpose: Evaluation of arterial oxygenation and ventilation

Equipment: Commercially available blood gas kit or
- 1 mL syringe
- 23G or 25G needle/butterfly
- 0.5 mL sodium heparin (1:10 units)
- Stopper or cap
- Sterile germicide
- Gloves
- Gauze/Cotton balls

Procedure:

1. Using 2 patient identifiers (name and medical record number), verify the correct patient.

2. Record the patient's inspired oxygen concentration. (Rationale: Changes in inspired oxygen concentration alter the change in PaO2. The degree of hypoxemia cannot be assessed without knowing the inspired oxygen concentration)

3. Wash hands and don gloves.

4. If not using a commercially available blood gas kit, withdraw heparin into the syringe to wet the plunger and fill dead space in the needle.

5. Hold syringe in an upright position and expel excess heparin and air bubbles. (Rationale: Air in the syringe may affect measurement of PaO2; heparin in the syringe may affect measurement of the pH)

6. Palpate the radial, dorsalis pedis, or posterior tibial artery.

7. Feel along the course of the radial artery and palpate for maximum pulsation with the middle and index fingers. Prepare the skin with germicide.

8. The needle is at a 45- to 60-degree angle to the skin surface and is advanced into the artery. Once the artery is punctured, arterial pressure will push up the hub of the syringe and a pulsating flow of blood will fill the syringe on the commercially available blood gas kits or the butterfly tubing.

9. After drawing the appropriate amount of blood, withdraw the needle and hold pressure with gauze/cotton ball for up to 5 minutes.

10. Run specimen on point of care blood gas analyzer or send the labeled specimen to the laboratory immediately.

11. Palpate the pulse (distal to the puncture site), inspect the puncture site, and assess for cold hand, numbness, tingling, or discoloration.

12. Change ventilator settings, inspired oxygen concentration or type and setting of respiratory therapy equipment if indicated by the results.

3.2 Needle Aspiration of Pneumothorax

Purpose: To remove air, fluid, or blood from the pleural space.

Equipment:

- Betadine or antimicrobial scrub
- Sterile gloves
- 23 gauge butterfly or 18/20/22 gauge angiocath (depending on patient's size)
- 3 way stopcock
- T connector
- 12 mL syringe
- Sterile gauze

Procedure:

1. Wash hands.

2. Using 2 patient identifiers (name and medical record number), identify correct patient. Verify chest x-ray to ensure location of pneumothorax.

3. Position the infant with affected side elevated 45 degrees from horizontal using a roll or towel or supine for anterior tap. (Helpful tip: Secure the shoulder internally rotated with arm extended to bring air to lateral side.)

4. Prep lateral or anterior portion of chest with antimicrobial solution. Remove excess and allow skin to dry.

5. Insert 23 gauge butterfly with attached stopcock and syringe (or angiocath with attached stopcock, T connector, and syringe) over the top of the rib into 4th intercostal space along the anterior axillary line for a lateral tap or in the T2-3 innerspace in the midclavicular line for an anterior tap.

6. While inserting syringe, aspirate and evacuate as much air as possible.

7. Once air is evacuated and needle is removed, place an occlusive dressing (Tegaderm with or without gauze) over puncture site.

8. Chart amount of air aspirated and how patient tolerated procedure.

3.3 Oral Intubation

Purpose: To assist the infant with oxygenation and ventilation or to stabilize an airway for transport.

Equipment:

- **Anesthesia bag or self-inflating bag valve mask and appropriately sized mask**
- **Laryngoscope blade(s) and handle**
- **Stylet**
- **½" tape or Elastikon tape, if available**
- **Skin protectant**
- **Scissors**
- **Suction equipment**
- **6, 8, or 10 French suction catheter**
- **Stethoscope**
- **CO2 detector**

Endotracheal Tube:

• Less than 1 Kg	2.5 ETT
• 1-2Kg	3.0 ETT
• 2-3Kg	3.5 ETT
• Greater than 3 Kg	4.0 ETT

Procedure:

1. Wash hands.
2. Using 2 patient identifiers (name and medical record number), identify correct patient.
3. If needed, administer sedation per Agitation protocol.
4. Inspect and assemble above equipment.
5. Position infant as needed to align airway, using a shoulder roll, if necessary. (Helpful tip: Do not hyperextend the neck as this will compress the trachea.)
6. Provide positive pressure ventilation until infant's heart rate is > 100 and the baby is well oxygenated.
7. Hold laryngoscope in left hand
8. Starting in the right side of the mouth, slide laryngoscope blade into mouth, pushing the tongue to the left.
9. Insert blade until vocal cords are visualized. Suction as needed.

10. Holding the ET tube in the right hand, insert it along the side of the blade 0.5 cm past the vocal cords. (Helpful tip: Position ETT beside the blade to allow unobstructed view through the cords.)

11. Secure ET tube to upper gum line while assistant removes stylet and attaches CO2 detector.

12. Provide PPV, looking for color change within the CO2 detector and auscultate for equal, bilateral breath sounds. (Helpful tip: Breath sounds will be louder on the right if there has been a right mainstem intubation.)

13. Note the “lip to tip” measurement
(Helpful tip “Lip to tip” Measurement: 6+weight in kilograms)

14. While holding the ETT securely to the upper gumline, have assistant apply skin protectant to upper lip and secure ETT with tape.

15. Obtain portable AP CXR.

16. Document X-ray confirmation of tube position, quality of breath sounds, ETT size, and how baby tolerated procedure.

3.4 Surfactant Administration

Purpose: Prophylaxis-Infant at high risk for RDS (< 29 weeks)
Rescue-Infant mechanically ventilated with clinically confirmed RDS

Treatment: Consult NICU physician
Administer intratracheal: ***verify dose with 2nd team member**
- Curosurf: 2.5 mL/kg/dose, may repeat 1.25 mL/kg/dose
- Survanta: 4 mL/kg/dose divided into 4 aliquots

Equipment:
- 5 Fr feeding tube
- Surfactant
- Large bore needle
- Syringe (appropriate size for dosing)
- Sterile gloves
- Anesthesia bag or ventilator
- Suction equipment

Procedure:
1. Wash hands.
2. Using 2 patient identifiers (name and medical record number), verify correct patient.
3. If infant is not intubated, intubate infant using per Respiratory Distress Protocol.
4. Assemble 5 Fr feeding tube, syringe, needle and sterile gloves.
5. Clear trachea of secretions.
6. Using a sterile technique, slowly withdraw the entire contents of vial into syringe through a large bore needle.
7. Attach feeding tube to the syringe and fill with surfactant.
8. Discard excess surfactant through feeding tube so only the administered dose remains in syringe.
9. Using sterile technique, administer in aliquots with the infant in different positions to enhance distribution into lungs.
10. After administration of each aliquot, the dosing catheter is removed from the ET tube and the infant is ventilated at least 30 seconds until stable.

Monitoring:

1. Assess ET tube patency and position. O2 saturation, ECG and BP should be monitored continuously during administration.

2. Assess for impairment of gas exchange caused by blockage of the airway after dosing; frequent assessments of oxygenation and ventilation should be performed to prevent post- dose hyperoxia, hypocarbia, and over inflation.

3. If possible, obtain ABG 20-30 minutes after surfactant administration and adjust the ventilator based on the results.

3.5 Umbilical Catheters

Purpose: To obtain arterial/central access in a baby with significant respiratory distress. To monitor central blood pressure, infuse fluids, obtain blood specimens, give medications, or perform exchange transfusions.

Equipment:

Special procedure tray
1. Sterile towels
2. 2 oz. container
3. Scissors
4. Needle holder
5. 1 mL syringe
6. 3 mL syringe
7. 20 and 25 gauge needles
8. Suture
9. Sterile gauze
10. Scalpel
11. Eye forceps

3.5 and 5 French umbilical catheters

3.5 French catheter for infants < 1500 g
5 French catheter for infants > 1500 g

- IV pump
- Primed IV tubing with filter and pressure transducer
- NS with Heparin 1:1 flush
- Betadine or Hibistat antimicrobial solution
- Sterile gauze
- Sterile gloves
- 3 way stopcock
- (2) 3 mL syringes
- Large bore needle
- Limb restraints
- Wide tape
- Sterile occlusive dressing (e.g. Tegaderm)
- Umbilical tape
- Suture
- Scalpel

Procedure:

1. Wash hands.

2. Using 2 patient identifiers (name and medical record number) verify correct patient.

3. Prepare infant
   a. Place infant supine on radiant warmer
   b. Restrain arms and legs with limb restraints and/or placing linen or gauze over knees and using yellow tape to secure
   c. Calculate the catheter insertion length:

      UAC Low line- birth weight+ 7cm (not normally used)
      UAC High line- calculate (birth weight in kg x 3) + 9
      UVC ½ birth weight +9

4. Prepare equipment
   a. Using sterile technique, open suture tray
   b. Pour betadine or Hibistat into sterile cups and label cups appropriately. Fill another sterile cup with D5W w/ Hep 1:1 or NS w/ Hep 1:1
   c. Don sterile gloves, sterile gown, mask, and hat
   d. Connect 3 way stopcock to umbilical catheter
   e. Prime all ports of 3 way stopcock and umbilical catheter with heparinized saline or heparinized D5
   f. Leave NS/D5W flush syringes attached to 3 way stopcock ports and turn stopcock off to the catheter.

5. Insertion method
   a. Prep abdomen and cord with antimicrobial solution
   b. Drape with sterile towels
   c. Place umbilical tape around base of cord
   d. Cut cord to approximately 1.5 cm above skin line to adequately visualize the umbilical vessels.

      Vessel identification: Arteries are thick walled, whitish, and usually protrude from the cut surface. Vein is thinner walled, larger than the arteries, and not as stiff.

   e. Stabilize vessel by grasping cord with eye forceps or hemostats near vessel wall.

      Do not pull as this tends to produce or intensify arteriospasm.

   f. Depending on size of vessel, gently probe and dilate the vessel with the curved iris forceps, eye forceps, or catheter introducer to a depth of 0.5 cm.
   g. Allow the forceps to open slowly and hold the vessel open.
   h. Release the forceps or hemostat stabilizing the stump.
   i. Using steady pressure, gently insert the catheter in the direction of the symphysis pubis to the predetermined length.

6. Confirmation of placement
   a. Aspirate syringe on 3 way stopcock to evaluate for blood return
   b. Slowly return blood and flush umbilical catheter
   c. If difficulty is encountered, withdraw catheter and attempt to cannulate other artery.
   d. Order portable abdominal AP X-ray to confirm placement.

      UAC Low line should be at L 3-4
      UAC High line should be at T6-9
      UVC Just above right diaphragm at the IVC/RA junction

7. Secure catheter
   a. Place purse string suture around cord without piercing arteries or vein.
   b. After X-ray confirmation of placement, cleanse skin of any remaining Betadine (if used) and secure catheter to skin with transparent dressing.

8. Infuse and document fluids per protocol

Complications: Observe infant's feet, toes, and buttocks for duskiness or blanching. If duskiness noted, discontinue catheter, and attempt a catheter with a smaller lumen.

MEDICAL DIRECTOR SERVICES AGREEMENT

This MEDICAL DIRECTOR SERVICES AGREEMENT ("Agreement") is entered into effective as of the 25th day of March 2024, by and between **TALLAHASSEE MEMORIAL HEALTHCARE, INC.**, a Florida nonprofit corporation ("TMH") and, **ALEX HO, M.D.**, an individual ("Medical Director").

RECITALS

WHEREAS, TMH is the owner and operator of a general acute care hospital located at 1300 Miccosukee Road, Tallahassee, Florida, Leon County, and

WHEREAS, TMH operates a fully licensed hospital with medical and surgical facilities and Emergency Medicine Services located in Tallahassee, Leon County, Florida; and

WHEREAS, TMH has patients who are in need of Emergency Medicine services; and

WHEREAS, TMH needs a qualified medical director of the Emergency Medicine Service to insure efficient clinical management, quality performance and proper utilization of the resources of the Emergency Medicine Service.

WHEREAS, TMH desires to contract for certain administrative medical director services as defined in Section 1.3 of this Agreement in the Emergency Medicine Service to assist in the administration, management and operations of the Emergency Medicine Service; and

WHEREAS, Medical Director is a duly licensed physician who has the necessary qualifications to provide who have the necessary qualifications to provide supervision, direction and oversight of the Services within the Emergency Medicine Service in accordance with the terms of this Agreement; and

WHEREAS, the Medical Director provides services as an employee of TMH pursuant to the Emergency Department Specialty Physician (Full-time) Agreement.

WHEREAS, TMH and Medical Director desire to enter into this Agreement in order to provide a full statement of their respective responsibilities in connection with the provision of Services for the Emergency Medicine Service; and

WHEREAS, TMH has determined that entering into this Agreement with Medical Director is an appropriate way to assure satisfaction of the following objectives:

1. To advance TMH's charitable purposes and healing mission;

2. To provide appropriate supervision and proper and consistent administration of the Emergency Medicine Service;

3. To provide necessary control and to standardize procedures performed in the Emergency Medicine Service;

4. To provide appropriate and consistent supervision and training of Emergency Medicine Service personnel;

5. To enhance rapport, communication, teamwork, and morale among Emergency Medicine Service personnel and physicians providing services in the Emergency Medicine Service; and

6. To enhance the overall quality of patient care in the Emergency Medicine Service.

NOW, THEREFORE, in consideration of the foregoing recitals and the mutual promises and covenants contained herein, the parties agree as follows:

SECTION 1. MEDICAL DIRECTOR'S OBLIGATION

1.1 Medical Director Services. In consideration of the compensation set forth herein, Medical Director shall serve as Medical Director of Emergency Services during the term of this Agreement. In the provision of such Services, Medical Director shall report to and shall be subject to an annual performance appraisal and approval by TMH's President and Chief Executive Officer (CEO), or his designee.

1.2 Qualifications of Medical Director. Throughout the term of this Agreement, Medical Director shall:

a. Maintain an unrestricted license to practice medicine in the State of Florida;

b. Be a member in good standing of TMH's Medical Staff ("Medical Staff") with status in the active category with appropriate clinical privileges;

c. Be board certified in Emergency Medicine as required by American Colleges of Emergency Physicians in a specialty area of training and practice related to Emergency Medicine Services;

d. Maintain participating provider status with Medicare and Medicaid programs and not have been deemed excluded from participation in any federally-funded health care program, including Medicare or Medicaid;

e. Maintain an unrestricted federal DEA number and any applicable state drug permits; and

f. Maintain Emergency Center Medical Director qualifications as defined by the State of Florida for a level 2 trauma center.

g. Notify TMH immediately if he no longer meets any of the foregoing requirements.

The inability of Medical Director to fulfill or otherwise abide by the requirements set forth in this Agreement shall be deemed a material breach of this Agreement pursuant to Section 5.3.

1.3 **Services of Medical Director.** During the term of this Agreement, Medical Director shall:

a. Direct, coordinate, and supervise the quality, availability, safety and appropriateness of the medical services as defined in this Agreement

b. Conduct chart and case reviews and other such activities under the direction of TMH's President and CEO, or his/her designee(s), to evaluate the practice patterns of members of the Medical Staff and/or healthcare providers who are involved in the Emergency Medicine Service where there is a reasonable concern for complying with national or community standards of care;

c. Report on the Emergency Medicine Service to TMH's President and CEO, at least quarterly, and submit such data, reports, and records as may be requested or required by TMH, regulatory bodies, and accreditation agencies relative to the Emergency Medicine Service;

d. In conjunction with the Medical Staff, establish and maintain standards of medical care provided in the Emergency Medicine Service;

e. Assist in the design, implementation, maintenance, and coordination of comprehensive credentialing, quality assurance, risk management and utilization review programs and initiate the development of performance improvement/clinical effectiveness projects to enhance the quality of clinical services provided in the Emergency Medicine Service;

f. Participate in the development and evaluation of the Emergency Medicine Service's policies and procedures on an annual basis, and propose changes as necessary in order to assure that the Emergency Medicine Service meets the qualifications of state and federal law, standards of the Joint Commission on Accreditation of Healthcare Organizations (JCAHO), and applicable licensing requirements regarding services in the Emergency Medicine Service;

g. Assist in the implementation of recommendations of JCAHO and other applicable accrediting bodies and licensing agencies that pertain to the Emergency Medicine Service;

h As part of TMH's budget process, advise TMH's President and CEO, or his/her designee(s), in writing of recommended capital improvements for, and supply, equipment, maintenance and environmental needs of, the Emergency Medicine Service;

i. Actively participate on committees in the role of Medical Director as requested by TMH or the Medical Staff (in addition to the meeting and committee participation obligations required by virtue of membership on the TMH Medical Staff, for which Medical Director will not be compensated), and be available at reasonable times for consultation, see Exhibit "A".

j. Serve as the Principal Investigator for the Emergency Medicine Service. Attend all meetings and IRB's necessary to provide research to the Emergency Medicine Service. Work with the CO-PI;

k. Provide such technical advice and assistance as may be requested to facilitate the installation of equipment in or the expansion of the Emergency Medicine Service, which shall include, but not be limited to, providing assistance with general health planning;

l. Advise and assist TMH in such other special medico-administrative projects applicable to the Emergency Medicine Service as TMH may reasonably request, including, but not limited to, investigating trends and developments in Hospitalist practices and techniques, introducing innovative approaches that will lead to improved quality of care, participating in affiliation or other teaching agreements between TMH and educational institutions, and participating in the development and presentation of programs related to TMH's community relations; Consult with TMH's President and CEO, TMH administration, and appropriate Medical Staff committees on an ongoing basis to define other responsibilities as needed;

m. During and after the term of this Agreement, in the event litigation is brought against TMH or its directors, officers or employees, based upon a claim of negligence, professional liability or other cause of action related to the provision of Emergency Medicine Services, Medical Director shall, in his capacity as Medical Director, voluntarily and at no additional cost to TMH

(other than expense reimbursement), serve as a witness or otherwise assist in the litigation as requested by TMH;

n. Oversight development of well-defined review criteria for patients of the Emergency Medicine Service or to assure appropriateness of treatment and to prevent over-utilization of services;

o. Attend, organize, represent and participate in conferences, such as Quarterly ADI meetings, state meetings and such other activities as TMH shall designate in order to maintain and improve the quality of care in TMH and in the Emergency Medicine Service;

p. Assist, as requested, with the orientation, education, and in-service training of all non-medical and paramedical personnel engaged for the operation and conduct of the Emergency Medicine Service inside and outside of the Emergency Department; and

q. Participate and develop, as necessary, lines of communication between the Emergency Medicine Service, the Medical Staff, and other TMH departments to ensure harmonious interaction between the Emergency Medicine Services and other TMH operations.

r. Provide direct interactions, under the direction of TMH's President and CEO, or his/her designee(s) with all physicians who are employed or otherwise contracted to provide Emergency Medicine Services, and who fail to comply with the provisions of the Medical Staff Bylaws, Rules and Regulations and other related applicable documents, policies and procedures, manuals, laws and regulations; and

s. Work when requested with TMH personnel to recruit physicians to staff Emergency Medicine Service; and

t. As required, schedule physicians to staff the Emergency Medicine Service and periodically consult with TMH regarding such scheduling;

u. Evaluate and answer, in cooperation with TMH administration, all complaints or inquiries of patients concerning Emergency Medicine Services physician care, and furnish TMH with an analysis of all complaints with recommendations for correcting any identified deficiencies.

1.4 Availability; Time Report. Medical Director shall devote Medical Director's best efforts to carrying out the terms of this Agreement and shall be reasonably available and personally present at TMH on a regular basis to perform the Services, for an average of twenty-seven (27) hours per week not to exceed 1404 worked hours per year. Medical Director shall maintain office hours by appointment and shall also be available during such additional hours as are necessary and appropriate in accordance with standards of good medical practice. Medical Director shall meet with TMH's President and CEO or his designee, no less frequently than monthly and provide an oral report on current activities.

1.5 **Compliance with Laws, Regulations, and Standards.** In connection with the operation and conduct of the Emergency Medicine Service and provisions of Services, Medical Director shall at all times comply with all applicable federal, state, and local laws, rules, regulations and standards, including requirements for participation in the Medicare program, all applicable standards and recommendations of JCAHO and the American Medical Association, appropriate professional certification Board, TMH and the Medical Staff Bylaws, TMH policies and procedures, and all other rules and regulations established by TMH or the Medical Staff applicable to the operation of Emergency Medicine Service.

1.6 **Compliance with TMH's Corporate Compliance Program and Code of Conduct.** Medical Director recognizes that it is essential to the core values of TMH that all persons and entities contracting with TMH shall at all times conduct themselves in compliance with the highest standards of business ethics and integrity and applicable legal requirements as are reflected in TMH's Corporate Compliance Program and Code of Conduct, as may from time to time be amended by TMH. Medical Director acknowledges that he has received a copy of the Corporate Compliance Program and Code of Conduct and has read and understands the same and hereby agrees that so long as this Agreement remains in effect, Medical Director shall act in a manner consistent with, and shall at all times abide by, such Code of Conduct in Medical Director's practice of medicine and his fulfillment of the terms and conditions of this Agreement. In the event that TMH determines in good faith that Medical Director has breached Medical Director's obligations pursuant to this Section 1.10., TMH shall provide notice to Medical Director of such breach. If such breach is not cured within ten (10) days of such notice, TMH may, upon notice to Medical Director, immediately terminate this Agreement.

1.7 **Disciplinary Notices.** Medical Director shall notify TMH immediately of any actions for professional liability that are served against Medical Director, and of any disciplinary proceedings instituted against Medical Director at any other hospital or organization.

1.8 **Hospital Records; Confidentiality.** All proceedings, files, records, and related information of TMH, the Emergency Medicine Service, and the Medical Staff and its committees, including those pertaining to TMH's strategic and financial processes and to the evaluation and improvement of the quality of patient care and any and all patient records and charts produced as a result of either party's performance under this Agreement, shall be and remain the property of TMH and shall be kept strictly confidential by Medical Director. Medical Director shall not voluntarily disclose such confidential information, either orally or in writing, except as expressly required by law or permitted pursuant to the prior written authorization of TMH. This covenant shall survive the termination of this Agreement for any reason.

1.9 Intentionally left blank.

1.10 **Exclusivity.** The Medical Director shall not open a competing Emergency Service in Leon County, Florida, nor shall he be affiliated, directly or indirectly, with any other Emergency Medicine Service in Leon County, Florida, or with any other physicians operating a Emergency Medicine Service in Leon County, Florida, or otherwise obtain any ownership or any equity interest in any other entity providing Emergency Medicine Service in competition with TMH within Leon County, Florida, during the term of this Agreement, except with the prior written approval of TMH.

1.11 **Failure to Provide Services.** Notwithstanding anything in this Agreement to the contrary, in the event Medical Director fails to provide services as required under this Agreement, TMH, in its discretion, shall have the right to contract with another provider to

furnish the Medical Director Services. The cost of retaining services from another provider shall be paid by Medical Director during the period of time for which the Medical Director received payment and did not provide services described hereunder.

SECTION 2. COMPLIANCE WITH ALL LAWS, REGULATION AND STANDARDS

2.1 Definitions. For the purposes of this Section 2, the following capitalized terms shall be given the following meanings:

Covered Entity means TMH.

Disclose and *Disclosure* mean, with respect to Protected Health Information, the release, transfer, provision of access to, or divulging in any other manner of Protected Health Information outside Medical Director's internal operations or to other than his employees.

Protected Health Information or *PHI* means information, including demographic information that (a) relates to the past, present or future physical or mental health or condition of an individual; the provision of health care to an individual, or the past, present or future payment for the provision of health care to an individual; (b) identifies the individual (or for which there is a reasonable basis for believing that the information can be used to identify the individual); and (c) is received by Medical Director from or on behalf of Covered Entity, or is created by Medical Director, or is made accessible to Medical Director by Covered Entity.

Use or *Uses* means, with respect to PHI, the sharing, employment, application, utilization, examination or analysis of such PHI within Medical Director=s internal operations.

2.2 Warranty. Medical Director warrants that all the Medical Director Services to be provided hereunder, whether by him directly or by approved sub-contractors of Medical Director, shall fully comply with all applicable federal, state and local statutes, rules and regulations, and that it shall be deemed a material breach of this Agreement by Medical Director if he shall fail to observe this requirement. If such a breach is not cured in accordance with this Agreement, TMH may terminate this Agreement without penalty and without limiting any other rights and remedies set forth in this Agreement.

2.3 Compliance with Laws, Standards. Specifically, but not by way of limitation, Medical Director warrants that the Medical Director Services to be provided hereunder shall comply with all applicable rules, regulations and accreditation standards or requirements of Medicare or Medicaid or other federal or state health programs, the Joint Commission on Accreditation of Healthcare Organizations, the Health Insurance Portability and Accountability Act of 1996 (HIPAA), the National Committee for Quality Assurance, and updates to incorporate any changes to such laws, rules, regulations, requirements, and standards.

2.4 Privacy Standard Assurances. More specifically, but not by way of limitation, insofar as Covered Entity is required to comply with the final regulations promulgated under HIPAA for the privacy of PHI and insofar as Medical Director has access to, has been provided with, or will be creating PHI of Covered Entity's patients, or employees, Medical Director warrants and agrees as follows:

a. Medical Director shall Use and Disclose PHI solely as necessary to perform the Medical Director Services. Medical Director shall not Use or Disclose PHI for any other purpose.

b. Medical Director warrants that he shall implement and maintain appropriate safeguards to prevent the Use or Disclosure of PHI in any manner other than as permitted by this Agreement.

c. Medical Director shall immediately notify Covered Entity of each Use or Disclosure, of which it becomes aware, that is made by Medical Director, his employees, representatives, agents or subcontractors that is not specifically permitted by this Agreement.

d. Upon termination or expiration of this Agreement, Medical Director shall either return or destroy, in Covered Entity's sole discretion and in accordance with any instructions by Covered Entity, all PHI in the possession or control of Medical Director. However, if Covered Entity determines that neither return or destruction of PHI is feasible, Medical Director may retain PHI provided that Medical Director (i) continues to comply with the provisions of this Section 2 for as long as it retains PHI, and (ii) limits further Uses and Disclosures of PHI to those purposes that make the return or destruction of PHI infeasible.

e. Notwithstanding the foregoing, Medical Director agrees to comply with all local state and federal rules, regulations, and statutes, as well as with community and industry standards relating to confidentiality.

2.5 Survival. This Section 2 shall survive the termination of this Agreement.

SECTION 3. TMH'S RESPONSIBILITIES

3.1 Space. TMH shall furnish, at its expense and in its sole discretion, the area required and necessary for the proper and efficient operation of the Emergency Medicine Service. No part of any such space shall be used, at any time, for the private practice of medicine, or for any purpose other than for services provided by TMH.

3.2 Furniture, Fixtures, Equipment, and Supplies.

a. TMH shall, at its own expense and within the limits of the Emergency Medicine Service budget, provide such furniture, fixtures, equipment, and supplies as TMH, in its sole discretion, deems reasonably necessary for the proper and efficient operation of the Emergency Medicine Service. Medical Director shall not, without the prior written authorization of TMH, obligate or commit TMH for the purchase, acquisition, or pilot trial of equipment or supplies.

b. TMH shall maintain the Emergency Medicine Service's equipment in good working order and repair. Medical Director shall advise TMH immediate of any malfunctions or needed repairs observed by others in the Emergency Medicine Service.

3.3 Services by TMH. TMH shall, at its expense and within the limits of the Emergency Medicine Service budget, furnish the Emergency Medicine Service with such ordinary utilities and services, including janitor, housekeeping, infectious and hazardous waste disposal, in-house messenger service, laundry, electricity, gas, telephone, water, heat and air-conditioning, as TMH, in its sole discretion, deems necessary for the efficient operation and conduct of the Emergency Medicine Service. TMH shall also provide the services of such other TMH departments, including without limitation, nursing, personnel, administrative, accounting, engineering, purchasing and medical records, as are reasonably necessary, in TMH's sole discretion, for the proper and efficient operation of the Emergency Medicine Service. The procurement of services shall be subject to TMH's usual purchasing practices and Medical Director shall not, without the prior written authorization of TMH, order, obligate or commit TMH for the purchase or pilot trial of services.

3.4 Non-Physician Personnel. TMH shall provide all nurses and technical, paramedical and other non-physician personnel as TMH, in its sole discretion, deems necessary for the proper and efficient operation of the Emergency Medicine Service. TMH shall be solely responsible for any and all salaries, other compensation, employer's payroll taxes, workers' compensation coverage and fringe benefits to which such personnel may be entitled as employees of TMH. Medical Director shall not at any time during the term of this Agreement, or for a period of one (1) year immediately following its termination for any reason, solicit, hire or employ, directly or indirectly, any employee of TMH. This covenant shall survive the termination of this Agreement for any reason.

3.5 Continuing Medical Education. TMH will provide a Continuing Medical Education (CME) allocation of an amount no more than [redacted] for the Medical Director to attend one (1) CME program related to emergency medicine and medical care. The Medical Director must present all receipts and documentation satisfactory to TMH's Chief Medical Officer, or designee, prior to being reimbursed for such expenses. The CME allocation is limited to the reimbursement of one (1) CME program in any given year, and the Medical Director shall not carry forward any monies from a current year's CME allocation into the following year's CME allocation.

SECTION 4. COMPENSATION

In consideration of Medical Director's provision of Services, Medical Director shall be compensated at a rate [redacted], during the term of this Agreement, with total annual compensation not to exceed [redacted]. TMH shall pay Medical Director no less frequently than monthly on the last day of each month or in such other more frequent installments as determined by the hospital.

SECTION 5. TERM AND TERMINATION

5.1 Term. Unless earlier terminated as set forth in this Agreement, this Agreement shall be for a term of two (2) years, commencing on March 1, 2024 (the "Commencement Date").

5.2 Termination Prohibition. If the Agreement is terminated with cause or without cause, the parties may not enter into a new or revised agreement which is the same, similar or

substantially the same agreement as this Agreement, during the first year of the original two (2) term of this Agreement, unless to do so would not invoke the prohibition on referrals of Stark II, 42 U.S.C. ' 1395nn.

5.3 **Without Cause Termination.** Either party shall have the right to terminate this Agreement at any time, without cause or penalty, upon not less than ninety (90) days' prior written notice to the other party.

5.4 **Termination by Hospital.** This Agreement shall automatically terminate in the event that Medical Director fails to maintain the qualifications contained in Section 1.2 of this Agreement. Hospital may, in Hospital's sole discretion, also terminate this Agreement immediately upon the occurrence of any of the following events:

a. The conviction of Medical Director (whether final or on appeal) of any felony or any crime involving moral turpitude;

b. Any sanction upon or prohibition against utilization of the Hospital or any of its services applied to Medical Director;

c. Failure of Medical Director to maintain the qualifications contained in Section 1.2 of this Agreement;

d. Appointment of a receiver for Medical Director's assets, an assignment by Medical Director for the benefit of its creditors, or any relief taken or suffered by Medical Director under any bankruptcy or insolvency act;

e. Jeopardy to the tax-exempt status of the Hospital or to any debt financing arising out of this Agreement;

f. Jeopardy to Hospital's participating provider status in any federally-funded health program arising out of this Agreement;

g. Any jeopardy to patient health or safety;

h. Failure of Medical Director to maintain and operate the Emergency Medicine Service in accordance with the requirements and standards specified in this Agreement; or

i. In the event that Hospital, alone or as a member of a health care system, elects to merge, discontinue, downsize, integrate, restructure or otherwise materially alter the services for which Medical Director is engaged hereunder, Hospital may first request mutual discussions with Medical Director in this regard, which discussions shall continue for a thirty (30) day period subsequent to the Hospital's request ("Discussion Period"). After the expiration of the thirty (30) day Discussion Period, Hospital or Medical Director may elect to terminate this Agreement by providing Medical Director with at least thirty (30) days' advance written notice prior to the effective date of the termination.

5.5 With Cause Termination. In addition to the other termination rights provided herein, either party shall have the right to terminate this Agreement for cause upon fifteen (15) days' written notice to the other party. Any such notice shall specify the cause upon which it is based. The violating party shall have fifteen (15) days to rectify the cause specified in the notice of termination, and if such cause is not rectified within such fifteen (15) day period, this Agreement shall thereupon automatically terminate; provided, however, that if such cause cannot reasonably be rectified within such fifteen (15) day period, this Agreement shall not automatically terminate so long as the violating party has commenced to rectify the cause within such fifteen (15) day period and thereafter diligently and continuously proceeds to rectify such cause. It is understood and agreed by the parties that "cause" for termination subject to notice and cure under this Section includes material breach by either party of any of its obligations under this Agreement. The procedure contained in this paragraph shall not be construed to limit Hospital's liability to terminate as provided in the preceding Section 5.3.

5.6 Effect of Termination. In the event of termination of this Agreement, Medical Director shall cooperate with the orderly transfer of responsibilities to a successor medical director for a period of time not to exceed thirty (30) days. Upon the expiration or termination of this Agreement, the Medical Director shall immediately vacate the premises and shall remove at such time any and all of his personal property. Any personal property that is not so removed may be removed by Hospital at Medical Director's expense. The expiration or termination of this Agreement shall not be subject to the bylaws, rules, regulations, or policies of Hospital or the Medical Staff.

SECTION 6. JEOPARDY

Notwithstanding anything to the contrary herein contained, in the event the performance by either party hereto of any term, covenant, condition, or provision of this Agreement jeopardizes the licensure of Hospital, its participation in or the payment or reimbursement from, the Medicare program, state-sponsored Medicaid program or other reimbursement or payment programs, or its full accreditation by the Joint Commission on Accreditation of Healthcare Organizations or any other state or nationally recognized accreditation organization, or the tax-exempt status of Hospital, any of its property or financing (or the interest income thereon, as applicable), or will prevent any physician, or any other health care professional or their patients from utilizing Hospital or any of its services, or if for any other reason said performance should be in violation of any statute, ordinance, or be otherwise deemed illegal, or be deemed unethical by any recognized body, agency, or association in the medical or hospital fields, Hospital may at its option (i) terminate this Agreement immediately; or (ii) initiate negotiations to resolve the matter through amendments to this Agreement and if the parties are unable to resolve the matter within thirty (30) days thereafter, Hospital may, at its option, terminate this Agreement immediately.

SECTION 7. INSURANCE AND INDEMNITY

7.1 Liability Insurance. The Employer shall furnish Physician with malpractice and other type of insurance coverage deemed necessary by Employer to the operation of the business of the Employer and the provision of the Emergency Medicine Services under this Agreement in an amount not less than that required by Florida Statutes. Subject to the statutory minimums aforementioned, the amount of malpractice liability insurance coverage for Physician, during the

term hereof, or following termination shall be determined and set solely by Employer. Employer will continue to provide professional liability coverage for acts committed with regard to services provided hereunder during Employee's employment after Physician's employment has terminated until the applicable state statute of limitations has expired.

SECTION 8. COMPLIANCE WITH GOVERNMENTAL PROGRAMS AND OTHER HEALTH CARE BENEFIT PROGRAM REQUIREMENTS

8.1 Applicable Medicare Regulations. All references in this Agreement to Medicare regulations and all citations of Sections in this Article refer to those regulations contained at 42 Code of Federal Regulations, Part 415, Subpart C (415.100 to 415.130) and Subpart B (415.50 to 415.70), as those Sections now exist or as those Sections may be subsequently renumbered or revised.

8.2 Application of Requirements. Hospital and Medical Director specifically recognize that each party may provide services to patients covered by the Medicare program (Title XVIII of the Social Security Act) and that each has an obligation to comply with the requirements of the Medicare program for payment for services provided by hospital-based physicians, to the extent that such services are provided pursuant to this Agreement. Each party hereby agrees to cooperate with the other in order to assure that these requirements are met.

8.3 Medical Director Billing in Violation of Medicare Regulations. Medical Director agrees to comply with Section 415.102(c)(3), Florida Statutes, which provides: If the physician, the provider, or another entity bills the carrier or the beneficiary or another insurer for physician services furnished to the provider, as described in Section 415.55(a), CMS considers the provider to which the services are furnished to have violated its provider participation agreement, and may terminate that agreement. In the event Medical Director defrauds the Medicare program by billing either the Medicare carrier or a Medicare beneficiary for physician services in violation of this Section, Hospital shall have the right to immediately terminate this Agreement and Medical Director shall indemnify Hospital for all losses suffered by Hospital as a result of the violation of this provision by Medical Director.

8.4 Access to Books and Records. Until the expiration of five (5) years after the furnishing of any Services pursuant to this Agreement, Medical Director shall make available upon request to the Secretary of the Department of Health and Human Services or the Comptroller General of the United States, or to any of their duly authorized representatives, this Agreement and such books, documents and records of Medical Director as are reasonably necessary to certify the nature and the reasonable costs of the Services rendered pursuant to this Agreement.

8.5 Excluded Provider. Medical Director hereby represents and warrants that Medical Director is not, and at no time has been, excluded from participation in any federally-funded health care program, including Medicare and Medicaid. Medical Director hereby agrees to immediately notify Hospital of any threatened, proposed or actual exclusion of Medical Director from any federally-funded health care program, including, but not limited to, Medicare and Medicaid. In the event that Medical Director is excluded from participation in any federally-funded health care program during the term of this Agreement, or if at any time after the Commencement Date, it is determined that Medical Director is in breach of this Section, this Agreement shall automatically terminate as of the date of such exclusion or breach.

8.6 Regulatory Compliance.

a. Hospital and Medical Director shall comply with all federal and state fraud and abuse prohibitions, as amended from time to time, including, but not limited to, the Federal Anti-Kickback Prohibition, 42 U.S.C. ' 1320a-7b, Stark II, 42 U.S.C. ' 1395nn, the Florida Patient Self-Referral Act of 1992, ' 456.053, Florida Statutes, and the Florida Patient Brokering Prohibition, ' 817.505, Florida Statutes. All payments between the parties shall be the reasonable fair market value for the health care services provided. None of the parties shall, directly or indirectly, determine the compensation or other exchanges of benefit, value or services based on the volume or value of referrals between the parties for designated health services as defined in 42 U.S.C. ' 1395nn, as amended from time to time. The values and consideration of all remuneration, goods and services exchanged between the parties are for a commercially reasonable business purpose, are determined by the fair market value, reflect the actual provision of health care and other goods and services provided and are not exchanged to induce and/or direct any direct or indirect referrals of goods and/or services that may be paid by a governmental program or any other health care benefit program.

b. If either party develops concern that any provision of this Agreement violates or may violate any applicable federal or state law, then such party shall immediately notify the other party in writing of such concern and the specific activities giving rise to such concerns. The parties then shall negotiate in good faith to amend this Agreement to bring it in compliance with applicable laws.

SECTION 9. INTENTIONALLY LEFT BLANK

SECTION 10. GENERAL PROVISIONS

10.1 Cumulative of Remedies. Except as expressly provided herein, the various rights, options, elections, powers and remedies of the respective parties hereto contained in, granted, or reserved by this Agreement, are in addition to any others that said parties may be entitled to by law, shall be construed as cumulative, and no one of them is exclusive of any of the others, or of any right or priority allowed by law.

10.2 Attorneys' Fees. In the event that any action is brought by either party to enforce or interpret the terms of this Agreement, the prevailing party in such action shall be entitled to its costs and reasonably attorneys' fees incurred therein from the non-prevailing party, in addition to such other relief as the court may deem appropriate.

10.3 Notices. All notices or other communications required or permitted to be given under this Agreement shall be in writing and shall be deemed to have been delivered to a party upon personal delivery to that party or: (i) twenty-four (24) hours following electronically confirmed delivery by facsimile transmission to the telephone number provided by the party for such purposes; (ii) twenty-four (24) hours following deposit for overnight delivery with a bonded courier holding itself out to the public as providing such services, with charges prepaid; or (iii) forty-eight (48) hours following deposit with the United States Postal Service, postage prepaid, and in any case addressed to the party's address set forth below, or to any other address that the party provides by notice, in accordance with this Section 10.3, to the other party:

To Hospital:	Tallahassee Memorial HealthCare, Inc. 1300 Miccosukee Road Tallahassee, Florida 32308 ATTN: Mark O'Bryant, CEO
With a copy to:	E. Murray Moore, Jr., Esquire Pennington, Moore, Wilkinson, Bell & Dunbar, P.A. 215 South Monroe Street, Second Floor Tallahassee, Florida 32301
To Medical Director:	Alex Ho, M.D. To the address shown in his employment record
With a copy to:	Tallahassee Memorial Healthcare, Inc. Rob Moss, Exec. Dir. 1300 Miccosukee Road Tallahassee, Florida 32308

10.4 Assignment. Medical Director shall not have the right or the power to assign this Agreement nor any of the rights or obligations inuring to or imposed upon it herein, unless approved by Hospital; attempted or purported assignment shall be null and void and of no effect. Hospital may, upon written notice of Medical Director, assign this Agreement to any entity related by ownership or control to Hospital.

10.5 Binding on Successors and Assigns. Notwithstanding anything to the contrary in this Agreement, this Agreement shall be binding upon and inure to the benefit of the parties hereto and their respective heirs, personal representatives, successors and assigns.

10.6 No Third Party Rights. This Agreement has been made and is made solely for the benefit of the parties hereto and their respective successors and permitted assigns. Nothing in this Agreement is intended to confer any rights or remedies under or by reason of this Agreement on any persons other than the parties to it and their respective successors and permitted assigns. Nothing in this Agreement is intended to relieve or discharge the obligation or liability of any third persons to any party to this Agreement.

10.7 Waiver. All waivers of rights, powers and remedies by a party to this Agreement must be in writing. No delay, omission or failure by a party to exercise any right, power or remedy to which a party may be entitled shall impair any such right, power or remedy, nor shall such be construed as a release by a party of such right, power or remedy or as a waiver of or acquiescence in any such action, unless such action shall have been cured in accordance with the terms of this Agreement. A waiver by a party of any right, power or remedy in any one instance shall not constitute a waiver of the same or any other right, power or remedy in any other instance.

10.8 Headings. The headings of the sections of this Agreement are included for the purposes of convenience only, and shall not affect the interpretation of any provision hereof.

10.9 Severability. Subject to Section 6, if any provision of this Agreement is found to be invalid or unenforceable by any court or other lawful forum, such provision shall be ineffective only to the extent that it is in contravention of applicable laws without invalidating the remaining provisions of this Agreement, unless such invalidity or unenforceability would defeat an essential business purpose of this Agreement.

10.10 Integration. This Agreement and all Exhibits hereto constitute the entire agreement between the parties with regard to the subject matter hereof and thereof. This Agreement supersedes all previous agreements between or among the parties. There are no agreements, representations or warranties between or among the parties other than those set forth in this Agreement or the documents and agreements referred to in this Agreement.

10.11 Amendments. This Agreement may be amended at any time by mutual agreement of the parties without additional consideration, provided that before any amendment shall become effective, it shall be reduced to writing and signed by each of the parties.

10.12 Governing Law. The validity, interpretation, and performance of this Agreement shall be governed by and construed in accordance with the laws of the State of Florida.

10.13 Confidentiality. Medical Director shall treat all non-public information obtained as part of this engagement as confidential and shall not, without written authorization from Hospital, release or share such information with any third party, except as may be required by law. Medical Director agrees that prior to reporting any actual or perceived violation of law to any governmental entity, even if required by law to do so, Medical Director will first discuss any potential legal or compliance matter with the Hospital Corporate Compliance Officer and Hospital Legal Counsel and, unless otherwise required by law, provide Hospital with an opportunity to investigate and appropriately report any compliance matter brought to its attention by Medical Director. Further,

Medical Director agrees that Medical Director will cause any financial benefit received as a result of reporting any violation or perceived violation of law based on any such non-public information so obtained to be donated to an organization determined by the Internal Revenue Service to be qualified under Section 510(c)(3) of the Internal Revenue Code.

10.14 Counterparts. This Agreement may be executed in any number of counterparts, each of which shall be deemed an original, but all such counterparts together shall constitute one and the same instrument.

10.15 General Interpretation; Ambiguities. Ambiguities, if any, in this Agreement shall be reasonably construed in accordance with all relevant circumstances, including, without limitation, prevailing practices in the industry of the parties in the place where the contract is to be performed and shall not be construed against either party, irrespective of which party may be deemed to have authored the ambiguous provision.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement effective as of the day and year first above written.

Physician
(MEDICAL DIRECTOR)

Exhibit "A"

EMERGENCY CENTER (EC) MEDICAL DIRECTOR RESPONSIBILITIES

Emergency Center Operations

- Attends EC Executive Committee with focus on patient flow, electronic documentation, regulatory readiness and current issues related to the efficiency and safety of operations
- Attends EC Case Review meetings as scheduled
- Attends Trauma Committee and Case Review as scheduled
- Attends organization's patient flow committee as scheduled (Operation Overlord)
  Input and assistance with facility and equipment systems and practices.
  Participates and advises on appropriate medical instrumentation, capital budget requests and allocations for the EC
  Oversight of scheduling and quality practice patterns for mid-level providers of care
- Participates in the data and quality review processes for the TMH Transfer Center

Emergency Center Education

- Participation in the oversight and education necessary for Trauma and other program certifications
- Participation in multidisciplinary education programming related to emergency care in the EC and within the organization

Intradepartmental Activities

- Participates in Public Relations activities and assists with community education/information
- Participates on clinical process improvement teams as needed: pneumonia, asthma, sickle cell, etc.
- Serves as the Medical Director of the Chest Pain Center and participates in related case reviews
- Participates in Centers of Excellence designations: Stroke, Spinal Cord, Trauma, etc.

Outcome Measures

- CMS Core Measures which apply to the operations and activities of the Emergency Center: Aspirin upon arrival for the acute coronary syndrome patient, appropriate utilization of Beta Blocker for the cardiac patient, antibiotic utilization for the community-acquired pneumonia patient, as examples.
- Time-sensitive cardiac and stoke protocol outcomes
- National Quality Forum (NQF) standards for hospital-based emergency department care: median time from EC arrival time to EC departure time for the

admitted patient—specific to MD turn-around time; Median time from EC arrival to EC departure time for discharged patients—specific to MD turn-around time

- Improved communication between EC physicians and between EC physicians, staff and EC leadership.
- Maintain Level II Trauma Designation.

Board of County Commissioners

Notes for Agenda Item #8

Leon County Board of County Commissioners

Agenda Item #8

September 15, 2025

To: Honorable Chairman and Members of the Board

From: Vincent S. Long, County Administrator

Title: Department of Health in Leon County Fiscal Year 2026 Public Health Agreement

Review and Approval:	Vincent S. Long, County Administrator
Department / Division Review:	Ken Morris, Assistant County Administrator Shington Lamy, Assistant County Administrator Abigail Thomas, Director, Office of Human Services and Community Partnerships
Lead Staff / Project Team:	Shauna Houston, Health Care Services Coordinator

Statement of Issue:

As required by Florida Statutes, this item seeks Board authorization to execute an agreement with the Department of Health in Leon County to provide state-mandated public health services for Fiscal Year (FY) 2026.

Fiscal Impact:

This item has a fiscal impact. The FY 2026 Tentative Budget includes $237,345 to support the Department of Health in Leon County's provision of state-mandated public health services.

Staff Recommendation:

Option #1: Authorize the County Administrator to execute an Agreement, and all necessary documents, with the Department of Health in Leon County for the provision of state-mandated public health services for FY 2026, and any future amendments, subject to legal review by the County Attorney.

Report and Discussion

Background:

As required by Florida Statutes, this item seeks Board authorization to execute an agreement with the Department of Health in Leon County (Health Department) to provide state-mandated public health services for FY 2026. Similar to previous years, the agreement will be developed by the State of Florida Department of Health and subsequently provided to the County later this fall for legal review and execution.

The Agreement will advance the following FY 2022 – FY 2026 Strategic Initiative:

- *Continue County support of primary healthcare through participation in Carenet in order to increase access to affordable healthcare for those in need. (2022-24)*

This particular Strategic Initiative aligns with the Board's Quality of Life Strategic Priority:

- *(Q4) Support and promote access to basic healthcare, mental health, affordable housing, and homeless prevention services to our community members most in need.*

Section 154.01, Florida Statutes, requires the execution of an annual agreement between the Health Department and Leon County, stipulating the services that will be provided by the county health department. Per Florida Statutes, the Health Department is charged by the State with providing the following public health services: Communicable disease control services, Primary care services, and Environmental health services.

Analysis:

The Agreement with the Health Department will maintain the current funding level of $237,345 to provide state-mandated public health services in Leon County for FY 2026. Section 154.01, Florida Statutes, outlines the requirements of the Agreement between the Health Department and the County. Under this Agreement, the County must fund three categories of services to ensure a full-time, functional county health department system: Communicable disease control, Primary care, and Environmental health services.

Communicable Disease Control Services

Communicable disease control services are those services that protect the health of the general public through the detection, control, and eradication of diseases that are transmitted primarily by human beings. Such services include, but are not limited to: epidemiology, sexually transmissible disease (STD) detection and control, HIV/AIDS, immunization, tuberculosis control, and maintenance of vital statistics. In general, the service task of communicable disease control services includes the following: detection of disease outbreaks and respond promptly to prevent the spread; performance of field investigations of cases, disasters, and outbreaks of diseases; identification of sources of infection and provision of control measures; management of cases of infants and women exposed to Hepatitis B; management of cases of children exposed to lead poisoning; consultation with citizens and physicians on cases of possible Rabies exposure; consultation with local medical providers on disease prevention and infection; education and training of community members to prevent disease; immunizations for children and adults; and STD tests and screenings.

Primary Care Services

Primary care services are acute care and preventive services that are made available to well and sick persons who are unable to obtain such services due to lack of income or other barriers beyond their control. These services are provided to benefit individuals, improve the collective health of the public, and prevent and control the spread of disease. The primary care services offered by the Health Department include family planning, breast and cervical cancer screenings, school health services, supplemental food assistance for Women, Infants, and Children (WIC), and children's dental services.

Environmental Health Services

Environmental health services are those services which are organized and operated to protect the health of the general public by monitoring and regulating activities in the environment which may contribute to the occurrence or transmission of disease. Examples of environmental health services include, but are not limited to: food hygiene, safe drinking water supply, public swimming pools, group care facilities, migrant labor camps, toxic material control, radiological health, occupational health, and entomology. These services make up the Environmental Public Health Program. In addition, the Environmental Public Health Program sets standards and conducts inspections to ensure the safety of drinking water, the operation of public swimming pools, and to monitor water quality at selected beaches and public bathing places.

Similar to previous years, an agreement will be developed by the Florida Department of Health and provided to the County at a later date for review and execution. Therefore, it is recommended that the Board authorize the County Administrator to execute the agreement with the Health Department, subject to the legal review of the County Attorney, once it is provided to the County.

Options:

1. Authorize the County Administrator to execute an Agreement, and all necessary documents, with the Department of Health in Leon County for the provision of state-mandated public health services for FY 2026, and any future amendments, subject to legal review by the County Attorney.
2. Do not authorize the County Administrator to execute an Agreement with the Department of Health in Leon County.
3. Board direction.

Recommendation:

Option #1

Leon County
Board of County Commissioners

Notes for Agenda Item #9

Leon County Board of County Commissioners

Agenda Item #9

September 15, 2025

To: Honorable Chairman and Members of the Board

From: Vincent S. Long, County Administrator

Title: Local Funding Match for the Low-Income Pool for Bond Community Health Center, Inc., Neighborhood Medical Center, Inc., and Apalachee Center, Inc.

Review and Approval:	Vincent S. Long, County Administrator
Department / Division Review:	Ken Morris, Assistant County Administrator Shington Lamy, Assistant County Administrator Abigail Thomas, Director, Office of Human Services & Community Partnerships
Lead Staff / Project Team:	Shauna Houston, Healthcare Services Coordinator

Statement of Issue:

As requested by the County's healthcare partners, this item seeks Board approval to allow Bond Community Health Center, Inc., Neighborhood Medical Center, Inc., and Apalachee Center, Inc., to utilize funding already budgeted in the County's Fiscal Year (FY) 2026 tentative budget as the required local match to draw down additional Low Income Pool funding to healthcare services to low-income uninsured residents.

Fiscal Impact:

This item has a fiscal impact. Bond Community Health Center, Inc. is requesting $157,313.40 and Neighborhood Medical Center, Inc. is requesting $138,552.80 in local match funding ($295,866.20 in total), which is available in the County's FY 2026 tentative budget for the Leon County Health Care Program Competitive Provider Reimbursement Pool. Apalachee Center, Inc., is requesting a local match of $457,424, which is available in the County's FY 2026 tentative budget for Baker and Marchman Acts funds. The local funding match will allow the providers to leverage an estimated $1,005,599 in Low-Income Pool funds from the State of Florida Agency for Health Care Administration.

Staff Recommendation:

Option #1: Approve up to $295,866.20 in Health Care Competitive Provider Reimbursement Pool funding for the primary healthcare category as a local match for the Low-Income Pool funding for Bond Community Health Center, Inc., in the amount of up to $157,313.40, and Neighborhood Medical Center, Inc., in the amount of up to $138,552.80.

Option #2: Approve up to $457,424 in Baker Act and Marchman Act funding as a local match for the Low-Income Pool funding for Apalachee Center, Inc.

Option #3: Authorize the County Administrator to execute all agreements and all necessary documents related to the implementation of the Low-Income Pool funding, and any future amendments, subject to legal review by the County Attorney.

Report and Discussion

Background:

As requested by the County's healthcare partners, this item seeks Board approval to allow Bond Community Health Center, Inc., (Bond) Neighborhood Medical Center, Inc., (NMC) and Apalachee Center, Inc., (Apalachee) to utilize funding already budgeted in the County's FY 2026 tentative budget as required local match to draw down additional Low-Income Pool (LIP) funding. The tentative FY 2026 budget includes funding that can be utilized for the local match through the Health Care Program Competitive Provider Reimbursement Pool (Health Care Pool) for Bond and NMC and through Baker and Marchman Acts funds for Apalachee. Leon County's collective local match of $753,290 will leverage an additional $1,005,599 for uninsured and underinsured County residents for primary health and mental health services. The County's local match would fulfill the local match requirement of the Agency for Health Care Administration (AHCA) as outlined in section 409.2673, Florida Statutes. Upon approval of the local match, a letter of commitment would be submitted to AHCA to affirm the County's intent as required by the State.

The approval to submit letters of commitment to provide the required local match funding to Bond, NMC, and Apalachee for the local match of LIP funds advances the following FY 2022 – FY 2026 Strategic Initiative:

- *Continue County support of primary healthcare through participation in Carenet in order to increase access to affordable healthcare for those in need. (2022-24)*

This particular Strategic Initiative aligns with the Board's Quality of Life Strategic Priority:

- *(Q4) Support and promote access to basic healthcare, mental health, affordable housing, and homeless prevention services to our community members most in need.*

In Florida, the LIP program provides federal funds to healthcare safety net providers for the costs of care to uninsured and underinsured patients. These funds are available to hospitals, rural health clinics, federally qualified health centers (FQHCs) like Bond and NMC, and behavioral health service providers like Apalachee. In order for health care agencies to receive LIP funding from AHCA, a local match is required. The local match is transferred to AHCA, and AHCA subsequently distributes the LIP funding and local matches to the health care agencies. To leverage the County's investment and commitment to increasing access to affordable healthcare to residents, the County has consistently provided the required local match on behalf of Bond, NMC, and Apalachee.

During FY 2025, the County allocated a total of $664,526 as the required local match for Bond, NMC, and Apalachee to leverage an additional $1,072,741 in federal funds to provide primary health care and behavioral health services to uninsured Leon County residents. In the summer of 2025, Apalachee, Bond, and NMC, respectively, requested that the County provide a local match to draw down LIP funding for FY 2026 (Attachments #1, #2, and #3).

Analysis:

AHCA determines the amount of LIP funds available for each agency based on a formula that includes the amount of uninsured costs incurred by the agency's charity care and the percentage of its privately insured patient care costs. Thus, the LIP funding amount and required local match fluctuate annually. Apalachee, Bond, and NMC are each eligible for Florida's FY 2026 LIP funds as reflected in Table #1. Leon County's collective local match of up to $753,290.20 will leverage up to an additional $1,005,599 for uninsured County residents for primary and mental health care for a combined total of up to $1,758,889.20.

Table #1. FY 2026 LIP Funding

Health Care Provider	County Match	AHCA LIP Funds	Total Funds Available for Health Care Services
Bond Community Health Center, Inc.	$157,313.40	$210,413	$367,726.40
Neighborhood Medical Center, Inc.	$138,552.80	$213,010	$351,562.80
Apalachee Center, Inc.	$457,424.00	$582,176	$1,039,600.00
Total	**$753,290.20**	**$1,005,599**	**$1,758,889.20**

Each health care provider receives their respective total allocation (local match and LIP funds) directly from AHCA. Upon approval by the Board, the County submits a letter of commitment to AHCA to affirm the County's intent to provide local match funding for each provider. Upon receipt of the letter of commitment, AHCA sends a Letter of Agreement to the County that must be executed before the distribution of funding. Once the Letter of Agreement is executed, the County will transfer the local match to AHCA. When AHCA receives the County funds, AHCA will provide the total allocation, including LIP funds and the local match, to each health care provider.

The County's Health Care Pool would be utilized for the local match for Bond and NMC. The County contracts annually with Bond and NMC to provide primary healthcare services to uninsured and indigent residents. Per the agreements, each provider is reimbursed at a rate of $225 for each primary care patient visit through the Health Care Pool. Upon adoption of the FY 2026 budget, up to $295,866.20 of the Health Care Pool would be utilized for the Bond ($157,313.40) and NMC's ($138,552.80) required local match. The FY 2026 agreements with Bond and NMC would stipulate that the funding provided as the LIP match will be treated as advance funding from the Health Care Pool and the respective providers would be required to report primary care patient visits equivalent to the LIP match prior to any further reimbursements.

The County's Baker Act and Marchman Act funding would be utilized as the local match for Apalachee. Under the Baker Act and Marchman Act, Florida Statutes, Chapters 394 and 397, specifically Section 394.76(3)(b)require the County to fund and contract with Apalachee to provide alcohol and drug detoxification and crisis stabilization services to uninsured County residents. Upon adoption of the FY 2026 budget, up to $457,424 of the funds allocated for Baker Act and Marchman Act services would be used as the local match for Apalachee. The FY 2026

Baker and Marchman Acts Agreement with Apalachee will reflect that a portion of the funds will be provided for the LIP match.

The FY 2026 annual contracts with Bond, NMC, and Apalachee will be presented at a subsequent Board meeting and will include the LIP matching requirements approved by the Board. As previously mentioned, before each health care provider receives their total allocation, a letter of agreement must be executed between the County and AHCA. Once the letters of agreement are executed with AHCA for each health care provider, the County will transfer its matching funds to AHCA. After these actions, AHCA will transfer the matching funds along with the LIP funds to the three healthcare providers.

Options:

1. Approve up to $295,866.20 in Health Care Competitive Provider Reimbursement Pool funding for the primary healthcare category as a local match for the Low-Income Pool funding for Bond Community Health Center, Inc., in the amount of up to $157,313.40, and Neighborhood Medical Center, Inc., in the amount of up to $138,552.80.
2. Approve up to $457,424 in Baker Act and Marchman Act funding as a local match for the Low-Income Pool funding for Apalachee Center, Inc.
3. Authorize the County Administrator to execute all agreements and all necessary documents related to the implementation of the Low-Income Pool funding, and any future amendments, subject to legal review by the County Attorney.
4. Do not approve up to $295,866.20 in Health Care Competitive Pool Reimbursement Pool funding for the primary healthcare category as a local match for the Low-Income Pool funding for Bond Community Health Center, Inc. and Neighborhood Medical Center, Inc.
5. Do not approve up to $457,424 in Baker and Marchman Acts funding as a local match for the Low-Income Pool funding for Apalachee Center, Inc.
6. Do not authorize the County Administrator to execute all necessary documents related to the implementation of the Low-Income Pool funding.
7. Board direction.

Recommendation:

Options #1, #2, and #3

Leon County Board of County Commissioners
301 S. Monroe Street
Tallahassee, FL 32301

Re: Budget Request for Low Income Pool Funding

To Whom It May Concern:

Apalachee Center, Inc. would like to request Low Income Pool match funding in the amount of $457,424 for the 25/26 fiscal year. This request will not require any additional dollars from the county as the annual Baker/Marchman act funding of $829,598 will be split with the $457,424 being paid directly to ACHA in the name of Apalachee Center and the remaining $372,174 being paid directly to Apalachee Center. This match funding will allow the agency to bring in an additional $582,176 of Medicaid dollars into the community to provide mental health services to uninsured patients.

Please contact me at (850)523-3333 if you need any additional information.

Sincerely,

Dean Hilton
CFO

Abigail Sanders, Director
Office of Human Services and Community Partnerships
615 Paul Russell Road
Tallahassee, Florida 32301

Dear Ms. Sanders,

Once again Bond Community Health Center has the opportunity to participate in the Low-Income Pool. This letter is generated to request that the Leon County Board of County Commissioners provide a Letter of Commitment for cash matching funds in the amount of $157,313.40 to The Agency for Health Care Administration (AHCA) on behalf of Bond Community Health Center, Inc. for SFY 2025-26. These funds, to be provided via an Intergovernmental Transfer, will permit Bond to leverage additional federal funds to care for underserved residents of Leon County.

Thanking you in advance for your continued support of the Bond Community Health Center.

Temple O. Robinson, MD
Chief Executive Officer

NEIGHBORHOOD MEDICAL CENTER

August 11, 2025

Abigail Sanders, Director
Leon County Human Services & Community Partnerships
615 Paul Russell Road
Tallahassee, FL 32301

Mrs. Sanders,

Neighborhood Medical Center (NMC) is a Federally Qualified Health Center in Tallahassee, Florida that provides primary care, maternal health, dental services, case management and mental health services to the residents of the Big Bend Area. NMC has a very productive and collaborative relationship with the Leon County Board of County Commissioners and because of this continued partnership, NMC is asking for continued commitment of providing IGT/local match funds to leverage Low Income Pool Funding through the Agency for Health Care Administration. A commitment of $138,552.80 will allow NMC to draw down a total of $213,010.00 to further our mission of primary care services.

The Low-Income Pool (LIP) is a program operated under Florida's 1115 Medicaid Waiver to ensure continuing support for the safety net providers that furnish uncompensated care to the Medicaid, uninsured and underinsured populations. LIP provides local governments the opportunity to leverage funds to draw down additional matching dollars, which results in even greater resources provided for uncompensated care. Florida's Agency for Health Care Administration oversees the Low-Income Pool and coordinates between local entities, providers, and CMS in securing letters of agreement, invoices, and distribution of funds.

These funds demonstrate a partnership aimed at increasing access to, stabilizing, and strengthening providers that serve uninsured, low-income populations in the community. Neighborhood Medical Center appreciates your continued partnership to help us care for our most vulnerable residents of Leon County. Thank you for your consideration in this matter. Please feel free to contact me if you need any further information.

Sincerely,

Jeanne' S. Freeman, MSP, MSW
Chief Executive Officer
Neighborhood Medical Center, Inc.

Notes for Agenda Item #10

Leon County Board of County Commissioners

Agenda Item #10

September 15, 2025

To: Honorable Chairman and Members of the Board

From: Vincent S. Long, County Administrator

Title: Driver Education Program Agreement with Leon County School Board

Review and Approval:	Vincent S. Long, County Administrator
Department / Division Review:	Ken Morris, Assistant County Administrator Shington Lamy, Assistant County Administrator
Lead Staff / Project Team:	Teresa Broxton, Director, Office of Intervention and Detention Alternatives

Statement of Issue:

This item seeks Board approval of the Agreement between Leon County and the Leon County School Board to allocate Fiscal Year 2026 Dori Slosberg Driver Education Funds to the Leon County Schools Driver Education Program. The County contracts annually with the Leon County School Board to improve traffic safety in Leon County by supporting driver education training in public schools.

Fiscal Impact:

This item has a fiscal impact. The Fiscal Year (FY) 2026 Tentative Budget includes $81,225 to support the driver education program. These funds were collected in accordance with Chapter 7, Article II, Sec. 7-25, Leon County Code of Laws, which allows for a $5.00 assessment on each civil traffic penalty in Leon County to be dedicated to fund driver education programs.

Staff Recommendation:

Option #1: Approve the Agreement with the Leon County School Board for the Leon County School's Fiscal Year 2025/2026 Driver Education Program (Attachment #1), and authorize the County Administrator to execute all associated documents, and any amendments thereto, subject to legal review by the County Attorney.

Report and Discussion

Background:

This item seeks Board approval of an Agreement between Leon County and the Leon County School Board (LCSB) to allocate the County's FY 2026 Dori Slosberg Driver Education Funds (Dori Slosberg Fund) to Leon County Schools (LCS) for its FY 2026 Driver Education Program (Attachment #1).

Pursuant to Section 318.1215, Florida Statutes, the Dori Slosberg Driver Education Safety Act authorizes counties to collect an additional fee with each civil traffic penalty within their respective jurisdictions to support driver education programs in public and nonpublic schools. In September 2002, the Board adopted an ordinance to collect the additional fee in the maximum amount of $3 and deposit the funds into the County's Doris Slosberg Fund to support LCS's Driver Education Program. Subsequently, the Legislature authorized counties to increase the fee amount from $3 to $5. Therefore, in January 2020, the Board amended Chapter 7, Article II, Sec. 7-25, Leon County Code of Laws, to increase the civil traffic penalty fee to the maximum amount of $5.

The Board has contracted with the LCSB for expanded driver education services since FY 2003, which includes a minimum of 30% of student time focused on behind-the-wheel training as required by Florida Statutes. At the end of each fiscal year, the County allocates the funds to the LCSB from the fees collected. The analysis provides a summary report of how funds were used for the Driver Education Program in the 2024/2025 school year as well as LCSB's anticipated use of the new allocation proposed for the 2025/2026 school year (Attachment #2).

Analysis:

Summary of Expenditures for School Year 2024/2025 from the Leon County School Board

During the last school year, the LCSB was awarded $79,610 from the FY 2024 Dori Slosberg Fund for the Driver Education Program, including behind-the-wheel training. The funds were utilized for a portion of the instructor's salary, who rotates between public high schools; vehicle maintenance (i.e., fuel, repairs, etc.); and the purchase of three new vehicles to replace the aging fleet for behind-the-wheel training.

As noted in the 2024/2025 summary provided, a total of 612 students received driver instruction and behind-the-wheel driving training. It is important to note that this also included students in private schools and those who are home schooled, as those students are allowed to enroll in the driver's education program at the public high schools. Each student received an average of 80 minutes of behind-the-wheel instruction in addition to classroom instruction. As a result of the instruction and training, the Florida Department of Motor Vehicles (DMV) granted operator licenses to 545 (89%) of those who participated in the behind-the-wheel instruction. Of the 545 students, 425 were granted driver's licenses through waivers and 120 were granted licenses after successful testing through the DMV. The Driver Education Program Budget currently has an available fund balance of $755 that will be carried forward to support the program costs in FY 2026.

Proposed Use of Funds for School Year 2025/2026

A total of $81,225 in FY 2025 Dori Slosberg Funds are available (2% increase from FY 2024). The nominal growth is due to a slight increase in civil traffic citations issued. The funds will be utilized for a portion of the driver's education instructor's salary, maintenance of the current vehicle fleet, and the purchase of additional vehicles to replace older fleet vehicles used for behind-the-wheel instruction. As mentioned earlier, an available fund balance of $755 will be carried forward to support the program. Upon Board approval and full execution of the proposed Agreement, the funds will be distributed to the LCSB. Per the Agreement, the LCSB will submit a final report at the end of FY 2026 with a detailed summary of expenditures of the FY 2025 Dori Slosberg Funds.

Options:

1. Approve the Agreement with the Leon County School Board for Leon County School's Fiscal Year 2025/2026 Driver Education Program (Attachment #1), and authorize the County Administrator to execute all associated documents, and any amendments thereto, subject to legal review by the County Attorney.
2. Do not approve the Agreement with the Leon County School Board for the 2026 Driver Education Program.
3. Board direction.

Recommendation:

Option #1

Attachments:

1. Fiscal Year 2025/2026 Leon County Expanded Driver Education Agreement
2. Leon County School Board's 2024/2025 Summary Report and 2025/2026 Dori Slosberg Fund Proposals

Fiscal Year 2025/2026 Leon County Driver Education Agreement

This Agreement dated this 15th day of September 2025, by and between Leon County, Florida, a charter county and political subdivision of the State of Florida ("County"), and The School Board of Leon County, Florida ("School Board").

WHEREAS, the County has identified the need to further the provision of driver education for Leon County citizens; and

WHEREAS, the County adopted Ordinance No. 02-20 on September 23, 2002, providing for the collection of an additional $3.00 with each civil traffic penalty for the purpose of enhancing driver education programs in public and non-public schools pursuant to Section 318.1215, Florida Statutes; and

WHEREAS, in 2020 the County amended Chapter 7, Article II, Section 7-25 of the Leon County Code of Laws, increasing to $5.00 the amount to be collected with each civil traffic penalty for the purpose of enhancing such driver education programs; and

WHEREAS, the County will provide funding to the School Board for the driver education programs, as set forth in this Agreement.

NOW, THEREFORE, for and in consideration of the following, the sufficiency of which is hereby acknowledged, the parties hereto agree as follows:

Section 1: Clients to be Served.

Eligibility for services under this Agreement shall be limited to residents of the County. Proof of residency shall be established by the School Board and documentation of residency shall be maintained by the School Board. Funding from this program shall be made available for driver education programs in both public and non-public schools.

Section 2: Services to be Offered by School Board.

The School Board will employ 1 full-time certified Driver Education Instructor. The School Board shall use the funds provided by the County under this Agreement for a portion of the certified Driver Education Program Instructor's salary for one extra hour per day during the school year and on an hourly basis during the summer as needed to provide behind-the-wheel instruction for driver education programming. This position shall provide instruction in all participating schools and shall be dedicated solely to the instruction of the driver education program and associated duties. Remaining budgeted funds shall be used for the up-keep and maintenance of the School Board's current fleet of vehicles used for driver education instruction and the purchase of additional replacement vehicles for the students' on-the-road driving experiences.

Section 3: Budget.

At the Board of County Commissioners' regular meeting held on September 15, 2025, the County approved the allocation of $81,225 to the School Board for the 2025/2026 school year to provide driver education instruction pursuant to Chapter 7, Article II, Section 7-25 of the Leon County Code of Laws. Notwithstanding the aforementioned, the performance of the County's obligations under this Agreement shall be subject to and contingent upon the availability of such lawfully expendable funds.

Section 4: Payment.

No later than October 31, 2025, the County shall remit payment to the School Board in the amount of $81,225.

Section 5: Reports.

The School Board shall submit a comprehensive final (annual) report to the County that provides a detailed summary of all expenditures made and the clients served utilizing the funds remitted to the School Board pursuant to this Agreement. This annual report shall detail the outcomes experienced from this program and the volume and types of services performed in the reporting year. This report shall be due to the County Administrator or his designee by July 31, 2026.

Section 6: Audits, Records, and Records Retention.

The School Board agrees:

A. To establish and maintain books, records, and documents (including electronic storage media) in accordance with the generally accepted accounting procedures and practices, which sufficiently and properly reflect all revenues and expenditures of funds provided by the County under this Agreement.

B. To retain all client records, financial records, time sheets, supporting documents, statistical records, and any other documents (including electronic storage media) pertinent to this Agreement for a period of five (5) years after termination of the Agreement, or if an audit has been initiated and audit findings have not been resolved at the end of five (5) years, the records shall be retained until resolution of the audit findings or any litigation which may result from this Agreement.

C. Upon completion or termination of this Agreement and at the request of the County, the School Board will cooperate with the County to facilitate the duplication and transfer of any said records or documents during the required retention period as specified in Section 6, paragraph B, above.

D. To assure that these records shall be subject at all reasonable times to inspection, review or audit by federal, state, or other personnel duly authorized by the County.

E. Persons duly authorized by the County or any other authorized entity shall have full access to and the right to examine any of the School Board's records and documents related to this Agreement, regardless of the form in which kept, at all reasonable times for as long as records are retained.

F. To include these aforementioned audit and recordkeeping requirements in all approved subcontracts and assignments.

G. **IF THE SCHOOL BOARD HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE GRANTEE'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT**:

Leon County, Office of Intervention and Detention Alternatives
Attn: Teresa Broxton, Director
501 Appleyard Drive
Tallahassee, FL 32304
(850) 606-5600
BroxtonT@leoncountyfl.gov

Section 7: Monitoring.

The School Board agrees:

A. To permit persons duly authorized by the County to inspect any records, papers, documents, facilities, goods, and services of the School Board which are relevant to this Agreement and interview any clients and employees of the School Board to assure the County of satisfactory performance of the terms and conditions of this Agreement.

B. Following any such evaluation by the County, the County will deliver to the School Board a written report of its findings and will include written recommendations with regard to the School Board's performance of the terms and conditions of this Agreement. The School Board will correct all noted deficiencies identified by the County within the specified period of time set forth in the recommendations. The School Board's failure to correct noted deficiencies may, at the sole and exclusive direction of the County, result in any one or any combination of the following: (a) the School Board being deemed in breach or default of this Agreement, and (b) the termination of this Agreement for cause.

Section 8: Termination.

A. The County may terminate this Agreement without cause by giving the School Board thirty (30) days written notice of termination. Either party may terminate this Agreement for cause by giving the other party hereto thirty (30) days prior written notice of its intent to terminate. The County shall not be required to give the School Board such thirty (30) day written notice if, in the sole opinion of the County, the services being provided are not satisfactory. In such case, the County may immediately terminate the Agreement by mailing notice of termination to the School Board.

B. Termination with cause shall include but not be limited to the discovery of improper or inappropriate accounting, expenditures, reporting, or service delivery by the School Board or due to the discovery of noncompliance with any item detailed within this Agreement.

Section 9: Liability Limitation.

Each party hereto agrees that it shall be responsible for the negligent or wrongful acts or omissions of its employees in accordance with Florida law. However, nothing contained herein shall constitute a waiver by either party of its sovereign immunity or the limitations set forth in Florida law, including Section 768.28, Florida Statutes.

Section 10: Revisions.

In any case where, in fulfilling the requirements of this Agreement or of any guarantee embraced in or required thereby, it is necessary for the School Board to deviate from the requirements of the Agreement, School Board shall obtain the prior written consent of the County. The parties agree to renegotiate and amend this Agreement, in writing, if amendments to this Agreement become necessary to comply with applicable laws, regulations, or amendments to applicable laws or regulations.

Section 11: Construction.

The validity, construction, and effect of this Agreement shall be governed by the laws of the State of Florida.

Section 12: Status.

The School Board at all times relevant to this Agreement shall be an independent contractor and in no event shall the School Board or any employees or subcontractors under it be considered to be employees of Leon County.

Section 13: Assignments.

This Agreement shall not be assigned, in whole or part, without the prior written consent of the County, nor shall the School Board assign any monies due or to become due to it hereunder without the prior written consent of the County.

Section 14: Public Entity Crimes Certification.

The School Board hereby certifies, pursuant to Section 287.133, Florida Statutes, that neither the School Board nor its agents have been convicted of a public entity crime. Violation by the School Board or its agents of Section 287.133, Florida Statutes, shall be grounds for termination of this Agreement by Leon County.

Section 15: Employment Eligibility Verification.

By providing services to the County, the School board is obligated to comply with the provisions of Section 448.095, Florida Statutes, "Employment Eligibility." Compliance with Section 448.095, Florida Statutes, includes but is not limited to, utilization of the E-Verify System to verify the work authorization status of all newly hired employees, and requiring all subcontractors to provide an affidavit attesting that the subcontractor does not employ, contract with, or subcontract with, an unauthorized alien. The School Board affirms and represents that it is registered with the E-Verify system and is using same and will continue to use same as required by Section 448.095, Florida Statutes.

Section 16. Dori Slosberg Driver Education Safety Act Compliance Statement.

The School Board hereby certifies that it shall comply with the provisions of Section 318.1215, Florida Statutes, as may be amended from time to time, requiring that at least thirty percent (30%) of students' instruction time during the term of this Agreement was utilized for behind-the-wheel training.

Section 17: School Board's Responsibility.

It shall be the sole responsibility of the School Board to comply with all applicable federal, state, County and City of Tallahassee statutes, codes, ordinances, rules, and regulations in the performance of the School Board's obligations under this Agreement.

Section 18: Term.

This Agreement shall commence upon full execution hereof and terminate on August 15, 2026, unless terminated sooner pursuant to the provisions of Section 8 herein.

WHERETO, the parties have set their official hands and seals effective the date whereon the last party executes said Agreement.

2025-2026 Dori Slosberg Fund Proposals

Leon County Schools Goals:

1. Leon County Schools will employ 1 full-time certified Driver's Education Instructor. This employee will conduct on the road driving experiences at (5) public high schools.

2. We will use Slosberg funds to assist with the up-keep and maintenance of the current fleet of driver education vehicles.

Summary of Expenditures:

Leon County Board of Commissioners awarded Leon County Schools $79,610 from the Dori Slosberg funds for behind the wheel Driver's Education Instruction. Leon County used these funds to support the 5 High Schools Driver's Education program, during the school year with on road instruction from a certified teacher roaming between the 5 schools, also hourly as needed basis during the summer. These funds were also used to purchase needed materials for instruction and to assist with the vehicle maintenance and new vehicles.

Fund Balance from Previous Year	$12,403.00
FY 2024-2025 Allocation	$79,610.00
Teacher extra hour during school year	$9,133.00
Teacher salary (hourly as needed for summer)	$8,596.00
Vehicle maintenance and repairs	$4,904.00
Purchase 3 new vehicles for students	$65,246.00
Supplies and gas	$3,379.00
Fund balance	$755.00

Program Evaluation:

- Students at (5) public high schools received on the road driving experiences from certified Driver's Education Instructor.
- A total of 685 students benefited from road driving experiences.
    - Operator license waivers were assigned to 468 qualified students.
    - Driver's licenses were granted to 120 students after successful testing through the DMV.
- 89% of the students that experienced road driving instruction received a Department of Motor Vehicle operator's license.
- Each student received an average of 80 minutes of on the road driving time.

Leon County Board of County Commissioners

Agenda Item #11

September 15, 2025

To: Honorable Chairman and Members of the Board

From: Vincent S. Long, County Administrator

Title: Public Library Construction Grant Opportunity

Review and Approval:	Vincent S. Long, County Administrator
Department / Division Review:	Ken Morris, Assistant County Administrator Shington Lamy, Assistant County Administrator
Lead Staff / Project Team:	Pamela Monroe, Library Director Kaycee Shiley, Innovation Officer

Statement of Issue:

This item requests Board authorization to submit a grant application through the Florida Department of State's Public Library Construction Grant to support renovations to the first floor at the Main Library of the Leon County Public Library System.

Fiscal Impact:

This item has a fiscal impact. This item is associated with a reimbursable grant totaling $500,000 and requires a 100% local match. The matching funds have been contemplated in the FY 2026 Tentative Capital Improvement Budget for renovations to the Main Library.

Staff Recommendation:

Option #1: Authorize the County to submit an application to the Florida Department of State's Public Library Construction Grant to support renovations to the first floor of the Main Library.

Report and Discussion

Background:

This item requests Board authorization to submit a grant application through the Florida Department of State Public Library Construction Grant (Library Construction Grant) to support renovations to the first floor at the Main Library of the Leon County Public Library System.

The Public Library Construction Grant opportunity advances the following FY 2022 – FY 2026 Strategic Initiative:

- *Implement the Leon County Essential Libraries Initiative (2022-21)*

This particular Strategic Initiative aligns with the Board's Quality of Life Strategic Priority:

- *(Q2) Provide relevant and essential offerings through our libraries and community centers which promote literacy, life-long learning, and social equity.*

The Main Library of the Leon County Public Library System is a four-story, 88,000-square-foot facility that serves as the system's central hub, housing youth and adult services, public technology, meeting rooms, outreach, technical services, and administrative functions. Since opening in 1991, portions of the building have been remodeled to adapt to evolving technology and community needs.

At the May 25, 2021 Budget Workshop, the Board approved the proposed plan to implement the Essential Libraries Initiative (ELI), which is the County's multi-year strategic plan to transform library spaces, services, and programs to better meet community needs. A key component of the ELI includes facility improvements to the Main Library that will create a welcoming environment that facilitates new patterns of interacting, learning and accessing information, and sufficiently flexible to accommodate the changing needs of the community.

Annually, the State of Florida provides grant funding opportunities through the Florida Department of State for local governments to support construction and renovation of public library facilities. In July 2023, the County received a $400,000 Library Construction Grant to renovate the second floor of the Main Library (Phase 1) in addition to County's $3.1 million investment in the project for a total of $3.5 million. Phase 1 creates flexible and functional spaces, including a new Learning Commons with an Adult Education classroom, expanded study and meeting rooms, lower bookshelves, and workforce development support. Second floor improvements will also add co-working areas, updated furnishings, and facilities for a computer training simulator and podcast recording studio. Construction on the Phase 1 renovations began in August 2024 and are projected for completion this month (September 2025).

On August 25, 2025, the State announced the FY 2026 Library Construction Grant opportunity. The application submittal deadline is October 10, 2025. The County seeks to pursue the Library Construction Grant to support renovations to the first floor of the Main Library (Phase 2).

Analysis:

The Library Construction Grant is a state program that provides dollar-for-dollar matching funds to local governments for remodeling, expanding, or building new public library facilities. Administered by the Division of Library and Information Services through the Florida Department of State, the program's funding is set annually by the Florida Legislature, and applications are ranked on a point system, with the highest-scoring projects receiving awards. The application window for the FY 2026 funding opportunity opened August 25, 2025, and will close October 10, 2025. Upon Board authorization, the County will apply for the maximum amount of $500,000 for renovations to the first floor of the Main Library (Phase 2).

Renovations to the first floor of the Main Library are currently in the design phase and will include: new fixtures, lighting and furnishings; installation of a café space that will provide a dedicated area for eating, studying, and gathering in a coffee-shop style environment; the establishment of a "Library of Things" storefront that will showcase and circulate the Library's collection of over 100 non-traditional items such as kayaks, telescopes, garden tools, and pressure washers; and upgrades to the public restrooms. The Board has budgeted $1 million in the FY 2026 Tentative Budget for Phase 2 which will be utilized to meet the Library Construction Grant's 100% match requirement. This will allow the County to submit an application for the maximum grant award of $500,000.

Options:

1. Authorize the County to submit an application to the Florida Department of State's Public Library Construction Grant to support renovations to the first floor of the Main Library.
2. Do not authorize the County to submit an application to the Florida Department of State's Public Library Construction Grant to support renovations to the first floor of the Main Library.
3. Board direction.

Recommendation:

Option #1

Leon County

Title: Fiscal Year 2026 State Aid to Libraries Grant and Annual Plan for Service

Review and Approval:	Vincent S. Long, County Administrator
Department / Division Review:	Ken Morris, Assistant County Administrator Shington Lamy, Assistant County Administrator
Lead Staff / Project Team:	Pamela Monroe, Director, Library Services Kaycee Shiley, Innovation Officer

Statement of Issue:

This item seeks Board approval of the proposed Fiscal Year (FY) 2026 Annual Plan for Library Service to secure State Aid to Libraries Grant funding. The item also seeks Board authorization for the County Administrator to execute and submit all associated documents and agreements for the FY 2026 State Aid to Libraries Grant Program with the Florida Department of State.

Fiscal Impact:

This item has a fiscal impact. The grant funding for State Aid to Libraries is appropriated annually by the Florida Legislature to public library systems throughout the State. Leon County's share is estimated to be $85,843 and is included in the County's FY 2026 Tentative Budget.

Staff Recommendation:

Option #1: Approve the FY 2026 Annual Plan for Library Service (Attachment #1) to secure State Aid to Libraries Grant funding and authorize the County Administrator to execute and submit all associated documents, including the grant agreement and any amendments, subject to legal review by the County Attorney.

Report and Discussion

Background:

This item seeks Board approval of the proposed FY 2026 Annual Plan for Library Service to secure State Aid to Libraries Grant funding. The item also seeks Board authorization for the County Administrator to submit, enter, and execute all associated documents and agreements for the FY 2026 State Aid to Libraries Grant Program with the Florida Department of State.

The proposed FY 2026 Annual Plan for Library Service advances the following FY 2022 – FY 2026 Strategic Initiative:

- *Implement the Leon County Essential Libraries Initiative (2022-21)*

This strategic initiative aligns with the Board's Quality of Life Strategic Priority:

- *(Q2) Provide relevant and essential offerings through our libraries and community centers which promote literacy, life-long learning, and social equity.*

Pursuant to Florida Statutes, State Aid to Libraries supplemental operating funds are awarded to public libraries by the Florida Legislature through the Florida Department of State, Division of Library and Information Services. State Aid funds are provided as part of the State's educational infrastructure to assist local governments in maintaining and developing free and vital library services. The County's public library system has consistently met all State Aid requirements and has received this grant every year since 1963.

The State Aid to Libraries Grant supports the implementation of the County's Essential Libraries Initiative. At the May 25, 2021 Budget Workshop, and ratified at the June 8, 2021 regular meeting, the Board adopted the plan to implement the Essential Libraries Initiative, a re-envisioning of the Leon County Public Library System to address the changing needs of residents and trends in library use (Attachment #2). The Essential Libraries Initiative targets four focus areas: Literacy and Lifelong Learning, Arts and Humanities, Business and Workforce Development, and Civic and Community Engagement. The State requires the submission of a long-range plan every three to five years. The Essential Libraries Initiative serves as the Library's long-range plan and has been submitted to the Florida Department of State in fulfillment of the requirement for the State Aid to Libraries Grant. As described further in the Analysis, the proposed FY 2026 Annual Plan aligns with the Essential Libraries Initiative.

Analysis:

The proposed FY 2026 Annual Plan for Library Service consists of four goals and 26 initiatives, each aligned with the County's Essential Libraries Initiative. These goals include expanding and enhancing access to literacy resources; delivering programs that support workforce development; facilitating civic and community engagement; and supporting the arts and humanities to foster creativity, recreation, and cultural enrichment. Together, the Essential Libraries Initiative and the proposed FY 2026 Annual Plan ensure that the County's libraries provide a comprehensive range of programs and both physical and digital materials to meet the varied needs and interests of residents.

Leon County is anticipated to receive $85,843 in State Aid to Libraries Grant funding which would be consistent with the FY 2025 funding level. The County's State Aid to Libraries Grant funds will purchase digital materials including e-books, audiobooks, e-magazines, and digital movies, which have experienced high demand with the implementation of the Essential Libraries Initiative.

State Aid to Libraries Grant funding consists of a two-step application process. The first step is to submit the Annual Plan along with a grant agreement, that will be prepared and generated by the Florida Department of State, as well as operational documents related to the County's library system. These items are due to the Florida Department of State, Division of Library and Information Services by October 1, 2025. For the second step, the County will submit the FY 2026 budget for Library Services, the approved FY 2026 Annual Plan, and an operating statistical report on library data, such as circulation and program attendance for FY 2025 which must all be submitted by December 1, 2025.

Therefore, it is recommended that the Board approve the FY 2026 Annual Plan and authorize the County Administrator to enter and submit all associated documents for the FY 2026 State Aid to Libraries Grant and execute a required grant agreement with the Florida Department of State.

Options:

1. Approve the FY 2026 Annual Plan for Library Service (Attachment #1) to secure State Aid to Libraries Grant funding and authorize the County Administrator to execute and submit all associated documents, including the grant agreement and any amendments, subject to legal review by the County Attorney.
2. Do not approve the FY 2026 Annual Plan for Library Service's State Aid to Libraries Grant.
3. Board direction.

Recommendation:

Option #1

Attachments:

1. FY 2026 Annual Plan for Library Services
2. Leon County Essential Libraries Initiative

LeRoy Collins Leon County Public Library System
Annual Plan for Library Service, FY26

Goal 1: Literacy and Lifelong Learning

To serve as a resource in developing the skills needed to be successful socially, intellectually, financially, and technologically at any age by promoting traditional and non-traditional forms of literacy.

Strategies:

1.1 Champion adult and youth literacy as the foundation for learning and discovery.

Action 1.1a: Increase accessibility of library resources to vulnerable populations through library card outreach programs.

Action 1.1.b: Host literacy programs and events that support the library's collection and resources to encourage youth and adults to access and use the library's materials.

Action 1.1.c: Offer a variety of programs that contribute to lifelong learning by fostering continuous personal development.

1.2 Provide technology training for all ages to contribute to a digitally literate community.

Action 1.2.a: Provide free basic and intermediate digital literacy programs.

Action 1.2.b: Promote and provide access to the library's digital and technology resources.

1.3 Support lifelong education for seniors and retirees with programs that entertain, educate, and provide connections to community resources.

Action 1.3.a: Develop and present programs addressing the emotional, mental, medical, and financial well-being of seniors and their caregivers.

Action 1.3.b: Host events that encourage social connections through shared interests.

1.4 Develop early learning resources for parents and guardians to teach their children the skills they need to succeed in school.

Action 1.4.a: Model early learning skills during story times using research-based practices.

Action 1.4.b: Promote early literacy tools and materials that help caregivers

reinforce early literacy skills.

1.5 Support K-12 students in developing core academic and learning success skills: literacy, problem solving, creativity and innovation, teamwork and collaboration, and communication.

Action 1.5.a: Offer one-on-one tutoring and homework help via the Homework Hub program.

Action 1.5.b: Host programs that focus on developing a wide variety of learning success skills, including using the Library's online studying tools.

Goal 2: Business and Workforce Development

To support a strong local economy by acting as a resource for businesses and individuals seeking professional development.

Strategies:

2.2 Provide programs that develop skillsets needed to build a thriving workforce.

Action 2.2.a: Provide programs and activities with local partners to introduce youth of all ages to a variety of career fields and help them develop leadership skills to ready them for the workforce.

Action 2.2.b: Host workshops on job seeking strategies, career coaching and related topics.

2.3 Offer resources for job seekers and to those transitioning to new careers.

Action 2.3.a: Evaluate and maintain an up-to-date collection of business and workforce materials.

Goal 3: Civic and Community Engagement

To serve as a vibrant, active hub of civic discourse and participative democracy, building relationships and bridging gaps in all segments of the community.

Strategies:

3.1 Provide opportunities to engage in civil discourse around topics that impact Leon County and are of interest to the community.

Action 3.1.a: Provide resources on relevant civic and community-based topics and issues that impact Leon County residents.

Action 3.1.b: Develop programs, host facilitated discussions and provide spaces that encourage community members to engage with one another.

3.2 Serve as a gateway to connect people with community services and government programs.

Action 3.2.a: Coordinate with local human services agencies to identify program opportunities that help patrons navigate and connect with community-based and government resources.

3.3 Collaborate with local colleges and universities to maximize outcomes in areas of mutual interest.

Action 3.3.a: Use subject matter experts from local colleges and universities to enhance program content.

3.4 Act as a resource and partner to local nonprofit service providers in addressing community issues.

Action 3.4.a: Develop collaborative food programming with the Leon County Office of Sustainability and local partners to offer programs that promote food security and nutritional health.

Goal 4: Arts and Humanities

To support residents in their creative, intellectual, and recreational pursuits and foster cultural enrichment.

Strategies:

4.1 Offer a diverse physical and digital collection that supports the needs and interests of the community.

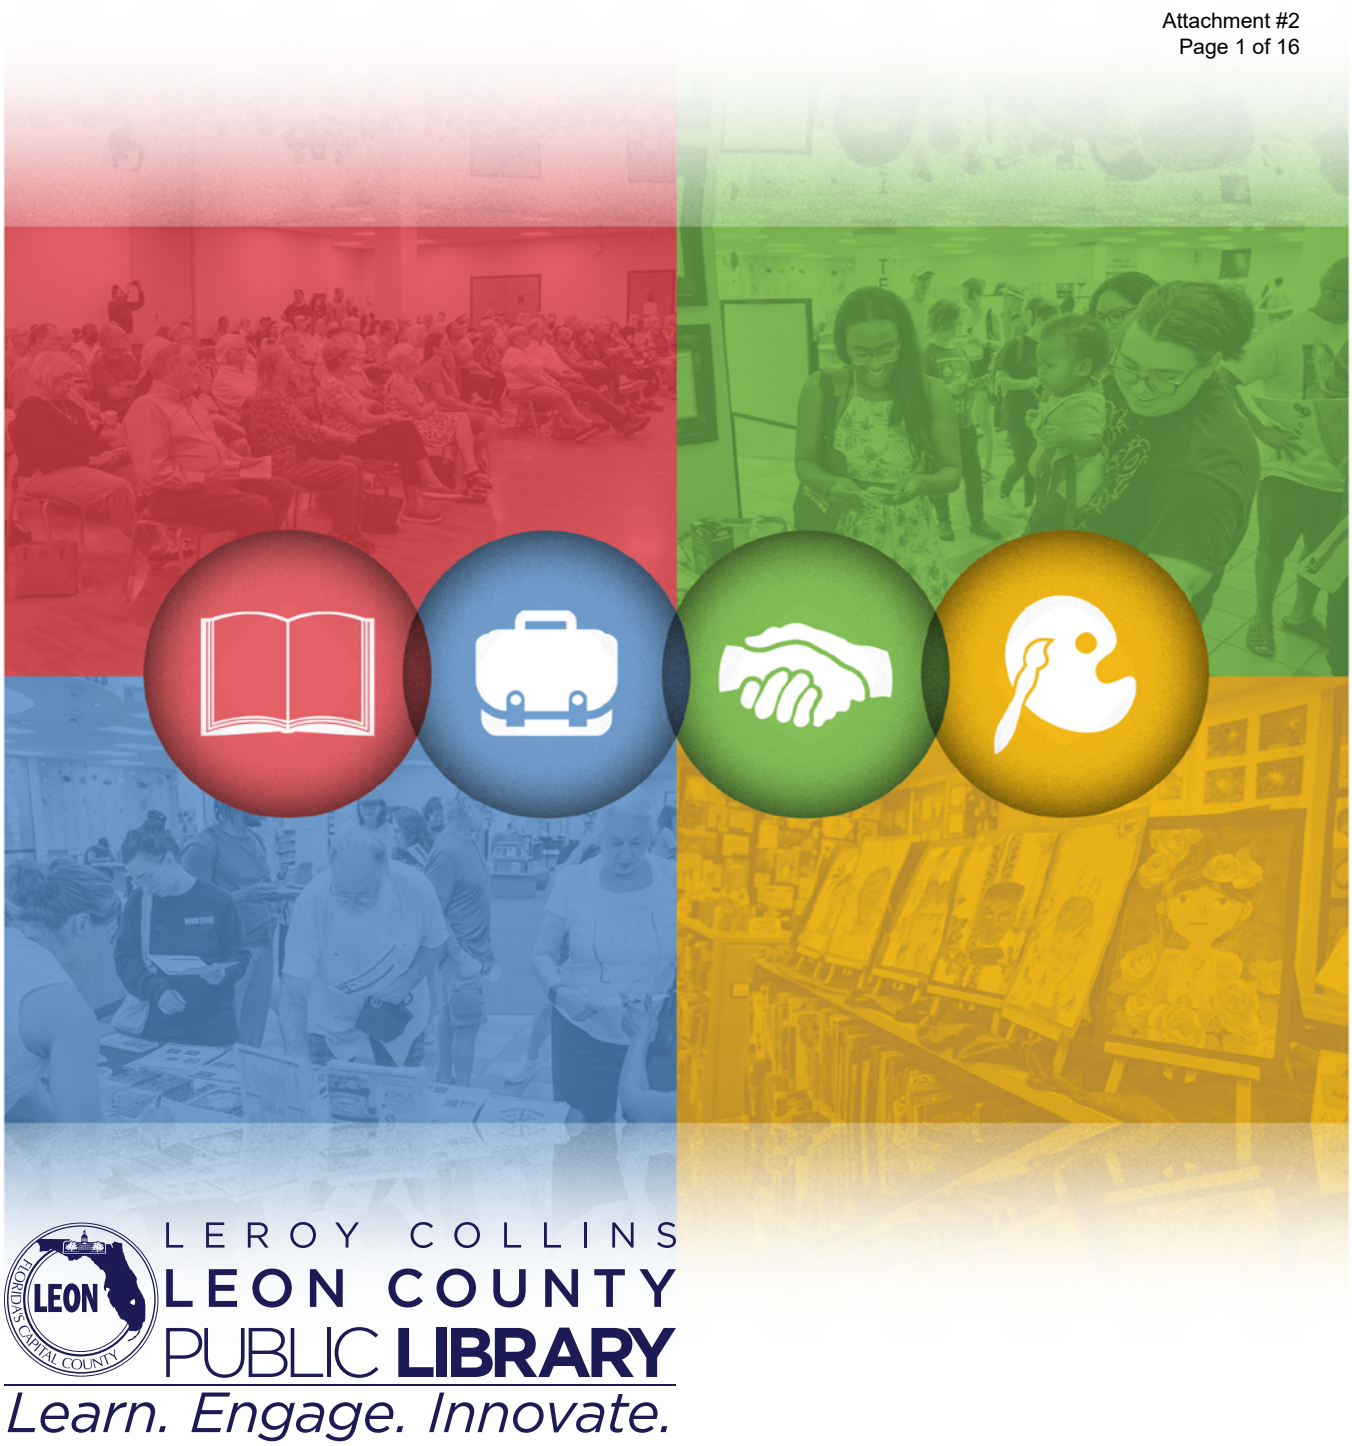
Action 4.1.a: Maintain the Library of Things to support the County's sustainability efforts and offer programs and events that highlight the items.

Action 4.1.b: Analyze and maintain the library's collection to ensure the materials reflect the community.

4.2 Collaborate with arts, humanities, and other creative organizations to provide programming for all ages.

Action 4.2.a: Expand and enhance art and creative programming to help patrons of all ages discover new hobbies, fostering personal growth.

Action 4.2.b: Provide a range of humanities programming to enrich the community's cultural and intellectual life, encouraging exploration of literature, history, philosophy, and the arts.



4.3 Offer timely and relevant cultural events and classes that showcase all members of the community.

Action 4.3.a: Celebrate cultural heritage months and other annual observations by providing relevant resources, displays, and materials to educate patrons about a variety of cultures, histories, and traditions.

Action 4.3.b: Participate in community-wide cultural events through outreach efforts.

4.4 Support creativity through the Library's collection, collaborative spaces, events, and classes.

Action 4.4.a: Maintain and promote the library's display spaces by partnering with local artists, archives, colleges, and community organizations.

LEON COUNTY GOVERNMENT
ESSENTIAL LIBRARIES

VINCENT S. LONG
COUNTY ADMINISTRATOR

On behalf of Leon County Government, I am excited to present Leon County's Essential Libraries Initiative (ELI). The ELI re-envisions County libraries to better serve our community's changing needs both now and in the future. According to the Aspen Institute, libraries are no longer book warehouses. Rather, they are critical social infrastructure and integral to the community's continued resilience and overall well-being.

Approved by the Board of County Commissioners in June 2021, the ELI guides the Library System's daily actions to serve and support citizens as they learn new skills, engage with the community, and pursue creative interests for the whole family. Part of the ELI also includes renovations to library facilities, including a $3.4 million capital improvement project at the Main Library focused on modernizing more than 40,000 square feet of space with new meeting rooms, a workforce development hub, and so much more.

Leon County has long recognized the significant role our libraries have in serving and supporting citizens of all ages and abilities. As the needs of the community evolve, demands for digital content, gathering spaces, and interactive programming continue to grow. To better align our priorities with the needs of the people we serve, the County gathered input from thousands of citizens and community partners to develop the ELI, ensuring continued relevance of County libraries. The plan you are now holding serves as a road map to grow that relevance in many different ways.

From engaging programming to facility enhancements, citizens can already see the ELI being implemented throughout our Library System. And as we plan for the future, we will continue to engage our citizens in transforming County libraries into centers of learning, engagement, and innovation.

PAMELA MONROE
DIRECTOR,
LEROY COLLINS LEON COUNTY
PUBLIC LIBRARY SYSTEM

The Essential Libraries Initiative (ELI) is a visionary plan for our Library System that was created with your input and designed to meet your needs. Using information gathered through internal reviews, research on best practices of award-winning libraries, interdepartmental collaboration, and a wide range of community feedback, this exciting strategic plan leads the way to a vibrant, community-focused Library System. We appreciate the participation of so many in the planning process. The ELI focus areas and priorities are direct results of listening sessions with citizens, community partners and stakeholders, and close to 5,000 survey responses from library users and non-users alike. We are so excited for the opportunity to engage and serve even more citizens with new, relevant programs, materials, and services. Since 2021, we have implemented action items and enhancements to library facilities, including the renovation of the downtown Main Library, which will continue to allow us to meet the current and emerging needs of the citizens we serve. As you explore the ELI, we hope you'll see how it is shaping the library to positively impact our community for generations to come.

EXECUTIVE SUMMARY

The LeRoy Collins Leon County Public Library System's Essential Libraries Initiative is a strategic plan that re-envisions the library to address the changing needs of residents and trends in library use. Approved by the Leon County Board of County Commissioners in June 2021, the initiative contains refocused priorities and action items to enhance the library's offerings.

Since implementation of the plan began in 2021, the library has continued to offer innovative programming and services that inspire and connect Leon County's diverse population and engage citizens in new and exciting ways. Additionally, facility enhancements at all library locations, including a $3.4 million renovation at the Main Library to modernize more than 40,000 square feet of space, allows the Library System to better align programs and services with the community's evolving needs.

The four focus areas of the library guide the development and enrichment of all new and existing programs and services that are offered as part of the Essential Libraries Initiative:

- Literacy and Lifelong Learning
- Business and Workforce Development
- Civic and Community Engagement
- Arts and Humanities

Each focus area includes specific priorities which will be achieved by implementing their respective action items. Although the library is responsible for developing and ensuring the completion of the action items, ongoing support from departments, such as the Office of Sustainability, the Tallahassee-Leon County Office of Economic Vitality, and Parks and Recreation, and partnerships with local institutions and community organizations are vital to the success of the initiative.

LEROY COLLINS
LEON COUNTY
PUBLIC LIBRARY
Learn. Engage. Innovate.

Mission Statement

To be an essential resource and place for learning, engagement and innovation that provides for our community's changing needs.

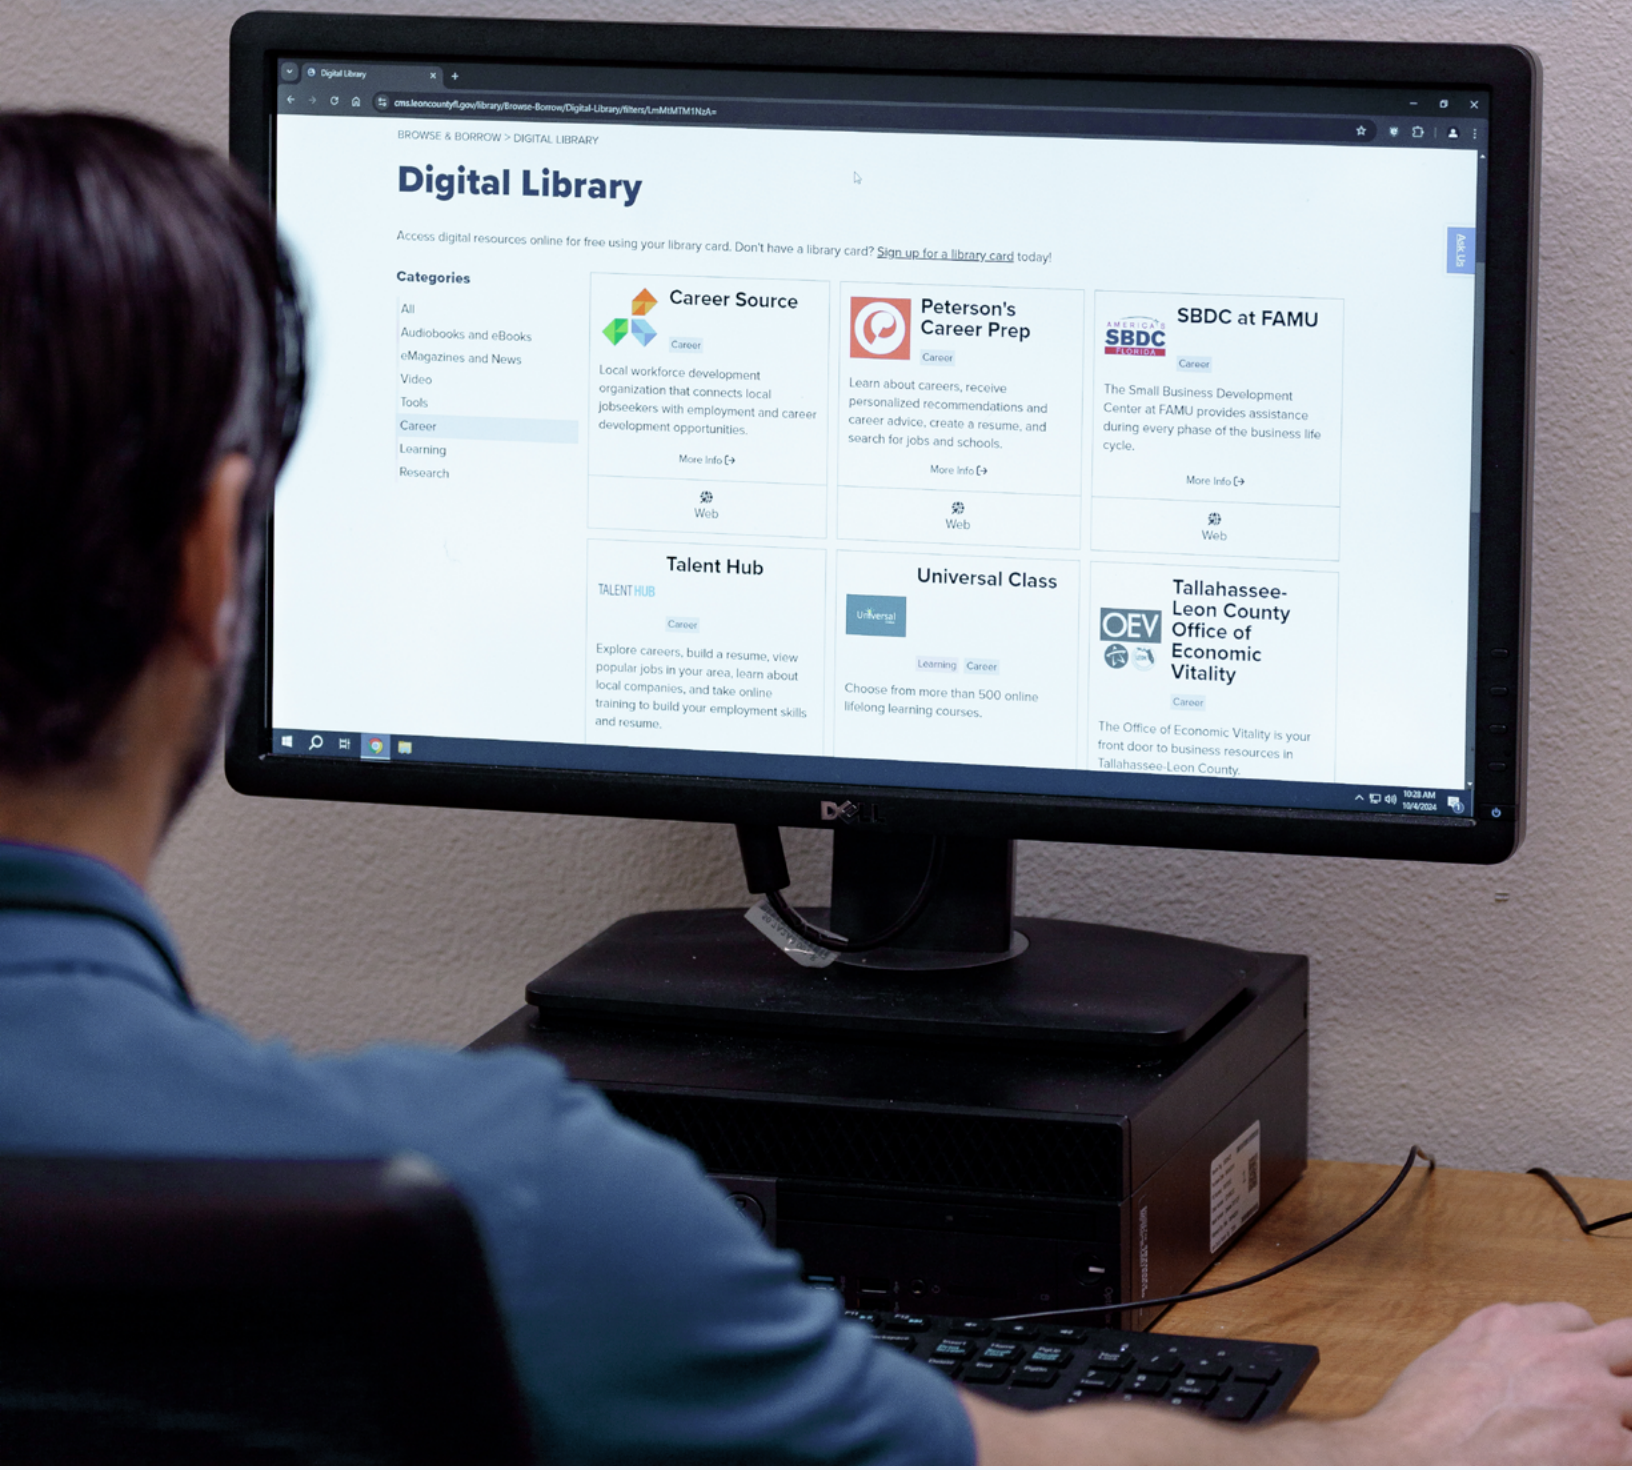
"Libraries are a great place to connect and recenter. They hold resources many aren't aware of."

FOCUS AREA
LITERACY AND LIFELONG LEARNING

To serve as a resource in developing the skills needed to be successful socially, intellectually, financially, and technologically at any age by promoting traditional and non-traditional forms of literacy. (L)

	Priority	*Action Items*
L1	Champion adult and youth literacy as the foundation for learning and discovery.	• Host literacy programs and events that support the library's collection and resources to encourage youth and adults to access and use the library's materials. • Curate and maintain an up-to-date collection of books and materials that help reinforce literacy skills at home and contribute to a love of reading. • Offer a robust summer reading program that keeps youth and adults engaged with reading skills development and encourages patrons of all ages to make reading a lifelong habit.
L2	Provide technology training for all ages to ensure a digitally literate community.	• Offer basic and intermediate digital literacy training programs to all ages. • Help decrease the number of residents impacted by the digital divide by providing access to resources.
L3	Support lifelong education for seniors and retirees with programs that entertain, educate, and provide connections to community resources.	• Partner with local organizations to develop workshops and events focused on the interests and financial, mental, and emotional well-being of seniors and their caregivers. • Host programs that help promote social connections through a shared interest, such as book clubs, crafts, and games.
L4	Develop early learning resources for parents and guardians to teach their children the skills they need to succeed in school.	• Host story times and programs that model early learning skills using the five early literacy practices of Sing, Talk, Read, Write, and Play. • Create and provide book lists and early literacy tip guides that help caregivers reinforce early literacy skills.
L5	Support K-12 students in developing core academic and learning success skills: literacy, problem solving, creativity and innovation, teamwork and collaboration, and communication.	• Offer students one-on-one tutoring, homework clinics, and demonstrations of the library's online study tools. • Provide engaging programs and activities that help develop academic skills.

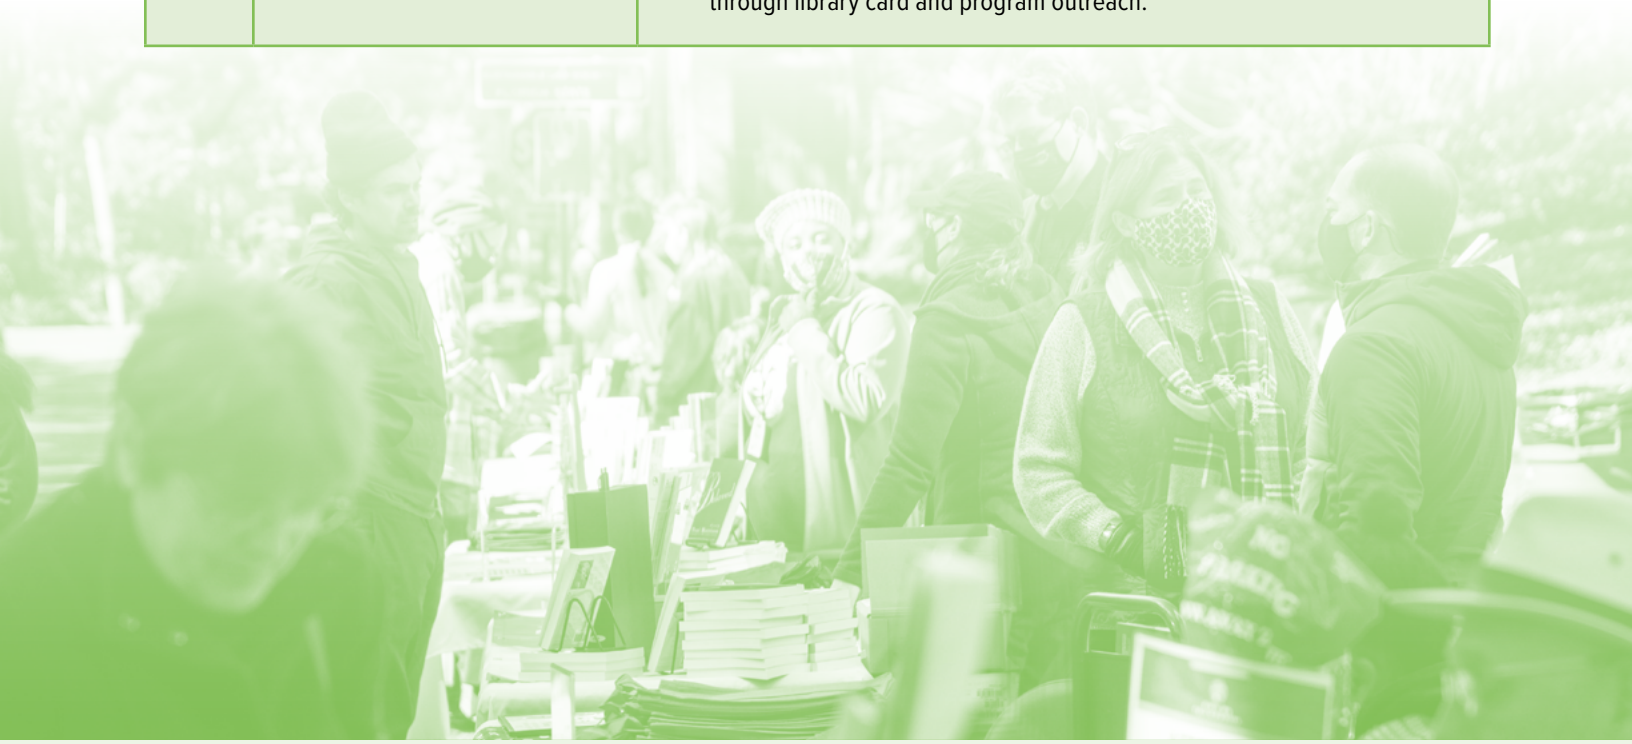
"Libraries have long been community focal points, providing a reliable internet connection, programs, training, and of course, books. Of all libraries do, introducing readers to new ideas and stories is one of their most important functions."



FOCUS AREA
BUSINESS AND WORKFORCE DEVELOPMENT

To support a strong local economy by acting as a resource for businesses and individuals seeking professional development. (B)

	Priority	Action Items
B1	Collaborate with local business and workforce organizations to provide resources and space that support local businesses and entrepreneurs.	• Partner with the Tallahassee-Leon County Office of Economic Vitality and other organizations to identify the workforce information needs of the community to curate print and digital resources. • Improve and expand coworking spaces and create new conference and meeting rooms for entrepreneurs, business owners, and telecommuters.
B2	Provide programs that develop skillsets needed to build a thriving workforce.	• Host programs and workshops on job seeking strategies, career coaching, professional essential skills, and other related topics. • Create internships and professional opportunities to develop skillsets within the library field. • Continue to provide programs, resources, and activities to introduce youth to a variety of career fields based on patron interest.
B3	Offer resources for job seekers and those transitioning to new careers.	• Partner with local organizations during job fairs to provide story times and resource information. • Evaluate and maintain an up-to-date collection of business-related materials.
B4	Provide opportunities for teens to develop leadership and life skills to ready them for the workforce.	• Continue to support the Teen Advisory Board program and provide youth volunteer opportunities. • Working with teens, coordinate presentations by outside organizations and subject matter experts on relevant topics to help prepare them for future workforce opportunities.



"It has been a long time since I had to look for a job and I really didn't know how to look online. The library staff not only helped me find jobs to apply for, but after I was contacted for an interview I was able to go back to the library and use a private meeting room to do a virtual interview. I got the job! I don't think I could have done it without the library. Thank you!"

FOCUS AREA
CIVIC AND COMMUNITY ENGAGEMENT

To serve as a vibrant, active hub of civic discourse and participative democracy, building relationships and bridging gaps in all segments of the community. (C)

Priority		Action Items
C1	Provide opportunities to engage in civil discourse around topics that impact Leon County and are of interest to the community.	• Host facilitated discussions and programs on relevant topics and issues that impact Leon County residents. • Develop programs and provide spaces that encourage community members to engage with one another.
C2	Serve as a gateway to connect people with community services and government programs.	• Through the Community Resources Specialist, provide one-on-one assistance and referrals for government programs and community-based services. • Coordinate with local human services agencies to identify possible partnerships and program opportunities.
C3	Collaborate with local colleges and universities to maximize outcomes in areas of mutual interests.	• Use subject matter experts at local colleges and universities to enhance program content.
C4	Act as a resource and partner to local nonprofit service providers in addressing community issues.	• Develop collaborative food programming with the Leon County Office of Sustainability and other local partners to offer programs that promote food security and nutritional health. • Increase accessibility of library resources to vulnerable populations through library card and program outreach.

"The library has always been my go-to for reading, information, and voting. In recent years, I have started using the digital resources, too. I appreciate everything the library has been for me."

FOCUS AREA
ARTS AND HUMANITIES

To support residents in their creative, intellectual, and recreational pursuits and foster cultural enrichment. (A)

Priority		Action Items
A1	Offer a diverse physical and digital collection that supports the needs and interests of the community.	• Maintain the Library of Things to support the County's sustainability efforts and offer programs and events that use the items. • Analyze and maintain the library's collection to ensure the materials and items reflect the community.
A2	Collaborate with arts, humanities, and other creative organizations to provide programming for all ages.	• Offer tutorials, workshops, or clubs to teach crafting and maker skills that will facilitate collaboration and community engagement while developing problem-solving and critical-thinking skills.
A3	Offer timely and relevant cultural events and classes that showcase all members of the community.	• Celebrate cultural heritage months and other annual observations with relevant programs, displays, and materials. • Participate in community-wide cultural events through outreach efforts.
A4	Support creativity through the library's collection, collaborative spaces, events, and classes.	• Maintain and promote the library's display spaces by partnering with local artists, archives, colleges of arts, and community organizations. • Host programs that engage community members in creative and recreational pursuits.

"It's really beautiful to see local artists exhibit in a public space like the library."

Leon County
Board of County Commissioners

Notes for Agenda Item #13

Leon County Board of County Commissioners

Agenda Item #13

September 15, 2025

To: Honorable Chairman and Members of the Board

From: Vincent S. Long, County Administrator

Title: One-Year Extension and Amendment of the Council on Culture & Arts (COCA) Funding Agreement through Fiscal Year 2026

Review and Approval:	Vincent S. Long, County Administrator
Department / Division Review:	Ken Morris, Assistant County Administrator Mathieu Cavell, Director, Community Relations and Resilience
Lead Staff / Project Team:	Kerri Post, Director, Division of Tourism Jon LaBarre, Senior Operations Manager, Division of Tourism

Statement of Issue:

This item seeks Board approval of a one-year extension and amendment of the Fiscal Year (FY) 2021 – 2025 Council on Culture & Arts (COCA) Funding Agreement through FY 2026.

Fiscal Impact:

This item has a fiscal impact and funding is included in the FY 2026 Tentative Budget. The Agreement provides $150,000 from general revenue and dedicates an estimated $1,897,150 to COCA, which is one cent (20%) of Tourist Development Tax (TDT) revenue, for a total of $2,047,150 in FY 2026.

Staff Recommendation:

Option #1: Approve the one-year extension and amendment of the FY 2021 – FY 2025 Council on Culture and Arts Funding Agreement through FY 2026 (Attachment #1), and authorize the County Administrator to execute the Agreement, and any renewals or amendments thereto, in a form to be approved by the County Attorney.

Report and Discussion

Background:

This item seeks Board approval of a one-year extension and amendment of the FY 2021 – FY 2025 COCA Funding Agreement through FY 2026.

The County's continued support of COCA's operation and grant programs through FY 2026 advances the following FY 2022 – FY 2026 Strategic Bold Goal*:*

- *Grow the five-year tourism economy by $5 billion (BG1).*

This particular Bold Goal aligns with the Board's Economy Strategic Priority:

- *(EC4) Grow our tourism economy, its diversity, competitiveness, and economic impact.*

On July 14, 2020, the Board approved the FY 2021 – FY 2025 COCA Funding Agreement (Attachment #2), authorizing COCA to administer cultural grant programs and implement the Cultural Plan through FY 2025. The proposed one-year extension through FY 2026 maintains program continuity for local arts, culture, and heritage organizations while providing flexibility to incorporate any statutory changes that may emerge in the 2026 Legislative Session.

During the FY 2027 budget development process, staff will return to the Board with a budget discussion item to present funding options and allocations for TDT revenue including a comprehensive review of County support for culture and arts, and to discuss any subsequent COCA agreement.

Under the current five-year agreement, COCA administers competitive programmatic and marketing grants to local arts, culture, and heritage nonprofits; implements the Cultural Plan; and collaborates with the Division of Tourism on visitor-facing campaigns and collateral that promotes travel to Leon County. The one-year extension maintains the current grant structure for FY 2026. Funding is structured as a dedicated one cent of TDT revenue, supplemented by $150,000 in general revenue—tying support for the arts to visitor demand and incentivizing grantees to drive out-of-county visitation.

Following post-COVID-19 recovery in the tourism sector, the annual TDT dedication to COCA increased from just over $1 million in FY 2021, to an estimated $1.98 million in FY 2025. During the 2025 Legislative Session, multiple bills proposing expanded TDT uses advanced, and additional proposals are anticipated in 2026. A one-year extension is therefore prudent to ensure that a new multi-year agreement reflects any changes to the allowable uses for TDT funds.

Analysis:

The Division of Tourism (Tourism) relies on COCA as a marketing partner and community collaborator. COCA works with Tourism to develop and promote arts and cultural campaigns and visitor-facing collateral that encourage travel to Leon County through access to the arts, and it implements the community's Cultural Plan.

Consistent with prior agreements, the proposed one-year extension preserves the core scope—subgranting programmatic and marketing funds, Cultural Plan implementation, production of visitor collateral, and support for COCA's administrative costs—while adding continued emphasis on transparency and accountability:

- **Statutory alignment & reporting.** Clarifies that all expenditures must be eligible under Section 125.0104, Florida Statutes (the "Local Option Tourist Development Act"), and adds reporting requirements to document compliance (e.g., eligible-use categories, out-of-county visitation indicators, marketing reach).
- **Annual marketing plan & visitor collateral.** Requires COCA to submit a detailed annual marketing/media plan with budget, and to produce a print collateral piece (e.g., rack card or tri-fold brochure) promoting arts, cultural, and heritage sites for distribution at visitor information centers, local events, and organizations.
- **Special initiatives coordination.** Designates COCA as a key partner in major initiatives (e.g., the 2026 World Athletics Cross Country Championships and America's 250th Anniversary/America250), coordinating, supporting, and promoting activities among cultural organizations to maximize visitation impact.
- **Governance transparency.** Requires COCA to post Board of Directors, Executive Committee, and subcommittee materials on its website at least three (3) days prior to meetings.

County staff developed the amendments to this agreement in coordination with COCA. The County's FY 2026 Tentative Budget for COCA includes $150,000 in general revenue and an estimated $1,897,150 (20%) from the dedication of one cent in TDT revenue.

A one-year extension is recommended so the Board can evaluate any statutory changes related to the use of TDT funds following the 2026 Legislative Session. The one-year extension preserves program continuity for grantees and, after the conclusion of the 2026 Legislative Session, positions the Board to consider a comprehensive review of the County's funding support of culture and arts during the FY 2027 budget development process and prior to entering into a new multi-year agreement with COCA.

Options:

1. Approve the one-year extension of the FY 2021 – FY 2025 Council on Culture and Arts Funding Agreement through FY 2026 (Attachment #1), and authorize the County Administrator to execute the Agreement, and any renewals or amendments thereto, in a form to be approved by the County Attorney.
2. Do not approve the one-year extension of the FY 2021 – FY 2025 Council on Culture and Arts Funding Agreement through FY 2026 (Attachment #1).
3. Board direction.

Recommendation:

Option #1

Attachments:

1. One-Year Extension and Amendment of the FY 2021 – FY 2025 Council on Culture and Arts Funding Agreement through FY 2026
2. FY 2021 – FY 2025 COCA 5-Year Funding Agreement

First Amendment to the
FY 2020-2025 Council on Culture & Arts Program Funding Agreement
Between the Council on Culture & Arts and Leon County

The Program Funding Agreement ("Agreement") was executed February 12, 2021 between the Council on Culture & Arts (hereinafter referred to as "COCA") and Leon County, Florida, a charter county and a political subdivision of the State of Florida (hereinafter referred to as the "County"), collectively, the "Parties", and is incorporated herein by reference and attached hereto as Exhibit A. The Agreement is hereby amended as follows:

The terms and conditions set forth in the Agreement shall remain in full force and effect, except as specifically modified herein. The following terms and conditions, which have been mutually agreed by the Parties, upon shall also apply:

1. The following WHEREAS paragraph in the RECITALS of the Agreement is hereby amended in its entirety to read:

   WHEREAS, "Tourist" as defined by Section 125.0104, Florida Statutes, means a person who participates in trade or recreation activities outside the county of his or her permanent residence or who rents or leases transient accommodations as described in paragraph 125.0104(3)(a); and

2. The following WHEREAS paragraph in the RECITALS of the Agreement is hereby amended in its entirety to read:

   WHEREAS, the County and COCA wish by this Program Funding Agreement to reduce their intentions to writing to provide for the obligations of the County in regard to providing the marketing and program grant funds identified herein, to ensure that the obligations of COCA to provide the services set forth herein comply with section 125.0104, Florida Statutes, and to more fully delineate the agreement reached between the Parties; and

3. Section II. of the Agreement, titled "**Effective Date and Term**", is amended in its entirety to read:

   This Program Funding Agreement shall be for a six-year term. It shall commence on October 1, 2020, and shall end at midnight, local time in Tallahassee, Florida, on September 30, 2026.

4. Section III. of the Agreement, titled "**Services to be Provided**", is amended in its entirety to read:

   A. Through FY 2025, COCA shall submit a Program Plan and Organizational Budget by November 13, 2020 and by Sept 15 of each year thereafter to the Division of Tourism for the upcoming fiscal year. The Program Plan will identify specific services and program activities planned, and the budget allocation for each. The Organizational Budget shall identify all revenue sources and delineate the plan for expenditure of County funds (TDT and GR) contemplated by this Agreement.

   B. For FY 2026, COCA shall submit a Program Plan and Organizational Budget in the format provided by the County by , November 1, 2025, to the Division of Tourism for FY 2026. The format to be used is incorporated herein by reference and attached hereto as Exhibit B. The Program Plan will identify specific services and program activities

planned, and the budget allocation for each. The Organizational Budget shall identify all COCA revenue sources (not specific to County funds) and delineate the plan for expenditure of County funds (Leon County Tourist Development Tax [TDT] and general revenue [GR]) contemplated by this Agreement.

C. COCA shall submit a detailed annual marketing plan and media plan with a detailed budget by marketing tactic and geographic target audience to the County by November 1, 2025 for review and approval.

D. The services to be provided by COCA shall also include specific operational functions of COCA and the continued implementation of the Cultural Plan, attached as Exhibit A to the Agreement.

E. Through FY 2025, the services to be provided by COCA shall include:

1. Support services for artists, cultural heritage organizations, and the general public.
2. Educational services for students and teachers.
3. Culturally-specific marketing communication services including creative asset development, promotion, and publication across all media platforms.
4. Granting services include creating, implementing, and managing grant programs (i.e., Cultural Grant Program & Cultural Tourism Marketing) with the Cultural Facilities Matching Grant Program concluding under a separate agreement.
    a. Grant programs funded with TDT collections shall contain the statutory language defining a "Tourist" (Recitals) and the restrictive uses of the TDT funds (Section C 2.a.) in the grant program materials and also include a requirement for the sub-grantee to report the estimated number of visitors served by the project or program, and
        i. Meet with the County's Director of Tourism to review COCA Grant Program Guidelines prior to release, and separately, meet to review COCA grant applications for eligibility and compliance with Section 125.0104, Florida Statutes, prior to scoring grant applications. If COCA has questions regarding the application of Section 125.0104, Florida Statutes, it is directed to contact the appropriate County staff.
        ii. The Leon County Tourist Development Council (TDC) shall approve the final annual COCA Grant awards as recommended by the COCA Board of Directors in compliance with section 125.0104, Florida Statutes.
        iii. COCA agrees to provide full contact information for grantees funded by TDT to the Division of Tourism upon request.

F. For FY 2026, the services to be provided by COCA and supported with County funding shall include:

1. Arts, Cultural, and Heritage advertising and marketing communication services targeting both out-of-area tourists and Leon County residents, including creative asset development, promotion and publication across all media platforms. COCA shall also produce a print collateral piece (brochure or rack cards) promoting the arts, cultural, and heritage sites and attractions in Leon County for tourists to visit, for distribution at visitor information centers, local organizations, and events.

2. Granting services include creating, implementing and managing existing grant programs (i.e., Cultural Grant Program & Cultural Tourism Marketing), to ensure all grant program applications comply with Section 125.0104, Florida Statutes.
3. Support services for artists, cultural heritage organizations, and the general public.
    a. Grant programs funded with TDT collections shall contain the statutory language defining "Tourist" found in Section 125.0104(2)(b)2., Florida Statutes, and the restrictive uses of the TDT funds provided in Section IV.C.2.a of this Agreement shall also be included in the grant program materials. Grant program materials shall also provide that marketing to visitors is required and also include a requirement for a sub-grantee to report the estimated number of room nights and out-of-market visitors served by the project and program.
        i. The County's Director of Tourism will review COCA Grant Program Guidelines prior to release and, separately, review COCA grant applications for verification of eligibility and compliance with Section 125.0104, Florida Statutes, prior to scoring grant applications. If COCA has questions regarding the application of Section 125.0104, Florida statutes, it is directed to contact the appropriate County staff.
        ii. Members of the COCA TDT Grant Review Panel(s) that review and make recommendations on the TDT-funded COCA grants must include a TDC member or their designee.
        iii. The Leon County Tourist Development Council shall approval the final annual COCA Grant awards as recommended by the COCA Board of Directors in compliance with section 125.0104, Florida Statutes.
        iv. COCA agrees to provide full contact information for grantees funded with TDT to the Division of Tourism upon request.
4. An active role in supporting major community programs or special initiatives, such as the Worlds Cross Country Championships and America's 250th Anniversary, by facilitating, coordinating, implementing, and promoting an annual plan of activities for cultural organizations.

G. Strategic partnership activities with the Leon County Division of Tourism/Visit Tallahassee, including bi-annual leadership meetings and the exploration of marketing communications collaborations on targeted promotional programs. hall be responsible for all expenses associated with the performance and delivery of services required by this Program Funding Agreement.

H. COCA shall comply with all applicable laws, ordinances, and regulations governing its operation and in the provision of the services herein required and the expenditure of funds herein granted.

1. For FY 2026, COCA must post all Board, Executive Committee, and Sub-Committee meeting materials on the COCA website – Tallahasseearts.org/about-coca/public-notices/ at least three (3) days prior to such meetings and send the full meeting packets to the Director of Tourism at least 24 hours in advance of all meetings.

5. Section IV., paragraph A. of the Agreement, titled "Grant Funds Amount:", is amended to include year six of the Agreement in subparagraph 1. and the following subparagraph 3. as follows:

    1. The County agrees to provide to COCA an amount not to exceed one (1) cent of the five (5) cent Tourist Development Tax imposed by the County for six years, for Services further described in Section III, herein, and collected during the then current Fiscal Year. A Fiscal Year is defined as consisting of the dates October 1 – September 30.

    3. For FY 2026, up to 10% of TDT allocated to COCA may be used to offset COCA's operating expenses.

Eligible Category	**Percentage of Total Expenditures in COCA's Annual Budget**
Eligible Marketing/Advertising/Media Expenditures	Up to 60% as approved in COCA's annual marketing and media plan
Marketing Staff Person Salary	Up to 60%
Grant Staff Person Salary	Up to 90%
Eligible Professional Services for Content Creators	Up to 25% as included in COCA's annual marketing and media plan

6. Section V., paragraph B. of the Agreement, is amended to include the following additional provision:

    1. For FY 2026, COCA will include a Financial Reports section in the Annual Report to the County that includes:

        a. A Year-End Cash Flow Statement (in a format determined jointly by County and COCA staff) that details the total TDT expenditures for the year and includes itemizing all interest-earned on TDT in reserves or in investment accounts. Any expenditures of interest must comport with eligible statutory uses of TDT.

        b. An itemized listing of the final amount of County TDT and GR budgeted and actual expenses for each project, service, or activity within the allowable budget by general ledger account.

        c. A Requested Carry-Forward section that clearly delineates any requested TDT funding proposed to be carried-forward with a detailed statement of the anticipated project purposes/ activity uses of the TDT carry-forward funds with associated ledger account, subject to eligibility review by the County.

9. Section VI of the Agreement, titled "**Public Records**", is amended in its entirety to read:

    By entering into this Program Funding Agreement, COCA acknowledges and agrees that any records maintained, generated, received, or kept in connection with, or related to the expenditure of the funds provided through this Program Funding Agreement are public records subject to the public records disclosure requirements of Section 119.071, Florida Statutes.

COCA shall:

A. Keep and maintain those records that ordinarily and necessarily would be required by the County in order to perform the services under this Program Funding Agreement, hereinafter "public records."

B. Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law.

C. Meet all requirements for retaining public records and transfer, at no cost, to the County all public records in possession of COCA upon termination of this Program Funding Agreement and destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. All records stored electronically must be provided to the County in a format that is compatible with the information technology systems of the County.

D. Upon request from the County's custodian of public records, provide the County with a copy of the requested record or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law.

E. IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS PROGRAM FUNDING AGREEMENT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT:

Kerri Post, Director
Leon County Division of Tourism
315 South Calhoun Street, Suite 830
Tallahassee, FL 32301
850-606-2300
postk@leoncountyfl.gov

10. Section VIII., titled "**Reporting and Notices**.", is amended to provide for a new "Notice to the COUNTY" provision as follows:

Notice to the COUNTY: Kerri L. Post, Director
Leon County Division of Tourism
315 South Calhoun Street, Suite 830
Tallahassee, FL 32301

CAPITAL AREA CULTURAL PLAN

JANUARY 2014

"During its year of work, The Cultural Plan Review Committee reached out to our community to hear and learn how the original cultural plan worked for them and what changes could be made to make a new plan be successful. This new cultural plan reflects the current state of culture, heritage and arts in the capital area and asks our elected officials in both City and County for strong commitments to support arts and heritage efforts in our community".

Kelly Dozier, Chair
Cultural Plan Review Committee

This plan was unanimously approved by a December 16, 2013 vote of the Cultural Plan Review Committee.

THE ROLE AND BENEFITS OF ARTS AND CULTURE IN OUR COMMUNITY

The importance that Committee Members place on the arts industry and its significance to Tallahassee is demonstrated in the countless volunteer hours that have been invested in this process as well as the time, talent and treasure each member has personally provided to organizations of their choice.

Each and every member of the Cultural Plan Review Committee would like to offer their voice to the chorus of support for the importance of arts, culture and heritage which results in our community's sense of place and contributes greatly to economic development. The intrinsic value may not be easy to quantify but the impact our arts community offers is clearly proportional to quality of life experiences. It takes resources and planning to document metrics that link events, attractions, educational outreach, ties to business and family relocations but it only takes a glance at a community calendar to know that **this** community values the arts.

To place appropriate emphasis on the measurable value of arts to any community, we offer the December 5, 2013 findings of the U.S. Bureau of Economic Analysis and National Endowment for the Arts as stated in a press release on the Impact of Arts include:

- 3.2% or $504 billion of current gross domestic product is attributable to the arts
- U.S. Travel and Tourism is an additional 2.8%
- The positive value of arts and culture has been understood on a human level for a millennia
- The impact can be measured
- Arts commodities include advertising and education
- During the recession the arts suffered more than the overall economy
- In 2011 the production of arts and cultural goods employed more than two (2) million workers and generated more than $289.5 billion of employee compensation

Major community initiatives that included Richard Florida's Creative Class concepts that resulted in the Knight Creative Class Initiative (KCCI) and the recent IMAGINE TALLAHSSEE effort, individually and collectively confirmed the importance of achieving greatness as a community and the role that arts, culture and quality of life experiences play in fulfilling that role. These efforts addressed the concepts of community "brain drain," building on existing resources and creating new collaborations. Sustainable Tallahassee and the Tallahassee Film Festival were two outcomes of KCCI efforts. The initiatives resulted in building a sense of place with "Get Gaines Going" and Cascades Park as two examples. It is very clear that people of all ages believe that art, culture and heritage are critical to developing the character of our community and achieving "Greatness".

If our community adopts and implements a revised cultural plan that includes annual accountability and modifications, we can ensure that we will maintain our respected leadership position in K-college education, keep and attract new residents, create jobs, increase quality of life experiences and build tourism. Increased tourism will result in increased bed tax funds, a principal element of current and future cultural funding.

SUPPORT OF ARTS AND CULTURE IN OUR COMMUNITY

During a time when almost every municipality in the state of Florida reduced or eliminated funding for arts and culture, the elected leaders of Leon County and the City of Tallahassee demonstrated their commitment to the value of culture, arts and heritage experiences with unwaivering and unanimous support. That support is symbolic that culture is part of the very fiber of our community, creating character and offering value for every district of our city and county.

The Cultural Plan Review Committee would like to commend and thank the Leon County Board of County Commissioners as well as the Mayor and City of Tallahassee Commission for their collective leadership to establish the Cultural Plan Review Committee a group of diverse and interested citizens dedicated to providing direction for arts, culture and heritage planning for the benefit of our residents and visitors.

The Cultural Plan Review Committee (CPRC) understands the importance of their recommendations representing the interests of the entire community. Efforts to ensure that the diverse population segments were heard were essential to the process, knowing it would result in strength and vitality for our cultural region.

Cultural Plan Review Committee members' life experiences span seven decades and included important representation from generations defined as "baby boomers." "Generation X." "Generation Y," and "Millenials." Professional experiences and backgrounds included artists, a young professional, corporate officers, small business owners, educators, tourism professionals, representatives of higher education, community volunteers, non-profit executives, a former legislator, media and marketing professionals, banking and finance, as well as representation from The Council on Culture and Arts. Ethnic representation was also diverse and was additionally complimented by the concerted effort to meet with community stakeholders representing many ethnic groups each serving important demographic sectors.

The report contains some new ideas and a different perspective on some significant elements of the former plan, which was adopted in 2003. The differences are not critical of the original work. In fact, the accomplishments of the first plan are commendable and many elements of that plan continue to serve our community well today. However, there have been many changes in our community over the span of a decade. Some have had great impact on local cultural organizations including the ability to fundraise, meet financial objectives or continue as a sustainable entity.

The findings of the Cultural Plan Review Committee are the result of careful consideration for the impact of the recent financial recession and demographic shifts in populations. Examples include efforts to keep a highly educated workforce in our community (recent college graduates) and our ability to attract an affluent and educated retiree population (Choose Tallahassee) The Committee's recommendations were greatly influenced by the input of leading community organizations that include, but are not limited to: The Tourist Development Council, The Greater Tallahassee Chamber of Commerce, The Capital Chamber of Commerce, Big Bend Minority Chamber of Commerce, Leon County Economic Development Council, The Leon County Public Schools, Florida State University, Florida A&M University, Tallahassee Community

College, as well as the many arts, cultural and heritage organizations that serve our region.

These important community stakeholders and many others participated in the process by serving as members of the Committee, responding to written surveys, through interviews, e-mails, and by attending meetings. There were more than 100 meetings that were publically noticed, providing opportunity for input from any interested party.

APPROACH AND PROCESS OF THE REVIEW AND RECOMMENDATIONS

Seeking to engage citizens in the planning process and bring an independent perspective to the examination of the existing cultural plan, current programs, and future initiatives, as well as the role of COCA in providing arts and cultural leadership, the Leon County Commission and the Tallahassee City Commission created the 18-member Cultural Plan Review Committee in October 2012. The Committee held its first meeting on Dec. 10, 2012.

The Cultural Plan Review Committee was charged with the responsibility to review the original plan, assess the status of the plan and its implementation, determine what portion of the plan might need to be updated or omitted based on changes that had occurred since its creation and to provide recommendations for modifications to the plan objectives.

Specific areas members were asked to address included:

- How to raise additional funds for arts, culture and heritage communities
- What are the immediate facility needs for arts and cultural organizations in the community and provide specific recommendations to meet those needs recognizing the fiscal limitation of public funding
- How to elevate awareness of arts, cultural and heritage organizations in the community to local and regional audiences
- How can the arts, cultural and heritage communities work more closely with the educational institutions and public and private sectors

Members of the Committee unanimously selected Kelly Dozier to be the Chair and Audra Pittman to be Vice-chair at the first committee meeting. Each members' areas of interest and expertise were also discussed. It became obvious that to achieve the objectives, members of the Committee would need to work on specific and unique segments of the plan. The original Plan's six (6) objectives became the basis for the sub-committees.

At the second meeting, Chairs for the subcommittees were appointed by the Committee Chair and Vice-Chair and members of each subcommittee were appointed to sub-committees based on their interests and experience. It was agreed that any member could attend any subcommittee meeting and that all members would have the opportunity to discuss and contribute to the recommendations of any subcommittee findings.

The sub-committees began with their respective and detailed review of each of the original Plan's six objectives that correlated to that committee. This process spanned more than six months with each committee laboring to provide both review and recommendations.

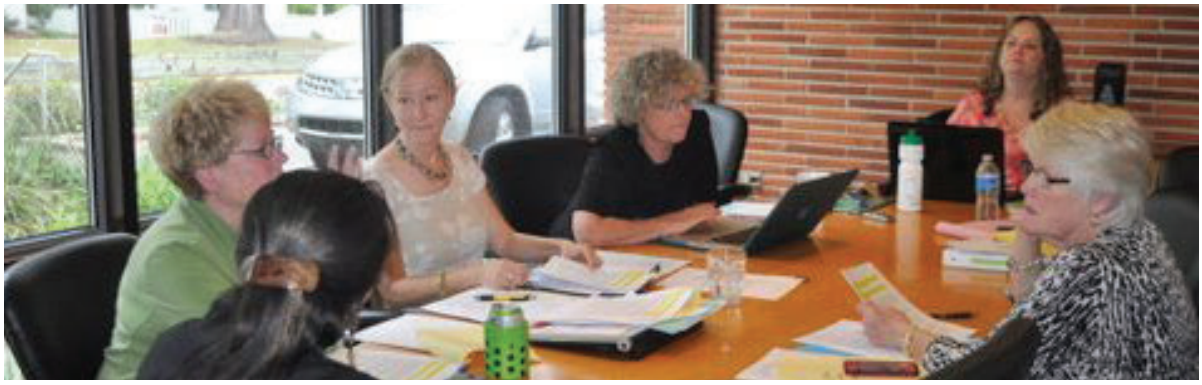
Due to the overlap of interests and to consolidate resources ultimately, four of the sub-committees were combined into two. It was impossible to separate recommendations for Marketing and Economic Development as it was to separate recommendations for Facilities and Finance. The interrelationships between

the objectives and the recommendations resulted in four final sub-committees.

Having met and deliberated for over a year, the Committee is excited to submit this update to the current cultural plan. We have engaged our community over the course of this past year. We have held numerous meetings throughout Leon County and Tallahassee, listened to hours of public testimony, exchanged ideas, discussed options, explored a sampling of current offerings, met with the COCA Board and distilled it into a set of recommendations covering four key areas—Education, Economic Development and Marketing, Facilities and Funding, and Plan Implementation/COCA.

This plan is intended to be a living plan, one that is flexible and responsive to trends and aspirations within Tallahassee and Leon County. It reflects a vision and a deep-seated commitment by our leaders and residents to accelerate the growth of creative opportunity throughout the region. It recognizes the contributions the arts, culture and heritage make to economic development and education of our community.

This plan includes numerous recommendations. While these are an important first step, implementation is the most important next step. We recognize that success will require continued leadership from the Leon County Commission and the Tallahassee City Commission. COCA has a critical role in implementation. As detailed in the recommendation (Plan Implementation/ COCA) they are essential to that process working in cooperation and collaboration with other community stakeholders. Not all aspects of implementation have been allocated to a particular individual or organization as funding priorities and funding availability will determine how best implementation strategies can be realized. It is clear, and the Committee would like to emphasize, that it will take all stakeholders to implement and execute the plan including strong advocacy resources.



The Committee respectfully requests that you accept this plan, and that through your local arts agency—COCA—and its strategic planning process and current programming, the proposals that are within your control are integrated into our existing cultural plan, programs and offerings as resources permit.

Setting priorities among many competing proposals within the plan will be a critical component and require a strategic roadmap. The Committee has not prioritized the recommendations in any particular order and has not assigned a cost to these initiatives. It is our intention that COCA, as your local arts agency, working on your behalf, at your direction will have the opportunity to lead the prioritization of the recommendations in tandem with the further development of their strategic plan. The Cultural Plan Advisory Committee and COCA will co-host a workshop to take the important next step of establishing those priorities. The workshop and future meetings will consider implementation requirements, explore associated financial resources and needs, and work towards incorporating recommendations that are within the control of the county and city into a strategic plan developed and approved by the COCA Board. This can be implemented in phases as resources allow, beginning with the fiscal year 2014/2015.

Finally, the Committee recommends that you also appoint a Citizens' Cultural Plan Advisory Committee to meet bi-annually with the COCA Board to review community progress towards the implementation of the programs and initiatives in this plan, exchange ideas and identify additional strategies for expanding arts, cultural and heritage opportunities.

The Committee is unanimous in its belief that we have a vibrant art, cultural and heritage community that must be maintained and strengthened. The successful future of our community is directly proportional to quality of life experiences that attract and keep residents and grow successful businesses. Art means business and the business of protecting and growing our arts community must remain a critical priority for all stakeholders especially the men and women who are elected and charged with the trust placed in them for this important purpose. The Committee would like to express gratitude for the support provided to-date, including the opportunity to share a collective voice about the rewards of our current and future art, culture and heritage offerings.

THE CULTURAL PLAN REVIEW COMMITTEE CONTRIBUTING MEMBERS

Kelly Simmons Dozier, Committee Chair
Funding & Facilities and Plan Implementation Subcommittee Member
City Commission Appointee
Senior Vice President/Chief Community Officer, Mad Dog Construction

Dr. Audra Pittman, Committee Vice-Chair
Education Subcommittee Member
City Commission Appointee
Artist/Professor, Savannah College of Arts & Design

Chucha Barber, Facilities Subcommittee Chair
County Commission Appointee
Principal, Chucha Barber Productions

Betsy Couch, Education Subcommittee Chair
Knight Creative Community Initiative Appointee
Adjunct Professor, Florida State University

Berneice Cox, Economic Development and Marketing Subcommittee Chair
County Commission Appointee
President and CEO, The Bacall Group

Tallahassee Active Lifelong Learning/Leadership Tallahassee Appointee
Member, City of Tallahassee Senior Citizen Advisory Board

Bart Wells, Economic Development and Marketing Subcommittee Member
Leadership Tallahassee Appointee
Executive Vice President, Sperry and Associates

Mayda Williams, Plan Implementation Subcommittee (12/12-8/13)
Greater Tallahassee Chamber of Commerce Appointee
Founder, Target Copy, Community Volunteer

Rosanne Wood, Economic Development and Marketing Subcommittee Member
COCA Appointee (7/13-9/13 Filling in for Anne Mackenzie)
Founding Principal, SAIL High School

THE GOALS OF OUR CULTURAL PLAN

ECONOMIC DEVELOPMENT & MARKETING

Position and market the arts, culture and heritage as a strategic partner of Tallahassee/ Leon County economic development efforts. This shall be achieved through public and private funding for arts, arts organizations and cultural assets.

EDUCATION

Capitalize on the area's art, cultural and heritage attributes in order to strengthen art, culture and heritage opportunities in schools and the community. This effort recognizes the importance of expanding current education-related initiatives and implementing new opportunities.

FUNDING & FACILITIES

Provide sustainable public and private funding to preserve and improve arts, cultural and heritage organizations and experiences. This effort acknowledges the importance of growing new and emerging projects and facilities, but will give priority to existing organizations.

PLAN IMPLEMENTATION

The Council on Culture and Arts for Tallahassee/Leon County (COCA) will realize its mission as the local arts agency representing culture, arts, and heritage for ALL in Tallahassee and Leon County through grant-making, advocacy, marketing, and education.

"When Winston Churchill was asked to cut arts funding in favour of the war effort, he simply replied, "then what are we fighting for?"

ECONOMIC DEVELOPMENT AND MARKETING

GOAL

Position and market the arts, culture and heritage as a strategic partner of Tallahassee/Leon County economic development efforts. This shall be achieved through public and private funding for arts, arts organizations and cultural assets.

FINDINGS

Investing in arts, culture and heritage in Tallahassee/Leon County is yielding substantial economic benefits. The arts community is an industry that supports jobs, local businesses, tourism, and generates government revenue. Spending by arts and culture organizations and their audiences totaled $74.6 million in Tallahassee/Leon County during 2008. (2009 Arts and Economic Prosperity in Tallahassee Report – Americans for the Arts).

Arts, culture and heritage enhances the quality of life and serves as an integral part of regional economic development. Every segment of our community deserves the benefit of great art, culture, and heritage experiences, which also make our area an exciting place to live, learn, work and visit. Businesses planning to relocate consider arts, culture and heritage when assessing quality of life for their employees. Arts, culture and heritage also develop a community identity and provide the community with a sense of collective pride, which will attract a dynamic workforce and businesses.

Opportunities exist for a collaborative relationship between COCA, Leon County Tourist Development (Visit Tallahassee), Greater Tallahassee Chamber of Commerce, Big Bend Minority Chamber of Commerce and the Economic Development Council, and other groups.

COCA has partnered with United Partners for Human Services and The North Florida Community Foundation to provide a series of workshops on best business practices for non-profits. To assist its members, COCA publicizes Leadership Tallahassee's Building Better Boards program.

Merchant account services were established as a way to assist individual artists and small businesses make additional sales using this COCA resource.

"As part of our overall evaluation of where to site our new Operations Center, quality of life for our employees was clearly a factor. As home to one of the country's largest universities, Tallahassee offers a rich cultural and arts community that we greatly value."

Kaye Scholer Chief of Operations Jeff Hunter, who spearheaded the search

Arts, culture and heritage should be valued as vital contributors to Tallahassee/Leon County's character, quality of life and economy. Individual artists, as well as arts, culture and heritage organizations, represent potential for small business development that contributes to the overall economic vitality of Tallahassee and the surrounding communities.

RECOMMENDATIONS: OBJECTIVES AND STRATEGIES

1. Create a unified marketing and advertising campaign for promoting Tallahassee and the Capital Area as a cultural hub.

- Establish a steering committee including representatives from COCA, Greater Tallahassee Chamber of Commerce, Big Bend Minority Chamber of Commerce, Leon County Tourist Development(Visit Tallahassee), Leon County, City of Tallahassee, Florida State University, Florida A&M University and Tallahassee Community College to work together on this effort. The collective assets of each of these institutions create a synergy which will allow our community to speak with a strong and common voice.
- Each organization will appoint one representative to the steering committee. Each organization will contribute toward the funds required for the advertising campaign. This marketing campaign will be used by the organizations represented on the steering committee to provide a cohesive message.

2. Support a Trolley system and transportation linkages to further connect the districts with cultural components, which have been and are being developed throughout Tallahassee. Examples include: Midtown, Frenchtown, Downtown, Cascades Park, Southside, College Town, Gaines Street, The Market District and others.

- Providing accessible public transportation options will facilitate and encourage participation and attendance in our cultural districts.
- Encourage City and CRA to continue funding the trolley system/transportation linkages.

3. City of Tallahassee and Leon County should continue to identify and support districts with cultural components by providing appropriate wayfinding, parking opportunities and transportation links for ease of accessibility to arts, culture and heritage entities.

- Funding should continue to be provided by the City and the CRA.

4. In order to improve the business skills of arts and culture executives, COCA will continue to provide training workshops to assist artists and arts/cultural organizations in ways to implement effective business practices

- To facilitate this effort, COCA should partner with business organizations such as the Economic Development Council's Entrepreneurial Excellence Program and the Jim Moran Institute and others that become available.

5. COCA should continue to collaborate with Leon County Tourist Development(Visit Tallahassee) to promote local heritage and cultural destinations. COCA and Visit Tallahassee should continue their efforts to combine their events calendar and create a mobile user-friendly website as well as an app for smart phone users to easily access the information. Information should be presented in a professional and attractive format.

- Create a centralized location for calendar of events.
- COCA, Visit Tallahassee, City and County funds should be used to support this project.

6. Leon County Tourist Development(Visit Tallahassee) should continue to market Tallahassee as a "location site" for the film industry, as an economic driver, in cooperation with the FSU Film School, The Film Society, Florida A&M Journalism/Film Program, TCC Film Program, the Tallahassee Film Festival and other film oriented organizations.

- Visit Tallahassee should create a list of location sites for Tallahassee and Leon County. As funding resources become available, Visit Tallahassee should work with the City of Tallahassee, Leon County and the State to position Tallahassee as a location site.

7. Every three years, COCA should use real data collected through an economic impact report to provide current information on the economic impact of arts and culture in our community. (Refer to #9 of the Operations/Implementation)

- City and Leon County should provide funds for this report.

8. Increase the concept of community arts liaisons including the expansion of the existing arts liaisons program of the Economic Development Council to include leaders of the arts community in an effort to be proactive and look for economic development opportunities that may present themselves as a result of cultural and heritage events in our community.

- Identify decision makers and influencers that are participating in our many cultural and arts events and facilitate the proactive development of relationships between them and local economic development leaders.
- Establish a business oriented liaison between COCA, the Chambers of Commerce and the Economic Development Council to serve on the appropriate committee.

9. Working with the City of Tallahassee Police Department and others involved in Festival permitting and planning, COCA should create a guide and checklist for event or festival planning and hold workshops to assist those interested in creating new events or sustaining existing events in our community.

- To assist event and festival planners in organizing and sustaining events through understanding best practices, permits needed, and where to find resources, etc.
- The guide and checklist will be posted on COCA's website. Workshops would be held based on interest or requests.

10. COCA should develop an annual marketing and communications plan that includes an analysis and determination of its brand, strategic messages, target audiences, the best media channels to reach those audiences and quantifiable goals to determine the efficacy of its marketing strategies.

- COCA's marketing efforts would be organized under the umbrella of a strategic marketing plan that communicates its brand and mission to the public, to key community stakeholders and to culture, heritage and arts organizations. The efficacy of this plan would be evaluated annually by monitoring key indicators, such as, but not limited to, online page views, social media engagement, media placement, e-mail opens, responses to direct mail, event attendance, etc.

11. COCA to work alongside Leon County Tourist Development (Visit Tallahassee) and other organizations to help identify and promote destination defining events which help define the brand and spotlight arts, culture and heritage.

- Maintain open lines of communication and collaboration between COCA

and Visit Tallahassee to ensure that the region's destination defining events are being advertised and promoted in the best way possible.

- COCA staff and Visit Tallahassee staff would meet at least quarterly to discuss upcoming events and to strategize ways to promote and market them within Tallahassee and outside the region.

12. COCA will work with Leon County Tourist Development (Visit Tallahassee) and local businesses, arts organizations and hoteliers to package arts, culture and heritage resources wherever possible and practical to expand the geographic footprint and reach of our local offerings beyond our community.

- COCA will continue to work with Visit Tallahassee and local businesses, arts organizations and hoteliers to disseminate information regarding our many art and cultural offerings using tools such as in-house hotel TV channel, destination maps, and cultural events magazine and other marketing efforts whenever possible.

"As Chairman of the Oklahoma Chamber of Commerce, I visited almost every city and town in the state. There is a visible difference in places with an active cultural community. I see people looking for places to park, stores staying open late, and restaurants packed with customers. The business day is extended and the cash registers are ringing."

Ken Fergeson
Chairman and CEO, NBanC

Past President, American Bankers Association

EDUCATION

GOAL:

Capitalize on the area's art, cultural and heritage attributes in order to strengthen art, culture and heritage opportunities in schools and the community.

FINDINGS:

- One can learn in and about arts, culture and heritage during school programs as well as through their exposure in the community and at home.
- Research has proven that children with access to art, culture and heritage programs tend to score better on standardized tests, have increased graduation rates and many more positive benefits.
  - ✓ A report by the Arts Education Partnership (2002) revealed that schoolchildren exposed to drama, music and dance are often more proficient at reading, writing and math.
  - ✓ "The empirical classroom experience of arts integration subjectively suggests that carefully structured arts-based pedagogy can improve students' learning and academic experiences, resulting in demonstrably positive outcomes that include deeper engagement in subject matter and better retention of content; greater emotional involvement in the learning process and deeper social awareness; and the ability to apply principles across disciplines."– From "Neuroeducation: Learning, Arts and the Brain," by Johns Hopkins researchers findings.
- Arts education is important because: "1) the arts transform the learning environment; 2) the arts reach students who are not otherwise being reached; 3) the arts reach students in ways they are not otherwise being reached; 4) the arts connect students to themselves and each other; and 5) the arts provide new challenges for those students already considered successful."– Champions for Change
- Cultural, heritage and artistic experiences are key in the community.
- Tallahassee is host to a variety of art, culture and heritage organizations where education is central to their mission – from the Challenger Learning Center, Riley House Museum and Tallahassee Museum to Mission San Luis and the Tallahassee Senior Center for the Arts.
- Tallahassee is rich in cultural opportunities, but the community as a whole is not aware of all the offerings.
- Currently, there is not an over-arching network of arts and heritage education providers that spans from home-schools, private schools, LCS and the Universities.
- Funding for arts and heritage education programs has decreased at the state level.
- In the past, several local cultural organizations historically had benefit of funding from LCS. This had come in the

"As a lifetime educator, I have witnessed time and time again what a difference it makes when a student is part of an arts program. For some, it may be the only thing that motivates them to do well in school. Ensuring that every student has that opportunity is a priority for us."
Superintendent Jackie Pons

form of a designated line item funding for services or, in some instances, funds to pay for a Leon County School District employee to work at the institution. The reason there were variables is, for example, when a teacher was assigned to the Challenger Learning Center, they were still in the state employee retirement system. If a teacher were assigned to The Brogan Museum, that institution could not offer those benefits so the value was paid to the institution for staff, in lieu of assigning a permanent employee of the district. These positions are no longer in place.

Art, culture and heritage education can happen anywhere and everywhere at any age and setting.

- During one of the worst recessions in recent history, Leon County Schools have undergone tremendous budget cuts, more than $100 million. However, LCS works to maintain arts and cultural programs in K-12.
- All LCS schools offer at least one fine or performing arts class, as varied as African drumming and a blue grass band.
- 70% LCS children participate in cultural and art programs.
- There are more than 100 visual art, music, drama and dance educators in Leon County public elementary and secondary schools.
- Local schools are left to provide support for their arts and heritage curriculum with auxiliary funding (private donor donations, business donations, fundraisers, discretionary district funds, etc.).
- Often times the success of a school's art, culture and heritage programs depends on the strength of the principal and/or teachers and their ability to fundraise to create the creative learning environments that are envisioned.
- It is important that for school-age children cultural, heritage and artistic experiences are also offered outside of educational organizations. Tallahassee is fortunate to have top-notch community arts, cultural, heritage organizations that offer educational opportunities to enrich and complement the education offered in our area schools, home schools and Universities.
- COCA has created a variety of successful education-related programs, which should be continued such as: COCA for the Classroom, COCA for children and COCA's Arts in Education Newsletter.
- LCS have a variety of great partnerships with arts, culture and heritage organization in town such as COCA; FAMU; FSU – Master Craftsmen studio, Museum of Fine Arts, foreign languages departments; TCC; Lemoyne; Killearn Kiwanis Club; Goodwood Museum; the Holocaust Education Research Council; the Buffalo Soldiers Troupe, area Churches; Lee's Place; Junior League of Tallahassee; Mission San Luis; Riley House Museum; Tallahassee Museum; the Florida Supreme Court; the Florida Capitol; Leon County Public Library; and more.

RECOMMENDATIONS: OBJECTIVES AND STRATEGIES

1. To create a collective place that serves as a conduit between teachers, schools and the business community so schools and teachers can share needs and businesses can directly respond to help with these needs.

Objective: To promote the Foundation for Leon County School's find it & fund it, leon! program, www.finditfunditflorida.com/leon. Individuals, organizations and businesses are encouraged to invest in the creativity of a teacher to bring amazing learning experiences to their students. To get started, simply click on a grant listed and view the details and fund online. Using this easy-to-use module, teachers can request funds for projects from parents and businesses within the community to help fulfill their individual classroom needs. It's a virtual wish list that allows donors to instantly fulfill a classroom need with just a few key strokes.

This program offers a variety of community opportunities as it can be used by business, nonprofit organizations, and schools within a community to post opportunities such as student internships, volunteer opportunities, scholarships, and teacher externships. In addition, businesses can post offers of equipment, materials, and guest speakers for our public schools. Our teachers can also make requests from the community. It's a one-stop-shop clearinghouse of opportunities for our local students and teachers.

Strategy: 1) Foundation for Leon County Schools to work with COCA and LCS to promote the website and program to arts, heritage and cultural education providers. Also to provide a learning opportunity and training seminar annually for area teachers so they are all aware of the program and understand how to apply.

Strategy 2) Foundation for Leon County Schools to coordinate with the Greater Tallahassee Chamber of Commerce to provide information about "find it, fund it, leon!"

- The successes of "find it & fund it, leon!" program depends on community awareness.

2. Arts, heritage and education organizations should be encouraged to share their expertise with public, private and with home schools.

Objective: This can be measured and encouraged by asking organizations to share their intent on COCA grant requests and/or other methods. COCA should encourage organizations to provide experiences for the community and/or children, from performances to executive internships.

3. Increase commitment to Leon County's youth and strengthen art and business relationships by creating an Arts at Work program, which is a comprehensive youth program that promotes the arts.

- This is modeled after the successful Fulton County, Ga. program, which has received numerous accolades. This program would target students, ages 14-18, and provides arts education and job training.
- Throughout Arts at Work, students are exposed to various aspects of the arts industry-- from learning how to properly write an artist's bio and learning simple accountability such as being on time all the way to viewing an art gallery and putting on an art show. The program dedicates the focus of its activities to studying and producing art and throughout the 8-week program where the students become

"artists" with weekly training from a local artist. Leon County could successfully follow the model started in Fulton County, Georgia, which has received national accolades. Participants have to apply to participate in the program in a process similar to Youth Leadership Tallahassee.

- LCS supports the idea of an Arts at Work program.

Strategy: Work together with partners such as the Foundation for Leon County Schools, Leon County Schools and Northwood Arts Project to investigate this program more and provide recommendations to the COCA board of directors for implementation by January 2015, assuming available funding, with the first program launching no later than fall 2015.

"In fact, all people today, youth and adult, spend the majority of their lives learning outside the walls of formal classrooms." -- Institute of Museum and Library Services

4. Local festivals should showcase student accomplishments in the arts by featuring a COCA/LCS booth that showcases work from K-12.

Objective: To have participation at minimum at Springtime Tallahassee and Winter Festival celebrations as well as LeMoyne Chain of Parks Art Festival. Create opportunities to highlight the arts in schools (public, private and home schools) and support business in the City of Tallahassee.

Strategy: The advisory board of COCA, The Education Director, and current LCS individual responsible for supervising arts educators could partner with Governor's Square Mall and merchants to begin an annual art show. Partnering with merchants and driving business to the mall could also bring added visibility to the arts by having each school provide a display board that features art from participating schools.

5. An arts, culture and heritage curricula coordinator position at Leon County Schools should be created to serves as the businesses conduit between the schools, businesses and arts, heritage and cultural organizations. A designated arts, culture and heritage representative with experience in education would significantly expand arts, culture and heritage opportunities, continuing education and resources for teachers and their schools.

Objective: To create the arts, culture and heritage curricula coordinator position before the 2015-2016 school year.

Strategy: The position could assume a variety of responsibilities. Primarily, they could identify teacher development needs and provide resource in the arts, culture and heritage and work with area cultural organizations as a liaison to all schools and much more. They could also work with LCS administration and COCA to expand signature programs and create new signature programs such as a community Arts Extravaganza that showcases LCS talent from K-12 annually. On a smaller basis the position could coordinate a Performing Arts Nights at each LCS. This position would also serve as the "go to" for the local arts, culture and heritage organizations, among other duties.

- This is a new position which will require additional funding as well as additional funding for potential event expense, which may be offset by corporate sponsorships.

6. A Coalition for Arts, Culture and Heritage Professionals should be established providing networking, collaborative, and cooperative opportunities to community arts, culture, and heritage executives.

- This will allow a variety of individuals and organizations to come together to share ideas, discuss upcoming activities and network.

- Education contacts from the area schools should also be invited to attend and network.

- It is important that more structured networking events are coordinated and implemented monthly throughout the year.

- For more information, see page 44 of the COCA Implementation Subcommittee section.

7. A Youth & Education Network should be formulated as mentioned in the COCA Implementation Subcommittee section on page 45. **This group will bring greater awareness of and advocate for the importance of arts, culture and heritage education in the community.**

8. Promote more "Art in Public Spaces," and where there currently is art, provide educational opportunities such as signage at the site of public artworks or guided/self-guided tours.

- Expand the current art in public spaces in the community.

- Specifically with LCS, build upon LCS art in community spaces programs. For example, the successful SAIL High School program where students created art in public spaces throughout campus that identify the subject taught in each building.

- In addition to the strategies mentioned on page 45 this should be expanded to include non-traditional art in public places opportunities that are complimented with educational signage.

- Provide artistic elements and educational-related signage in everyday spaces such as bus shelters, intersections and more.

- Create a standardized style of small educational sign, which has basic information such as title, artist, date and QR code to get more information.

Example 1): In 2013, with the bus shelters, Tallahassee expanded creative art in unique public spaces with the City of Tallahassee's bus shelter at the SE corner of Gaines St. and Railroad Ave. intersection. There is not currently signage explaining the artistic aluminum enclosure or how it is made, but that could be further developed.

Strategy: To incorporate art into Tallahassee's bus shelters and provide educational signage explaining the artistic element, creation, the artist, etc.

Example 2): With intersections there is an opportunity to encourage the community to do more creative art projects such as the Fall 2013 Market District's Paint the Pavement project, which was organized by the Market District Merchant's Association in partnership with the City of Tallahassee. There is no current signage explaining the project or how this artistic medium was created.

Strategy: To further expand Tallahassee's Sense of Place initiative by working to secure unique artistic elements in creative places and educate the public about the art. This could be installed or virtual signage that engages the community and explains the artistic medium and more.

Strategy: Create a coalition between COCA, Florida State University Department of Art Education, FAMU Department of Visual Arts, Humanities and Theatre, and LCS arts educators to develop appropriate signage for art in public places. This coalition could be managed by the Education Director and or chaired by an active member of the COCA board.

Strategy: Provide additional grant support through COCA to encourage the Florida State University Department of Art Education, 7 Days of Opening Nights, and other artists and art organizations willing to collaborate on to art murals in public places and provide educational signage and information related to public art.

Strategy: Expand COCA's Outdoor Public Art Directory and Map to include an easy to use web application for additional access to information about each piece of artwork.

9. Formulate creative partnerships with organizations that are able to provide volunteers to assist in school arts/heritage classes and activities on a regular and consistent basis.

Objective: To establish a cadre of volunteers who can expand arts and heritage opportunities for students in and out of the school setting. Volunteers with experience in the arts, heritage or education can be recruited from service organizations, colleges, COCA's online listings, Tallahassee Senior Center, etc. This would be staffed by staff person or a volunteer(s).

Examples of activities could include:

- Work with arts and heritage organizations to expand their outreach efforts. For example, the FSU Museum of Fine Arts has initiated outreach projects with schools where interns, arts students, teachers and other volunteers created information packets and lesson plans on specific exhibitions which are shared with schools to promote field trips or bring aspects of the exhibits into the schools. Materials can also be sent home with students for family participation. Not all cultural organizations have the staff to devote to such efforts.
- Work with cultural and heritage organizations and the schools to develop lesson plans which integrate the arts/heritage into core curriculum such as history or English lessons.
- Volunteer artists such as musicians, poets, actors, story tellers can put on performances in classrooms and assemblies. These can be integrated into core curriculum such as history or English lessons.
- Such activities can be shared with more than just schools. Exposure to arts/heritage activities should be available in recreational centers, Boys and Girls Clubs, after school programs as well as families.
- Peer groups of students with special artistic skills or heritage interests can be organized and trained to share their skills and interests with fellow students.

10. Promote lifelong learning for arts, culture and heritage by providing a variety of professional development workshops and continuing education opportunities for the community to attend at affordable prices.

Objective: To continue the success of past workshops; promote future workshops and offer a minimum of 4 workshops annually.

Strategy: The COCA Arts advisory group could help drive awareness of these opportunities. Support from Florida State University College of Visual Arts, Theatre, and Dance and FAMU's Department of Visual Arts, Humanities and Theatre, Osher Life Long Learning Center and volunteer members could drive the interest and success of future workshops. Social Media campaigns and information would also generate interest. Sponsors from local businesses like Ulrecht Art Supply, Michael's, Jo-Ann Fabrics, and Hobby Lobby could be reached for support and presentations that would help waive the cost of supplies. Current COCA facilities or LCS spaces could host these learning opportunities.

FUNDING AND FACILITIES

GOAL:

Provide sustainable public and private funding to preserve and improve arts, cultural and heritage organizations and experiences. This effort acknowledges the importance of growing new and emerging projects and facilities but will give priority to existing organizations.

FINDINGS:

Leon County and the City of Tallahassee should be commended for their steadfast support of local arts, cultural and heritage organizations during economic conditions that have sometimes been referred to as the greatest recession since "The Great Depression." Unlike many communities throughout the region, the state, and the nation, funding for these organizations remained a priority for our community, with on-going support of elected Commissioners, the Mayor of Tallahassee, the current and former County Administrators, as well as the City Manager.

While the City of Tallahassee had a stable revenue base from which to identify general funds, Leon County Commissioners identified funds to replace declining general operating revenues. Cultural funding from the County was maintained through a creative solution, the use of Bed Tax funding.

Arts, cultural and heritage organizations, special events, festivals and educational conferences have diversified funding needs. Currently, the City and the County provide program and **operational support through the COCA re-granting program.** Under current COCA guidelines, a festival must host activities at multiple times during a single year to be eligible for funding. If that criteria is not met, **festival, special event and educational conference organizers may apply for limited funding from the Tourists Development Council, the Community Redevelopment Agency, or the Downtown Improvement Authority.**

There are limited resources for capital improvements. The Committee found that this funding need is an important priority.

Likewise, there is currently **no designated funding source for innovative new ideas or projects.** The TDC sometimes provides grant support for these emerging initiatives, but TDC funds are restricted to tourism impact, which is difficult to demonstrate as a start-up event.

"In creative placemaking, partners from public, private, nonprofit, and community sectors strategically shape the physical and social character of a neighborhood, town, tribe, city, or region around arts and cultural activities. Creative placemaking animates public and private spaces, rejuvenates structures and streetscapes, improves local business viability and public safety, and brings diverse people together to celebrate, inspire, and be inspired."

Ann Markusen, Markusen Economic Research Services
Anne Gadwa Nicodemus, Metris Arts Consulting
From Creative Placemaking

Imagine Tallahassee is considering a **"Quantum Leaps" grant program** as a possible concept for future funding of this type. "Quantum Leaps" are defined as highly significant advances or breakthroughs.

State statutes strictly govern the use of Bed Tax dollars. These statutes limit funding support to organizations and events that promote tourism. This is an important point, as there are many

"quality of life" experiences that drive economic development and ensure a strong community. Some significant events and organizations are not eligible to apply for the Bed Tax funds. The current pool from general funds available through the COCA grant process is not sufficient to provide the funding needed for non-tourist, more locally centered cultural offerings.

The City's portion of arts, heritage and culture funding from its general fund is available for more flexible funding strategies. These are valued by our community, including many cultural organizations, cultural activities and events. **Some organizations provide significant quality of life experiences, but cannot easily demonstrate their impact on tourism.**

Many of these organizations and events have been cited as examples of rationale to live here, move here, relocate a business, or start a business in our community. Thus, there is a need for continued support of these, as well as new and emerging events and organizations that serve our residents, all having the potential to increase quality of life, tourism, and revenue for our city and county.

Of equal importance is the value of State cultural organizations in our community. The experiences they offer truly make a dynamic cultural environment for our residents and visitors. Increased support of these facilities and events would further the bridge building between "town and gown" and ensure we remain a community of rich and diversified cultural offerings. The Committee does not recommend modification to the current COCA regranting program for this purpose, as it would significantly deplete the ability of municipal funding to support existing non-state entities. The Committee feels strongly that there are inadequate available dollars for both state and non-state cultural organizations that should be addressed with careful planning and new strategies.

Recent national studies indicate the fastest growing division of tourism is historic facilities and tours. **Increased collaboration between local arts, cultural and heritage organizations and municipal governments and state**

agencies, has the potential to significantly grow tourism and bed tax revenues for the collective benefit of all community stakeholders.

There are specific **funding sources for festivals, special events, and conferences.** These important activities create a "sense of place" and contribute significantly to the identity of our community, while providing promotional value to attract tourists and promote economic development.

There is clearly a need in our community for improved or additional performance spaces. Performance organizations that require seating for more than 1,200, as well as large rehearsal spaces, have the most difficult needs to be met. The community must go forward with an effort to create one or more new performance venues with a realistic plan, including the affordability for local groups to utilize the space.

In recent years, significant funds were set aside, and other efforts made, regarding the support for two specific cultural facilities (The Performing Arts Center and ArtsExchange).

While these specific initiatives sought out and received significant financial support from local government, existing facilities failed to generate support resulting in a lack of balance between the efforts to create new facilities and the preservation and improvement of existing facilities. During the economic downturn of the past five years, existing organizations found it difficult to fund ongoing facility needs, let alone make improvements or add to their facilities. This has left an urgent need to identify capital improvement funds for existing facilities, while also providing funds for new facilities.

RECOMMENDATIONS: OBJECTIVES AND STRATEGIES

1. Leon County and the City of Tallahassee should continue to provide financial support for arts, heritage, cultural programs, festivals special events and educational conferences that add to the quality of life and help make Tallahassee a desirable destination.

2. In addition to local government funding, COCA should continue to seek additional public and private funding to support its programs and grants, while not competing with other local arts, cultural and heritage organizations.

- These sources of funding may include NEA funds, private endowments and collaborative grants for which only a Local Arts Agency can qualify.

3. Recognizing that there are several local government-funded grant programs, as well as varied conditions and criteria regarding eligibility for funding, the committee recommends that there be increased collaborations between all parties including, but not limited to, more effective sharing of information between funding agencies and improved dissemination of information about funding opportunities with all potential applicants. ***(See PAGE 39 Chart Local Government Funding).***

- Create a designated web site with all grant opportunities and deadlines, including a link to (and from) every grantor's webpage. Each grantor should be required to provide this information and monitor its accuracy. The site will be created, managed and hosted by COCA.

4. The committee recommends funding be made available for current and future festivals, which will be subject to annual assessment and evaluation determined by the grantor.

- Consolidation of existing festival funding as reasonable and appropriate. (It is understood that CRA and DIA have geographical considerations that could limit consolidation)

- Comprehensive information and funding sources should be available on a designated site that will be created, managed and hosted by COCA.

5. Establish a new matching grant program for capital improvements for arts, cultural and heritage organizations. ***(See Addendum A1 for Grant Guidelines)***

- Follow the guidelines within the attached addendum

- A dedicated source of funding should be identified for this purpose, such as the use of Bed Tax dollars formerly set aside for the Performing Arts Center

6. The on-going need for performance venues must be addressed.

- Create collaborations and partnerships between performing arts organizations, universities, community colleges public schools and private venues

- Identify underused sites that are affordable and can be repurposed

7. If we can strengthen our existing cultural organizations and events, demonstrating a record of success, it will be their constituents who will ultimately be the strongest supporters of a future Performing Arts Center.

- Strategies for going forward with a future Performing Arts Center in our community should include a realistic business plan, workshops with community stakeholders, and efforts to unite the arts community,, and creating an affordable, well equipped, appropriately large, performing arts venue available for the community.
- The need for performance venues is a critical priority for performance arts organizations in our community. The community must go forward with the effort to create one or more new performance venues, but there must be a realistic plan, including the affordability for local groups to utilize the space.

8. There have been some wonderful and unique installations in our community. There should be a cohesive vision for art in public spaces, such as the gateways to our community or roundabouts creating our "sense of place."

- The community should establish a diversified committee to create a strategic plan for art in public places including desirable objectives for gateways, large and small.
- Partnerships with private and public funding sources should be established.

9. Recognizing that the arts, culture and heritage are a central part of what makes up our community; and recognizing that organizations which provide vital experiences in arts, culture and heritage, like other non-profits, have traditionally faced a myriad of challenges in establishing and maintaining financial sustainability and therefore must rely on governmental support; it is a desirable vision to someday see this segment of our community become financially strong and more self-sustaining.

- COCA and the Community Foundation of North Florida should collaborate to create educational programming for arts, culture and heritage organizations to learn about establishing and growing endowments for long-term financial sustainability.
- All arts, culture and heritage organizations should strive for the goal of achieving institutional financial sustainability.

10. Create a funding source that provides competitive grants to art, and cultural and heritage organizations, as well as state and local government in our community, for projects and programs that would allow those organizations to achieve a desired "quantum leap" (highly significant advance or breakthrough) in their offerings or level of self-

sustainability. This game changing opportunity grant is essential to the economic development and quality of life of the community. ***(See Addendum A2 for More Information)***

The Committee recommends a level of funding that would provide $5,000,000 over the 20-year life of the sales tax extension, or $250,000 per year, and be administered through an existing granting infrastructure, such as the one in place at the Council on Culture and Arts (COCA).

- Examples of the types of programs or projects that may be supported through this grant are:

  1. Installation of Art in Public Places, such as at gateways and roundabouts

  2. Projects that promote a sense of place or identity in the community (Signature Festivals, Public Exhibitions, etc.)

  3. Projects that propel an organization to a new level of service to the community

  4. Projects that propel an organization to a new level of sustainability

  5. Projects/Programs that attract Regional or National media attention to the Tallahassee area as a visitor destination

  6. Future KCCI initiatives

- The Leon County Sales Tax Committee has tentatively set aside up to 15% of the future proposed sales tax extension (currently the Blueprint 2000 tax) for economic development and is awaiting the recommendations by IMAGINE Tallahassee to make the final decisions regarding the allocation of funds towards economic development projects and initiatives.

- The Cultural Plan Review Committee has submitted this grant proposal to IMAGINE Tallahassee for inclusion in their recommendations to the Leon County Sales Tax Committee, as it meets several of the Goals and Strategies that have been identified through the IMAGINE Tallahassee visioning process.

- Some of the Goals and Strategies that are met by this grant funding proposal are:

Goals:

1. Increased visitor and tourist spending.

2. Media recognition as a cultural destination for in-state and out of state travelers.

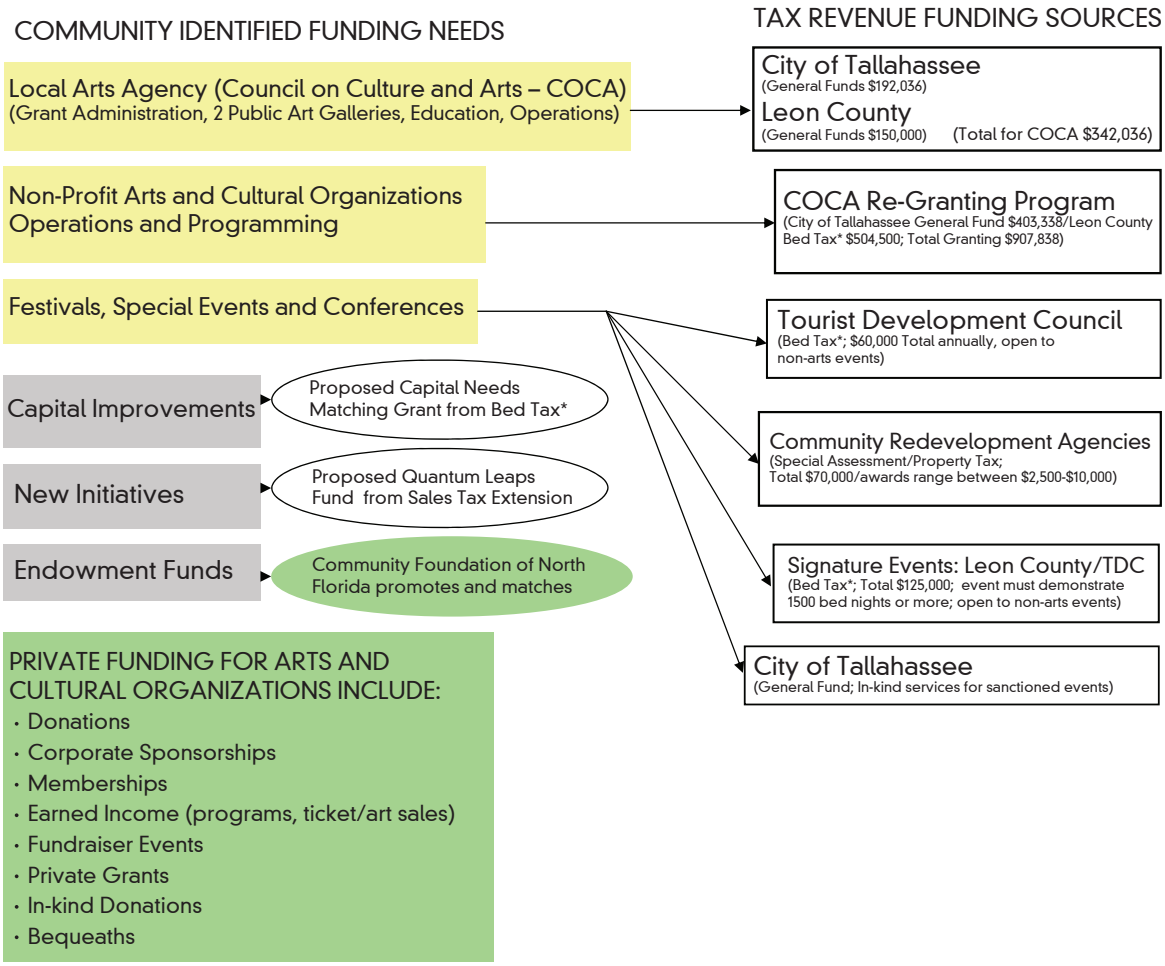
3. Increase financial sustainability within our arts and cultural institutions.

4. Recognition of Greater Tallahassee as a metropolitan area “on the rise.”

5. Increased employment in “creative industries.”

6. Improved perception of Tallahassee as a place to live among young professionals.

Strategies:



1. Ensure a level of “coolness” within downtown and surrounding urban areas.

2. Promote art in public places.

3. Foster the development of creative young professionals as catalysts for economic growth.

4. Foster financial sustainability in our arts and culture organizations.

CURRENT LOCAL PUBLIC FUNDING AVAILABLE TO ARTS AND CULTURAL ORGANIZATIONS (12/2013)

*Bed Tax dollars are limited by State of Florida Statute:
"if tax revenues are expended for an activity, service, venue, or event, the activity, service, venue, or event must have as one of its main purposes the attraction of tourists as evidenced by the promotion of the activity, service, venue, or event to tourists;"

This chart is prepared by the Leon County/City of Tallahassee Cultural Plan Review Committee

PLAN IMPLEMENTATION

GOAL

The Council on Culture and Arts for Tallahassee/Leon County (COCA) will realize its mission as the local arts agency representing culture, arts, and heritage for ALL in Tallahassee and Leon County through grant-making, advocacy, marketing, and education.

FINDINGS:

The original Cultural Plan (2003) set forth goals, objectives, and strategies that were delegated to COCA to implement, manage, and evaluate. Some of the goals, objectives, and strategies included:

- The construction of the Arts Exchange and a community Performing Arts Center.
- An Arts Trolley serving the First Friday Gallery Hop.
- A Community Arts, Culture and Heritage Map of Tallahassee.
- Capital Culture Magazine published by COCA.

The Cultural Plan was overseen by an Audit Committee, which was appointed by the City and County Commissioners to guide the implementation of the plan for the first three years. They provided reports to the joint commissions in six and twelve month intervals. **The Audit Committee adjourned at the beginning of 2007.**

At the end of the Audit Committee's governance of the plan, the nation and community experienced one of the worst recessions in recent history. The economic downturn and other circumstances effected the implementation of the plan moving forward **as several goals, objectives, and strategies were tied to financial resources that were either reduced significantly or ceased to exist.**

Even with the financial impact of the recession, it is noted that **COCA was able to provide many valuable resources to the community.** These resources include, but are not limited to:

- One of the only local arts agencies in Florida to maintain level grant funding to local culture, arts, and heritage organizations in the City of Tallahassee and Leon County.
- Professional development and assistance to the cultural community (i.e. "Marketing Mondays", merchant service accounts for local artists, technical assistance workshops).
- Marketing and promotional services to the arts, culture, and heritage community (i.e. "More Than You Thought This Week" and "COCA Opportunities" email blasts, www.MoreThanYouThought.com calendar, and "COCA Buzz" in TLH Magazine (Sunday, Tallahassee Democrat)).
- Administer the "Art in Public Places" program, which includes curating art exhibitions at City Hall and the Tallahassee Regional Airport.
- Support for arts, culture, and heritage educators and learners through the monthly "Arts in Education Newsletter", the annual "COCA for the Classroom" resource guide, and the "COCA for Kids" directory.

The Cultural Plan Review Committee determined from assessment of the original plan and best practices of other community cultural plans (see Austin, Texas; Asheville, North Carolina; et. al.), that **an annual review of**

the new plan will provide the arts, culture, and heritage community and stakeholders a "living plan" and allow for changes in the plan when they are deemed necessary.

The Cultural Plan Implementation Subcommittee met with the Board of Directors and Staff of COCA, representatives from the Tourist Development Council/Visit Tallahassee, the Greater Tallahassee Chamber of Commerce, the Economic Development Council, Leadership Tallahassee, and City and County Commissioners, as well as community stakeholders in culture, arts, and heritage and one message was overarching in all conversations – **COCA, as our community's designated local arts agency, should take the lead as the umbrella agency for culture, arts, and heritage in the City of Tallahassee and Leon County.**

Community leaders agree that COCA should operate as the local arts agency for all in the City of Tallahassee and Leon County. That being said, it is noted that the **statements below, gleaned in the review process, represent some of the concerns about COCA in the past. These concerns of the past should not reflect on perception of COCA moving forward.** Our local arts agency should be:

- Advocate for arts, culture, and heritage organizations in our community and avoid competition with arts, culture, and heritage organizations and individuals.
- Agency whose mission is driven by an organizational strategic plan and in step with the Cultural Plan of the City of Tallahassee and Leon County avoiding projects not at the core of their mission and Cultural Plan.
- Agency, which fosters operational and collaborative relationships with various organizations, individuals, and governmental agencies.

During the review of the original Cultural Plan, the **Executive Director of COCA tendered her resignation** to embark on a new phase of her professional life. With a new cultural plan and in seeking a new director, **COCA's Board of Directors has a unique opportunity to engage a new leader that can guide the organization forward and elevate culture, arts, and heritage in our community by:**

- The adoption of the new Cultural Plan for the City of Tallahassee and Leon County.
- Collaborative, cooperative, and networking engagement opportunities with civic, cultural, and educational organizations and individuals in the community.

RECOMMENDATIONS: OBJECTIVES AND STRATEGIES

1. COCA will continue to re-grant annually contracted funds from the City of Tallahassee and Leon County through a competitive grant process for culture, arts, and heritage organizations supporting the superlative work these organizations provide the entire community.

- Recognizing the limitations in place by Statute, the City of Tallahassee and Leon County should attempt to ease requirements in the COCA Grant Program providing a collective pool of grant dollars to assist local culture, arts, and heritage organizations with general operations grant funding.
- COCA should continue to annually evaluate grant-funding requirements for culture, arts, and heritage organizations that contribute to the advancement of culture, arts, and heritage in Tallahassee and Leon County, which meet the needs of the entire community.

2. Create grant programs for individual artists through creative funding streams to support individuals in our community who contribute to culture, arts, and heritage.

- COCA will work with local, regional, and national foundations and re-granting organizations to secure grant funding for individuals advancing culture, arts, and heritage programs in the City of Tallahassee and Leon County.

For Example:

- Governmental and Regional (National Endowment for the Arts, National Endowment for the Humanities, South Arts, Division of Cultural Affairs, Florida Humanities Council, et. al.)
- National foundations (Doris Duke Foundation, Knight Foundation, Wallace Foundation, Ford Foundation, Andrew W. Mellon Foundation, et. al.)
- Other funding opportunities that only COCA can apply as the local arts agency for the City of Tallahassee and Leon County.

3. COCA shall continue to seek out collaborative granting opportunities to partner with organizations and individual artists in the community for grant dollars and public/private funding for which they alone can apply to bring in more funds into our community to help elevate culture, arts, and heritage.

- This may be a National Endowment for the Arts "Our Town" grant that promotes Creative Placemaking. Creative Placemaking is defined by the NEA as, "leveraging the arts to create a distinct sense of place through increased creative activities, produce vibrant local economies that together capitalize on existing assets, and/or make communities more livable through enhanced quality of life."
- Examples of collaborative grants COCA has applied for (2000-2015), include but are

not limited to, the National Endowment for the Arts, ArtPlace America: Innovation Grants, Visit Florida, John S. and James L. Knight Foundation, Gannett Foundation, and Division of Cultural Affairs, State of Florida.

4. Acting as the local arts agency for all citizens in the City of Tallahassee and Leon County, COCA will advocate for and champion all culture, arts, and heritage organizations and individuals.

- The executive director of COCA will seek partnerships and collaborations through networking, professional opportunities, and board and committee seats (appointed, ad hoc, ex officio, etc.) with the Tourist Development Council/Visit Tallahassee, the Greater Tallahassee Chamber of Commerce, the Economic Development Council, Leadership Tallahassee, Network of Young Professionals, Big Bend Minority Chamber of Commerce, and other civic organizations.

5. A Coalition for Arts, Culture, and Heritage Professionals should be established providing networking, collaborative, and cooperative opportunities to community arts, culture, and heritage executives.

- This group will consist of community leaders (i.e., executive directors of arts, culture, and heritage organizations) and businesses in the City of Tallahassee and Leon County with the membership setting goals and objectives through a shared vision.
- This network will be administered through COCA and facilitated by their executive director to seek improved communication between leaders in the arts, culture, and heritage community providing a platform for synergy, collaboration, cooperation, communication, and advocacy.
- This network can provide a forum for professionals from organizations to:
- Encourage and enable program providers to seek opportunities for collaboration and cooperation,
- To build a support network for professionals working in the arts; and
- To create comprehensive systems of presenting the arts to our community.

6. As the local arts agency, COCA will create an ongoing conversation in the community regarding the value of public and private financial support for arts, culture, and heritage.

- COCA will use the quantitative and qualitative data provided by local arts, culture, and heritage organizations participating in the COCA Grant Programs and information from other arts, culture, and heritage businesses and state partners to create a "One Sheet" to educate local governments, businesses, and individuals about the intrinsic and extrinsic value of arts, culture, and heritage in the City of Tallahassee and Leon County.
- This "One Sheet" report is different than the Annual Reports issued to the City of Tallahassee and Leon County per COCA's contracts with said agencies in that it:
  - Includes information by local arts, culture, and heritage businesses and state partners, not participating in the COCA Grant Program, but have a cultural and economic impact in the City of Tallahassee and Leon County.
  - Is more of a "one-sheet" document that can provide information to individuals, organizations, and

businesses on the impact arts, culture, and heritage has in our community. ***(See example in Addendum A3)***

- Uses more quantitative data provided by organizations and local artists to exhibit the economic, educational, and community impact of arts, culture, and heritage in the City of Tallahassee and Leon County.
- Would use the results of the "Economic Impact Study," which COCA would conduct every five years ***(See Goal #8).***

- As referenced above, COCA provides an Annual Report to the commissions of the City of Tallahassee and Leon County reporting back the progress of their previous year's contract. It is recommended that COCA's reporting to the commissions of the City of Tallahassee and Leon County be streamlined to one report that provides the information needed and necessary to satisfy both contracts; in one document.

7. A Youth & Education Network should be established to provide networking, collaborative, and cooperative opportunities to community arts, culture, and heritage educators and administrators.

- This group will consist of arts, culture, and heritage educators and administrators seeking to elevate educational opportunities, share resources, and advocate for arts, culture, and heritage education in the community. This may include:
  - o PK – 12 educators and administrators in private, public, and home school education.
  - o Public, private, and non-profit arts, culture, and heritage organizations including but not limited to museums, after-school programs, community arts programs, private arts instruction (music, art, dance, theatre, etc.), and other arts, culture, and heritage educational opportunities available in the City of Tallahassee and Leon County.
  - o Florida State University, Florida A&M University, and Tallahassee Community College departments, programs, and colleges supporting arts, culture, and heritage education in the community.
- The network may also be responsible for recognizing "arts educators of the year" in the community and should be facilitated by COCA's Education Director.

For Example:

- The Brevard Cultural Alliance acknowledges excellence in arts education to build an understanding of the importance of the arts, culture, and heritage in the schools.
- www.artsbrevard.org/programs-and-grants/for-educators/excellence-in-visual-arts.html

8. The Board of Directors and Staff of COCA will align their strategic vision and long-term organizational plan with the Cultural Plan and collaborate with the Cultural Plan Advisory Committee and community stakeholders to evaluate the implementation and progress of the Goals, Recommendations, and Strategies in the Cultural Plan to best serve all communities in the City of Tallahassee and Leon County.

9. In aligning their strategic vision and long-term organizational plan with the Cultural Plan, COCA will provide the community

with an "Economic Impact Study" every three years that demonstrates the role arts, culture, and heritage organizations and individuals play in the local economy.

- These studies can be produced in partnership with the Americans for the Arts as was the Arts and Economic Prosperity study that COCA conducted in 2008, which was published in 2009.
- At the time of this report, the cost of the study through the Americans for the Arts is $8,500.
  - o More information is available at: www.americansforthearts.org/information_services/research/services/economic_impact/iv/custom.asp

10. With the adoption of the new Cultural Plan a Cultural Plan Advisory Committee will be created by the City and County Commissions to:

- Collaborate with plan implementation stakeholders and community on organizational and community needs assessments addressed in the Cultural Plan.
- Provide advisement to plan implementation stakeholders and community with possible amendments, improvements, or changes to the Cultural Plan for the betterment of arts, culture, and heritage in our community.
- Report the annual progress of the Cultural Plan to the commissions of the City of Tallahassee and Leon County.

The Cultural Plan Advisory Committee (CPAC) is charged with reporting progress and assisting stakeholders with implementation of the Cultural Plan for the City of Tallahassee and Leon County. The committee is not established to provide oversight, supervision, or management of any individual, organization, or stakeholder named in the Cultural Plan.

This advisory committee will consist of individuals in our community who have a vested interest in arts, culture, and heritage and represent diverse communities including but not limited to visual arts, music, dance, theatre, heritage, education, film, and creative writing.

- o The Cultural Plan Advisory Committee will be made up of 13 members, who are arts, culture, and heritage stakeholders in the community:
  - o Community leaders initially drawn from Subcommittee chairs of CPRC and/or Arts, Culture, and Heritage Community Stakeholders (4 total)
  - o Community leaders/administrators in arts, culture, and heritage (2 total)
  - o COCA board member and executive director (2 total)
  - o Leon County School teacher and/or administrator (1 total)
  - o Greater Tallahassee Chamber of Commerce/EDC (1 total)
  - o Visit Tallahassee/Tourist Development Council (1 total)
  - o Colleges and Universities (TCC, FSU, FAMU) (2 total)
- The committee and key stakeholders will meet every six months to discuss successes and challenges of the plan implementation, suggest possible changes and amendments to the plan, and determine any unmet needs. Annually, the committee will present a Cultural Plan Progress Report which will include success findings, suggested modifications, and needs assessments to the commissions of the City of Tallahassee and Leon County and other key stakeholders.

- o The CPAC will meet with the COCA Board in a timely manner to assist in recommendations for funding to the Leon County and City of Tallahassee Commissions prior to their annual budget workshops.
- o The committee will operate in the calendar year.

After two years under the new Cultural Plan, the Cultural Plan Advisory Committee will sunset as an independent committee and become an ad hoc committee of the COCA Board.

11. Upon acceptance of the new Cultural Plan, in anticipation of budget preparation and budget workshops at the City of Tallahassee and Leon County, and with the hiring of the new executive director of COCA and other key arts, culture, and heritage staff discussed in the Cultural Plan; funders, policy makers, organizations, individuals and governmental groups, which contribute to the implementation of the Cultural Plan shall conduct a workshop, co-led by COCA Executive Director and Chair of Cultural Plan Advisory Committee, to collectively understand and discuss the implementation of the Cultural Plan and begin the process of collaboration in implementation.

- Participation in this workshop should include members of:
  - o Cultural Plan Advisory Committee
  - o Council on Culture and Arts
  - o Tourist Development Council
  - o Greater Tallahassee Chamber of Commerce
  - o City of Tallahassee Government
  - o Leon County Government
  - o Leon County Schools
  - o Florida State University
  - o Tallahassee Community College
  - o Florida A&M University
  - o Economic Development Council
  - o Community Redevelopment Authority
  - o Others who may be in a position to move the plan forward
- The goals of this workshop would include:
  - o Establishing funding needs for the implementation of the Cultural Plan, which may need to be considered during the budgeting process of the City of Tallahassee and Leon County.
  - o Establish opportunities for collaboration.
  - o Understand and begin the creation partnerships needed to implement the Cultural Plan.

12. It is recognized by the CPRC that the implementation of some of the recommendations included in the Capital Area Cultural Plan may require additional staffing and funding for COCA. The COCA Board as the governing entity of COCA, with support from the Cultural Plan Advisory Committee, will determine and recommend any additional positions and funding which it deems necessary to effectively implement the plan.

ADDENDUM

Addendum A-1

PROPOSED CAPITAL NEEDS MATCHING GRANT FOR ARTS AND CULTURAL FACILITES

Purpose of the Program – To offer support and funding for renovation, new construction, or acquisition of cultural facilities located in Leon County or the City of Tallahassee.

A Cultural Facility is a building that shall be used primarily for the programming, production, presentation, exhibition, or any combination of the above functions of any of the arts and cultural disciplines including, but perhaps not limited to: music, dance, theater, creative writing, literature, architecture, painting, sculpture, folk arts, photography, crafts, media arts, visual arts, programs of museums, historical sites, and heritage experiences.

The intent of this grant program is capital improvement that, for the purpose of this application, is defined as an addition or renovation of a permanent structural improvement or the restoration of some aspect of a property that will either enhance the property's overall value or increases its useful life.

Basic Eligibility: All applicants must meet the following basic legal and program eligibility requirements at the time of the application.

All applicant organizations must:

1) Be physically located in the City of Tallahassee or Leon County, Florida.

2) Be a non-profit, tax exempt Florida corporation according to these definitions:

Incorporated as an active nonprofit Florida corporation, pursuant to Chapter 617, Florida Statutes;

Designated as a tax-exempt organization as defined in Section 501(c)(3) or 501(c)(4), of the Internal Revenue Code of 1954; and

Allowed to receive contributions pursuant to the provisions of s. 170 of the Internal Revenue Code of 1954.

- It is understood that the source of grant funds may result in additional requirements that affect eligibility for applicants.

Grant Requirements:

A. Own or have an executed lease for the undisturbed use of the land or buildings or both. In cases where either the land or buildings or both are leased by the applicant, the owners must also meet the criteria in number 1 above. **Exception:** Unless land or buildings or both are owned by the City of Tallahassee and/or Leon County and leased to an eligible applicant.

B. Retain ownership of all improvements made under the grant. Exception: Unless land or buildings or both are owned by the City of Tallahassee and/or Leon County and leased to an eligible applicant.

C. An organization operating budget showing total revenue and support for the last completed fiscal years.

D. A digital file reduction of current architectural plans.

E. Support letters indicating project impact and worthiness (5 letters or fewer.)

Grant Restrictions:

The Cultural Facilities program grant does not fund feasibility studies, architectural drawings or operational support.

Any applicant requesting and receiving grant funds from this program for the purpose of construction, rehabilitation, remodeling, or preservation of a historic property, must do so in conformance with the Secretary of the Interior's Standards for Historic Preservation. Please see these standards and additional information at *www.nps.gov/history/hps/tps/tax/rhb/.*

Although applicants may apply for more than one project, applicants can only have one "open" cultural facilities grant at a time.

Submissions and Review Calendar – to be determined

Request Amount: The maximum grant amount that may be requested is $500,000. There is no minimum amount. Only a single application for any applicant may be submitted in the same year.

Match Requirements: Organizations must demonstrate SECURED funds equal to the amount requested ($1 to $1 match). The funds must be placed in a designated account for the sole purpose of the project and there will be accountability requirements before, during and after the release of grant funds. Alternative or additional match requirements may be required depending on the funding source.

Single Phase and Multi-Phase Projects:

Single Phase Projects are defined as those which will be completed within 21 months after grant funds are available.

Multi- Phase Projects are defined as those for which funding will be requested for different phases of the ***same*** project over a period not to exceed 3 years. Multi-phase projects ***must*** have activities in each year for which funding is requested. Requested total amount may not exceed $500,000, but grant funds may be allocated to the applicant in varied amounts, subject to project needs and availability of matching funds.

All required matching funds must be secured prior to grant approval.

Applicant must define phases of the project and submit a separate request for each project phase over the 3-year period. Phases must be numbered in keeping with the order of the project and application submissions.

For multi-phase projects, applicants should describe all construction or renovation work to be done (i.e., all additional phases), beyond the construction or renovation described in the original proposal. Applicants should describe a clear understanding of the entire project. Applications that are not identified as "multi-phase" will be determined to be single phase, which could result in forfeiture of funding if project is not completed on time.

Changes in Project Scope or Venue: Anything that substantially reduces the scope or character of the funded project is not allowed. Organizations wishing to change the scope or venue of their project must submit a new application, in accordance with application guidelines and calendar, for a subsequent application cycle.

Project Extensions: Grant period extensions for single-phase and multiphase projects may be requested by the organization. An extension of the completion date must be requested at least 30 days prior to the end of the grant period.

Extensions may not exceed 120 days for any single-phase project or 120 days for any phase of a multiphase project unless the Grantee can clearly demonstrate extenuating circumstances. An extenuating circumstance is one that is beyond the control of the Grantee, and one that prevents timely completion of the project, such as a natural disaster, death or serious illness of the individual responsible for the completion of the project, litigation related to the project, or failure of the contractor or architect to provide the services for which they were hired. An extenuating circumstance does not include failure to read or understand the administrative requirements of a grant, or failure to raise sufficient matching funds.

Multiphase projects remain subject to the original overall time limitation (i.e. 3 consecutive years), regardless of the number of approved grant extensions. A Grant Amendment Request (GAR) form (see Grant Forms) should be used when requesting an extension.

Non-Allowable Costs: Grant funds may not be spent on the following:

A. General Operating Expenses (GOE). Administrative costs for running the organization (including but not limited to salaries, travel, personnel, office supplies, mortgage or rent, operating overhead or indirect costs, etc.).

B. Costs associated with representation, proposal, or grant application preparation.

C. Costs incurred or obligated before project timeline approved in the grant process.

D. Costs for lobbying or attempting to influence federal, state or local legislation, the judicial branch, or any state agency.

E. Costs for planning, including those for preliminary and schematic drawings, and design development documents necessary to carry out the project.

F. Costs for bad debts, contingencies, fines and penalties, interest, and other financial costs.

G. Costs for travel, private entertainment, food, beverages, plaques, awards, or scholarships.

H. Projects restricted to private or exclusive participation, including restriction of access to programs on the basis of sex, race, creed, national origin, disability, age, or marital status.

I. Re-granting, contributions, and donations.

J. Reimbursement of costs that are paid prior to the execution of the Grant Award Agreement.

Review Criteria and Scoring:

Each eligible application will be evaluated on competitive criteria.

Criteria	Application section(s)	Worth
Scope of Work	Scope of Work: Project Narrative and Phases	up to 25 points
	• Describe the project for which you are requesting support. • Describe how the board has been engaged in using an inclusive, thorough planning process to make informed decisions about the project. • Describe the ability to operate and maintain equipment/facility after the project is complete. • Provide a detailed construction schedule for the project. • Describe how the project corresponds to the organization's long-term facilities plan. • Have permits been secured, if applicable?	
Project Budget and Matching Funds	Proposal Budget Detail: Expenses Proposal Budget Detail: Income	up to 25 points
	Matching Funds Statement • Describe the administrative and financial capabilities to implement the project, including budget. • Demonstrate financial need for a grant. • Provide three years organizational and financial data. • Have matching funds committed to the project or demonstrate an ability to raise funds to complete the project. • Have capital reserves in place or demonstrate an ability to successfully fund depreciation. • Include a project budget that identifies all sources of funding (committee, pending and/or projected). • Include a project budget where the costs are prioritized and informed by construction drawing phase engineers/estimates or professional third party bids. • Have identified and/or hired the project's leadership and key contracted personnel, as needed, and demonstrate they have the appropriate skills and capacity to implement the project. • Demonstrate that there is a current capital campaign for this project and how additional funds to complete the project will be obtained.	

Need for Project	Need for Project and Operating Forecast Detail	up to 25 points
	• There must be a demonstrated need for the project that is integral to the mission and overall strategic organizational plan. • Demonstrate that the project is appropriately sized relative to the capacity and needs of the organization. • For projects that either expand programming or square footage, or both, provide evidence of market demand for said expansion. • For maintenance and/or repair projects, demonstrate that it is in the context of an overall capital needs assessment and replacement schedule. • Describe the project's use of energy efficient products and/or technologies. • Describe the project's impact on accessibility, quality of life, job creation, economic growth, cultural tourism or other issues deemed relevant. • Describe how the project will sustain and/or enhance the future operating stability/capability of the facility. • Describe the broad-based community support the project has and the number of constituents affected. • Demonstrate cooperation between local community groups, professional companies, organizations and local government authorities to ensure the most efficient use of available resources, as well as high level of community support for the project.	
Project Impact	Project Impact	up to 25 points
	• Demonstrate expected increase in visitor draw to the facility being improved. • How will the project be evaluated? What goals or outcomes are you expecting? • Detail how this project will affect the audience and communities served by your organization. • Demonstrate ability of project to have a positive impact on cultural awareness on a local, regional or statewide basis. • Thoroughly analyze the impact the capital project will have on the organization's future finances if expanding square footage or programming.	

Possible Bonus Points for Length of operational service:

10 to 15 years – 2
15 to 20 years – 3
More than 20 years - 5

The total possible number of points is 105. The Application Review Committee's evaluation will be based on the information contained in the application and required attachments. The Committee members' individual ratings will be averaged to determine a final score for each application.

Applications receiving a score of 75 or higher will be considered for funding.

Addendum A-2

RECOMMENDATION PRESENTED TO IMAGINE TALLAHASSEE ON 10/14/13 FROM THE FUNDING AND FACILITIES SUBCOMMITTEE OF THE CULTURAL PLAN REVIEW COMMITTEE

Growing our destination product for travel and tourism while supporting a creative culture and urban lifestyle

Goals:

1. Increased visitor and tourist spending.
2. Media recognition as a cultural destination for in-state and out of state travelers.
3. Increase financial sustainability within our arts and cultural institutions.
4. Recognition of Greater Tallahassee as a metropolitan area "on the rise".
5. Increased employment in "creative industries."
6. Improved perception of Tallahassee as a place to live among young professionals.

Strategies:

1. Ensure a level of "coolness" within downtown and surrounding urban areas.
2. Promote art in public places.
3. Foster the development of creative young professionals as catalysts for economic growth.
4. Foster financial sustainability in our arts and culture organizations.

Create a funding source that provides competitive grants to arts and cultural organizations, as well as state and local government, for projects or programs that allow the organization to achieve a "quantum leap" (highly significant advance or breakthrough) in their offerings or level of self-sustainability.

Examples of projects or programs that could be eligible:

1. Art in Public Places
2. Projects that promote a sense of place or identity in the community
3. Projects that propel an organization to a new level of service to the community
4. Projects that propel an organization to a new level of sustainability (investment now, save money over time)
5. Projects/Programs that attract Regional or National media attention to the Tallahassee area as a visitor destination
6. KCCI initiatives

Executive Summary: Economic Development efforts for our region rely on competitive assets. A highly educated workforce, thriving high-tech presence, and a community committed to visual arts, performing arts, science, and historical experiences are all essential factors. To maintain the ability to grow and attract new business, our community must offer outstanding quality-of-life experiences that include cultural facilities, programs, and events.

Culture is essential economic development unto itself. According to the most recent regional analysis (Americans for the Arts Economic Prosperity Report, 2009), combined with its complimentary thriving tourism market, culture is an industry that supports

2,720 FTE employees in our community with a unique economic impact of $74,567,307. It is simply good business to support and grow the benefits of culture and historic resources.

HOW CULTURE ADDRESSES THE SALES TAX THEMES

Sense of Community- Art and historic experiences offer an immeasurable mechanism for growing its creative class. When artists, performers, historians and other related professionals are valued, offered competitive salaries, have opportunities for employment and are encouraged to be both artists as well as successful entrepreneurs, business prospers. To earn a reputation and "sense of community" where extraordinary art abounds, there must be thriving, attractive facilities, events, experiences and spaces, both indoors and in the natural environments that foster the creation of art and celebrate its presence.

Connectivity – There is a physical connection between spaces when sidewalks, bikes, and trails link neighborhoods and sections of our community. Art offers the opportunity to make emotional connections. Some cities have used "Cows on Parade," "Flamingos on Parade", or other iconic community symbols to unite what the community values with original art.

This results in making unique connections between streets, shopping districts and an overall sense of unity. Some municipalities have used street pavers to create artistic messages. Landscaping can also be artistic renderings.

There should be careful consideration to what types of art might define our community and make these types of connections. But, the purpose of this proposal is to promote consideration for the importance of incorporating art into the Connectivity plan.

Economic Vitality – All firms contemplating relocation or expansion consider the many resources a community offers. Families require good schools, activities, and quality of life experiences, as well as diversified employment opportunities for spouses. Graduating students from institutions of higher education consider salary and opportunities for advancement, as well as the "livability" of the community. Seniors look for life-long learning and volunteer opportunities to remain engaged and active members of society. It is not unreasonable to think a family's need to relocate for one member's professional advancement may bring multiple generations of its members.

When there are rich cultural experiences, a vibrant night life and activities that are valued by people of all demographic groups, the chances to build on the economy flourish. In every culture throughout history, one of the most important aspects of the economy has been the value placed on artistic achievement and offerings. Today in Tallahassee, as well as the world, that remains true. The importance of culture should not be underestimated regarding the economic vitality of our community.

Parks/Ecotourism –The "other Florida" is the one we call home. The mighty Apalachicola, Wacissa, and Aucilla rivers tie to lakes, streams and ponds, while offering a plethora of ecotourism experiences. We are home to one of the greatest natural history museums in the state, national and state parks, and we are a city with nationally acclaimed parks and related programs. Cultural experiences abound in these locations and must be supported.

There are opportunities to expand our offerings. Heritage trails, the site of the "First Christmas", and an expansion of collaboration between destinations, state and municipal agencies, the Leon County Tourist Development Council and other stakeholders will flourish, if cultural organizations can be strengthened to increase programs offered in our parks and the number and quality of eco-tourism experiences.

Gateways – Art in Public Spaces is the most obvious example of how culture can positively impact gateways to our community. While there have been some wonderful and unique installations, there is no cohesive vision for art in public spaces to enhance our gateways. Imagine art at interstate exit and entrance ramps that make a statement about our "sense of place." Art can also be installed in roundabouts to create community gateways.

It would be ideal if the community would establish a diversified committee to create a strategic plan for art in public places, including desirable objectives for gateways, large and small.

ADDENDUM A-3

A strong Return on Investment
Twenty-two organizations were funded through the City's Cultural Service Grants last year for a total of 2.85 million dollars, approximately one-third of one percent of the City's budget (00.3).
The Arts and Culture Industry:
» Supports 756 jobs
» Spends 29 million in the local economy
» Provided 364,907 free and reduced price tickets
» Achieved an overall economic impact of 58 million
Arts and Culture Fuel the Economy by:
» Strengthening Education
» Promoting Economic Development
» Energizing Downtown
» Advancing Tourism
All YOURS for $3.27
A Great Return on Investment.
Let decision makers know that you value investments in arts and culture.

Cultural Council
Jacksonville INVESTS $3.27 PER PERSON in the ARTS
CULTURAL ORGANIZATIONS FUNDED BY THE CITY OF JACKSONVILLE
A sample of what these groups offer to citizens:
CUMMER MUSEUM OF ART AND GARDENS
» Serves 2,300 kids with disabilities at a Very Special Arts Festival
FLORIDA THEATRE
» Generates more than 1,800 hotel room nights through visiting artists and patrons
JACKSONVILLE SYMPHONY ORCHESTRA
» Brings more than 179,000 people downtown during the concert season
MUSEUM OF CONTEMPORARY ART
» Offers free admission to families every Sunday
MUSEUM OF SCIENCE AND HISTORY
» Houses the largest single-lens digital dome planetarium in the United States
WJCT PUBLIC BROADCASTING
» Provides Radio Reading Service to 21,000 visually impaired people in Duval County
BEACHES AREA HISTORICAL SOCIETY
» Hosts more than 100 students annually to learn about the history of the First Coast
BEACHES FINE ARTS SERIES
» Presents eight concerts featuring internationally acclaimed artists free to the public
CATHEDRAL ARTS PROJECT
» Serves as the leading provider of free, standards based art instruction to 1,800 disadvantaged children
JACKSONVILLE CHILDREN'S CHORUS
» Provides a unique program of musical instruction to boys experiencing vocal expansion through It's Young Men's Choir
PLAYERS BY THE SEA
» Provides drama instruction to children of military personnel stationed at Naval Station Mayport.
RIVERSIDE FINE ARTS ASSOCIATION
» Provides free musical programming to 22,000 students from 50 elementary schools on the First Coast
THEATRE JACKSONVILLE
» Nurtures First Coast Writers through the Playwright's Exchange Program and the 12-hour Playwriting Competition
THEATREWORKS
» Makes professional children's theatre accessible to 50,000 students and their families
ATLANTIC BEACH EXPERIMENTAL THEATRE
» Brings senior citizens together with students to share stories resulting in community performances
CITY KIDS ART FACTORY
» Provides free, high level art instruction to underserved students in the urban core
FRIDAY MUSICALE
» Provides scholarship assistance to young musicians, many of whom have performed and taught around the world
JACKSONVILLE HISTORICAL SOCIETY
» Creates award-winning documentaries on local history in partnership with public and commercial broadcasting stations
MANDARIN MUSEUM AND HISTORICAL SOCIETY
» Combines historical and environmental themes in an annual River Celebration Day
RITZ CHAMBER MUSIC SOCIETY
» Brings positive media attention to Jacksonville as our nation's only all African-American chamber music ensemble
STAGE AURORA
» Promotes literacy by securing one of the area's only grants from the National Endowment for the Art's for its Big Read program
Arts and Culture: A Great Return on Investment!

Capital Area Cultural Plan

RESOLUTION NO. R15 - 12

RESOLUTION OF THE BOARD OF COUNTY COMMISSIONERS OF LEON COUNTY, FLORIDA, MAKING LEGISLATIVE FINDINGS TO ENSURE THAT TOURIST DEVELOPMENT TAX FUNDS WHICH ARE ALLOCATED FOR THE CULTURAL GRANT PROGRAM, THE CAPITAL NEEDS MATCHING GRANTS FOR ARTS AND CULTURAL FACILITIES PROGRAM, AND COMPONENTS OF THE CAPITAL AREA CULTURAL PLAN THAT SUPPORT ECONOMIC DEVELOPMENT THROUGH TOURISM AND RELATED MARKETING, ARE UTILIZED IN ACCORDANCE WITH SECTION 125.0104, FLORIDA STATUTES.

WHEREAS, section 125.0104, Florida Statutes, provides procedures for levying a tourist development tax and for the authorized uses of the tax; and

WHEREAS, in accordance with section 125.0104, Florida Statutes, the Board has adopted ordinances imposing a tourist development tax, which ordinances are codified at Chapter 11, Article III, Sections 11-46 through 11-53 of the Leon County Code of Laws; and

WHEREAS, Section 11-47 of the Leon County Code of Laws provides that tourist development tax revenues shall be used to fund the Leon County Tourist Development Plan; and

WHEREAS, the Board has amended the Tourist Development Plan to provide for the allocation of tourist development tax funds to support the cultural grant program, the capital needs matching grants for arts and cultural facilities program, and components of the Capital Area Cultural Plan that support economic development through tourism and related marketing; and

WHEREAS, the Tourist Development Council shall make recommendations to the Board on the appropriate requirements for the capital needs matching grants for arts and cultural facilities program; and

WHEREAS, the Board does hereby make by this Resolution, legislative findings to ensure that tourist development tax revenues which are allocated for the cultural grant program, the capital needs matching grants for arts and cultural facilities program, and components of the Capital Area Cultural Plan that support economic development through tourism and related marketing, shall be utilized in accordance with the uses authorized in section 125.0104, Florida Statutes.

NOW, THEREFORE, BE IT RESOLVED by the Board of County Commissioners of Leon County, Florida, that:

Section 1. Recitals. The Recitals to this Resolution are incorporated herein and made a part hereof as if fully set forth below.

Section 2. Definitions. For purposes of this Resolution, the following definitions apply.

A. "Promotion" means marketing or advertising designed to increase tourist related business activities.

B. "Tourist" means a person who participates in trade or recreation activities outside the county of his or her permanent residence, or who rents or leases transient accommodations (such as a hotel, motel, apartment, rooming house, mobile home park, recreational vehicle park, condominium, or timeshare resort) for a term of six months or less.

C. "Tourism Marketing" means the action or business of promoting and selling products or services, including market research, advertising, public relations, promotions, social media, direct sales and visitor services.

Section 3. Components of the Capital Area Cultural Plan that support economic development through tourism and related marketing.

a. Description of program. The goal of economic development through tourism and related marketing is to position and market the arts, culture and heritage as a strategic partner of Leon County economic development efforts. This is achieved through public and private funding of arts, arts organizations and cultural assets.

b. Expenditure: relationship to promotion of tourism. Expenditures shall be consistent with the authorized uses of tourist development tax revenues set forth in section 125.0104(5)(a), Florida Statutes (2014), which include the following:

(i) To maintain, operate, or promote one or more:

(a) Publicly owned and operated convention centers, sports stadiums, sports arenas, coliseums, or auditoriums within the boundaries of the County; or

(b) Aquariums or museums that are publicly owned and operated or owned and operated by not-for-profit organizations and open to the public, within the boundaries of the County.

(ii) To promote zoological parks that are publicly owned and operated or owned and operated by not-for-profit organizations and open to the public.

(iii) To promote and advertise tourism in this state and nationally and internationally. However, if tax revenues are expended for an activity, service, venue, or event, the activity, service, venue, or event must have as one of its main purposes the attraction of tourists as evidenced by the promotion of the activity, service, venue, or event to tourists.

c. Allowable expenditures include: a portion of general operating expenses to support the implementation of the Capital Area Cultural Plan, which may include, but is not limited to the following: tourism marketing; promotion; exhibit costs and rentals; guest artists; printing and graphic design; sets and costumes; lumber supplies and equipment (pertaining to exhibit production); production and technical expenses; site fees/costs; rights fees; postage and freight; a percentage of facility costs as they directly relate to an activity, service, venue or event in support of the program, which has as one of its main purposes the attraction of tourists; any other expenses directly attributable to the program, with the exception of those shown as not allowable; promotion, marketing and programming expenses; and paid advertising that reaches beyond Leon County with potential to drive overnight visitation.

Section 4. Cultural grant program.

a. Description of program. The purpose of the cultural grant program shall be to provide sub-grants and marketing awards to individual local cultural and arts organizations.

b. Expenditure: relationship to promotion of tourism. Expenditures shall be consistent with the authorized uses of tourist development tax revenues set forth in section 125.0104(5)(a), Florida Statutes (2014), which include the following:

(i) To promote one or more:

(a) Publicly owned and operated convention centers, sports stadiums, sports arenas, coliseums, or auditoriums within the boundaries of the County; or

(b) Aquariums or museums that are publicly owned and operated or owned and operated by not-for-profit organizations and open to the public, within the boundaries of the County.

(ii) To promote zoological parks that are publicly owned and operated or owned and operated by not-for-profit organizations and open to the public.

(iii) To promote and advertise tourism in this state and nationally and internationally. However, if tax revenues are expended for an activity, service, venue, or event, the activity, service, venue, or event must have as one of its main purposes the attraction of tourists as evidenced by the promotion of the activity, service, venue, or event to tourists.

c. Allowable expenditures include but are not limited to: tourism marketing; promotion; exhibit costs and rentals; guest artists; printing and graphic design; sets and costumes; lumber supplies and equipment (pertaining to exhibit production); production and technical expenses; site fees/costs; rights fees; postage and freight; a percentage of facility costs as they directly relate to an activity, service, venue or event in support of the grant program, which has as one of its main purposes the attraction of tourists; other expenses directly attributable to the grant program, with the exception of those shown as not allowable; promotion, marketing and programming expenses; and paid advertising that reaches beyond Leon County with potential to drive overnight visitation.

d. Non-allowable expenditures include: feasibility studies; architectural drawings; operational support and general operating expenses (administrative costs for running the organization, including but not limited to, salaries, travel, personnel, office supplies, mortgage, rent, operating overhead or indirect costs); costs associated with representation, proposal, or grant application preparation; lobbying; costs for bad debts, contingencies, fines, penalties, interest and other financial costs; costs for travel, private entertainment, food, beverages, plaques, awards, or scholarships; programs restricted to private or exclusive participation, including restriction of access to programs on the basis of sex, race, religion, creed, national origin, disability, age, or marital status; re-granting, contributions, and donations; reimbursement of costs that are paid prior to the execution of any grant agreement; capital expenses, including building projects, acquisitions, renovations, land acquisition, and other permanent improvements to physical plant (i.e. new roof, air conditioning systems, security fence, lighting grid). Capital expenses also include the purchase of equipment that is not directly related to the production of events or exhibits, and general overhead that is unrelated to programming and/or promotion (i.e. financial audit, board retreats, etc.).

Section 5. Capital needs matching grants for arts and cultural facilities program.

a. Description of program. The purpose of this program is to provide funding for renovation, new construction, or acquisition of cultural facilities located in Leon County. A cultural facility is a building that is to be used primarily for the programming, production, presentation, and/or exhibition, of arts and cultural disciplines, including but limited to, music, dance, theater, creative writing, literature, architecture, painting, sculpture, folk arts, photography, crafts, media arts, visual arts, programs of museums, historical sites, and heritage experiences. Capital improvement to a cultural facility would be an addition or renovation of a permanent structural improvement or the restoration of some aspect of the facility that will either enhance the overall value of the property or increase the useful life of the facility.

b. Expenditure: relationship to promotion of tourism. Expenditures shall be consistent with the authorized uses of tourist development tax revenues set forth in section 125.0104(5)(a), Florida Statutes (2014), which include the following:

(i) To acquire, construct, extend, enlarge, remodel, repair, improve, or maintain one or more:

(a) Publicly owned and operated convention centers, sports stadiums, sports arenas, coliseums, or auditoriums within the boundaries of the County; or

(b) Aquariums or museums that are publicly owned and operated or owned and operated by not-for-profit organizations and open to the public, within the boundaries of the County.

c. Allowable expenditures include: building construction projects, acquisitions, renovations, land acquisition, and other permanent improvements to the subject site (i.e. new roof, air conditioning systems, security fence, lighting grid). Capital expenses also include the purchase of equipment; architectural drawings; and costs for planning, including preliminary and schematic

drawings and design development documents necessary to carry out any such improvements to the site.

d. Non-allowable expenditures include: feasibility studies; general operating expenses (administrative costs for running the organization, including but not limited to, salaries, travel, personnel, office supplies, mortgage, rent, operating overhead or indirect costs); costs associated with representation, proposal, or grant application preparation; lobbying; costs incurred or obligated before the project timeline approved is in the grant process; costs for bad debts, contingencies, fines, penalties, interest and other financial costs; costs for travel, private entertainment, food, beverages, plaques, awards, or scholarships; projects restricted to private or exclusive participation, including restriction of access to programs on the basis of sex, race, creed, religion, national origin, disability, age, or marital status; re-granting, contributions, and donations; reimbursement of costs that are paid prior to the execution of the grant agreement; private or exclusive entertainment (i.e. parties, receptions or benefits that are not open and accessible to the general public).

Section 6. Effective date. This Resolution shall become effective upon adoption.

DONE AND ADOPTED BY the Board of County Commissioners of Leon County, Florida, this 10th day of February, 2015.

PROGRAM FUNDING AGREEMENT

This Program Funding Agreement (hereinafter "Agreement"), is made and entered into by and between Leon County, Florida, a Charter County and political subdivision of the State of Florida, (hereinafter the "County") and the Council on Culture & Arts, a Florida not-for-profit corporation (hereinafter the "COCA"), collectively, the "Parties".

RECITALS

WHEREAS, the County, by and through its Board of Commissioners, at its Regular Meeting held on the 14th date of July, 2020, approved a five year programmatic funding agreement to include disbursement of one cent of Tourist Development Taxes out of the County's Tourist Development 5-Cent Fund (TDT) and $150,000 out of the County's General Revenue Fund (GR) beginning in FY 2021 for the purposes that may include of sub-granting to individual local cultural and arts organizations, programming cultural initiatives, cultural marketing programs and assisting with operational costs as set forth herein; and

WHEREAS, COCA receives 20% of Leon County's annual TDT collections, making COCA an important stakeholder in drawing visitors to the destination through cultural, arts, and heritage tourism promotion; and

WHEREAS, "Tourist" as defined by Florida Statute Chapter 125.0104 means a person who participates in trade or recreation activities outside the county of his or her permanent residence or who rents or leases transient as described in paragraph (3) (a); and

WHEREAS, the County and COCA wish by this Program Funding Agreement to reduce their intentions to writing to provide for the obligations of the County in regard to providing the grant funds identified herein and the obligations of COCA to provide the services set forth herein, and to more fully delineate the agreement reached between the Parties.

NOW, THEREFORE, in consideration of the premises and mutual covenants contained herein, the sufficiency of which is acknowledged hereby, the Parties do agree as follows:

I. **Recitals**. The Recitals to this Program Funding Agreement are incorporated herein and made a part hereof as if fully set forth below.

II. **Effective Date and Term**. This Program Funding Agreement shall be for a five-year term. It shall commence on October 1, 2020, and shall end at midnight, local time in Tallahassee, Florida, on September 30, 2025.

III. **Services to be Provided**.

A. COCA shall submit a Program Plan and Organizational Budget by November 13, 2020 and by Sept. 15 of each year thereafter to the Division of Tourism for the upcoming fiscal year. The Program Plan will identify specific services and program activities planned, and the budget allocation for each; The Organizational Budget shall identify all revenue sources and

delineate the plan for expenditure of County funds (TDT and GR) contemplated by this agreement.

B. The services to be provided by COCA shall also include operational functions of COCA and the continued implementation of the Cultural Plan, attached as Exhibit A, and made a part hereof.

C. The Services to be provided by COCA shall include:

1. Support services for artists, cultural heritage organizations and the general public.

2. Educational services for students and teachers.

3. Culturally-specific marketing communication services including creative asset development, promotion and publication across all media platforms.

4. Granting services include creating, implementing and managing grant programs (i.e., Cultural Grant Program & Cultural Tourism Marketing) with the Cultural Facilities Matching Grant Program concluding under a separate agreement.

a. Grant programs funded with Leon County Tourist Development Tax (TDT) collections shall contain the statutory language defining a "Tourist" (Recitals) and the restrictive uses of the TDT funds (Section C 2.a) in the grant program materials and also include a requirement for the sub-grantee to report the estimated number of visitors served by the project or program, and
   i. Meet with the County's Director of Tourism to review COCA Grant Program Guidelines prior to release, and separately, meet to review COCA grant applications for eligibility and compliance with Chapter 125.0104 *Florida Statutes* prior to scoring grant applications. If COCA has questions regarding the application of Chapter 125.0104, they are directed to contact the appropriate County staff.
   ii. The Leon County Tourist Development Council shall approve the final annual COCA Grant awards as recommended by the COCA Board of Directors in compliance with section 125.0104, Florida Statutes.
   iii. COCA agrees to provide full contact information for grantees funded with TDT to the Division of Tourism upon request.

b. COCA will submit a detailed written report on the COCA's grant processes by February 1, 2023 and present to both the Tourist Development Council and BOCC a review of the COCA grant programs funded with TDT and GR including the scoring process, results to date including visitors served and out-of-market

promotional activities, improvements and modifications to the annual grants program.

5. A leading role in the 2024 Tallahassee/Leon County Bicentennial by facilitating, coordinating, implementing, supporting and promoting an annual plan of activities for cultural organizations.

6. Strategic partnership activities with the Leon County Division of Tourism/Visit Tallahassee with quarterly leadership meetings and marketing communications collaborations on targeted promotional programs.

D. COCA shall be responsible for all expenses associated with the performance and delivery of Services required by this Program Funding Agreement.

E. COCA shall comply with all applicable laws, ordinances and regulations governing its operation and in the provision of the Services herein required and the expenditure of funds herein granted.

IV. Grant Funds Amount, Distribution and Use.

A. Grant Funds Amount:

1. The County agrees to provide to COCA an amount not to exceed one (1) cent of the five (5) cent Tourist Development Tax imposed by the County for five years, for Services further described in Section III, herein, and collected during the then current Fiscal Year. A Fiscal Year is defined as consisting of the dates October 1 – September 30.

a. The funds comprising one (1) cent of the Tourist Development Tax shall be available for the use by COCA in accordance with subsection IV.B.1.a.

2. The County agrees to provide COCA an amount of One Hundred Fifty Thousand Dollars ($150,000.00) from its General Revenue Fund in accordance with subsection IV.B.2. for use by COCA for Services that may include its operational expenses, services and implementation of the Cultural Plan, as further described herein.

B. Distribution:

1. COCA shall receive a disbursement of funds from the Tourist Development Tax fund in the amount of one (1) cent of the five (5) cent Tourist Development Tax based upon the amount collected during the then current Fiscal Year, in the following manner:

a. COCA shall receive funds comprising one (1) cent of the five (5) cent Tourist Development Tax collected, and made

in quarterly payments, in arrears, of twenty-five (25%) percent of the amount described herein to occur not later than February 1, May 1, August 1, and November 1 each year. Receipt of such funds is contingent upon an appropriate invoice, Mid-Year report, and Annual report provided to and approved by the County.

2. COCA shall receive a disbursement of funds from the County in the amount of $150,000.00, and such disbursement will occur by October 30.

C. Restrictive Uses:

1. Funds received by COCA pursuant to this Program Funding Agreement shall only be used for those purposes set forth herein. Failure to do so may result in the County exercising its right to seek any available remedies at law or in equity.

2. Expenditures utilizing Tourist Development Tax (TDT) revenues shall be consistent with the authorized uses set forth in section 125.0104(5)(a), Florida Statutes, and the requirements of Resolution R15-12 of the Board of County Commissioners, attached hereto as Exhibit B, and incorporated herein as if fully set forth below.

a. Pursuant to Chapter 125.0104(5)(a), Florida Statutes, expenditures must be utilized to promote and advertise tourism in this state and nationally and internationally; however, if tax revenues are expended for an activity, service, venue, or event, the activity, service, venue, or event must have as one of its main purposes the attraction of tourists as evidenced by the promotion of the activity, service, venue, or event to tourists.

3. Funds shall be deemed misused when COCA does not fully comply with the terms governing the use of such funds, in accordance with the provisions of this Program Funding Agreement. COCA hereby agrees to repay to the County any and all misused funds within fifteen (15) days of delivery of notice of misuse of funds to COCA by the County. Misuse of such funds shall be deemed a material breach of this Program Funding Agreement and grounds for termination thereof.

D. Return of Unused Funds: Upon expiration of this Program Funding Agreement, any unused funds must be spent in accordance with the terms of this Program Funding Agreement, within 180 days thereof, or returned to the County. Upon termination of this Program Funding Agreement, any unused funds shall be returned to the County within 15 days of the date

thereof. Failure to do so may result in the County exercising its right to seek any available remedies at law or in equity.

E. The County specifically reserves the right to reduce, increase, or totally withdraw its financial commitment as set forth herein to COCA at any time and for any reason.

V. <u>Audits, Records and Reports</u>.

A. COCA acknowledges and agrees the County reserves the right to conduct financial and program monitoring, as well as the right to perform an audit of the COCA's records. An audit by the County shall encompass an examination of all financial transactions, all accounts, and all reports, as well as an evaluation of compliance with the terms and conditions of this Program Funding Agreement. The County reserves the right to inspect all records and conduct audits to ensure both program and fiscal compliance and shall provide written notice of any findings and proposed corrective action, if any, to COCA. COCA agrees to comply and cooperate immediately with any inspections, reviews, investigations, or audits, when deemed necessary by the County. The County agrees to provide COCA reasonable notice, but in no instance less than 24 hours.

B. COCA agrees to submit a Mid-Year Report to the County by April 15 each year detailing activities and results of COCA's efforts, and shall, at a minimum, include delineated expenditures on how County funds (TDT and GR) were spent, data on grants to individual local cultural and arts organizations, operational costs, overhead costs for the grant program management, and any marketing programs.

C. COCA agrees to submit an Annual Report to the County by October 31 each year detailing the previous fiscal year activities and results of COCA's efforts, and shall, at a minimum, include delineated expenditures on how County funds (TDT and GR) were spent, data on grants to individual local cultural and arts organizations, operational costs, overhead costs for the grant program management, and any marketing programs.

    a. Include a section in the Annual Report on Cultural, Arts and Heritage Tourism Activities and Impact for the previous fiscal year. The section shall include, program highlights, visuals of out-of-market marketing efforts and the estimated number of visitors served by programs and cultural grants funded with TDT.

D. COCA agrees to provide Leon County Division of Tourism and Leon County Office of Financial Stewardship with a Financial Audit by January 31 of each year for the term of this agreement and a report of all expenditures for the term of this agreement, documenting the details of each expenditure made and the Service provided hereunder as part of its Annual Report.

E. COCA agrees to submit a written Grant Programs Status Report by February 1, 2023 (as referenced in Section III.C.4.b.) to be presented to both the Tourist Development Council (TDC) and BOCC, providing an overview of COCA's grant programs and processes, funded with TDT and GR including grant solicitation and scoring process, program outcomes including estimated number of visitors served, out-of-market promotional activities, and improvements and modifications to the annual grant program.

F. COCA agrees to maintain and keep any and all records necessary to substantiate the expenditure of funds consistent with Services set out in this Program Funding Agreement. COCA shall use an accounting system that meets generally accepted accounting principles. COCA shall be required to establish and maintain books, records, and documents (including electronic storage media) sufficient to reflect all income and expenditures of funds provided by the County under this Program Funding Agreement. This includes the retention of all client records, financial records, supporting documents, statistical records, and any other documents (including electronic storage media) pertinent to this Program Funding Agreement for a period of six (6) years after completion of the Program Funding Agreement. If an audit has been initiated, and audit findings have not been resolved at the end of six (6) year period, the records shall be retained until resolution of the audit findings or any litigation which may be based on the terms of this Program Funding Agreement, at no additional cost to the County. Records shall be retained for longer periods when the retention period required by law exceeds the time frames required by this Program Funding Agreement.

G. Upon request, at no additional cost to the County, COCA shall facilitate the duplication and transfer of any records or documents during the required retention period, and shall ensure that these records shall be subject at all reasonable times to inspection, review, copying, or audit by Federal, State, or other personnel duly authorized by the County. COCA also agrees to produce all records requested by the County for its determination that monies distributed by the County are being spent in accordance with this Program Funding Agreement, at no additional cost to the County.

VI. Public Records.

With regard to the Public Records, COCA shall:

A. Keep and maintain those records that ordinarily and necessarily would be required by the County in order to perform the Services under this Program Funding Agreement, hereinafter "public records".

B. Provide the public with access to public records and at a cost to the public as set forth in Chapter 119, Florida Statutes, or as otherwise provided by law.

C. Ensure that the public records that are exempt or confidential and exempt from public records disclosure requirements, are not disclosed, except as authorized by law.

D. Meet all requirements for retaining public records and transfer, at no cost, to the County all public records in possession of COCA upon termination of this Program Funding Agreement and destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. All records stored electronically must be provided to the County in a format that is compatible with the information technology systems of the County.

E. **IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS PROGRAM FUNDING AGREEMENT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT:**

Kerri Post
315 South Calhoun Street, Suite 540
Tallahassee, FL 32301
850-606-2300
postk@leoncountyfl.gov

VII. Personnel, Subcontracting and Sub-granting.

A. COCA represents that it has and will maintain adequate staffing to carry out the Services to be provided under this Program Funding Agreement. Such employees shall not be employees of the County or have any contractual relationship with the County.

B. All Services required hereunder will be performed by COCA and all personnel engaged in the performance of work or Services shall be fully qualified and properly authorized under appropriate state and local laws to perform such Services.

C. Any of the work or Services to be performed under this Program Funding Agreement which are subcontracted by COCA shall be set forth and described with sufficient particularity and included in the annual Program Plan and Organizational Budget, Mid-Year and Annual Report required to be submitted by COCA in accordance with Section V of this agreement.

D. COCA shall require all recipients of granting awards paid out to individual organizations to enter into and fully execute and be bound by a Grant Agreement.

VIII. Reporting and Notices.

A. All reports must be submitted electronically to Kerri L. Post, Director, at postk@leoncountyfl.gov. All other related correspondence may be submitted to:

Kerri L Post, Director
Leon County Division of Tourism
315 South Calhoun Street, Suite 540
Tallahassee, FL 32301

B. All notices required hereunder shall be in writing sent by United States certified mail, postage prepaid, return receipt requested, overnight courier or by hand delivery. All notices required under this Program Funding Agreement shall be given to the Parties at the addresses below or at such other place as the Parties may designate in writing.

Notice to Grantee: Kathleen Spehar, Executive Director
Council on Culture & Arts
816 S. Martin Luther King Jr. Blvd
Tallahassee, FL 32301

Notice to the COUNTY: Kerri L. Post, Director
Leon County Division of Tourism
315 South Calhoun Street, Suite 540
Tallahassee, FL 32301

IX. Termination.

A. This Program Funding Agreement may be terminated by either Party, without cause, upon not less than 30 calendar days' notice in writing to the other Party, unless a sooner time is mutually agreed upon in writing by the Parties.

B. This Program Funding Agreement may be terminated immediately by either Party, for cause, upon written notice to the other Party.

C. In the event that funds for payment pursuant to this Program Funding Agreement become unavailable, the County may terminate this Program Funding Agreement upon not less than 10 days' notice in writing to COCA. The County shall be the final authority as to the availability and/or adequacy of funds. In the event of termination of this Program Funding Agreement, COCA will be compensated only for any work performed (up to and including date of receipt of Notice of Termination) under this Program Funding Agreement which has been satisfactorily completed.

D. Failure to object to a breach of any provisions of this Program Funding Agreement shall not be deemed to be a waiver of any other or subsequent breach and shall not be construed to be a modification of the terms and conditions of this Program Funding Agreement. Failure to have performed any contractual obligations in the Program Funding Agreement in a manner satisfactory to the County shall be deemed sufficient cause for termination. The provisions herein do not limit the County's right to any other available remedies at law or in equity.

X. General Provisions.

A. Governing Law and Venue. This Program Funding Agreement shall be governed by and construed in accordance with the laws of the State of Florida. Any action to enforce any of the provisions of this Program Funding Agreement must be maintained in Tallahassee, Leon County, Florida.

B. Waiver. Failure to insist upon strict compliance with any term, covenant or condition of this Program Funding Agreement shall not be deemed a waiver of it. No waiver or relinquishment of a right or power under this Program Funding Agreement shall be deemed a waiver of that right or power at any other time.

C. Modification. This Program Funding Agreement shall not be extended, changed or modified, except in writing duly executed by the Parties hereto.

D. Binding Effect. This Program Funding Agreement shall be binding upon the successors and, subject to below, assigns of the Parties hereto.

E. Assignment. Because of the unique nature of the relationship between the Parties and the terms of this Program Funding Agreement, neither Party hereto shall have the right to assign this Program Funding Agreement or any of its rights or responsibilities hereunder to any third Party without the express written consent of the other Party to this Program Funding Agreement, which consent shall not unreasonably be withheld.

F. Entire Program Funding Agreement. This Program Funding Agreement constitutes the entire Program Funding agreement between the Parties with respect to the matters contained herein, and all prior agreements or arrangements between them with respect to such matters are superseded by this Program Funding Agreement.

G. Headings. Headings in this Program Funding Agreement are for convenience only and shall not be used to interpret or construe its provisions.

H. Ambiguity. This Program Agreement has been negotiated by the Parties with the advice of counsel and, in the event of an ambiguity herein, such ambiguity shall not be construed against any Party as the author hereof.

I. Public Bodies. It is expressly understood between the Parties that the County is a political subdivision of the State of Florida. Nothing contained herein shall be construed as a waiver or relinquishment by the County to claim such exemptions, privileges or immunities as may be provided to that Party by law.

J. Force Majeure. A Party shall be excused from performance of an obligation under this Program Funding Agreement to the extent, and only to the extent, that such performance is affected by a "Force Majeure Event" which term shall mean any cause beyond the reasonable control of the Party affected, except where such Party could have reasonably foreseen and reasonably avoided the occurrence, which materially and adversely affects the performance by such Party of its obligation under this Program Funding Agreement. Such events shall include, but not be limited to, an act of God, disturbance, hostility, war, or revolution; strike or lockout; epidemic; pandemic; accident; fire; storm, flood, or other unusually severe weather or act of nature; or any requirements of law.

K. Cost(s) and Attorney Fees. In the event of litigation between the Parties to construe or enforce the terms of this Program Funding Agreement or otherwise arising out of this Program Funding Agreement, the prevailing Party in such litigation shall be entitled to recover from the other Party its reasonable costs and attorney's fees incurred in maintaining or defending subject litigation. The term litigation shall include appellate proceedings.

L. Severability. It is intended that each Section of this Program Funding Agreement shall be viewed as separate and divisible, and in the event that any Section, or part thereof, shall be held to be invalid, the remaining Sections and parts shall continue to be in full force and effect.

M. Revision. In any case where, in fulfilling the requirements of this Program Funding Agreement or of any guarantee, embraced or required hereby, it is deemed necessary for COCA to deviate from the requirements of this Program Funding Agreement, COCA shall obtain the prior written consent of the County.

N. Publicity. Without limitation, COCA and its employees, agents, and representatives shall not, without prior written approval of the County, in each instance, use in advertisement, publicity or other promotional endeavor any County mark, the name of the County, or any County officer or employee, nor represent directly or indirectly, that any products or Services provided by COCA have been approved or endorsed by Leon County or refer to the existence of this Program Funding Agreement in press releases, advertising or materials distributed by COCA to its respective customers.

O. Public Entity Crime. Pursuant to section 287.133, Florida Statutes, the following restrictions are placed on the ability of persons convicted of a

public entity crime to transact business with Leon County: when a person or affiliate has been placed on the convicted vendor list following a conviction for public entity crime, he/she may not submit a bid on a contract to provide any goods or Services to a public entity, may not submit a bid on a contract with a public entity for the construction or the repair of a public building or public work, may not submit bids on leases of real property to a public entity, may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity, and may not transact business with any public entity in excess of the threshold amount provided in section 287.017, Florida Statutes, for Category two, for a period of 36 months from the date of being placed on the convicted vendor list.

P. Civil Rights Requirements. COCA shall not discriminate against any employee in the performance of this Program Funding Agreement or against any applicant for employment because of age, race, religion, color, disability, national origin, or sex. COCA further agrees that all subcontractors or others with whom it arranges to provide Services or benefits to participants or employees in conjunction with any of its programs and activities are not discriminated against because of age, race, religion, color, disability, national origin, or sex. COCA shall conduct its funded activities in such a manner as to provide for non-discrimination and full equality of opportunity regardless of race, color, religion, national origin, sex, age, handicap, marital status, political affiliation, or beliefs. Therefore, COCA agrees to comply with Title VII of the Civil Rights Act of 1964, Section 504 of the Rehabilitation Act of 1973, the Age Discrimination Act of 1975, the Florida Human Rights Act, and the American Disabilities Act of 1990.

Q. Survival. Any provision of this Program Funding Agreement which contemplates performance or observance subsequent to any termination or expiration of this Program Funding Agreement, will survive expiration or termination of this Program Funding Agreement.

R. Counterparts. This Program Funding Agreement may be executed in one or more counterparts, each of which will be deemed an original but all of which taken together will constitute one and the same instrument.

S. Indemnity. COCA agrees to indemnify, defend and hold harmless the County, its officials, officers, employees and agents, from and against any and all claims, damages, liabilities, losses, costs, or suits, of any nature whatsoever arising out of, because of, or due to any acts or omissions of COCA, its delegates, employees, subcontractors and agents, arising out of or under this Program Funding Agreement, including a reasonable attorney's fees. The County may, at its sole option, defend itself or require COCA to provide the defense. COCA acknowledges that ten dollars ($10.00) of the amount paid to COCA is sufficient consideration of COCA's indemnification of the County.

T. Dispute Resolution.

1. All disputes arising under or relating to this Program Funding Agreement shall be resolved in accordance with the provisions of this Section. A "dispute" shall be understood to mean any conflict or controversy, and may be an assertion of a right, claim, or demand by any Party, met by contrary claims or allegations by the other Party.

2. The County's Director of Tourism and COCA's Executive Director shall attempt to resolve all disputes that arise under this Program Funding Agreement in good faith and in accordance with the following procedure:

   a. The aggrieved Party shall give written notice to the other Party setting forth the nature of the dispute, date of occurrence (if known), and proposed equitable resolution.

   b. Both Parties shall meet at the earliest opportunity to discuss and resolve the dispute. If the dispute is resolved to the mutual satisfaction of both Parties, then such resolution shall be reduced to writing.

   c. If the Parties are unable to reconcile the dispute to the mutual satisfaction of both Parties, then such impasse shall be reported by the Director of Tourism to the County Administrator.

   d. The County Administrator, who is charged with deciding the ultimate outcome of the dispute, shall reduce the decision in writing and furnish a copy to both Parties within fifteen (15) business days of notification of the dispute. The decision rendered by the County Administrator shall be final and binding on the Parties.

U. Agency. Nothing herein contained is intended or should be construed as creating or establishing the relationship of agency, partners, or employment between the Parties hereto, or as constituting either Party as the agent or representative of the other for any purpose. COCA is not authorized to bind the County to any contracts or other obligations and shall not expressly represent to any Party that COCA and County are partners or that COCA is the agent or representative of the County.

V. Sovereign Immunity.

Nothing herein shall be construed as a waiver of any rights and privileges afforded the County under section 768.28, Florida Statutes.

WHERETO, the Parties have set their hands and seals effective the date whereon the last Party executes this Program Funding Agreement.

Lead Staff / Project Team:	Tim Barden, Administrative Services Manager Andrew Riley, Operations Director Dean Richards, Assistant Director of Operations

Statement of Issue:

This item seeks Board approval of a Memorandum of Agreement (MOA) between Leon County and the Florida Department of Transportation (FDOT) regarding FDOT's financial reimbursement to the County for a portion of the County's costs associated with the maintenance of landscaping along sections of Apalachee Parkway, Mahan Drive, Capital Circle Southeast & Southwest, and Thomasville Road Corridors.

Fiscal Impact:

This item has a fiscal impact. Adequate funding is available in the Fiscal Year (FY) 2026 Tentative Budget to cover all the associated upfront costs for maintenance. FDOT will reimburse the County $111,793 annually for a period of three years. This is a $33,394 increase from the current MOA, which expires on September 30, 2025. The additional revenue for this Agreement will be appropriated during the FY 2025 carry forward process. This revenue will be included in future budgets to offset related maintenance expenditures.

Staff Recommendation:

Option #1: Approve the Memorandum of Agreement with the Florida Department of Transportation for the maintenance of landscaping along sections of Apalachee Parkway, Mahan Drive, Capital Circle Southeast & Southwest and Thomasville Road Corridors (Attachment #1) and authorize the County Administrator to execute with any minor, non-substantive modifications as may be needed, subject to legal review by the County Attorney.

Option #2: Adopt the Resolution approving the Memorandum of Agreement (Attachment #2).

Report and Discussion

Background:

This item seeks Board approval of a new MOA (Attachment #1) between Leon County and the FDOT for the continued maintenance of landscaping within the rights-of-way along four primary corridors which include eight designated state road segments within the County (Attachment #1). The agreement provides for FDOT to reimburse the County for a portion of the landscape maintenance costs. The current agreement expires on September 30, 2025, and a new agreement is required to ensure uninterrupted maintenance services and reimbursement. In addition, FDOT requires the adoption of a supporting Resolution (Attachment #2) in conjunction with the new MOA.

The new MOA will provide maintenance of landscaping for the following four primary corridors:

- **Apalachee Parkway**
  The section of Apalachee Parkway is a 1.5-mile segment of median and right-of-way in front of the Solid Waste Management Facility and the Apalachee Regional Park. The landscaping improvements associated with the MOA are part of the overall Master Plan for the site and were originally initiated at the request of neighboring communities. The County agreed to enhance the landscaping of this area by adding landscape to the medians and right-of-way while increasing the mowing schedule of the remaining turf.

- **Mahan Drive**
  The section of Mahan Drive is a 4.42-mile segment from Brewster Road to Apex Drive. Landscaping improvements along this corridor were part of a supplemental project funded by the County in coordination with FDOT, following the roadway's reconstruction. The County entered into an agreement with FDOT to maintain the enhanced landscaping for this gateway corridor.

- **Capital Circle (Southeast & Southwest)**
  The Capital Circle sections covered by the MOA include a 2.3-mile segment of Capital Circle Southwest from Cascade Drive to Shuler Road, along with two smaller segments: 0.603 miles on Blountstown Highway from Bushlark Trail to the SCL Railroad Bridge, and 0.163 miles on Pensacola Street from Nina Drive to the same bridge. The agreement also includes two portions of Capital Circle Southeast: a 0.50-mile section from Tram Road south to the City limit, and a 0.33-mile section from Woodville Highway north to the City limit. These segments are associated with the Blueprint/FDOT Capital Circle Southwest Widening Project. These segments were designed with enhanced and supplemental landscaping, and the County agreed to maintain all turf, landscaping, tree pruning, and litter control.

  To ensure consistency and efficiency in the upkeep of these Capital Circle sections, the Board approved a separate Maintenance Agreement with the City of Tallahassee on April 23, 2019. This arrangement was particularly important as the County-maintained sections are located adjacent to City-maintained portions of the corridor. Under the agreement, the County reimburses the City to perform the maintenance on its behalf. A separate agenda item on the September 15th meeting agenda seeks Board approval of the updated maintenance agreement with the City.

- **Thomasville Road**
  The Thomasville Road section from Millstone Plantation Road north to Wolf Pack Way is a 1.5-mile segment that was added by the Board following FDOT's roadway enhancements between Killarney Way and Lawton Chiles High School. As part of those improvements, extensive landscaping was installed, including new tree plantings, irrigation, and other related median features. The County agreed to assume responsibility for the maintenance of these enhancements along Thomasville Road.

Analysis:

As referenced in the background section, the current agreement expires on September 30, 2025, and a new agreement is required to ensure uninterrupted maintenance services and reimbursement. The new MOA is for a three-year term beginning October 1, 2025. Under this agreement, the County will maintain the designated areas—including mowing, litter removal, and landscaping—in accordance with the FDOT Landscape Care Guide, and FDOT will provide annual reimbursement equal to its cost for routine maintenance.

As reported to the Board in previous agenda items, FDOT's reimbursement rate does not cover the full cost for the enhanced landscaping services required under the MOA. FDOT will reimburse the County $111,793 annually for the three-year period, an increase of $33,394 a year from the previous agreement. The additional revenue for this Agreement will be appropriated during the FY 2025 carry-forward process to cover the additional maintenance costs associated with this Agreement. The reimbursement from FDOT will be included in future budgets to offset Operations Division costs.

Options:

1. Approve the Memorandum of Agreement with the Florida Department of Transportation for the maintenance of landscaping along sections of Apalachee Parkway, Mahan Drive, Capital Circle Southeast & Southwest, and Thomasville Road Corridors (Attachment #1) and authorize the County Administrator to execute with any minor, non-substantive modifications as may be needed, subject to legal review by the County Attorney.
2. Adopt the Resolution approving the Memorandum of Agreement (Attachment #2).
3. Do not approve the Memorandum of Agreement with the Florida Department of Transportation for the maintenance of sections of Apalachee Parkway, Mahan Drive, Capital Circle Southeast & Southwest, and Thomasville Road Corridors.
4. Board direction.

MAINTENANCE

MEMORANDUM OF AGREEMENT

THIS AGREEMENT is between the STATE OF FLORIDA DEPARTMENT OF TRANSPORTATION, a component agency of the State of Florida, "DEPARTMENT," and Leon County, Florida, a political subdivision of the State of Florida, existing under the Laws of Florida, "Agency". The Department and the Agency are sometimes referred to in this Memorandum as a "Party" and collectively as the "Parties."

W I T N E S S E T H

WHEREAS, as a part of the continual updating of the State of Florida Highway System, the DEPARTMENT, for the purpose of safety, protection of the investment and other reasons, has constructed and does maintain 4 lane highway facilities outlined in Exhibit "B" (Locations) attached hereto and incorporated by reference herein, within the corporate limits of the Agency; and

WHEREAS, the Agency is of the opinion that said highway facilities that contain roadside areas shall be attractively maintained by mowing, litter removal and landscaping maintenance.

WHEREAS, the Parties hereto mutually recognize the need for entering into an Agreement designating and setting forth the responsibilities of each Party; and

WHEREAS, the DEPARTMENT is authorized to enter into this Agreement pursuant to Section 335.055, Florida Statutes "F.S.;" and

WHEREAS, the Agency by Resolution No. _____ dated _____, 2025, attached hereto and by this reference made a part hereof, desires to enter into this Agreement and authorized its officers to do so.

NOW THEREFORE, for and in consideration of the mutual benefits to flow each to the other, the Parties covenant and agree as follows:

1. The Agency shall perform the following standards:

   A. Mow, cut and/or trim grass or turf as well as remove grass and turf clippings from the roadway/curb/sidewalk, in accordance with the State of Florida "A Guide for Roadside Vegetation Management" (2012).

   B. Removal of all litter and debris from within the limits of the highway rights-of-way.

   The above-named functions to be performed by the Agency shall be subject to a minimum of three (3) random visual inspections by the DEPARTMENT during each quarter. Visual inspections will verify the items in paragraph 1 are properly maintained within the limits as shown in Exhibit "B". Visual inspections include, but are not limited to, visually confirming that the areas identified in Exhibit "B" are maintained pursuant to the requirements listed in Paragraph 1. Such inspection findings will be shared with the Agency and shall be the basis of all decisions regarding payment reduction, reworking, or agreement termination.

2. If at any time after the Agency has assumed the maintenance responsibility above mentioned, it shall come to the attention of the DEPARTMENT that the limits of Exhibit "B" or a part thereof is not properly maintained pursuant to the terms of this Agreement, the DEPARTMENT will issue a written notice that a deficiency or deficiencies exist(s), by sending a certified letter in care of Mr. Timothy Barden MPA, Administrative Services Manager, Public Works Director, 2280 Miccosukee Road, Tallahassee, Florida 32308 to place said Agency, on notice thereof. Thereafter, the Agency shall have a period of fifteen (15) calendar days within which to correct the cited deficiencies. If said deficiencies are not corrected within this time period, the DEPARTMENT will maintain the roadside areas or a part thereof, within the DEPARTMENT or Contractor's personnel and deduct the cost of such work from the Agency's quarterly payment.

3. It is understood between the Parties hereto that the maintenance items listed in Paragraph 1 covered by this Agreement may be removed, relocated or adjusted at any time in the future as determined to be necessary by the DEPARTMENT in order that the adjacent state road be widened, altered or otherwise changed to meet with future criteria or planning of the DEPARTMENT. The

Agency shall be given sixty (60) calendar days notice to remove said maintenance items after which time the DEPARTMENT may remove said maintenance items.

4. The DEPARTMENT agrees to pay to the Agency quarterly compensation for the cost of routine maintenance of maintenance items identified in Exhibit "A". The lump sum payment will be in the amount of $ 27,948.33 per quarter for a total sum of $335,379.96 for three years.

   (a) Payment shall be made only after receipt and approval of goods and services as provided in Section 215.42, F.S.
   (b) Invoices shall be submitted by the Agency in detail sufficient for a proper pre-audit and post-audit thereof, based on quantifiable, measurable and verifiable deliverables as established in Exhibit A. Deliverables must be received and accepted in writing by the DEPARTMENT's Project Manager or designee prior to payment.
   (c) Prior to each quarterly payment, the Agency shall provide a completed copy of the form as shown in Exhibit A demonstrating completion of the maintenance responsibilities required by the terms and conditions of this Agreement.
   (d) Records of costs incurred under terms of this Agreement shall be maintained and made available upon request to the DEPARTMENT at all times during the period of this Agreement and for five years after final payment is made. Copies of these documents and records shall be furnished to the DEPARTMENT upon request. Records of costs incurred includes the Agency's general accounting records, together with supporting documents and records, of the Agency and all subcontractors performing work, and all other records of the Agency and subcontractors considered necessary by the DEPARTMENT for a proper audit of costs.

5. This Agreement may be terminated under any one of the following conditions:

   (a) By the DEPARTMENT if the Agency fails to perform its duties under Paragraph 2, following ten (10) days written notice of termination.
   (b) By the DEPARTMENT, for refusal by the Agency to allow public access to all documents, papers, letters, or other material subject to the provisions of Chapter 119, F.S., and made or received by the Agency in conjunction with this agreement.
   (c) By either Party following sixty (60) calendar days written notice.
   (d) By both Parties, thirty (30) calendar days following the complete execution by both Parties, of an agreement to terminate this agreement.

6. The term of this Agreement commences on October 1, 2025 and continues thru September 30, 2028.

7. The Department's obligation to pay is contingent upon an annual appropriation by the Florida Legislature. In the event this Agreement is in excess of $25,000 or has a term for a period of more than one year, the provisions of Section 339.135, (6)(a), F.S., are hereby incorporated:

   The department, during any fiscal year, shall not expend money, incur any liability, or enter into any contract which, by its terms, involves the expenditure of money in excess of the amounts budgeted as available for expenditure during such fiscal year. Any contract, verbal or written, made in violation of this subsection is null and void, and no money may be paid on such contract. The department shall require a statement from the comptroller of the department that funds are available prior to entering into any such contract or other binding commitment of funds. Nothing herein contained shall prevent the making of contracts for periods exceeding 1 year, but any contract so made shall be executory only for the value of the services to be rendered or agreed to be paid for in succeeding fiscal years; and this paragraph shall be incorporated verbatim in all contracts of the department which are for an amount in excess of $25,000 and which have a term for a period of more than 1 year.

8. This writing embodies the entire Agreement and understanding between the Parties hereto and there are no other Agreements and understanding, oral or written, with reference to the subject matter hereof that are not merged herein and superseded hereby.

9. The DEPARTMENT's District Secretary shall decide all questions, difficulties and disputes of any nature whatsoever that may arise under or by reason of this Agreement, the prosecution or fulfillment of the service hereunder and the character, quality, amount and value thereof; and his decision upon all claims, questions and disputes shall be final and conclusive upon the Parties hereto.

10. Vendors providing goods and services to an agency should be aware of the following time frames. Upon receipt, an agency has five (5) working days to inspect and approve the goods and services unless the bid specifications, purchase order, or contract specifies otherwise. An agency has 20 days to deliver a request for payment (voucher) to the Department of Financial Services. The 20 days are measured from the latter of the date the invoice is received or the goods or services are received, inspected and approved.

    If a warrant in payment of an invoice is not available within 40 days after receipt of a properly completed invoice, a separate interest penalty in accordance with Section 55.03(1), F.S., will be due and payable, in addition to the invoice amount to the Agency. Interest penalties of less than one (1) dollar will not be enforced unless the vendor requests payment. Invoices which have to be returned to a vendor because of vendor preparation errors will result in a delay in the payment. The invoice payment requirements do not start until a properly completed invoice is provided to the DEPARTMENT.

    A Vendor Ombudsman has been established within the Department of Financial Services. The duties of this individual include acting as an advocate for vendors who may be experiencing problems in obtaining timely payment(s) from a state agency. The Vendor Ombudsman may be contacted at (850) 413-5516.

11. This Agreement may not be assigned or transferred by the Agency in whole or in part without consent of the DEPARTMENT.

12. Agency:

    (a) Shall utilize the U.S. Department of Homeland Security's E-Verify system to verify the employment eligibility of all new employees hired by the Agency during the term of the contract; and

    (b) Shall expressly require any subcontractors performing work or providing services pursuant to the state contract to likewise utilize the U.S. Department of Homeland Security's E-Verify system to verify the employment eligibility of all new employees hired by the subcontractor during the contract term.

13. This Agreement shall be governed by and construed in accordance with the laws of the State of Florida, current Department of Transportation Specification and Department of Transportation Standard Indices. Venue of any judicial proceedings arising out of this Agreement shall be in Leon County, Florida.

14. Travel expenses are not authorized under this Agreement.

15. The Agency shall comply with all federal, state and local laws and ordinances applicable to the work or payment for work thereof. The Agency shall not discriminate on the grounds of race, color, religion, sex or national origin in the performance of work under this Agreement.

16. No funds received pursuant to this Agreement may be expended for lobbying the Legislature, the judicial branch, or a state agency.

17. The Agency and the DEPARTMENT agree that the Agency, its employees, and subcontractors are not agents of the DEPARTMENT as a result of this Agreement.

18. PUBLIC ENTITY CRIME INFORMATION AND ANTI-DISCRIMINATION STATEMENT: A person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime may not submit a bid on a contract to provide any goods or services to a public entity, may not submit a bid on a contract with a public entity for the construction or repair of a public building or public work, may not submit bids on leases of real property to a public entity, may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity, and may not transact business with any public entity in excess of the threshold amount provided in Section 287.017, for CATEGORY TWO for a period of 36 months from the date of being placed on the convicted vendor list. An entity or affiliate who has been placed on the discriminatory vendor list may not submit a bid on a contract to provide any goods or services to a public entity, may not submit a bid on a contract with a public entity for the construction or repair of a public building or public work, may not submit bids on leases of real property to a public entity, may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity, and may not transact business with any public entity.

19. The effective date of this Agreement shall be the latest date on which either Party executes this Agreement.

IN WITNESS WHEREOF, the Parties hereto have caused this Agreement to be executed on the dates set forth below.

RESOLUTION: 25-_____

A RESOLUTION OF THE BOARD OF COUNTY COMMISSIONERS OF LEON COUNTY, FLORIDA APPROVING MAINTENANCE MEMORANDUM OF AGREEMENT BETWEEN THE STATE OF FLORIDA, DEPARTMENT OF TRANSPORTATION, AND LEON COUNTY, FLORIDA FOR THE MAINTENANCE OF SECTIONS OF APALACHEE PARKWAY, MAHAN DRIVE, BLOUNTSTOWN HIGHWAY, PENSACOLA STREET, CAPITAL CIRCLE AND THOMASVILLE ROAD

WHEREAS, The State of Florida, Department of Transportation (the "DEPARTMENT" or "FDOT") and Leon County, Florida, a charter county and political subdivision of the State of Florida (the "COUNTY") are desirous of entering into an agreement to establish the DEPARTMENT's financial reimbursement to the COUNTY for a portion of the costs associated with the maintenance along sections of Apalachee Parkway, Mahan Drive, Blountstown Highway/Pensacola Street, Capital Circle, and Thomasville Road, the details of which are described in the Maintenance Memorandum of Agreement as presented to the Board of County Commissioners of Leon County, Florida at its regular meeting on September 15, 2025 (the "MOA"); and

WHEREAS, the MOA will provide for maintenance of the areas in accordance with the FDOT Landscape Care Guide, with an annual reimbursement from FDOT of $111,793, equal to the amount FDOT otherwise would have had to expend for normal routine maintenance.

NOW, THEREFORE, BE IT RESOLVED by the Board of County Commissioners of Leon County, Florida, assembled in regular session this 15th day of September, 2025, that the Board hereby approves the MOA and hereby authorizes the County Administrator to execute the MOA in a form approved by the County Attorney.

Passed and adopted on this 15th day of September, 2025.

Notes for Agenda Item #15

Leon County Board of County Commissioners

Agenda Item #15

September 15, 2025

To: Honorable Chairman and Members of the Board

From: Vincent S. Long, County Administrator

Title: Proposed Resolution Authorizing Conveyance of One Sanitary Sewer Utility Easement to the City of Tallahassee for the Continued Operation and Maintenance of Improvements Associated with the Woodville Sewer System Project

Review and Approval:	Vincent S. Long, County Administrator
Department / Division Review:	Ken Morris, Assistant County Administrator Nawfal Ezzagaghi, Assistant County Administrator Brent Pell, Director, Public Works Charles Wu, Director, Engineering Services
Lead Staff / Project Team:	Kim Vickery, Real Estate Manager

Statement of Issue:

This item seeks Board adoption of a Resolution and authorization for the Chairman to execute and convey a sanitary sewer utility easement to the City of Tallahassee (City) over a portion of County-owned property located in Phase 1 of the Woodville Sewer System Project area. This easement will allow for the City's operation and maintenance of the sanitary sewer collection system constructed by the County and subsequently connected to the City's wastewater treatment system as part of the Woodville Phase 1 Sewer System Project.

Fiscal Impact:

This item has no fiscal impact.

Staff Recommendation:

Option #1: Adopt the Resolution authorizing the conveyance of a sanitary sewer utility easement over a portion of a County-owned parcel located within the Woodville Sewer System Project area to the City of Tallahassee (Attachment #1).

Option #2: Authorize the Chairman to execute the sanitary sewer utility easement (Attachment #2), and any associated documents, subject to legal review by the County Attorney.

Report and Discussion

Background:

This item seeks Board adoption of a Resolution authorizing conveyance of one sanitary sewer utility easement in the Woodville Phase 1 Sewer System Project area to the City over a portion of County-owned property (Parcel ID. No.: 3308200250000) located in the Woodville Sewer System Project area (Attachment #1). This easement will allow for the City's operation and maintenance of the sanitary sewer infrastructure constructed by the County and subsequently connected to the City's wastewater treatment system as part of the Woodville Sewer Phase 1 Project. In particular, the County constructed a master pump station within the proposed easement and the City will be responsible for the ownership, operation and maintenance of the pump station moving forward. This item further seeks Board authorization for the Chairman to execute the sanitary sewer utility easement and any associated documents to the City (Attachment #2).

The Woodville Sewer System Project advances the following FY 2022 – FY 2026 Strategic Initiative and Bold Goal:

- *Ensure the County's water quality and stormwater regulations, programs and projects are evaluated and implemented holistically to advance the County's adopted strategic priority: to protect the quality and supply of our water. (2022-16)*
- *Upgrade or eliminate 500 septic tanks in the Primary Springs Protection Zone (BG2)*

This particular Strategic Initiative aligns with the Board's Environment Strategic Priorities:

- *(EN1) Protect the quality and supply of our water.*
- *(EN2) Conserve and protect environmentally sensitive lands and our natural ecosystems.*

Based on the shared desire to enhance water quality in our region through nitrogen reduction projects, Leon County and the Florida Department of Environmental Protection (FDEP) jointly adopted the Leon County Water Quality and Springs Protection Infrastructure Improvement Plan in fiscal year 2018. This multiyear agreement between the State and Leon County was the result of Leon County's strong commitment to reducing nitrogen levels in the primary springs protection zone and FDEP's willingness to provide a dollar-for-dollar match toward projects in Leon County.

On September 29, 2020, the Board approved the Interlocal Agreement for the Provision of Water and Sewer Service to Woodville Rural Community with the City of Tallahassee ("Interlocal Agreement") outlining the roles and responsibilities of each party to support the construction and transfer of the Woodville sewer system. The County was responsible for acquiring all necessary property rights required for the construction, operation, and maintenance of the sewer system. The County has acquired such property rights and construction of the sewer collection system, comprised of sewer lines and sewer lift stations.

On February 21, 2023, the Board approved the construction bid award for this project which included construction of a master pump station, installation of grinder pumps, installation of a new gravity sewer system and associated service lines with cleanouts, force mains, concrete manholes, and master force main connection to the existing City of Tallahassee sewage collection system. The sewer collection system and master pump station have been completed and the remaining sewer service connections are expected to be completed within 30 days. Upon Woodville Sewer System Phase 1 project completion, the system will be transferred to the City for continued ownership and operation, and will be able to serve 152 developed properties.

This transfer of the sewer system to the City includes sanitary sewer utility easements for all parts of the system located outside the public right of way. Accordingly, the lift station built on a County-owned parcel within the Woodville project area must also be conveyed to the City.

Analysis:

Pursuant to the Interlocal Agreement and Section 125.38, Florida Statutes, the City has requested that the County convey the sanitary sewer utility easement in order for the City to take ownership, operation, and maintenance of this portion of the system. In accordance with the Interlocal Agreement, the conveyance is to be at no cost to the City. This item recommends the Board adopt the Resolution authorizing the conveyance of the easement to the City. To complete this transaction, this item also recommends the execution of the sanitary sewer utility easement by the Chairman.

Options:

1. Adopt the Resolution authorizing the conveyance of a sanitary sewer utility easement over a portion of a County-owned parcel located within the Woodville Sewer System Project area to the City of Tallahassee (Attachment #1).
2. Authorize the Chairman to execute the sanitary sewer utility easement (Attachment #2), and any associated documents, subject to legal review by the County Attorney.
3. Do not adopt the Resolution authorizing conveyance of the sanitary sewer utility easement to the City of Tallahassee.
4. Board direction.

Recommendation:

Options #1 and #2

Attachments:

1. Resolution authorizing conveyance of a sanitary sewer utility easement, located within the Woodville Project area, to the City of Tallahassee.
2. Sanitary Sewer Utility Easement

LEON COUNTY RESOLUTION NO. 25-_____

A RESOLUTION OF THE BOARD OF COUNTY COMMISSIONERS OF LEON COUNTY, FLORIDA PURSUANT TO SECTION 125.38, FLORIDA STATUTES, AUTHORIZING CONVEYANCE OF A SANITARY SEWER UTILITY EASEMENT WITHIN THE WOODVILLE PROJECT AREA, TO THE CITY OF TALLAHASSEE TO ALLOW FOR THE CONTINUED OPERATION AND MAINTENANCE OF THE WOODVILLE SANITARY SEWER COLLECTION SYSTEM; AND PROVIDING AN EFFECTIVE DATE.

RECITALS

WHEREAS, Leon County, Florida (the "County") is the owner of real property bearing Parcel ID. No. 3308200250000 (the "County Parcel"); and

WHEREAS, in accordance with the October 2020 Interlocal Agreement for the Provision of Water and Sewer Service to Woodville Rural Community (the "Interlocal Agreement") entered into with the City of Tallahassee (the "City"), the County is required to design, permit, and construct a new central sewage collection system to serve the Woodville Sewer Project Area (the "Project Area"); and

WHEREAS, as part of the County's responsibilities pursuant to the Interlocal Agreement, the County constructed a pump station on the County Parcel; and

WHEREAS, pursuant to the Interlocal Agreement, the County is required to convey ownership of the sanitary sewer collection system to the City upon completion of the project, including the above-described pump station, after which the City will be responsible for the perpetual operation and maintenance of the system; and

WHEREAS, as part of the conveyance of the sanitary sewer collection system to the City, it is necessary for the County to convey a sanitary sewer utility easement interest in a portion of the County Property as described in Exhibit "A" attached hereto and incorporated herein (the "Easement Area") to the City to allow for the continued operation and maintenance of the Woodville sanitary sewer system; and

WHEREAS, this Resolution is adopted pursuant to the provisions of Section 125.38, Florida Statutes, which allows the County to convey an easement interest to a municipality of the State of Florida if the Board of County Commissioners is satisfied that such easement interest is not needed for County purposes, is used for a public purpose or to promote community interest and welfare, and is needed for such use, which findings and price for such conveyance are to be recited in a resolution.

NOW, THEREOFRE, BE IT RESOLVED by the Board of County Commissioners of Leon County, Florida (the "Board"), that:

Section 1. Conveyance of Sanitary Sewer Utility Easement

1. That the City is a municipality under the laws of the state of Florida within the meaning of Section 125.38, Florida Statutes.
2. That the City, by virtue of its Interlocal Agreement with the County to accept ownership and maintenance responsibility for the sanitary sewer collection system upon the completion of the project, has requested that the County convey to the City a sanitary sewer utility easement interest in, over, across, under, and through the Easement Area.
3. That the City's use of the Easement Area will be for public use within the meaning of Section 125.38, Florida Statutes, as a component of the operation and maintenance of the sanitary sewer system constructed as part of the project.
4. That the conveyance of the easement to the City is required for such public use by the City, and that the Easement Area is not needed for any County purpose.
5. That the consideration paid to the County for the conveyance of the sanitary sewer utility easement shall be Zero and 00/100 Dollars ($0.00).
6. That, in accordance with the terms and conditions set forth herein, the sanitary sewer utility easement interest in, over, and across, under, and through the Easement Area, depicted as Exhibit "A", may be conveyed to the City.

Section 2. Effective Date

This resolution shall become effective immediately upon its adoption.

DONE, ADOPTED AND PASSED by the Board of County Commissioners of Leon County, Florida this 15th day of September, 2025.

SANITARY SEWER UTILITY EASEMENT

THIS EASEMENT, made this _____ day of _____, 2025, by and between **LEON COUNTY**, **FLORIDA**, a charter county and political subdivision of the State of Florida, whose mailing address is 301 South Monroe Street, Suite 202, Tallahassee, Florida 32301, hereinafter called **"GRANTOR"**, and the **CITY OF TALLAHASSEE**, a Florida municipal corporation, whose mailing address is 300 South Adams Street, Tallahassee, Florida 32301-1731, hereinafter called **"GRANTEE"**.

W I T N E S S E T H

That the **GRANTOR**, for and in consideration of the sum of ten dollars ($10.00), and other good and valuable consideration paid by the **GRANTEE**, the receipt and sufficiency of which is hereby acknowledged, by these presents does grant, bargain, sell and convey to the **GRANTEE**, its successors and assigns, in perpetuity, an easement for sanitary sewer purposes, in, over, across, under and through the following described parcel, piece, or strip of land, situate, lying, and being in the County of Leon, State of Florida, hereinafter "Easement Property" to wit:

SEE EXHIBIT "A" ATTACHED HERETO
AND BY THIS REFERENCE MADE A PART HEREOF

including the right to carry in said easement the utility lines, of any type, either above ground or underground, including, but not limited to, equipment and appurtenances necessary for a sanitary sewer pump station and equipment and appurtenances of any other person, or utility company as authorized by the **GRANTEE**.

It is understood and agreed by and between the **GRANTOR** and the **GRANTEE** that the utility lines and equipment of the **GRANTEE**, installed or located, or to be installed or located in, over, across, under and through the Easement Property, shall at all times be and remain the absolute property of the **GRANTEE**, its successors and assigns, and subject to its complete dominion and control.

The right is hereby granted to the **GRANTEE**, its agents and employees, to enter upon the Easement Property from and across any adjoining lands of the **GRANTOR** for the purpose of excavating, inspecting, maintaining, installing, repairing and/or removing said utility lines and equipment therefrom. The **GRANTEE**, its agents and employees, will restore the ground to its existing condition as reasonably practicable as of the date prior to the work within the Easement Property. The **GRANTOR** will not construct any permanent improvements on the said Easement Property without the written permission from the **GRANTEE**.

The terms, conditions, restrictions and purposes imposed by this easement shall be binding not only upon the **GRANTOR**, but also on its agents, personal representatives, assigns and all other successors to its interest and shall continue as a servitude running in perpetuity with the Easement Property.

Sanitary Sewer Easement

Leave blank for official recording.

IN WITNESS WHEREOF, the **GRANTOR** hereunto sets its hand and seal the day and year first above written.

Leon County
Board of County Commissioners

Notes for Agenda Item #16

Leon County Board of County Commissioners

Agenda Item #16

September 15, 2025

To: Honorable Chairman and Members of the Board

From: Vincent S. Long, County Administrator

Title: Proposed Contract for State and Federal Lobbyist Services

Review and Approval:	Vincent S. Long, County Administrator
Department / Division Review:	Ken Morris, Assistant County Administrator
Lead Staff / Project Team:	Nicki Hatch, Assistant to the County Administrator for Legislative and Strategic Initiatives

Statement of Issue:

As directed by the Board, this item seeks approval of a contract with The Southern Group of Florida, Inc. (Attachment #1) for state and federal lobbying services in the amount of $200,000 annually, for a term of three years with two optional one-year extensions, and to include Minority and Women Business Enterprises (MWBE) aspirational goals.

Fiscal Impact:

This item has a fiscal impact. The FY 2026 Tentative Budget maintains the funding level of $185,000 for the County's state and federal lobbyist contracts. However, as directed by the Board, the draft contract with The Southern Group for state and federal lobbying services is in the amount of $200,000 annually. A Budget Amendment is provided for Board approval to allocate an additional $15,000 from the General Fund contingency account from the current year's budget to be carried forward, providing a total FY 2026 budget of $200,000 (Attachment #2).

Staff Recommendation:

Option #1: Approve the contract with The Southern Group of Florida, Inc., to provide state and federal lobbying services (Attachment #1), and authorize the County Administrator to execute the Agreement, and any amendments thereto, subject to legal review by the County Attorney.

Option #2: Approve the Budget Amendment allocating $15,000 from General Fund contingency for the County's state and federal lobbyist contract (Attachment #2).

Report and Discussion

Background:

This item seeks Board approval of a contract with The Southern Group for state and federal lobbying services in the amount of $200,000 annually, for a term of three years with two optional one-year extensions, and includes MWBE aspirational goals.

Leon County utilizes contract lobbying services at the state and federal levels to further the County's legislative goals and in pursuit of appropriations for key local projects. The County's contract lobbying firms provide support by advocating for the County's legislative priorities at the state and federal level. The practice of retaining contract lobbyists is common among local governments to advance legislative priorities and to mitigate or defeat harmful legislation.

Squire Patton Boggs, LLC (Squire Patton Boggs), has served as the County's federal lobbyists since 2002, and Capitol Alliance Group, Inc. (Capital Alliance Group), has served as the County's state lobbyists since 2008. The County entered into a new contract with Squire Patton Boggs for federal lobbying services effective January 1, 2022, and continuing until December 31, 2024; which also provided for two optional one-year extensions. The first one-year extension began on January 1, 2025. The one-year extensions are automatic unless the County provides written notice of non-renewal at least 30 days prior to the expiration of the then current term. The County's federal lobbying contract with Squire Patton Boggs is $100,000 annually. Similarly, the County's current contract with Capitol Alliance Group for state lobbying services began on October 1, 2021, with a base term of three years and two optional one-year extensions. The one-year extensions are also automatic unless the County provides written notice of non-renewal at least 30 days prior to the expiration of the then current term. As of October 1, 2024, the County was in its first of two one-year extensions which is in effect through September 30, 2025. The County's state lobbying contract with the Capitol Alliance Group is for $85,000 annually.

During the 2025 State and Federal Legislative Priorities Workshop, the Board provided direction to issue a Request for Proposals (RFP) for additional state lobbying services, in the amount of $40,000, for the purpose of securing appropriations during the 2025 State Legislative Session. Following the RFP process, at its January 28, 2025 meeting, the Board directed staff to contract with The Southern Group for one legislative cycle in the amount of $40,000 for additional lobbying services through the remainder of FY 2025.

On July 8, 2025, the Board received the 2025 Legislative Session Final Report which, among other options, sought the Board's direction regarding the County's state and federal lobbying contracts. At that time, the Board directed staff to prepare a contract with The Southern Group to combine state and federal lobbying services in the amount of $200,000 annually, for a term of three years with two optional one-year extensions, and to include Minority and Women Business Enterprises (MWBE) aspirational goals. An overview of the draft contract is provided in the Analysis section of this item (Attachment #1).

As directed by the Board, once an agreement in principle was reached with The Southern Group, the County provided notice to the current state and federal contract lobbyists (Capitol Alliance Group and Squire Patton Boggs) in August 2025. Recognizing that the proposed contract for both

state and federal lobbying services is set to commence on October 1, 2025, the County identified the opportunity to terminate its federal lobbying services contract with Squire Patton Boggs effective September 30, 2025, rather than at the conclusion of the current one-year extension on December 31, 2025, to avoid any duplication of federal lobbying services through the remainder of the calendar year.

Analysis:

This item seeks Board approval of a contract with The Southern Group for state and federal lobbying services in the amount of $200,000 annually is provided as Attachment #1. The state and federal lobbying services to be provided by The Southern Group are specified in Exhibits A and B of the draft contract. Additional information on The Southern Group's state and federal teams assigned to represent Leon County is available as Attachment #3.

Upon Board approval, the contract would commence on October 1, 2025, for a term of three years with two optional one-year extensions. As provided in Table #1, $82,500 would be dedicated to federal lobbying services and $117,500 for state lobbying services (including $35,000 for MWBE).

Table #1: Proposed Price Sheet for State and Federal Lobbying Services

Service	Cost
Base Contract (Federal)	$82,500
Base Contract (State)	$82,500
MWBE Subcontractor Participation (State)	$35,000
Total	**$200,000**

MWBE aspirational goals for state lobbying services are aggregated for a combined MWBE goal of 11% for professional subcontracting services. Aspirational goals are not utilized for the federal lobbying contracts since most providers are based in Washington, D.C. and thereby ineligible for MWBE certification. As reflected above, The Southern Group has committed to dedicating $35,000 annually for MWBE participation through its state lobbying services. The MWBE participation represents 29.8% of the cost for state lobbying services and 17.5% of the total contract amount which is reflected in the draft contract.

The FY 2026 Tentative Budget maintains the funding level of $185,000 for the County's state and federal lobbyist contracts. However, as directed by the Board, the draft contract with The Southern Group for state and federal lobbying services is in the amount of $200,000 annually. A Budget Amendment is provided for Board approval to allocate an additional $15,000 from the General Fund contingency account from the current year's budget to be carried forward, providing a total FY 2026 budget of $200,000 (Attachment #2).

The 2026 Legislative Session will begin on Tuesday, January 13, 2026, and is scheduled to conclude on March 13, 2026. The Board Workshop on the 2026 State and Federal Legislative Priorities is scheduled for October 28, 2025, at 1:00 p.m., to establish the County's policy and appropriations priorities for the 2026 session. At that time, the Board will receive updates from The Southern Group on the upcoming state and federal legislative sessions.

Options:

1. Approve the contract with The Southern Group of Florida, Inc., to provide state and federal lobbying services (Attachment #1), and authorize the County Administrator to execute the Agreement, and any amendments thereto, subject to legal review by the County Attorney.
2. Approve the Budget Amendment allocating $15,000 from General Fund contingency for the County's state and federal lobbyist contract (Attachment #2).
3. Do not approve the contract with The Southern Group of Florida, Inc., to provide state and federal lobbying services.
4. Board direction.

Recommendation:

Options #1 and #2

Attachment:

1. Draft Contract
2. Budget Amendment Request
3. The Southern Group's state and federal teams assigned to represent Leon County

AGREEMENT

THIS AGREEMENT, by and between **LEON COUNTY, FLORIDA**, a charter county and a political subdivision of the State of Florida, herein "County", and **The Southern Group of Florida, Inc.**, herein "Contractor" and each a "Party" or together the "Parties", is entered into as of the date of last signature below ("Effective Date"). For good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties agree as follows:

1. SERVICES TO BE PROVIDED

The Contractor agrees to provide its services to the County to perform the Work related to State and Federal Lobbyist Services set forth in the Scope of Work, attached hereto and incorporated herein as Exhibit A and Exhibit B. If any provision contained in this Agreement conflicts with any provision in Exhibit A or B, the provision contained in this Agreement shall govern and control.

2. WORK

Contractor understands that no amount of Work is guaranteed to it nor is the County under any obligation to utilize the services of the Contractor in those instances where the Work to be performed can be done by County personnel or under separate contract. Any Work to be performed shall be as provided in Exhibits A and B or otherwise upon the written request of the County Administrator or his designee, which request shall set forth the commencement date of such Work and the time within which such Work shall be completed.

The performance by the County of any of its obligations under this Agreement shall be subject to and contingent upon the availability of funds lawfully expendable for the purposes of this Agreement for the current and any future periods.

3. TERM

The Agreement shall be for a period of three (3) years, commencing on October 1, 2025, and shall continue until September 30, 2028. After the initial three (3) year period, at the sole option of the County, this Agreement may be renewed for no more than two additional one (1) year periods. Such one (1) year renewals will be automatic unless the County provides written notice of non-renewal to the Contractor no less than thirty (30) days prior to the expiration date of the then current term.

4. TIME OF THE ESSENCE

Time is of the essence in performing the duties, obligations, and responsibilities required by this Agreement.

The term "Business Day," means any day occurring Monday through Friday, except when such day is deemed to be a Holiday. The term "Holiday" means any day observed as a holiday by the Leon County Board of County Commissioners pursuant to County Policy 03-16, as may be amended, which, as of the Effective Date of this Agreement, are the following days: New Year's Day, Martin Luther King Jr. Day, Florida Emancipation Day (May 20), Memorial Day, Independence Day, Labor Day, Election Day (first Tuesday after the first Monday in November in even-numbered years), Veteran's Day, Thanksgiving Day, Friday After Thanksgiving Day, and Christmas Day; provided, however, that when any of these observed holidays fall on a Saturday, the preceding Friday shall be the day observed as a holiday, and when any of these observed holidays falls on a Sunday, the following Monday shall be the day observed as a holiday. In addition, when New Year's Day and Christmas Day fall on a Thursday, the Friday following those days shall also be observed as a holiday, and when New Year's Day and Christmas Day fall on a Tuesday, the Monday preceding those days shall also be observed as a holiday.

5. CONTRACT SUM

The Contractor agrees that for the performance of the Work as outlined in Section 1 above, it shall be remunerated by the County for a total sum not to exceed $200,000 per contract year. Of the total contract sum, $117,500 shall be

remunerated by the County for state lobbying services (as set forth in Exhibit A) and $82,5000 for federal lobbying services (as set forth in Exhibit B), as outlined below. The contract sum shall be remunerated by the County in twelve (12) monthly installment payments in the amount of $9,791 for state lobbying services and $6,875 for federal lobbying services.

	Contract Sum
Base Contract (Federal)	$82,500
Base Contract (State)	$82,500
MWBE Subcontractor Participation (State)	$35,000
Total	**$200,000**

6. PAYMENTS

Payments will be made in accordance with Section 218.70, Florida Statutes, et. seq., the "Local Government Prompt Payment Act."

7. PROMPT PAYMENT INFORMATION REQUIREMENTS AND NOTICES

A. The County Project Manager is:

Name: Nicki Hatch
Street Address: 301 S. Monroe St., Suite 502
City, State, Zip Code: Tallahassee, Florida 32301
Telephone: 850-606-5336
E-mail: HatchN@leoncountyfl.gov

B. The Contractor's Project Managers are:

State Lobbying Services
Name: Brian Bautista
Street Address: 123 S. Adams Street
City, State, Zip Code: Tallahassee, Florida 32301
Telephone: 850-671-4401
E-mail: Bautista@thesoutherngroup.com

Federal Lobbying Services
Name: Chase Kroll
Street Address: 214 A Street
City, State, Zip Code: Washington, D.C. 20002
Telephone: 202-792- 010
E-mail: Kroll@tsgadvocates.com

C. Notices to the Contractor are to be submitted to:

State Lobbying Services
Name: Brian Bautista
Street Address: 123 S. Adams Street
City, State, Zip Code: Tallahassee, Florida 32301
Telephone: 850-671-4401
E-mail: Bautista@thesoutherngroup.com

Federal Lobbying Services
Name: Chase Kroll
Street Address: 214 A Street
City, State, Zip Code: Washington, D.C. 20002

DRAFT

Telephone: 202-792- 010
E-mail: Kroll@tsgadvocates.com

D. Invoices are to be submitted to:
Name: Nicki Hatch
Street Address: 301 S. Monroe St., Suite 502
City, State, Zip Code: Tallahassee, Florida 32301
Telephone: 850-606-5336
E-mail: HatchN@leoncountyfl.gov

E. Proper form for an invoice is:

A numbered document with date of invoice; reference to the County purchase order number; itemized listing of all goods and Work being billed with unit prices and extended pricing; vendor's name, address, billing contact person information, and Federal tax identification number. The invoice must be properly addressed to the Division listed on the County purchase order and delivered to that address. Delivery to another County address will void the invoice, and it shall be of no force and effect.

F. Payment Dispute Resolution: Section 16.01 of the Leon County Purchasing Policy No. 96-1 details the policy and procedures for payment disputes under this Agreement.

8. TAXES

The County is tax-exempt and therefore is not obligated to pay sales, use, and excise taxes. A copy of the County's Certificate of Exemption is available upon request.

9. DISPUTES/REMEDIES

A. All disputes arising under or relating to this Agreement shall be resolved in accordance with this Section, except for disputes related to payments and payment disputes, which shall be addressed and resolved in accordance with Leon County Policy 96-1, as may be amended.

B. The Parties shall attempt to resolve all disputes that arise under this Agreement in good faith and in accordance with the following procedure:
1) The aggrieved Party shall give written notice to the other Party setting forth the nature of the dispute, date of occurrence (if known), and proposed equitable resolution.
2) Representatives of both Parties shall meet at the earliest opportunity to discuss and resolve the dispute. If the dispute is resolved to the mutual satisfaction of both representatives, they shall report their decision to the Parties in writing.
3) If those representatives are unable to reconcile the dispute, they shall report their impasse to the appropriate County Director and the Contractor's designee, who, at their earliest opportunity, shall meet and attempt to reconcile the dispute.
4) Should the Director and the Contractor's designee fail to resolve the dispute, they shall report their impasse to the County Administrator, or authorized representative, and the Contractor's designee, who, at their earliest opportunity, shall review and attempt to resolve the dispute.
5) If the County Administrator and the Contractor's designee are not able to amicably resolve the dispute within fifteen (15) Business Days after the impasse is reported to them, then either Party can pursue whatever forms of relief may be available to it under this Agreement, at law, or in equity.

10. STATUS

The Contractor at all times relevant to this Agreement shall be an independent contractor and in no event shall the Contractor nor any employees or subcontractors under it be considered to be employees of the County.

DRAFT

11. INSURANCE

Contractor shall, at its sole expense, procure and maintain for the duration of this Agreement insurance against claims for injuries to persons or damages to property which may arise from or in connection with the performance of the Work hereunder by the Contractor, its agents, representatives, employees or subcontractors.

A. Minimum Limits of Insurance. Contractor shall maintain limits no less than:

1) General Liability: $1,000,000 combined single limit per occurrence for bodily injury, personal injury and property damage. If commercial general liability insurance or other form with a general aggregate limit is used, either the general aggregate limit shall apply separately to this Project/location or the general aggregate limit shall be twice the required occurrence limit.

2) Automobile Liability: $1,000,000 combined single limit per accident for bodily injury and property damage. (non-owned, hired car).

3) Workers' Compensation and Employers Liability: insurance covering all employees meeting statutory limits in compliance with the applicable state and Federal laws and employer's liability with a limit of $500,000 per accident, $500,000 disease policy limit, $500,000 disease each employee. Waiver of subrogation in lieu of additional insured is required.

4) Professional Liability Insurance, including errors and omissions: for all Work performed under the terms of this agreement with minimum limits of One Million and 00/100 ($1,000,000.00) Dollars per occurrence; or claims made form with "tail coverage" extending four (4) years beyond the term of the Agreement. Proof of "tail coverage" must be submitted with the invoice for final payment.

B. Deductibles and Self-Insured Retentions

Any deductibles or self-insured retentions must be declared to and approved by the County. At the option of the County, either: the insurer shall reduce or eliminate such deductibles or self-insured retentions as respects the County, its officers, officials, employees and volunteers; or the Contractor shall procure a bond guaranteeing payment of losses and related investigations, claim administration, and defense expenses.

C. Other Insurance Provisions

The policies are to contain, or be endorsed to contain, the following provisions:

1) General Liability and Automobile Liability Coverages (County is to be named as Additional Insured).

a. The County, its officers, officials, employees and volunteers are to be covered as insureds as respects: liability arising out of activities performed by or on behalf of the Contractor, including the insured's general supervision of the Contractor; products and completed operations of the Contractor; premises owned, occupied or used by the Contractor; or automobiles owned, leased, hired or borrowed by the Contractor. The coverage shall contain no special limitations on the scope of protections afforded the County, its officers, officials, employees or volunteers.

b. The Contractor's insurance coverage shall be primary insurance as respects the County, it officers, officials, employees and volunteers. Any insurance or self-insurance maintained by the County, its officers, officials, employees, or volunteers shall be in excess of the Contractor's insurance and shall not contribute with it.

c. Any failure to comply with reporting provisions of the policies shall not affect coverage provided to the County, its officers, officials, employees, or volunteers.

d. The Contractor's insurance shall apply separately to each insured against whom claims are made or

suit is brought, except with respect to the limits of the insurer's liability.

2) All Coverages

Each insurance policy required by this clause shall be endorsed to state that coverage shall not be suspended, voided, canceled by either party, reduced in coverage or in limits except after thirty (30) days' prior written notice by certified mail, return receipt requested, has been given to the County.

D. Acceptability of Insurers. Insurance is to be placed with insurers with a Best's rating of no less than A:VII.

E. Verification of Coverage. Contractor shall furnish the County with certificates of insurance and with original endorsements affecting coverage required by this clause. The certificates and endorsements for each insurance policy are to be signed by a person authorized by that insurer to bind coverage on its behalf. All certificates and endorsements are to be received and approved by the County before work commences. The County reserves the right to require complete, certified copies of all required insurance policies at any time. Certificates of Insurance acceptable to the County shall be filed with the County prior to the commencement of the work. These policies described above, and any certificates shall specifically name the County as an additional Insured and shall contain a provision that coverage afforded under the policies will not be canceled until at least thirty (30) days prior to written notice has been given to the County.

Cancellation clauses for each policy should read as follows: Should any of the above-described policies be canceled before the expiration date thereof, the issuing company will mail thirty (30) days written notice to the Certificate Holder named herein.

F. Subcontractors. Contractors shall include all subcontractors as insureds under its policies or shall furnish separate certificates and endorsements for each subcontractor. All coverages for subcontractors shall be subject to all the requirements stated herein.

12. LICENSES & REGISTRATIONS

The Contractor shall be responsible for obtaining and maintaining any applicable licenses, certifications, and/or registrations required pursuant to the laws of the County, the City of Tallahassee, or the State of Florida, or any other applicable state or Federal law. Should the Contractor, by reason of revocation, failure to renew, or any other reason, fail to maintain its license, certification, and/or registration necessary to operate, the Contractor shall be in default of this Agreement as of the date such license, certification, and/or registration is lost.

The Contractor shall be registered to do business with the Florida Department of State prior to execution of this Agreement unless Contractor provides written verification of its exempt status. (See applicable sections of Title XXXVI, Chapters 605 through 623, Florida Statutes.)

13. ASSIGNMENTS

This Agreement shall not be assigned or sublet in whole or in part without the written consent of the County nor shall the Contractor assign any monies due or to become due to it hereunder without the previous written consent of the County.

14. INDEMNIFICATION

Contractor shall indemnify, hold harmless, and defend County and all of County's current, past, and future officers, agents, and employees (collectively, "Indemnified Party") from and against any and all causes of action, demands, claims, losses, liabilities, and expenditures of any kind, including attorneys' fees, court costs, and expenses, including through the conclusion of any appellate proceedings, raised or asserted by any person or entity not a party to this Agreement, and caused or alleged to be caused, in whole or in part, by any breach of this Agreement by Contractor, or any intentional, reckless, or negligent act or omission of Contractor, its officers, employees, or agents, arising from, relating to, or in connection with this Agreement (collectively, a "Claim"). If any Claim is brought against an Indemnified Party, Contractor

DRAFT

shall, upon written notice from County, defend each Indemnified Party with counsel satisfactory to County or, at County's option, pay for an attorney selected by the County to defend the Indemnified Party. The obligations of this section shall survive the expiration or earlier termination of this Agreement. The Contractor acknowledges that ten dollars ($10.00) of the Contract Sum paid to the Contractor, and the promises and covenants herein, constitute sufficient consideration for the Contractor's indemnification of the County, its officials, officers, and employees.

15. MINORITY AND WOMEN BUSINESS ENTERPRISE (MWBE) PARTICIPATION

The Contractor shall meet or exceed the following MWBE participation levels the following MWBE participation level:

	Contract Sum
Base Contract (Federal)	$82,500
Base Contract (State)	$82,500
MWSBE Subcontractor Participation (State)	$35,000
Total	**$200,000**

The Contractor shall be responsible for demonstrating MWBE subcontractor participation and submitting copies of such documentation in conjunction with the monthly invoice. The reports shall detail each invoice submitted to the County and a breakdown of payments to all subcontractors therein by MWBE classification.

16. PUBLIC RECORDS

By entering into this Agreement, Contractor acknowledges and agrees that any records maintained, generated, received, or kept in connection with, or related to the performance of services provided under, this Agreement are public records subject to the public records disclosure requirements of Section 119.071, Florida Statutes. In accordance with Section 119.0701(2)(b)1-4, Florida Statutes, the Contractor specifically agrees to:

A. Keep and maintain public records required by County to perform the services under this Agreement.

B. Upon request from County, provide County with a copy of the requested records or allow the records to be inspected or copied within a reasonable time and at a cost that does not exceed that provided in Chapter 119, Florida Statutes, or as otherwise provided by law.

C. Ensure that public records that are exempt or confidential and exempt from public record requirements are not disclosed except as authorized by law for the duration of this Agreement and following completion or termination of this Agreement if Contractor does not transfer the records to the County; and

D. Upon completion or termination of the contract, transfer, at no cost, to the County all public records in possession of the Contractor or keep and maintain public records required by the County to perform the service. If the Contractor transfers all public records to the County upon completion or termination of the Agreement, the Contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Contractor keeps and maintains public records upon completion or termination of the Agreement, the Contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the County, upon request from the County, in a format that is compatible with the information technology systems of the County.

A request for public records regarding this Agreement must be made directly to the County, which will be responsible for responding to any such public records requests. Contractor will provide any requested records to County to enable the County to respond to the public records request.

DRAFT

Any material submitted to the County that Contractor contends constitutes or contains trade secrets or is otherwise exempt from production under Florida public records laws (including Chapter 119, Florida Statutes) ("Trade Secret Materials") must be redacted, conspicuously labeled "EXEMPT FROM PUBLIC RECORD PRODUCTION — TRADE SECRET" and the applicable statutory provision for the exemption must be stated. The redacted copy should be provided to the County and should only exclude those exact portions which are claimed confidential, proprietary, or trade secret. Contractor shall be responsible for defending its determination that the redacted portions are confidential, trade secret, or otherwise not subject to disclosure. Further, Contractor shall protect, defend, and indemnify the County and its employees and agents from any and all claims, causes of action, losses, fines, penalties, damages, judgments and liabilities of any kind, including attorneys' fees, litigation expenses, and court costs, relating to Contractor's determination that the redacted portions of its documents are confidential, proprietary, trade secret, or otherwise not subject to disclosure.

If a third party submits a request to the County for records designated as Trade Secret Materials by the Contractor, the County shall refrain from disclosing the unredacted copy of the designated Trade Secret Materials, unless otherwise ordered by a court of competent jurisdiction or authorized in writing by Contractor. By entering into this Agreement, Contractor agrees to indemnify and defend the County and its employees and agents from any and all claims, causes of action, losses, fines, penalties, damages, judgments and liabilities of any kind, including attorneys' fees, litigation expenses, and court costs, relating to the nondisclosure of any Trade Secret Materials in response to a records request by a third party.

Contractor acknowledges that failure to provide the public records to the County within a reasonable time may be subject to penalties under Section 119.10, Florida Statutes. Contractor further agrees not to release any records that are statutorily confidential or otherwise exempt from disclosure without first receiving prior written authorization from the County. Contractor shall indemnify, defend, and hold the County harmless for and against any and all claims, damage awards, and causes of action arising from Contractor's failure to comply with the public records disclosure requirements of Section 119.07(1), Florida Statutes, or by Contractor's failure to maintain public records that are exempt or confidential and exempt from the public records disclosure requirements, including, but not limited to, any third party claims or awards for attorneys' fees and costs arising therefrom. Contractor authorizes County to seek declaratory, injunctive, or other appropriate relief against Contractor from a Circuit Court in Leon County on an expedited basis to enforce the requirements of this section.

IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT:

LEON COUNTY PURCHASING DIVISION
ATTN: MELANIE HOOLEY, PURCHASING DIRECTOR
1800-3 N. BLAIRSTONE ROAD
TALLAHASSEE, FLORIDA 32308
PHONE: 850-606-1600
EMAIL: HOOLEYM@LEONCOUNTYFL.GOV

Contractor agrees to abide by all federal, state, and local laws and regulations. It is the responsibility of the Contractor to determine applicability and requirements of any such laws and to abide by them.

17. AUDITS, RECORDS, AND RECORDS RETENTION

Contractor agrees:

A. To establish and maintain books, records, and documents (including electronic storage media) in accordance with generally accepted accounting procedures and practices, which sufficiently and properly reflect all revenues and

expenditures of funds provided by the County under this Agreement.

B. To retain all client records, financial records, supporting documents, statistical records, and any other documents (including electronic storage media) pertinent to this Agreement for a period of five (5) years after termination of the Agreement, or if an audit has been initiated and audit findings have not been resolved at the end of five (5) years, the records shall be retained until resolution of the audit findings or any litigation which may be based on the terms of this Agreement.

C. To assure that these records shall be subject at all reasonable times to inspection, review, or audit by Federal, state, or other personnel duly authorized by the County.

D. That persons duly authorized by the County and Federal auditors, pursuant to 45 CFR 75.364 shall have full access to and the right to examine this Agreement and related records and documents, regardless of the form in which kept, at all reasonable times for as long as records are retained.

E. To include these aforementioned audit and record keeping requirements in all approved subcontracts and assignments.

18. MONITORING

The Agreement will require the Contractor to permit persons duly authorized by the County to inspect any records, papers, documents, facilities, goods, and Work of the Contractor which are relevant to this Agreement and interview any clients and employees of the Contractor to assure the County of satisfactory performance of the terms and conditions of this Agreement.

Following such evaluation, the County will deliver to the Contractor a written report of its findings and will include written recommendations with regard to the Contractor's performance of the terms and conditions of this Agreement. The Contractor will correct all noted deficiencies identified by the County within the specified period of time set forth in the recommendations. The Contractor's failure to correct noted deficiencies may, at the sole and exclusive discretion of the County, result in any one or any combination of the following: (1) the Contractor being deemed in breach or default of this Agreement; (2) the withholding of payments to the Contractor by the County; and (3) the termination of this Agreement for cause.

19. TERMINATION

The County may terminate this Agreement without cause by giving the Contractor thirty (30) days written notice of termination. Either party may terminate this Agreement for cause by giving the other party hereto thirty (30) days written notice of termination. The County shall not be required to give Contractor such thirty (30) day written notice if, in the opinion of the County, the Contractor is unable to perform its obligations hereunder or, in the County's opinion, the Work being performed is not satisfactory. In such case, the County may immediately terminate the Agreement effective upon notice of termination to the Contractor.

Contractor certifies that neither it nor any of its affiliates are scrutinized companies as identified in Section 287.135, Florida Statutes. In addition, Contractor agrees to observe the requirements of Section 287.135, Florida Statutes, for applicable sub-agreements entered into for the performance of work under this Agreement. Pursuant to Section 287.135, Florida Statutes, the County may immediately terminate this Agreement for cause if the Contractor, its affiliates, or its subcontractors are found to have submitted a false certification; or if the Contractor, its affiliates, or its subcontractors are placed on any applicable scrutinized companies list or engaged in prohibited contracting activity during performance under this Agreement.

The Agreement may be terminated by the County if the Contractor is found to have submitted a false certification as required under Section 287.135(2)(a), Florida Statutes, been placed on the Scrutinized Companies that Boycott Israel List or is engaged in a boycott of Israel.

The Agreement may be terminated by the County if the Contractor is found to have submitted a false certification as

required under Section 287.135(5), Florida Statutes, or has been placed on a list created pursuant to Section 215.473, Florida Statutes, relating to scrutinized active business operations in Iran.

20. PUBLIC ENTITY CRIMES STATEMENT

In accordance with Section 287.133, Florida Statutes, Contractor hereby certifies that to the best of its knowledge and belief neither Contractor nor its affiliates has been convicted of a public entity crime.

21. UNAUTHORIZED ALIEN(S)

The Contractor agrees that unauthorized aliens shall not be employed or utilized in the performance of the requirements of this Agreement. The County shall consider the employment or utilization of unauthorized aliens a violation of Section 274A(e) of the Immigration and Naturalization Act (8 U.S.C. 1324a). Such violation shall be grounds for termination of this Agreement by the County.

22. EMPLOYMENT ELIGIBILITY VERIFICATION

By providing goods and/or services to the County, the Contractor is obligated to comply with the provisions of Section 448.095, Florida Statutes, "Employment Eligibility." Compliance with Section 448.095, Florida Statutes., includes, but is not limited to, utilization of the E-Verify System to verify the work authorization status of all newly hired employees, and requiring all subcontractors to provide an affidavit attesting that the subcontractor does not employ, contract with, or subcontract with, an unauthorized alien. The Contractor affirms and represents that it is registered with the E-Verify system and is using same and will continue to use same as required by Section 448.095, Florida Statutes.

23. NON-WAIVER

Failure by the County to enforce or insist upon compliance with any of the terms or conditions of this Agreement or failure to give notice of or declare this Agreement terminated shall not constitute a general waiver or relinquishment of the same, or of any other terms, conditions or acts; but the same shall be and remain at all times in full force and effect.

24. DELAY

No claim for damages or any claim other than for an extension of time shall be made or asserted against the County by reason of any delays. The Contractor shall not be entitled to an increase in the Contract Sum or payment or compensation of any kind from the County for direct, indirect, consequential, impact or other costs, expenses or damages, including but not limited to costs of acceleration or inefficiency, arising because of delay, disruption, interference or hindrance from any cause whatsoever, whether such delay, disruption, interference or hindrance be reasonable or unreasonable, foreseeable or unforeseeable, or avoidable or unavoidable; provided, however, that this provision shall not preclude recovery of damages by the Contractor for hindrances or delays due solely to fraud, bad faith, or active interference on the part of the County or its agents. Otherwise, the Contractor shall be entitled only to extensions of this Agreement time as the sole and exclusive remedy for such resulting delay, in accordance with and to the extent specifically provided above.

25. REVISIONS

In any case where, in fulfilling the requirements of this Agreement or of any guarantee, embraced in, or required thereby, it is necessary for the Contractor to deviate from the requirements of this Agreement, Contractor shall obtain the prior written consent of the County.

26. FORCE MAJEURE

If either of the Parties is prevented from or delayed from performing any obligations under this Agreement (except payment or financial obligations) by circumstances beyond its control, including but not limited to fires, hurricanes, severe weather, floods, pandemics, quarantines, war, civil disturbances, acts of terrorism, acts of God, or significant

DRAFT

threats of such circumstances, or any future laws, rules, regulations, orders, or acts of any local, state, or Federal government (collectively "Force Majeure"), then the affected party shall be excused from performance hereunder during the period of inability to perform. The party claiming Force Majeure shall promptly notify the other party in writing when upon learning of the existence of a Force Majeure condition, and when the Force Majeure condition has terminated. Notwithstanding anything in this Agreement to the contrary, the term "Force Majeure" does not include or excuse performance under this Agreement for events related to increased costs associated with fuel, labor, labor disputes, insurance, or other expenses of performing the obligations hereunder.

27. RESERVATION OF SOVEREIGN IMMUNITY

Nothing herein is intended to serve as a waiver of sovereign immunity by the County nor shall anything included herein be construed as consent by the County to be sued by third parties in any matter arising out of this Agreement. The County is included within the definition of "state agencies or subdivisions" in Section 768.28, Florida Statutes, and shall be responsible for the negligent or wrongful acts or omissions of its employees pursuant to Section 768.28, Florida Statutes.

28. THIRD PARTY BENEFICIARIES

Neither the County nor the Contractor intends to directly or substantially benefit a third party by this Agreement. Therefore, the Parties acknowledge that there are no third-party beneficiaries to this Agreement, and no third party shall be entitled to assert a right or claim against either of the Parties based upon this Agreement.

29. LAW, JURISDICTION, VENUE, WAIVER OF JURY TRIAL

This Agreement shall be interpreted and construed in accordance with and governed by the laws of the State of Florida. Venue for all actions arising from, related to, or in connection with this Agreement shall be in the state courts of the Second Judicial Circuit in and for Leon County, Florida. If any claim arising from, related to, or in connection with this Agreement must be litigated in Federal court, the exclusive venue for any such lawsuit shall be in the United States District Court or United States Bankruptcy Court for the Northern District of Florida. By entering into this Agreement, the County and Contractor hereby expressly waive any rights either Party may have to a trial by jury of any civil litigation related to this Agreement.

30. CONSTRUCTION

The validity, construction, and effect of this Agreement shall be governed by the laws of the State of Florida.

31. SEVERABILITY

It is intended that each section of this Agreement shall be viewed as separate and divisible, and in the event that any section, or part thereof, shall be held to be invalid, the remaining sections and parts shall continue to be in full force and effect.

32. AMENDMENTS

No modification, amendment, or alteration in the terms or conditions contained in this Agreement shall be effective unless contained in a written document prepared with the same or similar formality as this Agreement and executed by duly authorized representatives of the County and Contractor.

33. CONFLICTING TERMS AND CONDITIONS

In the instance that any other agreement exists concerning the matters herein, then the terms and conditions in this Agreement shall prevail over all other terms and conditions.

34. INTERPRETATION

DRAFT

This Agreement shall be interpreted without the aid of any canon, custom, or rule requiring construction against the drafter.

35. COUNTERPARTS AND MULTIPLE ORIGINALS

This Agreement may be executed in multiple originals and in counterparts, each of which shall be deemed to be an original, but all of which, taken together, shall constitute one and the same agreement.

36. AUTHORITY TO SIGN

Each signatory to this Agreement who signs on behalf of a party expressly represents and warrants that he or she has the authority to sign on behalf of that party.

37. ENTIRE AGREEMENT

This Agreement, including the terms and conditions shown above contains the complete and final agreement between the County and Contractor and no other agreement in any way modifying any of said terms and conditions will be binding upon the County unless made in conformance with this Agreement. Contractor may not unilaterally modify the terms of the Agreement (e.g., attachment or inclusion of standard preprinted forms, product literature, or terms accompanying or affixed to a product or purchase order, whether written or electronic) or by incorporating such terms onto Contractor's invoice or other documents forwarded by Contractor for payment. The County's acceptance of product or processing of documentation on forms furnished by Contractor for approval or payment shall not constitute acceptance of any proposed modification to terms and conditions and any additional or conflicting terms proposed by Contractor. There shall be no force or effect to any different terms of any related purchase order or similar form even if signed by the Parties after the date hereof.

DRAFT

Exhibit A: Scope of Work – State Lobbying Services

The Contractor will assist in developing and implementing the County's state legislative program. The Contractor will work closely with the County's legislative liaison in identifying legislative opportunities and assist in the development of the County's annual list of policy priorities and local project requests to seek state appropriation and/or legislative and administrative remedies to strengthen County programs and services. The Contractor will provide, at a minimum, the following services (collectively, the "Services"):

1. Coordinate with the County's legislative liaison to assist in the development and advocacy of the County's policy priorities and local project funding requests for line-item appropriation funding. Identify opportunities to advocate for specific priorities and project funding requests through the state legislative process and assist in developing written material on each request.

2. Regularly provide the County's legislative liaison with any new information and actively seek opportunities to enhance the County's state legislative program and provide options as to legislative strategy in seeking local project funding when necessary.

3. Provide strategic guidance on the County's state legislative program as needed and as requested.

4. Monitor and analyze current state legislation and the budget process and report to the County, both orally and in writing, any legislative matters that may directly or indirectly impact the County and its local project funding requests. Attend meetings as necessary.

5. By Friday, 5 PM at the end of each week during the State Legislative Session, provide the County's legislative liaison with a report of the Contractor's activities for that week related to the County's legislative priorities, local project funding requests, and proposed legislation that could impact Leon County

6. Advocate with the Leon County Legislative Delegation, the Legislative Appropriations Committees, and other key members of the Legislature and state agencies in support of the County's legislative priorities and local project funding requests.

7. Testify before legislative committees as appropriate.

8. At the conclusion of each session, prepare a final report to include the final status of the County's legislative priorities and local project funding requests, including a summary of the impact of major legislative changes to Leon County.

9. Advocate with the Governor's Office in support of the County's local project funding requests for inclusion in the final state budget following the conclusion of the State Legislative Session.

10. Monitor various state agency actions for potential impact on the County's legislative priorities and local project funding requests and, if action is needed, advise the County.

DRAFT

Exhibit B: Scope of Work – Federal Lobbying Services

The Contractor will assist in developing and implementing the County's federal legislative program. The Contractor will work closely with the County's legislative liaison in identifying legislative opportunities and assist in the development of the County's annual list of policy priorities and local project requests to seek federal appropriation and/or legislative and administrative remedies to strengthen County programs and services. The Contractor will provide, at a minimum, the following services (collectively, the "Services"):

1. Advocate with Congress, congressional committees, and federal agencies in support of the County's legislative priorities and local project funding requests and attend meetings as necessary.

2. Work with the County's legislative liaison to assess the County's local project funding requests as established by the Board of County Commissioners and identify viable federal funding sources to support these priorities.

3. Monitor current federal legislation and the federal budget process and report to the County, both orally and in writing, any legislative events that may directly or indirectly impact the County.

4. Provide advice and interpretation on legislative and regulatory matters as they apply to County programs, projects, or operations. Such information may involve federal laws as well as state and local statutes and ordinances insofar as they may be affected by federal actions.

5. Provide strategic guidance on the County's federal legislative program as needed and as requested.

6. Provide the County's legislative liaison with monthly written reports on legislative, administrative, and budgetary priorities as established by the Board of County Commissioners and other legislative or administrative actions that may impact the County.

7. Coordinate meetings for elected officials and/or staff with appropriate federal agencies, legislative staff, and elected officials to communicate the County's interests, concerns, needs, etc. as needed.

8. Testify before legislative committees and/or regulatory bodies on behalf of the County as needed.

9. At the Contractor's expense, attend a meeting of the Leon County Board of County Commissioners at least once a year to update the Board of County Commissioners on federal issues that are or may affect the County.

Nicole Kelly

kelly @thesoutherngroup.com

(850) 671-4401

Influence creates opportunity.

Let us show you how.

Nicole Kelly is a dynamic force in Florida lobbying, seamlessly blending policy expertise, strategic insight, and fundraising acumen to deliver results for her clients. Since joining The Southern Group's Tallahassee office in 2021, she has been instrumental in guiding top-tier clients through the complexities of the appropriations process and high-stakes policy negotiations. With over a decade of experience in government affairs, Nicole has built a reputation as a relentless advocate and trusted strategist, ensuring her clients are at the center of Florida's most critical legislative discussions.

Nicole's expertise spans a wide range of policy areas, including property insurance, healthcare, and appropriations, making her a highly sought-after consultant across multiple industries. Beyond policy, she is also a key player in political fundraising, building strong relationships with legislative leaders and key decision-makers.

Throughout her career, Nicole has cultivated and fortified relationships with some of Florida's most influential policymakers, allowing her to navigate complex political landscapes with precision. Her ability to turn challenges into opportunities, anticipate political shifts, and execute winning strategies has solidified her standing as one of the most effective lobbyists in the state.

A Tallahassee native, Nicole earned her BA in political science and sociology from Florida State University in 2011, reinforcing her deep-rooted passion for public policy and government affairs. She continues to make a lasting impact while residing in her hometown with her husband and two children. With her sharp political instincts, unparalleled work ethic, and expertise in both policy and fundraising, Nicole Kelly is a formidable force in Florida politics.

Brian Bautista

bautista@thesoutherngroup.com

(850) 671-4401

Influence creates opportunity.

Let us show you how.

Brian Bautista joined The Southern Group's Tallahassee office in 2014. Brian has expertise in a range of areas, including business and policy development, campaigns, cannabis and hemp, local government, mobility, oil and gas, technology, and travel and tourism.

Before joining Southern, Brian worked on a variety of political campaigns, from local offices to statewide races. As an attorney specializing in emerging industries, Brian combines years of political acumen with legal experience helping start-ups and disruptors to navigate the perils of taking on entrenched industries.

Brian has represented clients on a number of high-profile issues in the state's emerging industries sectors, notably including multiple successful representations culminating in Florida's highly sought-after Medical Marijuana Treatment Center licenses.

Brian was recognized by Florida Politics as one of Florida's "30 Under 30" and named a #NextGeneration Rising Star by Influence Magazine.

Originally from Cape Coral, Florida, Brian is a two-time graduate of Florida State University, earning a BA in political science before continuing on to earn his JD. Brian and his wife Savanna reside in Tallahassee.

Chris Dudley

dudley@thesoutherngroup.com

(850) 671-4401

Influence creates opportunity.

Let us show you how.

Chris Dudley joined The Southern Group's Tallahassee office in 2000 after serving for seven years at the highest levels of Florida government. Since that time, Chris has developed extensive expertise in numerous policy areas, including appropriations, campaigns, education, economic and business development, energy, gaming, pharmacy, land use and development, sports and entertainment, technology, transportation, and utilities.

Chris started his career in government working as a legislative aide in the Florida House of Representatives. In 1995, Chris began work in the Florida Department of Education as a special assistant, deputy legislative director, and deputy chief of staff to Education Commissioner Frank Brogan. In 1998, Chris joined the Bush-Brogan campaign for governor and ultimately rose to become deputy chief of staff to Governor Jeb Bush.

In his professional role, Chris has been widely recognized for his skills and expertise. Chris was a founding member of the Florida Association of Professional Lobbyists and in 2016 was named Lobbyist of the Year by Influence Magazine.

In 2019, Chris was recognized as a Pioneer Advocate for the Florida trucking industry. He has also been recognized as one of the two longest-serving state lobbyists for CVS Health.

A devoted community activist, Chris has held a range of positions at the state and local level. Chris is the current chairman of the Tallahassee Downtown Improvement Authority, a past chairman of the Florida Network of Youth and Family Services, a member of the Maclay School Board of Trustees, an advisory board member for Hanock Whitney Bank, a board member of the Greater Tallahassee Chamber of Commerce, and an advisory board member for the United States Tennis Association Player Development Council.
A native of Fort Myers, Florida, Chris graduated from the University of South Florida with a BA in political science. Chris and his family live in Tallahassee.

WHO WE ARE

65+
LOBBYISTS

500+
YEARS OF EXPERIENCE

12
MARKETS

After 25 years of groundbreaking advocacy across Florida and the Southeast, The Southern Group has taken its expertise to Washington, D.C., with the creation of TSG Advocates.

This strategic expansion brings the firm's proven track record and vast network into the heart of federal policymaking. With offices throughout Florida — Tallahassee, Jacksonville, Orlando, Tampa Bay, Miami, Broward — and throughout the Southeast — Columbia, SC, Atlanta, GA, Montgomery, AL, and Raleigh, NC — The Southern Group has built an unmatched foundation of influence that now extends to Capitol Hill.

TSG Advocates guides clients through the intricacies of federal decision-making with precision and impact. By connecting the power of The Southern Group's national network with deep Washington insight, TSG Advocates delivers results-driven strategies that shape policy at the federal level.

TSG ADVOCATES

WHAT WE DO

At TSG Advocates, we are more than just federal lobbyists — we are strategic thought partners with a unique edge. With strong ties to Florida, a state increasingly influential in national politics, we leverage our deep connections to bridge the gap between business and local interests and Capitol Hill.

Our team seamlessly integrates this extensive knowledge and network into our federal advocacy work. We connect clients with key decision-makers, shape strategic policy agendas, and navigate the complex dynamics of Capitol Hill with precision. Whether guiding clients through shifting foreign affairs, financial services and healthcare, or advocating for their funding priorities at the highest levels, we deliver results-driven strategies that reflect The Southern Group's proven formula.

ACCESS

We offer **unparalleled access to influential government, business, and community leaders,** leveraging years of relationship-building with key officials at all levels of government. This access ensures that our clients' voices are heard at the highest levels, opening doors that would otherwise remain closed.

ADVOCACY

We act as dedicated advocates, **representing clients before federal, state, and local governments** to ensure their policy objectives are integrated into official government actions. Whether advancing legislation, opposing harmful policies, or securing appropriations, we use our expertise and connections to achieve tangible results.

ADVICE

Our team provides **expert guidance and actionable insights** into government processes at all levels. We analyze proposed policies, regulations, and initiatives to help clients understand potential impacts, identify opportunities, and develop effective strategies to achieve their objectives.

SERVICES

PROVEN STRATEGIES.

UNMATCHED EXPERTISE.

LEGISLATIVE ADVOCACY
Influencing the development, passage, or defeat of bills and resolutions in Congress as well as drafting legislation or amendments to address client needs.

EXECUTIVE BRANCH ADVOCACY
Engaging with the White House administration and executive agencies to shape policies and regulations. Facilitating meetings and building relationships with agency leaders and decision-makers.

BUDGET & APPROPRIATIONS ADVOCACY
Securing funding in the federal budget for specific projects, programs, or initiatives as well as protecting clients' interests during budget cuts or reallocations.

REGULATORY ADVOCACY
Navigating rule-making processes and influencing federal agency regulations. Assisting clients with compliance and understanding regulatory impacts.

PROCUREMENT ASSISTANCE
Supporting clients in navigating federal procurement processes and securing government contracts.

STAKEHOLDER ENGAGEMENT & COALITION BUILDING
Building alliances with key stakeholders, including trade associations, nonprofits, and other advocacy groups. Organizing and managing coalitions to advance shared legislative or policy goals.

CRISIS MANAGEMENT & ISSUE ADVOCACY
Providing strategic guidance during high-stakes or contentious policy debates. Managing public relations and communication strategies to influence policy outcomes.

MONITORING, REPORTING & ANALYSIS
Tracking federal legislative and regulatory developments to keep clients informed. Providing timely analysis of potential impacts on client operations or interests.

PUBLIC-PRIVATE PARTNERSHIP FACILITATION
Assisting in creating and promoting partnerships between clients and state governments.

GRASSROOTS ADVOCACY CAMPAIGNS
Mobilizing public support for policy initiatives through community engagement and outreach strategies.

STRATEGIC PLANNING & ADVISORY SERVICES
Developing long-term advocacy strategies to align with clients' goals. Providing insights into the political and legislative landscape.

Chase Kroll

kroll@tsgadvocates.com

(202) 792-5010

FOUNDING PARTNER OF TSG ADVOCATES

40 UNDER 40 AWARD, AMERICAN ASSOCIATION OF POLITICAL CONSULTANTS, 2018

Chase brings a multidisciplinary approach to advocacy on behalf of U.S. and international clients. Having run major political campaigns, legislative operations, and integrated lobbying efforts in Washington, D.C., he delivers advocacy, access, and influence informed by real-world experience in both politics and policy.

Chase is a founding partner of TSG Advocates, The Southern Group's federal lobbying practice in Washington, D.C. Before joining TSG Advocates, Chase worked at Hogan Lovells, where he represented foreign governments and Fortune 500 companies, providing strategic communications, and government relations services. Earlier in his career, he ran his own lobbying and consulting firm and was Vice President at Go BIG Media, an award-winning digital media, communications, and political consulting firm. He has led successful advocacy and PR campaigns for top-tier defense contractors, national trade associations, and nonprofits, advising clients on lobbying, media relations, and communications strategies.

Chase also secured significant federal wins for defense contractors and municipal clients as a lobbyist at David Turch & Associates. On Capitol Hill, he served as a legislative advisor to a high-profile member of Congress and held leadership positions on several federal campaigns, including managing what was then the most expensive winning House race in history. In 2018, Chase was selected for the 40 under 40 award by the American Association of Political Consultants.

Chase earned a bachelors in political science from Saint John's University and a masters in global security studies from Johns Hopkins University. He is originally from Minnesota and now resides in Washington, D.C. with his wife, Jennifer, and their three children.

TSG ADVOCATES

Daniel Diaz-Balart

diaz-balart@tsgadvocates.com

(202) 792-5010

FOUNDING PARTNER OF TSG ADVOCATES

BOARD OF DIRECTORS OF THE CONGRESSIONAL HISPANIC LEADERSHIP INSTITUTE ("CHLI"), WASHINGTON, DC

Daniel Diaz-Balart is an experienced trial lawyer, government relations expert and consultant. A fourth-generation lawyer, Daniel began his professional career as a prosecutor in Miami-Dade County. Thereafter he joined one of South Florida's most prestigious civil litigation law firms. In 2017, he founded Diaz-Balart Law, with a focus on government relations, strategic consulting, and complex civil litigation. Daniel grew his practice to include a broad portfolio of domestic and international clients, utilizing his unique skills and training to help them achieve strategic goals at the national and local levels. He has successfully advocated for large and small businesses, foreign governments, and non-profit organizations.

It has been one of Daniel's greatest honors to be able to represent distinguished domestic and international clients together with his father, former Congressman Lincoln Diaz-Balart, who represented South Florida in the U.S. House of Representatives from 1993-2011.

As a founding partner of TSG Advocates, Daniel brings a unique background and skillset that sets him apart and allows him to consistently achieve excellent results for his clients.

Daniel sits on the Board of Directors of the Congressional Hispanic Leadership Institute ("CHLI") in Washington, DC, the premier organization founded by Members of Congress to advance the Hispanic Community's economic progress and diversity of thought.

Daniel is married to Estefania and together they have two sons, Lincoln and Edwin.

hofmann@thesoutherngroup.com

(202) 792-5010

FOUNDING PARTNER OF TSG ADVOCATES

FOUNDED THE ARCHMANN GROUP IN 2017

UNITED STATES MARINE CORPS VETERAN

Kevin Hofmann

Kevin Hofmann joined The Southern Group's Jacksonville office after an impressive career in political fundraising and campaign strategy. He brings a wealth of governmental and political knowledge and connections.

Kevin's experience with political fundraising started at the federal level, working as a fundraising consultant for the Romney for President campaign. As his career grew, he developed a niche for federal and state races, serving on a long list of major campaigns, including congressional races for Mike Walz, John Rutherford, Mario Diaz-Balart, and Byron Donalds, Senate races for Rick Scott and Marco Rubio, and gubernatorial races for Ron DeSantis and Rick Scott.

"Since 2018, Kevin has been an integral part of my team and used his network to help Floridians across the state. Kevin is principled, hardworking, and passionate about delivering results," said Congressman Waltz, a retired Green Beret serving Florida's 6th Congressional District.

Kevin founded The Archmann Group in 2017 as a full-service political fundraising firm. The Archmann Group provides clients with donor research, introductions, and relationship building, and event planning and management. The Archmann Group has led various fundraising campaigns, from local sheriff's races to federal races.

Before starting his firm, Kevin served as the Finance Director of the Republican Party of Florida under Governor Rick Scott. In that role, Kevin developed and implemented a fundraising plan that generated millions for the Republican Party of Florida.

"I had the opportunity to work with Kevin when he was on my campaign team. He is a hardworking and dynamic individual," said Scott, now a U.S. Senator.

Kevin is a veteran of the United States Marine Corps. He is active in various Pro-Veteran groups, including Frontline Patriots, and is passionate about building community engagement for veterans.

Kevin resides with his wife and five children in Ponte Vedra, FL.

Crystal Wagar

wagar@thesoutherngroup.com

PAST MAYOR OF MIAMI SHORES

NAMED ONE OF THE 50 MOST POWERFUL AND INFLUENTIAL BLACK BUSINESS LEADERS IN SOUTH FLORIDA

Crystal Wagar brings a wide range of experience from both the public and private sectors to her work with The Southern Group and TSG Advocates.

Crystal leads, supports and bolsters TSG Advocates efforts to impact policy and build relationships with government and strategic partnerships at the federal level.

In her 20 plus year career, Crystal has garnered extensive knowledge of municipal procurement processes, which has translated into winning strategies for a wide diverse client base. Her successes include leading the effort to bring Uber into the South Florida market, winning the Metrorail car bid with Ansaldo Breda – one of the largest procurements in Miami-Dade County's history, and was one of the key consultants who drove the strategy for the Brightline Miami station build out.

In April 2019, Crystal was elected as Mayor of Miami Shores and completed her term as Councilmember. She made history as the first African American woman elected in the Village's 89-year existence. Crystal is a former executive board member of the Florida League of Cities. Since sitting on the executive boards, Crystal has built extensive relationships throughout Florida, as well as nationally particularly with the southeast delegation. As a member of the African American Mayors Association (AAMA), Crystal's contacts reach well beyond Florida. She has relationships from Minnesota to Houston to Georgia to LA, New York, Alabama and beyond.

Crystal has worked just as diligently at giving back to her community as she continuously maintains a strong philanthropic foundation. She is currently on the Board of Miami Children's Museum and is an appointed member of the Miami Dade County Film and Entertainment board.

In the past, Crystal served as the chairperson of the Board of Directors for the Good Government Initiative and was a member of the South Florida National Parks Trust Board. She is also an alumnus of the United States German Marshall Fellowship. She is also a proud member of the International Women's Forum (IWF), Alpha Kappa Alpha Incorporated and the Links Incorporated.

Crystal was named one of South Florida's 50 most powerful and influential black business leaders in 2012 and 2019. She received the Thurgood Marshall Distinguished Young Leader Award, the South Florida Women Extraordinaire Award and was named a Miracle Maker by Big Brothers Big Sisters of Greater Miami. Most recently Crystal was featured in Miami Women, a book about the most influential women in Miami, published 2022.

TSG ADVOCATES

Brian Darling

darling@thesoutherngroup.com

(202) 792-5010

TWO DECADES OF LOBBYING SERVICE

MEDIA AFICIONADO

Brian Darling joins TSG Advocates after a dynamic tenure as President of Liberty Government Affairs. Throughout his career, Brian has served in a variety of capacities for five United States Senators, in think tanks, and in the lobbying world for over two decades.

Brian worked for a public relations firm for two years after leaving his job with Sr. Communications Director and Counsel for Senator Rand Paul of Kentucky. Prior to his time with Paul, he spent 7 years at The Heritage Foundation.

Brian is a frequent guest on television and talk radio and has conducted hundreds of interviews in outlets such as Fox News, Fox Business, CNN, MSNBC, CNBC and the Washington Post. He has also written columns for Breitbart, Townhall, and The Observer, among other large platforms widely read by libertarians and conservatives.

Darling is somebody who has thrived under the pressure of working for a high-profile Republican in the months up to his run for president and has put together deep-dive white paper studies for the nation's largest conservative think tank. He is unique in that he has lived in both the legislative and public relations worlds and thrived in both.

rothschild@thesoutherngroup.com
(202) 792-5010

PAST CHIEF OF STAFF FOR REP. BLAKE FARENTHOLD

EXPERT NAVIGATOR OF CONGRESS

Beau Rothschild

Beau Rothschild joins TSG Advocates after serving as Government Affairs Principal at Porter Wright Morris & Arthur LLP. Beau has more than two decades of experience in federal and state lobbying, political campaigns, and communications, with a long record of successful legislative wins.

Beau has worked for some of the top lobbying firms in Washington D.C. His time on Capitol Hill includes serving as the Members Outreach Director for the Committee on House Administration, serving the day-to-day needs of the House Republican leadership, various committees, and the House Republican Conference. He facilitated the transitions of newly elected members of Congress from campaigner to legislator by guiding them through the intricacies of running their in-district and Washington offices. In this capacity, Beau developed a keen knowledge of the rules of the House, and collaborated with entities such as the U.S. Patent and Trademark Office, The Smithsonian Institution, and The Library of Congress.

Beau served as Chief of Staff for Rep. Blake Farenthold (TX-27), working with the Committees on the Judiciary, Transportation, Oversight and Government Reform. He primarily focused on criminal justice reform, the Water and Resources Reform and Development Act, copyright reform, Map 21 (surface transportation legislation), federal employees' health benefits, and patent reform. Additionally, he helped establish the first Liquefied Natural Gas Export Caucus and the Texas Ports Caucus.

Beau's public service included a number of positions in the Texas legislature, including as the Chief Clerk of the Texas House Energy Resources Committee. He also worked as a lobbyist in Austin, representing some of the largest Fortune 100 companies in America.

Beau holds a Bachelor of Science degree in political science from Texas Tech University.

Kaitlyn Roberts

roberts@tsgadvocates.com
(202) 792-5010

SERVED IN FIRST TRUMP ADMINISTRATION

EXPERT IN GLOBAL RELATIONS AND ENTERPRISE ENGAGEMENT

Kaitlyn Roberts brings a sharp political instinct and a decade of experience in federal policy and strategic communications to TSG Advocates. Having served in the first Trump administration, she offers clients a deep understanding of government operations and a proven ability to navigate complex policy environments at the national level.

Kaitlyn began her career in public service with roles in the offices of Texas Lt. Governor Dan Patrick and U.S. Senator Ted Cruz, followed by a White House internship in 2018. She later joined the staff of Congressman Kevin Brady, then-Chairman of the House Ways and Means Committee, where she supported legislative initiatives and stakeholder engagement.

From 2019 to 2023, Kaitlyn served in a nonpartisan role at the White House under two administrations, contributing to cross-agency efforts focused on intergovernmental coordination and federal policy implementation.

She holds a Master's in International Relations from Harvard University, where she concentrated on global diplomacy and public policy, building on her undergraduate studies in Corporate Communications at the University of Texas at Austin.

Most recently, Kaitlyn advised Aramco's Washington office, leading on regulatory strategy, geopolitical analysis, and enterprise-level engagement across key U.S. and international stakeholders.

She now leverages her broad experience and deep institutional insight to deliver results-driven advocacy for clients navigating the intersection of policy, business, and public impact.

Kaitlyn is located in Washington, D.C.

Nick Raineri

raineri@tsgadvocates.com
(202) 792-5010

OVER A DECADE OF NATIONAL SECURITY EXPERIENCE

PRIOR SENIOR ADVISOR IN THE OFFICE OF THE DIRECTOR OF NATIONAL INTELLIGENCE

Nick Raineri joins TSG Advocates with a decade of experience at the nexus of national security, legislative affairs, and strategic policymaking. He has served in senior roles across the Intelligence Community, the Department of Defense, and Capitol Hill, bringing a results-oriented approach to complex political and policy environments.

Most recently, Nick was a Senior Advisor in the Office of the Director of National Intelligence, where he led legislative operations and interagency coordination with entities such as the CIA, NSA, and DIA. He also supported confirmation efforts in the U.S. Senate and helped drive public-private innovation partnerships to strengthen national defense capabilities.

His prior role at the Department of Defense included helping launch the Office of Strategic Capital, where he crafted legislative language and secured critical funding for an initiative focused on long-term national competitiveness. On the Hill, Nick served as Chief of Staff to Congressman Dan Meuser and Senior Advisor to Congressman Byron Donalds, where he directed strategic voting operations for House leadership races and built broad internal coalitions.

Nick also served as Executive Director of the Main Street Caucus, advising on cross-sector policy ranging from foreign investment to supply chains. A fluent Spanish speaker with ties across Latin America, he brings a global lens to domestic challenges. He is a graduate of DePaul University with credentials in corporate finance and markets, and is based in Washington, D.C.

POWERED BY THE SOUTHERN GROUP

Leon County
Board of County Commissioners

Notes for Agenda Item #17

Leon County Board of County Commissioners

Agenda Item #17

September 15, 2025

To: Honorable Chairman and Members of the Board

From: Vincent S. Long, County Administrator

Title: Approval of Three-Year Renewal Agreement for Banner Support and Maintenance

Review and Approval:	Vincent S. Long, County Administrator
Department / Division Review:	Ken Morris, Assistant County Administrator Michelle Taylor, Chief Information Officer Roshaunda Bradley, Budget Director
Lead Staff / Project Team:	Janna Richardson, Director of Applications and Development Kerstin Walling, IT Coordinator – Administrative Systems

Statement of Issue:

This item seeks Board approval of an amendment to the agreement with Avenu Government Systems, LLC, for a three-year renewal of the County's maintenance and support for the Banner financial system in the amount of $441,243.

Fiscal Impact:

This item has a fiscal impact. Funding is included in the Office of Information Technology's annual operating budget to continue supporting these maintenance costs.

Staff Recommendation:

Option #1: Approve the amendment to the Technical Currency Agreement with Avenu Government Systems, LLC, for a three-year renewal for the Banner financial system maintenance and support in the amount of $441,243 (Attachment #1), and authorize the County Administrator to execute the agreement, subject to legal review by the County Attorney.

Report and Discussion

Background:

This item seeks Board approval of an amendment to the Technical Currency Agreement with Avenu Government Systems, LLC for a three-year renewal of Banner financial system support and maintenance and authorization for the County Administrator to execute the agreement in the amount of $441,243 (Attachment #1). Banner is the accounting software utilized by the County.

Banner is an enterprise resource planning (ERP) system that provides critical infrastructure to the County's ongoing day-to-day operations and is used for finance, human resource management, payroll, and budgeting, supporting Leon County Government, Clerk of Courts, Sheriff, and Supervisor of Elections.

Pursuant to the Purchasing Policy No. 96-1, Section 3.c.5, "Continuing service and/or maintenance contracts that are initially awarded as a part of product acquisition/installation to a vendor who is the manufacturer, developer, or who is the authorized service agent thereof and for which funds are annually appropriated in the budget are exempt from further competitive requirements of this policy. Examples are software/hardware maintenance, building systems maintenance, security systems, etc." Avenu Government Systems, LLC, is the manufacturer and developer of the Banner financial system and was the vendor initially awarded as part of the acquisition. Funds are appropriated annually for continuing maintenance as part of the County budget. Therefore, this service and maintenance contract meets the requirements of Policy No. 96-1, Section 3.c.5, and is exempt from competitive purchasing requirements.

SCT Government Systems has gone through several name changes over the years including SCT Government Systems, Inc.; ACS Government Systems, Inc.; ACS State and Local Solutions; Xerox Government Systems, LLC; Conduent Government Systems, LLC; and Avenu Government Systems, LLC ("Avenu"). The Technical Currency Agreement with subsequent amendments and associated historical documents are included in Attachment #2. Leon County acquired the Banner financial software system in 1994 and has amended the contract 10 times through October 2024.

During the budget development process, the Board approved funding to hire a professional consultant for a comprehensive study in FY 2026 to explore replacing the Banner Financial Software. The County's software is outdated and lacks the modern features that could streamline the County's fiscal responsibilities. A working group of staff from County departments and Constitutional Offices will be identified to work with the consultant and identify solutions that serve the collective needs of a modern local government. The financial impact of the 2026 Study recommendations will be considered in future budget cycles. It is anticipated that full implementation of the new financial software system will take several years.

Analysis:

The current maintenance agreement ends this fiscal year on September 30, 2025. To ensure the on-going support for the County's financial system, this item recommends an amendment to the current agreement with Avenu to secure pricing for three years. Services provided by the contract include security patches and updates to the software, database administration (DBA) services, and application support for all modules including Banner Self-Service, Payroll, Finance, and HR modules, as needed by our internal technical staff.

While this service and maintenance contract is exempt from competitive purchasing requirements, staff assessed whether there are cost saving alternatives through other vendors. Given the age of the software, only one other vendor was identified with the capability to provide Banner support. The County received a quote from the alternative vendor which was approximately 36% higher than the current vendor over the next three years. Following negotiations with Avenu Government Systems, LLC, the costs for each fiscal year of the three-year Agreement are as follows:

FY 2026: $133,306

FY 2027: $146,637

FY 2028: $161,300

Total: $441,243

This item recommends approval of a three-year renewal of the County's maintenance and support for the Banner financial system in the amount of $441,243.

Options:

1. Approve the amendment to the Technical Currency Agreement with Avenu Government Systems, LLC, for a three-year renewal for the Banner financial system maintenance and support in the amount of $441,243 (Attachment #1), and authorize the County Administrator to execute the agreement, subject to legal review by the County Attorney.
2. Do not approve the amendment to the Technical Currency Agreement with Avenu Government Systems, LLC, for a three-year renewal for the Banner financial system maintenance and support in the amount of $441,243.
3. Board direction.

Recommendation:

Option #1

Attachments:

1. Amendment #11 to the Technical Currency Agreement with Avenu Government Systems, LLC
2. Technical Currency Agreement with Amendments and Associated Historical Documents

AVENU

Amendment No. 11
To the Technical Currency Agreement Between
Avenu Government Systems, LLC and Leon County, Florida

This Eleventh Amendment ("Amendment No. 11") is entered into as of October 1, 2025 ("Amendment Effective Date") by and between **Avenu Government Systems, LLC** ("Avenu") and **Leon County, Florida** ("County" or "Licensee"). Avenu and Licensee may be referred to herein individually as a "Party" and collectively as the "Parties."

WHEREAS, the Parties entered into a Technical Currency Agreement, effective February 23, 1994, as subsequently amended (the "TCP Agreement"); and

WHEREAS, the Parties seek to amend the TCP Agreement with this Amendment No. 11 to provide payment amounts for services for a three (3) year period from October 1, 2025 through September 30, 2028.

NOW, THEREFORE, in consideration of the mutual promises and covenants contained herein, the Parties agree to amend the TCP Agreement as detailed below. The Parties understand and agree that except as explicitly modified herein, all definitions, terms, conditions, and specifications of the TCP Agreement remain unchanged and in full force and effect.

1. Avenu agrees to provide Improvements with respect to the Component Systems identified in Exhibit 1, attached to this Amendment No. 11 (the "TCP Exhibit") on the same terms and conditions as set forth in the TCP Agreement for the period and for the fee specified in the TCP Exhibit.

2. The term of the TCP Agreement is deemed to be extended as provided for in the TCP Exhibit for purposes of this Amendment No. 11.

3. Any amounts indicated in the TCP Exhibit are in addition to all other amounts payable under the TCP Agreement.

4. In accordance with Section 787.06(13), Florida Statutes, Avenu shall execute an Affidavit in compliance with Anti-Human Trafficking Laws, attached hereto as Exhibit 2.

5. In compliance with Section 287.138, Florida Statutes, Avenu shall execute the Foreign Countries of Concern Attestation, attached hereto as Exhibit 3.

The TCP Agreement, as amended by this Amendment No. 11, constitutes the entire agreement between the Parties with respect to the subject matter hereof and supersedes all prior verbal or written agreements between the Parties with respect thereto.

TENTH (10th) AMENDMENT TO THE TECHNICAL CURRENCY AGREEMENT BETWEEN LEON COUNTY, FLORIDA AND AVENU GOVERNMENT SYSTEMS, LLC (County Contract No. 1591-l)

This Tenth (10th) Amendment ("Amendment") to the Technical Currency Agreement dated February 23, 1994 (the "TCP Agreement") is by and between Leon County, Florida ("County" or "Licensee") and Avenu Government Systems, LLC ("Avenu") (both a "Party" or together the "Parties,") and is effective on October 1, 2024 ("Amendment Effective Date").

RECITALS

WHEREAS The Parties executed the TCP Agreement dated February 23, 1994, as amended from time to time; and

WHEREAS the Parties have amended the TCP Agreement over time, culminating in Amendment No. 9; and

WHEREAS the Parties seek to amend the TCP Agreement with this Amendment No. 10 to provide payment amounts for services for a one (1) year period through September 30, 2025.

NOW, THEREFORE, in consideration of the mutual promises and covenants contained herein, the Parties agree as follows:

1. Defined Terms. Unless specifically defined herein, all terms defined in the TCP Agreement shall have the same meaning when used in this Amendment.

2. Amendment to and Modification of TCP Agreement.

   a. Avenu agrees to provide Improvements with respect to the Component Systems identified in Exhibit 1, attached to this Amendment (the "TCP Exhibit") on the same terms and conditions as the TCP Agreement for the period and for the fee specified in the TCP Exhibit.

   b. The term of the TCP Agreement is deemed to be extended as provided for in the TCP Exhibit for purposes of this Amendment.

   c. Any amounts indicated on the TCP Exhibit are in addition to all other amounts payable under the TCP Agreement.

3. Integration Provision. The TCP Agreement, as amended by this Amendment, constitutes the entire agreement between the Parties with respect to the subject matter hereof and supersedes all prior verbal or written agreements between the Parties with respect thereto. The TCP Agreement may only be amended by written document, properly authorized, executed and delivered by both Parties hereto. The TCP Agreement shall be interpreted as a whole unit and section headings are for convenience only. Except as expressly modified by this Amendment, the TCP Agreement shall remain in full force and effect. As of the Amendment Effective Date, the TCP Agreement, as further amended by this Amendment constitutes the entire understanding of the Parties as regards the subject matter hereof and cannot be modified except by written agreement of the Parties.

IN WITNESS WHEREOF, the Parties have set their respective hands and seals below.

AMENDMENT TO
TECHNICAL CURRENCY AGREEMENT

XEROX GOVERNMENT SYSTEMS, LLC.
130 Division Street
Waite Park, MN 56387
("Xerox")

and

Leon County B.O.C.C.
301 South Monroe Street
P3 Level
Tallahassee, FL 32301
("Licensee")

Original Technical Currency Agreement dated February 23, 1994 (the "TCP Agreement").

This Amendment No. 6 (the "TCP Amendment").

Effective Date of this TCP Amendment: October 1, 2014 (the "Amendment Date").

LICENSEE AND XEROX, intending to be legally bound, agree as follows:

1. Defined Terms. Unless specifically defined herein, all terms defined in the TCP Agreement shall have the same meaning when used in this TCP Amendment.

2. Amendment to and Modification of TCP Agreement. Xerox agrees to provide Improvements with respect to the additional Component Systems identified in Exhibit 1, attached to this TCP Amendment (the "TCP Exhibit") on the same terms and conditions as the TCP Agreement for the period and for the fee specified in the TCP Exhibit. The term of the TCP Agreement is deemed to be extended as provided for in the TCP Exhibit for purposes of this TCP Amendment. Any amounts indicated on the TCP Exhibit are in addition to all other amounts payable under the TCP Agreement.

3. Integration Provision. Except as expressly modified by this Amendment, the Agreement shall remain in full force and effect. As of the Amendment Date, the Agreement, as further amended by this Amendment constitutes the entire understanding of the parties as regards the subject matter hereof and cannot be modified except by written agreement of the parties.

IN WITNESS WHEREOF, the parties have set their respective hands and seals below.

SERVICE AGREEMENT

THIS AGREEMENT for information technology services (hereafter the "Agreement") is entered into this 1st day of October 2010 (hereafter the "Effective Date") by and between Leon County, FL, a governmental entity (hereafter referred to as the "Client") with offices located at 301 South Monroe Street, Tallahassee, FL 32301 , and ACS GOVERNMENT SYSTEMS, INC., a Delaware corporation, with its principal place of business located at 1733 Harrodsburg Road, Lexington, KY 40504-3617 (hereafter "ACS" or "Contractor"), referred to individually as Party and collectively as Parties.

In consideration of the mutual promises and covenants contained herein the Parties hereto agree as follows:

1.0 Scope of Services

In consideration for the payments described in Section 2.0 hereof, Contractor will provide Client with the services described in the Statement of Work annexed hereto as Exhibit "A."

2.0 Compensation and Payment Provisions

Client shall make payments to Contractor for the services provided in the amount and at such times as are set forth in the payment schedule attached hereto as Exhibit "B" – Payment Provisions. Client shall pay invoices within thirty (30) days of their issuance.

3.0 Term

The services specified in Exhibit "A" will be provided beginning on October 1, 2010, assuming that both Parties have signed this Agreement prior to that date, and will end TWELVE months from such date (the "Expiration Date"). If the Client does not utilize the entire amount of services during the service period, then notwithstanding such fact, the services described within this Agreement will nonetheless be deemed to have been completed and Client will be responsible for payment of the full amount of fees for the service period. Unused service hours may not be carried forward beyond the Expiration Date set forth herein.

4.0 Termination

4.1 Default by ACS: If ACS defaults in the performance of any of its material default obligations under this Agreement for a period of forty-five (45) days after the sending of notice to the address on this Agreement that it is in default, Client may, at its option, terminate the Agreement by delivering written notice to ACS at the address in this document, and paying ACS all sums due under this Agreement to the initial date of the default. Upon termination or cancellation of this Agreement, all software, and other ACS-owned material will promptly be returned to ACS.

4.2 Default by Client: If Client defaults in the performance of any of its material default obligations under this Agreement for a period of forty-five (45) days after receiving notice of default from ACS, ACS may, at its option, terminate the Agreement

at the end of that period. ACS may terminate this Agreement by delivering written notice of termination to Client. Upon termination of this Agreement, all equipment, software, and other ACS-owned material will promptly be returned to ACS.

4.3 Payment by Client: In the event of termination pursuant to this section, Client shall equitably compensate ACS for all services performed in accordance with the Agreement up to the effective termination date.

5.0 Warranty

ACS warrants the services provided hereunder will be performed in a professional and workmanlike manner. EXCEPT AS SPECIFICALLY PROVIDED HEREIN, THERE ARE NO WARRANTIES EXPRESSED OR IMPLIED, INCLUDING BUT NOT LIMITED TO, ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

6.0 Assignment

The rights and obligations of each Party under this Agreement will not be assignable without the prior written consent of the other Party to this Agreement, and any attempt to assign them without such consent will be void. Notwithstanding the foregoing, ACS may assign this Agreement to its successors by merger or consolidation or to any person or entity that acquires all or substantially all of its capital stock or assets.

7.0 Applicable Law

This Agreement shall be governed by and construed in accordance with the applicable laws of the State of Kentucky, and venue for any legal action shall be in the State of Kentucky.

8.0 Modification

This Agreement may only be modified by a written documentation signed by both Parties.

9.0 Limitation of Liability

EXCEPT FOR SERVICE FEES AND AMOUNTS EXPRESSLY DUE AND PAYABLE TO CONTRACTOR HEREUNDER, IN NO EVENT SHALL EITHER PARTY TO THIS AGREEMENT BE LIABLE TO THE OTHER PARTY HEREUNDER FOR ANY CLAIMS, PENALTIES OR DAMAGES, WHETHER IN CONTRACT, TORT, OR BY WAY OF INDEMNIFICATION, IN AN AMOUNT EXCEEDING TWENTY FIVE PERCENT (25%) OF THE FEES AND CHARGES PAID TO CONTRACTOR DURING THE PRECEEDING TWELVE MONTH PERIOD. UNDER NO CIRCUMSTANCES WILL EITHER PARTY TO THIS AGREEMENT BE LIABLE FOR ANY INCIDENTAL, CONSEQUENTIAL, INDIRECT, PUNITIVE OR SPECIAL DAMAGES ARISING OUT OF OR IN CONNECTION WITH THIS AGREEMENT, HOWEVER CAUSED AND BASED ON ANY THEORY OF LIABILITY. THIS LIMITATION SHALL APPLY EVEN IF SUCH A PARTY HAS BEEN NOTIFIED OF THE POSSIBILITY OF SUCH DAMAGES.

A C S

10.0 Notices

All notices, requests for payment, or other communications arising hereunder shall be sent to the following:

Notices to Client:

Leon County
Attn: Pat Curtis
301 South Monroe Street
Tallahassee, FL 32301

Notices to ACS:

ACS Government Systems, Inc.
1733 Harrodsburg Road
Lexington, KY 40504-3617
Attn.: W. Brett Cheuvront

11.0 Integration

This Agreement, the attached exhibits, and any Software License Agreement executed by and between the Parties with respect to the subject matter described herein, constitute the entire agreement between the Parties. No agreements, representations, or warranties other than those specifically included in this Agreement and the attached exhibits shall be binding on either of the Parties. In case of a conflict between the terms of this Agreement and any attached exhibit, the terms of this Agreement shall prevail.

IN WITNESS WHEREOF, the Parties have executed this Agreement as of the day and year first above written.

EXHIBIT A
STATEMENT OF WORK

As more specifically set forth herein, ACS will provide Remote Database Administration Services for the Client. The services and/or support will be provided for the ACS system(s), as specified below under Remote DBA Deliverables.

ACS will, on a shared resource basis, provide up to 200 service hours, over the twelve-month period. Use of service hours in excess of 16.66 hours per month may result in all service hours being expended prior to the end date of September 30, 2011.

ACS will use the hours enumerated in this Scope of Work to provide any or all of the following services to the Client. An ACS Project Manager will be responsible for coordinating the resources and schedules for the mutually agreed upon services.

Remote DBA Deliverables

ACS will speak with representatives of the Client to review and document the existing computing environment and discuss the goals and direction of Client. ACS will periodically connect into the Client computer system to review and monitor the Oracle environment and operating characteristics of the ACS System(s), and propose needed changes, upgrades, and tuning adjustments as necessary. ACS staff will coordinate with data processing and administrative staff to assist in or implement the needed changes. The Client Information Systems Manager and ACS consultant will mutually agree upon the monthly hours expended to monitor and support the system.

ACS agrees to perform the following support activities, as requested and agreed to by Client:

- ACS will assist in developing the policies regarding the administration of the ACS System(s) and work towards devising a mutually agreeable plan for performing database maintenance that will minimize impact to the Client's production computer environment.
- Perform periodic ACS System and Oracle upgrades delivered by ACS for the following ACS systems: Banner H/R, Finance, Oracle, General. Upgrades must be scheduled in coordination with Information Systems staff and are typically performed in a test environment, then placed into the production environment after end users approve changes.
- Install minor software corrections and fixes for the previously named ACS systems when received from ACS.
- After hours work should be scheduled at least two weeks in advance. ACS realizes that certain emergency situations may arise that will dictate off hours work be performed immediately, but work efforts such as upgrades or maintenance that need to be performed should be scheduled in advance. Services provided after hours will be charged at a double-time rate, i.e., each hour of service will be charged at a rate equivalent to two service hours.
- Periodically, dial-in to monitor database activities, tune the database and work with the system and network manager(s) to improve overall performance.
- Develop and implement security and backup/recovery plans.
- Create new accounts and grant and revoke database privileges.

- Identify and resolve data and application-oriented problems. Help system and network managers identify problems in their areas.
- Propose changes, upgrades or tuning adjustments as necessary. Coordinate with the Information Systems staff to assist in or implement recommended changes, including on–site visits as necessary.
- If requested, ACS will send personnel on-site to perform any of the previously mentioned tasks. The client will be charged for all travel and living expenses related to such on-site assistance. Additionally, preparation, actual travel time, and follow-up time required for such on-site assistance will be charged against the available hours covered by this Scope of Services.

A C S

EXHIBIT B
PAYMENT PROVISIONS

Fees

ACS will invoice Client on a fixed fee basis as follows: $2,500.00 per month for a total contract amount of $30,000.00.

Key Assumptions Concerning the Fees

- The fees assume RDBA support on a shared basis.
- ACS will provide up to 16.66 hours of Remote Database Administration support services during the TWELVE month period.
- Services rendered above and beyond the 200 hours during the twelve-month service period covered by this Scope of Work will be charged $150.00 per hour.
- The Client will be billed TWELVE monthly installments of $2,500.00.
- Invoices are payable by Client within 30 days of the invoice date.
- Reimbursable expenses are not included in the fees outlined herein, and will be additional and shall be invoiced monthly, as such expenses are rendered.
- Time is charged for all activities related to the provision of Remote Database Administration services for the Client, including preparation time, actual travel time, identification of follow-up tasks via a formal trip report, telephone consultation, and management follow-up. In addition, the Client will reimburse ACS for travel and living expenses incurred by ACS personnel in the performance of the services covered by this Agreement.

Key Assumptions

Client hereby agrees to permit ACS' authorized personnel (and third party consultants) access, on a "need to know" basis, to the systems for which ACS has operational responsibility under this Agreement, and information, data, data communication services, and communication lines, at such times and for such purposes as reasonably necessary or appropriate to permit ACS to perform its obligations hereunder.

Original Technical Currency Agreement dated February 23, 1994 (the "TCP Agreement").

This Amendment No. 5 (the "TCP Amendment").

Effective Date of this TCP Amendment: October 2010 (the "Amendment Date").

LICENSEE AND ACS, intending to be legally bound, agree as follows:

1. Defined Terms. Unless specifically defined herein, all terms defined in the TCP Agreement shall have the same meaning when used in this TCP Amendment.

2. Amendment to and Modification of TCP Agreement. ACS agrees to provide Improvements with respect to the additional Component Systems identified in Exhibit 1, attached to this TCP Amendment (the "TCP Exhibit") on the same terms and conditions as the TCP Agreement for the period and for the fee specified in the TCP Exhibit. The term of the TCP Agreement is deemed to be extended as provided for in the TCP Exhibit for purposes of this TCP Amendment. Any amounts indicated on the TCP Exhibit are in addition to all other amounts payable under the TCP Agreement.

3. Integration Provision. Except as expressly modified by this Amendment, the Agreement shall remain in full force and effect. As of the Amendment Date, the Agreement, as further amended by this Amendment constitutes the entire understanding of the parties as regards the subject matter hereof and cannot be modified except by written agreement of the parties.

4.

Total			**$95,169.28**

The Initial Payment Amount represents the amount due on the First Annual Contract Year Payment Date for Improvements for the first full Contract Year. Fees for Improvements for each subsequent Contract Year are payable on the anniversary of the First Annual Contract Year Payment Date. Improvement fees for each Contract Year after the first full Contract Year will be specified by ACS in an annual invoice and will not exceed 0% of the amount payable for Improvements for the immediately preceding Contract Year.

Upon the expiration of the full term of this **Amendment to Technical Currency Agreement,** effectively **September 30, 2014,** the improvement fees will be escalated by no more that 110% of the amount payable for improvements for the immediately preceding contract year, unless Licensee notifies ACS in writing they would like to renew the support on the listed products for additional 3 year term.

BY: John Stott, Deputy Clerk

SERVICE AGREEMENT

THIS AGREEMENT for information technology products and services (hereafter the "Agreement") is entered into this 16th day of April, 2009 (hereafter the "Effective Date") by and between Leon County, FL, located at 301 South Monroe Street – Courthouse P-3, Tallahassee, FL 32301 (hereafter referred to as the "Client"), and ACS State & Local Solutions, Inc., a New York corporation, with its principal place of business located at 1800 M Street, N.W., Washington, D.C. 20036 (hereafter "ACS" or "Contractor"), referred to individually as Party and collectively as Parties.

WHEREAS, the Client and ACS wish to enter into this Agreement in order for ACS to provide to Client our ACS Content Management System Enhancement Components in accordance with the terms of this Agreement.

NOW, THEREFORE, in consideration of the foregoing and of the mutual promises and covenants herein the Parties hereto agree as follows:

1.0 Products and Services

1.1 Work Requirements: In consideration for the payments described in Section 2.0 hereof, ACS will provide Client with the products and services described in the statement of work and schedule annexed hereto as Exhibit "A".

1.2 Hardware and Third-Party Software: Exhibit "A" fully sets out the hardware and third-party software components associated with this Agreement. Rights to commercial-off-the-shelf software products provided by third-party software vendors may be subject to licensing provisions of those third-party software vendors, which licenses the Client hereby accepts; provided there is not additional cost to Client.

2.0 Compensation and Payment Provisions

The Client shall make payments to ACS for the products and services in the amount and at such times as are set forth in the payment schedule attached hereto as Exhibit "B". Client shall pay invoices within thirty (30) days of their issuance. After such thirty (30) day period, late charges of 1 ½% per month of the amount of such invoice remaining unpaid shall also become payable to ACS. Failure of the Client to make any payment within forty (45) days of receipt of invoice shall be deemed to be a material breach of this Agreement and shall be sufficient cause for termination of this Agreement.

3.0 Term

The initial term of this Agreement will begin on the May 01, 2009, and will end on April 30, 2010. The Agreement may be extended for an additional one (1) year, if requested by the Client and agreed to in writing by both parties, subject to terms and conditions that are agreeable to both Client and ACS.

4.0 Warranty

4.1 Limited Warranty on Hardware and Commercial off-the-Shelf Software
To the maximum extent allowable by third-party hardware and commercial off-the-shelf vendors, ACS shall pass-through to the Client all manufacturers' warranties provided by third-party hardware and commercial off-the-shelf software vendors for materials furnished under this Agreement. ACS shall provide all standard manufacturers' warranties, guarantees, and/or exchange policies for defective items, which are offered through the manufacturers themselves. ACS makes no other warranties whatsoever, express or implied, with regard to the hardware and commercial off-the-shelf software, in whole or in part. ACS explicitly disclaims all warranties of merchantability and fitness for a particular purpose.

4.2 Data Backup: Client will be responsible for backing up all software and data on a regular basis, and prior to ACS providing warranty or maintenance services under this Agreement. Under no circumstances will ACS be responsible for the loss of data or software.

5.0 Indemnification

5.1 Indemnification by ACS

ACS will indemnify, defend and hold harmless the Client, its officers, directors, employees, agents, successors and assigns, from and against all direct losses arising from, in connection with or relating to, third party allegations of any of the following:

(a) ACS' failure to perform any obligations required to be performed by it under any subcontracts or other third-party agreements which ACS has entered into for purposes of delivering the Services;

(b) ACS' breach of its obligations with respect to the Client's Confidential Information;

(c) Any willful or fraudulent misconduct of ACS, its employees, subcontractors or agents.

5.2 Mutual Indemnification for Injury to Persons or Property

ACS will indemnify, defend and hold harmless Client, and its officers, directors, employees, agents, successors and assigns, from and against all direct losses from the bodily injury or death of any person, or from the damage to, or destruction of any real or tangible personal property, to the extent that such loss is caused by the negligent conduct or omission of ACS, its officers, agents, employees or contractors. The Parties agree that ACS shall not be liable to the Client under this indemnification for any action or failure to act which constitutes negligence or willful misconduct on the part of the Client, or any third party not under the control or direction of ACS.

6.0 Limitation of Liability

6.1 Limitation on Types and Amounts of Damages

EXCEPT FOR SERVICE FEES AND AMOUNTS EXPRESSLY DUE AND PAYABLE TO ACS HEREUNDER, IN NO EVENT SHALL EITHER PARTY TO THIS AGREEMENT BE LIABLE TO THE OTHER PARTY HEREUNDER FOR ANY CLAIMS, PENALTIES OR DAMAGES, WHETHER IN CONTRACT, TORT, OR BY WAY OF INDEMNIFICATION, IN AN AMOUNT EXCEEDING THE FULL PRICE OF THE ORDERED SERVICES UNDER THIS AGREEMENT. UNDER NO CIRCUMSTANCES WILL EITHER PARTY TO THIS AGREEMENT BE LIABLE FOR ANY INCIDENTAL, CONSEQUENTIAL, INDIRECT, PUNITIVE OR SPECIAL DAMAGES ARISING OUT OF OR IN CONNECTION WITH THIS AGREEMENT, HOWEVER CAUSED AND BASED ON ANY THEORY OF LIABILITY. THIS LIMITATION SHALL APPLY EVEN IF SUCH A PARTY HAS BEEN NOTIFIED OF THE POSSIBILITY OF SUCH DAMAGES. IN NO EVENT MAY ANY ACTION BE BROUGHT AGAINST EITHER PARTY ARISING OUT OF THIS AGREEMENT MORE THAN ONE YEAR AFTER THE CLAIM OR CAUSE OF ACTION ARISES, DETERMINED WITHOUT REGARD TO WHEN THE AGGRIEVED PARTY SHALL HAVE LEARNED OF THE INJURY OR LOSS.

6.2 Basis of the Bargain

THE CLIENT ACKNOWLEDGES THAT ACS HAS SET ITS PRICING AND ENTERED INTO THIS AGREEMENT IN RELIANCE UPON THE LIMITATIONS OF LIABILITY AND THE DISCLAIMERS OF WARRANTY AND DAMAGES SET FORTH IN THIS AGREEMENT, AND THAT THE SAME FORM AN ESSENTIAL BASIS OF THE BARGAIN BETWEEN THE PARTIES.

7.0 Force Majeure

Neither Party shall be responsible for delays or failures in performance as a result of an Act of God, war, civil disturbance; labor dispute, or other cause beyond the reasonable control of such Party.

8.0 Ownership of Data and Software

Client will retain all title, rights, and ownership of all data, including associated indexes, media, and other data created and/or acquired by use of the third party software and hardware acquired from ACS ("ACS Document Scanning Solution"). Client may duplicate the data entered into the ACS Document Scanning Solution on magnetic media. Client will retain ownership of all data created by the use of the ACS Document Scanning Solution as stored on magnetic tape, magnetic disk, CD-ROM disk (or other "like" electronic media that may be used). Client may only use third party software pursuant to the third party software vendor's license agreement. ACS does not have any

obligation to convert or transfer any data to any other format, to allow use of third party software other than as set forth in the Statement of Work (Exhibit "A"), or as required pursuant to the third party software vendor's license agreement.

All pre-existing intellectual property, including but not limited to software, associated documentation, software upgrades, modifications and customizations, provided to Client will at all times remain the property of ACS and/or its vendors. In the event ACS or ACS' vendor(s) provides Client with any pre-existing intellectual property (whether owned by ACS or by a third party), Client (if ACS and/or ACS' vendor have agreed to share such pre-existing intellectual property) will receive a limited license to use such intellectual property. Specific licensing terms will be negotiated on a case-by-case basis.

9.0 Confidential Information

The Parties acknowledge that in the course of performing their responsibilities under this Agreement, they may be exposed to or acquire information which is proprietary and confidential to the other Party or its affiliated companies or their agents. Any and all information of one Party in any form obtained by the other Party or its employees, agents or representatives in the course of performing this Agreement shall be deemed to be proprietary and confidential information of such Party. The Parties agree to hold such information in strict confidence and not to copy, reproduce, sell, assign, license, market, transfer, give or otherwise disclose such information to third-parties or to use such information for any purposes whatsoever, without the express written permission of the other Party, other than for the provision of services hereunder, and to advise each of their employees, agents and representatives of their obligations to keep such information confidential. All such confidential and proprietary information described herein and any deliverable provided hereunder, in whatever form, are hereafter collectively referred to as "Confidential Information." The Parties shall use their reasonable efforts to assist each other in identifying and preventing any unauthorized use or disclosure of any Confidential Information. Without limitation of the foregoing, the Parties shall use reasonable efforts to advise each other immediately in the event that either learns or has reason to believe that any person who has had access to Confidential Information has violated or intends to violate the terms of this Agreement, and will reasonably cooperate in seeking injunctive relief against any such person.

Notwithstanding the obligations set forth in the previous paragraph, the confidentiality obligations of the Parties shall not extend to information that:

(a) is, at the time of its disclosure, or thereafter becomes part of the public domain through a source other than the receiving Party;

(b) was known to the receiving Party as of the time of its disclosure;

(c) is independently developed by the receiving Party;

(d) is subsequently learned from a third party not under a confidentiality obligation to the providing Party; or

(e) is required to be disclosed pursuant to court order or other governmental authority, whereupon the receiving Party shall provide notice to the disclosing Party so as to allow the disclosing Party to take appropriate steps to protect its interests.

10.0 Termination

10.1 Default by ACS: If ACS defaults in the performance of any of its obligations under this Agreement for a period of forty-five (45) days after the sending of notice to the address on this Agreement that it is in default, Client may, at its option, terminate the Agreement by delivering written notice to ACS at the address in this document, and paying ACS all sums due under this Agreement to the initial date of the default. Upon termination or cancellation of this Agreement, all equipment, software, and other ACS-owned material will promptly be returned to ACS. In the event of termination for default by ACS, Client will equitably compensate ACS for services performed.

10.2 Default by Client: If Client defaults in the performance of any of its obligations under this Agreement for a period of forty-five (45) days after receiving notice of default from ACS, ACS may, at its option, terminate the Agreement at the end of that period. ACS may terminate this Agreement by delivering written notice of termination to Client. Upon termination of this Agreement, all equipment, software, and other ACS-owned material will promptly be returned to ACS. In the event of termination for default by Client, Client will pay ACS the then current remaining balance of the lease.

11.0 Miscellaneous

11.1 Governing Law and Venue: All questions concerning the validity, interpretation and performance of this Agreement will be governed by and decided in accordance with the laws of the State of New York. The Parties hereby submit and consent to the exclusive jurisdiction of any state or federal court located within the State of New York and irrevocably agree that all actions or proceedings relating to this Agreement will be litigated in such courts, and each of the Parties waives any objection which it may have based on improper venue or *forum non conveniens* to the conduct of any such action or proceeding in such court.

11.2 Equitable Remedies: The Parties agree that in the event of any breach or threatened breach of any provision of this Agreement concerning (i) Confidential Information, (ii) intellectual property rights or (iii) other matters for which equitable rights may be granted, money damages would be an inadequate remedy. Accordingly, such provisions may be enforced by the preliminary or permanent, mandatory or prohibitory injunction or other order of a court of competent jurisdiction.

11.3 Integration: This Agreement and the attached exhibits and the related License Agreement constitute the entire agreement between the Parties with respect to the subject matter described herein. No agreements, representations, or warranties

other than those specifically included in this Agreement and the attached exhibits shall be binding on either of the Parties. In case of a conflict between the terms of this Agreement and any attached exhibit, the terms of this Agreement shall prevail.

11.4 **Notices:** Any notices or reports required by this Agreement to be given by one Party to the other Party shall be made in writing. The writing shall be delivered personally or mailed by United States Mail, postage prepaid, certified mail, return receipt requested. Notices shall be addressed to that Party at the address shown below or at such other address as that Party may designate in writing. Notice is deemed to have been given immediately if delivered in person, or on the third day following mailing.

Notice to ACS:
ACS State & Local Solutions, Inc.
Attn.: GRM Contracts
1800 M Street, NW
Washington, DC 20036

Notice to Client:
Leon County
Attn.: Hermon Davis
301 South Monroe Street – Courthouse
P-3
Tallahassee, FL 32301

11.5 **Attorney's Fees:** If any legal action is necessary to enforce the terms of this Agreement, the prevailing Party shall be entitled to reasonable attorney's fees in addition to any other relief to which that Party may be entitled.

11.6 **Assignment:** This Agreement shall be binding on the Parties hereto and their respective successors and assigns. At ACS' sole discretion, ACS may assign the performance of this Agreement to an ACS corporate affiliate. Upon written approval by ACS, which shall not be unreasonably withheld, Client may (i) move the services to a new location or (ii) transfer this agreement to a third party. Except as set forth above, neither Party may, or shall have the power to, assign this Agreement without the prior written consent of the other. Such consent shall not be unreasonably withheld.

11.7 **Modification:** This Agreement can be modified by written documentation signed by both Parties.

11.8 **Waiver:** A waiver of any part of this Agreement shall not be a waiver of the entire Agreement.

11.9 **ACS Responsibility for Taxes:** For so long as the Client is exempt from property, sales and use taxes, such taxes shall not be included in invoices submitted to the Client pursuant to this Agreement. ACS may be considered a limited agent of the Client for the sole purpose of it too being able to purchase such goods or services tax-free. Should ACS be required to pay taxes by

determination of a proper taxing authority having jurisdiction over this matter, ACS will be reimbursed by the Client for such payment on a direct-cost basis.

11.10 **Delivery:** ACS shall arrange for delivery of all hardware and software to the appropriate Client installation site(s) in accordance with the Statement of Work (Exhibit "A"). Shipment of the hardware and software shall be F.O.B. the Client's receiving point at the installation site(s). ACS shall pay all reasonable transportation and insurance charges for the hardware and software up to the Client's receiving point at the installation site(s).

11.11 **Risk of Loss & Title:** ACS shall bear the risk of loss or damage to the hardware and software while in transit to the Client's premises and the installation site(s). The Client shall bear all risk of loss or damage to the hardware and software after delivery to the installation site(s), unless such loss or damage is due to the negligence or willful acts of ACS, its employees, agents, representatives or subcontractors. ACS shall transfer title to the hardware and software to the Client upon the Client's full payment for said hardware and software in accordance with Exhibit B.

11.12 **Independent Contractor Status:** ACS is, and shall remain at all times, an independent contractor with respect to activities and conduct while engaged in the performance of the services for Client under this Agreement. At no time during the performance of this Agreement, or within one year from any termination or the contract expiration, shall the Client solicit and hire any of ACS' employees. Nothing herein shall operate to preclude a party from advertising employment opportunities to the general public and entertain candidates there from.

11.13 **Attachments:** Attached to and made part of the Agreement are the following:

EXHIBIT "A" Statement of Work
EXHIBIT "B" Compensation and Payment Provisions

11.14 **Further Documentation:** The Parties agree to promptly execute such other and further documents and agreements (including third party license agreement(s)) as may be reasonably necessary or advisable to effectuate the terms of this Agreement.

REMAINDER OF PAGE INTENTIONALLY LEFT BLANK

11.15 Survival: The terms of Sections 6 (Limitation of Liability), 8 (Ownership of Data and Software), and 9 (Confidential Information) hereof shall survive the expiration or termination of this Agreement for a period of seven (7) years.

IN WITNESS WHEREOF, the Parties have executed this Agreement as of the day and year first above written.

STATEMENT OF WORK

1.0 Solution Components

1.2 Deliverables

Documentum: Documentum ApplicationXtender software (ten (10) user license) and Documentum Reports Management Server software (one (1) user license) and Documentum Public Access License (PAL) software (one hundred (100) user license) and Documentum AppXtender Image Capture (AIC) software (one (1) user license) and Documentum ApplicationXtender OCR Server software (one (1) user license) and Documentum ApplicationXtender ProIndex Server software (one (1) user license) and Documentum ApplicationXtender ProIndex Client software (ten (10) user license) and Documentum Reports Management PDF Software (one (1) user license). First year software maintenance for all components. Three (3) days of ACS Professional Services.

1.3 Acceptance

1.3.1 *Hardware & Commercial Software*: All materials provided hereunder shall be inspected by Client within five (5) calendar days of delivery at Client's installation site(s). Inspection may include: (1) verification that quantities received match the quantities ordered; and (2) verification that the hardware and commercial software meets the minimum specifications set forth in the contract. Acceptance of hardware and commercial software will be assumed if Client fails to notify ACS of any discrepancy or defect within five calendar days of delivery, or beneficial use, which ever comes earlier.

1.4 Training

ACS will implement our proposed Document Scanning Solution at Leon County's main office and provide both end-user and systems administration training after the implementation. ACS will be responsible for the one-time initial education and training on the ACS Content Management System Enhancement Components to consist of no more than three, two hour sessions. Initial education and training shall include on-site education and training of no more than 10 employees who will work with the ACS Content Management System. This training may involve class room training. ACS will provide up to three (3) report definitions for the Reports Management Software. Additional reports will be identified in a separate Statement of Work.

ACS will provide "Train-the-Trainer" training and installation. ACS will install the ACS Content Management System Enhancement Components at the main customer's Leon County office.

The education and training will be adapted to the needs of Leon County to ensure each applicable employee is fully prepared to use the ACS Content Management System.

1.5 Ongoing Maintenance Services

ACS will provide all on-going software support at no-charge, provided Leon County is current with software maintenance. ACS support consists of phone support. Leon County will also receive product updates (within a version) at no-charge, provided the software maintenance is current.

2.0 Products

2.1 Application System Software

Leon County is responsible for all PC's, back-ups and related components used for software. Leon County will make the network available to ACS to provide installation of all software and hardware components. Leon County will install the required Image Server (IS) scan station PC, Tape Back-up and provide connectivity to the Leon County's LAN prior to ACS arrival for the installation and training.

This includes adequate work area for installation and training and will provide a systems administrator to work with ACS during the implementation who will be responsible for working with the end-users for training and on-going support. Leon County will provide a secure and safe environment including (environmentally controlled) for the ACS Content Management System Components.

If the ACS Content Management System Components or any component of the ACS Content Management System Components is damaged, not due to any act or omission of ACS, Leon County will be responsible for the costs related to repairing or replacing the ACS Content Management System to its fully functional state.

2.2 Commercial Software

Documentum ApplicationXtender Software, 10-users,
Documentum Reports Management Server Software, 1-each,
Documentum Public Access License Software (PAL), 100-users,
Documentum AppXtender Image Capture (AIC) Software, 1-user,
Documentum ApplicationXtender OCR Server Software, 1-each,
Documentum ApplicationXtender ProIndex Server Software, 1-user,
Documentum ApplicationXtender ProIndex Client Software, 10-users,
Documentum Reports Management PDF Software, 1-each,

2.3 Rights to Software Updates

Leon County will receive software updates at no charge (within a version) from Documentum as long as Leon County remains current with software maintenance.

3.0 Implementation Schedule

The services described herein shall be performed, and ACS shall deliver the software set forth in this Agreement, in accordance with the following implementation schedule; provided however, that any dates or times at which ACS is required to make specified performance under this Agreement shall be automatically postponed, along with any liabilities associated therewith, to the extent that ACS is prevented from meeting such dates or times by the Client or by causes beyond ACS' reasonable control; in which event any adverse impact on the implementation schedules beyond the delay itself, shall become the subject of an appropriate change order.

The average implementation is two (2) to four (4) weeks after receipt of order for our solution. ACS will deliver our Content Management Solution Enhancement Components within a timeframe agreed to by both parties.

COMPENSATION AND PAYMENT PROVISIONS

ACS Content Management Solution

Description	Price
ACS Content Management Solution – Purchase	$31,255

The ACS Content Management Solution and price quoted includes the following:

- Documentum ApplicationXtender software, 10-users
- Documentum ApplicationXtender software maintenance, 10-users
- Documentum Reports Management Server software, 1-each
- Documentum Reports Management Server maintenance, 1-each
- Documentum Public Access License (PAL) software, 100-each
- Documentum Public Access License (PAL) maintenance, 100-each
- Documentum AppXtender Image Capture (AIC) software, 1-each
- Documentum AppXtender Image Capture (AIC) maintenance, 1-each
- Documentum ApplicationXtender OCR Server software, 1-each
- Documentum ApplicationXtender OCR Server maintenance, 1-each
- Documentum ApplicationXtender ProIndex Server software, 1-each
- Documentum ApplicationXtender ProIndex Server maintenance, 1-each
- Documentum ApplicationXtender ProIndex Client software, 10-each
- Documentum ApplicationXtender ProIndex Client maintenance, 10-each
- Documentum Reports Management PDF Option software, 1-each
- Documentum Reports Management PDF Option maintenance, 1-each
- ACS Professional Services, up to 3 days
- Shipping & Handling

Note: ACS has informed Client that the three (3) days for professional services listed above shall be adequate to install the system enhancement components and include up to three (3) report definitions for Reports Management software. If Leon County requires ACS to perform additional days of Professional Services, the prevailing rate of $1,250.00 per day plus actual expenses will apply. If Leon County requires ACS to provide additional report definitions, the prevailing rate of $500.00 per report will apply. ACS will submit a sales order for any additional components/licenses and 2nd & subsequent years maintenance when applicable. For the above components listed, the current known rate for the 2nd and subsequent year's maintenance is estimated at $13,481.00 per year. ACS does not set these rates and they are subject to change.

All listed amounts above do not include expenses which will be invoiced at actual and any applicable sales tax. Client is responsible for all on-going maintenance after the first year software and hardware maintenance period expiration.

Customer agrees to pay the fees and other charges ("Fees") described in the chart above within thirty (30) days of receipt of invoice. Fees not paid when due shall bear interest at a rate of one and one half percent (1.5%) per month. Failure of the Client to make any payment within forty (45) days of receipt of invoice shall be deemed to be a material breach of this Agreement and shall be sufficient cause for termination of the Agreement and extinguishment of the License Agreement.

Fees stated are exclusive of any taxes. To the extent taxes are applicable to this Agreement, the Services or any payments required to be made hereunder, Client agrees to pay all local, state and federal taxes including, without limitation, sales, use, personal property, excise and other taxes which are levied against Client or ACS, except for taxes based on ACS' net income. Client agrees to reimburse ACS for any and all such taxes which ACS is required to pay to applicable taxing authorities. Client's request for acceleration of services or any delay in ACS' performance of services caused by Client may result in additional charges. Subject to Client's prior consent, Client will reimburse ACS for travel expenses. ACS may increase the prices of the base fees and related services once every twelve month period during the Term of this Agreement.

("Licensee")

Original Technical Currency Agreement dated February 23, 1994 (the "TCP Agreement").

This Amendment No. 4 (the "TCP Amendment").

Effective Date of this TCP Amendment: October 2007 (the "Amendment Date").

LICENSEE AND ACS, intending to be legally bound, agree as follows:

1. Defined Terms. Unless specifically defined herein, all terms defined in the TCP Agreement shall have the same meaning when used in this TCP Amendment.

2. Amendment to and Modification of TCP Agreement. ACS agrees to provide Improvements with respect to the additional Component Systems identified in Exhibit 1, attached to this TCP Amendment (the "TCP Exhibit") on the same terms and conditions as the TCP Agreement for the period and for the fee specified in the TCP Exhibit. The term of the TCP Agreement is deemed to be extended as provided for in the TCP Exhibit for purposes of this TCP Amendment. Any amounts indicated on the TCP Exhibit are in addition to all other amounts payable under the TCP Agreement.

3. Integration Provision. Except as expressly modified by this Amendment, the Agreement shall remain in full force and effect. As of the Amendment Date, the Agreement, as further amended by this Amendment constitutes the entire understanding of the parties as regards the subject matter hereof and cannot be modified except by written agreement of the parties.

4.

IN WITNESS WHEREOF, the parties have set their respective hands and seals below.

PARTIAL YEAR PAYMENT/DUE DATE: N/A
(Indicate "N/A if not applicable)

FIRST ANNUAL CONTRACT YEAR PAYMENT DATE: October 2008

10% DISCOUNT THEN NO ANNUAL ESCALATION FOR THREE YEARS: for a three year commitment

Baseline Component System	Contract Year Begins/Ends	Expiration Date	First Annual Payment Amount
Banner Finance	October 1, 2007 – Sept 30, 2008		included
Banner Human Resources	October 1, 2007 – Sept 30, 2008		included
Oracle	October 1, 2007 – Sept 30, 2008		included
Oracle	October 1, 2007 – Sept 30, 2008		included
Employee Self Service	October 1, 2007 – Sept 30, 2008		included
Total			**$133.839.60**
Banner Finance	October 1, 2008 – Sept 30, 2009		included
Banner Human Resources	October 1, 2008 – Sept 30, 2009		included
Oracle	October 1, 2008 – Sept 30, 2009		included
Oracle	October 1, 2008– Sept 30, 2009		included
Employee Self Service	October 1, 2008– Sept 30, 2009		included
Total			**$133.839.60**
Banner Finance	October 1, 2009 – Sept 30, 2010		included
Banner Human Resources	October 1, 2009 – Sept 30, 2010		included
Oracle	October 1, 2009 – Sept 30, 2010		included
Oracle	October 1, 2009 – Sept 30, 2010		included
Employee Self Service	October 1, 2009 – Sept 30, 2010		included
Total			**$133.839.60**

The Initial Payment Amount represents the amount due on the First Annual Contract Year Payment Date for Improvements for the first full Contract Year. Fees for Improvements for each subsequent Contract Year are payable on the anniversary of the First Annual Contract Year Payment Date. Improvement fees for each Contract Year after the first full Contract Year will be specified by ACS in an annual invoice and will not exceed 0% of the amount payable for Improvements for the immediately preceding Contract Year.

Upon the expiration of the full term of this **Amendment to Technical Currency Agreement,** effectively **September 30, 2010,** the improvement fees will be escalated by no more that 110% of the amount payable for improvements for the immediately preceding contract year, unless Licensee notifies ACS in writing they would like to renew the support on the listed products for additional 3 year term.

("Licensee")

Original Software License & Services Agreement dated February 23, 1994 (the "Agreement").

This Amendment No. 2 (the "Amendment").

Effective Date of this Amendment: May 1, 2006 (the "Amendment Date").

LICENSEE AND ACS, intending to be legally bound, agree as follows:

1. Defined Terms. Unless specifically defined herein, all terms defined in the Agreement shall have the same meaning when used in this Amendment. Each Component System listed in Exhibit 1 attached to this Amendment is also deemed a Major System of the Licensed Software for purposes of the Agreement.

(a) The term "Licensed Software" means, collectively and individually, all software licensed to Licensee by ACS under the Agreement, together with the Component System(s) identified on the attached, and any subsequent, Exhibit 1.

2. Amendment to and Modification of Agreement. In addition to the software systems licensed to Licensee by ACS under the Agreement, ACS grants Licensee the right to use the additional Licensed Software identified on Exhibit 1 attached to this Amendment on the same terms and conditions set forth in the Agreement as modified by Exhibit 1, including without limitation, any software supplements attached to such Exhibit 1 (the "Software Supplements"). To the extent the terms of Exhibit 1 and the Software Supplements contradict the terms of the Agreement, the terms of Exhibit 1 shall govern.

3. Integration Provision. Except as expressly modified by this Amendment, the Agreement shall remain in full force and effect. As of the Amendment Date, the Agreement, as further amended by this Amendment constitutes the entire understanding of the parties as regards the subject matter hereof and cannot be modified except by written agreement of the parties.

4. Right to Grant License and Ownership. ACS has the right to grant Licensee this license and to use the licensed Software as detailed under the TERMS and CONDITIONS listed in the attached Exhibit 1.

IN WITNESS WHEREOF, the parties have set their respective hands and seals below.

EXHIBIT 1
(Page 1 of 3)

Licensee: Leon County, Florida

Delivery Address: 301 South Monroe Street, Tallahassee Florida 32301

EQUIPMENT: Host(s) or client server configuration(s) and/or combinations of host(s) and client server configuration(s) within the United States of America for which ACS supports the Licensed Software. Licensee acknowledges that certain Component Systems of the Licensed Software may require specific host or client configurations. Licensee, as soon as reasonably practicable, shall provide a detailed written description of the Equipment so that ACS can confirm that it is configuration on which ACS supports use of the Licensed Software. ACS will then advise Licensee whether ACS supports or does not support use of the Licensed Software on the proposed configuration. If ACS does not support use of the Licensed Software on the proposed configuration, Licensee must propose a new configuration until ACS does confirm that it supports use of the Licensed Software on the proposed configuration.

TERMS and CONDITIONS OF EXHIBIT 1: Exhibit 1 provides a perpetual, non-exclusive, non-transferable right to copy and use the Software System(s) only on a computer system then supported by SCT and authorized in Exhibit 1 and only for Licensee's internal use. License may also use the Software System(s) temporarily on a different computer system, either at Licensee's principal address or at another Licensee-controlled site, upon prompt written notice to ACS, for disaster recovery testing or actual disaster recovery of Licensee's computer operations.

License will not reverse assemble, reverse compile, reverse engineer, or otherwise disassemble or decompile the Object Code for the Software System(s) in whole or in part.

Licensee (I) may not assign, license, further sublicense or otherwise transfer, voluntarily, by operation of law its right to use the Software System(s) , absent written approval by SCT;(ii) may not make the Software System(s) available in any timesharing, networking, service bureau, or other rental arrangements whatsoever; (iii) may not permit, both before or after termination of the License Agreement for any reason, any person or entity, other than Licensee Employees, directly or indirectly to use, have access to or use of all or any part of the Software System(s); and (iv) may not permit all or part of the Software System(s) to be exported outside of the continental United States of America, in any manner or by any means.

Licensee will not modify or remove, in any manner, the Intellectual Property rights notice(s) provided by SCT in connection with the Software System(s).

Licensee acknowledges and agrees that SCT will have no liability whatsoever to Licensee in connection with the Software System(s), and that SCT will not be liable to Licensee for any direct, indirect, incidental, special, consequential or other damage whatsoever arising from the Licensee's use of the Software System(s) or any related materials.

SCT makes no warranties whatsoever, whether expressed or implied, to Licensee. All warranties (if any) are provided by ACS.

SCT is a third party beneficiary under License Agreement and Exhibit 1 for the sole purpose of the enforcement of Intellectual Property Rights in, and protection of its interests in, the Software.

SCT Problem File

SCT Government Systems

FAX TRANSMITTAL COVER SHEET

DATE: 3/23 NO. OF PAGES INCLUDING COVER: 5

TO: Bill Bogan

COMPANY: Leon County

ADDRESS:

FAX NO: 904/488-8257

FROM: Lee Curtis

MESSAGE: Per our discussion this morning, enclosed is the revised list of "Banner Issues".

SCT Government Systems, Inc., 1733 Harrodsburg Rd., Lexington, KY 40504-3617
Fax (606) 277-2300
Switchboard (606) 277-1500

BANNER ISSUES

This is a revision of the document faxed to us on March 3, 1995 from Bill Bogan, Finance Director/Leon County. We have categorized each issue to allow for an easier and more efficient discussion.

Training Issues:

1. Training was of poor quality, Instructors could not answer questions and could not tell students how to perform functions.

26. Training has been a disaster; delivery of training poor and manuals were bad.

27. Training was sometimes conducted without manuals. Information needed was supposed to be in the manuals but was not available. The manuals were very obtuse and lacked information necessary for the users.

34. Training was poor, unprofessional and inadequate. Example: In BQ training, students left the training session unable to generate a simple columnar report with totals at the bottom. (Instructor could not do it either). John Stott will address this topic in detail with Lee Curtis. Manuals are inadequate. We must rewrite them before they are of any use to our staff. What will SCT do about this?

Technical Issues:

2. Constant modifications, patches, and fixes have been provided without ever delivering a functional system. We don't know at what point we will have a functional system. We are unable to take ownership until we know this information.

4. Increasingly "upgrades" don't line up and we can't follow instructions because they don't work. We have been told "you are reading the instructions too closely."

5. We have spent 2.5 weeks trying to install. We are constantly calling the help desk as the install blows off. We then tell them how we fixed the problem and ask if that is OK, is it going to affect something else? We get the idea they don't know what is going on here.

Technical Issues: (cont'd.)

7. The Help Desk told us that since they now have a customer running this on a VAX, they are having to learn VAX.

8. Does this package work on a VAX running VMS? We are not certain that SCT can support us. Should we look at running on another operating system/platform? Perhaps UNIX, ULTRIX, OSF1? Ideally, what would SCT prefer we use as an operating system in order for us to provide the best possible service?

11. Good programming contains flags that will tell a user when there is a problem with an entry- as in "deductions".

12. Programming is poorly done. For example, the program itself commits violations of indexes. Ex. One module generates a call that did not line up with the database, and therefore, shut down our printing.

17. Every single diskette we receive from Jay, Kevin and anyone else is unreadable. We prefer to link to the computer and FTP the files. This is quicker than waiting on diskettes and discovering they don't work.

19. We are running very slowly, and system sizing could be one issue. Rick Krieger and Dennis Dingman sized the system for 60 users, sufficient for two years. Were we mislead about the sizing? What does SCT now say about sizing?

25. Fixes take too long. We need better response time. Defect list items need to be worked off faster. Is SCT adequately staffed to support the installed base?

28. If sizing is an issue and our VAX running VMS cannot run this application, then we need to consider migrating. If such a migration is because SCT undersized the orginal set-up, then we expect SCT to help with the migration.

29. We are spend large amounts of staff effort on overcoming problems caused by the Banner application. SCT must do better.

32. We don't have a fully functional system, and can't tell when we will have one. With the status of loading version 2.0.2, we don't know how to tell when the system is fully functional SCT has a responsibility to get this system up and running.

Documentation Issues:

6. No detail, instructions are incorrect. For example, instructions say install files in directory X, but system is in fact looking in directory Y for the files. We were told "your system is so messed up, just go ahead and put the files there."

9. Documentation doesn't support the product. Documents lack simple items like a list of steps to be taken in correct order to terminate an employee. This is critical if the steps are not performed in order, it fails. Another similar example is in deductions.

10. Purchasing User Documentation is insufficient. It dosen't tell what correct entries are

13. Error messages are cryptic and don't provide the user sufficient information to know what to do. This is especially true when the Oracle database messages appear.

Communications Issues:

16. The programming work done by Ron? Does not work well and was not timely. Checks and Purchase Orders were the top priority. The Purchase Orders are acceptable but not exactly what we wanted. They also took 3-4 extra weeks to get them to work. The checks take a significant manual intervention every time they are run. We specifically stated that there should be no form feeds in the reports to limit problems with the printing. This was not the case.

23. No one here wants to work with Steve Moore. We would prefer he not come back here, as we do not trust him to get the job done.

24. We sometimes work with SCT on an issue and reach a joint decisions as to its resolution. Then SCT changes the decision without our further input or sometimes even our knowledge. (Need examples of this.)

33. SCT must provide necessary personnel and other support to get the system fully up and running at no additional charge to us. Examples of possible solutions would be additional visits by programmers, trainers, and technical staff. (Do not send us Steve Moore.)

37. The Help Desk generally provides very good help, but the response time is sometimes slow. Especially true when our database analyst calls.

38. We need to see a sense of urgency. Does SCT have enough people supporting this product? We see some very stupid error like YTD could not handle 5 digits on payroll checks.

41. SCT totally lacks a sense of urgency. There appears to be little concern that slow response, no response, and system problems in general affect our operations drastically. Does anyone at SCT care?

Stores Inventory Issues:

3. BANNER was to install, but this hasn't happened. We told them we would not test items known to have bugs.

30. We agreed to do a beta test of Stores Inventory. When is BANNER going to delivery this module. Do we need to abandon this project?

31. We don't know what the status is of this applications. We can't load the disks we have until version 2.0.2 is loaded and operational.

Reporting Issues:

14. Printing has been a problem since day one of the project. SCT has not seemed interested in solving these problems. It could appear that SCT has an interest in selling printed forms and is therefore not very responsive to printing solutions that do not use their forms.

15. There was training provided on "reports".

21. Recent efforts to print canned reports in OMB have blown off at fund 300 or 400, why?

22. SCT personnel have been unable to install BQ. Per Steve Moore, we should wait for version 2.0.2 installation and then install the new version of BQ. Does BQ work?

Software Functionality Issues:

36. History records on position control don't show up.

39. Liability checks - Payroll module should populate data, but we have to re-enter to get the checks out.

40. If the accurate date is used, we can't get the last check out. If a false date is used, check is available, but the retirement reports are inaccurate.

Resolved:

18. Checks go to the text file which is plain text. Then the file is erased when checks run. The checks are placed in a secure directory now and the work around is OK.

20. The Oracle license for 56 users appears to be all right for now.

35. Travel expenses early on were exorbitant. We won't stand for inflated expenses of premium hotels, cars, etc. (Programmer visit). This has not been a problem after we complained.

Board of County Commissioners

Agenda Request

Agenda Item for:	**February 22, 1994**
Date:	**February 14,1994**
TO:	**Honorable Chairman and Members of the Board**
FROM:	**Bill Bogan, Jr., Finance Software Committee**
SUBJECT:	**Selection of Financial Software for the County**

STATEMENT OF ISSUE

The Board of County Commissioners (BCC), sitting as the Leon County Governmental Leasing Corporation (LCGLC), a not-for-profit corporation for county public purposes, is requested to convene a special meeting of the LCGLC to authorize a contract with a financial software vendor for purchase and installation of a financial package.

BACKGROUND

During October, 1992, the County Commission established the Leon County Governmental Leasing Corporation for the purpose of lease-purchasing one or more projects from the Corporation. The current masterlease schedule authorizes the acquisition of a financial software package. The financial software committee, made up of primary users, met on several occasions to develop a request for proposal (RFP) for the County. At the July 13, 1993, County Commission meeting, the Board, meeting as the LCGLC, approved the issuance of that RFP.

The Financial Software Information System (FIS) Committee met on several occasions to discuss and develop the process for selection of a financial software package suitable for the County. The FIS Committee reviewed five (5) RFP's for technical qualifications and accepted three. Two of the proposers were not technically qualified because they did not meet the requirements of the RFP.

The FIS Committee invited the three (3) technically qualified proposers to a one day on-line demonstration of the software. Through the demonstrations, it became apparent to the FIS Committee that one package was more suitable for the needs of the County than the others.

Posted on September 8, 2025

ANALYSIS

At the December 7, 1993, Commission meeting the Board authorized the Committee to begin negotiation of a contract with the selected vendor, Banner/SCT. The contract for software with Banner/SCT, which includes software from, Hanson, Faster, and The Computer Academy, a local MBE vendor, has been negotiated by members of the Committee and is now ready to be presented to the BCC, meeting as the LCGLC, to approve.

There are $700,000 budgeted to cover the needs for the purchase of a financial software system. The funds for installing the system is as follows:

Banner/SCT	(Finance Software)	473,500.00
Hanson	Work Order Public Works System	42,110.00
Faster	Fleet System	22,043.00
Computer Academy (MBE Tracking Program)		20,000.00
Hardware & Misc. Implementation		142,347.00
		$700,000.00

There is a projected annual maintenance cost of $58,876.00 on the Banner/SCT software which is scheduled to begin on September 1, 1995. The Hanson software package will require an annual maintenance cost of $3,700 after 90 days of installation.

The Committee anticipates that the remaining portion of this budget will be used to obtain hardware to operate the selected software package and covers other miscellaneous implementation costs.

The Faster, Hanson, and Computer Academy software packages will be purchased under separate agreements to save contractors markup from Banner/SCT. Banner/SCT will ensure smooth integration of all software packages. The purchase of these software packages will provide the County with a fully integrated system that will adequately serve its needs for the years to come.

The County Attorney's Office raised a concern with SCT over their limited warranties provided in the software agreements but they would not agree to change them. A policy decision should be made by the (LCGLC) to accept the warranties as provided. SCT's position is industry-wide and staff has been unable to get other companies to agree to this change.

It is the consideration of the FIS committee by unanimous consent at a meeting on February 11,1994 at 10:30am, to recommend this proposal to the commission. All unresolved issues of the joint committee presented by the BCC staff and the Clerk's staff were resolved.

OPTIONS

1.) Convene the LCGLC and approve the attached contract with the selected vendor.

2) Direct the Committee to modify or re negotiate the contract with the selected vendor.

3) Take other appropriate action.

PERFORMANCE BOND

KNOW ALL MEN BY THESE PRESENTS: That we SCT PUBLIC SECTOR, INC.

, Principal,

and CONTINENTAL CASUALTY COMPANY , Surety, are held and firmly bound unto LEON COUNTY GOVERNMENT LEASING CORP.

, Obligee,

in the sum of FOUR HUNDRED SEVENTY THREE THOUSAND FIVE HUNDRED DOLLARS AND ZERO CENTS Dollars ($473,500.00XXXXXXXXX)

for the payment of which we bind ourselves, our legal representatives, successors and assigns, jointly and severally, firmly by these presents.

WHEREAS, Principal has entered into a contract with Obligee, dated FEBRUARY 23, 1994 for

INSTALLATION OF BANNER FINANCE, HUMAN RESOURCES, ORACLE & BANNER QUEST

copy of which contract is by reference made a part hereof.

NOW, THEREFORE, if Principal shall faithfully perform such contract or shall indemnify and save harmless the Obligee from all cost and damage by reason of Principal's failure so to do, then this obligation shall be null and void; otherwise it shall remain in full force and effect.

Any suit under this bond must be instituted before the expiration of two (2) years from the date on which final payment under the contract falls due.

No right of action shall accrue on this bond to or for the use of any person or corporation other than the Obligee named herein or the heirs, executors, administrators or successors of the Obligee.

For All the Commitments You Make

AN ILLINOIS CORORATION

POWER OF ATTORNEY APPOINTING INDIVIDUAL ATTORNEY-IN-FACT

Know All Men by these Presents, That CONTINENTAL CASUALTY COMPANY, a corporation duly organized and existing under the laws of the State of Illinois, and having its principal office in the City of Chicago, and State of Illinois, and having its principal office in the City of Chicago, and State of Illinois, does hereby make, constitute and appoint Jeffrey P. Brown, Kimberley Ann Bard, Beth A. Garris, Individually

of Chadds Ford, Pennsylvania

its true and lawful Attorney-in-fact with full power and authority hereby conferred to sign, seal and execute in its behalf bonds, undertakings and other obligatory instruments of similar nature

- In Unlimited Amounts -

and to bind CONTINENTAL CASUALTY COMPANY thereby as fully and to the same extent as if such instruments were signed by the duly authorized officers of CONTINENTAL CASUALTY COMPANY and all the acts of said Attorney, pursuant to the authority hereby given are hereby ratified and confirmed.

This Power of Attorney is made and executed pursuant to and by authority of the following By-Law duly adopted by the Board of Directors of the Company.

"Article IX—Execution of Documents

Section 3. Appointment of Attorney-in-fact. The Chairman of the Board of Directors, the President or any Executive, Senior or Group Vice President may, from time to time, appoint by written certificates attorneys-in-fact to act in behalf of the Company in the execution of policies of insurance, bonds, undertakings and other obligatory instruments of like nature. Such attorneys-in-fact, subject to the limitations set forth in their respective certificates of authority, shall have full power to bind the Company by their signature and execution of any such instruments and to attach the seal of the Company thereto. The Chairman of the Board of Directors, the President or any Executive, Senior or Group Vice President or the Board of Directors, may, at any time, revoke all power and authority previously given to any attorney-in-fact."

This Power of Attorney is signed and sealed by facsimile under and by the authority of the following Resolution adopted by the Board of Directors of the Company at a meeting duly called and held on the 17th day of February, 1993.

"Resolved, that the signature of the President or any Executive, Senior or Group Vice President and the seal of the Company may be affixed by facsimile on any power of attorney granted pursuant to Section 3 of Article IX of the By-Laws, and the signature of the Secretary or an Assistant Secretary and the seal of the Company may be affixed by facsimile to any certificate of any such power and any such power or certificate bearing such facsimile signature and seal shall be valid and binding on the Company. Any such power so executed and sealed and certified by certificate so executed and sealed shall, with respect to any bond or undertaking to which it is attached, continue to be valid and binding on the Company."

In Witness Whereof, CONTINENTAL CASUALTY COMPANY has caused these presents to be signed by its Group Vice President and its corporate seal to be hereto affixed this 4th day of November, 19 93.

SCT Problem File

From: John Stott
To: LeonCoFl.LeonCo2.VAN, Admin.BRENDAT, LeonCoFl.Leon...
Date: 4/9/95 4:43pm
Subject: SCT Response to Our Letter

We received the response from Lee Curtis of SCT on Friday afternoon by FAX. It will be distributed Monday morning as soon as we can get it copied.

I believe that we should schedule a meeting for the latter part of the week to review this response document as well as review the current status of the entire project. I will ask Bill Bogan to have his staff schedule this meeting.

A few of the topic areas I believe we should consider are listed below. Please feel free to provide to Bill B. additional items. All persons who have a contribution to make on these topics should come prepared to speak to their issues.

1. SCT Letter of April 7
2. Software installation situation
3. Hardware issues
4. Printing-canned reports, PO's, checks
5. Security and access
6. Canned reports
7. Special reports requested from SCT
8. Report server concept-how to proceed to a decision and implementation
9. Training
10. Budget issues-this year, next year
11. BannerQuest-installation, controls on use
12. Payroll-deductions-scheduling

CC: DaveL, BILLB, DAWNM, SHARONF, LEWISA, BetsyC

(1) * Get Curtis on project to get clean install. Curtis can do it from SCT site. Must coordinate with Elizabeth to get it done. Needs to be done immediately.

(2) Identify in house what we believe our needs to be. SCT to provide us the minimum.

(3) Compile our responses and check on list of other sites.

SCT

April 7, 1995

Mr. Bill Bogan
Director, Finance
Leon County
Post Office Box 726
Tallahassee, Florida 32302

Dear Bill,

This letter summarizes our discussions held at Leon County March 29, 1995. The meeting was held to discuss BANNER® implementation issues and to develop a plan which will address specific tasks as identified during that meeting. Paul Engel and I would like to thank you and the entire Leon County staff for your courtesy and professional manner in which these, potentially emotional, issues were addressed. We are confident that, working together, we will resolve each as identified below.

ACTIVITY: BANNERQuest® Training
DISCUSSION: Leon County expressed concern over the quality of BANNERQuest training which was provided by Steve Moore during the week of January 16, 1995. County staff did not feel the training helped them to understand the product which is viewed by Leon County as an important component in the successful operation of the BANNER products. We strive to deliver top quality training to our clients, every time. Unfortunately, during BANNERQuest training, we experienced software installation problems and did not communicate effectively to your staff relative to test data bases verses production data bases.
PROPOSAL: SCT invites Leon County to attend a two day internal SCT BANNERQuest training class to be held in Lexington, Kentucky April 18 and 19, 1995. This class will be taught by Brian Knotts from the BANNERQuest development team and will cover elementary application of BANNERQuest as well as in-depth technical discussion of the product. Leon County will be responsible only for your travel expenses. SCT will waive the usual tuition fees for this class. In addition, SCT will provide Leon County information relative to BANNERQuest for Windows which is easier for the non-technical end user to utilize. Finally, SCT will provide contact names and telephone numbers of clients who are using data base scripts and other software to extract data from the Finance system. Specifically, Peter Moote at Poway, California is a leader in using micro-computer based software for report generation from the BANNER Finance data base.

ACTIVITY: Finance and H/R supplemental training
DISCUSSION: The basic, contracted training for Finance and H/R software has been completed. Finance training was held between April and October 1994. Human Resource training was conducted between June and November, 1994. It should be noted that this intense training schedule was selected by the County after our consultants advised against that aggressive implementation program. It is possible that many of the topics that are to be retrained, were previously covered, but due to the amount of material taught in a very compressed time-frame, they

We have not had Fixed Assets, Stores Inventory, AR training. Focus Report Wr
one final week of HR training. Bennett

look at curriculum in H/R & Finance.

How do I ?

SCT Public Sector, Inc.
1733 Harrodsburg Rd., Suite 100
Lexington, KY 40504-3617
606/277-1500

Posted on September 8, 2025

were forgotten or confused. Leon County is now requesting additional consulting support and instruction separate from our normal training program. The level of training is to be determined between you and me, but may include software reporting capabilities, advanced features, software functionality and BANNERQuest.

PROPOSAL: SCT will assign a finance and human resources consultant for two weeks each of on-site refresher training. Schedules and topics will be reviewed and agreed to by you and me once the technical operating environment is evaluated (see ACTIVITY - DEC VAX - Technical Assistance). The cost to Leon County will be at our contract rate of ~~$95~~ $85 per hour. SCT will pay for the consultants' travel and living expenses.

ACTIVITY: Leon County's internal training program
DISCUSSION: The County is planning on hiring an internal trainer who will be responsible for on-going education programs for staff, including the use of the BANNER systems. Leon County has asked SCT to assist in developing a training program for the BANNER component of the trainers responsibility.
PROPOSAL: Our experience with implementing the BANNER software nationwide has shown that clients who choose to utilize their own in-house training person have required that person to attend all BANNER training classes as they are conducted. Leon County would be our first client to create a training position after the fact. SCT is certainly willing to assist the County in developing a training program. Alternatives include, but are not limited to attended BANNER training classes at other customer sites, a custom developed, intense and compressed on site training program, and visits to our offices to work first hand with our technical and functional staff. I am willing to work directly with you to create an effective program for Leon County.

ACTIVITY: DEC VAX - VMS sites
DISCUSSION: Leon County requested that SCT provide a list of customer sites, contact names, and telephone numbers of clients running BANNER Finance 2.0, Oracle 7 under VAX/VMS.
PROPOSAL: Under previous cover, I provided you a list of SCT Government Systems' clients utilizing this environment. However, a complete list of all SCT customers running Finance in a VAX/VMS environment will be provided to you by the end of next week. 4/14/95

} Where is the list.

ACTIVITY: DEC VAX - Technical assistance
DISCUSSION: Leon County is concerned about the technical environment in which the BANNER software is currently operating. Leon is requesting additional technical documentation, data dictionaries, data extract maps, file/data base relationship information and system profile data. In addition, Leon requested that a DEC/VAX "guru" be made available to access the current environment and provide a detailed plan to improve the current computer operation.
PROPOSAL: SCT is prepared to assign Jay McDaniel as Leon County's project manager. In this capacity, Jay will be responsible for ensuring that the outstanding items included in this letter are completed to the County's and SCT's satisfaction. Jay will travel to Leon and work closely with the MIS staff to conduct a Technical Audit of the operating environment. Working in conjunction with SCT Education Systems' DEC/VAX experts, Jay will provide a report of the current environment and offer recommendations for improvement. In addition, Jay will work with

Response from Jan. See E-Mail

Posted on September 8, 2025

MIS staff to install the new version of ORACLE and complete any installations of BANNER software which need immediate attention (BANNERQuest, Stores Inventory, et al). Finally, Jay will work closely with you and me to coordinate the Finance and H/R consultant support. Once the level of consulting support is identified, Jay will coordinate the schedules for the best available consultant and work with Leon County to insure this support meets all expectations. As part of Jay's assignment, he will provide any technical documentation relative to data maps, data base relationships and extract maps which are available to our technical staff. He will review the documentation currently on site in Leon County to insure that it is the most current and complete material available to our clients. SCT will provide Jay at the reduced hourly rate of $75/hour and SCT will pay for his travel and living expenses associated with his travel to Leon County.

ACTIVITY: System reporting capability
DISCUSSION: The County expressed concern over the level of training they received on Finance reports. There seems to be a great deal of uncertainty relative to the reports that are available from the Finance system and how they meet the needs of various departments in Leon County. We were told that a list of twenty reports was submitted for SCT review last summer and that some of the reports have been provided, however, the remainder need to be developed or the information needs to be produced through standard system reports.
PROPOSAL: During the Finance training, our consultant discussed the output reports from BANNER Finance and the methods by which each can be produced. However, SCT is very willing to work closely with Leon County staff to identify existing reports that will provide the necessary information for use in meeting the requirements of the various offices or conduct refresher training on the various reporting options. If, upon completion of this review and additional training, custom reports are required, SCT will provide a proposal for the development of the reports. At this time, it is too early to specify the cost, scope and delivery time for these reports. We are committed to assisting Leon County in the development of necessary finance reports.

MIS needs to be included, Focus Report Writer and BannerQuest needs to be installed.

ACTIVITY: TCPNet Access
DISCUSSION: The County has requested access to the SCT TCPNet. This service provides information on BANNER software and user group activities, processes for better utilization of the system and questions/answers from various SCT clients.
PROPOSAL: SCT will grant Leon County access to TCPNet immediately at no charge. It should be noted that the current make-up of the client base using this service is primarily our higher education clients. Therefore, the majority of discussion is directly related to higher education issues and processes. Public sector entities are just now beginning to utilize TCPNet as a form of communication. We hope to have an SCT Government Systems network launched during the Fall of 1995 which should offer a more targeted forum for our client base.

Accepted

ACTIVITY: Extension of TCP
DISCUSSION: Leon County requested that SCT extend its warrantee for seven months due to the fact that BANNERQuest is not operational and there are still several outstanding operational problems (Stores Inventory, and A/R).
PROPOSAL: Paul Engel addressed this topic during the meeting. He assured the County that the warrantee rights and remedies under your software license agreement were identical to those

Posted on September 8, 2025

available through your TCP agreement which carries a three year term. Since the TCP fee predominantly covers the cost of the ActionLine support and new product releases, he felt that benefits were being derived at a value equivalent with the TCP fees. He went on to say that if the objective of the request was to gain financial concessions as a result of the performance of our staff or software, he would prefer to address that in the other recommendations described in this letter. If the County feels that the concessions being offered are not in keeping with the County's expectations, he would be happy to speak with you about the issue.

ACTIVITY: Stores Inventory
DISCUSSION: The Stores Inventory Module is not operational at this time. Leon County was selected as an Early Support Site for SCT's new inventory module, however, nothing is currently installed.
PROPOSAL: As discussed during our meeting, a new version of stores inventory has been received by Leon County at the end of January, 1995. Due to miscommunication, we failed to install the software. Jay McDaniel will install the latest version of the system and coordinate additional training, if needed, on the functionality of the system for Leon County. These services will be provided at no cost to Leon County. Elizabeth installed Stores recently. We are Payroll to be a Beta site. This goes back to a complete proposal 2.3.

ACTIVITY: Documentation
DISCUSSION: Leon County staff expressed dissatisfaction with the quality of BANNER documentation.
PROPOSAL: As discussed during the meeting, SCT has made a significant investment in developing new documentation in support of BANNER 2.1. We believe this new documentation will go a long way in meeting or exceeding Leon County's need for quality information. SCT will provide copies of this new documentation to Leon County for review by May 1, 1995. – Anxiously awaiting May 1st.

ACTIVITY: ActionLine procedures for "Production Critical".
DISCUSSION: Leon County indicated that the proper procedures for calling the SCT ActionLine have never been explained to them.
PROPOSAL: See the enclosed documentation which details the procedures to be followed when calling the ActionLine. If Leon County has additional questions relative to the procedures associated with support, feel free to call Kenna James, ActionLine Manager, at (606) 277-1500 ext. 280. We have used this it works.

ACTIVITY: Finance and H/R interface
DISCUSSION: There is an expressed concern over the interface between the H/R system and Finance as it relates to the transfer of payroll account detail to the Finance system.
PROPOSAL: SCT is not aware of any problem with the interface of data between the two systems. It is my understanding that the H/R system creates summary transactions for liability accounts in Finance which reflect amounts due created during the payroll process (FICA, retirement, etc.). This data is posted to the appropriate accounts in Finance where an accounts payable check is created any time the County desires (weekly, monthly, quarterly, etc.). We realize that Leon County may want the checks created directly from the payroll system every time a

Posted on September 8, 2025

payroll is processed. We have no other clients requesting that procedure nor have we seen that type of process used. However, should the County desire a custom program to create these checks from the H/R system, we would be happy to provided a cost and time estimate for its development.
I believe this letter fairly documents issues as were discussed in our meeting. I appreciate your candor and willingness to work with us to resolve all outstanding issues. The SCT/Leon County relationship continues to be a strong partnership and we are committed to delivering quality software and services. I will be in contact with you next week to develop a schedule for Jay to travel to Tallahassee to begin the technical audit. Restate the problem,

Bill, I would like to thank you again for your hospitality and professional attitude in working with us during this challenging period of software implementation.

Sincerely,

Lee E. Curtis

ActionLine Support Process

SCT provides invaluable support to our customers through the ActionLine, a telephone support system. The ActionLine is designed to enable our customers to speak with an SCT consultant on any functional or technical issue. The ActionLine consultants are our customers' primary link to SCT's services.

SCT Public Sector supports over 100 products across seven product lines for approximately 1300 customers. We respond to over 40,000 calls per year and are proud of our ability to provide excellent quality support on a variety of products and operating system platforms.

Following are further details regarding the ActionLine support provided by SCT:

- To place an ActionLine call, dial **1-800-354-9300**. You will be greeted by our receptionist who will request your *client ID*, your *name*, the *name of the product* on which you are calling, and confirmation of your *telephone number*.

- Our receptionist will provide you with a Telephone Support Request (TSR) number which you can use for tracking purposes. The TSR number is a number automatically assigned to your call by our automated system. Referencing the TSR number, if making a follow-up call to the ActionLine, allows our consultants to inquire on previous calls more quickly.

- Calls are automatically routed to the applicable call queue in the order they are received. Our standard approach, for non-system down types of calls, is to respond to each call on a first-in first-out basis.

- A consultant who supports the product for which your call was placed, will return your call and work with you to resolve the issue. Providing a brief description of your question to our receptionist will give the consultant an opportunity to perform initial research prior to returning your call.

- SCT's goal is to return each call within one hour. In addition, we strive to resolve each call during the initial return call. However, depending upon the complexity of the issue, follow-up may be necessary. Thus, resolution time will vary.

- Calls remain on the call queue until they are resolved. Once a call has been resolved, it will be completed in our system by the consultant.

- During completion, each call is documented with a description of the problem and its resolution. Calls are also automatically "stamped" with the date and time received, as well as the date and time of resolution. Further, the consultant will indicate if the customer was satisfied or dissatisfied with the resolution.

- If a call is closed with a dissatisfied status, the detail of the call is printed and forwarded to the appropriate Assistant Manager of ActionLine Support.

- The Assistant Manager will then determine what action must be taken to ensure mutual satisfaction between the customer and SCT.

- Detailed call history is stored on-line in our system by customer, product, and date. Call history is available for inquiry by all ActionLine consultants. We typically retain one year of call history on-line.

Posted on September 8, 2025

- SCT is committed to responding to each ActionLine call within eight business hours.
- ActionLine calls are responded to on a first-come first-served basis. Production critical calls are handled on a priority basis.
- Production critical situations are considered problems which completely halt business operations. In a production critical situation, staff will remain in house to work with clients who choose to stay on the line and work through a problem resolution with us. Both SCT and the client have to agree to remain at work to continue toward a resolution to the issue.
- All new ActionLine calls are returned prior to the Consultant's leaving at the end of each day. However, if a client has left their site at the time the initial return call is made, it becomes necessary for SCT to return the call the following business morning.
- Impediments such as telephone system failure, general power failure, etc. will have an impact upon SCT's response time.
- ActionLine calls received after regular business hours are recorded by our automated answering system. These calls are entered into our system the following business morning and are responded to accordingly.

Board of County Commissioners

Agenda Request

Agenda Item for: December 7, 1993

Date: December 2, 1993

TO: Honorable Chairman and Members of the Board

FROM: Honorable Dave Lang Clerk of Court

SUBJECT: Selection of Financial Software for the County

STATEMENT OF ISSUE

The Board, sitting as the Leon County Governmental Leasing Corporation (LCCGLC), a not-for-profit corporation for county public purposes, is requested to convene a special meeting to authorize negotiations with a financial software proposer for purchase and installation of a package.

BACKGROUND

During October 1992, the County Commission established the Leon County Governmental Leasing Corporation for the purpose of lease-purchasing one or more projects from the Corporation from time to time. One project listed in the masterlease schedule relates to the acquisition of a financial software package. A financial software committee made up of primary users met on several occasions to develop a request for proposal (RFP) for the County. At the July 13, 1993, County Commission meeting , the Board approved the issuance of that RFP.

The Financial Information System (FIS) Committee met on several occasions to discuss and develop the process for selection of a financial software package suitable for the County. The FIS Committee reviewed five (5) RFP's for technical qualifications and accepted three. Two of the proposers were not technically qualified because they did not meet the requirements of the RFP.

The FIS Committee invited the three (3) technically qualified proposers to a one day on-line demonstration of the software. Through the demonstrations, it became apparent to the FIS Committee that one package was more suitable for the needs of the County than the others.

ANALYSIS

See Attachment One

OPTIONS

1. Authorize the Committee to begin negotiations with Banner/SCT.

2. Authorize the Committee to begin negotiations with one of the other two vendors.

3. Provide some other direction to the Committee.

RECOMMENDATION

Option 1 is recommended.

Attachments: 1. Letter from Committee

Honorable Dave Lang
Clerk of Circuit Court of Leon County

RE: Financial Software Package

Dear Mr. Lang:

The Financial Information System (FIS) Committee met on several occasions to discuss and develop the process for selection of a financial software package suitable for the County. Through much discussion and effort, the Committee developed a Request for Proposals (RFP) which was presented to the Leon County Governmental Leasing Corporation on July 13, 1993. The RFP was approved for issuance with a closing date of August 31, 1993. Each vendor was to submit their proposal in two parts - a technical proposal and, under separate cover, a cost proposal.

Letters of invitation were mailed to forty vendors with sixteen vendors requesting the RFP. Nine vendors returned a Letter of Intent to Respond and five of those vendors submitted proposals. The vendors and the software systems proposed are:

VENDOR	Software System(s)
1. American Management Systems, Inc. (AMS)	AMS Advantage
2. SCT Public Sector, Inc. (SCT)	BANNER
3. Digital Equipment Corporation (DEC)	Ross Systems, Inc.
4. The Computer Center, Inc. (CCI)	MUNIS
5. Oracle Corporation	ORACLE Financials/ADP Payroll and Human Resources

The proposal evaluation process required that the FIS Committee first technically qualify proposals. Technical qualification involved examining each proposal to determine if it met the requirements of the RFP. All five submissions were carefully reviewed with SCT, DEC, and CCI being determined technically qualified. The AMS proposal did not meet the RFP requirement to be inclusive of all hardware and software costs. Based upon current operating

costs, MIS staff estimated an additional annual expenditure of $200,000 to enhance the existing County hardware would be required to allow the AMS Advantage software to operate properly. Therefore, the AMS proposal was not technically qualified. The Oracle proposal was not technically qualified due to the proposed eighteen month implementation time frame which did not meet the RFP requirements and is unacceptable.

The review process provided that after determination of the technically qualified proposals, the cost proposal of each qualified vendor was to be opened. The cost as proposed by each vendor was:

Vendor/Software	Cost
SCT/BANNER	$ 551,200.00
DEC/Ross	$ 923,742.28
CCI/MUNIS	$ 602,800.00

Each of the qualified proposers was invited for a one-day demonstration of their software in the Courthouse. The proposers were instructed to make individual determinations on the best way to demonstrate their product during the visit. A wide variety of staff was invited to review the software demonstrations. The meeting was also a time for the Committee to ask questions and seek clarification on the proposals. Each vendor was instructed to issue written statements in response to the questions and concerns expressed during the demonstration including any adjusted costs due to clarification. The revised costs are:

Vendor/Software	Cost
SCT/BANNER - Proposal A (excludes Fleet System)	$ 596,500.00
SCT/BANNER - Proposal B	$ 649,200.00
DEC/Ross	$1,042,705.58
CCI/MUNIS	$ 602,800.00

Following all of the demonstrations, the Committee discussed whether to conduct visits to installed software sites. Each vendor had provided a fully operational presentation of their software during the demonstrations eliminating the need to see further software demonstration. The Committee was seeking information on service, training, maintenance, implementation, and follow-through. It was felt this information could be gathered through a questionnaire, particularly in view of the high cost of site visits. A questionnaire was prepared and forwarded to five clients of each of the three vendors. Since each vendor had been very forthright about these areas in their presentations, the returned questionnaires revealed no new information for the Committee's consideration.

Posted on September 8, 2025

In the analysis of the proposals, the Committee noticed a wide disparity in the functionality of each system proposed. The SCT BANNER system meets all functional requirements and provides a great deal of flexibility with a reasonable cost. This system allows the County to process all transactions after data is entered only once. The BANNER system also provides the best start-up mechanism because of its internal structure. In addition, the SCT software will require the least amount of time to implement the system.

The Digital/Ross proposal cost was significantly higher than that of SCT and, based upon the proposal and demonstration, the Committee estimated that it would take significantly more time to implement the DEC/Ross system. The system does provide adequate flexibility to handle the County's software needs.

The CCI/MUNIS software is still a primarily COBOL based system that provides little more flexibility than our current software. This system provides more capacity than the County's current system which is not a current need. CCI is shifting from the current third generation software COBOL language to a fourth generation database language but has not progressed far enough at the current time to provide the desired flexibility to make it desirable.

Based upon the analysis provided above, the Committee has determined that the SCT/BANNER system is the best software proposed that meets the County's needs as expressed by the RFP within the funds budgeted. The Committee requests that the Clerk of Court recommend to the Leon County Governmental Leasing Corporation approval to begin negotiations with SCT for installation of the proposed financial information system and associated costs.

Each member of the FIS Committee is available if you have any questions.

COMPANY PROPRIETARY

SCT POLICY GUIDE

SUBJECT:	Equal Employment Opportunity/Affirmative Action	NUMBER:	HR 1.1
DATE:	April 4, 1990		

I. Need for Policy

A. To affirm SCT's commitment to the principles of Equal Employment Opportunity and Affirmative Action.

II. Statement of Policy

A. Systems & Computer Technology (SCT) Corporation will abide by the policy of providing Equal Opportunity to all employees and applicants for employment in accordance with all applicable Equal Employment Opportunity/Affirmative Action laws, directives, and regulations of Federal, State, and Local governing bodies or agencies thereof.

B. SCT will not discriminate against any employee or applicant for employment because of race, color, religion, national origin, sex, sexual preference, physical handicap, age, marital status, or veteran status.

C. SCT will take Affirmative Action to ensure that all employment practices are free of discrimination. Such employment practices include, but are not limited to, the following: hiring, upgrading, demotion, transfer, recruitment or recruitment advertising, selection, layoff, disciplinary action, termination, rates of pay or other forms of compensation, and selection for training, including apprenticeship.

D. SCT will use its best efforts to afford minority and female business enterprises the opportunity to participate in the performance of subcontracts for projects that the Company engages in.

E. SCT will commit the necessary time and resources, both financial and human, to achieve the goals of Equal Employment Opportunity and Affirmative Action.

F. SCT will evaluate the performance of its management and supervisory personnel on the basis of their involvement in achieving these Affirmative Action objectives, as well as other established criteria. The company's success in meeting these goals and objectives rests with each manager's good faith efforts to increase the hiring and promotion of minorities and women. Failure to comply with this policy may have an adverse impact on a manager's or supervisor's overall performance evaluation.

SCT POLICY GUIDE

NUMBER: HR 1.1 DATE: April 4, 1990

III. Procedures

A. In the event a complaint, either written or verbal, is received, it is to be communicated to the Human Resources Department for investigation.

B. Insofar as it is possible, all complaints will be handled in a strictly confidential manner with respect for the privacy of all individuals involved.

C. Employees are to be assured that there will be no retaliation against any employee who makes a complaint with the reasonable belief that a form of discrimination has occurred.

Systems & Computer Technology Corporation

AFFIRMATIVE ACTION
GOALS & OBJECTIVES

1. As vacancies occur, SCT will actively recruit, especially in major urban areas, to improve its minority and female employee population in the top five EEO categories, viz., Officials and Managers, Professional, Technicians, Sales and Administrative and Clerical.

2. A good faith effort will be made to hire at least one female/minority sales worker at headquarters in the next twelve months.

3. During calendar 1994, SCT will implement a Human Resources Review and Planning Program (SHRRP) to identify qualified employees to fill positions created by internal promotion, turnover and newly established positions.

4. All managers and supervisors as well as non-managerial employees will receive training regarding the Company's position on Affirmative Action. This will include but is not limited to:
   - o Receipt and discussion of Mr. Emmi's letters concerning sexual harassment and Affirmative Action;
   - o Manager's role in preventing discrimination and sexual harassment;
   - o SCT's grievance procedure;
   - o Review of the SCT Personnel Policy Manual.

5. Develop Affirmative Action plans for Company locations having 50 or more employees. Emphasis will be placed on those locations having 50 or more employees **and** located in major Statistical Metropolitan Sampling Areas (SMSAs).

6. Continue to develop and expand upon external recruiting sources that will refer qualified women and minorities to the Company.

7. Develop standards of performance for all managers, supervisors and recruiters that will base their performance ratings in part on how well they have met their affirmative action goals.

8. Insure that all contractors to SCT are alerted of our commitment to Affirmative Action and supply the Company with appropriate notification that they are in compliance with all applicable federal and state regulations.

9. During calendar 1994, review and revise as necessary all Company personnel policies and practices to insure that they do not discriminate against women and minorities.

10. During fiscal 1994, install and implement a computerized applicant tracking system in the Recruitment Department that will facilitate our ability to more closely identify qualified applicants for open positions.

AN ILLINOIS CORORATION

POWER OF ATTORNEY APPOINTING INDIVIDUAL ATTORNEY-IN-FACT

Know All Men by these Presents, That CONTINENTAL CASUALTY COMPANY, a corporation duly organized and existing under the laws of the State of Illinois, and having its principal office in the City of Chicago, and State of Illinois, and having its principal office in the City of Chicago, and State of Illinois, does hereby make, constitute and appoint Jeffrey P. Brown, Kimberley Ann Bard, Beth A. Garris, Individually

of Chadds Ford, Pennsylvania

its true and lawful Attorney-in-fact with full power and authority hereby conferred to sign, seal and execute in its behalf bonds, undertakings and other obligatory instruments of similar nature

- In Unlimited Amounts -

and to bind CONTINENTAL CASUALTY COMPANY thereby as fully and to the same extent as if such instruments were signed by the duly authorized officers of CONTINENTAL CASUALTY COMPANY and all the acts of said Attorney, pursuant to the authority hereby given are hereby ratified and confirmed.

This Power of Attorney is made and executed pursuant to and by authority of the following By-Law duly adopted by the Board of Directors of the Company.

"Article IX—Execution of Documents

Section 3. Appointment of Attorney-in-fact. The Chairman of the Board of Directors, the President or any Executive, Senior or Group Vice President may, from time to time, appoint by written certificates attorneys-in-fact to act in behalf of the Company in the execution of policies of insurance, bonds, undertakings and other obligatory instruments of like nature. Such attorneys-in-fact, subject to the limitations set forth in their respective certificates of authority, shall have full power to bind the Company by their signature and execution of any such instruments and to attach the seal of the Company thereto. The Chairman of the Board of Directors, the President or any Executive, Senior or Group Vice President or the Board of Directors, may, at any time, revoke all power and authority previously given to any attorney-in-fact."

This Power of Attorney is signed and sealed by facsimile under and by the authority of the following Resolution adopted by the Board of Directors of the Company at a meeting duly called and held on the 17th day of February, 1993.

"Resolved, that the signature of the President or any Executive, Senior or Group Vice President and the seal of the Company may be affixed by facsimile on any power of attorney granted pursuant to Section 3 of Article IX of the By-Laws, and the signature of the Secretary or an Assistant Secretary and the seal of the Company may be affixed by facsimile to any certificate of any such power and any such power or certificate bearing such facsimile signature and seal shall be valid and binding on the Company. Any such power so executed and sealed and certified by certificate so executed and sealed shall, with respect to any bond or undertaking to which it is attached, continue to be valid and binding on the Company."

In Witness Whereof, CONTINENTAL CASUALTY COMPANY has caused these presents to be signed by its Group Vice President and its corporate seal to be hereto affixed this 4th day of November, 19 93.

Board of County Commissioners

Agenda Request

Agenda Item for:	**February 22, 1994**
Date:	**February 14,1994**
TO:	**Honorable Chairman and Members of the Board**
FROM:	**Bill Bogan, Jr., Finance Software Committee**
SUBJECT:	**Selection of Financial Software for the County**

STATEMENT OF ISSUE

The Board of County Commissioners (BCC), sitting as the Leon County Governmental Leasing Corporation (LCGLC), a not-for-profit corporation for county public purposes, is requested to convene a special meeting of the LCGLC to authorize a contract with a financial software vendor for purchase and installation of a financial package.

BACKGROUND

During October, 1992, the County Commission established the Leon County Governmental Leasing Corporation for the purpose of lease-purchasing one or more projects from the Corporation. The current masterlease schedule authorizes the acquisition of a financial software package. The financial software committee, made up of primary users, met on several occasions to develop a request for proposal (RFP) for the County. At the July 13, 1993, County Commission meeting, the Board, meeting as the LCGLC, approved the issuance of that RFP.

The Financial Software Information System (FIS) Committee met on several occasions to discuss and develop the process for selection of a financial software package suitable for the County. The FIS Committee reviewed five (5) RFP's for technical qualifications and accepted three. Two of the proposers were not technically qualified because they did not meet the requirements of the RFP.

The FIS Committee invited the three (3) technically qualified proposers to a one day on-line demonstration of the software. Through the demonstrations, it became apparent to the FIS Committee that one package was more suitable for the needs of the County than the others.

Posted on September 8, 2025

ANALYSIS

At the December 7, 1993, Commission meeting the Board authorized the Committee to begin negotiation of a contract with the selected vendor, Banner/SCT. The contract for software with Banner/SCT, which includes software from, Hanson, Faster, and The Computer Academy, a local MBE vendor, has been negotiated by members of the Committee and is now ready to be presented to the BCC, meeting as the LCGLC, to approve.

There are $700,000 budgeted to cover the needs for the purchase of a financial software system. The funds for installing the system is as follows:

Banner/SCT	(Finance Software)	473,500.00
Hanson	Work Order Public Works System	42,110.00
Faster	Fleet System	22,043.00
Computer Academy (MBE Tracking Program)		20,000.00
Hardware & Misc. Implementation		142,347.00
		$700,000.00

There is a projected annual maintenance cost of $58,876.00 on the Banner/SCT software which is scheduled to begin on September 1, 1995. The Hanson software package will require an annual maintenance cost of $3,700 after 90 days of installation.

The Committee anticipates that the remaining portion of this budget will be used to obtain hardware to operate the selected software package and covers other miscellaneous implementation costs.

The Faster, Hanson, and Computer Academy software packages will be purchased under separate agreements to save contractors markup from Banner/SCT. Banner/SCT will ensure smooth integration of all software packages. The purchase of these software packages will provide the County with a fully integrated system that will adequately serve its needs for the years to come.

The County Attorney's Office raised a concern with SCT over their limited warranties provided in the software agreements but they would not agree to change them. A policy decision should be made by the (LCGLC) to accept the warranties as provided. SCT's position is industry-wide and staff has been unable to get other companies to agree to this change.

It is the consideration of the FIS committee by unanimous consent at a meeting on February 11,1994 at 10:30am, to recommend this proposal to the commission. All unresolved issues of the joint committee presented by the BCC staff and the Clerk's staff were resolved.

OPTIONS

1.) Convene the LCGLC and approve the attached contract with the selected vendor.

2) Direct the Committee to modify or re negotiate the contract with the selected vendor.

3) Take other appropriate action.

BANNERQUEST SOFTWARE TECHNICAL CURRENCY AGREEMENT

This Agreement, made this ____ day of February, 1994, is entered into by and between SCT Public Sector, Inc., a Delaware corporation ("SCT"), and Leon County Commission Governmental Leasing Corporation, for and on behalf of Leon County, Florida (collectively, "Licensee") as of the Effective Date. SCT Public Sector, Inc., recognizes that Leon County, Florida has formed the Leon County Commission Governmental Leasing Corporation to acquire license rights to the BANNERQuest Software and to provide the use of the BANNERQuest Software to Leon County, Florida pursuant to a Master Lease Purchase Agreement between Leon County, Florida and the Leon County Commission Governmental Leasing Corporation ("Master Lease"). The cash proceeds (the "Proceeds") that will ultimately be used by the Leon County Commission Governmental Leasing Corporation to obtain the right to use the BANNERQuest Software as aforesaid have been raised by assigning the Leon County Commission Governmental Leasing Corporation's rights under the Master Lease to an institutional trustee and issuing Certificates of Participation in the Leon County Commission Governmental Leasing Corporation's right to receive lease payments under the Master Lease. Pursuant to the Master Lease and related trust documents, Proceeds may not be expended with respect to any item of the BANNERQuest Software until: (a) the Leon County Commission Governmental Leasing Corporation has acquired license rights therein, (b) such BANNERQuest Software may be made subject to the Master Lease free of any rights of SCT and/or the owner of such BANNERQuest Software, other than as licensor with regard to an item of the BANNERQuest Software; and (c) a Certificate of Acceptance with respect to each item has been executed by the Leon County Commission Governmental Leasing Corporation (collectively, the "Conditions"). Accordingly, if the Conditions cannot be met with respect to any item of the BANNERQuest Software, Leon County, Florida intends to advance funds other than the Proceeds on behalf of the Leon County Commission Governmental Leasing Corporation to make the payments required by this Agreement, subject to the terms and conditions of said Agreement. In such event, when the Conditions are met with respect to the item of the BANNERQuest Software, Proceeds will be applied to reimburse Leon County, Florida for the funds expended by Leon County, Florida in connection therewith, license rights to such item of the BANNERQuest Software will be placed in the name of the Leon County Commission Governmental Leasing Corporation, and such item of the BANNERQuest Software will be made subject to the Master Lease free and clear of any rights of SCT and/or the owner of such BANNERQuest Software, other than as licensor with regard to an item of BANNERQuest Software.

Background

SCT and Licensee have entered into an BANNERQuest Software License and Services Agreement Number 10562 for the BANNERQuest Software and the NLI Software (the "BANNERQuest License Agreement"), and desire that SCT provide Maintenance and Enhancements for the BANNERQuest Software and the NLI Software therefor on the terms and conditions contained in this Agreement.

Accordingly, the parties agree as follows:

1. Certain Definitions.

(a) Definitions Contained in the BANNERQuest License Agreement. The capitalized terms of this Agreement will have the same meanings ascribed to them in the BANNERQuest License Agreement, except as such terms are otherwise defined in this Agreement.

(b) Additional Definitions. The following definitions shall also apply:

(i) "Maintenance" means using reasonable efforts to correct documented defects, as that term is defined in the BANNERQuest License Agreement, in the BANNERQuest Software, to the extent that NLI corrects such documented defects and provides such corrections to SCT, without additional charge, under NLI's Technical Support program, provided that such defects are not the result of any changes made to the BANNERQuest Software or the NLI Software, other than Improvements provided by SCT under this Agreement.

(ii) "Enhancements" means changes to the BANNERQuest Software or the NLI Software which increase the functionality of the BANNERQuest Software or the NLI Software, to the extent that NLI provides them to SCT, without additional charge, under NLI's Technical Support program.

(iii) "BANNERQuest Software" means SCT's then current unmodified (other than Improvements provided by SCT under this Agreement) BANNERQuest Finance and BANNERQuest Human Resources Systems licensed by SCT to Licensee under the BANNERQuest License Agreement.

(iv) "NLI Software" means the SCT then-supported unmodified (other than Improvements provided by SCT under this Agreement) version of the computer programs developed by NLI and licensed by SCT to Licensee under the BANNERQuest License Agreement for use with the BANNERQuest Software.

(v) "BANNERQuest System" means any one system of the BANNERQuest Software together with the NLI Software for such system.

(vi) "New Releases" means new editions of the BANNERQuest Software and the NLI Software which represent changes from the previous releases of the BANNERQuest Software and the NLI Software, to the extent that NLI provides them to SCT, without additional charge, under NLI's Technical Support program.

(vii) "Improvements" means, collectively, Maintenance, Enhancements and New Releases provided under this Agreement.

(c) Inconsistencies. If there are any inconsistencies between the definitions contained in this Agreement and the definitions contained in the BANNERQuest License Agreement, the definitions contained in this Agreement shall apply.

2. Services.

(a) Types of Services. In consideration of Licensee's full payment to SCT of the amounts set forth in Section 3 below, and subject to the terms and conditions set forth in this Agreement, SCT, during the term of this Agreement, agrees to provide to Licensee Maintenance for, Enhancements of, and New Releases of, the BANNERQuest Software and the NLI Software. Subject to the availability of SCT personnel, at Licensee's written request, SCT shall perform any installation, implementation, or other services in connection with the Maintenance, Enhancements, and New Releases provided by SCT under this Agreement, at SCT's then-current hourly rates.

(b) Limitations. SCT's obligations under this Agreement will be limited to the then-current release and the immediately preceding release of each BANNERQuest System. All Improvements will be part of the BANNERQuest System and subject to all of the terms and conditions of the BANNERQuest License Agreement and this Agreement. SCT's obligations under this Agreement are further conditioned upon Licensee providing SCT, as reasonably necessary for SCT to perform its obligations under this Agreement, with all of the following without charge: (i) the Equipment and the BANNERQuest Configuration, provided and maintained at Licensee's expense, in good

working order and in actual operation at all times at which SCT reasonably requests access thereto for the purpose of rendering the services under this Agreement; (ii) remote electronic capabilities, if available from Licensee; (iii) access to other computer systems of Licensee; (iv) access to Licensee's offices and personnel; and (v) a reasonable amount of space on Licensee's premises for SCT personnel.

(c) Modifications Maintenance. Subject to the availability of SCT personnel, at Licensee's written request, SCT shall provide Maintenance in connection with any modifications made by SCT to the BANNERQuest Software (other than Improvements provided under this Agreement) at SCT's then-current hourly rates.

3. Payment and Taxes.

(a) Technical Currency Fees. For the Improvements provided by SCT under this Agreement, Licensee will pay SCT, on September 1, 1995, a fee equal to $9,675, and on each September 1 thereafter during the term of this Agreement, a fee specified by SCT which will not be more than one hundred ten percent (110%) of the fee due under this Agreement on the immediately preceding September 1.

(b) Additional Costs. If SCT, in its reasonable judgment, determines that a suspected defect is attributable to a cause other than a documented defect, as that term is defined in the BANNERQuest License Agreement, in the BANNERQuest Software and/or the NLI Software, then Licensee shall pay SCT an additional amount for its work performed in connection therewith on a per-hour basis, at SCT's then-current hourly rates. Licensee will also reimburse SCT for all travel, living, freight, and overnight delivery expenses incurred by SCT and/or its personnel in connection with any services provided by SCT in connection with this Agreement.

(c) Taxes. Licensee represents that it is a tax-exempt entity. Notwithstanding the foregoing, however, taxes, other than taxes based on SCT's net income or capital stock, imposed by any taxing authority and based upon or in any way relating to this Agreement, the Improvements or services provided, or payments made under this Agreement shall be the responsibility of Licensee and shall be payable in addition to other fees and charges under this Agreement. Licensee may provide SCT, in lieu of paying any such tax required to be paid by Licensee, with a certificate of exemption in form and substance reasonably satisfactory to SCT; and Licensee may, if permitted by law, contest any such tax required to be paid by it under this Agreement, provided that Licensee has made prior arrangements reasonably satisfactory to SCT so that SCT will suffer no damage or injury as a result of such contest. Licensee, upon request by SCT, shall provide SCT with proof of payment, or exemption from payment, of any tax that Licensee would otherwise be required to pay under or in connection with this Agreement.

(d) Non-Appropriation of Funds. The performance of Leon County Commission Governmental Leasing Corporation of any of its obligations under this Agreement shall be subject to and contingent upon the availability of funds or otherwise lawfully expendable for the purposes of this agreement for the current and future periods. Licensee believes that sufficient funds can be obtained to pay all amounts due SCT under this Agreement. In the event sufficient funds are not appropriated and budgeted or are otherwise legally unavailable by any means whatsoever for Licensee to make payments to SCT for the Improvements, then Licensee will promptly notify SCT of such fact by providing SCT with written notice thereof. Thereupon, SCT's obligations under this Agreement shall be deemed terminated, and Licensee shall remit payment of the fees for the Improvements to SCT on a prorated basis. Notwithstanding the foregoing, Licensee agrees that the provisions of this Section will not apply if any funds are appropriated to it, or by it, for the acquisition, retention or operation of software or services similar in form or function to the Improvements being provided by SCT under this Agreement, and that Licensee will not during the

term of this Agreement give priority in the application of funds to any other similar software or services.

4. Term. The initial term of this agreement is for the period commencing on the date set forth on the first page of this Agreement and continuing until September 30, 1997. This Agreement shall thereafter be automatically extended for consecutive one (1) year periods unless either party notifies the other in writing of its intent not to continue this Agreement at least one year prior to the expiration of the then current term.

5. Disclaimer of Warranties. Licensee agrees and understands that except as expressly set forth in this Agreement **SCT MAKES NO WARRANTIES WHATSOEVER, EXPRESSED OR IMPLIED, WITH REGARD TO ANY IMPROVEMENTS, AND THAT SCT EXPLICITLY DISCLAIMS ALL WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. FURTHER, SCT EXPRESSLY DOES NOT WARRANT THAT THE BANNERQUEST SOFTWARE, THE NLI SOFTWARE OR ANY IMPROVEMENTS WILL BE USABLE BY LICENSEE IF THE SCT SOFTWARE, BANNERQUEST SOFTWARE, OR NLI SOFTWARE HAS BEEN MODIFIED BY ANYONE OTHER THAN SCT, OR WILL BE ERROR-FREE, WILL OPERATE WITHOUT INTERRUPTION, WILL ANSWER ANY QUESTION THAT IS NOT CONTAINED IN THE THEN-CURRENT QUERY LIST PROVIDED TO LICENSEE BY SCT OR WILL BE COMPATIBLE WITH ANY HARDWARE OR SOFTWARE (OTHER THAN THE BANNER SOFTWARE) POSSESSED OR TO BE POSSESSED BY LICENSEE.**

6. Termination. Either party will have the right to terminate this Agreement if the other party breaches or fails to perform any material term or condition of this Agreement. Either party, if it has a right of termination as provided above, may terminate this Agreement at any time while the event or condition giving rise to that right of termination exists, by giving the other written notice of that event or condition and describing that event or condition in reasonable detail. Upon receipt of that notice, the other party will have a period of thirty (30) days in which to cause that event or condition to be corrected or cured to the reasonable satisfaction of the party desiring termination. If the event or condition giving rise to the right of termination is not so corrected or cured within that period, this Agreement will terminate as of the end of that period automatically, without further act by any party. Notwithstanding the foregoing, however, in the event that a party files a voluntary petition in bankruptcy or remains an involuntary petitioner in bankruptcy for a period exceeding ninety (90) days, the other party shall have the right to terminate this Agreement immediately, without further action or delay, by providing the petitioning party with written notice of such termination. Termination of this Agreement by either party in strict accordance with the terms and conditions of this Agreement will be without prejudice to the terminating party's other rights and remedies under this Agreement, both at law in equity.

7. Notices. All notices and other communications required or permitted under this Agreement will be in writing and, except as otherwise provided in this Agreement, will be deemed given when delivered personally, sent by United States registered or certified mail, return receipt requested, or sent by overnight courier to the address shown on the signature page hereof, or to such other place as the parties hereto from time to time may direct. A copy of all notices to a party shall also be sent to the attention of that party's General Counsel (if to SCT, at 4 Country View Road, Malvern, PA 19355), and additionally, to the Leon County Attorney's Office at 301 South Monroe Street, Tallahassee, FL 32301.

8. Force Majeure. Neither party to this Agreement will be liable to the other for any failure or delay in performance under this Agreement due to circumstances beyond its reasonable control including, without limitation, Acts of God, accident, labor disruption, acts, omissions and defaults

of third parties, and official, governmental and judicial action not the fault of the party failing or delaying in performance.

9. Assignment. The benefits and burdens of each party under this Agreement will not be assignable without the prior written consent of the other party to this Agreement, and any attempt to assign them without that consent will be void. Notwithstanding the foregoing, SCT may assign this Agreement to its successor by merger or consolidation or to any person or entity that acquires all or substantially all of its capital stock or assets; and SCT may assign this Agreement in whole or in part to any person or entity to which it transfers any exclusive rights in the BANNERQuest Software.

10. No Waiver. No failure of either party to this Agreement to prosecute its rights with respect to any single or continuing breach of this Agreement will act as a waiver of the right of that party to later exercise any right or enforce any remedy granted under this Agreement with respect to that same or any other breach of this Agreement by the other party to this Agreement.

11. Choice of Law; Severability. This Agreement will be governed by and construed in accordance with the laws of the State of Florida. If any provision of this Agreement is found invalid or unenforceable, it will be enforced to the maximum extent permissible, and the legality and enforceability of the other provisions of this Agreement will not be affected.

12. LIMITATIONS OF LIABILITY. SCT AND LICENSEE ACKNOWLEDGE AND AGREE THAT IN NO EVENT WILL SCT'S LIABILITY IN CONNECTION WITH THE IMPROVEMENTS OR SERVICES PROVIDED UNDER THIS AGREEMENT, OR ANY OTHER MATTER RELATING TO THIS AGREEMENT, EXCEED THE AMOUNT ACTUALLY PAID TO SCT BY LICENSEE UNDER THIS AGREEMENT FOR THE IMPROVEMENTS FOR THE BANNERQUEST SYSTEM GIVING RISE TO THE LIABILITY IN THE YEAR THAT SUCH LIABILITY ACTUALLY ARISES, AND SCT WILL NOT BE LIABLE FOR ANY SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, INCLUDING WITHOUT LIMITATION LOSS OF PROFITS, LOSS OF DATA, AND LOSS OF REVENUES, EVEN IF INFORMED OF THE POSSIBILITY THEREOF IN ADVANCE. THESE LIMITATIONS APPLY TO ALL CAUSES OF ACTION IN THE AGGREGATE, INCLUDING WITHOUT LIMITATION BREACH OF CONTRACT, BREACH OF WARRANTY, SCT'S NEGLIGENCE, STRICT LIABILITY, MISREPRESENTATION, AND OTHER CAUSES OF ACTION BASED ON SIMILAR LEGAL THEORIES. SCT AND LICENSEE FURTHER ACKNOWLEDGE AND AGREE THAT THEY ARE ENTERING INTO THIS AGREEMENT ON THE UNDERSTANDING THAT THE FEES FOR THE IMPROVEMENTS AND SERVICES TO BE PROVIDED UNDER THIS AGREEMENT HAVE BEEN SET TO REFLECT THE FACT THAT LICENSEE'S REMEDIES, AND SCT'S LIABILITY, SHALL BE LIMITED AS EXPRESSLY SET FORTH IN THIS AGREEMENT, AND IF NOT SO LIMITED, THE FEES FOR THE SAME WOULD HAVE BEEN SUBSTANTIALLY HIGHER.

13. SCT Certification. In accordance with Section 287.133, Florida Statutes, SCT, hereby certifies that neither SCT, nor its affiliates has been convicted of a public entity crime. Violation of this section by SCT, shall be grounds for cancellation of this Agreement by Leon County Commission Governmental Leasing Corporation.

14. Entire Agreement. This Agreement sets forth the entire agreement between the parties with respect to the subject matter hereof, and all prior discussions, representations, proposals, offers and oral or written communications of any nature are entirely superseded hereby and extinguished by the execution of this Agreement. Any purchase order or similar document which may be issued

by Licensee in connection with the Improvements or the services provided under, or any other matter relating to, this agreement shall be for Licensee's internal purposes only and any terms and conditions which may be included in such purchase order or other document shall not modify in any manner any of the terms and conditions of this agreement and shall not bind SCT in any manner and shall be completely ineffective and unenforceable against SCT, even if it is initialed, signed, or acknowledged by a representative of SCT. No modification of, or waiver of any right under, this Agreement will be effective unless it is evidenced in a writing executed by an authorized representative of each party to this Agreement.

IN WITNESS WHEREOF, the parties to this Agreement have executed this Agreement through the signatures of their duly authorized representatives.

SCT TECHNICAL CURRENCY AGREEMENT

This Agreement, made this ___ day of February, 1994, is entered into by and between SCT Public Sector, Inc., a Delaware corporation ("SCT"), and Leon County Commission Governmental Leasing Corporation, for and on behalf of Leon County, Florida (collectively, "Licensee") as of the Effective Date. SCT Public Sector, Inc., recognizes that Leon County, Florida has formed the Leon County Commission Governmental Leasing Corporation to acquire license rights to the Licensed Software and to provide the use of the Licensed Software to Leon County, Florida pursuant to a Master Lease Purchase Agreement between Leon County, Florida and the Leon County Commission Governmental Leasing Corporation ("Master Lease"). The cash proceeds (the "Proceeds") that will ultimately be used by the Leon County Commission Governmental Leasing Corporation to obtain the right to use the Licensed Software as aforesaid have been raised by assigning the Leon County Commission Governmental Leasing Corporation's rights under the Master Lease to an institutional trustee and issuing Certificates of Participation in the Leon County Commission Governmental Leasing Corporation's right to receive lease payments under the Master Lease. Pursuant to the Master Lease and related trust documents, Proceeds may not be expended with respect to any item of the Licensed Software until: (a) the Leon County Commission Governmental Leasing Corporation has acquired license rights therein, (b) such Licensed Software may be made subject to the Master Lease free of any rights of SCT and/or the owner of such Licensed Software, other than as licensor with regard to an item of the Licensed Software; and (c) a Certificate of Acceptance with respect to each item has been executed by the Leon County Commission Governmental Leasing Corporation (collectively, the "Conditions"). Accordingly, if the Conditions cannot be met with respect to any item of the Licensed Software, Leon County, Florida intends to advance funds other than the Proceeds on behalf of the Leon County Commission Governmental Leasing Corporation to make the payments required by this Agreement, subject to the terms and conditions of said Agreement. In such event, when the Conditions are met with respect to the item of the Licensed Software, Proceeds will be applied to reimburse Leon County, Florida for the funds expended by Leon County, Florida in connection therewith, license rights to such item of the Licensed Software will be placed in the name of the Leon County Commission Governmental Leasing Corporation, and such item of the Licensed Software will be made subject to the Master Lease free and clear of any rights of SCT and/or the owner of such Licensed Software, other than as licensor with regard to an item of Licensed Software.

Background

SCT and Licensee have entered into a Software License and Services Agreement Number 10561 (the "SCT License Agreement") for the Licensed Software described in the SCT License Agreement. Licensee desires that SCT provide Maintenance and Enhancements for the Licensed Software on the terms and conditions contained in this Agreement.

Accordingly, the parties agree as follows:

1. Certain Definitions.

(a) Definitions Contained in the SCT License Agreement. The capitalized terms of this Agreement will have the same meanings ascribed to them in the SCT License Agreement, except as such terms are otherwise defined in this Agreement.

(b) Additional Definitions. The following definitions shall also apply:

(i) "Maintenance" means using reasonable efforts to correct documented defects, as that term is defined in the SCT License Agreement, in a TCP System, provided that such defects

are not the result of any changes made to the Licensed Software, other than Improvements provided by SCT under this Agreement.

(ii) "Enhancements" means changes to a TCP System which increase the functionality of the TCP System.

(iii) "SCT Software" means SCT's then current unmodified (other than Improvements provided by SCT under this Agreement) BANNER Finance, BANNER Human Resources, FOCUS Express for BANNER Finance and FOCUS Express for BANNER Human Resources Major Systems licensed by SCT to Licensee under the SCT License Agreement.

(iv) Database Software" means the SCT then-supported unmodified (other than Improvements provided by SCT under this Agreement) version of the database software computer programs developed by Oracle Corporation identified in the SCT License Agreement.

(v) FOCUS Software" means the SCT then-supported unmodified (other than Improvements provided by SCT under this Agreement) version of the computer programs developed by Information Builders, Inc. identified in the SCT License Agreement.

(vi) "TCP System" means any one of the Major Systems of the SCT Software identified in Section 1(b)(iii) above, the FOCUS Software or the Database Software.

(vii) "New Releases" means new editions of a TCP System which represent changes from the previous releases of that TCP System.

(viii) "Improvements" means, collectively, Maintenance, Enhancements and New Releases provided under this Agreement.

(c) Inconsistencies. If there are any inconsistencies between the definitions contained in this Agreement and the definitions contained in the SCT License Agreement, the definitions contained in this Agreement shall apply.

2. Services.

(a) Types of Services. In consideration of Licensee's full payment to SCT of the amounts set forth in Section 3 below, and subject to the terms and conditions set forth in this Agreement, SCT, during the term of this Agreement, agrees to provide to Licensee Maintenance for, Enhancements of, and New Releases of, each TCP System. Subject to the availability of SCT personnel, at Licensee's written request, SCT shall perform any installation, implementation, or other services in connection with the Maintenance, Enhancements, and New Releases provided by SCT under this Agreement, at SCT's then-current hourly rates.

(b) Limitations. SCT's obligations under this Agreement will be limited to the then current release of each TCP System. All Improvements will be part of the TCP System and subject to all of the terms and conditions of the SCT License Agreement and this Agreement. SCT's obligation to provide Licensee with Improvements for those systems of the Licensed Software that are not also systems of the SCT Software shall be limited to providing Licensee with such Improvements as each third party owner thereof provides to SCT for such system(s) of the Licensed Software. SCT's obligations under this Agreement are further conditioned upon Licensee providing SCT, as reasonably necessary for SCT to perform its obligations under this Agreement, with all of the following without charge: (i) the Licensee Environment provided and maintained at Licensee's expense, in good working order and in actual operation at all times at which SCT reasonably requests access thereto for the purpose of rendering the services under this Agreement; (ii) the right for SCT to use the Licensee Environment (including all related software); (iii) remote electronic

capabilities, if available from Licensee; (iv) access to other computer systems of Licensee; (v) access to Licensee's offices and personnel; and (vi) a reasonable amount of space on Licensee's premises for SCT personnel.

(c) Modifications Maintenance. Subject to the availability of SCT personnel, at Licensee's written request, SCT shall provide Maintenance in connection with any modifications made by SCT to the SCT Software (other than Improvements provided under this Agreement) at SCT's then-current hourly rates.

3. Payment and Taxes.

(a) Technical Currency Fees. For the Improvements provided by SCT under this Agreement, Licensee will pay SCT, on September 1, 1995, a fee of $49,200, and on each September 1 thereafter during the term of this Agreement, a fee specified by SCT which will not be more than one hundred ten percent (110%) of the fee due under this Agreement on the immediately preceding September 1.

(b) Additional Costs. If SCT, in its reasonable judgment, determines that a suspected defect is attributable to a cause other than a documented defect, as that term is defined in the SCT License Agreement, in a TCP System, then Licensee shall pay SCT an additional amount for its work performed in connection therewith on a per-hour basis, at SCT's then-current hourly rates. Licensee will also reimburse SCT for all travel, living, freight, and overnight delivery expenses incurred by SCT and/or its personnel in connection with any services provided by SCT in connection with this Agreement.

(c) Taxes. Licensee represents that it is a tax-exempt entity. Notwithstanding the foregoing, however, taxes, other than taxes based on SCT's net income or capital stock, imposed by any taxing authority and based upon or in any way relating to this Agreement, the Improvements or services provided, or payments made under this Agreement shall be the responsibility of Licensee and shall be payable in addition to other fees and charges under this Agreement. Licensee may provide SCT, in lieu of paying any such tax required to be paid by Licensee, with a certificate of exemption in form and substance reasonably satisfactory to SCT; and Licensee may, if permitted by law, contest any such tax required to be paid by it under this Agreement, provided that Licensee has made prior arrangements reasonably satisfactory to SCT so that SCT will suffer no damage or injury as a result of such contest. Licensee, upon request by SCT, shall provide SCT with proof of payment, or exemption from payment, of any tax that Licensee would otherwise be required to pay under or in connection with this Agreement.

(d) Non-Appropriation of Funds. The performance of Leon County Commission Governmental Leasing Corporation of any of its obligations under this Agreement shall be subject to and contingent upon the availability of funds or otherwise lawfully expendable for the purposes of this agreement for the current and future periods. Licensee believes that sufficient funds can be obtained to pay all amounts due SCT under this Agreement. In the event sufficient funds are not appropriated and budgeted or are otherwise legally unavailable by any means whatsoever for Licensee to make payments to SCT for the Improvements, then Licensee will promptly notify SCT of such fact by providing SCT with written notice thereof. Thereupon, SCT's obligations under this Agreement shall be deemed terminated, and Licensee shall remit payment of the fees for the Improvements to SCT on a prorated basis. Notwithstanding the foregoing, Licensee agrees that the provisions of this Section will not apply if any funds are appropriated to it, or by it, for the acquisition, retention or operation of software or services similar in form or function to the Improvements being provided by SCT under this Agreement, and that Licensee will not during the term of this Agreement give priority in the application of funds to any other similar software or services.

4. Term. The initial term of this agreement is for the period commencing on the date set forth on the first page of this Agreement and continuing until September 30, 1997. This Agreement shall thereafter be automatically extended for consecutive one (1) year periods unless either party notifies the other in writing of its intent not to continue this Agreement at least one year prior to the expiration of the then current term.

5. Disclaimer of Warranties. Licensee agrees and understands that except as expressly set forth in this Agreement **SCT MAKES NO WARRANTIES WHATSOEVER, EXPRESSED OR IMPLIED, WITH REGARD TO ANY IMPROVEMENTS, AND THAT SCT EXPLICITLY DISCLAIMS ALL WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. FURTHER, SCT EXPRESSLY DOES NOT WARRANT THAT A TCP SYSTEM OR ANY IMPROVEMENTS WILL BE USABLE BY LICENSEE IF THE TCP SYSTEM HAS BEEN MODIFIED BY ANYONE OTHER THAN SCT, OR WILL BE ERROR-FREE, WILL OPERATE WITHOUT INTERRUPTION OR WILL BE COMPATIBLE WITH ANY HARDWARE OR SOFTWARE (OTHER THAN THE LICENSEE ENVIRONMENT) POSSESSED OR TO BE POSSESSED BY LICENSEE.**

6. Termination. Either party will have the right to terminate this Agreement if the other party breaches or fails to perform any material term or condition of this Agreement. Either party, if it has a right of termination as provided above, may terminate this Agreement at any time while the event or condition giving rise to that right of termination exists, by giving the other written notice of that event or condition and describing that event or condition in reasonable detail. Upon receipt of that notice, the other party will have a period of thirty (30) days in which to cause that event or condition to be corrected or cured to the reasonable satisfaction of the party desiring termination. If the event or condition giving rise to the right of termination is not so corrected or cured within that period, this Agreement will terminate as of the end of that period automatically, without further act by any party. Notwithstanding the foregoing, however, in the event that a party files a voluntary petition in bankruptcy or remains an involuntary petitioner in bankruptcy for a period exceeding ninety (90) days, the other party shall have the right to terminate this Agreement immediately, without further action or delay, by providing the petitioning party with written notice of such termination. Termination of this Agreement by either party in strict accordance with the terms and conditions of this Agreement will be without prejudice to the terminating party's other rights and remedies under this Agreement, both at law in equity.

7. Notices. All notices and other communications required or permitted under this Agreement will be in writing and, except as otherwise provided in this Agreement, will be deemed given when delivered personally, sent by United States registered or certified mail, return receipt requested, or sent by overnight courier to the address shown on the signature page hereof, or to such other place as the parties hereto from time to time may direct. A copy of all notices to a party shall also be sent to the attention of that party's General Counsel (if to SCT, at 4 Country View Road, Malvern, PA 19355), and additionally, to the Leon County Attorney's Office at 301 South Monroe Street, Tallahasee, FL 32301.

8. Force Majeure. Neither party to this Agreement will be liable to the other for any failure or delay in performance under this Agreement due to circumstances beyond its reasonable control including, without limitation, Acts of God, accident, labor disruption, acts, omissions and defaults of third parties, and official, governmental and judicial action not the fault of the party failing or delaying in performance.

9. Assignment. Except as otherwise provided for in this Agreement, the benefits and burdens of each party under this Agreement will not be assignable without the prior written consent of the other party to this Agreement, and any attempt to assign them without that consent will be

void. Notwithstanding the foregoing, SCT may assign this Agreement to its successor by merger or consolidation or to any person or entity that acquires all or substantially all of its capital stock or assets; and SCT may assign this Agreement in whole or in part to any person or entity to which it transfers any exclusive rights in the SCT Software.

10. No Waiver. No failure of either party to this Agreement to prosecute its rights with respect to any single or continuing breach of this Agreement will act as a waiver of the right of that party to exercise later any right or enforce any remedy granted under this Agreement with respect to that same or any other breach of this Agreement by the other party to this Agreement.

11. Choice of Law; Severability. This Agreement will be governed by and construed in accordance with the laws of the State of Florida. If any provision of this Agreement is found invalid or unenforceable, it will be enforced to the maximum extent permissible, and the legality and enforceability of the other provisions of this Agreement will not be affected.

12. LIMITATIONS OF LIABILITY. SCT AND LICENSEE ACKNOWLEDGE AND AGREE THAT IN NO EVENT WILL SCT'S LIABILITY IN CONNECTION WITH THE IMPROVEMENTS OR SERVICES PROVIDED UNDER THIS AGREEMENT, OR ANY OTHER MATTER RELATING TO THIS AGREEMENT, EXCEED THE AMOUNT ACTUALLY PAID TO SCT BY LICENSEE UNDER THIS AGREEMENT FOR THE IMPROVEMENTS IN THE YEAR THAT SUCH LIABILITY ACTUALLY ARISES, AND SCT WILL NOT BE LIABLE FOR ANY SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, INCLUDING WITHOUT LIMITATION LOSS OF PROFITS, LOSS OF DATA, AND LOSS OF REVENUES, EVEN IF INFORMED OF THE POSSIBILITY THEREOF IN ADVANCE. THESE LIMITATIONS APPLY TO ALL CAUSES OF ACTION IN THE AGGREGATE, INCLUDING WITHOUT LIMITATION BREACH OF CONTRACT, BREACH OF WARRANTY, SCT'S NEGLIGENCE, STRICT LIABILITY, MISREPRESENTATION, AND OTHER CAUSES OF ACTION BASED ON SIMILAR LEGAL THEORIES. SCT AND LICENSEE FURTHER ACKNOWLEDGE AND AGREE THAT THEY ARE ENTERING INTO THIS AGREEMENT ON THE UNDERSTANDING THAT THE FEES FOR THE IMPROVEMENTS AND SERVICES TO BE PROVIDED UNDER THIS AGREEMENT HAVE BEEN SET TO REFLECT THE FACT THAT LICENSEE'S REMEDIES, AND SCT'S LIABILITY, SHALL BE LIMITED AS EXPRESSLY SET FORTH IN THIS AGREEMENT, AND IF NOT SO LIMITED, THE FEES FOR THE SAME WOULD HAVE BEEN SUBSTANTIALLY HIGHER.

13. SCT Certification. In accordance with Section 287.133, Florida Statutes, SCT, hereby certifies that neither SCT, nor its affiliates has been convicted of a public entity crime. Violation of this section by SCT, shall be grounds for cancellation of this Agreement by Leon County Commission Governmental Leasing Corporation.

14. Entire Agreement. This Agreement sets forth the entire agreement between the parties with respect to the subject matter hereof, and all prior discussions, representations, proposals, offers and oral or written communications of any nature are entirely superseded hereby and extinguished by the execution of this Agreement. Any purchase order or similar document which may be issued

by Licensee in connection with the Improvements or the services provided under, or any other matter relating to, this Agreement shall be for Licensee's internal purposes only and any terms and conditions which may be included in such purchase order or other document shall not modify in any manner any of the terms and conditions of this Agreement and shall not bind SCT in any manner and shall be completely ineffective and unenforceable against SCT, even if it is initialed, signed, or acknowledged by a representative of SCT. No modification of, or waiver of any right under, this Agreement will be effective unless it is evidenced in a writing executed by an authorized representative of each party to this Agreement.

IN WITNESS WHEREOF, the parties to this Agreement have executed this Agreement through the signatures of their duly authorized representatives.

BANNERQUEST SOFTWARE LICENSE AND SERVICES AGREEMENT

This Agreement Number 10562 is entered into by and between SCT Public Sector, Inc., a Delaware corporation ("SCT"), and Leon County Commission Governmental Leasing Corporation, for and on behalf of Leon County, Florida (collectively, "Licensee") as of the Effective Date. SCT Public Sector, Inc., recognizes that Leon County, Florida has formed the Leon County Commission Governmental Leasing Corporation to acquire license rights to the BANNERQuest Software (as that term is defined below) and to provide the use of the BANNERQuest Software to Leon County, Florida pursuant to a Master Lease Purchase Agreement between Leon County, Florida and the Leon County Commission Governmental Leasing Corporation ("Master Lease"). The cash proceeds (the "Proceeds") that will ultimately be used by the Leon County Commission Governmental Leasing Corporation to obtain the right to use the BANNERQuest Software as aforesaid have been raised by assigning the Leon County Commission Governmental Leasing Corporation's rights under the Master Lease to an institutional trustee and issuing Certificates of Participation in the Leon County Commission Governmental Leasing Corporation's right to receive lease payments under the Master Lease. Pursuant to the Master Lease and related trust documents, Proceeds may not be expended with respect to any item of the BANNERQuest Software until: (a) the Leon County Commission Governmental Leasing Corporation has acquired license rights therein, (b) such BANNERQuest Software may be made subject to the Master Lease free of any rights of SCT and/or the owner of such BANNERQuest Software, other than as licensor with regard to an item of the BANNERQuest Software; and (c) a Certificate of Acceptance with respect to each item has been executed by the Leon County Commission Governmental Leasing Corporation (collectively, the "Conditions"). Accordingly, if the Conditions cannot be met with respect to any item of the BANNERQuest Software, Leon County, Florida intends to advance funds other than the Proceeds on behalf of the Leon County Commission Governmental Leasing Corporation to make the payments required by this Agreement, subject to the terms and conditions of said Agreement. In such event, when the Conditions are met with respect to the item of the BANNERQuest Software, Proceeds will be applied to reimburse Leon County, Florida for the funds expended by Leon County, Florida in connection therewith, license rights to such item of the BANNERQuest Software will be placed in the name of the Leon County Commission Governmental Leasing Corporation, and such item of the BANNERQuest Software will be made subject to the Master Lease free and clear of any rights of SCT and/or the owner of such BANNERQuest Software, other than as licensor with regard to an item of BANNERQuest Software.

The parties to this Agreement agree as follows:

1. Certain Definitions.

(a) "BANNER Agreement" means that certain Software Services and License Agreement between the parties bearing an Effective Date of _____, 1994.

(b) "Equipment" means the configuration identified in the BANNER Agreement.

(c) "BANNERQuest Configuration" means the Equipment as identified in Section 1(b) above, used in a host configuration.

(d) "Intellectual Property Rights" means all patents, patent rights, copyrights, copyright registrations, trade secrets, trademarks, service marks, trademark and service mark registrations, goodwill pertaining to trademarks and service marks, and confidential information.

(e) "Object Code" means computer programs assembled, compiled, or converted to magnetic or electronic binary form on software media, which are readable and usable by computer

equipment, but not generally readable by humans without reverse assembly, reverse compiling, reverse conversion, reverse engineering and/or any other disassembly or decompilation.

(f) "Source Code" means computer programs written in higher-level programming languages, sometimes accompanied by English language comments and other programmer documentation. Source Code is readable by humans and may be translated into Object Code for execution on computer equipment through the process of compiling or assembling or may be executed through the process of interpretation at the time of execution.

(g) "BANNER Software" means the following SCT-proprietary BANNER software system(s) licensed by SCT to Licensee under and strictly subject to the terms and conditions of BANNER Agreement: BANNER Finance, BANNER Human Resources, FOCUS Express for BANNER Finance and FOCUS Express for Human Resources Systems, including all related specifications, documentation, technical information, and all corrections, modifications, additions, improvements and enhancements to any of the foregoing provided to Licensee by SCT.

(h) "BANNERQuest Software" means the Source Code and Object Code for the computer programs and computer coded instructions for the following SCT-proprietary BANNERQuest systems: BANNERQuest Finance and BANNERQuest Human Resources Systems, including all related specifications, documentation, technical information, and all corrections, modifications, additions, improvements and enhancements to any of the foregoing provided to Licensee by SCT.

(i) "BANNERQuest System" means any one of the systems of the BANNERQuest Software.

(j) "NLI Software" means the SCT then-supported version of the following computer programs developed by Natural Language Incorporated (the "NLI Licensor"): Natural Language, NLI Connector and NLI-Oracle Database Interface Module for Natural Language, including all related specifications, documentation, technical information, and all corrections, modifications, additions, improvements and enhancements to any of the foregoing provided to Licensee by SCT or NLI.

(k) "Query List" means the then-current list of English language queries provided by SCT to Licensee.

(l) "Effective Date" means the date identified as such on the signature page of this Agreement.

2. Ownership. SCT owns the BANNERQuest Software, all copies of the BANNERQuest Software, and all Intellectual Property Rights for and in the BANNERQuest Software. NLI owns the NLI Software, all copies of the NLI Software, and all Intellectual Property Rights for and in the NLI Software.

3. License. In consideration of Licensee's full payment of the fees set forth in Section 6 below, SCT hereby grants to Licensee a perpetual, non-exclusive, non-transferable license to use the BANNERQuest Software and the NLI Software subject to the terms and conditions contained in this Agreement. Any rights not expressly granted in this Agreement are expressly prohibited.

(a) Source Code. Licensee shall have the non-exclusive right to copy and use, subject to the provisions of this Agreement, including without limitation Section 3(d) below, the Source Code for the BANNERQuest Software on the BANNERQuest Configuration to compile, modify, improve and enhance the BANNERQuest Software for Licensee's own in-house computing operations.

(b) Object Code. Licensee shall have the non-exclusive right to copy and use, subject to the provisions of this Agreement, the BANNERQuest Software and the NLI Software in Object Code form on the BANNERQuest Configuration for Licensee's in-house computing operations. Licensee may also use the BANNERQuest Software and the NLI Software in Object Code form temporarily on a configuration comparable to the BANNERQuest Configuration, upon prompt written notice to SCT, for disaster recovery of Licensee's computer operations if the BANNERQuest Configuration is inoperative.

(c) Restrictions on Use of the BANNERQuest Software and NLI Software. Except as otherwise first set forth in this Agreement, unless SCT gives its prior written consent, Licensee may not assign, license, or otherwise transfer, voluntarily, by operation of law or otherwise, its right to use the BANNERQuest Software and/or the NLI Software. Licensee may not make the BANNERQuest Software and/or the NLI Software available in any time-sharing, networking, or rental arrangements. Both before and after termination of this Agreement for any reason, Licensee will not permit (i) any person or entity, other than Licensee's employees with a need to know, directly or indirectly to use, have access to or use of all or any part of the BANNERQuest Software and/or the NLI Software, or (ii) all or part of the BANNERQuest Software and/or the NLI Software to be exported outside the United States of America, in any manner or by any means, without in each instance first obtaining SCT's prior written consent and, if required, a validated license from the Office of Export Administration within the United States Department of Commerce and other appropriate governmental authorities.

(d) Restrictions on Use of Source Code. Licensee will not disclose all or any part of the Source Code for the BANNERQuest Software to any person except its employees as reasonably necessary to permit such employees to use the Source Code for the purposes explicitly permitted in this Agreement. Licensee may permit its employees to have access to the Source Code for the BANNERQuest Software only on a need-to-know basis and only if prior to granting such access, each such employee has executed a non-disclosure agreement providing reasonable protection of SCT's trade secrets and other proprietary interests contained in the Source Code, and has been informed in writing of the non-disclosure obligations of Licensee and the employee under this Agreement.

(e) Further Restrictions on Use of NLI Software. Licensee's use of the NLI Software shall be subject to all the additional terms and conditions set forth below:

(i) Licensee acknowledges that the NLI Software is proprietary to NLI and is supplied by SCT under license from NLI. Licensee shall be prohibited from duplicating or disclosing the NLI Software or causing the NLI Software to be duplicated or disclosed, in whole or in part, in violation of the provisions of this Agreement.

(ii) Licensee agrees not to use the NLI Software for any purpose except with the BANNERQuest Software and within the scope of the BANNER Software, in accordance with the restrictions set forth in this Agreement.

(iii) LICENSEE AGREES THAT NLI SHALL NOT BE LIABLE FOR ANY INDIRECT, INCIDENTAL, SPECIAL OR CONSEQUENTIAL DAMAGES ARISING FROM THE LICENSEE'S USE OF THE NLI SOFTWARE OR RELATED MATERIALS.

(iv) NLI MAKES NO WARRANTIES TO LICENSEE. ALL WARRANTIES ARE PROVIDED BY SCT EXPRESSLY AS PROVIDED FOR IN THIS AGREEMENT.

(f) BANNER Software Necessary to Use the BANNERQuest Software and the NLI Software. Licensee acknowledges and understands that in order to use the BANNERQuest Software and the NLI Software, Licensee must have a right to use the BANNER Software, must

have installed the BANNER Software on the Equipment in operational mode as provided for in the BANNER Agreement and must maintain the BANNER Software under SCT's Technical Currency Program.

(g) Intellectual Property Rights Notices. Licensee agrees to include the Intellectual Property Rights notice(s) provided by SCT in the code, or written on labels or containers of the BANNERQuest Software and/or the NLI Software, or on the cover or title page of documentation, in any copy or part thereof made by Licensee. Licensee shall not modify or remove, in any manner, the Intellectual Property rights notice(s) provided by SCT and/or NLI in connection with the BANNERQuest Software and/or the NLI Software.

4. Services.

(a) Implementation/Support. SCT agrees to provide Licensee with Implementation and Support Services in connection with the BANNERQuest Software and the NLI Software, on the terms and conditions contained in this Agreement, for the applicable fees set forth in Exhibit P. Licensee understands and acknowledges that SCT will require both remote access and in-person access to the BANNERQuest Configuration and the Equipment in order to render such Implementation and Support Services, and Licensee agrees to provide SCT with such access, without cost to SCT therefor.

(b) Consulting and Modification Services. Subject to the availability of SCT personnel to provide such services, SCT agrees to provide to Licensee, at Licensee's written request, the services described in Exhibit CS, which is attached to and incorporated in this Agreement by reference, for the fees set forth in Exhibit CS and on the terms and conditions contained in this Agreement. Licensee understands and acknowledges that SCT will require both remote access and in-person access to the Equipment and the BANNERQuest Configuration in order to render such consulting and modification services, and Licensee agrees to provide SCT with such access, without cost to SCT therefor.

5. Delivery. SCT will use its best efforts to deliver the BANNERQuest Software and the NLI Software to Licensee at the address set forth on the signature page of this Agreement within thirty (30) days of the Effective Date. One (1) set of documentation for the BANNERQuest Software and the NLI Software shall be delivered to Licensee. The date on which an BANNERQuest System with NLI Software is first received by Licensee shall be the Delivery Date for that BANNERQuest System with NLI Software.

6. Payment and Taxes.

(a) Payment. For the license of the BANNERQuest Software, the license of the NLI Software, and the performance of the services described in Section 4(a), Licensee will pay SCT in accordance with Exhibit P, which is attached to and incorporated in this Agreement by reference. Travel, living, freight and overnight delivery expenses actually incurred by SCT shall be in additional to the amounts set forth in Exhibit P and any other exhibit of this Agreement, and shall be billed as incurred. Licensee shall pay each invoice under this Agreement by not later than thirty (30) days from the date thereof.

(b) Taxes. Licensee represents that it is a tax-exempt entity. Notwithstanding the foregoing, however, taxes, other than taxes based on SCT's net income or capital stock, imposed by any taxing authority and based upon or in any way relating to this Agreement, the BANNERQuest Software, the NLI Software, services provided or payments made under this Agreement shall be the responsibility of Licensee and shall be payable in addition to other fees and charges under this Agreement. Licensee may provide SCT, in lieu of paying any such tax required to be paid by Licensee, with a certificate of exemption in form and substance reasonably

satisfactory to SCT; and Licensee may, if permitted by law, contest any such tax required to be paid by it under this Agreement, provided that Licensee has made prior arrangements reasonably satisfactory to SCT so that SCT will suffer no damage or injury as a result of such contest. Licensee, upon request by SCT, shall provide SCT with proof of payment, or exemption from payment, of any tax that Licensee would otherwise be required to pay under or in connection with this Agreement.

7. Warranty and Disclaimer of Warranty.

(a) Limited Warranty by SCT. SCT warrants to Licensee for a period of twenty-four (24) months after the Delivery Date of an BANNERQuest System, that the then-current unmodified BANNERQuest System, as used by Licensee on the Equipment at the Location for its in-house computing operations, will operate in all material respects in accordance with the then-current documentation for such BANNERQuest System. SCT warrants to Licensee for a period of twenty-four (24) months after the Delivery Date of the NLI Software, that the unmodified NLI Software, as used by Licensee on the Equipment at the Location for its in-house computing operations, will operate in all material respects in accordance with the then-current documentation for the NLI Software.

(b) Licensee's Remedy for Breach of Warranty. In the event of any breach of the foregoing warranty, SCT, at its own expense, will provide an avoidance procedure for or a correction of each such material defect that is documented by Licensee, as soon as is reasonably practicable. A defect is "documented" if Licensee has provided sufficient information for SCT to reproduce the defect on the then-current unmodified BANNERQuest System or NLI Software, as the case may be, operating on a computer configuration which is identical to or compatible with the BANNERQuest Configuration and which is in SCT's possession and under SCT's control. If, despite reasonable efforts, SCT is unable to provide an avoidance procedure for or a correction of a documented defect, Licensee may pursue its remedy at law to recover direct damages resulting from the breach of warranty, subject to the terms and conditions contained in this Agreement. These remedies are exclusive and are in lieu of all other remedies, and SCT's sole obligations in the event of any breach of warranty will be as stated above.

(c) Disclaimer of Warranty. Licensee agrees and understands that the warranty set forth above is made to Licensee exclusively and is in lieu of all other warranties, and that **SCT MAKES NO OTHER WARRANTIES WHATSOEVER, EXPRESS OR IMPLIED, WITH REGARD TO THE BANNERQUEST SOFTWARE, THE NLI SOFTWARE, OR ANY PARTS THEREOF, AND THAT SCT EXPLICITLY DISCLAIMS ALL WARRANTIES OF MERCHANTABILITY AND OF FITNESS FOR A PARTICULAR PURPOSE. FURTHER, SCT EXPRESSLY DOES NOT WARRANT THAT THE BANNERQUEST SOFTWARE, THE NLI SOFTWARE, OR ANY PARTS THEREOF, WILL BE ERROR FREE, WILL OPERATE WITHOUT INTERRUPTION, WILL ANSWER ANY QUESTION THAT IS NOT CONTAINED IN THE THEN-CURRENT QUERY LIST PROVIDED TO LICENSEE BY SCT OR WILL BE COMPATIBLE WITH ANY HARDWARE OR SOFTWARE (OTHER THAN THE BANNER SOFTWARE) POSSESSED OR TO BE POSSESSED BY LICENSEE.**

(d) Abrogation of Warranty. The warranty set forth above will be null and void if (i) notwithstanding any other provision of this Agreement, any person (including Licensee) attempts to correct or modify any of the BANNERQuest Software or the NLI Software as delivered to Licensee, or (ii) Licensee refuses to implement modifications to the BANNERQuest Software or the NLI Software that SCT or NLI may provide for the purpose of correction or improvement, whether or not required to be provided by SCT or NLI.

8. Confidential Information. Subject to the provisions of the Florida Public Records laws, the party receiving ("Recipient") any confidential information under this Agreement from the other party ("Owner") agrees: (i) to treat the Owner's confidential information as proprietary to the Owner; and (ii) that it will not knowingly disclose to any person or entity not a party to this Agreement, or use for its own or any such person's or entity's benefit, any confidential information of the Owner. In no event will the Recipient use less care to maintain the confidentiality of the Owner's confidential information than the Recipient uses to maintain the confidentiality of its own information of equal importance. The obligations set forth in this Section 8 are subject to the following definitions, terms and conditions:

(a) Definitions. Confidential information of Licensee includes non-public information and data regarding Licensee's administrative methods, administrative plans and data processing. Confidential information of SCT includes the BANNERQuest Software, algorithms, methods, techniques and processes revealed by the Source Code of the BANNERQuest Software, non-public information concerning SCT's business and the terms and provisions of this Agreement. Confidential Information of NLI includes the NLI Software (including the Source Code and Object Code therefor) and the design, implementation, ideas and algorithms therein and therefor.

(b) Exceptions. Confidential information, whether or not described above, does not include information that: (i) is or becomes known to the public without fault or breach of the Recipient; (ii) the Owner regularly discloses to third parties without restriction on disclosure; or (iii) the Recipient receives from a third party without restriction on disclosure and without breach of a non-disclosure obligation.

(c) Survival of Obligations. Notwithstanding the termination of this Agreement, the non-disclosure and non-use obligations set forth above will remain in full force with respect to each item of confidential information of SCT and/or NLI, without limitation as to time.

9. Indemnity by SCT. SCT will defend or settle, at its own expense, any action brought against Licensee to the extent that it is based on a claim that use of the BANNERQuest Software and/or the NLI Software provided by SCT pursuant to this Agreement infringes any United States copyright of others, and SCT will pay any costs, damages and attorneys' fees finally awarded against Licensee in any such action attributable to any such claim; but such defense, settlements and payments are expressly conditioned on the following: (i) that SCT is notified promptly in writing by Licensee of any such claim; (ii) that SCT is granted in writing sole control of the defense of any such claim and of all negotiations for its settlement or compromise; (iii) that Licensee cooperates with SCT in a reasonable way to facilitate the settlement or defense of the claim; (iv) that the claim does not arise from modifications not authorized in writing by SCT or from the use or combination of products provided by SCT with items provided by Licensee or others; and (v) that should the BANNERQuest Software and/or the NLI Software become, or in SCT's opinion be likely to become, the subject of such a claim of infringement, then Licensee will permit SCT, at SCT's option and expense, (A) to procure for Licensee the right to continue using the same under the terms of this Agreement, or (B) to modify (or, in the case of the BANNERQuest Software, to replace) the same so that it becomes non-infringing and substantially equivalent in function, or (C) to refund to Licensee the license fee paid to SCT by Licensee under this Agreement for the BANNERQuest System and/or the NLI Software therefor giving rise to the liability (as applicable), less a charge for use by Licensee based on straight line depreciation assuming a useful life of five (5) years. **THE FOREGOING IS SCT'S EXCLUSIVE OBLIGATION WITH RESPECT TO INFRINGEMENT OF INTELLECTUAL PROPERTY RIGHTS.**

10. Term and Termination. This Agreement will continue in full force and effect except as follows:

(a) Termination by SCT. SCT will have the right to terminate this Agreement if: (i) Licensee fails to honor the restrictions on disclosure and use of SCT's confidential information provided under this Agreement; (ii) Licensee infringes or participates in infringement of SCT's Intellectual Property Rights and/or NLI's Intellectual Property Rights; (iii) Licensee fails to honor the limitations and restrictions on use of the BANNERQuest Software and/or the NLI Software, or any part thereof, as provided in this Agreement; (iv) Licensee files a voluntary petition in bankruptcy or remains an involuntary petitioner in bankruptcy for a period exceeding ninety (90) days; or (v) Licensee breaches or fails to perform any other material term or condition of this Agreement.

(b) Termination by Licensee. Licensee will have the right to terminate this Agreement if: (i) SCT fails to honor the restrictions on disclosure and use of Licensee's confidential information provided under this Agreement; (ii) SCT files a voluntary petition in bankruptcy or remains an involuntary petitioner in bankruptcy for a period exceeding ninety (90) days; or (iii) SCT breaches or fails to perform any other material term or condition of this Agreement.

(c) Procedure for Termination. Either party may terminate this Agreement at any time while the event or condition giving rise to the right of termination exists, by giving the other written notice describing that event or condition in reasonable detail. Upon receipt of that notice, the other party will have a period of thirty (30) days in which to cause that event or condition to be corrected or cured to the reasonable satisfaction of the party desiring termination. If the event or condition giving rise to the right of termination is not so corrected or cured within that period, this Agreement will terminate as of the end of that period automatically, without further act by any party. Notwithstanding the foregoing, however, in the event that a party files a voluntary petition in bankruptcy or remains an involuntary petitioner in bankruptcy for a period exceeding ninety (90) days, the other party shall have the right to terminate this Agreement immediately, without further action or delay, by providing the petitioner/party with written notice of such termination.

(d) Effect of Termination. If this Agreement is properly terminated by either party, Licensee promptly will return to SCT or (at SCT's request) destroy all copies of the BANNERQuest Software and the NLI Software, and will certify to SCT in writing, over the signature of a duly authorized representative of Licensee, that it has done so.

(e) Survival of Obligations. All obligations relating to non-use and non-disclosure of confidential information, indemnity, and the obligations of Licensee to respect the Intellectual Property Rights of SCT and NLI will survive termination of this Agreement for any reason.

(f) Termination Without Prejudice to Other Rights and Remedies. Termination of this Agreement by either SCT or Licensee in accordance with the terms of this Agreement will be without prejudice to the terminating party's other rights and remedies under or in connection with this Agreement, both at law and in equity.

11. Notices. All notices and other communications required or permitted under this Agreement will be in writing and, except as otherwise provided in this Agreement, will be deemed given when delivered personally, sent by United States registered or certified mail, return receipt requested, or sent by overnight courier to the address shown on the signature page hereof, or to such other place as the parties hereto from time to time may direct. A copy of all notices to a party shall also be sent to the attention of that party's General Counsel (if to SCT, at 4 Country View Road, Malvern, PA 19355), and additionally, to the Leon County Attorney's Office at 301 South Monroe Street, Tallahassee, FL 32301.

12. Force Majeure. Neither party to this Agreement will be liable to the other for any failure or delay in performance under this Agreement due to circumstances beyond its reasonable control including, without limitation, Acts of God, accident, labor disruption, acts, omissions and defaults of third parties, and official, governmental and judicial action not the fault of the party failing or delaying in performance.

13. SCT Certification. In accordance with Section 287.133, Florida Statutes, SCT, hereby certifies that neither SCT, nor its affiliates has been convicted of a public entity crime. Violation of this section by SCT, shall be grounds for cancellation of this agreement by Leon County Commission Governmental Leasing Corporation.

14. Non-Appropriation of Funds. The performance of Leon County Commission Governmental Leasing Corporation of any of its obligations under this Agreement shall be subject to and contingent upon the availability of funds or otherwise lawfully expendable for the purposes of this agreement for the current and future periods. Licensee believes that sufficient funds can be obtained to pay all amounts due SCT under this Agreement. In the event sufficient funds are not appropriated and budgeted or are otherwise legally unavailable by any means whatsoever for Licensee to make payments to SCT for the BANNERQuest Software, then Licensee will promptly notify SCT of such fact by providing SCT with written notice thereof. Thereupon, Licensee's license to use the BANNERQuest Software and SCT's obligations in connection therewith shall be deemed terminated, without further action by either party. Any such premature expiration effected pursuant to this Section 14 shall be subject to the provisions of Section 10 of this Agreement. Notwithstanding the foregoing, Licensee agrees that the provisions of this Section 14 will not apply if any funds are appropriated to it, or by it, for the acquisition, retention or operation of software similar in form or function to the BANNERQuest Software being provided by SCT under this Agreement, and that Licensee will not during the term of this Agreement give priority in the application of funds to any other similar software or services.

15. Assignment. The benefits and burdens of each party under this Agreement will not be assignable without the prior written consent of the other party to this Agreement, and any attempt to assign them without that consent will be void. Notwithstanding the foregoing, SCT may assign this Agreement to its successor by merger or consolidation or to any person or entity that acquires all or substantially all of its capital stock or assets; and SCT may assign this Agreement in whole or in part to any person or entity to which it transfers any exclusive rights in the BANNERQuest Software.

16. No Waiver. No failure of either party to this Agreement to prosecute its rights with respect to any single or continuing breach of this Agreement will act as a waiver of the right of that party to later exercise any right or enforce any remedy granted under this Agreement with respect to that same or any other breach of this Agreement by the other party to this Agreement.

17. Choice of Law; Severability. This Agreement will be governed by and construed in accordance with the laws of the State of Florida. If any provision of this Agreement is found invalid or unenforceable, it will be enforced to the maximum extent permissible, and the legality and enforceability of the other provisions of this Agreement will not be affected.

18. LIMITATIONS OF LIABILITY. SCT AND LICENSEE ACKNOWLEDGE AND AGREE THAT IN NO EVENT WILL SCT'S LIABILITY IN CONNECTION WITH THE BANNERQUEST SOFTWARE, THE NLI SOFTWARE, THE SERVICES PROVIDED UNDER THIS AGREEMENT, THIS LICENSE, OR ANY OTHER MATTER RELATING TO THIS AGREEMENT (OTHER THAN EXPRESSLY IN CONNECTION WITH THE INDEMNITY PROVIDED FOR IN SECTION 9 OF THIS AGREEMENT, AND/OR EXPRESSLY FOR BODILY INJURY OR PHYSICAL DAMAGE TO TANGIBLE PERSONAL PROPERTY

DIRECTLY CAUSED BY THE NEGLIGENT ACTS OF SCT EMPLOYEES, FOR WHICH ACTS SCT'S LIABILITY SHALL INSTEAD AND NOT ADDITIONALLY BE LIMITED TO THE INSURANCE PROCEEDS AVAILABLE UNDER THE POLICIES OF INSURANCE THAT SCT MAINTAINS FOR SUCH LIABILITY) EXCEED THE AMOUNT ACTUALLY PAID TO SCT BY LICENSEE UNDER THIS AGREEMENT FOR THE LICENSE FEE FOR THE BANNERQUEST SYSTEM AND THE NLI SOFTWARE GIVING RISE TO THE LIABILITY AND SCT WILL NOT BE LIABLE FOR ANY SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, INCLUDING WITHOUT LIMITATION LOSS OF PROFITS, LOSS OF DATA, AND LOSS OF REVENUES, EVEN IF INFORMED OF THE POSSIBILITY THEREOF IN ADVANCE. THESE LIMITATIONS APPLY TO ALL CAUSES OF ACTION IN THE AGGREGATE, INCLUDING WITHOUT LIMITATION BREACH OF CONTRACT, BREACH OF WARRANTY, SCT'S NEGLIGENCE, STRICT LIABILITY, MISREPRESENTATION, AND OTHER CAUSES OF ACTION BASED ON SIMILAR LEGAL THEORIES. SCT AND LICENSEE FURTHER ACKNOWLEDGE AND AGREE THAT THEY ARE ENTERING INTO THIS AGREEMENT ON THE UNDERSTANDING THAT THE FEES FOR THE BANNERQUEST SOFTWARE, THE NLI SOFTWARE, AND THE SERVICES TO BE PROVIDED UNDER THIS AGREEMENT HAVE BEEN SET TO REFLECT THE FACT THAT LICENSEE'S REMEDIES, AND SCT'S LIABILITY, SHALL BE LIMITED AS EXPRESSLY SET FORTH IN THIS AGREEMENT, AND IF NOT SO LIMITED, THE FEES FOR THE SAME WOULD HAVE BEEN SUBSTANTIALLY HIGHER.

(REMAINDER OF PAGE INTENTIONALLY LEFT BLANK)

19. Entire Agreement. This Agreement sets forth the entire agreement between the parties with respect to the subject matter hereof, and all prior discussions, representations, proposals, offers and oral or written communications of any nature are entirely superseded hereby and extinguished by the execution of this Agreement. Any purchase order or similar document which may be issued by Licensee in connection with the BANNERQuest Software, the NLI Software, the license thereof, the services provided, or any other matter relating to this agreement shall be for Licensee's internal purposes only and any terms and conditions which may be included in such purchase order or other document shall not modify in any manner any of the terms and conditions of this Agreement and shall not bind SCT in any manner and shall be completely ineffective and unenforceable against SCT, even if it is initialed, signed, or acknowledged by a representative of SCT. No modification hereof or waiver of any right under this Agreement will be effective unless it is evidenced in a writing executed by an authorized representative of each party to this Agreement.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement, through the signatures of their duly authorized representatives.

EXHIBIT P

Payment Schedule

Licensee's cost for the license of the BANNERQuest Software, the NLI Software, and the services rendered pursuant to this Agreement is as follows:

Deliverable	Cost
BANNERQUEST SOFTWARE AND SERVICES:	
BANNERQuest for Finance System License Fee	$37,500
BANNERQuest for Human Resources System License Fee	$27,000
IMPLEMENTATION/SUPPORT SERVICES:	
BANNERQuest Finance Resources System (one (1) person-day)	$1,000
BANNERQuest Human Resources System (one (1) person-day)	$1,000

Payment of the license fee for each BANNERQuest System with NLI Software shall be made by Licensee to SCT as follows: Thirty (30%) percent by not later than thirty (30) days after the Effective Date; an additional thirty (30%) percent by not later than ninety (90) days after the Effective Date; an additional thirty (30%) percent by not later than one hundred eighty (180) days after the Effective Date; and the remaining ten (10%) percent by not later than two hundred seventy (270) days after the Effective Date.

Implementation and Support Services and Customization Services (Exhibit CS) shall be invoiced monthly, as such services are rendered, together with travel, living, freight, and overnight delivery expenses, and shall be paid by Licensee to SCT by not later than thirty (30) days from the date of invoice therefor.

EXHIBIT CS

Customization Services

I. Generation of Specifications for Modifications to BANNERQuest Software

A. Interview Licensee personnel to determine changes desired to be made to BANNERQuest Software as delivered by SCT.

B. Generate revised functional and technical specifications in a System Modification Requirements ("SMR") document, which will also contain cost and schedule estimates for SCT to implement such changes.

II. Modifications

SCT will modify and test the BANNERQuest Software to the extent proposed in any SMR document generated pursuant to the provisions of this Exhibit CS.

III. Rate - The rate of $125 per hour shall apply for one (1) year from the Effective Date, after which time SCT may increase such rates upon notice to Licensee.

Re: Amendment to SCT Software License and Services Agreement

Dear Mr. Roberts:

This letter amends the Software License and Services Agreement dated February 23, 1994, as previously amended, ("Agreement") between SCT Government Systems, Inc. ("SCT") and Leon County, Florida ("Licensee") expressly as provided below. All terms and conditions of the Agreement, including all defined terms, are reaffirmed and incorporated in this letter by reference as if fully set forth below, except where such terms and conditions would conflict with the provisions of this letter. If any provision of the Agreement conflicts with any provision of this letter, the provision of this letter will be superseding and controlling.

Notwithstanding anything contained in the Agreement to the contrary, solely with respect to the Developer/2000 software licensed as part of the Oracle Database Software, Licensee shall be permitted to use such Developer/2000 software on server or client configurations for the number of users as defined in the Agreement.

The Agreement, as expressly amended by this letter, constitutes the entire understanding of the parties as regards the subject matter hereof and cannot be modified except by written agreement of the parties. Please have both copies of this letter countersigned on behalf of Licensee and return one (1) original to the attention of Ann Hughes, Contracts Administrator at the address listed below. Please call Sheila Marcello at 716-467-7983 ext. 388 should you have any questions.

SOFTWARE LICENSE AND SERVICES AGREEMENT

This Agreement Number 10561 is entered into by and between SCT Public Sector, Inc., a Delaware corporation ("SCT"), and Leon County Commission Governmental Leasing Corporation, for and on behalf of Leon County, Florida (collectively, "Licensee") as of the Effective Date. SCT Public Sector, Inc., recognizes that Leon County, Florida has formed the Leon County Commission Governmental Leasing Corporation to acquire license rights to the Licensed Software (as that term is defined below) and to provide the use of the Licensed Software to Leon County, Florida pursuant to a Master Lease Purchase Agreement between Leon County, Florida and Leon County Commission Governmental Leasing Corporation ("Master Lease"). The cash proceeds (the "Proceeds") that will ultimately be used by the Leon County Commission Governmental Leasing Corporation to obtain the right to use the Licensed Software as aforesaid have been raised by assigning the Leon County Commission Governmental Leasing Corporation's rights under the Master Lease to an institutional trustee and issuing Certificates of Participation in the Leon County Commission Governmental Leasing Corporation's right to receive lease payments under the Master Lease. Pursuant to the Master Lease and related trust documents, Proceeds may not be expended with respect to any item of the Licensed Software until: (a) the Leon County Commission Governmental Leasing Corporation has acquired license rights therein, (b) such Licensed Software may be made subject to the Master Lease free of any rights of SCT and/or the owner of such Licensed Software, other than as licensor with regard to an item of the Licensed Software; and (c) a Certificate of Acceptance with respect to each item has been executed by the Leon County Commission Governmental Leasing Corporation (collectively, the "Conditions"). Accordingly, if the Conditions cannot be met with respect to any item of the Licensed Software, Leon County, Florida intends to advance funds other than the Proceeds on behalf of the Leon County Commission Governmental Leasing Corporation to make the payments required by this Agreement, subject to the terms and conditions of said Agreement. In such event, when the Conditions are met with respect to the item of the Licensed Software, Proceeds will be applied to reimburse Leon County, Florida for the funds expended by Leon County, Florida in connection therewith, license rights to such item of the Licensed Software will be placed in the name of the Leon County Commission Governmental Leasing Corporation, and such item of the Licensed Software will be made subject to the Master Lease free and clear of any rights of SCT and/or the owner of such Licensed Software, other than as licensor with regard to an item of Licensed Software.

The parties to this Agreement agree as follows:

1. Certain Definitions.

(a) "Equipment" means one (1) DEC VAX Model 4000-400 using an VMS operating system and having a Licensed Software limitation of fifty-six (56) concurrent users, at the Location.

(b) "Intellectual Property Rights" means all patents, patent rights, copyrights, copyright registrations, trade secrets, trademarks, service marks, trademark and service mark registrations, goodwill pertaining to trademarks and service marks, and confidential information.

(c) "Location" means Licensee's administrative computing facility located at Leon County Courthouse, 301 S. Monroe Street, Tallahassee, Florida 32301.

(d) "Object Code" means computer programs assembled, compiled, or converted to magnetic or electronic binary form on software media, which are readable and usable by computer equipment, but not generally readable by humans without reverse assembly, reverse compiling, reverse conversion, or reverse engineering.

(e) "Source Code" means computer programs written in higher-level programming languages, sometimes accompanied by English language comments and other programmer documentation. Source Code is readable by humans and may be translated into Object Code for execution on computer equipment through the process of compiling or assembling or may be executed through the process of interpretation at the time of execution.

(f) "SCT Software" means the Source Code and Object Code for the computer programs and computer coded instructions for the following SCT-proprietary Major Systems: BANNER Finance System, BANNER Human Resources System, FOCUS Express for Finance System and FOCUS Express for Human Resources System including all related specifications, documentation, technical information, and all corrections, modifications, additions, improvements and enhancements to any of the foregoing provided to Licensee by SCT.

(g) "Major System" means any one of the systems of the SCT Software identified in Section 1(f) above.

(h) "Database Software" means the SCT then-supported version of the Object Code for the following computer programs developed by Oracle Corporation (the "Database Licensor"): RDBMS (including SQL*Loader and SQL*Report), SQL*Forms, SQL*Plus, PRO*COBOL, PRO*C and the transaction processing option database software, including all related specifications, documentation, technical information and all corrections, modifications, additions, improvements and enhancements to any of the foregoing provided to Licensee by SCT or the Database Licensor, subject to the restrictions and limitations set forth in Section 3(e) of this Agreement.

(i) "Effective Date" means the date identified as such on the signature page of this Agreement.

(j) "FOCUS Software" means the SCT then-supported version of the Object Code for the computer programs developed by Information Builders, Inc. (the "FOCUS Licensor"), referred to as the FOCUS ReportWriter, including the Oracle Interface, including all related specifications, documentation, technical information, and all corrections, modifications, additions, improvements and enhancements to any of the foregoing provided to Licensee by SCT or the FOCUS Licensor, subject to the restrictions and limitations set forth in Section 3(f) of this Agreement. .

(k) "Licensed Software" means the SCT Software, the FOCUS Software and the Database Software.

2. Ownership. SCT owns the SCT Software, all copies of the SCT Software, and all Intellectual Property Rights for and in the SCT Software. The respective third party owner of each of the other systems of the Licensed Software owns all copies thereof and all Intellectual Property Rights therefor and therein.

3. License. In consideration of Licensee's full payment of the fees set forth in Section 6 below, SCT hereby grants to Licensee a perpetual, non-exclusive, non-transferable license to use the Licensed Software subject to the terms and conditions contained in this Agreement. Any rights not expressly granted in this Agreement are expressly prohibited.

(a) Source Code. Licensee shall have the non-exclusive right to copy and use, subject to the provisions of this Agreement, including without limitation Section 3(d) below, the Source Code for the SCT Software on the Equipment at the Location to compile, modify, improve and enhance the SCT Software for Licensee's own in-house computing operations.

(b) Object Code. Licensee shall have the non-exclusive right to copy and use, subject to the provisions of this Agreement, the Licensed Software in Object Code form on the Equipment at the Location for Licensee's in-house computing operations. Licensee may also use the Licensed Software in Object Code form temporarily on a configuration comparable to the Equipment, either at the Location or at a site other than the Location, upon prompt written notice to SCT, for disaster recovery of Licensee's computer operations if the Equipment is inoperative.

(c) Restrictions on Use of the Licensed Software. Except as otherwise first set forth in this Agreement, unless SCT gives its prior written consent, Licensee may not assign, license, or otherwise transfer, voluntarily, by operation of law or otherwise, its right to use the Licensed Software. Licensee may not make the Licensed Software available in any commercial time-sharing, commercial networking, or rental arrangements. Both before and after termination of this Agreement for any reason, Licensee will not permit (i) any person or entity, other than Licensee's employees with a need to know, directly or indirectly to use, have access to or use of all or any part of the Licensed Software, or (ii) all or part of the Licensed Software to be exported outside the United States of America, in any manner or by any means, without in each instance first obtaining SCT's prior written consent and, if required, a validated license from the Office of Export Administration within the United States Department of Commerce and other appropriate governmental authorities of the United States.

(d) Restrictions on Use of Source Code. Licensee will not disclose all or any part of the Source Code to any person except its employees as reasonably necessary to permit such employees to use the Source Code for the purposes explicitly permitted in this Agreement. Licensee may permit its employees to have access to the Source Code only on a need-to-know basis and only if prior to granting such access, each such employee has executed a non-disclosure agreement providing reasonable protection of SCT's trade secrets and other proprietary interests contained in the Source Code, and has been informed in writing of the non-disclosure obligations of Licensee and the employee under this Agreement.

(e) Restrictions on Use of Database Software. Licensee's use of the Database Software shall be subject to all the additional terms and conditions set forth below:

(i) Licensee has the right to use the Database Software only in Object Code form, only on the Equipment at the Location, and only for Licensee's internal data processing. Licensee may use a backup copy of the Database Software in the event of machine malfunction and for permanent transfer of the licensed material to a replacement copy of the Database Software;

(ii) Licensee is prohibited from transfer or duplicating the Database Software except and for temporary transfer in the event of Equipment malfunction and in order to make a single backup or archival copy of the Database Software;

(iii) Licensee is prohibited from assigning its license to use the Database Software in whole or in part and is prohibited from making the Database Software available in any timesharing or rental arrangement, in whole or in part;

(iv) Licensee agrees not to use the Database Software for any purpose except within the scope of the SCT Software, in accordance with the restrictions set forth in this Agreement. Licensee may use the Database Software to customize the SCT Software as required, including changing forms through the use of SQL*Forms and creating and altering tables that the SCT Software uses. Licensee shall not use the Database Software to expand the SCT Software beyond the scope provided and supported by SCT;

(v) Licensee is prohibited from causing or permitting the reverse engineering, disassembly or decompilation of the Database Software, in whole or in part;

(vi) Licensee acknowledges that the Database Software is proprietary to the Database Licensor and is supplied by SCT under license from the Database Licensor. Title to the Database Software shall at all times remain vested in the Database Licensor or its designated successor. Except for the right of use that is expressly provided to Licensee under this Agreement, no right, title or interest in or to the Database Software is granted to Licensee;

(vii) Licensee agrees that the Database Licensor shall not be liable for any damages, whether direct, indirect, incidental, special, or consequential, arising from the Licensee's use of the Database Software or related materials;

(viii) At the termination of this Agreement for any cause whatsoever, Licensee shall discontinue its use of the Database Software and shall deliver the Database Software, including all archival or other copies of the Database Software, to SCT in accordance with the provisions of Section 10(d) below and shall forfeit all rights to use the Database Software in any way;

(ix) Licensee is prohibited from publishing any result of any benchmark tests which compare the Database Software to other database software programs;

(x) Licensee is prohibited from exporting or permitting the export of all or any part of the Database Software outside the United States of America, in any manner or by any means;

(xi) Licensee acknowledges and agrees that the Database Licensor is a third party beneficiary of this Agreement;

(xii) Licensee acknowledges and understands that the Database Software is not specifically developed or licensed for use in any nuclear, aviation, mass transit or medical application or in any other inherently dangerous application.

(f) Restrictions on Use of FOCUS Software. Licensee's use of the FOCUS Software shall be subject to all of the additional terms and conditions set forth below:

(i) Licensee agrees not to use the FOCUS Software for any purpose except with one or more of the Major Systems of the SCT Software and is prohibited from using the FOCUS Software for purposes of expanding the SCT Software beyond the scope provided and supported by SCT;

(ii) Licensee agrees not to use the FOCUS Software except on the Equipment at the Location for Licensee's own internal data processing;

(iii) Licensee agrees not to transfer or duplicate the FOCUS Software except for temporary transfer in the event of an Equipment malfunction and to create a reasonable number of backup and archival copies;

(iv) Licensee will not assign its right to use the FOCUS Software, and will not make the FOCUS Software available in any timesharing or rental arrangement;

(v) Licensee is prohibited from causing or permitting the reverse engineering, disassembly or decompilation of the FOCUS Software;

(vi) Licensee acknowledges that the FOCUS Software is proprietary to the FOCUS Licensor and is supplied by SCT under license from the FOCUS Licensor. Title to the FOCUS Software shall at all times remain vested in the FOCUS Licensor or its designated

successor. Nothing in this Agreement shall be construed to allow title of the FOCUS Software to pass to the Licensee;

(vii) LICENSEE AGREES THAT THE FOCUS LICENSOR SHALL NOT BE LIABLE FOR ANY DAMAGES, WHETHER DIRECT, INDIRECT, INCIDENTAL OR CONSEQUENTIAL, ARISING FROM ANY USE OF THE FOCUS SOFTWARE;

(viii) Licensee shall, at the termination of the sublicense of the FOCUS Software under this Agreement for any reason, discontinue use of the FOCUS Software and destroy or return to SCT all copies (including archival and all other copies) of the FOCUS Software and all copies of any written material furnished by the FOCUS Licensor or by SCT to Licensee in conjunction with the FOCUS Software, including instructions and user guides;

(ix) Licensee acknowledges and agrees that the FOCUS Licensor is a third party beneficiary of the license of the FOCUS Software granted to Licensee under this Agreement.

(f) Software Necessary to Use the SCT Software. Licensee acknowledges and understands that in order to use any of the Major Systems, Licensee must also obtain the right to use and must maintain and have installed on the Equipment: the Database Software; a COBOL Compiler compatible with the Equipment and the Database Software (specifically, if available for the Equipment, MicroFocus COBOL), either licensed directly from MicroFocus or from the Equipment vendor under a different product name; a "C" Compiler that is both compatible with the Equipment and the Database Software and has been approved in writing by SCT (Licensee shall identify the "C" compiler in a writing provided to SCT as soon as reasonably practicable for SCT's approval or disapproval); and a C programming/development environment to facilitate the installation of the Database Software and the C compiler.

(g) Intellectual Property Rights Notices. Licensee agrees to include the Intellectual Property Rights notice(s) provided by SCT in the code, or written on labels or containers of the Licensed Software, or on the cover or title page of documentation, in any copy or part thereof made by Licensee. Licensee shall not modify or remove, in any manner, the Intellectual Property rights notice(s) provided by SCT in connection with the Licensed Software.

4. Services.

(a) Implementation/Support. SCT agrees to perform the Implementation/Support services specified in Exhibit IS, which is attached to and incorporated in this Agreement by reference, on the terms and conditions contained in this Agreement, for the applicable fees set forth in Exhibit P.

(b) Consulting and Modification Services. Subject to the availability of SCT personnel to provide such services, SCT agrees to provide to Licensee, at Licensee's written request, the services described in Exhibit CS, which is attached to and incorporated in this Agreement by reference, for the fees set forth in Exhibit CS and on the terms and conditions contained in this Agreement.

5. Delivery. SCT will use its best efforts to deliver the Licensed Software to Licensee at the Location within thirty (30) days of the Effective Date. One (1) set of documentation for the Licensed Software shall be delivered to Licensee. The date on which a system of the Licensed Software is first received by Licensee at the Location shall be the Delivery Date for that system.

6. Payment and Taxes.

(a) Payment. For the license of the Licensed Software, and the performance of the services described in Section 4(a), Licensee will pay SCT in accordance with Exhibit P, which is attached

to and incorporated in this Agreement by reference. Travel, living, freight, and overnight delivery expenses actually incurred by SCT shall be in addition to the amounts set forth in Exhibit P and any other exhibit of this Agreement, and shall be billed as incurred. Licensee shall pay each invoice under this Agreement by not later than thirty (30) days from the date thereof.

(b) Taxes. Licensee represents that it is a tax-exempt entity. Notwithstanding the foregoing, however, taxes, other than taxes based on SCT's net income or capital stock, imposed by any taxing authority and based upon or in any way relating to this Agreement, the Licensed Software, services provided or payments made under this Agreement shall be the responsibility of Licensee and shall be payable in addition to other fees and charges under this Agreement. Licensee may provide SCT, in lieu of paying any such tax required to be paid by Licensee, with a certificate of exemption in form and substance reasonably satisfactory to SCT; and Licensee may, if permitted by law, contest any such tax required to be paid by it under this Agreement, provided that Licensee has made prior arrangements reasonably satisfactory to SCT so that SCT will suffer no damage or injury as a result of such contest. Licensee, upon request by SCT, shall provide SCT with proof of payment, or exemption from payment, of any tax that Licensee would otherwise be required to pay under or in connection with this Agreement.

(c) Performance Bond. SCT agrees to post a performance bond, which bond shall be issued by a reputable bonding company authorized to do business in the State of Florida, in an amount not less in face value than one hundred percent (100%) of the sum total of the amounts set forth in Exhibit P. SCT shall post such performance bond by not later than the tenth (10th) business day after SCT's receipt of a fully executed original of this Agreement. Such performance bond shall remain posted until the earlier of: (i) the implementation of the Licensed Software as described in the project plan to be developed by the parties as provided for in Exhibit IS of this Agreement; and (ii) (4) years from the Effective Date.

7. Warranty and Disclaimer of Warranty.

(a) Limited Warranty by SCT. SCT warrants to Licensee for a period of twenty-four (24) months after the Delivery Date of a system of the Licensed Software that the then current unmodified system of the Licensed Software, as used by Licensee on the Equipment at the Location for its in-house computing operations, will operate in all material respects in accordance with the then current documentation for the applicable system of the Licensed Software.

(b) Licensee's Remedy for Breach of Warranty. In the event of any breach of the foregoing warranty, SCT, at its own expense, will provide an avoidance procedure for or a correction of each such material defect that is documented by Licensee, as soon as is reasonably practicable. A defect is "documented" if Licensee has provided sufficient information for SCT to reproduce the defect on the then current unmodified system of the Licensed Software, operating on a computer configuration which is identical to or compatible with the Equipment and which is in SCT's possession and under SCT's control. If, despite reasonable efforts, SCT is unable to provide an avoidance procedure for or a correction of a documented defect, Licensee may pursue its remedy at law to recover direct damages resulting from the breach of warranty, subject to the terms and conditions contained in this Agreement. These remedies are exclusive and are in lieu of all other remedies, and SCT's sole obligations in the event of any breach of warranty will be as stated above.

(c) Disclaimer of Warranty. Licensee agrees and understands that the warranty set forth above is made to Licensee exclusively and is in lieu of all other warranties, and that **SCT MAKES NO OTHER WARRANTIES WHATSOEVER, EXPRESS OR IMPLIED, WITH REGARD TO THE LICENSED SOFTWARE, OR ANY PARTS THEREOF, AND THAT SCT EXPLICITLY DISCLAIMS ALL WARRANTIES OF MERCHANTABILITY AND OF FITNESS FOR A PARTICULAR PURPOSE.**

FURTHER, SCT EXPRESSLY DOES NOT WARRANT THAT THE LICENSED SOFTWARE, OR ANY PARTS THEREOF, WILL BE ERROR FREE, WILL OPERATE WITHOUT INTERRUPTION OR WILL BE COMPATIBLE WITH ANY HARDWARE OR SOFTWARE (OTHER THAN THE LICENSEE ENVIRONMENT IDENTIFIED IN EXHIBIT IS) POSSESSED OR TO BE POSSESSED BY LICENSEE.

(d) Abrogation of Warranty. The warranty set forth above will be null and void if (i) notwithstanding any other provision of this Agreement, any person (including Licensee) attempts to correct or modify any of the Licensed Software as delivered to Licensee, or (ii) Licensee refuses to implement modifications to the Licensed Software that SCT, the FOCUS Licensor and/or the Database Licensor may provide for the purpose of correction or improvement, whether or not required to be provided by SCT or the FOCUS Licensor.

8. Confidential Information. Subject to the provisions of the Florida Public Records laws, the party receiving ("Recipient") any confidential information under this Agreement from the other party ("Owner") agrees: (i) to treat the Owner's confidential information as proprietary to the Owner; and (ii) that it will not knowingly disclose to any person or entity not a party to this Agreement, or use for its own or any such person's or entity's benefit, any confidential information of the Owner. In no event will the Recipient use less care to maintain the confidentiality of the Owner's confidential information than the Recipient uses to maintain the confidentiality of its own information of equal importance. The obligations set forth in this Section 8 are subject to the following definitions, terms and conditions:

(a) Definitions. Confidential information of Licensee includes non-public information and data regarding Licensee's administrative methods, administrative plans and data processing. Confidential information of SCT includes the Licensed Software, algorithms, methods, techniques and processes revealed by the Source Code of the SCT Software, non-public information concerning SCT's business and the terms and provisions of this Agreement.

(b) Exceptions. Confidential information, whether or not described above, does not include information that: (i) is or becomes known to the public without fault or breach of the Recipient; (ii) the Owner regularly discloses to third parties without restriction on disclosure; or (iii) the Recipient receives from a third party without restriction on disclosure and without breach of a non-disclosure obligation.

(c) Survival of Obligations. Notwithstanding the termination of this Agreement, the non-disclosure and non-use obligations set forth above will remain in full force with respect to each item of confidential information for a period of ten (10) years after the first receipt of that item by the Recipient.

9. Indemnity by SCT. SCT will defend or settle, at its own expense, any action brought against Licensee to the extent that it is based on a claim that use of any system of the Licensed Software provided by SCT pursuant to this Agreement infringes any United States copyright of others, and SCT will pay any costs, damages and attorneys' fees finally awarded against Licensee in any such action attributable to any such claim; but such defense, settlements and payments are expressly conditioned on the following: (i) that SCT is notified promptly in writing by Licensee of any such claim; (ii) that SCT is granted in writing sole control of the defense of any such claim and of all negotiations for its settlement or compromise; (iii) that Licensee cooperates with SCT in a reasonable way to facilitate the settlement or defense of the claim; (iv) that the claim does not arise from modifications not authorized in writing by SCT or from the use or combination of products provided by SCT with items provided by Licensee or others; and (v) that should any system of the Licensed Software become, or in SCT's opinion be likely to become, the subject of such a claim of infringement, then Licensee will permit SCT, at SCT's option and expense, (A) to procure for

Licensee the right to continue using the same under the terms of this Agreement, or (B) to replace or modify the same so that it becomes non-infringing and substantially equivalent in function, or (C) to refund to Licensee the license fee paid to SCT by Licensee under this Agreement for the system of the Licensed Software giving rise to the liability (as applicable), less a charge for use by Licensee based on straight line depreciation assuming a useful life of five (5) years. **THE FOREGOING IS SCT'S EXCLUSIVE OBLIGATION WITH RESPECT TO INFRINGEMENT OF INTELLECTUAL PROPERTY RIGHTS.**

10. Term and Termination. This Agreement will continue in full force and effect except as follows:

(a) Termination by SCT. SCT will have the right to terminate this Agreement if: (i) Licensee fails to honor the restrictions on disclosure and use of SCT-owned or provided confidential information provided under this Agreement; (ii) Licensee infringes or participates in infringement of SCT-owned or provided Intellectual Property Rights; (iii) Licensee fails to honor the limitations and restrictions on use of the Licensed Software, or any part thereof, as provided in this Agreement; (iv) Licensee files a voluntary petition in bankruptcy or remains an involuntary petitioner in bankruptcy for a period exceeding ninety (90) days; or (v) Licensee breaches or fails to perform any other material term or condition of this Agreement.

(b) Termination by Licensee. Licensee will have the right to terminate this Agreement if: (i) SCT fails to honor the restrictions on disclosure and use of Licensee's confidential information provided under this Agreement; (ii) SCT files a voluntary petition in bankruptcy or remains an involuntary petitioner in bankruptcy for a period exceeding ninety (90) days; or (iii) SCT breaches or fails to perform any other material term or condition of this Agreement.

(c) Procedure for Termination. Either party may terminate this Agreement at any time while the event or condition giving rise to the right of termination exists, by giving the other written notice describing that event or condition in reasonable detail. Upon receipt of that notice, the other party will have a period of thirty (30) days in which to cause that event or condition to be corrected or cured to the reasonable satisfaction of the party desiring termination. If the event or condition giving rise to the right of termination is not so corrected or cured within that period, this Agreement will terminate as of the end of that period automatically, without further act by any party. Notwithstanding the foregoing, however, in the event that a party files a voluntary petition in bankruptcy or remains an involuntary petitioner in bankruptcy for a period exceeding ninety (90) days, the other party shall have the right to terminate this Agreement immediately, without further action or delay, by providing the petitioner/party with written notice of such termination.

(d) Effect of Termination. If this Agreement is properly terminated by either party, Licensee promptly will return to SCT or (at SCT's request) destroy all copies of the Licensed Software, and will certify to SCT in writing, over the signature of a duly authorized representative of Licensee, that it has done so.

(e) Survival of Obligations. All obligations relating to non-use and non-disclosure of confidential information, indemnity, and the obligations of Licensee to respect SCT-owned/provided Intellectual Property Rights will survive termination of this Agreement for any reason.

(f) Termination Without Prejudice to Other Rights and Remedies. Termination of this Agreement by either SCT or Licensee in accordance with the terms of this Agreement will be without prejudice to the terminating party's other rights and remedies under or in connection with this Agreement, both at law and in equity.

11. Notices. All notices and other communications required or permitted under this Agreement will be in writing and, except as otherwise provided in this Agreement, will be deemed given when delivered personally, sent by United States registered or certified mail, return receipt requested, or sent by overnight courier to the address shown on the signature page hereof, or to such other place as the parties hereto from time to time may direct. A copy of all notices to a party shall also be sent to the attention of that party's General Counsel (if to SCT, at 4 Country View Road, Malvern, PA 19355), and additionally, to the Leon County Attorney's Office at 301 South Monroe Street, Tallahasee, FL 32301.

12. Force Majeure. Neither party to this Agreement will be liable to the other for any failure or delay in performance under this Agreement due to circumstances beyond its reasonable control including, without limitation, Acts of God, accident, labor disruption, acts, omissions and defaults of third parties, and official, governmental and judicial action not the fault of the party failing or delaying in performance.

13. SCT Certification. In accordance with Section 287.133, Florida Statutes, SCT, hereby certifies that neither SCT, nor its affiliates has been convicted of a public entity crime. Violation of this section by SCT, shall be grounds for cancellation of this agreement by Leon County Commission Governmental Leasing Corporation.

14. Non-Appropriation of Funds. The performance of Leon County Commission Governmental Leasing Corporation of any of its obligations under this Agreement shall be subject to and contingent upon the availability of funds or otherwise lawfully expendable for the purposes of this agreement for the current and future periods. Licensee believes that sufficient funds can be obtained to pay all amounts due SCT under this Agreement. In the event sufficient funds are not appropriated and budgeted or are otherwise legally unavailable by any means whatsoever for Licensee to make payments to SCT for the Licensed Software, then Licensee will promptly notify SCT of such fact by providing SCT with written notice thereof. Thereupon, Licensee's license to use the Licensed Software and SCT's obligations in connection therewith shall be deemed terminated, without further action by either party. Any such premature expiration effected pursuant to this Section 14 shall be subject to the provisions of Section 10 of this Agreement. Notwithstanding the foregoing, Licensee agrees that the provisions of this Section 14 will not apply if any funds are appropriated to it, or by it, for the acquisition, retention or operation of software similar in form or function to the Licensed Software being provided by SCT under this Agreement, and that Licensee will not during the term of this Agreement give priority in the application of funds to any other similar software or services.

15. Assignment. Except as otherwise provided for in this Agreement, the benefits and burdens of each party under this Agreement will not be assignable without the prior written consent of the other party to this Agreement, and any attempt to assign them without that consent will be void. Notwithstanding the foregoing, SCT may assign this Agreement to its successor by merger or consolidation or to any person or entity that acquires all or substantially all of its capital stock or assets; and SCT may assign this Agreement in whole or in part to any person or entity to which it transfers any exclusive rights in the SCT Software.

16. No Waiver. No failure of either party to this Agreement to prosecute its rights with respect to any single or continuing breach of this Agreement will act as a waiver of the right of that party to later exercise any right or enforce any remedy granted under this Agreement with respect to that same or any other breach of this Agreement by the other party to this Agreement.

17. Choice of Law; Severability. This Agreement will be governed by and construed in accordance with the laws of the State of Florida. If any provision of this Agreement is found invalid or unenforceable, it will be enforced to the maximum extent permissible, and the legality and enforceability of the other provisions of this Agreement will not be affected.

18. LIMITATIONS OF LIABILITY. SCT AND LICENSEE ACKNOWLEDGE AND AGREE THAT IN NO EVENT WILL SCT'S LIABILITY IN CONNECTION WITH THE LICENSED SOFTWARE, THE SERVICES PROVIDED UNDER THIS AGREEMENT, THIS LICENSE, OR ANY OTHER MATTER RELATING TO THIS AGREEMENT (OTHER THAN EXPRESSLY IN CONNECTION WITH THE INDEMNITY PROVIDED FOR IN SECTION 9 OF THIS AGREEMENT, AND/OR EXPRESSLY FOR BODILY INJURY OR PHYSICAL DAMAGE TO TANGIBLE PERSONAL PROPERTY DIRECTLY CAUSED BY THE NEGLIGENT ACTS OF SCT EMPLOYEES, FOR WHICH ACTS SCT'S LIABILITY SHALL INSTEAD AND NOT ADDITIONALLY BE LIMITED TO THE INSURANCE PROCEEDS AVAILABLE UNDER THE POLICIES OF INSURANCE THAT SCT MAINTAINS FOR SUCH LIABILITY) EXCEED THE AMOUNT ACTUALLY PAID TO SCT BY LICENSEE UNDER THIS AGREEMENT FOR THE LICENSE FEE FOR THE LICENSED SOFTWARE AND SCT WILL NOT BE LIABLE FOR ANY SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, INCLUDING WITHOUT LIMITATION LOSS OF PROFITS, LOSS OF DATA, AND LOSS OF REVENUES, EVEN IF INFORMED OF THE POSSIBILITY THEREOF IN ADVANCE. THESE LIMITATIONS APPLY TO ALL CAUSES OF ACTION IN THE AGGREGATE, INCLUDING WITHOUT LIMITATION BREACH OF CONTRACT, BREACH OF WARRANTY, SCT'S NEGLIGENCE, STRICT LIABILITY, MISREPRESENTATION, AND OTHER CAUSES OF ACTION BASED ON SIMILAR LEGAL THEORIES. SCT AND LICENSEE FURTHER ACKNOWLEDGE AND AGREE THAT THEY ARE ENTERING INTO THIS AGREEMENT ON THE UNDERSTANDING THAT THE FEES FOR THE LICENSED SOFTWARE, AND THE SERVICES TO BE PROVIDED UNDER THIS AGREEMENT HAVE BEEN SET TO REFLECT THE FACT THAT LICENSEE'S REMEDIES, AND SCT'S LIABILITY, SHALL BE LIMITED AS EXPRESSLY SET FORTH IN THIS AGREEMENT, AND IF NOT SO LIMITED, THE FEES FOR THE SAME WOULD HAVE BEEN SUBSTANTIALLY HIGHER.

(REMAINDER OF PAGE INTENTIONALLY LEFT BLANK)

19. Entire Agreement. This Agreement sets forth the entire agreement between the parties with respect to the subject matter hereof, and all prior discussions, representations, proposals, offers and oral or written communications of any nature are entirely superseded hereby and extinguished by the execution of this Agreement. Any purchase order or similar document which may be issued by Licensee in connection with the Licensed Software, the license thereof, the services provided, or any other matter relating to this Agreement shall be for Licensee's internal purposes only and any terms and conditions which may be included in such purchase order or other document shall not modify in any manner any of the terms and conditions of this Agreement and shall not bind SCT in any manner and shall be completely ineffective and unenforceable against SCT, even if it is initialed, signed, or acknowledged by a representative of SCT. No modification hereof or waiver of any right under this Agreement will be effective unless it is evidenced in a writing executed by an authorized representative of each party to this Agreement.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement, through the signatures of their duly authorized representatives.

EXHIBIT P

Payment Schedule

Licensee's cost for the license of the Licensed Software, and the services rendered pursuant to this Agreement is as follows:

Deliverable	Cost
BANNER Finance License Fee	$125,000
Database Software (fifty-six concurrent users)	92,400
BANNER Human Resources License Fee	$90,000
FOCUS Software	$17,300
FOCUS Express for BANNER Finance License Fee	$1,650
FOCUS Express for BANNER Human Resources License Fee	$1,650
Implementation/Support Services	
BANNER Finance System Four hundred (400) person-hours, at a rate of $85 per person-hour	$34,000
BANNER Human Resources System Three hundred twenty (320) person-hours, at a rate of $85 per person-hour	$27,200
Database Software Eighty (80) person-hours, at a rate of $85 per person-hour	$6,800
FOCUS Express for BANNER Finance System Twenty-four (24) person-hours, at a rate of $125 per person-hour	$3,000
FOCUS Express for BANNER Human Resources System Twenty-four (24) person-hours, at a rate of $125 per person-hour	$3,000
FOCUS Software Forty (40) person-hours, at a rate of $125 per person-hour	$5,000

Payment of the license fee for each Major System of the SCT Software and the Database Software shall be made by Licensee to SCT as follows: Thirty (30%) percent by not later than thirty (30) days after the Effective Date; an additional thirty (30%) percent by not later than ninety

(90) days after the Effective Date; an additional thirty (30%) percent by not later than one hundred eighty (180) days after the Effective Date; and the remaining ten (10%) percent by not later than two hundred seventy (270) days after the Effective Date.

Payment of the license fee for the FOCUS Software shall be made by Licensee to SCT in full by not later than thirty (30) days after the Delivery Date of the FOCUS Software.

Implementation/Support Services (Exhibit IS) and Customization Services (Exhibit CS) shall be invoiced monthly, as such services are rendered, together with travel, living, freight, and overnight delivery expenses, and shall be paid by Licensee to SCT by not later than thirty (30) days from the date of invoice therefor.

EXHIBIT CS

Customization Services

I. Generation of Specifications for Modifications to SCT Software

A. Interview Licensee personnel to determine changes desired to be made to SCT Software as delivered by SCT.

B. Generate revised functional and technical specifications in a System Modification Requirements ("SMR") document, which will also contain cost and schedule estimates for SCT to implement such changes.

II. Modifications

SCT will modify and test the SCT Software to the extent proposed in any SMR document generated pursuant to the provisions of this Exhibit CS.

III. Rate - The rate of $85 per hour shall apply until one year after the Effective Date, after which time SCT may increase such rates upon notice to Licensee.

EXHIBIT IS
Implementation/Support

I. Implementation/Support Services

SCT agrees, subject to the provisions of this Agreement and Licensee's timely performance of its obligations under this Agreement, to provide to Licensee the Implementation/Support services hereinafter described (the "Implementation Services").

A. Project Plan. SCT and Licensee shall develop a project plan which identifies SCT's and Licensee's responsibilities. Each Major System will be delivered in Source Code at the Location.

B. SCT Responsibilities. SCT shall provide Licensee with the number of person-weeks set forth in Exhibit P of user consulting and technical training in connection with the Licensed Software. Additional time may be secured at SCT's then current rates therefor.

C. Licensee Responsibilities. Licensee is responsible for establishing overall project direction including assignment and direction of Licensee personnel involved in the project, providing a productive technical environment, and providing operational support to the implemented Major Systems at the completion of SCT's services.

Licensee will assign an overall project manager during the term of the project. Responsibilities of Licensee's project management personnel include daily access by SCT for project coordination, establishment and daily management of Licensee implementation plans, review of all SCT delivered documentation, coordination of project activities, support of resource requirements with Licensee's data processing department, management of production preparation activities in both technical and user areas, and coordination of the resolution of any changes in Licensee's policies or operating procedures.

Licensee will also designate at least one senior technical person for each Major System from its data processing staff to become knowledgeable and competent in supporting the Licensed Software. SCT expects these individuals to participate in production preparation activities and SCT provided training. Licensee will also designate in each functional department a primary systems coordinator who is responsible for committing resources and for follow-up on outstanding issues.

II. Conditions

As a condition to SCT's obligation to provide the Implementation Services, Licensee agrees to provide the following hardware, software, and access to Licensee's facilities.

A. Software and Hardware. Licensee agrees to provide at the Location, at no cost to SCT, on or before the earliest Delivery Date, the software and hardware listed below (the "Licensee Environment"):

-Equipment

-COBOL and "C" compilers as provided for in the Agreement

-C programming/development environment

Licensee will maintain current with the SCT-designated release of the systems software listed above. Dependent tailoring parameters between multiple vendor products will be specified by SCT.

B. Access to Licensee Environment and Licensee's Facilities. Licensee will provide such additional assistance to SCT as SCT may reasonably request for the purpose of rendering the Implementation Services. Without limitation of the foregoing, Licensee will provide SCT, as reasonably necessary for SCT to perform its obligations under this Agreement, with all of the following without charge: (i) the Licensee Environment, provided and maintained at Licensee's expense in good working order and in actual operation at all times at which SCT reasonably requests operation for the purpose of rendering the Implementation Services; (ii) the right for SCT to use the Licensee Environment (including all related software), either on Licensee's premises or remotely by telecommunication, at SCT's request; (iii) teleprocessing capabilities; (iv) other computer systems of Licensee; (v) reasonable access to the Licensee Environment and to Licensee's offices; (vi) office equipment and services such as desks, chairs, word processors, telephone, copying and other equipment and services appropriate to accommodate SCT personnel; and (vii) a reasonable amount of space on Licensee's premises for SCT personnel.

III. Additional Support.

Licensee will provide, at its sole expense, electronic access to the Licensee Environment from any of SCT's facilities.

Until the Delivery Date and the completion of all modification work, if any, in addition to the Licensee Environment, Licensee will provide SCT reasonable dedicated address space in which to execute an on-line test environment. Licensee will also provide SCT with a reasonable amount of disk storage space. SCT will exercise reasonable care to minimize the use of machine time and disk space.

Remote access will be provided on a twenty-four-hour-per-day, seven-day-per-week basis if the computer and communications facilities are scheduled for operation and SCT usage does not degrade the normal production use of the computer in any material respect. All disk storage allocated to SCT will be on-line during these hours.

Licensee will reimburse SCT for telephone charges incurred in connection with accessing the Licensee Environment unless such charges are incurred by SCT in connection with SCT's warranty obligations under this Agreement.

ANALYSIS

At the December 7, 1993, Commission meeting the Board authorized the Committee to begin negotiation of a contract with the selected vendor, Banner/SCT. The contract for software with Banner/SCT, which includes software from, Hanson, Faster, and The Computer Academy, a local MBE vendor, has been negotiated by members of the Committee and is now ready to be presented to the BCC, meeting as the LCGLC, to approve.

There are $700,000 budgeted to cover the needs for the purchase of a financial software system. The funds for installing the system is as follows:

Banner/SCT	(Finance Software)	473,500.00
Hanson	Work Order Public Works System	42,110.00
Faster	Fleet System	22,043.00
Computer Academy (MBE Tracking Program)		20,000.00
Hardware & Misc. Implementation		142,347.00
		$700,000.00

There is a projected annual maintenance cost of $58,876.00 on the Banner/SCT software which is scheduled to begin on September 1, 1995. The Hanson software package will require a $3,700 maintenance cost after 90 days of installation.

The Committee anticipates that the remaining portion of this budget will be used to obtain hardware to operate the selected software package and covers other miscellaneous implementation costs.

The Faster, Hanson, and Computer Academy software packages will be purchased under separate agreements to save contractors markup from Banner/SCT. Banner/SCT will ensure smooth integration of all software packages. The purchase of these software packages will provide the County with a fully integrated system that will adequately serve its needs for the next 10 years.

It is the consideration of the FIS committee by unanimous consent at a meeting on February 11,1994 at 10:30am, to recommend this proposal to the commission. All unresolved issues of the joint committee presented by the BCC staff and the Clerk's staff were resolved.

Leon County
Board of County Commissioners

Notes for Agenda Item #18

Leon County Board of County Commissioners

Agenda Item #18

September 15, 2025

To: Honorable Chairman and Members of the Board

From: Vincent S. Long, County Administrator

Title: Bid Award for Leon County Detention Center Exterior Stair Renovations Phase II

Review and Approval:	Vincent S. Long, County Administrator
Department / Division Review:	Ken Morris, Assistant County Administrator Nawfal Ezzagaghi, Assistant County Administrator Brent Pell, Director, Public Works Charles Wu, Director of Engineering Services Stephen Kelly, Chief of Building Engineering
Lead Staff / Project Team:	Kenneth H. Cureton, Construction Manager II Melanie Hooley, Purchasing Director Tim Barden, Administrative Services Manager

Statement of Issue:

This agenda item seeks Board approval of the bid award for Leon County Detention Center Exterior Stair Renovations Phase II to the lowest responsive bidder, OmniCon Corp., in the amount of $562,388.

Fiscal Impact:

This item has a fiscal impact. This item has been budgeted, and adequate funding is available in the Detention Facility Complex Maintenance Capital Improvement Budget.

Staff Recommendation:

Option #1: Approve the bid award to OmniCon Corp. in the amount of $562,388 for Leon County Detention Center Exterior Stair Renovations Phase II, and authorize the County Administrator to execute the Agreement (Attachment #1), and any amendments thereto, subject to legal review by the County Attorney.

Report and Discussion

Background:

This agenda item seeks Board approval to award the bid for Leon County Detention Center Exterior Stair Renovations Phase II to the lowest responsive bidder, OmniCon Corp., in the amount of $562,388.

The exterior emergency egress stairs are deteriorating due to extensive rust, water damage, and deteriorated concrete treads, decks, and roof components. To eliminate these safety risks and meet code requirements, the project will overhaul the stairs by removing damaged steel walkways and landings, repairing the existing steel frame, installing new steel decking, repainting the structure, adding code-compliant guardrails and handrails, and making minor repairs to adjacent concrete block walls. This work follows the scope of Phase I, completed in April 2021.

Analysis:

The Invitation to Bid for Leon County Detention Center Exterior Stair Renovations Phase II (BC-2025-044) was advertised through the automated procurement system OpenGov Procurement and in the Leon County Legal Notices on July 8, 2025. A total of 9,368 vendors were notified through the automated procurement system. A total of 39 bid packages were requested, and 4 contractors attended the mandatory on-site pre-bid. The County received two responsive bids on August 5, 2025, with the lowest responsive bid received from OmniCon Corp. (Attachment #2).

The Office of Economic Vitality's Minority, Women and Small Business Enterprise (MWSBE) Division reviewed the MWBE Participation Plans of the bid and determined that OmniCon Corp. exceeded the 12% aggregate aspirational goal for construction subcontracting (Attachment #3).

This item recommends Board approval of the bid award and authorization for the County Administrator to execute the Agreement. The project is anticipated to be completed in early 2026.

Options:

1. Approve the bid award to OmniCon Corp. in the amount of $562,388 for Leon County Detention Center Exterior Stair Renovations Phase II, and authorize the County Administrator to execute the Agreement (Attachment #1), and any amendments thereto, subject to legal review by the County Attorney.
2. Do not approve the bid award to OmniCon Corp. in the amount of $562,388 for Leon County Detention Center Exterior Stair Renovations Phase II.
3. Board direction.

Recommendation:

Option #1

AGREEMENT

THIS AGREEMENT, by and between **LEON COUNTY, FLORIDA,** a charter county and a political subdivision of the State of Florida, herein ("County"), and **OMNICON CORP.** herein ("Contractor"), (each a "Party" or together the "Parties") is entered into as of the date of last signature below ("Effective Date"). For good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties agree as follows:

1. SERVICES TO BE PROVIDED

The Contractor agrees to provide its services to the County to perform the Work related to the Leon County Detention Center Exterior Stairs Renovation - Phase II set forth in: 1) Bid# BC-2025-044, a portion of which is attached hereto and incorporated herein as Exhibit A; and 2) the Contractor's bid submission, attached hereto and incorporated herein as Exhibit B (collectively "Work"). If any provision contained in this Agreement conflicts with any provision in Exhibit A or Exhibit B, the provision contained in this Agreement shall govern and control.

2. WORK

Contractor understands that no amount of Work is guaranteed to it nor is the County under any obligation to utilize the services of the Contractor in those instances where the Work to be performed can be done by County personnel or under separate contract. Any Work to be performed shall be upon the written request of the County Administrator or his designee, which request shall set forth the commencement date of such Work and the time within which such Work shall be completed.

The performance of Leon County of any of its obligations under this Agreement shall be subject to and contingent upon the availability of funds lawfully expendable for the purposes of this Agreement for the current and any future periods provided for within the bid specifications.

3. TIME AND LIQUIDATED DAMAGES

The date of commencement of the Work shall be as negotiated between the County and the Contractor but shall not exceed fourteen (14) calendar days after the executed Contract has been received by the Contractor, unless specifically authorized by the County due to unforeseen conditions. The official Notice to Proceed with commencement of the Work will be provided to the Contractor in writing by the County and shall indicate the Date of Commencement. Subject to adjustments of the Contract Time as provided in the Contract Documents, the Contractor shall achieve Substantial Completion of the entire Work not later than *120* calendar days from the date of commencement of the Work yielding the date of *<DATE>*. Substantial Completion shall be defined as indicated in Section 9.8 of the AIA A201-2017 General Conditions of the Contract. If the Work to be performed under this Agreement is not completed to achieve Substantial Completion within the time set forth above, or within such extra time as may be granted by the County, the Contractor shall be deemed to be in default. For each day the Contractor is in default, the Contractor or its Surety shall pay to the County, not as a penalty, but as liquidated damages, the sum of $500.00 per calendar day.

The Contractor shall achieve Final Completion within seven (7) calendar days of the Date of Issuance of the AIA G704-2017 Certificate of Substantial Completion unless specifically authorized by the County due to unforeseen conditions. Terms of Final Completion shall be defined as indicated in Section 9.10 of the AIA A201-2017 General Conditions of the Contract.

Permitting the Contractor to continue and finish the Work or any part of it after the expiration of the time allowed under this Agreement, including extensions, if any, shall in no way act as a waiver on the part of the County of the liquidated damages due under this Agreement.

4. TIME OF THE ESSENCE

Time is of the essence in performing the duties, obligations, and responsibilities required by this Agreement.

The term "Business Day" as it applies to a notice requirement or other such deadline in this Agreement, means any day occurring Monday through Friday, except when such day is deemed to be a Holiday. The term "Holiday" means any day observed as a holiday by the Leon County Board of County Commissioners pursuant BCC Policy 03-16, as may be

amended, which, as of the Effective Date of this Agreement, are the following days: New Year's Day, Martin Luther King Jr. Day, Florida Emancipation Day (May 20), Memorial Day, Independence Day, Labor Day, Election Day (first Tuesday after the first Monday in November in even-numbered years), Veteran's Day, Thanksgiving Day, Friday After Thanksgiving Day, and Christmas Day; provided, however, that when any of these observed holidays fall on a Saturday, the preceding Friday shall be the day observed as a holiday, and when any of these observed holidays falls on a Sunday, the following Monday shall be the day observed as a holiday. In addition, when New Year's Day and Christmas Day fall on a Thursday, the Friday following those days shall also be observed as a holiday, and when New Year's Day and Christmas Day fall on a Tuesday, the Monday preceding those days shall also be observed as a holiday.

5. CONTRACT SUM

The Contractor agrees that for the performance of the Work as outlined in Section 1 above, it shall be remunerated by the County for a total sum of $562,388.00 on completion of the Work and acceptance as satisfactory.

6. PAYMENTS TO THE CONTRACTOR

A. Pay Requests - The Contractor shall submit to the County via the Architect an AIA G702 – Application and Certificate for Payment accompanied by an AIA G703 – Continuation Sheet or approved equivalent documents. Pay requests shall be sworn statements based upon the progress made and submitted to the County via the Project architect on a monthly basis. Payment by the County to the Contractor of the statement amount shall be made within twenty (20) days of approval by the Project architect and submittal to the County. Five percent (5%) retainage shall be held at the discretion of the County until completion of the Work.

B. Final Payment - Final payment constituting the unpaid balance of the cost of the Project and the Contractor's fee, shall be due and payable within forty-five (45) days after submission of all closeout documents as indicated in the project specifications, along with the following documents:

a. AIA G702 – Application for Payment and G703 Continuation Sheet for final payment (retainage)
b. AIA G706 - 1994 Contractor's Affidavit of Payment and G706a-1994 Contractor's Affidavit of Release of Liens
c. AIA G707-1994 Consent of Surety to Final Payment (with Power of Attorney letter attached)
d. AIA G704-2017 Certificate of Substantial Completion

However, if there should remain Work to be completed, the Contractor and the Architect-Engineer shall, In accordance with Section 218.735(7), Florida Statutes, develop a list those items prior to receiving final payment and the County may retain a sum equal to 150% of the estimated cost of completing any unfinished Work and the applicable portion of the Contractor's retainage, provided that said unfinished items are listed separately and estimated cost of completing any unfinished items along with the basis of said costs are likewise listed separately. Thereafter, County shall pay to Contractor, monthly, the amount retained from each incomplete item after each of said items is completed.

C. Payments to Subcontractors - The Contractor shall promptly, but not later than ten (10) days after receipt of payment from the County, pay all the amount due subcontractors less a retainage of five percent (5%). If there should remain items to be completed, the Contractor shall list those items required for completion and the Contractor shall require the retainage of a sum equal to 150% of the estimated cost of completing any unfinished items, provided that said unfinished items are listed separately and the estimated cost of completing any unfinished items likewise listed separately. Thereafter, the Contractor shall pay to the subcontractors, monthly, the amount retained for each incomplete item after each of said items is completed. Before issuance of final payment without any retainage, the subcontractor shall submit satisfactory evidence that all payrolls, material bills and other indebtedness connected with the Project have been paid or otherwise satisfied, warranty information is complete, as-built markups have been submitted and instruction for the County 's operating and maintenance personnel is complete. Final payment may be made to certain select subcontractors who work is satisfactorily completed prior to the total completion of the Project but only upon approval of the County.

D. Delayed Payments by County - If the County shall fail to pay the Contractor within twenty (20) days after the receipt of an approved payment request from the Contractor, then the Contractor may, upon fourteen (14) additional days advance written notice to the County, stop the Project until payment of the Amount owing has

been received, provided that the payment request has been submitted in sufficient detail to comply with the guidelines of the Office of the Clerk of the Circuit Court for Leon County. In the event that there is a dispute in the amount of the pay request, then only the disputed amount shall be held until resolved and the undisputed amount shall be paid within the time limits as stated within this paragraph. If undisputed amounts are timely paid, then the Contractor shall not stop the Project in any fashion and the progress of the project shall not be interrupted. Both Parties agree that best efforts will be made to resolve the disputed amount.

E. Payment for Materials and Equipment - Payments will be made for material and equipment not incorporated in the work but delivered and suitably stored at the site (or another location, subject to prior approval and acceptance by the County on each occasion).

F. Notice of Commencement not Required. The Parties acknowledge and agree that the County, as a government owner of real property, is not subject to the Construction Lien Law of Chapter 713, Florida Statutes. Accordingly, the County shall not be required to sign and record the Notice of Commencement as referenced therein. Instead, as found by Florida courts, the protections afforded to materialmen and laborers under Chapter 713, Florida Statutes, relating to privately owned property, are adequately provided by either the contractor's execution and recording of a payment and performance bond as required by Section 255.05, Florida Statutes, relating to publicly owned property or by the requirement of a retainage amount, as the case may be.

G. Notwithstanding anything to the contrary above, payment for services performed under this Agreement shall be made in accordance with Section 218.70, Florida Statutes - et. seq. the "Local Government Prompt Payment Act."

7. PROMPT PAYMENT INFORMATION REQUIREMENTS AND NOTICES

A. The County Project Manager is:

Kenneth H. Cureton
2280 Miccosukee Road
Tallahassee, FL 32308
850-606-1523
CuretonK@leoncountyfl.gov

B. The Contractor's Project Manager is:

David Rippee
6075 Miller Landing CV
Tallahassee, FL 32312
850-509-8551
drippee@omniconcorp.com

C. Notices to the Contractor are to be submitted to:

Rachel Rippee
6075 Miller Landing CV
Tallahassee, FL 32312
850-294-5826
rrippee@omniconcorp.com

D. Payment requests are to be submitted to:

Kenneth H. Cureton
2280 Miccosukee Road
Tallahassee, FL 32308
850-606-1523
CuretonK@leoncountyfl.gov

E. Proper form for a payment request for this Agreement is:

An AIA G702 – Application and Certificate for Payment accompanied by an AIA G703 – Continuation Sheet or equivalent format approved by the County. The invoice must be properly addressed to the Agent listed above and delivered to that address. Delivery to another address will void the invoice, and it shall be of no force and effect.

F. The development of a list of items to be completed or corrected upon Substantial Completion shall be in accordance with AIA A201 Substantial Completion requirements included in the project specifications. Notwithstanding the AIA A201 document, the development of the list will comply with the requirements of Section 218.735(7), Florida Statutes, including delivery of the list in accordance with the timeframes set forth in Section 218.735(7)1-2, Florida Statutes.

G. Payment Dispute Resolution: Section 14.1 of the Leon County Purchasing Policy details the policy and procedures for payment disputes under the Agreement.

8. DISPUTES/REMEDIES

A. All disputes arising under or relating to this Agreement shall be resolved in accordance with this Section, except for disputes related to payments and payment disputes, which shall be addressed and resolved in accordance with Leon County Policy 96-1, as amended.

B. The Parties shall attempt to resolve all disputes that arise under this Agreement in good faith and in accordance with the following procedure:

1) The aggrieved Party shall give written notice to the other Party setting forth the nature of the dispute, date of occurrence (if known), and proposed equitable resolution.
2) Representatives of both Parties shall meet at the earliest opportunity to discuss and resolve the dispute. If the dispute is resolved to the mutual satisfaction of both, they shall report their decision to the Parties in writing.
3) If those representatives are unable to reconcile the dispute, they shall report their impasse to the appropriate County Director and the Contractor's designee, who, at their earliest opportunity, shall meet and attempt to reconcile the dispute.
4) Should the Director and the Contractor's designee fail to resolve the dispute, they shall report their impasse to the County Administrator, or authorized representative, and the Contractor's designee, who, at their earliest opportunity, shall review and attempt to resolve the dispute.
5) If the County Administrator and the Contractor's designee are not able to amicably resolve the dispute within fifteen (15) Business Days after the impasse is reported to them, then either Party can pursue whatever forms of relief that may be available to it under this Agreement, at law, or in equity.

9. STATUS

The Contractor at all times relevant to this Agreement shall be an independent contractor and in no event shall the Contractor nor any employees or subcontractors under it be considered to be employees of the County.

10. INSURANCE

Contractor shall, at its sole expense, procure and maintain for the duration of this Agreement insurance against claims for injuries to persons or damages to property which may arise from or in connection with the performance of the Work hereunder by the Contractor, its agents, representatives, employees or subcontractors. The cost of such insurance shall be included in the Contractor's bid.

A. Minimum Limits of Insurance. Contractor shall maintain limits no less than:

1) General Liability: $1,000,000 combined single limit per occurrence for bodily injury, personal injury and property damage. If commercial general liability insurance or other form with a general aggregate limit is used, either the general aggregate limit shall apply separately to this Project/location or the general aggregate

limit shall be twice the required occurrence limit.

2) Automobile Liability: $1,000,000 combined single limit per accident for bodily injury and property damage. (non-owned, hired car).

3) Workers' Compensation and Employers Liability: insurance covering all employees meeting statutory limits in compliance with the applicable state and Federal laws and employer's liability with a limit of $500,000 per accident, $500,000 disease policy limit, $500,000 disease each employee. Waiver of subrogation in lieu of additional insured is required.

B. Deductibles and Self-Insured Retentions

Any deductibles or self-insured retentions must be declared to and approved by the County. At the option of the County, either: the insurer shall reduce or eliminate such deductibles or self-insured retentions as respects the County, its officers, officials, employees and volunteers; or the Contractor shall procure a bond guaranteeing payment of losses and related investigations, claim administration, and defense expenses.

C. Other Insurance Provisions

The policies are to contain, or be endorsed to contain, the following provisions:

1) General Liability and Automobile Liability Coverages (County is to be named as Additional Insured).

a. The County, its officers, officials, employees and volunteers are to be covered as insureds as respects: liability arising out of activities performed by or on behalf of the Contractor, including the insured's general supervision of the Contractor; products and completed operations of the Contractor; premises owned, occupied or used by the Contractor; or automobiles owned, leased, hired or borrowed by the Contractor. The coverage shall contain no special limitations on the scope of protections afforded the County, its officers, officials, employees or volunteers.

b. The Contractor's insurance coverage shall be primary insurance as respects the County, it officers, officials, employees and volunteers. Any insurance or self-insurance maintained by the County, its officers, officials, employees, or volunteers shall be in excess of the Contractor's insurance and shall not contribute with it.

c. Any failure to comply with reporting provisions of the policies shall not affect coverage provided to the County, its officers, officials, employees, or volunteers.

d. The Contractor's insurance shall apply separately to each insured against whom claims are made or suit is brought, except with respect to the limits of the insurer's liability.

2) All Coverages

Each insurance policy required by this clause shall be endorsed to state that coverage shall not be suspended, voided, canceled by either party, reduced in coverage or in limits except after thirty (30) days' prior written notice by certified mail, return receipt requested, has been given to the County.

D. Acceptability of Insurers. Insurance is to be placed with insurers with a Best's rating of no less than A: VII.

E. Verification of Coverage. Contractor shall furnish the County with certificates of insurance and with original endorsements effecting coverage required by this clause. The certificates and endorsements for each insurance policy are to be signed by a person authorized by that insurer to bind coverage on its behalf. All certificates and endorsements are to be received and approved by the County before work commences. The County reserves the right to require complete, certified copies of all required insurance policies at any time. Certificates of Insurance acceptable to the County shall be filed with the County prior to the commencement of the work. These policies

described above, and any certificates shall specifically name the County as an additional Insured and shall contain a provision that coverage afforded under the policies will not be canceled until at least thirty (30) days prior to written notice has been given to the County.

Cancellation clauses for each policy should read as follows: Should any of the above-described policies be canceled before the expiration date thereof, the issuing company will mail thirty (30) days written notice to the Certificate Holder named herein.

F. Subcontractors. Contractors shall include all subcontractors as insureds under its policies or shall furnish separate certificates and endorsements for each subcontractor. All coverages for subcontractors shall be subject to all the requirements stated herein.

11. PERMITS

The Contractor shall obtain all necessary permits as required by law to lawfully perform the obligations under this Agreement.

12. LICENSES & REGISTRATIONS

The Contractor shall be responsible for obtaining and maintaining any licenses, certifications, and/or registrations required pursuant to the laws of Leon County, the City of Tallahassee, or the State of Florida, or any other applicable state or Federal law. Should the Contractor, by reason of revocation, failure to renew, or any other reason, fail to maintain its license, certification, and/or registration necessary to operate, the Contractor shall be in default of this Agreement as of the date such license, certification, and/or registration is lost.

The Contractor shall be registered to do business with the Florida Department of State prior to execution of this Agreement unless Contractor provides written verification of its exempt status (See applicable sections of Title XXXVI, Chapters 605 through 623, Florida Statutes).

13. WARRANTY OF PERFORMANCE

A. Warranty

The Contractor represents and warrants that it possesses the knowledge, skill, experience, and financial capability required to perform and provide all Work under this Agreement and that each person and entity that will perform the Work is duly qualified to perform such Work by all appropriate governmental authorities, where required, and is sufficiently experienced and skilled in the area(s) for which such person or entity will perform such Work. The Contractor represents and warrants that the Work shall be performed in a skillful and respectful manner, and that the quality of all such Work shall equal or exceed prevailing industry standards for the performance of such Work.

B. Breach of Warranty

In entering into this Agreement, the Contractor acknowledges that the County is materially relying on the warranties stated in this paragraph. The County shall be entitled to recover any damages it incurs to the extent any such warranty is untrue. In addition, if any such warranty is untrue, the County shall have the right, at its sole discretion, to terminate this Agreement without any further liability to the County, to deduct from any amounts due Contractor under this Agreement the full amount of any value paid in violation of a warranty, and to recover all sums paid to Contractor under this Agreement.

14. ASSIGNMENTS

This Agreement shall not be assigned or sublet in whole or in part without the written consent of the County nor shall the Contractor assign any monies due or to become due to it hereunder without the previous written consent of the County.

15. PAYMENT AND PERFORMANCE BOND

A Combination Payment and Performance Bond in the amount of 100% of the estimated Contract Sum shall be supplied by the Contractor at the time of Agreement execution.

Payment and Performance Bonds shall provide that, in the event of non-performance on the part of the Contractor the bond can be presented for honor and acceptance at an authorized representative or institution located in Tallahassee, Florida.

Payment bonds executed as a result of the requirements herein by a surety shall make reference to Section 255.05, Florida Statutes, by number and shall contain reference to the notice and time limitation provisions in Section 255.05, Florida Statutes.

16. INDEMNIFICATION

Contractor shall indemnify, hold harmless, and defend County and all of County's current, past, and future officers, agents, and employees (collectively, "Indemnified Party") from and against any and all causes of action, demands, claims, losses, liabilities, and expenditures of any kind, including attorneys' fees, court costs, and expenses, including through the conclusion of any appellate proceedings, raised or asserted by any person or entity not a party to this Agreement, and caused or alleged to be caused, in whole or in part, by any breach of this Agreement by Contractor, or any intentional, reckless, or negligent act or omission of Contractor, its officers, employees, or agents, arising from, relating to, or in connection with this Agreement (collectively, a "Claim"). If any Claim is brought against an Indemnified Party, Contractor shall, upon written notice from County, defend each Indemnified Party with counsel satisfactory to County or, at County's option, pay for an attorney selected by the County to defend the Indemnified Party. The obligations of this section shall survive the expiration or earlier termination of this Agreement. The Contractor acknowledges that ten dollars ($10.00) of the Contract Sum paid to the Contractor, and the promises and covenants herein, constitute sufficient consideration for the Contractor's indemnification of the County, its officials, officers, and employees

17. MINORITY BUSINESS ENTERPRISE (M/WBE) PARTICIPATION

The Contractor shall meet or exceed the M/WBE participation levels stated in the Contractor's M/WBE Participation Statement included as part of the Contractor's response for this project, see Exhibit B, attached hereto, and made a part hereof.

The Contractor shall provide a monthly report to the Leon County Minority, Women and Small Business Enterprise Division in a format and manner prescribed by the Division. The report shall, at a minimum, indicate the business name of each certified Minority Business Enterprise or Women Business Enterprise sub-contractor utilized, the amount paid, the type of work performed, the appropriate invoice date, and the payment date to the Division.

Should Contractor's sub-contractor utilization fall below the level required in this Agreement or should Contractor substitute MWBE sub-contractors without prior written approval of the Division, the Contractor may be in breach of the Agreement. Contractors found in breach of the Agreement with the County may be suspended which may lead to debarment and prohibit the Contractor from bidding on and/or participating in any future County projects for up to three (3) years as provided in Section 15 of the Purchasing Policy 96-1, as may be amended.

Any change in the subcontractor utilization as listed on the participation plan (Exhibit B), must be approved by the MWSBE Division. Should the Contractor determine that the MWBE named in their participation plan submittal is unavailable or cannot perform the Work, the Contractor shall request a change order. Such change order must be submitted to the MWSBE Division in writing at 315 S. Calhoun Street, Suite 450, Tallahassee, Florida 32301 or by email to Darryl Jones, Deputy Director at DJones@oevforbusiness.org, LaTanya Raffington at LRaffington@oevforbusiness.org, or Shanea Wilks at SWilks@oevforbusiness.org

18. PUBLIC RECORDS

By entering into this Agreement, Contractor acknowledges and agrees that any records maintained, generated, received, or kept in connection with, or related to the performance of services provided under, this Agreement are public records subject to the public records disclosure requirements of Section 119.071, Florida Statutes. The Contractor agrees specifically to:

A. A. Keep and maintain public records required by Customer to perform the services under this Agreement .

B. Upon request from Customer, provide Customer with a copy of the requested records or allow the records to be inspected or copied within a reasonable time and at a cost that does not exceed that provided in Chapter 119, Florida Statutes, or as otherwise provided by law.

C. Ensure that public records that are exempt or confidential and exempt from public record requirements are not disclosed except as authorized by law for the duration of this Agreement and following completion or termination of this Agreement if the records are not transferred Customer; and

D. Upon completion or termination of this Agreement, transfer to Customer, at no cost, all public records in Contractor's possession or keep and maintain public records required by Customer to perform the services. If Contractor transfers the records to Customer, Contractor shall destroy any duplicate public records that are exempt or confidential and exempt. If Contractor keeps and maintains the public records, Contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to Customer upon request in a format that is compatible with the information technology systems of Customer.

A request for public records regarding this Agreement must be made directly to Customer, who will be responsible for responding to any such public records requests. Contractor will provide any requested records to Customer to enable Customer to respond to the public records request.

Any material submitted to the County that Bidder contends constitutes or contains trade secrets or is otherwise exempt from production under Florida public records laws (including Chapter 119, Florida Statutes) ("Trade Secret Materials") must be redacted, conspicuously labeled "EXEMPT FROM PUBLIC RECORD PRODUCTION — TRADE SECRET" and the applicable statutory provision for the exemption must be stated. The Bidder is required to also provide an unredacted copy of the redacted information as part of the Bid. If a third party submits a request to the County for records designated as Trade Secret Materials by a Bidder, the County shall refrain from disclosing the Trade Secret Materials, unless otherwise ordered by a court of competent jurisdiction or authorized in writing by Bidder. By submitting a Bid, Bidder agrees to indemnify and defend the County and its employees and agents from any and all claims, causes of action, losses, fines, penalties, damages, judgments and liabilities of any kind, including attorneys' fees, litigation expenses, and court costs, relating to the nondisclosure of any Trade Secret Materials in response to a records request by a third party.

Contractor acknowledges that failure to provide the public records to the County within a reasonable time may be subject to penalties under Section 119.10, Florida Statutes. Contractor further agrees not to release any records that are statutorily confidential or otherwise exempt from disclosure without first receiving prior written authorization from the County. Contractor shall indemnify, defend, and hold the County harmless for and against any and all claims, damage awards, and causes of action arising from Contractor's failure to comply with the public records disclosure requirements of Section 119.07(1), Florida Statutes, or by Contractor's failure to maintain public records that are exempt or confidential and exempt from the public records disclosure requirements, including, but not limited to, any third-party claims or awards for attorneys' fees and costs arising therefrom. Contractor authorizes County to seek declaratory, injunctive, or other appropriate relief against Contractor from a Circuit Court in Leon County on an expedited basis to enforce the requirements of this section.

IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT:

LEON COUNTY PURCHASING DIVISION
ATTN: MELANIE HOOLEY, PURCHASING DIRECTOR
1800-3 N. BLAIRSTONE ROAD
TALLAHASSEE, FLORIDA 32308
PHONE: 850-606-1600
EMAIL: HOOLEYM@LEONCOUNTYFL.GOV

19. MONITORING

The Agreement will require the Contractor to permit persons duly authorized by the County to inspect any records, papers, documents, facilities, goods, and Work of the Contractor which are relevant to this Agreement and interview any clients and employees of the provider to assure the County of satisfactory performance of the terms and conditions of this Agreement.

Following such evaluation, the County will deliver to the Contractor a written report of its findings and will include written recommendations with regard to the Contractor's performance of the terms and conditions of this Agreement. The Contractor will correct all noted deficiencies identified by the County within the specified period of time set forth in the recommendations. The Contractor's failure to correct noted deficiencies may, at the sole and exclusive discretion of the County, result in any one or any combination of the following: (1) the Contractor being deemed in breach or default of this Agreement; (2) the withholding of payments to the Contractor by the County; and (3) the termination of this Agreement for cause.

20. TERMINATION

Leon County may terminate this Agreement without cause by giving the Contractor thirty (30) days written notice of termination. Either party may terminate this Agreement for cause by giving the other party hereto thirty (30) days written notice of termination. The County shall not be required to give Contractor such thirty (30) day written notice if, in the opinion of the County, the Contractor is unable to perform its obligations hereunder or, in the County's opinion, the Work being performed is not satisfactory. In such case, the County may immediately terminate the Agreement effective upon notice of termination to the Contractor.

The agreement may be terminated by the County if the Contractor is found to have submitted a false certification as required under Section 287.135(2)(a), Florida Statutes, been placed on the Scrutinized Companies that Boycott Israel List or is engaged in a boycott of Israel.

The agreement may be terminated by the County if the Contractor is found to have submitted a false certification as required under Section 287.132(2)(b) Florida Statutes, been placed on the Scrutinized Companies with Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List or been engaged in business operations in Cuba or Syria.

21. AUDITS, RECORDS, AND RECORDS RETENTION

Contractor agrees:

E. To establish and maintain books, records, and documents (including electronic storage media) in accordance with generally accepted accounting procedures and practices, which sufficiently and properly reflect all revenues and expenditures of funds provided by the County under this Agreement.

F. To retain all client records, financial records, supporting documents, statistical records, and any other documents (including electronic storage media) pertinent to this Agreement for a period of five (5) years after termination of the Agreement, or if an audit has been initiated and audit findings have not been resolved at the end of five (5) years, the records shall be retained until resolution of the audit findings or any litigation which may be based on

the terms of this Agreement.

G. To assure that these records shall be subject at all reasonable times to inspection, review, or audit by Federal, state, or other personnel duly authorized by the County.

H. That persons duly authorized by the County and Federal auditors, pursuant to 45 CFR 75.364 shall have full access to and the right to examine this Agreement and related records and documents, regardless of the form in which kept, at all reasonable times for as long as records are retained.

I. To include these aforementioned audit and record keeping requirements in all approved subcontracts and assignments.

22. PUBLIC ENTITY CRIMES STATEMENT

In accordance with Section 287.133, Florida Statutes, Contractor hereby certifies that to the best of its knowledge and belief neither Contractor nor its affiliates has been convicted of a public entity crime. Contractor and its affiliates shall provide the County with a completed public entity crime statement form no later than January 15 of each year this Agreement is in effect. Violation of this section by the Contractor shall be grounds for termination of this Agreement by the County.

23. UNAUTHORIZED ALIEN(S)

The Contractor agrees that unauthorized aliens shall not be employed nor utilized in the performance of the requirements of this Agreement. The County shall consider the employment or utilization of unauthorized aliens a violation of Section 274A(e) of the Immigration and Naturalization Act (8 U.S.C. 1324a). Such violation shall be grounds for termination of this Agreement by the County.

24. EMPLOYMENT ELIGIBILITY VERIFICATION

By providing goods and/or services to the County, the Contractor is obligated to comply with the provisions of Section 448.095, Florida Statutes, "Employment Eligibility." Compliance with Section 448.095, Florida Statutes., includes, but is not limited to, utilization of the E-Verify System to verify the work authorization status of all newly hired employees, and requiring all subcontractors to provide an affidavit attesting that the subcontractor does not employ, contract with, or subcontract with, an unauthorized alien. The Contractor affirms and represents that it is registered with the E-Verify system and is using same and will continue to use same as required by Section 448.095, Florida Statutes.

25. NON-WAIVER

Failure by the County to enforce or insist upon compliance with any of the terms or conditions of this Agreement or failure to give notice or declare this Agreement terminated shall not constitute a general waiver or relinquishment of the same, or of any other terms, conditions or acts; but the same shall be and remain at all times in full force and effect.

26. DELAY

No claim for damages or any claim other than for an extension of time shall be made or asserted against the County by reason of any delays. The Contractor shall not be entitled to an increase in the Contract Sum or payment or compensation of any kind from the County for direct, indirect, consequential, impact or other costs, expenses or damages, including but limited to costs of acceleration or inefficiency, arising because of delay, disruption, interference or hindrance from any cause whatsoever, whether such delay, disruption, interference or hindrance be reasonable or unreasonable, foreseeable or unforeseeable, or avoidable or unavoidable; provided, however, that this provision shall not preclude recovery of damages by the Contractor for hindrances or delays due solely to fraud, bad faith, or active interference on the part of the County or its agents. Otherwise, the Contractor shall be entitled only to extensions of this Agreement time as the sole and exclusive remedy for such resulting delay, in accordance with and to the extent specifically provided above.

27. REVISIONS

In any case where, in fulfilling the requirements of this Agreement or of any guarantee, embraced in or required thereby it is necessary for the Contractor to deviate from the requirements of this Agreement, Contractor shall obtain the prior written consent of the County.

28. FORCE MAJEURE

If either of the Parties is prevented from or delayed from performing any obligations under this Agreement (except payment or financial obligations) by circumstances beyond its control, including but not limited to fires, hurricanes, severe weather, floods, pandemics, quarantines, war, civil disturbances, acts of terrorism, acts of God, or significant threats of such circumstances, or any future laws, rules, regulations, orders, or acts of any local, state, or Federal government (collectively "Force Majeure"), then the affected party shall be excused from performance hereunder during the period of inability to perform. The party claiming Force Majeure shall promptly notify the other party in writing when upon learning of the existence of a Force Majeure condition, and when the Force Majeure condition has terminated.

Notwithstanding anything in this Agreement to the contrary, the term "Force Majeure" does not include or excuse performance under this Agreement for events related to increased costs associated with fuel, labor, labor disputes, insurance, or other expenses of performing the obligations hereunder.

29. SOVEREIGN IMMUNITY

Nothing herein is intended to serve as a waiver of sovereign immunity by the County nor shall anything included herein be construed as consent by the County to be sued by third parties in any matter arising out of this Agreement. The County is included within the definition of "state agencies or subdivisions" in Section 768.28, Florida Statutes, and shall be responsible for the negligent or wrongful acts or omissions of its employees pursuant to Section 768.28, Florida Statutes.

30. THIRD PARTY BENEFICIARIES

Neither the County nor the Contractor intends to directly or substantially benefit a third party by this Agreement. Therefore, the Parties acknowledge that there are no third-party beneficiaries to this Agreement and no third party shall be entitled to assert a right or claim against either of the Parties based upon this Agreement.

31. LAW, JURISDICTION, VENUE, WAIVER OF JURY TRIAL

This Agreement shall be interpreted and construed in accordance with and governed by the laws of the State of Florida. Venue for all actions arising from, related to, or in connection with this Agreement shall be in the state courts of the Second Judicial Circuit in and for Leon County, Florida. If any claim arising from, related to, or in connection with this Agreement must be litigated in Federal court, the exclusive venue for any such lawsuit shall be in the United States District Court or United States Bankruptcy Court for the Northern District of Florida. By entering into this Agreement, the County and Contractor hereby expressly waive any rights either Party may have to a trial by jury of any civil litigation related to this Agreement.

32. CONSTRUCTION

The validity, construction, and effect of this Agreement shall be governed by the laws of the State of Florida.

33. SEVERABILITY

It is intended that each section of this Agreement shall be viewed as separate and divisible, and in the event that any section, or part thereof, shall be held to be invalid, the remaining sections and parts shall continue to be in full force and effect.

34. AMENDMENTS

No modification, amendment, or alteration in the terms or conditions contained in this Agreement shall be effective unless contained in a written document prepared with the same or similar formality as this Agreement and executed by duly authorized representatives of the County and Contractor.

35. CONFLICTING TERMS AND CONDITIONS

In the instance that any other agreement exists concerning the matters herein, then the terms and conditions in this Agreement shall prevail over all other terms and conditions.

36. INTERPRETATION

This Agreement shall be interpreted without the aid of any canon, custom, or rule requiring construction against the drafter.

37. COUNTERPARTS AND MULTIPLE ORIGINALS

This Agreement may be executed in multiple originals and in counterparts, each of which shall be deemed to be an original, but all of which, taken together, shall constitute one and the same agreement.

38. AUTHORITY TO SIGN

Each signatory to this Agreement who signs on behalf of a party expressly represents and warrants that he or she has the authority to sign on behalf of that party.

39. ENTIRE AGREEMENT

This Agreement, including the terms and conditions shown above contains the complete and final agreement between the County and Contractor and no other agreement in any way modifying any of said terms and conditions will be binding upon the County unless made in conformance with this Agreement. Contractor may not unilaterally modify the terms of the Agreement (e.g., attachment or inclusion of standard preprinted forms, product literature, or terms accompanying or affixed to a product or purchase order, whether written or electronic) or by incorporating such terms onto Contractor's invoice or other documents forwarded by Contractor for payment. The County's acceptance of product or processing of documentation on forms furnished by Contractor for approval or payment shall not constitute acceptance of any proposed modification to terms and conditions and any additional or conflicting, terms proposed by Contractor. There shall be no force or effect to any different terms of any related purchase order or similar form even if signed by the Parties after the date hereof.

I. Introduction

A. Summary

Leon County is seeking the services of a qualified vendor, licensed by the State of Florida as a General Contractor, to renovate two (2) exterior emergency egress staircases located at the housing pods along the west perimeter fence.

The renovation shall include, demolition of the existing stair treads, rusted steel framing components, concrete stair landings and steel decks, catwalk roofing and steel roof decks. Replace all demolished materials an components per the Construction Drawings and prepare and repaint all metal components that remained in place. Re-sod all disturbed grass areas.

All vendor staff working on-site are required to have a background check prior to being granted access to the facility. The required forms that will need to completed. The Leon County Sheriff's Office Construction Contractor Orientation Manual can be found in the Detention Center Specifications- Attachment G.

A **Mandatory Pre-Bid Meeting** will be held on **Tuesday, July 22, 2025, at 11:00 am** at the Leon County Detention Center Administration Building Main Entrance, located at 535 Appleyard Drive, Tallahassee, FL 32304 . The bidder shall specify the total of all costs to fully complete tasks outlined in the Specifications. **Attendance is mandatory to be eligible for award.**

The Detention Facility is a secure facility. All contractors will be required to sign in. Please bring ID. No cell phones, knives, tools, or weapons will be allowed inside the facility. Contractors may bring pens, pencils, notebooks or note pads.

ACCESS TO PLANS

Certain specifications related to the scope of the proposed work in this solicitation are exempt from disclosure pursuant to Section 119.071, Florida Statutes. Interested contractors will be required to complete a Non-Disclosure Agreement and agree to maintain the exempt nature of the applicable records. Encryption keys and/or passwords to secure documents will be provided to requesting contractors after the submission of the Non-Disclosure Agreement and acceptance by the Leon County Purchasing Division. Non-Disclosure Agreements may be submitted to the Leon County Purchasing Division from the time of Release of the solicitation. At the conclusion of the Mandatory Pre-Bid Meeting, only contractors who attended and signed in at the Mandatory Pre-Bid Meeting will be eligible to receive encryption keys and/or passwords to secure documents. The Non-Disclosure Agreement may be found in Section 11 - Attachment E

Non-Disclosure Agreements can be submitted via e-mail to both BoydKe@leoncountyfl.gov and HooleyM@leoncountyfl.gov or mailed/hand delivered to the Leon County Purchasing Division located at 1800-3 N. Blair Stone Road, Tallahassee, FL 32308.

C. Timeline

Below is the current schedule of the events that will take place as part of this solicitation. The County reserves the right to make changes or alterations to the schedule as the County determines is in the best interests of the public. If any changes to the Schedule of Events are made, the County will post the changes on the County website either as a public meeting notice, or as an addendum, as applicable. It is the responsibility of Registered Planholders and other interested persons and parties to review the Purchasing Division's website to stay informed of the Schedule of Events, addenda issued, and public meetings scheduled. The website address is: https://procurement.opengov.com/portal/leoncounty.

Release Project Date	July 8, 2025
Pre-Bid Meeting (Mandatory)	July 22, 2025, 11:00am Leon County Detention Center Administration Building - Main Entrance 535 Appleyard Drive Tallahassee, FL 32304
Question Submission Deadline	July 25, 2025, 4:00pm
Proposal Submission Deadline	August 5, 2025, 2:00pm

II. Bidding Process

A. BIDDER INSTRUCTIONS

Bidders are expected to examine the specifications, delivery schedule, freight requirements, bid prices and extensions and all general and special conditions of the bid prior to submission. In case of error in price extension, the unit price will govern. Bids must be submitted electronically via OpenGov.

B. SPECIAL ACCOMMODATION

Any person requiring a special accommodation at a Pre-Bid Conference or Bid opening because of a disability must call the Division of Purchasing at (850) 606-1600 at least five (5) workdays prior to the Pre Bid Conference or Bid opening. If you are hearing or speech impaired, please contact the Purchasing Division by calling the Leon County Administrator's Office using the Florida Relay Service which can be reached at 1(800) 955 8771 (TDD).

C. PROHIBITED COMMUNICATIONS

Any Form of communication, except for written correspondence with the Purchasing Division requesting clarification or asking questions, shall be prohibited regarding a particular request for proposal, request for qualification, bid, or any other competitive solicitation between:

A. Any person or person's representative seeking an award from such competitive solicitation; and

B. Any County Commissioner or Commissioner's staff, or any county employee authorized to act on behalf of the Commission to award a particular contract.

For the purpose of this section, a person's representative shall include, but not be limited to, the person's employee, partner, officer, director, consultant, lobbyist, lawyer, relative, or any actual or potential subcontractor or consultant of the person.

The prohibited communication shall be in effect as of the release of the competitive solicitation and terminate at the time the Board, or a County department authorized to act on behalf of the Board, awards or approves a contract, rejects all bids or responses, or otherwise takes action which ends the solicitation process.

The provisions of this section shall not apply to oral communications at any public proceeding, including pre-bid conferences, oral presentations before selection committees, contract negotiations during any public meetings, presentations made to the Board, and protest hearings. Further, the provisions of this section shall not apply to contract negotiations between any employee and the intended awardee, any dispute resolution process following the filing of a protest between the person filing the protest and any employee, communications with the County Attorney or communications with the Purchasing Director.

Violation of this section may result in disqualification from this solicitation and shall be grounds for suspension from doing business with the County.

D. REGISTRATION

Bidders which obtain solicitation documents from sources other than the County Purchasing Division MUST officially register with the County Purchasing Division in order to be placed on the planholders list for the solicitation. In order to

register, you must create an account on the County's eProcurement Portal (https://procurement.opengov.com/portal/leoncounty), browse to the bid, and then click the "Follow" button.

Failure to register through the Purchasing Division (https://procurement.opengov.com/portal/leoncounty) may cause your submittal to be rejected as non-responsive.

E. ADDENDA TO SPECIFICATIONS

If any addenda are issued after the initial specifications are released, the County will post the addenda on the Leon County website at https://procurement.opengov.com/portal/leoncounty. For those projects with separate plans, blueprints, or other materials that cannot be accessed through the internet, the Purchasing Division will make them available for pick up at the Purchasing Division. It is the responsibility of the Bidder prior to submission of any bid to check the above website or contact the Leon County Purchasing Division at (850) 606-1600 to verify any addenda issued. The receipt of all addenda must be acknowledged on the bid response sheet.

F. QUESTIONS AND CLARIFICATIONS

Questions may be submitted directly through the County's e-Procurement Portal located at https://procurement.opengov.com/portal/leoncounty. Alternatively, if using email, questions pertaining to bid procedures or regarding the specifications should be addressed to both Melanie Hooley and Kelly Boyd, telephone (850) 606-1600; E-mail: hooleym@leoncountyfl.gov and boydke@leoncountyfl.gov.

If using email, bidders are requested to send such requests to both representatives of the Purchasing Division. Electronic inquiries are preferred over phone.

Each Bidder shall examine the solicitation documents carefully, including the forms and draft agreement; and, no later than the last day for questions listed in schedule of events, shall make a written request to the County for interpretations or corrections of any ambiguity, inconsistency or error which the bidder may discover in the solicitation, including the agreement. The County will prepare a written response to each written question, comment, and recommendation that is delivered to the County prior to the deadline listed in the schedule of events. The County's written responses will be issued in an addendum to this solicitation. The County will not be responsible for oral clarifications. No negotiations, decisions or actions shall be initiated or executed by the proposer as a result of any discussions with any County employee prior to the opening of proposals. Only those communications which are in a written addendum from the County may be considered as a duly authorized expression on the behalf of the Board. Also, only communications from firms which are in writing will be recognized by the Board as duly authorized expressions on behalf of bidders. Each bidder shall be deemed to have waived all questions that are not submitted to the County in compliance with this section.

G. PREPARATION AND SUBMISSION OF BID

Each Bidder shall submit Bid Prices and other requested information, including alternates or substitutions if allowed by this invitation to bid, on the proper forms and in the manner herein prescribed. The County's only method of submission is electronically via OpenGov. Bids containing any conditions or irregularities of any kind may be rejected by the County.

Any material submitted to the County that Bidder contends constitutes or contains trade secrets or is otherwise exempt from production under Florida public records laws (including Chapter 119, Florida Statutes) (“Trade Secret Materials”) must be redacted, conspicuously labeled “EXEMPT FROM PUBLIC RECORD PRODUCTION — TRADE SECRET” and the applicable statutory provision for the exemption must be stated. The Bidder is required to also provide an unredacted copy of the redacted information as part of the Bid. If a third party submits a request to the County for records designated as Trade Secret Materials by a Bidder, the County shall refrain from disclosing the Trade Secret Materials, unless otherwise ordered by a court of competent jurisdiction or authorized in writing by Bidder. By submitting a Bid, Bidder agrees to indemnify and defend the County and its employees and agents from any and all claims, causes of action, losses, fines, penalties, damages,

judgments and liabilities of any kind, including attorneys' fees, litigation expenses, and court costs, relating to the nondisclosure of any Trade Secret Materials in response to a records request by a third party.

H. WITHDRAWAL OF BIDS

Bids may be electronically withdrawn from OpenGov by the vendor prior to the time fixed for opening. Negligence on the part of the Bidder in preparing the Bid confers no right for the withdrawal of the bid after it has been opened.

I. RECEIPT AND OPENING OF BIDS

Bids will be opened publicly at the time and place stated in the Invitation to Bid. When the specified time has arrived no bids received thereafter will be considered. At the time fixed for the opening of bids, the bid tabulation will be made public and will be posted on the Purchasing Division website at: https://procurement.opengov.com/portal/leoncounty.

Sealed bids or replies received by the County pursuant to a competitive solicitation are exempt from public records requirements until such time as the County posts an intended decision or until 30 days after opening of the documents, whichever is earlier. If the County rejects all Bids submitted in response to this ITB, the rejected Bids remain exempt from public records disclosure until the County posts an intended decision or until the County withdraws the reissued Bid. Bids received by the County pursuant to this ITB will not remain exempt for longer than twelve (12) months after the County rejects such Bids.

J. BID GUARANTEE

Bids shall be accompanied by a 5% bid guarantee which shall be a Bid Bond, Certified or Cashier's Check or Bank Draft (no cash, company, or personal checks will be accepted), made payable to the Board of County Commissioners, Leon County, Florida. Such check, bank draft, or bond shall be submitted with the understanding that the bonds will be held until award of bid.

The County reserves the right to hold the Bid Guarantee until after a contract has been entered into or a purchase order has been executed. The accepted Bidders bid bond will be held until execution of the agreement and may be forfeited due to non- performance.

The check or bond shall be submitted with the understanding that it shall guarantee that the Bidder will not withdraw his bid for a period of 90 days after the scheduled closing time for the receipt of bids. It shall also guarantee that the successful bidder will enter into a contract within ten (10) days after he has received notice of acceptance of his bid. In the event of withdrawal of bid, or failure to enter into and fully execute the contract within ten (10) days the contractor may be deemed in to be in default. In such an event, the contractor shall be liable to the County for the full amount of the default.

K. PLANHOLDERS

As a convenience to bidders, the County has made available via the internet lists of all registered planholders for each bid or request for proposals. The information is available on-line at: https://procurement.opengov.com/portal/leoncounty by clicking the "Followers" tab on the the advertisement of the respective solicitation. A listing of the registered planholders with their email address is designed to assist bidders in preparation of their responses.

L. REJECTION OF BIDS

The County reserves the right to reject all bids when such rejection is in the best interest of the County.

M. ERRORS AND OMISSIONS

The County and its representatives shall not be responsible for any errors or omission in the ITB. Due care and diligence has been exercised in the preparation of this ITB, and all information contained herein is believed to be substantially correct. Information is subject to review by the successful respondent.

III. Contractor Qualifications

The primary contractor shall be licensed by the State of Florida as a Licensed General Contractor pursuant to Section 489.105(3)(a) Florida Statutes. The Licensed General Contractor shall possess an active and current licensing placard issued by the Florida Department of Business and Professional Regulation (DBPR). The primary and any subcontractors utilized on this project shall be Florida licensed in their trade.

Leon County must be able to verify State of Florida Licensed General Contractor license prior to award.

Contractors shall be licensed in the State of Florida as required by Chapter 489, Florida Statutes. Specific license type for this project shall be as indicated in Sections 489.105(3)(a)-(q) Florida Statutes, as applicable to the scope of work of the project.

Proposed sub-contractors and/or if self-performing, the employee that is performing the work, must hold a license for any specialty work, based on the work required to complete this project.

IV. Award and Contracting Process

A. AWARD OF BIDS

The bid will be awarded to the lowest responsive, responsible bidder. In accordance with Section 287.05701(3), Florida Statutes, in determining whether a bidder is responsible, the County will not request documentation of or consider a bidder's social, political, or ideological interests, nor give preference to a bidder based on such interests. The County reserves the right to waive any minor irregularity in bids and to award a bid in whole or in part when either or both conditions are in the best interest of Leon County.

Notice of the Intended Decision will be posted on the County website at: https://procurement.opengov.com/portal/leoncountyfor a period of seventy-two (72) consecutive hours, which does not include weekends or County observed holidays. Failure to file a protest within the time prescribed in Leon County Policy No. 96-1, Purchasing Policy, or failure to post the bond or other security required by law within the time allowed for filing a bond shall constitute a waiver of proceedings. Notice of intent of bid protest shall be made in writing to the Purchasing Director, 1800-3 N. Blair Stone Road, Tallahassee, Florida 32308. The bidder shall be responsible for inquiring as to any and all award recommendation/postings.

Should concerns or discrepancies arise during the bid process, bidders are encouraged to contact the Purchasing Division prior to the scheduled bid opening. Such matters will be addressed and/or remedied prior to a bid opening or award whenever practically possible. Bidders are not to contact departments or divisions regarding the bidder complaint.

Any bid award recommendation may be protested on the grounds of irregularities in the specifications, bid procedure, or the evaluation of the bid. Such notice of intent of bid protest shall be made in writing to the Purchasing Director within 72 hours after receipt of the intended recommendation of award and the protestor shall file a formal written bid challenge within 5 business days after the date in which the notice of intent of bid protest has been submitted. The notice of protest shall contain at minimum: the name of the Protestor; the Protestor's address and phone number; the name of the Protestor's representative to whom notices may be sent; the name and bid number of the solicitation; and a brief factual summary of the basis of the protest. Failure to file a notice of intent of bid protest or failure to file a formal written bid protest shall constitute a waiver of all rights granted under this section.

B. Agreement

Every procurement for contractual services shall be evidenced by a written agreement. The awarded Bidder will have five calendar days after receipt to acknowledge the purchase order or execute the agreement. The performance of Leon County of any of its obligations under the agreement shall be subject to and contingent upon the availability of funds lawfully expendable for the purposes of the agreement for the current and any future periods provided for within the bid specifications.

C. Payment and Performance Bond

A Combination Payment and Performance Bond in the amount of 100% of the estimated project cost shall be supplied by the Contractor at the time of Agreement execution.

Payment and Performance Bonds shall provide that, in the event of non-performance on the part of the Contractor the bond can be presented for honor and acceptance at an authorized representative or institution located in Tallahassee, Florida.

Payment bonds executed as a result of the requirements herein by a surety shall make reference to Section 255.05, Florida Statutes, by number and shall contain reference to the notice and time limitation provisions in Section 255.05, Florida Statutes.

V. Minority, Women, Small Business (MWSBE) Enterprise

A. MWSBE Overview

The Minority Women Small Business Enterprise (MWSBE) Policy of the City of Tallahassee, Leon County Government, and Blueprint Intergovernmental Agency applies to this solicitation. This solicitation has a project specific goal for the participation of Minority Business Enterprise (MBE) and Women Business Enterprise (WBE) firms certified by the Office of Economic Vitality (OEV) MWSBE Division.

- Certified MBE/WBE Participation Project Specific Goal: 12% Aggregate

All respondents will meet the project specific goal(s) or demonstrate in their response that a good faith effort was made to meet the project specific goal(s). When a certified MBE or WBE firm is the prime contractor or consultant, the goal is fulfilled, however the firm must still submit their properly fill out Minority and Women Business Enterprise (MWSBE) Participation Plan.

Certified MBE and WBE firms may participate by providing goods or services in support of the project as subcontractors or subconsultants identified on the Minority and Women Business Enterprise (MWSBE) Participation Plan.

B. MWSBE Responsive Responses

The MWSBE Division will deem responses responsive to the MWBE Section of the solicitation if they include a completed MWBE Participation Plan and/or Good Faith Effort documentation.

Please complete an MWBE Participation Plan Form, include the MBE and WBE firms on your Respondent and Team Summary Form, and, if you are unable to meet the project specific goal, complete a Good Faith Effort Form. **Failure to provide all MWBE Section Forms in bid submission will result in the bid being deemed nonresponsive.**

If you are unable to meet the project specific goal for MBE and WBE participation, you must submit a Good Faith Effort Form documenting your efforts to identify MBE and WBE firms to participate in order for your response to remain responsive to this solicitation.

C. MWSBE Contact Information

Respondents needing assistance or guidance with these requirements should contact LaTanya Raffington of the MWSBE Division at Lraffington@oevforbusiness.org OR Shanea Wilks of the MWSBE Division at Swilks@oevforbusiness.org. A directory of certified MBE and WBE firms is available on the OEV website: https://oevforbusiness.mwsbe.com.

VI. Required Certifications

A. Licenses and Registrations

The contractor shall be responsible for obtaining and maintaining throughout the contract period any licenses required pursuant to the laws of Leon County, the City of Tallahassee, or the State of Florida.

If the bidder is operating under a fictitious name as defined in Section 865.09, Florida Statutes, proof of current registration with the Florida Secretary of State shall be submitted with the bid. A business formed by an attorney actively licensed to practice law in this state, by a person actively licensed by the Department of Business and Professional Regulation or the Department of Health for the purpose of practicing his or her licensed profession, or by any corporation, partnership, or other commercial entity that is actively organized or registered with the Department of State may submit a copy of the current licensing from the appropriate agency and/or proof of current active status with the Division of Corporations of the State of Florida.

B. Local Preference in Purchasing and Contracting

A. Preference in bidding. In purchasing of, or letting of contracts for procurement of, personal property, materials, contractual services, and construction of improvements to real property or existing structures in which pricing is the major consideration, the authorized purchasing authority of Leon County may give a preference to local businesses in making such purchase or awarding such contract, as follows:

1. Individuals or firms which have a home office located within Leon, Gadsden, Wakulla, or Jefferson County, and which meet all of the criteria for a local business as set forth in this article, shall be given a preference in the amount of five percent of the bid price.
2. Individuals or firms which do not have a home office located within Leon, Gadsden, Wakulla, or Jefferson County, and which meet all of the criteria for a local business as set forth in this article, shall be given a preference in the amount of three percent of the bid price.
3. The maximum cost differential shall not exceed $20,000.00. Total bid price shall include the base bid and all alternatives or options to the base bids which are part of the bid and being recommended for award by the appropriate authority.
4. For the purposes of this section, "home office" shall mean a business's principal office or headquarters constituting the center for administration and policymaking.

B. Local business definition. For purposes of this section, "local business" shall mean a business which:

1. Has had a fixed office or distribution point located in and having a street address within Leon, Gadsden, Wakulla, or Jefferson County for at least six (6) months immediately prior to the issuance of the request for competitive bids or request for proposals by the County; and
2. Holds any business license required by the County, and, if applicable, the City of Tallahassee; and
3. Is the principal offeror who is a single offeror; a business which is the prime contractor and not a subcontractor; or a partner or joint venturer submitting an offer in conjunction with other businesses.

C. Certification. Any bidder claiming to be a local business as defined, shall so certify in writing to the Purchasing Division. The certification shall provide all necessary information to meet the requirements of above. The Local Vendor Certification Form is enclosed. The purchasing agent shall not be required to verify the accuracy of any such certifications, and shall have the sole discretion to determine if a bidder meets the definition of a "local business."

C. Unauthorized Alien(s)

The Contractor agrees that unauthorized aliens shall not be employed nor utilized in the performance of the requirements of this solicitation. The County shall consider the employment or utilization of unauthorized aliens a violation of Section 274A(e) of the Immigration and Naturalization Act (8 U.S.C. 1324a). Such violation shall be cause for unilateral termination of the agreement by the County. As part of the bid response to this solicitation, please complete and submit the attached form AFFIDAVIT CERTIFICATION IMMIGRATION LAWS.

D. Public Entity Crimes Statement

A person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime may not submit a bid on a contract to provide any goods or services to a public entity, may not submit a bid on a contract with a public entity for the construction or repair of a public building or public work, may not submit bids on leases of real property to a public entity, may not be awarded or perform work as a contractor, subcontractor, or consultant under a contract with any public entity, and may not transact business with any public entity in excess of the threshold amount provided in Section 287.017, Florida Statutes, for CATEGORY TWO for a period of 36 months from the date of being placed on the convicted vendor list. By submission of a proposal in response to this document, the vendor certifies compliance with the above requirements as stated in Section 287.133, Florida Statutes.

E. Identical Tie Bids

Preference shall be given to businesses with drug-free workplace programs. Whenever two or more bids which are equal with respect to price, quality, and service are received by the State or by any political subdivision for the procurement of commodities or contractual services, a bid received from a business that certifies that it has implemented a drug-free workplace program shall be given preference in the award process. Established procedures for processing tie bids will be followed if none of the tied vendors have a drug-free workplace program.

F. Employment Eligibility Verification

By providing goods and/or services to the County, the Contractor is obligated to comply with the provisions of Section 448.095, Florida Statutes, “Employment Eligibility.” Compliance with Section 448.095, Florida Statutes., includes, but is not limited to, utilization of the E-Verify System to verify the work authorization status of all newly hired employees, and requiring all subcontractors to provide an affidavit attesting that the subcontractor does not employ, contract with, or subcontract with, an unauthorized alien. The Contractor affirms and represents that it is registered with the E-Verify system and is using same and will continue to use same as required by Section 448.095, Florida Statutes.

G. Equal Opportunity

The contractors and all subcontractors shall agree to a commitment to the principles and practices of equal opportunity in employment and to comply with the letter and spirit of federal, state, and local laws and regulations prohibiting discrimination based on race, color, religion, national origin, sex, age, handicap, marital status, and political affiliation or belief.

H. Scrutinized Company Certification

A company is ineligible to, and may not, bid on, submit a proposal for, or enter into or renew a contract with Leon County for goods or services of any amount if, at the time of bidding on, submitting a proposal for, or entering into or renewing such contract, the company is on the Scrutinized Companies that Boycott Israel List, created pursuant to Section 215.4725, Florida Statutes, or is engaged in a boycott of Israel.

VII. Insurance Requirements

A. Overview

Bidders' attention is directed to the insurance requirements set forth in the Agreement contained in the "Attachments" section of this solicitation. Bidders should confer with their respective insurance carriers or brokers to determine in advance of bid submission the availability of insurance certificates and endorsements. If an apparent low bidder fails to comply strictly with the insurance requirements, that bidder will be disqualified from award of the contract.

The awarded Contractor shall procure and maintain for the duration of the contract insurance against claims for injuries to persons or damages to property which may arise from or in connection with the performance of the work hereunder by the Contractor, his agents, representatives, employees or subcontractors. The cost of such insurance shall be included in the Contractor's bid.

VIII. Terms and Conditions

A. Standard Terms and Conditions

The terms and conditions associated with this solicitation are as set forth in the Agreement contained in the "Attachments" section of this solicitation. After the award of the solicitation, the County will finalize the preparation of the Agreement and forward it to the Firm awarded the bid, after which the Firm will have five days to execute the Agreement and return it to the County.

B. Manufacturers' Name and Approved Equivalents

Manufacturers' names, trade names, brand names, information and/or catalog numbers listed in a specification are for information and not intended to limit competition. The bidder may offer any brand for which he is an authorized representative, which meets or exceeds the specifications for any item(s). If bids are based on equivalent products, indicate on the bid form the manufacturer's name and catalog number. Bidder shall submit with his bid, cuts, sketches, and descriptive literature and/or specifications. The bidder should also explain in detail the reason(s) why and submit proof that the proposed equivalent will meet the specifications and not be considered an exception thereto. The Leon County Board of County Commissioners reserves the right to be the sole judge of what is equal and acceptable. Bids which do not comply with these requirements are subject to rejection. If Bidder fails to name a substitute it will be assumed that he is bidding on, and he will be required to furnish goods identical to bid standard.

C. Conflicting Terms and Conditions

In the instance that terms, conditions, specifications, or other instruments are provided by architects, engineers, or persons other than County Procurement concerning the matters herein, then the terms and conditions in this Solicitation document shall prevail over all other terms and conditions.

D. Penalties

BIDS MAY BE REJECTED AND/OR Bidder(S) DISQUALIFIED FOR THE FOLLOWING REASONS:

A. Failure to perform according to agreement provisions.

B. Conviction in a court of law of any criminal offense in connection with the conduct of business

C. Clear and convincing evidence of a violation of any federal or state anti-trust law based on the submission of bids or proposals, or the awarding of contracts.

D. Clear and convincing evidence that the bidder has attempted to give a Board employee a gratuity of any kind for the purpose of influencing a recommendation or decision in connection with any part of the Board's purchasing activity.

E. Other reasons deemed appropriate by the Board of County Commissioners.

Bid Title: LEON COUNTY DETENTION CENTER EXTERIOR STAIRS RENOVATION PHASE II
Bid Number BC-2025-044
Opening Date: August 5, 2025, 2:00 pm

IX. Vendor Questionnaire

Bids must be submitted electronically via OpenGov.

A. ACCEPTANCE OF COUNTY TERMS AND CONDITIONS*

Leon County objects to and shall not consider any additional terms or conditions submitted by a bidder, including any appearing in documents attached as part of a bidder's response. In submitting its bid response, a bidder agrees that any additional terms or conditions, whether submitted intentionally or inadvertently, shall have no force or effect. Failure to comply with terms and conditions, including those specifying information that must be submitted with a bid response, shall be grounds for rejecting a bid response or placing a bidder in default.

☐ Please confirm
*Response required

B. Company Information*

Provide company name as registered with the Florida Department of State, Division of Corporations.

Maximum response length: 100 characters

Know All Men by These Presents, That WESTFIELD INSURANCE COMPANY, WESTFIELD NATIONAL INSURANCE COMPANY and OHIO FARMERS INSURANCE COMPANY, corporations, hereinafter referred to individually as a "Company" and collectively as "Companies," duly organized and existing under the laws of the State of Ohio, and having its principal office in Westfield Center, Medina County, Ohio, do by these presents make, constitute and appoint

BENJAMIN R. CAMPBELL, DANIEL L. SHERRADEN, KRISTIE MATHENY, JOINTLY OR SEVERALLY

of **ORLANDO** and State of **FL** its true and lawful Attorney(s)-in-Fact, with full power and authority hereby conferred in its name, place and stead, to execute, acknowledge and deliver **any and all bonds, recognizances, undertakings, or other instruments or contracts of suretyship in any penal limit,** and to bind any of the Companies thereby as fully and to the same extent as if such bonds were signed by the President, sealed with the corporate seal of the applicable Company and duly attested by its Secretary, hereby ratifying and confirming all that the said Attorney(s)-in-Fact may do in the premises. Said appointment is made under and by authority of the following resolution adopted by the Board of Directors of each of the WESTFIELD INSURANCE COMPANY, WESTFIELD NATIONAL INSURANCE COMPANY and OHIO FARMERS INSURANCE COMPANY:

"Be It Resolved, that the President, any Senior Executive, any Secretary or any Fidelity & Surety Operations Executive or other Executive shall be and is hereby vested with full power and authority to appoint any one or more suitable persons as Attorney(s)-in-Fact to represent and act for and on behalf of the Company subject to the following provisions:

The Attorney-in-Fact may be given full power and authority for and in the name of and on behalf of the Company, to execute, acknowledge and deliver, any and all bonds, recognizances, contracts, agreements of indemnity and other conditional or obligatory undertakings and any and all notices and documents canceling or terminating the Company's liability thereunder, and any such instruments so executed by any such Attorney-in-Fact shall be as binding upon the Company as if signed by the President and sealed and attested by the Corporate Secretary."

"Be it Further Resolved, that the signature of any such designated person and the seal of the Company heretofore or hereafter affixed to any power of attorney or any certificate relating thereto by facsimile, and any power of attorney or certificate bearing facsimile signatures or facsimile seal shall be valid and binding upon the Company with respect to any bond or undertaking to which it is attached." (Each adopted at a meeting held on February 8, 2000).

BPOAC2 (combined) (05-24)

MINORITY AND WOMEN BUSINESS ENTERPRISE (MWBE) PARTICIPATION PLAN

RESPONDENT: OmniCon

SOLICITATION NUMBER: BC-2025-044 **DATE:** 08/05/2025

Only Prime Respondents, including Prime Respondents who are Minority Business Enterprise (MBE) firms and Women Business Enterprise (WBE) firms, must complete this MWBE Participation Plan in its entirety and submit it with their responses to be deemed responsive to the MWBE Section of this solicitation. Failure to complete all portions of this form may negatively impact a Respondent's evaluation including, but not limited to, a determination of nonresponsive to the MWBE Section of this solicitation.

For MWBE participation in Leon County Government, City of Tallahassee, and Blueprint Intergovernmental Agency projects, certified MBE and WBE firms are certified by the Office of Economic Vitality Minority, Women, and Small Business Enterprise (MWSBE) Division. MBE and WBE firms that have their primary business location in Leon, Gadsden, Wakulla, or Jefferson County and that are certified by the Florida Department of Management Services Office of Supplier Development also qualify for MWBE participation.

To remain responsive, Respondents must utilize certified MBE and/or WBE firms to fulfill the project specific goal(s). The project specific goal(s) for this solicitation are specified in the solicitation. Respondents that do not meet or exceed the project specific goals must complete the Good Faith Effort Documentation Form to remain responsive, even if they meet a portion of the project specific goal(s).

All necessary MWBE information should be included on the MWBE Forms.

SECTION 1 – MWBE Participation

Complete the following Table. Identify Respondent's firm/company and ALL subcontractors and/or subconsultants that Respondent may utilize for this project, including all certified MBE and/or WBE firms that may be used to fulfill the MWBE Commitment. Use additional pages if needed. The Total Percentage is calculated by dividing the Total Dollar Amount of Certified Firm Participation by the Total Project Amount. The Certified MBE Firm Participation Total Dollar Amount will correspond to the sum of all dollars spent with Certified MBE Firms listed in the corresponding Respondent and Team Summary Table. The Certified WBE Firm Participation Total Dollar Amount will correspond to the sum of all dollars spent with Certified WBE Firms listed in the corresponding Respondent and Team Summary Table. Round to the nearest whole dollar.

Base Bid

BASE BID		
	Total Dollar Amount	**Total Percentage** (Firm Participation ÷ Total Project Amount)
Total Project Amount	$ 562,388.00	100%
Certified MBE Firm Participation	$	%
Certified WBE Firm Participation	$ 158,838.00	28 %

ACKNOWLEDGEMENT

I hereby certify, as Prime Respondent to this Solicitation, that the information provided herein is true and correct. I affirm that I have authority to bind Respondent to contractual agreements.

Respondent has communicated with the subcontractors and subconsultants identified herein, and those subcontractors and subconsultants understand that Respondent intends to utilize them on this project, if awarded. Respondent agrees that bad faith or dishonesty in the information provided on this MWBE Participation Plan Form is a violation of MWSBE Policy Section VIII.G. If awarded, Respondent agrees to utilize the firms identified herein, to endeavor to pay those firms the amounts identified herein to meet the project specific goals for this solicitation, to monitor the work of the firms, to provide subcontractor or subconsultant payment information to the MWSBE Division, and to abide by the MWSBE Policy.

IDENTICAL TIE BIDS

Preference shall be given to businesses with drug-free workplace programs. Whenever two or more bids which are equal with respect to price, quality, and service are received by the State or by any political subdivision for the procurement of commodities or contractual services, a bid received from a business that certifies that it has implemented a drug-free workplace program shall be given preference in the award process. Established procedures for processing tie bids will be followed if none of the tied vendors have a drug-free workplace program. In order to have a drug-free workplace program, a business shall:

1) Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.

2) Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violations.

3) Give each employee engaged in providing the commodities or contractual services that are under bid a copy of the statement specified in subsection (1).

4) In the statement specified in subsection (1), notify the employees that, as a condition of working on the commodities or contractual services that are under bid, the employees will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) days after such conviction.

5) Impose a sanction on, or require the satisfactory participation in a drug assistance or rehabilitation program if such is available in the employee's community, by any employee who is so convicted.

6) Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

As the person authorized to sign the statement, I certify the

following: (Check one and sign in the space provided.)

X This firm complies fully with the above requirements.

_____ This firm does not have a drug free work place program at this time.

OFFICE OF ECONOMIC VITALITY

Inter-Office Memorandum

Date: August 7, 2025

To: Kelly Boyd, Purchasing Specialist
Purchasing Office

From: Darryl Jones, Deputy Director
Minority, Women, & Small Business Enterprise (MWSBE) - Office of Economic Vitality

Subject: LCSO Detention Center Exterior Stair Repair- Phase II
Project - BC-2025-044

The Minority, Women, & Small Business Enterprise (MWSBE) Division reviewed the MWBE Participation Plans of two bid respondents provided by the Purchasing Division to determine if the 12% Aggregate MWBE Aspirational Goal for Construction Subcontracting was achieved for the Sidewalk & Associated Work Construction project. Our review is conducted per the MWSBE Consolidated Policy, Leon County Purchasing Policy, and the bid requirements for this procurement as described in the MWSBE Overview (Section V, Sub A) in the solicitation.

Both bid responses provided to our office by County Purchasing and, therefore, considered by the MWSBE Division (as detailed in the following analysis section and tables) were responsive and met the Aspirational Goals for Construction Subcontracting. Being determined responsive means that these firms has provided a bid that conforms in all material aspects to the **Invitation To Bid** and/or the **Requests For Proposal**, per County Purchasing Policy (Policy#96-1).

OmniCon Corp – exceeded the Aggregate Aspirational Goal for Construction Subcontracting; therefore, the Good Faith Effort Form is not required, and OmniCon Corp is deemed responsive to the MWBE section of the bid.

Shaffield Building Specialists – exceeded the Aggregate Aspirational Goal for Construction Subcontracting; therefore, the Good Faith Effort Form is not required, and Shaffield Building Specialists is deemed responsive to the MWBE section of the bid.

Analysis for the submitted MWBE Participation Plan for the two bid respondents is presented as follows, and in order from the lowest total bid amount to the highest (beginning on the next page of the memo):

OmniCon Corp. – exceeded the Aggregate Aspirational Goal for Construction Subcontracting; therefore, the Good Faith Effort Form is not required, and OmniCon Corp is deemed responsive to the MWBE section of the bid.

Total Bid Amount	**$562,388**				
Name of MWBE	**Race / Gender**	**Certifying Agency**	**Goods & Services**	**MWBE Dollars**	**MWBE Utilization Percentage**
OmniCon	Non-Minority Female	Tallahassee-Leon County OEV	GC MGMT	$158,838	28%

Satisfied Good Faith Effort					**N/A

** Good Faith documentation was not required by the respondent because the aspirational goal was met or exceeded.

Leon County
Board of County Commissioners

Notes for Agenda Item #19

Leon County Board of County Commissioners

Agenda Item #19

September 15, 2025

To: Honorable Chairman and Members of the Board

From: Vincent S. Long, County Administrator

Title: Interlocal Agreement for the Maintenance of Landscaping on Sections of Capital Circle Southwest and Capital Circle Southeast

Review and Approval:	Vincent S. Long, County Administrator
Department / Division Review:	Ken Morris, Assistant County Administrator Nawfal Ezzagaghi, Assistant County Administrator Brent Pell, Director, Public Works
Lead Staff / Project Team:	Andrew Riley, Director of Operations Dean Richards, Right-of-Way Superintendent Timothy Barden, Administrative Service Manager

Statement of Issue:

This item seeks Board approval of an Interlocal Agreement between Leon County and the City of Tallahassee for the City to maintain landscaping on sections of Capital Circle Southwest and Capital Circle Southeast on behalf of the County.

Fiscal Impact:

This item has a fiscal impact. The County contracts with the City of Tallahassee for certain landscape maintenance services each year. Under the new Interlocal Agreement, the County will reimburse the City $143,156 in Fiscal Year (FY) 2026 to provide these services. Funding is available in the FY 2026 Operations Division's budget and a portion of these costs will be offset by a separate agreement with the Florida Department of Transportation (FDOT) for financial reimbursement to the County for the costs associated with this maintenance.

Staff Recommendation:

Option #1: Approve the Interlocal Agreement with the City of Tallahassee for the maintenance of landscaping on sections of Capital Circle Southwest and Capital Circle Southeast (Attachment #1), and authorize the County Administrator to execute the Agreement, and any amendments thereto, subject to legal review by the County Attorney.

Report and Discussion

Background:

This item seeks Board approval of an Interlocal Agreement (Attachment #1) between Leon County and the City of Tallahassee for the City to maintain landscaping on sections of Capital Circle Southwest and Capital Circle Southeast on behalf of the County.

The proposed Interlocal Agreement includes a 2.3-mile section of Capital Circle Southwest from Cascade Drive north to Shuler Road, a ½ mile segment of Capital Circle Southeast from Tram Road south to the City limit, and a ⅓ mile segment of Capital Circle Southeast from Woodville Highway east to the City limit (Attachment #2).

During the design phase of these Capital Circle segments, the Board approved the incorporation of enhanced landscaping to improve corridor aesthetics. Because these features exceed standard FDOT specifications and require higher levels of maintenance such as mowing, trimming, pruning, and litter control, the County and City agreed to assume responsibility from FDOT for landscape maintenance within their jurisdictions after construction. To support this, the County and FDOT entered into a Memorandum of Agreement under which FDOT reimburses the County for costs equivalent to standard routine maintenance, while the County covers the enhanced level of service. For efficiency, the County contracts with the City of Tallahassee to perform the maintenance, reimbursing the City annually with funding included in the Operations Division's budget and partially offset by FDOT's contribution. The Board has approved successive agreements to formalize these responsibilities, including Maintenance Agreements with FDOT in 2018, an Interlocal Agreement with the City in 2019, a renewed two-year agreement in 2023, and now seeks approval of a subsequent agreement to continue contracting with the City for landscape maintenance on Capital Circle Southwest and Southeast.

Analysis:

Since 2019, the County has contracted with the City of Tallahassee to maintain designated landscape segments of Capital Circle located within the County's jurisdiction, utilizing the City's turf and landscape maintenance program. In preparing the new Interlocal Agreement, staff evaluated whether continuing the current arrangement with the City remained the most efficient and cost-effective option. Alternatives considered included using Public Works personnel or private contractors to maintain the County's portions of Capital Circle. The analysis showed that both alternatives would cost 30–50% more than the proposed agreement with the City. Since most of Capital Circle lies within City limits and the County's segments are relatively short and scattered, the City is best positioned to provide consistent, efficient service. Continuing the partnership also ensures a uniform appearance and maintenance standard across the corridor.

Under the proposed Interlocal Agreement, the City will maintain all turf, landscaping, and trees, as well as perform litter control to the segments located within the County's jurisdiction. The County will reimburse the City $143,156 in FY 2026 to provide these services. The reimbursement will be adjusted each year on October 1, beginning after the first full year of the initial term, based on the percentage change in the prior year's Consumer Price Index (CPI). However, annual

adjustments will be no less than 2% and no more than 7%. The Interlocal Agreement is for a period of two years, and it will automatically renew for up to two additional two-year terms unless either party elects not to renew the agreement.

Options:

1. Approve the Interlocal Agreement with the City of Tallahassee for the maintenance of landscaping on sections of Capital Circle Southwest and Capital Circle Southeast (Attachment #1), and authorize the County Administrator to execute the Agreement, and any amendments thereto, subject to legal review by the County Attorney.
2. Do not approve the Interlocal Agreement with the City of Tallahassee for the maintenance of landscaping on sections of Capital Circle Southwest and Capital Circle Southeast.
3. Board direction.

Recommendation:

Option #1

Attachments:

1. Draft Interlocal Agreement
2. Maintenance Agreement Location Area Map

INTERLOCAL AGREEMENT BETWEEN THE CITY OF TALLAHASSEE AND LEON COUNTY LANDSCAPE MAINTENANCE ON CAPITAL CIRCLE

This Interlocal Agreement between the City of Tallahassee and Leon County – Landscape Maintenance on Capital Circle ("Agreement") is made and entered into this __ day of _____, 2025, by and between the City of Tallahassee, a Florida municipal corporation, hereinafter referred to as the CITY, and Leon County, Florida, a charter county and political subdivision of the State of Florida, hereinafter referred to as the COUNTY.

WITNESSETH

WHEREAS, the Blueprint Intergovernmental Agency (Blueprint) and Florida Department of Transportation (FDOT) completed construction of Capital Circle Northwest (N2) and Capital Circle Southeast (E2), of which portions are located within unincorporated areas of the COUNTY and within CITY limits, respectively; and,

WHEREAS, during the N2 and E2 project design phases, the COUNTY and the CITY agreed to assume responsibility from FDOT for landscape maintenance within their respective jurisdictions after construction; and,

WHEREAS, the CITY has a current turf and landscape maintenance program performing sound horticultural practices to the CITY's portion of turf and landscaping along sidewalks, medians and other landscaped areas alongside Capital Circle Northwest and Southeast; and,

WHEREAS, the CITY and COUNTY entered into that certain Interlocal Agreement Between the City of Tallahassee and Leon County – Landscape Maintenance on Capital Circle, dated May 9, 2023 (2023 Interlocal Agreement), whereby the CITY agreed to maintain the COUNTY's portion of turf and landscaping along sidewalks, medians and other landscaped areas alongside Capital Circle Northwest and Southeast, and that interlocal agreement expired on May 9, 2025; and,

WHEREAS, the COUNTY desires to continue to have its portion of turf and landscaping along sidewalks, medians and other landscaped areas alongside Capital Circle Northwest and Southeast maintained by the CITY; and,

WHEREAS, it is in the best interest of the public that both the CITY and the COUNTY provide the same level of landscape maintenance;

NOW THEREFORE, in consideration of these premises and the covenants contained herein, the Parties agree to the following:

1. Statement of Work. Commencing on October 1, 2025, the CITY shall routinely maintain all turf, landscaping, and trees as well as perform litter control to the areas located within the COUNTY's jurisdictions of Capital Circle Northwest (from south of Cascade Drive – milepost 7.276 to north of Shuler Road – milepost 9.624) and Capital Circle Southeast (0.33 miles east of Woodville Highway and from 0.5 miles south of Tram Road to Tram Road), except that the replacement of plants, trees, and sod, repair and maintenance of the irrigation system, and the mechanical edging of curbs and sidewalks shall be the COUNTY's sole responsibility and expense. The CITY shall service the COUNTY's section of road segments according to the Landscape Technical Maintenance Plan (Exhibit "A") and FDOT's Landscape Care Guide (Exhibit "B").

2. Inspections. The work performed by the CITY shall be subject to periodic routine inspections by the COUNTY.

3. Payments. The COUNTY, as compensation to the CITY for performance of this Agreement, shall pay the CITY $143,156.44 annually. Such compensation shall be payable quarterly in accordance with paragraph 5 below of the Agreement.

4. Economic Price Index adjustment (CPI): On October 1, 2026 following the first full year of the initial term, and on October 1 of each subsequent year during the Renewal Terms, as those terms are defined in paragraph 8 below, landscape maintenance rate will be adjusted based on the percentage change in the Consumer Price Index for all Urban Consumers (CPIU): US City Average, All Items (unadjusted) over the most recent twelve-month period for which such index is available on the effective date of adjustment. Notwithstanding the forgoing the yearly percentage adjustment shall not exceed seven percent (7%) and shall not be less than two percent (2%), regardless of the CPIU.

5. Invoicing. Invoices shall be submitted by the CITY for services rendered after each quarter ending in September, December, March, and June of each year. Lump sum payments by the COUNTY shall be made to the CITY on a quarterly basis within thirty (30) days after receipt of invoice.

6. Termination. This Agreement may be terminated under any one of the following conditions:
   a. Either Party may terminate this Agreement if the other Party materially breaches its obligation under this Agreement and such breach is not cured within thirty (30) calendar days after delivery of the non-breaching Party's written notice to the other Party.
   b. Either Party may terminate this Agreement with or without cause following at least sixty (60) calendar days written notice to the other Party.
   c. The Parties may mutually agree to terminate this Agreement following at least thirty (30) calendar days following the complete execution by both Parties of an agreement to terminate this Agreement.

7. Notices. Unless specified elsewhere in the Agreement, any notices of default, dispute, or termination shall be sufficient if sent by the Parties via email effective upon the sender's receipt of confirmation generated by the recipient's email system that the notice has been received by the recipient's email system, United States mail, postage paid, or via a nationally recognized delivery service, to the addresses listed below:

If to the COUNTY:

Public Works Director

Tallahassee, FL 32308
pellb@leoncountyfl.gov

With a copy delivered to:

County Attorney
Leon County Attorney's Office
301 S. Monroe Street, Suite 202

Tallahassee, FL 32301
osteenc@leoncountyfl.gov

If to the CITY:

General Manager, Community Beautification & Waste Management
2727 Municipal Way
Tallahassee, FL 32304
Reginald.Ofuani@talgov.com

With a copy delivered to:

City Attorney's Office
300 S. Adams Street
Tallahassee, FL 32301
Edie.McKay@talgov.com

8. Term. This Agreement is for a period of two (2) years from the date of this Agreement ("Initial Term"). This Agreement shall renew automatically for two (2) successive 2-years terms ("Renewal Terms") unless either party gives notice of non-renewal in writing executed by the County Administrator or City Manager, as applicable, at least thirty (30) days prior to the expiration of the then current term.

9. Liability. To the extent permitted by law, each party hereto agrees that it shall be solely responsible for the negligent and wrongful acts of its employees, officers, and agents. However, nothing shall constitute a waiver by either party of its sovereign immunity and the limitations set forth in Section 768.28, Florida Statutes. The liability of the parties, as set forth in this paragraph, is intended to be consistent with limitations of state law, including the state's waiver of sovereign immunity pursuant to Section 768.28, Florida Statutes, and no obligation imposed hereby shall be deemed to alter said waiver or to extend the liability of the parties beyond such limits.

10. Availability of Funds. The performance of COUNTY of any of its obligations under this Agreement shall be subject to and contingent upon the availability of funds budgeted by the COUNTY or otherwise lawfully expendable for the purposes of this Agreement for the current and future periods.

11. Conflict Resolution.

a. It is the intent of the Parties that conflicts be resolved to the greatest extent possible without litigation. The Parties shall attempt to resolve all disputes that arise under this Agreement in good faith and in accordance with this section. The provisions of the "Florida Governmental Conflict Resolution Act" shall not apply to disputes under this Agreement, as an alternative dispute resolution process is hereby set forth in this section. The aggrieved Party shall give notice to the other Party in writing, setting forth the name of the Party involved in the dispute, the nature of the dispute, the date of occurrence (if known), and the proposed resolution, hereinafter referred to as the "Dispute Notice."

b. Should the Parties be unable to reconcile any dispute, the City Manager and County Administrator, or their designees, shall meet at the earliest opportunity, but in any event within ten (10) days from the date that the Dispute Notice is received, to discuss and resolve the dispute. If the dispute is resolved to the mutual satisfaction of the Parties, they shall report their decision, in writing, to the City Commission and the Board of County Commissioners. If the City Manager and County Administrator, or their designees, are unable to reconcile the dispute, they shall report their impasse to the City Commission and the Board of County Commissioners, who shall then convene a meeting at their earliest appropriate opportunity, but in any event within forty-five (45) days following receipt of a Dispute Notice, to attempt to reconcile the dispute.

c. If a dispute is not resolved by the foregoing steps within forty-five (45) days after the receipt of the Dispute Notice, unless such time is extended by mutual agreement of the Parties, then either Party may require the dispute to be submitted to mediation by delivering written notice thereof (the "Mediation Notice") to the other Party. The mediator shall meet the qualifications set forth in Rule 10.100(d), Florida Rules for Mediators, and shall be selected by the Parties within ten (10) days following receipt of the Mediation Notice. The mediator shall also have sufficient knowledge and experience in the subject of

the dispute. If agreement on a mediator cannot be reached in that ten (10) day period, then either Party can request that a mediator be selected by an independent conflict resolution organization, and such selection shall be binding on the Parties. The costs of the mediator shall be borne equally by the Parties.

d. If an amicable resolution of a dispute has not been reached within sixty (60) calendar days following selection of the mediator, or by such later date as may be mutually agreed upon by the Parties, then, upon the agreement of both Parties, such dispute may be referred to binding arbitration; otherwise, each Party may pursue whatever remedies may be available at law, in equity, or otherwise. If the dispute is so referred, such arbitration shall be conducted in accordance with the Florida Arbitration Code (Chapter 682, Florida Statutes).

(1) Such arbitration shall be initiated by delivery, from one Party (the "Claimant") to the other Party (the "Respondent"), of a written demand therefore containing a statement of the nature of the dispute and the amount, if any, involved. The Respondent, within ten (10) days following its receipt of such demand, shall deliver an answering statement to the Claimant. After the delivery of such statements, either Party may make new or different claims by providing the other(s) with written notice thereof specifying the nature of such claims and the amount, if any, involved.

(2) Within ten (10) days following the delivery of such demand, each Party shall select an arbitrator and shall deliver written notice of that selection to the other. If either Party fails to select an arbitrator within such time, the other Party may make application to the court for such appointment in accordance with the Florida Arbitration Code. Within ten (10) days following delivery of the last of such written notices, the two arbitrators so selected shall confer and shall select an additional arbitrator.

(3) The arbitration hearing shall be commenced in Leon County, Florida within sixty (60) days following selection of the additional arbitrator. Except as may be specifically provided herein, the arbitration shall be conducted in accordance with Rules R-23 – R-48 of the Commercial Arbitration Rules of the American Arbitration Association.

12. Public Records. The Parties shall be bound to the requirements of Ch. 119, Florida Statutes, as it relates to public records.

IN WITNESS WHEREOF, the CITY and COUNTY have caused this Agreement to be executed by their duly authorized representatives effective the date first written above.

	2-4" Caliper	Daily for one month; every other day for three months; weekly until established.		Month 2	Twice per week.							
	>4" Caliper	Daily for 6 weeks, every other day for five months, weekly until established.		Month 3	Once per week until established.							
Weed Control	XX	XXY	XX	XX	XX	XXY	XX	XX	XX	XXY	XX	XX
	Weed all planting beds twice per month. Landscape areas shall be kept relatively weed free.			Weeding of landscape areas utilizing appropriate selective and non-selective herbicides, applied as per manufacturer's specifications, under the supervision of a licensed applicator by FDACS. Application of herbicides shall be done with extreme caution to prevent damage to landscape and tree plantings. NOTE Y-Application of Snapshot granular herbicide at 200#/ acre rate as per manufacturer's specifications and limitations.								
Pruning				Pruning for trees, shrubs, and groundcovers to be performed in accordance with the ANSI A300 guidelines and FDOT design standard index 546. All trees within medians shall be pruned to maintain sight distance for vehicles and pedestrians. Additionally, prune trees as needed to remove dead, diseased, or broken branches, fronds, and seed heads.								
Fertilization			X				X					
	Trees and shrubs shall be fertilized using a slow release fertilizer that contains at least 50% of the available nitrogen in a slow release form. Fertilizer analysis shall be in a NPK ratio of 2-1-1, a t a rate recommended by soil fertility analysis.			Trees, shrubs, and ground covers are to be fertilized by top dressing the root zone of the plants and trees, using owner approved methods This application of fertilizer shall be irrigated within two days of application with a minimum of 1/2" of irrigation. All materials and performance of work shall meet Florida Friendly Best Management Practices for the Protection of Water Resources by the Green Industry and all other applicable state and federal health and safety laws.								
Litter Removal	X	X	X	X	XX	XX	XX	XX	XX	X	X	X
	Litter removal within the project limits. To be completed in conjunction with the mowing schedule, but immediately prior to mowing. The months of November, December, January, and February shall also have litter removed once per month.											
Mulching 3" Depth Pine Bark Nuggets	Mulch should be applied after landscape material has been installed and air pockets have been filled.			Mulch shall be free of vegetative yard waste, plastic, glass, metal, palm fronds, sand, and other foreign materials. Mulch shall be consistent in appearance. Mulch shall be free from viable non-native seed, weed, and grass seed. Maintain a continuous 3" layer of mulch in all planted and mulched areas with the exception of trees.								
Tree Staking				The City shall maintain, repair, and/or replace all staking materials as needed to keep trees upright and to prevent girdling. The City shall remove staking at the end of the one year establishment period or as directed by the owner.								
Disease and Insect Control	X	X	X	X	X	X	X	X	X	X	X	X
	The City shall inspect all landscape material on a monthly basis for insects, mites, fungus,etc., and apply correct control products as needed per manufacturer's specification.											
Plant Material Replacement	The City shall replace all dead material within the planting season of October 15th to March 15th.

1. GENERAL

1.1 INTRODUCTION

Landscaping projects along the State Highway System are installed during construction through agreements with local governments, via permits with abutting private property owners, through the Florida Highway Beautification Council Grant, or by the District landscape funding processes. In some cases, these projects may have an associated Memorandum of Agreement, or Joint Participation Agreement between the local agency and the Department.

This Landscape Care Guide is intended to serve as a companion document to such formal agreements between local municipalities and the Department, and sets forth the minimum requirements for uniform and routine maintenance of landscaped areas. This guide provides methods/targets for efficiently and effectively managing the activities that will achieve and maintain a high level of health for the landscaped areas. It is acknowledged that all of the features (i.e., irrigation) detailed within this guide may not be present within certain landscaped area(s) and/or part of a local agreement, and in such instances the requirements of this guide will not apply.

The Maintaining Agency shall provide all labor, materials, equipment, incidentals, and services to provide complete care for the landscaping, as well as any necessary ancillaries described in the associated local agreement, permit, or grant and accompanying plans.

1.2 SUBMITTALS

The Maintaining Agency shall submit a 12 month landscape maintenance schedule for all landscape areas designated in the associated local agreement, permit, or grant to the District for review and approval. The landscape maintenance schedule shall outline all landscape activities for each project area by month, including schedules for mowing, edging, litter removal, pruning, trimming, fertilizing, mulching, spraying all pesticides and herbicides, plant replacement, irrigation repair, etc.

The Maintaining Agency shall submit all applicable Federal, State, and local licenses.

The Maintaining Agency shall submit a list of all Key personnel, phone numbers and identification of emergency response personnel and telephone numbers.

All State and Federal regulations governing the use/application of chemicals shall be strictly adhered to. The Maintaining Agency assumes all related liability for adhering to these regulations and shall provide MSDS sheets for all chemicals to the District's Landscape Project Manager prior to start of the contract. The Maintaining Agency shall also provide MSDS sheets for any changes in chemical use to the District's Landscape Project Manager, prior to application, throughout the entire Agreement period. These shall be kept on file at the local District Maintenance office.

1.3 GENERAL REQUIREMENTS

Fertilization

As necessary, a custom blended granular fertilizer should be applied according to recommendations of an approved soil analysis laboratory.

The District's Landscape Project Manager reserves the right to review soil analyses and to make reasonable adjustments to the specifications, timing, rate of application and elementary composition according to actual horticultural conditions at the time.

A Florida State inspection of analysis along with an actual certified fertilizer label, legible and otherwise in suitable condition for filing, must be submitted to the District's Landscape Project Manager for approval.

All fertilizers shall be kept out of retention ponds and be removed immediately from all sidewalks and roadways.

A report containing bag usage and tonnage per area shall be submitted within two calendar days following fertilization.

Pest Control

Landscaped areas shall be continuously monitored for infestations of insects and treated immediately for proper control. Extreme care is recommended if using a chemical herbicide to avoid overspray onto the plant material.

Invasives Control

All species found on the FLEPPC list of Category One invasive species shall be eradicated and prevented on the project site. This includes the common species of:

- Kudzu
- Cogon Grass
- Tropical Soda Apple
- Chinese Privet
- Chinese Tallow Tree
- Chinaberry Tree
- Camphor Tree
- Brazilian Pepper
- Mimosa Tree

2. LAWN MAINTENANCE

2.1 TURF CONDITION

Evaluation Criteria: Turf condition will be evaluated for the presence of bare ground within the established mowing limits of the landscaped areas. Bare ground is defined as any single region that is at least 10 square feet in area and 95% free of vegetation.

Purposely stabilized areas (lime rock, shell, etc.) shall not be considered as bare ground and not included in the turf evaluation.

Turf grasses that appear to be dead may actually be dormant and shall be considered to meet desired maintenance conditions.

Turf condition does not meet Department Care Guide standards when any of the following exist:

- If any single region that is at least 10 square feet in area and 95% free of vegetation is present

2.2 MOWING

Evaluation Criteria: Turf areas should be maintained to a height of no more than five (5) inches nor less than two (2) inches, to foster photosynthesis and healthy root development. This mowing height criteria excludes allowable seed stalks.

Do not evaluate mowing in areas of natural occurring or designated wildflower planting areas.

Mower blades shall be kept sharp at all times to prevent tearing of grass blades.

Mulching type mowing equipment is preferred and no side discharges without guards are permitted on walk-behind or riding mowers.

Various mowing patterns shall be employed to prevent ruts in the turf caused by mowers. All clippings shall be kept out of ornamental beds, off all sidewalks and roadways.

Mowing does not meet Department Care Guide standards when any of the following exist:

- If any time grass height exceeds five (5) inches or is less than two (2) inches

2.3 EDGING

All sidewalks and roadways shall be immediately swept, blown, or vacuumed to maintain a clean, well-groomed appearance.

Edging is divided into two categories: 1) Hard surface edging and 2) Soft surface edging

Hard Surface Edging

Evaluation Criteria: Hard surface edging will be evaluated along all sidewalks, driveways (asphalt or concrete) and curbs.

Hard surface edging is defined as outlining and/or removing turf from along all sidewalks, driveways (asphalt or concrete) and curbs. All hard surface edging shall be performed to maintain straight, sharp edges between curbs/sidewalks and turf areas at the same frequency, and same day as, mowing.

Any bike paths located outside the roadway pavement area will be included in the evaluation for curb/sidewalk edging.

Hard Surface Edging does not meet Department Care Guide standards when any of the following exist:

- Any encroachment of vegetation or debris for more than 4 inches onto the curb, sidewalk, or bike path for more than 10 continuous feet.
- Any encroachment of vegetation more than 4 inches over the curb, sidewalk, or bike path for 10 continuous feet.

Soft Surface Edging

Evaluation Criteria: Soft surface edging will be evaluated around the perimeter of all trees rings and planting beds.

Soft surface edging is defined as outlining and/or removing turf from all trees rings and planting beds. All soft surface edging shall be performed neatly to maintain the shape and configuration of all planting areas in a clean manner. All plant bed edges shall be maintained to the curves, as originally designed.

All areas inaccessible to mowers shall be trimmed at the same height, same day, in the same frequency as mowing. Trimming shall be performed with the use of a string or line trimmer or other suitable mechanical means. Chemical use shall be encouraged when working within 6" of any fence posts. Apply chemicals per all applicable regulations/laws. Herbicides shall not be used as a seed head suppressant or plant growth regulant.

Soft Surface Edging does not meet Department Care Guide standards when any of the following exist:

- Plant bed edges are not maintained to the curves/borders as originally designed.

2.4 LITTER REMOVAL

Litter or debris may consist of varied sizes of bottles, cans, paper, tires, tire pieces, lumber, building materials, furniture, household items, dead animals, livestock, vehicle parts, metal junk, tree limbs greater than 1 inch in diameter, brush, campaign and advertising signs, and other debris.

Items (leaves, bagged trash, tree-trimming residue) that appear to be those which will be picked up during the normal waste collection process will not be considered as litter.

Litter Removal does not meet Department Care Guide standards when any of the following exist:

- Any single object in the mowing areas and/or landscape areas greater than 1/2 sq. ft. in area, and exceeding 1/2 inch in height.

- Where the litter is greater than 3 objects per 100 square feet of mowing area or landscape area.

3. SHRUBS/GROUND COVER CARE

3.1 PRUNING

Shrubs shall be clipped to remove only the top excess growth. Pruning sides of shrubs shall be avoided to allow the mass to naturally fill.

No pruning shall be performed on live wood that alters the shape and fullness with respect to the intended character of the plantings.

Ground covers shall be edged and/or pruned to contain them within the planting beds.

All clippings shall be removed from all sidewalks, roadways, and waterways, and disposed of off-site. Blowing of clippings as a form of removal is not permitted.

3.2 WEEDING

The Maintaining Agency shall be required to maintain all mulched areas so as to be as weed free as practical, as environmental, horticultural, and weather conditions permit. Weeds around impervious surfaces shall be sprayed as soon as observed. All weeds collected shall be removed and disposed off-site.

All State and Federal regulations governing the use/application of chemicals shall be strictly adhered to. The Maintaining Agency assumes all related liability for adhering to these regulations.

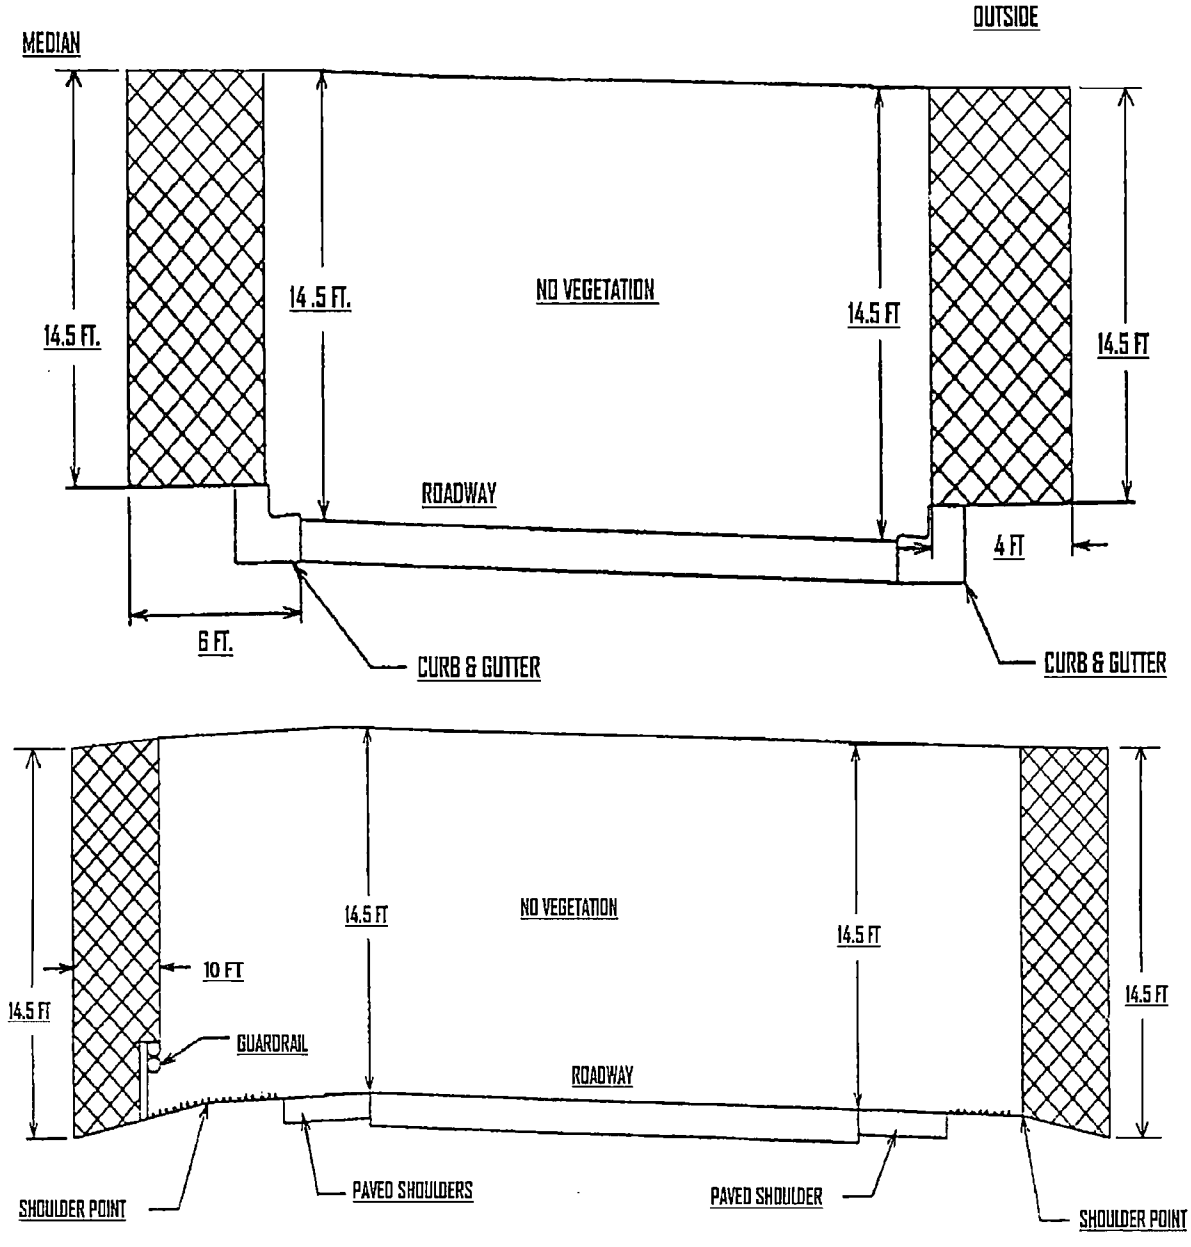
3.3 MULCH

Mulch should be installed one time a year in March to maintain a 3-inch mulch layer. Mini pine bark nuggets, pine straw or seasoned wood chips should be used. Use of Red mulch or cypress mulch is not permitted.

4. TREE CARE

4.1 TREE TRIMMING

Evaluation Criteria: The encroachment of trees, tree limbs, or vegetation will be evaluated within or over the following elements: travel ways, bike paths and sidewalks. In addition, the encroachment of trees, tree limbs, or vegetation will also be assessed within the clear zone. Trees that will be evaluated will have a diameter greater than 4 inches as measured 6 inches above the ground. An additional component to be evaluated as part of tree trimming includes those tree limbs greater than 1 inch in diameter that are higher than 3 feet above the ground.



Reference Design Standard Index No. 700 for tree trimming clear zone limits.

Tree trimming does not meet Department Care Guide standards when any of the following exist:

- In curb and gutter areas, vegetation is lower than 14-1/2 feet over the roadway from the face of curb to the face of curb.
- In areas without curb and gutter, vegetation over the roadway and shoulder is lower than 14.5 feet.
- In areas with guardrail, trees or tree limbs over the roadway and shoulder are lower than 14.5 feet from face of guardrail.
- Vegetation encroachment of trees, tree limbs or vegetation over the sidewalk or bike path is lower than 8-1/2 feet.
- Trees and/or vegetation that obscure the message of a sign.

EXHIBIT "B"

CLEAR ZONE VEGETATION CRITERIA

VEGETATION VIOLATING HORIZONTAL CLEARANCE

Note: The cross hatched areas shown above represent areas to be evaluated for horizontal clear zone violations. Violation of clear zone includes the evaluation of trees that have a diameter greater than 4 inches as measured 6 inches above the ground. It also includes the evaluation of tree limbs greater than 1 inch in diameter greater than 3 feet above the ground.

4.2 TREE PRUNING

Tree Pruning is performed as necessary to maintain uniformity and to guide the tree's growth.

All pruning, and the associated safety criteria, shall be performed according to American National Standard Institute (ANSI) A300 standards. Pruning in general shall consist of the removal of dead, broken, fungus-infected, insect-infected, superfluous, and intertwining branches, vines and the removal of dead or decaying stumps and all other superfluous growth.

The base of all trees should be free of sucker growth. Remove any limbs immediately that pose a threat to public safety. Pruning plans should follow these general guidelines:

- Oaks - Generally prune trees to maintain the desired uniform appearance by thinning or tipping. No topping shall be performed on oak trees.
- Crape Myrtles - Crape Myrtles should be tipped in March, but only by approximately 2' - 3'. Severe topping is not permitted.
- Ligustrum - Hand clipped to achieve an umbrella shaped form. Severe shearing into "globes" shall be avoided.
- Magnolias - Prune only sucker growth and to maintain an attractive appearance.
- Palms - Condition and appearance of booted trunks shall be monitored monthly and clean-up/boot removal shall be provided as necessary. Fronds and fruiting bodies should be removed only when completely brown.

Other ornamental trees should be pruned yearly during late winter/early spring (late February - April).

Tree pruning does not meet Department Care Guide standards when any of the following exist:

- Pruning is not performed according to ANSI A300 standards.

4.3 MULCH

For all individual isolated trees the tree ring should be remulched one time a year in March to maintain a 3-inch mulch layer. Mini pine bark nuggets, pine straw or seasoned wood chips should be used. Use of Red mulch or cypress mulch is not permitted.

4.4 SUPPLEMENTAL WATERING

Trees coming out of a two year Establishment Period shall be considered sufficiently established so as to not require supplemental watering by the Maintaining Agency. In the case where trees are replaced by the Maintaining Agency, the Maintaining Agency is responsible for supplemental watering and associated equipment in order to ensure the health and survival of the trees.

5. IRRIGATION SYSTEM

5.1 GENERAL REQUIREMENTS

The Maintaining Agency shall be responsible for continual, full operation of all irrigation system parts.

The Maintaining Agency shall be responsible for repairs and maintenance to the system for the term of the Agreement.

Any modifications to the irrigation system shall be submitted to the District's Landscape Project Manager in writing for approval. A detailed sketch for record documents will also be supplied to the District's Landscape Project Manager, prior to work commencing.

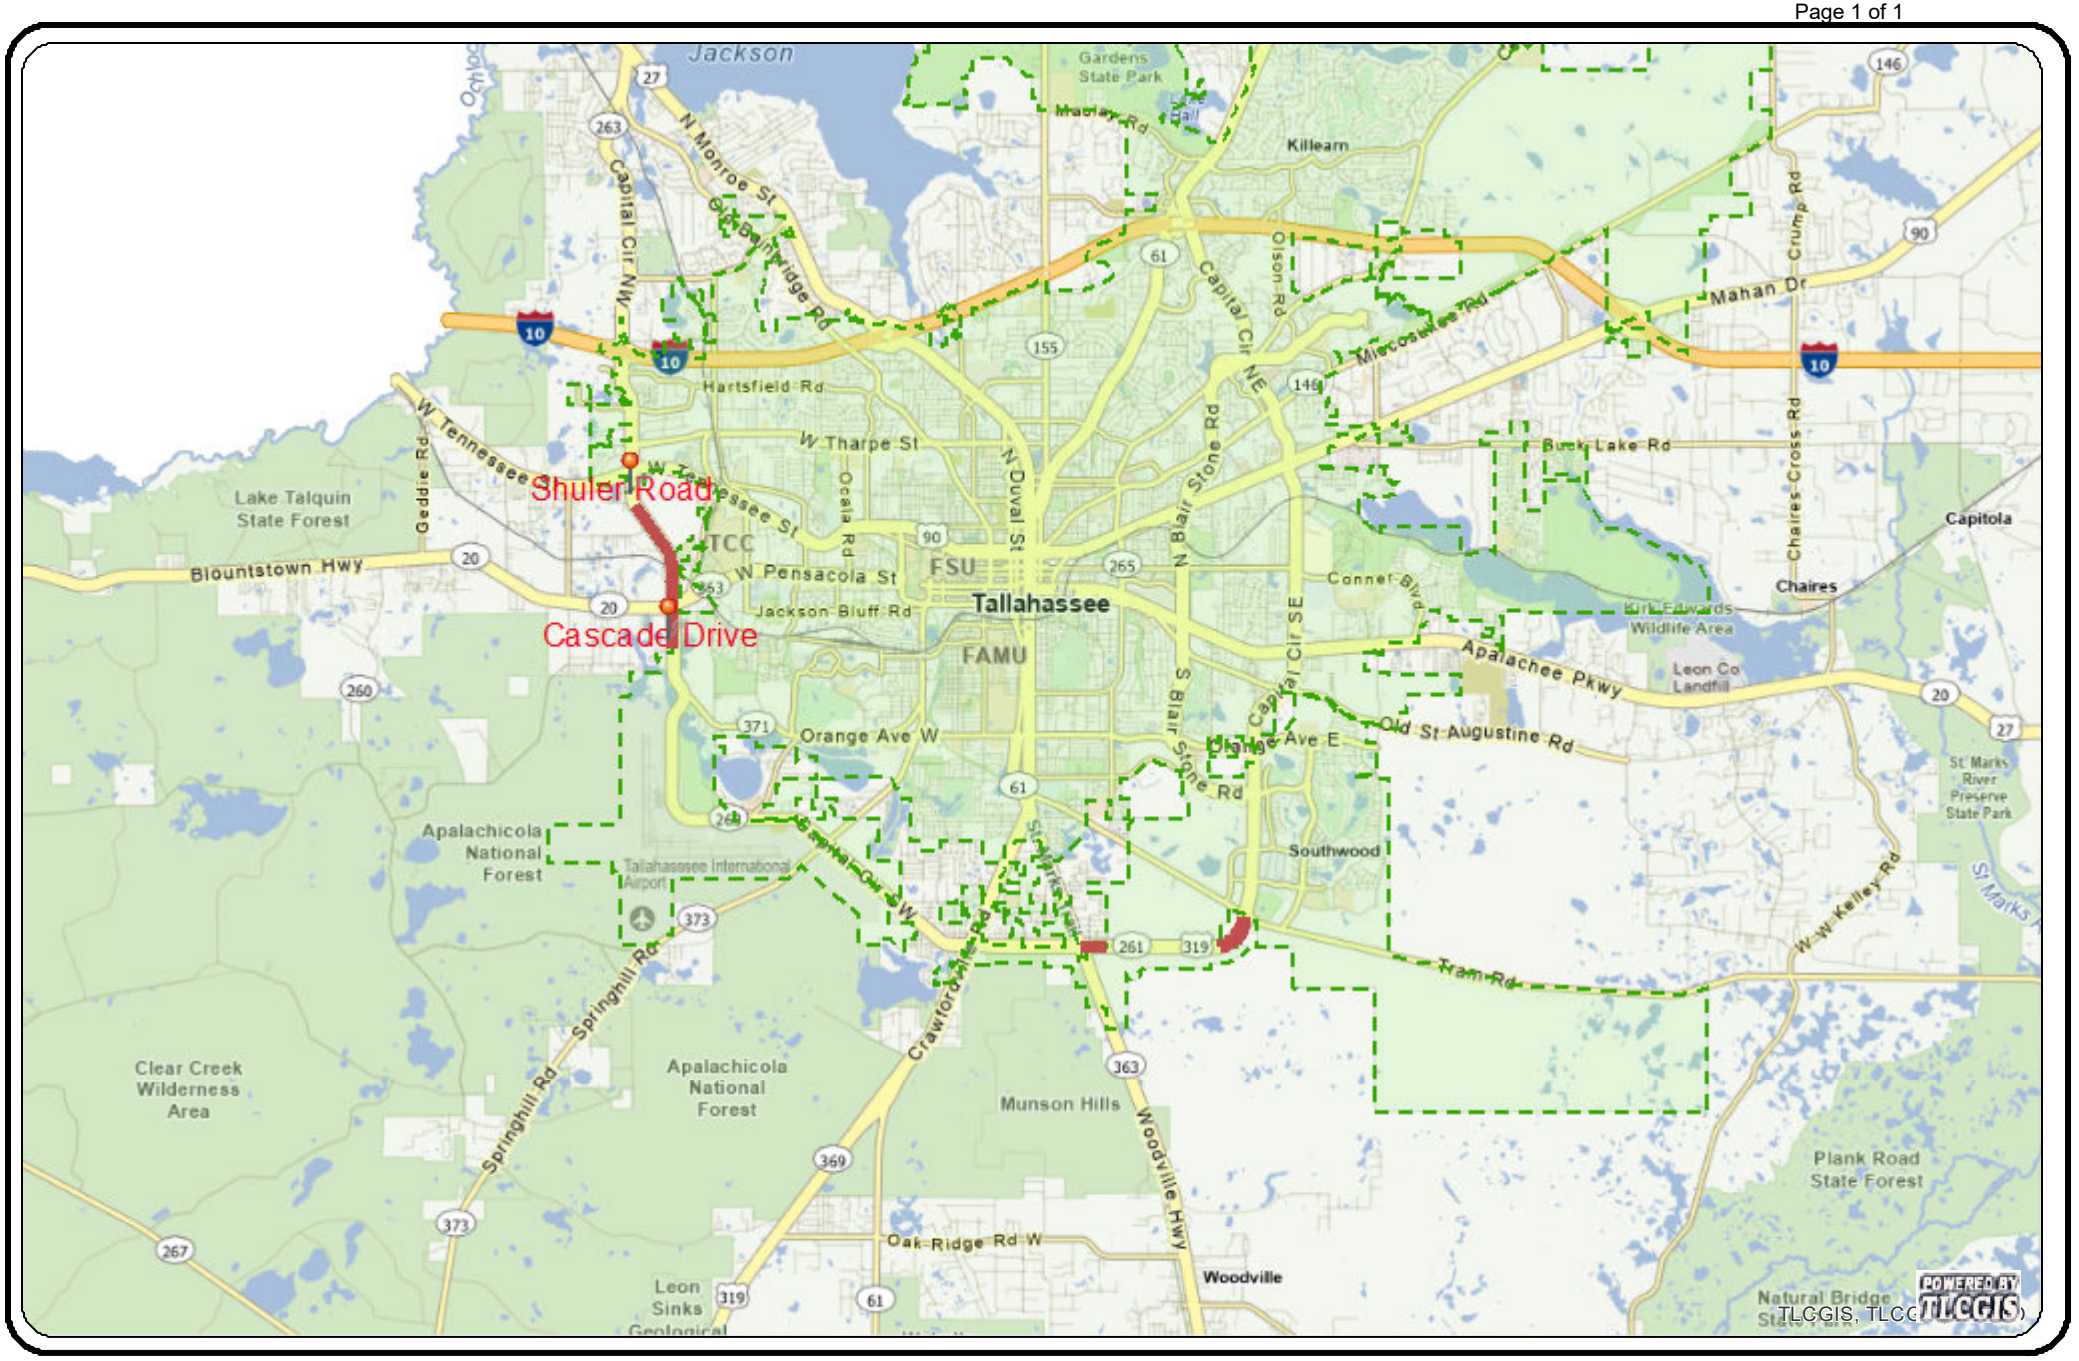
5.2 MONITORING/ADJUSTMENTS

The Maintaining Agency shall inspect the entire operation of the system no less than once every month. During this inspection, the Maintaining Agency shall perform the following:

- Visually check for and report any damaged heads or ones needing repair.
- Ensure that overspray is limited on pavement, buildings, and other hardscape elements.

Spray patterns for all irrigation heads shall be adjusted, if required, by the Maintaining Agency or as directed by the District's Landscape Project Manager.

5.3 VALVE/VALVE BOXES



Provide any miscellaneous cleaning of valves for proper functioning on an as needed basis.

Ensure that all valve boxes remain flush and level with grade. The valve boxes shall be kept free of any overgrowth of plant material or sod.

5.4 IRRIGATION REPAIRS

All breaks shall be repaired immediately.

Irrigation components damaged by accident or by vandalism shall be repaired immediately.

Leon County
Board of County Commissioners

Notes for Agenda Item #20

Leon County Board of County Commissioners

Agenda Item #20

September 15, 2025

To: Honorable Chairman and Members of the Board

From: Vincent S. Long, County Administrator

Title: Status Report on Efforts to Address Poverty and Inequities in 32304

Review and Approval:	Vincent S. Long, County Administrator
Department / Division Review:	Ken Morris, Assistant County Administrator Shington Lamy, Assistant County Administrator Nawfal Ezzagaghi, Assistant County Administrator Artie White, Director, Planning, Land Management & Community Enhancement (PLACE)
Lead Staff / Project Team:	Abigail Thomas, Director, Office of Human Services and Community Partnerships Marcus West, Neighborhood Engagement and Community Partnerships Manager Autumn Calder, Director, Blueprint Intergovernmental Agency

Statement of Issue:

As requested by the Board, this item provides a status report on the County's ongoing partnerships, programs, and investments to address poverty and inequity in neighborhoods within the 32304 zip code area. The item also includes comparative data on local government investments in other zip codes in Leon County to address poverty and inequities as requested by the Board.

Fiscal Impact:

This item has no fiscal impact.

Staff Recommendations:

Option #1: Accept the status report on Leon County's efforts to address poverty and inequities in 32304.

Report and Discussion

Background:

As requested by the Board on April 8, 2025, this item provides a status report on the County's partnerships, programs, and investments to address poverty and inequity in neighborhoods within the 32304 zip code area. The item also includes comparative data on local government investments in other zip codes in Leon County to address poverty and inequities as requested by the Board.

This status report advances the following FY 2022 – FY 2026 Strategic Initiatives:

- *Work with the City of Tallahassee on the development and implementation of the Neighborhood First Program to engage residents and develop plans to address poverty and inequity in targeted neighborhoods including 32304. (2022-33)*
- *Partner with the City of Tallahassee, Capital City Chamber of Commerce, and local stakeholders to spur economic growth and financial security in the neighborhoods that have historically experienced poverty and racial inequity through initiatives such as Bank On Tallahassee. (2023-46)*

These particular Strategic Initiatives align with the Board's Economy and Quality of Life Strategic Priorities:

- *(EC2) Support programs, policies and initiatives to attract, create, and promote expansion of business, entrepreneurship, job creation, workforce development, economic equity, and mobility.*
- *(Q2) Provide relevant and essential offerings through our libraries and community centers which promote literacy, life-long learning, and social equity.*
- *(Q4) Support and promote access to basic healthcare, mental health, affordable housing, and homeless prevention services to our community members most in need.*
- *(Q5) Promote livability, health and sense of community by supporting strong neighborhoods, enhancing mobility, encouraging human scale development, and creating public spaces for people of all ages.*

Leon County has a long history of tackling poverty through programs, policies, and partnerships throughout the County with an emphasis on 32304. For nearly 30 years, the County has funded human programs through the Community Human Services Partnership (CHSP) which are delivering essential resources such as food, childcare, and shelter to low-income families. Additionally, for more than 20 years, the County has provided uninsured and underinsured low-income individuals access to high quality comprehensive health and medical services in partnership with local healthcare providers. Furthermore, over the past ten years the County has expanded its investment in housing to increase and preserve the stock of affordable housing for low-income households.

In recent years, the County has increased its investments, expanded its partnerships, and enhanced its programs to reduce poverty in 32304 and other neighborhoods. On November 19, 2021, the Board was provided a comprehensive report on programs, services, initiatives, and events adopted and implemented by the County and its community partners to address poverty and inequities in

communities and neighborhoods within the 32304 zip code. At that time, the Board approved recommendations focused on strengthening the County's collaboration with the City of Tallahassee (City) to develop and implement the City's Neighborhood First Program which aims to reduce crime, enhance quality of life, and increase economic prosperity in 32304 which includes Frenchtown and Griffin Heights, and other high poverty neighborhoods in the community such as Bond (32310), Providence (32310), and South City (32301).

Since 2021, the County has strengthened its efforts to address poverty through the investment of more than $34 million to improve the lives of residents in neighborhoods that have historically experienced poverty and inequities through human services, healthcare, housing, and economic development. At the same time, the County has dedicated $319 million through Blueprint for current and planned infrastructure investments in 32304 and high poverty neighborhoods in other zip codes (32301, 32303 and 32305). The following Analysis section details the County's ongoing efforts through active engagement, significant investment, and critical programming in partnership with local stakeholders. Subsequently, a comparison of local investments to address poverty in 32304 and other zip codes in the community is provided.

Analysis:

According to the U.S. Census (American Community Survey Data 2019–2023), zip code 32304 has the highest poverty rate in the community at 49.4%, compared with the 18.1% countywide average. Also, 32304 has the lowest homeownership rate (13% compared to 52% countywide) and a median household income of $30,823 (compared to $66,000 countywide). Poverty in 32304 is concentrated in census tracts that include the Frenchtown and Griffin Heights neighborhoods within the city limits. As a result, the County has collaborated with the City and other local partners to develop, fund, and support a variety of programs, services, events, and initiatives to address poverty and inequity in 32304. The following sections detail the County's efforts in the areas of community partnerships and neighborhood engagement, human services, health care, housing, and economic development to improve the quality of life and spur economic growth in 32304.

Community Partnerships and Neighborhood Engagements

Collaboration and coordination with community partners and stakeholders to engage high poverty neighborhoods has been a critical component to the County's effort to connect and deliver to residents essential programs and services in the community. Over the past several years, the County's partnerships to engage 32304 residents have included:

- Implementation of the City's Neighborhood First Plans for Bond, Frenchtown, and Griffin Heights (Attachments #1, #2, and #3), developed by the residents to identify tangible actions to reduce crime, enhance quality of life, and increase economic prosperity in those neighborhoods. Since 2022, the County has invested more than $3 million to implement the Neighborhood First Plans by aligning and enhancing existing programs for human services and housing which are further detailed in the item.
- Collaboration with the City and Children Services Council of Leon County (CSC Leon) in 2022 to conduct a series of nine meetings in neighborhoods with the highest food insecurity rates that engaged more than 300 residents to discuss and identify the root causes. The

overwhelming response of participants was the need for greater awareness of available resources in the community to address food insecurity and poverty and led to:

  - The creation of the Neighborhood Engagement and Community Partnership Manager position by the Board to actively engage and connect residents to agencies, programs, and services focused on improving quality of life and economic prosperity for individuals and families; and
  - The establishment of the Trusted People Neighborhood Steering Committee (Trusted People) in partnership with the City, CSC Leon, and the United Way of the Big Bend (UWBB) to promote available resources in neighborhoods that have historically experienced inequity and disinvestment to address issues of poverty and food insecurity. The Trusted People Committee is comprised of neighborhood leaders and stakeholders from Bond, Frenchtown, Griffin Heights, Providence, South City, and Woodville neighborhoods appointed by the County, City, CSC Leon, and UWBB.

- Hosting workshops, seminars, and expos on heirs' property, healthy cooking, and youth employment with the City, CSC Leon, and human service providers in high poverty neighborhoods including 32304 that have engaged over 500 residents.

Building on the collaborative effort to engage and connect residents of 32304 and other low-income neighborhoods to available resources, the County, City, CSC Leon, UWBB, and United Partners in Human Services (UPHS) will host a Trunk or Treat event October 25, 2025 at the Old West Enrichment Center. During the event human service agencies funded by the County, City, CSC Leon, and UWBB will distribute candy and information on programs and services, including food, housing, childcare, healthcare, and more to youth and families. As presented in the following section, the event strengthens the County's engagement efforts through partnerships as well as highlights the County's investment in human services to enhance the quality of life and address poverty.

Expansion of Human Services Programs

According to the Urban Institute, investing in human services is critical to improving quality of life and addressing poverty. Therefore, Leon County has been steadfast in its commitment and investment in human service programs that improve the quality of life of our residents. Over the past several years, the County has strengthened efforts in neighborhoods that have historically experienced poverty including in 32304 by expanding access to human services through the following:

- In 2019, the County in partnership with City established the Community Human Services Partnership (CHSP) Promise Zone Category which invests $1.1 million each funding cycle to provide direct services such as food, legal aid, after school care, and healthcare to high poverty neighborhoods. For more than 30 years, the County and City have planned, coordinated, and invested in human services through CHSP, which utilizes a competitive grant process to fund essential human services programs delivered by local not-for-profit organizations.

- In 2022, the County in partnership with the Leon County Sheriff's Office (LCSO), City, and Leon County Schools established the Council of the Status of Men and Boys (CSMB) through LCSO to address crime within 32304 and the broader community impacting young Black males between the ages of 15 and 24. In 32304, CSMB initiative includes community-based violence intervention programs at Springfield Apartments in Griffin Heights, and credible messengers and street-level navigators who engage directly with high-risk youth at schools such as Griffin Middle School and Godby High School.
- Over the past several years, the County and City have partnered with Second Harvest of the Big Bend (Second Harvest) to install four temperature-controlled 24/7 food lockers at Good News Outreach in Frenchtown, Neighborhood Medical Center on South Monroe, Hartsfield Elementary School, and Sabal Palm Elementary School. The lockers have distributed over 17,000 meals to more than 3,200 residents.
- In 2022, the County, in partnership with CSC Leon and UWBB, launched the Taste Bud Explorers nutrition series to promote healthy cooking and meal planning, which reached over 150 residents in Bond, Frenchtown, Griffin Heights, and Providence neighborhoods.
- In 2023, the County entered into a memorandum of understanding with Second Harvest to hold Summer BreakSpots which provides kids with free meals and snacks at the Main Library, Dr. BL Perry, Jr. Branch, Jane G. Sauls Fort Braden Branch, and the Woodville Branch during the summer. From June 2nd to August 1st, 4,255 meals were distributed to kids at the locations which is the most since the program began.
- In 2022, the County provided $60,000 to Second Harvest to purchase a truck for their Mobile Pop-Up Pantry program. The mobile markets provide families with fresh produce, protein and nonperishable food items. Second Harvest also hosts Neighborhood Empowerment events, which in addition to fresh produce and nonperishable food items and also feature local human service providers that offer an array of services, including employment assistance, healthcare, legal support, SNAP benefits enrollment, and other essential resources. Mobile market events are held several times a month and Neighborhood Empowerment events are held monthly throughout the community. These events occur in neighborhoods experiencing elevated food insecurity, including the Lincoln Center in Frenchtown, Woodville Branch Library, Springfield Apartments in Griffin Heights, and Greater Love Church in South City.
- In 2024, the County and City collaborated with CSC Leon to establish line-item funding for emergency homeless shelters in the annual amount of $1.5 million. The largest emergency homeless shelters including Kearney Center, HOPE Community, and Capital City Youth Services are located in 32304 add shelters offer individuals, families, or youth experiencing homelessness temporary housing, food, showers, and case management 24 hours a day, seven (7) days a week.
- In 2024, the County expanded its partnership with 2-1-1 Big Bend to provide annual direct funding in the amount of $112,500 for the 24-hour Helpline and the Lyft transportation program to address the need for greater knowledge of available resources and transportation. According to 2-1-1, nearly 4,000 Lyft rides have been coordinated in FY 2025 so far. Residents of 32304 accounted for nearly 830 Lyft rides (22%), the second

highest of any zip code behind 32301. Further, 32304 continues to represent the largest share (31%) of 2-1-1 Helpline call volume.

- In 2021, the Board created the Community Resource Specialist as part of the County's Essential Libraries Initiative to connect Library patrons with a variety of human service agency resources. The Community Resource Specialist is a professional social worker who has provided over 1,750 one-on-one sessions, helping residents access jobs, SNAP, Medicaid, and other services.
- The County invests $100,000 annually in the Direct Emergency Assistance Program (DEAP) to assist residents with past due rent, mortgage and/or utilities. Last year, 35% of households that received DEAP funding lived in 32304.

Healthcare Programs

Residents of 32304 are less likely to have health insurance. According to U.S. Census data, 12.9% of 32304 residents are uninsured compared to the Countywide rate of 7.7%. Uninsured individuals are more likely to delay care, forgo prescriptions, and rely on emergency medical services for routine medical needs, which can lead to worsened health outcomes and increased costs to the public health system. Acknowledging the chronic health disparities in 32304, for over two decades the County has led the effort to ensure residents have access to high quality health care through the following:

- The County invests over $1.75 million annually through the Healthcare Services Program (i.e. CareNet) to provide primary, dental, and mental services, assistance with prescription medications, and specialty care to uninsured residents. The County partners with Apalachee Center, Bond Community Health Center (Bond), Neighborhood Medical Center (NMC), FAMU Pharmacy, and WeCare. As reported by the healthcare partners, 32304 residents represent the highest percentage of patients served (30%) in the community.
- The County partners with Bond and NMC to provide primary care, dental care, and health screenings through the mobile health units. Bond and NMC partner with local organizations to expand health care services through mobile units at community events, including the Woodville Founder's Day and the Woodville Community Meeting. Additionally, the mobile units regularly visit neighborhoods, including the Pensacola Street Corridor, Springfield Apartments in Griffin Heights, and Walker Ford Community Center in the Bond Community. Mobile units provide health care services two to three times per week, and at least two Saturdays a month throughout Leon County.
- The County partners with Big Bend Area Health Education Center (Big Bend AHEC) annually to provide healthcare navigation services at the County Main Library and several branch libraries including the Dr. BL Perry, Jr. Branch, Woodville Branch, and Jane G. Sauls Fort Braden Branch. Big Bend AHEC has connected more than 50 people with health insurance through the federal health insurance marketplace.

Investment in Safe and Affordable Housing

Access to safe and affordable housing is another critical tool in addressing poverty and inequity. In 32304, the homeownership rate of 13% is significantly lower than the Countywide average of 52%. Homeownership is the primary vehicle for wealth creation and promotes neighborhood stability and therefore the County has taken the following actions:

- In 2019, the County, in partnership with the City, established the Tallahassee-Leon County Community Land Trust (CLT) through the Tallahassee Lenders' Consortium to construct new homes for low-income households that will remain affordable in perpetuity. As part of the partnership, the County donates properties deemed suitable for affordable housing to the CLT to construct new homes. The CLT has completed eight homes thus far on County donated land, including four homes in Griffin Heights.
- In 2022, the County entered into an interlocal agreement with the City to utilize County State Housing Initiative Partnership (SHIP) funds to invest in the construction of new homes in Neighborhood First Program neighborhoods. As a result, the County has invested more than $900,000 for the construction of 13 homes with County SHIP funds in Neighborhood First communities, including six (6) recently completed homes in the Providence and Griffin Heights neighborhoods.
- In 2023, the County partnered with Legal Services of North Florida (LSNF) to host Heir Property Workshops in Bond, Frenchtown, Providence, and Woodville which were attended by more than 150 residents to raise awareness of the importance of clear title of homeownership for securing private financing as well as local, state and federal assistance.
- In 2025, the County received a $750,000 Small Cities Community Development Block Grant (CDBG) that will be utilized to rehabilitate homes of low-income households in Leon County over the next three years.
- In 2025, the County contracted with LSNF in the amount of $50,000 annually to provide legal assistance to help low-income families clear title and resolve heirs' property issues, which is anticipated to serve 20 families annually including households in 32304.

Additionally, and as reported in previous agenda items, the highest affordable housing need in the community is affordable rental units for very low-income households. As a result, the County has invested a majority of its affordable housing funds for rental development over the previous five years within 32304 and other zip codes with high poverty rates. Such investments include:

- Providing $5.8 million in direct funding and more than $183 million in bonding for affordable housing rental projects in high poverty communities that have or will build more than 1,200 units within the next 12 to 18 months.
- Providing $175,000 to the Tallahassee Housing Authority to develop a master plan for the Springfield Apartments in Griffin Heights.
- Committing to invest a total of $500,000 annually in affordable rental development for very-low and extremely-low income households which includes residents in 32304 through the combination of SHIP, general revenue, and the County's portion of the newly established affordable housing program in the Office of Economic Vitality (OEV).

Financial Empowerment and Economic Development

Unemployment in 32304 is considerably higher (nearly 8%) than the Countywide average (4.4%). In addition, businesses in 32304 and other neighborhoods with historic disinvestment report a lack of access to capital due to limited banking institutions in their communities. As a result, the County has taken considerable action to address the disparities, including the following:

- Partnering with FAMU Federal Credit Union in 2021 to establish the SmartSteps Microloan Program to support the growth and sustainability of Black, minority, and women-owned small businesses. The Program provides financial capital to historically marginalized entrepreneurs to build their businesses. The County allocated $2.5 million to establish the program, with FAMU Federal Credit Union contributing a $250,000 match. The City provided an additional $500,000 in the microloan fund as part of the implementation of the Neighborhood First Plans. To date, SmartSteps has distributed over $1 million in microloans to 51 Black, minority, and women-owned businesses. Approximately 36% of loans have gone to businesses located in 32304, more than any other zip code. As a revolving loan program, repaid funds are reinvested to support additional MWSBE businesses.
- Partnering with the City, CSC Leon, and CareerSource in Spring 2025 to hold Youth Employment Sessions in Bond, Frenchtown, Chaires/Capitola, and Woodville neighborhoods, connecting over 180 teens and young adults with job placement and apprenticeship opportunities.
- Hosting the annual Leon Works Expo to connect hundreds of local high school students interested in skilled careers with employers and academic partners.
- Hosting financial literacy and business and workforce development programs at the Main Library and all branch libraries. These programs include an ongoing partnership with Envision Credit Union to offer youth financial literacy courses that include budgeting, saving, and debt management. In addition, the Library partners with CareerSource Capital Region to provide four programs a year, including resume workshops and job application assistance, as well as Florida State University and Florida A&M University to conduct workshops on salary negotiation, LinkedIn best practices, multi-generational workplace success, and work-life balance. Since FY 2023, the library has hosted nearly 50 financial literacy and business and workforce development programs for 249 patrons.
- Ongoing partnership with Tallahassee State College (TSC) to support the emergency medical technician (EMT) program, including the dual enrollment program located on the campus of Godby High School which is the primary high school for 32304. This program provides students in 32304 with the skills and professional certification to work as an EMT upon graduation. Since the program launched in 2023, 23 students have completed the training with an additional 10 students currently enrolled for the 2025 school year. In addition, TSC recently hired a 32304 coordinator to help promote this program and other educational training programs and certifications offered by TSC to ensure that residents are aware of and have access to resources that can improve their financial opportunities.

- Ongoing partnership with UWBB to offer the Reality Store, a financial education initiative at the Main Library. The reality store is an engaging opportunity for young adults to learn about personal accounting and financial responsibility. Since the program launched locally in 2015, more than 500 youth have participated.
- Partnering with the Capital City Chamber of Commerce (Capital City Chamber), in 2022, to support the Bank On Tallahassee Initiative which improves access to banks and credit units for low-income households and helps reduce barriers for households with previous credit issues. This partnership led to:
    - The County applying and securing $75,000 from the Cities for Financial Empowerment (CFE) which is funded by Bloomberg Philanthropies to expand Bank On Tallahassee through Capital City Chamber.
    - Development of a CFE Financial Empowerment Blueprint approved by the Board (Attachment #4) that memorializes the County's ongoing efforts to spur economic growth in neighborhoods that have historically experienced poverty including 32304 through human services, healthcare, and initiatives such as Bank On Tallahassee.
    - The County applying for and securing a $20,000 planning grant from CFE to work with the Capital City Chamber of Commerce to evaluate the establishment of a Financial Empowerment Center (FEC) in Leon County, with a focus on serving residents of 32304 and other high-poverty areas.

Investments in Other Areas of the Community to Address Poverty and Inequities

As requested by the Board, this section provides comparative information on local government investments in other zip codes in Leon County to address poverty and inequities. As mentioned earlier and reflected in Table #1, 32304 has the highest poverty rate in the community according to the U.S. Census. However, high poverty is not exclusive to 32304. Three other zip codes have poverty rates higher than the County average and include the neighborhoods and communities of Bond (32310), South City (32301), Providence (32310), and Woodville (32305).

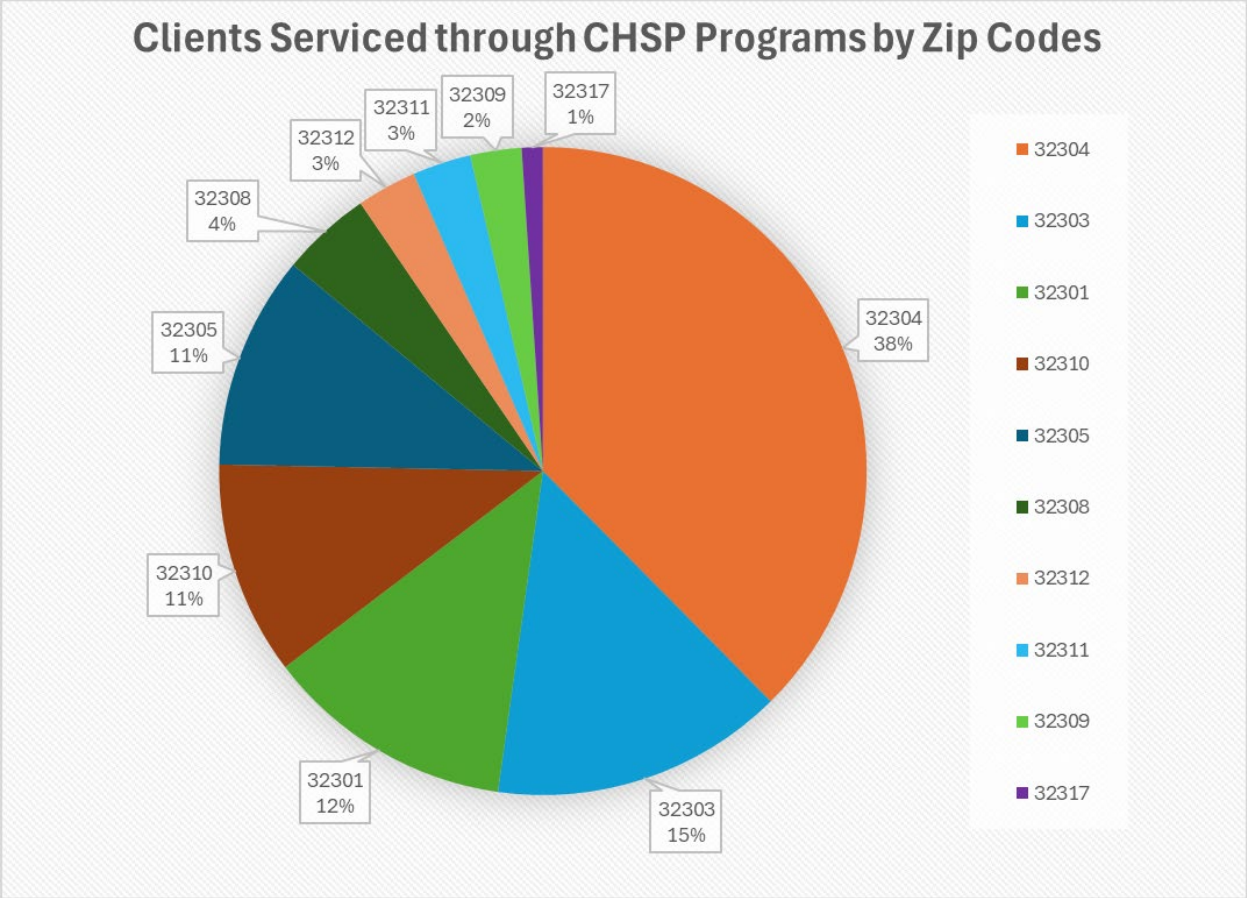

Table #1. Poverty Rates In Leon County by Zip Codes

Zip Code	Poverty Rate
32304	49.4%
32310	28.9%
32301	23.7%
32305	21.8%
32303	17.3%
32308	9.3%
32311	7.6%
32312	5.4%
32309	4.3%
32317	2.7%
County Average	18.1%

Similar to Griffin Heights and Frenchtown in 32304, the neighborhoods and communities in these zip codes have median household incomes below the County average, a high percentage of residents without a high school diploma, and are zoned for schools that have historically struggled to meet benchmarks for key educational attainment, including kindergarten readiness and reading levels.

Therefore, local investment to address poverty has not been exclusive to the 32304 zip code. As presented throughout the item, considerable human service investments have been made in Bond (32310), Providence (32310), South City (32301), and Woodville (32305) to improve the socioeconomic outlook of the residents. Annually, the County and City invest approximately $4 million in human service programs through CHSP. As shown in Chart #1, CHSP agencies report more than 75% of County and City funding serves residents in high-poverty neighborhoods located in 32304, 32310, 32301, 32303, and 32305.

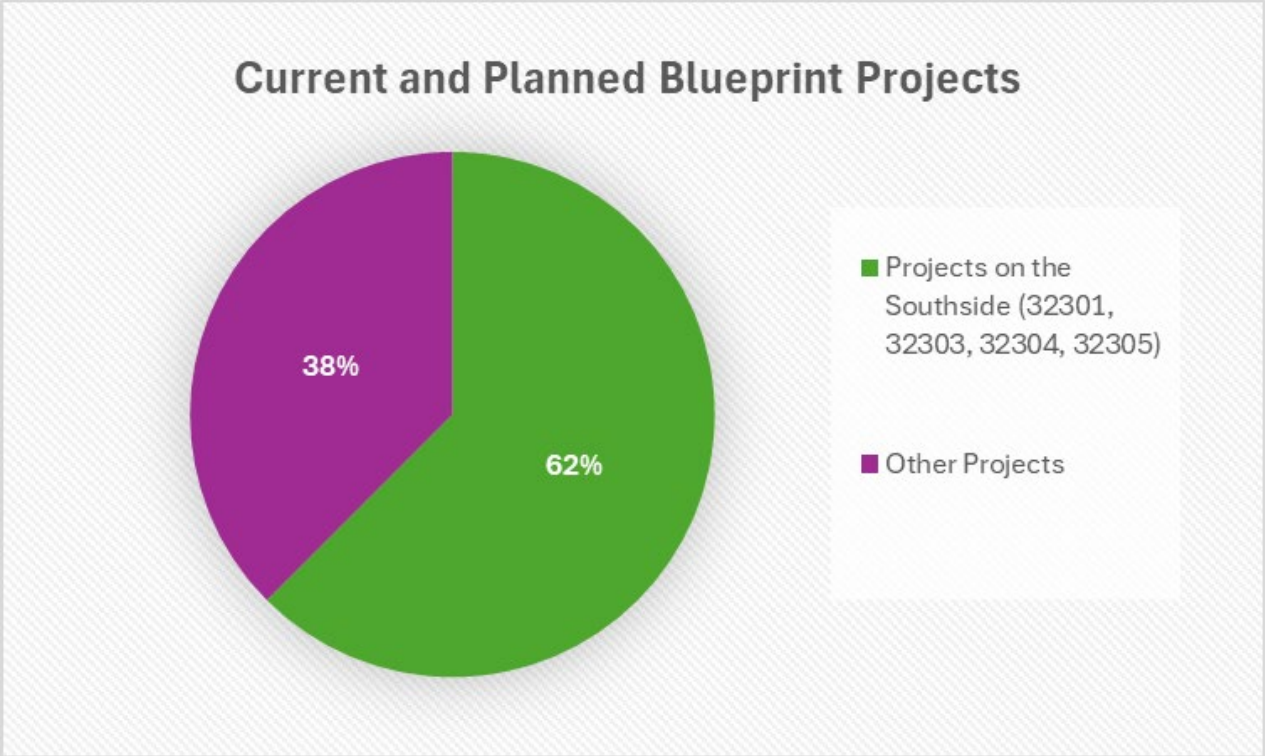

Chart #1. Clients Served through CHSP Programs by Zip Codes

As mentioned earlier, the County has invested more than $34 million in housing, human services, and healthcare over the last five years. Over $29 million, or 85%, of those funds were invested in programs to serve residents of 32304, 32303, 32301, 32305, and 32310.

Investment in infrastructure is also essential to the quality of life and economic prosperity in neighborhoods and communities that have historically experienced poverty and inequities. Therefore, the County and City have made significant infrastructure investments in the zip codes with high poverty rates, particularly through the joint Blueprint Intergovernmental Agency. In fact, 20 of 32 Blueprint projects (62%) planned or underway are located in 32301, 32303, 32304, and 32305, for a total investment of $319 million.

Chart #2: Current and Planned Blueprint Projects

These projects, which are also part of the Southside Action Plan adopted by the Board, include:

- More than $1.5 million in Blueprint and State funding for the ongoing development of the South City Transit Center and improvements in the South City neighborhood.
- Approximately $9 million in Blueprint funding for the Orange-Meridian Placemaking project, which revitalizes this area through construction of a new neighborhood park and community gathering space in the South City neighborhood, East Drainage Ditch enhancements, and investment in the South City Transit Center.
- Planned construction of Segment 4 of the Capital Cascades Trail in the amount of $20 million that provides stormwater quality improvements, multi-use trail construction, and community gathering spaces connecting the Bond, Callen, Liberty Park, Lee Manor, and Providence neighborhoods.
- Construction of the Magnolia Drive Trail, including underground electric utilities, by Leon County, Blueprint, and the City just north of the South City neighborhood from South Adams Street to Apalachee Parkway in the amount of $23.6 million.

The projects reflect the County and City's commitment to identify and engage historically impoverished neighborhoods and make critical investments that improve the quality of life and economic prosperity for the residents in 32304 and other zip codes with high poverty rates (Attachment #5).

In addition to the significant investments made by the County and City, CSC Leon also provides annual investment in 32304 and other zip codes with high poverty rates to improve the quality of life of children and families. CSC Leon was established in November 2020 as an independent special district to specifically invest in programs that strengthen families, improve child outcomes, and reduce inequities. Since its inception through FY 2024, CSC Leon has invested more than $6 million or 68% of its program funding in 32301, 32303, 32304, 32305, and 32310. According to CSC Leon, over 106,000 children and families served by the family support, kindergarten readiness, and youth development programs reside in these communities.

Further, in March 2025, CSC Leon approved $2.5 million to support 13 youth development programs, including seven programs that will operate year-round to provide after school activities and summer opportunities. Many of these programs are located in neighborhoods such as Frenchtown, Griffin Heights, and South City, which also receive significant investment from the County and City. Therefore, CSC Leon partners with the County and City to share information and work together on community engagement efforts to enhance residents' awareness of and access to resources in the community through the Trusted People Committee and events such as the Taste Bud Explorers and the upcoming Trunk or Treat in October presented earlier.

Conclusion:

The County remains committed to tackling poverty and inequity in 32304 and other neighborhoods that have historically experienced disinvestment. Since 2021, Leon County has invested more than $34 million in human services, healthcare, housing, and financial empowerment programs. Over $29 million or 84% of those funds were invested in programs to serve residents of 32304, 32303, 32301, 32305, and 32310. Additionally, considerable infrastructure investment has been made and are ongoing in 32304 and other zip codes with high poverty that are improving quality of life of the residents and neighborhoods. Approximately 62% of Blueprint projects planned or underway are located in these communities (32301, 32303, 32304, and 32305) for a total investment of $319 million.

The County actively monitors and evaluates the programs and services focused on addressing poverty in the community. Through CHSP, human services agencies submit quarterly reports that include demographic (i.e., gender, race, etc.) and residency (i.e. zip code, census tract, etc.) on clients they serve. The healthcare providers submit to the County annual reports that are provided to the federal government (i.e., Uniform Data System reports) that provide aggregate data on patients that include demographics, services rendered, and zip code data. The County tracks the household size, income level, and location of housing clients assisted with its SHIP funding for down payment assistance, housing rehabilitation, homeownership development, and rental development which is subsequently reported annually to the State. Additionally, as part of the County's Strategic Plan, the progress of initiatives such as working with the City to implement the Neighborhood First Plans are tracked, documented, and reported annually to the Board.

As the County continues to implement programs and strategies that focus on reducing poverty and improving the lives and communities of the residents in those neighborhoods, subsequent updates will be provided to the Board through associated agenda items such as CHSP, healthcare, and housing. Utilizing the data and reports collected, these updates will highlight the County's continual focus and commitment to address poverty and inequities in 32304, as well as other neighborhoods that have historically experienced disinvestment.

Options:

1. Accept the updated status report on the implementation of Board action taken on addressing poverty and inequities in 32304.
2. Do not accept the status report on the implementation of Board action taken on addressing poverty and inequities in 32304.
3. Board direction.

Recommendation:

Option #1

Blueprint Active Projects since 2020

Projects within 32304

Project Name	Project Type	Blueprint Project Costs, as of FY 2025
Airport Gateway: North Lake Bradford to Stuckey Ave	Roadway Improvements & Multi Modal Facilities	$ 12,394,780
Bike Route System: Downtown- University Protected Bike Lane	Bike Route/Connectivity	$ 2,879,699
BRS: Southwest Area Connector	Bike Route/Connectivity	$ 329,422
Greenways: University Greenways	Greenway/Connectivity	$ 3,000,000
Total Blueprint Investment for 32304		$ 18,603,901

Projects outside of 32304

32301

Project Name	Project Type	Blueprint Project Costs, as of FY 2025
BRS: Blair Stone Road Trail	Bike Route/Connectivity	$ 3,189,000
Magnolia Drive Trail	Greenway/Connectivity	$ 23,556,734
Monroe Adams Placemaking	Community Enhancement	$ 8,532,961
Orange-Meridian Placemaking	Community Enhancement	$ 8,709,611
Fairgrounds Beautification and Improvement	Community Enhancement	$ 30,000,000
Capital Cascades Trail Segment 3	Communnity Enhancement	$ 68,011,017
Total Blueprint Investment for 32301		$ 138,810,323

32303

Project Name	Project Type	Blueprint Project Costs, as of FY 2025
Greenways: Lake Jackson Greenways	Greenway/Connectivity	$ 2,342,145
Midtown Placemaking	Community Enhancement	$ 29,029,000
Northwest Connector Corridor: Tharpe Street *NOTE: Portions of Tharpe Street are located within 32304 .*	Roadway Improvements & Multi Modal Facilities	$ 62,300,000
North Monroe Gateway	Gateway Improvements	$ 4,450,000
Total Blueprint Investment for 32303		$ 98,121,145

32305

Project Name	Project Type	Blueprint Project Costs, as of FY 2025
Airport Gateway: Springhill Road	Roadway Improvements & Multi Modal Facilities	$ 44,643,680
BRS: Ridge Road Trail	Bike Route/Connectivity	$ 400,000
Capital Circle Southwest	Roadway Improvements & Multi Modal Facilities	$ 15,641,064
Southside Gateway: Woodville Highway	Roadway Improvements & Multi Modal Facilities	$ 1,879,342
Greenways: Tram Road Greenway Trail	Greenway/Connectivity	$ 616,000
Total Blueprint Investment for 32305		$ 63,180,086

Total Invetment	$	318,715,455.00

Leon County
Board of County Commissioners

Notes for Agenda Item #21

Leon County Board of County Commissioners

Agenda Item #21

September 15, 2025

To: Honorable Chairman and Members of the Board

From: Vincent S. Long, County Administrator

Title: Status Report on Efforts to Address Food Insecurity

Review and Approval:	Vincent S. Long, County Administrator
Department / Division Review:	Ken Morris, Assistant County Administrator Shington Lamy, Assistant County Administrator
Lead Staff / Project Team:	Abigail Thomas, Director, Office of Human Services and Community Partnerships Jackie Fortmann, Human Services Analyst

Statement of Issue:

As requested by the Board at the July 8, 2025 meeting, this item provides a status report on the County's efforts to address food insecurity through investment and coordination with local partners to support feeding programs, food pantries, farmers markets, and other resources that provide nutritious meals and produce to underserved areas in the community. Additionally, the item seeks Board authorization to enter into an agreement with Farm Share, Inc., to strengthen Leon County residents' access to nutritious meals and fresh produce.

Fiscal Impact:

This item has no fiscal impact.

Staff Recommendation:

Option #1: Accept the status report on Leon County's commitment and ongoing efforts to address food insecurity.

Option #2: Authorize the County Administrator to execute an agreement, and any amendments thereto, with Farm Share, Inc., to coordinate and collaborate on events and programming that provide Leon County residents with access to nutritious meals and fresh produce, subject to legal review by the County Attorney.

Report and Discussion

Background:

As requested by the Board at the July 8, 2025 meeting, this item provides a status report on the County's efforts to address food insecurity through investment and coordination with local partners to support feeding programs, food pantries, farmers markets, and other resources that provide nutritious meals and produce to underserved areas in the community. Additionally, the item seeks Board authorization to enter into an agreement with Farm Share, Inc. (Farm Share), to strengthen Leon County residents' access to nutritious meals and fresh produce.

This status report on food insecurity advances the following FY 2022 – FY 2026 Strategic Initiatives:

- *Coordinate with America's Second Harvest of the Big Bend and the City of Tallahassee to conduct community meetings in the neighborhood block groups with greatest food insecurity to identify and address their specific barriers to food security. (2022-31)*
- *Work with the City of Tallahassee on the development and implementation of the Neighborhood First Program to engage residents and develop plans to address poverty and inequity in targeted neighborhoods including 32304. (2022-33)*

This particular Strategic Initiative aligns with the Board's Quality of Life Strategic Priority:

- *(Q2) Provide relevant and essential offerings through our libraries and community centers which promote literacy, life-long learning, and social equity.*

According to Feeding America, food insecurity is defined as "inconsistent access to enough food for an active, healthy life, which often occurs due to a lack of income or other resources". In 2023, 43,690 or 14.8% of residents were considered food insecure in Leon County. Communities such as Frenchtown, South Side, and Woodville are among the most heavily impacted. Recognizing that the COVID-19 pandemic further intensified these challenges, Leon County has remained steadfast in its commitment to fighting food insecurity. Over the past five years, the County has invested more than $7.6 million and delivered nearly 55 million meals to low-income households through key programs that include:

- Annual funding of $565,000 through the Community Human Services Partnership (CHSP) to Second Harvest of the Big Bend (Second Harvest), Elder Care Services, and Good News Outreach to support food pantries, mobile distributions, senior nutrition services, and child meal programs.
- Expansion of mobile food markets and Neighborhood Empowerment Events to increase access to food and other social services to neighborhoods with high food insecurity and poverty rates.
- Installation of four grocery lockers in low-income neighborhoods to provide 24/7 access to fresh food.
- Investment of $112,500 annually in the 2-1-1 Big Bend Lyft Program to provide free transportation for residents to access grocery stores, food banks, and other essential services.

- Implementation of the Leon County Community Gardens Program, which provides grant support and technical assistance for residents to start community gardens to increase access to healthy food.
- Partnership with Second Harvest to host Summer BreakSpot at County libraries to provide kids with free meals and snacks during the summer months.
- Annual Seed Library events to educate and promote access to food through gardening.

In addition to considerable investment and collaboration with local partners to address food insecurity, the County is also coordinating with local stakeholders, leading the response to recent developments that are impacting access to meals and produce. As detailed further in the item, with the recent closures of the Tallahassee Flea Market and Food Giant in the Woodville Community, the County is actively promoting and raising awareness of programs, initiatives, and events spearheaded by the County, the City of Tallahassee (City), Second Harvest, and other local partners that are expanding access to nutritious food and reducing food deserts.

Through strong collaboration with the City and local partners, Leon County continues to pursue strategic investments, responsive policies, and community-based programs that enhance the quality of life for its most vulnerable residents. The Analysis section that follows provides a comprehensive overview of these efforts and the County's continued work to combat food insecurity. Additionally, the Analysis section proposes that the County formalize its ongoing coordination with Farm Share, a non-profit organization that regularly holds food distribution events in neighborhoods in Leon County with high poverty and food insecurity rates.

Analysis:

According to Feeding America, an estimated 14.8% of Leon County residents, or approximately 43,690 people, experienced food insecurity in 2023. The United States Department of Agriculture (USDA) defines food insecurity as a household-level economic and social condition characterized by limited or uncertain access to adequate food. Specific known challenges contributing to food insecurity include urban food deserts in the community and transportation issues.

Food deserts are defined by USDA as regions where residents have limited access to supermarkets or large grocery stores, which makes it difficult to obtain healthy and affordable food. The USDA identifies these areas based on specific criteria, including income levels and distance to food sources. A food desert is typically characterized by a low-income census tract where a significant number of residents live more than one mile (in urban areas) or more than ten miles (in rural areas) from a supermarket or grocery store. In Leon County, urban food deserts are located within the City limits in neighborhoods such as Bond, Frenchtown and South City. The unincorporated area of Leon County does not have rural food deserts as defined by USDA due to the availability of grocery store within ten miles.

Food deserts and food insecurity are addressed primarily through a variety of programs funded and administered by the federal and/or state governments. The USDA funds a network of programs that provide direct food assistance, including the Supplemental Nutrition Assistance Program (SNAP), child nutrition programs, and Special Supplemental Nutrition Program for Women, Infants, and Children (WIC). SNAP provides benefits to help low-income individuals

and families purchase healthy food. Child nutrition programs include the National School Lunch and Breakfast programs, which provides meals to children during the school year as well as through summer months. Furthermore, WIC provides healthy food as well as health care referrals and nutrition education to pregnant and postpartum women, infants, and young children up to five years old. USDA also purchases food through the Emergency Food Assistance Program (TEFAP), which is distributed to states based and provided to local food banks to distribute to low-income families. In Florida, several state agencies administer the USDA programs, including the Department of Agriculture and Consumer Sciences, Department of Children and Families and the Department of Health. The County regularly monitors federal and state actions that impact these essential programs.

Additionally, through services, events, partnerships, and investments the County augments the state and federal programs in a collective community effort to reduce food insecurity. The following information details recent and ongoing efforts by the County to actively engage residents on short and long-term solutions; investments in established and innovative programming and services that are expanding access to food; and highlights the County's collaboration and coordination with local stakeholders to respond to the changing needs in the community. The Analysis culminates with a recommendation on establishing a partnership with Farm Share that will enhance the County's commitment to address food insecurity.

Community Engagement

The County places a high emphasis on engaging the community in addressing food insecurity. In 2022, in partnership with Second Harvest, the City, and the Children's Services Council of Leon County (CSC Leon), the County hosted dinners entitled, *Breaking Bread Together: Neighborhood Dinner and Conversation on Tackling Food Insecurity*. Nearly 300 Leon County residents participated in the nine dinner meetings held in the neighborhoods with the highest food insecurity rates. Participants included neighborhood residents, neighborhood business owners, faith-based leaders, not-for-profit organization representatives, and the United Way of the Big Bend (UWBB). These meetings focused on identifying barriers to food access and developing collaborative solutions.

The main theme that emerged during each meeting was that residents of the neighborhoods were unaware of the significant level of resources available in the community to address food insecurity as well as overall basic needs such as childcare, healthcare, and employment services. In response, the County partnered with the City, CSC Leon, and UWBB to establish the Trusted People Neighborhood Engagement Committee (Trusted People Committee). The Committee, which is comprised of leaders of the neighborhoods with high food insecurity rates, works with the County and partners to engage the residents in order raise awareness and connect them to resources in the community that provide access to food and enhances their quality of life. As further detailed in the item, engagement with the Trusted People Community had led to several events such as the Taste Bud Explorers and Heir Property Workshops that seek to improve economic security and reduce food insecurity in the neighborhoods.

Community Human Services Partnerships (CHSP) Annual Funding

Leon County is committed to combating food insecurity by providing annual funding in the amount of $565,000 this year to local organizations in partnership with the City through CHSP. The County's investment ensures access to nutritious food for individuals and families by supporting a variety of programs ranging from food pantries and mobile distributions to senior nutrition services and child meal programs. They include the following:

Second Harvest of the Big Bend

- Food Bank Operations Program: Second Harvest operates a variety of robust and comprehensive programs that provide healthy food for individuals and families in Leon County and the surrounding areas. Through CHSP, Second Harvest distributes pantry staples, fresh produce, and meat to approximately 68 pantry partner agencies throughout Leon County. These partners collectively offer food assistance approximately 200 times per month to residents in need. Additionally, Second Harvest has hosted 31 targeted community food distributions in Leon County this year. Through its Senior Grocery Program, Second Harvest helps feed low-income seniors in the community at the end of the month when their financial resources have been exhausted. Currently, the program provides food to hundreds of seniors each month, including cereal, canned fruits and vegetables, proteins and grains, fresh bread, and produce. In addition, Second Harvest responds to cover the food needs of families during unexpected disasters and emergencies which quickly increase the number of people needing food stabilization support. In the last nine months, 5.2 million meals have been provided through these programs due to CHSP funding.
- Feeding the Promise Zone Program: Also with CHSP funding, Second Harvest operates a robust program through school pantries and mobile markets in the Promise Zone. The CHSP Promise Zone category funds human service programs that specifically serve neighborhoods in census tracts with high poverty rates and include Bond, Frenchtown, Griffin Heights, and South City. The School Pantry Program aims to provide access to nutritious food for children and their families struggling with hunger through a food pantry in their school providing fresh fruits and vegetables, meat or protein options, and pantry staples. Mobile markets are essentially a "pantry on wheels" brought into targeted neighborhoods such as Bond and Frenchtown to ensure neighbors can obtain nutritious food for their families through a grocery store shopping experience. In the last nine months, 1.8 million meals have been provided through these programs.

Elder Care Services

- Nutrition Services Programs: Elder Care Services is the leading provider of community-based senior care in Leon County that include specialized support, outreach services, and meals. Elder Care Services delivers essential nutrition to Leon County residents aged 60 and older who are at nutritional risk and homebound due to illness or disability through their Meals on Wheels program. Additionally, Elder Care Services operates seven congregate meal sites, including Westminster Oaks, the Senior Center, Bethel Towers, Casa Calderon, Lincoln Neighborhood Center, Miracle Village, and Smith-Williams Service Center. The congregate meal sites create opportunities for seniors to build community, receive social support, and reduce food insecurity and isolation. These sites

serve older adults who can leave their homes but may face economic or social challenges. Due to CHSP funding, Elder Care Services has served 572 unduplicated seniors with over 67,000 meals through the Meals on Wheels Program and congregate meal sites in the last nine months.

Good News Outreach

- Food Pantry Program: Good News Outreach is a strong community partner that provides critical resources to the community through several social safety net programs. Good News Outreach provides groceries once a month to residents in need. For individuals who are disabled or unable to travel, the organization offers home delivery through its outreach route. So far this year, with CHSP funding, the program has served more than 3,000 unduplicated residents across Leon County. The addition of a grocery locker at the Frenchtown location has increased the number of individuals served through the program.

Expanding Food Access Through Community Partnerships

In addition to the programs supported through CHSP, the County has invested in several other programs that address critical needs in our community, including transportation to support access to fresh food, grocery lockers, mobile markets, meal sites for children, and innovative gardening incentive programs.

2-1-1 Big Bend Lyft Program

As previously mentioned, the Breaking Bread Community dinner revealed the lack of access as a significant barrier to food security, particularly for residents in underserved areas. To help address the need for greater knowledge of available resources and transportation, the County expanded its partnership with 2-1-1 Big Bend to provide annual direct funding in the amount of $112,500 for the 24-hour Helpline and the Lyft transportation program. The 2-1-1 Lyft Program provides Leon County residents with free rideshare transportation to grocery stores, food distribution sites, and other critical resources. Through this program, veterans are eligible for up to five rides per month, while other residents can request one ride per month. According to 2-1-1, nearly 4,000 Lyft rides have been provided in FY 2025 thus far.

Grocery Lockers

In another effort to expand access to food, the County, in partnership with the City, provided $275,000 in one-time federal American Rescue Plan Act (ARPA) funding to support Second Harvest's purchase of four temperature-controlled grocery lockers. These lockers, installed at Sabal Palm Elementary (32310), Hartsfield Elementary (32301), Good News Outreach in Frenchtown (32303), and Neighborhood Medical Center on South Monroe Street (32301), are accessible 24/7 and provide fresh, healthy, and nutritious food options to residents. Their placement was informed by feedback gathered during nine community dinners in 2022, ensuring alignment with neighborhood needs. Since their launch, the food lockers have provided over 17,000 meals to more than 3,200 residents, significantly expanding access to nutritious food in high-need areas.

Mobile Markets and Neighborhood Empowerment Events

In addition, the County provided $60,000 in ARPA funding to Second Harvest to purchase a truck for their Mobile Pop-Up Pantry program. The mobile markets provide families with fresh produce, protein, and nonperishable food items. Second Harvest also hosts Neighborhood Empowerment events, which not only provide families with fresh produce and nonperishable food items but also include local human service providers to offer families an array of services, including employment assistance, healthcare, legal support, SNAP benefits enrollment, and other essential resources. Mobile markets are hosted several times a month and Neighborhood Empowerment events are held monthly throughout the community. Both mobile markets and Neighborhood Empowerment events occur in neighborhoods with high food insecurity rates, including the Lincoln Center in Frenchtown, Springfield Apartments in Griffin Heights, and Bond Community Health Center in South City. In April 2025, the County partnered with Second Harvest to host a Neighborhood Empowerment event at the Woodville Branch Library in order to provide access and expand the knowledge of available food resources to residents in the Woodville community.

Summer BreakSpot and Kids Cafe

The County also partners with Second Harvest to serve as Summer BreakSpot locations at the Main Library, Dr. BL Perry, Jr. Branch, Jane G. Sauls Fort Braden Branch, and the Woodville Branch. Summer BreakSpot provides kids with free meals and snacks during the summer months to ensure that children have a stable source of food when school is out. This year, these four library locations distributed 4,255 meals to kids from June 2nd to August 1st, which is more than any previous summer. Throughout the year, the Main Library is also a location for the Kid's Café program, which provides Leon County children with food from Second Harvest after school. The program operates from August to June and helps bridge the gap for children who receive most of their meals from school.

Seed Library

To educate and promote access to food through gardening, the Library also partners with UF/IFAS Leon County Extension to host the Seed Library Program. Launched in February 2015, the Seed Library Program provides residents up to five seed packets per month using their library card, or three packets per month without a library card, at any branch library that can be planted to grow food. Each year, the Seed Library hosts two kick-offs at the beginning of the spring and fall to introduce the seed varieties of the season that Library patrons and County residents can receive.

Leon County Community Garden Program

In addition to the Seed Library, to encourage residents to grow their own nutritious food, the County's Sustainability Office operates the Leon County Community Garden Program to provide technical assistance, materials, and grants to support residents in establishing or revitalizing community gardens throughout the County. Eligible locations for grants include vacant County-owned land, school campuses, and other community spaces. Grants of up to $1,000 are available to support garden development and sustainability efforts.

Most recently, the County approved funding for the Promise Land Urban Farm located at 510 E. Orange Avenue near the future Southside Transit Center. This garden plays a vital role in promoting food access in the South City community, offering hands-on education in gardening and nutrition for children and families, while also strengthening neighborhood connections and community health.

In FY 2024 and FY 2025, the County awarded a total of $5,915 in Community Garden Grants to support the following garden sites:

- **Lafayette Oaks Community Garden** – County property, 2203 Monaco Drive
- **Tallahassee School of Math and Science** – School stakeholder, 3434 N Monroe Street
- **Frenchtown Heritage Hub** – Community stakeholder, 524 N MLK Boulevard
- **Goodwood Wellness Garden** – Community stakeholder, Town Bridge Road Entryway Park
- **Ruediger Elementary School** – School stakeholder, 526 W 10th Avenue
- **Hartsfield Elementary School** – School stakeholder, 1414 Chowkeebin Nene
- **Nims Middle School** – School stakeholder, 723 Orange Avenue
- **Promise Land Urban Farm** – 510. E Orange Avenue

Through this program, Leon County continues to promote local food production, environmental sustainability, and healthy living by empowering residents and schools to take an active role in growing their own food and building stronger communities.

Other Local Efforts to Address Food Insecurity

In addition to the County's investments, there are several other local initiatives spearheaded by local partners to address food insecurity, educate the community on nutritious meals, and ensure access to food within the community despite the recent closures of the Tallahassee Flea Market and Food Giant in Woodville.

Southside Farmer's Market and Griffin Heights Grocery Store

In 2018, the City in collaboration with residents and community partners revamped the Southside Farmer's Market which is hosted twice a month at the Walker Food Community Center in the Bond neighborhood. This market provides easy access to fresh fruits, vegetables, eggs and seafood from local farmers, along with free health and wellness screenings. The Southside Farmer's Market accepts SNAP/EBT payments to enhance access to the community. In addition, several other local farmers markets are held weekly in downtown Tallahassee, Fort Braden, Southwood, and Northeast Tallahassee.

In December 2021, the Blueprint Intergovernmental Agency Board approved $170,000 for the purchase of the 1309 Alabama Street property to be developed as a grocery store to reduce urban food deserts in alignment with neighborhood priorities. In May 2025, the City approved $1.3 million to build a grocery store in Griffin Heights as part of the City's Griffin Heights Neighborhood First Plan (Plan). The Plan was developed by the residents to identify opportunities

to enhance their quality of life and identified a grocery store as a top priority. The City held a groundbreaking ceremony on September 4, 2025, and the store is expected to open in 2026. Once completed, the grocery store will offer fresh and healthy food options to the community and feature a dedicated space for community outreach and engagement activities.

Nutrition Education Programs

In addition to the County's Community Garden Program and Seed Library, several local partners provide programming and events that educate residents about nutritious meals. Second Harvest in partnership with Florida Blue holds monthly cooking classes that focus on healthy and affordable meals. The Florida Department of Health in Leon County (Health Department) offers an eight-week program for clients with diabetes that includes education on nutritional foods and meals to manage their health. Additionally, through its WIC program, the Health Department provides healthy foods, nutrition education, and counseling to pregnant and postpartum mothers with children up to five (5) years old. The Tallahassee Food Network regularly provides educational sessions and cooking demonstrations at the Frenchtown Heritage Market and Cooking Space. The County coordinates with these partners to ensure residents in neighborhoods with high food insecurity rates are aware of the education opportunities through the Trusted People Committee, Library, and Housing Services Division.

Response to Tallahassee Flea Market and Food Giant in Woodville

In recent months, the Tallahassee Flea Market on the Southside and the Food Giant in Woodville have closed, which has impacted community access to fresh food primarily in the southern portion of Leon County. In response to the closure of the Flea Market and Food Giant, three alternative locations have opened in the community to provide a space for former flea market vendors, including those who serve fresh food. The new SCREWS South Side Flea Market, located at 3972 Woodville Highway, operates every Saturday and features fresh produce, handmade goods, tools, and more. The Tallahassee Urban League also hosts flea market events every Saturday at its Frenchtown location, which includes produce such as fresh fruits and vegetables. The SCREWS Market and Tallahassee Urban League opened their markets in August 2025. Furthermore, Black Biz Tally opened a physical marketplace at Railroad Square in August 2025. These grassroots efforts represent strong community action and an opportunity to enhance access to fresh food throughout the community.

The County has been actively promoting programs and events in coordination with partners through the Trusted People Committee, which as mentioned earlier is comprised of residents and/or leaders of the neighborhoods with the highest food insecurity rates in the community. The County works with the Committee members to ensure the neighborhoods are aware of the available resources through flyers and social media posts.

Specifically in the Woodville community, Second Harvest partners with several organizations, including Wakulla Giving Hands and the Woodville School to provide food services to further address food access and the closure of the grocery store and flea market. Wakulla Giving Hands hosts bi-weekly or monthly food distributions at various locations, including the County's J. Lewis Hall Sr. Woodville Park, Dollar General, and Gulf Coast Lumber & Supply. Wakulla Giving Hands serves between 100-150 individuals per distribution. In addition, Woodville School

operates a School Market in coordination with Second Harvest that provides food to approximately 65 families of school children per month.

Looking ahead, the County remains committed to working with Second Harvest and other community partners to expand access to food through ongoing efforts such as additional food distributions, Neighborhood Empowerment Events, and school-based markets. These collaborative efforts aim to reduce food insecurity by addressing both access and availability within high-need communities.

Partnership with Farm Share, Inc.

Farm Share, Inc. (Farm Share), is a not-for-profit organization located throughout Florida. The organization works directly with local farmers to provide fresh produce such as fruits and vegetables to the community and neighborhoods in the Big Bend region with high needs. Over the past few years, Farm Share has held more than 120 food distribution events in Leon County, including at the North Florida Fairgrounds and County Health Department facilities. Each event serves 250 to 1,000 families with 25-pound food boxes. Last year, Farm Share distributed 1.4 million pounds of food through distribution events and food pantries in Leon County.

Upon request, the County has coordinated with Farm Share on equipment and supplies needs for food distribution events at the North Florida Fairgrounds and Health Department facilities consistent with County policy. Unlike Second Harvest (through CHSP), the County does not have a formal relationship with Farm Share. Through a formal agreement, the County would enhance its partnership with Farm Share for greater coordination of its events that would include: utilization of additional County facilities such as County parks and libraries; operational support (i.e., equipment, law enforcement, traffic control, insurance, etc.); promotion and outreach to neighborhoods in Leon County with high poverty and food insecurity rates; collaboration with local stakeholders such as Second Harvest, the Tallahassee Urban League, and other social service organizations to connect residents to essential resources during the food distribution events; and provide staff support at events held at County facilities. This would build on the County's effort to address food insecurity in the community. Therefore, it is recommended that the Board authorize the County Administrator to enter into an agreement with Farm Share to coordinate and collaborate on events and programming that provide County residents with access to nutritious meals and fresh produce. Upon the execution of an agreement, Farm Share events would be conducted with greater County support and resources, including being held at County facilities.

Conclusion

Leon County remains dedicated to addressing food insecurity in the community. The County has responded with a comprehensive approach that has included the investment of more than $7.6 million and that delivered nearly 55 million meals over the past five years. This has been accomplished with strategic funding through CHSP, partnerships with organizations like Second Harvest, and innovative solutions such as mobile markets, grocery lockers, and transportation assistance.

Additionally, these partnerships have positioned the County to support the collective response to the recent closures of the Tallahassee Flea Market and Food Giant in Woodville. As partners such as the City, Second Harvest, and Tallahassee Urban League lead the efforts with regularly scheduled farmer's market and Neighborhood Empowerment events, the County is actively promoting these resources directly to the residents and neighborhoods that need them the most.

Establishing a formal partnership with Farm Share will increase the County's unwavering commitment to addressing food insecurity. Farm Share is the largest food bank in Florida and has held 120 events in the community including at the North Florida Fairgrounds and County Health Department facilities distributing fresh produce sourced directly from local farmers to ensure the neighborhoods with the highest needs have access to nutritious food and meals. Therefore, it is recommended that the Board authorize the County Administrator to enter into an agreement with Farm Share to coordinate and collaborate on events and programming that provide County residents with access to nutritious meals and fresh produce. Upon the execution of an agreement, Farm Share events held at County facilities would be conducted with greater County support and resources.

Options:

1. Accept the status report on Leon County's commitment and ongoing efforts to address food insecurity.
2. Authorize the County Administrator to execute an agreement, and any amendments thereto, with Farm Share, Inc., to coordinate and collaborate on events and programming that provide Leon County residents with access to nutritious meals and fresh produce, subject to legal review by the County Attorney.
3. Do not accept the status report on Leon County's commitment and ongoing efforts to address food insecurity.
4. Do not authorize the County Administrator to execute an agreement with Farm Share, Inc.
5. Board direction.

Recommendation:

Options #1 and #2.

From: Vincent S. Long, County Administrator

Title: August 2025 Quarterly Economic Dashboard Report

Review and Approval:	Vincent S. Long, County Administrator
Department / Division Review:	Ken Morris, Assistant County Administrator Nawfal Ezzagaghi, Assistant County Administrator Artie White, Director, Planning, Land Management & Community Enhancement (PLACE)
Lead Staff / Project Team:	Keith Bowers, Director, Office of Economic Vitality (OEV) Dan Lucas, Business Intelligence Manager, OEV

Statement of Issue:

This item seeks Board acceptance of the August 2025 Quarterly Economic Dashboard Report which analytically quantifies the economic health and growth of Leon County every quarter to evaluate local economic vitality.

Fiscal Impact:

This item has no fiscal impact.

Staff Recommendation:

Option #1: Accept the August 2025 Quarterly Economic Dashboard Report (Attachment #1).

Report and Discussion

Background:

This item seeks Board acceptance of the August 2025 Quarterly Economic Dashboard Report which analyzes the economic health and growth of Leon County every quarter to quantify local economic vitality.

Since February 2017, the Tallahassee-Leon County Office of Economic Vitality (OEV) has produced the *Quarterly Economic Dashboard* to give a consistent recurring snapshot of the local economy and to demonstrate the ongoing efforts to support economic vitality and provide a return on investment. The Dashboard is designed to appeal to local decision-makers and business leaders outside Leon County who may be considering company expansion or relocation. In addition to the *Quarterly Economic Dashboard*, in 2019, OEV began producing a monthly data release, *Data Driver*, which has City and County employment, unemployment, and other statistics. OEV also produces the *Annual Economic Review*, a one-year and five-year retrospective of the indicators featured in the *Quarterly Economic Dashboard*. In 2020, the International City/County Management Association recognized the *Quarterly Economic Dashboard* with a Certificate of Achievement in Performance Management.

Analysis:

OEV staff monitors key economic metrics and tracks current economic trends and conditions important to the local economy. The Data Center is the community's most comprehensive database of over 80 economic indicators, updated continuously to ensure visitors can retrieve the most accurate data. The Dashboard supplements the Data Center as a snapshot of the local economy by focusing on the 13 key and most commonly requested economic indicators in a consistent format that is easy to read and follow.

The most recent Dashboard has data from the second quarter of 2025 (Q2, April-June), or the latest information available for the 13 indicators (Attachment #1). The Dashboard metrics include:

Employment & Labor Market

- Jobs in the Tallahassee metro area were about 202,200 in Q2 2025, up 3,900 jobs (+2.0%) compared to last year, but down 1.3% from Q1. Private employers added 3,500 jobs (+2.6%) compared with Q2 2024.
- The unemployment rate averaged 3.8% in Q2—slightly higher than 3.4% in Q1—but has been below 4% since late 2021.
- New unemployment claims rose by 153 from Q1 (+31.9% seasonal bump), but far below the 10-year norm of 3,026.
- The labor force (people working or looking for work) dipped 1.2% (-2,575) from Q1, but is up year-over-year by 1.0% (2,033); statewide, the labor force grew by 0.2% year-over-year.

Wages & Housing Market

- The average weekly wage in Q4 2024 was about $1,225—up 7.3% ($83) from Q3 2024—but about 87% of Florida's average ($1,405).

- The median single-family home price was $335,000 in Q1 2025—up 9.8% ($30,000) compared to last year and up 3.1% ($10,000) from Q4 2024. The increase was the fastest yearly increase since late 2022.
- New home construction permits rose to 158 in Q2, up 15 (10.5%) from Q1. Most were inside the City (about 65%), and the total permit value reached $45 million. Even so, new home construction permits are 9.7% below the ten-year Q2 average of 175.

Commercial & Industrial Real Estate

- Office vacancy held steady at a low 4.7% and has stayed under 6% since 2020.
- Industrial vacancy ticked up to 3.3%, but has been under 4% since 2018. Both markets remain tight.

Consumer & Business Activity

- Taxable sales were $1.63B in Q1 2025—down 6.1% from Q4 (a normal post-holiday drop) but 10% above the Q1 average of the past few years. Leon County made up 87% of metro sales.
- Tourist development tax (TDT) collections fell 24% from Q4 (usual seasonal pattern) but were 29% above the recent 5-year Q1 average of $1.73 million.
- TLH Airport passengers rose 7.8% from Q1 2025 and were 28% above the 10-year Q2 average of 184,133, though down 5.3% from last year's Q2 (13,225 fewer passengers).
- Mortgage foreclosures increased by 14 from a total of 54 in Q1 but remain well below the 10-year Q2 average of 101 and have stayed under 90 per quarter since 2019.

Key Takeaways

- Tallahassee's economy looks steady: low unemployment, tight office/industrial space, solid consumer activity, and rising home prices.
- Wages are improving locally but still trail the state average.
- Home prices are climbing, which could strain affordability if wages and housing inventory do not keep pace.

Staff monitors and analyzes these and other indicators to support the implementation of the adopted Economic Development Strategic Plan and to ensure that policymakers, business operators, and the public have the information they need to make informed business decisions.

Put into Words…

- **Employment** was down -1.3% from the Q1 2025 average of 204,900. Private sector employment in Q2 2025 increased by 3,500 (2.6%) compared to Q2 2024. Month-to-month employment levels have increased in 35 of the past 60 months, with an average gain of approximately 500 per month.
- **Initial Claims for Unemployment Compensation** in Q2 2025 were up by 153 (31.9%) from a total of 480 in Q1 2025, and 79% less than the 10-year Q2 average of 3,026 during 2015-2024. Quarterly claims have been under 700 since Q3 2021.
- **New Single-Family Construction Permits** in Leon Co. totaled 158, up 15 (10.5%) from 143 permits in Q1 2025, and 9.7% lower than the 10-year Q2 average of 175 permits during 2015-2024 The City of Tallahassee accounted for 65% of Q2 2025 permits; unincorporated Leon County, 35%. Total permit value was $45 million, up 12.8% from Q2 2024.
- The Q1 2025 **Median Single-Family Home Sales Price** was up 3.1% from Q4 2024 and has risen in 12 of the past 20 quarters in the MSA. The 9.8% rise in Q2 2025 was the highest year-over-year rate of increase since 12.5% in Q4 2022.
- **Tourist Development Tax Receipts** decreased by 24% from Q4 2024 (receipts for Q1 were lower than Q4 in 18 of the past 20 years). Receipts were 29% higher than the 5-year Q1 average of $1.73M during 2020-2024.
- The volume of **TLH Passengers** in Q2 2025 was up 7.8% from Q1 2025 and 28% higher than the 10-year Q2 average of 184,133 during 2015-2024. Passenger traffic has increased year-over-year in 13 of the past 20 quarters.
- The 3-month average **Unemployment Rate** was up 0.1 points from 3.7% in Q1 2025. The 3-month average Unemployment Rate has been under 4% since Q4 2021.
- The Tallahassee metro area **Average Weekly Wage** was up 7.3% from Q3 2024, with quarter-to-quarter increases in 14 of the past 20 quarters. The Q4 2024 average weekly wage was 87% of the State's average ($1,405).
- Leon County **Mortgage Foreclosures** were up by 14 from a total of 54 in Q1 2025. Foreclosures in Q2 2025 were 32% lower than the 10-year Q2 average of 101 during 2015-2024. Foreclosures have been under 90 per quarter since Q4 2019.
- The **Office Vacancy Rate** was unchanged from 4.7% in Q1 2025, and has been under 6% every quarter since Q1 2020. The **Industrial Vacancy Rate** was up 0.1 points from 3.2% in Q1 2025, and has been under 4% every quarter since Q1 2018.
- The Tallahassee metro area average monthly **Labor Force** was down 2,575 (-1.2%) from Q1 2025. Statewide labor force in Q2 2025 was up only 0.2% compared to Q2 2024.
- **Taxable Sales** in Q1 2025 were down 6.1% from Q4 2024, but 10% higher than the Q1 average of $1.48 B during 2020-2024. Leon County accounted for 87% of metro area taxable sales.

Leon County
Board of County Commissioners

Notes for Agenda Item #23

Leon County Board of County Commissioners

Agenda Item #23

September 15, 2025

To: Honorable Chairman and Members of the Board

From: Vincent S. Long, County Administrator

Title: Approval of a Three-Year Agreement with Choose Tallahassee for Relocation Marketing and Lead Generation

Review and Approval:	Vincent S. Long, County Administrator
Department / Division Review:	Ken Morris, Assistant County Administrator Mathieu Cavell, Director, Community Relations and Resilience
Lead Staff / Project Team:	Kerri L. Post, Director, Division of Tourism Jonathan LaBarre, Senior Tourism Operations Manager Scott Lindeman, Senior Tourism Marketing Director

Statement of Issue:

This item seeks Board approval of a three-year Joint Project Services Agreement with Choose Tallahassee to market Tallahassee–Leon County to visitors and relocation prospects through targeted digital campaigns, relocation guides, and lead generation, effective October 1, 2025, through September 30, 2028.

Fiscal Impact:

This item has a fiscal impact. A total of $60,000 will be funded from County Tourist Development Tax (TDT) revenues over the Agreement term—$15,000 in FY 2026, $20,000 in FY 2027, and $25,000 in FY 2028.

Staff Recommendation:

Option #1: Approve a three-year Joint Project Services Agreement (FY 2026 – FY 2028) with Choose Tallahassee for out-of-market relocation marketing and lead generation (Attachment #1), and authorize the County Administrator to execute the Agreement, and any amendments thereto, in a form to be approved by the County Attorney.

Report and Discussion

Background:

This item seeks Board approval of a three-year Joint Project Services Agreement (JPSA) with Choose Tallahassee to market Tallahassee–Leon County to visitors and relocation prospects through targeted digital campaigns, relocation guides, and lead generation.

Entering into a marketing agreement with Choose Tallahassee advances the following FY 2022 – FY 2026 Bold Goal:

- *Grow the five-year tourism economy to $5 billion. (BG1)*

This particular Bold Goal aligns with the Board's Economy Strategic Priority:

- *(EC4) Grow our tourism economy, its diversity, competitiveness, and economic impact.*

Choose Tallahassee was formed in 2011 after community leaders sought to leverage national recognition of local health care quality to position Tallahassee-Leon County as a retirement destination. On January 24, 2012, the Board approved an initial funding request of $10,000 annually for two years from County Tourism funds (TDT) to support marketing aimed at retirees considering relocation and to encourage exploratory visits to the area. These early efforts established the County's strategic interest in the visitor-to-relocation pipeline.

On December 8, 2015, the Board approved the first JPSA, which formalized roles. At that time, the County Division of Tourism provided administrative support (physical address, phone support, inquiry fulfillment), coordinated marketing through VisitTallahassee.com, and directed agency-placed advertising. The JPSA contemplated a $10,000 annual payment structure and embedded cooperation on public relations, travel-trade shows, and social media to promote Tallahassee-Leon County as a retirement location.

In 2017, Choose Tallahassee reorganized—restructuring its volunteer board, contracting with a marketing firm, and hiring an executive director—prompting revisions to the JPSA. Under the December 12, 2017 revision, Choose Tallahassee assumed full administrative responsibilities (meeting notices/minutes, database management, consumer response, and channel management), while the Division of Tourism shifted to an advisory/collaborative role, including service on the executive committee and marketing committee, and Choose Tallahassee committed to provide annual updates to the Tourist Development Council (TDC).

Beginning in 2018, Choose Tallahassee launched a refreshed campaign that expanded media visibility and lead generation, producing more than 40,000 website visitors and nearly 500 consumer relocation inquiries in the first two years. In FY 2019, with support from Division of Tourism and the Office of Economic Vitality (OEV), the organization broadened its mission beyond retirees to include young professionals, entrepreneurs, creatives, students, and families—reflecting the community's wider value proposition and aligning relocation messaging with talent attraction and entrepreneurship.

In FY 2020, Choose Tallahassee launched a new website focused on health care, education, and quality of life; engaged Blaze Digital Services on a robust marketing/Public Relations plan; and garnered national attention, including Southern Living's recognition as one of the South's "smartest" places to retire. The COVID-19 period further increased relocation interest and calls to the Visitor Information Center about quality-of-life factors. On January 26, 2021, the Board approved a three-year JPSA renewal that formalized Visit Tallahassee branding integration (social channels, website, e-blasts, and five digital relocation guides) and continued the practice of Choose Tallahassee providing written annual reports to the TDC alongside extensive earned-media coverage.

Analysis:

The proposed Agreement continues this performance-based partnership for FY 2026 – FY 2028 (effective October 1, 2025 – September 30, 2028), maintains a total commitment of $60,000 (allocated $15,000 / $20,000 / $25,000 by FY), and conditions each year's funding on both an approved annual marketing plan and a prior-year review of expenditures and performance.

Deliverables remain clear and time-bound. Choose Tallahassee must submit its annual plan within 30 days of each FY start and a year-end expenditures/metrics report within 45 days of FY end. The Agreement requires explicit Visit Tallahassee integration across paid out-of-market media, email, social, web, and relocation guides, with audience targeting focused on:

- Retirees
- Families
- Business Owners/Entrepreneurs
- Incoming College Students
- Recent Graduates

Roles and responsibilities mirror prior agreements while strengthening coordination. The Division of Tourism will provide scheduled funding; promote the partnership through VisitTallahassee.com, public relations, and visitor-information channels; and forward relocation inquiries in a timely manner. The Tourism Director (or designee) serves as Project Manager to convene semiannual coordination meetings, track deliverables, and review invoices and reports before payment. Choose Tallahassee manages its website, social media, and lead-generation efforts; responds to consumer inquiries; and provides the required annual plan, year-end report, and a written annual report for the TDC. The Tourism Director serves ex officio on the Choose Tallahassee Board, and a Division of Tourism staff member serves on the Marketing Committee.

Use of County tourism funds is limited to out-of-market marketing and promotion consistent with §125.0104, Florida Statutes. Allowable costs include paid media that can drive overnight visitation, creative/production, and website enhancements. To protect the County, a claw-back provision requires reimbursement of disallowed costs identified through audit or review, and the Agreement includes standard public-records, termination, indemnification, E-Verify, and civil-rights requirements. Prohibited uses include: general/overhead administrative costs; equipment purchases; in-county-only advertising; hospitality; and lodging for event attendees other than media.

Strategically, the partnership supports the Division of Tourism's digital-forward approach and deepens industry/community engagement while advancing five-year tourism economy goals. Relocation-interested audiences typically conduct multiple multi-day "research" trips before moving; capturing and converting that demand complements Tourism's room-night strategy and aligns with OEV's talent-recruitment and community-branding objectives, continuing a collaboration that has proven successful year-over-year.

Options:

1. Approve a three-year Joint Project Services Agreement (FY 2026 – FY 2028) with Choose Tallahassee for out-of-market relocation marketing and lead generation (Attachment #1), and authorize the County Administrator to execute the Agreement, and any amendments thereto, in a form to be approved by the County Attorney.
2. Do not approve a three-year Joint Project Services Agreement (FY 2026 – FY 2028) with Choose Tallahassee for out-of-market relocation marketing and lead generation.
3. Board direction.

Recommendation:

Option #1

Attachment:

1. Proposed Agreement with Choose Tallahassee

JOINT PROJECT SERVICES AGREEMENT

THIS JOINT PROJECT SERVICES AGREEMENT (hereinafter "Agreement") is entered into by and between Leon County, Florida, a charter county and political subdivision of the State of Florida (hereinafter the "County") and Choose Tallahassee, Inc., a 501(c)(3) Not-for-Profit Corporation (hereinafter the "Contractor" or "Choose Tallahassee"), collectively, the "Parties".

RECITALS

WHEREAS, the County and Contractor wish to enter into an agreement that will ensure the creation of a joint partnership for the purposes of promoting Leon County and the City of Tallahassee as a retirement destination and an ideal place to relocate for young professionals, entrepreneurs, creative talent and students; and

WHEREAS, the Leon County Division of Tourism ("Division of Tourism") is charged with leading the Board of County Commissioners' strategic goal of increasing economic development through tourism and whose marketing efforts in fiscal year 2024 helped generate 2.4 million visitors to Leon County, $807 million in direct visitor spending and $1.32 billion in total economic impact; and

WHEREAS, with 11,000 members of the "Baby Boomer" and "Generation-X" generations retiring daily, and thousands of individuals seeking to relocate for business or educational pursuits, represent a tremendous economic, social and civic growth opportunity for the County due to the economic benefits realized; and

WHEREAS, many people looking to relocate will spend time visiting and exploring different locations before making a final decision on relocating; and

WHEREAS, the Board of County Commissioners recognized the direct relationship between those wishing to relocate to the City of Tallahassee and Leon County and the goals of the Division of Tourism, and decided to provide financial support to the Contractor; and

WHEREAS, the Parties recognize that this Joint Project Services Agreement may need to be revised to take into consideration future developments and recommendations; and

WHEREAS, funding support for Choose Tallahassee is included in the Division of Tourism marketing budget and funds are to be expended exclusively for marketing and promotion to increase visitation to Leon County in accordance with § 125.0104, Fla. Stat.

NOW, THEREFORE, in consideration of the following mutual covenants and promises contained herein and other good and valuable consideration, the receipt and sufficiency of which being acknowledged, the Parties do hereby covenant and agree as follows:

1. INCORPORATION OF RECITALS

The Recitals set forth above are hereby incorporated into this Agreement and made a part hereof as if set forth below.

2. EFFECTIVE DATE; TERM; TERMINATION

a. This Agreement shall be effective commencing October 1, 2025, and shall continue until September 30, 2028.

b. Either Party may provide notice to the other of its intent to terminate the Agreement early, though not less than sixty (60) days before the expiration of each fiscal year.

c. This Agreement expires on September 30, 2028, any future relationship would require a new agreement approved by the Board.

3. SCOPE OF SERVICES PROVIDED BY COUNTY

a. Leon County Division of Tourism shall:

1. Provide funding to Choose Tallahassee in the amounts of $15,000 (FY 2025 – 2026), $20,000 (FY 2026 – 2027), and $25,000 (FY 2027 – 2028), each contingent upon the previous year's clear demonstration of positive results. Funding will be disbursed in one installment per fiscal year — (i) upon Division approval of the annual marketing plan and (ii) upon Division review of the previous year expenditures and metrics — and must be spent in compliance with § 125.0104, Fla. Stat.

2. Provide insight, collaboration and technical support on marketing, Public Relations, social media and advertising efforts as appropriate.

3. Upon recommendation of the Director of the Division of Tourism, the County Administrator shall designate a representative of the Division to serve as an ex-officio, non-voting member of the Choose Tallahassee Board of Directors (not counted toward quorum). The ex-officio seat is appointed by, and may be replaced at any time by, the County upon written notice to Choose Tallahassee.

4. Upon recommendation of the Director of the Division of Tourism, the County Administrator shall designate a representative of the Division to serve on the Choose Tallahassee Marketing Committee, and the County may replace its designee at any time upon written notice.

5. Forward all relocation inquiries to Choose Tallahassee in a timely manner.

6. Promote Choose Tallahassee through the Visit Tallahassee website, visitor inquiries, public relations efforts and email.

b. Coordination of Activities:

The Director of the Division of Tourism (or a written designee) shall serve as the "Project Manager" and single point of contact between the Parties. The Project Manager will:

Lead communications and guidance. Convene and document at least bi-annual coordination meetings with Choose Tallahassee to review progress, metrics, expenditures, and upcoming initiatives, while providing ongoing strategic and technical support for marketing, public relations, and promotional efforts funded under this Agreement.

Oversee compliance and approvals. Monitor all monthly/quarterly reporting activities, deliverables, and expenditures for consistency with the approved annual marketing plan and Section 5 (Use of Expenses); issue and track any written deficiency notices; and approve Contractor invoices, reports, or reimbursement requests prior to payment. Payment of any invoice or reimbursement request is expressly conditioned on the Project Manager's written approval. Disapproved submissions may be corrected and resubmitted for further review.

4. RESPONSIBILITIES OF CHOOSE TALLAHASSEE

a. Submit an annual marketing plan — no later than thirty (30) days after the start of each County fiscal year — for Division approval. The plan must detail proposed activities, budgets, timelines, and metrics.

b. Provide all administrative support including telephone and email support, physical address and fulfillment of consumer inquiries.

c. Maintain and manage the Choose Tallahassee website, social media channels and promotional activities including lead generation. Additionally, the Division (aka Visit Tallahassee) will be integrated into Choose Tallahassee's paid out-of-market advertising, email marketing efforts, dedicated social media posts and website page, and Relocation Guides with dedicated content, images and targeted messaging reaching at least five (5) distinct audience segments (Retirees, Families, Business owners/Entrepreneurs, Incoming College Students, Recent Graduates).

d. Maintain a computer database generated by Contractor for promotional activities of persons interested in retiring/relocating to the County (available to the County upon request).

e. Provide formal Division-of-Tourism representation within Choose Tallahassee by (i) accepting the County's representative, chosen as identified in section 3.a.3, to serve as an ex-officio member of the Board of Directors and (ii) forwarding Board meeting minutes to the Division, and (iii) accepting a Division of Tourism staff member, chosen as identified in 3.a.4, to serve on the Choose Tallahassee Marketing Committee.

f. Select its Executive Director and an appointed member of the Choose Tallahassee Board of Directors to act as the liaisons to Division of Tourism.

g. Respond to consumer inquiries from marketing efforts providing information on relocation and the advantages of the quality of life in this area.

h. Provide an annual report to the Tourist Development Council.

i. Submit a year-end report on expenditures and metrics no later than 45 days after the conclusion of the County's fiscal year (September 30).

5. USE OF EXPENSES

a. The following are permissible expenses for the use of the annual tourism funding provided pursuant to this agreement:

1. Promotion marketing and paid advertising/media buys that reach outside of Leon County with the potential to drive overnight visitation. Activities may include digital and social media buys, Graphic design services for ad production and website development and enhancement.

2. Special Event production, marketing, and technical expenses, site fees/costs (rentals, insurance, etc.), non-monetary awards (trophies, plaques, etc.) and travel expenses, including lodging, for media.

b. Unallowable expenses – the following are not allowable expenses:

1. General, overhead and administrative costs, including salaries.

2. Building, remodeling or equipment expenses.

3. Advertising that only reaches Leon County.

4. Hospitality (food and beverage).

5. Lodging expenses for event attendees other than media.

c. **Claw-Back of Disallowed Costs.** If, through audit or other review, the County determines that tourism funds were expended for items outside the permissible uses identified in this Section, Choose Tallahassee shall reimburse the County for the disallowed amount within sixty (60) days of written notice. The County may withhold future disbursements due under § 3 a until full repayment is made. Failure to remit reimbursement within the required period constitutes a material breach subject to the remedies in § 7 (Termination).

6. PUBLIC RECORDS

a. By entering into this Agreement Choose Tallahassee acknowledges and agrees that any records generated, maintained, received, or kept in connection with, or related to this Agreement, and the expenditure of the funds provided through this Agreement, are public records subject to the disclosure requirements of 119.071, Florida Statutes. The Contractor further agrees it shall do the following:

b. Use an accounting system that meets generally accepted accounting principles. Choose Tallahassee shall be required to establish and maintain books, records, and documents (including electronic storage media) sufficient to reflect all income and expenditures of funds provided by the County under this Agreement. This includes the retention of all records, financial records, supporting documents, statistical records, and any other documents (including electronic storage media) pertinent to this Agreement

for a period of six (6) years after completion of the Agreement. If an audit has been initiated, and audit findings have not been resolved at the end of six (6) year period, the records shall be retained until resolution of the audit findings or any litigation which may be based on the terms of this Agreement, at no additional cost to the County. Records shall be retained for longer periods when the retention period required by law exceeds the time frames required by this Agreement.

c. Keep and maintain those records that ordinarily and necessarily would be required by the County in order to perform the Services under this Agreement, hereinafter "public records".

d. Upon request from the County's custodian of public records, provide the County with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost to the requester that does not exceed the costs provided for in Chapter 119, Florida Statutes, or as otherwise provided by law

e. Ensure that the public records that are exempt or confidential and exempt from public records disclosure requirements, are not disclosed, except as authorized by law.

f. Meet all requirements for retaining public records and transfer, at no cost, to the County all public records in possession of Choose Tallahassee upon termination of this Agreement and destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. All records stored electronically must be provided to the County in a format that is compatible with the information technology systems of the County.

IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT:

Kerri L. Post
315 South Calhoun Street, Suite 830
Tallahassee, FL 32301
850-606-2300
postk@leoncountyfl.gov

7. TERMINATION

Leon County may terminate this Agreement without cause by giving the Contractor thirty (30) days written notice of termination. Either party may terminate this Agreement for cause by giving the other party hereto thirty (30) days written notice of termination. The County shall not be required to give Contractor such thirty (30) day written notice if, in the opinion of the County, the Contractor is unable to perform its obligations hereunder or, in the County's opinion, the Work being performed is not satisfactory. In such case, the County may immediately terminate the Agreement effective upon notice of termination to the Contractor.

8. INDEMNIFICATION

The contractor agrees to indemnify, defend and hold harmless the County, its officials, officers, employees and agents, from and against any and all claims, damages, liabilities, losses, costs, or suits, of any nature whatsoever arising out of, because of, or due to any acts or omissions of the Contractor, its delegates, employees and agents, arising out of or under this Agreement, including reasonable attorney's fees and costs. The County may, at its sole option, defend itself or require the Contractor to provide the defense. The Contractor acknowledges that ten dollars ($10.00) of the amount paid to the Contractor is sufficient consideration of the Contractor's indemnification of the County.

9. NOTICE

All notices required hereunder shall be in writing sent by United States certified mail, postage prepaid, return receipt requested, overnight courier or by hand delivery. All notices required under this Agreement shall be given to the Parties at the addresses below or at such other place as the Parties may designate in writing.

Notice to Contractor:	Name:	Emily Proctor Sutton, Executive Director
	Address:	571 Iamonia Farms Road Tallahassee, FL 32312
Notice to the County:	Name:	Kerri L Post, Division of Tourism
	Address:	315 South Calhoun St. Suite 830 Tallahassee, FL 32301

10. CONTRACT MANAGEMENT

The Director of the Division of Tourism shall be, and is hereby authorized as, the representative of the County, responsible for the day-to-day operational management of the provisions of the Agreement, including all matters related to the payment rendered by the Contractor hereunder, unless or until a written notice is provided to the Contractor stating otherwise.

11. MISCELLANEOUS PROVISIONS

a. Status. The Contractor at all times relevant to this Agreement shall be an independent contractor and in no event shall the Contractor nor any employees or subcontractors under it be considered to be employees of the County.

b. Assignments. This Agreement shall not be assigned as a whole or in part to any third Party without the prior express written consent of the County nor shall the Contractor assign any monies due or to become due to it hereunder without the prior written consent of the County.

c. Modifications. This Agreement constitutes the entire understanding of the Parties. Any modifications to this Agreement must be in writing.

d. Waiver. Failure to insist upon strict compliance with any term, covenant or condition of this Agreement shall not be deemed a waiver of it. No waiver or relinquishment of a right or power under this Agreement shall be deemed a waiver of that right or power at any other time.

e. Ambiguity. This Agreement has been negotiated by the Parties with the advice of counsel and, in the event of an ambiguity herein, such ambiguity shall not be construed against any Party as the author hereof.

f. Entire Agreement. This Agreement constitutes the entire Agreement between the Parties with respect to the matters contained herein, and all prior agreements or arrangements between them with respect to such matters are superseded by this Agreement.

g. Headings. Headings in this Agreement are for convenience only and shall not be used to interpret or construe its provisions.

h. Governing Law and Venue. This Agreement shall be governed by and construed in accordance with the laws of the State of Florida. Venue for all actions arising out of this Agreement shall lie in Leon County, Florida.

i. Public Entity Crime. Pursuant to section 287.133, Florida Statutes, the Contractor hereby certifies that to the best of its knowledge and belief that at the time this Agreement is signed the Contractor has not been convicted of a public entity crime. Upon the written request of the County, the Contractor shall provide the County with a completed public entity crime statement form each year this agreement is in effect. Additionally the Contractor acknowledges that the following restrictions are placed on the ability of persons convicted of a public entity crime to transact business with Leon County: when a person or affiliate has been placed on the convicted vendor list following a conviction for public entity crime, he/she may not submit a bid on a contract to provide any goods or Services to a public entity, may not submit a bid on a contract with a public entity for the construction or the repair of a public building or public work, may not submit bids on leases of real property to a public entity, may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity, and may not transact business with any public entity in excess of the threshold amount provided in section 287.017, Florida Statutes, for Category two, for a period of 36 months from the date of being placed on the convicted vendor list.

Discriminatory Vendor and Scrutinized Companies Lists; Countries of Concern. Choose Tallahassee represents that it has not been placed on the "discriminatory vendor list" as provided in Section 287.134, Florida Statutes, and that it is not a "scrutinized company" pursuant to Sections 215.473 or 215.4725, Florida Statutes. By entering into this Agreement Choose Tallahassee certifies that it is not a scrutinized company as identified in Section 287.135, Florida Statutes. Pursuant to Section 287.135(3)(b), Florida Statutes, this Agreement may be terminated for convenience by the County if Choose Tallahassee is found to have submitted a false certification as required under Section 287.135(2)(a), or (5), Florida Statutes, has been placed on the Scrutinized Companies that Boycott Israel List, or is engaged in a boycott of Israel, or has been placed on a list created pursuant to 215.473, Florida Statutes relating to scrutinized active business operations.

j. Unauthorized Alien(s). Choose Tallahassee agrees that unauthorized aliens shall not be employed nor utilized in the performance of the requirements of this Agreement. The County shall consider the employment or utilization of unauthorized aliens a violation of Section 274A(e) of the Immigration and Naturalization Act (8 U.S.C. 1324a). Such violation shall be grounds for termination of this Agreement by the County.

k. Employment Eligibility Verification. By providing goods and/or services to the County, Choose Tallahassee is obligated to comply with the provisions of Section 448.095, Florida Statutes, "Employment Eligibility." Compliance with Section 448.095, Florida Statutes, includes, but is not limited to, utilization of the E-Verify System to verify the work authorization status of all newly hired employees, and requiring all subcontractors to provide an affidavit attesting that the subcontractor does not employ, contract with, or subcontract with, an unauthorized alien. Choose Tallahassee affirms and represents that it is registered with the E-Verify system and is using same and will continue to use same as required by Section 448.095, Florida Statutes.

l. Civil Rights Requirements. Choose Tallahassee shall not discriminate against any employee in the performance of this Agreement or against any applicant for employment because of age, race, religion, color, disability, national origin, or sex. Choose Tallahassee further agrees that all subcontractors or others with whom it arranges to provide Services or benefits to participants or employees in conjunction with any of its programs and activities are not discriminated against because of age, race, religion, color, disability, national origin, or sex. Choose Tallahassee shall conduct its funded activities in such a manner as to provide for non-discrimination and full equality of opportunity regardless of race, color, religion, national origin, sex, age, handicap, marital status, political affiliation, or beliefs. Therefore, Choose Tallahassee agrees to comply with Title VII of the Civil Rights Act of 1964, Section 504 of the Rehabilitation Act of 1973, the Age Discrimination Act of 1975, the American Disabilities Act of 1990, and the Florida Civil Rights Act of 1992.

m. Preventing Human Trafficking. Choose Tallahassee agrees that it does not use coercion for labor or services as each term is defined in 787.06, Florida Statutes, and, under penalty of perjury, has attested to such statement through the execution and submittal of a notarized affidavit, which is incorporated herein as Exhibit A. In the event of each and every renewal or extension of this Agreement a new Exhibit A shall be executed, notarized and submitted to the County.

n. Severability. It is intended that each Section of this Agreement shall be viewed as separate and divisible, and in the event that any Section, or part thereof of this Agreement is held by a court of competent jurisdiction to be invalid or unenforceable, that this Agreement, including all of the remaining Sections, shall remain in full force and effect.

o. Force Majeure. If either Party is prevented from or delayed from performing any obligations under this Agreement by circumstances beyond its control, except where such Party could have reasonably foreseen and reasonably avoided the occurrence, the Party shall be excused from performance to the extent and only to the extent, that such performance is affected by a "Force Majeure Event". "Force Majeure Event" shall include, but not be limited to fires, hurricanes, severe weather, floods, pandemics, epidemics, quarantines, war, civil disturbances, acts of terrorism, strike or lockout, acts of God, or any laws, rules, regulations, orders, or acts of any local, state, or federal government. The party claiming Force Majeure shall promptly notify the other party in writing upon learning of the existence of a Force Majeure Event, and when the Force Majeure Event has terminated. Notwithstanding anything in this Agreement to the contrary, the term "Force Majeure" does not include or excuse performance under this Agreement for events relating to increased costs or expenses associated with carrying out the Party's obligations under this Agreement.

p. Survival of Obligations. Cancellation, expiration, or earlier termination of this Agreement shall not relieve the Parties of obligations that by their nature should survive such cancellation, expiration, or termination.

q. Sovereign Immunity. Nothing herein shall be construed as a waiver of any rights and privileges afforded the County, as a political subdivision of the State of Florida, under section 768.28, Florida Statutes, as amended.

r. Counterparts. This Agreement may be executed in one or more counterparts, each of which will be deemed an original but all of which taken together will constitute one and the same instrument.

Leon County
Board of County Commissioners

Notes for Agenda Item #24

Leon County Board of County Commissioners

Agenda Item #24

September 15, 2025

To: Honorable Chairman and Members of the Board

From: Vincent S. Long, County Administrator

Title: Leon County 2025 Annual Report

Review and Approval:	Vincent S. Long, County Administrator
Department / Division Review:	Ken Morris, Assistant County Administrator
Lead Staff / Project Team:	Mathieu Cavell, Director, Community Relations and Resilience Kianna Gilley, Public Information & Communications Manager Elizabeth Loeffelman, Senior Public Information Strategist

Statement of Issue:

This item serves to present the County Administrator's 2025 Annual Report pursuant to Policy No. 11-6 and Section 125.85(1), Florida Statutes.

Fiscal Impact:

This item has no fiscal impact.

Staff Recommendation:

Option #1: Accept the 2025 Leon County Annual Report.

Report and Discussion

Background:

This item presents the Leon County 2025 Annual Report. Policy No. 11-6, "County Administrator Performance Evaluation and Annual Reporting Process" (Policy), requires the County Administrator to prepare an annual report, which provides a detailed analysis, summarizing the state of the County, based upon the prior fiscal year, and present the report for acceptance by the Board at a regularly scheduled Board meeting in September of each year. Additionally, the Policy requires presentation of the annual report to at least two community meetings conducted outside of the Courthouse, and publication of a summary of the annual report in a newspaper of general circulation.

The reporting requirements set forth in the Policy are consistent with Section 125.85(1), Florida Statutes, to "Report annually, or more often if necessary, to the board of commissioners and to the citizens on the state of the county, the work of the previous year, recommendations for action or programs for improvement of the county, and the welfare of its residents."

Analysis:

Consistent with the Policy, the County Administrator has prepared the 2025 Leon County Annual Report. The County's 80-plus-page, full-color Annual Report is a comprehensive accounting of how Leon County continues to deliver on the Board of County Commissioners' highest priorities—investing in infrastructure, creating places for people to thrive, and advancing innovation through co-creation—while setting the standard with award-winning performance and fiscal stewardship. It documents significant progress across all County work areas and programs, demonstrates alignment with the County's Strategic Plan at every level, and clearly communicates to the public the value and impact of Leon County Government and the County's high-quality essential services citizens rely on every day. The annual report will be distributed during the Board meeting on September 15, 2025, and a brief presentation has been prepared for the meeting.

Additionally, consistent with the Policy, the County Administrator will present the annual report at two meetings outside of the Courthouse, and a summary of the annual report will be published in a newspaper of general circulation.

Options:

1. Accept the 2025 Leon County Annual Report.
2. Do not accept the 2025 Leon County Annual Report.
3. Board direction.

Recommendation:

September 15, 2025

To: Honorable Chairman and Members of the Board

From: Chasity H. O'Steen, County Attorney

Title: Status Report on the City of Ocala Fire Service Fee Lawsuit, *Discount Sleep of Ocala, LLC v. City of Ocala*, 300 So. 3d 316 (Fla. 5th DCA 2020)

Review and Approval:	Chasity H. O'Steen, County Attorney
Department / Division Review:	Chasity H. O'Steen, County Attorney
Lead Staff / Project Team:	Chasity H. O'Steen, County Attorney

Statement of Issue:

As requested at the July 8, 2025 meeting, this item provides the Board with a status report on the City of Ocala fire service fee lawsuit, *Discount Sleep of Ocala, LLC v. City of Ocala*, 300 So. 3d 316 (Fla. 5th DCA 2020).

Fiscal Impact:

This item has no fiscal impact.

Staff Recommendation:

Option #1: Accept the status report on the City of Ocala fire service fee lawsuit.

Report and Discussion

Background:

As requested at the July 8, 2025 meeting, this item provides the Board with a status report on the City of Ocala fire service fee lawsuit, *Discount Sleep of Ocala, LLC v. City of Ocala*, 300 So. 3d 316 (Fla. 5th DCA 2020).

Analysis:

Between 2006 and 2010, the City of Ocala (Ocala) enacted several ordinances that established, repealed, and then re-established a fire service fee intended to offset a portion of the general operating costs of Ocala's fire department. In *Discount Sleep of Ocala, LLC v. City of Ocala*, 300 So. 3d 316 (Fla. 5th DCA 2020), a group (Challengers) brought a class action lawsuit against the City of Ocala, challenging the city's fire service user fee as an unconstitutional tax. Initially, the circuit court granted Ocala's motion to dismiss based on a statute of limitations argument, but the appellate court reversed. On remand, the circuit court denied class certification. On appeal for a second time, the Fifth District Court of Appeal (District Court) reversed again. After a bench trial, the circuit court entered final judgment in favor of Ocala, concluding that Ocala's fire service fee was not a tax, but a valid user fee and that the Challengers' cause of action was barred by the statute of limitations. On appeal for the third time, the District Court reversed and remanded the case. The substantive holdings in the third and final appeal are summarized below.

First, the District Court noted that local governments may only levy taxes other than ad valorem taxes when authorized by general law; however, local governments do possess the authority to impose special assessments and user fees. Special assessments and user fees must satisfy different legal requirements to be valid.

User fees are paid in exchange for the right to use a government-provided service or instrumentality. Unlike a tax, a valid user fee must satisfy the following three requirements:

- Is charged in exchange for a particular governmental service;
- The service benefits the party paying the fee in a manner not shared by other members of society; and
- Is paid by choice, and the party paying the fee has the option of not utilizing the governmental service and thereby avoiding the charge.

The District Court concluded that Ocala's fire service fee failed the first requirement, which requires that the amount paid for a service must bear a reasonable relationship to the value of the goods or services provided and the benefit received. The Challengers argued, and the District Court agreed, that Ocala's fee failed because it was not charged in exchange for fire service. Instead, Ocala provided fire response services within the city regardless of whether the fee had been paid; the fee was not specifically authorized by statute; and, the fee was used to provide a service typically funded from ad valorem taxes or, perhaps, a special assessment.

The fire service fee met the second requirement. The District Court agreed with the trial court that the fire service fee benefitted class members in a way not shared by those who did not pay the fee, including by protecting the lives of the class members and other occupants of developed property and by preventing the spread of fires to adjoining property.

The District Court concluded that the fire service fee failed the third requirement because the Challengers could not refuse the fire department's services, and the fire service fee appeared on the Challengers' utility bill along with charges for water, sewer, and electric services. If a Challenger failed to pay the fire service fee, Ocala would disconnect that person's utility service – water, sewer, and electric. Ocala's ordinance also provided that unpaid fire service charges constituted a lien on the property to which the service was provided, and the lien was then treated as a special assessment lien against the real property. For these reasons, the District Court held that disconnecting from Ocala's utility services to avoid the fire service fee was an illusory choice at best. The District Court further stated that bundling the fire service fee with water, sewer, and electric charges was coercive and deprived the payor of a free choice, likening the arrangement in that case to "economic coercion." The District Court also rejected the argument that people could move outside of the city limits to avoid paying the fire service fee as a real choice.

Because the Ocala fire service charge failed the first and third requirements to constitute a valid user fee, the Fifth District reversed the final judgment in favor of Ocala, declared Ocala's fire service fee to be an unconstitutional tax, and remanded the case to the circuit court for the establishment of a common fund to refund the illegally collected fees.

Options:

1. Accept the status report on the City of Ocala fire service fee lawsuit.
2. Do not accept the status report on the City of Ocala fire service fee lawsuit.
3. Board direction.

Recommendation:

Option #1

Leon County
Board of County Commissioners

Notes for Agenda Item #26

Leon County Board of County Commissioners

Agenda Item #26

September 15, 2025

To: Honorable Chairman and Members of the Board

From: Vincent S. Long, County Administrator

Title: Appointments to the Leon County Citizen Charter Review Committee, Preliminary Committee Bylaws, and Analysis on Potential Charter Amendment Topics

Review and Approval:	Vincent S. Long, County Administrator Chasity H. O'Steen, County Attorney
Department / Division Review:	Ken Morris, Assistant County Administrator
Lead Staff / Project Team:	Nicki Hatch, Assistant to the County Administrator for Legislative and Strategic Initiatives Chandika Basdeo, Special Projects Coordinator

Statement of Issue:

This item seeks Board appointments to the Leon County Citizen Charter Review Committee (CCRC) and consideration of preliminary CCRC Bylaws. In addition, as requested at the July 8, 2025 meeting, this item provides legal analysis on issues proposed by the Board to determine whether to advance for consideration by the CCRC.

The CCRC will convene on October 23, 2025, to review the Leon County Charter and propose recommended amendments or revisions to the Board of County Commissioners for placement on the 2026 general election ballot. The CCRC is scheduled to meet biweekly on Thursdays in the Leon County Library until February 19, 2026 (120 days).

Fiscal Impact:

This item has a fiscal impact. Increasing the CCRC to 21 members requires the relocation of CCRC meetings from the Commission Chambers to the Leon County Library and requires an estimated $90,000 in associated costs to facilitate and broadcast meetings. Funding is available in the FY 2026 Tentative Budget to support the additional resource needs for the CCRC.

Staff Recommendation:

Option #1: Appoint three members by each Commissioner to the Leon County Citizen Charter Review Committee (CCRC).

Option #2: Approve the preliminary CCRC Bylaws to be presented to the CCRC for adoption at its first meeting on October 23, 2025 (Attachment #1).

Option #3: Provide direction to staff on potential charter amendment issues to be advanced to the CCRC for further consideration.

Report and Discussion

Background:

At its July 8, 2025 meeting, the Board received an overview of the proposed charter review process and provided options and recommendations regarding the establishment of a CCRC. At that time, the Board directed staff to prepare an agenda item for the Board's appointment of a 21-member Citizen Charter Review Committee (three appointments per Commissioner), seven more members than the initial recommendation, and consideration of preliminary CCRC Bylaws (Attachment #1). The CCRC will convene on October 23, 2025, to review the Leon County Charter and propose recommended amendments or revisions to the Board of County Commissioners for placement on the 2026 general election ballot. The CCRC is scheduled to meet biweekly on Thursdays in the Leon County Library until February 19, 2026 (120 days).

In addition, the Board requested legal analysis on the following seven issues to determine whether to advance these issues for consideration by the CCRC:

1. Creation of a Citizen Utility Review Board.
2. Establishment of an exclusive method of municipal annexation in the County Charter whereby the County can propose the annexation of unincorporated property into the City of Tallahassee (City).
3. Annexation of all unincorporated property inside Capital Circle into the City.
4. Provide that County ordinances supersede City ordinances.
5. Empower citizens in the unincorporated area of the County who pay for City utilities and fire services to be able to vote in City elections.
6. Creation of a Utility Authority in which the County has seats on the Authority since citizens in the unincorporated area cannot vote in City elections and pay a 50% utility service surcharge.
7. Clean up outdated references to statutes related to the establishment of a county charter.

The CCRC is essential to the following FY 2022 – FY 2026 Strategic Initiative:

- *Establish a Citizen Charter Review Committee to review the County's Home Rule Charter and propose any amendments or revisions ahead of the 2026 General Election. (2025-101)*

This particular Strategic Initiative aligns with the Board's Governance Strategic Priority:

- *(G1) Sustain a culture of transparency, accessibility, accountability, civility, and the highest standards of public service.*

This item requests the Board's appointments to the Leon County CCRC and presents draft committee bylaws for consideration. This item also seeks Board direction on the issues proposed by the Board for consideration by the CCRC.

Analysis:

Committee Appointments

Purpose: The Leon County Charter requires that a Citizen Charter Review Committee be appointed by the Board every eight years, at least 12 months before the general election, to review the County's Home Rule Charter and propose any amendments or revisions for placement on the general election ballot.

Composition: As directed by the Board at the July 8, 2025 meeting, the CCRC will consist of 21 appointees, with three appointments per Commissioner. Each Commissioner has the opportunity to appoint three people to the CCRC.

Preliminary Committee Bylaws

As part of the establishment of the Leon County Citizen Charter Review Committee, preliminary bylaws are proposed for the Board's considerations to guide and support the efforts of the CCRC. Upon Board approval, the preliminary bylaws will be presented to the CCRC for consideration at its first meeting. At that time, the CCRC Bylaws may be amended by 2/3 vote of the Committee's membership.

As reflected in Attachment #1, the preliminary CCRC Bylaws set forth the duties, terms, and meeting structure of the CCRC, as outlined below:

- Applicable Florida Laws and Board Policies
- Officers and Duties
- Term of Members
- Attendance and Replacement of Members
- Meetings
- Deliberations
- Policy on Publicity
- Amendments to Bylaws

The CCRC is subject to the State's Sunshine Laws and Section 286.011, Florida Statutes. The CCRC meetings will be noticed and open to the public, and all CCRC records, including the approved Bylaws, will be made available on the County website. All CCRC meetings will also be broadcast on the County's Comcast Channel 16 and the County website.

Issues Requested by the Board for Potential Consideration by the CCRC

At its July 8, 2025 meeting, the Board requested legal analysis on the following seven issues for additional consideration to advance to the CCRC and amend the Leon County Charter.

1. Creation of a Citizen Utility Review Board.
2. Establishment of an exclusive method of municipal annexation in the County Charter whereby the County can propose the annexation of unincorporated property into the City of Tallahassee (City).
3. Annexation of all unincorporated property inside Capital Circle into the City.
4. Provide that County ordinances supersede City ordinances.
5. Empower citizens in the unincorporated area of the County who pay for City utilities and fire services to be able to vote in City elections.
6. Creation of a Utility Authority in which the County has seats on the Authority since citizens in the unincorporated area cannot vote in City elections and pay a 50% utility service surcharge.
7. Clean up outdated references to statutes related to the establishment of a county charter.

The following provides an analysis for each requested issue, along with information regarding the County's authority, and limits on such authority, for the Board to determine whether to advance these issues for consideration by the CCRC. The Board also has the discretion to independently place charter amendments on the ballot by supermajority vote.

Leon County, Florida – Authority and Limits on Such Authority:

As a charter county, the County's authority is derived from Article VIII, Section 1(g) of the Florida Constitution (Constitution). That provision, titled "CHARTER GOVERNMENT.", states:

> Counties operating under county charters shall have all powers of local self-government not inconsistent with general or special law, or with special law approved by vote of the electors. The governing body of a county operating under a charter may enact county ordinances not inconsistent with general law. The charter shall provide which shall prevail in the event of conflict between county and municipal ordinances.

This grant of authority is broad, but there are certain limitations. Fundamentally, the County must comply with all constitutional and statutory constraints. The County cannot adopt an ordinance or otherwise act in conflict with federal or state law. The federal government and state legislature have also preempted certain matters, whether expressly or impliedly, and the County cannot adopt ordinances to regulate those areas.

Sec. 1.1 of the Charter, itself, recognizes the limits of the County's authority: "The County shall have all powers of self-government not inconsistent with general law, with special law approved by vote of the electors, or with this Charter. The County shall have all county and municipal powers of self-government granted now or in the future by the Constitution and laws of the State of Florida."

1. **Creation of a Citizen Utility Review Board:** The Board has asked whether the CCRC may consider the amendment of the Charter to create a Citizen Utility Review Board. In summary, the ability to create a Citizen Utility Review Board is limited by broad municipal authority and existing statutes that govern the authority to construct and operate water, wastewater, electric, and other utilities.

   The County has the authority to create a Utility Review Board by charter, but such authority would not have the ability to regulate the City's utility or provide services within the City boundaries unless the City agreed. The County cannot by charter create a Utility Review Board that controls or otherwise regulates the City's utilities. The County also lacks the authority to compel or otherwise force the City to join a Utility Review Board and cede control or authority to such authority.

   The City has its own broad grant of constitutional authority. Article VIII, Section 2(b) of the Constitution, titled "POWERS", grants to municipalities the governmental, corporate, and proprietary powers necessary to enable them to conduct municipal government, perform municipal functions, and render municipal services. Under this provision, municipalities may exercise any power for municipal powers except as otherwise provided by law. Citing Article VIII, Section 2(b) of the Constitution, Section 166.021, Florida Statutes (F.S.), acknowledges a municipality's broad authority while also identifying certain limitations, including any subject expressly preempted to state or county government by the Constitution or by general law, and any subject preempted to a county pursuant to a county charter adopted under the Constitution.

   Chapter 180, F.S., authorizes municipalities to construct and operate water, sewer, and other utility systems, both within and outside their boundaries. Section 180.13, F.S., specifically and expressly authorizes the city council or other governing body of a municipality to create a separate board or designate certain city officers to supervise and control the operations of its utilities and make all necessary rules or regulations governing the use, control, and operation of such utilities, subject to the approval of the city council. This statute also authorizes the city council to establish rates or charges for the use of the utility by those who receive utility service.

   A municipal electric utility, such as the utility operated by the City, and a rural electric cooperative, such as Talquin Electric Cooperative, Inc., operate under Chapter 366, F.S., which grants these entities the authority to control and operate those utilities and to establish just and equitable rates, establish service policies, approve budgets and capital improvements, and other matters. Such utilities are typically governed by the city commission or a utility board established by the city or electric cooperative. Under this statutory scheme, the Florida Public Service Commission exercises limited jurisdiction over such entities related to the resolution of territorial disputes and coordination of grid reliability and interconnection issues.

Based upon the City's broad constitutional and legislative authority to own and operate utilities as referenced above, the Board may create by charter revision a Citizen Utility Review Board but it will have no oversight or control over City utilities because of the existing statutory framework for the ownership, administration, and regulation of utilities pursuant to Chapters 180 and 366, F.S. Under the current statutory scheme, the Board would be prohibited from adopting a charter amendment in conflict with, or that is preempted by, the provisions in Chapters 180 and 366, F.S. The Charter amendment would not force the City to participate in the Citizen Utility Review Board or otherwise acknowledge any of its findings or otherwise take any action.

2. **Establish an exclusive method of municipal annexation in the Charter whereby the County can propose the annexation of unincorporated property into the City:** The Board has also asked whether the County can establish an exclusive method of municipal annexation into the Charter whereby the County can propose the annexation of unincorporated property into the City. In short, the County may establish an exclusive method for voluntary annexations to be placed in the Charter, but the County cannot provide an exclusive method for involuntary annexations in the Charter. There is no such statutory authority for counties to provide for an involuntary method of annexation by charter. In fact, any proposed annexations of property without owner consent must follow the uniform statutory method for involuntary annexations. Leon County is preempted from establishing an exclusive method for involuntary annexations by charter. However, as authorized by Florida Statutes and required by the Leon County/City of Tallahassee Comprehensive Plan, the County and City have an interlocal agreement providing the procedures for voluntary annexation in Leon County.

   Municipal Boundaries and Annexations, Generally: Municipalities are established by special acts of the Florida Legislature. Additionally, the Legislature can amend the boundaries of municipalities by special act.[1] The expansion of municipal boundaries, known as annexation, is governed by Article VIII, Section 2 of the Constitution, and the legislative delegation of authority as provided in the Municipal Annexation or Contraction Act, Sections 171.011-.094, F.S. (Act).

   Article VIII, Section 2 of the Constitution provides:

   > (c) ANNEXATION. Municipal annexation of unincorporated territory, merger of municipalities and exercise of extra-territorial power by municipalities shall be provided by general or special law.

   The Act was enacted in 1974 with the purpose of establishing procedures for adjusting municipal boundaries to (1) ensure sound urban development and accommodation to growth, (2) provide uniform legislative statewide standards to annexation, (3) ensure the efficient provision of urban services to areas that become urban in character, and (4) ensure that areas are not annexed unless municipal services can be provided to those areas.

[1] See North Ridge General Hospital, Inc. v. City of Oakland Park, 374 So. 2d 461 (Fla. 1979).

The Act requires that areas to be annexed meet certain characteristics to be eligible for annexation. If an area is deemed eligible for annexation into a municipality, the Act creates a uniform method of annexation by:

- voluntary annexation where land is annexed upon request of 100% of the underlying property owners, or
- involuntary annexation where a portion of land is proposed for annexation without consent of the underlying property owners; with the exception of certain enclaves as defined by statute, this process requires a referendum of the voters within the area to be annexed.

Section 171.044(4), F.S., provides that the uniform method for voluntary annexation procedures does not apply "to a municipality in counties with charters which provide for an exclusive method of municipal annexation." Florida courts have clarified that this provision authorizes counties to devise their own methods of voluntary municipal annexation, so long as the annexation considered is indeed a voluntary annexation, the exclusive method is made a part of the county's charter and approved by the voters, and the exclusive method is contained in the charter itself and does not direct the county to create such procedure via separate ordinance.

Other jurisdictions have successfully proposed exclusive methods for voluntary annexation in their charters. For example, Orange County amended its charter in 2024 establishing a rural area and boundary which requires a supermajority vote of its board to approve voluntary annexations or increases to the allowable density or intensity within the rural areas. The charter amendment was intended to control municipal expansion into its rural areas by requiring a higher voting threshold for approval by the Orange County Commission.

By contrast, Section 171.0413, F.S., dictates the process for involuntary annexations and states:

> (4) Except as otherwise provided in this law, the annexation procedure as set forth in this section shall constitute a uniform method for adoption of an ordinance of annexation by the governing body of any municipality in this state, and all existing provisions of special laws which establish municipal annexation procedures are repealed hereby; except that any provision or provisions of special law or laws which prohibit annexation of territory that is separated from the annexing municipality by a body of water or watercourse shall not be repealed.

Local annexations by the City are also governed by the City and County Interlocal Agreement Annexation Procedures (Interlocal Agreement), as required by the City-County Comprehensive Plan. This Interlocal Agreement with the City for annexation procedures has an indefinite term and may only be terminated by "mutual consent of both parties." Therefore, any charter amendment seeking to create an exclusive method for voluntary annexations would still be subject to the terms of the Interlocal Agreement.

In summary, unlike the statutory method for charter counties to provide for a uniform method for voluntary annexations, there is no such statutory authority for counties to provide for an involuntary method of annexation by charter. The County is preempted from establishing an exclusive method for involuntary annexations by charter.

3. **Annexation of all unincorporated properties inside Capital Circle into the City:** The Board inquired whether the CCRC can consider a charter provision that incorporates all unincorporated property inside Capital Circle to be within the City limits. As explained below, the County is preempted from adjusting municipal boundaries by charter amendment. As mentioned previously, in addition to state law, local annexations by the City are also governed by the Interlocal Agreement.

   Article VIII, Section 2 of the Constitution provides:

   > (c) ANNEXATION. Municipal annexation of unincorporated territory, merger of municipalities and exercise of extra-territorial power by municipalities shall be provided by general or special law.

   The Act was enacted in 1974 with the purpose of establishing procedures for adjusting municipal boundaries to (1) ensure sound urban development and accommodation to growth, (2) provide uniform legislative statewide standards to annexation, (3) ensure the efficient provision of urban services to areas that become urban in character, and (4) ensure that areas are not annexed unless municipal services can be provided to those areas.

   The Act requires that areas to be annexed meet certain characteristics to be eligible for annexation. If an area is deemed eligible for annexation into a municipality, the Act creates a uniform method of annexation by:

   - voluntary annexation where land is annexed upon request of 100% of the underlying property owners, or
   - involuntary annexation where a portion of land is proposed for annexation without consent of the underlying property owners; with the exception of certain enclaves as defined by statute, this process requires a referendum of the voters within the area to be annexed.

   As discussed previously, municipal boundaries are created and expanded by special act of the Legislature, except as authorized by general or special law. As an alternative to a special act, the Florida Legislature has provided limited authorizations for annexation by municipalities by adopting the Act. Except as authorized by the Act, a county or municipality is preempted from amending the municipal boundaries or creating additional methods for annexation of unincorporated areas into the City limits.[2] Florida provides the uniform process for involuntary annexation, and there is otherwise no statutory authority for a county to adjust municipal boundaries by operation of a charter amendment; therefore, the County is preempted from doing so.

[2] SCA Services of Florida, Inc. v. City of Tallahassee, 418 So. 2d 1148, 1150 (Fla. 1st DCA, 1982).

4. **Provide that County ordinances supersede City ordinances:** The Board asked whether the Charter may be amended to provide for County ordinances to supersede City ordinances. In short, yes unless there is a state law that provides for a municipal ordinance to prevail in the event of conflict with a county ordinance.

   As referenced previously, Article III, Section 1(g) of the Constitution provides that counties operating under charters shall have all powers of self-government not inconsistent with general law or with special law approved by the voter of the electors. This constitutional provision also requires that the charter provide for whether county or municipal ordinances prevail when such ordinances conflict. The Leon County Charter currently provides that City ordinances prevail in the event of any conflict, except regarding minimum environmental standards. Specifically, Sec. 1-6(1) of the Charter, titled "Relation to municipal ordinances.", currently provides that:

   > municipal ordinances shall prevail over County ordinances to the extent of any conflict within the boundaries of the municipality. To the extent that a county ordinance and a municipal ordinance shall cover the same subject without conflict, then both the municipal ordinance and the county ordinance shall be effective, each being deemed supplemental to the other.

   However, Sec. 1.6(2) of the Charter, titled "Minimum Environmental Regulations", prohibits the City from establishing environmental standards, procedures, requirements, and regulations in the City that do not meet or exceed the environmental standards, procedures, requirements, and regulations established by the County.

   Among the 20 charter counties in Florida, Leon County is among the ten charter counties which provide for City ordinances to prevail except in certain matters. For Leon County, the current exception is minimum environmental standards. Other county charters include exceptions for the regulation of adult entertainment, the hours of sale for alcohol purchases, and elements of the comprehensive plan. Nine charter counties provide that City ordinances shall prevail in the event of any conflict without exception. Duval County, as a consolidated government, does not reference county and municipal ordinance conflicts.

   Based upon the foregoing authority, the Charter may be amended to provide that County ordinances prevail when there is a conflict with City ordinances, except when a state law provides that a municipal ordinance prevails in the event of a conflict with a county ordinance. In other words, the Board may pursue a charter amendment for all County ordinances to supersede City ordinances when there is a conflict or a charter amendment narrowly tailored to supersede City ordinances on specific issues similar to the existing minimum environmental standards Code provision.

5. **Empower citizens in the unincorporated area of the County who pay for City utilities and fire services to be able to vote in City elections:** The Board has asked whether the Charter may be amended to empower citizens in the unincorporated area of the County who pay for City utilities and fire services to be able to vote in City elections. In short, no because Florida law provides when and where people may vote, and any Charter provision would be preempted.

Article VI, Section 6 of the Florida Constitution, titled "Municipal and district elections.", requires that registration and elections in municipalities shall be provided by law. Florida has a robust Election Code, Chapters 97 – 106 of the Florida Statutes, titled "The Florida Election Code" (Code), and all matters set forth in the Code are preempted to the state, except as otherwise specifically authorized by state or federal law. Further, section 97.0115 is clear that "[t]he conduct of municipal elections is governed by section 100.3605, Florida Statutes."

Section 100.3605(1), F.S., titled "Conduct of municipal elections", provides that the Code

> shall govern the conduct of a municipality's election in the absence of an applicable special act, charter, or ordinance provision. No charter or ordinance provision shall be adopted which conflicts with or exempts a municipality from any provision in the Florida Election code that expressly applies to municipalities.

Provisions of Chapter 101, F.S., also address who may vote in municipal elections. Express language in section 101.002(3), F.S., provides that "[a]ny person who is a duly registered elector pursuant to this code and who resides within the boundaries of a municipality is qualified to participate in all municipal elections, the provisions of special acts or local charters notwithstanding." In essence, the language is clear that a person must reside within the City to vote in City elections, even if the Charter says otherwise. Finally, pursuant to section 101.045(1), a person may only vote in an election precinct or district where the person has his or her legal residence and in which the person is registered.

Additionally, even if the above-referenced statutory provisions did not preclude citizens in the unincorporated area who pay for City utilities and fire services from being able to vote in City elections, there are other requirements that must be met, including citizenship, residency, age, and registration. People who have been convicted of certain felony convictions are ineligible to vote unless their voting rights have been restored, and people who have been adjudicated mentally incapacitated with respect to voting are ineligible unless the right to vote has been restored.

With regard to fire services, it is also worth noting that the City provides services to citizens in the unincorporated area by interlocal agreement with the County. That agreement governs the terms and conditions of service, just like the other interlocal agreements the County has entered into with other government entities for services. In addition, in a separate agenda item on the Board's September 15th meeting agenda is a proposed Ordinance that would eliminate the City's ability to collect fire services assessments in the unincorporated area through a monthly utility bill.

Based upon the foregoing authority, the County is preempted from amending the Charter to empower citizens in the unincorporated area of the County who pay for City utilities and fire services to be able to vote in City elections.

6. **Creation of a Utility Authority in which the County has seats on the Authority since citizens in the unincorporated area cannot vote in City elections and pay a 50% utility service surcharge:** As stated in response to Issue #1, the County has the authority to create a Utility Authority by charter, but such authority would not have the ability to regulate the City's utility or provide services within the City boundaries unless the City agreed. Much of the analysis provided in response to the first topic is applicable here.

   Though the County has broad powers under Article III, Section 1(g) of the Constitution, the City has broad authority under Article VIII, Section 2(b) of the Constitution as well. Moreover, under the existing statutory framework for the ownership, administration, and regulation of utilities pursuant to Chapters 180 and 366, F.S., the Board would be prohibited from adopting a charter amendment in conflict with, or that is preempted by, those state laws. In summary, the County cannot by charter create a Utility Authority that controls or otherwise regulates the City's utilities. The County also lacks the authority to compel or otherwise force the City to join a Utility Authority and cede control or authority to such authority.

   An independent special district could be created by special act of the Legislature to perform the functions of a Utility Authority. Alternatively, the City and County could mutually agree to create a Utility Authority as a separate legal entity pursuant to Section 163.01, F.S., which is sometimes referred to as the "Florida Interlocal Cooperation Act of 1969."

7. **Clean up outdated references to statutes related to the establishment of a county charter:** The Leon County Charter describes the processes to amend the Charter including the required establishment of the CCRC every eight years, that the CCRC shall be appointed by the Board at least 12 months before the general election, and that charter amendments shall be placed on the general election ballot to be approved by voters. These steps are specifically described in the Charter along with references to Florida Statutes which conflict with the County's charter review process, including the deadline for the CCRC to transmit proposed amendments to the Board, the amount of time available for the Board to deliberate and possibly modify CCRC recommendations, and whether the Board must call a special election (rather than placing the amendments on the general election ballot) for voters to consider charter amendments recommended by the CCRC. The Board may wish to have the CCRC review these conflicts and consider a charter amendment to resolve these issues.

   The statutes cited in the Charter present timing conflicts because they pertain to the duties of a charter commission for the initial establishment of a county charter and require the Board to act within certain time frames, which are inconsistent with provisions in the Leon County Charter specific to the charter review process. In response to these conflicting timelines and to position the County to place amendments on the 2026 general election ballot, on July 8, 2025, the Board approved a bifurcated schedule for the charter review process whereby the CCRC will meet for 120 days and provide an update to the Board in March 2026, but the CCRC cannot formally conduct public hearings and transmit its final report to the Board until summer 2026, requiring the Board to convene in August to

formally consider placing proposed charter amendments on the November 3, 2026, general election ballot. To prevent these timing issues during future CCRCs, the Board may wish to have the 2025-2026 CCRC consider an amendment to remove statutory references that conflict with the timeline requirements of the CCRC.

Options:

1. Appoint three members by each Commissioner to the Leon County Citizen Charter Review Committee (CCRC).
2. Approve the preliminary CCRC Bylaws to be presented to the CCRC for adoption at its first meeting on October 23, 2025 (Attachment #1).
3. Provide direction to staff on potential charter amendment issues to be advanced to the CCRC for further consideration.

Recommendation:

Options #1 and #2, and Board direction on Option #3

Attachment:

1. Preliminary CCRC Bylaws

BYLAWS OF THE LEON COUNTY CITIZEN CHARTER REVIEW COMMITTEE

In order to govern its function and operation in a manner consistent with the Home Rule Charter of Leon County, Florida, approved by the electorate of Leon County on the 5th day of November 2002 and subsequently amended on the 2nd day of November 2010 and on the 6th day of November 2018, the Leon County Citizens Charter Review Committee (hereinafter "Committee") hereby adopts the following Bylaws.

It shall be the duty of the Committee to carry out the following charge: To review the Home Rule Charter of Leon County, Florida and propose any amendments or revisions for consideration by the Board of County Commissioners (BCC) which may be advisable for placement on the general election ballot.

ARTICLE I.

APPLICABLE FLORIDA LAWS AND BCC POLICIES

Section 1.1 **Public Records Law and E-Mails:** Each member of the Committee shall comply with the Florida's Public Records Law, Chapter 119, Florida Statutes (F.S.), and Leon County BCC Policy 96-4, "Policy on Public Records Law and E-Mail", as may be amended from time to time, and each member of the Committee shall be provided a copy of BCC Policy 96-4.

Section 1.2 **Government In the Sunshine Law:** Each member of the Committee shall comply with applicable provisions of the Florida Government in the Sunshine Law, Chapter 286, F.S., as may be amended from time to time.

Section 1.3 **Code of Ethics:** The Committee shall comply with the County's Code of Ethics as set forth under Chapter 2, Article XII, of Leon County Code of Laws and the following state laws with regard to the Florida Code of Ethics for Public Officers and Employees:

Clause 1.3.1 Each member of the Committee shall comply with Section 112.3143, F.S., "Voting Conflicts", as may be amended from time to time, and shall be provided a copy of Section 112.3143, F.S.

Clause 1.3.2 Each member of the Committee shall abide by the Standards of Conduct set forth in Section 112.313, F.S., as may be amended from time to time, and shall be provided a copy of Section 112.313, F.S.

ARTICLE II.

OFFICERS AND DUTIES

Section 2.1 The Committee shall appoint a Chairperson and Vice-Chairperson by a simple majority vote at its first meeting.

Section 2.2 The Chairperson and Vice-Chairperson shall serve until the dissolution of the Committee and assume the following powers and duties:

Clause 2.2.1 The Chairperson shall preside at all regular and special meetings of the Committee.

Clause 2.2.2 The Chairperson shall represent the Committee at all functions and activities (but without authority to state any position of the Committee not previously approved).

Clause 2.2.3 The Chairperson shall call special meetings when necessary;

Clause 2.2.4 The Chairperson shall set meeting agendas in coordination with County staff.

Section 2.3 In the event of the Chairperson's absence, or at the direction of the Chairperson, the Vice-Chairperson shall assume the powers and duties of the Chairperson.

Section 2.4 In the event that either the Chairperson or the Vice-Chairperson is unable to complete their term or fulfill their duties, a replacement from among its members should be appointed with a simple majority vote of the Committee as soon as reasonably possible.

ARTICLE III.

TERM OF MEMBERS

Section 3.1 Each member shall serve on the Committee beginning on October 23, 2025 through February 19, 2026 for all regular and special meetings or upon completion of business. In addition, as necessary, the Committee may be required to hold three public hearings on proposed Charter amendments between June and July of 2026.

ARTICLE IV.

ATTENDANCE AND REPLACEMENT OF MEMBERS

Section 4.1 **Attendance at Meetings:** Regular attendance and attention to the business of the Committee is expected. All Committee members are required to attend meetings in person.

Section 4.2 **Vacancies**: The seat of any member who fails to attend three consecutive regular meetings, without previous notification, shall be presumed vacant. A seat deemed vacant may be filled by the appointing County Commissioner no later than the BCC's December 9, 2025 meeting. Following the BCC's December 9, 2025 meeting, recognizing that the Committee will be nearing completion of its regular meeting schedule, any vacant seat shall remain unfilled through the remainder of the Committee's business.

ARTICLE V.

MEETINGS

Section 5.1 **Regular Meetings:** The Committee shall hold biweekly meetings on Thursdays. Such regular meetings shall be held at **the Leon County Library** or at an alternative location, approved by the County Administrator, as necessary. The regular meeting schedule will be posted to the County's webpage in advance of the Committee's first meeting. The duration of meetings shall not exceed **two** hours unless extended by a simple majority vote of the Committee. In order to expedite meetings, the Chairperson may place time limits on discussion of agenda items.

Section 5.2 **Special Meetings:** The Chairperson, or a simple majority vote of the Committee, may call a special meeting of the Committee to discuss any issue properly before the Committee. Such special meetings may be convened only after notification is given to each member of the Committee and after public notice is given, no later than three days before the special meeting is scheduled to begin.

Section 5.3 **Public Participation (In-Person):** The Committee will consider public comment on all substantive agenda items. Under the agenda item of "Remarks of Interested Citizens", interested citizens shall be afforded an opportunity to provide in-person comments on matters before the Committee. The remarks of any citizen should be germane to the agenda or matters to come before the Committee. Each agenda shall include a point during the meeting at which "Remarks of Interested Citizens" may be

made. Each citizen addressing the Committee is asked to observe the general rules of courtesy and civility, and to avoid repetition of other speakers. Citizens are asked to limit their comments to three minutes in the interest of fairness to all citizens desiring to be heard; although, this requirement may be waived at the discretion of the Chairperson for good cause.

Clause 5.3.1 Written Public Comment: Citizens wishing to provide written public comment on matters before the Committee shall be afforded the opportunity to submit their comments at CCRC@LeonCountyFL.gov. To ensure adequate time for distribution and Committee review, written comments are required to be submitted at least 24 hours prior to the scheduled meeting time. Comments submitted after the deadline will be added to the official minutes of the meeting, but the County cannot guarantee that the Committee will have adequate time to review those comments prior to the meeting.

Section 5.4 Meeting Agendas: County staff shall assist the Chairperson of the Committee in developing an agenda for each meeting of the Committee. The agenda for regular meetings of the Committee shall be generally as follows, subject to amendment or revision by the Committee Chairperson or a majority of the members present:

I. Call to Order
II. Roll Call
III. Approval of Minutes of Previous Meeting
IV. Reports of Chairperson (if any)
V. Presentations by Invited Guests
VI. Remarks of Interested Citizens
VII. Unfinished Business
VIII. New Business
IX. Adjournment with Day Fixed for Next Meeting

Section 5.5 Official Acts and Quorum: Any and all official acts by the Committee shall require a majority vote of the members present and voting, except as otherwise set forth in these Bylaws; however, the Committee shall take no such action unless a quorum is present at the meeting. In order to constitute a quorum, there must be a majority of the Committee's current membership present at the meeting. The minutes of the meeting shall reflect the number of affirmative votes on a motion and shall specify the names of any members voting against the motion.

No member of the Committee shall have the power to vote by proxy. Only those members physically present shall be entitled to vote. Telephonic participation is not permitted.

Section 5.6 Meeting Minutes: Minutes shall be taken by the Clerk to the BCC at all regular and special meetings of the Committee. Minutes of Committee proceedings shall be filed with the County in accordance with BCC Policy No. 03-15, "Board-Appointed Advisory Committees."

Section 5.7 Procedure: *Roberts' Rules of Order Revised* shall govern the procedure of all meetings. No action taken by the Committee shall be deemed void or invalid because of a failure to adhere to *Robert's Rules of Order Revised*.

ARTICLE VI.
DELIBERATIONS

Section 6.1 The Committee shall conduct meetings in three phases: (1) Issues Agendas, (2) Decision Agendas, and (3) Public Hearings and Transmittal (as necessary).

Clause 6.1.1 **Issues Agendas:** In the first phase of meetings, the Committee shall identify policy issues for discussion and potential recommendations to the BCC for placement on the general election ballot. By simple majority vote, the Committee shall approve policy issues to be considered and schedule Issues Agenda meetings at which the approved issues shall be discussed. Once the preliminary policy issues have been approved for discussion during Issue Agenda meetings, additional policy issues may be added and scheduled upon the request of 2/3 of Committee membership present.

Any issue may be stricken from further consideration at Issues Agenda meetings by a majority of those members present.

Clause 6.1.2 **Decision Agendas:** By a simple majority vote, the Committee shall approve those issues to be discussed during the second phase of meetings and schedule Decision Agenda meetings at which sample text of proposed amendments shall be considered. After a proposed amendment has been discussed, the Committee may, by a 2/3 vote of those members present, direct County staff to prepare proposed amendments for review at public hearings and inclusion in the BCC status report to be presented in March 2026.

Clause 6.1.3 **Public Hearings and Transmittal:** In accordance with the County Charter and Section 125.63, F.S., the Committee must hold at least three public hearings, at intervals not less than 10, nor more than 20, days apart. After all hearings, the Committee shall amend (if necessary) and approve the proposed Charter amendments, ballot titles, and summaries for recommendation to the BCC with the concurrence of 2/3 of Committee membership present. These public hearings, if necessary, would be held in June and July 2026.

The Committee shall direct the Chairperson to transmit the proposed amendments, ballot titles, and summaries to the BCC by Wednesday, August 5, 2026.

ARTICLE VII.
POLICY ON PUBLICITY

Section 7.1 Public statements by the Committee shall be coordinated through the Chairperson and County staff. Members of the Committee may make public or private statements of their personal feelings, attitudes or beliefs at any time. In making such statements, members of the Committee shall on every occasion make an affirmative statement that their views are not represented as the views of the Committee as a whole. The Chairperson of the Committee shall be responsible for announcing the adopted positions of the Committee.

BYLAWS OF THE LEON COUNTY CITIZEN CHARTER REVIEW COMMITTEE

ARTICLE VIII.
AMENDMENTS TO BYLAWS

Section 8.1 **Amendments:** These rules and policies shall be presented by staff and adopted as the Bylaws of the Committee at its first meeting. The Bylaws may be amended by an affirmative vote of 2/3 of the entire Committee's membership. The Amended Bylaws shall become effective upon the approval of the County Attorney as to the legality of the form and content of such amendment.

Approved As To Legality of Form and Content:

Notes for Agenda Item #27

Leon County Board of County Commissioners

Agenda Item #27

September 15, 2025

To: Honorable Chairman and Members of the Board

From: Vincent S. Long, County Administrator

Title: Status Update on the County's Traffic Calming Program

Review and Approval:	Vincent S. Long, County Administrator
Department / Division Review:	Ken Morris, Assistant County Administrator Nawfal Ezzagaghi, Assistant County Administrator Brent Pell, Director, Public Works
Lead Staff / Project Team:	Charles Wu, Director of Engineering Services Cameron Williams, Management Analyst

Statement of Issue:

As requested by the Board, this item provides a status report on the County's Traffic Calming Program Policy related to the 75% petition threshold to install traffic calming devices on County roads and recommends proposed amendments to the policy. This item also includes an update on the petition for the installation of traffic calming devices on Williams Landing Road.

Fiscal Impact:

This item has no immediate fiscal impact. The Community Safety and Mobility Capital Improvement Budget includes an annual allocation of $100,000 to support traffic calming projects. The proposed policy changes are expected to increase the number of eligible traffic calming petitions, which could exceed current funding levels. If approved, staff will assess the Traffic Calming Program utilization and provide an update to the Board during a future budget development process if necessary.

Staff Recommendation:

Option #1: Accept the status update on the County's Traffic Calming Program.

Option #2: Amend the County's Traffic Calming Policy (Policy No. 21-1) to exclude undeveloped parcels when calculating the 75% petition threshold to initiate a traffic calming study; and, remove the requirement that projects score 50 points to qualify for traffic calming improvements (Attachment #1).

Report and Discussion

Background:

At its June 10, 2025 meeting, the Board requested a status report on the County's Traffic Calming Program Policy (Attachment #1), specifically the 75% petition threshold required for installing traffic calming devices on County roads. The request was prompted by a Traffic Calming petition from residents of Williams Landing Road. In addition to the status report, this item recommends proposed amendments to the Policy and provides preliminary findings from a recent speed study on Williams Landing Road.

The County's ongoing efforts to enhance traffic safety through the Traffic Calming Program advances the following FY 2022 – FY 2026 Strategic Initiative:

- *Explore innovative strategies to enhance pedestrian safety, including traffic safety studies and utilizing automated speed detection technology in school zones. (2025-96)*

This particular Strategic Initiative aligns with the Board's Quality of Life Strategic Priority:

- *(Q3) Provide essential public safety infrastructure and services while supporting early intervention and prevention strategies.*

Leon County's Traffic Calming Program, established in 1998, enables residents to report concerns about speeding in their neighborhoods. Accordingly, the County follows an established process — including eligibility review, public engagement, and, when warranted, installation of traffic calming measures — to align vehicle speeds with posted limits. On February 16, 2021, the Board adopted Policy No. 21-1, "Traffic Calming Program", formalizing the program's criteria and prioritization methods into an official policy.

To be eligible for consideration under the current Policy, a local residential public road must meet the following conditions:

- Petition for the entire roadway must include seventy-five percent (75%) of the property owners abutting the affected roadway(s). Affected properties on a roadway include all abutting properties that have any frontage on the road, including side and rear frontage, and undeveloped properties.
- Vehicle trips per day must be at least 150.
- 85th percentile speed must be at least five miles per hour (mph) over the posted speed limit.
- Only two lanes of traffic (one in each direction).
- Posted speed limit of less than 35 mph.
- Minimum road length is a quarter of a mile (1,320 feet).
- Abutting properties must be residential.
- If the area has an active Homeowner's Association (HOA), the HOA must provide a letter endorsing the installation of traffic calming features.

Analysis:

Concerned about speeding, residents of Williams Landing Road formally initiated the County's traffic-calming petition process, thereby commencing the collection of signatures. The first petition submitted contained 16 signatures (about 28% of the 57 abutting residential properties), which is well below the 75% requirement of the program (43 signatures). To assist, County staff supplied the lead petitioner with a roster of abutting properties and owner contact information. A second petition followed, securing 22 signatures (39%). Staff review confirmed that of the 35 properties still without signatures, 22 were undeveloped and 13 were developed.

The County's 75% petition threshold —identical to that of the City of Tallahassee— is the first step in the Traffic Calming Program and is intended to ensure strong neighborhood support before implementing road changes. This established 75% petition threshold is critical and ensures:

- **Broad consent for permanent changes.** Vertical deflection devices (e.g., speed humps, cushions, tables) are physically intrusive and change how a street functions. A 75% majority ensures changes reflect broad consensus, reducing the potential for petitions to remove devices after installation.
- **Protection for directly affected households.** Households adjacent to traffic-calming devices experience the most frequent and direct effects—noise, vibration, headlight sweep, and stop-and-go traffic. Accordingly, strong support from those affected residents is warranted before installations.
- **Consistency with the City and clarity for residents.** The County's current 75% threshold aligns with the City of Tallahassee's requirement and is consistent with most counties. Keeping parity minimizes confusion for residents and HOA boards, especially ones that straddle jurisdictions.
- **Fiscal Benefits**. The 75% petition threshold safeguards program stability and conserves resources. Lower thresholds risk approving marginal cases that are more likely to face removal petitions later, creating a costly "install now, remove later" cycle. Each removal is resource-intensive—requiring demolition, material haul-off, pavement repair or overlay, restriping, sign changes, and substantial staff time. This 75% standard minimizes program churn, discourages unnecessary removal petitions, and ensures that limited resources are used efficiently.

This 75% threshold currently applies to all properties abutting the subject roadway. However, in areas with many undeveloped parcels, this makes it significantly harder for local residents to reach the required percentage. This is especially true for Williams Landing Road, where 22 of the 57 abutting parcels (47%) are undeveloped, and several others developed properties are owned by individuals who live in other parts of the state or out of state. Because undeveloped parcels still count toward the petition requirement and respective owners are more likely to be nonresponsive, residents must collect signatures from a disproportionately large share of developed property owners. Reaching the 75% threshold becomes even more difficult when absentee owners are hard to contact—even when support may be strong among residents who do live in the area, and when traffic conditions may warrant calming devices.

To address this issue, staff recommends the Board amend Policy No. 21-1 so that consent signatures from owners of undeveloped parcels are not required when calculating the 75% petition threshold.

The Williams Landing Road petition currently includes 22 signatures, though several are from undeveloped parcels that would no longer be counted under the proposed revisions. This leaves 17 valid signatures from developed properties. Under the current policy, the neighborhood needs 21 more signatures to meet the 75% threshold, while under the proposed revisions it would need only six to advance to the next phase of the program, which includes data collection on vehicular speeds, traffic volumes, and crashes.

In addition to the above petition threshold revision, staff recommends eliminating the 50-point minimum currently required under section 3(C) of the policy's post-petition scoring matrix. This threshold serves as a redundant eligibility test after a request has already met the criteria in section 2 (including speed, traffic volume, and road characteristics). Removing it would clarify the process by consolidating eligibility standards in section 2, while still using the point system to prioritize projects. The scoring matrix itself would remain unchanged, continuing to rank projects based on objective criteria such as vehicle speeds (up to 30 points based on 85th percentile speeds), accident history (up to 25 points based on the average annual accident rate over a three-year period), proximity to schools (10 points), other pedestrian generators such as parks or community facilities (10 points), the absence of sidewalks in the affected area (10 points), and lot size density (up to 15 points depending on parcel size). Together, these factors provide a comprehensive prioritization tool, with a maximum of 150 possible points, ensuring that projects most in need of safety improvements rise to the top of the list.

Over the last decade, staff have processed 20 formal traffic calming petitions, yet only five satisfied the minimum eligibility requirements. Because so few projects advanced, the annual $100,000 allocation in the Community Safety and Mobility Capital Improvement Budget has been sufficient. Excluding undeveloped properties from the 75% petition threshold will raise the eligibility rate—and, in turn, the draw on that fund. If approvals begin to outpace the current $100,000 allocation, staff will prepare a future budget discussion item with data driven recommendations for Board consideration which may include reprioritizing projects, phasing installations, or augmenting the program budget to keep pace with the increased demand.

In June of 2024, staff conducted a preliminary speed study on Williams Landing Road to determine the 85th-percentile speed—the speed at or below which 85 percent of vehicles travel. The study recorded 34 mph northbound and 32 mph southbound. Under Policy 21-1, traffic-calming measures become eligible for consideration when the 85th-percentile speed surpasses the posted 30 mph limit by at least five mph (i.e., 35 mph or more); consequently, the observed speeds fell just below the activation threshold to allow further action. The 85th-percentile speed is widely used by transportation agencies, including the Federal Highway Administration (FHWA), to assess whether driver behavior aligns with a roadway's design and function. Both the FHWA's *Traffic Calming ePrimer* and *Safe System Approach for Speed Management* endorse this benchmark as an effective tool for identifying residential safety concerns. By using the same threshold, the County's program remains aligned with national best practices.

At the Board's direction, staff reviewed the existing Traffic Calming Program to identify opportunities for improvement. Based on this analysis, staff recommends amending the Policy to exclude undeveloped parcels from the 75% petition threshold calculation and to eliminate the 50-point minimum score requirement. These program-wide changes will make it easier for neighborhoods to qualify for traffic calming. While Williams Landing Road is one neighborhood that would benefit from the revisions, the updates are designed to make the program more accessible Countywide by ensuring traffic calming can be implemented when conditions warrant and broad resident support exists.

Options:

1. Accept the status update on the County's Traffic Calming Program.
2. Amend the County's Traffic Calming Policy (Policy No. 21-1) to exclude undeveloped parcels when calculating the 75% petition threshold to initiate a traffic calming study; and, remove the requirement that projects score 50 points to qualify for traffic calming improvements (Attachment #1).
3. Do not accept the status update on the County's Traffic Calming Program.
4. Do not amend the County's Traffic Calming Policy.
5. Board direction.

Recommendation:

Options #1 and #2.

Attachment:

1. Proposed Amendments to Leon County Policy No. 21-1, "Traffic Calming Program"

15.26

Board of County Commissioners
Leon County, Florida

Policy ~~No. 21-1~~25-XX

Title:	Traffic Calming Program
Date Adopted:	~~February 16, 2021~~September 15, 2025
Effective Date:	~~February 16, 2021~~September 15, 2025
Reference:	N/A
Policy Superseded:	~~None~~ Policy No. 21-1, "Traffic Calming Program", Adopted February 16, 2021

It shall be policy of the Board of County Commissioners of Leon County, Florida that a new policy entitled "Traffic Calming Program" is hereby adopted, to wit:

Section 1.
Purpose and Intent:

A. Traffic Calming is the concept of making traffic movements in residential neighborhoods more compatible with residential lifestyles. Speeding traffic and dangerous driving are not conducive to such activities as children playing in yards, riding bikes in streets, or adults taking an evening stroll after hard days at work. As residential areas grow and development occurs around residential areas, traffic patterns change. Residents find that what was once an idyllic neighborhood has turned into something more like an old-fashioned highway. As these events continue to occur, citizens and government come together to try and find solutions. Often the results are changes to the roads and streets that are affected by undesirable traffic situations. By making modifications to the area roads, traffic is forced to slow down to reasonable speeds. Drivers must be more attentive to their driving, reducing reckless disregard for a neighborhood.

B. The intent of this policy is to develop eligibility and implementation criteria for consideration for the Traffic Calming Program.

Section 2.
Program Eligibility

The following Criteria shall be utilized to evaluate for Traffic Calming:

A. Local Residential Public Roads:

1. Vehicle trips per day must be at least 150
2. 85th percentile speed must be at least 5 mph over the posted speed limit

3. Only two lanes of traffic (one in each direction)
4. Posted speed limit of less than 35 mph
5. A petition signed by at least 75% of the owners of developed (non-vacant) parcels abutting the affected roadway(s) must be submitted~~Petition for the entire roadway must include seventy-five (75%) of the property owners abutting the affected roadway(s)~~. Affected properties on a roadway include abutting properties that have any frontage on the road, including side and rear frontage.
6. Minimum road length a quarter of mile (1,320 feet)
7. Abutting properties must be residential
8. If the area has an active Homeowner's Association (HOA), the HOA must provide a letter endorsing the installation of traffic calming features.

B. Minor Collector Public Roads

1. Vehicle trips per day must be at least 3,500
2. 85th percentile speed must be at least 10 mph over the posted speed limit
3. Only two lanes of traffic (one in each direction)
4. Posted speed limit of less than 35 mph
5. Petition for the entire roadway section, requesting traffic calming no less than a quarter of a mile, must include seventy-five (75%) of the developed (non-vacant) propert~~y~~ies owners abutting the affected roadway(s). Affected properties on a roadway include abutting properties that have any frontage on the road, including side and rear frontage. The HOA may file a petition for traffic calming when there are no existing driveways connected to the road segment subject to traffic calming.
6. Minimum road length a quarter of mile (1,320 feet)
7. Must be located in a residential neighborhood
8. If the area has an active HOA, the HOA must provide a letter endorsing the installation of traffic calming features.

Section 3.
Program Procedures

A. Petition to Study:~~-~~ A petition signed by at least 75% of the owners of developed (non-vacant) parcels abutting the affected roadway(s) must be submitted~~Must be received from 75% or more of the property owners abutting the affected roadway(s)~~.

B. Data Collection by Traffic Engineering: Speeds, volumes, accidents, sidewalks, schools, other pedestrian generators and a condition diagram.

C. Priority Ranking: Once a petition to study is received and data is collected by Traffic Engineering, a roadway is ranked and placed on the Residential Area Traffic Calming Candidate Listing based on the following criteria. This ranking will determine the priority for each eligible roadway. Priority listing will be updated every six months.

1. **Speeds (Max: 30 Points)**

Speed Criteria (85th Percentile)	Points
<25 mph	0
25.0 - 29.9 mph	5
30.0 - 34.9 mph	10
35.0 - 39.9 mph	15
40.0 - 44.9 mph	20
45.0 - 49.9 mph	25
>50 mph	30

2. **Accident Rate (Max: 25 Points)**
   Number of accidents over 3-year period divided by 3

Average Annual Rate	Points
0.00 - 0.49	0
0.50 - 0.99	5
1.00 - 1.49	10
1.50 - 1.99	15
2.00 - 2.49	20
> 2.50	25

3. **School –** *within 1 mile* **(Max: 10 Points)**

4. **Other Pedestrian Generators –** *within 1 mile* **(Max: 10 Points)**

5. **No Sidewalks –** *in affected area* **(Max 10 points)**

6. **Lot Size Density (Max: 15 Points)**

Lot Size (AC.)	Points
>0.75	0
0.51 - 0.75	5
0.26 - 0.50	10
0.00 - 0.25	15

TOTAL POSSIBLE POINTS: 150
~~POINT SCORE MUST EXCEED 50 to qualify for Traffic Calming~~

D. Plan Development

1. Meeting with neighborhood to assess problems and needs.
2. Traffic Engineering Staff will develop preferred plan(s) or "No Build" alternative.
3. A combination of the following improvements may be considered based on road condition and physical characteristics of the neighborhood: speed tables, speed humps, convert to full stops, pavement treatment, pavement markings, and raised intersections.

E. Follow-up Neighborhood Meeting: Neighborhood is presented with recommended plan to provide input and give approval to construct.

F. Final Design and Permitting

G. Construction

H. Post Construction Evaluation: After 120 days, staff will evaluate impact on speeds, volumes and safety. Results will be presented to neighborhood.

I. Removal of Traffic Calming Devices: Traffic Calming Devices may be removed after a minimum two (2) years of installation, with a petition approved by 75% or more of the developed (non-vacant) propert~~y~~ies owners abutting the affected roadway**.**

J. The Traffic Calming Program is subject to funding availability.

Leon County
Board of County Commissioners

Notes for Agenda Item #28

Leon County Board of County Commissioners

Agenda Item #28

September 15, 2025

To: Honorable Chairman and Members of the Board

From: Vincent S. Long, County Administrator

Title: Acceptance of a Florida Department of Environmental Protection Springs Restoration Grant and Approval of an Amendment to the Woodville Sewer System Project Grant Agreement

Review and Approval:	Vincent S. Long, County Administrator
Department / Division Review:	Ken Morris, Assistant County Administrator Nawfal Ezzagaghi, Assistant County Administrator Roshaunda Bradley, Director, Office of Management and Budget Brent Pell, Director, Public Works Charles Wu, Director, Engineering Services, Public Works
Lead Staff / Project Team:	Anna Padilla, Stormwater Management Coordinator Eryn Calabro, Principal Budget and Grants Coordinator

Statement of Issue:

This item seeks Board acceptance of $4,275,000 in additional state grant funding and approval of a fourth amendment to the existing Florida Department of Environmental Protection (FDEP) Springs Restoration Grant Agreement for the Woodville Sewer System Project to extend the term of the Agreement to fully expend the grant funds. The additional state funds will support Phase 2 construction of Woodville Sewer System Project.

Fiscal Impact:

This item has a fiscal impact. This fourth FDEP Grant Amendment for the Woodville Sewer System Project provides $4,275,000 in additional state funding for construction. The grant requires a 50% local match, represented by the County's contribution of $2,137,500 which is available in the County share of Sales Tax Water Quality funding.

Staff Recommendation:

Option #1: Accept a Florida Department of Environmental Protection Springs Restoration Grant in the amount of $4,275,000 and Approve Amendment No. 4 to the Woodville Sewer System Project Agreement (Attachment #1), and authorize the County Administrator to execute the grant amendment, including any future modifications, subject to legal review by the County Attorney.

Option #2: Approve the Resolution and associated Budget Amendment (Attachment #2).

Report and Discussion

Background:

This item seeks Board acceptance of $4,275,000 in additional state grant funding and approval of a fourth amendment to the existing Florida Department of Environmental Protection (FDEP) Springs Restoration Grant Agreement for the Woodville Sewer System Project to extend the term of the Agreement to fully expend the grant funds (Attachment #1). The additional state funds will support Phase 2 construction of Woodville Sewer System Project. A Resolution and associated Budget Amendment are included to formally recognize the increased funding (Attachment #2).

This Grant Agreement advances the following FY 2022 – FY 2026 Strategic Initiatives and Bold Goal:

- *Continue to work with the state to seek matching grants to convert septic to sewer systems and support septic system upgrades. (2022-11, rev. 2023)*
- *Ensure County's water quality and stormwater regulations, programs and projects are evaluated and implemented holistically to advance the County's adopted strategic priority: to protect the quality and supply of our water. (2022-16)*
- *Upgrade or eliminate 500 septic tanks in the Primary Springs Protection Zone (BG2)*

These particular Strategic Initiatives and Bold Goal align with the Board's Environment Strategic Priority:

- *(EN1) Protect the quality and supply of our water.*
- *(EN2) Conserve and protect environmentally sensitive lands and our natural ecosystems.*

The Woodville Sewer System Project is a multi-year, multi-phase initiative to convert properties in the Primary Springs Protection Zone from septic to central sewer, thereby reducing nutrient loading to the aquifer, Wakulla Springs, and other connected water resources. Since 2018, Leon County and FDEP have partnered under the Leon County Water Quality and Springs Protection Infrastructure Improvement Plan, jointly committing more than $56 million toward water quality and springs protection projects in the Primary Springs Protection Zone (which include the Woodville Sewer System Project). This strong track record of partnership, successful project delivery, and clear environmental results has positioned Leon County as a trusted recipient of continued state investment.

To secure this additional $4.275 million in funding, Leon County consistently demonstrated progress and accountability to FDEP through quarterly project status updates, detailed design and construction milestones, and effective use of prior state funding. These regular updates kept FDEP apprised of the County's successes in advancing the Woodville Sewer System Project and reinforced confidence in the County's ability to deliver on this multi-phase initiative. Following the Legislature's appropriation in 2025, FDEP notified the County of the availability of this new funding, and staff immediately began the coordination required to formalize the award, which is now reflected in the current amendment.

The Woodville Sewer System Project is a four-phase, $110 million initiative designed to provide central sewer service to approximately 1,000 properties. Phase 1, an $18 million investment, began construction in June 2023 and is expected to be completed by September 2025, serving 152 properties. Phase 2 represents a $34 million investment to serve 357 properties, while Phase 3 is estimated at $21 million and Phase 4 at $37 million. Building on the County's success in launching Phase 1 and its close coordination with FDEP, the Board's February 2024 amendment brought total state funding to $15.5 million, which, combined with the County's match, fully funded Phase 1 and positioned the County to secure this fourth amendment providing an additional $4.275 million toward Phase 2. The remaining three phases will require about $92 million in additional funding to complete.

The County continues to actively pursue additional grant opportunities to leverage state and federal funding for the three remaining phases. In February 2025 a Springs Restoration grant application was submitted to the Northwest Florida Water Management District for $10 million in additional funding to support and fully-fund construction of Phase 2. Notification of this grant award is anticipated by late 2025.

Once each phase of the sewer systems are constructed and conveyed to the City of Tallahassee for ownership and operation, property owners will be subject to the City's applicable utility charges. These include a one-time sewer connection (tap) fee plus the actual cost of construction at the time of connection, and an ongoing readiness-to-serve fee that is assessed once service is available, regardless of whether the property immediately connects. Property owners that elect to connect during construction do not pay these connection costs, which on average total $13,000 (as that cost is covered by the County) and then transition directly into regular usage-based sewer service charges, while those that defer connection still remain subject to the monthly readiness-to-serve fee until they connect. For example, during Phase 1, 152 eligible properties were provided with the opportunity to connect as part of construction; however, 57 property owners deferred and will be responsible for readiness-to-serve charges and will incur the connection cost if their septic system fails and they are required to connect.

These cost structures reflect the rates and policies established by the City of Tallahassee, as authorized under state law, and ensure the long-term viability of the sewer system. More importantly, they allow the County and its partners to continue advancing the strategic priority of protecting environmentally sensitive areas within the Primary Springs Protection Zone.

Building on these efforts, Leon County also works proactively to secure outside funding to reduce the local burden of such major infrastructure investments. To ensure the County maximizes grant leveraging opportunities, the Office of Management and Budget (OMB) coordinates with department liaisons and actively seeks grant funding opportunities throughout the fiscal year. These efforts include contacting and communicating with previous funders for any new or forthcoming grant opportunities. Through timely submittals of reports and invoices, satisfactory compliance with grant closeouts, and on-site and desk monitoring by the granting agencies, Leon County has proactively positioned itself as a responsive and accountable funding partner. Because of this accountability, agencies often contact Leon County when grant funds become available.

In addition, the County's partnership with state and federal lobbyists also garners access to recently announced federal funding opportunities and OMB routinely monitors the federal Grants.gov portal for granting opportunities. The County aggressively seeks state and federal grant funding to support County projects and initiatives and has achieved considerable success in leveraging County dollars. With receipt of ARPA (American Rescue Plan Act) funding, the total County grant leverage ratio is $5.29 to $1; excluding the septic-to-sewer grants which require significant County match, the leveraging ratio would be $23.63 to $1.

Analysis:

Approval of Amendment No. 4 will provide $4,275,000 in additional FDEP funding, matched by $2,137,500 in local sales tax revenues (drawn from the County's share of Sales Tax Water Quality funding), and extend the grant term. These funds will cover a portion of the approximate $34 million overall cost of Phase 2 of the Woodville project, which is planned to provide central sewer service to 357 additional properties and achieve further water quality improvements in the Primary Springs Protection Zone.

The Woodville Phase 2 design is complete and right-of-way easement acquisition is currently underway. Construction, however, can only begin when the project is fully funded, as additional grant awards will be required to close the current funding gap. To that end, the County continues to actively pursue new funding opportunities to leverage state and federal resources for the three remaining phases. In February 2025, the County submitted a Springs Restoration grant application to the Northwest Florida Water Management District requesting $10 million in additional funding to support construction of Phase 2, with notification of the award anticipated by late 2025. This effort represents continued progress toward securing the approximately $34 million needed for Phase 2, at which time staff will bring an item to the Board to authorize bidding and construction.

This item seeks Board approval to amend the existing FDEP Springs Restoration Grant Agreement to accept $4,275,000 in additional funding and extend the Agreement's term to ensure the full expenditure of grant funds. This amendment advances the multi-phase Woodville Sewer System Project, which is designed to expand sewer service in environmentally sensitive areas, protect the aquifer, and restore the ecological health of Wakulla Springs.

Options:

1. Accept a Florida Department of Environmental Protection Springs Restoration Grant in the amount of $4,275,000 and Approve Amendment No. 4 to the Woodville Sewer System Project Agreement (Attachment #1), and authorize the County Administrator to execute the grant amendment, including any future modifications, subject to legal review by the County Attorney.
2. Approve the Resolution and associated Budget Amendment (Attachment #2).
3. Do not approve the Florida Department of Environmental Protection Springs Restoration Grant Agreement Amendment No. 4 for the Woodville Sewer System Project.
4. Board direction.

Recommendation:

Option #1 and #2

AMENDMENT NO. 4
TO AGREEMENT NO. LP37114
BETWEEN
FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION
AND
LEON COUNTY

This Amendment to Agreement No. LP37114 (Agreement), as previously amended, is made by and between the Department of Environmental Protection (Department), an agency of the State of Florida, and Leon County (Grantee), on the date last signed below.

WHEREAS, the Department entered into the Agreement with the Grantee for Woodville Sewer System Project Phase I (Project), effective January 18, 2019; and,

WHEREAS, $4,275,000 in additional funding for this Project is provided under Line Item 1732 of the 2024-2025 General Appropriations Act; and the total funding for this Agreement is now $19,725,000; and,

WHEREAS, the reimbursement period for the additional funding provided under Line Item 1732 of the 2024-2025 General Appropriations Act begins on July 1, 2024; and,

WHEREAS, an extension to the Agreement is needed to provide additional time to complete the Project; and,

WHEREAS, the parties have agreed to amend the Agreement as set forth herein.

NOW THEREFORE, the parties agree as follows:

1. Section 3. of the Standard Grant Agreement is hereby revised to change the Date of Expiration to December 31, 2026. The Department and the Grantee shall continue to perform their respective duties during this extension period pursuant to the same terms and conditions provided in the Agreement.

2. Section 5. of the Standard Grant Agreement is hereby revised to the following:

Total Amount of Funding:	**Funding Source?**	**Award #s or Line Item Appropriations:**	**Amount per Source(s):**
$19,725,000	☑ State ☐ Federal	Springs, GAA LI 1600, FY 16-17, LATF	$1,500,000
	☑ State ☐ Federal	Springs, GAA LI 1657, FY 19-20, LATF	$3,750,000
	☑ State ☐ Federal	Springs, GAA LI 1605, FY 21-22, LATF	$3,500,000
	☑ State ☐ Federal	Springs, GAA LI 1657, FY 22-23, LATF	$1,800,000
	☑ State ☐ Federal	Springs, GAA LI 1698, FY 23-24, LATF	$4,900,000
	☑ State ☐ Federal	Springs, GAA LI 1732, FY 24-25, LATF	$4,275,000
	☐ Grantee Match		
		Total Amount of Funding + Grantee Match, if any:	$19,725,000

3. Section 11. of Attachment 2 is hereby revised as follows:

Subcontracting
The Grantee may subcontract work under this Agreement without the prior written consent of the Department's Grant Manager except for certain fixed-price subcontracts pursuant to this Agreement, which require prior approval. Regardless of any subcontract, the Grantee is ultimately responsible for all work to be performed under this Agreement. Upon request by the Department's Grant Manager, the Grantee will submit a copy of the executed subcontract.

4. Attachment 3-3, Revised Grant Work Plan, is hereby deleted in its entirety and replaced with Attachment 3-4, Revised Grant Work Plan, as attached to this Amendment and hereby incorporated into the Agreement. All references in the Agreement to Attachment 3 shall hereinafter refer to Attachment 3-4, Revised Grant Work Plan.

5. Attachment 5-3, Revised Special Audit Requirements, is hereby deleted in its entirety and replaced with Attachment 5-4, Revised Special Audit Requirements, attached hereto and made a part of the Agreement. All references in the Agreement to Attachment 5 shall hereinafter refer to Attachment 5-3, Revised Special Audit Requirements.

6. Exhibit A-1, Progress Report Form, is hereby deleted in its entirety and replaced with Exhibit A-2, attached hereto and made a part of the Agreement. All references in the Agreement to Exhibit A shall hereinafter refer to Exhibit A-2.

7. All other terms and conditions of the Agreement remain in effect. If and to the extent that any inconsistency may appear between the Agreement and this Amendment, the provisions of this Amendment shall control.

ATTACHMENT 3-4
REVISED GRANT WORK PLAN

PROJECT TITLE: Woodville Sewer System Project Phase I

PROJECT LOCATION: The Project location will include multiple sites located near Woodville Highway, and adjacent residential streets within the general area of the project's coordinates (30.3142, -84.2475). See Figure 1 for a site plan.

PROJECT BACKGROUND: The Woodville Sewer System Project Phase I will make service connections available for residential households and businesses currently served by onsite sewage treatment and disposal systems (OSTDS) to the City of Tallahassee TP Smith Water Reclamation Facility. This will result in a significant reduction in nutrient leaching into the Floridan aquifer in the Wakulla Springs contribution area. The need for this project was identified in the Florida Department of Environmental Protection's (Department's) Upper Wakulla River and Wakulla Springs Basin Management Action Plan (BMAP), the 2030 City of Tallahassee Master Sewer Plan, and the Onsite Treatment and Disposal and Management Options Final Report. Wakulla Springs is an important recreational destination which receives approximately 200,000 visitors annually.

PROJECT DESCRIPTION: Leon County (Grantee) will complete Phase I of the Project, which includes the design, permitting and construction of a collection and transmission system to make central sanitary sewer service connections available for approximately 1,011 residences and businesses, located in the areas indicated in the site plan. The collection system will be designed and constructed in accordance with City of Tallahassee (City) standards. The transmission system, master pump station, lift stations and force main, will connect to the existing City collection system near Capital Circle Southeast. The City will own and operate the system after construction and approval.

This project grant is part of the Leon County Water Quality and Springs Protection Infrastructure Improvement Plan (Figure 2), which may be amended, and requires pledged local contributions of up to 50% of the project costs for long-term water quality and springs restoration capital projects. The Grantee will provide to the Department a status update on the plan each year to include an anticipated date that additional funding will be needed for the projects listed in Attachment 3-3, Figure 2, Leon County Water Quality and Springs Protection Infrastructure Improvement Plan. Based on the Grantee's project schedule, and subject to legislative appropriation of infrastructure funding for water quality and springs restoration each year, the Department may amend this Agreement to provide project funding to the Grantee for the next phase of the Leon County Water Quality and Springs Protection Infrastructure Improvement Plan. Under this Agreement, Leon County project identified in Figure 2 will have priority consideration as funds become available and these projects do not have to be submitted each year through the Water Management District/Department springs evaluation process.

The DEP Grant Funds associated with this Agreement were awarded based on local contributions pledged towards the total project costs: $9,862,500 from Leon County. Documentation of these local contributions will be required in the Final Quarterly Progress Report.

TASKS: All documentation should be submitted electronically unless otherwise indicated and should be submitted prior to the expiration of the grant agreement.

Task 1: Preconstruction Activities

Deliverables: The Grantee will work with the City of Tallahassee to complete the design of the proposed lift station(s), force mains, and gravity mains and obtain all necessary permits for construction of the project.

Documentation: The Grantee will submit a signed acceptance of the completed work and a summary of design activities to date, indicating the percentage of design completion of the time period covered in the payment request. For the final documentation, Grantee will also submit a copy of the final design and a list of all required permits identifying issue dates and issuing authorities.

Performance Standard: The Department's Grant Manager will review the documentation to verify that the deliverables have been completed as described above. Upon review and written acceptance by the Department's Grant Manager, a payment request may be processed.

Payment Request Schedule: The Grantee may submit a payment request for cost reimbursement no more frequently than monthly.

Task 2: Construction

Deliverables: The Grantee will construct the sewer system upgrades in accordance with the final design. The Grantee will submit through the Department's GIS web-interface data collection tool, parcel-level data identifying collection system extensions; lift stations and other infrastructure associated with the grant; and both the parcels connected to sewer and the parcels where sewer has been made available for connection but not yet connected along with associated grant information.

Documentation: The Grantee will submit 1) a copy of the final design; and 2) a signed summary of activities completed for the period of work covered in the payment request, using the format provided by the Department's Grant Manager. For the final documentation, the Grantee will also submit: 3) an email from the Department's GIS web-interface data collection tool, confirming that data for the project has been submitted. Upon request by the Department's Grant Manager, the Grantee will provide additional supporting documentation relating to this task.

Performance Standard: The Department's Grant Manager will review the documentation to verify that the deliverables have been completed as described above. Upon review and written acceptance by the Department's Grant Manager, a payment request may be processed.

Payment Request Schedule: The Grantee may submit a payment request for cost reimbursement no more frequently than monthly.

PROJECT TIMELINE & BUDGET DETAIL: The tasks must be completed by the corresponding task end date. Cost reimbursable grant funding must not exceed the budget amounts as indicated below.

Task No.	Task Title	Budget Category	Grant Amount	Task Start Date	Task End Date
1	Preconstruction Activities	Contractual Services	$1,500,000	07/01/2016	09/30/2025
2	Construction	Contractual Services	$18,225,000	07/01/2019	06/30/2026
		Total:	$19,725,000		

Note that, per Section 8 of Attachment 1 in the Agreement, authorization for continuation and completion of work and any associated payments may be rescinded, with proper notice, at the discretion of the Department if the Legislature reduces or eliminates appropriations. Extending the contract end date carries the risk that funds for this project may become unavailable in the future. This should be a consideration for the Grantee with this and future requests for extension.

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
Revised Special Audit Requirements
(State and Federal Financial Assistance)

Attachment 5-4

The administration of resources awarded by the Department of Environmental Protection *(which may be referred to as the "Department", "DEP", "FDEP" or "Grantor", or other name in the agreement*) to the recipient *(which may be referred to as the "Recipient", "Grantee" or other name in the agreement)* may be subject to audits and/or monitoring by the Department of Environmental Protection, as described in this attachment.

MONITORING

In addition to reviews of audits conducted in accordance with 2 CFR Part 200, Subpart F-Audit Requirements, and Section 215.97, F.S., as revised (see "AUDITS" below), monitoring procedures may include, but not be limited to, on-site visits by DEP Department staff, limited scope audits as defined by 2 CFR 200.425, or other procedures. By entering into this Agreement, the recipient agrees to comply and cooperate with any monitoring procedures/processes deemed appropriate by the Department of Environmental Protection. In the event the Department of Environmental Protection determines that a limited scope audit of the recipient is appropriate, the recipient agrees to comply with any additional instructions provided by the Department to the recipient regarding such audit. The recipient further agrees to comply and cooperate with any inspections, reviews, investigations, or audits deemed necessary by the Chief Financial Officer (CFO) or Auditor General.

AUDITS

PART I: FEDERALLY FUNDED

This part is applicable if the recipient is a State or local government or a non-profit organization as defined in 2 CFR §200.330

1. A recipient that expends $1,000,000 or more in Federal awards in its fiscal year, must have a single or program-specific audit conducted in accordance with the provisions of 2 CFR Part 200, Subpart F. EXHIBIT 1 to this Attachment indicates Federal funds awarded through the Department of Environmental Protection by this Agreement. In determining the federal awards expended in its fiscal year, the recipient shall consider all sources of federal awards, including federal resources received from the Department of Environmental Protection. The determination of amounts of federal awards expended should be in accordance with the guidelines established in 2 CFR 200.502-503. An audit of the recipient conducted by the Auditor General in accordance with the provisions of 2 CFR Part 200.514 will meet the requirements of this part.

2. For the audit requirements addressed in Part I, paragraph 1, the recipient shall fulfill the requirements relative to auditee responsibilities as provided in 2 CFR 200.508-512.

3. A recipient that expends less than $1,000,000 in federal awards in its fiscal year is not required to have an audit conducted in accordance with the provisions of 2 CFR Part 200, Subpart F-Audit Requirements. If the recipient expends less than $1,000,000 in federal awards in its fiscal year and elects to have an audit conducted in accordance with the provisions of 2 CFR 200, Subpart F-Audit Requirements, the cost of the audit must be paid from non-federal resources (i.e., the cost of such an audit must be paid from recipient resources obtained from non-federal entities).

4. The recipient may access information regarding the Catalog of Federal Domestic Assistance (CFDA) via the internet at https://sam.gov/content/assistance-listings.

PART II: STATE FUNDED

This part is applicable if the recipient is a nonstate entity as defined by Section 215.97(1)(n), Florida Statutes.

1. In the event that the recipient expends a total amount of state financial assistance equal to or in excess of $750,000 in any fiscal year of such recipient (for fiscal years ending June 30, 2017, and thereafter), the recipient must have a State single or project-specific audit for such fiscal year in accordance with Section 215.97, F.S.; Rule Chapter 69I-5, F.A.C., State Financial Assistance; and the current Rules of the Auditor General. EXHIBIT 1 to this form lists the state financial assistance awarded through the Department of Environmental Protection by this agreement. In determining the state financial assistance expended in its fiscal year, the recipient shall consider all sources of state financial assistance, including state financial assistance received from the Department of Environmental Protection, other state agencies, and other nonstate entities. State financial assistance does not include federal direct or pass-through awards and resources received by a nonstate entity for Federal program matching requirements.

2. In connection with the audit requirements addressed in Part II, paragraph 1; the recipient shall ensure that the audit complies with the requirements of Section 215.97(8), Florida Statutes. This includes submission of a financial reporting package as defined by Section 215.97(2), Florida Statutes, and the current Rules of the Auditor General.

3. If the recipient expends less than $750,000 in state financial assistance in its fiscal year (for fiscal year ending June 30, 2017, and thereafter), an audit conducted in accordance with the provisions of Section 215.97, Florida Statutes, is not required. In the event that the recipient expends less than $750,000 in state financial assistance in its fiscal year, and elects to have an audit conducted in accordance with the provisions of Section 215.97, Florida Statutes, the cost of the audit must be paid from the non-state entity's resources (i.e., the cost of such an audit must be paid from the recipient's resources obtained from other than State entities).

4. For information regarding the Florida Catalog of State Financial Assistance (CSFA), a recipient should access the Florida Single Audit Act website located at https://apps.fldfs.com/fsaa for assistance. In addition to the above websites, the following websites may be accessed for information: Legislature's Website at http://www.leg.state.fl.us/Welcome/index.cfm, State of Florida's website at http://www.myflorida.com/, Department of Financial Services' Website at https://www.myfloridacfo.com/ and the Auditor General's Website at http://www.myflorida.com/audgen/.

PART III: OTHER AUDIT REQUIREMENTS

(NOTE: This part would be used to specify any additional audit requirements imposed by the State awarding entity that are solely a matter of that State awarding entity's policy (i.e., the audit is not required by Federal or State laws and is not in conflict with other Federal or State audit requirements). Pursuant to Section 215.97(8), Florida Statutes, State agencies may conduct or arrange for audits of State financial assistance that are in addition to audits conducted in accordance with Section 215.97, Florida Statutes. In such an event, the State awarding agency must arrange for funding the full cost of such additional audits.)

PART IV: REPORT SUBMISSION

1. Copies of reporting packages for audits conducted in accordance with 2 CFR Part 200, Subpart F-Audit Requirements, and required by PART I of this form shall be submitted, when required by 2 CFR 200.512, by or on behalf of the recipient directly to the Federal Audit Clearinghouse (FAC) as provided in 2 CFR 200.36 and 200.512

   A. The Federal Audit Clearinghouse designated in 2 CFR §200.501(a) (the number of copies required by 2 CFR §200.501(a) should be submitted to the Federal Audit Clearinghouse), at the following address:

By Mail:

Federal Audit Clearinghouse
Bureau of the Census
1201 East 10th Street
Jeffersonville, IN 47132

Submissions of the Single Audit reporting package for fiscal periods ending on or after January 1, 2008, must be submitted using the Federal Clearinghouse's Internet Data Entry System which can be found at http://harvester.census.gov/facweb/

2. Copies of financial reporting packages required by PART II of this Attachment shall be submitted by or on behalf of the recipient directly to each of the following:

A. The Department of Environmental Protection at one of the following addresses:

By Mail:
Audit Director
Florida Department of Environmental Protection
Office of Inspector General, MS 40
3900 Commonwealth Boulevard
Tallahassee, Florida 32399-3000

Electronically:
FDEPSingleAudit@dep.state.fl.us

B. The Auditor General's Office at the following address:

Auditor General
Local Government Audits/342
Claude Pepper Building, Room 401
111 West Madison Street
Tallahassee, Florida 32399-1450

The Auditor General's website (http://flauditor.gov/) provides instructions for filing an electronic copy of a financial reporting package.

3. Copies of reports or management letters required by PART III of this Attachment shall be submitted by or on behalf of the recipient directly to the Department of Environmental Protection at one of the following addresses:

By Mail:
Audit Director
Florida Department of Environmental Protection
Office of Inspector General, MS 40
3900 Commonwealth Boulevard
Tallahassee, Florida 32399-3000

Electronically:
FDEPSingleAudit@dep.state.fl.us

4. Any reports, management letters, or other information required to be submitted to the Department of Environmental Protection pursuant to this Agreement shall be submitted timely in accordance with 2 CFR 200.512, section 215.97, F.S., and the current Rules of the Auditor General, as applicable.

5. Recipients, when submitting financial reporting packages to the Department of Environmental Protection for audits done in accordance with 2 CFR 200, Subpart F-Audit Requirements, or the current Rules of the Auditor

General, should indicate the date and time the reporting package was delivered to the recipient and any correspondence accompanying the reporting package.

PART V: RECORD RETENTION

The recipient shall retain sufficient records demonstrating its compliance with the terms of the award and this Agreement for a period of **five (5)** years from the date the audit report is issued, and shall allow the Department of Environmental Protection, or its designee, Chief Financial Officer, or Auditor General access to such records upon request. The recipient shall ensure that audit working papers are made available to the Department of Environmental Protection, or its designee, Chief Financial Officer, or Auditor General upon request for a period of **three (3)** years from the date the audit report is issued, unless extended in writing by the Department of Environmental Protection.

EXHIBIT – 1

FUNDS AWARDED TO THE RECIPIENT PURSUANT TO THIS AGREEMENT CONSIST OF THE FOLLOWING:

Note: If the resources awarded to the recipient represent more than one federal program, provide the same information shown below for each federal program and show total federal resources awarded

Federal Resources Awarded to the Recipient Pursuant to this Agreement Consist of the Following:					
Federal Program A	Federal Agency	CFDA Number	CFDA Title	Funding Amount	State Appropriation Category
				$	
Federal Program B	Federal Agency	CFDA Number	CFDA Title	Funding Amount	State Appropriation Category
				$	

Note: Of the resources awarded to the recipient represent more than one federal program, list applicable compliance requirements for each federal program in the same manner as shown below:

Federal Program A	First Compliance requirement: i.e.: (what services of purposes resources must be used for)	
	Second Compliance requirement: i.e.:(eligibility requirement for recipients of the resources)	
	Etc.	
	Etc.	
Federal Program B	First Compliance requirement: i.e.: (what services of purposes resources must be used for)	
	Second Compliance requirement: i.e.: (eligibility requirement for recipients of the resources)	
	Etc.	
	Etc.	

Note: If the resources awarded to the recipient for matching represent more than one federal program, provide the same information shown below for each federal program and show total state resources awarded for matching.

State Resources Awarded to the Recipient Pursuant to this Agreement Consist of the Following Matching Resources for Federal Programs:					
Federal Program A	Federal Agency	CFDA	CFDA Title	Funding Amount	State Appropriation Category
Federal Program B	Federal Agency	CFDA	CFDA Title	Funding Amount	State Appropriation Category

Note: If the resources awarded to the recipient represent more than one state project, provide the same information shown below for each state project and show total state financial assistance awarded that is subject to section 215.97, F.S.

State Resources Awarded to the Recipient Pursuant to this Agreement Consist of the Following Resources Subject to Section 215.97, F.S.:						
State Program A	State Awarding Agency	State Fiscal Year[1]	CSFA Number	CSFA Title or Funding Source Description	Funding Amount	State Appropriation Category

Notes for Agenda Item #29

Leon County Board of County Commissioners

Agenda Item #29

September 15, 2025

To: Honorable Chairman and Members of the Board

From: Vincent S. Long, County Administrator

Title: Full Board Appointments to the Council on Culture and Arts Board, the Investment Oversight Committee, and the Tallahassee-Leon County Commission on the Status of Women & Girls

Review and Approval:	Vincent S. Long, County Administrator
Department / Division Review:	Ken Morris, Assistant County Administrator
Lead Staff / Project Team:	Lisa Davis, Agenda Coordinator

Statement of Issue:

This item seeks the full Board's consideration of the appointment of citizens to the Council on Culture and Arts Board, Investment Oversight Committee, and the Tallahassee-Leon County Commission on the Status of Women & Girls.

Fiscal Impact:

This item has no fiscal impact.

Staff Recommendation:

Provided on the following page.

Staff Recommendation:

Option #1: Ratify the Commission on the Status of Women & Girls' reappointment of three citizens, Kay Meyer-Ignacio, Kimberly Berry, and Dr. Wachell "Shelly" McKendrick, to the Tallahassee-Leon County Commission on the Status of Women and Girls, for two-year terms ending September 30, 2027 (Attachments #1, #2, and #3).

Option #2: Appoint one citizen to the Investment Oversight Committee for a three-year term ending September 30, 2028. Eligible applicants are: Jarvis Benjamin Watkins and Matt Allen (Attachments #5 and #6).

Option #3: Appoint one nominated citizen, Erika Branchcomb, to the City At-Large seat on the Council on Culture & Arts Board for a four-year term ending September 30, 2029, as recommended by the Mayor of the City of Tallahassee (Attachment #7).

Option #4: Appoint one nominated citizen, Carol Hill, to the City Business / Economic Development seat on the Council on Culture & Arts Board for a four-year term ending September 30, 2029, as recommended by the Mayor of the City of Tallahassee (Attachment #8).

Option #5: Appoint one nominated citizen, Haiqiong Deng, to the City Heritage Community seat on the Council on Culture & Arts Board for a four-year term ending September 30, 2029, as recommended by the Mayor of the City of Tallahassee (Attachment #9).

Option #6: Appoint one nominated citizen, Brinda Pamulapati, to the City Practicing Artist seat on the Council on Culture & Arts Board for a four-year term ending September 30, 2029, as recommended by the Mayor of the City of Tallahassee (Attachment #10).

Option #7: Reappoint one citizen, Reenee Williams, as recommended by the Council on Culture and Arts Board, to the Business/Economic Development seat, for a four-year term ending September 30, 2029 (Attachment #11).

Option #8: Appoint one citizen to the County Tourism seat on the Council on Culture and Arts Board for a four-year term ending September 30, 2029, from the slate of three COCA nominees (Attachment #12). The nominees are: Janet Chernoff, Giavona Williams, and Erika Zambello.

Report and Discussion

Background:

Pursuant to Policy No. 03-15, "Board-Appointed Citizen Committees", a General Business item is presented to fill vacancies for full Board appointments of citizens to Citizen Committees.

Analysis:

Tallahassee-Leon County Commission on the Status of Women & Girls (CSWG)

Purpose: The CSWG provides input and recommendations on approaches with which to address issues affecting women and girls in Tallahassee and Leon County. The Committee's goal is promoting awareness on issues that affect women and girls in the community, including but not limited to discrimination, disparate experiences of diverse women and girls, employment, education, services, health, economic security, access to justice, and freedom from violence.

Composition: The CSWG has 21 members.

- Seven members appointed by the Board of County Commissioners with each County Commissioner having one appointment;
- Seven members appointed by the City Commission with each City Commissioner making one appointment and the full City Commission making two appointments; and
- Seven members appointed by the CSWG and ratified by the Board of County Commissioners and the City Commission.

Members serve two-year terms, expiring September 30. Members can serve no more than three consecutive full terms.

Diversity of Current Membership:

Total Seats	Vacant Seats	Gender	Race
21	2	Female – 19 Male – 0	Black – 11 White – 4 Hispanic – 1 Not Available – 3

Vacancies: The terms of nine CSWG members expire on September 30, 2025. Three of the expiring terms are members appointed by individual County Commissioners which are addressed in a separate agenda item, three are members appointed by CSWG, and three are members appointed by the City Commission. This item seeks the Board's ratification of the three CSWG appointments.

The terms of CSWG appointed members Kay Meyer-Ignacio, Kimberly Berry, and Dr. Wachell "Shelly" McKendrick are due to expire on September 30, 2025. All three members are seeking reappointment and their applications and resumes are included as Attachments #1, #2, and #3.

The CSWG Full Board met on August 29, 2025, and voted to reappoint the three members listed in Table #1 (Attachment #4). Pursuant to Joint Resolution 15-56 and 15-R-28, the appointments for the members appointed by CSWG require ratification by both the Board and City Commission. This item seeks the Board's ratification of the three CSWG appointments. It is anticipated that the City Commission will ratify the appointments at its October 2025 meeting, in addition to appointing three City CSWG members.

Table #1: Commission on the Status of Women & Girls – CSWG appointments

Vacancies *Status*	**Term Expiration**	**Eligible Applicant** **Application Attachment #**	**Gender – Race**	**Recommended Action**
Kay Meyer-Ignacio served one term *Seeking reappointment*	9/30/2025	1. Kay Meyer-Ignacio	Female – White	Ratify the CSWG reappointment for a two-year term expiring on September 30, 2027.
Kimberly Berry served one term *Seeking reappointment*	9/30/2025	2. Kimberly Berry	Female – Black	Ratify the CSWG reappointment for a two-year term expiring on September 30, 2027.
Dr. Wachell "Shelly" McKendrick served two terms *Seeking reappointment*	9/30/2025	3. Dr. Wachell "Shelly" McKendrick	Female – Black	Ratify the CSWG reappointment for a two-year term expiring on September 30, 2027.

Investment Oversight Committee (IOC)

Purpose: The purposes of the IOC are to review, report, and recommend changes in investment practices of Leon County; review the County's portfolio activity for compliance with the investment plan; and review investment policies and make recommendations to the Board for amendments.

Composition: The IOC consists of five members; two citizens appointed by the Board, one citizen appointed by the Clerk of the Circuit Court & Comptroller (Clerk), the County Administrator or designee, and the Clerk or designee. Appointed members must have experience in matters involving portfolio management or institutional fixed income investments. Appointed members serve three-year terms, expiring on July 31, and may be reappointed up to two times.

Diversity of Current Membership:

Total Seats	**Vacant Seats**	**Gender**	**Race**
5	1	Male – 3 Female – 1	White – 4

Vacancies: The term of IOC member Renee McNeill expired on July 31, 2025. All eligible applicants are listed in Table #2.

Table #2: Investment Oversight Committee

Vacancies *Term Status*	**Term Expiration**	**Eligible Applicants** **Application Attachment #**	**Gender – Race**	**Recommended Action**
Renee McNeill *Served two terms* *Not seeking reappointment*	7/31/2025	5. Jarvis Benjamin Watkins 6. Matt Allen	Male – White Male - White	Appoint one eligible citizen for the remainder of a three-year term ending July 31, 2028.

Council on Culture & Arts Board (COCA)

Purpose: The responsibility of COCA is to stimulate greater awareness and appreciation of the importance of the arts; encourage and facilitate greater and more efficient use of governmental and private resources for the development and support of the arts; promote the development of resident artists, art institutions, community organizations sponsoring art activities and audiences.

Composition: In accordance with Section 265.32(2)(b), Florida Statutes, COCA is comprised of 15 members appointed by the Board and two ex officio members: one County Commissioner and one City Commissioner. On October 14, 2003, the Board authorized the Mayor of the City of Tallahassee (Mayor) to recommend seven COCA members in consideration for the City's contribution to COCA. Of the 15 Board appointments, eight members are appointed by the Board from a list of recommended applicants from COCA, while seven members are recommended by the Mayor, also from a list of recommended applicants from COCA, and appointed by the Board. In addition, there are five nonvoting ex officio members serving as liaisons, including representatives from FSU, FAMU, TSC, Leon County Schools, and the Tourist Development Council.

Currently, Chairman Brian Welch is serving as the Board's ex officio member on the COCA Board.

Per COCA's bylaws, the 15 Council members shall include two Practicing Artists, two members from the Heritage Community, and at least one member each from Volunteer, Business/ Economic Development, Tourism, Finance, or Marketing.

Pursuant to Section 265.32, Florida Statutes, members are appointed for a four-year term, and no Council member may serve more than two full terms without a two year period of non-membership following the expiration of the members' second term. Members must be qualified electors residing in the County. In filling a vacancy, the replacement Council member shall be selected by the Board from a list of three candidates submitted by the remaining members of the Council. The Council considers suggestions or recommendations made by members of the public; representative civic, labor, and cultural associations; and groups concerned with encouraging the development and appreciation of the arts before submitting the list of candidates to the Board. In the event that none of the three candidates nominated by the Council meets Board approval, the Council shall submit another and entirely different list for Board consideration to fill the vacancy.

Diversity of Current Membership:

Total Seats	Vacant Seats	Gender	Race
17	0	Female – 12 Male – 4 N/A – 1	White – 10 Black – 3 Asian – 2 N/A – 2

Vacancies: The terms of six members, Amanda Clements, Reenee Williams, Hadley Peterson, Carol Hill, Haiqiong Deng, and Brinda Pamulapati, are set to expire on September 30, 2025.

For the City nominated seats, the Mayor has recommended Erika Branchcomb to fill the City At-Large seat (Attachment #7), Carol Hill to fill the City Business/Economic Development seat (Attachment #8), Haiqiong Deng to fill the City Heritage Community seat (Attachment #9), and Brinda Pamulapati to fill the City Practicing Artist seat (Attachment #10).

Ms. Williams, the County Business/Economic Development representative, is eligible for and seeking reappointment. Her application, resume, and nomination letter are included in Attachment #11, which also includes two other applications for consideration. Ms. Clements, the County Tourism representative, is not seeking reappointment. COCA has submitted a letter nominating three applicants for the County's Tourism seat (Attachment #12). All of the COCA nominees are listed in Table #3.

Resume Uploaded? Yes

If no resume is available, in the space below briefly describe or list the following: any previous experience on other Committees; your educational background; your skills and experience you could contribute to a Committee; any of your professional licenses and/or designations and indicate how long you have held them and whether they are effective in Leon County; any charitable or community activities in which you participate; and reasons for your choice of the Committee indicated on this Application. Please attach your resume, if one is available.

(COMMITTEE QUESTIONNAIRE)

IMPORTANT LEGAL REQUIREMENTS FOR COMMITTEE/BOARD/AUTHORITY MEMBERSHIP

Citizen participation is important in developing Leon County's programs and policies, and in providing quality public services to the community. We appreciate your interest in serving on a committee and would like to bring a few items to your attention. As a member of a committee/board/authority, you will be obligated to follow any applicable laws regarding government-in-the-sunshine, code of ethics for public officers, and public records disclosure.

The consequences for violating these applicable laws include criminal penalties, civil fines, and the voiding of any committee/board/authority action and of any subsequent action by the Board of County Commissioners. In order to be familiar with these laws and to assist you in answering the following questions, please take a few minutes to complete the mandatory orientation. Your application will not be deemed complete until you have completed the orientation.

Have you completed the Applicant Orientation for membership on Citizen Committees, Board & Authorities?* *Yes*

Are you currently serving on a County Advisory Committee or other Committee/Authority/Board?* *Yes*

If yes, on what Committee(s) are you a member? *Tallahassee Leon County Commission on the Status of Women and Girls*

Have you served on any previous Leon County committees?* *No*

Are you willing to complete a financial disclosure form if applicable?* *Yes*

Do you know of any circumstances that would result in you having to abstain from voting on a Committee/Board/Authority due to voting conflicts? (Not applicable to Focus Groups)* *No*

Are you or your employer, or your spouse or child or their employers, currently doing business with Leon County?* *No*

Are you or your employer, or your spouse or child or their employers, currently doing business with the Committee/Board/Authority to which you are applying for membership?* *No*

Do you currently have any employment or contractual relationship that would create a continuing or frequently recurring conflict with regard to your participation on a Committee/Board/Authority? (i.e. would you have frequent or reoccurring voting conflicts?)* *No*

Do you foresee participating in any competitive bid process for Leon County business during your time serving on this committee/board/authority?* *No*

Do you foresee participating in any competitive bid process involving business with the Committee/Board/Authority to which you are applying, during your time serving on that entity?* *No*

Is your personal information exempt from public records disclosure in accordance with FS 119.071(2)(j)1 or FS 119.071(4)? *No*

Members on this committee must be a resident of Leon County.

All statements and information provided in this application are true to the best of my knowledge.

Signature: *Mrs. Kay Meyer Ignacio*

The application was electronically sent: 7/28/2025 4:52:41 PM

PROFESSIONAL EXPERIENCE

Interim CEO December 2024- current
211 Big Bend Tallahassee, FL

- Collaborating with agency partners to evaluate Open Enrollment options and managed seamless rollout plans for employee benefits.
- Successfully maintained all employee health benefits, mitigating a 20% rate hike without reducing coverage.
- Engaged with the local Redevelopment Agency and Southside Improvement Authority to explore building improvement opportunities or relocation options.
- Proactively navigated unexpected state and federal budget shortfalls, implementing strategic adjustments to sustain operations.
- Conducted interviews and evaluations of external contracted grant writers to enhance funding opportunities.

Director of Advancement and Social Enterprise Strategies October 2021-December 2024
211 Big Bend Tallahassee, FL

- Implemented the local rollout of the 988 Suicide & Crisis Lifeline number communication, marketing, and messaging, providing suicide and crisis prevention and intervention services for eight counties in the Big Bend region, in collaboration with 211 Big Bend leadership, Florida 211 and 988 partners, Vibrant, and the Florida Department of Children & Families.
- Develop 211 Big Bend Outreach Program to cover eight counties and continue to build increased awareness of 211 Big Bend and the 988 Suicide and Crisis Lifeline.
- Expand the outreach program to encompass volunteers, staff, Board of Directors, and community stakeholders.
- Assist with development of partnerships to ensure coordination and interoperability with various technology platforms across the health and human service ecosystem.
- Collaborate with President to identify special projects and partnerships that elevate 211 Big Bend in the community service area.
- Develop fundraising plan for board and staff.
- Stay current on trends in social determinants of health platforms and potential integrations.
- Restructured annual "A Night of Hope" benefit event, Including implementation of new technology, which resulted in exceeding all prior years' fundraising goals and event attendance.
- Led agency fund development, community relations, marketing, communications, outreach and facility operations.
- Work closely with state 988 coalition to streamline messaging and promote toolkit creation for entire 211 networks and crisis centers across Florida.
- Created and developed informational materials and graphics explaining and clarifying to the public the different services provided through 988, 911, and 211 to avoid confusion and misinformation.
- Represented 211 Big Bend in meetings with key legislators and staff during the 2022 Session of the Florida Legislature and advocated for mental health and suicide prevention funding requests as part of the Florida Alliance for Information & Referral Services (FLAIRS)/211 members.
- Achieved nationwide exposure for 211 Big Bend by developing a community partnership with Tallahassee Community College Athletics and being featured on ESPN Basketball Night.
- Revamped 211 Big Bend website for optimal user experience and ADA compliance.
- Hosted elected officials to 211 Big Bend to learn more about the agency and tour the facility, fostering strong relationships with key stakeholders.
- Represents 211 Big Bend in the Tallahassee Mass Violence Victim Response Planning Workgroup as part of the Office of the Attorney General to identify services that could assist victims and their families after a mass incident.
- Developed and implemented community impact reports for programs and services, which highlighted the positive impact of the organization's efforts.
- Ensured program messaging compliance with Help Me Grow Florida and Department of Children & Families contracts and required deliverables.
- Fostered a work culture of collaboration and inclusion, leading to increased morale and reduced turnover.
- Recipient of the 2023 211 Big Bend President's Award for outstanding contributions to the organization.

Director, Administration and Communication April 2019 to October 2021
Tallahassee Leon Federal Credit Union Tallahassee, FL

- Designed 2021 marketing plan.
- Revamped Tallahassee-Leon FCU website for optimal user experience and ADA compliance.
- Launched the first-ever internal manager retreat, aimed at empowering and exciting credit union managers.

- Conducted weekly manager meetings and bi-weekly staff meetings to monitor progress.
- Oversaw all administrative functions and performance of staff.
- Established and maintained collaborative relationships with employees and fostered high employee morale, productivity, and effectiveness.
- Successfully mentored over 30 employees, resulting in increased productivity and retention rates.
- Ensured timely and accurate payroll processing and HR and associate file maintenance for employees.
- Created and implemented training programs for employees on company policies, procedures and best practices.
- Identify areas for improvement in employee performance and work with individuals to develop and implement action plans.
- Identified potential new hires by reviewing and interviewing applicants for open positions.
- Authored informative and engaging marketing materials to implement the marketing plan.
- Coordinated the distribution of marketing materials to branches and Select Employee Group, the benefit management process.
- Created a new Credit Union website in collaboration with developers to implement design.
- Served as lead project manager on credit union initiatives, including marketing plans and strategic planning and implementation.
- Led manager planning sessions, which encouraged ownership and positive branch production.
- Formulated company COVID-19 policies in compliance with the Families First Coronavirus Response Act (FFCRA) and other state and federal laws.
- Communicated across internal and external levels with managers and corporate representatives concerning policy changes.
- Liaised between the President and board of directors and attended board meetings.
- Prioritized workload according to urgency and team strengths to meet all deadlines.

New Business Development Agent February to November 2017
Compass Marketing and Consulting Tallahassee, FL

- Secured over $150,000 in new client revenue shortly after hire, exceeding the performance of previous employees by 5x.
- Tailored new proposal booklet layouts to each potential client, incorporating branding and specifics.
- Cultivated an extensive list of companies based on Chamber of Commerce involvement, activating the pipeline to pitch Compass services to help navigate local small businesses.
- Performed thorough research on all aspects of client businesses, from search results to social media, web, and print presences before making informed recommendations.
- Negotiated budget with clients based on goals and steps of each custom strategic plan.
- Collaborated with team members to develop all aspects of campaign, from logo to website changes, etc.

Owner and Entrepreneur 1998 to 2022
Kay Meyer Photography Tallahassee, FL

Approach projects and new opportunities with an entrepreneurial spirit, fresh perspective, and genuine hustle. Established and built a successful photography business that provided for family while pursuing passion for capturing beautiful moments. With a focus on high-quality images and exceptional customer service, earned a reputation as a trusted and reliable photographer. Donating services to support local charities and organizations, including contributions to the Chamber of Commerce. As professional life continues to grow, the focus shifted to photography as a creative outlet, while still maintaining my commitment to providing excellent service to former clients.

Resume Uploaded? Yes

If no resume is available, in the space below briefly describe or list the following: any previous experience on other Committees; your educational background; your skills and experience you could contribute to a Committee; any of your professional licenses and/or designations and indicate how long you have held them and whether they are effective in Leon County; any charitable or community activities in which you participate; and reasons for your choice of the Committee indicated on this Application. Please attach your resume, if one is available.

(COMMITTEE QUESTIONNAIRE)

IMPORTANT LEGAL REQUIREMENTS FOR COMMITTEE/BOARD/AUTHORITY MEMBERSHIP

Citizen participation is important in developing Leon County's programs and policies, and in providing quality public services to the community. We appreciate your interest in serving on a committee and would like to bring a few items to your attention. As a member of a committee/board/authority, you will be obligated to follow any applicable laws regarding government-in-the-sunshine, code of ethics for public officers, and public records disclosure.

The consequences for violating these applicable laws include criminal penalties, civil fines, and the voiding of any committee/board/authority action and of any subsequent action by the Board of County Commissioners. In order to be familiar with these laws and to assist you in answering the following questions, please take a few minutes to complete the mandatory orientation. Your application will not be deemed complete until you have completed the orientation.

Have you completed the Applicant Orientation for membership on Citizen Committees, Board & Authorities?* *Yes*

Are you currently serving on a County Advisory Committee or other Committee/Authority/Board?* *No*

Have you served on any previous Leon County committees?* *Yes*

If Yes, on what Committee(s) have you served? *Tallahassee-Leon County Commission on the Status of Women and Girls*

Are you willing to complete a financial disclosure form if applicable?* *Yes*

Do you know of any circumstances that would result in you having to abstain from voting on a Committee/Board/Authority due to voting conflicts? (Not applicable to Focus Groups)* *No*

Are you or your employer, or your spouse or child or their employers, currently doing business with Leon County?* *No*

Are you or your employer, or your spouse or child or their employers, currently doing business with the Committee/Board/Authority to which you are applying for membership?* *No*

Do you currently have any employment or contractual relationship that would create a continuing or frequently recurring conflict with regard to your participation on a Committee/Board/Authority? (i.e. would you have frequent or reoccurring voting conflicts?)* *No*

Do you foresee participating in any competitive bid process for Leon County business during your time serving on this committee/board/authority?* *No*

Do you foresee participating in any competitive bid process involving business with the Committee/Board/Authority to which you are applying, during your time serving on that entity?* *No*

Is your personal information exempt from public records disclosure in accordance with FS 119.071(2)(j)1 or FS 119.071(4)? *No*

Members on this committee must be a resident of Leon County.

All statements and information provided in this application are true to the best of my knowledge.

kimsberry27@gmail.com
https://www.linkedin.com/in/kimscrivenberry/

As a team leader in evidence-based education policy, programs, and practices, I develop high-impact technical assistance through needs sensing, product development, and training for adults. Over the past two decades, I have worked to build the capacity of thousands of emerging and experienced professionals to implement federally- and state-funded education programs. I see myself moving into a role as an executive-level leader with an organization that is passionate about improving the lives of students, families, and communities by supporting the adults that work with them each day.

EDUCATION

ABD, Educational Leadership and Policy Studies
Concentration: Educational Policy and Evaluation
Florida State University

2005, ***Master of Science***, Early Childhood Education
Florida State University

2002, ***Bachelor of Science***, Sociology
Minor: Political Science
Florida Agricultural and Mechanical University

EMPLOYMENT EXPERIENCE

Principal – Technical Assistance and Program Implementation/Senior Research Associate – Training and Technical Assistance*, Synergy Enterprises, Inc.*
2022 to present

- Serve as the Deputy Project Director of the T4PA Technical Assistance Center (T4PA Center) funded by the U.S. Department of Education (ED) Office of Safe and Supportive Schools (OSSS) which is responsible for providing technical assistance to all State education agencies (SEAs) implementing the Title IV, Part A (Title IV-A): Student Support and Academic Enrichment program under the Elementary and Secondary Education Act (ESEA)
- Lead a team of Technical Assistance Liaisons and Coordinators in providing support in the administration of subgrants and implementing the priority content areas of Title IV-A: well-rounded education, safe and healthy students, and effective use of technology
- Facilitate the Resource Development task of the T4PA Center through the development of informational products, including fact sheets, written technical assistance, toolkits, and implementation guides
- Develop cohort meetings and working group discussions of State Coordinators, Federal Program Officers (FPO) and other state and federal agency staff in small-group, in-person and virtual settings to help identify emerging issues and areas of needed support

Bureau Chief/Assistant Bureau Chief/Director*, Bureau of Family and Community Outreach, Florida Department of Education (FDOE)*
2017 to 2022

- Administered competitive and noncompetitive annual awards of $69 million under Title IV, Part B: Nita M. Lowey 21st Century Community Learning Centers (21st CCLC) program and $20 million of State Appropriations on School and Instructional Enhancements
- Managed approximately 35 staff responsible for the contract management, technical assistance, monitoring and evaluation of grant projects
- Provided statewide technical assistance and support to over 300 afterschool, summer, mentoring and pre-collegiate grant projects/programs, including the College Reach Out Program (CROP), 21st CCLC, Boys & Girls Clubs, Big Brothers Big Sisters, YMCA, College Board, and other local non-profit organizations

Program Development Unit Lead-21st CCLC Team, *Florida Department of Education (Contractor through University of South Florida/Children's Forum)*
2013 to 2017
- Led a staff of nine Program Development Specialists in providing contract management, monitoring and technical assistance to approximately 190 subrecipients
- Led the organization of the annual conference for 21st CCLC subrecipients
- Managed travel, leave, onboarding, offboarding, and other administrative matters for a team of 20 employees

Program Director, Differentiated Accountability, Florida Department of Education
2010
- Prepared tools, evaluation procedures, correspondence, and technical assistance related to school improvement and Differentiated Accountability
- Directed the development and preparation of State Board of Education reports related to Differentiated Accountability
- Developed procedures and guidance related to the annual statewide submission of School Improvement Plans and District Improvement and Assistance Plans

Research and Evaluation Coordinator, *Florida Department of Education (Contractor through University of North Florida)*
2008-2010
- Collected programmatic, financial, and evaluation data from Florida's 67 school districts and four developmental research schools on their efforts to provide safe school environments for K-12 students
- Developed training and materials for Family and Community Outreach initiatives such as Zero Tolerance, Gang Reduction Strategy, Child Abuse Prevention, and other topics
- Conducted bill analyses during the Florida legislative session

Assistant Program Specialist/Social Research Assistant, SERVE Center at the University of North Carolina at Greensboro
2003-2008
- Provided training and technical assistance for afterschool, early childhood, literacy, and school improvement facilitators at the local, state, regional and national levels
- Conducted interviews and site visits to inform and develop web- and print-based training materials on homework assistance and school improvement for 21st CCLC site coordinators and project directors
- Completed literature reviews and research briefs on Evidence-based Education for the six-state region served by the Regional Education Laboratory housed at SERVE (REL-SE)

Alumni Records Assistant, Florida State University College of Law
2001-2003
- Conducted alumni research for the Office of Development and Alumni Relations for use in solicitations for the Annual Fund, Scholarships and Major Gift Contributions
- Assisted Development Director in preparation for the Alumni Board Meeting, Board of Visitors and Homecoming
- Generated gift acknowledgements to thank donors for contributions

Subject: CSWG Internal Appointments

EXTERNAL MESSAGE: Carefully consider before opening attachments or links.

Good afternoon, Lisa and Nikki!

We just finished our August Full Commission Meeting this afternoon. We did have quorum and were able to vote on the internal CSWG appointments.

The CSWG voted unanimously to reappoint all three of the Commissioners who were up for reappointment:
Kimberly Berry
Dr. Wachell “Shelly” McKendrick
Kay Meyer-Ignacio

Please let me know if you have any questions or need anything else from me in order to move forward with getting these women ratified by the County Commission.

Thanks so much and have a great weekend!

Best,
Stephanie Shumate

The Oasis Center for Women & Girls now offers free AFTER HOURS counseling to women raising children on their own and soon-to-be-moms facing the same. Licensed Therapists and safely supervised children's activities. Tuesday and Thursday evenings and Saturdays 10-4. Daytime hours are available if requested. Scan the QR code for contact information. The program is funded by the Children's Services Council of Leon County.

(COMMITTEE QUESTIONNAIRE)

IMPORTANT LEGAL REQUIREMENTS FOR COMMITTEE/BOARD/AUTHORITY MEMBERSHIP

Citizen participation is important in developing Leon County's programs and policies, and in providing quality public services to the community. We appreciate your interest in serving on a committee and would like to bring a few items to your attention. As a member of a committee/board/authority, you will be obligated to follow any applicable laws regarding government-in-the-sunshine, code of ethics for public officers, and public records disclosure.

The consequences for violating these applicable laws include criminal penalties, civil fines, and the voiding of any committee/board/authority action and of any subsequent action by the Board of County Commissioners. In order to be familiar with these laws and to assist you in answering the following questions, please take a few minutes to complete the mandatory orientation. Your application will not be deemed complete until you have completed the orientation.

Have you completed the Applicant Orientation for membership on Citizen Committees, Board & Authorities?* *Yes*

Are you currently serving on a County Advisory Committee or other Committee/Authority/Board?* *Yes*

If yes, on what Committee(s) are you a member? *Chair, Investment Oversight Committee*

Have you served on any previous Leon County committees?* *Yes*

If Yes, on what Committee(s) have you served? *Investment Oversight Committee*

Are you willing to complete a financial disclosure form if applicable?* *Yes*

Do you know of any circumstances that would result in you having to abstain from voting on a Committee/Board/Authority due to voting conflicts? (Not applicable to Focus Groups)* *No*

Are you or your employer, or your spouse or child or their employers, currently doing business with Leon County?* *No*

Are you or your employer, or your spouse or child or their employers, currently doing business with the Committee/Board/Authority to which you are applying for membership?* *No*

Do you currently have any employment or contractual relationship that would create a continuing or frequently recurring conflict with regard to your participation on a Committee/Board/Authority? (i.e. would you have frequent or reoccurring voting conflicts?)* *No*

Do you foresee participating in any competitive bid process for Leon County business during your time serving on this committee/board/authority?* *No*

Do you foresee participating in any competitive bid process involving business with the Committee/Board/Authority to which you are applying, during your time serving on that entity?* *No*

Is your personal information exempt from public records disclosure in accordance with FS 119.071(2)(j)1 or FS 119.071(4)? *No*

Members must be a resident of Leon County.

Members may not be employed by any office of Leon County government.

Are you employed by an office of Leon County government? *No*

Members must have experience in either of the following areas. Please indicate your area of expertise.

- [x] Experience involving portfolio management

  Please explain: *Current role as DIrector of the Division of Bond Finance extends to portfolio management*

- [x] Experience involving institutional fixed income investments

  Please explain: *Current role as DIrector of the Division of Bond Finance extends to fixed income investments*

Appointed members may not engage in any private financial dealings with the County directly related to the County's investment operations during their tenure on the committee and for a period of two (2) years thereafter.

Do you understand the above statement and agree to the terms? *Yes*

All statements and information provided in this application are true to the best of my knowledge.

Signature: *Mr. Jarvis Benjamin Watkins*

The application was electronically sent: 6/25/2025 12:06:17 PM

J. BEN WATKINS III

EMPLOYMENT EXPERIENCE

Director - State of Florida Division of Bond Finance **July 1995 – Present**
Mr. Watkins has been Director of the Division of Bond Finance since July, 1995. The Division of Bond Finance is responsible for issuing bonds for the State of Florida and advising on other debt management policies for the State. The Division administers bonding programs for the Departments of Education, Transportation, Environmental Protection and Management Services as well as borrowings for the Board of Regents, Florida Turnpike System, Florida Hurricane Catastrophe Fund and State Comptroller's consolidated equipment financing program. The Division is also responsible for allocating the private activity bond volume cap, maintaining a local government reporting system for bond issues, calculating federal arbitrage rebate liabilities and developing a system to insure compliance with the SEC's secondary market disclosure requirements.

Associate – Macfarlane Ausley Ferguson & McMullen, Tallahassee, Florida **April 1994 – June 1995**
Practice area included all types of public finance including general obligation bonds, revenue bonds, COPs, limited tax/special assessment bonds and tax-exempt loans and leases. Experience as bond counsel and disclosure/underwriter's counsel in connection with bond transactions. Experience with securitization of cash flows from portfolio of Small Business Administration loans, notes and mortgages from the sale of Jim Walter Homes.

Associate – Sutherland, Asbill & Brennan, Atlanta, Georgia **April 1987 – April 1994**
Extensive experience as bond counsel, bank counsel and underwriter's counsel on taxable and tax-exempt financings. Typical responsibilities included structuring financings, financial and disclosure due diligence, advising on tax issues and securities law matters, drafting and negotiating documents including indentures, loan agreements, lease agreements, reimbursement agreements, letters of credit, guaranties, pledge agreements, security deeds, official statements, prospectuses, other disclosure documents and closing transactions. Experience with tax-exempt derivative products such as interest rate SWAPs, inverse floaters, interest rate caps, etc., and innovative financing techniques involving reimbursement bonds, working capital deficit financings and asset sales.

Director of JVs and Partnerships – W. B. J. Properties, Atlanta, Georgia **Feb. 1983 – Jan. 1984**
Responsible for administrative, financial and tax matters for joint ventures and partnerships associated with real estate developer and franchisor/management company for Ritz Carlton Hotels Company. Administrative responsibilities included negotiating joint venture agreements and maintaining relationships with joint venture partners, i.e., life insurance companies; supervising accounting department, construction accounting and cash management personnel. Financial responsibilities included monthly financial reporting, cash flow projections, financial reporting to joint venture partners, financial statement preparation, analytical review and reporting on operations.

Supervising Senior – KPMG Peat Marwick, Atlanta, Georgia **October 1979 – January 1983**
Certified Public Accountant since May 1979. Responsible for planning, coordinating and supervising audit engagements on businesses including primarily commercial, manufacturing and real estate concerns. Quarterly review for 10-Q and annual audit for 10-K for SEC reporting clients.

EDUCATION

University of Florida College of Law **January 1984 – December 1986**
Graduated in top eight percent of class with honors. Chief Tax Editor and Member, Florida Law Review; Student Member of Faculty Selection Committee; Business Manager, Student Government Productions.

Auburn University
Graduated 1979 with high honors; BSBA with concentration in accounting

Members must be a resident of Leon County.

Members may not be employed by any office of Leon County government.

Are you employed by an office of Leon County government? *No*

Members must have experience in either of the following areas. Please indicate your area of expertise.

- [x] Experience involving portfolio management

Please explain: *I have extensive experience supporting portfolio management through my roles leading investment research at Grit Capital, BeanWealth, and The Common Capitalist. While I have not served as a traditional portfolio manager, my work has directly informed investment decisions for both retail and institutional investors. At Grit Capital, I led multi-asset class research including equities, fixed income, and macro strategy, producing insights used by portfolio managers, family offices, and wealth advisors. At BeanWealth, I oversee the creation of institutional-grade research that supports portfolio construction decisions for both professional and retail investors. This includes fundamental equity analysis, thematic sector reports, and asset allocation commentary tailored to market conditions. I've also worked closely with public companies on investor-facing strategy, which deepens my understanding of how capital allocation and risk management decisions impact portfolios.*

☑ Experience involving institutional fixed income investments

Please explain:

Appointed members may not engage in any private financial dealings with the County directly related to the County's investment operations during their tenure on the committee and for a period of two (2) years thereafter.

Do you understand the above statement and agree to the terms? *Yes*

All statements and information provided in this application are true to the best of my knowledge.

380 E. Bradford Rd, Tallahassee, FL, 32303 | 229-224-0808| investmattallen@gmail.com

Professional Experience:

BeanWealth **Tallahassee, FL**
CEO/Founder *Sept 2024- Present*

- Built a modern investment research firm delivering institutional-grade reports and insights across equities, macro trends, and digital assets
- Lead investor relations campaigns for public companies by combining high-quality research with digital media distribution to retail and professional investors
- Produce detailed deep dives, earnings analysis, and sector outlooks tailored to hedge funds, RIAs, family offices, and serious individual investors
- Manage digital strategy across newsletters, social media, and podcast channels to expand reach and credibility among finance audiences
- Advise public company executives on messaging, retail engagement, and investor-facing content to support shareholder value
- Scaled BeanWealth into a trusted research and media brand positioned at the intersection of Wall Street and digital investor education

Grit Capital **Remote**
VP of Research *Dec 2021 - Aug 2024*

- Produced actionable equity research reports for both retail and institutional investors, covering U.S. and global markets
- Led investment research across equities, fixed income, and macroeconomic themes to guide client portfolio strategy
- Managed a team of analysts and contributors to deliver timely insights on earnings, valuations, and sector trends
- Presented research findings to high-net-worth clients, family offices, and institutional partners
- Oversaw compliance of all published materials with regulatory standards and internal quality controls
- Developed editorial calendar and coordinated coverage for breaking news, market events, and investment ideas

The Common Capitalist **Remote**
Founder *May 2018- Nov 2021*

- Founded a retail-focused investment research platform delivering accessible equity insights to everyday investors
- Created in-depth stock reports, macroeconomic breakdowns, and educational content tailored for non-institutional audiences
- Grew a loyal subscriber base through consistent publishing, community engagement, and social media distribution.
- Successfully scaled operations and positioned the company for acquisition by Grit Capital in 2024

Mayor John E. Dailey
Office of the Mayor
City of Tallahassee
300 S. Adams Street
Tallahassee, FL 32301

Dear Mayor Dailey,

The Council on Culture & Arts (COCA) has a City-appointed board seat in the At-Large category that will become vacant at the end of the current term on September 30, 2025. In accordance with COCA's bylaws and appointment procedures, we are submitting a slate of candidates for your consideration to fill this seat for a four-year term beginning in FY26 (October 1, 2025).

Hadley Peterson, the current COCA Board Member, has opted to step down after this term. Ms. Peterson has enjoyed the appointment and looks forward to continuing their support of COCA in other ways.

Three qualified individuals have expressed interest in serving on the COCA Board of Directors. Their applications and resumes are attached for your review. Each candidate brings a unique perspective and valuable experience that would contribute meaningfully to COCA's mission and the cultural vitality of our community.

On behalf of the Council, I present the slate to you and respectfully request that you review the attached materials and recommend one candidate for appointment to the City Commission. If possible, we'd appreciate having the candidate selected and moved forward to the City Commission agenda for your August 20 meeting.

If I can be of further assistance to you during this process, please don't hesitate to contact me at 850-224-2500 x2 or kathleen@tallahasseearts.org.

Our thanks to you, Mayor, for your continued support of arts & culture in Tallahassee.

Sincerely,

Kathleen Spehar
Executive Director
Council on Culture & Arts

Interests & Experiences

Please provide biographical information about yourself and also include a resume. Identify previous experience on other boards/committees, charitable/community activities and skills or services you could contribute to this board/committee.

Erika Branchcomb is a distinguished communications professional, with a career spanning over a decade across the private sector and nonprofit industries. Her current role as a Senior Communications Specialist at the Florida League of Cities since 2012 has seen her managing websites, mobile apps, and various marketing and publication projects, showcasing her adeptness in branding, marketing, and digital communications. Erika's commitment to excellence is evident through her effective project management and content development, ensuring brand consistency and quality across platforms. Before her tenure with the Florida League of Cities, Erika enriched her experience as a Marketing & Communications Consultant and as a Marketing Communications Manager at the Florida Chamber of Commerce, where she developed targeted marketing campaigns and managed member communications. Her foundational years at Capital City Bank as a Communications Specialist helped her hone her skills in promotional campaigns, content management, and corporate communications. Erika's academic achievements include a Bachelor of Arts in Communication Arts from the University of West Florida, complemented by certificates in AI from Ragan Communications and in Editing from ACES/Poynter News University. Beyond her professional endeavors, Erika is deeply involved in community service, currently serving as chair for the 2-1-1 Big Bend Board of Directors and having held positions with the Children’s Home Society board and as a marketing and publicity chair for the American Cancer Society’s Leon County Relay for Life. She was also a KCCI Community Catalyst in 2021.

Interests & Experiences

Please provide biographical information about yourself and also include a resume. Identify previous experience on other boards/committees, charitable/community activities and skills or services you could contribute to this board/committee.

While maintaining a full time law practice, I pursued and obtained a Master of Arts and PhD degree in Art History from Florida State University in 2018. In the 47 years that I have been a resident of Tallahassee/Leon County, I have has a varied experience in serving on a number of community and not-for-profit organization boards, including • Member and Chair, Historic Tallahassee Preservation Board (appointed by Gov. Lawton Chiles and confirmed by the Florida Senate) • Member, Board of Directors Museum of Art – Tallahassee (MART) • Member and Chair, Dean's Advisory Board, FSU College of Fine Arts • Member, Board of Directors, Tallahassee Museum of History and Natural Science • Member and Chair, Tallahassee Symphony • Member and Chair, Board of Directors of Goodwood Museum • Member and President, Holocaust Education Resource Council (HERC) These Boards of which I have been a member and/or Chair have almost exclusively focused on the Arts and Education. I am a firm believer in the role of the Arts in the cultural and economic life of the community I live in and where I have married and have raised eight children.

- Organizer/Curator, 20th Century Icelandic Painting, Art from the land of fire and ice, 2023 Exhibition at Gadsden Arts Center & Museum, Quincy, Florida

Legal Practice Areas

- Representation of cities, counties, and water supply entities in water resource development, permitting, and regulation before FDEP and the various Water Management Districts, development of water supply plans, the permitting of consumptive use permits for water production facilities, and the relationship between water use permitting and land development regulation by state, regional and local governments.

- Land use practice includes representation of private industry, land developers, chemical manufacturers and mining concerns in areas of air and water pollution, water resources, infrastructure permitting, and solid and hazardous waste matters. Representing client projects in hearings and other local matters before local, state and federal administrative bodies; outside counsel to a number of local governments on similar issues.
- Environmental practice representing clients at the federal, state and local levels in virtually all areas of environmental law. Represents clients from both the public and private sectors including environmental counseling, permitting and litigation under the CWA, CAA, RCRA, CERCLA, as well as under state and local environmental programs.
- Lead counsel in complex litigation involving the US EPA, Florida FDEP, and Florida Water Management Districts before the Division of Administrative Hearings involving water resource management and quality protection.
- Administrative law practice at state, local and federal levels. Representation in regulatory matters including rulemaking, permitting, negotiations, administrative litigation, compliance proceedings and enforcement proceedings.

State Bar and Court Memberships

- State of Florida; U.S. District Court, Northern District of Florida; U.S. District Court, Middle District of Florida; U.S. District Court, Southern District of Florida; U.S. Court of Appeals, Eleventh Circuit; U.S. Supreme Court

Agency Experience

- Deputy General Counsel with the Florida Department of Environmental Regulation from 1980 to 1983.
- Assistant General Counsel with the Florida Department of Environmental Regulation from 1977 to 1980

Professional, Trade and Civic Activity (present and former)

- The Florida Bar - Environmental and Land Use, and Administrative Law Sections
- Trinity Catholic School, School Board Chair
- Florida State University College of Fine Arts, Executive Committee Member and Chair, Dean's Advisory Board
- Reclaimed Water Working Group, Participant (2009-2012)
- Member, Tallahassee Kiwanis Club; Chair, Historic Tallahassee Preservation Board; Tallahassee Trust for Historic Preservation, Inc., Board member and President; Board of Directors, Tallahassee Symphony Orchestra, Past President; Board of Directors, Goodwood Museum and Gardens, Past President
- Florida State University Moot Court Team Environmental Law Team Coach (2009-present)
- Florida State University, Friends of Art History.
- Member, Florida Association of Environmental Professionals
- Member, Florida Ground Water Association

Council On Culture & Arts: Submitted

Date of Birth

July 10, 1956

Interests & Experiences

Please provide biographical information about yourself and also include a resume. Identify previous experience on other boards/committees, charitable/community activities and skills or services you could contribute to this board/committee.

For more than 35 years, my professional career was devoted to local arts development and expanding public access and participation in arts and culture at the local, regional, state, and national level. In my public sector work as a Local Arts Agency professional, my focus was on racial and social justice. During my tenure at the National Endowment for the Arts, I was the national field expert and Discipline Director for Local Arts Agencies, like COCA, nationwide. I would be honored to serve and support COCA's work.

June 26, 2025

Mayor John E. Dailey
Office of the Mayor
City of Tallahassee
300 S. Adams Street
Tallahassee, FL 32301

Dear Mayor Dailey,

The Council on Culture & Arts (COCA) has City-appointed board seats whose first terms will end on September 30, 2025. As these Board members have not reached their term limits, per COCA bylaws, they are eligible for a second consecutive term.

Ms. Carol Hill currently sits in the City's Business seat. She's been a representative of COCA at community events, especially connecting COCA with a wider array of professional artists and businesses. She has requested reappointment to a second term on the COCA Board of Directors, which was unanimously approved at the May 22 COCA Board of Director's meeting.

On behalf of the Council, I respectfully request the reappointment of Ms. Hill to the COCA Board of Directors for another four-year term, starting in FY26 (October 1, 2025). I have included attendance records for Ms. Hill. If possible, I'd appreciate having the candidate selected and moved forward to the City Commission agenda for your August 20 meeting.

If I can be of further assistance to you during this process, please don't hesitate to contact me at 850-224-2500 x2 or kathleen@tallahasseearts.org.

Our thanks to you, Mayor, for your continued support of arts & culture in Tallahassee.

Sincerely,

Kathleen Spehar
Executive Director
Council on Culture & Arts

Additional Information or Remarks:
As a COCA Board Member, theatre artist and member of the local community, Carol Hill has supported arts, culture and heritage in her personal and professional work. She has attended community events, working the COCA table or connected a wide variety of artists to COCA. She has helped advocate for arts & culture funding on the state and federal level. With her professional fund development experience, she serves on COCA's grant subcommittee.

☑ I Agree

EDUCATION

Florida State University
Master of Arts, Reubin D. Askew School of Public Administration and Policy, 2004

- Pi Alpha Alpha Academic Honors Society
- Specialization in Renewable Energy Leadership and Strategic Management
- Master's Thesis on Florida's Solar Energy Policies, including advocating for solar net metering policies before any Floridian could legally be allowed to interconnect to the grid

University of Florida
Bachelor of Arts, Political Science, 2002

CAREER HISTORY

Fiddlehead Agrivoltaic Farms

Executive Director
11/2024- Present
As the executive director of Fiddlehead Agrivoltaic Farms, I am combining my two treasured life long passions of growing fruits and vegetables with my deep understanding of solar development. While building this not-for-profit, I have developed relationships with key governmental stakeholders which has allowed me to leverage discussions around new regulatory structures for farmers to embrace net metering and Power Purchase Agreements with a reasonable return on investment. I am leading the charge on the ground to allow for expanded roles of agrivoltaics in our community. https://www.fiddleheadfarmstlh.com/

IGT Solar

Solar Energy Specialist- residential and commercial including whole home backup
8/2021- 11/2024
I engage in community outreach and education about solar energy and energy independence and provide direct sales and customer service of residential and commercial solar energy systems, including off grid battery backup applications. I am also active in governmental advocacy opposing legislation aimed at changing status quo net metering policies. In addition to residential rooftop solar, I also help commercial customers reduce their demand meter charges through solar energy. I am an intellectually curious community leader on the solar energy front and am actively involved with multiple organizations including:

- Treasurer on the Board of Director for ReThink Energy
- Expert user of Aurora Solar Engineering CRM
- Tallahassee 100% Together Coalition
- Maclay School Parent Organization
- Tally 100 Steering and Technical Committee (100% renewable by 2050)
- Advocacy and education engaging the City Tallahassee to implement the SolarAPP instant solar permitting
- Leadership Tallahassee Class 42

Treasurer on the Board of Directors for ReThink Energy

Treasurer
02/2022- 03/2025
ReThink Energy Florida's Mission is to educate, engage, and empower Floridians to take action and achieve a just transition to clean energy for a healthier, more sustainable environment through youth education, adult engagement, and community organizing. In this role, long term strategy is required to build community coalitions. My governmental advocacy actively opposes legislation aimed at changing status quo net metering policies.

Executive Office of the Governor, Office of Policy and Budget

Health and Human Services Unit (Senior Analyst for the Department of Health)
01/2007- 08/2021

I was the Governor's Senior Legislative analyst on all budget and policy issues related to the Department of Health, including all budgetary and policy issues related to the Office of Medical Marijuana Use (OMMU) and the development of its regulatory compliance structure. I specialized in analyzing all legislative and budgetary issues relating to the development of the vertical integration for the seed to sale regulatory structure in Florida or Chapter 381.986, Florida Statutes. Both the policy and budget issues must be distilled and clearly articulated for briefing the Governor. The Governor's Office of Policy and Budget provides systematic management and integration of planning, policy development, budgeting, and program evaluation in support of the Governor, state agencies, and the Florida Legislature. I have 15 years of experience working in the Legislative process.

Department of Children and Families, State of Florida Mental Health Program Office

Statewide Program Manager, Project H.O.P.E.
Hurricane Wilma Grant
05/2005 – 12/2007 (grant expired)

Project H.O.P.E. is a federally funded crisis counseling program funded through Health and Human Services: Substance Abuse and Mental Health Services Administration (SAMHSA). In this position, I was responsible for six Project H.O.P.E. teams in South Florida under the grant for Hurricane Wilma, which occurred in 2005. These teams of crisis counselors engaged in individual, group, referral, and educational outreach to survivors of Hurricane Wilma. I was the lead coordinator for the crisis counseling response at the state level, which required regular site visits to service providers to analyze program activity for compliance with federal reporting requirements.

Florida Solar Energy Industries Association

Assistant to Bruce Kershner lobbyist for the Florida Solar Energy Industries Association (FLASEIA)
12/2003- 06/2005

My primary responsibilities included tracking legislative and budget issue related to renewable and solar energy. I also wrote the weekly FLASEIA legislative updates to the members.

AWARDS AND RECOGNITIONS

- Eagle Scout, Boy Scouts of America
- Leadership Tallahassee Class 42 (2024-25)
- Pi Alpha Alpha Honors Society
- Finalist for the Presidential Management Fellows Program, 2004
- Presented policy paper advocating federal procurement of solar energy at the Southeastern Conference of Public Administration in 2002
- State Champion, Policy Debate Florida Forensics League, 1998

Interests & Experiences

Please provide biographical information about yourself and also include a resume. Identify previous experience on other boards/committees, charitable/community activities and skills or services you could contribute to this board/committee.

I've been a Leon County resident for over 35 years ever since moving from Miami to attend FSU. After graduation with a degree in Economics, I held various management roles in the Insurance and Employee Benefits industry culminating in appointment as CEO of FBMC, a local privately held Tallahassee company. I raised two sons in Leon County Public Schools and have enjoyed a rich community experience attending the Tallahassee Symphony, Opening Nights, FSU sports, and Tallahassee Theater events. I've been an member of The Economics Club and an Executive Committee member of The Florida Sterling Council in addition to numerous professional associations including Vistage, a mentorship program for Tallahassee based CEO's and entrepreneurs. I left Tallahassee in 2019 to pursue a career advancement and am thrilled to return and seek opportunities to volunteer and participate actively in the community, with a particular interest in the arts. I've recently accepted a position as Secretary of The Tallahassee Area Musicians Guild, a non profit focused on supporting and advancing local area artists. Skill strengths are organizational effectiveness, team building and consensus, relationship management and stakeholder governance. I love the arts and believe they play a vital role in a well -rounded, healthy community as well as a key driver in tourism revenue.

LORRAINE SHERIDAN

PROFILE

Executive business leader with 30+ years of experience managing front line and C-Suite teams to achieve success. Primary industry expertise in Insurance and Employee Benefits as well as working knowledge in media, public relations and marketing fields. Since retiring from an executive leadership position in 2021 to become a caretaker, I've focused on Board membership as well as mentor and community volunteer work.

WORK EXPERIENCE

Board Member, BeneBay, Tampa, Florida — 2021-Present

Director, Benefits Advocate Center, Gallagher
Las Vegas, Nevada — 2019–2021

Created and built a centralized Customer Advocacy Center. Developed the structure and systems and hired and trained over 150 personnel. Personally recruited and mentored a management team successful in delivering award-winning employee benefits services. Maintained the highest levels of Net Promoter Score, employee satisfaction, and client retention.

Director, Marketing and Engagement, Arthur J Gallagher — 2016–2018

Responsible for marketing initiates and campaigns as well as the management of recruitment and retention strategy of 300+ Benefit Counselors. Provided overall leadership of Call Center Operations including customer service, benefits enrollment, and policy retention.

Executive Vice President, Executive Producer, Creative Minds, Big Picture 2012-2015

Produced audio and visual communications/broadcasts via internet, podcast, radio, and mobile platforms. Managed in-studio and on-site production logistics of talent, equipment, audience, and resources. Improved website and multi-media content reach, user interface, and advertising optimization.

President and CEO, FBMC Benefits Management- 1997-2011

Led the company to become recognized by Business Insurance as one of the 100 largest US Insurance Brokers and the 3rd ranked Employee Benefits Third-Party Administrator in the U.S. Grew employee benefits and insurance product management and consulting revenue from $12M to $31M.

Dominated the mid to large size public sector employer benefits market, including 12 State Governments and multiple large Cities and School Districts.

Managed the acquisition of two privately held broker/TPA firms, met every annual Board approved expense budget and increased stock value. Motivated 400+ full-time permanent employees by personally leading monthly employee meetings, conducting annual employee satisfaction surveys and implementing individual, team, and company based incentive rewards directly tied to performance based metrics.

EDUCATION

Harvard University, Executive Education, Owner President Management (OPM) 1997-2000

Florida State University — Bachelor of Science, Economics 1987

State and Local Government Benefits Association Member 1998-2011

Economics Club of Florida Member 1997-2011

June 26, 2025

Mayor John E. Dailey
Office of the Mayor
City of Tallahassee
300 S. Adams Street
Tallahassee, FL 32301

Dear Mayor Dailey,

The Council on Culture & Arts (COCA) has City-appointed board seats whose first terms will end on September 30, 2025. As these Board members have not reached their term limit, per COCA bylaws, they are eligible for a second consecutive term.

Ms. Haiqiong Deng currently sits in the City's History / Heritage seat. She has been an active board member at community events and on COCA subcommittees. Ms. Deng is currently serving on COCA's Executive Committee and has agreed to do so for another year.

On behalf of the Council, I respectfully request the reappointment of Ms. Deng to the COCA Board of Directors for another four-year term, starting in FY26 (October 1, 2025). I have included Ms. Deng's attendance records. If possible, I'd appreciate having the candidate selected and moved forward to the City Commission agenda for your August 20 meeting.

If I can be of further assistance to you during this process, please don't hesitate to contact me at 850-224-2500 x2 or kathleen@tallahasseearts.org.

Our thanks to you, Mayor, for your continued support of arts & culture in Tallahassee.

Sincerely,

Kathleen Spehar
Executive Director
Council on Culture & Arts

Committee Name: Council on Culture & Arts (COCA)

Committee Member Name: Haiqiong Deng

Additional Information or Remarks:

As a COCA Board Member, musician and long-time member of the local community, Haiqiong Deng has been a wonderful representative of arts, culture and heritage. She volunteers at community events, donates her musical services, and has brought her Chinese music ensemble, in service to the City, to a variety of City events. She has helped advocate for arts & culture funding on the state and federal level, and she continues to help promote and engage artists from a wide variety of backgrounds in Tallahassee events.

Jean Raymond Calixte

Tallahassee, FL | 804-943-4605| mr.calixte1@gmail.com | www.linkedin.com/in/raymond-calixte-mba-dml

Accomplished operations manager with 15 years of experience in project management, workforce optimization, logistics oversight, grants administration, contract management, budget analysis, resource allocation, and quality control. Proficient in managing short- and long-term work volumes while analyzing patterns and accurately reporting government/public sector performance. Excellent communication, leadership, analytical, and interpersonal competencies with 20 years of risk management experience.

Professional Experience

Department of Environmental Protection | Tallahassee, FL
Community Assistance Consultation | October 2022 - Present

- Deliver technical assistance to 89 grantees in preparing applications throughout the grants and contracts process as managers with public access to acquired properties, maintaining 100% process implementation.
- Providing guidance and training to contract specialists on contract methods, including simplified acquisitions, sealed bidding, negotiations, cost sharing, multiple awards, commercial items, and special provisions.
- Implemented procedures for grantees with 100% compliance with grant agreements and provided public access to the properties, increasing grant funding by 50 percent within the first month.
- Review and revise the rule to define compliance and provide implementation tools, saving $250,000 in noncompliance penalties.
- Interpreting and applying Federal laws (or similar), acquisition regulations, policies, contract law, and procedures applicable to acquisition and contract administration, including change orders, supplemental agreements, terminations, claims, and contract closures.
- Plan and conduct weekly workshops with administered grant programs and verify the eligibility of grant expenditures in furtherance of approved grant projects with 100% data integrity.
- Providing guidance regarding complex contracts to other Contract Specialists in a contracting office to include firm-fixed-price with economic price adjustments and cost reimbursement.
- Streamline applications for local government state agencies for grant-in-aid assistance for the Land and Water Conservation Fund Program and Florida Recreation Development Assistance Program.
- Develop and maintain positive business relationships with team members, stakeholders, and business partners, increasing satisfaction with survey results.

Federal Emergency Management Response | Remote
Logistics Management Manager | August 2021 - Present

- Managed inventory of 2430 inventory items with a 99% accuracy rate through the implementation of a new ordering and management system
- Identifying, developing, and implementing job aids, tools, and procedures to enhance claims office operations.
- Achieved 100% inventory accuracy rate by effectively using physical inventory counts and implementing 15 new inventory control systems.
- Diminished the company's exposure to supplier risk by creating an audit program to verify that suppliers are meeting quality standards.
- Established and maintained the formal property of record company budgets; managed hand receipts and used a barcode reader to conduct inventories with 100% accuracy.
- Performed effective inventory asset management to create and execute property transfer reports as per all accountable property guides.

Logistics Management Division | Fort Irwin, CA
Senior Logistic Coordinator and Liaison Officer | November 2019 - March 2021

- Established and managed $23M worth of government and federal contacts to ensure daily operations for 3000 service members and contractors were met.
- Spearheaded, coordinated, and supervised the disposition of over $1.5 million of federal government equipment supplies and assets during combat operations, reducing the expenditure budget by 36%
- Coordinating across local agencies to ensure consistent application of policies and doctrine, information sharing, problem-solving, conducting formal analysis, and staff training.
- Oversaw over $680M worth of federal government equipment by managing tactical and non-tactical vehicle assets and preparing monthly presentations on the fleet to ensure that 98% of all vehicles were always operational.
- Supervised the movement and logistical support for 4000+ re-deployers, contractors, and personnel over 3+ continents while coordinating a joint task force to request air and ground transportation in the theatre of operations.
- Developed, implemented, and organized the movement tracking system training, which provided 100% location accuracy and combat effectiveness on the battlefield.

Inspector General Office | Fort Shafter, HI
Assistant Inspector General and Liaison Officer | May 2016 - November 2019

- Assists in developing comprehensive Senior Executive/Leader orientation, career, and professional development programs.
- Composed and developed monthly and quarterly reports detailing mission progress while providing the inspector general with a continuing objective assessment of assistance and investigation of cases.
- Directed and assisted the operations of 117,000+ soldiers and DA civilians by reviewing and processing

inspector general action requests with 100% accuracy.

- Monitored and coordinated all actions relating to assistance and investigation within the Pacific region consisting of four states; also worked closely with the inspector general to accomplish operational and command objectives.
- Reviewed government contracts and legal agreements for Hawaii, Guam, Alaska, and California
- Expedited assistance to soldiers, civilians, and family members of the military community by developing and maintaining relationships to foster key partnerships.

Logistic Training Department | Fort Lee, VA
First-Line Supervisor | December 2012 - May 2016

- Trained and supervised 43 employees in the company's customer services process, achieving a reduction in customer service-related complaints by 50%
- Handled crisis intervention for veterans and stakeholders to address emergent situations; also provided community support and resources.
- I supervised the implementation of new technology to improve workflow within the department and reduce employee turnover by 35%.
- Maintained a working knowledge of current trends and development in holistic approaches in wellness and recovery.
- Participates in the service, training, consultation, and other professional activities of government and federal services and functions as a full team member and leader.

Additional Experience

Wiesbaden, DE | Senior Logistic Coordinator and Liaison Officer

Schweinfurt, DE | Logistics Manager and Movement Officer

Council On Culture & Arts: Appointed

Interests & Experiences

Please provide biographical information about yourself and also include a resume. Identify previous experience on other boards/committees, charitable/community activities and skills or services you could contribute to this board/committee.

Music, as a vital part of the culture, is one of the most effective ways to enhance understanding, communication, and human relationships. As a professional concert artist on the traditional Chinese twenty-one string guzheng) and the seven-string guqin, I have been active in promoting traditional and new music in North America in the last two decades. I have performed and lectured in a wide range of venues including universities, museums, traditional folk, and new music festivals, communities, and K-12 schools. I have also premiered and recorded dozens of new compositions at national and international new music festivals and conferences by composers from several countries, including the United States, Canada, and China. In the meantime, I have explored diverse world music traditions. Tallahassee has been my home for the last two decades. I started my own family here, received my Ph.D., and taught at FSU for 17 years. I have been inspired and invigorated by this scenic and dynamic place. The possibility of becoming a board member at COCA allows me to better serve the diverse communities in Tallahassee. My musical experience has equipped me insightful listening skills in people's voices. I believe through listening, communicating, and advocating, we can create a more diverse and vibrant culture that is unique to Tallahassee. Bio: Haiqiong Deng is a scholar of Chinese music and master player of the 21-string Chinese guzheng. She was the recipient of 2018 Florida State University College of Music Research Fellow, 2017 Florida Cultural Heritage Award, 2017 The Ruby Chao Yeh Award from Association for Chinese Music Research, 2013 Florida Individual Artist Fellowship, 2012 the Master Artist of the Florida Folklife Apprenticeship Award, and the winner of the Outstanding Performance Prize at the 1995 Chinese National Zheng Competition in Shanghai. Both of her CDs, Mountain, Water, Sentiments: Traditional Chinese Zheng Masterpieces Performed by Haiqiong Deng and Stringing Echoes: Classical Indian Music by Sitar and Zheng were nominated for the 13th Annual Independent Music Awards in "World Traditional" Category in 2014. Haiqiong received her Bachelor of Music in guzheng Performance from the Shanghai Conservatory of Music (1997), Master of Arts in Arts Administration (2004) and Ethnomusicology (2006), and Ph.D. in Musicology (2020) from the Florida State University. Haiqiong taught at Florida State University, University of South Florida, and Tallahassee Community College. She also directed the FSU Chinese Music Ensemble for seventeen years.

Which Boards would you like to apply for?

Council On Culture & Arts: Submitted

Date of Birth

02/20/1980

Interests & Experiences

Please provide biographical information about yourself and also include a resume. Identify previous experience on other boards/committees, charitable/community activities and skills or services you could contribute to this board/committee.

I was born and raised in Tallahassee, Florida and attended Florida A&M University. After a worldwide tour that took me to many cities across the globe I have returned to my beloved hometown, ready and eager to serve. I have lead design and worked in creative services at a variety of global influential institutions including: Netflix, Facebook/Meta, Slack, IDEO, PUMA. In these roles, I have worked on everything from software, physical products across many industries, ad campaigns, art curation and physical space design. Through this experience I have built many relationships that could be beneficial for Council work. In addition to my professional work, I have built and ran my own workshops in service of advancing the careers of underrepresented designers in the tech industry. I served on the board and as a mentor of Youth Design, a Boston based organization that provides high quality mentorship and internships to inner city high school students who are interested in a professional design career. I am the co-founder of The Detroit Water Project, a non profit initiative that garnered international press, including the National Geographic, for helping Detroit residents pay their water bills through direct charity during the Detroit water crisis. I am also a member of Gamma Sigma Sigma National Service Sorority.

B.F.A. Graphic Design

Describe any personal attitudes, life experiences, and prior examples that demonstrate you can make objective, impartial, evidence – based decisions about complaints against the police.

I don't have any experience having to do this, so I can only surmise that I would try my best to be impartial based on the facts and laws.

Have you, a close friend, or a family member ever worked in the criminal justice system or an organization that advocates a position regarding the police or the criminal justice system? If yes, please describe.

N/A

Have you, a close friend, or a family member ever had a significant life experience involving the police or the criminal justice system? If yes, please describe.

N/A

Please provide an example of your experience analyzing, interpreting, explaining, and applying relevant laws, regulations, ordinances, and policies.

I served as the parliamentarian for my sorority that is governed by Robert's Rules of Order.

Describe your comfort level in objectively reviewing cases of serious misconduct and fatal uses of force and making recommendations objectively if deemed needed.

I would be comfortable and try my best to be objective and impartial considering the facts/evidence presented.

The Police Chief is responsible for the ultimate findings and discipline in officer misconduct cases. Are you comfortable with reviewing completed police department internal affairs reports to provide recommendations but not having control of the ultimate outcome related to the police officer?

Yes

Please provide an example of your ability to collaborate and work on a team. What was the outcome of that effort?

I have professional experience managing large teams of up to 100 people and also being a part of larger divisions.

Would you be willing to take a two (2) hour equity/diversity training and complete the Tallahassee Police Department (TPD) Citizens Academy required of a CPRB member?

◉ Yes ○ No

Would you be willing to participate in three (3) ride-a-longs with a police officer of at least two (2) hours each?

◉ Yes ○ No

I confirm that I can and will remain unbiased in fact and appearance while performing my duties if I am selected to serve as a member of the CPRB.

◉ Yes ○ No

Demographics

Kristy Tillman

Leading design for Netflix Studios.
United States

Experience

Netflix

2 years 7 months

Director Of Product Design, Studio XD (Pitch to Post and Creative Production & Promotion)

July 2022 - Present (2 years 1 month)

In this expanded role, I am responsible for the entire Netflix enterprise design practice from pitch to play–Studio XD. We enable an innovative, technology-powered Studio for global planning, production, promotion, and delivery of content at scale.

The Studio XD team is composed of two pillars:
(1) Pitch to Post, which develops software to automate Netflix Studio's content productions from script to screen. We create products that improve the filmmaking process, creative outcomes, increase business efficiency, and make the process of creating with Netflix a competitive differentiator for talent and partners.

(2) The Creative Production & Promotion team designs technology solutions that equip Netflix to entertain the world by launching and promoting great content at scale.

Director Of Product Design, Creative Production & Promotion

January 2022 - July 2022 (7 months)

The Creative Production & Promotion organization is focused on designing enterprise scale solutions that enable Netflix to launch and promote stories around the world.

The designers work alongside Engineering, Data Science, Product Management, and Product Consumer Insights to build technology that supports:

Creation of media assets (trailers, artwork, social media posts, etc.) for promotional purposes on and off the service.

Localization of our consumer experiences around the globe including subtitling and dubbing of Netflix content.

Title set up, metadata, and efficient delivery and validation of assets at scale in the Netflix consumer experience.

Marketing campaign planning and publicity across paid, owned, and earned media channels.

Facebook
Director, Visual Systems
January 2021 - September 2021 (9 months)
Menlo Park, California, United States

Slack
4 years 1 month

Head of Global Experience Design
March 2018 - October 2020 (2 years 8 months)
San Francisco Bay Area

The first in this role, I am responsible for the translation of Slack's vision and culture into design strategy and human experiences across our global workplaces.

Head of Communication Design
October 2016 - March 2018 (1 year 6 months)
San Francisco Bay Area

Built and lead Slack's first multi-disciplinary creative studio of visual designers, interaction designers, illustrators, copywriters and design operations responsible for creating brand experiences through a variety of channels.

Lead key company wide projects and initiatives such as domestic and international brand marketing campaigns, the redesign of Slack.com, and large scale events.

Society of Grownups
Design Director
July 2014 - September 2016 (2 years 3 months)
Greater Boston Area

As the first designer at Society of Grownups I built and lead a team of product and brand designers responsible for digital product development,

financial curriculum development, brand collateral, and the in-person service experience.

IDEO
Communication Designer
March 2011 - July 2014 (3 years 5 months)
Greater Boston Area

Telling human-centered stories and translating complex ideas through graphic design, brand identity, prototyping and other mediums to evolve understanding across a diverse portfolio of projects spanning many industries including healthcare, consumer goods, education, automotive, and new venture design.

I normally do not respond to vague requests to discuss IDEO, especially with non alum.

Puma
Brand Designer
June 2010 - March 2011 (10 months)
Greater Boston Area

Designed a variety of in-store, packaging and special activation creative for PUMA and sister brand, Tretorn.

Reebok
Graphic Design Apprentice
August 2009 - June 2010 (11 months)
Canton, MA

Highly selective one year post-graduate apprenticeship. Designed original artwork for footwear, apparel, accessories and packaging.

Mayor John E. Dailey
Office of the Mayor
City of Tallahassee
300 S. Adams Street
Tallahassee, FL 32301

Dear Mayor Dailey,

The Council on Culture & Arts (COCA) has City-appointed board seats whose first terms will end on September 30, 2025. As these Board members have not reached their term limit, per COCA bylaws, they are eligible for a second consecutive term.

Ms. Brinda Pamulapati currently sits in the City's History / Heritage seat. She has been an active board member at community events and on COCA subcommittees. She has requested reappointment to a second term on the COCA Board of Directors, which was unanimously approved at the May 22 Board of Director's meeting.

On behalf of the Council, I respectfully request the reappointment of Ms. Pamulapati to the COCA Board of Directors for another four-year term, starting in FY26 (October 1, 2025). I have included Ms. Pamulapati's attendance records. If possible, I'd appreciate having the candidate selected and moved forward to the City Commission agenda for your August 20 meeting.

If I can be of further assistance to you during this process, please don't hesitate to contact me at 850-224-2500 x2 or kathleen@tallahasseearts.org.

Our thanks to you, Mayor, for your continued support of arts & culture in Tallahassee.

Sincerely,

Kathleen Spehar
Executive Director
Council on Culture & Arts

Committee Name: Council on Culture & Arts (COCA)

Additional Information or Remarks:
As a COCA Board Member, artist and long-time member of the local community, Brinda Pamulapati has been an effective leader and representative of arts, culture and heritage. She volunteers at community events, leads COCA's Diversity, Equity and Inclusion subcommittee, organizes and hosts local artist talks at her gallery for the community to enjoy around themes important to the City and community. She has advocated for arts & culture funding on the state and federal level, and she continues to help promote and engage artists from a wide variety of backgrounds in Tallahassee events.

Interests & Experiences

Please provide biographical information about yourself and also include a resume. Identify previous experience on other boards/committees, charitable/community activities and skills or services you could contribute to this board/committee.

I have a BFA in graphic communication and an MFA in Sculpture. Before entering into the world of academia, I worked in advertising and graphic design for 22 years. I have served as the artist-in-residence at numerous artist residency nationally. I have previously completed a public art commission for the city of Denver, Colorado, and I'm familiar with the difficulties and intricacies of art in the public realm as well as it impact on communities. As an assistant professor at FSU and the area ahead of our Sculpture & Expanded Media Program, I'm keenly interested in expanding both the arts in Tallahassee and FSU's connection to the community. That Office issue I have served and continue to serve on multiple committees throughout the campus – I'm a collegial and communicative colleague who focuses on the issues at hand and how to best move forward.

Council On Culture & Arts: Submitted

Interests & Experiences

Please provide biographical information about yourself and also include a resume. Identify previous experience on other boards/committees, charitable/community activities and skills or services you could contribute to this board/committee.

My passion for the arts began at an early age and was amplified by the diversity and abundance of creative thinkers I found in my 8 years living in NYC. To develop my career in the world of live arts, I earned both a Bachelor of Arts in Music and a Bachelor of Arts in Theatre at Florida State University in Tallahassee, Fl. I continued my studies with internships at award-winning theatre companies, NOLA Project in New Orleans as well as Labyrinth Theatre Company in New York City, followed by an event management internship STAMP Event Management in New York City. As Day-to-Day Manager for Grammy-winning artist, Esperanza Spalding, I facilitated the scheduling, coordination and production of concerts, and effectively guided collaborations with major arts institutions, international venues, booking agencies and artist management companies. As Project Manager for Spalding's Grammy-winning album, "12 Little Spells", I oversaw not only the planning and execution of the album creation and launch, but played an integral role in the 12-show album tour in 2018. Whether it's managing a project's budget, sourcing vendors, or figuring out how to rig a hanging projection screen, I'll do whatever needs to be done to successfully execute a project. After moving back to Tallahassee in 2020, I produced "A House Called Florida", alongside artist Allison Janae Hamilton and Forgotten Coast Productions. This film installation explores Black life and the southern environment, particularly around the Great Migration, and has been featured in Brooklyn, Los Angeles, Baltimore, and Mississippi museums. Now, I work remotely as an Event Manager for NYC-based event company, STAMP Event Co. Here, I work closely with many non-profit organizations (including GLAAD, ADCOLOR, The Opportunity Agenda, The Brigid Alliance, and Americares) to help them 1) reach their fundraising goals, 2) elevate their guest experience, and 3) increase organizational and brand awareness. It is my desire to take the skills I learned in my years of experience in arts, charitable organizations, and project management and give back to the community that made me.

Interests & Experiences

Please provide biographical information about yourself and also include a resume. Identify previous experience on other boards/committees, charitable/community activities and skills or services you could contribute to this board/committee.

As the owner and managing director of Venvi Art Gallery, Brinda has the pleasure of curating renowned artists for the gallery's shows. After earning her baccalaureate and master's degree in mathematics at Florida State University, Brinda works as a math faculty for online universities. Unusual shapes and textures paired with pure, vibrant colors are key characteristics of Brinda's work. The values in color and the emotions they evoke inspire her to explore different hues. Not only are these shades inspirational, but so is the intentional selection. Brinda selects colors that aim to shock or surprise the viewer. She loves the excitement she experiences while thinking about new ideas, compositions, and creating art. Brinda finds there are infinite things to learn from art; one cannot master art in one lifetime. An artist's life is constantly learning and always realizing something new. Served on the COCA Board of Directors since 2023.

The Tall Art project highlights local artists

AMANDA KARIOTH THOMPSON
COUNCIL ON CULTURE & ARTS

The Council on Culture & Arts and the Tallahassee-Leon County Planning Department developed the Tall Art project as a unique opportunity to exhibit local art.

In 1998, a wayfinding signage system was implemented for Downtown Tallahassee. An updated signage system will soon help visitors and residents locate area attractions. The City of Tallahassee will complete the installation of new signs by 2020.

To help avoid any confusion by having two different sign systems, the old green wayfinding signs are scheduled to be removed. Many of the new wayfinding signs will reuse the solid foundation bolts which were set for the original signs back in 1998. To prevent these large bolts from becoming a safety hazard along our sidewalks, the City will leave the old sign poles in place and only remove the sign portion from the top.

The remaining 10 foot tall, six inch diameter pole will help prevent tripping, preserve the pole's foundation for when the new wayfinding sign is installed, and provide an interesting, temporary opportunity to showcase local art.

The Tall Art project provides a highly visible and unique display area for artwork by local artists. Artists were invited to submit artworks for consideration and the selected artworks have been reproduced in full color on a UV treated, fade resistant, weather proof, vinyl wrap that has been installed around the poles throughout Downtown Tallahassee.

Thirteen artists were selected to participate in the Tall Art project and they are Tammy Brown, Sara Chang, Terrie Corbett, Gerald Grow, Anne Hempel, Mary Jane Lord, Will Luck, John E. Metcalfe, Stewart Nelson, Lesley Nolan, Brinda Pamulapati, Daniel McCord Taylor, and Kathleen Wilcox. Their artworks represent a diversity of techniques including painting, photography, digital collage and illustration, glass, enamel, and hand-woven tapestry.

Each Tall Art installation will remain on display until the new sign is installed. Learn more about each artist, their artwork, and how to purchase it at TallahasseeArts.org/TallArt. For details on the new wayfinding signage system, visit talgov.com/planning or call the Planning Department at 891-6400.

COCA, the Council on Culture & Arts, is a nonprofit organization that serves as the facilitator and voice for the arts and cultural industry in Florida's capital area. Visit COCA at www.tallahasseearts.org.

2016 - Tall Art Project – City of Tallahassee, FL

June 26, 2025

Commissioner Brian Welch, Chair
Leon County Commission
Leon County Courthouse
301 S. Monroe Street
Tallahassee, FL 32301

Dear Commissioner Welch,

Council on Culture & Arts (COCA) has County-appointed board seats whose first terms will end on September 30, 2025. As these Board members have not reached their term limited, per COCA bylaws, they are eligible for a second consecutive term.

Ms. Reenee Williams currently sits in the County's Business / Economic Development seat. She has been an active board member and community advocate, assisting organizations and artists during recent natural disasters and connecting COCA with a wider variety of music organizations and artists. She has requested reappointment to a second term on the COCA Board of Directors, which was unanimously approved at the May 22 Board of Director's meeting.

On behalf of the Council, I respectfully request the reappointment of Ms. Williams to the COCA Board of Directors for another four-year term, starting in FY26 (October 1, 2025). I have included Ms. Williams' attendance records. In consultation with Ms. Lisa Davis, agenda coordinator, the County would include this reappointment on the September 16th County Commission meeting agenda.

If I can be of further assistance to you during this process, please don't hesitate to contact me at 850-224-2500 x2 or kathleen@tallahasseearts.org.

Our thanks to you, Commissioner Welch, for your continued support of arts & culture in Tallahassee.

Sincerely,

Kathleen Spehar
Executive Director
Council on Culture & Arts

Committee Name: Council on Culture & Arts (COCA)

Committee Member Name: Reenee Williams

Additional Information or Remarks:

Reenee has been an engaged and proactive board member. She's continually connecting COCA with a wider variety of resources through her Rapid Response Team, especially during the natural disasters in 2024. She's part of the local music community, and has introduced a wider variety of musicians, music organizations and businesses to COCA. She continues to serve on subcommittees and advocates for arts & culture funding on the state and national level.

Resume Uploaded? Yes

If no resume is available, in the space below briefly describe or list the following: any previous experience on other Committees; your educational background; your skills and experience you could contribute to a Committee; any of your professional licenses and/or designations and indicate how long you have held them and whether they are effective in Leon County; any charitable or community activities in which you participate; and reasons for your choice of the Committee indicated on this Application. Please attach your resume, if one is available.

(COMMITTEE QUESTIONNAIRE)

IMPORTANT LEGAL REQUIREMENTS FOR COMMITTEE/BOARD/AUTHORITY MEMBERSHIP

Citizen participation is important in developing Leon County's programs and policies, and in providing quality public services to the community. We appreciate your interest in serving on a committee and would like to bring a few items to your attention. As a member of a committee/board/authority, you will be obligated to follow any applicable laws regarding government-in-the-sunshine, code of ethics for public officers, and public records disclosure.

The consequences for violating these applicable laws include criminal penalties, civil fines, and the voiding of any committee/board/authority action and of any subsequent action by the Board of County Commissioners. In order to be familiar with these laws and to assist you in answering the following questions, please take a few minutes to complete the mandatory orientation. Your application will not be deemed complete until you have completed the orientation.

Have you completed the Applicant Orientation for membership on Citizen Committees, Board & Authorities?* *Yes*

Are you currently serving on a County Advisory Committee or other Committee/Authority/Board?* *No*

Have you served on any previous Leon County committees?* *No*

Are you willing to complete a financial disclosure form if applicable?* *Yes*

Do you know of any circumstances that would result in you having to abstain from voting on a Committee/Board/Authority due to voting conflicts? (Not applicable to Focus Groups)* *No*

Are you or your employer, or your spouse or child or their employers, currently doing business with Leon County?* *No*

Are you or your employer, or your spouse or child or their employers, currently doing business with the Committee/Board/Authority to which you are applying for membership?* *No*

Do you currently have any employment or contractual relationship that would create a continuing or frequently recurring conflict with regard to your participation on a Committee/Board/Authority? (i.e. would you have frequent or reoccurring voting conflicts?)* *No*

Do you foresee participating in any competitive bid process for Leon County business during your time serving on this committee/board/authority?* *No*

Do you foresee participating in any competitive bid process involving business with the Committee/Board/Authority to which you are applying, during your time serving on that entity?* *No*

Is your personal information exempt from public records disclosure in accordance with FS 119.071(2)(j)1 or FS 119.071(4)? *No*

Per section 265.32 Florida Statutes, each council member will be charged with the responsibility of serving the best interests of the arts in the county and no council member shall view his or her role as that of representing any particular geographic area of the county, interest group, arts institution, community organization, or audience. No individual committed to, or owing allegiance to, any particular arts faction shall be eligible to serve on the council.

If appointed, I agree to comply with the above statutory regulation. *Yes*

All members must be qualified electors residing in Leon County.

Are you a registered voter in Leon County? *Yes*

Members must meet one of the membership eligibility criteria listed below. Please indicate your area of expertise.

- [x] Business/Economic Development

  Please explain:
- [ ] Historic Preservation / Ethnic Heritage
- [x] Marketing

Please explain:

- [ ] Practicing Artist
- [ ] Tourism Industry
- [x] Community Volunteerism

Please explain:

- [ ] Resident of Leon County (At-large seat)

All statements and information provided in this application are true to the best of my knowledge.

Signature: Ms. Audra L Peoples

The application was electronically sent: 5/12/2025 12:54:10 PM

Audra Peoples

Rich (Chip) Smith is the CEO and Founder of Critical Business Group (CBG), a consulting firm based in Tallahassee, Florida, that specializes in strategic business solutions for startups, small businesses, and nonprofits. Under his leadership, CBG offers services in business strategy, creative services, and operational optimization, assisting a diverse clientele that includes retail shops, restaurants, state agencies, and nonprofit organizations. Smith's approach emphasizes business automation and process improvements to drive growth and efficiency .

Beyond his role at CBG, Smith is deeply involved in the Tallahassee entrepreneurial ecosystem. He serves as the Board Chair of InnovateTLH and is the Executive Director and Co-Founder of Impact Week TLH, a nonprofit business conference and speaker series aimed at fostering collaboration and growth among local innovators and entrepreneurs . Additionally, he contributes as a mentor with the Venture Mentoring Team and as a community organizer with the Global Entrepreneurship Network (GEN) .

Smith is also a dedicated community partner and mentor at Florida State University's Jim Moran College of Entrepreneurship (JMC). He actively participates in events such as Mentor Appreciation Night and student networking sessions, providing guidance and support to aspiring entrepreneurs . His involvement with JMC underscores his commitment to nurturing the next generation of business leaders.

Through his various roles, Smith continues to support and inspire the Tallahassee business community, emphasizing collaboration, innovation, and community impact.

(COMMITTEE QUESTIONNAIRE)

IMPORTANT LEGAL REQUIREMENTS FOR COMMITTEE/BOARD/AUTHORITY MEMBERSHIP

Citizen participation is important in developing Leon County's programs and policies, and in providing quality public services to the community. We appreciate your interest in serving on a committee and would like to bring a few items to your attention. As a member of a committee/board/authority, you will be obligated to follow any applicable laws regarding government-in-the-sunshine, code of ethics for public officers, and public records disclosure.

The consequences for violating these applicable laws include criminal penalties, civil fines, and the voiding of any committee/board/authority action and of any subsequent action by the Board of County Commissioners. In order to be familiar with these laws and to assist you in answering the following questions, please take a few minutes to complete the mandatory orientation. Your application will not be deemed complete until you have completed the orientation.

Have you completed the Applicant Orientation for membership on Citizen Committees, Board & Authorities?* *Yes*

Are you currently serving on a County Advisory Committee or other Committee/Authority/Board?* *No*

Have you served on any previous Leon County committees?* *No*

Are you willing to complete a financial disclosure form if applicable?* *Yes*

Do you know of any circumstances that would result in you having to abstain from voting on a Committee/Board/Authority due to voting conflicts? (Not applicable to Focus Groups)* *No*

Are you or your employer, or your spouse or child or their employers, currently doing business with Leon County?* *No*

Are you or your employer, or your spouse or child or their employers, currently doing business with the Committee/Board/Authority to which you are applying for membership?* *No*

Do you currently have any employment or contractual relationship that would create a continuing or frequently recurring conflict with regard to your participation on a Committee/Board/Authority? (i.e. would you have frequent or reoccurring voting conflicts?)* *No*

Do you foresee participating in any competitive bid process for Leon County business during your time serving on this committee/board/authority?* *No*

Do you foresee participating in any competitive bid process involving business with the Committee/Board/Authority to which you are applying, during your time serving on that entity?* *No*

Is your personal information exempt from public records disclosure in accordance with FS 119.071(2)(j)1 or FS 119.071(4)? *No*

Per section 265.32 Florida Statutes, each council member will be charged with the responsibility of serving the best interests of the arts in the county and no council member shall view his or her role as that of representing any particular geographic area of the county, interest group, arts institution, community organization, or audience. No individual committed to, or owing allegiance to, any particular arts faction shall be eligible to serve on the council.

If appointed, I agree to comply with the above statutory regulation. *Yes*

All members must be qualified electors residing in Leon County.

Are you a registered voter in Leon County? *Yes*

Members must meet one of the membership eligibility criteria listed below. Please indicate your area of expertise.

- [x] Business/Economic Development

  Please explain: *Business Owner*
- [ ] Historic Preservation / Ethnic Heritage
- [ ] Marketing
- [ ] Practicing Artist
- [ ] Tourism Industry
- [ ] Community Volunteerism
- [x] Resident of Leon County (At-large seat)

All statements and information provided in this application are true to the best of my knowledge.

June 26, 2025

Commissioner Brian Welch, Chair
Leon County Commission
Leon County Courthouse
301 S. Monroe Street
Tallahassee, FL 32301

Dear Commissioner Welch,

The Council on Culture & Arts (COCA) has a County-appointed board seat in the Tourism category that will become vacant at the end of the current term on September 30, 2025. In accordance with COCA's bylaws and appointment procedures, we are submitting a slate of candidates for your consideration to fill this seat for a four-year term beginning in FY26 (October 1, 2025).

Amanda Clements, the current COCA Board Member, has opted to step down after this term. Ms. Clements has enjoyed the appointment and looks forward to continuing her support of COCA in other ways.

Three qualified individuals have expressed interest in serving on the COCA Board of Directors. Their applications and resumes are attached for County Commission review. Each candidate brings a unique perspective and valuable experience that would contribute meaningfully to COCA's mission and the cultural vitality of our community.

In consultation with Ms. Lisa Davis, agenda coordinator, the County would include this reappointment on the September 16th County Commission meeting agenda.

If I can be of further assistance to you during this process, please don't hesitate to contact me at 850-224-2500 x2 or kathleen@tallahasseearts.org.

Our thanks to you, Commissioner Welch, for your continued support of arts & culture in Tallahassee.

Sincerely,

Kathleen Spehar
Executive Director
Council on Culture & Arts

I retired in the fall of 2024 so I no longer have a current resume. I worked with the State of Florida for 35 years. Twenty-seven of those years I worked with the Florida Park Service as the Group Sales Director at Wakulla Springs Lodge and State Park. I coordinated all events for the lodge and park including meetings, weddings, school field trips and tour groups. In 2011 I accepted a job with the Division of Blind Services as Adminstrative Services Coordinator. I worked with visually impaired blind vendors who worked in food service and vending in state and federal locations. My duties include recruiting candidates for the program and planning the quarterly committee of vendors meeting and Biennial Seminar. I finished my working career as the Event Coorinator with the Florida School Nutrition Association planning educational meetings and their annual seminar and food show.

I was on the membership committee for the Florida Capital Chapter of the Society of Government Meeting Planners and also was secretary for three years. I was secretary and President of SKAL, a tourism organization. Currently my husband and I volunteer with Theatre Tallahassee and the Southern Shakespeare Company.

Because I am retired, I have a flexible schedule and can be available for whatever duties the council needs.

WORK EXPERIENCE

FOUNDER + CEO

JUNE 2016–PRESENT

Grova Creative | Tallahassee, Florida

A black-owned, veteran creative agency that focuses on graphic design, brand strategy, advertising, websites, messaging, media buying, digital, social media, and more.

Some notable clients include Pilot Pens, Dollywood, Cooper Tires, Cayman Islands, Clarion University, Jamaica Classic NCAA Basketball Tournament, Florida A&M University, Florida State University, Urban Plates, Publix, Pete + Lucy, Slutty Vegan, Orkin, and semi-pro soccer teams.

- Manages business development
- Oversees staffing and management
- Mentors interns and junior staff
- Supervises all work completed by the creative team
- Leads planning and strategy of advertisements, marketing plans, and campaigns
- Manages daily operations, assign project workload, and monitor deadlines and budgets
- Drives sales and marketing contracts/accounts
- Evaluate trends and keep up-to-date with the latest marketing techniques

FOUNDER + CEO

JUNE 2021–PRESENT

Tallahassee Bike Fest | Tallahassee, Florida

As the founder of Tallahassee Bike Fest and its non-profit foundation, I have combined my passions for motorcycling and community service into one epic annual event. We provide a multi-day festival for riders and their families, focusing on black and women riders to promote belonging and enjoy our culture and lifestyle.

PUBLIC/EVENT SPEAKER

2019–PRESENT

Travel around the U.S., speaking at conferences, workshops, and events. Topics range from marketing, branding, digital, and advertising legislation. Have been a guest lecturer at advertising conferences and universities, such as Full Sail, FSU, Syracuse, Veteran Programs, and The DAVE School.

ART DIRECTOR

SEPT. 2015–JULY 2016

Sachs Media Group | Tallahassee, Florida

Continuously ranked as one of the Top 10 PR Firms in Florida since 2010, I had the pleasure of working with clients such as People's Trust Insurance, Capital Health Plan, HCA Healthcare, FSU Women's Basketball Team, Lauren's Kids, and Lyft, to name a few.

- Supervised and guided junior design staff
- Managed jobs with tight deadlines in fast paced environment
- Art directed photo and video shoots
- Conducted photo and photographer research for cross-media campaigns
- Designed and led production of print and digital campaigns
- Designed websites with a focus on UI/UX
- Collaborated with copywriter and account manager on conception of campaigns

If no resume is available, in the space below briefly describe or list the following: any previous experience on other Committees; your educational background; your skills and experience you could contribute to a Committee; any of your professional licenses and/or designations and indicate how long you have held them and whether they are effective in Leon County; any charitable or community activities in which you participate; and reasons for your choice of the Committee indicated on this Application. Please attach your resume, if one is available.

(COMMITTEE QUESTIONNAIRE)

IMPORTANT LEGAL REQUIREMENTS FOR COMMITTEE/BOARD/AUTHORITY MEMBERSHIP

Citizen participation is important in developing Leon County's programs and policies, and in providing quality public services to the community. We appreciate your interest in serving on a committee and would like to bring a few items to your attention. As a member of a committee/board/authority, you will be obligated to follow any applicable laws regarding government-in-the-sunshine, code of ethics for public officers, and public records disclosure.

The consequences for violating these applicable laws include criminal penalties, civil fines, and the voiding of any committee/board/authority action and of any subsequent action by the Board of County Commissioners. In order to be familiar with these laws and to assist you in answering the following questions, please take a few minutes to complete the mandatory orientation. Your application will not be deemed complete until you have completed the orientation.

Have you completed the Applicant Orientation for membership on Citizen Committees, Board & Authorities?* *Yes*

Are you currently serving on a County Advisory Committee or other Committee/Authority/Board?* *No*

Have you served on any previous Leon County committees?* *No*

Are you willing to complete a financial disclosure form if applicable?* *Yes*

Do you know of any circumstances that would result in you having to abstain from voting on a Committee/Board/Authority due to voting conflicts? (Not applicable to Focus Groups)* *No*

Are you or your employer, or your spouse or child or their employers, currently doing business with Leon County?* *No*

Are you or your employer, or your spouse or child or their employers, currently doing business with the Committee/Board/Authority to which you are applying for membership?* *No*

Do you currently have any employment or contractual relationship that would create a continuing or frequently recurring conflict with regard to your participation on a Committee/Board/Authority? (i.e. would you have frequent or reoccurring voting conflicts?)* *No*

Do you foresee participating in any competitive bid process for Leon County business during your time serving on this committee/board/authority?* *No*

Do you foresee participating in any competitive bid process involving business with the Committee/Board/Authority to which you are applying, during your time serving on that entity?* *No*

Is your personal information exempt from public records disclosure in accordance with FS 119.071(2)(j)1 or FS 119.071(4)? *No*

Per section 265.32 Florida Statutes, each council member will be charged with the responsibility of serving the best interests of the arts in the county and no council member shall view his or her role as that of representing any particular geographic area of the county, interest group, arts institution, community organization, or audience. No individual committed to, or owing allegiance to, any particular arts faction shall be eligible to serve on the council.

If appointed, I agree to comply with the above statutory regulation. *Yes*

All members must be qualified electors residing in Leon County.

Are you a registered voter in Leon County? *Yes*

Members must meet one of the membership eligibility criteria listed below. Please indicate your area of expertise.

- [ ] Business/Economic Development
- [ ] Historic Preservation / Ethnic Heritage
- [x] Marketing

Please explain: *I'm a Communications Director who does extensive marketing*

- [x] Practicing Artist

  Please explain: *I am a practicing fiber artist*

- [x] Tourism Industry

  Please explain: *I have previously worked for a TDC and I work with TDCs in my communications job.*

- [ ] Community Volunteerism
- [x] Resident of Leon County (At-large seat)

All statements and information provided in this application are true to the best of my knowledge.

Signature: Ms. Erika Zambello

The application was electronically sent: 5/8/2025 11:38:04 AM

Leon County
Board of County Commissioners

Notes for Agenda Item #30

Leon County Board of County Commissioners

Agenda Item #30

September 15, 2025

To: Honorable Chairman and Members of the Board

From: Chasity H. O'Steen, County Attorney

Title: First and Only Public Hearing to Consider an Ordinance Amending Chapter 7, Section 7-44 of the Code of Laws of Leon County, Florida; Entitled Collection; Revising the Methods for Collecting Fire Rescue Charges and Fees

Review and Approval:	Vincent S. Long, County Administrator Chasity H. O'Steen, County Attorney
Department / Division Review:	Chasity H. O'Steen, County Attorney
Lead Staff / Project Team:	Chasity H. O'Steen, County Attorney Ken Morris, Assistant County Administrator

Statement of Issue:

As requested at the July 8, 2025, meeting, the proposed Ordinance (Attachment #1) amends Chapter 7, Section 7-44 of the Code of Laws of Leon County, Florida; Entitled Collection; Revising the Methods for Collecting Fire Rescue Charges and Fees.

Fiscal Impact:

This item has no fiscal impact. The proposed Ordinance revises the methods of collection for the fire rescue charges and fees, with no changes in rates for FY 2026. All fire assessment revenue collected by the County on property tax bills will continue to be remitted to the City to pay for fire rescue services provided in the unincorporated area of the County.

Staff Recommendation:

Option #1: Conduct the Public Hearing and adopt the proposed Ordinance (Attachment #1) amending Chapter 7, Section 7-44 of the Code of Laws of Leon County, Florida; Entitled Collection; Revising the Methods for Collecting Fire Rescue Charges and Fees.

Report and Discussion

Background:

This item seeks Board approval of the proposed Ordinance (Attachment #1) amending Chapter 7, Section 7-44 of the Code of Laws of Leon County, Florida (Code); Entitled Collection; Revising the Methods for Collecting Fire Rescue Charges and Fees.

During Commissioner discussion at the July 8, 2025 meeting, the Board requested a public hearing be scheduled for September to consider an ordinance to remove the authority for the City to charge the fire services assessment on the utility bill for properties in the unincorporated area. The Board requested a proposed Ordinance that could be implemented by FY 2026 (October 1, 2025) for the County to collect the fire services assessment for all nongovernment properties in unincorporated Leon County using the uniform method of collection through the annual property tax bill.

The Interlocal Agreement Regarding the Provision of Fire and Emergency Medical Services addresses the levy and collection of the fire rescue charges (assessments for nongovernmental property, and fees for governmental property). Chapter 7, Section 7-44 of the Code, also identifies the methods that may be used to collect fire rescue charges in the unincorporated area of the County (Attachment #2).

Analysis:

The Interlocal Agreement Regarding the Provision of Fire and Emergency Medical Services (Agreement) provides that the City collects the fire services special assessments for nongovernmental property, including in the unincorporated area of the County unless the County uses the uniform method to collect the assessments pursuant to section 197.3632, Florida Statutes. By contrast, under the Interlocal Agreement only the City collects annual fire services fees for governmental property, including in the unincorporated area of the County.

Currently, the Code authorizes a utility to bill its customers and collect the fire rescue charges monthly. Talquin Electric Cooperative does not collect fire rescue charges, so this provision only applies to the City of Tallahassee (City). The utility customer of record and the owner of the property subject to the fire rescue charge are responsible for payment. The ordinance provides that bills for the fire rescue charge are payable at the same time, in the same manner, and subject to the same penalties as "other" utility fees charged and administered by the utility. Failure to pay a fire rescue charge subjects the property to the "discontinuance of other utility services and all other penalties and charges available under law relative to the discontinuance of such utility services."

The existing ordinance further provides that the County or, if authorized by the County, a utility may make alternative collection arrangements with property owners or tenants or both for the payment of the fire rescue charge. Under this provision the City collects the fire rescue charge from some customers in the unincorporated area of the County on a quarterly billing cycle.

In lieu of utilizing the utility bill or other billing mechanism, or in the event of failure to pay the fire rescue charge previously billed by one of those methods, the ordinance provides that the County may elect to collect fire rescue assessments using the uniform method for the levy, collection, and enforcement of non-ad valorem assessments pursuant to section 197.3632, Florida Statutes, or any other method authorized by law. Based on the current County Code, the County anticipates utilizing the uniform method of collection for 15,781 properties in FY 2026.

If the proposed ordinance is adopted, the fire rescue assessment imposed on nongovernmental property will no longer be billed and collected on a utility bill in the unincorporated area of the County. The use of the uniform method for the levy, collection, and enforcement of fire rescue assessments pursuant to section 197.3632, Florida Statutes, would be the exclusive method used by the County in the unincorporated area. Third-party billing arrangements would also no longer be permissible, and the City would be authorized to only bill and collect the fire rescue fee on governmental property on a utility bill or by quarterly billing.

Based on data provided by the City, this proposed change would impact 23,194 non-governmental properties currently billed on the monthly utility bill or quarterly billing effective October 1, 2025 (FY 2026). As required by Florida Statutes, first-class notices were sent to the 23,194 property owners to inform them of the date and time of the public hearing and that they may be subject to the non-ad valorem assessment for fire rescue services appearing on their tax bill for the first time. If the proposed ordinance is adopted, $7,982,358 in revenue estimated to be collected via direct billing by the City would now be collected by the County on the property tax bill. The tax roll for the County's collection of the non-ad valorem fire assessment would increase from 15,781 properties to 38,975 properties. All fire assessment revenue collected by the County on property tax bills will continue to be remitted to the City to pay for fire rescue services provided in the unincorporated area of the County.

Options:

1. Conduct the Public Hearing and adopt the proposed Ordinance (Attachment #1) amending Chapter 7, Section 7-44 of the Code of Laws of Leon County, Florida; Entitled Collection; Revising the Methods for Collecting Fire Rescue Charges and Fees.
2. Conduct the Public Hearing and do not adopt the proposed Ordinance (Attachment #1) amending Chapter 7, Section 7-44 of the Code of Laws of Leon County, Florida; Entitled Collection; Revising the Methods for Collecting Fire Rescue Charges and Fees.
3. Board direction.

Recommendation:

Option #1

LEON COUNTY ORDINANCE NO. _____

AN ORDINANCE OF THE BOARD OF COUNTY COMMISSIONERS OF LEON COUNTY, FLORIDA, AMENDING CHAPTER 7, ARTICLE IV, SECTION 7-44 OF THE CODE OF LAWS OF LEON COUNTY, FLORIDA; TITLED "COLLECTION"; REVISING THE METHODS OF THE COLLECTION OF THE FIRE RESCUE CHARGES; PROVIDING FOR SEVERABILITY; PROVIDING FOR APPLICABILITY; AND PROVIDING AN EFFECTIVE DATE.

RECITALS

WHEREAS, the City of Tallahassee (City) and the County have entered into an Interlocal Agreement for the provision of fire rescue services countywide (Interlocal Agreement); and

WHEREAS, the Interlocal Agreement provides funding and payment for fire rescue services by means of the levy and collection of special assessments upon benefited nongovernmental property and the imposition of fire rescue services fees upon benefited governmental property; and

WHEREAS, the Board of County Commissioners of Leon County desires to enact an ordinance amending Chapter 7, Article VI, Section 7-44 of the Code of Laws of Leon County, titled "Collection."

BE IT ORDAINED BY THE BOARD OF COUNTY COMMISSIONERS OF LEON COUNTY, FLORIDA, that:

Section 1. Amendments to Chapter 7.

Section 7-44 of the Code of Laws of Leon County, Florida, entitled "Collection", is hereby amended to read as follows:

Sec. 7-44. – Method of Collection.

(a) *Collection of fire rescue fee on government property.*

The fire rescue fee may be billed to government utility customers and collected on a monthly basis by a utility, as authorized by the county, in the regular utility billing cycle, appearing as a separate line item. The fire rescue fee may otherwise be billed to government property and collected on a quarterly basis, as authorized by the county.

(b) *Collection of fire rescue assessment on nongovernment property.*
The county shall collect fire rescue assessments by the uniform method for the levy, collection, and enforcement of non-ad valorem assessments, in accordance with Section 197.3632, Florida Statutes (2024), as amended, or any other method which is authorized by law.

Section 2. Effective Date.

This ordinance shall have effect upon filing with the Florida Department of State.

Section 3. Severability.

If any word, phrase, clause, section, or portion of this ordinance is declared by any court of competent jurisdiction to be void, unconstitutional, or unenforceable, then all remaining provisions and portions of this ordinance shall remain in full force and effect.

Section 4. Applicability.

This ordinance shall apply to and be effective in the unincorporated area of Leon County.

DONE, ADOPTED AND PASSED by the Board of County Commissioners of Leon County, Florida, this _____ day of _____, 2025.

ORDINANCE NO. 09-08

AN ORDINANCE OF THE BOARD OF COUNTY COMMISSIONERS OF LEON COUNTY, FLORIDA, AMENDING CHAPTER 7, "COURTS AND LAW ENFORCEMENT" OF THE LEON COUNTY CODE OF LAWS, BY CHANGING ITS TITLE TO "COURTS, LAW ENFORCEMENT AND FIRE RESCUE SERVICES"; BY ADDING A NEW ARTICLE IV, ENTITLED "FIRE RESCUE SERVICES, FEES, SPECIAL ASSESSMENTS"; BY ADDING A NEW SECTION 7-38 "GENERAL FINDINGS"; BY ADDING A NEW SECTION 7-39 "DEFINITIONS"; BY ADDING A NEW SECTION 7-40 "APPLICABILITY"; BY ADDING A NEW SECTION 7-41 "ALTERNATIVE METHOD"; BY ADDING A NEW SECTION 7-42 "FIRE RESCUE FEE ON GOVERNMENT PROPERTY"; BY ADDING A NEW SECTION 7-43 "FIRE RESCUE ASSESSMENTS ON NONGOVERNMENT PROPERTY"; BY ADDING A NEW SECTION 7-44 "COLLECTION"; PROVIDING FOR CONFLICTS; PROVIDING FOR SEVERABILITY; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the county desires to provide fire rescue services in the most efficient manner possible in order to promote the health, safety and general welfare of its citizenry; and

WHEREAS, the county desires to create a uniform financial mechanism for the provision of such fire rescue services to the citizens of Leon County on an equitable basis; and

WHEREAS, the City of Tallahassee and the county have entered into an Interlocal Agreement to administer the provision of fire suppression, fire prevention, and emergency medical services countywide; and

WHEREAS, the Interlocal Agreement by and between the county and the City of Tallahassee provides for the funding and payment for fire rescue services by means of the levy and collection of special assessments upon benefited property and the imposition of fire rescue services fees; and

WHEREAS, the Board of County Commissioners desires to enact an ordinance amending Chapter 7, Leon County Code of Laws, relating to the provision and funding of fire rescue services;

BE IT ORDAINED by the Board of County Commissioners of the County of Leon, Florida, as follows, that:

Section 1. The title to Chapter 7 of the Code of Laws of Leon County, Florida, is hereby amended to read as follows: Courts, Law Enforcement and Fire Rescue Services.

Section 2. Chapter 7 of the Code of Laws of Leon County, Florida, is hereby amended by adding a new Article IV titled Fire Rescue Services; Fees; Special Assessments.

Sec. 7-38. General findings.

It is hereby ascertained, determined, and declared that:

(1) Pursuant to Article VIII, section 1, Florida Constitution, and F.S. §§ 125.01(d) and 125.01(r), the county commission has all powers of local self government as a charter county necessary to perform county functions and to render county and municipal services except where prohibited by law. Such county power may be exercised by the enactment of legislation in the form of county ordinances.

(2) The purposes of this article are to:

a. Authorize a procedure for the funding of fire rescue services, facilities, or programs providing benefits to property within the county;

b. Provide procedures and standards for the imposition of a fire rescue charge under the general home rule powers of the county charter to impose special assessments and fees;

c. Legislatively determine the special benefit provided to assessed property from fire rescue services provided by the county; and

d. Legislatively determine that the fire rescue fee imposed on government property is a fair, reasonable and equitable method for funding the fire rescue services provided by the county.

Sec. 7-39. Definitions.

The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Assessed property means all parcels of land subject to the fire rescue assessment that receive a special benefit from the delivery of the fire rescue services, programs or facilities.

Building means any structure, whether temporary or permanent, built for support, shelter or enclosure of persons, chattel, or property of any kind, including mobile homes. This term shall include the use of land in which lots or spaces are offered for use, rent or lease for the replacement of mobile homes, travel trailers, or the like for residential purposes.

Fire rescue assessment means a special assessment lawfully imposed by the county commission against assessed property to fund all or any portion of the cost of the provision of fire rescue services, facilities, or programs providing a special benefit to property as a consequence of possessing a logical relationship to the value, use, or characteristics of the assessed property.

Fire rescue assessment rate resolution means the resolution described in section 7-43 establishing the rate at which a fire rescue assessment will be computed.

Fire rescue charge means collectively fire rescue assessments and fire rescue fees.

Fire rescue cost means the amount determined by the county commission to be charged over a designated time period to fund all or any portion of the cost of the provision of fire rescue services, facilities, or programs which provide a special benefit to assessed property, and are fairly and reasonably charged to government property for the fire rescue services, facilities, and programs such property receives.

Fire rescue cost for assessed property means the subset of fire rescue cost fairly and reasonably attributable to nongovernment property.

Fire rescue cost for government property means the subset of fire rescue costs fairly and reasonably attributable to government property.

Fire rescue fee rate resolution means the resolution described in section 7-42 establishing the rate at which a fire rescue fee will be computed.

Government property means property owned by the United States of America or any agency thereof, a sovereign state or nation, the state of Florida or any agency thereof, a county, a special district or a municipal corporation.

Nongovernment property means all property that is not government property.

Owner means the person reflected as the owner of property on the tax roll or utility bill.

Property appraiser means the property appraiser of the county.

Tax collector means the tax collector of the county.

Tax roll means the real property ad valorem tax assessment roll maintained by the property appraiser for the purpose of the levy and collection of ad valorem taxes.

Utility means that utility owned and operated by the City of Tallahassee, Talquin Electric Cooperative, or any other utility providing electricity, water and wastewater services, solid waste

services, natural gas, and stormwater services, or any combination of the foregoing, and billing customers on a monthly or periodic basis.

Utility customer of record means the person or entity assuming responsibility for the payment for services of the utility.

Sec. 7-40. Applicability.

This article and the county commission's authority to impose assessments and fees pursuant to general law this article shall be applicable throughout the unincorporated areas of the county, as may be amended from time to time.

Sec. 7-41. Alternative method.

(a) This article shall be deemed to provide an additional and alternative method for doing of the things authorized hereby and shall be regarded as supplemental and additional to powers conferred by other laws, and shall not be regarded as in derogation of any powers now existing or which may hereafter come into existence. This article, being necessary for the welfare of the inhabitants of the county shall be liberally construed to effect the purposes hereof.

(b) Nothing in this article shall preclude the county commission from directing and authorizing, by resolution, the combination with each other of:

(1) Any supplemental or additional notice deemed proper, necessary, or convenient by the county;

(2) Any notice required by this article; or

(3) Any notice required by law, including the Uniform Method for the Levy, Collection and Enforcement of Non-Ad Valorem Assessments.

(c) Any actions of the county commission required to be taken by resolution pursuant to this article may be combined into a single resolution and a separate resolution for each action shall not be required.

Sec. 7-42. Fire rescue fee on government property.

(a) *Legislative declarations as to fire rescue fee on government property.* It is hereby ascertained and declared that the fire rescue fee as authorized in this article is reasonably related to the cost of providing fire rescue services, facilities and programs to government property. The fire rescue fee is not a special assessment; it is a fee for services available and rendered to government property.

(b) *General authority.*

(1) The county commission is hereby authorized to impose a fire rescue fee on all government property that is improved by the existence or construction of a building to fund all or any portion of the fire rescue cost for government property at a fair, just, reasonable cost of providing fire rescue services to such property.

(2) The rate of the fire rescue fee for each classification of government property shall be determined by a subsequently adopted fire rescue fee rate resolution. The fire rescue fee rate resolution shall determine the fire rescue cost for government property and allocate such cost in a fair, reasonable, just and equitable manner among all government property. The fire rescue fee rate resolution shall also establish the method by which the fire rescue fee will be calculated for each classification of government property.

Sec. 7-43. Fire rescue assessments on nongovernment property.

(a) *Legislative declarations as to the existence of special benefit.* It is further hereby ascertained and declared that the fire rescue services, facilities, and programs provide a special benefit to nongovernment property that is improved by the existence or construction of a building based upon the following legislative determinations:

(1) Fire rescue services possess a logical relationship to the use and enjoyment of improved property by:

a. Protecting the value of the improvements and structures through the provision of available fire rescue services;

b. Protecting the life and safety of intended occupants in the use and enjoyment of improvements and structures within improved parcels;

c. Lowering the cost of fire insurance by the presence of a professional and comprehensive fire rescue program within the unincorporated area of the county;

d. Containing the spread of fire incidents occurring on vacant property with the potential to spread and endanger the structures and occupants of improved property; and

e. Enhancing the value of business and commercial property that is improved by the existence or construction of a building, which enhanced value can be anticipated to be reflected in the rental charge or value of such business or commercial property.

(b) *General authority.*

(1) The county commission is hereby authorized to impose a fire rescue assessment to fund all or any portion of the fire rescue cost for assessed property upon benefited nongovernment property at a rate of assessment based on the special benefit accruing to such property from the provision of fire rescue services, facilities, or programs.

(2) All fire rescue assessments shall be imposed in a subsequently adopted fire rescue assessment rate resolution. Such fire rescue assessment rate resolution shall determine the amount of the fire rescue assessment against assessed property pursuant to an apportionment methodology based upon a classification of property designed to provide a fair and reasonable apportionment of the fire rescue cost for assessed property among properties on a basis reasonably related to the special benefit provided by fire rescue services, facilities, or programs funded with assessment proceeds.

Sec. 7-44. Collection.

(a) *Collection of fire rescue charges on the utility bill.*

(1) The fire rescue charge may be billed to utility customers and collected on a monthly basis by a utility, as authorized by the county, in the regular utility billing cycle, appearing as a separate line item.

(2) The utility customer of record and the owner of such property subject to a fire rescue charge are responsible for payment of the fire rescue charge as the charge is either a fire rescue fee on government property which is in exchange for

services and facilities furnished to such property to manage and control the fire rescue burden generated by the use and development of such property, or alternatively, the charge is a fire rescue assessment on nongovernment property for which the property receives a special benefit from the provision of fire rescue services, facilities and programs by the county.

(3) Bills for the fire rescue charge shall be payable at the same time, in the same manner, and subject to the same penalties as have been established for other utility fees charged and administered by the utility. The owner of the subject property and/or utility customer of record shall be notified of any deficiency in the payment of the fire rescue charge in the same manner as other delinquent utility bills. The failure to pay such a fire rescue charge shall subject the property to the discontinuance of other utility services and all other penalties and charges available under law relative to the discontinuance of such utility services.

(4) Notwithstanding the provisions of this section, the county, or if authorized by the county, a utility may make alternative collection arrangements with property owners or tenants or both for the payment of the fire rescue charge.

(b) *Additional method of collection of fire rescue assessments.* In lieu of utilizing the utility bill or other billing mechanism, or in the event of failure to pay such fire rescue charge previously billed, the county may elect to collect fire rescue assessments by the Uniform Methods for the Levy, Collection and Enforcement of Non-Ad Valorem Assessments, in accord with § 197.3632, Florida Statutes (2008), as amended, or any other method which is authorized by law.

Section 3. Conflicts.

All ordinances or parts of ordinances in conflict with the provisions of this ordinance are hereby repealed to the extent of such conflict, except to the extent of any conflicts with the Tallahassee-Leon County 2010 Comprehensive Plan as amended, which provisions shall prevail over any parts of this ordinance which are inconsistent, either in whole or in part, with the said Comprehensive Plan.

Section 4. Severability.

If any provisions or portion of this Ordinance is declared by any court of competent jurisdiction to be void, unconstitutional, or unenforceable, then all remaining provisions and portions of this Ordinance shall remain in full force and effect.

Section 5. Effective Date.

This ordinance shall have effect upon becoming law.

DONE, ADOPTED AND PASSED by the Board of County Commissioners of Leon County, Florida this 19th day of March, 2009.

FLORIDA COUNTY ORDINANCE DATA RETRIEVAL SYSTEM (CODRS) CODING FORM

Instructions: Florida's Department of State, Bureau of Administrative Code has developed the County Ordinance Data Retrieval System (CODRS) to facilitate the tracking of County ordinances in Florida's 67 Counties. CODRS' data base is composed of over 25,000 county ordinances enacted since 1974.

We request your cooperation in completing this coding form. It is to be completed whenever your county enacts a new ordinance. Simply complete this form and include it with other pertinent ordinance information that is submitted to the Bureau of Administrative Code.

To code this form properly, please refer to the "keyfields" description sheet that has been given to your County Attorney's Office. If you do not have this sheet please contact the Bureau. We will be happy to fax one to you for referencing purposes. Please fill out this form as completely as is possible.

Thank you for your assistance. Should you need further assistance please contact the Bureau of Administrative Code, Department of State at (850)245-6270 or Suncom 205-6270.

Business Impact Estimate

In accordance with Section 125.66(3)(a), Florida Statutes (F.S.), a Business Impact Estimate (BIE) is required to be: 1) prepared before enacting certain ordinances and 2) posted on Leon County's website no later than the date the notice of intent to consider the proposed ordinance is advertised (which, per Section 125.66(2)(a), F.S., is at least ten (10) days before the Public Hearing).

Proposed Ordinance's title in full: An Ordinance of the Board of County Commissioners of Leon County, Florida, Amending Chapter 7, Section 7-44 of the Code of Laws of Leon County, Florida; Entitled Collection; Revising the Methods of the Collection of the Fire Rescue Charges [and Fees]; Providing for Severability; Providing for Applicability; and Providing for an Effective Date.

Proposed Ordinance Public Hearing Date: September 15, 2025

Pursuant to Section 125.66(3)(c), F.S., the following types of ordinances are exempt from the BIE requirement. As such, if one or more boxes are checked below, Leon County, Florida, believes that a BIE is not required by state law for the proposed ordinance referenced above. Leon County, Florida, reserves the right to revise this BIE following an initial posting.

- ☐ The proposed ordinance is required for compliance with Federal or State law or regulation;
- ☐ The proposed ordinance relates to the issuance or refinancing of debt;
- ☐ The proposed ordinance relates to the adoption of budgets or budget amendments, including revenue sources necessary to fund the budget;
- ☐ The proposed ordinance is required to implement a contract or an agreement, including, but not limited to, any Federal, State, local, or private grant, or other financial assistance accepted by a county government;
- ☐ The proposed ordinance is an emergency ordinance;
- ☐ The proposed ordinance relates to procurement; or
- ☐ The proposed ordinance is enacted to implement the following:
  a. Development orders and development permits, as those terms are defined in Section 163.3164, F.S., and development agreements, as authorized by the Florida Local Government Development Agreement Act under Sections 163.3220 – 163.3243, F.S.;
  b. Comprehensive plan amendments and land development regulation amendments initiated by an application by a private party other than the County;
  c. Sections 190.005 and 190.046, F.S., regarding community development districts;
  d. Section 553.73, F.S., relating to the Florida Building Code; or
  e. Section 633.202, F.S., relating to the *Florida Fire Prevention Code*.

In accordance with Florida law Leon County, Florida, hereby posts the following BIE information for this proposed Ordinance on its website for public viewing and consideration on this 4th day of September 2025:

1. Summary of the proposed ordinance (must include statement of the public purpose, such as serving the public health, safety, morals, and welfare): *The proposed ordinance revises the current method of collection for fire rescue charges, which are used to fund the provision of fire services for the unincorporated area of the County. Currently, the Code authorizes a utility to bill its customers and collect the fire rescue charges monthly, or that the County or, if authorized by the County, a utility may make alternative collection arrangements with property owners or tenants or both for the payment of the fire rescue charge. If the proposed ordinance is adopted, the fire rescue assessment imposed on nongovernmental property will no longer be billed and collected on a utility bill or alternative collection method in the unincorporated area of the County. The use of the uniform method for the levy, collection, and enforcement of fire rescue assessments pursuant to section 197.3632, Florida Statutes, would be the exclusive method used by the County in the unincorporated area.*

2. Estimate of direct economic impact of the proposed ordinance on private, for-profit businesses in the county, including the following (if any):

a.) Estimate of direct compliance costs that businesses may reasonably incur if the ordinance is enacted: *N/A*

b.) Any new charge or fee imposed by the proposed ordinance for which businesses will be financially responsible: *N/A; There are no new charges or fees associated with the proposed ordinance changes.*

c.) Estimate of Leon County's regulatory costs, including estimated revenues from any new charges or fees to cover such costs: *N/A*

3. Good faith estimate of the number of businesses likely to be impacted by the proposed Ordinance: *Approximately 977 businesses would be assessed on the property tax bill for fire services if the proposed ordinance is approved.*

4. Additional information Leon County deems necessary (if any):

Leon County
Government

NOTICE OF AMENDMENTS TO CHAPTER 7 OF THE CODE OF LAWS OF LEON COUNTY, FL

NOTICE OF PUBLIC HEARING NOTICE OF AMENDMENTS TO CHAPTER 7 OF THE CODE OF LAWS OF LEON COUNTY, FLORIDA

Notice is hereby given that the Board of County Commissioners of Leon County, Florida, will conduct a public hearing on Monday, September 15, 2025, at 6:00 p.m., or as soon thereafter as such matter may be heard, in the County Commission Chambers, 5th Floor, Leon County Courthouse, 301 South Monroe Street, Tallahassee, Florida, to consider adoption of an ordinance entitled to wit:

AN ORDINANCE OF THE BOARD OF COUNTY COMMISSIONERS OF LEON COUNTY, FLORIDA, AMENDING CHAPTER 7, SECTION 7-44 OF THE CODE OF LAWS OF LEON COUNTY, FLORIDA; ENTITLED COLLECTION; REVISING THE METHODS OF THE COLLECTION OF THE FIRE RESCUE CHARGES [AND FEES]; PROVIDING FOR SEVERABILITY; PROVIDING FOR APPLICABILITY; AND PROVIDING AN EFFECTIVE DATE.

Leon County will also broadcast the public hearing on Comcast channel 16, the Leon County Florida channel on Roku, and the County's Facebook page (https://www.facebook.com/LeonCountyFL/), YouTube channel (https://www.youtube.com/user/LeonCountyFL), and web site (www.LeonCountyFL.gov).

All interested parties are invited to present their comments at the public hearing at the time and place set out above.

Interested parties may also provide virtual real-time public comments during the public hearing. After the Board of County Commissioner's agenda is posted online, interested parties wishing to provide virtual real-time public comments must complete and submit the registration form provided at https://www2.leoncountyfl.gov/coadmin/agenda/ by 8:00 p.m. on Sunday, September 14, 2025. Following submittal of the registration form, further instructions for participating in the meeting will be provided. Persons needing assistance with registering or providing real-time comments may contact County Administration via telephone at (850) 606-5300. Please note that Board of County Commissioners Policy 01-05, Article IX., Section E., entitled "Addressing the Board," and Article IX., Section F., entitled "Decorum," shall remain in full force and effect.

Anyone wishing to appeal the action of the Board with regard to this matter will need a record of the proceedings and should ensure that a verbatim record is made. Such record should include the testimony and evidence upon which the appeal is to be based, pursuant to Section 286.0105, Florida Statutes.

In accordance with the Americans with Disabilities Act and Section 286.26, Florida Statutes, persons needing a special accommodation to participate in this proceeding should contact, on behalf of the Chair, Mathieu Cavell at Leon County Courthouse, 301 South Monroe Street, Tallahassee, Florida 32301 or CMR@leoncountyfl.gov, by written request at least 48 hours prior to the proceeding. Telephone: (850) 606-5300, 1-800-955-8771 (TTY), 1-800-955-8770 (Voice), or 711 via Florida Relay Service.
Copies of the Ordinance may be inspected as part of the agenda package on the County's website (https://www2.leoncountyfl.gov/coadmin/agenda/). To receive copies of the Ordinance by other means, such as email, mail, or facsimile transmittal, contact County Administration at (850) 606-5300.

Leon County
Board of County Commissioners

Notes for Agenda Item #31

Leon County Board of County Commissioners

Agenda Item #31

September 15, 2025

To: Honorable Chairman and Members of the Board

From: Vincent S. Long, County Administrator

Title: First and Only Public Hearing to Approve the Fire Rescue Assessment and Fee Rate Resolution, Approve the Resolution Adopting the Fire Rescue Services Non-Ad Valorem Assessment Roll, and Certification of the Entire Roll to the Tax Collector

Review and Approval:	Vincent S. Long, County Administrator
Department / Division Review:	Ken Morris, Assistant County Administrator Roshaunda Bradley, Director, Office of Management & Budget
Lead Staff / Project Team:	Brandy Furbee, Budget Manager Demetrius Jones, Management and Budget Analyst

Statement of Issue:

This public hearing considers the adoption of a Fire Rescue Assessment and Fee Rate Resolution without any increase to the rate, adoption of the Fire Rescue Services assessment roll for all properties being assessed for the first time, and certification of the entire assessment roll to the Tax Collector.

Fiscal Impact:

This item has a fiscal impact. The total estimated collection for the unincorporated area of the Fire Rescue Services Assessment is $12,139,331, of which $4,156,973 will be placed on property tax bills as an assessment for Fiscal Year (FY) 2026. The remaining amount ($7,982,358) will be collected by the City of Tallahassee through the City utility bill and quarterly billing. However, if the Board approves proposed revisions to the methods for collecting fire rescue charges for non-governmental properties in a separate agenda item, these properties will no longer be billed through the utility bill and quarterly billing and will also be assessed on the property tax bill beginning in FY 2026.

Staff Recommendation:

Provided on the following page.

Staff Recommendation:

Option #1: Approve the proposed Fire Rescue Assessment and Fee Rate Resolution relating to the provision and funding of Fire Rescue Services to incorporate amendments to Chapter 7, Section 7-44, of the Code of Laws of Leon County, Florida, as approved in a separate agenda item (Attachment #1).

Option #2: Conduct the first and only public hearing and approve the proposed Resolution adopting the Fire Rescue Services Non-Ad Valorem Assessment Roll to include all non-government properties previously billed via the monthly City of Tallahassee utility bill or quarterly billing (Attachment #2), as approved in a separate agenda item, and authorize the certification of the entire Roll to the Tax Collector (Attachment #3).

Report and Discussion

Background:

This public hearing considers the adoption of a Fire Rescue Assessment and Fee Rate Resolution (Attachment #1) without any increase to the rate, adoption of the Fire Rescue Services assessment roll for all properties being assessed for the first time (Attachment #2), and certification of the entire assessment roll to the Tax Collector (Attachment #3). The Fire Rescue Services Assessment is included on the Truth-In-Millage (TRIM) Property Tax Notice and remains unchanged for next fiscal year.

In 1988, the County began contracting with the City of Tallahassee for fire rescue services in the unincorporated area of the County through an interlocal agreement. That contract was amended several times through 2005. In 2009, a new Interlocal Agreement for five years was executed and subsequently amended and extended. As part of this Agreement a joint rate study is adopted and updated from time to time, to uniformly charge properties for fire services in both the City and unincorporated areas of the County. The Interlocal Agreement contemplates five-year rate studies to ensure that fire rescue services are properly funded.

In April 2023, the Board approved the most recent fire rescue services assessment study, which is incorporated into the most recent amendment to the Interlocal Agreement providing for the flat rates for residential, commercial, industrial/warehouse, and government properties to be imposed during the current five-year term (FY 2024 – FY 2028). The rates went into effect on October 1, 2023, and were based on the City's estimated costs at that time to provide fire rescue services through the current term ending on September 30, 2028.

On January 14, 2025, 15 months into the current five-year term, the City notified the County that the revenue generated from the fire services assessment would not be sufficient to continue to provide fire services at the current service level and recommended an early review of the rates. The County Administrator notified the Board and, with the County Attorney, scheduled meetings with City counterparts to gather additional information. At that time, the City projected the need to increase the fire assessment by an estimated 20-25% in FY 2026, which will be the third year of the current five-year term, and sought to hire a third-party consultant to revise the rate study. Based on the cost and expenditure information provided to the consultant by the City and the monies in the Fire Services Reserve Fund, the consultant review determined that increasing the rates by approximately 22% would be necessary based upon the information provided by the City.

On May 27, 2025, the Board held a special meeting to review the updated rate study by the third-party consultant. The agenda materials for the special meeting identified new costs for fire services that had not been agreed to by the County in the Interlocal Agreement or the five-year rate study, and cost increases which exceeded the terms of the Interlocal Agreement, thereby requiring County approval to utilize fire services reserve funds. As a result, the Board voted to offer a compromise to reduce the City's proposed fire service assessment and fee increase from 22% to 17%; however,

the City Commission rejected this offer at its June 11, 2025, budget workshop. At the August 12, 2025, special meeting, the Board voted to not increase the current assessment and fee rates for FY 2026.

Based on the Board's action, as is done annually in accordance with Florida Statutes, first class mail notices were sent to property owners that may be added to the Non-Ad Valorem Assessment Roll for Fire Rescue Services for the first time. The notices reflect that there will be no increase in the County fire services assessment in FY 2026. Consistent with section 197.3632, Florida Statutes, the amount of the assessment levied by the Board cannot exceed the total amount identified in the first class mail notices for each parcel for the next fiscal year beginning October 1, 2025.

During Commissioner discussion at the July 8, 2025, meeting, the Board requested a public hearing be scheduled for September to consider an ordinance to remove the authority for the City to charge the fire services assessment on the utility bill for properties in the unincorporated area. This would require the County to collect the fire services assessment using the uniform method of collection through the annual property tax bill. Consistent with the Board's consideration of the proposed ordinance and public hearing on the method of collection in a separate agenda item, an updated Fire Rescue Assessment and Fee Rate Resolution (Attachment #1) and Resolution to adopt the Fire Rescue Services Non-Ad Valorem Assessment Roll (Attachment #2) to include properties already on the property tax bill and properties in the unincorporated area currently billed through City utilities is presented for Board approval, to incorporate amendments to Chapter 7, Article IV, Section 7-44, of the Code of Laws of Leon County, Florida, revising the methods for collecting fire rescue charges and fees (Options #1 and #2). These policy options are contingent upon Board approval of the proposed ordinance in a separate agenda item to revise the method of collection.

If the proposed ordinance changes are not approved, Option #3 provides a Resolution (Attachment #4) to adopt the Fire Rescue Services Non-Ad Valorem Assessment Roll to add 681 properties, as part of the routine annual updates to the assessment roll, to be assessed for the first time. This does not include or make changes to properties billed through City utilities (keeps the status quo in collection methods).

Analysis:

The County currently collects the Fire Rescue Services assessment in three ways: City Utility invoice, quarterly direct bill by the City, and the annual property tax bill. Under Section 197.3632(9), Florida Statutes, special assessments may be placed on the annual property tax bill as a non-ad valorem assessment irrespective of whether the assessment has previously been collected by another method. For FY 2026, an additional 681 property owners will have the assessment removed from the quarterly payment system and added to their property tax bill. Of the 20,514 property owners initially on the quarterly billing method, 15,781, or 80% have moved to the property tax bill since 2010. These property owners either preferred to pay the assessment on their property tax bill or failed to remain current with the quarterly bills. However, if the Board

approves proposed revisions to the methods for collecting fire rescue charges for non-government properties in a separate agenda item, an additional 23,194 properties will no longer be billed through the utility bill and quarterly billing and will also be assessed on the property tax bill beginning in FY 2026.

The total estimated collection for the unincorporated area for the FY 2026 Fire Assessment is $12,139,331; this includes $7,982,358 collected by the City through utility bills and properties remaining on quarterly billing, and $4,156,973 as an assessment on property tax bills.

The proposed assessment rolls are available for public inspection at the County Administration offices located on the fifth floor of the County Courthouse. A link to the County's website has also been created at https://leoncountyfl.gov/specialassessment, which provides additional access to persons interested in reviewing the proposed assessment roll. The assessment roll contains the name of the owner, the parcel identification number, the parcel address, and the amount of the assessment. Written comments and objections filed by affected property owners, if any, have been compiled and likewise have been made available for public inspection on the County's website and available for public inspection in the County Administration Office.

The proposed Resolution adopting and imposing the updated Fire Rescue Assessments and Fees, Resolution adopting the Fire Rescue Services Non-Ad Valorem Assessment Roll for those properties whose assessment is collected utilizing the Uniform Method, and the Certificate to the Assessment Roll to the Tax Collector, are included for the Board's consideration.

The public hearing notice was published in the Tallahassee Democrat (Attachment #5) and first-class notices were sent to the 681 property owners subject to the non-ad valorem assessment for fire rescue services for the first time. Additionally, 23,194 first-class notices were sent to property owners in the unincorporated area currently paying the assessment via the monthly City utility bill or quarterly billing. Changing the method of collection for the 23,194 properties to be assessed on the property tax bill for the first time is contingent upon Board action on a separate agenda item amending Chapter 7, Article IV, Section 7-44, of the Code of Laws of Leon County, Florida, revising the methods for collecting fire rescue charges and fees, and Board approval of Options #1 and #2 in this agenda item.

Not adopting one of the Non-Ad Valorem Assessment Rolls for Fire Rescue Services will create a budget impact in the amount of $12,139,331 for FY 2026 that the County would be responsible to pay into the Fire Rescue Services Fund from other revenue sources.

Options:

1. Approve the proposed Fire Rescue Assessment and Fee Rate Resolution relating to the provision and Funding of Fire Rescue Services to incorporate amendments to Chapter 7, Section 7-44, of the Code of Laws of Leon County, Florida, as approved in a separate agenda item (Attachment #1).
2. Conduct the first and only public hearing and approve the proposed Resolution adopting the Fire Rescue Services Non-Ad Valorem Assessment Roll to include all non-governmental properties previously billed via the monthly City of Tallahassee utility bill or quarterly billing (Attachment #2), as approved in a separate agenda item, and authorize the certification of the entire Roll to the Tax Collector (Attachment #3).
3. Conduct the first and only public hearing and approve the proposed Resolution adopting the Fire Rescue Services Non-Ad Valorem Assessment Roll (Attachment #4), which reflects the current methods of collection by the County and City of Tallahassee in the unincorporated area, and authorize the certification of the entire Roll to the Tax Collector (Attachment #3).
4. Conduct the first and only public hearing and do not approve the proposed Resolution adopting the Fire Rescue Services Non-Ad Valorem Assessment Roll.
   (This action would require changes to the FY 2026 proposed budget.)
5. Board direction.

Recommendation:

Options #1 and #2

Attachments:

RESOLUTION NO. 25-_____

AN AMENDED AND RESTATED RESOLUTION OF THE BOARD OF COUNTY COMMISSIONERS OF LEON COUNTY, FLORIDA, RELATING TO THE PROVISION AND FUNDING OF FIRE RESCUE SERVICES; PROVIDING FOR RECITALS; PROVIDING FOR AUTHORITY; PROVIDING FOR DEFINITIONS; PROVIDING FOR A RESOLUTION; PROVIDING FOR PROVISION OF FIRE RESCUE SERVICES; PROVIDING FOR GENERAL LEGISLATIVE DETERMINATIONS; PROVIDING FOR FIRE RESCUE CHARGE; PROVIDING FOR EXEMPT PROPERTY; PROVIDING FOR LIEN; PROVIDING FOR COLLECTION OF FIRE RESCUE CHARGE; PROVIDING FOR FINAL ADJUDICATION; REPLACING AND SUPERSEDING RESOLUTION NO. ~~15-20~~23-11; AND PROVIDING AN EFFECTIVE DATE.

RECITALS

WHEREAS, the County desires to continue to provide fire rescue services, facilities and programs, hereafter "*fire rescue services*," in the most efficient manner possible in order to promote the health, safety and general welfare of its citizens; and

WHEREAS, the County desires to maintain a uniform financial mechanism for the funding of such *fire rescue services* to its citizens on an equitable basis; and

WHEREAS, the City of Tallahassee and the County have entered into an Interlocal Agreement, as amended, to administer the provision of and funding for *fire rescue services*; and

WHEREAS, the Interlocal Agreement by and between the City of Tallahassee and the County provides for the funding and payment for *fire rescue services* by means of the levy, imposition and collection of special assessments upon benefited *nongovernment property* and the imposition of fire rescue fees on *government property*; and

WHEREAS, on March 19, 2009, the Board of County Commissioners enacted an ordinance amending Chapter 7, Leon County Code of Laws, relating to the provision and funding of *fire rescue services*; and

WHEREAS, pursuant to Chapter 7, Leon County Code of Laws, on May 26, 2015, the Board of County Commissioners adopted a *fire rescue assessment rate resolution* and *fire rescue fee rate resolution*, Resolution No. 15-20; and

WHEREAS, pursuant to Chapter 7, Leon County Code of Laws, on July 11, 2023, the Board of County Commissioners adopted a *fire rescue assessment rate resolution* and *fire rescue fee rate resolution*, Resolution No. 23-11; and

WHEREAS, the Board of County Commissioners utilized a rate study, attached to an incorporated into Resolution No. ~~15-20~~23-11 as Exhibit "A", in calculating the fire rescue assessment rate and fire rescue fee; and

WHEREAS, the fire rescue assessment rate and fire rescue fee established in Resolution No. ~~15-20~~23-11apportioned costs based upon a reasonable estimation of the five-year average annual cost of providing fire rescue services, and the rates no longer adequately fund the costs of providing fire rescue services; and

WHEREAS, pursuant to the Interlocal Agreement, as amended, the Board of County Commissioners commissioned a ~~new~~ rate study utilizing the same methodology set forth in the rate study attached to Resolution No. ~~15-20~~23-11, but with updated service delivery, fire incident data, property data and budget information; and

WHEREAS, a ~~new~~ rate study ~~has been~~ was completed in 2023, and ~~shows~~ showed that an adjustment to the rates ~~is~~ was needed to adequately fund fire rescue services; and

WHEREAS, the Board of County Commissioners adopted a *fire rescue assessment*

rate resolution established in Resolution No. 23-11; and

WHEREAS, the Board of County Commissioners adopted an Ordinance on September 15, 2025, amending Chapter 7, Article IV, Section 7-44 of the Leon County Code of Laws, regarding the methods of collection of the fire rescue fee and assessment; and

WHEREAS, the Board of County Commissioners desires to adopt an amended and restated ~~A new~~ *fire rescue assessment rate resolution* and *fire rescue fee rate resolution* pursuant to Chapter 7, Leon County Code of Laws in order to reflect and adhere to Chapter 7, Article IV, Section 7-44 of the Leon County Code of Laws, as recently amended, and continue to adequately fund fire rescue services.

NOW, THEREFORE, BE IT RESOLVED by the Board of County Commissioners of Leon County, Florida, that:

Section 1. Recitals. The Recitals set forth above are deemed incorporated herein as if fully set forth below.

Section 2. Authority. This Resolution is adopted pursuant to the authority granted the County under Article VIII, Section 1, Florida Constitution, Chapter 125, Florida Statutes, the Leon County Charter, Chapter 7 of the Leon County Code of Laws, and other applicable provisions of law.

Section 3. Definitions. For purposes of this Resolution, the definitions contained in Section 7-39, Leon County Code of Laws, are incorporated herein by reference as if fully set forth below. In addition, as used in this Resolution, the following terms shall have the following meanings, unless the context hereof otherwise requires:

"*Building area*" means the actual area of a *building* expressed in square feet and reflected on the *tax roll* or, in the event such information is not reflected or is determined not to

be accurately reflected on the *tax roll*, that area determined by the County.

"*Code descriptions*" mean the descriptions listed in the *fixed property use codes* and the descriptions listed in the *improvement codes*.

"*Core stations*" are those fire stations located within five road miles of at least two other stations.

"*Commercial property*" means those *tax parcels* with a *code description* designated as "*commercial*" in the *improvement codes*, including those *tax parcels* that meet the definition of *recreational vehicle park* herein.

"*Cost apportionment*" means the apportionment of the *fire rescue cost* among all *property use categories* according to the *demand percentages* established pursuant to the apportionment methodology described in Sections 7.A.3 and 7.B.2 of this Resolution.

"*Cost Factor***"** means the factor that represents the varying cost in providing *fire rescue services* to the different *service zones*, as calculated in accordance with Section 7.B of this Resolution.

"*Demand percentage*" means the percentage of demand for *fire rescue services* attributable to each *property use category* determined by analyzing the historical demand for *fire rescue services* as reflected in *incident reports* in the *state database* under the methodology described in Sections 7.A.3 and 7.B.2 of this Resolution.

"*DOR code*" means a property use code established in Rule 12D-8.008, Florida Administrative Code, assigned by the Property Appraiser to *tax parcels*.

"*Dwelling unit*" means (1) a *building*, or a portion thereof, available to be used for residential purposes, consisting of one or more rooms arranged, designed, used, or intended to be used as living quarters for one family only, or (2) the use of land in which lots or spaces are

offered for rent or lease for the placement of mobile homes or the like for residential purposes.

"EMS services" means those services recorded in *FFIRS* that assign a "type of situation found code" of 3, 300, 311,320, 321, 321B, 322, 323, 381, 551E, 554, and 661.

"EMS Cost" means the amount, other than first response medical rescue services, determined by the County to be associated with *EMS services*.

"*FFIRS*" means the Florida Fire Incident Reporting System maintained by the Florida State Fire Marshal.

"Fire rescue cost" means the *fire rescue cost* as defined in Chapter 7 of the Leon County Code of Laws, but specifically excluding any *EMS Cost*.

"*Fire rescue services"* means fire rescue services, facilities and programs.

"*Fire rescue fee*" means a fee for *fire rescue services* provided to each improved parcel of *governmental property* located within the unincorporated area of the County.

"*Fire services property use category*" means the use codes developed for the purpose of assigning a *fire rescue charge* for the method of collection ~~on a *utility* bill~~.

"*Fixed property use codes*" mean the property use codes used by *FFIRS* as specified in the attached Exhibit A, Appendix B.

"*Improvement codes*" mean the building use codes assigned by the Property Appraiser to *tax parcels* as specified in the attached Exhibit A, Appendix C.

"*Incident report*" means an individual report filed with the Florida State Fire Marshal under *FFIRS* that is not associated with *EMS services*.

"*Industrial/warehouse property*" means those *tax parcels* with a *code description* designated as "*industrial/warehouse*" in the *improvement codes*.

"*Mixed use property*" means a *tax parcel* that contains *buildings* whose use descriptions

are capable of assignment under a *code description* in the *improvement codes* in more than one *property use category*.

"*Non-residential property*" means, collectively, *commercial property* and *industrial/warehouse property*.

"*Parcel apportionment*" means the further apportionment of the *fire rescue cost* allocated to each *property use category* by the *cost apportionment* among the *tax parcels* under the methodology established in Sections 7.A.3 and 7.B.2 of this Resolution.

"*Property use categories*" means, collectively, *residential property* and all categories of *non-residential property*.

"Recreational vehicle park" means (1) a place set aside and offered by a person, for either direct or indirect remuneration of the owner, lessor, or operator of such place, for the parking, accommodation, or rental of five or more recreational vehicles or tents; and (2) licensed by the Department of Health of the State of Florida, or its successor in function as a "recreational vehicle park" or “lodging park” under Chapter 513, Florida Statutes, as may be amended from time-to- time.

"*Residential property*" means those *tax parcels* designated as “Residential” in the *improvement codes.*

“*Service zones*” mean the geographic areas defined to differentiate between the two levels of *fire rescue services* provided within the County based upon proximity to *core stations.*

"State database" means the incident data derived from the *FFIRS incident reports* maintained by the Florida State Fire Marshal.

"Tax parcel" means a parcel of property located within the unincorporated area of the County to which the Property Appraiser has assigned a distinct ad valorem property tax

identification number.

Section 4. Resolution. This Resolution shall constitute the *fire rescue assessment rate resolution* and the *fire rescue fee rate resolution* as described in Sections 7-42 and 7-43, Leon County Code of Laws.

Section 5. Provision of Fire Rescue Services. The County shall continue to provide *fire rescue services* for the benefit of all parcels of *assessed property* located within the unincorporated areas of the County commencing October 1, ~~2023~~2025. All or a portion of the cost to provide such *fire rescue services* shall be funded from proceeds of the *fire rescue charge*. The remaining cost, if any, required to provide *fire rescue services* shall be funded by available County revenues other than such proceeds.

Section 6. General Legislative Determinations. It is hereby ascertained and declared that the *fire rescue services* provide a special benefit to the *assessed property* based upon the following legislative determinations and based upon that certain report entitled "City of Tallahassee and Leon County, Florida, Fire Assessment Memorandum" dated April 2023, prepared by Government Services Group, Inc., which is hereby specifically approved and adopted as Exhibit A, same being attached hereto and incorporated herein as if fully set forth below. Upon the adoption of this Resolution, the legislative determinations ascertained and declared in Sections 7-42 and 7-43, Leon County Code of Laws are hereby ratified and confirmed.

A. It is hereby ascertained, determined, and declared that each parcel of property subject to a *fire rescue charge* located within the unincorporated area of the County, and the *owners* and occupants of said parcel, will be benefited by the County's provision of *fire rescue services*, in an amount not less than the *fire rescue charge* imposed against such parcel and that

such *fire rescue charge,* as computed in a manner as set forth in this Resolution, constitutes a fair and reasonable charge for the provision of *fire rescue services*.

B. The availability and provision of comprehensive *fire rescue services* enhance and strengthen the relationship of such services to the use and enjoyment of the parcels of property, the market perception of the area and, ultimately, the property and rental values within the assessable area.

C. The Board does hereby find that the various legislative findings and determinations contained herein are found to have existed as of the original imposition of the *fire rescue charge* in 2009 and relate back thereto. Therefore, such findings shall be deemed to have been incorporated in the provisions of Chapter 7, Leon County Code of Laws, adopted March 13, 2009, Resolution No. 09-16, adopted June 9, 2009, ~~and~~ Resolution No. 15-20, adopted on May 26, 2015, and Resolution 23-11, adopted July 11, 2023, as if they had been set forth fully therein and continued thereafter.

Section 7. Fire Rescue Charges.

A. Fire Rescue Fee.

1. Imposition; Legislative Determinations.

a. A *fire rescue fee* is hereby imposed upon each improved parcel of *government property* located within the unincorporated area of the County, and which is hereby ascertained, determined, and declared to be reasonably and fairly related to the cost of providing *fire rescue services* to such *government property* and as such the *fire rescue fee* constitutes a fair, reasonable, just, and equitable manner for apportioning and allocating the *fire rescue cost for government property*. The *fire rescue fee* imposed

hereby is not a special assessment; it is a fee for services available and rendered to *government property*.

b. Upon the adoption of this Resolution determining the *fire rescue fee* and identifying the *government property* to be billed a *fire rescue fee*, the legislative determinations ascertained and declared in Section 7-42, Leon County Code of Laws, are hereby ratified and confirmed.

c. It is fair and reasonable to use the *fire services property use category* to assign property use for a *fire rescue fee* because the use codes are most compatible with the ~~system of billing on the City of Tallahassee *utility* bill~~ method of collection under Section 7-44, Leon County Code of Laws, as amended.

d. It is fair and reasonable to use the *fire rescue costs* for the development of the *fire rescue fee* and apply the *fire rescue fee* for future fiscal years at the rates established in this Resolution because it is hereby determined that the actual annual cost of providing *fire rescue services*, over the five-year period will be as great as or greater than the *fire rescue fee* established herein.

e. It is fair and reasonable and consistent with the decision of the Florida Supreme Court in the case of City of North Lauderdale v. SMM Properties, Inc., 825 So.2d 343 (Fla. 2002), to exclude from the *fire rescue costs*, amounts determined to constitute the cost of providing emergency medical services.

f. Apportioning *fire rescue costs for government property* among

classifications of improved *government property* based upon historical demand for *fire rescue services*, but not emergency medical services, is a fair and reasonable method of *cost apportionment* because it reflects the property uses' potential fire risk based upon *building* use and is a reasonable proxy for the amount of fire flow, fire fighters, quantity and size of apparatus, and other special firefighting equipment that must be available in accordance with the County's required standards and practices.

g. The greater the *building area*, the greater the potential for a large fire and the greater the firefighting resources that must be available in the event of a fire in a structure of that *building*'s size. Therefore, it is fair and reasonable to use *building area* as a proxy for determining the *fire rescue fees*.

h. It is fair and reasonable to not charge a *fire rescue fee* to *government property* that is vacant. ~~as evidenced by the cessation of *utility* services. The costs of administering and collecting *fire rescue fees* from such vacant property exceed the anticipated *fire rescue fees* that could be collected from such property.~~

i. The *incident reports* are the most reliable data available to determine the potential demand for *fire rescue services* from *government property* use and to determine the benefit to property use resulting from the availability of *fire rescue services* to protect and serve *buildings* located within *government property* and their intended occupants. There exist sufficient *incident reports* documenting the historical demand for *fire rescue services*

from *government property*. The *demand percentage* determined for each classification of *government property* by an examination of such *incident reports* is consistent with the experience of the County. Therefore, the use of *demand percentages* determined by an examination of *incident reports* is a fair and reasonable method to apportion the *fire rescue costs* among each classification of *government property*.

j. The suppression of fire on vacant property primarily benefits the *buildings* within the adjacent improved property by the containment of the spread of fire rather than the preservation of the vacant property. Therefore, it is fair and reasonable not to apportion any of the costs attributed to providing *fire rescue services* to vacant property and the *incident reports* omitted from the *demand percentage* calculation.

k. The budget is sized based upon its ability to provide *fire rescue services* to *assessed property* within the unincorporated area. Therefore, the level of services required to meet anticipated demand for *fire rescue services* and the corresponding fire services budget required to fund *fire rescue services* provided to non-specific property uses would be required notwithstanding the occurrence of any incidents from such non-specific uses. Therefore, it is fair and reasonable to omit from the *demand percentage* calculation, the *incident reports* documenting *fire rescue services* provided to non-specific property uses and vacant property.

2. Methodology for Determining Fire Rescue Fees. The *fire rescue fees* shall be calculated as follows:

a. The number of *incident reports* filed within a sampling period was determined for *government property* and all *property use categories* of *nongovernment property*. The percentages of total *incident reports* allocated to *government property* as compared to total *incident reports* allocated to *nongovernment property* were used to calculate the *fire rescue cost* for *assessed property* and the *fire rescue cost for government property*.

b. The *fire rescue cost for government property* was then apportioned among the *tax parcels* of *government property* as follows:

i. Add the *building area* of all the *buildings* of *government property* to arrive at the aggregate square footage for *government property*. Any *buildings* that exceed 100,000 square feet of *building area* shall only be included at 100,000 square feet.

ii. Divide the *fire rescue cost for government property* by the product of subsection 1. above to arrive at a rate per square foot of *building area* to be charged to *government property*.

iii. For each *building* of *government property*, multiply the applicable square foot rate determined in subsection 2. above by the number of square feet for that *building* and then sum the amounts for all *buildings* on that *tax parcel*.

3. Amount of Fire Rescue Fee.

The *fire rescue cost for government property* is further determined to be a reasonable estimation of a five-year average annual cost of providing *fire rescue services* to *government property*. The amount of the *fire rescue fee*

imposed upon *government property for fire rescue services* is specifically based upon the Rate Study, Exhibit A, established pursuant to and in accordance with Section 7-42, Leon County Code of Laws, and shall be as set forth in Exhibit B, Rate Schedule, same being attached hereto and incorporated herein as if fully set forth below, commencing October 1, ~~2023~~2025, annually, until otherwise determined by the Board.

B. Fire Rescue Assessment.

1. Imposition; Legislative Determinations; Cost Apportionment Methodology; Parcel Apportionment Methodology; Amount.

A *fire rescue assessment* is hereby levied and imposed upon each improved parcel of *nongovernment property* located within the unincorporated area of the County, and which is hereby ascertained, determined, and declared to be reasonably related to the cost of providing *fire rescue services* and thereby provides an equitably corresponding special benefit to *nongovernment property*. The *fire rescue assessment* is hereby ascertained, determined, and declared to be based upon a reasonable estimation of the five-year average annual cost of providing *fire rescue services* to such *nongovernment property*. It is further ascertained, determined, and declared that the *fire rescue assessment* imposed hereby provides a special benefit to and is equitably apportioned among the *assessed property* based upon the special benefit assumptions and apportionment methodology set forth in the Rate Study, Exhibit A, and as further set forth below:

a. It is further hereby ascertained and declared that the *fire rescue services*

provide a special benefit to *nongovernment property,* that is improved by the existence or construction of a *building,* based upon the following legislative determinations:

i. *Fire rescue services* enhance the use and enjoyment of improved property, which constitutes a special benefit to *owners*, commercial tenants, residential tenants, and occupants by the following:

A. Protecting the value of the improvements, structures, and contents through the provision of available *fire rescue services*;

B. Protecting the life and safety of occupants, residential tenants and commercial tenants, in the use and enjoyment of the improvements and structures within improved parcels; and

C. Lowering the cost of fire insurance, including renter's insurance and property coverage for the repair and replacement of contents of improvements and structures within the improved parcels, by the presence of a professional and comprehensive fire services program within the unincorporated area of the County.

ii. The *fire rescue services* enhance the use and enjoyment of commercial tenants by protecting the continued commercial operations within improved parcels of property within the unincorporated area of the County.

iii. The *fire rescue services* enhance the value of business and commercial interests, which accrues to *owners* and lessees, by protecting the continued commercial operations within improved parcels of

property within the unincorporated area of the County.

iv. The legislative determinations of special benefit ascertained arising from the *fire rescue services*, as set out and declared in Section 7-43, Leon County Code of Laws, are incorporated herein by reference and further ratified and confirmed.

b. It is fair and reasonable to create *service zones* to reflect the level of service differentiation between a property located in a higher density area that receives fire protection coverage from multiple *core stations* and a property located in an area generally described as rural and typically serviced by a single fire station.

c. It is fair and reasonable to use the *improvement codes* and the *DOR codes* for the *cost apportionment* and the *parcel apportionment* because: (1) the *tax roll* database employing the use of such property use codes is the most comprehensive, accurate, and reliable information readily available to determine the property use and *building area* for improved property within the County, and (2) the *tax roll* database within such property use codes is maintained by the Property Appraiser and is thus consistent with parcel designations on the *tax roll* ~~and (3) the parcel descriptions on the *tax roll* are not incompatible with the property use descriptions on the City of Tallahassee's *utility* customer database which has been developed and maintained by the City of Tallahassee and which will be used in many instances to bill the *fire rescue assessments*~~.

d. The data available in the *improvement codes* is more useful and accurate to determine *building area* than the data maintained in the *DOR codes* because

(1) the data maintained in the *improvement codes* reveals the existence of a *building* with a different use than the use described in the *DOR codes*, and (2) the *improvement codes* represent records maintained by the Property Appraiser with the most information relative to *building area* regardless of property use ~~and (3) the City of Tallahassee *utility* customer database does not contain *building area* data~~.

e. It is fair and reasonable and consistent with the decision of the Florida Supreme Court in the case of City of North Lauderdale v. SMM Properties, Inc., 825 So. 2d 343 (Fla. 2002), to exclude from the *fire rescue costs,* amounts determined to constitute the cost of providing *EMS services*.

f. Apportioning the *fire rescue cost for assessed property* among classifications of improved property based upon historical demand for *fire rescue services*, but not *EMS services*, is a fair and reasonable method of *cost apportionment* because it reflects the property uses' potential fire risk based upon *building* use and is a reasonable proxy for the amount of fire flow, fire fighters, quantity and size of apparatus, and other special firefighting equipment that must be available in accordance with the County's required standards and practices.

g. The cost of responding to fire incidents varies among the *service zones.* Therefore, it is fair and reasonable to use a *cost factor* in calculating the *demand percentages* because it reflects the varying costs that are associated with the responses and services to different *property use categories* based upon average call duration, which accounts for the time that personnel and

equipment were out of service.

h. It is fair and reasonable to use the *fire rescue costs for assessed property* for the development of the *fire rescue assessment* and apply the *fire rescue assessment* for future fiscal years at the rates established in this Resolution because it is hereby determined that the actual annual cost of providing *fire rescue services* over the five-year period will be as great as or greater than the *fire rescue assessment* established herein.

i. The *incident reports* are the most reliable data available to determine the potential demand for *fire rescue services* from property use and to determine the benefit to property use resulting from the availability of *fire rescue services* to protect and serve *buildings* located within the *assessed property* and their intended occupants. There exist sufficient *incident reports* documenting the historical demand for *fire rescue services* from *assessed property* within the *property use categories*. The *demand percentage* determined for each *property use category* by an examination of such *incident reports* is consistent with the experience of the City of Tallahassee Fire Department. Therefore, the use of *demand percentages* determined by an examination of *incident reports* is a fair and reasonable method to apportion the *fire rescue costs* among the *property use categories*.

j. The suppression of fire on vacant property primarily benefits the buildings within the adjacent improved property by the containment of the spread of fire rather than the preservation of the vacant property. Therefore, it is fair

and reasonable not to apportion any of the costs attributed to providing *fire rescue services* to vacant property, and the *incident reports* documenting historical *fire rescue costs* provided to vacant property were thus omitted from the *demand percentage* calculation.

k. The budget for *fire rescue services* is sized based upon its ability to provide ~~service~~ services to *assessed property* within the unincorporated area. Therefore, the level of services required to meet anticipated demand for *fire rescue services* and the corresponding budget required to fund *fire rescue services* provided to nonspecific property uses would be required notwithstanding the occurrence of any incidents from such nonspecific uses. Therefore, it is fair and reasonable to omit from the *demand percentage* calculation the *incident reports* documenting *fire rescue services* provided to nonspecific property uses and vacant property.

l. It is fair and reasonable ~~to~~ not to charge a *fire rescue assessment* to *nongovernment property* that is vacant ~~as evidenced by the cessation of *utility* services. The cost of administering and collecting *fire rescue assessments* from such vacant property exceed the anticipated *fire rescue assessments* that could be collected from such property~~.

m. The size or the value of the *residential property* does not determine the scope of the required *fire rescue services* response. The potential demand for *fire rescue services* is driven by the existence of a *dwelling unit* and the anticipated average occupant population.

n. Apportioning the *fire rescue costs* to *residential property* on a per *dwelling*

unit basis is required to avoid cost inefficiency and unnecessary administration and is a fair and reasonable method of *parcel apportionment* based upon historical call data.

o. The demand for *fire rescue service* availability is substantially the same for all *residential property*; therefore, it is fair and reasonable to use the combined *demand percentages* attributable to all types of *residential property,* both *single family property* and *multi-family property,* to determine *fire rescue assessments* for *residential property*.

p. The risk of loss and the demand for *fire rescue services* availability is substantially the same for *buildings* below a certain minimum size. Because the value and anticipated occupancy of non-residential *buildings* below a certain minimum size is less, it is fair, reasonable, and equitable to provide a lesser assessment burden on improved property containing such *buildings* by the creation of specific *building area* classification ranges for such parcels.

q. The assessment of *nonresidential property* by square footage classification ranges is fair and reasonable for the purpose of *parcel apportionment* because the demand for fire rescue service, fire flow, fire fighters, quantity and size of apparatus, and other special firefighting equipment is determined and measured by the square footage of structures and improvements within benefited parcels.

r. The greater the *building area*, the greater the potential for a large fire and the greater the amount of firefighting resources that must be available in the

event of a fire in a structure of that *building*'s size. Therefore, it is fair and reasonable to use *building area* as a proxy for determining the *tax parcel*'s *fire rescue assessment*.

s. The separation of improved *non-residential property* into *building area* classification ranges is fair and reasonable for the purposes of *parcel apportionment* because: (1) the absence of a need for precise square footage data within the ad valorem tax records maintained by the Property Appraiser undermines the use of actual *building area* within each improved parcel as a basis for *parcel apportionment*; (2) the administrative expense and complexity created by an on-site inspection to determine the actual *building area* within each improved parcel assessed is impractical; (3) the demand for *fire rescue services* availability is not precisely determined or measured by the actual *building area* within benefited parcels; and (4) the classification of parcels within *building area* classification ranges is a fair and reasonable method to classify benefited parcels and to apportion costs among benefited parcels that create similar demand for the availability of *fire rescue services*.

t. The demand for the availability of *fire rescue services* diminishes at the outer limit of *building* size since a fire occurring in a structure greater than a certain size is not capable of being suppressed under expected conditions and the fire control activities under such circumstances are directed to avoid the spread of the fire event to adjacent *buildings*. Therefore, it is fair and reasonable to place a cap on the *building area* classification of benefited

parcels within *non- residential property*.

u. In accordance with Section 125.0168, Florida Statutes, which mandates that counties treat recreational vehicle park property as *commercial property* for non-ad valorem special assessments levied by a county, like the *fire rescue assessment*, it is fair and reasonable to treat each space within recreational vehicle park property as a *building* on *commercial property* and to assign the square footage of 191 square feet, the average size of a recreational vehicle, according to the Florida Association of RV Parks and Campgrounds.

2. Cost Apportionment Methodology for Fire Rescue Assessment.

a. The number of *incident reports* filed within a sampling period was determined for *government property* and all *property use categories* of *nongovernment property*. The percentages of total *incident reports* allocated to *government property* as compared to total *incident reports* allocated to *nongovernment property* were used to calculate the *fire rescue cost for assessed property* and the *fire rescue cost for government property*.

b. Next, to correlate the *nongovernment tax parcels* to the *service zones*, the *incident reports* filed within a sampling period were geo-coded on the GIS system map based upon the address provided in the *FFIRS* database.

c. Based upon such correlation by *service zone*, the number of *incident reports* filed within a sampling period were determined for each *service zone*.

d. A *cost factor* was then developed and applied to the *incident reports* within each *service zone* based upon the difference in average call duration

between the *service zones* with Zone 1 being assigned a 1.00 weighting *cost factor* and Zone 2 being assigned a 1.26 weighting *cost factor.*

e. A *demand percentage* was then determined for each *service zone* by calculating the percentage that *incident reports* allocated to each *service zone* bears to the total number of *incident reports* documented for both *service zones* during the sampling period. The *demand percentage* for each *service zone* was then applied to the *fire rescue cost for assessed property* and the resulting product is the cost allocation of that portion of the *fire rescue costs* allocated to each *service zone*.

f. Using the weighted *incident reports*, fire rescue incidents were assigned within the County to the *property use categories* by correlating the *code descriptions* within the *fixed property use codes* to the *improvement codes* and *DOR codes*.

g. To correlate the *property use categories* with the *state database*, the *code descriptions* within the *fixed property use codes* similar to *code descriptions* within the *improvement codes* that were used to determine the *property use categories* were identified. Exhibit A, Appendix C contains a designation of *code descriptions* by *property use category* with the *improvement codes*, and Exhibit A, Appendix B, contains a designation of *code descriptions* by *property use category* with the *fixed property use codes*. Such correlation between *code descriptions* by *property use category* between the *fixed property use codes* and the *improvement codes* is necessary to allocate the historical demand for *fire rescue services* as

reflected by the weighted *incident reports* for *tax parcels* on the *tax roll* within the *property use categories*.

h. Based upon such assignment of weighted *incident reports* to *property use categories*, the number of weighted *incident reports* filed within a sampling period was determined for each *property use category*. A *demand percentage* was then determined for each *property use category* in each *service zone* by calculating the percentage that weighted *incident reports* allocated to each *property use category* bear to the total number of weighted *incident reports* documented for all *property use categories* within the sampling period. The *demand percentage* for each *property use category* within each *service zone* was then applied to the *fire rescue cost for assessed property* for that *service zone*, and the resulting product is the cost allocation of that portion of the *fire rescue cost for assessed property* allocated to each *property use category* within that *service zone*.

3. Parcel Apportionment Methodology.

a. The apportionment among *tax parcels* of *nongovernment property* of that portion of the *fire rescue cost for assessed property* apportioned to each *property use category* within each *service zone* under the *cost apportionment* is consistent with the *parcel apportionment* methodology described and determined herein.

b. RESIDENTIAL PROPERTY. For each *service zone*, the *fire rescue assessment* for each *tax parcel* of *residential property* shall be computed by multiplying the *demand percentage* attributable to *residential property*

by the *fire rescue cost for assessed property* allocated to the respective *service zone*, dividing such product by the total number of *dwelling units* shown on the *tax roll* within the *service zone*, and then multiplying such quotient by the number of *dwelling units* located on such *tax parcel*.

c. NON-RESIDENTIAL PROPERTY. The *fire rescue assessments* for each *building* of *nonresidential property*, except recreational vehicle property, shall be computed as follows for each *service zone*:

i. Respectively, multiply the *fire rescue cost for assessed property* for the applicable *service zone* by the *demand percentage* attributable to each of the non-residential *property use categories*. The resulting dollar amounts reflect the portions of the fire *rescue services* budget to be respectively funded from *fire rescue assessment* revenue derived from each of the non-residential *property use categories*.

ii. Separate each *building* in each of the *nonresidential property use categories* into one of the following square footage categories:

A. *buildings* with a *building area* of 1,999 square feet or less;

B. *buildings* with a *building area* between 2,000 square feet and 3,499 square feet;

C. *buildings* with a *building area* between 3,500 square feet and 4,999 square feet;

D. *buildings* with a *building area* between 5,000 square feet and 9,999 square feet;

E. *buildings* with a *building area* between 10,000 square feet and

19,999 square feet;

F. *buildings* with a *building area* between 20,000 square feet and 29,999 square feet;

G. *buildings* with a *building area* between 30,000 square feet and 39,999 square feet;

H. *buildings* with a *building area* between 40,000 square feet and 49,999 square feet;

I. *buildings* with a *building area* between 50,000 square feet and 59,999 square feet;

J. *buildings* with a *building area* between 60,000 square feet and 69,999 square feet;

K. *buildings* with a *building area* between 70,000 square feet and 79,999 square feet;

L. *buildings* with a *building area* between 80,000 square feet and 89,999 square feet;

M. *buildings* with a *building area* between 90,000 square feet and 99,999 square feet;

N. *buildings* with a *building area* of 100,000 square feet or greater.

iii. As to each non-residential *property use category* multiply the number of *buildings* categorized in:

A. Paragraph (2)(a) of this subsection by 1,000 square feet; and

B. Paragraph (2)(b) of this subsection by 2,000 square feet; and

C. Paragraph (2)(c) of this subsection by 3,500 square feet; and

D. Paragraph (2)(d) of this subsection by 5,000 square feet; and

E. Paragraph (2)(e) of this subsection by 10,000 square feet; and

F. Paragraph (2)(f) of this subsection by 20,000 square feet; and

G. Paragraph (2)(g) of this subsection by 30,000 square feet; and

H. Paragraph (2)(h) of this subsection by 40,000 square feet; and

I. Paragraph (2)(i) of this subsection by 50,000 square feet; and

J. Paragraph (2)(j) of this subsection by 60,000 square feet; and

K. Paragraph (2)(k) of this subsection by 70,000 square feet; and

L. Paragraph (2)(l) of this subsection by 80,000 square feet; and

M. Paragraph (2)(m) of this subsection by 90,000 square feet; and

N. Paragraph (2)(n) of this subsection by 100,000 square feet.

iv. For each non-residential *property use category*, add the products of paragraphs (3)(a) through (3)(n) of this subsection. The sum of these products reflects an aggregate square footage area for each non-residential *property use category* to be used in the computation of *fire rescue assessments*.

v. Divide the product of paragraph 1. of this subsection relative to each of the non-residential *property use categories* by the sum of the products for each non- residential *property use category* described in paragraph 4. of this subsection. The resulting quotient expresses a dollar amount adjusted or weighted per square foot of improved area to be used in computing *fire rescue assessments* on each of the respective non-residential *property use categories*.

vi. For each of the non-residential *property use categories*, multiply the resulting quotients from paragraph 5. of this subsection by each of the respective products in paragraphs (3)(a) through (3)(n) of this subsection. The resulting products for each non-residential *property use category*, expresses a series of gross dollar amounts expected to be funded by all *buildings* in the respective non-residential *property use categories* in each of the square footage categories described in paragraph 2. of this subsection.

vii. For each of the non-residential *property use categories*, divide each of the respective products of paragraph 6. of this subsection by the number of *buildings* determined to be in each of the square footage categories identified in paragraph 2. of this subsection. The result expresses the respective dollar amounts of the *fire rescue assessments* to be imposed upon each *building* in each of the non-residential *property use categories*.

d. RECREATIONAL VEHICLE PARK PROPERTY. Notwithstanding the procedure in subsection c. above for *non-residential property*, the *fire rescue assessments* for each *tax parcel* of *recreational vehicle park* property shall be computed as follows:

i. Aggregate the amount of square footage for each *tax parcel* of *recreational vehicle park*, with recreational vehicle park spaces, as reported to the Department of Health, at 191 square feet each, mobile home spaces, as reported to the Department of Health, at actual *building*

area or 720 square feet each if actual square footage is not available, and actual *building area* for all other *buildings*.

ii. Assign the respective dollar amount of the *fire rescue assessments* determined in subsection c. above for *commercial property* for the applicable *service zone* to the comparable aggregated square footage category ranges of *recreational vehicle park* property as calculated in paragraph 1. above. Any aggregated square footage that exceeds 100,000 square feet on a *tax parcel* shall be assigned the *commercial* dollar amount for 100,000 square feet. The result expresses the respective dollar amounts of the *fire rescue assessments* to be imposed upon each *recreational vehicle park* property.

e. MIXED USE PROPERTY. The *fire rescue assessments* for each *tax parcel* classified in two or more *property use categories* shall be the sum of the *fire rescue assessments* computed for each *property use category*.

4. Amount of Fire Rescue Assessment.

The amount of the *fire rescue assessment* levied and imposed upon *nongovernment property* shall be as set forth in Exhibit B, Rate Schedule, commencing October 1, ~~2023~~ 2025, annually, until otherwise determined by the Board.

Section 8. Exempt Property. The *fire rescue assessment* heretofore imposed upon *nongovernment property* shall be levied but not ~~be levied nor~~ charged ~~imposed~~ against property owned or occupied by a "religious institution" as that term is defined in Section 170.201(2), Florida Statutes, to the extent same is used as a place of worship.

Section 9. Lien. The *fire rescue assessments* imposed herein shall constitute a lien

upon the Assessed Property so assessed equal in rank and dignity with the liens of all state, county, district or municipal taxes and other non-ad valorem assessments. Except as otherwise provided by law, such lien shall be superior in dignity to all other liens, titles and claims, until paid.

Section 10. Collection of Fire Rescue Charge; Legislative Determinations. The collection of the *fire rescue charge* shall be made pursuant to and in accordance with Section 7- 44, Leon County Code of Laws, as amended, and is authorized hereby, ~~commencing on October 1, 2023,~~ annually, until otherwise determined by the Board. ~~The use of the *utility* bills for the collection of the *fire rescue fee* and *fire rescue assessment* is a method of collection that is reasonably related and directed to those that derive the benefit received by the property from the provision of *fire rescue services*. The benefit to the property is not solely received by the *owner* of the property but also extends to all intended occupants, including but not limited to, tenants, leaseholders and others occupying the property. There is a rational nexus between the use of the *utility* bill to collect the *fire rescue fees* and *fire rescue assessments* from the property and the intended occupants of the property, including but not limited to, owners, tenants, leaseholders and others occupying property, and the benefit they derive through the enhancement of their use and enjoyment of the property. The use of *utility* bills for collection also provides a convenient mechanism of payment and further relieving any potential economic burden by providing an opportunity to pay smaller fees in twelve (12) increments annually as opposed to one larger lump sum payment being collected annually.~~

Section 11. Final Adjudication. The adoption of this Resolution shall be the final adjudication of the issues presented (including, but not limited to, the determination of special benefit and fair apportionment, the method of apportionment, the rate of assessment and fee,

the and the levy and lien of the *fire rescue charges*), unless proper steps shall be initiated in a court of competent jurisdiction to secure relief within 20 days from the date of this Resolution.

Section 12. Repealer. This resolution amends, replaces and supersedes Resolution No. ~~15-20~~ 23-11, which was adopted by the Board on ~~May 26, 2025~~ July 11, 2023.

Section 13. Effective Date. This Resolution shall have effect ~~upon~~ on October 1, 2025, ~~adoption~~ and shall apply to all property located within the unincorporated area of Leon County.

DONE, ADOPTED AND PASSED by the Board of County Commissioners of Leon County, Florida, this 15th day of September, 2025.

Introduction

The City of Tallahassee (City) and Leon County (County) entered into a professional services agreement with Government Services Group, Inc., an Anser Advisory Company (GSG) to provide specialized services in the development and implementation of a non-ad valorem assessment program to fund fire services within the incorporated and unincorporated areas of the County (Fire Assessment Project).

The objective of this Fire Assessment Project is to develop and implement an update to the City's current revenue program capable of efficiently and effectively collecting all assessable and billable costs associated with providing fire services on an annual basis throughout the entire County for Fiscal Year 2023-24 and future fiscal years. The mechanism for collecting the fire fee from governmental properties will remain in effect, however both the City and County will utilize the City's utility bill as the collection method for all non-governmental properties where possible and the City will assist the County in the collection of the fire assessment utilizing the utility bill, tax bill, and separate bills. This document is the Fire Assessment Memorandum (Assessment Memorandum), which is one of the project deliverables specified in the scope of services.

The work effort, documented by this Assessment Memorandum, focused on the calculation of assessment rates and classifications required to fully fund the identified assessable costs to provide countywide fire services for Fiscal Year 2023-24 and future fiscal years. However, the City and County have the choice of funding all or only a portion of the assessable costs based on policy direction. In addition, the work effort recorded in this Assessment Memorandum required the identification of the full costs of assessable fire services (net of all fire related revenues) and the allocation of those costs to properties that specially benefit from the provision of such fire services.

BACKGROUND

In 1999, the City adopted a fire services funding program consisting of two components: a Fire Fee and a Fire Assessment. The goal of the Fire Services Funding Project in 1999 was to design an alternative revenue program capable of efficiently and effectively collecting all assessable and billable costs associated with providing fire services on an annual basis. The Fire Fee is the funding mechanism that secures recovery of the cost for providing fire services to governmental property. The Fire Assessment is the funding mechanism for non-government property that could be collected on the City's utility bill. The program was updated to account for changes in call data, property data and service delivery in 2004, 2009, and 2015.

OBJECTIVES

The City retained GSG to develop an annual recurring special assessment program that is capable of funding all of the assessable costs associated with providing countywide fire services. The City will utilize the utility bill for collection of the fire assessment and will assist the County in the collection of the fire assessment utilizing the utility bill, the tax bill, and separate bills. GSG has been charged to fully cost the services to be provided by the City, develop a fair and reasonable apportionment methodology for such

assessable costs, and determine assessment rates and parcel classifications that are accurate, fair and reasonable.

The fire non-ad valorem assessments must meet the Florida case law requirements for a valid special assessment. These requirements include the following:

1. The service provided must confer a special benefit to the property being assessed; and
2. The costs assessed must be fairly and reasonably apportioned among the properties that receive the special benefit.

The work effort of this project required the evaluation of data obtained from the City and the County to develop a fire assessment program that focuses upon the projected Fiscal Year 2023-24 assessable cost calculations. The objectives of this initial effort were to:

- Determine the full costs of providing fire services within the County.
- Review such final cost determination with the City to determine which elements provide the requisite special benefit to the assessed properties.
- Determine the relative benefit anticipated to be derived by categories of property use within the County from the delivery of fire services.
- Recommend the fair and reasonable apportionment of assessable costs among benefited parcels within each category of property use.
- Calculate assessment rates and parcel classifications for Fiscal Year 2023-24 and future years based on the projected Fiscal Year 2023-24 through Fiscal Year 2027-28 Fire Department budget provided by the City and associated assessable costs developed by GSG.

Service Description

Fire Rescue services are provided throughout the County from 17[1] paid fire rescue stations and 6 volunteer stations. Two of the volunteer stations are co-located at Stations 15 and 10. Table 1 identifies fire rescue buildings/facilities inventory, as well as the corresponding physical location address for the facility.

The City of Tallahassee Fire Rescue Department provides standard fire suppression, medical services, hazmat response, technical rescue, airport capabilities, state disaster response, emergency response and

[1] Station 17 is anticipated to be operational by the end of 2023.

disaster preparedness, fire prevention and safety education.

The City has an interlocal agreement with Leon County to provide fire protection services within the unincorporated area of the County. The County compensates the City for these services with collections from the fire service assessment in the unincorporated areas of the County.

The County has an interlocal agreement with the City to provide ALS and transport EMS services to the incorporated area of the City. The City compensates the County for these services by providing for the inclusion of the territorial boundaries of the City within the EMS Municipal Services Taxing Unit (MSTU) of the County. However, the City provides provide Advanced Life Support (ALS) services in coordination with Leon County EMS. The County compensates the City for these services.

Dispatch services for fire and EMS services are provided through a joint dispatch operation between the City and the County.

Tables 2 through 5 outline the Fire Rescue Department's current service operations and service components. Table 2 outlines the Fire Rescue Department's organizational structure.

Table 2
City of Tallahassee Fire Rescue Department Organizational Chart

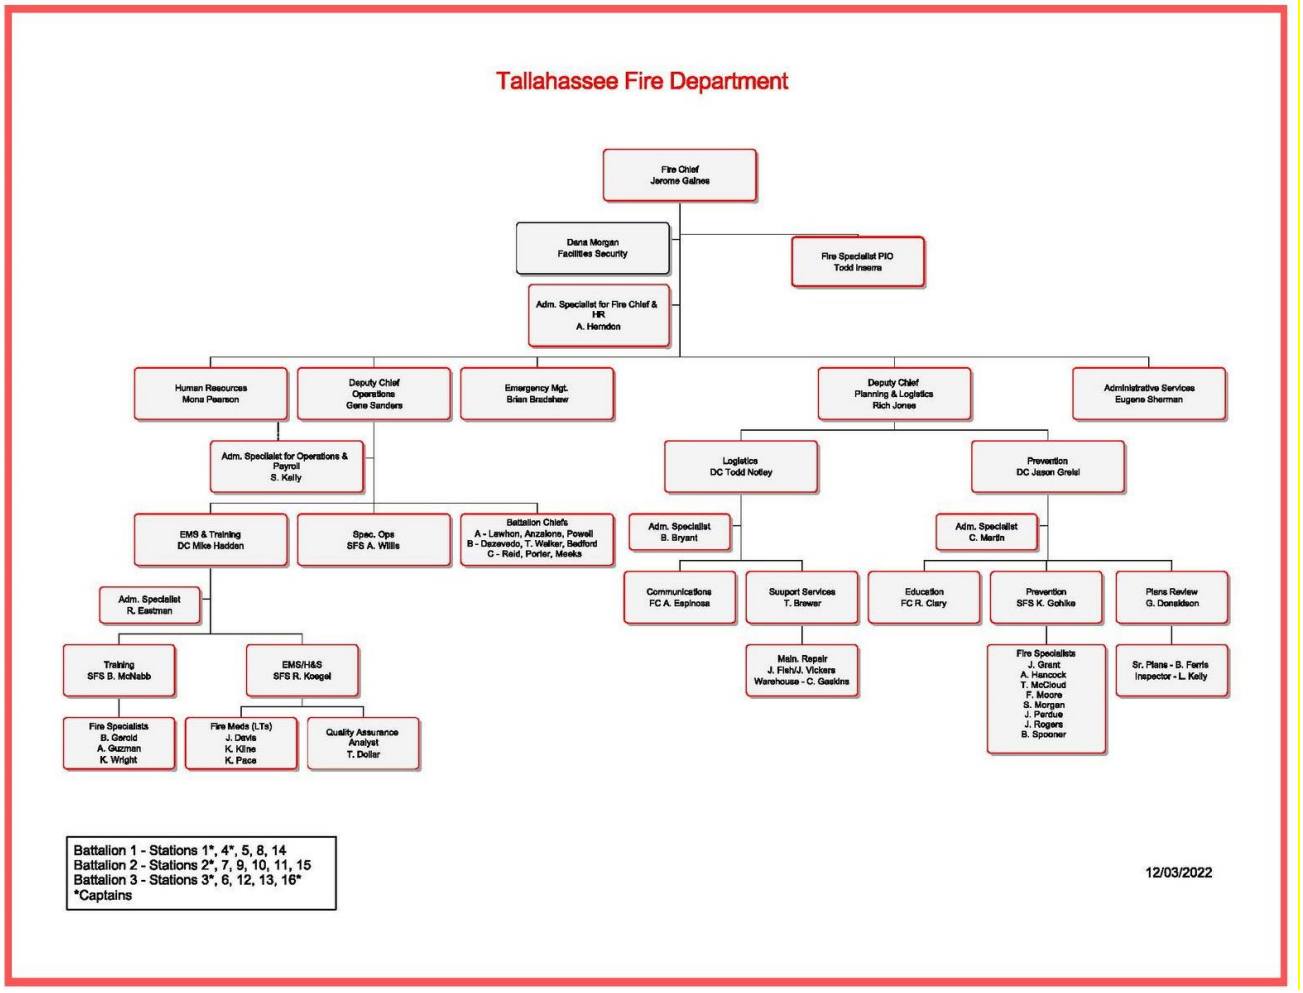

Table 3 describes the normal staffing for each apparatus. This information is used in the development of the Administrative Factor, as further discussed in the "Development of Factors" section of this Assessment Memorandum.

* Pumping capacity for Station 5 is not included in total because those apparatus are dedicated to the airport.

The current pumping capacity is defined as the combined amount of water that all apparatus in the Fire Rescue Department can pump to a first alarm non-residential fire. As outlined by Table 4 above, the pumping capacity of the City's Fire Rescue Department is 37,500 gallons per minute. Accordingly, based on National Fire Protection Association firefighting standards for fire flow as provided for in NFPA 1 Fire Code, 2015, Chapter 18 (assuming ordinary construction), the Fire Rescue Department currently has sufficient fire flow capacity to provide service coverage in the event of a structure fire involving unlimited square feet.

Table 5 below details the Fire Rescue Department's response protocol.

Table 5
Minimum Response Protocol

Call Type	Typical City Response
Medical	Engine (1)
Vehicle Accident	Engine (1)
Vehicle Accident with Extraction	Engines (2), FireMed (1), Battalion Chief (1)
Residential Fire (single)	Engines (3), Truck (1), Battalion Chiefs (2), FireMed (1)

Assessable Cost Calculations

The cost calculations, apportionment methodology and assessable rates developed apply to the fire services serving the unincorporated area of Leon County and the incorporated area of the City of Tallahassee.

DEVELOPMENT OF FACTORS

FIRE RESCUE V. EMERGENCY MEDICAL SERVICES

In June 2000, litigation over the City of North Lauderdale fire rescue assessment program resulted in a decision by the Fourth District Court of Appeals in the case of SMM Properties, Inc. v. City of North Lauderdale, (the "North Lauderdale" case). The Fourth District Court of Appeals concluded that Emergency Medical Services (EMS) did not provide a special benefit to property. The Court, however, reaffirmed that fire suppression, fire prevention, fire/building inspections and first response medical services do provide a special benefit to property. In 2002, the Florida Supreme Court upheld the decision of the Fourth District Court of Appeals.

To address these concerns, GSG developed a methodology that removed the costs associated with emergency medical services. This method of splitting the fire and EMS portions of a consolidated public safety department's budget was upheld by the Fourth District Court of Appeals in Desiderio Corporation, et al. vs. The City of Boynton Beach, Florida, et al., 39 So.3d 487 (Fla. 4th DCA 2010).

The proposed fire rescue department's line-item costs were allocated between fire rescue and emergency medical services as a result of the Florida Supreme Court's opinion in City of North Lauderdale v. SMM Properties that emergency medical services (above the level of first response) do not provide a special benefit to property. Accordingly, the City's fire rescue costs were split from emergency medical service costs based on the following general guidelines.

DIRECT ALLOCATIONS

To the extent that certain line items could be allocated directly to fire, direct allocations were made. For example, all costs associated with "Fire Prevention", "Fire Plans Review" and "Contractual Svc – VFD County" were allocated entirely to fire. All costs directly related to "Medical Services" were directly allocated to EMS.

ADMINISTRATIVE FACTOR

Certain line items were allocated between fire and EMS based on an Administrative Factor. This Administrative Factor is derived by creating a ratio between non-EMS or fire personnel and total combat personnel per shift. The administrative factor calculations are based on the City's total Fire Rescue Department combat personnel staffing, including an allocation for volunteers. Under normal staffing, this results in 87 non-EMS personnel and 19 EMS personnel for a total of 106 combat personnel. This normal staffing yields an 82.08 % percent non-EMS Administrative Factor.

This percentage was applied to all applicable line items to allocate the costs that could not be directly allocated as fire costs or EMS costs, and that could not be operationally allocated (see below). For example, the Administrative Factor was applied to the line-item expenditures for salaries and benefits, "Uniforms and Clothing", and "Utilities - Electric" to determine the fire service costs of these line items.

OPERATIONAL FACTOR

Other line items were allocated between fire and EMS based on an Operational Factor. The Operational Factor is derived by creating a ratio between non-EMS (i.e., fire) calls and EMS calls, and this ratio which is based on the City's Fire Rescue Department's operations, was then applied to certain budget line items such as "Equipment Repairs" and "Gasoline".

To develop the Operational Factor, GSG obtained fire rescue incident data identifying the number of fire rescue calls made to property categories within the entire County over a three-year period. The City fire rescue incident data was used to determine the demand for fire rescue services. GSG obtained information from the City in an electronic format, identifying the number and type of fire rescue incident responses for a three-year period July 1, 2019 through June 30, 2022.

The State Fire Marshal's office uses the Florida Fire Incident Reporting System (FFIRS). This system is a tool for fire rescue departments to report and maintain computerized records of fire rescue incidents and other department activities in a uniform manner. Under this system, a series of basic phrases with code numbers are used to describe fire rescue incidents. Appendix A provides a codes list for the "type of situation found" as recorded on the fire rescue incident reports used to identify EMS and non-EMS calls.

The ratio between non-EMS (i.e., fire) calls and EMS calls is then applied to all applicable line items to allocate the costs that could not be directly allocated as fire costs or EMS costs, and that could not be administratively allocated. For the three-year period, the City reported 66,575 total fire rescue incident calls to FFIRS, of which 18,563 were non-EMS (i.e. fire) calls and 48,012 were EMS calls. This information results in a 27.88% non-EMS Operational Factor.

ASSESSABLE COST CALCULATIONS

The fire services assessable cost calculations for Fiscal Years 2023-24 through 2027-28 are based on the following assumptions for the purpose of this Fire Assessment Memorandum.

- Actual projected expenditures and revenues were provided by the City for Fiscal Years 2023-24 through 2027-28.
- Revenues are shown as a reduction of the total projected expenditures for each fiscal year, thereby reducing the total assessable costs for that year. Revenues are comprised of revenues directly received from or for the delivery of fire services, such as "Fire Inspection Fees," "Forfeited Discounts," "Firefighters Supplemental Comp," and contract for service revenues that are allocated to the fire budget.
- All costs associated with providing contract services to the Tallahassee Regional Airport were included in the assessable budget with the corresponding contract revenues removed from the assessable budget calculations.
- The line item "Statutory Discount & Undercollection" under "Additional Costs" reflects a 95% collection rate of the Fire Services Assessment.
- The costs associated with supporting the volunteer fire departments were included as 100% fire costs and are included in the assessable budget.

Table 6 provides a calculation of the assessable costs for Fiscal Year 2023-24 based on an application of the above factors to the Fiscal Year 2023-24 Projected Budget. The calculation yields an assessable cost of $47,481,665 for Fiscal Year 2023-24.

Determination of Fire Services Demand

INCIDENT DATA

GSG obtained information from the City in an electronic format, identifying the number and type of fire rescue incident responses for a three-year period July 1, 2019 through June 30, 2022. The City uses the Florida Fire Incident Reporting System (FFIRS) to record its fire rescue incidents. The FFIRS is a tool for fire rescue departments to report and maintain computerized records of fire rescue incidents and other department activities in a uniform manner.

Under this system, a series of basic phrases with code numbers are used to describe fire rescue incidents. A data field in the FFIRS, "type of situation found," identifies the incident as an EMS or non-EMS type of call for each incident. Appendix A provides a code list for the "type of situation found" as recorded on the fire rescue incident reports used to identify EMS and non-EMS calls.

Another data field in the FFIRS, "fixed property use," identifies the type of property that fire rescue departments respond to for each fire rescue incident. The fixed property uses correlate to property uses determined by the Leon County Property Appraiser on the ad valorem tax roll. Appendix B provides a code list for the "fixed property use" as recorded on the fire rescue incident reports.

GSG analyzed the three years of fire rescue incident data from the FFIRS files to evaluate trends and determine if aberrations were present. The fire rescue incident data for the three-year period (July 1, 2019 through June 30, 2022) represents 66,575 fire rescue incidents. Of the 66,575 fire rescue incidents, there were 48,012 incidents classified as EMS type incidents based on the type of situation found indicated on the incident report. The 48,012 EMS type incidents were not included in the analysis.

There are certain fire incidents that could not be assigned to a specific property or parcel. These calls represent non-specific type incidents, which are incidents that either could not be correlated to a specific parcel or calls that involved auto accidents and other types of incidents along roads and highways.

Of the 18,563 remaining fire type incidents, 15,777 were calls to specific property uses. The remaining 2,786 incidents were considered non-specific type incidents. Because of the inability to correlate these non-specific type incidents to specific property categories, the call analysis does not include these 2,786 incidents. Additionally, the level of services required to meet anticipated demand for fire services and the corresponding annual fire services budget required to fund fire services provided to non-specific property uses would be required notwithstanding the occurrence of any incidents from such non-specific property uses.

The suppression of fires on vacant land and agricultural property primarily benefits adjacent property by containing the spread of fire rather than preserving the integrity of the vacant parcel. Thus, incidents to vacant and agricultural property were not included in the final analysis of the fire call database. The 578 calls to these two property-use categories were removed.

Of the remaining 15,199 fire type incidents, there were 1,782 calls for service to government properties and 13,417 calls to non-Government properties as identified by addresses or fixed property use codes provided in the FFIRS reports. The costs associated with providing service to government properties were segregated. Those government properties will fund fire service through a fee that is determined by the historical demand for service as detailed later in this Memorandum.

Table 8 outlines the assignment of fire type incidents based on the analysis conducted by GSG.

Table 8
Fire Calls by Category (July 1, 2019 through June 30, 2022)

Property Category	Number of Fire Incidents	Percentage of Total Incidents
Non-Government	13,417	88.28%
Government	1,782	11.72%
Total	**15,199**	**100%**

Source: City of Tallahassee

PROPERTY DATA

GSG obtained information from the ad valorem tax roll from the Leon County Property Appraiser's office, the City's utility billing files, and the County's certified fire assessment roll to develop the assessment roll. Each building within the County on the ad valorem tax roll was assigned to one or more of the property-use categories based on their assignment of use by the Leon County Property Appraiser or verification of use obtained through field research. A list of building improvement codes used by the Leon County Property Appraiser and their assignment to a property use category is provided as Appendix C.

The Residential Property Use Category includes such properties as single-family, duplexes, mobile homes, triplexes, quadruplexes, apartments, condominiums, townhouses, and cooperatives. In the event the data was indefinite, the DOR codes were used to clarify mobile home categories and help identify condominium and townhouse buildings. For parcels assigned to the Residential Property Use Category, GSG utilized the total number of dwelling units as determined from the building files on the ad valorem tax roll or through the use of field research.

The Non-Residential Property Use Category includes commercial and industrial/warehouse property uses. For parcels within the Non-Residential Property Use Categories (Commercial and Industrial/Warehouse), GSG determined the amount of square footage of the structures using the building files on the ad valorem tax roll or through the use of field research.

For RV parks regulated under Chapter 513, Florida Statutes, in accordance with Sections 166.223 and 125.0168, Florida Statutes, which mandate that cities and counties treat RV parks like commercial property for non-ad valorem assessments levied by the City and County, each RV space within the park was treated as a building of commercial property and assigned the square footage of 191 square feet, the average size of a recreational vehicle, according to the Florida Association of RV Parks and Campgrounds.

Computation of Fire Services Assessments

The fire services apportionment methodology allocates assessable costs based on the anticipated demand for fire services by categories of private, real property use as identified on the real property assessment roll prepared for the levy of ad valorem taxes. The assessable fire costs are allocated among private, real property use categories based upon the historical demand for these services. This demand is identified by examining the fire incident data as reported by the City to the State Fire Marshal's office.

The fire services apportionment methodology for government property allocates billable costs to provide fire services based upon the historical demand for these services for all government owned property (i.e., City, County, State, Federal, etc.), as reflected by the incident data reported by the City.

This section of the Memorandum includes the assessment rates as calculated within this Assessment Memorandum. The fire rescue assessment cost calculations provided herein are primarily based on information supplied by the City. The assessable cost projections developed by GSG are designed to forecast assessment rates within each property use category for Fiscal Years 2023-24 based on the five-year average assessable budget.

SERVICE ZONES

Service zones were created under the previous fire assessment study in April 2015 to reflect the level of service differentiation of a property located in a higher density area that receives fire protection coverage from multiple stations as compared to a property located in an area generally described as rural and typically serviced by a single fire station. For this purpose, "core stations" were identified and defined as those stations within five road miles of at least two other stations. The creation of a core area was necessary to eliminate the appearance of a higher service level of those properties that may be within five road miles of two stations; however, the location of the property lies between two stations that are nearly ten miles apart. This same approach was used in this study. Any changes in the level of service provided in the two zones will need to be reviewed in subsequent studies to ensure that this approach is still valid.

Those properties included in "Zone 1" were generally located within five road miles of two "core stations." Properties located outside of five road miles of two "core stations" were included in "Zone 2." A map of the service zones is provided in Appendix E.

Calls were plotted, or "geocoded," on a map based upon the geographic location of the incident provided in the FFIRS database. Those calls correlated to properties included in "Zone 1," and those calls correlated to properties included in "Zone 2," were separated and assigned to the respective zone. Table 9 details the assignment of calls to service zones.

Table 9
Fire Calls to Non-Governmental Properties by Zone
(July 1, 2019 – June 30, 2022)

Zone	Number of Calls to Specific Property Uses
Zone 1	10,106
Zone 2	3,311

The calls for service were then weighted based on the average call duration differential between Zone 1 and Zone 2 to account for the difference in resources used on calls between the two zones. On average a

call in Zone 2 is 19% longer in duration than a call in Zone 1. Therefore, all calls in Zone 2 were multiplied by a weighting factor of 1.19 to determine the weighted number of calls while all calls in Zone 1 were assigned a weighting factor of 1.00. Table 10 details the weighting of calls by zone.

Table 10
Weighted Fire Calls to Non-Governmental Properties by Zone (July 1, 2019 through June 30, 2022)

Zone	Number of Calls to Specific Property Uses	Weighting Factor	Number of Weighted Calls to Specific Property Uses
Zone 1	10,106	1.00	10,106
Zone 2	3,311	1.19	3,940

Table 11 outlines the property use category assignment of weighted fire type incidents for non-governmental properties based on the historical demand for service in each zone.

Table 11
Weighted Fire Calls by Category to Non-Governmental Properties (July 1, 2019 through June 30, 2022)

	Zone 1		Zone 2	
Category	**Number of Incidents**	**Percentage of Calls**	**Number of Incidents**	**Percentage of Calls**
Residential	5,894	58.32%	3,283	83.33%
Commercial	4,043	40.01%	602	15.28%
Industrial/Warehouse	169	1.67%	55	1.39%
Total	**10,106**	**100%**	**3,940**	**100%**

Source: City of Tallahassee

SPECIAL BENEFIT ASSUMPTIONS

The following assumptions support a finding that the fire services, facilities, and programs provided by the City provide a special benefit to the assessed parcels.

- Fire services, facilities, and programs possess a logical relationship to the use and enjoyment of property by: (i) protecting the value and integrity of improvements and structures through the availability and provision of comprehensive fire services; (ii) protecting the life and safety of intended occupants in the use and enjoyment of property; (iii) lowering the cost of fire insurance by the presence of a professional and comprehensive fire services program; and (iv) containing fire incidents occurring on land with the potential to spread and endangering other property and property features.
- The availability and provision of comprehensive fire services enhances and strengthens the relationship of such services to the use and enjoyment of the parcels of property, the market perception of the area and, ultimately, the property values within the assessable area.

APPORTIONMENT METHODOLOGY

The following section describes the assessment apportionment methodology for fire services based on: (i) the fire services assessable cost calculations; (ii) the ad valorem tax roll maintained by the property appraiser and the availability of the data residing on the database; and (iii) the fire rescue incident data.

COST APPORTIONMENT

The assessable costs were first apportioned among government and non-government property based upon the historical demand for service percentages shown in Table 8. The assessable costs attributable to non-government property were then apportioned to Zone 1 and Zone 2 and then further to the individual property use categories in each service zone based upon the weighted historical demand for fire services reflected by the fire incident data experienced in each service zone for July 1, 2019 through June 30, 2022. The five-year average cost apportionment is illustrated in Table 12.

Table 12
Cost Apportionment (Five-Year Average)

	Zone 1 (71.95% of Weighted Fire Calls)			Zone 2 (28.05% of Weighted Fire Calls)		
Category	**Total Calls**	**Percentage**	**Assessable Costs**	**Total Calls**	**Percentage**	**Assessable Costs**
Residential	5,894	58.32%	$19,049,431	3,283	83.33%	$10,610,742
Commercial	4,043	40.01%	$13,066,992	602	15.28%	$1,946,008
Industrial/Warehouse	169	1.67%	$546,209	55	1.39%	$176,910
Total	**10,106**	**100.00%**	**$32,662,632**	**3,940**	**100.00%**	**$12,733,660**

PARCEL APPORTIONMENT

The share of the assessable costs apportioned to each property use category was further apportioned among the individual buildings of property within each property use category in the manner described in Table 13.

Table 13
Parcel Apportionment within Property Use Categories

Category	Parcel Apportionment
Residential	Dwelling Unit
Non-Residential: -Commercial -Industrial/Warehouse	Improvement Area Per Building Within Square Footage Ranges (100,000 Square Foot Cap Per Building)

Applying the foregoing parcel apportionment methodology, fire assessment rates were computed for each property use category. The specific methodology, underlying special benefit and fair apportionment assumptions are included below and generally described.

RESIDENTIAL PARCEL APPORTIONMENT ASSUMPTIONS

The following assumptions support findings that the parcel apportionment applied in the Residential Property Use category are fair and reasonable. The Residential Property Use Category includes such properties as single-family dwelling units and multi-family dwelling units.

- The size or the value of the residential parcel does not determine the scope of the required fire services. The potential demand for fire services is driven by the existence of a dwelling unit and the anticipated average occupant population.
- Apportioning the assessable costs for fire services attributable to the residential property use category on a per dwelling unit basis is required to avoid cost inefficiency and unnecessary administration and is a fair and reasonable method of parcel apportionment based upon historical fire call data.

- The consolidation of single-family and multi-family properties into a single category is fair and reasonable because they are similar property uses and the number of calls per dwelling unit is not significantly different.

RESIDENTIAL PARCEL APPORTIONMENT CALCULATION

Based upon the historical demand for fire services, the percentages of assessable costs attributable to residential properties were calculated. The amount of the assessable costs allocable to each residential property was divided by the number of dwelling units in the Residential Property Use Category to compute the fire assessment to be imposed against each dwelling unit. For each residential parcel, the actual number of dwelling units located on the parcel will be multiplied by the residential dwelling unit rate to compute the residential fire assessment amount for the parcel.

Table 14 illustrates the assignment of dwelling units under this apportionment methodology to the Residential Property Use Category for each zone.

Table 14
Parcel Apportionment (Residential Property Use Category)

Residential Property Use Category	Number of Dwelling Units-Zone 1	Number of Dwelling Units-Zone 2
Residential Dwelling Units	77,628	47,672

Source: City of Tallahassee and Leon County Property Appraiser Data

NON-RESIDENTIAL PARCEL APPORTIONMENT ASSUMPTIONS

The Non-Residential Property Use category includes commercial and industrial/warehouse property uses. The capacity to handle fires and other emergencies in Non-Residential Property Use category is governed by the following:

- The current pumping capacity is defined as the combined amount of water that all apparatus in the Fire Department can pump to a non-residential fire. As outlined by Table 4 above, the pumping capacity of the Fire Department is 37,500 gallons per minute. Accordingly, based on National Fire Protection Association firefighting standards for fire flow as provided for in NFPA 1 Fire Code, 2015, Chapter 18 (assuming ordinary construction), the Fire Rescue Department currently has sufficient fire flow capacity to provide service coverage in the event of a structure fire involving unlimited square feet. To avoid inefficiency and unnecessary administration, the City has made a policy decision to set the maximum classification of any building at 100,000 square feet.

The following assumption supports findings that the parcel apportionment applied in the Non-Residential Property Use category is fair and reasonable.

- The risk of loss and demand for fire services availability is substantially the same for structures below a certain minimum size. Because the value and anticipated occupancy of structures below a certain minimum size is less, it is fair, reasonable, and equitable to provide a lesser assessment burden on such structures by the creation of a specific property parcel classification for those parcels.
- The separation of non-residential buildings into square footage classifications is fair and reasonable for the purposes of parcel apportionment because: (i) the absence of a need for precise square footage data within the ad valorem tax records maintained by the property appraiser undermines the use of actual square footage of structures and improvements within each improved building as a basis for parcel apportionment; (ii) the administrative expense and complexity created by an on-site inspection to determine the actual square footage of structures and improvements within each improved parcel assessed is impractical; and (iii) the demand for fire services availability is not precisely determined or measured by the actual square footage of structures and improvements within benefited parcels; and (iv) the classification of buildings within square footage ranges is a fair and reasonable method to

classify benefited parcels and to apportion costs among benefited buildings that create similar demand for the availability of fire services.

- The consolidation of commercial and institutional properties into a single category is fair and reasonable because the non-government institutional type properties are similar in use to the commercial type properties.

The parcel apportionment for each Non-Residential Property Use Classification shall include both minimum building classifications and an additional classification of all other buildings based upon the assumed square footage of structures and improvements within the improved parcel. The Non-Residential Property Use Classifications include Commercial and Industrial/Warehouse. The following describes the Non-Residential Property parcel apportionment calculation and classification for the Commercial and Industrial/Warehouse categories.

NON-RESIDENTIAL PARCEL APPORTIONMENT CALCULATION

Based upon the historical demand for fire services, property in the Non-Residential Property Use categories will be responsible for funding a percentage of assessable costs. The amount of the assessable costs allocable to buildings within each of the Non-Residential Property Use Classifications was calculated based upon the following building classifications.

- Non-residential buildings with square footage of non-residential improvements less than 1,999 square feet were assigned an improvement area of 1,000 square feet per building. Buildings with square footage of non-residential improvements between 2,000 square feet and 3,499 square feet were assigned an improvement area of 2,000 square feet per building. Buildings with non-residential improvements between 3,500 square feet and 4,999 square feet were assigned an improvement area of 3,500 square feet per building. Buildings with non-residential improvement areas between 5,000 square feet and 9,999 square feet were assigned an improvement area of 5,000 square feet per building. For buildings containing non-residential improvements between 10,000 square feet and 99,999 square feet, assignments of improvement area were made in 10,000 square foot increments.
- For buildings, containing non-residential improvements over 99,999 square feet, an assignment of improvement area of 100,000 was made.

Sections 125.0168 and 166.223, Florida Statutes, relating to special assessments levied on recreational vehicle parks regulated under Chapter 513, Florida Statues are based on the following:

- When a city or county levy a non-ad valorem special assessment on a recreational vehicle park regulated under Chapter 513, the non-ad valorem special assessment shall not be based on the assertion that the recreational vehicle park is comprised of residential units. Instead, recreational vehicle parks regulated under Chapter 513 shall be assessed as a commercial entity in the same manner as a hotel, motel, or other similar facility.

Table 15 illustrates the assignment of improvement area under this apportionment methodology for the Commercial and Industrial/Warehouse categories.

Table 15
Parcel Apportionment (Non-Residential Property Use Category)

Square Foot Tiers	Number of Commercial Buildings		Number of Industrial/Warehouse Buildings	
	Zone 1	Zone 2	Zone 1	Zone 2
≤ 1,999	1,239	205	66	25
2,000 - 3,499	900	166	80	50
3,500 - 4,999	591	100	58	34
5,000 - 9,999	941	161	194	71
10,000 - 19,999	490	86	185	34
20,000 - 29,999	170	29	56	8

60,000 - 69,999	27	5	4	0
70,000 - 79,999	19	3	1	1
80,000 - 89,999	10	3	1	2
90,000 - 99,999	8	3	6	0
>= 100,000	43	5	18	2

Source: City of Tallahassee and Leon County Property Appraiser Data

Because the suppression of fires on vacant land and agricultural property primarily benefits adjacent property by containing the spread of fire rather than preserving the integrity of the vacant parcel, incidents to vacant and agricultural property were not included in the final analysis of the fire call database. Therefore, only the primary structures on vacant and agricultural parcels will be charged.

COMPUTATION OF FIRE ASSESSMENT RATES

Applying the parcel apportionment methodology, fire services assessment rates were computed for each specified property use category. Based on the assessable costs of providing fire services, the number of fire calls apportioned to specific property categories and the number of billing units within the specified property categories.

Table 16 illustrates the assessment rates after application of the assessment methodology based on 100 percent funding of the five-year average assessable costs.

Table 16
Fire Services Assessment Rates (Five-Year Average)

Residential Property Use Categories		Zone 1 - Rate Per Dwelling Unit	Zone 2 - Rate Per Dwelling Unit
Residential Dwelling Unit		$245.39	$223
Commercial Property Use Category	**Building Classification (in square foot ranges)**	**Zone 1 – Rate Per Building**	**Zone 2 - Rate Per Building**
	≤ 1,999	$384	$356
	2,000 - 3,499	$768	$712
	3,500 - 4,999	$1,344	$1,245
	5,000 - 9,999	$1,920	$1,779
	10,000 - 19,999	$3,840	$3,557
	20,000 - 29,999	$7,680	$7,113
	30,000 - 39,999	$11,519	$10,669
	40,000 - 49,999	$15,359	$14,226
	50,000 - 59,999	$19,198	$17,782
	60,000 - 69,999	$23,038	$21,338
	70,000 - 79,999	$26,877	$24,895
	80,000 - 89,999	$30,717	$28,451
	90,000 - 99,999	$34,557	$32,007
	≥ 100,000	$38,396	$35,564
Industrial/Warehouse Property Use Category	**Building Classification (in square foot ranges)**	**Zone 1 - Rate Per Building**	**Zone 2 – Rate Per Building**
	≤ 1,999	$63	$114
	2,000 - 3,499	$125	$227
	3,500 - 4,999	$218	$398
	5,000 - 9,999	$311	$568
	10,000 - 19,999	$621	$1,135
	20,000 - 29,999	$1,242	$2,270

	90,000 - 99,999	$5,587	$10,213
	≥ 100,000	$6,208	$11,348

*Estimated Gross Revenue: $45,396,291; Estimated Institutional Tax-Exempt Buy-down: $479,368; Estimated Net Revenue: $44,916,923.

EXEMPTIONS AND IMPACT OF EXEMPTIONS

Because the fire services assessment is being developed to meet the case law standards for a valid special assessment, any proposed exemptions require special scrutiny. The crafting of an exemption must be founded upon a legitimate public purpose, and not tramp on state or federal constitutional concepts of equal protection and constitutional prohibitions against establishment of religion or the use of the public treasury directly or indirectly to aid religious institutions. Furthermore, to ensure public acceptance, any exemption must make common sense and be fundamentally fair. Finally, the impact of any proposed exemption should be evaluated in terms of its magnitude and fiscal consequences on the City and County's general funds respectively.

Whenever crafting an exemption, it is important to understand that the fair apportionment element required by Florida case law prohibits the shifting of the fiscal costs of any special assessment from exempt landowners to other non-exempt landowners. In other words, the funding for an exemption from a special assessment must come from a legally available external revenue source, such as the City and

County's general funds. Funding for fire assessment exemptions cannot come from the proceeds derived directly from the imposition of special assessments for fire services and facilities. Because any exemption must be funded by an external funding source, the grant of any exemption will not have any impact upon the fire assessment to be imposed upon any other non-exempt parcels.

The decision to fund exemptions for fire services assessments on property owned by non-governmental entities is based upon the determination that such exemptions constituted a valid public purpose.

Table 17 summarizes the estimated impact of exempting institutional, wholly tax-exempt property based on the five-year average assessable budget.

Table 17
Estimated Impact of Exemptions (Five-Year Average)

Financial Classification	Zone 1	Zone 2	Total
Estimated Assessable Costs	$32,662,632	$12,733,660	$45,396,291
Estimated Buy-down for Institutional Tax-Exempt Building Uses	$345,780	$133,588	$479,368
Estimated Revenue Generated	**$32,316,852**	**$12,600,072**	**$44,916,923**

Fire Services Fees Imposed on Governmental Property

The special benefit and fair and reasonable apportionment requirements for a valid special assessment do not rigidly apply to charges against government property. Florida case law has stated that user fees are paid by choice and are charged in exchange for a particular governmental service, which benefits the property paying the fee in a manner not shared by other members of the public. In the user fee context, choice means that the property paying the fee has the option of not using the governmental service and thereby avoiding the charge. Under such tests and definition of choice, the validity of both impact fees and stormwater fees have been upheld.

Impact fees are imposed to place the economic burden of infrastructure required by growth on new development. Stormwater fees are imposed to control and treat the stormwater burden generated by the use and enjoyment of developed property. Likewise, fire services provided by the City and County are intended to meet the historical demand for fire services from developed property and such fee benefits the owner or user of developed property in a manner not shared by other members of society (e.g., the owner of undeveloped property).

The Florida Attorney General has recognized that state-owned property is not required to pay a special assessment without legislative authorization but that such authorization is not needed for user fees or service charges. Additionally, a valid charge cannot be enforced by a lien against public property absent elector approval. Rather, the enforcement remedy is a mandamus action to compel payment. In addition, certain general laws preempt the home rule power of local governments to impose special assessments on educational institutions.

As discussed previously and documented in the “Incident Data” section of this document, the fire services incidents were analyzed to determine the fire services demand for all governmental property. It was determined that approximately 11.72% of the total fire calls were attributable to governmental property. Therefore, approximately 11.72% of the total assessable budget was allocated to governmental property as shown in Table 18 below.

Table 18
Government Cost Allocation

Total Assessable Costs	Percentage of Governmental Calls	Governmental Cost Allocation
$51,423,076	11.72%	$6,026,785

The costs attributable to each governmental entity will be allocated based on each entity’s percentage of the total governmental square footage as determined by the City. GSG calculated a rate per square foot for governmental property based on the governmental cost allocation in Table 18 and the total governmental square footage as provided by the City. This calculation is shown in Table 19 below.

Table 19
Government Rate Calculation

Governmental Cost Allocation	Total Government Square Feet	Government Rate Per Square Foot
$6,026,785	22,627,160	$0.267

Additional Information

EXEMPTION CALCULATIONS

GSG utilized the most current data to identify institutional, tax-exempt parcels within the County in order to calculate the aggregate cost ('buy down') of these parcels. In addition, best efforts were made by GSG to reconcile any differences necessary to calculate the estimated buy down for this exemption category. Missing or incorrect property data could affect the estimated aggregate costs.

NON-SPECIFIC CALLS

In the fire call analysis, certain fire related calls were classified as non-property specific, because of the location of occurrence in the incident report. These calls represent non-specific incidents that either could not be correlated to a specific parcel or involved auto accidents or other types of incidents along roads and highways. These calls are excluded from the analysis that determines the percentage of calls for service to respective property types and therefore, are not considered in the determination of the extent of budget required to fund the department. Because the budget is established based on the ability of the department to adequately protect structures, no adjustment has been made to the budget due to non-property specific calls.

MOBILE HOME AND RECREATIONAL VEHICLE PARK VACANCY CREDIT

As a consequence of the transient use and potential extraordinary vacancies within mobile home and recreational vehicle (RV) parks as compared to other residential property and the lack of demand for fire services for unoccupied spaces, it is fair and reasonable to provide for an extraordinary vacancy adjustment procedure for mobile home and RV park properties. Vacant mobile home and RV spaces within a mobile home or RV park will be charged; however, these properties will be eligible for an extraordinary vacancy adjustment for vacant mobile home or RV spaces.

VERIFICATION OF SQUARE FOOTAGE OF STRUCTURES ON TAX-EXEMPT PARCELS

The ad valorem tax roll provides the data required to determine value. So long as properties remain in the name of owners exempt from ad valorem taxation, the property appraiser may not consistently maintain data related to building improvements on such parcels. As a consequence of such data imperfections, the square footage on some of the parcels, particularly for institutional private sector classifications, may not be complete.

BILLING PROPERTIES WITH MULTIPLE UTILITY ACCOUNTS

The proposed methodology can determine the assessment rate per building on a tax parcel. However, for some non-residential properties there may be many utility accounts assigned to a building. When utilizing the utility bill to collect the Fire Services Assessment, a considerable amount of data collection will be necessary to assess each utility account assigned to the building.

Appendix A

SITUATION FOUND CODES AND DESCRIPTIONS

Situation Found Code	Description	EMS Type Call
111	Building Fire	No
112	Fires in structures other than in a building	No
113	Cooking fire, confined to a container	No
114	Chimney or flue fire, confined to chimney or flue	No
115	Incinerator overload or malfunction, fire confined	No
116	Fuel burner/boiler malfunction, fire confined	No
118	Trash or rubbish fire, contained	No
120	Fire in mobile property used as a fixed structure, other	No
121	Fire in mobile home used as a fixed residence	No
122	Fire in mobile home, camper, recreational vehicle	No
123	Fire in portable building, fixed location	No
130	Mobile property (vehicle) fire, other	No
131	Passenger vehicle fire	No
132	Road freight or transport vehicle fire	No
134	Water vehicle fire	No
137	Camper or RV fire	No
138	Off Road vehicle or heavy equipment fire	No
140	Natural vegetation fire	No
141	Forest, woods or wildland fire	No
142	Brush, or brush and grass mixture fire	No
143	Grass fire	No
150	Outside rubbish fire, other	No
151	Outside rubbish, trash or waste fire	No
152	Garbage dump or sanitary landfill fire	No
153	Construction or demolition landfill fire	No
154	Dumpster or other outside trash receptacle fire	No
155	Outside stationary compactor/compacted trash fire	No
160	Special outside fire, other	No
161	Outside storage fire	No
162	Outside equipment fire	No
163	Outside gas or vapor combustion explosion	No
170	Cultivated vegetation, crop fire, other	No
173	Cultivated trees or nursery stock fire	No
210	Overpressure rupture from steam, other	No
211	Overpressure rupture of steam pipe or pipeline	No
220	Overpressure rupture from air or gas, other	No
221	Overpressure rupture of air or gas pipe/pipeline	No
223	Air or gas rupture of pressure or process vessel	No
240	Explosion (no fire), other	No
243	Fireworks explosion (no fire)	No
251	Excessive heat, scorch burns with no ignition	No
311	Medical assist, assist EMS crew	Yes
320	Allergic reaction	Yes
321	EMS call, excluding vehicle accident with injury	Yes
322	Vehicle accident with injuries	Yes
323	Motor vehicle/pedestrian accident (MV Ped)	Yes
324	Motor Vehicle Accident, No Injuries	No
331	Lock-in (if lock out, use 511)	No
341	Search for person on land	No

Situation Found Code	Description	EMS Type Call
342	Search for person in water	No
350	Extrication, rescue, other	No
351	Extrication of victim(s) from building/structure	No
352	Extrication of victim(s) from vehicle	No
353	Removal of victim(s) from stalled elevator	No
354	Trench/below grade rescue	No
356	High angle rescue	No
357	Extrication of victim(s) from machinery	No
360	Water & ice related rescue, other	No
361	Swimming/recreational water areas rescue	No
363	Swift water rescue	No
365	Watercraft rescue	No
370	Electrical rescue	No
372	Trapped by power lines	No
381	Rescue or EMS standby	Yes
410	Flammable gas or liquid condition, other	No
411	Gasoline or other flammable liquid spill	No
412	Gas leak	No
413	Oil or other combustible liquid spill	No
420	Toxic condition, other	No
421	Chemical hazard (no spill or leak)	No
422	Chemical spill or leak	No
423	Refrigeration leak	No
424	Carbon monoxide incident	No
440	Electrical wiring/equipment problem, other	No
441	Heat from short circuit (wiring), defective/worn	No
442	Overheated motor	No
443	Light ballast breakdown	No
444	Power line down	No
445	Arcing, shorted electrical equipment	No
451	Police Assist	No
460	Accident, potential accident, other	No
461	Building or structure weakened or collapsed	No
462	Aircraft standby	No
463	Vehicle accident, general cleanup	No
471	Explosive, bomb removal (for bomb scare, use 721)	No
480	Attempted burning, illegal action, other	No
481	Attempt to burn	No
482	Threat to burn	No
500	Service call, other	No
510	Person in distress, other	No
511	Lock-out	No
512	Ring or jewelry removal	No
520	Water problem, other	No
521	Water evacuation	No
522	Water or steam leak	No
531	Smoke or odor removal	No
540	Animal problem, other	No
542	Animal rescue	No

Situation Found Code	Description	EMS Type Call
550	Public service assistance, other	No
551	Assist police or other governmental agency	No
552	Police matter	No
553	Public service	No
554	Assist invalid	Yes
555	Defective elevator	No

LEON COUNTY RESOLUTION NO. R2025-_____

A RESOLUTION OF THE BOARD OF COUNTY COMMISSIONERS OF LEON COUNTY, FLORIDA, ADOPTING A FIRE RESCUE SERVICES NON-AD VALOREM ASSESSMENT ROLL; PROVIDING FOR CERTIFICATION OF THE ROLL TO THE TAX COLLECTOR; AND PROVIDING FOR AN EFFECTIVE DATE.

RECITALS

WHEREAS, on February 26, 2009, Leon County and the City of Tallahassee entered into an Interlocal Agreement for the provision of fire suppression, fire prevention and emergency medical services county-wide commencing October 1, 2009; and

WHEREAS, the Interlocal Agreement by and between Leon County and the City of Tallahassee provides for the funding and payment of *Fire Rescue Services* by means of the levy and collection of special assessments upon benefited property; and

WHEREAS, on September 15, 2025, the Board of County Commissioners enacted an ordinance amending Chapter 7, Leon County Code of Laws, relating to the provision and funding of *Fire Rescue Services*; and

WHEREAS, on September 15, 2025, the Board of County Commissioners adopted a *Fire Rescue Assessment Rate Resolution* levying and imposing upon each improved parcel of nongovernmental property located within the unincorporated area of the County an assessment in an amount found to be reasonably related to the cost of providing *Fire Rescue Services* to such property and thereby providing an equitably corresponding special benefit to such property; and

WHEREAS, in accordance with section 197.3632(4)(a)1, Florida Statutes, the Board of County Commissioners desires to adopt a fire rescue services non-ad valorem assessment roll for those properties subject to levy of the non-ad valorem assessment for the first time; and

WHEREAS, pursuant to section 197.3632, Florida Statutes, the Board of County Commissioners has reviewed the fire rescue services non-ad valorem assessment roll for conformity with the *Fire Rescue Assessment Rate Resolution*; and

WHEREAS, the Board wishes to approve and adopt a fire rescue services non-ad valorem assessment roll and to certify the roll for collection to the Tax Collector; and

WHEREAS, Leon County has provided notice of a public hearing at least twenty days prior to same by first class United States mail and by publication in the *Tallahassee Democrat* advising that a public hearing would take place.

BE IT RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS OF LEON COUNTY, FLORIDA, that:

Section 1. Recitals.

The Recitals to this Resolution are incorporated herein and made a part hereon as if fully set forth below.

Section 2. Definitions.

For purposes of this Resolution, the definitions contained in section 7-39, Leon County Code of Laws, are incorporated herein by reference.

Section 3. Adoption of Non-Ad Valorem Assessment Roll.

Pursuant to section 197.3632, Florida Statutes, Leon County hereby approves and adopts a fire rescue services non-ad valorem assessment roll, which is attached hereto as Exhibit 2 and incorporated herein as if fully set forth below.

Section 4. Unit of Measurement for Non-Ad Valorem Assessment.

The unit of measurement for the fire rescue services non-ad valorem assessment is as set forth in the *Fire Rescue Assessment Rate Resolution*, R25-___, which is attached hereto as Exhibit 1, and incorporated herein as if fully set forth below. The amount of the fire rescue services assessment for each subject parcel of property is as further set forth in Exhibit 2, also attached hereto and incorporated herein as if fully set forth below. The *Fire Rescue Assessment* shall be and is hereby imposed annually commencing October 1, 2025, and continuing each year thereafter until such time as changed or discontinued by the Board.

Section 5. Certification of Non-Ad Valorem Assessment Roll to Tax Collector.

The fire rescue services non-ad valorem assessment roll is hereby certified to the Tax Collector for collection in accordance with Florida law. The Chairman of the Board of County Commissioners is authorized to include each parcel described at Exhibit 2 herein on the non-ad valorem assessment roll certified to the Tax Collector for all properties subject to the fire rescue services non-ad valorem assessment.

Section 6. Effective Date.

This resolution shall have effect upon adoption.

DONE, ADOPTED AND PASSED by the Board of County Commissioners of Leon County, Florida, this 15th day of September, 2025.

LEON COUNTY, FLORIDA

RESOLUTION NO. 25-_____

AN AMENDED AND RESTATED RESOLUTION OF THE BOARD OF COUNTY COMMISSIONERS OF LEON COUNTY, FLORIDA, RELATING TO THE PROVISION AND FUNDING OF FIRE RESCUE SERVICES; PROVIDING FOR RECITALS; PROVIDING FOR AUTHORITY; PROVIDING FOR DEFINITIONS; PROVIDING FOR A RESOLUTION; PROVIDING FOR PROVISION OF FIRE RESCUE SERVICES; PROVIDING FOR GENERAL LEGISLATIVE DETERMINATIONS; PROVIDING FOR FIRE RESCUE CHARGE; PROVIDING FOR EXEMPT PROPERTY; PROVIDING FOR LIEN; PROVIDING FOR COLLECTION OF FIRE RESCUE CHARGE; PROVIDING FOR FINAL ADJUDICATION; REPLACING AND SUPERSEDING RESOLUTION NO. ~~15-20~~23-11; AND PROVIDING AN EFFECTIVE DATE.

RECITALS

WHEREAS, the County desires to continue to provide fire rescue services, facilities and programs, hereafter "*fire rescue services*," in the most efficient manner possible in order to promote the health, safety and general welfare of its citizens; and

WHEREAS, the County desires to maintain a uniform financial mechanism for the funding of such *fire rescue services* to its citizens on an equitable basis; and

WHEREAS, the City of Tallahassee and the County have entered into an Interlocal Agreement, as amended, to administer the provision of and funding for *fire rescue services*; and

WHEREAS, the Interlocal Agreement by and between the City of Tallahassee and the County provides for the funding and payment for *fire rescue services* by means of the levy, imposition and collection of special assessments upon benefited *nongovernment property* and the imposition of fire rescue fees on *government property*; and

WHEREAS, on March 19, 2009, the Board of County Commissioners enacted an ordinance amending Chapter 7, Leon County Code of Laws, relating to the provision and funding of *fire rescue services*; and

WHEREAS, pursuant to Chapter 7, Leon County Code of Laws, on May 26, 2015, the Board of County Commissioners adopted a *fire rescue assessment rate resolution* and *fire rescue fee rate resolution*, Resolution No. 15-20; and

WHEREAS, pursuant to Chapter 7, Leon County Code of Laws, on July 11, 2023, the Board of County Commissioners adopted a *fire rescue assessment rate resolution* and *fire rescue fee rate resolution*, Resolution No. 23-11; and

WHEREAS, the Board of County Commissioners utilized a rate study, attached to an incorporated into Resolution No. ~~15-20~~23-11 as Exhibit "A", in calculating the fire rescue assessment rate and fire rescue fee; and

WHEREAS, the fire rescue assessment rate and fire rescue fee established in Resolution No. ~~15-20~~23-11apportioned costs based upon a reasonable estimation of the five-year average annual cost of providing fire rescue services, and the rates no longer adequately fund the costs of providing fire rescue services; and

WHEREAS, pursuant to the Interlocal Agreement, as amended, the Board of County Commissioners commissioned a ~~new~~ rate study utilizing the same methodology set forth in the rate study attached to Resolution No. ~~15-20~~23-11, but with updated service delivery, fire incident data, property data and budget information; and

WHEREAS, a ~~new~~ rate study ~~has been~~ was completed in 2023, and ~~shows~~ showed that an adjustment to the rates ~~is~~ was needed to adequately fund fire rescue services; and

WHEREAS, the Board of County Commissioners adopted a *fire rescue assessment*

rate resolution established in Resolution No. 23-11; and

WHEREAS, the Board of County Commissioners adopted an Ordinance on September 15, 2025, amending Chapter 7, Article IV, Section 7-44 of the Leon County Code of Laws, regarding the methods of collection of the fire rescue fee and assessment; and

WHEREAS, the Board of County Commissioners desires to adopt an amended and restated ~~A new~~ *fire rescue assessment rate resolution* and *fire rescue fee rate resolution* pursuant to Chapter 7, Leon County Code of Laws in order to reflect and adhere to Chapter 7, Article IV, Section 7-44 of the Leon County Code of Laws, as recently amended, and continue to adequately fund fire rescue services.

NOW, THEREFORE, BE IT RESOLVED by the Board of County Commissioners of Leon County, Florida, that:

Section 1. Recitals. The Recitals set forth above are deemed incorporated herein as if fully set forth below.

Section 2. Authority. This Resolution is adopted pursuant to the authority granted the County under Article VIII, Section 1, Florida Constitution, Chapter 125, Florida Statutes, the Leon County Charter, Chapter 7 of the Leon County Code of Laws, and other applicable provisions of law.

Section 3. Definitions. For purposes of this Resolution, the definitions contained in Section 7-39, Leon County Code of Laws, are incorporated herein by reference as if fully set forth below. In addition, as used in this Resolution, the following terms shall have the following meanings, unless the context hereof otherwise requires:

"*Building area*" means the actual area of a *building* expressed in square feet and reflected on the *tax roll* or, in the event such information is not reflected or is determined not to

be accurately reflected on the *tax roll*, that area determined by the County.

"*Code descriptions*" mean the descriptions listed in the *fixed property use codes* and the descriptions listed in the *improvement codes*.

"*Core stations*" are those fire stations located within five road miles of at least two other stations.

"*Commercial property*" means those *tax parcels* with a *code description* designated as "*commercial*" in the *improvement codes*, including those *tax parcels* that meet the definition of *recreational vehicle park* herein.

"*Cost apportionment*" means the apportionment of the *fire rescue cost* among all *property use categories* according to the *demand percentages* established pursuant to the apportionment methodology described in Sections 7.A.3 and 7.B.2 of this Resolution.

"*Cost Factor***"** means the factor that represents the varying cost in providing *fire rescue services* to the different *service zones*, as calculated in accordance with Section 7.B of this Resolution.

"*Demand percentage*" means the percentage of demand for *fire rescue services* attributable to each *property use category* determined by analyzing the historical demand for *fire rescue services* as reflected in *incident reports* in the *state database* under the methodology described in Sections 7.A.3 and 7.B.2 of this Resolution.

"*DOR code*" means a property use code established in Rule 12D-8.008, Florida Administrative Code, assigned by the Property Appraiser to *tax parcels*.

"*Dwelling unit*" means (1) a *building*, or a portion thereof, available to be used for residential purposes, consisting of one or more rooms arranged, designed, used, or intended to be used as living quarters for one family only, or (2) the use of land in which lots or spaces are

offered for rent or lease for the placement of mobile homes or the like for residential purposes.

"EMS services" means those services recorded in *FFIRS* that assign a "type of situation found code" of 3, 300, 311,320, 321, 321B, 322, 323, 381, 551E, 554, and 661.

"EMS Cost" means the amount, other than first response medical rescue services, determined by the County to be associated with *EMS services*.

"*FFIRS*" means the Florida Fire Incident Reporting System maintained by the Florida State Fire Marshal.

"Fire rescue cost" means the *fire rescue cost* as defined in Chapter 7 of the Leon County Code of Laws, but specifically excluding any *EMS Cost*.

"*Fire rescue services"* means fire rescue services, facilities and programs.

"*Fire rescue fee*" means a fee for *fire rescue services* provided to each improved parcel of *governmental property* located within the unincorporated area of the County.

"*Fire services property use category*" means the use codes developed for the purpose of assigning a *fire rescue charge* for the method of collection ~~on a *utility* bill~~.

"*Fixed property use codes*" mean the property use codes used by *FFIRS* as specified in the attached Exhibit A, Appendix B.

"*Improvement codes*" mean the building use codes assigned by the Property Appraiser to *tax parcels* as specified in the attached Exhibit A, Appendix C.

"*Incident report*" means an individual report filed with the Florida State Fire Marshal under *FFIRS* that is not associated with *EMS services*.

"*Industrial/warehouse property*" means those *tax parcels* with a *code description* designated as "*industrial/warehouse*" in the *improvement codes*.

"*Mixed use property*" means a *tax parcel* that contains *buildings* whose use descriptions

are capable of assignment under a *code description* in the *improvement codes* in more than one *property use category*.

"*Non-residential property*" means, collectively, *commercial property* and *industrial/warehouse property*.

"*Parcel apportionment*" means the further apportionment of the *fire rescue cost* allocated to each *property use category* by the *cost apportionment* among the *tax parcels* under the methodology established in Sections 7.A.3 and 7.B.2 of this Resolution.

"*Property use categories*" means, collectively, *residential property* and all categories of *non-residential property*.

"Recreational vehicle park" means (1) a place set aside and offered by a person, for either direct or indirect remuneration of the owner, lessor, or operator of such place, for the parking, accommodation, or rental of five or more recreational vehicles or tents; and (2) licensed by the Department of Health of the State of Florida, or its successor in function as a "recreational vehicle park" or “lodging park” under Chapter 513, Florida Statutes, as may be amended from time-to- time.

"*Residential property*" means those *tax parcels* designated as “Residential” in the *improvement codes.*

“*Service zones*” mean the geographic areas defined to differentiate between the two levels of *fire rescue services* provided within the County based upon proximity to *core stations.*

"State database" means the incident data derived from the *FFIRS incident reports* maintained by the Florida State Fire Marshal.

"Tax parcel" means a parcel of property located within the unincorporated area of the County to which the Property Appraiser has assigned a distinct ad valorem property tax

identification number.

Section 4. Resolution. This Resolution shall constitute the *fire rescue assessment rate resolution* and the *fire rescue fee rate resolution* as described in Sections 7-42 and 7-43, Leon County Code of Laws.

Section 5. Provision of Fire Rescue Services. The County shall continue to provide *fire rescue services* for the benefit of all parcels of *assessed property* located within the unincorporated areas of the County commencing October 1, ~~2023~~2025. All or a portion of the cost to provide such *fire rescue services* shall be funded from proceeds of the *fire rescue charge*. The remaining cost, if any, required to provide *fire rescue services* shall be funded by available County revenues other than such proceeds.

Section 6. General Legislative Determinations. It is hereby ascertained and declared that the *fire rescue services* provide a special benefit to the *assessed property* based upon the following legislative determinations and based upon that certain report entitled "City of Tallahassee and Leon County, Florida, Fire Assessment Memorandum" dated April 2023, prepared by Government Services Group, Inc., which is hereby specifically approved and adopted as Exhibit A, same being attached hereto and incorporated herein as if fully set forth below. Upon the adoption of this Resolution, the legislative determinations ascertained and declared in Sections 7-42 and 7-43, Leon County Code of Laws are hereby ratified and confirmed.

A. It is hereby ascertained, determined, and declared that each parcel of property subject to a *fire rescue charge* located within the unincorporated area of the County, and the *owners* and occupants of said parcel, will be benefited by the County's provision of *fire rescue services*, in an amount not less than the *fire rescue charge* imposed against such parcel and that

such *fire rescue charge,* as computed in a manner as set forth in this Resolution, constitutes a fair and reasonable charge for the provision of *fire rescue services*.

B. The availability and provision of comprehensive *fire rescue services* enhance and strengthen the relationship of such services to the use and enjoyment of the parcels of property, the market perception of the area and, ultimately, the property and rental values within the assessable area.

C. The Board does hereby find that the various legislative findings and determinations contained herein are found to have existed as of the original imposition of the *fire rescue charge* in 2009 and relate back thereto. Therefore, such findings shall be deemed to have been incorporated in the provisions of Chapter 7, Leon County Code of Laws, adopted March 13, 2009, Resolution No. 09-16, adopted June 9, 2009, ~~and~~ Resolution No. 15-20, adopted on May 26, 2015, and Resolution 23-11, adopted July 11, 2023, as if they had been set forth fully therein and continued thereafter.

Section 7. Fire Rescue Charges.

A. Fire Rescue Fee.

1. Imposition; Legislative Determinations.

a. A *fire rescue fee* is hereby imposed upon each improved parcel of *government property* located within the unincorporated area of the County, and which is hereby ascertained, determined, and declared to be reasonably and fairly related to the cost of providing *fire rescue services* to such *government property* and as such the *fire rescue fee* constitutes a fair, reasonable, just, and equitable manner for apportioning and allocating the *fire rescue cost for government property*. The *fire rescue fee* imposed

hereby is not a special assessment; it is a fee for services available and rendered to *government property*.

b. Upon the adoption of this Resolution determining the *fire rescue fee* and identifying the *government property* to be billed a *fire rescue fee*, the legislative determinations ascertained and declared in Section 7-42, Leon County Code of Laws, are hereby ratified and confirmed.

c. It is fair and reasonable to use the *fire services property use category* to assign property use for a *fire rescue fee* because the use codes are most compatible with the ~~system of billing on the City of Tallahassee *utility* bill~~ method of collection under Section 7-44, Leon County Code of Laws, as amended.

d. It is fair and reasonable to use the *fire rescue costs* for the development of the *fire rescue fee* and apply the *fire rescue fee* for future fiscal years at the rates established in this Resolution because it is hereby determined that the actual annual cost of providing *fire rescue services*, over the five-year period will be as great as or greater than the *fire rescue fee* established herein.

e. It is fair and reasonable and consistent with the decision of the Florida Supreme Court in the case of City of North Lauderdale v. SMM Properties, Inc., 825 So.2d 343 (Fla. 2002), to exclude from the *fire rescue costs*, amounts determined to constitute the cost of providing emergency medical services.

f. Apportioning *fire rescue costs for government property* among

classifications of improved *government property* based upon historical demand for *fire rescue services*, but not emergency medical services, is a fair and reasonable method of *cost apportionment* because it reflects the property uses' potential fire risk based upon *building* use and is a reasonable proxy for the amount of fire flow, fire fighters, quantity and size of apparatus, and other special firefighting equipment that must be available in accordance with the County's required standards and practices.

g. The greater the *building area*, the greater the potential for a large fire and the greater the firefighting resources that must be available in the event of a fire in a structure of that *building*'s size. Therefore, it is fair and reasonable to use *building area* as a proxy for determining the *fire rescue fees*.

h. It is fair and reasonable to not charge a *fire rescue fee* to *government property* that is vacant. ~~as evidenced by the cessation of *utility* services. The costs of administering and collecting *fire rescue fees* from such vacant property exceed the anticipated *fire rescue fees* that could be collected from such property.~~

i. The *incident reports* are the most reliable data available to determine the potential demand for *fire rescue services* from *government property* use and to determine the benefit to property use resulting from the availability of *fire rescue services* to protect and serve *buildings* located within *government property* and their intended occupants. There exist sufficient *incident reports* documenting the historical demand for *fire rescue services*

from *government property*. The *demand percentage* determined for each classification of *government property* by an examination of such *incident reports* is consistent with the experience of the County. Therefore, the use of *demand percentages* determined by an examination of *incident reports* is a fair and reasonable method to apportion the *fire rescue costs* among each classification of *government property*.

j. The suppression of fire on vacant property primarily benefits the *buildings* within the adjacent improved property by the containment of the spread of fire rather than the preservation of the vacant property. Therefore, it is fair and reasonable not to apportion any of the costs attributed to providing *fire rescue services* to vacant property and the *incident reports* omitted from the *demand percentage* calculation.

k. The budget is sized based upon its ability to provide *fire rescue services* to *assessed property* within the unincorporated area. Therefore, the level of services required to meet anticipated demand for *fire rescue services* and the corresponding fire services budget required to fund *fire rescue services* provided to non-specific property uses would be required notwithstanding the occurrence of any incidents from such non-specific uses. Therefore, it is fair and reasonable to omit from the *demand percentage* calculation, the *incident reports* documenting *fire rescue services* provided to non-specific property uses and vacant property.

2. Methodology for Determining Fire Rescue Fees. The *fire rescue fees* shall be calculated as follows:

a. The number of *incident reports* filed within a sampling period was determined for *government property* and all *property use categories* of *nongovernment property*. The percentages of total *incident reports* allocated to *government property* as compared to total *incident reports* allocated to *nongovernment property* were used to calculate the *fire rescue cost* for *assessed property* and the *fire rescue cost for government property*.

b. The *fire rescue cost for government property* was then apportioned among the *tax parcels* of *government property* as follows:

i. Add the *building area* of all the *buildings* of *government property* to arrive at the aggregate square footage for *government property*. Any *buildings* that exceed 100,000 square feet of *building area* shall only be included at 100,000 square feet.

ii. Divide the *fire rescue cost for government property* by the product of subsection 1. above to arrive at a rate per square foot of *building area* to be charged to *government property*.

iii. For each *building* of *government property*, multiply the applicable square foot rate determined in subsection 2. above by the number of square feet for that *building* and then sum the amounts for all *buildings* on that *tax parcel*.

3. Amount of Fire Rescue Fee.

The *fire rescue cost for government property* is further determined to be a reasonable estimation of a five-year average annual cost of providing *fire rescue services* to *government property*. The amount of the *fire rescue fee*

imposed upon *government property for fire rescue services* is specifically based upon the Rate Study, Exhibit A, established pursuant to and in accordance with Section 7-42, Leon County Code of Laws, and shall be as set forth in Exhibit B, Rate Schedule, same being attached hereto and incorporated herein as if fully set forth below, commencing October 1, ~~2023~~2025, annually, until otherwise determined by the Board.

B. Fire Rescue Assessment.

1. Imposition; Legislative Determinations; Cost Apportionment Methodology; Parcel Apportionment Methodology; Amount.

A *fire rescue assessment* is hereby levied and imposed upon each improved parcel of *nongovernment property* located within the unincorporated area of the County, and which is hereby ascertained, determined, and declared to be reasonably related to the cost of providing *fire rescue services* and thereby provides an equitably corresponding special benefit to *nongovernment property*. The *fire rescue assessment* is hereby ascertained, determined, and declared to be based upon a reasonable estimation of the five-year average annual cost of providing *fire rescue services* to such *nongovernment property*. It is further ascertained, determined, and declared that the *fire rescue assessment* imposed hereby provides a special benefit to and is equitably apportioned among the *assessed property* based upon the special benefit assumptions and apportionment methodology set forth in the Rate Study, Exhibit A, and as further set forth below:

a. It is further hereby ascertained and declared that the *fire rescue services*

provide a special benefit to *nongovernment property,* that is improved by the existence or construction of a *building,* based upon the following legislative determinations:

i. *Fire rescue services* enhance the use and enjoyment of improved property, which constitutes a special benefit to *owners*, commercial tenants, residential tenants, and occupants by the following:

A. Protecting the value of the improvements, structures, and contents through the provision of available *fire rescue services*;

B. Protecting the life and safety of occupants, residential tenants and commercial tenants, in the use and enjoyment of the improvements and structures within improved parcels; and

C. Lowering the cost of fire insurance, including renter's insurance and property coverage for the repair and replacement of contents of improvements and structures within the improved parcels, by the presence of a professional and comprehensive fire services program within the unincorporated area of the County.

ii. The *fire rescue services* enhance the use and enjoyment of commercial tenants by protecting the continued commercial operations within improved parcels of property within the unincorporated area of the County.

iii. The *fire rescue services* enhance the value of business and commercial interests, which accrues to *owners* and lessees, by protecting the continued commercial operations within improved parcels of

property within the unincorporated area of the County.

iv. The legislative determinations of special benefit ascertained arising from the *fire rescue services*, as set out and declared in Section 7-43, Leon County Code of Laws, are incorporated herein by reference and further ratified and confirmed.

b. It is fair and reasonable to create *service zones* to reflect the level of service differentiation between a property located in a higher density area that receives fire protection coverage from multiple *core stations* and a property located in an area generally described as rural and typically serviced by a single fire station.

c. It is fair and reasonable to use the *improvement codes* and the *DOR codes* for the *cost apportionment* and the *parcel apportionment* because: (1) the *tax roll* database employing the use of such property use codes is the most comprehensive, accurate, and reliable information readily available to determine the property use and *building area* for improved property within the County, and (2) the *tax roll* database within such property use codes is maintained by the Property Appraiser and is thus consistent with parcel designations on the *tax roll* ~~and (3) the parcel descriptions on the *tax roll* are not incompatible with the property use descriptions on the City of Tallahassee's *utility* customer database which has been developed and maintained by the City of Tallahassee and which will be used in many instances to bill the *fire rescue assessments*~~.

d. The data available in the *improvement codes* is more useful and accurate to determine *building area* than the data maintained in the *DOR codes* because

(1) the data maintained in the *improvement codes* reveals the existence of a *building* with a different use than the use described in the *DOR codes*, and (2) the *improvement codes* represent records maintained by the Property Appraiser with the most information relative to *building area* regardless of property use ~~and (3) the City of Tallahassee *utility* customer database does not contain *building area* data~~.

e. It is fair and reasonable and consistent with the decision of the Florida Supreme Court in the case of City of North Lauderdale v. SMM Properties, Inc., 825 So. 2d 343 (Fla. 2002), to exclude from the *fire rescue costs,* amounts determined to constitute the cost of providing *EMS services*.

f. Apportioning the *fire rescue cost for assessed property* among classifications of improved property based upon historical demand for *fire rescue services*, but not *EMS services*, is a fair and reasonable method of *cost apportionment* because it reflects the property uses' potential fire risk based upon *building* use and is a reasonable proxy for the amount of fire flow, fire fighters, quantity and size of apparatus, and other special firefighting equipment that must be available in accordance with the County's required standards and practices.

g. The cost of responding to fire incidents varies among the *service zones.* Therefore, it is fair and reasonable to use a *cost factor* in calculating the *demand percentages* because it reflects the varying costs that are associated with the responses and services to different *property use categories* based upon average call duration, which accounts for the time that personnel and

equipment were out of service.

h. It is fair and reasonable to use the *fire rescue costs for assessed property* for the development of the *fire rescue assessment* and apply the *fire rescue assessment* for future fiscal years at the rates established in this Resolution because it is hereby determined that the actual annual cost of providing *fire rescue services* over the five-year period will be as great as or greater than the *fire rescue assessment* established herein.

i. The *incident reports* are the most reliable data available to determine the potential demand for *fire rescue services* from property use and to determine the benefit to property use resulting from the availability of *fire rescue services* to protect and serve *buildings* located within the *assessed property* and their intended occupants. There exist sufficient *incident reports* documenting the historical demand for *fire rescue services* from *assessed property* within the *property use categories*. The *demand percentage* determined for each *property use category* by an examination of such *incident reports* is consistent with the experience of the City of Tallahassee Fire Department. Therefore, the use of *demand percentages* determined by an examination of *incident reports* is a fair and reasonable method to apportion the *fire rescue costs* among the *property use categories*.

j. The suppression of fire on vacant property primarily benefits the buildings within the adjacent improved property by the containment of the spread of fire rather than the preservation of the vacant property. Therefore, it is fair

and reasonable not to apportion any of the costs attributed to providing *fire rescue services* to vacant property, and the *incident reports* documenting historical *fire rescue costs* provided to vacant property were thus omitted from the *demand percentage* calculation.

k. The budget for *fire rescue services* is sized based upon its ability to provide ~~service~~ services to *assessed property* within the unincorporated area. Therefore, the level of services required to meet anticipated demand for *fire rescue services* and the corresponding budget required to fund *fire rescue services* provided to nonspecific property uses would be required notwithstanding the occurrence of any incidents from such nonspecific uses. Therefore, it is fair and reasonable to omit from the *demand percentage* calculation the *incident reports* documenting *fire rescue services* provided to nonspecific property uses and vacant property.

l. It is fair and reasonable ~~to~~ not to charge a *fire rescue assessment* to *nongovernment property* that is vacant ~~as evidenced by the cessation of *utility* services. The cost of administering and collecting *fire rescue assessments* from such vacant property exceed the anticipated *fire rescue assessments* that could be collected from such property~~.

m. The size or the value of the *residential property* does not determine the scope of the required *fire rescue services* response. The potential demand for *fire rescue services* is driven by the existence of a *dwelling unit* and the anticipated average occupant population.

n. Apportioning the *fire rescue costs* to *residential property* on a per *dwelling*

unit basis is required to avoid cost inefficiency and unnecessary administration and is a fair and reasonable method of *parcel apportionment* based upon historical call data.

o. The demand for *fire rescue service* availability is substantially the same for all *residential property*; therefore, it is fair and reasonable to use the combined *demand percentages* attributable to all types of *residential property,* both *single family property* and *multi-family property,* to determine *fire rescue assessments* for *residential property*.

p. The risk of loss and the demand for *fire rescue services* availability is substantially the same for *buildings* below a certain minimum size. Because the value and anticipated occupancy of non-residential *buildings* below a certain minimum size is less, it is fair, reasonable, and equitable to provide a lesser assessment burden on improved property containing such *buildings* by the creation of specific *building area* classification ranges for such parcels.

q. The assessment of *nonresidential property* by square footage classification ranges is fair and reasonable for the purpose of *parcel apportionment* because the demand for fire rescue service, fire flow, fire fighters, quantity and size of apparatus, and other special firefighting equipment is determined and measured by the square footage of structures and improvements within benefited parcels.

r. The greater the *building area*, the greater the potential for a large fire and the greater the amount of firefighting resources that must be available in the

event of a fire in a structure of that *building*'s size. Therefore, it is fair and reasonable to use *building area* as a proxy for determining the *tax parcel*'s *fire rescue assessment*.

s. The separation of improved *non-residential property* into *building area* classification ranges is fair and reasonable for the purposes of *parcel apportionment* because: (1) the absence of a need for precise square footage data within the ad valorem tax records maintained by the Property Appraiser undermines the use of actual *building area* within each improved parcel as a basis for *parcel apportionment*; (2) the administrative expense and complexity created by an on-site inspection to determine the actual *building area* within each improved parcel assessed is impractical; (3) the demand for *fire rescue services* availability is not precisely determined or measured by the actual *building area* within benefited parcels; and (4) the classification of parcels within *building area* classification ranges is a fair and reasonable method to classify benefited parcels and to apportion costs among benefited parcels that create similar demand for the availability of *fire rescue services*.

t. The demand for the availability of *fire rescue services* diminishes at the outer limit of *building* size since a fire occurring in a structure greater than a certain size is not capable of being suppressed under expected conditions and the fire control activities under such circumstances are directed to avoid the spread of the fire event to adjacent *buildings*. Therefore, it is fair and reasonable to place a cap on the *building area* classification of benefited

parcels within *non- residential property*.

u. In accordance with Section 125.0168, Florida Statutes, which mandates that counties treat recreational vehicle park property as *commercial property* for non-ad valorem special assessments levied by a county, like the *fire rescue assessment*, it is fair and reasonable to treat each space within recreational vehicle park property as a *building* on *commercial property* and to assign the square footage of 191 square feet, the average size of a recreational vehicle, according to the Florida Association of RV Parks and Campgrounds.

2. Cost Apportionment Methodology for Fire Rescue Assessment.

a. The number of *incident reports* filed within a sampling period was determined for *government property* and all *property use categories* of *nongovernment property*. The percentages of total *incident reports* allocated to *government property* as compared to total *incident reports* allocated to *nongovernment property* were used to calculate the *fire rescue cost for assessed property* and the *fire rescue cost for government property*.

b. Next, to correlate the *nongovernment tax parcels* to the *service zones*, the *incident reports* filed within a sampling period were geo-coded on the GIS system map based upon the address provided in the *FFIRS* database.

c. Based upon such correlation by *service zone*, the number of *incident reports* filed within a sampling period were determined for each *service zone*.

d. A *cost factor* was then developed and applied to the *incident reports* within each *service zone* based upon the difference in average call duration

between the *service zones* with Zone 1 being assigned a 1.00 weighting *cost factor* and Zone 2 being assigned a 1.26 weighting *cost factor.*

e. A *demand percentage* was then determined for each *service zone* by calculating the percentage that *incident reports* allocated to each *service zone* bears to the total number of *incident reports* documented for both *service zones* during the sampling period. The *demand percentage* for each *service zone* was then applied to the *fire rescue cost for assessed property* and the resulting product is the cost allocation of that portion of the *fire rescue costs* allocated to each *service zone*.

f. Using the weighted *incident reports*, fire rescue incidents were assigned within the County to the *property use categories* by correlating the *code descriptions* within the *fixed property use codes* to the *improvement codes* and *DOR codes*.

g. To correlate the *property use categories* with the *state database*, the *code descriptions* within the *fixed property use codes* similar to *code descriptions* within the *improvement codes* that were used to determine the *property use categories* were identified. Exhibit A, Appendix C contains a designation of *code descriptions* by *property use category* with the *improvement codes*, and Exhibit A, Appendix B, contains a designation of *code descriptions* by *property use category* with the *fixed property use codes*. Such correlation between *code descriptions* by *property use category* between the *fixed property use codes* and the *improvement codes* is necessary to allocate the historical demand for *fire rescue services* as

reflected by the weighted *incident reports* for *tax parcels* on the *tax roll* within the *property use categories*.

h. Based upon such assignment of weighted *incident reports* to *property use categories*, the number of weighted *incident reports* filed within a sampling period was determined for each *property use category*. A *demand percentage* was then determined for each *property use category* in each *service zone* by calculating the percentage that weighted *incident reports* allocated to each *property use category* bear to the total number of weighted *incident reports* documented for all *property use categories* within the sampling period. The *demand percentage* for each *property use category* within each *service zone* was then applied to the *fire rescue cost for assessed property* for that *service zone*, and the resulting product is the cost allocation of that portion of the *fire rescue cost for assessed property* allocated to each *property use category* within that *service zone*.

3. Parcel Apportionment Methodology.

a. The apportionment among *tax parcels* of *nongovernment property* of that portion of the *fire rescue cost for assessed property* apportioned to each *property use category* within each *service zone* under the *cost apportionment* is consistent with the *parcel apportionment* methodology described and determined herein.

b. RESIDENTIAL PROPERTY. For each *service zone*, the *fire rescue assessment* for each *tax parcel* of *residential property* shall be computed by multiplying the *demand percentage* attributable to *residential property*

by the *fire rescue cost for assessed property* allocated to the respective *service zone*, dividing such product by the total number of *dwelling units* shown on the *tax roll* within the *service zone*, and then multiplying such quotient by the number of *dwelling units* located on such *tax parcel*.

c. NON-RESIDENTIAL PROPERTY. The *fire rescue assessments* for each *building* of *nonresidential property*, except recreational vehicle property, shall be computed as follows for each *service zone*:

i. Respectively, multiply the *fire rescue cost for assessed property* for the applicable *service zone* by the *demand percentage* attributable to each of the non-residential *property use categories*. The resulting dollar amounts reflect the portions of the fire *rescue services* budget to be respectively funded from *fire rescue assessment* revenue derived from each of the non-residential *property use categories*.

ii. Separate each *building* in each of the *nonresidential property use categories* into one of the following square footage categories:

A. *buildings* with a *building area* of 1,999 square feet or less;

B. *buildings* with a *building area* between 2,000 square feet and 3,499 square feet;

C. *buildings* with a *building area* between 3,500 square feet and 4,999 square feet;

D. *buildings* with a *building area* between 5,000 square feet and 9,999 square feet;

E. *buildings* with a *building area* between 10,000 square feet and

19,999 square feet;

F. *buildings* with a *building area* between 20,000 square feet and 29,999 square feet;

G. *buildings* with a *building area* between 30,000 square feet and 39,999 square feet;

H. *buildings* with a *building area* between 40,000 square feet and 49,999 square feet;

I. *buildings* with a *building area* between 50,000 square feet and 59,999 square feet;

J. *buildings* with a *building area* between 60,000 square feet and 69,999 square feet;

K. *buildings* with a *building area* between 70,000 square feet and 79,999 square feet;

L. *buildings* with a *building area* between 80,000 square feet and 89,999 square feet;

M. *buildings* with a *building area* between 90,000 square feet and 99,999 square feet;

N. *buildings* with a *building area* of 100,000 square feet or greater.

iii. As to each non-residential *property use category* multiply the number of *buildings* categorized in:

A. Paragraph (2)(a) of this subsection by 1,000 square feet; and

B. Paragraph (2)(b) of this subsection by 2,000 square feet; and

C. Paragraph (2)(c) of this subsection by 3,500 square feet; and

D. Paragraph (2)(d) of this subsection by 5,000 square feet; and

E. Paragraph (2)(e) of this subsection by 10,000 square feet; and

F. Paragraph (2)(f) of this subsection by 20,000 square feet; and

G. Paragraph (2)(g) of this subsection by 30,000 square feet; and

H. Paragraph (2)(h) of this subsection by 40,000 square feet; and

I. Paragraph (2)(i) of this subsection by 50,000 square feet; and

J. Paragraph (2)(j) of this subsection by 60,000 square feet; and

K. Paragraph (2)(k) of this subsection by 70,000 square feet; and

L. Paragraph (2)(l) of this subsection by 80,000 square feet; and

M. Paragraph (2)(m) of this subsection by 90,000 square feet; and

N. Paragraph (2)(n) of this subsection by 100,000 square feet.

iv. For each non-residential *property use category*, add the products of paragraphs (3)(a) through (3)(n) of this subsection. The sum of these products reflects an aggregate square footage area for each non-residential *property use category* to be used in the computation of *fire rescue assessments*.

v. Divide the product of paragraph 1. of this subsection relative to each of the non-residential *property use categories* by the sum of the products for each non- residential *property use category* described in paragraph 4. of this subsection. The resulting quotient expresses a dollar amount adjusted or weighted per square foot of improved area to be used in computing *fire rescue assessments* on each of the respective non-residential *property use categories*.

vi. For each of the non-residential *property use categories*, multiply the resulting quotients from paragraph 5. of this subsection by each of the respective products in paragraphs (3)(a) through (3)(n) of this subsection. The resulting products for each non-residential *property use category*, expresses a series of gross dollar amounts expected to be funded by all *buildings* in the respective non-residential *property use categories* in each of the square footage categories described in paragraph 2. of this subsection.

vii. For each of the non-residential *property use categories*, divide each of the respective products of paragraph 6. of this subsection by the number of *buildings* determined to be in each of the square footage categories identified in paragraph 2. of this subsection. The result expresses the respective dollar amounts of the *fire rescue assessments* to be imposed upon each *building* in each of the non-residential *property use categories*.

d. RECREATIONAL VEHICLE PARK PROPERTY. Notwithstanding the procedure in subsection c. above for *non-residential property*, the *fire rescue assessments* for each *tax parcel* of *recreational vehicle park* property shall be computed as follows:

i. Aggregate the amount of square footage for each *tax parcel* of *recreational vehicle park*, with recreational vehicle park spaces, as reported to the Department of Health, at 191 square feet each, mobile home spaces, as reported to the Department of Health, at actual *building*

area or 720 square feet each if actual square footage is not available, and actual *building area* for all other *buildings*.

ii. Assign the respective dollar amount of the *fire rescue assessments* determined in subsection c. above for *commercial property* for the applicable *service zone* to the comparable aggregated square footage category ranges of *recreational vehicle park* property as calculated in paragraph 1. above. Any aggregated square footage that exceeds 100,000 square feet on a *tax parcel* shall be assigned the *commercial* dollar amount for 100,000 square feet. The result expresses the respective dollar amounts of the *fire rescue assessments* to be imposed upon each *recreational vehicle park* property.

e. MIXED USE PROPERTY. The *fire rescue assessments* for each *tax parcel* classified in two or more *property use categories* shall be the sum of the *fire rescue assessments* computed for each *property use category*.

4. Amount of Fire Rescue Assessment.

The amount of the *fire rescue assessment* levied and imposed upon *nongovernment property* shall be as set forth in Exhibit B, Rate Schedule, commencing October 1, ~~2023~~ 2025, annually, until otherwise determined by the Board.

Section 8. Exempt Property. The *fire rescue assessment* heretofore imposed upon *nongovernment property* shall be levied but not ~~be levied nor~~ charged ~~imposed~~ against property owned or occupied by a "religious institution" as that term is defined in Section 170.201(2), Florida Statutes, to the extent same is used as a place of worship.

Section 9. Lien. The *fire rescue assessments* imposed herein shall constitute a lien

upon the Assessed Property so assessed equal in rank and dignity with the liens of all state, county, district or municipal taxes and other non-ad valorem assessments. Except as otherwise provided by law, such lien shall be superior in dignity to all other liens, titles and claims, until paid.

Section 10. Collection of Fire Rescue Charge; Legislative Determinations. The collection of the *fire rescue charge* shall be made pursuant to and in accordance with Section 7- 44, Leon County Code of Laws, as amended, and is authorized hereby, ~~commencing on October 1, 2023,~~ annually, until otherwise determined by the Board. ~~The use of the *utility* bills for the collection of the *fire rescue fee* and *fire rescue assessment* is a method of collection that is reasonably related and directed to those that derive the benefit received by the property from the provision of *fire rescue services*. The benefit to the property is not solely received by the *owner* of the property but also extends to all intended occupants, including but not limited to, tenants, leaseholders and others occupying the property. There is a rational nexus between the use of the *utility* bill to collect the *fire rescue fees* and *fire rescue assessments* from the property and the intended occupants of the property, including but not limited to, owners, tenants, leaseholders and others occupying property, and the benefit they derive through the enhancement of their use and enjoyment of the property. The use of *utility* bills for collection also provides a convenient mechanism of payment and further relieving any potential economic burden by providing an opportunity to pay smaller fees in twelve (12) increments annually as opposed to one larger lump sum payment being collected annually.~~

Section 11. Final Adjudication. The adoption of this Resolution shall be the final adjudication of the issues presented (including, but not limited to, the determination of special benefit and fair apportionment, the method of apportionment, the rate of assessment and fee,

the and the levy and lien of the *fire rescue charges*), unless proper steps shall be initiated in a court of competent jurisdiction to secure relief within 20 days from the date of this Resolution.

Section 12. Repealer. This resolution amends, replaces and supersedes Resolution No. ~~15-20~~ 23-11, which was adopted by the Board on ~~May 26, 2025~~ July 11, 2023.

Section 13. Effective Date. This Resolution shall have effect ~~upon~~ on October 1, 2025, ~~adoption~~ and shall apply to all property located within the unincorporated area of Leon County.

DONE, ADOPTED AND PASSED by the Board of County Commissioners of Leon County, Florida, this 15th day of September, 2025.

Introduction

The City of Tallahassee (City) and Leon County (County) entered into a professional services agreement with Government Services Group, Inc., an Anser Advisory Company (GSG) to provide specialized services in the development and implementation of a non-ad valorem assessment program to fund fire services within the incorporated and unincorporated areas of the County (Fire Assessment Project).

The objective of this Fire Assessment Project is to develop and implement an update to the City's current revenue program capable of efficiently and effectively collecting all assessable and billable costs associated with providing fire services on an annual basis throughout the entire County for Fiscal Year 2023-24 and future fiscal years. The mechanism for collecting the fire fee from governmental properties will remain in effect, however both the City and County will utilize the City's utility bill as the collection method for all non-governmental properties where possible and the City will assist the County in the collection of the fire assessment utilizing the utility bill, tax bill, and separate bills. This document is the Fire Assessment Memorandum (Assessment Memorandum), which is one of the project deliverables specified in the scope of services.

The work effort, documented by this Assessment Memorandum, focused on the calculation of assessment rates and classifications required to fully fund the identified assessable costs to provide countywide fire services for Fiscal Year 2023-24 and future fiscal years. However, the City and County have the choice of funding all or only a portion of the assessable costs based on policy direction. In addition, the work effort recorded in this Assessment Memorandum required the identification of the full costs of assessable fire services (net of all fire related revenues) and the allocation of those costs to properties that specially benefit from the provision of such fire services.

BACKGROUND

In 1999, the City adopted a fire services funding program consisting of two components: a Fire Fee and a Fire Assessment. The goal of the Fire Services Funding Project in 1999 was to design an alternative revenue program capable of efficiently and effectively collecting all assessable and billable costs associated with providing fire services on an annual basis. The Fire Fee is the funding mechanism that secures recovery of the cost for providing fire services to governmental property. The Fire Assessment is the funding mechanism for non-government property that could be collected on the City's utility bill. The program was updated to account for changes in call data, property data and service delivery in 2004, 2009, and 2015.

OBJECTIVES

The City retained GSG to develop an annual recurring special assessment program that is capable of funding all of the assessable costs associated with providing countywide fire services. The City will utilize the utility bill for collection of the fire assessment and will assist the County in the collection of the fire assessment utilizing the utility bill, the tax bill, and separate bills. GSG has been charged to fully cost the services to be provided by the City, develop a fair and reasonable apportionment methodology for such

assessable costs, and determine assessment rates and parcel classifications that are accurate, fair and reasonable.

The fire non-ad valorem assessments must meet the Florida case law requirements for a valid special assessment. These requirements include the following:

1. The service provided must confer a special benefit to the property being assessed; and
2. The costs assessed must be fairly and reasonably apportioned among the properties that receive the special benefit.

The work effort of this project required the evaluation of data obtained from the City and the County to develop a fire assessment program that focuses upon the projected Fiscal Year 2023-24 assessable cost calculations. The objectives of this initial effort were to:

- Determine the full costs of providing fire services within the County.
- Review such final cost determination with the City to determine which elements provide the requisite special benefit to the assessed properties.
- Determine the relative benefit anticipated to be derived by categories of property use within the County from the delivery of fire services.
- Recommend the fair and reasonable apportionment of assessable costs among benefited parcels within each category of property use.
- Calculate assessment rates and parcel classifications for Fiscal Year 2023-24 and future years based on the projected Fiscal Year 2023-24 through Fiscal Year 2027-28 Fire Department budget provided by the City and associated assessable costs developed by GSG.

Service Description

Fire Rescue services are provided throughout the County from 17[1] paid fire rescue stations and 6 volunteer stations. Two of the volunteer stations are co-located at Stations 15 and 10. Table 1 identifies fire rescue buildings/facilities inventory, as well as the corresponding physical location address for the facility.

The City of Tallahassee Fire Rescue Department provides standard fire suppression, medical services, hazmat response, technical rescue, airport capabilities, state disaster response, emergency response and

[1] Station 17 is anticipated to be operational by the end of 2023.

disaster preparedness, fire prevention and safety education.

The City has an interlocal agreement with Leon County to provide fire protection services within the unincorporated area of the County. The County compensates the City for these services with collections from the fire service assessment in the unincorporated areas of the County.

The County has an interlocal agreement with the City to provide ALS and transport EMS services to the incorporated area of the City. The City compensates the County for these services by providing for the inclusion of the territorial boundaries of the City within the EMS Municipal Services Taxing Unit (MSTU) of the County. However, the City provides provide Advanced Life Support (ALS) services in coordination with Leon County EMS. The County compensates the City for these services.

Dispatch services for fire and EMS services are provided through a joint dispatch operation between the City and the County.

Tables 2 through 5 outline the Fire Rescue Department's current service operations and service components. Table 2 outlines the Fire Rescue Department's organizational structure.

Table 2
City of Tallahassee Fire Rescue Department Organizational Chart

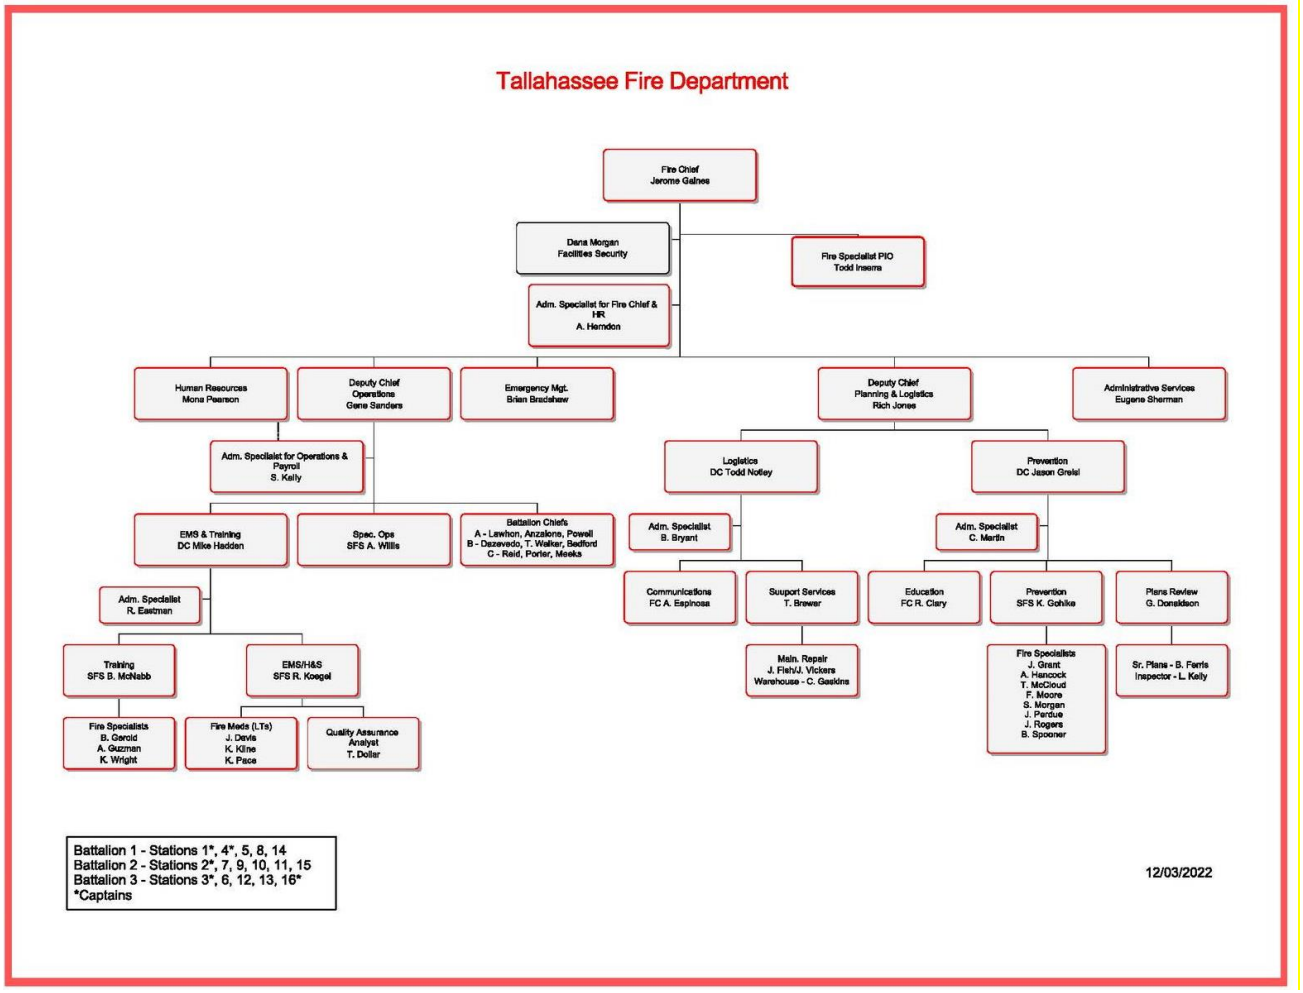

Table 3 describes the normal staffing for each apparatus. This information is used in the development of the Administrative Factor, as further discussed in the "Development of Factors" section of this Assessment Memorandum.

Table 3
Fire Rescue Department Apparatus Normal Staffing Requirements

Apparatus	Typical Staffing
Engine	4 personnel
Chevy Tahoe/Battalion Chief	1 personnel
Rescue	2 Personnel
Truck	4 Personnel
Tanker	1 Personnel
Airport	1 Personnel

* Pumping capacity for Station 5 is not included in total because those apparatus are dedicated to the airport.

The current pumping capacity is defined as the combined amount of water that all apparatus in the Fire Rescue Department can pump to a first alarm non-residential fire. As outlined by Table 4 above, the pumping capacity of the City's Fire Rescue Department is 37,500 gallons per minute. Accordingly, based on National Fire Protection Association firefighting standards for fire flow as provided for in NFPA 1 Fire Code, 2015, Chapter 18 (assuming ordinary construction), the Fire Rescue Department currently has sufficient fire flow capacity to provide service coverage in the event of a structure fire involving unlimited square feet.

Table 5 below details the Fire Rescue Department's response protocol.

Table 5
Minimum Response Protocol

Call Type	Typical City Response
Medical	Engine (1)
Vehicle Accident	Engine (1)
Vehicle Accident with Extraction	Engines (2), FireMed (1), Battalion Chief (1)
Residential Fire (single)	Engines (3), Truck (1), Battalion Chiefs (2), FireMed (1)
Residential Structure (multiple)	Engines (4), Truck (1), Battalion Chiefs (2), FireMed (1)
Residential/Building Alarm	Engine (1)
Commercial Fire	Engines (4), Truck (1), FireMed (1), Battalion Chiefs (2)
Hazardous Material	Engines (2), Haz-Mat (1), FireMed (1), Battalion Chief (1)
Service Calls	Engine (1)

Assessable Cost Calculations

The cost calculations, apportionment methodology and assessable rates developed apply to the fire services serving the unincorporated area of Leon County and the incorporated area of the City of Tallahassee.

DEVELOPMENT OF FACTORS

FIRE RESCUE V. EMERGENCY MEDICAL SERVICES

In June 2000, litigation over the City of North Lauderdale fire rescue assessment program resulted in a decision by the Fourth District Court of Appeals in the case of SMM Properties, Inc. v. City of North Lauderdale, (the "North Lauderdale" case). The Fourth District Court of Appeals concluded that Emergency Medical Services (EMS) did not provide a special benefit to property. The Court, however, reaffirmed that fire suppression, fire prevention, fire/building inspections and first response medical services do provide a special benefit to property. In 2002, the Florida Supreme Court upheld the decision of the Fourth District Court of Appeals.

To address these concerns, GSG developed a methodology that removed the costs associated with emergency medical services. This method of splitting the fire and EMS portions of a consolidated public safety department's budget was upheld by the Fourth District Court of Appeals in Desiderio Corporation, et al. vs. The City of Boynton Beach, Florida, et al., 39 So.3d 487 (Fla. 4th DCA 2010).

The proposed fire rescue department's line-item costs were allocated between fire rescue and emergency medical services as a result of the Florida Supreme Court's opinion in City of North Lauderdale v. SMM Properties that emergency medical services (above the level of first response) do not provide a special benefit to property. Accordingly, the City's fire rescue costs were split from emergency medical service costs based on the following general guidelines.

DIRECT ALLOCATIONS

To the extent that certain line items could be allocated directly to fire, direct allocations were made. For example, all costs associated with "Fire Prevention", "Fire Plans Review" and "Contractual Svc – VFD County" were allocated entirely to fire. All costs directly related to "Medical Services" were directly allocated to EMS.

ADMINISTRATIVE FACTOR

Certain line items were allocated between fire and EMS based on an Administrative Factor. This Administrative Factor is derived by creating a ratio between non-EMS or fire personnel and total combat personnel per shift. The administrative factor calculations are based on the City's total Fire Rescue Department combat personnel staffing, including an allocation for volunteers. Under normal staffing, this results in 87 non-EMS personnel and 19 EMS personnel for a total of 106 combat personnel. This normal staffing yields an 82.08 % percent non-EMS Administrative Factor.

This percentage was applied to all applicable line items to allocate the costs that could not be directly allocated as fire costs or EMS costs, and that could not be operationally allocated (see below). For example, the Administrative Factor was applied to the line-item expenditures for salaries and benefits, "Uniforms and Clothing", and "Utilities - Electric" to determine the fire service costs of these line items.

OPERATIONAL FACTOR

Other line items were allocated between fire and EMS based on an Operational Factor. The Operational Factor is derived by creating a ratio between non-EMS (i.e., fire) calls and EMS calls, and this ratio which is based on the City's Fire Rescue Department's operations, was then applied to certain budget line items such as "Equipment Repairs" and "Gasoline".

To develop the Operational Factor, GSG obtained fire rescue incident data identifying the number of fire rescue calls made to property categories within the entire County over a three-year period. The City fire rescue incident data was used to determine the demand for fire rescue services. GSG obtained information from the City in an electronic format, identifying the number and type of fire rescue incident responses for a three-year period July 1, 2019 through June 30, 2022.

The State Fire Marshal's office uses the Florida Fire Incident Reporting System (FFIRS). This system is a tool for fire rescue departments to report and maintain computerized records of fire rescue incidents and other department activities in a uniform manner. Under this system, a series of basic phrases with code numbers are used to describe fire rescue incidents. Appendix A provides a codes list for the "type of situation found" as recorded on the fire rescue incident reports used to identify EMS and non-EMS calls.

The ratio between non-EMS (i.e., fire) calls and EMS calls is then applied to all applicable line items to allocate the costs that could not be directly allocated as fire costs or EMS costs, and that could not be administratively allocated. For the three-year period, the City reported 66,575 total fire rescue incident calls to FFIRS, of which 18,563 were non-EMS (i.e. fire) calls and 48,012 were EMS calls. This information results in a 27.88% non-EMS Operational Factor.

ASSESSABLE COST CALCULATIONS

The fire services assessable cost calculations for Fiscal Years 2023-24 through 2027-28 are based on the following assumptions for the purpose of this Fire Assessment Memorandum.

- Actual projected expenditures and revenues were provided by the City for Fiscal Years 2023-24 through 2027-28.
- Revenues are shown as a reduction of the total projected expenditures for each fiscal year, thereby reducing the total assessable costs for that year. Revenues are comprised of revenues directly received from or for the delivery of fire services, such as "Fire Inspection Fees," "Forfeited Discounts," "Firefighters Supplemental Comp," and contract for service revenues that are allocated to the fire budget.
- All costs associated with providing contract services to the Tallahassee Regional Airport were included in the assessable budget with the corresponding contract revenues removed from the assessable budget calculations.
- The line item "Statutory Discount & Undercollection" under "Additional Costs" reflects a 95% collection rate of the Fire Services Assessment.
- The costs associated with supporting the volunteer fire departments were included as 100% fire costs and are included in the assessable budget.

Table 6 provides a calculation of the assessable costs for Fiscal Year 2023-24 based on an application of the above factors to the Fiscal Year 2023-24 Projected Budget. The calculation yields an assessable cost of $47,481,665 for Fiscal Year 2023-24.

Determination of Fire Services Demand

INCIDENT DATA

GSG obtained information from the City in an electronic format, identifying the number and type of fire rescue incident responses for a three-year period July 1, 2019 through June 30, 2022. The City uses the Florida Fire Incident Reporting System (FFIRS) to record its fire rescue incidents. The FFIRS is a tool for fire rescue departments to report and maintain computerized records of fire rescue incidents and other department activities in a uniform manner.

Under this system, a series of basic phrases with code numbers are used to describe fire rescue incidents. A data field in the FFIRS, "type of situation found," identifies the incident as an EMS or non-EMS type of call for each incident. Appendix A provides a code list for the "type of situation found" as recorded on the fire rescue incident reports used to identify EMS and non-EMS calls.

Another data field in the FFIRS, "fixed property use," identifies the type of property that fire rescue departments respond to for each fire rescue incident. The fixed property uses correlate to property uses determined by the Leon County Property Appraiser on the ad valorem tax roll. Appendix B provides a code list for the "fixed property use" as recorded on the fire rescue incident reports.

GSG analyzed the three years of fire rescue incident data from the FFIRS files to evaluate trends and determine if aberrations were present. The fire rescue incident data for the three-year period (July 1, 2019 through June 30, 2022) represents 66,575 fire rescue incidents. Of the 66,575 fire rescue incidents, there were 48,012 incidents classified as EMS type incidents based on the type of situation found indicated on the incident report. The 48,012 EMS type incidents were not included in the analysis.

There are certain fire incidents that could not be assigned to a specific property or parcel. These calls represent non-specific type incidents, which are incidents that either could not be correlated to a specific parcel or calls that involved auto accidents and other types of incidents along roads and highways.

Of the 18,563 remaining fire type incidents, 15,777 were calls to specific property uses. The remaining 2,786 incidents were considered non-specific type incidents. Because of the inability to correlate these non-specific type incidents to specific property categories, the call analysis does not include these 2,786 incidents. Additionally, the level of services required to meet anticipated demand for fire services and the corresponding annual fire services budget required to fund fire services provided to non-specific property uses would be required notwithstanding the occurrence of any incidents from such non-specific property uses.

The suppression of fires on vacant land and agricultural property primarily benefits adjacent property by containing the spread of fire rather than preserving the integrity of the vacant parcel. Thus, incidents to vacant and agricultural property were not included in the final analysis of the fire call database. The 578 calls to these two property-use categories were removed.

Of the remaining 15,199 fire type incidents, there were 1,782 calls for service to government properties and 13,417 calls to non-Government properties as identified by addresses or fixed property use codes provided in the FFIRS reports. The costs associated with providing service to government properties were segregated. Those government properties will fund fire service through a fee that is determined by the historical demand for service as detailed later in this Memorandum.

Table 8 outlines the assignment of fire type incidents based on the analysis conducted by GSG.

Table 8
Fire Calls by Category (July 1, 2019 through June 30, 2022)

Property Category	Number of Fire Incidents	Percentage of Total Incidents
Non-Government	13,417	88.28%
Government	1,782	11.72%
Total	**15,199**	**100%**

Source: City of Tallahassee

PROPERTY DATA

GSG obtained information from the ad valorem tax roll from the Leon County Property Appraiser's office, the City's utility billing files, and the County's certified fire assessment roll to develop the assessment roll. Each building within the County on the ad valorem tax roll was assigned to one or more of the property-use categories based on their assignment of use by the Leon County Property Appraiser or verification of use obtained through field research. A list of building improvement codes used by the Leon County Property Appraiser and their assignment to a property use category is provided as Appendix C.

The Residential Property Use Category includes such properties as single-family, duplexes, mobile homes, triplexes, quadruplexes, apartments, condominiums, townhouses, and cooperatives. In the event the data was indefinite, the DOR codes were used to clarify mobile home categories and help identify condominium and townhouse buildings. For parcels assigned to the Residential Property Use Category, GSG utilized the total number of dwelling units as determined from the building files on the ad valorem tax roll or through the use of field research.

The Non-Residential Property Use Category includes commercial and industrial/warehouse property uses. For parcels within the Non-Residential Property Use Categories (Commercial and Industrial/Warehouse), GSG determined the amount of square footage of the structures using the building files on the ad valorem tax roll or through the use of field research.

For RV parks regulated under Chapter 513, Florida Statutes, in accordance with Sections 166.223 and 125.0168, Florida Statutes, which mandate that cities and counties treat RV parks like commercial property for non-ad valorem assessments levied by the City and County, each RV space within the park was treated as a building of commercial property and assigned the square footage of 191 square feet, the average size of a recreational vehicle, according to the Florida Association of RV Parks and Campgrounds.

Computation of Fire Services Assessments

The fire services apportionment methodology allocates assessable costs based on the anticipated demand for fire services by categories of private, real property use as identified on the real property assessment roll prepared for the levy of ad valorem taxes. The assessable fire costs are allocated among private, real property use categories based upon the historical demand for these services. This demand is identified by examining the fire incident data as reported by the City to the State Fire Marshal's office.

The fire services apportionment methodology for government property allocates billable costs to provide fire services based upon the historical demand for these services for all government owned property (i.e., City, County, State, Federal, etc.), as reflected by the incident data reported by the City.

This section of the Memorandum includes the assessment rates as calculated within this Assessment Memorandum. The fire rescue assessment cost calculations provided herein are primarily based on information supplied by the City. The assessable cost projections developed by GSG are designed to forecast assessment rates within each property use category for Fiscal Years 2023-24 based on the five-year average assessable budget.

SERVICE ZONES

Service zones were created under the previous fire assessment study in April 2015 to reflect the level of service differentiation of a property located in a higher density area that receives fire protection coverage from multiple stations as compared to a property located in an area generally described as rural and typically serviced by a single fire station. For this purpose, "core stations" were identified and defined as those stations within five road miles of at least two other stations. The creation of a core area was necessary to eliminate the appearance of a higher service level of those properties that may be within five road miles of two stations; however, the location of the property lies between two stations that are nearly ten miles apart. This same approach was used in this study. Any changes in the level of service provided in the two zones will need to be reviewed in subsequent studies to ensure that this approach is still valid.

Those properties included in "Zone 1" were generally located within five road miles of two "core stations." Properties located outside of five road miles of two "core stations" were included in "Zone 2." A map of the service zones is provided in Appendix E.

Calls were plotted, or "geocoded," on a map based upon the geographic location of the incident provided in the FFIRS database. Those calls correlated to properties included in "Zone 1," and those calls correlated to properties included in "Zone 2," were separated and assigned to the respective zone. Table 9 details the assignment of calls to service zones.

Table 9
Fire Calls to Non-Governmental Properties by Zone
(July 1, 2019 – June 30, 2022)

Zone	Number of Calls to Specific Property Uses
Zone 1	10,106
Zone 2	3,311

The calls for service were then weighted based on the average call duration differential between Zone 1 and Zone 2 to account for the difference in resources used on calls between the two zones. On average a

call in Zone 2 is 19% longer in duration than a call in Zone 1. Therefore, all calls in Zone 2 were multiplied by a weighting factor of 1.19 to determine the weighted number of calls while all calls in Zone 1 were assigned a weighting factor of 1.00. Table 10 details the weighting of calls by zone.

Table 10
Weighted Fire Calls to Non-Governmental Properties by Zone (July 1, 2019 through June 30, 2022)

Zone	Number of Calls to Specific Property Uses	Weighting Factor	Number of Weighted Calls to Specific Property Uses
Zone 1	10,106	1.00	10,106
Zone 2	3,311	1.19	3,940

Table 11 outlines the property use category assignment of weighted fire type incidents for non-governmental properties based on the historical demand for service in each zone.

Table 11
Weighted Fire Calls by Category to Non-Governmental Properties (July 1, 2019 through June 30, 2022)

	Zone 1		Zone 2	
Category	**Number of Incidents**	**Percentage of Calls**	**Number of Incidents**	**Percentage of Calls**
Residential	5,894	58.32%	3,283	83.33%
Commercial	4,043	40.01%	602	15.28%
Industrial/Warehouse	169	1.67%	55	1.39%
Total	**10,106**	**100%**	**3,940**	**100%**

SPECIAL BENEFIT ASSUMPTIONS

The following assumptions support a finding that the fire services, facilities, and programs provided by the City provide a special benefit to the assessed parcels.

- Fire services, facilities, and programs possess a logical relationship to the use and enjoyment of property by: (i) protecting the value and integrity of improvements and structures through the availability and provision of comprehensive fire services; (ii) protecting the life and safety of intended occupants in the use and enjoyment of property; (iii) lowering the cost of fire insurance by the presence of a professional and comprehensive fire services program; and (iv) containing fire incidents occurring on land with the potential to spread and endangering other property and property features.
- The availability and provision of comprehensive fire services enhances and strengthens the relationship of such services to the use and enjoyment of the parcels of property, the market perception of the area and, ultimately, the property values within the assessable area.

APPORTIONMENT METHODOLOGY

The following section describes the assessment apportionment methodology for fire services based on: (i) the fire services assessable cost calculations; (ii) the ad valorem tax roll maintained by the property appraiser and the availability of the data residing on the database; and (iii) the fire rescue incident data.

COST APPORTIONMENT

The assessable costs were first apportioned among government and non-government property based upon the historical demand for service percentages shown in Table 8. The assessable costs attributable to non-government property were then apportioned to Zone 1 and Zone 2 and then further to the individual property use categories in each service zone based upon the weighted historical demand for fire services reflected by the fire incident data experienced in each service zone for July 1, 2019 through June 30, 2022. The five-year average cost apportionment is illustrated in Table 12.

Table 12
Cost Apportionment (Five-Year Average)

	Zone 1 (71.95% of Weighted Fire Calls)			Zone 2 (28.05% of Weighted Fire Calls)		
Category	**Total Calls**	**Percentage**	**Assessable Costs**	**Total Calls**	**Percentage**	**Assessable Costs**
Residential	5,894	58.32%	$19,049,431	3,283	83.33%	$10,610,742
Commercial	4,043	40.01%	$13,066,992	602	15.28%	$1,946,008
Industrial/Warehouse	169	1.67%	$546,209	55	1.39%	$176,910
Total	**10,106**	**100.00%**	**$32,662,632**	**3,940**	**100.00%**	**$12,733,660**

PARCEL APPORTIONMENT

The share of the assessable costs apportioned to each property use category was further apportioned among the individual buildings of property within each property use category in the manner described in Table 13.

Table 13
Parcel Apportionment within Property Use Categories

Category	Parcel Apportionment
Residential	Dwelling Unit
Non-Residential: -Commercial -Industrial/Warehouse	Improvement Area Per Building Within Square Footage Ranges (100,000 Square Foot Cap Per Building)

Applying the foregoing parcel apportionment methodology, fire assessment rates were computed for each property use category. The specific methodology, underlying special benefit and fair apportionment assumptions are included below and generally described.

RESIDENTIAL PARCEL APPORTIONMENT ASSUMPTIONS

The following assumptions support findings that the parcel apportionment applied in the Residential Property Use category are fair and reasonable. The Residential Property Use Category includes such properties as single-family dwelling units and multi-family dwelling units.

- The size or the value of the residential parcel does not determine the scope of the required fire services. The potential demand for fire services is driven by the existence of a dwelling unit and the anticipated average occupant population.
- Apportioning the assessable costs for fire services attributable to the residential property use category on a per dwelling unit basis is required to avoid cost inefficiency and unnecessary administration and is a fair and reasonable method of parcel apportionment based upon historical fire call data.

- The consolidation of single-family and multi-family properties into a single category is fair and reasonable because they are similar property uses and the number of calls per dwelling unit is not significantly different.

RESIDENTIAL PARCEL APPORTIONMENT CALCULATION

Based upon the historical demand for fire services, the percentages of assessable costs attributable to residential properties were calculated. The amount of the assessable costs allocable to each residential property was divided by the number of dwelling units in the Residential Property Use Category to compute the fire assessment to be imposed against each dwelling unit. For each residential parcel, the actual number of dwelling units located on the parcel will be multiplied by the residential dwelling unit rate to compute the residential fire assessment amount for the parcel.

Table 14 illustrates the assignment of dwelling units under this apportionment methodology to the Residential Property Use Category for each zone.

Table 14
Parcel Apportionment (Residential Property Use Category)

Residential Property Use Category	Number of Dwelling Units-Zone 1	Number of Dwelling Units-Zone 2
Residential Dwelling Units	77,628	47,672

Source: City of Tallahassee and Leon County Property Appraiser Data

NON-RESIDENTIAL PARCEL APPORTIONMENT ASSUMPTIONS

The Non-Residential Property Use category includes commercial and industrial/warehouse property uses. The capacity to handle fires and other emergencies in Non-Residential Property Use category is governed by the following:

- The current pumping capacity is defined as the combined amount of water that all apparatus in the Fire Department can pump to a non-residential fire. As outlined by Table 4 above, the pumping capacity of the Fire Department is 37,500 gallons per minute. Accordingly, based on National Fire Protection Association firefighting standards for fire flow as provided for in NFPA 1 Fire Code, 2015, Chapter 18 (assuming ordinary construction), the Fire Rescue Department currently has sufficient fire flow capacity to provide service coverage in the event of a structure fire involving unlimited square feet. To avoid inefficiency and unnecessary administration, the City has made a policy decision to set the maximum classification of any building at 100,000 square feet.

The following assumption supports findings that the parcel apportionment applied in the Non-Residential Property Use category is fair and reasonable.

- The risk of loss and demand for fire services availability is substantially the same for structures below a certain minimum size. Because the value and anticipated occupancy of structures below a certain minimum size is less, it is fair, reasonable, and equitable to provide a lesser assessment burden on such structures by the creation of a specific property parcel classification for those parcels.
- The separation of non-residential buildings into square footage classifications is fair and reasonable for the purposes of parcel apportionment because: (i) the absence of a need for precise square footage data within the ad valorem tax records maintained by the property appraiser undermines the use of actual square footage of structures and improvements within each improved building as a basis for parcel apportionment; (ii) the administrative expense and complexity created by an on-site inspection to determine the actual square footage of structures and improvements within each improved parcel assessed is impractical; and (iii) the demand for fire services availability is not precisely determined or measured by the actual square footage of structures and improvements within benefited parcels; and (iv) the classification of buildings within square footage ranges is a fair and reasonable method to

classify benefited parcels and to apportion costs among benefited buildings that create similar demand for the availability of fire services.

- The consolidation of commercial and institutional properties into a single category is fair and reasonable because the non-government institutional type properties are similar in use to the commercial type properties.

The parcel apportionment for each Non-Residential Property Use Classification shall include both minimum building classifications and an additional classification of all other buildings based upon the assumed square footage of structures and improvements within the improved parcel. The Non-Residential Property Use Classifications include Commercial and Industrial/Warehouse. The following describes the Non-Residential Property parcel apportionment calculation and classification for the Commercial and Industrial/Warehouse categories.

NON-RESIDENTIAL PARCEL APPORTIONMENT CALCULATION

Based upon the historical demand for fire services, property in the Non-Residential Property Use categories will be responsible for funding a percentage of assessable costs. The amount of the assessable costs allocable to buildings within each of the Non-Residential Property Use Classifications was calculated based upon the following building classifications.

- Non-residential buildings with square footage of non-residential improvements less than 1,999 square feet were assigned an improvement area of 1,000 square feet per building. Buildings with square footage of non-residential improvements between 2,000 square feet and 3,499 square feet were assigned an improvement area of 2,000 square feet per building. Buildings with non-residential improvements between 3,500 square feet and 4,999 square feet were assigned an improvement area of 3,500 square feet per building. Buildings with non-residential improvement areas between 5,000 square feet and 9,999 square feet were assigned an improvement area of 5,000 square feet per building. For buildings containing non-residential improvements between 10,000 square feet and 99,999 square feet, assignments of improvement area were made in 10,000 square foot increments.
- For buildings, containing non-residential improvements over 99,999 square feet, an assignment of improvement area of 100,000 was made.

Sections 125.0168 and 166.223, Florida Statutes, relating to special assessments levied on recreational vehicle parks regulated under Chapter 513, Florida Statues are based on the following:

- When a city or county levy a non-ad valorem special assessment on a recreational vehicle park regulated under Chapter 513, the non-ad valorem special assessment shall not be based on the assertion that the recreational vehicle park is comprised of residential units. Instead, recreational vehicle parks regulated under Chapter 513 shall be assessed as a commercial entity in the same manner as a hotel, motel, or other similar facility.

Table 15 illustrates the assignment of improvement area under this apportionment methodology for the Commercial and Industrial/Warehouse categories.

Table 15
Parcel Apportionment (Non-Residential Property Use Category)

Square Foot Tiers	Number of Commercial Buildings		Number of Industrial/Warehouse Buildings	
	Zone 1	Zone 2	Zone 1	Zone 2
≤ 1,999	1,239	205	66	25
2,000 - 3,499	900	166	80	50
3,500 - 4,999	591	100	58	34
5,000 - 9,999	941	161	194	71

80,000 - 89,999	10	3	1	2
90,000 - 99,999	8	3	6	0
>= 100,000	43	5	18	2

Source: City of Tallahassee and Leon County Property Appraiser Data

Because the suppression of fires on vacant land and agricultural property primarily benefits adjacent property by containing the spread of fire rather than preserving the integrity of the vacant parcel, incidents to vacant and agricultural property were not included in the final analysis of the fire call database. Therefore, only the primary structures on vacant and agricultural parcels will be charged.

COMPUTATION OF FIRE ASSESSMENT RATES

Applying the parcel apportionment methodology, fire services assessment rates were computed for each specified property use category. Based on the assessable costs of providing fire services, the number of fire calls apportioned to specific property categories and the number of billing units within the specified property categories.

Table 16 illustrates the assessment rates after application of the assessment methodology based on 100 percent funding of the five-year average assessable costs.

Table 16
Fire Services Assessment Rates (Five-Year Average)

Residential Property Use Categories		Zone 1 - Rate Per Dwelling Unit	Zone 2 - Rate Per Dwelling Unit
Residential Dwelling Unit		$245.39	$223
Commercial Property Use Category	**Building Classification (in square foot ranges)**	**Zone 1 – Rate Per Building**	**Zone 2 - Rate Per Building**
	≤ 1,999	$384	$356
	2,000 - 3,499	$768	$712
	3,500 - 4,999	$1,344	$1,245
	5,000 - 9,999	$1,920	$1,779
	10,000 - 19,999	$3,840	$3,557
	20,000 - 29,999	$7,680	$7,113
	30,000 - 39,999	$11,519	$10,669
	40,000 - 49,999	$15,359	$14,226
	50,000 - 59,999	$19,198	$17,782
	60,000 - 69,999	$23,038	$21,338
	70,000 - 79,999	$26,877	$24,895
	80,000 - 89,999	$30,717	$28,451
	90,000 - 99,999	$34,557	$32,007
	≥ 100,000	$38,396	$35,564
Industrial/Warehouse Property Use Category	**Building Classification (in square foot ranges)**	**Zone 1 - Rate Per Building**	**Zone 2 – Rate Per Building**
	≤ 1,999	$63	$114
	2,000 - 3,499	$125	$227
	3,500 - 4,999	$218	$398
	5,000 - 9,999	$311	$568
	10,000 - 19,999	$621	$1,135
	20,000 - 29,999	$1,242	$2,270
	30,000 - 39,999	$1,863	$3,405
	40,000 - 49,999	$2,484	$4,540
	50,000 - 59,999	$3,104	$5,674
	60,000 - 69,999	$3,725	$6,809
	70,000 - 79,999	$4,346	$7,944
	80,000 - 89,999	$4,967	$9,079
	90,000 - 99,999	$5,587	$10,213
	≥ 100,000	$6,208	$11,348

*Estimated Gross Revenue: $45,396,291; Estimated Institutional Tax-Exempt Buy-down: $479,368; Estimated Net Revenue: $44,916,923.

EXEMPTIONS AND IMPACT OF EXEMPTIONS

Because the fire services assessment is being developed to meet the case law standards for a valid special assessment, any proposed exemptions require special scrutiny. The crafting of an exemption must be founded upon a legitimate public purpose, and not tramp on state or federal constitutional concepts of equal protection and constitutional prohibitions against establishment of religion or the use of the public treasury directly or indirectly to aid religious institutions. Furthermore, to ensure public acceptance, any exemption must make common sense and be fundamentally fair. Finally, the impact of any proposed exemption should be evaluated in terms of its magnitude and fiscal consequences on the City and County's general funds respectively.

Whenever crafting an exemption, it is important to understand that the fair apportionment element required by Florida case law prohibits the shifting of the fiscal costs of any special assessment from exempt landowners to other non-exempt landowners. In other words, the funding for an exemption from a special assessment must come from a legally available external revenue source, such as the City and

County's general funds. Funding for fire assessment exemptions cannot come from the proceeds derived directly from the imposition of special assessments for fire services and facilities. Because any exemption must be funded by an external funding source, the grant of any exemption will not have any impact upon the fire assessment to be imposed upon any other non-exempt parcels.

The decision to fund exemptions for fire services assessments on property owned by non-governmental entities is based upon the determination that such exemptions constituted a valid public purpose.

Table 17 summarizes the estimated impact of exempting institutional, wholly tax-exempt property based on the five-year average assessable budget.

Table 17
Estimated Impact of Exemptions (Five-Year Average)

Financial Classification	Zone 1	Zone 2	Total
Estimated Assessable Costs	$32,662,632	$12,733,660	$45,396,291
Estimated Buy-down for Institutional Tax-Exempt Building Uses	$345,780	$133,588	$479,368
Estimated Revenue Generated	**$32,316,852**	**$12,600,072**	**$44,916,923**

Fire Services Fees Imposed on Governmental Property

The special benefit and fair and reasonable apportionment requirements for a valid special assessment do not rigidly apply to charges against government property. Florida case law has stated that user fees are paid by choice and are charged in exchange for a particular governmental service, which benefits the property paying the fee in a manner not shared by other members of the public. In the user fee context, choice means that the property paying the fee has the option of not using the governmental service and thereby avoiding the charge. Under such tests and definition of choice, the validity of both impact fees and stormwater fees have been upheld.

Impact fees are imposed to place the economic burden of infrastructure required by growth on new development. Stormwater fees are imposed to control and treat the stormwater burden generated by the use and enjoyment of developed property. Likewise, fire services provided by the City and County are intended to meet the historical demand for fire services from developed property and such fee benefits the owner or user of developed property in a manner not shared by other members of society (e.g., the owner of undeveloped property).

The Florida Attorney General has recognized that state-owned property is not required to pay a special assessment without legislative authorization but that such authorization is not needed for user fees or service charges. Additionally, a valid charge cannot be enforced by a lien against public property absent elector approval. Rather, the enforcement remedy is a mandamus action to compel payment. In addition, certain general laws preempt the home rule power of local governments to impose special assessments on educational institutions.

As discussed previously and documented in the “Incident Data” section of this document, the fire services incidents were analyzed to determine the fire services demand for all governmental property. It was determined that approximately 11.72% of the total fire calls were attributable to governmental property. Therefore, approximately 11.72% of the total assessable budget was allocated to governmental property as shown in Table 18 below.

Table 18
Government Cost Allocation

Total Assessable Costs	Percentage of Governmental Calls	Governmental Cost Allocation
$51,423,076	11.72%	$6,026,785

The costs attributable to each governmental entity will be allocated based on each entity’s percentage of the total governmental square footage as determined by the City. GSG calculated a rate per square foot for governmental property based on the governmental cost allocation in Table 18 and the total governmental square footage as provided by the City. This calculation is shown in Table 19 below.

Table 19
Government Rate Calculation

Governmental Cost Allocation	Total Government Square Feet	Government Rate Per Square Foot
$6,026,785	22,627,160	$0.267

Additional Information

EXEMPTION CALCULATIONS

GSG utilized the most current data to identify institutional, tax-exempt parcels within the County in order to calculate the aggregate cost ('buy down') of these parcels. In addition, best efforts were made by GSG to reconcile any differences necessary to calculate the estimated buy down for this exemption category. Missing or incorrect property data could affect the estimated aggregate costs.

NON-SPECIFIC CALLS

In the fire call analysis, certain fire related calls were classified as non-property specific, because of the location of occurrence in the incident report. These calls represent non-specific incidents that either could not be correlated to a specific parcel or involved auto accidents or other types of incidents along roads and highways. These calls are excluded from the analysis that determines the percentage of calls for service to respective property types and therefore, are not considered in the determination of the extent of budget required to fund the department. Because the budget is established based on the ability of the department to adequately protect structures, no adjustment has been made to the budget due to non-property specific calls.

MOBILE HOME AND RECREATIONAL VEHICLE PARK VACANCY CREDIT

As a consequence of the transient use and potential extraordinary vacancies within mobile home and recreational vehicle (RV) parks as compared to other residential property and the lack of demand for fire services for unoccupied spaces, it is fair and reasonable to provide for an extraordinary vacancy adjustment procedure for mobile home and RV park properties. Vacant mobile home and RV spaces within a mobile home or RV park will be charged; however, these properties will be eligible for an extraordinary vacancy adjustment for vacant mobile home or RV spaces.

VERIFICATION OF SQUARE FOOTAGE OF STRUCTURES ON TAX-EXEMPT PARCELS

The ad valorem tax roll provides the data required to determine value. So long as properties remain in the name of owners exempt from ad valorem taxation, the property appraiser may not consistently maintain data related to building improvements on such parcels. As a consequence of such data imperfections, the square footage on some of the parcels, particularly for institutional private sector classifications, may not be complete.

BILLING PROPERTIES WITH MULTIPLE UTILITY ACCOUNTS

The proposed methodology can determine the assessment rate per building on a tax parcel. However, for some non-residential properties there may be many utility accounts assigned to a building. When utilizing the utility bill to collect the Fire Services Assessment, a considerable amount of data collection will be necessary to assess each utility account assigned to the building.

Appendix A

SITUATION FOUND CODES AND DESCRIPTIONS

Situation Found Code	Description	EMS Type Call
111	Building Fire	No
112	Fires in structures other than in a building	No
113	Cooking fire, confined to a container	No
114	Chimney or flue fire, confined to chimney or flue	No
115	Incinerator overload or malfunction, fire confined	No
116	Fuel burner/boiler malfunction, fire confined	No
118	Trash or rubbish fire, contained	No
120	Fire in mobile property used as a fixed structure, other	No
121	Fire in mobile home used as a fixed residence	No
122	Fire in mobile home, camper, recreational vehicle	No
123	Fire in portable building, fixed location	No
130	Mobile property (vehicle) fire, other	No
131	Passenger vehicle fire	No
132	Road freight or transport vehicle fire	No
134	Water vehicle fire	No
137	Camper or RV fire	No
138	Off Road vehicle or heavy equipment fire	No
140	Natural vegetation fire	No
141	Forest, woods or wildland fire	No
142	Brush, or brush and grass mixture fire	No
143	Grass fire	No
150	Outside rubbish fire, other	No
151	Outside rubbish, trash or waste fire	No
152	Garbage dump or sanitary landfill fire	No
153	Construction or demolition landfill fire	No
154	Dumpster or other outside trash receptacle fire	No
155	Outside stationary compactor/compacted trash fire	No
160	Special outside fire, other	No
161	Outside storage fire	No
162	Outside equipment fire	No
163	Outside gas or vapor combustion explosion	No
170	Cultivated vegetation, crop fire, other	No
173	Cultivated trees or nursery stock fire	No
210	Overpressure rupture from steam, other	No
211	Overpressure rupture of steam pipe or pipeline	No
220	Overpressure rupture from air or gas, other	No
221	Overpressure rupture of air or gas pipe/pipeline	No
223	Air or gas rupture of pressure or process vessel	No
240	Explosion (no fire), other	No
243	Fireworks explosion (no fire)	No
251	Excessive heat, scorch burns with no ignition	No
311	Medical assist, assist EMS crew	Yes
320	Allergic reaction	Yes
321	EMS call, excluding vehicle accident with injury	Yes
322	Vehicle accident with injuries	Yes
323	Motor vehicle/pedestrian accident (MV Ped)	Yes
324	Motor Vehicle Accident, No Injuries	No
331	Lock-in (if lock out, use 511)	No
341	Search for person on land	No

Situation Found Code	Description	EMS Type Call
342	Search for person in water	No
350	Extrication, rescue, other	No
351	Extrication of victim(s) from building/structure	No
352	Extrication of victim(s) from vehicle	No
353	Removal of victim(s) from stalled elevator	No
354	Trench/below grade rescue	No
356	High angle rescue	No
357	Extrication of victim(s) from machinery	No
360	Water & ice related rescue, other	No
361	Swimming/recreational water areas rescue	No
363	Swift water rescue	No
365	Watercraft rescue	No
370	Electrical rescue	No
372	Trapped by power lines	No
381	Rescue or EMS standby	Yes
410	Flammable gas or liquid condition, other	No
411	Gasoline or other flammable liquid spill	No
412	Gas leak	No
413	Oil or other combustible liquid spill	No
420	Toxic condition, other	No
421	Chemical hazard (no spill or leak)	No
422	Chemical spill or leak	No
423	Refrigeration leak	No
424	Carbon monoxide incident	No
440	Electrical wiring/equipment problem, other	No
441	Heat from short circuit (wiring), defective/worn	No
442	Overheated motor	No
443	Light ballast breakdown	No
444	Power line down	No
445	Arcing, shorted electrical equipment	No
451	Police Assist	No
460	Accident, potential accident, other	No
461	Building or structure weakened or collapsed	No
462	Aircraft standby	No
463	Vehicle accident, general cleanup	No
471	Explosive, bomb removal (for bomb scare, use 721)	No
480	Attempted burning, illegal action, other	No
481	Attempt to burn	No
482	Threat to burn	No
500	Service call, other	No
510	Person in distress, other	No
511	Lock-out	No
512	Ring or jewelry removal	No
520	Water problem, other	No
521	Water evacuation	No
522	Water or steam leak	No
531	Smoke or odor removal	No
540	Animal problem, other	No
542	Animal rescue	No

Situation Found Code	Description	EMS Type Call
550	Public service assistance, other	No
551	Assist police or other governmental agency	No

N. 02/91

FLORIDA DEPARTMENT OF REVENUE

CERTIFICATE TO
NON-AD VALOREM ASSESSMENT ROLL

I, the undersigned, hereby certify that I am the Chairman of the Board, or authorized agent of Leon County Board of County Comm'rs, located in Leon County, Florida; as such, I have satisfied myself that all property included or includable on the Non-Ad Valorem Assessment Roll for the aforesaid county is properly assessed so far as I have been able to ascertain; and that all required extensions on the above described roll to show the non-ad valorem assessments attributable to the property listed therein have been made pursuant to law.

I further certify that, upon completion of this certificate and the attachment of same to the herein described Non-Ad Valorem Assessment Roll as part thereof, said Non-Ad Valorem Assessment Roll will be delivered to the Tax Collector of this county.

In witness whereof, I have subscribed this certificate and caused the same to be attached to and made a part of the above described Non-Ad Valorem Assessment Roll this the 15 day of September, 2025 (year).

Chairman of the Board or authorized agent

of Leon County Board of County Comm'rs
Name of local government

Leon County, Florida

LEON COUNTY RESOLUTION NO. R2025-_____

A RESOLUTION OF THE BOARD OF COUNTY COMMISSIONERS OF LEON COUNTY, FLORIDA, ADOPTING A FIRE RESCUE SERVICES NON-AD VALOREM ASSESSMENT ROLL; PROVIDING FOR CERTIFICATION OF THE ROLL TO THE TAX COLLECTOR; AND PROVIDING FOR AN EFFECTIVE DATE.

RECITALS

WHEREAS, on February 26, 2009, Leon County and the City of Tallahassee entered into an Interlocal Agreement for the provision of fire suppression, fire prevention and emergency medical services county-wide commencing October 1, 2009; and

WHEREAS, the Interlocal Agreement by and between Leon County and the City of Tallahassee provides for the funding and payment of *Fire Rescue Services* by means of the levy and collection of special assessments upon benefited property; and

WHEREAS, on March 19, 2009, the Board of County Commissioners enacted an ordinance amending Chapter 7, Leon County Code of Laws, relating to the provision and funding of *Fire Rescue Services*; and

WHEREAS, on July 11, 2023, the Board of County Commissioners adopted a *Fire Rescue Assessment Rate Resolution* levying and imposing upon each improved parcel of nongovernmental property located within the unincorporated area of the County an assessment in an amount found to be reasonably related to the cost of providing *Fire Rescue Services* to such property and thereby providing an equitably corresponding special benefit to such property; and

WHEREAS, in accordance with section 197.3632(4)(a)1, Florida Statutes, the Board of County Commissioners desires to adopt a fire rescue services non-ad valorem assessment roll for those properties subject to levy of the non-ad valorem assessment for the first time; and

WHEREAS, pursuant to section 197.3632, Florida Statutes, the Board of County Commissioners has reviewed the fire rescue services non-ad valorem assessment roll for conformity with the *Fire Rescue Assessment Rate Resolution*; and

WHEREAS, the Board wishes to approve and adopt a fire rescue services non-ad valorem assessment roll and to certify the roll for collection to the Tax Collector; and

WHEREAS, Leon County has provided notice of a public hearing at least twenty days prior to same by first class United States mail and by publication in the *Tallahassee Democrat* advising that a public hearing would take place.

BE IT RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS OF LEON COUNTY, FLORIDA, that:

Section 1. Recitals.

The Recitals to this Resolution are incorporated herein and made a part hereon as if fully set forth below.

Section 2. Definitions.

For purposes of this Resolution, the definitions contained in section 7-39, Leon County Code of Laws, are incorporated herein by reference.

Section 3. Adoption of Non-Ad Valorem Assessment Roll.

Pursuant to section 197.3632, Florida Statutes, Leon County hereby approves and adopts a fire rescue services non-ad valorem assessment roll, which is attached hereto as Exhibit 2 and incorporated herein as if fully set forth below.

Section 4. Unit of Measurement for Non-Ad Valorem Assessment.

The unit of measurement for the fire rescue services non-ad valorem assessment is as set forth in the *Fire Rescue Assessment Rate Resolution*, R23-11, which is attached hereto as Exhibit 1, and incorporated herein as if fully set forth below. The amount of the fire rescue services assessment for each subject parcel of property is as further set forth in Exhibit 2, also attached hereto and incorporated herein as if fully set forth below. The *Fire Rescue Assessment* shall be and is hereby imposed annually commencing October 1, 2023, and continuing each year thereafter until such time as changed or discontinued by the Board.

Section 5. Certification of Non-Ad Valorem Assessment Roll to Tax Collector.

The fire rescue services non-ad valorem assessment roll is hereby certified to the Tax Collector for collection in accordance with Florida law. The Chairman of the Board of County Commissioners is authorized to include each parcel described at Exhibit 2 herein on the non-ad valorem assessment roll certified to the Tax Collector for all properties subject to the fire rescue services non-ad valorem assessment.

Section 6. Effective Date.

This resolution shall have effect upon adoption.

DONE, ADOPTED AND PASSED by the Board of County Commissioners of Leon County, Florida, this 15th day of September, 2025.

LEON COUNTY, FLORIDA

By: _____
Brian Welch, Chairman
Board of County Commissioners

11

RESOLUTION NO. 23-_____

A RESOLUTION OF THE BOARD OF COUNTY COMMISSIONERS RELATING TO THE PROVISION AND FUNDING OF FIRE RESCUE SERVICES; PROVIDING FOR RECITALS; PROVIDING FOR AUTHORITY; PROVIDING FOR DEFINITIONS; PROVIDING FOR A RESOLUTION; PROVIDING FOR PROVISION OF FIRE RESCUE SERVICES; PROVIDING FOR GENERAL LEGISLATIVE DETERMINATIONS; PROVIDING FOR FIRE RESCUE CHARGE; PROVIDING FOR EXEMPT PROPERTY; PROVIDING FOR LIEN; PROVIDING FOR COLLECTION OF FIRE RESCUE CHARGE; PROVIDING FOR FINAL ADJUDICATION; REPLACING AND SUPERSEDING RESOLUTION NO. 15-20; AND PROVIDING AN EFFECTIVE DATE.

RECITALS

WHEREAS, the County desires to continue to provide fire rescue services, facilities and programs, hereafter "*fire rescue services*," in the most efficient manner possible in order to promote the health, safety and general welfare of its citizens; and

WHEREAS, the County desires to maintain a uniform financial mechanism for the funding of such *fire rescue services* to its citizens on an equitable basis; and

WHEREAS, the City of Tallahassee and the County have entered into an Interlocal Agreement, as amended, to administer the provision of and funding for *fire rescue services*; and

WHEREAS, the Interlocal Agreement by and between the City of Tallahassee and the County provides for the funding and payment for *fire rescue services* by means of the levy, imposition and collection of special assessments upon benefited *nongovernment property* and the imposition of fire rescue fees on *government property*; and

DocuSign Envelope ID: 5AD7C947-7233-45D0-979D-9C002BE66DE1

WHEREAS, on March 19, 2009, the Board of County Commissioners enacted an ordinance amending Chapter 7, Leon County Code of Laws, relating to the provision and funding of *fire rescue services*; and

WHEREAS, pursuant to Chapter 7, Leon County Code of Laws, on May 26, 2015, the Board of County Commissioners adopted a *fire rescue assessment rate resolution* and *fire rescue fee rate resolution*, Resolution No. 15-20; and

WHEREAS, the Board of County Commissioners utilized a rate study, attached to and incorporated into Resolution No. 15-20 as Exhibit "A", in calculating the fire rescue assessment rate and fire rescue fee; and

WHEREAS, the fire rescue assessment rate and fire rescue fee established in Resolution No. 15-20 apportioned costs based upon a reasonable estimation of the five-year average annual cost of providing fire rescue services, and the rates no longer adequately fund the costs of providing fire rescue services; and

WHEREAS, pursuant to the Interlocal Agreement, as amended, the Board of County Commissioners commissioned a new rate study utilizing the same methodology set forth in the rate study attached to Resolution No. 15-20, but with updated service delivery, fire incident data, property data and budget information; and

WHEREAS, a new rate study has been completed and shows that an adjustment to the rates is needed to adequately fund fire rescue services; and

WHEREAS, the Board of County Commissioners desires to adopt a new *fire rescue assessment rate resolution* and *fire rescue fee rate resolution* pursuant to Chapter 7, Leon County Code of Laws in order to adequately fund fire rescue services.

NOW, THEREFORE, BE IT RESOLVED by the Board of County Commissioners of Leon County, Florida, that:

DocuSign Envelope ID: 5AD7C947-7233-45D0-979D-9C002BE66DE1

Section 1. Recitals. The Recitals set forth above are deemed incorporated herein as if fully set forth below.

Section 2. Authority. This Resolution is adopted pursuant to the authority granted to the County under Article VIII, Section 1, Florida Constitution, Chapter 125, Florida Statutes, the Leon County Charter, Chapter 7 of the Leon County Code of Laws, and other applicable provisions of law.

Section 3. Definitions. For purposes of this Resolution, the definitions contained in Section 7-39, Leon County Code of Laws, are incorporated herein by reference as if fully set forth below. In addition, as used in this Resolution, the following terms shall have the following meanings, unless the context hereof otherwise requires:

"*Building area*" means the actual area of a *building* expressed in square feet and reflected on the *tax roll* or, in the event such information is not reflected or is determined not to be accurately reflected on the *tax roll*, that area determined by the County.

"*Code descriptions*" mean the descriptions listed in the *fixed property use codes* and the descriptions listed in the *improvement codes*.

"*Core stations*" are those fire stations located within five road miles of at least two other stations.

"*Commercial property*" means those *tax parcels* with a *code description* designated as "*commercial*" in the *improvement codes*, including those *tax parcels* that meet the definition of *recreational vehicle park* herein.

"*Cost apportionment*" means the apportionment of the *fire rescue cost* among all *property use categories* according to the *demand percentages* established pursuant to the apportionment methodology described in Sections 7.A.3 and 7.B.2 of this Resolution.

DocuSign Envelope ID: 5AD7C947-7233-45D0-979D-9C002BE66DE1

"*Cost Factor*" means the factor that represents the varying cost in providing *fire rescue services* to the different *service zones*, as calculated in accordance with Section 7.B of this Resolution.

"*Demand percentage*" means the percentage of demand for *fire rescue services* attributable to each *property use category* determined by analyzing the historical demand for *fire rescue services* as reflected in *incident reports* in the *state database* under the methodology described in Sections 7.A.3 and 7.B.2 of this Resolution.

"*DOR code*" means a property use code established in Rule 12D-8.008, Florida Administrative Code, assigned by the Property Appraiser to *tax parcels*.

"*Dwelling unit*" means (1) a *building*, or a portion thereof, available to be used for residential purposes, consisting of one or more rooms arranged, designed, used, or intended to be used as living quarters for one family only, or (2) the use of land in which lots or spaces are offered for rent or lease for the placement of mobile homes or the like for residential purposes.

"EMS services" means those services recorded in *FFIRS* that assign a "type of situation found code" of 3, 300, 311,320, 321, 321B, 322, 323, 381, 551E, 554, and 661.

"EMS Cost" means the amount, other than first response medical rescue services, determined by the County to be associated with *EMS services*.

"*FFIRS*" means the Florida Fire Incident Reporting System maintained by the Florida State Fire Marshal.

"Fire rescue cost" means the *fire rescue cost* as defined in Chapter 7 of the Leon County Code of Laws, but specifically excluding any *EMS Cost*.

"*Fire rescue services"* means fire rescue services, facilities and programs.

"*Fire rescue fee*" means a fee for *fire rescue services* provided to each improved parcel of *governmental property* located within the unincorporated area of the County.

DocuSign Envelope ID: 5AD7C947-7233-45D0-979D-9C002BE66DE1

"*Fire services property use category*" means the use codes developed for the purpose of assigning a *fire rescue charge* for collection on a *utility* bill.

"*Fixed property use codes*" mean the property use codes used by *FFIRS* as specified in the attached Exhibit A, Appendix B.

"*Improvement codes*" mean the building use codes assigned by the Property Appraiser to *tax parcels* as specified in the attached Exhibit A, Appendix C.

"*Incident report*" means an individual report filed with the Florida State Fire Marshal under *FFIRS* that is not associated with *EMS services*.

"*Industrial/warehouse property*" means those *tax parcels* with a *code description* designated as "*industrial/warehouse*" in the *improvement codes*.

"*Mixed use property*" means a *tax parcel* that contains *buildings* whose use descriptions are capable of assignment under a *code description* in the *improvement codes* in more than one *property use category*.

"*Non-residential property*" means, collectively, *commercial property* and *industrial/warehouse property*.

"*Parcel apportionment*" means the further apportionment of the *fire rescue cost* allocated to each *property use category* by the *cost apportionment* among the *tax parcels* under the methodology established in Sections 7.A.3 and 7.B.2 of this Resolution.

"*Property use categories*" means, collectively, *residential property* and all categories of *non-residential property*.

"Recreational vehicle park" means (1) a place set aside and offered by a person, for either direct or indirect remuneration of the owner, lessor, or operator of such place, for the parking, accommodation, or rental of five or more recreational vehicles or tents; and (2) licensed by the Department of Health of the State of Florida, or its successor in function as a "recreational vehicle

DocuSign Envelope ID: 5AD7C947-7233-45D0-979D-9C002BE66DE1

park" or “lodging park” under Chapter 513, Florida Statutes, as may be amended from time-to-time.

"*Residential property*" means those *tax parcels* designated as “Residential” in the *improvement codes.*

“*Service zones*” mean the geographic areas defined to differentiate between the two levels of *fire rescue services* provided within the County based upon proximity to *core stations.*

"State database" means the incident data derived from the *FFIRS incident reports* maintained by the Florida State Fire Marshal.

"Tax parcel" means a parcel of property located within the unincorporated area of the County to which the Property Appraiser has assigned a distinct ad valorem property tax identification number.

Section 4. Resolution. This Resolution shall constitute the *fire rescue assessment rate resolution* and the *fire rescue fee rate resolution* as described in Sections 7-42 and 7-43, Leon County Code of Laws.

Section 5. Provision of Fire Rescue Services. The County shall continue to provide *fire rescue services* for the benefit of all parcels of *assessed property* located within the unincorporated areas of the County commencing October 1, 2023. All or a portion of the cost to provide such *fire rescue services* shall be funded from proceeds of the *fire rescue charge*. The remaining cost, if any, required to provide *fire rescue services* shall be funded by available County revenues other than such proceeds.

Section 6. General Legislative Determinations. It is hereby ascertained and declared that the *fire rescue services* provide a special benefit to the *assessed property* based upon the following legislative determinations and based upon that certain report entitled “City of Tallahassee and Leon County, Florida, Fire Assessment Memorandum” dated April 2023, prepared by Government

DocuSign Envelope ID: 5AD7C947-7233-45D0-979D-9C002BE66DE1

Services Group, Inc., which is hereby specifically approved and adopted as Exhibit A, same being attached hereto and incorporated herein as if fully set forth below. Upon the adoption of this Resolution, the legislative determinations ascertained and declared in Sections 7-42 and 7-43, Leon County Code of Laws are hereby ratified and confirmed.

A. It is hereby ascertained, determined, and declared that each parcel of property subject to a *fire rescue charge* located within the unincorporated area of the County, and the *owners* and occupants of said parcel, will be benefited by the County's provision of *fire rescue services*, in an amount not less than the *fire rescue charge* imposed against such parcel and that such *fire rescue charge,* as computed in a manner as set forth in this Resolution, constitutes a fair and reasonable charge for the provision of *fire rescue services*.

B. The availability and provision of comprehensive *fire rescue services* enhance and strengthen the relationship of such services to the use and enjoyment of the parcels of property, the market perception of the area and, ultimately, the property and rental values within the assessable area.

C. The Board does hereby find that the various legislative findings and determinations contained herein are found to have existed as of the original imposition of the *fire rescue charge* in 2009 and relate back thereto. Therefore, such findings shall be deemed to have been incorporated in the provisions of Chapter 7, Leon County Code of Laws, adopted March 13, 2009, Resolution No. 09-16, adopted June 9, 2009, and Resolution No. 15-20, adopted on May 26, 2015, as if they had been set forth fully therein and continued thereafter.

Section 7. Fire Rescue Charges.

A. Fire Rescue Fee.

1. Imposition; Legislative Determinations.

DocuSign Envelope ID: 5AD7C947-7233-45D0-979D-9C002BE66DE1

a. A *fire rescue fee* is hereby imposed upon each improved parcel of *government property* located within the unincorporated area of the County, and which is hereby ascertained, determined, and declared to be reasonably and fairly related to the cost of providing *fire rescue services* to such *government property* and as such the *fire rescue fee* constitutes a fair, reasonable, just, and equitable manner for apportioning and allocating the *fire rescue cost for government property*. The *fire rescue fee* imposed hereby is not a special assessment; it is a fee for services available and rendered to *government property*.

b. Upon the adoption of this Resolution determining the *fire rescue fee* and identifying the *government property* to be billed a *fire rescue fee*, the legislative determinations ascertained and declared in Section 7-42, Leon County Code of Laws, are hereby ratified and confirmed.

c. It is fair and reasonable to use the *fire services property use category* to assign property use for a *fire rescue fee* because the use codes are most compatible with the system of billing on the City of Tallahassee *utility* bill.

d. It is fair and reasonable to use the *fire rescue costs for* the development of the *fire rescue fee* and apply the *fire rescue fee* for future fiscal years at the rates established in this Resolution because it is hereby determined that the actual annual cost of providing *fire rescue services*, over the five-year period will be as great as or greater than the *fire rescue fee* established herein.

e. It is fair and reasonable and consistent with the decision of the Florida Supreme Court in the case of City of North Lauderdale v. SMM Properties, Inc., 825 So.2d 343 (Fla. 2002), to exclude from the *fire rescue costs,* amounts determined to constitute the cost of providing emergency medical services.

DocuSign Envelope ID: 5AD7C947-7233-45D0-979D-9C002BE66DE1

f. Apportioning *fire rescue costs for government property* among classifications of improved *government property* based upon historical demand for *fire rescue services*, but not emergency medical services, is a fair and reasonable method of *cost apportionment* because it reflects the property uses' potential fire risk based upon *building* use and is a reasonable proxy for the amount of fire flow, fire fighters, quantity and size of apparatus, and other special firefighting equipment that must be available in accordance with the County's required standards and practices.

g. The greater the *building area*, the greater the potential for a large fire and the greater the firefighting resources that must be available in the event of a fire in a structure of that *building*'s size. Therefore, it is fair and reasonable to use *building area* as a proxy for determining the *fire rescue fees*.

h. It is fair and reasonable to not charge a *fire rescue fee* to *government property* that is vacant as evidenced by the cessation of *utility* services. The costs of administering and collecting *fire rescue fees* from such vacant property exceed the anticipated *fire rescue fees* that could be collected from such property.

i. The *incident reports* are the most reliable data available to determine the potential demand for *fire rescue services* from *government property* use and to determine the benefit to property use resulting from the availability of *fire rescue services* to protect and serve *buildings* located within *government property* and their intended occupants. There exist sufficient *incident reports* documenting the historical demand for *fire rescue services* from *government property*. The *demand percentage* determined for each classification of *government property* by an examination of such *incident reports* is consistent

DocuSign Envelope ID: 5AD7C947-7233-45D0-979D-9C002BE66DE1

with the experience of the County. Therefore, the use of *demand percentages* determined by an examination of *incident reports* is a fair and reasonable method to apportion the *fire rescue costs* among each classification of *government property*.

j. The suppression of fire on vacant property primarily benefits the *buildings* within the adjacent improved property by the containment of the spread of fire rather than the preservation of the vacant property. Therefore, it is fair and reasonable not to apportion any of the costs attributed to providing *fire rescue services* to vacant property and the *incident reports* omitted from the *demand percentage* calculation.

k. The budget is sized based upon its ability to provide *fire rescue services* to *assessed property* within the unincorporated area. Therefore, the level of services required to meet anticipated demand for *fire rescue services* and the corresponding fire services budget required to fund *fire rescue services* provided to non-specific property uses would be required notwithstanding the occurrence of any incidents from such non-specific uses. Therefore, it is fair and reasonable to omit from the *demand percentage* calculation, the *incident reports* documenting *fire rescue services* provided to non-specific property uses and vacant property.

2. Methodology for Determining Fire Rescue Fees. The *fire rescue fees* shall be calculated as follows:

a. The number of *incident reports* filed within a sampling period was determined for *government property* and all *property use categories* of *nongovernment property*. The percentages of total *incident reports* allocated to *government*

DocuSign Envelope ID: 5AD7C947-7233-45D0-979D-9C002BE66DE1

property as compared to total *incident reports* allocated to *nongovernment property* were used to calculate the *fire rescue cost* for *assessed property* and the *fire rescue cost for government property*.

b. The *fire rescue cost for government property* was then apportioned among the *tax parcels* of *government property* as follows:

1. Add the *building area* of all the *buildings* of *government property* to arrive at the aggregate square footage for *government property*. Any *buildings* that exceed 100,000 square feet of *building area* shall only be included at 100,000 square feet.

2. Divide the *fire rescue cost for government property* by the product of subsection 1. above to arrive at a rate per square foot of *building area* to be charged to *government property*.

3. For each *building* of *government property*, multiply the applicable square foot rate determined in subsection 2. above by the number of square feet for that *building* and then sum the amounts for all *buildings* on that *tax parcel*.

3. Amount of Fire Rescue Fee.

The *fire rescue cost for government property* is further determined to be a reasonable estimation of a five-year average annual cost of providing *fire rescue services* to *government property*. The amount of the *fire rescue fee* imposed upon *government property for fire rescue services* is specifically based upon the Rate Study, Exhibit A, established pursuant to and in accordance with Section 7-42, Leon County Code of Laws, and shall be as set forth in Exhibit B, Rate Schedule, same being attached hereto and incorporated herein as if fully

DocuSign Envelope ID: 5AD7C947-7233-45D0-979D-9C002BE66DE1

set forth below, commencing October 1, 2023, annually, until otherwise determined by the Board.

B. Fire Rescue Assessment.

1. Imposition; Legislative Determinations; Cost Apportionment Methodology; Parcel Apportionment Methodology; Amount.

A *fire rescue assessment* is hereby levied and imposed upon each improved parcel of *nongovernment property* located within the unincorporated area of the County, and which is hereby ascertained, determined, and declared to be reasonably related to the cost of providing *fire rescue services* and thereby provides an equitably corresponding special benefit to *nongovernment property*. The *fire rescue assessment* is hereby ascertained, determined, and declared to be based upon a reasonable estimation of the five-year average annual cost of providing *fire rescue services* to such *nongovernment property*. It is further ascertained, determined, and declared that the *fire rescue assessment* imposed hereby provides a special benefit to and is equitably apportioned among the *assessed property* based upon the special benefit assumptions and apportionment methodology set forth in the Rate Study, Exhibit A, and as further set forth below:

a. It is further hereby ascertained and declared that the *fire rescue services* provide a special benefit to *nongovernment property,* that is improved by the existence or construction of a *building,* based upon the following legislative determinations:

1. *Fire rescue services* enhance the use and enjoyment of improved property, which constitutes a special benefit to *owners*, commercial tenants, residential tenants, and occupants by the following:

DocuSign Envelope ID: 5AD7C947-7233-45D0-979D-9C002BE66DE1

a) Protecting the value of the improvements, structures, and contents through the provision of available *fire rescue services*;

b) Protecting the life and safety of occupants, residential tenants and commercial tenants, in the use and enjoyment of the improvements and structures within improved parcels; and

c) Lowering the cost of fire insurance, including renter's insurance and property coverage for the repair and replacement of contents of improvements and structures within the improved parcels, by the presence of a professional and comprehensive fire services program within the unincorporated area of the County.

2. The *fire rescue services* enhance the use and enjoyment of commercial tenants by protecting the continued commercial operations within improved parcels of property within the unincorporated area of the County.

3. The *fire rescue services* enhance the value of business and commercial interests, which accrues to *owners* and lessees, by protecting the continued commercial operations within improved parcels of property within the unincorporated area of the County.

4. The legislative determinations of special benefit ascertained arising from the *fire rescue services*, as set out and declared in Section 7-43, Leon County Code of Laws, are incorporated herein by reference and further ratified and confirmed.

b. It is fair and reasonable to create *service zones* to reflect the level of service differentiation between a property located in a higher density area that receives fire protection coverage from multiple *core stations* and a property located in

DocuSign Envelope ID: 5AD7C947-7233-45D0-979D-9C002BE66DE1

an area generally described as rural and typically serviced by a single fire station.

c. It is fair and reasonable to use the *improvement codes* and the *DOR codes* for the *cost apportionment* and the *parcel apportionment* because: (1) the *tax roll* database employing the use of such property use codes is the most comprehensive, accurate, and reliable information readily available to determine the property use and *building area* for improved property within the County, (2) the *tax roll* database within such property use codes is maintained by the Property Appraiser and is thus consistent with parcel designations on the *tax roll*, and (3) the parcel descriptions on the *tax roll* are not incompatible with the property use descriptions on the City of Tallahassee's *utility* customer database which has been developed and maintained by the City of Tallahassee and which will be used in many instances to bill the *fire rescue assessments*.

d. The data available in the *improvement codes* is more useful and accurate to determine *building area* than the data maintained in the *DOR codes* because (1) the data maintained in the *improvement codes* reveals the existence of a *building* with a different use than the use described in the *DOR codes*, (2) the *improvement codes* represent records maintained by the Property Appraiser with the most information relative to *building area* regardless of property use, and (3) the City of Tallahassee *utility* customer database does not contain *building area* data.

e. It is fair and reasonable and consistent with the decision of the Florida Supreme Court in the case of City of North Lauderdale v. SMM Properties, Inc., 825 So.

DocuSign Envelope ID: 5AD7C947-7233-45D0-979D-9C002BE66DE1

2d 343 (Fla. 2002), to exclude from the *fire rescue costs,* amounts determined to constitute the cost of providing *EMS services*.

f. Apportioning the *fire rescue cost for assessed property* among classifications of improved property based upon historical demand for *fire rescue services*, but not *EMS services*, is a fair and reasonable method of *cost apportionment* because it reflects the property uses' potential fire risk based upon *building* use and is a reasonable proxy for the amount of fire flow, fire fighters, quantity and size of apparatus, and other special firefighting equipment that must be available in accordance with the County's required standards and practices.

g. The cost of responding to fire incidents varies among the *service zones*. Therefore, it is fair and reasonable to use a *cost factor* in calculating the *demand percentages* because it reflects the varying costs that are associated with the responses and services to different *property use categories* based upon average call duration, which accounts for the time that personnel and equipment were out of service.

h. It is fair and reasonable to use the *fire rescue costs for assessed property* for the development of the *fire rescue assessment* and apply the *fire rescue assessment* for future fiscal years at the rates established in this Resolution because it is hereby determined that the actual annual cost of providing *fire rescue services* over the five-year period will be as great as or greater than the *fire rescue assessment* established herein.

i. The *incident reports* are the most reliable data available to determine the potential demand for *fire rescue services* from property use and to determine the benefit to property use resulting from the availability of *fire rescue services*

Posted on September 8, 2025

DocuSign Envelope ID: 5AD7C947-7233-45D0-979D-9C002BE66DE1

to protect and serve *buildings* located within the *assessed property* and their intended occupants. There exist sufficient *incident reports* documenting the historical demand for *fire rescue services* from *assessed property* within the *property use categories*. The *demand percentage* determined for each *property use category* by an examination of such *incident reports* is consistent with the experience of the City of Tallahassee Fire Department. Therefore, the use of *demand percentages* determined by an examination of *incident reports* is a fair and reasonable method to apportion the *fire rescue costs* among the *property use categories*.

j. The suppression of fire on vacant property primarily benefits the buildings within the adjacent improved property by the containment of the spread of fire rather than the preservation of the vacant property. Therefore, it is fair and reasonable not to apportion any of the costs attributed to providing *fire rescue services* to vacant property and the *incident reports* documenting historical *fire rescue costs* provided to vacant property were thus omitted from the *demand percentage* calculation.

k. The budget for *fire rescue services* is sized based upon its ability to provide service to *assessed property* within the unincorporated area. Therefore, the level of services required to meet anticipated demand for *fire rescue services* and the corresponding budget required to fund *fire rescue services* provided to nonspecific property uses would be required notwithstanding the occurrence of any incidents from such nonspecific uses. Therefore, it is fair and reasonable to omit from the *demand percentage* calculation the *incident reports*

DocuSign Envelope ID: 5AD7C947-7233-45D0-979D-9C002BE66DE1

documenting *fire rescue services* provided to nonspecific property uses and vacant property.

l. It is fair and reasonable to not charge a *fire rescue assessment* to *nongovernment property* that is vacant as evidenced by the cessation of *utility* services. The costs of administering and collecting *fire rescue assessments* from such vacant property exceed the anticipated *fire rescue assessments* that could be collected from such property.

m. The size or the value of the *residential property* does not determine the scope of the required *fire rescue services* response. The potential demand for *fire rescue services* is driven by the existence of a *dwelling unit* and the anticipated average occupant population.

n. Apportioning the *fire rescue costs* to *residential property* on a per *dwelling unit* basis is required to avoid cost inefficiency and unnecessary administration and is a fair and reasonable method of *parcel apportionment* based upon historical call data.

o. The demand for *fire rescue service* availability is substantially the same for all *residential property*; therefore, it is fair and reasonable to use the combined *demand percentages* attributable to all types of *residential property,* both *single family property* and *multi-family property,* to determine *fire rescue assessments* for *residential property*.

p. The risk of loss and the demand for *fire rescue services* availability is substantially the same for *buildings* below a certain minimum size. Because the value and anticipated occupancy of non-residential *buildings* below a certain minimum size is less, it is fair, reasonable, and equitable to provide a

DocuSign Envelope ID: 5AD7C947-7233-45D0-979D-9C002BE66DE1

lesser assessment burden on improved property containing such *buildings* by the creation of specific *building area* classification ranges for such parcels.

q. The assessment of *nonresidential property* by square footage classification ranges is fair and reasonable for the purpose of *parcel apportionment* because the demand for fire rescue service, fire flow, fire fighters, quantity and size of apparatus, and other special firefighting equipment is determined and measured by the square footage of structures and improvements within benefited parcels.

r. The greater the *building area*, the greater the potential for a large fire and the greater the amount of firefighting resources that must be available in the event of a fire in a structure of that *building*'s size. Therefore, it is fair and reasonable to use *building area* as a proxy for determining the *tax parcel*'s *fire rescue assessment*.

s. The separation of improved *non-residential property* into *building area* classification ranges is fair and reasonable for the purposes of *parcel apportionment* because: (1) the absence of a need for precise square footage data within the ad valorem tax records maintained by the Property Appraiser undermines the use of actual *building area* within each improved parcel as a basis for *parcel apportionment*; (2) the administrative expense and complexity created by an on-site inspection to determine the actual *building area* within each improved parcel assessed is impractical; (3) the demand for *fire rescue services* availability is not precisely determined or measured by the actual *building area* within benefited parcels; and (4) the classification of parcels within *building area* classification ranges is a fair and reasonable method to

DocuSign Envelope ID: 5AD7C947-7233-45D0-979D-9C002BE66DE1

classify benefited parcels and to apportion costs among benefited parcels that create similar demand for the availability of *fire rescue services*.

t. The demand for the availability of *fire rescue services* diminishes at the outer limit of *building* size since a fire occurring in a structure greater than a certain size is not capable of being suppressed under expected conditions and the fire control activities under such circumstances are directed to avoid the spread of the fire event to adjacent *buildings*. Therefore, it is fair and reasonable to place a cap on the *building area* classification of benefited parcels within *non-residential property*.

u. In accordance with Section 125.0168, Florida Statutes, which mandates that counties treat recreational vehicle park property as *commercial property* for non-ad valorem special assessments levied by a county, like the *fire rescue assessment*, it is fair and reasonable to treat each space within recreational vehicle park property as a *building* on *commercial property* and to assign the square footage of 191 square feet, the average size of a recreational vehicle, according to the Florida Association of RV Parks and Campgrounds.

2. Cost Apportionment Methodology for Fire Rescue Assessment.

a. The number of *incident reports* filed within a sampling period was determined for *government property* and all *property use categories* of *nongovernment property*. The percentages of total *incident reports* allocated to *government property* as compared to total *incident reports* allocated to *nongovernment property* were used to calculate the *fire rescue cost for assessed property* and the *fire rescue cost for government property*.

DocuSign Envelope ID: 5AD7C947-7233-45D0-979D-9C002BE66DE1

b. Next, to correlate the *nongovernment tax parcels* to the *service zones*, the *incident reports* filed within a sampling period were geo-coded on the GIS system map based upon the address provided in the *FFIRS* database.

c. Based upon such correlation by *service zone*, the number of *incident reports* filed within a sampling period were determined for each *service zone*.

d. A *cost factor* was then developed and applied to the *incident reports* within each *service zone* based upon the difference in average call duration between the *service zones* with Zone 1 being assigned a 1.00 weighting *cost factor* and Zone 2 being assigned a 1.26 weighting *cost factor.*

e. A *demand percentage* was then determined for each *service zone* by calculating the percentage that *incident reports* allocated to each *service zone* bears to the total number of *incident reports* documented for both *service zones* during the sampling period. The *demand percentage* for each *service zone* was then applied to the *fire rescue cost for assessed property* and the resulting product is the cost allocation of that portion of the *fire rescue costs* allocated to each *service zone*.

f. Using the weighted *incident reports*, fire rescue incidents were assigned within the County to the *property use categories* by correlating the *code descriptions* within the *fixed property use codes* to the *improvement codes* and *DOR codes*.

g. To correlate the *property use categories* with the *state database*, the *code descriptions* within the *fixed property use codes* similar to *code descriptions* within the *improvement codes* that were used to determine the *property use categories* were identified. Exhibit A, Appendix C contains a designation of *code descriptions* by *property use category* with the *improvement codes*, and

DocuSign Envelope ID: 5AD7C947-7233-45D0-979D-9C002BE66DE1

Exhibit A, Appendix B contains a designation of *code descriptions* by *property use category* with the *fixed property use codes*. Such correlation between *code descriptions* by *property use category* between the *fixed property use codes* and the *improvement codes* is necessary to allocate the historical demand for *fire rescue services* as reflected by the weighted *incident reports* for *tax parcels* on the *tax roll* within the *property use categories*.

h. Based upon such assignment of weighted *incident reports* to *property use categories*, the number of weighted *incident reports* filed within a sampling period was determined for each *property use category*. A *demand percentage* was then determined for each *property use category* in each *service zone* by calculating the percentage that weighted *incident reports* allocated to each *property use category* bear to the total number of weighted *incident reports* documented for all *property use categories* within the sampling period. The *demand percentage* for each *property use category* within each *service zone* was then applied to the *fire rescue cost for assessed property* for that *service zone*, and the resulting product is the cost allocation of that portion of the *fire rescue cost for assessed property* allocated to each *property use category* within that *service zone*.

3. Parcel Apportionment Methodology.

a. The apportionment among *tax parcels* of *nongovernment property* of that portion of the *fire rescue cost for assessed property* apportioned to each *property use category* within each *service zone* under the *cost apportionment* is consistent with the *parcel apportionment* methodology described and determined herein.

Posted on September 8, 2025

DocuSign Envelope ID: 5AD7C947-7233-45D0-979D-9C002BE66DE1

b. RESIDENTIAL PROPERTY. For each *service zone*, the *fire rescue assessment* for each *tax parcel* of *residential property* shall be computed by multiplying the *demand percentage* attributable to *residential property* by the *fire rescue cost for assessed property* allocated to the respective *service zone*, dividing such product by the total number of *dwelling units* shown on the *tax roll* within the *service zone*, and then multiplying such quotient by the number of *dwelling units* located on such *tax parcel*.

c. NON-RESIDENTIAL PROPERTY. The *fire rescue assessments* for each *building* of *nonresidential property*, except recreational vehicle property, shall be computed as follows for each *service zone*:

1. Respectively, multiply the *fire rescue cost for assessed property* for the applicable *service zone* by the *demand percentage* attributable to each of the non-residential *property use categories*. The resulting dollar amounts reflect the portions of the fire *rescue services* budget to be respectively funded from *fire rescue assessment* revenue derived from each of the non-residential *property use categories*.

2. Separate each *building* in each of the *nonresidential property use categories* into one of the following square footage categories:

a) *buildings* with a *building area* of 1,999 square feet or less;

b) *buildings* with a *building area* between 2,000 square feet and 3,499 square feet;

c) *buildings* with a *building area* between 3,500 square feet and 4,999 square feet;

Posted on September 8, 2025

DocuSign Envelope ID: 5AD7C947-7233-45D0-979D-9C002BE66DE1

d) *buildings* with a *building area* between 5,000 square feet and 9,999 square feet;

e) *buildings* with a *building area* between 10,000 square feet and 19,999 square feet;

f) *buildings* with a *building area* between 20,000 square feet and 29,999 square feet;

g) *buildings* with a *building area* between 30,000 square feet and 39,999 square feet;

h) *buildings* with a *building area* between 40,000 square feet and 49,999 square feet; and

i) *buildings* with a *building area* between 50,000 square feet and 59,999 square feet; and

j) *buildings* with a *building area* between 60,000 square feet and 69,999 square feet; and

k) *buildings* with a *building area* between 70,000 square feet and 79,999 square feet; and

l) *buildings* with a *building area* between 80,000 square feet and 89,999 square feet; and

m) *buildings* with a *building area* between 90,000 square feet and 99,999 square feet; and

n) *buildings* with a *building area* of 100,000 square feet or greater.

3. As to each non-residential *property use category* multiply the number of *buildings* categorized in:

a) Paragraph (2)(a) of this subsection by 1,000 square feet; and

DocuSign Envelope ID: 5AD7C947-7233-45D0-979D-9C002BE66DE1

b) Paragraph (2)(b) of this subsection by 2,000 square feet; and

c) Paragraph (2)(c) of this subsection by 3,500 square feet; and

d) Paragraph (2)(d) of this subsection by 5,000 square feet; and

e) Paragraph (2)(e) of this subsection by 10,000 square feet; and

f) Paragraph (2)(f) of this subsection by 20,000 square feet; and

g) Paragraph (2)(g) of this subsection by 30,000 square feet; and

h) Paragraph (2)(h) of this subsection by 40,000 square feet; and

i) Paragraph (2)(i) of this subsection by 50,000 square feet; and

j) Paragraph (2)(j) of this subsection by 60,000 square feet; and

k) Paragraph (2)(k) of this subsection by 70,000 square feet; and

l) Paragraph (2)(l) of this subsection by 80,000 square feet; and

m) Paragraph (2)(m) of this subsection by 90,000 square feet; and

n) Paragraph (2)(n) of this subsection by 100,000 square feet.

4. For each non-residential *property use category*, add the products of paragraphs (3)(a) through (3)(n) of this subsection. The sum of these products reflects an aggregate square footage area for each non-residential *property use category* to be used in the computation of *fire rescue assessments*.

5. Divide the product of paragraph 1. of this subsection relative to each of the non-residential *property use categories* by the sum of the products for each non-residential *property use category* described in paragraph 4. of this subsection. The resulting quotient expresses a dollar amount adjusted or weighted per square foot of improved area to be used in computing *fire rescue assessments* on each of the respective non-residential *property use categories*.

DocuSign Envelope ID: 5AD7C947-7233-45D0-979D-9C002BE66DE1

6. For each of the non-residential *property use categories*, multiply the resulting quotients from paragraph 5. of this subsection by each of the respective products in paragraphs (3)(a) through (3)(n) of this subsection. The resulting products for each non-residential *property use category*, expresses a series of gross dollar amounts expected to be funded by all *buildings* in the respective non-residential *property use categories* in each of the square footage categories described in paragraph 2. of this subsection.

7. For each of the non-residential *property use categories*, divide each of the respective products of paragraph 6. of this subsection by the number of *buildings* determined to be in each of the square footage categories identified in paragraph 2. of this subsection. The result expresses the respective dollar amounts of the *fire rescue assessments* to be imposed upon each *building* in each of the non-residential *property use categories*.

d. RECREATIONAL VEHICLE PARK PROPERTY. Notwithstanding the procedure in subsection c. above for *non-residential property*, the *fire rescue assessments* for each *tax parcel* of *recreational vehicle park* property shall be computed as follows:

1. Aggregate the amount of square footage for each *tax parcel* of *recreational vehicle park*, with recreational vehicle park spaces, as reported to the Department of Health, at 191 square feet each, mobile home spaces, as reported to the Department of Health, at actual *building area* or 720 square feet each if actual square footage is not available, and actual *building area* for all other *buildings*.

DocuSign Envelope ID: 5AD7C947-7233-45D0-979D-9C002BE66DE1

2. Assign the respective dollar amount of the *fire rescue assessments* determined in subsection c. above for *commercial property* for the applicable *service zone* to the comparable aggregated square footage category ranges of *recreational vehicle park* property as calculated in paragraph 1. above. Any aggregated square footage that exceeds 100,000 square feet on a *tax parcel* shall be assigned the *commercial* dollar amount for 100,000 square feet. The result expresses the respective dollar amounts of the *fire rescue assessments* to be imposed upon each *recreational vehicle park* property.

e. MIXED USE PROPERTY. The *fire rescue assessments* for each *tax parcel* classified in two or more *property use categories* shall be the sum of the *fire rescue assessments* computed for each *property use category*.

4. Amount of Fire Rescue Assessment.

The amount of the *fire rescue assessment* levied and imposed upon *nongovernment property* shall be as set forth in Exhibit B, Rate Schedule, commencing October 1, 2023, annually, until otherwise determined by the Board.

Section 8. Exempt Property. The *fire rescue assessment* heretofore imposed upon *nongovernment property* shall not be levied nor imposed against property owned or occupied by a "religious institution" as that term is defined in Section 170.201(2), Florida Statutes, to the extent same is used as a place of worship.

Section 9. Lien. The *fire rescue assessments* imposed herein shall constitute a lien upon the Assessed Property so assessed equal in rank and dignity with the liens of all state, county, district or municipal taxes and other non-ad valorem assessments. Except as otherwise provided by law, such lien shall be superior in dignity to all other liens, titles and claims, until paid.

DocuSign Envelope ID: 5AD7C947-7233-45D0-979D-9C002BE66DE1

Section 10. Collection of Fire Rescue Charge; Legislative Determinations. The collection of the *fire rescue charge* shall be made pursuant to and in accordance with Section 7-44, Leon County Code of Laws, and is authorized hereby, commencing October 1, 2023. The use of the *utility* bills for the collection of the *fire rescue fee* and *fire rescue assessment* is a method of collection that is reasonably related and directed to those that derive the benefit received by the property from the provision of *fire rescue services*. The benefit to the property is not solely received by the *owner* of the property but also extends to all intended occupants, including but not limited to, tenants, leaseholders and others occupying the property. There is a rational nexus between the use of the *utility* bill to collect the *fire rescue fees* and *fire rescue assessments* from the property and the intended occupants of the property, including but not limited to, owners, tenants, leaseholders and others occupying property, and the benefit they derive through the enhancement of their use and enjoyment of the property. The use of *utility* bills for collection also provides a convenient mechanism of payment and further relieving any potential economic burden by providing an opportunity to pay smaller fees in twelve (12) increments annually as opposed to one larger lump sum payment being collected annually.

Section 11. Final Adjudication. The adoption of this Resolution shall be the final adjudication of the issues presented (including, but not limited to, the determination of special benefit and fair apportionment, the method of apportionment, the rate of assessment and fee, the and the levy and lien of the *fire rescue charges*), unless proper steps shall be initiated in a court of competent jurisdiction to secure relief within 20 days from the date of this Resolution.

Section 12. Repealer. This resolution replaces and supersedes Resolution No. 15-20, which was adopted by the Board on May 26, 2015.

Section 13. Effective Date. This Resolution shall have effect upon adoption and shall apply to all property located within the unincorporated area of Leon County.

Introduction

The City of Tallahassee (City) and Leon County (County) entered into a professional services agreement with Government Services Group, Inc., an Anser Advisory Company (GSG) to provide specialized services in the development and implementation of a non-ad valorem assessment program to fund fire services within the incorporated and unincorporated areas of the County (Fire Assessment Project).

The objective of this Fire Assessment Project is to develop and implement an update to the City's current revenue program capable of efficiently and effectively collecting all assessable and billable costs associated with providing fire services on an annual basis throughout the entire County for Fiscal Year 2023-24 and future fiscal years. The mechanism for collecting the fire fee from governmental properties will remain in effect, however both the City and County will utilize the City's utility bill as the collection method for all non-governmental properties where possible and the City will assist the County in the collection of the fire assessment utilizing the utility bill, tax bill, and separate bills. This document is the Fire Assessment Memorandum (Assessment Memorandum), which is one of the project deliverables specified in the scope of services.

The work effort, documented by this Assessment Memorandum, focused on the calculation of assessment rates and classifications required to fully fund the identified assessable costs to provide countywide fire services for Fiscal Year 2023-24 and future fiscal years. However, the City and County have the choice of funding all or only a portion of the assessable costs based on policy direction. In addition, the work effort recorded in this Assessment Memorandum required the identification of the full costs of assessable fire services (net of all fire related revenues) and the allocation of those costs to properties that specially benefit from the provision of such fire services.

BACKGROUND

In 1999, the City adopted a fire services funding program consisting of two components: a Fire Fee and a Fire Assessment. The goal of the Fire Services Funding Project in 1999 was to design an alternative revenue program capable of efficiently and effectively collecting all assessable and billable costs associated with providing fire services on an annual basis. The Fire Fee is the funding mechanism that secures recovery of the cost for providing fire services to governmental property. The Fire Assessment is the funding mechanism for non-government property that could be collected on the City's utility bill. The program was updated to account for changes in call data, property data and service delivery in 2004, 2009, and 2015.

OBJECTIVES

The City retained GSG to develop an annual recurring special assessment program that is capable of funding all of the assessable costs associated with providing countywide fire services. The City will utilize the utility bill for collection of the fire assessment and will assist the County in the collection of the fire assessment utilizing the utility bill, the tax bill, and separate bills. GSG has been charged to fully cost the services to be provided by the City, develop a fair and reasonable apportionment methodology for such

DocuSign Envelope ID: 5AD7C947-7233-45D0-979D-9C002BE66DE1

assessable costs, and determine assessment rates and parcel classifications that are accurate, fair and reasonable.

The fire non-ad valorem assessments must meet the Florida case law requirements for a valid special assessment. These requirements include the following:

1. The service provided must confer a special benefit to the property being assessed; and
2. The costs assessed must be fairly and reasonably apportioned among the properties that receive the special benefit.

The work effort of this project required the evaluation of data obtained from the City and the County to develop a fire assessment program that focuses upon the projected Fiscal Year 2023-24 assessable cost calculations. The objectives of this initial effort were to:

- Determine the full costs of providing fire services within the County.
- Review such final cost determination with the City to determine which elements provide the requisite special benefit to the assessed properties.
- Determine the relative benefit anticipated to be derived by categories of property use within the County from the delivery of fire services.
- Recommend the fair and reasonable apportionment of assessable costs among benefited parcels within each category of property use.
- Calculate assessment rates and parcel classifications for Fiscal Year 2023-24 and future years based on the projected Fiscal Year 2023-24 through Fiscal Year 2027-28 Fire Department budget provided by the City and associated assessable costs developed by GSG.

Service Description

Fire Rescue services are provided throughout the County from 17[1] paid fire rescue stations and 6 volunteer stations. Two of the volunteer stations are co-located at Stations 15 and 10. Table 1 identifies fire rescue buildings/facilities inventory, as well as the corresponding physical location address for the facility.

Table 1

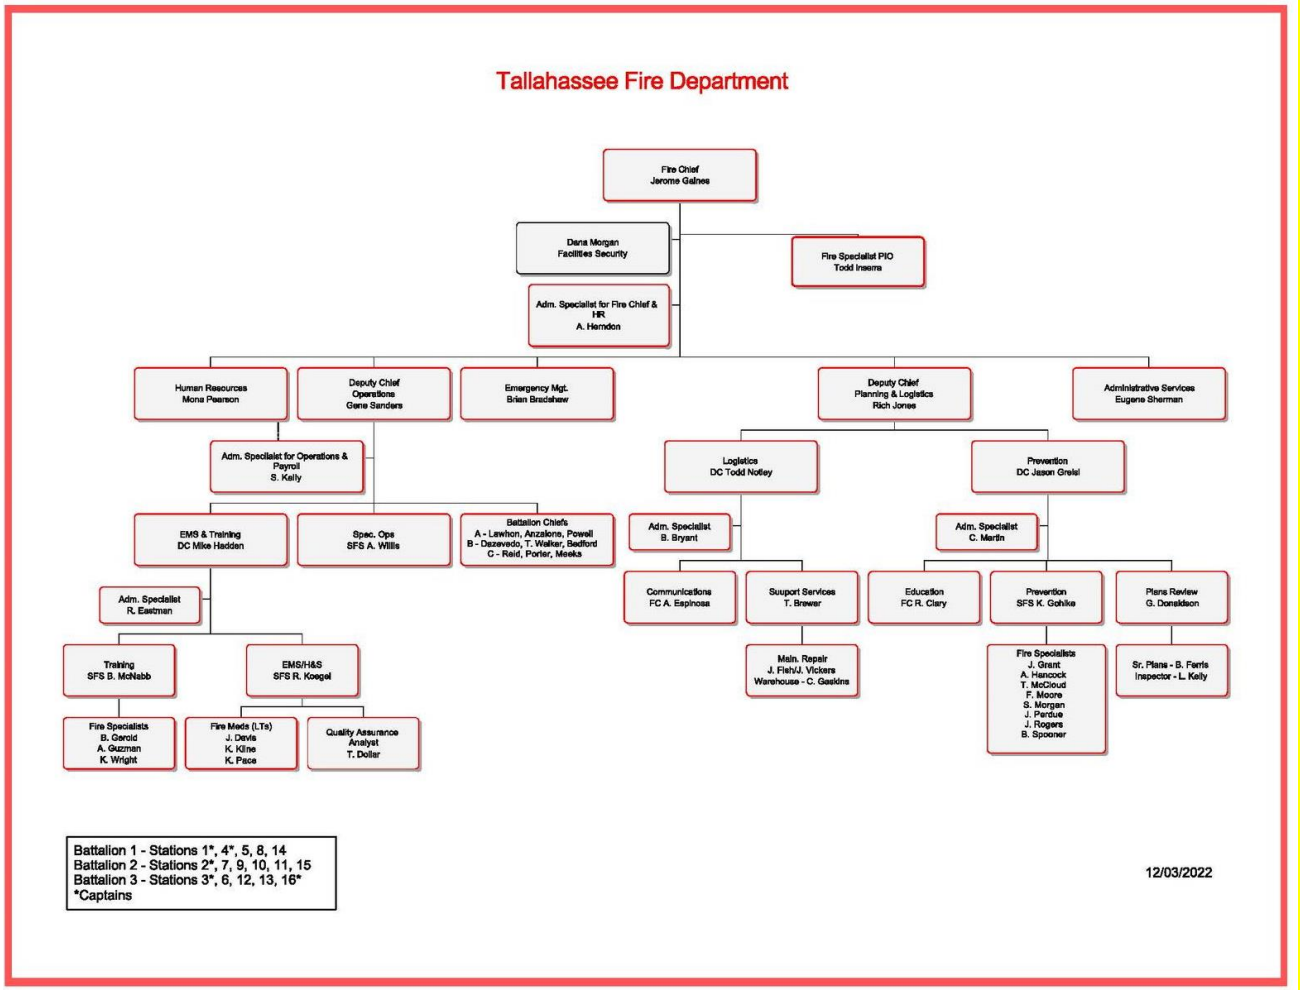
The City of Tallahassee Fire Rescue Department provides standard fire suppression, medical services, hazmat response, technical rescue, airport capabilities, state disaster response, emergency response and

[1] Station 17 is anticipated to be operational by the end of 2023.

DocuSign Envelope ID: 5AD7C947-7233-45D0-979D-9C002BE66DE1

disaster preparedness, fire prevention and safety education.



The City has an interlocal agreement with Leon County to provide fire protection services within the unincorporated area of the County. The County compensates the City for these services with collections from the fire service assessment in the unincorporated areas of the County.

The County has an interlocal agreement with the City to provide ALS and transport EMS services to the incorporated area of the City. The City compensates the County for these services by providing for the inclusion of the territorial boundaries of the City within the EMS Municipal Services Taxing Unit (MSTU) of the County. However, the City provides provide Advanced Life Support (ALS) services in coordination with Leon County EMS. The County compensates the City for these services.

Dispatch services for fire and EMS services are provided through a joint dispatch operation between the City and the County.

Tables 2 through 5 outline the Fire Rescue Department's current service operations and service components. Table 2 outlines the Fire Rescue Department's organizational structure.

Source: City of Tallahassee
* Pumping capacity for Station 5 is not included in total because those apparatus are dedicated to the airport.

The current pumping capacity is defined as the combined amount of water that all apparatus in the Fire Rescue Department can pump to a first alarm non-residential fire. As outlined by Table 4 above, the pumping capacity of the City’s Fire Rescue Department is 37,500 gallons per minute. Accordingly, based on National Fire Protection Association firefighting standards for fire flow as provided for in NFPA 1 Fire Code, 2015, Chapter 18 (assuming ordinary construction), the Fire Rescue Department currently has sufficient fire flow capacity to provide service coverage in the event of a structure fire involving unlimited square feet.

DocuSign Envelope ID: 5AD7C947-7233-45D0-979D-9C002BE66DE1

Assessable Cost Calculations

The cost calculations, apportionment methodology and assessable rates developed apply to the fire services serving the unincorporated area of Leon County and the incorporated area of the City of Tallahassee.

DEVELOPMENT OF FACTORS

FIRE RESCUE V. EMERGENCY MEDICAL SERVICES

In June 2000, litigation over the City of North Lauderdale fire rescue assessment program resulted in a decision by the Fourth District Court of Appeals in the case of SMM Properties, Inc. v. City of North Lauderdale, (the "North Lauderdale" case). The Fourth District Court of Appeals concluded that Emergency Medical Services (EMS) did not provide a special benefit to property. The Court, however, reaffirmed that fire suppression, fire prevention, fire/building inspections and first response medical services do provide a special benefit to property. In 2002, the Florida Supreme Court upheld the decision of the Fourth District Court of Appeals.

To address these concerns, GSG developed a methodology that removed the costs associated with emergency medical services. This method of splitting the fire and EMS portions of a consolidated public safety department's budget was upheld by the Fourth District Court of Appeals in Desiderio Corporation, et al. vs. The City of Boynton Beach, Florida, et al., 39 So.3d 487 (Fla. 4th DCA 2010).

The proposed fire rescue department's line-item costs were allocated between fire rescue and emergency medical services as a result of the Florida Supreme Court's opinion in City of North Lauderdale v. SMM Properties that emergency medical services (above the level of first response) do not provide a special benefit to property. Accordingly, the City's fire rescue costs were split from emergency medical service costs based on the following general guidelines.

DIRECT ALLOCATIONS

To the extent that certain line items could be allocated directly to fire, direct allocations were made. For example, all costs associated with "Fire Prevention", "Fire Plans Review" and "Contractual Svc – VFD County" were allocated entirely to fire. All costs directly related to "Medical Services" were directly allocated to EMS.

ADMINISTRATIVE FACTOR

Certain line items were allocated between fire and EMS based on an Administrative Factor. This Administrative Factor is derived by creating a ratio between non-EMS or fire personnel and total combat personnel per shift. The administrative factor calculations are based on the City's total Fire Rescue Department combat personnel staffing, including an allocation for volunteers. Under normal staffing, this results in 87 non-EMS personnel and 19 EMS personnel for a total of 106 combat personnel. This normal staffing yields an 82.08 % percent non-EMS Administrative Factor.

This percentage was applied to all applicable line items to allocate the costs that could not be directly allocated as fire costs or EMS costs, and that could not be operationally allocated (see below). For example, the Administrative Factor was applied to the line-item expenditures for salaries and benefits, "Uniforms and Clothing", and "Utilities - Electric" to determine the fire service costs of these line items.

DocuSign Envelope ID: 5AD7C947-7233-45D0-979D-9C002BE66DE1

OPERATIONAL FACTOR

Other line items were allocated between fire and EMS based on an Operational Factor. The Operational Factor is derived by creating a ratio between non-EMS (i.e., fire) calls and EMS calls, and this ratio which is based on the City's Fire Rescue Department's operations, was then applied to certain budget line items such as "Equipment Repairs" and "Gasoline".

To develop the Operational Factor, GSG obtained fire rescue incident data identifying the number of fire rescue calls made to property categories within the entire County over a three-year period. The City fire rescue incident data was used to determine the demand for fire rescue services. GSG obtained information from the City in an electronic format, identifying the number and type of fire rescue incident responses for a three-year period July 1, 2019 through June 30, 2022.

The State Fire Marshal's office uses the Florida Fire Incident Reporting System (FFIRS). This system is a tool for fire rescue departments to report and maintain computerized records of fire rescue incidents and other department activities in a uniform manner. Under this system, a series of basic phrases with code numbers are used to describe fire rescue incidents. Appendix A provides a codes list for the "type of situation found" as recorded on the fire rescue incident reports used to identify EMS and non-EMS calls.

The ratio between non-EMS (i.e., fire) calls and EMS calls is then applied to all applicable line items to allocate the costs that could not be directly allocated as fire costs or EMS costs, and that could not be administratively allocated. For the three-year period, the City reported 66,575 total fire rescue incident calls to FFIRS, of which 18,563 were non-EMS (i.e. fire) calls and 48,012 were EMS calls. This information results in a 27.88% non-EMS Operational Factor.

ASSESSABLE COST CALCULATIONS

The fire services assessable cost calculations for Fiscal Years 2023-24 through 2027-28 are based on the following assumptions for the purpose of this Fire Assessment Memorandum.

- Actual projected expenditures and revenues were provided by the City for Fiscal Years 2023-24 through 2027-28.
- Revenues are shown as a reduction of the total projected expenditures for each fiscal year, thereby reducing the total assessable costs for that year. Revenues are comprised of revenues directly received from or for the delivery of fire services, such as "Fire Inspection Fees," "Forfeited Discounts," "Firefighters Supplemental Comp," and contract for service revenues that are allocated to the fire budget.
- All costs associated with providing contract services to the Tallahassee Regional Airport were included in the assessable budget with the corresponding contract revenues removed from the assessable budget calculations.
- The line item "Statutory Discount & Undercollection" under "Additional Costs" reflects a 95% collection rate of the Fire Services Assessment.
- The costs associated with supporting the volunteer fire departments were included as 100% fire costs and are included in the assessable budget.

DocuSign Envelope ID: 5AD7C947-7233-45D0-979D-9C002BE66DE1

Table 6 provides a calculation of the assessable costs for Fiscal Year 2023-24 based on an application of the above factors to the Fiscal Year 2023-24 Projected Budget. The calculation yields an assessable cost of $47,481,665 for Fiscal Year 2023-24.

Determination of Fire Services Demand

INCIDENT DATA

GSG obtained information from the City in an electronic format, identifying the number and type of fire rescue incident responses for a three-year period July 1, 2019 through June 30, 2022. The City uses the Florida Fire Incident Reporting System (FFIRS) to record its fire rescue incidents. The FFIRS is a tool for fire rescue departments to report and maintain computerized records of fire rescue incidents and other department activities in a uniform manner.

Under this system, a series of basic phrases with code numbers are used to describe fire rescue incidents. A data field in the FFIRS, "type of situation found," identifies the incident as an EMS or non-EMS type of call for each incident. Appendix A provides a code list for the "type of situation found" as recorded on the fire rescue incident reports used to identify EMS and non-EMS calls.

Another data field in the FFIRS, "fixed property use," identifies the type of property that fire rescue departments respond to for each fire rescue incident. The fixed property uses correlate to property uses determined by the Leon County Property Appraiser on the ad valorem tax roll. Appendix B provides a code list for the "fixed property use" as recorded on the fire rescue incident reports.

GSG analyzed the three years of fire rescue incident data from the FFIRS files to evaluate trends and determine if aberrations were present. The fire rescue incident data for the three-year period (July 1, 2019 through June 30, 2022) represents 66,575 fire rescue incidents. Of the 66,575 fire rescue incidents, there were 48,012 incidents classified as EMS type incidents based on the type of situation found indicated on the incident report. The 48,012 EMS type incidents were not included in the analysis.

There are certain fire incidents that could not be assigned to a specific property or parcel. These calls represent non-specific type incidents, which are incidents that either could not be correlated to a specific parcel or calls that involved auto accidents and other types of incidents along roads and highways.

Of the 18,563 remaining fire type incidents, 15,777 were calls to specific property uses. The remaining 2,786 incidents were considered non-specific type incidents. Because of the inability to correlate these non-specific type incidents to specific property categories, the call analysis does not include these 2,786 incidents. Additionally, the level of services required to meet anticipated demand for fire services and the corresponding annual fire services budget required to fund fire services provided to non-specific property uses would be required notwithstanding the occurrence of any incidents from such non-specific property uses.

The suppression of fires on vacant land and agricultural property primarily benefits adjacent property by containing the spread of fire rather than preserving the integrity of the vacant parcel. Thus, incidents to vacant and agricultural property were not included in the final analysis of the fire call database. The 578 calls to these two property-use categories were removed.

Of the remaining 15,199 fire type incidents, there were 1,782 calls for service to government properties and 13,417 calls to non-Government properties as identified by addresses or fixed property use codes provided in the FFIRS reports. The costs associated with providing service to government properties were segregated. Those government properties will fund fire service through a fee that is determined by the historical demand for service as detailed later in this Memorandum.

Table 8 outlines the assignment of fire type incidents based on the analysis conducted by GSG.

DocuSign Envelope ID: 5AD7C947-7233-45D0-979D-9C002BE66DE1

Table 8
Fire Calls by Category (July 1, 2019 through June 30, 2022)

Property Category	Number of Fire Incidents	Percentage of Total Incidents
Non-Government	13,417	88.28%
Government	1,782	11.72%
Total	**15,199**	**100%**

Source: City of Tallahassee

PROPERTY DATA

GSG obtained information from the ad valorem tax roll from the Leon County Property Appraiser's office, the City's utility billing files, and the County's certified fire assessment roll to develop the assessment roll. Each building within the County on the ad valorem tax roll was assigned to one or more of the property-use categories based on their assignment of use by the Leon County Property Appraiser or verification of use obtained through field research. A list of building improvement codes used by the Leon County Property Appraiser and their assignment to a property use category is provided as Appendix C.

The Residential Property Use Category includes such properties as single-family, duplexes, mobile homes, triplexes, quadruplexes, apartments, condominiums, townhouses, and cooperatives. In the event the data was indefinite, the DOR codes were used to clarify mobile home categories and help identify condominium and townhouse buildings. For parcels assigned to the Residential Property Use Category, GSG utilized the total number of dwelling units as determined from the building files on the ad valorem tax roll or through the use of field research.

The Non-Residential Property Use Category includes commercial and industrial/warehouse property uses. For parcels within the Non-Residential Property Use Categories (Commercial and Industrial/Warehouse), GSG determined the amount of square footage of the structures using the building files on the ad valorem tax roll or through the use of field research.

For RV parks regulated under Chapter 513, Florida Statutes, in accordance with Sections 166.223 and 125.0168, Florida Statutes, which mandate that cities and counties treat RV parks like commercial property for non-ad valorem assessments levied by the City and County, each RV space within the park was treated as a building of commercial property and assigned the square footage of 191 square feet, the average size of a recreational vehicle, according to the Florida Association of RV Parks and Campgrounds.

DocuSign Envelope ID: 5AD7C947-7233-45D0-979D-9C002BE66DE1

Computation of Fire Services Assessments

The fire services apportionment methodology allocates assessable costs based on the anticipated demand for fire services by categories of private, real property use as identified on the real property assessment roll prepared for the levy of ad valorem taxes. The assessable fire costs are allocated among private, real property use categories based upon the historical demand for these services. This demand is identified by examining the fire incident data as reported by the City to the State Fire Marshal's office.

The fire services apportionment methodology for government property allocates billable costs to provide fire services based upon the historical demand for these services for all government owned property (i.e., City, County, State, Federal, etc.), as reflected by the incident data reported by the City.

This section of the Memorandum includes the assessment rates as calculated within this Assessment Memorandum. The fire rescue assessment cost calculations provided herein are primarily based on information supplied by the City. The assessable cost projections developed by GSG are designed to forecast assessment rates within each property use category for Fiscal Years 2023-24 based on the five-year average assessable budget.

SERVICE ZONES

Service zones were created under the previous fire assessment study in April 2015 to reflect the level of service differentiation of a property located in a higher density area that receives fire protection coverage from multiple stations as compared to a property located in an area generally described as rural and typically serviced by a single fire station. For this purpose, "core stations" were identified and defined as those stations within five road miles of at least two other stations. The creation of a core area was necessary to eliminate the appearance of a higher service level of those properties that may be within five road miles of two stations; however, the location of the property lies between two stations that are nearly ten miles apart. This same approach was used in this study. Any changes in the level of service provided in the two zones will need to be reviewed in subsequent studies to ensure that this approach is still valid.

Those properties included in "Zone 1" were generally located within five road miles of two "core stations." Properties located outside of five road miles of two "core stations" were included in "Zone 2." A map of the service zones is provided in Appendix E.

Calls were plotted, or "geocoded," on a map based upon the geographic location of the incident provided in the FFIRS database. Those calls correlated to properties included in "Zone 1," and those calls correlated to properties included in "Zone 2," were separated and assigned to the respective zone. Table 9 details the assignment of calls to service zones.

Table 9
Fire Calls to Non-Governmental Properties by Zone
(July 1, 2019 – June 30, 2022)

Zone	Number of Calls to Specific Property Uses
Zone 1	10,106
Zone 2	3,311

The calls for service were then weighted based on the average call duration differential between Zone 1 and Zone 2 to account for the difference in resources used on calls between the two zones. On average a

DocuSign Envelope ID: 5AD7C947-7233-45D0-979D-9C002BE66DE1

call in Zone 2 is 19% longer in duration than a call in Zone 1. Therefore, all calls in Zone 2 were multiplied by a weighting factor of 1.19 to determine the weighted number of calls while all calls in Zone 1 were assigned a weighting factor of 1.00. Table 10 details the weighting of calls by zone.

Table 10
Weighted Fire Calls to Non-Governmental Properties by Zone (July 1, 2019 through June 30, 2022)

Zone	Number of Calls to Specific Property Uses	Weighting Factor	Number of Weighted Calls to Specific Property Uses
Zone 1	10,106	1.00	10,106
Zone 2	3,311	1.19	3,940

Table 11 outlines the property use category assignment of weighted fire type incidents for non-governmental properties based on the historical demand for service in each zone.

Table 11
Weighted Fire Calls by Category to Non-Governmental Properties (July 1, 2019 through June 30, 2022)

	Zone 1		Zone 2	
Category	**Number of Incidents**	**Percentage of Calls**	**Number of Incidents**	**Percentage of Calls**
Residential	5,894	58.32%	3,283	83.33%
Commercial	4,043	40.01%	602	15.28%
Industrial/Warehouse	169	1.67%	55	1.39%
Total	**10,106**	**100%**	**3,940**	**100%**

Source: City of Tallahassee

SPECIAL BENEFIT ASSUMPTIONS

The following assumptions support a finding that the fire services, facilities, and programs provided by the City provide a special benefit to the assessed parcels.

- Fire services, facilities, and programs possess a logical relationship to the use and enjoyment of property by: (i) protecting the value and integrity of improvements and structures through the availability and provision of comprehensive fire services; (ii) protecting the life and safety of intended occupants in the use and enjoyment of property; (iii) lowering the cost of fire insurance by the presence of a professional and comprehensive fire services program; and (iv) containing fire incidents occurring on land with the potential to spread and endangering other property and property features.
- The availability and provision of comprehensive fire services enhances and strengthens the relationship of such services to the use and enjoyment of the parcels of property, the market perception of the area and, ultimately, the property values within the assessable area.

APPORTIONMENT METHODOLOGY

The following section describes the assessment apportionment methodology for fire services based on: (i) the fire services assessable cost calculations; (ii) the ad valorem tax roll maintained by the property appraiser and the availability of the data residing on the database; and (iii) the fire rescue incident data.

DocuSign Envelope ID: 5AD7C947-7233-45D0-979D-9C002BE66DE1

COST APPORTIONMENT

The assessable costs were first apportioned among government and non-government property based upon the historical demand for service percentages shown in Table 8. The assessable costs attributable to non-government property were then apportioned to Zone 1 and Zone 2 and then further to the individual property use categories in each service zone based upon the weighted historical demand for fire services reflected by the fire incident data experienced in each service zone for July 1, 2019 through June 30, 2022. The five-year average cost apportionment is illustrated in Table 12.

Table 12
Cost Apportionment (Five-Year Average)

	Zone 1 (71.95% of Weighted Fire Calls)			Zone 2 (28.05% of Weighted Fire Calls)		
Category	**Total Calls**	**Percentage**	**Assessable Costs**	**Total Calls**	**Percentage**	**Assessable Costs**
Residential	5,894	58.32%	$19,049,431	3,283	83.33%	$10,610,742
Commercial	4,043	40.01%	$13,066,992	602	15.28%	$1,946,008
Industrial/Warehouse	169	1.67%	$546,209	55	1.39%	$176,910
Total	**10,106**	**100.00%**	**$32,662,632**	**3,940**	**100.00%**	**$12,733,660**

PARCEL APPORTIONMENT

The share of the assessable costs apportioned to each property use category was further apportioned among the individual buildings of property within each property use category in the manner described in Table 13.

Table 13
Parcel Apportionment within Property Use Categories

Category	Parcel Apportionment
Residential	Dwelling Unit
Non-Residential: -Commercial -Industrial/Warehouse	Improvement Area Per Building Within Square Footage Ranges (100,000 Square Foot Cap Per Building)

Applying the foregoing parcel apportionment methodology, fire assessment rates were computed for each property use category. The specific methodology, underlying special benefit and fair apportionment assumptions are included below and generally described.

RESIDENTIAL PARCEL APPORTIONMENT ASSUMPTIONS

The following assumptions support findings that the parcel apportionment applied in the Residential Property Use category are fair and reasonable. The Residential Property Use Category includes such properties as single-family dwelling units and multi-family dwelling units.

- The size or the value of the residential parcel does not determine the scope of the required fire services. The potential demand for fire services is driven by the existence of a dwelling unit and the anticipated average occupant population.
- Apportioning the assessable costs for fire services attributable to the residential property use category on a per dwelling unit basis is required to avoid cost inefficiency and unnecessary administration and is a fair and reasonable method of parcel apportionment based upon historical fire call data.

DocuSign Envelope ID: 5AD7C947-7233-45D0-979D-9C002BE66DE1

- The consolidation of single-family and multi-family properties into a single category is fair and reasonable because they are similar property uses and the number of calls per dwelling unit is not significantly different.

RESIDENTIAL PARCEL APPORTIONMENT CALCULATION

Based upon the historical demand for fire services, the percentages of assessable costs attributable to residential properties were calculated. The amount of the assessable costs allocable to each residential property was divided by the number of dwelling units in the Residential Property Use Category to compute the fire assessment to be imposed against each dwelling unit. For each residential parcel, the actual number of dwelling units located on the parcel will be multiplied by the residential dwelling unit rate to compute the residential fire assessment amount for the parcel.

Table 14 illustrates the assignment of dwelling units under this apportionment methodology to the Residential Property Use Category for each zone.

Table 14
Parcel Apportionment (Residential Property Use Category)

Residential Property Use Category	Number of Dwelling Units-Zone 1	Number of Dwelling Units-Zone 2
Residential Dwelling Units	77,628	47,672

Source: City of Tallahassee and Leon County Property Appraiser Data

NON-RESIDENTIAL PARCEL APPORTIONMENT ASSUMPTIONS

The Non-Residential Property Use category includes commercial and industrial/warehouse property uses. The capacity to handle fires and other emergencies in Non-Residential Property Use category is governed by the following:

- The current pumping capacity is defined as the combined amount of water that all apparatus in the Fire Department can pump to a non-residential fire. As outlined by Table 4 above, the pumping capacity of the Fire Department is 37,500 gallons per minute. Accordingly, based on National Fire Protection Association firefighting standards for fire flow as provided for in NFPA 1 Fire Code, 2015, Chapter 18 (assuming ordinary construction), the Fire Rescue Department currently has sufficient fire flow capacity to provide service coverage in the event of a structure fire involving unlimited square feet. To avoid inefficiency and unnecessary administration, the City has made a policy decision to set the maximum classification of any building at 100,000 square feet.

The following assumption supports findings that the parcel apportionment applied in the Non-Residential Property Use category is fair and reasonable.

- The risk of loss and demand for fire services availability is substantially the same for structures below a certain minimum size. Because the value and anticipated occupancy of structures below a certain minimum size is less, it is fair, reasonable, and equitable to provide a lesser assessment burden on such structures by the creation of a specific property parcel classification for those parcels.
- The separation of non-residential buildings into square footage classifications is fair and reasonable for the purposes of parcel apportionment because: (i) the absence of a need for precise square footage data within the ad valorem tax records maintained by the property appraiser undermines the use of actual square footage of structures and improvements within each improved building as a basis for parcel apportionment; (ii) the administrative expense and complexity created by an on-site inspection to determine the actual square footage of structures and improvements within each improved parcel assessed is impractical; and (iii) the demand for fire services availability is not precisely determined or measured by the actual square footage of structures and improvements within benefited parcels; and (iv) the classification of buildings within square footage ranges is a fair and reasonable method to

DocuSign Envelope ID: 5AD7C947-7233-45D0-979D-9C002BE66DE1

classify benefited parcels and to apportion costs among benefited buildings that create similar demand for the availability of fire services.

- The consolidation of commercial and institutional properties into a single category is fair and reasonable because the non-government institutional type properties are similar in use to the commercial type properties.

The parcel apportionment for each Non-Residential Property Use Classification shall include both minimum building classifications and an additional classification of all other buildings based upon the assumed square footage of structures and improvements within the improved parcel. The Non-Residential Property Use Classifications include Commercial and Industrial/Warehouse. The following describes the Non-Residential Property parcel apportionment calculation and classification for the Commercial and Industrial/Warehouse categories.

NON-RESIDENTIAL PARCEL APPORTIONMENT CALCULATION

Based upon the historical demand for fire services, property in the Non-Residential Property Use categories will be responsible for funding a percentage of assessable costs. The amount of the assessable costs allocable to buildings within each of the Non-Residential Property Use Classifications was calculated based upon the following building classifications.

- Non-residential buildings with square footage of non-residential improvements less than 1,999 square feet were assigned an improvement area of 1,000 square feet per building. Buildings with square footage of non-residential improvements between 2,000 square feet and 3,499 square feet were assigned an improvement area of 2,000 square feet per building. Buildings with non-residential improvements between 3,500 square feet and 4,999 square feet were assigned an improvement area of 3,500 square feet per building. Buildings with non-residential improvement areas between 5,000 square feet and 9,999 square feet were assigned an improvement area of 5,000 square feet per building. For buildings containing non-residential improvements between 10,000 square feet and 99,999 square feet, assignments of improvement area were made in 10,000 square foot increments.
- For buildings, containing non-residential improvements over 99,999 square feet, an assignment of improvement area of 100,000 was made.

Sections 125.0168 and 166.223, Florida Statutes, relating to special assessments levied on recreational vehicle parks regulated under Chapter 513, Florida Statues are based on the following:

- When a city or county levy a non-ad valorem special assessment on a recreational vehicle park regulated under Chapter 513, the non-ad valorem special assessment shall not be based on the assertion that the recreational vehicle park is comprised of residential units. Instead, recreational vehicle parks regulated under Chapter 513 shall be assessed as a commercial entity in the same manner as a hotel, motel, or other similar facility.

DocuSign Envelope ID: 5AD7C947-7233-45D0-979D-9C002BE66DE1

Table 15 illustrates the assignment of improvement area under this apportionment methodology for the Commercial and Industrial/Warehouse categories.

Table 15
Parcel Apportionment (Non-Residential Property Use Category)

Source: City of Tallahassee and Leon County Property Appraiser Data

Because the suppression of fires on vacant land and agricultural property primarily benefits adjacent property by containing the spread of fire rather than preserving the integrity of the vacant parcel, incidents to vacant and agricultural property were not included in the final analysis of the fire call database. Therefore, only the primary structures on vacant and agricultural parcels will be charged.

COMPUTATION OF FIRE ASSESSMENT RATES

Applying the parcel apportionment methodology, fire services assessment rates were computed for each specified property use category. Based on the assessable costs of providing fire services, the number of fire calls apportioned to specific property categories and the number of billing units within the specified property categories.

Table 16 illustrates the assessment rates after application of the assessment methodology based on 100 percent funding of the five-year average assessable costs.

DocuSign Envelope ID: 5AD7C947-7233-45D0-979D-9C002BE66DE1

Table 16
Fire Services Assessment Rates (Five-Year Average)

Residential Property Use Categories		Zone 1 - Rate Per Dwelling Unit	Zone 2 - Rate Per Dwelling Unit
Residential Dwelling Unit		$245.39	$223
Commercial Property Use Category	**Building Classification (in square foot ranges)**	**Zone 1 – Rate Per Building**	**Zone 2 - Rate Per Building**
	≤ 1,999	$384	$356
	2,000 - 3,499	$768	$712
	3,500 - 4,999	$1,344	$1,245
	5,000 - 9,999	$1,920	$1,779

	80,000 - 89,999	$4,967	$9,079
	90,000 - 99,999	$5,587	$10,213
	≥ 100,000	$6,208	$11,348

*Estimated Gross Revenue: $45,396,291; Estimated Institutional Tax-Exempt Buy-down: $479,368; Estimated Net Revenue: $44,916,923.

EXEMPTIONS AND IMPACT OF EXEMPTIONS

Because the fire services assessment is being developed to meet the case law standards for a valid special assessment, any proposed exemptions require special scrutiny. The crafting of an exemption must be founded upon a legitimate public purpose, and not tramp on state or federal constitutional concepts of equal protection and constitutional prohibitions against establishment of religion or the use of the public treasury directly or indirectly to aid religious institutions. Furthermore, to ensure public acceptance, any exemption must make common sense and be fundamentally fair. Finally, the impact of any proposed exemption should be evaluated in terms of its magnitude and fiscal consequences on the City and County's general funds respectively.

Whenever crafting an exemption, it is important to understand that the fair apportionment element required by Florida case law prohibits the shifting of the fiscal costs of any special assessment from exempt landowners to other non-exempt landowners. In other words, the funding for an exemption from a special assessment must come from a legally available external revenue source, such as the City and

DocuSign Envelope ID: 5AD7C947-7233-45D0-979D-9C002BE66DE1

County's general funds. Funding for fire assessment exemptions cannot come from the proceeds derived directly from the imposition of special assessments for fire services and facilities. Because any exemption must be funded by an external funding source, the grant of any exemption will not have any impact upon the fire assessment to be imposed upon any other non-exempt parcels.

The decision to fund exemptions for fire services assessments on property owned by non-governmental entities is based upon the determination that such exemptions constituted a valid public purpose.

Table 17 summarizes the estimated impact of exempting institutional, wholly tax-exempt property based on the five-year average assessable budget.

Table 17
Estimated Impact of Exemptions (Five-Year Average)

Financial Classification	Zone 1	Zone 2	Total
Estimated Assessable Costs	$32,662,632	$12,733,660	$45,396,291
Estimated Buy-down for Institutional Tax-Exempt Building Uses	$345,780	$133,588	$479,368
Estimated Revenue Generated	**$32,316,852**	**$12,600,072**	**$44,916,923**

DocuSign Envelope ID: 5AD7C947-7233-45D0-979D-9C002BE66DE1

Fire Services Fees Imposed on Governmental Property

The special benefit and fair and reasonable apportionment requirements for a valid special assessment do not rigidly apply to charges against government property. Florida case law has stated that user fees are paid by choice and are charged in exchange for a particular governmental service, which benefits the property paying the fee in a manner not shared by other members of the public. In the user fee context, choice means that the property paying the fee has the option of not using the governmental service and thereby avoiding the charge. Under such tests and definition of choice, the validity of both impact fees and stormwater fees have been upheld.

Impact fees are imposed to place the economic burden of infrastructure required by growth on new development. Stormwater fees are imposed to control and treat the stormwater burden generated by the use and enjoyment of developed property. Likewise, fire services provided by the City and County are intended to meet the historical demand for fire services from developed property and such fee benefits the owner or user of developed property in a manner not shared by other members of society (e.g., the owner of undeveloped property).

The Florida Attorney General has recognized that state-owned property is not required to pay a special assessment without legislative authorization but that such authorization is not needed for user fees or service charges. Additionally, a valid charge cannot be enforced by a lien against public property absent elector approval. Rather, the enforcement remedy is a mandamus action to compel payment. In addition, certain general laws preempt the home rule power of local governments to impose special assessments on educational institutions.

As discussed previously and documented in the “Incident Data” section of this document, the fire services incidents were analyzed to determine the fire services demand for all governmental property. It was determined that approximately 11.72% of the total fire calls were attributable to governmental property. Therefore, approximately 11.72% of the total assessable budget was allocated to governmental property as shown in Table 18 below.

Table 18
Government Cost Allocation

Total Assessable Costs	Percentage of Governmental Calls	Governmental Cost Allocation
$51,423,076	11.72%	$6,026,785

The costs attributable to each governmental entity will be allocated based on each entity’s percentage of the total governmental square footage as determined by the City. GSG calculated a rate per square foot for governmental property based on the governmental cost allocation in Table 18 and the total governmental square footage as provided by the City. This calculation is shown in Table 19 below.

Table 19
Government Rate Calculation

Governmental Cost Allocation	Total Government Square Feet	Government Rate Per Square Foot
$6,026,785	22,627,160	$0.267

DocuSign Envelope ID: 5AD7C947-7233-45D0-979D-9C002BE66DE1

Additional Information

EXEMPTION CALCULATIONS

GSG utilized the most current data to identify institutional, tax-exempt parcels within the County in order to calculate the aggregate cost ('buy down') of these parcels. In addition, best efforts were made by GSG to reconcile any differences necessary to calculate the estimated buy down for this exemption category. Missing or incorrect property data could affect the estimated aggregate costs.

NON-SPECIFIC CALLS

In the fire call analysis, certain fire related calls were classified as non-property specific, because of the location of occurrence in the incident report. These calls represent non-specific incidents that either could not be correlated to a specific parcel or involved auto accidents or other types of incidents along roads and highways. These calls are excluded from the analysis that determines the percentage of calls for service to respective property types and therefore, are not considered in the determination of the extent of budget required to fund the department. Because the budget is established based on the ability of the department to adequately protect structures, no adjustment has been made to the budget due to non-property specific calls.

MOBILE HOME AND RECREATIONAL VEHICLE PARK VACANCY CREDIT

As a consequence of the transient use and potential extraordinary vacancies within mobile home and recreational vehicle (RV) parks as compared to other residential property and the lack of demand for fire services for unoccupied spaces, it is fair and reasonable to provide for an extraordinary vacancy adjustment procedure for mobile home and RV park properties. Vacant mobile home and RV spaces within a mobile home or RV park will be charged; however, these properties will be eligible for an extraordinary vacancy adjustment for vacant mobile home or RV spaces.

VERIFICATION OF SQUARE FOOTAGE OF STRUCTURES ON TAX-EXEMPT PARCELS

The ad valorem tax roll provides the data required to determine value. So long as properties remain in the name of owners exempt from ad valorem taxation, the property appraiser may not consistently maintain data related to building improvements on such parcels. As a consequence of such data imperfections, the square footage on some of the parcels, particularly for institutional private sector classifications, may not be complete.

BILLING PROPERTIES WITH MULTIPLE UTILITY ACCOUNTS

The proposed methodology can determine the assessment rate per building on a tax parcel. However, for some non-residential properties there may be many utility accounts assigned to a building. When utilizing the utility bill to collect the Fire Services Assessment, a considerable amount of data collection will be necessary to assess each utility account assigned to the building.

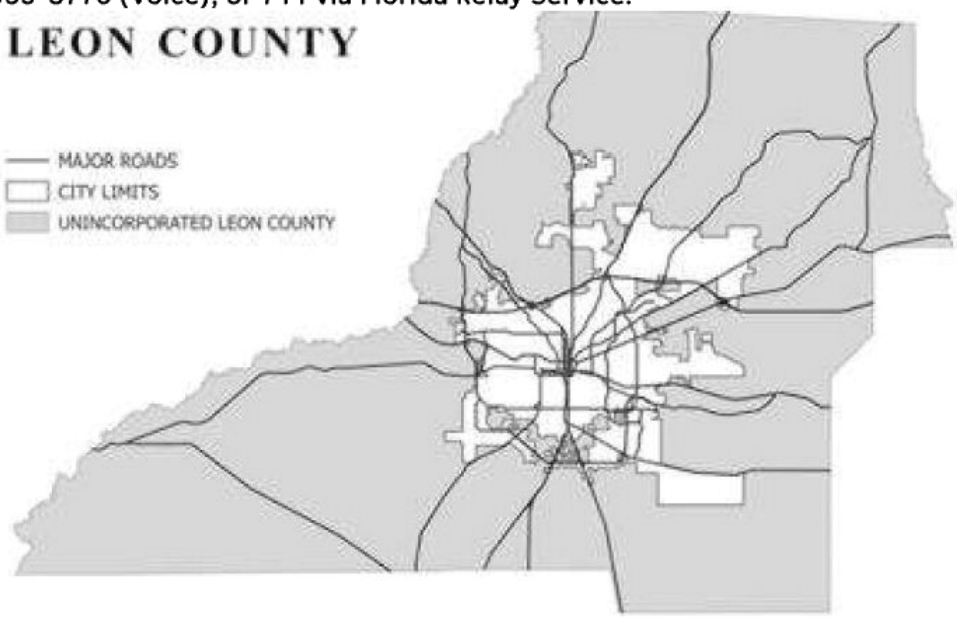
EXHIBIT 2

FIRE RESCUE SERVICES NON-AD VALOREM ASSESSMENT ROLL

https://leoncountyfl.gov/specialassessment

NOTICE OF PUBLIC HEARING

Notice is hereby given, pursuant to Section 197.3632(4)(b), Florida Statutes, that the Board of County Commissioners of Leon County, Florida will conduct a public hearing on Monday, September 15, 2025, at 6:00 p.m., or as soon thereafter as such matter may be heard, at the County Commission Chambers, 5th Floor, Leon County Courthouse, 301 South Monroe Street, Tallahassee, Florida, to consider the adoption of a fire rescue assessment and fee rate resolution and fire rescue services non-ad valorem assessment roll for the subject parcels of improved real property located within the unincorporated area of Leon County, Florida. The purpose of the special assessment is to equitably recover costs incurred for providing and funding fire rescue services to improved parcels of property located within the unincorporated area of Leon County (geographic depiction of the property subject to the assessment is set forth below). The assessment shall be collected annually by the Leon County Tax Collector until discontinued by the Board.



Leon County will also broadcast the public hearing on Comcast channel 16, the Leon County Florida channel on Roku, and the County's Facebook page (https://www.facebook.com/LeonCountyFL/), YouTube channel (https://www.youtube.com/user/LeonCountyFL), and web site (www.LeonCountyFL.gov).

All interested parties are invited to present their comments at the public hearing at the time and place set out above.

Interested parties may also provide virtual real-time public comments during the public hearing. Interested parties wishing to provide virtual real-time public comments must complete and submit the registration form provided at https://www2.leoncountyfl.gov/coadmin/agenda/ by 8:00 p.m. on Sunday, September 14, 2025. Following submittal of the registration form, further instructions for participating in the meeting will be provided. Persons needing assistance with registering or providing real-time comments may contact County Administration via telephone at (850) 606-5300. Please note that Board of County Commissioners Policy 01- 05, Article IX., Section E., entitled "Addressing the Commission", and Article IX., Section F., entitled "Decorum", shall remain in full force and effect.

Anyone wishing to appeal the action of the Board with regard to this matter will need a record of the proceedings and should ensure that a verbatim record is made. Such record should include the testimony and evidence upon which the appeal is to be based, pursuant to Section 286.0105, Florida Statutes.

In accordance with the Americans with Disabilities Act and Section 286.26, Florida Statutes, persons needing a special accommodation to participate in this proceeding should contact Mathieu Cavell or Facilities Management, Leon County Courthouse, 301 South Monroe Street, Tallahassee, Florida 32301, by written request at least 48 hours prior to the proceeding. Telephone: 850-606-5300 or 850-606-5000; 1-800-955-8771 (TTY), 1-800-955-8770 (Voice), or 711 via Florida Relay Service.

Notes for Agenda Item #32

Leon County Board of County Commissioners

Agenda Item #32

September 15, 2025

To: Honorable Chairman and Members of the Board

From: Vincent S. Long, County Administrator

Title: First Public Hearing for Adoption of the Fiscal Year 2025/2026 Tentative Millage Rates and Tentative Budgets

Review and Approval:	Vincent S. Long, County Administrator
Department / Division Review:	Ken Morris, Assistant County Administrator Roshaunda Bradley, Director, Office of Management and Budget
Lead Staff / Project Team:	Brandy Furbee, Budget Manager Amy McClure, Senior Management & Budget Analyst Demetrius Jones, Management & Budget Analyst

Statement of Issue:

This item requests the Board conduct the first of two public hearings required by Florida Statutes for the adoption of the Leon County Fiscal Year (FY) 2025/2026 tentative budget.

Fiscal Impact:

This item has a fiscal impact. If adopted, the Leon County FY 2025/2026 Tentative Budget is $401,518,304, which includes the Emergency Medical Services budget of $41,142,336.

Staff Recommendation:

Option #1: Adopt, via Resolution, the tentative FY 2025/2026 Countywide millage rate of 8.3144 mills (Attachment #1).

Option #2: Adopt, via Resolution, the tentative FY 2025/2026 Countywide budget (Attachment #2).

Option #3: Adopt, via Resolution, the tentative FY 2025/2026 Emergency Medical Services MSTU millage rate of 0.7500 mills (Attachment #3).

Option #4: Adopt, via Resolution, the tentative FY 2025/2026 Emergency Medical Services MSTU budget (Attachment #4).

Option #5: Direct staff to advertise, in accordance with Florida Statutes, the tentative millage rates and budgets for FY 2025/2026 and the date, time, and place of the public hearing to adopt the final millage rates and budgets for FY 2025/2026.

Report and Discussion

Background:

This item requests the Board conduct the first of two public hearings required by Florida Statutes for the adoption of the Leon County FY 2025/2026 Tentative Budget.

Pursuant to Sections 129.03 and 200.065, Florida Statutes, the County Property Appraiser certified to the County Budget Officer the taxable value against which taxes may be levied in the entire County and in each district in the County in which taxes are authorized by law to be levied by the Board. The certification of property values provided this year were $27,342,270,635, an increase of $1.974 billion or 7.78% more than the previous year. In preparing the tentative budgets, this certified figure was used as the basis for estimating the millage rates required to be levied.

At its July 8, 2025, meeting, the Board approved and adopted the 8.3144 Countywide and 0.7500 Emergency Medical Services (EMS) Municipal Services Taxing Unit (MSTU) millage rates for purposes of the statutory Truth-in-Millage (TRIM) public notification process. These rates cannot be increased, only decreased, during the public hearing.

On August 1, 2025, the County advised the Property Appraiser and the Tax Collector of its proposed millage rates, rolled-back rates, and the date, time, and place at which a public hearing would be held to consider the tentative millage rates and the tentative budgets in accordance with Sections 129.03 and 200.065, Florida Statutes. Subsequently, the County Property Appraiser used this information in preparing the notice of proposed property taxes pursuant to Section 200.069, Florida Statutes. These notices were then mailed to all respective property owners in Leon County.

Analysis:

In accordance with Sections 129.03 and 200.065, Florida Statutes, after discussion and public comment regarding the tentative millage rates and budgets, the Board is required to adopt its tentative millage rates prior to adopting its tentative budgets.

At its July 8, 2025, meeting, the Board set the Countywide tentative millage rate (8.3144) above the rolled-back rate and less than the majority vote maximum millage rate. This allows for the statutory voting threshold of a ***simple majority vote of the Board for adopting the Countywide tentative millage rate***.

The EMS MSTU tentative millage rate (0.7500) was set above the rolled-back rate and above the majority vote maximum millage rate. This requires a statutory voting threshold of a ***super majority (two-thirds) vote of the Board for adopting the EMS MSTU tentative millage rate.***

The proposed FY 2025/2026 County tentative aggregate millage rate of 9.0644 (Countywide – 8.3144 and EMS - 0.7500) is the same as the previous year's aggregate millage rate. The proposed aggregate millage rate of 9.0644 is 3.46% more than the rolled-back rate of 8.7615 (the rate the County can levy to collect the same property tax revenue as the prior year).

The second and final public hearing on the FY 2025/2026 budget is scheduled for Tuesday, September 23, 2025, at 6:00 p.m. If the FY 2025/2026 tentative budget is adopted, the hearing to adopt the final millage rates and budgets will be advertised in accordance with TRIM statutory requirements.

Options #1 through #5 need to be voted on separately and in the order presented. Florida Statutes require the Board to address the millage rates before addressing the associated budgets.

Options:

1. Adopt, via Resolution, the tentative FY 2025/2026 Countywide millage rate of 8.3144 mills (Attachment #1).
2. Adopt, via Resolution, the tentative FY 2025/2026 Countywide budget (Attachment #2).
3. Adopt, via Resolution, the tentative FY 2025/2026 Emergency Medical Services MSTU millage rate of 0.7500 mills (Attachment #3).
4. Adopt, via Resolution, the tentative FY 2025/2026 Emergency Medical Services MSTU budget (Attachment #4).
5. Direct staff to advertise, in accordance with the Florida Statutes, the tentative millage rates and budgets for FY 2025/2026 and the date, time, and place of the public hearing to adopt the final millage rates and budgets for FY 2025/2026.
6. Board direction.

Recommendation:

Options #1, #2, #3, #4, and #5

Attachments:

1. Resolution adopting tentative FY 2025/2026 Countywide millage rate
2. Resolution adopting tentative FY 2025/2026 Countywide budget
3. Resolution adopting tentative FY 2025/2026 Emergency Medical Services MSTU millage rate
4. Resolution adopting tentative FY 2025/2026 Emergency Medical Services MSTU budget

LEON COUNTY RESOLUTION NO. _____

A RESOLUTION OF THE BOARD OF COUNTY COMMISSIONERS OF LEON COUNTY, FLORIDA, ADOPTING THE TENTATIVE FY 2025/2026 COUNTYWIDE MILLAGE RATE; AND PROVIDING AN EFFECTIVE DATE.

RECITALS

WHEREAS, the Board of County Commissioners of Leon County, Florida, pursuant to Section 129.03, Florida Statutes, has received and examined the Fiscal Year 2025/2026 tentative budget; and

WHEREAS, the gross taxable value for operating purposes not exempt from taxation within Leon County has been certified by the County Property Appraiser to the Board of County Commissioners as $27,342,270,635; and

WHEREAS, the Board of County Commissioners of Leon County, Florida, pursuant to Section 200.065, Florida Statutes, has computed a proposed millage rate necessary to fund the tentative Countywide budget other than the portion of the budget to be funded from sources other than this ad valorem tax; and

WHEREAS, the Board of County Commissioners of Leon County, Florida, pursuant to Section 200.065, Florida Statutes, has advised the County Property Appraiser of its proposed millage rate, of its rolled-back rate, and of the date, time, and place at which a public hearing will be held to consider the proposed millage rate; and

WHEREAS, the Board of County Commissioners of Leon County, Florida, pursuant to Section 200.065, Florida Statutes, has held a public hearing on September 15, 2025 for the purpose of hearing requests and complaints from the public regarding the proposed tax levies.

BE IT RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS OF LEON COUNTY, FLORIDA, that:

The Fiscal Year 2025/2026 tentative aggregate millage rate is 9.0644 mills *(8.3144 – Countywide and 0.7500 – Emergency Medical Services MSTU)*, which is above the aggregate rolled-back rate of 8.7615 by 3.46%.

DONE, ADOPTED AND PASSED by the Board of County Commissioners of Leon County, Florida, this 15th day of September, 2025.

LEON COUNTY, FLORIDA

LEON COUNTY RESOLUTION NO. _____

A RESOLUTION OF THE BOARD OF COUNTY COMMISSIONERS OF LEON COUNTY, FLORIDA, ADOPTING THE TENTATIVE FY 2025/2026 COUNTYWIDE BUDGET; AND PROVIDING AN EFFECTIVE DATE.

RECITALS

WHEREAS, the Board of County Commissioners of Leon County, Florida, on September 15, 2025, held a public hearing as required by Section 200.065, Florida Statutes; and

WHEREAS, the Board of County Commissioners of Leon County, Florida, set forth the appropriations and revenue estimate for the tentative Countywide budget for Fiscal Year 2025/2026, attached hereto as Exhibit A, in the amount of $360,375,968.

NOW, THEREFORE, BE IT RESOLVED, by the Board of County Commissioners of Leon County, Florida, that:

1. The Fiscal Year 2025/2026 tentative Countywide budget be adopted by fund as it appears in the attached Exhibit B.

2. This resolution shall take effect immediately upon its adoption.

DULY ADOPTED at a public hearing this the 15th day of September, 2025.

LEON COUNTY, FLORIDA

LEON COUNTY FISCAL YEAR 2026 TENTATIVE BUDGET

General Fund (001)

Fund Type: General Fund

The General Fund is the general operating fund of the County established by F.S. 129.02(1). Major revenue sources for the County's General Fund include proceeds from ad valorem and other taxes, charges for services, fees, and other miscellaneous revenues. The General Fund is used to account for financial resources and expenditures of general government (except those required to be accounted for in another fund) such as libraries, management information systems, facilities management, etc.

Notes:

The Leon County budget is balanced without increasing the current 8.3144 millage rate. For FY 2026 property values increased by 7.78%, providing an additional $15.6 million in property tax revenue. Last year taxable values increased 10.01%. The decline in growth can be attributed to a number of factors, including, but not limited to: a reduction in the Save-Our-Homes cap to 2.9%; reduction in net new taxable values; and the implementation and impacts of a constitutional amendment approved by voters in November 2024 providing an annual inflationary adjustment to the exempt value of homestead properties.

Property taxes growth was offset by increases in personnel costs for retirement and healthcare, funding for 5% raises for all employees, including Constitutional Officers, and inflationary costs for contractual services, fuel, and materials and supplies.

To ensure some capital projects are not delayed due to current supply chain difficulties, especially with vehicles and construction materials, the Board appropriated $8.8 million in general fund capital reserves in FY 2025. As a result, the total FY 2026 general fund transfer to the capital fund (Fund 305) is $10.8 million ($9.7 million coming from the general fund and $1.1 million from the Municipal Services Fund).

With increased property tax revenue, and constraining expenditures to the greatest extent possible, there was no use of general fund balance for FY 2026, a $531,161 reduction from FY 2025. Outyears reflect maintaining the millage rate at the existing 8.3144, and increased property values providing the necessary revenue growth to fund increases in operational expenses.

LEON COUNTY FISCAL YEAR 2026 TENTATIVE BUDGET

Supervisor of Elections (060)

Fund Type: General Fund

The Supervisor of Elections Fund is a general fund established as part of the FY 2002 budget process. The Supervisor of Elections requested their appropriation be established in a separate fund to provide discrete accounting of their budget. The revenue is transferred from the General Fund. At the conclusion of the fiscal year, any funds available in the Supervisor of Elections fund are returned to the General Fund as excess fees.

Revenues Less Appropriations		-	-	18,801	-	-	-	-	-

Notes:

The Supervisor of Elections budget varies year to year depending on the election cycles. Funding for the Supervisor of Elections increases for Presidential Preference Primary elections cycles and decreases in general election and off year election cycles. The upcoming FY 2026 cycle includes a general election.

LEON COUNTY FISCAL YEAR 2026 TENTATIVE BUDGET

Transportation Trust (106)

Fund Type: Special Revenue

The Transportation Trust Fund is a special revenue fund established by F.S. 129.02(2). Major revenue sources for the Transportation Trust Fund include proceeds from local and state gas taxes. Leon County imposes a total of twelve cents in gas taxes. The County Ninth-Cent, Local Option and Second Local Option are local county taxes. Of those, the Local Option and Second Local Option revenues are split 50/50 with the City of Tallahassee. The 20% Surplus, 5th & 6th Cent and Gas Tax Pour-Over Trust are State gas tax revenues. The fund is used to account for resources dedicated and expenditures restricted to the maintenance/construction of roads and bridges.

Revenues Less Appropriations		2,171,865	-	(1,077,654)	-	-	-	-	-

Notes:

Gasoline taxes are estimated to increase by 2% or $202,635. Gas taxes, which are consumption based (taxes are per gallon, not a percentage of cost), are only slightly increasing year-over-year due to better vehicle fuel efficiencies and an increase in the use of hybrid and electric vehicles. As a result, $500,000 in available Transportation Fund balance is appropriated in FY 2026 to provide continued support for roadway maintenance.

Additionally, a review of fund reserves in FY 2025 indicated that $4.3 million in Transportation Trust fund balance above policy minimums were available to support the transportation capital program in FY 2026 and FY 2027. To ensure infrastructure improvements continue and heavy equipment and vehicle purchases are not delayed due to supply chain issues, $2 million in funding was advanced funded in FY 2025.

Fine and Forfeiture (110)

Fund Type: Special Revenue

The Fine and Forfeiture Fund is a special revenue fund established by F.S. 129.02(3) and F.S. 142.01. Major revenue sources for the County Fine and Forfeiture Fund include proceeds from ad valorem taxes and other miscellaneous revenues. The fund is used to account for revenues collected in support of and expenditures dedicated to criminal prosecution, court operations, and operations of the Sheriff's Department.

LEON COUNTY FISCAL YEAR 2026 TENTATIVE BUDGET

Notes:

The County maintained the countywide millage rate of 8.3144 for FY 2026. Additional information regarding this levy for recurring operating expenditures is located on the general fund page (Fund 001).

The largest expenditure appropriations in this fund are the Sheriff Law Enforcement and Detention budgets. The overall increase to the Sheriff's budget is 9% or $10.3 million. In addition to normal personnel costs and contractual services increases, the budget includes costs to increase the base pay for sworn officers to $62,000, four new deputies to support the Uniform Patrol Division, and one additional Homeless Outreach Street Team (HOST) deputy to provide law enforcement support in the engagement of unsheltered individuals.

LEON COUNTY FISCAL YEAR 2026 TENTATIVE BUDGET

Probation Services (111)

Fund Type: Special Revenue

The Probation Services Fund is a special revenue fund established in support of the administration of County Probation programs. Major revenue sources for the Probation Services Fund include fees related to pretrial costs, other probation related services, and a transfer from the General Fund. The fund is used to account for resources and expenditures related to the alternative Community Service Work Program, the Pretrial Release Program, urinalysis testing fees and other County Probation programs and services.

Revenues Less Appropriations		691,798	-	98,114	-	-	-	-	-

Notes:

The FY 2026 Probation Services revenues are only estimated to increase slightly from FY 2025 due primarily to increased number of pre and post assignments such as alcohol and urinalysis tests being administered. However, the Courts continue to authorize the fees to accrue, be waived, or for the probationers to be civil judged which reduces collections. As a result of these revenue declines, the general revenue subsidy to the fund has continued to increase. The FY 2026 Budget reflects the use of $600,000 in available Probation fund balance to support the Probation and Pretrial program. The use of these dedicated reserves allows for reduced general revenue support in FY 2026. If revenues continue to decline, the Board may wish to consider future adjustments to fees or services, or a combination of both.

LEON COUNTY FISCAL YEAR 2026 TENTATIVE BUDGET

Teen Court (114)

Fund Type: Special Revenue

Effective July 1, 2005, the Board of County Commissioners authorized a $3 fee be imposed for certain Court proceedings; the revenue will be used to support the Teen Court program.

Revenues Less Appropriations		38,641	-	1,885	-	-	-	(60,081)	(59,230)

Notes:

The FY 2026 Drug Court program is experiencing a decline in court costs collected for misdemeanor and felony drug cases. Available Drug Abuse Trust fund balance is used to support the program through FY 2028. FY 2029 and FY 2030 reflect a deficit in supporting program expenditures as fund balance will be depleted in FY 2028. A reduction in services may need to be considered if revenues do not increase to support the program.

LEON COUNTY FISCAL YEAR 2026 TENTATIVE BUDGET

Judicial Programs (117)

Fund Type: Special Revenue

On June 8, 2004, the Board of County Commissioners authorized the imposition of a $65.00 criminal violation court costs. In accordance with Florida Statutes and the enabling County Ordinance, the proceeds from the $65.00 fine are to be used as follows: 25% to supplement State funding requirements related to the implementation of a Statewide court system or to pay for local requirements; 25% to be used to fund legal aid programs; 25% to be used to fund law library personnel and materials; and 25% to be used to fund alternative juvenile programs. At the end of the fiscal year, any fund balance remaining shall be utilized in subsequent fiscal years for the funding of either the State or local requirements.

Revenues Less Appropriations		11,773	-	21,351	-	-	-	-	-

Notes:

A decrease in revenues for court required programs are necessitating the use of accumulated fund balance to support these programs. The current use of fund balance is within policy limits. However, the outyears show only nominal increases in revenue and a continued use of fund balance to support programs. A reduction in programs may need to be considered if revenues do not increase to support these discrete programs.

LEON COUNTY FISCAL YEAR 2026 TENTATIVE BUDGET

Opioid Litigation Settlement (118)

Fund Type: Special Revenue

The Opioid Litigation Settlement Fund is a special revenue fund established to account for settlement proceeds associated with the multidistrict opioid litigation (MDL).

Revenue Sources	Acct #	Actual FY 2024	Adopted FY 2025	Requested FY 2026	Budget FY 2026	Planned FY 2027	Planned FY 2028	Planned FY 2029	Planned FY 2030

Opioid Settlement NWFHN	925019-569	649,640	-	-	-	-	-	-	-
Total Appropriations		649,640	-	-	-	-	-	-	-
Revenues Less Appropriations		2,008,178	-	-	-	-	-	-	-

Notes:

In 2018, the Board authorized the County's participation in multidistrict opioid litigation (MDL) against opioid manufacturers, resulting in significant settlement funds allocated to mitigate opioid impacts. On September 14, 2021, the Board approved a Memorandum of Understanding with the Attorney General to participate in settlement negotiations collectively with the State and other local governments. Based on the litigation and subsequent settlements, the County would receive approximately $1.9 million over an 18-year period directly from opioid manufacturers and pharmaceutical companies.

The Northwest Florida Health Network (NWFHN) notified the County in 2023 that the County would receive an additional $11.6 million in settlement funds through the State over an 18-year period for a total of $13.5 million. Pursuant to the settlement agreement, all proceeds are restricted to abatement and treatment of opioid use disorder and other limited uses such as mental health and substance abuse recovery and support.

The annual amount of funds distributed to the County will vary each year. Due to this uncertainty, anticipated revenues are not included in the adopted budget and settlement proceeds will be realized as received throughout the fiscal year. Actual revenues and expenditures are reflected annually.

LEON COUNTY FISCAL YEAR 2026 TENTATIVE BUDGET

Building Inspection (120)

Fund Type: Special Revenue

The Building Inspection Fund is a special revenue fund established to account for fees collected on building permits issued within the unincorporated area of Leon County. The fees are used to fund the operation of the Building Plans Review and Inspection Division.

Revenues Less Appropriations		(58,894)	-	298,637	-	(1,163,627)	(1,196,091)	(1,230,037)	(1,265,549)

Notes:

In February 2022, the Board adopted a revised fee schedule based on a 2021 building plan review and inspections fee study. The study found that overall permit costs were commensurate with the services provided but recommended a revenue-neutral transition to a flat fee structure and the implementation of a technology fee to support demands for greater digital services.

For FY 2026, revenues are estimated to remain relatively flat from FY 2025 based on a stabilization of growth in permitting activity following the low interest rate environment enacted by the Federal Reserve to combat the impacts of the COVID pandemic on the economy. Consumer demand and supply chain shortages in the post COVID economic recovery caused high inflation, which was countered by the Federal Reserve increasing interest rates. These increased rates then slowed building construction loans and mortgages which in turn results in building permitting activity subsiding.

To ensure Building Inspection continues to provide prompt permitting services, $1.3 million in fund balance is budgeted in FY 2026. The outyears reflect only nominal increases in revenues and depletion of the Building fund balance in FY 2026. A reduction in services may need to be considered if these revenues do not increase to support these services.

LEON COUNTY FISCAL YEAR 2026 TENTATIVE BUDGET

Development Support & Environ. Mgmt. Fund (121)

Fund Type: Special Revenue

The Development Support and Environmental Management Fund is a special revenue fund established to account for the activities related to Development Support and Environmental Management in accordance with the City of Tallahassee/Leon County Comprehensive Plan. The fund is supported by both permitting fees and general revenue. The functions supported by this Fund include Environmental Services, Development Services, Code Compliance Services, and Support Services.

Revenues Less Appropriations		1,383,676	-	224,850	-	-	-	-	-

Notes:

In FY 2026, permit fee revenue is estimated to decrease slightly from FY 2025 reflecting a stabilization of growth in environmental permitting after the low interest rate environment established by the Federal Reserve as a tool to ameliorate the affects of COVID on the economy. Due to the decline in revenues and to reduce the general revenue support required for this fund, $800,000 in available DSEM fund balances are appropriated in FY 2026. The outyears reflect general fund support increasing incrementally to maintain service levels and is anticipated to increase up to $4.1 million in FY 2030. Long term approaches to balancing general revenue support, DSEM fee levels, and the use of fund balances will continue to be evaluated.

LEON COUNTY FISCAL YEAR 2026 TENTATIVE BUDGET

Stormwater Utility (123)

Fund Type: Special Revenue

The Stormwater Utility Fund is a special revenue fund established in support of the administration of the unincorporated areas Stormwater Maintenance, Engineering, Facility Improvements, and Water Quality Monitoring programs. Major revenue sources for the Stormwater Utility Fund include: the non ad valorem assessment for stormwater utility and non-restricted revenues (i.e. local half-cent sales, State revenue sharing, etc.).

LEON COUNTY FISCAL YEAR 2026 TENTATIVE BUDGET

Notes:

In FY 2014, the County implemented the first increase to the stormwater non ad valorem assessment in 23 years from $20 to $85 for each single-family equivalent unit. This allowed for the general revenue subsidy to decrease by $2.5 million. As specified in the adopted ordinance, the current general revenue subsidy covers the cost of the fee discount for low-income seniors, disabled veterans and properties that receive a stormwater credit discount. The remaining general revenue transfer covers the operating deficit in the program. The transfer of $800,000 from the Transportation Trust fund provides funding for stormwater maintenance activity related to roadways.

The increase in general revenue support in FY 2026 is related to no growth in the non-ad valorem fee due to the issuance of more stormwater credit discounts and increases in program expenditures. These expenses include inflationary costs associated with fuel and vehicle repair costs. As presented to the Board at the June 20, 2023, April 23, 2024 and the June 17, 2025 Budget Workshops, to ensure the continued long-term fiscal viability of the County and eliminate the general revenue subsidy, a stormwater fee study is intended to be conducted in FY 2027 to be considered as part of the FY 2028 budget process.

LEON COUNTY FISCAL YEAR 2026 TENTATIVE BUDGET

SHIP Trust (124)

Fund Type: Special Revenue

The State Housing Initiatives Partnership (SHIP) Trust Fund is a special revenue fund established in accordance with F.S. 420.9075(5) to account for the distribution of State funds to local housing programs. Expenditures are limited to the administration and implementation of local housing programs.

Notes:

The State Housing Initiatives Partnership (SHIP) program allocated $698,493 for local housing programs to Leon County during the FY 2025 legislative session, a slight reduction from the $759,021 in FY 2025. The County allocates approximately $125,000 annually in SHIP funds for the Rental Development Program, which provides gap financing to developers that build new affordable rental units for very low- and low-income renters.

LEON COUNTY FISCAL YEAR 2026 TENTATIVE BUDGET

Grants (125)

Fund Type: Special Revenue

The Grants Fund is a special revenue fund established to account for grants that are consistently received on an annual basis. The fund also accounts for other restricted revenues such as Friends of the Library and the Driver Education funding. As new grants are received during the fiscal year, appropriate action is taken by the Board of County Commissioners to realize these additional grant proceeds into the budget. This fund includes the corresponding County matching funds for the various grants.

Notes:

Grant program expenditures for Emergency Management and the Storage Tank Program are greater than the grant allocations, which require increasing the general revenue transfer to maintain program service levels. Since 2012, the Board has allocated additional funding for the Storage Tank Program to ensure all local petroleum facilities are inspected on an annual basis, which is in excess of the Florida Department of Environmental Protection's 50% requirement.

As allowed by the Dori Slosberg Driver Education Safety Act, the Board amended the Leon County Code of Laws related to civil traffic penalties at the January 28, 2020 meeting and increased the civil traffic penalty from $3 to $5 to support high school driver education programs. The additional funding supports Leon County Schools' Drivers Education Program.

LEON COUNTY FISCAL YEAR 2026 TENTATIVE BUDGET

Non-Countywide General Revenue (126)

Fund Type: Special Revenue

The Non Countywide General Revenue Fund is a special revenue fund originally established as part of the FY 2002 budget process. Prior to FY 2002, the 1/2 Cent Sales Tax, State Revenue Sharing, and other unrestricted resources were directly budgeted into the specific funds they supported. Beginning in FY 2002, the revenues were brought into this fund and budgetary transfers were established to the funds supported by these revenues. This approach allows for the entire revenue to be shown in one place and all funds being supported to be similarly reflected. These revenues are not deposited directly into the General Fund in order to discretely show support for activities not eligible for Countywide property tax revenue.

Notes:

The State Shared and ½ Cent Sales Tax revenues are projected to decline by approximately $1.5 million for FY 2026. These declines are attributed to shifts in consumer spending that stem from higher inflation and economic uncertainty associated with the commencement of new tariffs, in addition to the Legislature's repeal of the Business Rental Tax in 2025.

Effective July 1, 2021, internet sales retailers and marketplace providers with no physical presence in Florida were required to collect the Florida sales tax on sales of taxable items delivered to purchasers in Florida if the out-of-state retailer or marketplace provider makes a substantial number of sales into Florida.

The Communication Services Tax (CST) has been in decline statewide the past five years due to a decline in cable services as consumers "cord cut" in favor of streaming, and certain demographics and small businesses abandoning telephone landlines. FY 2026 revenues estimate a decrease from FY 2025 due to the redirection of a portion of the communication tax to be allocated to Utility Relocation Reimbursement Grant Program.

9-1-1 Emergency Communications (130)

Fund Type: Special Revenue

The 9-1-1 Emergency Communications Fund is a special revenue fund established in accordance with the Florida Emergency Telephone Act F.S. 365.171. Major revenue sources of the 9-1-1 Emergency Communications Fund include proceeds from the wireless Enhanced 9-1-1 fee (50 cents/month per service subscriber) pursuant to F.S. 365.172 - 365.173 and the 9-1-1 fee (50 cents/month per service line) pursuant to F.S. 365.171(13). The fund is used to account for resources and expenditures associated with 9-1-1 emergency services within Leon County.

Notes:

For FY 2026, revenue for this fund is projected to decrease slightly. This trend is anticipated to continue in outyears as consumers continue to switch from landlines to wireless devices. The fund reflects a transfer from the 9-1-1 Capital Project fund to maintain current service levels.

Notes:

In May 2021, Leon County received $57.02 million in ARPA funding. Accordingly, as part of the FY 2022 budget process, the Board approved a multi-year ARPA expenditure plan. The plan provided funding to address community nonprofit and human services assistance, public health support, targeted support for the local business community, and funding to complete major wastewater projects.

The expenditure plan also allocated $25 million of the ARPA funding as revenue replacement to mitigate revenue losses incurred by the County due to the pandemic. These funds were used to support general government services and the capital program from FY 2022 through FY 2025.

Municipal Services (140)

Fund Type: Special Revenue

The Municipal Services Fund is a special revenue fund established in support of various municipal services provided in the unincorporated area of Leon County. These services include: parks and recreation, and animal control. The major revenue sources for the Municipal Services Fund are transfers from the Non-Restricted Revenue Fund (i.e. State revenue sharing, the local cent sales tax, etc.) and the Public Services Tax.

LEON COUNTY FISCAL YEAR 2026 TENTATIVE BUDGET

Notes:

For FY 2026, Public Services Tax (PST) revenues are projected to increase slightly which can be attributed to an increase in utility rates and more residential and commercial development associated with an improved economy. Expense increases to the fund are primarily related to inflationary operating costs of trail, playground and ballfield maintenance, increase acreage for mowing contracts, and tree trimming on greenway and park trails.

The transfer to Fund 305 (the Capital Improvement Fund) was increased by approximately $20,000 from the previous fiscal year ($1.06 million in FY 2025 to $1.08 million in FY 2026). This is part of the total $10.8 million general revenue transfer to the capital fund. The remaining transfer is from the General Fund.

The $500,000 transfer of revenue from the Sales Tax Extension Joint Project Agreement Fund (Fund 352) assists in funding the maintenance of parks constructed with previous local infrastructure sales tax dollars. This is a level transfer that will occur until 2039.

LEON COUNTY FISCAL YEAR 2026 TENTATIVE BUDGET

Fire Rescue Services (145)

Fund Type: Special Revenue

The Fire Services Fund is a special revenue fund established in FY 2010 as a method to fund enhanced fire protection services in the unincorporated area of Leon County. The funding is derived from a fire service fee levied on single family, commercial and governmental properties in the unincorporated area of the County. Homes are charged a flat rate, and commercial and governmental properties pay per square foot. Square footage associated with the worship area of a church is excluded from the fee. In addition, the County provides support to the Volunteer Fire Departments.

Notes:

With the implementation of the fire service fee the City initially billed all affected properties in the unincorporated area. In FY 2010, the Board approved placing this assessment on the tax bill for property owners who did not pay the fee via the established billing system. As reflected above, direct billing by the City of Tallahassee is the primary source for the collection for this fee, but non-ad valorem assessment collections continue to increase as property owners become delinquent in their payments or choose to have their fee placed on the tax bill.

In FY 2024, a new fire services fee was implemented to adequately fund the County's share of the Fire Department. Increasing the fire services fee eliminated the general revenue subsidy that was provided to assist funding these services. This fee will remain unchanged for FY 2026.

LEON COUNTY FISCAL YEAR 2026 TENTATIVE BUDGET

Tourism (160)

Fund Type: Special Revenue

The Tourism Fund is a special revenue fund established as the repository for the collection of the 5% Local Option Tourist Development Tax on transient lodging sales in Leon County (bed tax). Expenditure of these revenues, as limited by law, is to support tourist development initiatives.

Notes:

Leon County's tourism revenue continues to increase after the subsidence of COVID and a restoration of normal travel activities. In addition to events that attract overnight stays, Leon County has seen an increase in available rooms related to the construction of new hotels near the universities and the interstate. Also, the average room rate has increased as demand and inflation drive the hotel rates which results in greater tourism revenue collection as the tourist tax rate is collected as a percentage of a hotel room's cost.

Expenditure increases reflect more funds for the COCA cultural grant programs, as well as additional resources for the Division of Tourism marketing efforts and costs associated with the 2026 World Athletics Cross Country Championship at Apalachee Regional Park.

LEON COUNTY FISCAL YEAR 2026 TENTATIVE BUDGET

County Accepted Roadways and Drainage Systems Program (162)

Fund Type: Special Revenue

The County Accepted Roadways and Drainage Systems Program (CARDS) Fund is a special revenue fund established to account for the repayment of special assessments associated with the County's CARDS program (formerly the 2/3 2/3 paving program). The revenue received into this fund is collected as a non ad valorem special assessment on the annual tax bill. These revenues are repaying the County for loans utilized to construct special assessment paving projects. The revenues are transferred annually to the General Fund (001).

Notes:

This fund will continue to see a decline in revenue as special assessments are paid in full and the lack of new assessments being levied due to a decline in projects.

LEON COUNTY FISCAL YEAR 2026 TENTATIVE BUDGET

Special Assessment - Sewer (164)

Fund Type: Special Revenue

This Special Assessment Fund was established to account for revenues and expenditures associated with the special assessment levied on property owners to pay for the costs associated with maintaining the new City of Tallahassee sewer service distribution system. These assessments are collected and remitted to the City of Tallahassee in accordance with interlocal agreements with the City of Tallahassee. Areas include Killearn Lakes Units I and II completed in October 2006 and ten units in the Annawood subdivision completed in 2022.

Revenue Sources	Acct #	Actual FY 2024	Adopted FY 2025	Requested FY 2026	Budget FY 2026	Planned FY 2027	Planned FY 2028	Planned FY 2029	Planned FY 2030

Revenues Less Appropriations		10,952	-	49,493	-	-	-	-	-

Notes:

The amount of sewer special assessments is established by the City of Tallahassee's sewer service rate ordinances, which are adjusted annually based on changes in Consumer Price Index (CPI). The significant increase in FY 2025 revenue for this fund was due to the City of Tallahassee adjusting rates for the Killearn Lakes Sewer special assessment to fully recover the cost of service. FY 2026 revenue reflects CPI rate adjustments and two additional properties receiving sewer service in the Belair/Annawood Area.

LEON COUNTY FISCAL YEAR 2026 TENTATIVE BUDGET

County Government Annex (165)

Fund Type: Special Revenue

On June 26, 2003, the Board of County Commissioners purchased the County Government Annex on Calhoun Street. The operating fund facilitates and account for the ongoing operations of this building. Revenues associated with this fund are primarily generated by leases associated with the tenants of the building. Expenses associated with this fund are comprised of the upkeep, maintenance, and management of the facility.

Revenues Less Appropriations		347,409	-	47,785	-	-	-	-	(788,015)

Notes:

Funding is allocated for general building maintenance and repairs including renovations, mechanical and electrical upgrades, and safety improvements at the Leon County Government Annex. Specific project details are in the Capital Improvements Project Section. In addition, FY 2026 and outyear transfers reflect utility payments to the General Fund (001).

The additional rental revenue in FY 2026 is due to a increase in leasing activity at the Leon County Government Annex. Outyears reflect the programmed expiration of leases, which may or may not be extended or renegotiated. Revenue is only contemplated when a lease is active. FY 2026 through FY 2029 reflect the use of accumulated fund balance to support expenditures, however, based on current leasing trends, it is anticipated that leasing revenue will increase. If leasing activity does not increase expenditure reductions and/or general revenue support may be needed as fund balance will be depleted in FY 2029.

LEON COUNTY FISCAL YEAR 2026 TENTATIVE BUDGET

Huntington Oaks Plaza (166)

Fund Type: Special Revenue

This fund was established to account for the maintenance of the Huntington Oaks Plaza purchased by the County in FY 2010 for the expansion of the Lake Jackson store front library and the construction of a community center. Revenue from this fund is derived from lease payments from space rentals and are used for maintaining the property.

Revenues Less Appropriations		264,624	-	(6,891)	-	-	-	-	-

Notes:

FY 2026 reflects a decline in leasing activity at the Huntington Oaks Plaza. The expenditure transfers are utility payments to the General Fund (001) for building utilities.

The decline in outyear lease revenue is due to programmed expiration of leases, which may or may not be extended or renegotiated. Revenue is only contemplated when a lease is active. If lease activity does not increase expenditure reductions and/or general revenue support may be needed in the outyears.

Notes:

The Bond Series 2020 Capital Equipment Financing Fund was established in FY 2020 to pay the debt service payment for a new Sheriff helicopter over a six-year term. Funding for the repayment of the debt service is split evenly between the County and the City of Tallahassee. The County bills the City for their half of the debt service payment.

LEON COUNTY FISCAL YEAR 2026 TENTATIVE BUDGET

Supervisor of Elections Building (224)

Fund Type: Debt Service

The Bond Series 2021 Fund is a debt service fund for the Supervisor of Elections Voting Operations Center Building. The purchase and building improvements was made from loan proceeds to be paid back over 15 years. The repayment of the loan is established in a debt service fund beginning in FY 2022 to coincide with the first debt service payment due on December 1, 2021.

Notes:

The Bond Series 2021 Supervisor of Elections Building Fund was established during the FY 2022 budget to account for the debt service payment for the purchase and renovations of the Supervisor or Elections' Voter Operations Center Building.

LEON COUNTY FISCAL YEAR 2026 TENTATIVE BUDGET

ESCO Lease (225)

Fund Type: Debt Service

The ESCO Lease Fund is a debt service fund established to account for the debt service associated with the obligations relating to the County's Energy Performance Contract with Energy Savings Group (ESG). This lease was entered into to fund upgrades and replacements of critical building infrastructure at County facilities, including the Detention Center, Courthouse and Sheriff's Administration building relating to the County's Energy Performance Contract. These energy efficiency improvements will offset the cost of the lease. Energy Savings Group will pay any balance on the lease not offset by these energy cost savings.

Capital Improvements (305)

Fund Type: Capital Projects

The Capital Improvements Fund is a capital project fund established in support of the County's Capital Improvement Program. A major revenue source of the Capital Improvement Fund is a transfer from general revenue dollars. The fund is used to account for resources and expenditures associated with the acquisition or construction of major non-transportation related capital facilities and/or projects other than those financed by Proprietary Funds.

Notes:

The FY 2026 general capital improvement program is $12.2 million. The FY 2026 – FY 2030 Capital Improvement Plan is primarily focused on maintaining the County's infrastructure of buildings, roads, stormwater system, parks, information technology and fleet. To maintain the capital program, a consistent amount of recurring general revenue is required to fund these projects. From FY 2020 – FY 2025, the recurring general revenue support for the capital program ranged from $5 million to $9 million. The general revenue transfer increased to $10.8 million for FY 2026.

A review of fund reserves in FY 2025 indicated that the County had $11.4 million in available general revenue fund balances above the policy minimums that were available to support the capital program for FY 2026 and FY 2027. To ensure some capital projects are not delayed due to current supply chain difficulties, especially with vehicles and construction materials, $8.8 million in fund balances were appropriated in FY 2025. This funding will support projects associated with the purchase of County vehicles and heavy equipment, facility improvements, Sheriff Facilities improvements, and park facility improvements.

For FY 2026, additional funding is for IT infrastructure, improvements to critical facilities including the Public Safety Complex, and the Essential Libraries Strategic Initiative. The Essential Library Initiative is a process of re-envisioning the Leon County Public Library System to address the changing needs of residents and trends in library use. These funds are for space improvements to the Main Library.

Outyear expenditure projections reflect overall inflation and the rising costs of construction materials and supplies. Due in part to these inflationary pressures, the general revenue transfer is projected to increase to $16 million by FY 2030.

LEON COUNTY FISCAL YEAR 2026 TENTATIVE BUDGET

Transportation Improvements (306)

Fund Type: Capital Projects

The Transportation Improvement Fund is a capital project fund established to account for transportation related capital projects. Major revenue sources for the Transportation Improvement Fund include proceeds from local and state gas taxes from the Transportation Trust Fund (106). Leon County imposes a total of twelve cents in gas taxes.

LEON COUNTY FISCAL YEAR 2026 TENTATIVE BUDGET

Notes:

When originally approved for collection beginning January 2014, the second local option gas tax was split 50/50 for sidewalk projects and general transportation maintenance. In FY 2019, this gas tax was approved for reallocation to stormwater projects for two years (FY 2020 and FY 2021) to fix chronic flooding problems on county roads. However, in the FY 2021 budget, due to COVID and subsequent budget balancing strategies for FY 2021, sidewalk funding was suspended, and transportation and stormwater funding were reduced with sidewalk funding being budgeted solely from Sales Tax Extension (352) funds. The second local option gas tax returned to being split 50/50 between sidewalks and transportation maintenance projects in FY 2022. For FY 2026, $1.4 million is allocated for the Sidewalk Program.

A review of fund reserves in FY 2025 indicated that $4.3 million in Transportation Trust fund balances above policy minimums were available to support the transportation capital program in FY 2026 and FY 2027. To ensure infrastructure improvements continue and heavy equipment and vehicle purchases are not delayed due to supply chain issues, $2 million in funding was advanced funded in FY 2025.

LEON COUNTY FISCAL YEAR 2026 TENTATIVE BUDGET

Sales Tax (308)

Fund Type: Capital Projects

The Local Option Sales Tax Fund is a capital project fund established in accordance with a 1989 county-wide referendum, and is used to account for resources and expenditures associated with the construction of transportation and jail facility related projects. The Local Government Infrastructure Surtax includes proceeds from a One-Cent Sales Tax on all transactions up to $5,000. Pursuant to an interlocal agreement with the City of Tallahassee, the revenue generated by the tax will be split between the County and the City. The County's share of the proceeds is equal to 52.84%, and the City's share is equal to 47.16%. The 1989 referendum approved the sales tax levy for a period of fifteen years; however, through a county-wide referendum passed in November 2000, the sales tax was extended for an additional fifteen years (Note: the extended sales tax is accounted for in Fund 309).

Notes:

The current 1-Cent Local Option Sales Tax expired in 2019. On November 4, 2014, Leon County residents approved a ballot initiative to extend the sales tax for another 20 years until 2039. In FY 2020, two new funds (351 and 352) were established for the new sales tax extension that went into effect on January 1, 2020. Previous projects assigned to this fund were moved to Fund 351. This fund is still open due to the accumulated funds in the intersection and safety improvement project to support the reconstruction of the Blair Stone Road and Old St. Augustine intersection and critical maintenance needs at the Sheriff Facilities.

LEON COUNTY FISCAL YEAR 2026 TENTATIVE BUDGET

Sales Tax - Extension (309)

Fund Type: Capital Projects

In November of 2000, Leon County residents approved a referendum extending the imposition of the 1 Cent Local Option Sales Tax beginning in FY 2004 for 15 years. The extension commits 80% of the revenues to Blueprint 2000 projects and will be jointly administered and funded by Leon County and the City of Tallahassee. The remaining 20% will be split evenly between the County and the City. The County's share will be used for various road, stormwater and park improvements. The Blueprint 2000 Joint Participation Agreement Revenue supports County projects funded through the County's share of the $50 million water quality/flooding funding.

Notes:

The current 1-Cent Local Option Sales Tax expired in 2019. On November 4, 2014, Leon County residents approved a ballot initiative to extend the sales tax for another 20 years until 2039. Two new funds (351 and 352) were established for the new sales tax revenue beginning in FY 2020 to account for the projects that were programmed in this fund. This fund remains open for expenditures related to the Lexington Pond Retrofit project.

LEON COUNTY FISCAL YEAR 2026 TENTATIVE BUDGET

9-1-1 Capital Projects (330)

Fund Type: Capital Projects

The 9-1-1 Capital Projects Fund was established to support the capital needs of the emergency communications system. Major revenue sources of the Emergency Communications Fund include proceeds transferred from the 9-1-1 Emergency Communications Fund which includes: wireless Enhanced 9-1-1 fee (50 cents/month per service subscriber) pursuant to F.S. 365.172 - 365.173; and the 9-1-1 fee (50 cents/month per service line) pursuant to F.S. 365.171(13). The fund is used to account for resources and expenditures associated with capital projects related to the provision of 9-1-1 emergency services.

Notes:

Revenues are collected in the operating fund (Fund 130). FY 2026 and outyear transfers reflect support for operating expenses for the E-911 System. Funds not utilized for operating the E 9-1-1 System are transferred at fiscal year end to the capital fund for future expenditure on capital upgrades.

LEON COUNTY FISCAL YEAR 2026 TENTATIVE BUDGET

Sales Tax - Extension 2020 (351)

Fund Type: Capital Projects

In November 2014, Leon County residents approved a referendum providing a second extension of the 1998 imposed 1-Cent Local Option Sales Tax beginning in FY 2020 for 20 years. The extension commits 80% of the revenues for Blueprint 2020 infrastructure projects, Blueprint 2020 Economic Development Programs, and Livable Infrastructure For Everyone (L.I.F.E.) projects. The remaining 20% is split evenly between the County and the City. The County's 10% share, accounted for in this fund, will be used for transportation resurfacing and intersection improvement projects and other statutorily authorized uses approved by the County Commission.

Revenues Less Appropriations		486,557	-	760,143	-	-	-	-	-

Notes:

This fund was established to account for the County's 10% share of the sales tax extension starting January 1, 2020. The first year of collections was affected by COVID and the associated drop in consumer spending starting in March 2020. The FY 2026 revenue estimates reflect consumer spending returning to more normal levels.

The 10% share supports the County's annual road resurfacing, OCGM maintenance and intersection/safety capital projects.

LEON COUNTY FISCAL YEAR 2026 TENTATIVE BUDGET

Sales Tax - Extension 2020 JPA Agreement (352)

Fund Type: Capital Projects

In November 2014, Leon County residents approved a referendum providing a second extension of the 1-Cent Local Option Sales Tax beginning in FY 2020 for 20 years. The extension commits 80% of the revenues for Blueprint 2020 infrastructure projects, and will be jointly administered and funded by Leon County and the City of Tallahassee. The Blueprint 2020 Joint Participation Agreement revenue supports County projects funded through the County's share of the sales tax extension. The BP 2020 JPA revenue, accounted for in this fund, will be used for Water Quality and Stormwater, and Sidewalks. The fund also accounts for the 2% portion of the fund dedicated to Liveable Infrastructure For Everyone (L.I.F.E.) projects.

Revenues Less Appropriations		1,863,243	-	137,994	-	-	-	-	-

Notes:

On November 4, 2014, Leon County residents approved a ballot initiative to extend the current 1-Cent Local Option Sales Tax for another 20 years until 2039. This fund has been established to account for the 2% sales tax share dedicated to the L.I.F.E. program, and the County's share of the Blueprint JPA revenue.

For FY 2026, Sales Tax Extension revenue estimates reflect consumer spending returning to more normal levels. The Blueprint JPA revenue is consistent in FY 2026 and the outyears since this is a lump sum payment from Blueprint specified in the interlocal agreement.

Sales Tax Extension projects in FY 2026 include the Sidewalk program, Water Quality and Stormwater improvements, and L.I.F.E. projects (Rural Road and Safety Improvements, Street Lighting, Neighborhood Enhancements and Transportation Safety, Boat Landing, Private to Public Dirt Road Improvements, Stormwater and Flood Relief, and Recreational Amenities). In addition, the $500,000 transfer to the Municipal Services Fund (Fund 140) will assist in funding the maintenance of parks constructed with previous local infrastructure sales tax dollars.

LEON COUNTY FISCAL YEAR 2026 TENTATIVE BUDGET

Solid Waste (401)

Fund Type: Enterprise

The Solid Waste Fund is an enterprise fund established in support of the County's waste management programs. Major revenue sources for the Solid Waste Operations Fund include the Non-Ad Valorem Assessment, and Transfer Station Tipping Fees. The fund is used to account for resources and expenditures related to the operation of the County Solid Waste Management Facility and the provision of the County Waste Management program.

LEON COUNTY FISCAL YEAR 2026 TENTATIVE BUDGET

Notes:

The Solid Waste fund is an enterprise fund and is supported by a non-ad valorem assessment and tipping fees collected at the Transfer Station. During the FY 2020 budget process, the Board adopted a multi-year fiscal plan that reallocated $4.1 million in FY 2021 debt services savings to avoid future tax and fee increases for as long as possible.

The plan allowed for the elimination of the rural waste center collection fees and avoided the need to raise the non-ad valorem assessment. For FY 2021, the plan called for the reallocation of $1.11 million in debt service savings to the solid waste fund to support the Rural Waste Service Centers and the recycling contract. This general revenue transfer increased to $2.7 million and $3.5 million in FY 2024 and FY 2025 respectively.

For FY 2026, the general revenue transfer increased to $3.8 million and continues to support recycling, and the rural waste collection centers. The increase in revenue and expenditures for the Transfer Station is related to a contractual increase in hauling and disposal rates associated with transferring waste from the transfer station to the regional landfill in Jackson County. FY 2026 capital funding is included for Solid Waste Facility, Transfer Station and Rural Waste Heavy Equipment Replacements, Hazardous Waste Collection and Transfer Station Improvements.

As presented to the Board at the June 20, 2023, June 18, 2024 and June 17, 2025 Budget Workshops, the $40 non-ad valorem assessment no longer pays the full cost of disposing of solid waste or operating the rural waste service centers. To ensure the continued long-term fiscal viability of the County and eliminate the general revenue subsidy, a solid waste fee study was conducted in FY 2025 and considered as part of the FY 2026 budget process. However, the Board chose to postpone any increases to the solid waste assessment to mitigate increases to residents as much as possible and continue subsidizing the fund with general revenue. This fiscal policy issue will be brought back to the Board for consideration during a future budget cycle.

LEON COUNTY FISCAL YEAR 2026 TENTATIVE BUDGET

Insurance Service (501)

Fund Type: Internal Services

The Insurance Service Fund is an internal service fund established in support of general County operations. Major revenue sources of the Insurance Service Fund include proceeds from interdepartmental billings. The fund is used to account for resources and expenditures associated with assessed premiums, claims, and administration of the County's Risk Management Program related to auto and property liability, workers' compensation, and other types of insurance.

Revenues Less Appropriations		2,901,596	-	(31,519)	-	-	-	-	-

Notes:

The FY 2026 insurance budget reflects an increase to properly fund the County's insurance premium coverages for property and general liability. Leon County continues to have an aggressive safety and risk avoidance program, which has resulted in reduced workers compensation costs for Leon County Government.

LEON COUNTY FISCAL YEAR 2026 TENTATIVE BUDGET

Communications Trust (502)

Fund Type: Internal Services

The Communications Trust Fund is an internal service fund established to account for the resources and expenditures associated with the County's communications network, which includes the telephone and internet systems. The individual departments and agencies are assessed based on the number of internet connections, data lines, and telephone usage within their individual areas.

Revenue Sources	Acct #	Actual FY 2024	Adopted FY 2025	Requested FY 2026	Budget FY 2026	Planned FY 2027	Planned FY 2028	Planned FY 2029	Planned FY 2030

Revenues Less Appropriations		781,361	-	108,495	-	-	-	-	-

Notes:

The FY 2026 communications budget reflects inflationary increases in the cost for communication services (phone and internet) primarily associated with outside billing costs for the Constitutional Officers.

LEON COUNTY FISCAL YEAR 2026 TENTATIVE BUDGET

Motor Pool (505)

Fund Type: Internal Services

The Motor Pool Fund is an internal service fund established to account for the costs associated with operating and maintaining the County's fleet of vehicles and heavy equipment. This internal service fund generates its revenues from direct billings by the Fleet Management Department to other departmental users. Fuel purchased by the Fleet Management Department is supplied to departmental users at cost plus a minor surcharge. Repairs and maintenance performed by the Fleet Management Department are charged to users at the costs of parts plus an applicable shop rate.

Revenue Sources	Acct #	Actual FY 2024	Adopted FY 2025	Requested FY 2026	Budget FY 2026	Planned FY 2027	Planned FY 2028	Planned FY 2029	Planned FY 2030

Revenues Less Appropriations		(42,773)	-	(105,651)	-	-	-	-	-

Notes:

The FY 2026 budget for this fund reflects inflationary growth in the costs of parts to maintain the County fleet, offset by a modest decrease in the overall projected cost of fuel.

LEON COUNTY RESOLUTION NO. _____

A RESOLUTION OF THE BOARD OF COUNTY COMMISSIONERS OF LEON COUNTY, FLORIDA, ADOPTING THE TENTATIVE FY 2025/2026 EMERGENCY MEDICAL SERVICES MUNICIPAL SERVICE TAXING UNIT MILLAGE RATE; AND PROVIDING AN EFFECTIVE DATE.

RECITALS

WHEREAS, the Board of County Commissioners of Leon County, Florida, pursuant to Section 129.03, Florida Statutes, has received and examined the Fiscal Year 2025/2026 tentative budget; and

WHEREAS, the gross taxable value for operating purposes not exempt from taxation with Leon County has been certified by the County Property Appraiser to the Board of County Commissioners for the Emergency Medical Services Municipal Service Taxing Unit as $27,342,270,635; and

WHEREAS, the Board of County Commissioners for the Taxing Unit of Leon County, Florida, pursuant to Section 200.065, Florida Statutes, has computed a proposed millage rate necessary to fund the tentative Emergency Medical Services Municipal Service Taxing Unit budget other than the portion of the budget to be funded from sources other than this ad valorem tax; and

WHEREAS, the Board of County Commissioners for the Emergency Medical Services Municipal Service Taxing Unit of Leon County, Florida, pursuant to Section 200.065, Florida Statues, has advised the County Property Appraiser of its proposed millage rate, of its rolled-back rate, and of the date, time, and place at which a public hearing will be held to consider the proposed millage rate; and

WHEREAS, the Board of County Commissioners for the Emergency Medical Services Municipal Service Taxing Unit of Leon County, Florida, pursuant to Section 200.065, Florida Statutes, has held a public hearing on September 15, 2025 for the purpose of hearing requests and complaints from the public regarding the proposed tax levies.

BE IT RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS OF LEON COUNTY, FLORIDA, that:

The Fiscal Year 2025/2026 tentative aggregate millage rate is 9.0644 mills (*0.7500 mills – Emergency Medical Services MSTU and 8.3144 mills – Countywide*), which is above the aggregate rolled-back rate of 8.7615 by 3.46%.

DONE, ADOPTED AND PASSED by the Board of County Commissioners of Leon County, Florida, this 15th day of September, 2025.

Revenues Less Appropriations		5,166,274	-	2,989,104	-	-	-	-	-

Notes:

Property valuations for the EMS MSTU increased 7.78% for the FY 2026 budget. During the FY 2024 budget process, the Board approved the planned millage rate increase from 0.50 to 0.75 to eliminate the general revenue subsidy to the EMS fund. Additionally, the 0.75 millage rate provides for reserves to support future increased staffing and equipment requirements for the program over the next five years. In addition to the increase in property values, the growth in EMS revenues also reflects an increase in ambulance fees and Medicaid reimbursements from the State.

Most of the increase in expenditures is related to the planned replacement of aging ambulances in the EMS fleet. In addition, to maintain current service levels and ensure adequate resources are available for increased call demand, the FY 2026 budget includes the addition of ten full-time positions. Additional increases are associated with inflationary costs of EMS contracts and medical supplies.

Leon County
Board of County Commissioners

Notes for Agenda Item #33

Leon County Board of County Commissioners

Agenda Item #33

September 15, 2025

To: Honorable Chairman and Members of the Board

From: Vincent S. Long, County Administrator

Title: First and Only Public Hearing to Consider an Ordinance Amending the Official Zoning Map to Change the Zoning Classification for 18.51 Acres Located at 4767 Capital Circle SE from the Single Family Detached, Attached and Two-Family Residential (R-3) Zoning District to the Light Industrial (M-1) Zoning District

Review and Approval:	Vincent S. Long, County Administrator
Department / Division Review:	Ken Morris, Assistant County Administrator Nawfal Ezzagaghi, Assistant County Administrator Artie White, Director, Planning, Land Management & Community Enhancement (PLACE) Mike Alfano, Director, Planning Department
Lead Staff / Project Team:	Russell Snyder, Administrator, Land Use Division, Planning Department Sean Reiss, Principal Planner, Land Use Division, Planning Department

Statement of Issue:

This item requests the Board conduct the first and only public hearing to consider an ordinance (Attachment #1) amending the Official Zoning Map from the Single Family Detached, Attached and Two-Family Residential (R-3) zoning district to the Light Industrial (M-1) zoning district for an approximately 18.51-acre parcel located at 4767 Capital Circle Southeast (SE). The proposed Ordinance would change the allowable uses from low-density residential uses to light industrial uses.

Fiscal Impact:

This item has no fiscal impact.

Staff Recommendation:

Option #1: Conduct the first and only public hearing and adopt the proposed Ordinance amending the Official Zoning Map to change the zoning classification from the Single Family Detached, Attached and Two-Family Residential (R-3) zoning district to the Light Industrial (M-1) zoning district, based on the findings of fact and conclusions of law of the Planning Commission, this report, and any evidence submitted at the hearing hereon.

Report and Discussion

Background:

This item requests the Board conduct the first and only public hearing to consider a change to the Official Zoning Map from the Single Family Detached, Attached and Two-Family Residential (R-3) zoning district to the Light Industrial (M-1) zoning district on an approximately 18.51-acre parcel located at 4767 Capital Circle SE. ***This public hearing is quasi-judicial in nature.*** More information regarding quasi-judicial hearings is provided in the Analysis section.

The subject property is in the Suburban Future Land Use Map (FLUM) category and the site is currently vacant. The proposed Ordinance to designate the subject parcel M-1 zoning district would facilitate development on the site with light manufacturing, processing, storage, community and recreational facilities or other activities compatible with light industrial operations. The proposed zoning district is consistent with the Suburban FLUM category and the subject site meets the required criteria to qualify for the M-1 zoning district.

The subject site was previously rezoned from M-1 to R-3 in 2024 to allow for residential development on the site. It was discovered that the site had previously been used as a landfill, making residential development on the site infeasible. As a result, the applicant is requesting a return to the previous M-1 designation to allow for development with non-residential uses.

The agent is Urban Catalyst Consultants, Inc., which is represented by Sean Marston, and the applicant/owner is Arden Gates, LLC, with Hadi Boulos listed as the corporate officer.

Historic Zoning:

Historic Zoning: Prior to the adoption of the Zoning Code of Leon County in 1992, the subject property was zoned Agricultural (A-2). The A-2 district allowed for single-family, two-family, and mobile home residential uses along with golf courses, churches and schools, nursing homes and the retail sales of agricultural products. A portion of the property was also zoned General Industrial (M-2), which allowed industrial uses.

1992: The Official Zoning Map for Leon County was adopted by Ordinance #92-11 to implement the 1990 Tallahassee-Leon County Comprehensive Plan. The subject property was rezoned Mixed Use B.

1998: Leon County implemented "Site-Specific Zoning" and the subject property was rezoned to Light Industrial (M-1).

October 8, 2024: The Board of County Commissioners approved Ordinance 24-13, which changed the zoning classification of the subject property from M-1 to R-3.

July 1, 2025: The Planning Commission voted unanimously (4 – 0) to find the proposed Ordinance (Attachment #1) consistent with the comprehensive plan, and to recommend approval to the Board of County Commissioners. There were no public speakers.

Analysis:

In accordance with Section 10-6.205(b)13 (Procedures for Ordinance and Official Zoning Map Amendments), of the *Leon County Code of Ordinances*, the Board of County Commissioners shall consider the following in in its review of zoning map amendment applications:

1. ***Comprehensive Plan.*** *Is the proposal consistent with all applicable policies of the adopted Comprehensive Plan?*

   Yes. The subject property is located within the Urban Services Area and within the Suburban Future Land Use Map (FLUM) Category (Policy 2.2.5: [L], Attachment #2) of the Comprehensive Plan. The Suburban FLUM category is intended as an environment for economic investment or re-investment through the mutually advantageous placement of employment and shopping opportunities with convenient access to low- to medium-density residential areas. The proposed M-1 zoning district meets this intent given that it will provide employment opportunities and its proximity to nearby residential areas.

   Availability of requisite infrastructure is a key determining factor in the appropriateness of an implementing zoning district in the Suburban FLUM category. Policy 2.2.5: [L] states that "allowed land uses within the Suburban Future Land Use Category shall be regulated by zoning districts which implement the intent of this category, and which recognize the unique land use patterns, character, and availability of infrastructure in the different areas within the Suburban Future Land Use Category. The subject site has access to City of Tallahassee central sewer and water services.

2. ***Conformance with the Land Development Regulations***. *Is the proposal in conformance with any applicable substantive requirements of the land development regulations, including minimum or maximum district size?*

   Yes. The M-1 district is intended to be located in areas designated Bradfordville Mixed Use or Suburban on the future land use map of the Comprehensive Plan and shall apply to urban areas with convenient access to transportation facilities, where light manufacturing, processing, storage, community and recreational facilities and other activities compatible with light industrial operations are permitted. These conditions exist for the subject property given the suburban FLUM designation and access to Capital Circle SE (a principal arterial roadway).

   A comparison of existing and proposed uses in the M-1 and R-3 zoning districts (Attachment #3) is provided in Table #1. A comparison of the allowable densities and intensities is contained in Table #2.

Table #1: Comparison of Existing and Proposed Permitted Uses

Permitted Uses	Zoning Districts	
	To: M-1	From: R-3
Armored truck service	X	
Assembly of apparel and accessories	X	
Automotive service, including car wash	X	
Bottling Plants	X	
Broadcast studios	X	
Building Contractors and related services	X	
Cemeteries	X	
Community and utilities	X	
Community Services, including vocational schools. Library, elementary, middle, or high schools prohibited.	X	
Community facilities related to residential uses including religious facilities, and elementary, middle, vocational and exceptional student education schools. Libraries and high schools are prohibited.		X
Community Services for police fire and other community services may be allowed in accordance with section 10-6.806	X	X
Crematoriums	X	
Day care centers	*	
Distribution facilities	X	
Dry Cleaning Plants	X	
Food processing, excluding slaughter	X	
Golf courses	X	X
Gun firing ranges (indoors)	X	
Heavy infrastructure	X	
Laboratories: research and development activities	X	
Lawn and tree removal services	X	
Manufacturing (consistent with the definition of light industrial)	X	
Non-medical offices and services, including business and government offices and services	X	
Off-street parking facilities	X	
Passive and active recreational activities	X	X
Pest control services	X

Repair service, non-automotive	X	
Single-family attached dwellings		X
Single-family detached dwellings		X
Towing, wrecking and recovery services	X	

Permitted Uses	Zoning Districts	
	To: M-1	From: R-3
Transportation and freight handling services	X	
Two-family dwellings		X
Warehouses, mini-warehouses, or self-storage facilities	X	
Welding and machine shops	X	
Wholesale activities	X	
Wholesale building supplies	X	
Zero-lot line single-family detached dwellings		X
Other uses, which in the opinion of the County Administrator or designee, are of a similar and compatible nature to those described in the M-1 zoning district	X	

*Accessory only
See Attachment #3: §10-6.653 Light Industrial; §10-6.637. Single- and Two-Family Residential district charts.

Table #2: Density and Intensity Comparison

Zoning District	Maximum Residential Density	Maximum Non-Residential Building Size	Potential Development on the Subject Site
R-3 *Current* 18.51 acres	8 du/acre	10,000 square feet of gross building floor area per acre	148 dwelling units 185,100 gsf
M-1 *Proposed* 18.51 acres	Accessory residential use only	50,000 square feet per acre of gross building floor area for storage areas within buildings (some exceptions, 2,500 square feet of commercial floor area per acre). Max. 3 stories.	0 dwelling units 925,000 gsf
Net Change in Use			**-148 Residential Units +739,900 Non-residential gsf**

3. ***Changed Conditions.*** *Have the land use and development conditions changed since the effective date of the existing zoning district regulations involved, which are relevant to the properties?*

   No. The land use and development conditions have not changed since the effective date of the existing zoning, which was adopted on October 8, 2024.

4. ***Land Use Compatibility.*** *Will the proposal result in any incompatible land uses, considering the type and location of uses involved?*

   No. There is no predominant land use pattern surrounding the subject area. It is a mixture of zoning that ranges from M-1, Rural, Critical Planning Area (CPA), and PUD. As shown in Table #3, to the east is a mix of Rural and PUD zoning that includes low density residential and a stormwater facility. To the north is an enclave of Rural that is within the Urban Services Area (USA).

   To the west is a communications tower that is zoned M-1, and to the south is vacant land that is zoned Rural and CPA. The surrounding mix of uses will not result in any incompatible uses.

   Figure #1: Proposed zoning classification change with surrounding zoning districts

5. ***School Considerations.*** *Is there capacity in area schools? What effects on enrollment could the proposed rezoning have on area schools?*

   A School Impact Analysis (SIA) form was not submitted to the Leon County School Board since the proposed zoning district does not allow residential development, so there will be no impacts to Leon County Schools.

6. ***Other Matters****. Are there any other matters which the Commission may deem relevant and appropriate?*

   No.

Public Notification & Response:

The public hearing has been noticed and advertised in accordance with the provisions of the *Leon County Code of Ordinances* (Attachment #5). The Planning Department mailed 22 notices to property owners within 1,000 feet of the subject property. To date, the Planning Department has received no inquiries or comments.

Legal Considerations for Quasi-Judicial Proceedings

This hearing is a quasi-judicial proceeding; therefore, members of the Board shall not initiate or knowingly engage in ex parte communications regarding this item. Ex parte communications are verbal or written communications made to a member of the Board on a matter to come before the Board by, or on behalf of, a party outside of a Commission meeting, and without notice to the other parties. All ex parte communications received by a Commissioner should be forwarded to the County Attorney's Office for inclusion in the agenda materials. If a communication is not included in the agenda materials or occurs after agenda materials are distributed to the Board, the Commissioner must disclose the details of the communication at the Commission meeting before the Board takes action on the matter.

Quasi-judicial hearings require due process (notice and an opportunity to be heard and cross-examine), must comport with the essential requirements of the law (consideration of the correct criteria), and require that the decision of the Board be supported by competent, substantial evidence placed on the record before the Board. "Competent substantial evidence" is that which is "sufficiently relevant and material that a reasonable mind would accept it as adequate to support the conclusion reached". *De Groot v. Sheffield*, 95 So. 2d 912, 916 (Fla. 1957). Evidence relied upon must be fact-based, real, material, pertinent and relevant. If the Board denies this rezoning request, such denial must include a determination on the record that maintaining the existing conditions furthers a legitimate public purpose.

Options:

1. Conduct the first and only public hearing and adopt the proposed Ordinance amending the Official Zoning Map to change the zoning classification from the Single Family Detached, Attached and Two-Family Residential (R-3) zoning district to the Light Industrial (M-1) zoning district, based on the findings of fact and conclusions of law of the Planning Commission, this report, and any evidence submitted at the hearing hereon.
2. Conduct the first and only public hearing and do not adopt the proposed Ordinance amending the Official Zoning Map to change the zoning classification from the Single Family Detached, Attached and Two-Family Residential (R-3) zoning district to the Light Industrial (M-1) zoning district, based on the findings of fact and conclusions of law of the Board of County Commissioners and any evidence submitted at the hearing hereon.
3. Board direction.

LEON COUNTY ORDINANCE NO. 25-___

AN ORDINANCE AMENDING LEON COUNTY ORDINANCE NO. 92-11 TO PROVIDE FOR A CHANGE IN ZONE CLASSIFICATION FROM THE SINGLE FAMILY DETACHED, ATTACHED AND TWO-FAMILY RESIDENTIAL (R-3) ZONING DISTRICT TO THE LIGHT INDUSTRIAL (M-1) ZONING DISTRICT FOR 18.51 ACRES LOCATED AT 4767 CAPITAL CIRCLE SE IN LEON COUNTY, FLORIDA; PROVIDING FOR CONFLICTS; PROVIDING FOR SEVERABILITY; AND PROVIDING AN EFFECTIVE DATE.

BE IT ORDAINED BY THE BOARD OF COUNTY COMMISSIONERS OF LEON COUNTY, FLORIDA:

SECTION 1. The Official Zoning Map as adopted in Leon County Ordinance No. 92-11 is hereby amended as it pertains to the following described real property:

LRZ250021: From Single Family Detached, Attached and Two-Family Residential (R-3) to Light Industrial (M-1)

(See Exhibit A)

SECTION 2. All ordinances or parts of ordinances in conflict with the provisions of this ordinance are hereby repealed to the extent of such conflict, except to the extent of any conflicts with the Tallahassee-Leon County 2030 Comprehensive Plan as amended, which provisions shall prevail over any parts of this ordinance which are inconsistent, either in whole or in part, with the said Comprehensive Plan.

SECTION 3. If any word, phrase, clause, section, or portion of this Ordinance is declared by any court of competent jurisdiction to be void, unconstitutional, or unenforceable, then all remaining provisions and portions of this Ordinance shall remain in full force and effect.

SECTION 4. If any word, phrase, clause, section or portion of this Ordinance shall be held invalid or unconstitutional by a court of competent jurisdiction, such portion or words shall be deemed a separate and independent provision and such holding shall not affect the validity of the remaining portions of this Ordinance.

SECTION 5. This Ordinance shall become effective upon filing with the Florida Department of State.

DULY PASSED AND ADOPTED by the Board of County Commissioners of Leon County, Florida, on this _____ day of _____, 2025.

Policy 2.2.5: [L] (EFF. 3/14/07)

SUBURBAN

To create an environment for economic investment or reinvestment through the mutually advantageous placement of employment and shopping opportunities with convenient access to low to medium density residential land uses. Employment opportunities should be located near residential areas, if possible within walking distance. This category recognizes the manner in which much of Tallahassee-Leon County has developed since the 1940s. The category predominantly consists of single-use projects that are interconnected whenever feasible. Mixed-use projects and the principles of traditional neighborhood developments are encouraged, though not required. The Suburban category is most suitable for those areas outside of the Central Core. However, additional areas inside the Central Core may be designated as appropriate based on existing land use pattern.

To complement the residential aspects of this development pattern, recreational opportunities, cultural activities, commercial goods and services should be located nearby. To reduce automobile dependency of residents and employers alike, mass transit stops should be located at large commercial centers and appropriate street and pedestrian connections established between commercial and residential areas. Except within mixed use centers, larger scale commercial development should be buffered from adjacent residential neighborhoods.

Development shall comply with the Suburban Intensity Guidelines. Business activities are not intended to be limited to serve area residents; and as a result may attract shoppers from throughout larger portions of the community.

Suburban Intensity Guidelines (EFF. 3/14/07; REV. EFF. 7/14/14; REV. EFF. 5/31/18)

Table 4: Suburban Intensity Guidelines

Development Patterns	Allowed Land Uses	Gross Residential Density	Non-Res Intensity	Percentage Mix of Uses
Low Density Residential	Residential, Recreation, Light Infrastructure & Community Service	0 to 8 UNITS/ ACRE (4)	10,000 SQ FT/ACRE	65-80%
Low Density Residential Office	Residential, Office, Recreation, Light Infrastructure & Community Service	0 to 8 UNITS/ ACRE (4)	10,000 SQ FT/ACRE (5)	
Medium Density Residential	Residential, Recreation, Light Infrastructure & Community Service	8 to 16 UNITS/ ACRE	20,000 SQ FT/ACRE	
Medium Density Residential Office	Residential, Office, Ancillary 1st Floor Commercial, Recreation, Light Infrastructure, Community Service & Post-Secondary Schools	8 to 20 UNITS/ ACRE	20,000 SQ FT/ACRE(6)	
Village Center	Residential, Office, Commercial up to 50,000 SQ FT, maximum business size. Centers shall not be located closer than ¼ mile to another village center or commercial development including more than 20,000 SQ FT of floor area.	8 to 16 UNITS/ ACRE	12,500 SQ FT/ACRE per parcel for center 20 acres or less (7)	
Urban Pedestrian Center	Residential, Office, Commercial, Recreation, Light Infrastructure & Community Service	6 to 16 UNITS/ ACRE (3)	Up to 20,000 SQ FT/ACRE (3)	35-50%
Suburban Corridor	Residential, Office, Commercial, Recreation, Light & Heavy Infrastructure & Community Service	Up to 16 UNITS/ ACRE	Up to 25,000 SQ FT/ACRE (8)	
Medical Center	Residential, Office, Commercial, Recreation, Light Infrastructure & Community Service	6 to 20 UNITS/ ACRE (1)	80,000 SQ FT/ACRE (2)	
Business Park	Office, Residential and Commercial	Up to 16 UNITS/ ACRE	20,000 SQ FT/ ACRE	5-10%

Notes:
(1) 8 units/acre minimum for exclusively residential;
(2) Hospitals up 176,000 sq ft/acre;
(3) 20 units/acre and 40,000 sq ft/acre for multiple use development; Combined residential and non-residential development may have up to 40,000 SF and up to a six story building. Residential use, office use and commercial use is allowed.
(4) Low Density Residential and Residential Office development patterns can have a minimum of 1 unit per acre if water and sewer are not available.
(5) The maximum square footage is increased to 12,500 SF if the project is a mixed-use development.
(6) The maximum square footage increases to 40,000 SF per acre and maximum height increases to six stories if 50% of parking is structured. This provision only applies to areas previously designated as Mixed Use C
(7) 250,000 SF of total development permitted on 20 to 30 acre centers.
(8) Storage areas may be 50,000 SF per acre. Office and Retail is allowed.

While mixed land uses are encouraged in the Suburban Future Land Use Category, the more prevalent pattern will be a compatibly integrated mix of single-use developments that include low and medium density residential, office, and retail development. Allowed land uses within the Suburban Future Land Use Category shall be regulated by zoning districts which implement the intent of this category, and which recognize the unique land use patterns, character, and availability of infrastructure in the different areas within the Suburban Future Land Use Category. In those areas lacking the necessary infrastructure, the Land Development Regulations may designate a low intensity interim use. Any evaluation of a proposed change of zoning to a more intensive district shall consider, among other criteria, the availability of the requisite infrastructure.

Section 10-6.637. R-3 Single- and Two-Family Residential District.

1. District Intent	PERMITTED USES	
	2. Principal Uses	3. Accessory Uses
The R-3 district is intended to be located in areas designated Bradfordville Mixed Use, Urban Residential, Urban Residential 2, or Suburban on the Future Land Use Map of the Comprehensive Plan which contain or are anticipated to contain a wide range of single-family and two-family housing types. The maximum gross density allowed for new residential development in the R-3 district is 8 dwelling units per acre; a minimum density of 4 dwelling units per acre is required when applied to the Urban Residential future land use category. The minimum density is not applicable if constraints of public easements, concurrency, or preservation an/or conservation features preclude the attainment of the minimum densities. Certain community and recreational facilities related to residential uses are also permitted.	(1) Community facilities related to residential uses including religious facilities, police/fire stations, and elementary, middle, vocational, and exceptional student education schools. Libraries and high schools are prohibited. Other community facilities may be allowed in accordance with Section 10-6.806 of these regulations. (2) Golf courses. (3) Passive and active recreational facilities. (4) Single-family attached dwellings. (5) Single-family detached dwellings. (6) Two-Family dwellings. (7) Zero-lot line single-family detached dwellings.	(1) A use or structure on the same lot with, and of a nature customarily incidental and subordinate to, the principal use or structure and which comprises no more than 33 percent of the floor area or cubic volume of the principal use or structure, as determined by the County Administrator or designee. (2) Light infrastructure and/or utility services and facilities necessary to serve permitted uses, as determined by the County Administrator or designee.

DEVELOPMENT STANDARDS

	4. Minimum Lot or Site Size			5. Minimum Building Setbacks				6. Maximum Building Restrictions	
Use Category	**a. Lot or Site Area**	**b. Lot Width**	**c. Lot Depth**	**a. Front**	**b. Side-Interior Lot**	**c. Side-Corner Lot**	**d. Rear**	**a. Building Size (excluding gross building floor area used for parking)**	**b. Building Height (excluding stories used for parking)**
Single-Family Detached Dwellings	5,000 square feet	50 feet	100 feet	20 feet	7.5 feet on each side; or any combination of setbacks that equals at least 15 feet, provided that no such setback shall be less than 5 feet	15 feet	25 feet	not applicable	3 stories
Single-Family Attached Dwellings	3,750 square feet end unit; 2,400 square feet interior lot	37.5 feet end unit; 25 feet interior lot	80 feet	20 feet	not applicable	15 feet	25 feet	maximum length: 8 units	3 stories
Zero-Lot Line Single-Family Detached Dwellings	3,750 square feet	30 feet interior lot; 40 feet corner lot	100 feet	20 feet	0 feet one side; 5 feet other side	15 feet	25 feet	not applicable	3 stories
Two-Family Dwelings	8,000 square feet	60 feet	100 feet	20 feet	same as for single-family detached dwellings	15 feet	25 feet	not applicable	3 stories
Any Permitted Principal Non-Residential Use	12,000 square feet	60 feet	100 feet	25 feet	same as for single-family detached dwellings	15 feet	25 feet	10,000 square feet of gross building floor area per acre	3 stories

GENERAL NOTES:

1. If central sanitary sewer is not available, residential development is limited to a minimum of 0.50 acre lots and non-residential development is limited to a maximum of 2,500 square feet of building area. Community service facilities are limited to a maximum of 5,000 square feet of building area or a 500 gallon septic tank. Also, refer to Sanitary Sewer Policy 2.1.12 of the Comprehensive Plan for additional requirements.

2. Refer to the Environmental Management Act (EMA) for information pertaining to the regulation of environmental features (preservation/conservation features), stormwater management requirements, etc.

3. Refer to the Concurrency Management Ordinance for information pertaining to the availability of capacity for certain public facilities (roads, parks, etc.).

Section 10-6.652. M-1 Light Industrial District.

	PERMITTED USES		
1. District Intent	**2. Principal Uses**		**3. Accessory Uses**
The M-1 district is intended to be located in areas designated Bradfordville Mixed Use or Suburban on the Future Land Use Map of the Comprehensive Plan shall apply to urban areas with convenient access to transportation facilities, where light manufacturing, processing, storage, community and recreational facilities and other activities compatible with light industrial operations are permitted. The district is not intended to accommodate heavy industrial operations or to accommodate commercial or residential development which would restrict the principal light industrial operations.	(1) Armored truck services. (2) Assembly of apparel and accessories. (3) Automotive service and repair, including car wash. (4) Bottling plants. (5) Broadcasting studios. (6) Building contractors and related services. (7) Cemeteries. (8) Communications and utilities. (9) Community services, including vocational schools and police/fire stations. Libraries, elementary, middle, or high schools are prohibited. Other community services may be allowed in accordance with Section 10-6.806 of these regulations. (10) Crematoriums. (11) Distribution facilities. (12) Dry cleaning plants. (13) Food processing, excluding slaughter. (14) Golf courses. (15) Gun firing ranges (indoor). (16) Heavy infrastructure (maintenance yards, motor pools, airports, land fills, sewage treatment plants, etc.).	(17) Laboratories; research and development activities. (18) Lawn and tree removal services. (19) Manufacturing (consistent with the definition of light industrial). (20) Non-medical offices and services, including business and government offices and services. (21) Off-street parking facilities. (22) Passive and active recreational activities. (23) Pest control services. (24) Printing and publishing. (25) Repair services, non-automotive. (26) Towing, wrecking, and recovery services. (27) Transportation and freight handling activities. (28) Warehouses, mini-warehouses, or self-storage facilities. (29) Welding and machine shops. (30) Wholesale activities. (31) Wholesale building supplies. (32) Other uses, which in the opinion of the County Administrator or designee, are of a similar and compatible nature to those uses described in this district.	(1) A lawfully established use or structure on the same lot with, and of a nature customarily incidental and subordinate to, the principal use or structure and which comprises no more than 33 percent of the gross floor area of the principal use or structure, as determined by the County Administrator or designee. The 33 percent limitation does not apply to outdoor storage that is accessory to a permitted principal use. (a) Light infrastructure and/or utility services and facilities necessary to serve permitted uses, as determined by the County Administrator or designee. (b) Residential use (intended for watchman or guard not to exceed 1 dwelling unit per industrial use). (c) Outdoor storage (without the 33 percent limitation), provided it complies with Section 7 below. (d) The following uses are permitted accessory uses in this district: 1. Eating and drinking establishments such as cafeterias or snack bars, (located within the interior of any permitted use.) 2. Temporary employment 3. Security Guard Service 4. Day Care Centers-- licensed day care services as described in and regulated by section 10-6.811. 5. Recreational amenities—provided as an accessory to a permitted uses established within the district for use by employees management, and their guests. 6. Retail sales—provided the sales are directly related to the principal light industrial use(s), e.g. gun sales at an indoor shooting range. Retail sales must be limited to no more than 33% of the gross floor area.

DEVELOPMENT STANDARDS (continued on page 1 of 2)									
Permitted Principal Commercial Uses Numbers (3), (21), (25)	none	none	none	25 feet	none	25 feet	10 feet	10,000 square feet of gross building floor area per parcel	3 stories
All Other Permitted Principal Non-Residential Uses	none	none	none	25 feet	none	25 feet	10 feet	20,000 square feet of gross building floor area per acre. 50,000 square feet of gross building floor area per acre for storage areas within buildings.	3 stories

7. Criteria for Outdoor Storage: Outdoor storage is permitted as an accessory use to a permitted principal use (without the 33 percent limitation) if the outdoor storage area is screened with an opaque material (an opaque material may include vegetation). The opacity requirements are as follows: 100 percent along any property line that adjoins an existing residential use; 80 percent along any property line that adjoins any other type of use other than residential (commercial, office, etc.) or a street right-of-way. The determination of the adequacy of the opaque material will be evaluated at the time of permitting.

8. Street Vehicular Access Restrictions: Properties in the M-1 zoning district may have vehicular access to any type of street. However, in order to protect residential areas and neighborhoods from non-residential traffic, vehicular access to a local street is prohibited if one of the following zoning districts is located on the other side of the local street: RA, R-1, R-2, R-3, R-4, R-5, MH, MR-1, and RP

9. Fencing Requirement: All areas proposed for use, currently used, or previously used, in open-pit mining operations and/or construction and demolition debris disposal must be secured by a fence, unless the area is determined to be a reclaimed open-pit mine by the county administrator or designee. The fence must be at least four feet in height with openings that will reject the passage of a seven-inch diameter sphere. The fence must be equipped with a gate which shall remain locked when workers or employees of the land owner or mining company are not present at the site. At every gate or access point, at least one sign must be posed which states, in at least four-inch tall letter, “Danger,” “Keep Out,” “No Trespassing,” or similar language to indicate that there may be hazardous conditions on the premises.

GENERAL NOTES:

1. If central sanitary sewer is not available, residential development is limited to a minimum of 0.50 acre lots and non-residential development is limited to a maximum of 2,500 square feet of building area. Community service facilities are limited to a maximum of 5,000 square feet of building area or a 500 gallon septic tank. Also, refer to Sanitary Sewer Policy 2.1.12 of the Comprehensive Plan for additional requirements.

2. Refer to the Environmental Management Act (EMA) for information pertaining to the regulation of environmental features (preservation/conservation features), stormwater management requirements, etc.

3. Refer to the Concurrency Management Ordinance for information pertaining to the availability of capacity for certain public facilities (roads, parks, etc.)

NOTICE OF PUBLIC HEARING

Notice is hereby given that the Board of County Commissioners of Leon County, Florida will conduct a public hearing on Tuesday, September 15, 2025, at 6:00 p.m., or as soon thereafter as such matter may be heard, at the County Commission Chambers, 5th Floor, Leon County Courthouse, 301 South Monroe Street, Tallahassee, Florida, to consider adoption of the ordinance entitled to wit:

4767 CAPITAL CIRCLE SW REZONING

LEON COUNTY ORDINANCE
NO. 25-_____

AN ORDINANCE AMENDING LEON COUNTY ORDINANCE NO. 92-11 TO PROVIDE FOR A CHANGE IN ZONE CLASSIFICATION FROM THE SINGLE FAMILY DETACHED, ATTACHED AND TWO-FAMILY RESIDENTIAL (R-3) ZONING DISTRICT TO THE LIGHT INDUSTRIAL (M-1) ZONING DISTRICT FOR 18.51 ACRES LOCATED AT 4767 CAPITAL CIRCLE SE IN LEON COUNTY, FLORIDA; PROVIDING FOR CONFLICTS; PROVIDING FOR SEVERABILITY; AND PROVIDING AN EFFECTIVE DATE.

Leon County will also broadcast the public hearing on Comcast channel 16, the Leon County Florida channel on Roku, and the County's Facebook page (https://www.facebook.com/LeonCountyFL/ , YouTube channel (https://www.youtube.com/user/LeonCountyFL , and web site (www.LeonCountyFL.gov .

All interested parties are invited to present their comments at the public hearing at the time and place set out above. Interested parties may also provide virtual real-time public comments during the public hearing. Interested parties wishing to provide virtual real-time public comments must complete and submit the registration form provided at https://www2.leoncountyfl.gov/coadmin/agenda/ by 8:00 p.m. on Sunday, September 14, 2025. Following submittal of the registration form, further instructions for participating in the meeting will be provided. Persons needing assistance with registering or providing real-time comments may contact County Administration via telephone at (850) 606-5300. Please note that Board of County Commissioners Policy 01-05, Article IX., Section E., entitled "Addressing the Commission", and Article IX., Section F., entitled "Decorum", shall remain in full force and effect.

Anyone wishing to appeal the action of the Board with regard to this matter will need a record of the proceedings and should ensure that a verbatim record is made. Such record should include the testimony and evidence upon which the appeal is to be based, pursuant to Section 286.0105, Florida Statutes.

In accordance with the Americans with Disabilities Act and Section 286.26, Florida Statutes, persons needing a special accommodation to participate in this proceeding should contact Mathieu Cavell or Facilities Management, Leon County Courthouse, 301 South Monroe Street, Tallahassee, Florida 32301, by written request at least 48 hours prior to the proceeding. Telephone: (850) 606-5300 or (850) 606-5000; 1-800-955-8771 (TTY), 1-800-955-8770 (Voice), or 711 via Florida Relay Service.

Copies of the Ordinances may be inspected as part of the agenda package on the County's web site (https://www2.leoncountyfl.gov/coadmin/agenda/). To receive copies of the Ordinances by other means, such as email, mail, or facsimile transmittal, contact County Administration at (850) 606-5300 or the Tallahassee-Leon County Planning Department at (850) 891-6400.

Leon County
Board of County Commissioners

Notes for Agenda Item #34

Leon County Board of County Commissioners

Agenda Item #34

September 15, 2025

To: Honorable Chairman and Members of the Board

From: Vincent S. Long, County Administrator

Title: First and Only Public Hearing to Adopt an Ordinance Amending Section 10-4.207 of the Environmental Management Act Pertaining to Land Management Activities

Review and Approval:	Vincent S. Long, County Administrator
Department / Division Review:	Ken Morris, Assistant County Administrator Nawfal Ezzagaghi, Assistant County Administrator Scott Brockmeier, Director, Development Support & Environmental Management
Lead Staff / Project Team:	Deji Ajose-Adeogun, Director, Environmental Services Division

Statement of Issue:

This item requests the Board conduct the first and only public hearing to adopt an ordinance amending Section 10-4.207 of the Environmental Management Act. The proposed amendments pertain to the silviculture and forest management application requirements to expand environmental permitting exemption criteria to include land actively managed in accordance with an accredited land trust management plan, and consistent with other criteria as discussed in the analysis section of this item.

Fiscal Impact:

This item has minimal fiscal impact. The proposed permitting exemption would result in an estimated annual revenue loss of approximately $3,500 from fees currently collected through environmental permits.

Staff Recommendation:

Option #1: Conduct the first and only public hearing and adopt an Ordinance (Attachment #1) to amend Section 10-4.207 of the Environmental Management Act pertaining to the silviculture and forest management application requirements to expand environmental permitting exemption criteria to include land actively managed in accordance with an accredited land trust management plan and that meets one of the following criteria: has a perpetual conservation easement held by an accredited land trust; is owned outright by an accredited land trust; or has a perpetual conservation easement held by a government agency.

Report and Discussion

Background:

This item requests the Board conduct the first and only public hearing to adopt an ordinance amending Section 10-4.207 of the Environmental Management Act. The proposed amendments pertain to the silviculture and forest management application requirements to expand environmental permitting exemption criteria to include land actively managed in accordance with an accredited land trust management plan and meets one of the following criteria: has a perpetual conservation easement held by an accredited land trust; is owned outright by an accredited land trust; or has a perpetual conservation easement held by a government agency.

At its regular meeting on February 11, 2025, the Board ratified actions taken at the annual Board Retreat including a strategic initiative to exempt land conservancy groups, such as Tall Timbers, from environmental permitting requirements for activities that support their mission of fostering exemplary land stewardship. These activities include establishing native successional forests through selective tree removal and other vegetation management practices. On March 13, 2025, the Board approved scheduling a public hearing to consider adopting an ordinance to amend the silviculture and forest management application requirements section of the Environmental Management Act (EMA).

This initiative advances the following FY 2022 – FY 2026 Strategic Initiative:

- *Exempt land conservancy groups, such as Tall Timbers, from environmental permitting requirements for activities that support and further their mission of fostering exemplary land stewardship such as tree removal and other vegetation management. (2025-92)*

This particular Strategic Initiative aligns with the Board's Environment Strategic Priority:

- *(EN2) Conserve and protect environmentally sensitive lands and our natural ecosystems.*

The EMA, codified in Chapter 10 of the Land Development Code (LDC), sets environmental protection standards for land use in Leon County. Section 10-4.207 of the LDC outlines application requirements for silviculture and forest management, and exempts properties classified as "agricultural" by the Property Appraiser's Office from these regulations. Properties without this agricultural exemption must submit a vegetative management plan or short form environmental permit for any silviculture or forest management activities, including those under a perpetual conservation easement for land conservancy, such as the properties with a conservation easement held by Tall Timbers Research, an Accredited Land Trust and research organization.

This Land Trust Accreditation is determined by the Land Trust Accreditation Commission, an independent, national accreditation program of the Land Trust Alliance governed by a diverse board of 18 volunteer commissioners with expertise in land protection, stewardship and nonprofit management. Land trust accreditation recognizes organizations that meet national quality standards. These accredited trusts have more staff and volunteers and invest eight times more resources into the stewardship and protection of their conservation lands compared to similar-sized non-accredited organizations. Additionally, accredited land trusts conserve three times more land than their non-accredited counterparts.

Analysis:

Following the Board's adoption of the strategic initiative, staff conducted a comprehensive review of the Environmental Management Act (EMA) to identify potential amendments aligned with the Initiative's objectives. As a result, the proposed Ordinance would exempt certain conservation lands from environmental permitting, provided that silviculture and forest management activities are conducted in accordance with an accredited land trust's management plan, and that one of the following conditions is met:

- The land is subject to a perpetual conservation easement held by an accredited land trust;
- The land is owned in fee simple by an accredited land trust; or
- The land is subject to a perpetual conservation easement held by a government agency.

Under the current provisions of the EMA, silviculture and forest management activities require an environmental permit, even when conducted in accordance with established conservation best practices prescribed by an accredited land trust. To address this issue and streamline regulatory processes for activities conducted in accordance with an accredited land trust management plan and meets any of the above referenced conditions, an amendment is proposed to Section 10-4.207 of the EMA. The proposed amendment would establish clear qualifying criteria for exemption from environmental permitting for these specific types of silviculture and forest management activities that are carried out under an accredited land trust's management plan.

The proposed amendment would advance the mission of accredited land conservancy organizations like Tall Timbers. As a nationally recognized leader in fire ecology with over six decades of foundational research, Tall Timbers manages nearly 160,000 acres through conservation easements across North Florida and South Georgia, safeguarding vital wildlife habitats, promoting sustainable forestry practices, and protecting watersheds. The proposed amendment would further strengthen the important contributions accredited land trusts make to land stewardship, public engagement, and educational outreach.

As part of the ordinance drafting process, staff gathered input from the Leon County Advisory Committee for Quality Growth (ACQG) and scheduled a consistency hearing with the Planning Commission. The ACQG met on April 21, 2025, and recommended approval of the draft amendments. The ACQG also recommended establishing a process requiring entities to submit their land management plans to the County and provide updates as they become available.

This recommendation aligns with existing practices by Tall Timbers, which publishes annual reports on its website detailing its activities, research, and accomplishments. These reports support transparency and meet the ACQG's recommendation by making management data available for staff and public review. Any other accredited land trust would be subject to the same process and must comply with the Land Trust Standards and Practices, which are reviewed every five years to ensure continued adherence. This accreditation process reinforces accountability and alignment with nationally recognized conservation standards.

The Planning Commission reviewed the proposed ordinance at its meeting on June 3, 2025. During the meeting, staff presented the draft ordinance along with the consistency memo that demonstrated alignment with the Comprehensive Plan (Attachment #2). The Planning Commission found the proposed amendment consistent with the comprehensive plan and recommended the Board adopt the ordinance.

The Board's public hearing has been advertised consistent with Florida Statutes (Attachment #3). A Business Impact Estimate was also provided online as required by Florida law (Attachment #4).

Options:

1. Conduct the first and only public hearing and adopt the Ordinance (Attachment #1) to amend Section 10-4.207 of the Environmental Management Act pertaining to the silviculture and forest management application requirements to expand environmental permitting exemption criteria to include land actively managed in accordance with an accredited land trust management plan and that meets one of the following criteria: has a perpetual conservation easement held by an accredited land trust; is owned outright by an accredited land trust; or has a perpetual conservation easement held by a government agency.
2. Conduct the first and only public hearing and do not adopt the Ordinance to amend Section 10-4.207 of the Environmental Management Act pertaining to the silviculture and forest management application requirements to expand environmental permitting exemption criteria.
3. Board direction.

Recommendation:

Option #1

LEON COUNTY ORDINANCE NO. 25-_____

AN ORDINANCE OF THE BOARD OF COUNTY COMMISSIONERS OF LEON COUNTY, FLORIDA, AMENDING CHAPTER 10 OF THE CODE OF LAWS OF LEON COUNTY, FLORIDA; AMENDING SECTION 10-4.207, SILVICULTURE AND FOREST MANAGEMENT APPLICATION REQUIREMENTS; PROVIDING FOR CONFLICTS; PROVIDING FOR SEVERABILITY; AND PROVIDING AN EFFECTIVE DATE.

RECITALS

WHEREAS, the Board of County Commissioners desires to enact an ordinance amending Sections 10-4.207 of the Leon County Code of Laws, relating to silviculture and forest management.

BE IT ORDAINED BY THE BOARD OF COUNTY COMMISSIONERS OF LEON COUNTY, FLORIDA, that:

SECTION 1. Amendments to Section 10-4.207 of the Code of Laws of Leon County, Florida.

Section 10-4.207 of Article I of Chapter 10 of the Code of Laws of Leon County, Florida, entitled "Silviculture and forest management application requirements" is hereby amended to include the following new definitions and read as follows:

Sec. 10-4.207. Silviculture and forest management application requirements.

a) Activities associated with a bona fide silvicultural operation on land that has received an agricultural exemption from the county property appraiser is exempt from the provisions of this section.

b) Activities associated with forest management on land that has not received an agricultural exemption from the county property appraiser must apply for a vegetation management plan. Additional stormwater protection may be required, as determined by the County Administrator or designee, and may dictate a change to a short form permit. A buffer shall be left in an unaltered state within 25 feet from the property line. Approval under this section is not required when the only management activity is tree planting and/or prescribed burning including presuppression plowing.

c) Land management activities are exempt from this section, if the land is actively managed in accordance with an accredited land trust's land management plan and meets any of the following:

- It has a perpetual conservation easement held by an accredited land trust.
- It is owned outright by an accredited land trust.
- It has a perpetual conservation easement held by a government agency.

SECTION 3. Conflicts.

All ordinances or parts of ordinances in conflict with the provisions of this ordinance are hereby repealed to the extent of such conflict, except to the extent of any conflicts with the Tallahassee-Leon County 2030 Comprehensive Plan as amended, which provisions shall prevail over any parts of this ordinance which are inconsistent, either in whole or in part, with the said Comprehensive Plan.

SECTION 4. Severability.

If any word, phrase, clause, section, or portion of this ordinance is declared by any court of competent jurisdiction to be void, unconstitutional, or unenforceable, then all remaining provisions and portions of this ordinance shall remain in full force and effect.

SECTION 5. Applicability.

This ordinance shall apply to and be effective in the unincorporated area of Leon County.

SECTION 6. Effective Date.

This ordinance shall become effective upon filing with the Florida Department of State.

DONE, ADOPTED, AND PASSED by the Board of County Commissioners of Leon County, Florida, this _____ day of _____, 20____.

LEON COUNTY, FLORIDA

By:_____

Brian Welch, Chairman
Board of County Commissioners

PLANNING DEPARTMENT
a division of PLACE

MEMORANDUM

TO: Deji Ajose-Adeogun, Leon County Development Support & Environmental Management (DSEM)
FROM: Sean Reiss, Tallahassee-Leon County Planning Department
THRU: Russell Snyder, Land Use Administrator, Tallahassee-Leon County Planning Department
DATE: April 21, 2025
SUBJECT: Consistency Review – Amendment to Leon County Land Development Code Section 10-4.207, Silviculture and Forest Management Application Requirements.

Description of the Proposed Change:

The proposed ordinance would exempt land management activities on properties encumbered either with a perpetual conservation easement to an accredited land trust, or held in fee simple ownership by such a trust, from obtaining a vegetative management permit. The proposed ordinance aligns with one of the Board's Strategic Initiatives (Environment) which seeks to exempt land conservancy groups, such as Tall Timbers, from environmental permitting activities that support and further their mission of fostering exemplary land stewardship such as tree removal and other vegetation management activities.

Analysis of Consistency with the Tallahassee-Leon County Comprehensive Plan

The provisions of the proposed ordinance include development standards that implement the stated intent of the Comprehensive Plan to enhance the quality of life for all citizens by providing opportunities and channeling growth into locations and activities that protect the natural and aesthetic environments (Land Use Element Goal 1: [L]). The proposed amendment allows for land management practices that are consistent with the *Tallahassee-Leon County Comprehensive Plan*. The proposed changes are consistent with the Comprehensive Plan's requirement to provide land development regulations that include detailed development and design standards that ensure that any negative impacts on the natural environment are minimized and mitigated (Objective 1.4: [L] and its associated policies).

The proposed changes are consistent with Land Use Element Policy 2.2.20, which establishes the Agriculture/Silviculture/Conservation Future Land Use Map Category. Also, the proposed text amendment is consistent with the category's intent to conserve large tracts of plantation and former plantation land, forest land, agriculture and silviculture lands, and wildlife and conservation and recreational hunting areas. The proposed changes are likewise consistent with Land Use Element Policy 2.2.1, which establishes the Rural/Agriculture Future Land Use Map Category. The proposed amendment is consistent with the category's intent to maintain and promote agriculture, silviculture, and natural resource-based activities, to preserve natural systems and ecosystem functions, and to protect the scenic vistas and pastoral development patterns that typify Leon County's rural areas. Finally, the proposed changes are consistent with Conservation Element Policies 1.3.1 and 1.3.4, which require regulations for conservation and preservation features.

Finding of Consistency with the Tallahassee-Leon County Comprehensive Plan

Based on the findings above, the Planning Department finds the proposed ordinance consistent with the *Tallahassee-Leon County Comprehensive Plan*.

NOTICE OF PUBLIC HEARING
NOTICE OF AMENDMENTS TO CHAPTER 10 OF THE CODE OF LAWS OF LEON COUNTY, FLORIDA

Notice is hereby given that the Board of County Commissioners of Leon County, Florida, will conduct a public hearing on Monday, September 15, 2025, at 6:00 p.m., or as soon thereafter as such matter may be heard, in the County Commission Chambers, 5th Floor, Leon County Courthouse, 301 South Monroe Street, Tallahassee, Florida, to consider adoption of an ordinance entitled to wit:

AN ORDINANCE OF THE BOARD OF COUNTY COMMISSIONERS OF LEON COUNTY, FLORIDA, AMENDING CHAPTER 10 OF THE CODE OF LAWS OF LEON COUNTY, FLORIDA; AMENDING SECTION 10-4.207, SILVICULTURE AND FOREST MANAGEMENT APPLICATION REQUIREMENTS; PROVIDING FOR CONFLICTS; PROVIDING FOR SEVERABILITY; AND PROVIDING AN EFFECTIVE DATE.

Leon County will also broadcast the public hearing on Comcast channel 16, the Leon County Florida channel on Roku, and the County's Facebook page (https://www.facebook.com/LeonCountyFL/), YouTube channel (https://www.youtube.com/user/LeonCountyFL), and web site (www.LeonCountyFL.gov).

All interested parties are invited to present their comments at the public hearing at the time and place set out above.

Interested parties may also provide virtual real-time public comments during the public hearing. After the Board of County Commissioner's agenda is posted online, interested parties wishing to provide virtual real-time public comments must complete and submit the registration form provided at https://www2.leoncountyfl.gov/coadmin/agenda/ by 8:00 p.m. on Sunday, September 14 2025. Following submittal of the registration form, further instructions for participating in the meeting will be provided. Persons needing assistance with registering or providing real-time comments may contact County Administration via telephone at (850) 606-5300. Please note that Board of County Commissioners Policy 01-05, Article IX., Section E., entitled "Addressing the Board," and Article IX., Section F., entitled "Decorum," shall remain in full force and effect.

Anyone wishing to appeal the action of the Board with regard to this matter will need a record of the proceedings and should ensure that a verbatim record is made. Such record should include the testimony and evidence upon which the appeal is to be based, pursuant to Section 286.0105, Florida Statutes.

In accordance with the Americans with Disabilities Act and Section 286.26, Florida Statutes, persons needing a special accommodation to participate in this proceeding should contact, on behalf of the Chair, Mathieu Cavell at Leon County Courthouse, 301 South Monroe Street, Tallahassee, Florida 32301 or CMR@leoncountyfl.gov, by written request at least 48 hours prior to the proceeding. Telephone: (850) 606-5300, 1-800-955-8771 (TTY), 1-800-955-8770 (Voice), or 711 via Florida

Relay Service.

Copies of the Ordinance may be inspected as part of the agenda package on the County's website (https://www2.leoncountyfl.gov/coadmin/agenda/). To receive copies of the Ordinance by other means, such as email, mail, or facsimile transmittal, contact County Administration at (850) 606-5300.

Business Impact Estimate

In accordance with Section 125.66(3)(a), Florida Statutes (F.S.), a Business Impact Estimate (BIE) is required to be: 1) prepared before enacting certain ordinances and 2) posted on Leon County's website no later than the date the notice of intent to consider the proposed ordinance is advertised (which, per Section 125.66(2)(a), F.S., is at least ten (10) days before the Public Hearing).

Proposed Ordinance's title in full: Ordinance Amending Chapter 10 of the Code of Laws of Leon County, Florida, Amending Section 10-4.207, Silviculture and Forest Management Application Requirements

Proposed Ordinance Public Hearing Date: September 15, 2025

Pursuant to Section 125.66(3)(c), F.S., the following types of ordinances are exempt from the BIE requirement. As such, if one or more boxes are checked below, Leon County, Florida, believes that a BIE is not required by state law for the proposed ordinance referenced above. Leon County, Florida, reserves the right to revise this BIE following an initial posting.

☐ The proposed ordinance is required for compliance with Federal or State law or regulation;

☐ The proposed ordinance relates to the issuance or refinancing of debt;

☐ The proposed ordinance relates to the adoption of budgets or budget amendments, including revenue sources necessary to fund the budget;

☐ The proposed ordinance is required to implement a contract or an agreement, including, but not limited to, any Federal, State, local, or private grant, or other financial assistance accepted by a county government;

☐ The proposed ordinance is an emergency ordinance;

☐ The proposed ordinance relates to procurement; or

☐ The proposed ordinance is enacted to implement the following:

a. Development orders and development permits, as those terms are defined in Section 163.3164, F.S., and development agreements, as authorized by the Florida Local Government Development Agreement Act under Sections 163.3220 – 163.3243, F.S.;

b. Comprehensive plan amendments and land development regulation amendments initiated by an application by a private party other than the County;

c. Sections 190.005 and 190.046, F.S., regarding community development districts;

d. Section 553.73, F.S., relating to the Florida Building Code; or

e. Section 633.202, F.S., relating to the *Florida Fire Prevention Code*.

In accordance with Florida law Leon County, Florida, hereby posts the following BIE information for this proposed Ordinance on its website for public viewing and consideration on this 2nd day of September, 2025:

1. Summary of the proposed ordinance (must include statement of the public purpose, such as serving the public health, safety, morals, and welfare):

The proposed ordinance will expand environmental permitting exemption criteria for silviculture and forest management activities to include land actively managed in accordance with an accredited land trust management plan and that meets one of the following criteria: 1) has a perpetual conservation easement held by an accredited land trust; 2) is owned outright by an accredited land trust; or 3) has a perpetual conservation easement held by a government agency.

2. Estimate of direct economic impact of the proposed ordinance on private, for-profit businesses in the county, including the following (if any):

a.) Estimate of direct compliance costs that businesses may reasonably incur if the ordinance is enacted: No impact.

b.) Any new charge or fee imposed by the proposed ordinance for which businesses will be financially responsible: No impact.

c.) Estimate of Leon County's regulatory costs, including estimated revenues from any new charges or fees to cover such costs: The proposed permitting exemption would result in an estimated annual revenue loss of approximately $3,500 from fees currently collected through environmental permits.

3. Good faith estimate of the number of businesses likely to be impacted by the proposed Ordinance: None

4. Additional information Leon County deems necessary (if any): None
